

THE FOARD COUNTY NEWS

AND CROWELL INDEX

CROWELL, FOARD COUNTY, TEXAS, THURSDAY, AUGUST 19, 1943

\$2.00 A YEAR EIGHT PAGES

Possible Nazi Triangular Defense Line

Italy's exit from the war, military experts believe, would force Germany to abandon Greece, Yugoslavia, Rumania and Bulgaria, thus losing 600,000 satellite troops and necessitating a 6,000-mile defense line with 5,500,000 men. The line may run triangularly from Narvik, Norway, to Bordeaux, France, to Odessa in the Ukraine, then back north to Narvik. Neutral Sweden and Switzerland fall inside the triangle but Sweden announced that such movements must end August 29.

United Nations' Conquest Technique

Sicilian children gather about an American army sergeant who shares part of his rations with them. With the fall of Catania accompanied by a sweeping Allied offensive toward Messina, it appeared that occupation of the entire island of Sicily was not far off. Catania was wrested from one of the finest troops of the German army.

WAC Inspection in North Africa

A unit of the Women's Army Corps has been serving in North Africa for six months doing much of the non-combatant work associated with the tremendous Allied campaigns on North Africa and Sicily. The man who has directed these unique military victories—Gen. Dwight D. Eisenhower—is shown inspecting a WAC group.

State Observance Being Planned for Texas Centennial

History conscious Texans are asking the question, "What is being done on behalf of a State observance of the centennial of Texas Statehood?" The answer to this is there is perhaps being done as much as could possibly be done during the stress of war to plan for an appropriate patriotic and cultural observance in 1945 and 1946 of the admission of Texas as the 28th State. There is an official Centennial of Texas Statehood Commission now being fully organized. The Statehood Commission is co-operating in every way possible with the war effort on behalf of an early victory. Karl Hobbitzelle of Dallas is chairman of the Statehood Commission; Jesse Jones, U. S. Secretary of Commerce, is the chairman of Federal Participation; A. Garland Adair is the commissioner, and headquarters have been opened at 612 Norwood Building, Austin, Texas. The Statehood Commission has recently issued its fifth number

of a Citizenship series of publication designed to promote interest in Texas history. This is entitled "A Century of Texas Governors and Capitols" and contains the entire collection of photographs and paintings of Texas Governors which grace the walls of the rotunda of the Statehouse. The price of the book is \$1.00 per copy and may be secured by writing to A. Garland Adair, Commissioner, Centennial of Statehood Commission, 612 Norwood Building, Austin, Texas. The profits from the sale of the book go toward the expense of planning the Centennial of Statehood celebration. The Treasury announces that in order to save paper and other production costs the size of the E-ends will be reduced one-half. The new dimensions will be 4 1/4 inches, about the same as the present bond folded once from top to bottom. It is estimated that the saving in paper and production costs will be \$1,750,000 annually. The Baltimore Sun in an effort to conserve on newspaper will omit the classified ad section in all papers mailed out of town.

Men in Service

Pvt. Millard M. Carroll, who recently visited his parents, Mr. and Mrs. G. Y. Carroll, has returned to Camp Laguna, Ariz.

Thos. C. Griffin, son of Mr. and Mrs. W. B. Griffin of Crowell, has recently been promoted from apprentice seaman to Pharmacist Mate third class. He is somewhere in the South Pacific.

Lieut. J. M. Crowell, son of M. F. Crowell, has recently landed safely overseas and is located somewhere in England, according to messages received by relatives here in the South Pacific.

Pfc. Elbert S. Kenner of Ft. Dix, N. J., is here on furlough visiting his father, H. T. Kenner, and family of Margaret.

Sgt. Ben Barker of Shreveport, La., is here on a ten-day leave visiting his parents, Mr. and Mrs. A. W. Barker, of the Foard County community and other relatives and friends.

Pvt. Ben Barker of the enlisted Air Corps Reserve, stationed at Hicks Field, aviation cadet training center at Fort Worth, spent the week-end here visiting in the home of his parents, Mr. and Mrs. A. W. Barker, of the Foard County community.

Private First Class Stanley F. Sanders, U. S. Marine from Crowell, has been graduated from the famed U. S. Marine Sea School in San Diego, Calif., according to a news release from the United States Marine Base at San Diego. Pfc. Sanders, who was one of a very few Marines chosen from his recruit camp battalion to enter Sea School, is now ready for assignment to one of the ships of the U. S. Navy, where he will man a big gun or perform some of the other Marine duties aboard a ship.

Cpl. Milton Callaway and Mrs. Callaway, of Mineral Wells and Camp Walters, arrived here Friday evening and spent the week-end in the home of his parents, Mr. and Mrs. Claude Callaway.

Pfc. James Banks, son of Mr. and Mrs. J. N. Banks, who has been stationed at Sheppard Field for some time, has been transferred to Chanute Field, Ill., where he will take training as a meteorologist for the next ten weeks.

Sgt. Bernice Fitzgerald of Camp Gruber, Okla., spent a short time here Sunday after having visited in the home of his parents, Rev. and Mrs. W. B. Fitzgerald, of Crosbyton.

Cpl. Tom Andrews, who is taking officers' training at Fort Sill, Okla., spent Saturday night here visiting his parents, Mr. and Mrs. L. A. Andrews.

Cpl. Mike Bird of Fort Sill, Okla., spent Saturday night here visiting his father, D. N. Bird. Cpl. Bird is attending officers' training school at Fort Sill.

Sgt. J. C. Rader of the Army Air Corps Supply Department at Clovis, N. M., was here the first of the week visiting his parents, Mr. and Mrs. Miller Rader.

Aviation Cadet Billie Diggs, son of Mr. and Mrs. John Diggs, is attending the U. S. Army Flying School at Hays, Kansas.

Pfc. Clyde L. Eddy of the Seattle, Wash., Anti Aircraft Coast Artillery, and his wife arrived at home last Friday morning to visit Pfc. Eddy's parents, Mr. and Mrs. Joe Eddy, and Mrs. Eddy's mother, Mrs. D. D. Stinebaugh, and other relatives and friends. Pfc. Eddy will leave Friday for his return trip to Seattle.

Pvt. V. R. Snow and wife of Sheppard Field, Wichita Falls, spent the week-end here visiting Mrs. Snow's mother, Mrs. D. D. Stinebaugh, and other relatives and friends.

Cpl. Wayne Diggs, son of Mr. and Mrs. Fred Diggs, has recently been transferred from Camp Forrest, Tenn., to Pine Camp, N. Y.

Lieut. John P. Bowley, son of Mr. and Mrs. Clyde Bowley, who has been at Camp Blanding, Fla., for the past three months, has been sent to Camp Robinson, Ark., according to letters received by his parents. He has recently arrived at Camp Robinson.

Pfc. Henry A. Taylor of the School of Aeronautics of Weatherford, Okla., was at home over the week-end, visiting his parents, Mr. and Mrs. John Taylor, and other relatives and friends.

Sgt. Henry Gordon Hays, now and aerial gunner in the Army Air Corps, has been assigned to the Bombardment Group at Dyersburg, Tenn., for an intensive course in combat flying. Upon completion of this period, he and his crew will be flying to take one of the famed Flying Fortresses into actual combat. The Bombardment Group which has the task of readying 4-engine bomber

New Guinea Student

A native boy ponders an arithmetic problem in a New Guinea school conducted by Rev. Harold E. Short, a missionary. Seventy-five native children attend. This is the problem: "If an airplane travels 125 miles an hour, how far will it travel in three-quarters of an hour?"

Chairman Region 13, United War Chest, Announced

R. B. Anderson of Vernon, general manager of the Waggoner Estate, has been named chairman of Region 13 in the war appeals program soon to be carried out by the United War Chest of Texas. George A. Butler of Houston, president and campaign chairman, announced this week.

"I am very pleased," Mr. Butler said, "that this section of the state has chosen a man like Mr. Anderson to direct its campaign, and I know that all counties in the area will lend their full support."

Mr. Anderson is widely known in this section. He is president of the Chamber of Commerce of Vernon and takes an active part in the civic activities of the community. He formerly was connected with the University of Texas as a public relations capacity. As a regional chairman of the United War Chest of Texas, he also becomes one of the vice presidents of the organization which is seeking to raise nearly \$5,000,000 in Texas for war relief agencies.

Ralph Collins, special field representative for the United War Chest, has been assigned to work with Mr. Anderson in the organization of the area and is now engaged in contacting the leadership of the counties in the region.

The counties in the region to be served by Mr. Anderson include Archer, Baylor, Clay, Fossil, Hardeman, Haskell, Knox, Throckmorton, Wichita, Wilbarger and Young.

"County chairmen for each of the counties in the two regions will be announced as fast as our organization plans materialize," Mr. Calhoun stated. "We are anxious to see this section among the first to complete the selection of its county chairmen."

The seventeen agencies participating in the National War Fund as approved by President Roosevelt's USO (United Service Organizations), United Seamen's Service, War Prisoners Aid, Belgian War Relief Society, French Relief Fund, Friends of Luxembourg, Inc., Norwegian Relief, Polish War Relief, Queen Wilhelmina Fund, Russian War Relief, United China Relief, United Czechoslovak Fund, United Yugoslav Relief Fund, Refugee Relief Trustees and the United States Committee for the Care of European Children.

Owen Davis Killed in Traffic Accident at San Diego, Calif.

Owen Davis, 48, brother of Earl Davis, close to the Crowell postoffice, was killed in a traffic accident at San Diego, Calif., Sunday, according to a message received by his brother here.

No particulars concerning the accidental death have been received. Davis lived here during the years of 1924 and 1925.

crews for overseas duty is under command of Lt. Col. William I. Marshall, veteran flyer recently returned from the North African front. Sgt. Hays is here visiting his mother, Mrs. H. E. Hays, and family and will report for duty at the end of his furlough.

Parents Receive Decoration for Pvt. Willis Allen

The Purple Heart decoration has been awarded to Pvt. James Willis Allen, posthumously, and has been received by his parents, Mr. and Mrs. Verge Allen.

Allen lost his life on Nov. 10, 1942, shortly after his arrival in North Africa.

The Purple Heart was originally established by Gen. George Washington and in recognition of his military achievements, the decoration was revived by the War Department on Feb. 22, 1932, the 20th anniversary of his birth. It is awarded to persons, who, while serving in any capacity with the Army of the United States, are killed in action or who die as a direct result of wounds received in action.

Mr. and Mrs. Allen also have received an engraved certificate relating to the award.

Use of City Water to Be Curtailed on Account of Drouth

On account of the drouth, the City water supply is being reduced to such an extent that the City Council feels that it is necessary to curtail the use of water until the supply is replenished. Regulations and restrictions will be found in an ad on page 3, and go into effect immediately.

The notice concerning the move to conserve the City water supply states that no persons will be allowed to water lawns and shrubs, wash cars, or use city water for any purpose other than that for household and domestic uses.

The City Council seeks the co-operation of the citizens of Crowell in conserving the present water supply until sufficient rains fall to re-fill the lake.

Church of Christ Meeting at Thalia Comes to a Close

The meeting which was held at the Church of Christ at Thalia closed on Thursday evening, Aug. 12. Ruel Lemons of Tinton, Okla., led the preaching for the series of meetings and Edwin Bost directed the song services.

Bro. Lemons preached a good sermon at each service and the song services were also outstanding. The meeting covered a period of twelve days, in which time, both men did excellent work in the community.

Six baptisms and six restorations accrued from the meeting. Ruel Lemons began a meeting at Fargo, following the Thalia meeting, and his sermons will be broadcast each morning over the Vernon station throughout the meeting.

Mrs. Margaret O'Neal
Fred Trawcek

Visiting Hours: 9:30 to 11:30 a. m.; 2 to 5 p. m.; 7 to 9 p. m.

Travels Via Mama

No gas for her car, no perambulators, and nobody to watch little Kerrigan when she's not at home, so Mrs. Stanley C. Gray of Seattle, Wash., carries him with her, Indian fashion.

Annual Encampment for 4-H and H D Clubs Will be Held at Country Club on Tuesday Evening and Night, Aug. 24

Rev. J. B. Henderson, Baptist Pastor Here in 1918, Succumbs

Funeral services for Rev. J. B. Henderson, 64, retired Baptist preacher and former pastor of the Thalia and Crowell Baptist Churches, were held at Blanket, Texas, Tuesday, August 10. Rev. Henderson died at his home in Blanket on Monday.

Rev. Henderson had been a resident of Texas since 1904 and had held pastorates in a number of Central and West Texas towns before moving to Blanket in 1923. He retired because of ill health 11 years ago. He was pastor of the Crowell Baptist Church in 1918, and was pastor at Thalia before coming to Crowell. He assumed his duties as pastor of the Crowell church in July, 1918, and resigned effective Sept. 1, 1919.

During his pastorate here, Rev. Henderson left Crowell on May 8 for Atlanta, Ga., to attend the sessions of the Southern Baptist Convention which convened in that city on May 14. He was a native of Georgia and visited his old home while in that state.

Cemetery Ass'n. President Asks for Co-operation

Mrs. N. J. Roberts, president of the Cemetery Association, has written the following letter concerning Crowell cemetery.

"It will be very gratifying for all to know that the cemetery is being thoroughly cleaned. Due to the fact that labor has been scarce and prices seemingly beyond that which we have been able to pay, our cemetery had become grown up in weeds and looking worse than it had for a number of years.

"The workmen began at the southwest corner and are covering the entire section. There may be those who would never feel able to contribute to the 'up-keep' fund who would like to go down to the cemetery Friday or Saturday morning and work an hour or two under the direction of the men in charge.

"The northeast corner is always cared for along with all the rest—yet no funds ever come from those who bury in this section. A few hours' work toward cleaning this part off would be quite a boost.

"At a recent called meeting to discuss plans for our future work, three women were present. This indicates that the people either lack interest in the care of the cemetery or are satisfied with the present working plan.

"There is one thing certain, as the price of labor advances, and the size of this cemetery increases, it is going to take more funds for general care.

"Since the last report was published about the 1st of May, these have sent contributions:

Mrs. Willis Pinkerton,
Charlie, Texas, \$5.00
A Friend, 1.00
H. E. Davis, 1.00
Mrs. H. L. Jinks, 2.50
Grover Nichols, 2.00
Mr. and Mrs. Sam Crews, 2.50
Henry Ashford, Quanah, 5.00
Mrs. E. T. Owens, 1.00
A Friend, 15.00
A. B. Owens, 2.50
A. W. Owens, 2.50
M. L. Bell Estate, 10.00
W. N. Magee, 5.00
A Friend, 1.85

"Watch your budget and try to make a contribution to this worthy cause at least once a year. We all want a better-kept cemetery."

Boy Scout Leaders Hold District Meet Here Monday Night

The Boy Scout District meeting was held at the Crowell House Monday night, August 16, at 8:30. Howard Bursley, district chairman of District 12, introduced C. H. Peden, of Wichita Falls, Scout Executive of the Local Council. Mr. Peden brought greetings from Joe Sherrill, Council President, and from C. E. McCutchen, Council Treasurer, who were unable to attend the meeting.

Mr. Peden expressed his appreciation to the district for the progress made in scouting. Business was discussed and plans formulated for the promotion of Scouting throughout Foard County and Trusect.

Members present included Jno. E. Long, T. B. Klepper, John Raser, J. A. Stovall, J. A. Patty, J. W. Bruce, Leslie Thomas and A. Y. Beverly of Crowell; Jack Knox and S. O. Turner of Trusect; J. H. Roberson of Rayland;

The annual encampment of 4-H Club girls and Home Demonstration Club women will be held Tuesday, August 24, at the Country Club. The encampment was previously planned to be held at McAdams' Ranch, but in view of greater distance for the majority of clubs to travel, representatives of the encampment committees changed the location at their planning meeting Saturday, Aug. 14. More club members are expected to attend in view of this change.

The encampment has been streamlined to an over-night affair this year. It will begin at 8 p. m. and adjourn the next morning after breakfast.

The program planned is chiefly recreational in nature, consisting of games, stunts and songs. Each club will be responsible for ten minutes recreation. No swimming will be allowed in co-operation with health authorities in attempting to control infantile paralysis.

AAA Office Force Has Been Reduced to Two Clerks

Agriculture Adjustment Administration offices over the state of Texas have been streamlined in an effort to meet increased demands on farm production.

The first step, due to lifting of cotton and wheat marketing quotas, is the wholesale reduction of office personnel.

In line with the new program, the local AAA office now will be staffed with two clerks in addition to J. D. Miller, administrative officer. Mr. Miller emphasized the cut in number of clerks came solely from the reduction of AAA work. Clerks who will continue to work in the office are Mrs. Jean Reader and Miss Juanita Boman.

Officers to Serve Masonic Lodge Here Have Been Installed

Officers elected and recently installed for Crowell Lodge No. 840, A. F. & A. M., to serve for the new Masonic year are as follows:

T. S. Harey, worshipful master; Wm. F. Bradford, senior warden; L. T. Graves, junior warden; J. M. Kincaid, treasurer; D. R. Magee, secretary; J. A. Stovall, senior deacon; Bill Bell, junior deacon; J. P. Davidson, tiler; Hubert Brown, senior steward; G. Y. Carroll, junior steward; W. L. Callaway, chaplain.

Howard Bursley of Thalia; C. H. Peden, Wichita Falls, and C. E. Baker, Field Executive of Seymour.

As a result of improved shipping conditions, spices, teas, coffee and cocoa are reported coming into American ports in amounts considerably exceeding that hoped for six months ago.

Gymnastic Economist

John Bovingdon, former economic analyst for the OWF who was dismissed shortly after Representative Martin Dies protested Bovingdon's appointment and called him a "ball-tosser." Bovingdon said he indulged in "rhythmic gymnastics" for his health.

Eka Fay Hutton of Knox City spent the week-end with her sister, Mrs. John Black.

Born to Mr. and Mrs. Cleitis Tapp, a girl, Aug. 11.

Church of Christ

of Truscott

Will Begin Series of Meetings Friday Evening, Aug. 27

Evangelist W. A. McMillan of Lometa, Texas, will begin a series of gospel meetings for the Church of Christ at Truscott Friday evening, August 27, continuing through Sunday, Sept. 5. The public is cordially invited to attend all services. Come! We assure you that you will not be disappointed, if good singing and gospel preaching, is your desire.

THOUGHTS OF SERIOUS MOMENTS

Falsehoods not only disagree with truths, but usually quarrel among themselves.—Daniel Webster.

The telling of a falsehood is like the cut of a sabre; for though the wound may heal, the scar of it will remain.—Saadi.

Falsehood, like dry rot, flourishes the more in proportion as air and light are excluded.—Richard Whately.

Not a single Texas firm went into bankruptcy during June, University of Texas business research statisticians report.

How to preserve your Car

It's a good idea to "put up" fruits and vegetables for next winter... but if you put up your car instead of using it for essential transportation, you actually throw an additional burden on overloaded streetscars, buses, and trains.

In the national interest, as well as in your own, the way to preserve your car is to give it the care it needs and deserves in times like these.

Save rubber, gasoline, and oil by cutting down driving speed. And get expert help to make your car and your tires go farther and last longer.

This expert help is waiting for you at every Phillips 66 Service Station. Go there at least once a week so that the Phillips 66 Service Man can check tire

inflation. In hot weather, twice-a-week tire checks are even better. Remember, under-inflation not only increases tire wear but places an unnecessary drag on the engine and thus wastes gasoline.

The Phillips 66 Service Man will also inspect your tires for cuts and bruises, will crosscheck them with the spare every 3,000 miles, will tell you when re-capping is advisable. He will check your radiator, battery, and air filter. Will change crankcase oil, and lubricate chassis parts at the nationally recommended 60-day intervals.

Remember, whether you buy one coupon's worth of famous Phillips 66 gasoline, or merely want water or air, Good Neighbor Service is always waiting for you at the Orange and Black 66 Shield.

FOR VICTORY... Buy U.S. War Bonds and Stamps

Home To Roost

Lieutenant General Brehon Somervell testified before a senate committee that: "There is an impending (crude) oil shortage in the United States... That will mean, of course, the development of additional resources."

The development of additional reserves cannot be taken for granted, as General Somervell assumes. Whether new oil resources are discovered, depends upon the price of oil. Drilling for oil costs money. Present prices do not cover the costs in the light of risks. However, the price of oil is not determined by the oil industry. It is set by official decree. And according to observers, there is little chance of early price adjustment.

In the meantime, the extent of the impending oil shortage can best be judged by the warning of an oil man that Pennsylvania grade oil production will take a 30 per cent drop during the next 5 years unless prices are increased to give operators drilling chances.

The false philosophy that it is wrong for industry to make a profit, no matter how modest, is beginning to strike home. That false philosophy has dominated our lives for a number of years. When we wake up some fine morning with no food, no gas, and few of the thousands of luxuries and necessities which have made up our boasted standard of living, then maybe we will stop begrudging the man who produces a reward for his labor. The chickens are coming home to roost.—Industrial News-Review.

Texas has substantially expanded its shipment of livestock to market over 1942. The University of Texas Bureau of Business Research reports. During the first half of 1943, movement of Texas-grown livestock totaled 57,672 cars, or 7,500 more than in the first six months of 1942. June shipments declined—from 7,798 cars in June a year ago to 6,653 this year.

Announcements have been received by several in this community of the marriage of Robert F. Derrington to Mrs. Carrie O. Harding, which took place at the Pine Church of Christ at Portales, N. M. Mr. and Mrs. Derrington will make their home at Portales. Mr. Derrington was a resident of this community several years ago.

RAYLAND

(By Mrs. T. C. Davis)

Jack Lassiter, Seaman 2-C, and wife of Oklahoma City spent Thursday here visiting Mr. and Mrs. Oscar Holland.

Mr. and Mrs. John Davis of Snyder, Mrs. John Bradford and daughter, Retta, of Riverside, and Miss Mildred Bradford of Lubbock visited in the T. C. Davis home Wednesday.

J. W. Ramsey of the U. S. Air Corps, visited his brother, Dick Ramsey, Friday.

Mr. and Mrs. Hampton Smith and son, Wayne, spent the weekend with her parents, Mr. and Mrs. Buck Clark.

Herman Schoppa is visiting in Lubbock this week.

Mr. and Mrs. Arthur Holland and children of Graham visited Mr. and Mrs. Oscar Holland Wednesday. Betty Jo Holland returned home with them for a few days' visit.

Mrs. M. A. Moore and son, Audrey, of Whitharral, Mrs. D. O. Harrington and daughter, Joyce Ann, of Oscar, Okla., and Mrs. H. C. Green and children, Carolyn, Liane and Jimmy, of Dallas, spent Wednesday with their sister, Mrs. T. C. Davis, and family.

Several from here have been attending the revival at Wesley Chapel at Lockett.

FOARD CITY

(Mrs. Luther Marlow)

Cpl. Fate McDougle, who has been here on a furlough visiting his mother, Mrs. Lee Lefevre, and sister, Mr. and Mrs. Glen Shook, left last Wednesday for Ephrata, Wash., where he is stationed.

Mr. and Mrs. Amos Lilly, Mr. and Mrs. Clifford Killingsworth and baby and Mr. and Mrs. Bob Lilly of Oklahoma City, Okla., Mrs. Ethel Ellis of Clareton, Clarence Traweck of Mercury, Mrs. Sallie Martin of Clareton and son, Doyle Martin, who is stationed at Lubbock, were here for the funeral of O. E. Traweck, who died in a Wichita Falls hospital on last Tuesday. Funeral services were held at the Foard City church Wednesday afternoon. Interment was in the Crowell cemetery.

Mrs. Everett Carter of Kansas City, Kan., visited Mr. and Mrs. Blake McDaniel and Mr. and Mrs. R. B. Lilly Thursday.

Mr. and Mrs. J. L. Farrar visited her parents, Mr. and Mrs. W. A. Patton, of near Crowell last Thursday night.

T. M. Whitty, who is stationed at Hutchinson, Kan., spent the weekend with his wife and daughter, Jean.

Mrs. Steve Mills and daughter, Neva, of Fort Worth spent Saturday night and Sunday with Mrs. G. G. Mills and son, Marcus.

Mr. and Mrs. A. W. Barker and daughters, Doye and Evelyn, and son, Ben, who is here on a furlough, and son, Blaine, of Fort Worth, visited Mr. and Mrs. J. D. Ferguson and family of Mangum, Okla.

Fred Traweck was taken to the hospital at Crowell Saturday morning and was brought home Sunday.

Mrs. Joe Owens of Crowell attended Sunday School at Foard City Sunday.

Miss Mildred Marlow returned home Sunday afternoon from Paducah, where she has been employed at the Isbell Drug during the summer months.

Lt. Gaylon Gover spent Friday night with Mr. and Mrs. Blake McDaniel.

The Pattern Remains

Management of industry and the destinies of private citizens are increasingly subject to the control of the Federal government. Under the weight of this growing authority, private industry and the liberties of the individual are steadily being undermined.

The coal industry is an example. Representative Robertson of Virginia ably showed during congressional hearings on the question of renewing the Bituminous Coal Act, how that Act, ostensibly enacted to put a floor under the price of coal, in reality increased the wages of one group of workers at the expense of coal consumers and resulted in bringing the industry and the workers therein under private government domination. It used the power of taxation to penalize coal operators who sold below decreed coal prices. It encouraged strikes and wage demands which employers were powerless to meet on an equal footing before the law. Instead of rescuing the industry and the miners from the rut of depression, it created turmoil and strife and ever-tighter Federal control. Today the coal mines are socialized.

As Mr. Roosevelt pointed out, Bituminous Coal Act set a pattern for post-war operations of the government in business. The Act has been removed from the statute books but the pattern still remains. The cards are still stacked against private operation of industry. Congress could render no greater service to the country than by kicking out pressure-group legislation and equalizing the laws under which industry must operate. Congressmen like Representative Robertson are to be commended for efforts to awaken Congress to the task that lies ahead.—Industrial News-Review.

Fresh fish makes a good summertime dish. It's a source of highly digestible proteins, has a good store of phosphorus, and some calcium.

MACHINE RECORDS TRAINING—Women and draft exempt men interested in helping their country by working for the Army have exceptional opportunities through the expansion of the War Department's machine records training program. Intensive basic training will be given to new, untrained employees as well as advanced training to current operators whose experience, with supplementary training, qualifies them for promotion. The need for skilled operators is increasing constantly and it is expected that 5,000 trained office machine operators will be needed this year. The machine records training program is being handled by the War Department's Services of Supply and will be under the direct supervision of the Civilian Personnel Division, Services of Supply. Accepted applicants will be given an opportunity to become qualified keypunch, tabulating and machine records operators.

INTERESTING FACTS OF THIS AND THAT

In 1940 American farmers had abandoned 6,484,292 acres of farm land. In addition to this there was 57,000,000 acres of idle land on occupied farms.

There are 40 prisoner-of-war camps in the country located in 20 different states.

The Big Inch oil pipe line from Longview, Texas, to Phoenixville, Penn., delivers 800,000 barrels of oil a day to the east from the oil fields of Texas.

The island of Sicily covers 10,000 square miles and has 4,000,000 inhabitants.

Forest fires in 1942, according to the Department of Agriculture, destroyed 31,654,124 acres of woodlands representing a loss of \$45,000,000.

Oyster production in this country totals \$9,000,000 pounds annually. Fifty years ago it was 182,000,000 pounds annually.

Arkansas is the only place on the North American continent where diamonds are found.

Ruinous Monopoly

The leaders of the nation's largest labor union, the United Automobile and Aircraft Workers, CIO, have asked the government to take over and run basic private industries after the war, on the grounds that such industries are "monopolistic" and strategically necessary to the national safety.

It is a strange thing for leaders in any branch of public or private life to advocate further government domination over the individual in a nation that is spending three or four hundred billion dollars to crush government control over individuals in other nations. They either do not know what they are asking, or they are deliberately advocating state socialism—precisely the same kind of liberty-destroying socialism Americans despise.

It is also strange to see those leaders demanding socialization of industry on the plea of strategic necessity. This war is being won because private industry, the

plane and tank factories, the shipyards, the coal and metal mines, the oil, electric power and other natural resource industries turned to the task of building a war machine from scratch with a do-or-die determination. Success has been achieved to an undreamed-of degree—success that has been marked by but one serious incident over which management had no control: The coal strike. After industry has proved its ability to meet a war emergency efficiently and quickly, it is pure hypocrisy to demand that it be taken over by government in the interests of national safety.

It is even stranger for leaders of organized labor to advocate government ownership of industry on the ground of monopoly. Any industry that is a monopoly can be regulated or otherwise controlled by law. On the other hand, unions have demonstrated their ability to wreck private industry, just as they have demonstrated their power to say when, where and how millions of private citizens may make a living. They exercise unregulated, monopolistic power over the most valuable asset the nation possesses—the skills of American workmen.

If this kind of monopoly prevails, our days of individual liberty are numbered.—Industrial News-Review.

Eggs should be cooked over a slow heat for best results; high temperatures toughen egg protein. For hard cooked eggs, water should be brought to a boil, the eggs covered, then the fire turned off and the eggs allowed to sit on the back of the stove for thirty minutes.

For the congregation of hypocrites shall be desolate, and fire shall consume the tabernacles of bribery.—Job 15:34.

The work of tire rationing boards would be made much easier, a member of the local rationing board said yesterday, if some way could be found to keep the big boys in the tire program out of print. We have a stack of applications for tires that we cannot fill because of lack of quota. Some of them have been on file for weeks. We tell applicants we cannot fill them because we do not have the tires. The next day a column interview with some of the brass collars in the rubber program states that there will be tires for everyone in a week or two. This isn't true and the brass collars know it isn't true, but all the same it makes trouble for the local rationing boards. There is no explanation a local board member can give as to why tires are not available in abundance for weeks after such an interview appears. Some one should tell these fellows in Washington to keep out of print.

There are many other reasons why it is going to be the obligation of this nation to take a large part in post-war planning to the end that there shall be less cause and likelihood of recurring wars, but the matter of cost in dollars and cents will serve as one illustration. It is estimated at Washington that by the time the war is over the debt of this country will have reached \$300,000,000,000. This is twice as much as the assessed valuation on all the real and personal property, tangible and intangible in the United States. It means that for every \$1,000 in money or property every citizen owns there is a mortgage of \$2,000 against it. This is merely one of the reasons why the best intelligence we can muster should be applied to the planning for the post-war world and the part we are to have in it.

Five people in Jewell County, Kansas, recently celebrated their one hundredth birthday. The local editor in commenting on the unusual fact puts in a plug for the county by adding: "If you want to live long and live well, live in Jewell County."

With the birth rate the highest in history the past year the quota of baby carriages to be manufactured was cut in two. It looks like had planning on the part of some one.

HISTORY

Birthday of Oliver Wendell Holmes—August 29: Oliver Wendell Holmes was born at Cambridge, Mass., Aug. 29, 1809. He graduated from Harvard College in 1829. He entered the Harvard Law School with the intention of becoming a lawyer but soon abandoned the law for medicine. After three years in the Harvard Medical School and two years in Europe he began the practice of medicine in Boston. From 1838 to 1840 he was professor of Anatomy at Dartmouth College and from 1847 to 1882 was Parkman professor of Anatomy and Physiology in the Harvard Medical School. During these years he wrote occasionally and some of his verses were published. His first work to attract attention was "The Autocrat at the Breakfast Table," which appeared serially in the Atlantic Monthly. Thus his recognition as a writer did not come until after he was fifty years old. He died in Boston, October 7, 1894, at the age of 85. He was the father of Oliver Wendell Holmes who served for thirty years as an Associate Justice of the Supreme Court of the United States. The anniversary of Holmes' birth is observed in many schools. His poem "The Last Leaf" is regarded as one of the most perfect poems of his kind in the language. Others of his poems which are well known are "Old Ironsides" and "The Chambered Nautilus."

A local man has it figured out this way. Hitler's drive against Russia at a time when he is threatened as he never has been since the war started, is a gambler's chance. Hitler knows that once invasion of the continent is started that he will have to pull a large part of his army from the Russian front. Once he does this the Russians are going to push the remainder back to Berlin. Hitler took one gamble that he could defeat or neutralize Russia before the invasion of the continent began. Hitler has lost his bet. It sounds reasonable and sounds like a clear cut appraisal of the situation.

At the thirty-fifth annual convention of Governors held at Columbus, Ohio, recently, there was launched a nonpartisan attack on the encroachment of Federal bureaus on the powers of state and local government. The governors not only assailed the increasing centralization of power in Washington but voted unanimously to set up machinery to insure that the rights and functions of the states which they have ceded to the national government in the interests of victory will be restored to them after the war.

Weeds will flourish in a garden with complete neglect, but it requires constant cultivation and care to produce beautiful flowers. The same thing is true in raising boys and girls. Let them grow up wild and they become human weeds but it takes care and cultivation and oversight and discipline to make social beings and good citizens of them.

A part of my post-war plans are complete, a local man said yesterday. When asked for specific information he replied, "Well, my post-war car is going to be the same one I am driving now."

What We Think (By Frank Dixon)

The other day I heard a minister preach a sermon in which he bemoaned our participation in the war. All through his sermon he shed verbal tears over what he chose to call the sin of this country and England because they, posing as two great civilized countries of the world, were engaged in this war.

I do not agree with this type of philosophy. I do not think it should be preached from American pulpits. I do not think that anything should be said from the pulpit, over the radio, or through the press that will raise a doubt in the mind of any one that the United States and her Allies because of their participation in the war, are doing anything but the right thing, anything other than a Christian nation would be bound to do.

I think that that minister and others like him, as well as writers and broadcasters should remember that as far as we are concerned this is a Christian war, if there ever was one.

We are not fighting for territorial gains. We are not fighting to enslave men or nations or to bring them under our power. Rather, we are fighting to free a world from the threat of serfdom and oppression. We are fighting that this nation and the smaller nations of the world may live in peace with borders free from the threat of invasion by stronger, ruthless, power mad dictators.

They should remember that these dictators do not stand for a single thing that the church stands for. On the other hand they are opposed to everything the church stands for and the principles upon which it was built and operates.

They should be glad, yes, thankful that this country and England had the courage and the will to face the greatest war machine the world has ever seen and to expend their treasure and their man power to defeat the most ruthless menace against civilization of modern times.

There is only one instance with which the present threat against Christianity can be compared and that occurred when Attila the Hun swept Europe like a scourge, destroying all civilization before him and was finally stopped at the very gates of Rome, then the center and fount of Christianity.

Attila is on the march again under another name and another guise. This time he comes equipped with a modern army and all the tools of modern science and inventive genius, but at heart, and back of the modern front, the power that threatens civilization to-

The Way To Poverty

Reports from the American Association of Petroleum Geologists and the American Petroleum Institute indicate that there still remains unexplored approximately 1,000,000,000 acres of geological formation in which oil may be found in the United States. Not only does this vast area remain unexplored, but today oil is being produced from sands found at depth of 13,175 feet, and present equipment makes it possible to drill to a depth exceeding 15,000 feet—as contrasted to 59 feet for the first well drilled in 1859. In addition to oil resources being plentiful, scientists are continually increasing the power of gasoline, thus tending to conserve supplies.

Home Repairs to \$200 Made Without Permit; Limit on New Houses

If your home needs repairs, you can make them without authorization under W.P.B.'s Construction Conservation Order L-41, provided they are necessary and do not change the structural design of the property. The work must not exceed \$200 or involve the purchase of critical materials. Pointing out that wartime restrictions on building new houses permits new construction only for war workers in certain areas, Federal Housing Commissioner Abner H. Ferguson recently said: "In view of these necessary restrictions, it is all the more imperative that the present supply of homes be kept in adequate repair, conforming to decent standards of health and sanitation. For the great majority of American families," Mr. Ferguson added, "these properties represent the only supply of housing that will be available for the duration of the war."

Must Conserve Materials Because critical materials must be reserved for direct war production purposes, new home building is restricted to war industry areas, and there only in such numbers as is absolutely necessary to meet the housing needs of essential workers. Loans to maintain present home properties in sound condition will be insured by the Federal Housing

At present the belief seems prevalent in some government regulatory agencies that the price of oil has nothing to do with oil production. But a protracted oil shortage will be the fault of man, rather than the fault of nature, if oil prices are held at levels which prohibit exploration and development, and disregard production costs. As long as that fallacy is maintained, the oil shortage will grow worse instead of better.

We will one day again realize that the greatness of this nation lies in its generosity in rewarding those who work and produce for the benefit of society.—Industrial News-Review.

Vegetables should be stirred only when absolutely necessary. Stirring mixes air into the food and air is a vitamin-destroyer.

BONDS OVER AMERICA

Advertisement for War Bonds featuring an illustration of the Union Stockyards in Chicago and text: 'Since 1865 American stockraisers have been taking their animals to the Union Stockyards at Chicago, maintaining an institution that helped to make America great. Entrance—Union Stockyards, Chicago. In Hitler's Europe the farmers are producing too, but their product goes to Nazi Germany to feed the soldiers who are shooting thousands of prisoners who object to this form of tyranny. Keep Our Traditions Buy More War Bonds'

30 YEARS AGO IN THE NEWS

Items below were taken in whole or in part from the issue of The News of August 22, 1913:

W. S. J. Russell of Crowell, an old friend of The News man, was here Friday on his return home from New Mexico, where he was called by the illness of his brother-in-law. Mr. Russell dropped in to see us between trains, and we gathered from his conversation that New Mexico had no attractions for him.—Chillicothe Valley News.

The school board is having the old school building torn away and expect to sell the lumber. The building was advertised for sale a few weeks ago, but it was thought that the bid which was received was not the worth of the building, and decided that more could be realized if the building by having it torn down, and sell the lumber. Many people received their early education in this old building, some of whom now hold responsible positions, some have grown old with the passing years, some are living in distant states and some have crossed the river.

James G. Witherspoon took charge of the postoffice last Tuesday morning, and is now in the possession of Uncle Sam's business in this city. Frank Meason, who has been postmaster, will continue in the post office as assistant. Other assistants have not been announced.

Foard City items—F. M. Edwards and Dr. Macomber's horses got tired of the bill of fare at Foard City and stole away in the night and went to Truscott. No doubt they went there in search of green grass, but F. M. tells us they went to the wrong place as they were nearly starved when he found them.

Miss "Cy" Perkins returned Wednesday from Mahank where she has spent the past two months with her parents, and visiting old childhood scenes of long ago.

Rude Magee returned Wednesday morning from Mineral Wells where he spent a week.

Tom H. Haggard is spending this week at Memphis attending the I. O. O. F. Association.

J. V. Bost and family and Will Bost and family left this week for Covina, Calif., where they go to make their home.

Mrs. Walter Ross of Margaret and Miss Mittie Moberly of Stephenville were visiting at the home of Mr. and Mrs. M. O'Connell this week.

Duke Wallace and family left Saturday for De Leon where they will spend a couple of weeks visiting relatives.

Sheriff Campbell and William Benton McCormick made a trip to Electra Sunday on their new Indian motorcycle.

Mrs. G. W. Wallen and Mrs. G. C. Rector returned the latter part of last week from a six weeks visit to relatives in Kentucky.

Miss Mae Majors, formerly bookkeeper and stenographer for Allee-Henry & Co., was here Saturday and Sunday visiting friends.

Miss Jesse Bomar and children returned to their home at Hartson, Okla., Monday after visiting relatives here for the past two weeks.

Robert Ramsel left Monday for St. Louis where he goes to purchase the fall stock of goods for the Cecil & Co. store here. C. W. Cecil accompanied Mr. Ramsel from Altus.

LOCALS

Miss Juanita Brown returned Sunday from a visit of a few days in Lubbock and Crosbyton. Mrs. P. E. Randolph of Vernon spent the week-end in Crowell visiting relatives and friends. J. L. Greer of Dallas was here two days last week visiting his cousin, U. C. Rader, and family. Mr. and Mrs. Vernon Pyle and daughter, Verna Lou, of Wichita Falls spent Sunday here visiting relatives and friends. W. E. Higgs left Wednesday for Orange where he will be employed in the ship yards. His family will remain in Crowell. Wanda Cobb of Fort Worth spent the week-end here visiting in the home of her grandmother, Mrs. L. Kamstra, and friends. Miss Mayme Lee Collins is spending her vacation in Houston, a guest in the home of her sister, Mrs. Andrew Calvin, and family. Mr. and Mrs. Frank Crews Jr. and two children of Amarillo, are visiting in the home of Mr. Crews' parents, Mr. and Mrs. Frank Crews. Miss Margaret Long returned Tuesday from Burk Burnett where she had spent the week-end visiting Miss Mary Frances Reeves, a former room-mate at Texas Tech at Lubbock. Mr. and Mrs. Travis Hayes and daughter, Verna Frances, of Elk City, Okla., are here visiting Mr. Hayes' parents, Mr. and Mrs. T. L. Hayes, and Mrs. Hayes' brother, Bert Hanks, and family. Miss Mildred Cogdell, who has been employed in defense work in Fort Worth for a large part of the summer, is here to spend a while in the home of her parents, Mr. and Mrs. W. A. Cogdell, before going to Eunice, N. M., where she again will teach in the High School there.

Allen Sanders has accepted a position in Ferguson's Drug Store. Another new employee at this store is Mrs. Leo Owens. Mr. and Mrs. W. T. Graves of Stephenville visited Tuesday and Wednesday in the home of their son, I. T. Graves, and family. Miss Pansy Atcheson has returned to Crowell from Fort Worth where she has been employed during the summer months. Mrs. G. W. Mills of Amarillo, is a guest in the home of her daughter, Mrs. R. R. Lanier, and family. Mr. Mills is expected later in the week. Mrs. J. R. Meadors of Mineral Wells is here this week visiting her daughter, Mrs. Homer Zeibig, and family and other relatives and friends. Mr. and Mrs. Paul McKown and children, Bobbie and Gary, returned to Crowell this week from Fort Worth where they had resided for several months. Mrs. Maymie Parish, Mrs. Mildred Burton and daughter, May Elizabeth, and Mrs. Lula Wallace of Abilene visited in the home of Mrs. G. W. Walthall Monday. Mrs. Wayland Griffith and baby sons, Gary and Bill, of Horton, Kan., arrived here Monday to visit in the home of their parents and grandparents, Mr. and Mrs. E. Swain. Mr. and Mrs. Ben Hinds spent the week-end visiting relatives in Rotan. Mrs. Ida Montgomery, sister of Mrs. Hinds, returned with them and is visiting in the home this week. Mr. and Mrs. C. C. McLaughlin went to Amarillo Sunday where they will spend the week visiting in the home of Mrs. McLaughlin's sister, Mrs. Kenneth Lanyon, and family. Mrs. Audie Brown and her mother, Mrs. Ruth Anderson, left Tuesday afternoon for Dexter, N. M., to be near Mrs. Brown's husband, who is located at Roswell, N. M. Miss Lenore Longino of Abilene arrived here Wednesday evening and will spend a two weeks' vacation in the home of her parents, Rev. and Mrs. H. A. Longino. Mrs. Ed Thompson and son, Marland, spent Sunday in Mineral Wells, where they visited with their son and brother, Carroll Thompson, who has been stationed at Camp Wolters, since his induction on July 13. Miss Elizabeth Elliott, Foard County Home Demonstration Agent, has returned from a vacation of one week which included a visit with her parents at Lubbock and a trip to Evergreen Valley Ranch near Las Vegas, N. M. Virginia Ruth Mabe returned Thursday from Merton where she visited her aunt, Mrs. J. J. Handley, and family. She was accompanied home by Bettie Handley, who is visiting in the Mabe home. Mrs. Steve Mills and daughter, Miss Neva, of Fort Worth, were visiting friends in Crowell Saturday afternoon. They came to visit Mrs. Mills' father, H. T. Kenner, and family of Margaret. Mr. and Mrs. Mills, former Truscott residents, are doing defense work in Fort Worth. Carvel Thompson returned last Thursday from Alliance, Neb., where he had been combining wheat. He was accompanied by Mr. and Mrs. E. J. Cummings and son, Kenneth Archer and Bill Owens. Wheat in that section is reported making yields of 40 to 50 bushels per acre. Miss Mary Tamplen, daughter of Mr. and Mrs. Luther Tamplen, and Miss Mildred Bradford, daughter of Mr. and Mrs. John Bradford, student nurses at the Lubbock General Hospital, returned to Lubbock Saturday after spending a two-weeks' vacation with homefolks. Mrs. Jim Carson and son, David, of Los Angeles, Calif., Mrs. Agnes Jones and daughter, Mrs. Herbert King and daughter, Virginia, of Waco, and Mr. and Mrs. Judson Dunn and son of Kingsville, are here this week visiting their mother and grandmother, Mrs. H. J. Watkins, and husband.

Five Killed in \$5,000,000 Harlem Riot

Private Robert Bandy, left, interfered with a policeman making an arrest, was shot, and thus ignited a Harlem, N. Y., riot in which five Negroes were killed, 600 persons were injured and property was damaged to the extent of \$5,000,000. Right, Mayor Fiorello LaGuardia, with Dr. Max Yergan and Ferdinand Smith, Negro leaders, as they conferred on measures to stop the rioting.

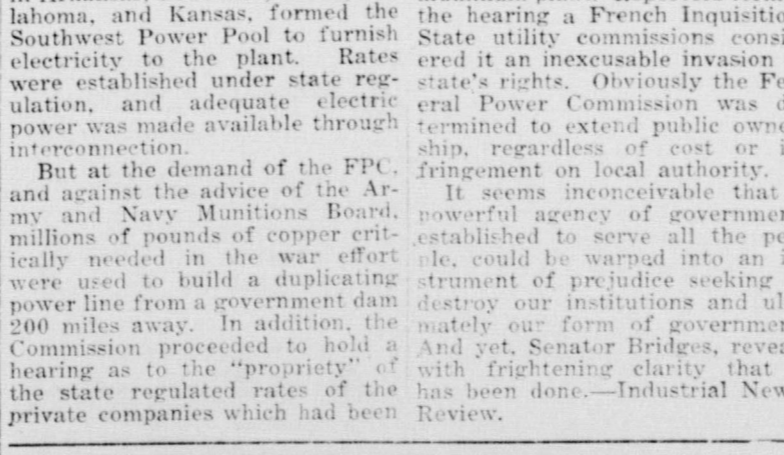

County USDA War Boards Get New Job

College Station, Aug. 14.—Texas' 254 county USDA war boards this week were handed the job of distributing 50,000 pounds of wire for farmstead wiring. Allocated for agricultural purposes during the three months that began July 1, the wire will be distributed to farmers through county USDA war boards. The new distribution system is in line with WPB plans governing distribution of critical materials, of which copper is one. Explaining operation of the program on a county basis, B. F. Vance, chairman, Texas' USDA War Board, said that approval for farmstead wiring will be given only for essential needs which will add to the Food for Freedom program, or save labor on the farm. If the proposed use meets the standards for essential permitted uses, county war boards will issue copper wire allotment certificates which are to be presented to local suppliers. He added that while allotments of wire will be released for essential food production and labor saving purposes, copper wire cannot be made available for farm dwellings. New users of electricity must be able to qualify for power line extensions before they will be eligible for copper wire under the new distribution program. To qualify for a power line extension, a farm is required to have a specified number of animal units and be within a reasonable distance from a power line. Old users of electricity who wish to extend electrical service on their farms are required to meet the same standards as new users, Vance said.

Farmers Urged to Fight for Higher Grade of Cotton

War Food Administrator Marvin Jones has appealed to cotton farmers, ginners and pickers of Foard County to help relieve a critical shortage of high grade cotton for war purposes. He points out that while the nation's total stocks of cotton are still large, "the decline in grade is startling." In line with Mr. Jones' appeal, the War Food Administration and the National Cotton Council have placed in the hands of ginners in Foard County, and in the office of County Agent D. F. Eaton, supplies of literature and other materials which show the methods through which grade may be improved by the individual harvester and ginner of seed cotton. Gins in the county have been asked to display large posters emphasizing the importance of grade improvement. They have likewise been asked to attach cards to wagons and trucks bringing cotton to the gin, in order that the message may be carried back to pickers in the field, and to distribute leaflets which point out various grade improvement procedures. The National Cotton Council, heading up the program in behalf of all branches of the industry, is calling for "superhuman effort to deliver a maximum of high grades despite the obvious difficulties of labor shortages." "To give the army an adequate supply of the grades required for military goods," says the Council, "it is going to be necessary for every individual farmer to: (1) pick his cotton only when it is dry; (2) keep leaf and other trash out of it; (3) get cotton out of the field before it suffers weather damage; (4) be sure that he does not mix good cotton with bad."

AMERICAN HEROES BY LEFF

When Richard Breckenridge's submarine made a hurried dive off Japan, a hatch jammed, but he ignored the order to abandon the rapidly flooding conning tower and remained behind, desperately trying to fasten it. By succeeding, he saved vital equipment for his submarine and became the first enlisted man in the submarine service to win the Navy Cross. He was willing to give his life. How much of your income will you invest in Payroll Savings?

electric power requirements of a new government aluminum plant in Arkansas. A group of the principal private electric companies in Arkansas, Louisiana, Texas, Oklahoma, and Kansas, formed the Southwest Power Pool to furnish electricity to the plant. Rates were established under state regulation, and adequate electric power was made available through interconnection. But at the demand of the FPC, and against the advice of the Army and Navy Munitions Board, millions of pounds of copper critically needed in the war effort were used to build a duplicating power line from a government dam 200 miles away. In addition, the Commission proceeded to hold a hearing as to the "propriety" of the state regulated rates of the private companies which had been finally permitted to supply a part of the energy needed by the aluminum plant. Reporters termed the hearing a French Inquisition. State utility commissions considered it an inexcusable invasion of state's rights. Obviously the Federal Power Commission was determined to extend public ownership, regardless of cost or infringement on local authority. It seems inconceivable that a powerful agency of government, established to serve all the people, could be warped into an instrument of prejudice seeking to destroy our institutions and ultimately our form of government. And yet, Senator Bridges, reveals with frightening clarity that it has been done.—Industrial News-Review.

New Price Support for Cottonseed Is \$55.00 Per Ton
College Station, Aug. 14.—A new support price of \$55 per ton for cottonseed to Texas farmers was announced this week by the War Food Administration through the state AAA office. The new price, which went into effect August 1, and will continue through July 31, 1944, is \$6 per ton over last year's minimum price for basis grade seed, f. o. b. shipping points. Commenting on the program, AAA officials pointed out there will be no contracts with processors on the 1943 crop. The price will be effectuated through an offer by Commodity Credit Corporation to purchase cottonseed products from oil mill operators who agree to purchase cottonseed in lots of not less than 10 tons at the support price. Since the majority of Texas cotton producers will not be able to dispose of their seed in the minimum quantity, they are being encouraged to pool seed co-operatively or accumulate seed in lots of 10 tons or more for direct sale to oil mills in order to receive the higher price. According to present regulations, the support price of \$55 per ton, f. o. b. shipping point, basis "U. S. Standard grades," will apply in Texas, Oklahoma and New Mexico, while other cotton producing states will receive \$56 per ton on the same basis. AAA officials added that in areas where oil mills have accepted the offer and desire to purchase cottonseed at a "flat" or "as is" price, these prices shall average not less than the average price which would have been paid if each lot of cottonseed had been purchased on a "U. S. Standard Grades" basis.

Mrs. M. J. Traweck and Children.

Uncovering Undercover Work

An appalling revelation of bureaucratic abuse has been reported in the Congressional Record at the instance of United States Senator Bridges. It is an account of the activities of the Federal Power Commission, under the chairmanship of Leland Olds, former writer for the official daily newspaper of the Communist Party, the Daily Worker. The authority of the Federal Power Commission, one of the most powerful government agencies, vested with far-reaching control over the electric utility industry, has been used in deliberate attempts to promote national socialism in the United States. Most flagrant example cited by Senator Bridges centered on the

Pig Production in Texas Augmented by Boys' 4-H Clubs

College Station, Aug. 14. Members of Texas boys' 4-H Clubs who are conducting swine demonstrations will produce the equivalent in pork of the food budgets of 50,000 fighting men during 1943. This estimate by E. M. Regenbrecht, swine specialist for the A. & M. College Extension Service, is based upon preliminary reports from county agricultural agents.

This spring 1,500 purebred sow and boar pigs were placed with Texas 4-H Club boys. These added to the 1,080 likewise placed in 1942, and the 784 in 1941, make a total of 3,364 breeding hogs in the hands of the Club boys. In addition to the production of these animals, many boys are feeding out feeder pigs which they bought in their neighborhoods.

In most instances, Regenbrecht says, the demonstrations have proved profitable, especially on farms where a surplus of feed grain is produced. It is not uncommon to find boys' sales of hogs sufficiently large to require them to make an income tax return.

Adult farmers likewise have expanded their hog production about as expected. The 1943 spring pig crop was 33 per cent larger than in the preceding year, and a large fall crop is in sight. During the past three years Texas farmers have made a pronounced improvement in the quality of their hogs. They are feeding balanced rations and self-feeders are in use everywhere. Concrete feeding floors and wallows are being built freely on farms and the demand for plans for hog houses and other equipment is large.

A fortunate circumstance is the absence of a serious outbreak of disease among Texas hogs as a whole, Regenbrecht says. Each time that Texas farmers increased their hog population heretofore the loss from contagious diseases also mounted.

GERMS HARD TO SCATTER

Austin, Aug. 14.—Don't worry about germ warfare being used to attack America—germs cannot live, much less multiply, in the chlorine-disinfected water which American cities have, a University of Texas bacteriologist declares.

Dr. V. T. Schuardt explained that the enemy fears a "rebound" of disease spread by means of aerial dissemination.

"Diseases easily spread by natural causes are hard for man to scatter successfully in the exact regions he chooses," he said.

Payroll Savings Buys Comfort For Your Fighting Relatives

Not all of your payroll savings and other War Bond purchases are used for tanks, planes and gunpowder. A part of your investment goes for the comfort of your father, brother, son or friend.

Put your war bond buying through your payroll savings plan on a family basis to do the most effective job in providing for the care and safety of your men in the armed forces. Figure it out for yourself how much beyond 10 per cent of the aggregate income of your family you can put into war bonds above the cost of the necessities of life.

Remember a single \$18.75 war bond will buy for a fighting soldier on the front: Two cotton undershirts at 44 cents; two pairs of cotton shorts at 76 cents; two pairs of cotton socks at 34 cents; one pair of shoes at \$4.31; a cotton khaki shirt at \$4.64; pair twill trousers at \$4.16; one web waist belt at 23 cents; two cotton neckties at 44 cents; 2 khaki caps at \$1.26 and one twill jacket at \$2.16. Total \$18.74.

An \$18.75 war bond should make a marine comfortable for the night with a 25-pound mattress at \$4.20; two blankets at \$3.54; a pillow at 56 cents and two pillow cases at 20 cents. Total \$18.69.

Or he could be provided with a rubber poncho at \$4.77; a helmet with its lining and other items of its assembly at \$5.62; a rifle cartridge belt at \$2.15; a marine corps pack consisting of haversack, knapsack and suspenders at \$3.10; a canteen and its cover at \$1.05. Total \$18.69.

Those of you who worry about the comfort of your boy in service can help insure his comfort by buying war bonds. And 10 years from now you'll take back \$25 for every \$18.75 you put in.

U. S. Treasury Department

"A greater danger is from infected fleas, lice or ticks on foreign battle fields, but a disease epidemic so started is very likely to spread to the area occupied by troops of those who spread the bacteria."

One Per Cent Cushion

Industries are the same as individuals. They must have a living wage if they are to operate and maintain maximum employment. They are unlike individuals in that they cannot strike for more pay. An industry continues to serve the public as long as possible. If the time comes when it no longer earns a living wage, it quietly ceases to exist. Men are thrown out of work and the public no longer receives its services. Today the earnings of many industries are perilously squeezed between rising costs and the battle to hold down prices. Notable among these industries is retail distribution.

The retail industry as a whole is conscientiously fighting against higher prices. Merchants realize that the life of modern distribution rests on prices that encourage volume sales. As prices inch higher, volume inevitably falls off. Consumers are simply unable to buy what they desire, and the standard of living spirals downward. Retailers, chain stores in

particular, have absorbed as much as possible of the rising costs. Profit margins for some groups have dropped to one per cent of sales or less. This one per cent cushion is the wage upon which large segments of the distribution industry must somehow survive. If arbitrary price ceilings or the pressure of costs cut materially into the paper-thin margins of retailers, the industry cannot live any more than could the worker whose pay envelope fails to meet the living costs of his family.

Inasmuch as the country cannot get along without an efficient distribution industry, there is no alternative except to assure it a living wage.—Industrial News-Review.

In community planning to combat juvenile delinquency and other youth crises, a University of Texas sociologist urges "more personal friendship and counseling and less mass organization." Dr. R. L. Sutherland, director of the University's Hogg Foundation, recommends "planning with," not "planning for" youth.

A new assistant professor of economics to join the University of Texas staff this fall, Eastin Nelson, comes from a position at the University of Panama and a post as advisor to the Panama government.

War-time Revelations

In commenting recently on the tremendous effort being made by the people of this country to win the war, W. C. Mullendore, Executive Vice President, Southern California Edison Company, records facts that must not be forgotten:

"On the surface it might appear that these airplanes, ships, tanks and guns, these radio and other electric devices, these billions of kilowatt hours of electric energy which are turning the wheels of the factories, and welding and transforming metal into weapons of war—that all this miracle of production which turned the tide of war against the enemy at the time when he seemed almost certain to triumph, has become available only since war began, and hence might be attributable to the centralized direction and control now exercised by government. We at home and the boys in the Army and Navy are learning of the performance of our guns and planes and ships, and of the production of billions of pounds of equipment; we see the visible evidence of the ability of our railroads to transport men and equipment in amounts and at a speed never before attained; of the output of our electric utilities reaching unparalleled heights, and we are justly proud of the machines and equipment and of the tools and weapons made available to our boys and the boys of our Allies on the battlefield. But what our people most need to know and to appreciate is that the foundations for this production were laid not yesterday but during the past century; that this strength which is now saving the world is the product not so much as American physical and financial resources immediately applied to these mighty tasks, as of the abilities developed as the result of the freedom of men in past generations of American life.

Freedom to develop their strength, initiative and self-reliance, not under the guidance of government bureaus nor with funds taken from the people by the powers of government, but on their own credit and savings and through their own effort freely risked in many enterprises, large and small, some of which succeeded and most of which failed, but all of which added to the experience, the versatility, the self-reliance of a great people."—Industrial News-Review.

When greens are washed, sand and grit may be removed by lifting the vegetables from a pan of water rather than pouring the water off.

Two Minute Sermon (By Thomas Hastwell)

The Way of Happiness and Content: Every man who has suffered from physical ills due to wrong living habits, the eating of improper foods, irregular hours, and abuses of his physical being, knows that it is not possible to violate the laws and escape payment for his wrong doing. Nature has a way of making us pay for everything we wrongfully take from her. This payment is exacted whether we willfully err or err in ignorance, nature makes no allowances for ignorance. In like manner no man who violates the laws that have to do with the spiritual side of living ever escapes payment in full for his wrong doing. As it is in the case of his physical being so it is with his spiritual being. The rules of a good physical health may not always be known. One may not always know the habits and the practices that will bring injury and suffering to the physical being, but the rules for a healthful spiritual being and inner life are clear and simply written in the teachings of Christ. They are more infallible than the rules of physical health because they never fail to insure a life of inward harmony and happiness and content.

Heads New OEW

Leo T. Crowley, above, has been appointed head of the newly created Office of Economic Warfare and will take over the functions which President Roosevelt transferred from the Board of Economic Warfare and the Reconstruction Finance Corporation.

MORE TURBINES FOR UNCLE SAM

General Electric will produce more than 11,000,000 horsepower of steam turbine propulsion equipment this year for U. S. Navy and Maritime Commission ships of many types, according to E. O. Shreve, vice president of the Company. This is seven and one-third times greater than the Company's production of turbines in 1941.

Cheese contains high quality protein, calcium for bones and teeth, and riboflavin of the vitamin B family.

While Rome Burns

If high military men began bickering over how the war should be run and accusing each other of incompetence, it would not be long before something was done. Public indignation would force correction.

The men responsible for food production and distribution are as vital of the war effort as the military men. After the war, the food command will exceed the military command in importance. And yet the country is standing by while disruptive influences of chaotic proportions tear apart a high war agency dealing with food—the OPA.

Resigned OPA general manager, Lou Maxon, says: "In my estimation there still is no realistic workable over-all food program. Operation in this vital field has been strictly catch-as-catch can, and OPA moves have often been

directed by expediency rather than by long distance planning. . . the idea of OPA planning and executing any food program without utilizing the best extent the knowledge and complete co-operation of the administrator's people and the culture is just plain nonsense."—Industrial News-Review.

"Promiscuous granting of checks and blanket powers to arrogant bureaucracy, higher taxes, and eventual destruction of our American government."—Joseph C. Martin Jr., U. S. Representative, Massachusetts.

A University of Texas graduate has been awarded a Guggenheim fellowship in music composition. He is Arthur Krout, professor of music theory, former Phix de Rome fellow holder.

Canadian Invents Jeep On Snow Shoes Carries Six Fully-Equipped Soldiers

The weird-looking vehicle plowing through a snow drift in the top photo is the Canadian Army's favorite winter buggy. Capable of "sailling" over the deepest snowbank, it is the invention of J. A. Bombardier, of Valcourt, P.Q. (lower right). A snow jeep under construction is shown in lower left photo.

ON and off for two winters, the old farmer had been shouting encouragement to the neighbor's boy. In a Rube Goldberg contraption, consisting of two sleds and an old engine, the lad had been vainly trying to climb a steep incline leading to the woods. Finally, one evening, the farmer rushed into the house crying to his wife: "He's made it! He's made it! I knew he'd do it!"

That was twenty years ago. Today, that boy, Armand Bombardier, now 35, is still turning out weird conveyances, but these are real snowmobiles and he is leading them to the Canadian army. Experts in the Army Engineering Design Branch of the Department of Munitions and Supply, agree that his invention is just the thing for personnel transport across the snow-

bound countryside, carrying as it does half a dozen fully equipped men over the deepest snow.

His featherweight snowmobile is a plywood vehicle mounted on wide snowshoe-like tracks. It is equipped with skis at the front and is propelled by a rugged 95 h.p. engine located at the back. With a speed of more than 25 miles an hour, it can go anywhere a skier or snowshoer can. The secret of its mobility lies in its extremely supple suspension. Its tracks are supported by specially designed pneumatic wheels, four on each side.

Armand Bombardier has lived all his life in the small Quebec settlement of Valcourt in the hilly Eastern Townships. Years ago, the village was completely isolated during the winter months and the idea struck the young inventor that he

should devise some vehicle which would travel over the snow covered hills to the neighbouring towns.

Leaving school early—he had virtually no technical training—he opened a garage, making sure there would be plenty of space for his snowmobile experiments. He built scores of models, labouring late at night designing springs, improving motors. He tried every form of propulsion including propellers. These, however, he discarded when he became convinced that traction was his only solution.

Like most inventors, he was butt of many jokes, and few took him seriously. They all changed their minds, however, when, in 1936 he succeeded in turning out a model which performed marvels in the deepest snow.

CAN'T YOU SLEEP?

WHEN the stress of modern living gets "on your nerves" a good sedative can do a lot to lessen nervous tension, to make you more comfortable, to permit restful sleep.

Next time a day's work and worry or a night's wakefulness, makes you Irritable, Restless or Jumpy—gives you Nervous Headache or Nervous Indigestion, try

Dr. Miles Nervine (Liquid or Effervescent Tablets)

Dr. Miles Nervine is a time-tested sedative that has been bringing relief from Functional Nervous Disturbances for sixty years yet is as up-to-date as this morning's newspaper. Liquid 25¢ and \$1.00. Effervescent tablets 35¢ and 75¢. Read directions and use only as directed.

Notice to Subscribers

Owing to the fact that the Government is requiring all newspapers to cut down on their use of newsprint, and also the fact that newsprint is advancing in price, The Foard County News will not offer a bargain price of \$1.50 per year during the fall months, as it has been doing for many years. Conditions will force us to charge the regular price of

\$2.00 per year in Foard and adjoining counties, including Zone 1, and the price outside the local territory will be as follows

\$2.50 per year
\$1.35 Six months
.75 three months

This problem has been facing us for several months and was considered from every angle before the decision was made to charge the regular price for yearly subscriptions in the county and adjoining counties and to raise the price on papers going to distant points. We do not believe our friends and customers would want us to take subscriptions and conditions become such that it would make it hard for us to carry out the contract. When we take a subscription for a year we are making a contract with some individual to send him the paper for a year, regardless of what may happen. That's the reason it is necessary to be cautious at a time like this when general conditions are so uncertain.

Some daily papers have ordered agents not to take orders for any new subscriptions; however, renewals will be accepted.

We appreciate the excellent subscription business extended to this paper the past year—it has met with our fondest expectations during the past few years, for which we are deeply grateful. We expect to put forth every effort possible to print a weekly newspaper worthy of the patronage it now receives and it is on this basis that we solicit the renewal of subscriptions.

Respectfully yours,
THE FOARD COUNTY NEWS

M., a public hearing will be held in the office of the County Judge in Crowell, Foard County, Texas, for the purpose of consideration by the Commissioners' Court of the budget as prepared for said county for the coming year. Any taxpayer shall have the right to participate in said hearing.

LESLIE THOMAS, County Judge, Foard County, Texas. 7-2tc

Danger At Home

Accusing a person of complacency toward the war is tantamount to an insult. Everyone likes to think he is doing his part to achieve victory and doesn't like to be told otherwise. There is no such explosive reaction, however, when complacency is charged with respect to domestic issues. Many people believe domestic issues are something for politicians and theorists of doubtful ideals, to settle among themselves.

A revolution is impending in this country. It may be a bloodless revolution, but nonetheless a revolution—a revolution about which no freedom-loving American can be complacent. At the present moment, the country is existing in a vacuum. Irrespective of our apparent unanimous pride in the achievements of private industry in producing for war, the stage is being set for the substitution of government-owned industry on a large scale for privately-owned and operated industry. This is revolution. It is revolution because it will change our form of government.

No government can govern and employ the people it governs, and still remain democratic. So far, the people do not seem to realize this. As they do, they would not sit back and complacently allow the power industry to be slowly socialized. They would be fearful of labor legislation which promotes government ownership, as in the case of coal mines; they would be alarmed over the fact that a large percentage of industry is already owned outright by government as a result of the war emergency; they would be militant that agencies of government, supported by the taxes they pay, are "planning" the deliberate destruction of the American system of free enterprise, by permanently socializing the natural resource and transportation industries.

The same kind of complacency which very lately led to military disaster, is now quelling our sensitivities to dangers at home. The depth of the danger can be measured in the words of Fulton Lewis Jr., nationally known radio commentator: "... To me it is shocking and frightening in the extreme that those in Washington who conceived the four freedoms didn't have sufficient acquaintanceship with real Americanism to have included in their list the most important and the most vital freedom of all... Freedom of individual Enterprise."—HUGHES, TIME NEWS-REVIEW.

Consumption of electricity in Texas jumped 45.4 per cent during June over May, University of Texas Bureau of Business Research records show.

CHURCHES

Christian Science Church Sunday services at 11 a. m. Wednesday evening services at 8:00 o'clock. Sunday School at 10 a. m. Sunday, August 22, 1943. Subject: "Mind."

St. Joseph's Catholic Church Time of Masses: October-April (inclusive), 1st Sunday at 11:00. 3rd and 5th Sundays, 9:00. May-September (inclusive) 1st Sunday at 10:30. 3rd and 5th Sundays, 8:00.

Assembly of God Church Services Tuesday and Friday nights, 8:30 o'clock. Sunday School 10 a. m. Morning service 11 a. m. and Sunday evening service 8:30 p. m. Every one is invited. WARREN EVERSON, Pastor.

Christian Science Services "Mind" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, August 22.

The Golden Text is: "Great is our Lord, and of great power; his understanding is infinite" (Psalms 147:5).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "The entrance of thy words giveth light; it giveth understanding unto the simple" (Psalms 119:130).

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "Few deny the hypothesis that intelligence, apart from man and matter, governs the universe; and it is generally admitted that this intelligence is the eternal Mind or divine Principle, Love" (page 270).

Weekly Sermon

By George S. Schuler, Member of Faculty, Moody Bible Institute, Chicago.

What Is in Thine Hand?

Text: "The Lord said unto him, What is that in thine hand? And he said, A rod. And he said, Cast it on the ground. And he cast it on the ground, and it became a serpent. ... And the Lord said unto Moses, Put forth thine hand, and take it by the tail. And he ... caught it, and it became a rod." Exodus 4:2-4.

The dividing point between Moses-the-weak and Moses-the-strong-and-mighty was when he threw down his staff at the command of God—and received it back as a scepter, the symbol of power in the hand of Israel's first great leader.

Important to Moses' livelihood, for a shepherd is at a disadvantage without his crook, this rod was of no value in God's work. Moses saw the rod from God's viewpoint when he threw it to the ground, for it became a repulsive serpent. So many seemingly valuable things or accomplishments reveal their worthlessness and harmfulness when thrown down before God.

Had Moses not obeyed God's command; had he argued with God regarding his dependency upon the rod; had he rebelled or resorted to excuse-making, he would have missed having his name emblazoned upon the pages of world history. Has God asked you to throw down this or that? If so, do not hesitate. And do not be too inquisitive, for God rewards obedience—obedience not because of blind faith, but because of God-assuring faith.

Strangely enough, that which Moses cast to the ground God gave back to him—but so changed as to become the envy of world leaders throughout the ages. How graciously God deals with His own! He never asks that we give up anything without abundantly reimbursing us.

Had the rich young ruler known this fact he might have cast his riches to the four winds gladly, but instead he kept them, only to go away sorrowful. What an opportunity he missed!

The lad with the five loaves and two fishes was called to cast away his lunch, and when he gladly gave it up, Jesus rewarded him with twelve baskets more than he could consume.

"What is that in thine hand?" asked God. "A rod," answered Moses. "Cast it to the ground," commanded God. Similarly God may be speaking to you. Will you obey Him? The blessing will be yours, with life abundant, if you will heed His voice.

HOUSEHOLD HINTS

To prevent mildew of leather articles during the summer, they must be kept in dry, well-lighted, well-ventilated places. Raisins will not sink to the bottom of cake batter if they are greased before being put into the batter. Fish and seafood should be used as soon after purchasing as possible. To store fish, wrap it in wax paper and place just under the frozen food compartment.

Already catalogued for publication in the forthcoming encyclopedia Handbook of Texas are more than 10,000 topics. The two-volume history will be published in 1945 by the Texas State Historical Association. University of Texas historians are compiling the work.

THE POCKETBOOK of KNOWLEDGE

Your Horoscope

August 16, 17, 18, 19.—You are brilliant, impulsive, generally fiery, impatient of control or dictation, but sympathetic, loving and true. You are extreme in almost every way. You are very intense in your likes and dislikes. The ease with which you learn leads you to undertake too many things at once.

August 20, 21, 22.—You are impulsive, reckless to a certain extent, and have a tendency toward rule and authority. You want to do everything in your own way, but are impatient of criticism. As a reader your tastes are decidedly scientific. You have much shrewdness that is not always manifested in the most desirable way. You want everything as nice as possible but you are willing to share the pleasure of possession with others. You are a decided success as an entertainer, as you will not stay in the background nor allow anyone else to. You will give and demand love without limit.

SAFETY SLOGANS

A poor man to work with is one who takes chances. The value of carefulness cannot be measured. One man's effort toward safety may be small, but all together we may do a great deal. The corner stone of efficiency is safety.

Shower in Honor of Recent Bride at Poland Home

Mrs. Randall L. Tollous, formerly Miss Ruth Diggs, was named as honor guest at a lovely miscellaneous shower Tuesday evening at the home of Mrs. H. D. Poland when Mrs. Lewis Ballard, Mrs. Morris Diggs and Miss Sammie Jones shared hostess duties with Mrs. Poland.

Mrs. Morris Diggs greeted the guests after which they were presented to the honoree, her mother, Mrs. John Diggs, and her aunt, Mrs. Fred Diggs. Miss Jones presided at the bride's book where the guests were asked to register.

In the dining room, the table was covered with a lace cloth and white candles burned in candelabra at either side of the punch bowl. Misses Rita Faye Callaway and La Verne Archer served punch.

In the gift room where the numerous lovely gifts were arranged, Miss Betty Zeibig presided.

WESLEYAN SERVICE GUILD

The Wesleyan Service Guild met in regular session at the home of the sponsor, Mrs. M. S. Henry, on August 12. The routine of business was conducted by Miss Blanche Hays, the president.

The following program was then given, under the leadership of Mrs. Carrie Hart. The devotional was presented by Miss Reed Sanders, the theme of which was "Missions." Her comments highlighted the well-known scripture spoken by Christ, "Go ye into all the world and preach the gospel to every creature."

If the religion of Christ is not big enough for the Chinaman, it is not big enough for the American. If the church is not big enough to carry it to China, it is not big enough to carry it with efficiency across the street or around the corner.

were thoughts brought out by Miss Sanders.

"God's Life Line" was presented by Miss Dorothy Erwin. She told of Dr. Daniel Poling's visit to the far-flung battle lines on an investigation tour of the work of the chaplains of various churches. He found the chaplains to be tireless and fearless in their labors, and that they brought comfort and cheer to the living as well as to the dying soldiers.

"The Origin of the Bible" was given by Mrs. Claude Brooks in an interesting way. For 2,500 years, the world had no Bible, however, Mrs. Brooks stressed, with or without a Bible, there have always been two witnesses for God and they are, the works of God's hands and the conscience. Altogether, about 40 persons, in all stations of life, were engaged in the writing of the Bible, the work of whom was spread over a period of 1,600 years, that is, from about 1500 B. C. when Moses first started to write the Pentateuch amid the thunders of Sinai, to about A. D. 97 when the Apostle John, himself a son of thunder, wrote his gospel in Asia Minor.

During the social part of the evening's program, Miss Hays tested the efficiency of those present in associating Bible names with Biblical history.

Misses Beulah Patton and Mayme Lee Teague were guests of the Guild at the meeting.

Mrs. Henry Johnson and Grandson Honored on Their Birthdays

Mrs. Henry Johnson was honored Sunday at her home with a get-together for friends and relatives, the occasion being her birthday and that of her one-year old grandson, Ronnie Owens.

Two pretty birthday cakes which were baked by Mrs. Jim Shook decorated the dining table. Mrs. Johnson's cake was attractively decorated with pink icing roses and the words "Happy Birthday" while that for the baby held one tiny candle. The cakes were served with home-made ice cream.

The following were present: Mrs. Johnson, her husband and children, Julia Rose, Ginger, Jimmy, Jeannie and Taylor; little Ronnie Owens and his father and mother, Mr. and Mrs. Eugene Owens; Mrs. Lona Riemenschneider and little daughter, Joan Rose of Elgin, Texas; Mr. and Mrs. Bryant Johnson and children, Winifred, Reese Ann, Olan, Lee and Henry Edgar; Mr. and Mrs. Charlie Carroll, Mr. and Mrs. Jim Shook and Mr. and Mrs. Glenn Shook.

STORY HOUR

Mrs. Verne Walden will be in charge of the story telling this week on the lawn at the rear of the Methodist Church between the hours of 6 and 7. The recreation will be directed by Betty Seale and LaRue Graves.

Every child who cares to hear

the stories is invited to attend. There have been large crowds of children attending. The story hour is being sponsored during the summer by the Crowell Parent-Teacher Association.

FOARD CITY H. D. CLUB

On Thursday evening, August 12, members of the Foard City Home Demonstration Club entertained their families with a picnic at South Pocket Park. It was a beautiful moonlight night and the park table was loaded with delicious salads, fried chicken and pastries. And, certainly there was no rationing of pleasure.

Following the supper, the children played games while their parents discussed everything from recipes to world chaos. A plane, on night maneuvers, circled overhead, its green and red lights glowing and this brought on a hilarious account of "My First (and usually last) airplane ride," on the part of those present.

It was a thoroughly enjoyable evening for some seventeen members and families and one guest, Miss Shannon of Vernon.

Sanitation Great Help in Control of Poliomyelitis

Austin—Dr. Geo. W. Cox, State Health Officer, has issued the following statements and suggestions concerning the control and prevention of poliomyelitis which is assuming epidemic proportions in certain sections of the State.

Until recently it was generally believed that this infection is transmitted by means of discharge from the respiratory tract. It is now believed that poliomyelitis is primarily another of the several gastrointestinal infections. Therefore, control measures must emphasize clean-up campaigns and improvements in sanitation.

Strict sanitary measures must be observed in all communities. Stringent efforts should be made to eliminate the house fly and to destroy its breeding places. All mosquitoes and mosquito breeding places must be eliminated at once. Every effort should be made to institute approved garbage collection systems immediately. Safe water supplies must be assured. Where adequate municipal sewage disposal systems are not in operation, it is vitally important to promote and maintain sanitary septic tanks and outdoor privies. All swimming pools should, under rigid supervision, maintain those standards approved by the Texas State Department of Health. This necessarily includes maintenance of proper chlorine level. Where such standards are not maintained, those pools should be closed immediately.

All raw foods and vegetables should be washed thoroughly before use and protected from flies and insects. All eating and food handling establishments should adhere strictly to the state law concerning the sterilization of dishes and utensils. In the present emergency, those restaurants with insufficient personnel to maintain approved sanitation should close one or two hours a day so that employees can assist in maintaining cleanliness and high sanitary standards.

Every effort should be made to secure approved milk. Rats and mice should be eliminated. Maintain in the home the same sanitary standards that are necessary in community life. Particular attention should be paid to personal hygiene. Excreta from cases and contacts should be handled and disinfected with the same scrupulous care as in typhoid fever or bacillary dysentery.

Over-exertion in children should be avoided. Children should not visit homes where there is a sick child. Cases should be quarantined for 14 days and adults who work in food establishments should be particularly instructed in personal hygiene. It is advisable to reduce to a minimum all human contacts, especially in children, during an outbreak of this disease. It is not advocated that schools, churches and theatres be closed.

Early symptoms of infantile paralysis are headache, fever, vomiting, drowsiness, followed by stiffness in the neck and back. When suspicious symptoms appear, a physician should be called immediately.

Of the 100,000 farms owned by insurance companies as a result of the depression years, between 80,000 and 85,000 of them have been sold, according to the Institute of Life Insurance. It is predicted that before another year the balance will be sold. During the time they held them insurance companies spent \$100,000,000 in improving the properties as to buildings and soil. Fifty per cent of the sales were to tenant farmers whom the insurance companies placed on the farms; 10 per cent were bought back by the farmers who mortgaged them and 17 per cent by other farmers. Ten per cent were sold to investors and 10 per cent to miscellaneous buyers. Three per cent went to city dwellers returning to farms.

As an aid in the transportation problem in the neighborhood of Seattle, Wash., the Savidge Co. of Seattle has been converting five passenger cars into fifteen passenger buses. The five passenger car is sawed in two just back of the front seat. A section several feet long is built in, the drive shaft lengthened, and the rear assembly and back half of the car attached. The result is a fifteen passenger vehicle. The new elongated autos have been nicknamed "Dachshunds."

Getting Ready to Plant Fall Gardens

(ELIZABETH ELLIOTT, County Home Dem. Agent)

Prospects for fall gardens in Foard County are not so encouraging now as far as the prevailing moisture is concerned, but we can be hopeful. In the meantime there are some things that can be done in preparation for a fall garden.

Getting the Soil Ready

Before plowing the soil, cut and remove all weeds and vegetable plant refuse. These harbor and breed insect pests. Be sure to remove the weeds. If turned under, molding and heating takes place, which dries out the top soil and prevents thorough cultivation. Where manure is available, spread a coating over the surface of 3 or 4 inches and plow it in to a depth of 4 or 5 inches. It serves to increase the water holding capacity of the soil and prevents packing. Rotted compost may also be used to improve soil tilth.

Do not plow the fall garden more than 4 or 5 inches deep. Deep plowing tends to dry out the soil and more moisture is required to wet a deep seed bed than a shallow one. After plowing, break up all clods and lumps, rake the soil fine and smooth before

sowing the seed. Give a New Lease on Life to Left-Over Summer Vegetables. Gather all ripe or mature products from okra, tomato, pepper, eggplants, lima beans, pepper, eggplants, lima beans, prune off injured limbs; prune tomato plants back to 3 or 4 vigorous sprouts.

Making the First Planting

Heat resisting vegetables should be planted first: beans, Irish potatoes, mustard, leaf lettuce and radishes. These vegetables must mature before frost.

Irish Potatoes

The Bliss Triumph and Katandin varieties are satisfactory for fall planting, and require a growing period of 70 to 85 days. Small potatoes from the spring planting are suitable for fall seed, provided they have had a rest period of six weeks. Potatoes no larger than a 50c piece may be planted whole. To encourage sprouting, spread the potatoes on the ground in the shade, about a week or ten days before planting, and cover with damp sand, shavings, sacks, or straw. Keep them moist until sprouting begins, then plant at once, dropping them 14 inches apart in rows four to five inches deep, and three feet apart. Do not plant sprouting potatoes in dry soil. Make the soil moist by irrigating a day or so before planting. Keep the potatoes supplied with adequate moisture after they come up and begin to grow. Katandin variety produces

potatoes close to the surface, therefore the soil should be pulled up around the body of the plants when they are about 10 inches high.

Beans

Inoculate with nitrogen bacteria to simulate quick growth. Sow four to six seed per foot, covering one to two inches deep. If all the seed germinate, thin the plants to four inches apart. Limited moisture at this season makes it necessary to give plants more space in the row. Stringless Green Pod and Refugee are good varieties for fall production. Pinto beans are heat resisting and give larger yields than the others but have poor quality for use as fresh snap beans.

Leaf Lettuce

The early planting of lettuce should be of the leaf type only. Head lettuce is a cool season plant, and must be planted later. The Grand Rapids and Black Seeded Simpson varieties of leaf lettuce are recommended for the first planting of lettuce. Cover seed only one inch deep.

Mustard

The Tendergreen and Southern Curled varieties are recommended. If possible, make two or three rows in order to have fresh, tender greens maturing throughout the season. Greens are best in quality when the leaves are small and tender.

LIBRARY NEWS

The following books have recently been added to the library: "Your Flag Mine" is a book of poems America and Americans are expressing the timeless pride and love for the Stars and Stripes. "Give us a Nation, and I care not who its laws." "Your Flag and I" will help Americans to be Americans.

"Free World Victory" by W. Wallace, vice president of the United States, is an address given by the author to the Free World Association at the Hotel Commodore in New York City. Raymond Gram Swing, vice president formulates and adequately the ideals for which we are fighting.

The Library is at the disposal of all citizens and the support of the worthy project is very appreciated.

If Hitler wins, the world for you will be living in a cage and not just the cost of living. Think that over and are it out for yourself much beyond 10 percent your family income you should into War Bonds every payday.
