

THE FOARD COUNTY NEWS

AND CROWELL INDEX

THIRD YEAR NUMBER 13

CROWELL, FOARD COUNTY, TEXAS, THURSDAY, SEPTEMBER 23, 1943

\$2.00 A YEAR EIGHT PAGES

One Down, Two to Go

Five days after Allied forces swarmed across Messina strait onto the land of Italy, that country surrendered unconditionally, culminating in the final phase of the war in Italy victoriously finished, the Allies have broken the Axis triumvirate, leaving Germany and Japan to be defeated.

Untangling One of Two Limited Wrecks

Crane cranes lift battered coaches of the Congressional Limited which wrecked in northeast Philadelphia, killing 78 and injuring 123. Eleven coaches later, the 20th Century Limited was wrecked two miles east of Lancaster, N. Y., killing three and injuring seven. The first wreck resulted from a burned out axle journal, the second from a boiler explosion.

Ships in 11 Days—a Wartime Record

A wartime record is shown in this photograph of 10 Liberty ships lined up at Los Angeles, Calif., where 10 vessels were launched in 11 days. The yard is America's largest single producer of Liberty ships and ordinarily launches a ship every 36 hours. These extra vessels just happened "bunch up."

Beat Inflation by Buying Bonds!

The most important of all means for war financing is you. The First War Loan you piled one and one-half million dollars in War Bond purchases. In the Second War Loan your record was three and one-quarter billion dollars. What is expected of you in the current Third War Loan? At least twice as much as your best previous effort. Your personal objective must be at least one \$100 War Bond addition to what you are buying regularly through the payroll savings plan or other means. Seven-eighths of all our current swollen national income goes to your pocket. If you hoard that money or spend it bidding against your neighbors for things you can get without you will bring disaster to your home as great as a blockbuster bombing. If you do the right thing, that means backing up your money in the fighting forces—you will be helping to defeat inflation at the same time helping yourself to better your future prospects.

County Federation Will Meet Sept. 30

The Columbian Club will be hostess club to the Foard County Federation of Women's Clubs at its first meeting of the year next Thursday, September 30, at the Adelphi Club House. The meeting will open at 10:30 a. m. Mrs. N. J. Roberts will serve as program leader and the main topic will be "Texas." Mrs. Virgil Johnson will give the devotional on the theme "Harvest." The business meeting will be held at the morning session. "The Eyes of Texas" will be sung by the group. Mrs. G. H. Kinchloe will discuss "Tom, C. Clark—Able Texan." Mrs. Clois Orr will tell of "The Town without a Toothache" and Mrs. Roberts, leader, will talk on "Texas in the War." The usual covered dish lunch will be served at the noon hour, after which Mrs. L. A. Andrews will talk on "Paul Revere and the World He Lived In."

ROTARY CLUB

Rev. G. O. McMillan, new pastor of the First Christian Church, was the speaker on the program

Second Game of Season for Crowell High School Wildcats Will Be Played Tomorrow Night in Quannah's Stadium

The Crowell High School football team will journey to Quannah tomorrow night to play that class AA team for its second game of the season. Due to Quannah's 18 to 6 victory over the strong Altus, Okla., team last week, the Wichita Falls Record-News has picked the Indians to take the measure of the Wildcats in this game. However, the Crowell boys are not conceding the Indians anything and mean to scrap their old AA rivals all the way. Quannah has eight regulars back from last season's team and three of these boys, Bobo, Naron and Reese, are in the back field. Crowell did not have a returning backfield man this year and much experience is needed in that department before Crowell can gain its full strength. Coach Graves plans on starting the same lineup that came out victorious over the Floydada Whirlwinds last Friday night. Crowell's line, led by Captain Gordon Erwin, all district tackle from last year, looked swell last week and Coach Graves thinks his charges will have a chance to win if he can get his new backfield to clicking like it did in the last quarter of last week's game. This will be the only out-of-town game that the Wildcats will play that is close enough for the fans to follow, so if it is at all possible, let's go over to Quannah Friday night to give our boys their deserved backing.

Back the Attack!

Invasion today means countless numbers of young Americans seizing beach heads and forcing their way into enemy and conquered lands. A few years hence Americans will be treated to a different kind of invasion. It requires little imagination to foresee the conquering tide of returning War Bond dollars which will begin their welcome invasion of American homes in 1951. The first of the War Bonds to mature will start their march back to the lenders in May, 1951.

In May of that year millions of War Bonds will mature; come back home at the rate of \$4 for every \$3 which goes into today's attack on Hitler and his partners in crime. "Back the Attack with War Bonds"—the Third War Loan slogan—becomes today's imperative war job for the home front. A few years hence this same slogan will acquire a vital peace-time meaning for all of us because our maturing War Bonds will back the attack for better living.

Executive Committee Meeting for 12-A Football Held Here

A meeting of the members of the executive committee of the Interscholastic League for District 12-A football was held in Crowell Tuesday afternoon. The committee is composed of superintendents of the following schools: Archer City, Crowell, Holliday and Valley View.

SCHEDULE

Sept. 21—Quannah, there.
Oct. 1—Matador, here.
Oct. 8—Valley View, here.
Oct. 15—Holliday, there.
Oct. 22—Seymour, there.
Oct. 29—Nocena, here.
Nov. 5—Childress, there.
Nov. 12—Archer City, here.
Nov. 19—Wellington, there.

GAMES PLAYED

Sept. 17—Crowell 13, Floydada 0
—Denotes Conference Games.
The following ways have been arranged to transport football boys to their out-of-town games:
September 24, to Quannah—Jack Seale, Marion Crowell, Brudge Andrews, I. T. Graves, C. G. Graves.
October 15, to Holliday—Marvin Myers, Hid Haney, I. T. Graves, C. G. Graves.
October 22, to Seymour—Hubert Brown, Brudge Andrews, I. T. Graves, C. G. Graves.
November 5, to Childress—Audrian Davis, Leslie Thomas, I. T. Graves, C. G. Graves.
November 19, to Wellington—T. B. Klepper, Merl Kincaid, I. T. Graves, C. G. Graves.

L. C. Johnson Dies at Tahoka Friday

L. C. (Lonnie) Johnson, 79, brother of the late W. Luke and Lat Johnson and Mrs. J. G. Thompson of the Thalia community, died at his home in Tahoka Friday, Sept. 17. Funeral services were held at the Tahoka Church of Christ Sunday afternoon at 3 o'clock and was attended by the following relatives from Thalia and Crowell: Mr. and Mrs. Walter Johnson, Mr. and Mrs. Will Johnson, Mrs. Elmer Roberts, Mrs. Gus Neill, Mrs. Walter Banister, Mrs. Tom Abston and Mr. and Mrs. John Thompson, of Thalia, and Mr. and Mrs. Grover Nichols of Crowell. Six daughters and two sons survive. They are as follows: Mrs. Beulah Joplin, Meadow, Texas; Mrs. Flossie Vaughn, Mountain Air, N. M.; Mrs. Winnie Garrett, Anton, Texas; Mrs. Maud Worthen, Elmora, N. M.; Mrs. Naomi Welch, Mountain Air, N. M.; Mrs. Hattie Bishop, Valyermo, Calif., and Claton and John Johnson, Tahoka, Texas. Two brothers, Walter Johnson of Altus, Okla., and A. G. (Doc) Johnson of Lindrieth, N. M., and 51 grandchildren and 17 great grandchildren, also survive. of the Crowell Rotary Club Wednesday at noon. Rev. McMillan gave a very interesting talk in which he pointed out the many responsibilities incumbent upon the men of today. J. A. Stovall, secretary, was in charge of the program.

Men in Service

R. G. Steele, son of Mr. and Mrs. Earle Steele, has graduated from a 12-weeks Engineer Officer Candidate School at Fort Belvoir, Va., and is now a second lieutenant in the Corps of Engineers, Army of the United States, according to a news release from the Public Relations Branch. Lieut. Steele entered the Army on April 15, 1943, at Ft. Bliss, Texas, and at the time was a civil engineering student and a member of E. O. T. C. in New Mexico State College. His wife lives at Madill Field, Fla.

Lt. H. K. Edwards, who has been in charge of the base weather office of the Lubbock Army Air Field, spent Saturday night here visiting his parents, Mr. and Mrs. H. K. Edwards. He left Sunday afternoon to report for duty at Jefferson Barracks, St. Louis, Mo.

Cpl. Mike Bird, who is taking officers' training at Ft. Sill, Okla., spent Saturday night at home visiting his father, D. N. Bird.

S-Sgt. Joe Eddy Jr. and wife of Camp Gruber, Okla., returned to Oklahoma Tuesday after spending a week here visiting his parents, Mr. and Mrs. Joe Eddy, and family.

Albert M. Sandlin, aviation student at A. & M. College for the past three months, spent from Sunday till Wednesday here visiting his parents, Mr. and Mrs. Arthur Sandlin, of the Vivian community. He has finished at A. & M., but will be assigned to another school upon his return.

Pfc. Earnest Lee Blevins, son of Mr. and Mrs. W. T. Blevins of Truscott, has recently arrived at Fort Snelling, Minn., according to a letter received by his parents. He saw lots of beautiful country on the trip and says it is cold up there.

Pvt. Carroll Thompson was transferred from the reception center at Camp Walters to Sheppard Field, Wichita Falls, about two weeks ago for his basic training in the Army Air Corps. Ptd. Thompson is the son of Mrs. Ed Thompson and entered the service July 13.

Staff Sgt. Audie Brown, who is stationed at Dexter, N. M., has been authorized to wear the Good Conduct medal for his first year, ending July 23, 1943, of good conduct and service in the U. S. Army.

2nd Lieut. Ted E. Longino, son of Rev. and Mrs. H. A. Longino of Crowell, is now at the Dodge City Army Air Field, Kansas, to take post-graduate instruction in the operation of the B-26 Marauder, the world's fastest and hardest-hitting medium bomber, according to a news release from the school.

Cpl. Irving Fish arrived here last week from Chanute Field, Ill., accompanied by his wife and baby daughter, Carole, for a visit with Mrs. Fish's mother, Mrs. R. J. Thomas, and family. Cpl. Fish has been transferred to Maxwell Field, Ala., and will report there for duty Monday. He is in the medical department of the Army Air Corps.

Pvt. Alton Roark, of the Marines, who has been stationed at San Diego, Calif., returned to this place Wednesday morning after a visit here with his parents, Mr. and Mrs. Jim Roark, and relatives and friends.

Lieut. Jim A. Hart, who is stationed at Camp Rucker, Ala., left this morning after having spent a few days here visiting his mother, Mrs. Carrie Hart, and other relatives and friends.

S 2/C Hughes Fish and his wife and baby daughter, Oline, arrived here from Washington, D. C., Wednesday afternoon for a visit in the home of his parents.

Kills 38 Japs

The first enlisted marine to be awarded the Congressional Medal of Honor is Platoon Sgt. John Basilone. He personally killed 38 Japs.

Thankful Celebrant

Mrs. Ann DeJoseph, who has a son in the U. S. Army, kisses the flag to show her joy that Naty, the land of her birth, has ceased hostilities against her adopted country.

Foard County Had Reached \$100,545.00 in Third War Loan Drive Last Saturday Night; United Effort Needed to Finish

The total amount of bonds purchased in the Third War Loan Drive for Foard County, up to last Saturday night was \$100,545.00. This amount represents about 65 per cent of the county's quota, which is \$157,600.00. This leaves about \$57,000.00 to raise yet. The National average on last Saturday was 65 per cent of the fifteen billion dollar quota, according to authentic reports. However, the average for Texas was only 45 per cent. So it is clear that Foard County is doing its part according to the national average. If Texas is to get its quota, every worker will have to put forth the supreme effort at this time.

Mr. and Mrs. Allen Fish, and her parents in Roaring Springs. They were met at Quannah by Mr. and Mrs. Fish. This is the first visit that Hughes has made home since he entered the service in February, 1942. He has been in the personnel department of the Navy at Washington.

Crowell Football Team Wins Over Floydada, 13 to 0

The Crowell High School football team opened its 1943 season here last Friday night with a 13 to 0 victory over the Floydada Whirlwinds. The two teams had been rated about even in strength before the game and for three and one-half quarters it looked like neither side would score but in the last five minutes of the game two touchdowns and one extra point to make the margin. Floydada had two good chances to score on a fumbled punt in the second quarter on Crowell's ten-yard line and a blocked punt in the third quarter on the eleven-yard line. The Wildcat line showed its superior strength in holding the Whirlwinds on both of these occasions. On the second of these attempts to score, Dudley, fullback for Floydada, dropped a pass over the goal line which could have easily been a touchdown.

Crowell's first score came from a well executed pass play just five minutes before the game was over. Cecil Parkhill, left end, took the ball from Kenneth Archer, full back, and after fading back, shot a twenty-five yard pass to Ray Tamplen, right end for Crowell, on the ten yard line, and Tamplen ran the remainder of the way for the touchdown. Archer plunged over the extra point to make the score 7 to 0. The ball had been placed on Crowell's thirty-five yard line on a nice return by Delmar McBeath. McBeath took the punt on his own thirty-five yard line, and after reversing the field, made a thirty-five yard return. He received some excellent blocking from Crowell's entire team to make this run possible.

The second touchdown came from a three-yard plunge by Pat McDaniel, John Carter and McDaniel each made twenty-five yard runs to set this counter up.

Crowell's guards, Bill Cox, O. C. Wharton and Kenneth Payne, were consistent in their downfield blocking throughout the last half. Gordon Erwin and Kenneth Archer, both all-district holders from last year's team, led Crowell's defensive play. However, Glen Taylor, Cecil Parkhill and Billy Fred Short and some of Crowell's other players looked good in this department. Perhaps this was the main factor that meant the difference in the two teams. George Allen, quarterback for Floydada, kept the Whirlwinds in the game. He made several nice runs and also stood out in defensive play. It was he that made the touchdown last year at Floydada to spell Crowell's 6-0 defeat.

The starting line-up for Crowell included Parkhill, Taylor, Wharton, Short, Cox, Erwin, and Billy McDaniel, McBeath, Carter and Archer. Starting for Floydada were Decker, Mize, Hall, Zetler, Tyler, Bridges, Womack, Allen, DuBois, Malphurs and Dudley.

Reserves who played for Crowell were Tamplen, Wisdom, Cunningham, Payne, Joy, Veceera, Jason and Sandlin.

IN DISTRICT COURT

The case of the State of Texas vs. Henry Harper, colored, was tried in District Court this week and the defendant was found not guilty. Harper was tried for the killing of another Negro and it was the only jury case to come before this term of district court.

Latest Report on Cemetery Donations

Mrs. N. J. Roberts, president of the Cemetery Association, makes a report of donations recently received for the support of the cemetery in the following words: "By these gifts, it is definitely determined that the work of the Cemetery Association can be carried on, in spite of the heavy expense of the recent clean-up program. "No place of its size takes greater pride in the general appearance of its cemetery than does Crowell. It is the final resting place of our pioneers and those we love and this is our way of showing our respect to their memory."

"We will not fail them. Thanks"

BACKBONE OF DEMOCRACY Grade schools, high schools and colleges are now in full swing all over the United States. It seems a fitting occasion to pay some deep and heartfelt respect to all these institutions, from the humblest to the highest—to our whole system of education.

Like every other phase of American life, education is feeling the strains of the war. The colleges are given over largely to military activities of enumerable kinds; the public schools have lost many teachers, at least temporarily, to the war or the war plants.

Some people, too, have a tendency to feel that education of any kind in war time is a pretty expensive luxury which might as well be curtailed along with gasoline and sugar.

Nevertheless, this popular, universal education system of ours has been the backbone of our democracy for generations; and if we keep our democratic system, we must keep our educational system as nearly intact as may be and wide open to improvements and innovations.

The purpose of education in the totalitarian countries is to mold children as early as possible into robots who will think, act, and live (or die) as slaves of the state. The popular education in a democracy is exactly the opposite.

Our schools and colleges exist for the sole object of giving the children the best possible chance to develop their characters, personalities, and talents for the better.

As long as we keep this philosophy in our system of public education and continue to beat down all efforts to replace it with totalitarian philosophy, our educational system will be safe for democracy in the United States of America.—Colliers:

LOCKER 44 Flash! To all students who will help us poor, tired, working dogs, (press club staff to you). Drop your news in Locker 44. In other words "Give us the dope!" Thank you.

WILDCATS RALLY IN FOURTH. TAKE FLOYDADA, 13-0 After a scoreless but hotly contested three quarters of football, the Crowell Wildcats launched a campaign to rid the menace of a scoreless tie game with the Floydada Whirlwinds at Wildcat stadium Friday night. The first quarter was mostly a punting exchange.

Then early in the second quarter the Floydada Whirlwinds drove to the three yard line. The good ole' Wildcats held for four downs on that spot. Again in the third quarter the Whirlwinds penetrated the ten yard line, and again the Wildcats held. In the last quarter the Wildcats shaped into a smooth-running team. With a pass from Parkhill to Tampien, the Cats scored the first touchdown of the game. Archer carried the ball over for the extra point. Later in the fourth period, Carter, supported by good blocking, drove deep into Floydada territory; then McDaniel behind the same good blocking made a run to the three yard line, and over for the second goal.

We are proud of you Wildcats; you showed in this exhibition that you could both take it as well as "dish it out."

VIVIAN (By Mildred Fish) F/O Franklin L. Evans left Thursday morning for his new station at Avon Park, Fla., after spending a furlough with his parents, Mr. and Mrs. E. T. Evans.

Mr. and Mrs. Ernest Crosnoe of Amarillo visited in the home of Mr. and Mrs. Allen Fish Sunday morning.

Mrs. J. W. Sandlin of Seminole, Okla., is visiting her son, Arthur Sandlin, and family.

Miss Myrtle Fish spent several days with her sister, Mrs. T. C. Sivells, of Ogden.

Miss Norma Jean Mathews spent Wednesday night with Essie Franklin of Crowell.

A baby boy, John Edward, was born to Pvt. and Mrs. Richard Davidson in the Vernon hospital Friday, Sept. 17. Pvt. Davidson is stationed at Camp Barkeley and arrived Friday for a visit with his wife and son. He returned to camp Sunday.

Mrs. E. T. Evans and son, Franklin, visited in the home of Mr. and Mrs. Gus Patton of Crowell a while Wednesday afternoon.

Woodrow Martin of Paducah visited Mr. and Mrs. Allen Fish and family Sunday.

Mrs. I. D. Gilbert spent Tuesday night with her sister, Miss Bessie Fish, of Quannah.

Miss Myrtle Davidson of Fort Worth is visiting her parents, Mr. and Mrs. Lem Davidson.

Miss Bevel Nelson, who has been working in Fort Worth, has returned home.

Mrs. Egbert Fish visited Mrs. H. H. Fish in Paducah Thursday afternoon.

Mr. and Mrs. Walter Simpkins of Broadmore spent Sunday with her parents, Mr. and Mrs. Lem Davidson.

Miss Bernita Fish of Five-in-One spent from Friday until Sunday with her parents, Mr. and Mrs. Egbert Fish.

Mr. and Mrs. M. S. Henry and Mr. and Mrs. T. B. Klepper of Crowell visited J. W. Klepper and Mr. and Mrs. Allen Fish Sunday afternoon.

Mr. and Mrs. W. O. Fish and son, Bill, and daughter, Mildred, visited Mr. and Mrs. H. H. Fish and family of Paducah Sunday evening.

WHAT ARE YOU DOING TO HELP WIN THE WAR?

Are you doing all you can to speed the winning of this war? You may say you are, but are you really? What about that show you went to see? Should you see that show or buy a war stamp with that money instead? Are you conserving what you have? Do you study hard and consistently, so that you can help build this world back after the war as it should be? Think it over, and then ask yourself the question, "Am I really doing all I can?" —By C. D. Campbell.

CHEER SECTION

The cheering section of Crowell High School had a rally Friday at noon. A large number of the student body was present to help boys and girls made Friday night, you'll know the results of that rally. We are grateful for the co-operation the student body gave Friday night and want them to do better tomorrow night because of the competition we are going to have. Remember, we want our team to win, and to do so they must hear our backing and not Quannah's. Make them hear you!

HOME ECONOMICS CLUB

The Home Economics Class III organized their War Savings Stamp Club Friday. The officers elected are as follows: Janice Ward, president; Betty Johnson, vice president; Clarence Roberts, secretary and treasurer; Mary Adkins, reporter; Virginia Mabe, Edith Blevins and Ruth Ribble, song leaders; Nell Thomson, Edwina Ross and Billie Morrison, program committee.

Buy war stamps and bonds! Let's win the war!

WHAT'S BUZZIN'?

Wash um face, clean um nails, comb um hair, catch um mails. Was not that a delightful way to start off our bit of news for the week? Read carefully for we have a lot of good news in the paper this week.

Seen together at the Senior social Wednesday night were the following couples: Charlie Winston (Holliday) and Betty Johnson (Jack Acres (Wichita Falls) and Estelle Autry, and Roy Joe Cates with Mildred Marlow, (and confidentially the hot dogs were delicious).

I am sure that everyone of the male students of CHS have noticed Miss Janice Ward, who is a Senior in our midst. However, to our sorrow, she is engaged. (Some lucky guy.)

Stantly Russell seems to be robbing the cradle. As you know, he was with Geraldine Davis Saturday night. Or did you? Jenny Mabe seemed to be doing quite well Saturday night with

R. J. Everson.

Flash! Captain Gordon Erwin has finally found his heart-flame—none other than Betty Handley of Mertzon.

The usual couple, the usual "place"—we're referring to "Doc" Wisdom and Polly Davis.

Margaret Davis is still following the footsteps of "her" Ex-senior, Bill Owens.

Boys! Have you noticed that certain twinkle in Dorothy Pecheek's eye?

From my point of view, it looks as if John "Rose" Rasor and Helen Callaway have a steady case. Don't you agree?

Congratulations, Wildcats! We knew you were going to beat Floydada. Now go to Quannah and beat the heck out of them. We're all behind you!

It looks like Ada Jane Magee is wearing the navy flag. Incidentally, the lucky sailor is "Bit Adams."

Janice Roark and Joan Gentry were seen with their favorite heart-throbs Saturday night, Edgard Johnson and G. B. Neill.

If any of the bright-eyed students of CHS have been looking around, you would see Pat McDaniel making eyes at Clairene Roberts. You are all right, Pat, unless Bill Broadlove beats you in time with her. They were seen together at the show Friday night. Clairene is also stepping out with Cecil Parkhill. (Ah! these moonlight nights!)

Frances Ann Ayers has just about hooked her man, one John Bradford, an ex-Senior of dear old Crowell High.

Jimmy Hawkins and Janet Roark are resuming an old tradition and are back going together. (What about Quannah, Jimmy?)

John Carter was stepping around trying to see a little girl from Quannah Friday night. Have any luck, John?

Ed Thomas was seen the other night with Evelyn Barker.

Gaylon Parris is another Senior robbing the cradle, he was stepping out with Sharon Haney, a freshman.

Girls! Have you noticed Delmar Paul McBeath lately? Well, have you realized your mistake, yet? Why not ask him for a date right now? (Incidentally he is

a foot ball player.)

There seemed to be quite a few stags at the dance Friday night; where was everybody?

Say! That Gordon Erwin gets around and I am not kidding. He and Frances Ann made eyes at each other, (I ain't Erwin!)

Looks like Roy Joe Cates is fixing to take over; so Nature Godwin thinks.

Tommie Eaton was escorted only by her girl friend, Ray Burrow. Saturday night something new, eh?

Something should be done about "Sister" Owens going around, escorted only by her girl friend, Crowell. The football fans are expecting your support at Quannah Friday night.

The Curran

JOKES

Sign on a blind beggar in Times Square, New York: "I now have \$42,768.06. Keep it growing."

Camp Matron: Private Eye was injured accidentally during maneuvers and only relatives are allowed to see him today. You a member of his family?

Girl Friend: Why-er, yes, I'm his sister.

Camp Matron: Oh, really? I'm glad to meet you. I'm his mother.

At a boarding house a man was sawing away at the joint of a leg of roast chicken.

At last, waving a handkerchief, a bottle of sauce which stood on the landlady's elbow, he said: "Pass the liniment, please, I'm Pherson. This scraggle is rheumatism."

Fleas always know that the children will go to the dogs.

CURIOS

And just the other day students who were walking happened to see a sign that said "Wet Paint!" Each one stopped and put his finger to the sign to see if the sign was true. Well, it so happened the sign was the truth!

Dr. W. F. BABER Optometrist Vernon Offices in Wilbarger Hotel Building Office Hours: From 9:00 A. M. to 6:00 P. M.

"A LUNCH-BOX FULL Isn't Enough!" for a DEFENSE WORKER It might satisfy—but just any hastily packed box of food won't give the strength that defense workers need and must have! It's those invisible little particles called "Vitamins" which have to be in that lunch box if I'm to have the "Fighting Food" that's necessary these days. Those precious food elements grow in fresh fruits and vegetables; they put the goodness into meats; but they have to be protected. The food in my lunch box is cooked on an electric range and stored with electric refrigeration before being combined tastefully and correctly into well-planned lunches. The electric industry, under business management, anticipated the needs of defense workers years ago—in advance of the present emergency. They went to work to build—in order to supply the power for appliances which make possible the preparation and preservation of food—so necessary on both the fighting and home fronts. God is my strength and power and He makes my way perfect. —II Samuel 22:33.

If some one would come to you and offer you a farm for \$3,000 with the understanding that the income from it would pay the taxes and upkeep on it and at the end of ten years the real estate dealer would give you \$4,000 for the farm, you would think it a splendid deal. That is the proposition that the Federal Treasury is making to every one today. Buy \$3,000 worth of bonds. Put them away for ten years and they can be cashed in for \$4,000. As deals go it looks like a good deal.

The most tiresome person is the one who always puts the wrong construction on everything his neighbors do, who believes everyone except himself has an ulterior motive in everything they do. Strange, but the latest gossip of the community always seems to gravitate to people of this kind. They always hear and repeat the unfavorable things they hear. It seems that they never hear the good things. People who tell the good points of others just don't visit with persons of that kind.

When winter comes and the thermometer drops to zero it is permissible with all the emphasis one can command to say, it is cold. One can even go further without violating the best usage and say it is very cold. But when August turns on its glamour and boils the tar out of the pavement and makes the sidewalks shimmer with rising heat can one say, "It is very hot today?" He cannot. He must confine himself to the irritating understatement, "It's warm today, isn't it?"

Hitler may be succeeded by Goering or some one else, but the Nazi idea of making slaves of the whole world is just the same as it always has been. There has been no change in this. The Allies are not going to be fooled by a false fact or a new front. Nazi-ism stands for the same thing that it stood for when it started out to rule the world.

Organized labor has set out to defeat the Congressmen and Senators who voted in favor of the anti-strike bill. The purpose is to intimidate Congress so that it will never dare in the future to be anything more than the subservient tool of this pressure group. When a democracy becomes the tool of any pressure group it ceases to be a democracy.

Some folks seem to be so constituted that they find fault with everything. Nothing seems to suit them. Nothing is done right by anyone. Such persons should make good inspectors in war plants. Nothing short of perfection would please them and even the perfect would be viewed with suspicion.

We are predicting that if the war lasts another year American genius is going to have the submarine licked. Even now it is all a submarine's life is worth to show its nose above the water. As the mortality rate among the submarines creeps up they are going to become less held in their operations.

HISTORY

Birthday of James Whitcomb Riley—October 7: James Whitcomb Riley was born in Greenfield, Ind., October 7, 1853, and died in 1916. He is one of the few persons whose birthday was generally observed while he was still alive. In 1912, four years before his death, arrangements were made to celebrate his birthday in nearly all of the public schools in Indiana. On the occasion of the first celebration of his birthday, Riley went from his home in Indianapolis to his birthplace, Greenfield, Ind., to be the guest of the school children there. As he entered the town he was met by 800 school children bearing flowers which they threw in the car until Riley was almost covered by them. In 1915 in addition to the celebration in the schools a dinner was held in his honor at Indianapolis which many of the notables of the day attended. Riley's father was a lawyer but the profession did not appeal to his son. He took up sign painting. Then he joined a company of strolling players for whom he wrote songs and plays. In 1873 he went to the staff of the Indianapolis Journal. His first efforts to sell his poetry were unsuccessful. He continued to write and was rewarded in at last finding a publisher. He traveled about the country reading his verse. His first book appeared in 1883. He was elected to the American Academy of Arts and Letters and received the gold medal of the National Institute of Arts and Letters.

The Boston OPA office reminds its complaining constituents that they should not become too impatient because they are being restricted in the use of a few items. "Our ancestors," the Boston OPA says, "got along without sugar until the thirteenth century, without buttered bread until the fifteenth century, without potatoes until the sixteenth, without coffee until the seventeenth, without matches until the eighteenth and without gasoline and cars until the twentieth."

The fellow who wrote the song "Yes, We Have No Bananas" lived ten years too soon. He should be here now to really know what it means to be without bananas.

Red Cross in Action

(Reprinted from New York Times Editorial of Aug. 19, 1943).

When the United Nations invaded Sicily seventy workers for the American Red Cross went with our troops. One of them, Russell L. Bullard, last seen on a landing craft with a combat unit, is reported missing. Others continued in line of duty, exposed to most of the dangers that faced the soldiers, though without the privilege of fighting back. As the fighting ends the Red Cross is continuing its customary services. Three American girls are working among the soldiers in the Sicilian hospitals, in addition, of course, to the nurses drawn from the Red Cross Reserve Clubs have been set up and "clubmobiles" operate along roads that only yesterday were under fire.

This is but one snapshot of the Red Cross at work. In New Caledonia, Australia, India, England, wherever there are American service men, there also, is the Red Cross. Through its efforts blood plasma to save the lives of wounded men comes into far-flung hospitals and close to the front line. Its medical and surgical supplies go everywhere, including Russia. It follows the soldiers into the prison camp, far beyond help from other friends. Even there it communicates with him, gets food packages to him, and sometimes brings out messages. Only this week the millionth food package for prisoners went out from the Red Cross Packaging Center in this city. A returned prisoner, Ambulance Driver Mortimer Bellshaw, was present to tell what such packages had meant to him and his companions in misfortune. The American Red Cross has a glorious reputation to live up to. It is not falling.

What We Think

(By Frank Dixon)

Already isolationists and others are at work in an effort to secure a relaxation of the terms of unconditional surrender for the Axis announced at Casablanca.

To make their pleas more acceptable, and in an effort to overcome the widespread feeling in favor of unconditional surrender, these individuals are seeking to popularize their cause by hanging on to it the plea that such a relaxation would hasten peace.

It is inconceivable that in the light of the failure of the impetuous and ill considered armistice with which World War I ended that anyone should rise up only twenty-five years later and ask for a relaxation of the terms of unconditional surrender as laid down at Casablanca.

In my opinion anything less than unconditional surrender would be a victory for the Axis. Hitler set out to conquer the world. In his state of preparedness, and the complete unpreparedness of the rest of the world, it was a good bet with anybody's money. It looked like a sure thing. Because it looked like a sure thing he imposed a program of ruthlessness upon civilization that has no parallel in history, the march of Atilla the Hun, not excepted.

Now that he realizes, as he must realize, that his chance to rule the world is gone, that his cause is lost, he would no doubt like to withdraw under a negotiated peace, while his country is still untouched by the ravages of war as the invaded countries know it.

To permit such a thing would be equivalent to conceding to Hitler the victory. True he has paid a big price for his murderous effort to rule the world, but not an excess price when one considers the stakes and the wealth and power that would have been his had he won.

It is not charged that those who are interested in securing a relaxation of the terms of unconditional surrender are deliberately working for Hitler and his program, but that they are unwittingly doing so. Their plea that such a relaxation might shorten the war and might save the lives of American soldiers is a plausible one. It might, but at the same time it would permit Hitler to escape the punishment that by every method of reasoning he richly deserves. Instead of being punished he would be paroled and left in a position to start over a new program to rule the world. To think anything else is to shut one's eyes to the known and proven facts of the German race. To do so would be equivalent to burying our heads in the sand and saying, because we wish peace there will be peace and because we do not want war there will be no war, no ambitious, power mad German to seek again to bring German might to rule the world.

Another thing, if anything less than unconditional surrender is considered, in my opinion, we will lose the support of Russia. Russia has too deep a wound, her outrage was too unjustified. She had paid too big a price to permit her to grow soft and mawkish and senile now. Russia has her mind made up, and unconditional surrender comes nearer fitting into her scheme of thinking than any wishful thinking of premature peace mongers.

In the light of history, in the light of known conditions and facts we should not be guilty of the same failure this time that was ours in World War I. The boys won the fight on the firing line and starry-eyed dreamers lost it at the peace table. We must not be again guilty of such a thing.

Demolitionist

A group of manufacturers who recently visited Fort Benning, Ga., were introduced to a fully equipped parachuting demolitionist—Lieut. Samuel Calhoun. Fort Benning is a parachute and infantry school. Air borne troops were credited by military authorities for much of the success of the Sicilian campaign.

This Is Our Battle

Courtesy of Country Gentleman.

30 YEARS AGO IN THE NEWS

Items below were taken in whole or in part from the issue of The News, Sept. 26, 1913:

One of the heaviest rains that has visited this county in many months fell Wednesday. The rain began to fall about 5:30 in the afternoon and continued at intervals during the night. It appears to have been a general rain.

Cotton is coming to the Crowell gins at a rate that has surpassed even the most sanguine cotton men of the county. The gin yards are crowded from early morn until late at night with wagons waiting for their turn. There is a reason for this. While other towns are paying only 12 and 13 cents for cotton and making a boast about it, our local buyers are paying that price for bolls, and a price right around the 14-cent mark for the good grades.

M. S. Henry and wife went to Quanah Tuesday. Mr. Henry returned on the afternoon train, while Mrs. Henry remained to protect her visit.

Miss Addie May Stephens of San Angelo is here visiting her former schoolmate, Mrs. J. C. Self.

Miss Rose Julian of Olustee, Okla., is a guest in the home of J. A. Wright of this city.

Mrs. J. M. Housouer and son, Roy, and Mrs. Guy Housouer, all of Wichita Falls, are visiting H. D. Poland and family.

To the Public: You are hereby requested not to drive wagons or buggies into the public school yard, nor upon the walk in front of the building.—By order of the Board.

F. Slatser, one of our poultry men, shipped out the season's first shipment of turkeys from this place this week. The shipment consisted of sixty fine birds, all Foard County products.

HOUSEHOLD HINTS For breakfast try hot baked apples stuffed with hot cereal served with brown sugar and cream. Dry salt sprinkled immediately on new fruit stains will prevent their being permanent. Well-cooked chicken livers make delicious filling for sandwiches, toasted or plain. Window screens can be washed with the hose. Use but a small quantity of bluing in the last rinse water for linens.

Sea Hog

A party of seamen on searchlight detail in the South Pacific found this hog which they have made their mascot. "Souie" has the run of her ship, a former liner, and never gets seasick.

New Russian Envoy

Andry Gromyko, who has been named to replace Maxim Litvinoff as Soviet ambassador to the United States. He has been attached to the Russian embassy and was in charge between Oumansky's recall and Litvinoff's arrival.

BONDS OVER AMERICA

For years our government has worked to improve conditions for our citizens everywhere. Bonneville Dam in Oregon is one of hundreds of projects erected for our benefit.

In Russia the Soviets with the help of American Engineers harnessed the waters of the Dnieper River. Hitler's Huns marched in and the Russians destroyed their greatest work of this generation.

It is estimated that there are about 12,000 conscientious objectors in this country who have refused military service. The C. O. received no pay while in camp. His cost amounting to about \$35 a month is financed by various religious groups or by himself. A few of the C. O.'s serve as stretcher bearers or ambulance drivers. These receive regular army pay. By far the greater number given work in camps far removed from the scene of fighting. Churches represented on the S. B. R. O. (National Service Board for Religious Objectors) are: Church of the Brethren, Mennonites, Friends (Quakers), Methodist, Disciples, of Christ, Catholic and Federal Council Churches.

How to keep the Good News Good!

THE WAR NEWS for the past few months has been mighty good for our side. And you can help keep it good. There's a big price tag on good news, on attacks and victories; a price tag of life, sacrifice, and cold hard cash. Our job here at home is to provide the cash. Plenty of it. Now!

Good news is born of action, action consumes material, material costs money. That's the reason for the Third War Loan that's now on. This

Third War Loan calls for every working man and woman to put extra money into Bonds in September.

Not just the 10% of your salary. Not just spare change. Not just left-over dollars. But extra, hard-earned, budget-saved, money. It's the way, today, to back the men who are doing the real job of sacrificing.

Buy Bonds—up to the hilt—today. Keep that news good!

WPB Priority Ratings For Red Cross Disaster Relief Speeds Rehabilitation

WIND RIPS ROOF FROM BARN—DEMOLISHES WAREHOUSE—Many farm buildings were unroofed or flattened by the terrific wind-storm which swept central Minnesota Friday night, September 11, 1942. Scenes like this, near Maple Lake, were common. This airview shows how the wind cut across one farm, ripping off the roof of the barn and leveling the machine shed. Lower photo shows workmen starting to rebuild a wholesale firm's warehouse after a tornado struck Berryville, Arkansas. Red Cross priorities for disaster relief speeded up the rehabilitation of these communities.

BROOKS Food Market

One Block East of the Square

It'll cost you an extra \$100 Bond

To look him in the eye!

HE'S AN AMERICAN SOLDIER.

Some day, if God is with him, he'll come home.

And when he does, you'll get the biggest thrill of your life if you can look him squarely in the eye and say, "I couldn't help you fight—but I did everything in my power to help you win!"

There's only one way you *can* say that... honestly say it. And that is to help him win *now*... when he needs all the help you can give him.

Today's particular job for you is to scrape together

every dollar you can—and buy an *extra* \$100 worth of War Bonds! That's *your* job in the 3rd War Loan!

It's not enough to buy your regular amount of Bonds. It has to be *more*. It has to be an *extra* buy—a little *more* pressure for the shoulder that's against the wheel.

REMEMBER THIS—you aren't *giving* your money. You're *lending* it to the government for a while. And you're making the best investment in the world.

TOWN and FARM

(A weekly news digest prepared by the OWI rural press section)

Ration Reminder
Gasoline—In 17 states of the eastern shortage area A-6 coupons are now good. In states where coupons become good September 15, old rations remain good through September 30. Period 1 coupons in new rations are good through December.

Sugar—Stamp No. 14 good for 5 pounds through October 31. Nos. 15 and 16 good for 5 pounds each for home canning through October 31.

Stoves—Stamp No. 18 good for 1 pair through October 31.

Meats, Fats—Red stamps X, Y and Z good through October 31. Brown stamps A and B good through October 2. Brown stamp C becomes good September 2 and remains good through October 30.

Processed Foods—Blue stamps U, V and W expire October 31.

Burlap Bag Quotas Removed
Quotas on farmers and packers purchases of new burlap bags for packing certain agricultural products have been removed for the balance of 1943. "Certain agricultural products" includes, but is not limited to, beans, cotton seed, feed, flour, meal, fruits, potatoes, vegetables and tobacco. The restriction on the bag sizes permitted for certain commodities has been relaxed to allow an additional size for each of two types of seed. A 1/2 bushel bag is allowed for hybrid seed corn, a 1/3 bushel bag for cotton seed. These are in addition to the sizes previously permitted.

No Dates On Kerosene Coupons
Persons who use small amounts of kerosene for domestic cooking and lighting may now get renewals for periods longer than the six months formerly permitted. This provision of a recent OPA amendment is to reduce the number of renewal applications by the consumer and the amount of paper work performed by the rationing board. The amendment provides that rations issued for domestic cooking and lighting will longer will bear dates of issue and expiration, and coupons may be used as long as they last. The rationing board may issue the ration for any period up to a year from date of application. The maximum ration allowed for domestic cooking has been increased to 30 gallons a month for the first seven persons. It was formerly 24 gallons for six or seven persons.

Approval For Use of Gaskets
Approval for use of gaskets, spouting, conductor pipes, and fittings in dwellings of two stories or less must be obtained from the War Production Board under a recent amendment to Order M-126. Formerly this approval could be obtained through the National Housing Agency.

Restrict Dry Onion Shipments
To insure orderly distribution for the short available supply of dry onions to the armed forces and civilians, all shipments in excess of 100 pounds in the 12 principal onion-producing states have been put on a permit basis by the Office of Defense Transportation and the Interstate Commerce Commission. Dry onion shipments by common, contract or private motor carriers and by common and contract carriers are subject to permits issued by the War Food Administration. Applications for permits should be made to local WFA representatives in the principal onion-producing areas — California, Colorado, Idaho, Indiana, Michigan, Minnesota, New York, Nevada, North Dakota, Oregon, Utah and Washington.

Report Good Wheat Crop in Italy
In spite of the war, the Italian wheat crop this year is believed to have been as large or even larger than the pre-war average, according to the Office of Foreign Agricultural Relations of the Department of Agriculture. The 1943 crop may have amounted to as much as 280 million bushels. That estimate compares with the official estimates of 269 million bushels last year.

Anti-Freeze Distributed
To insure an ample supply of volatile anti-freeze mixtures for passenger cars in 14 western states before cold weather sets in, WPB has ordered industrial alcohol manufacturers with national distribution to supply specified quotas to the states upon receipt of orders from dealers. Each state will receive a supply equal to one and one-half gallons per passenger car registered. States involved are Arizona, Colorado, Idaho, Kansas, Montana, Nebraska, Nevada, New Mexico, North Dakota, Oregon, South Dakota, Utah, Washington and Wyoming.

Notification of "Next of Kin"

Notification of "next of kin" of Naval personnel killed, missing, wounded, or captured — where death occurs within the continental limits — is generally by telegram giving such available information as may be divulged. In case of death this telegram is confirmed by a letter from the Secretary of the Navy, conveying condolences and giving any additional details. Next of kin also furnished data as to rights and benefits to which they are entitled. In the case of a "missing" person, the next of kin receives a letter about the continuance of allotments for insurance premiums and for dependents. If the Navy receives further details of the casualty, next of kin are promptly notified.

What You Buy With WAR BONDS

Powder Monkey

board ship and in the artillery buddies call them "powder monkeys." Not disrespectful, just a good, intimate term between soldiers. Civilians call them gunners. During a battle the crews of "powder monkeys" must work like ants bringing the ammunition to the front.

The gun may fire an anti aircraft shell or a broadside from a 16 inch gun of a great battleship, but in either event the "powder monkey" must pass millions of dollars' worth of ammunition to the gun effective, and your savings in War Bonds are necessary to supply the financial ammunition that provides the shells.

INTERESTING FACTS OF THIS AND THAT

The so-called "free medical" bill which has been introduced in Congress would provide for a hospital and medical benefit to 11,000,000 people in the United States and would cost taxpayers \$3,000,000,000.

Because of time lost resulting from accidents 380,000,000 man hours were lost by workers in 1942. A record for 1943 promises to equal that of 1942.

Maine farmers produced 54,000,000 bushels of potatoes in 1942. Arrostock County alone produced more potatoes than any other state in the Union.

It requires 13,000,000 cords of pulp wood to produce the paper used in this country each year. Canada produces 70 per cent of the newsprint used by American newspapers.

There are now 10,000,000 men in the armed services. Three out of five of all the Pennsylvania railroad company employees are women. Before the war, there were only one in five.

Ten per cent of all copper produced in the United States comes from the precipitation process of copper bearing mine water. Such precipitation depends upon salted tin cans.

You Had MY JOB

KEEPING HOUSE, helping take care of the family—you would realize that business girls are not the only ones who sometimes get Headache and Tired aching Muscles. We home girls ten work just as hard and have just as many Headaches, just as many Stomach Upsets and get just as Tired.

About a year ago, I first used ALKA-SELTZER and find that it eases my Aching head, takes the kinks out of Tired, aching Muscles and brings relief when I have Acid Indigestion.

The family says I am a lot happier to live with since I have known about Alka-Seltzer. Have you tried ALKA-SELTZER? If not, why don't you get a package today? Large package 5¢. Small package 3¢, also by the glass at Soda Fountains.

THE PURCHASE OF LIFE INSURANCE

Helps to Prevent Inflation, and assists our War Effort, so says Senator Capper, Senator Butler and Secretary of Navy, Frank Knox. (Besides you secure your family and save systematically.) JOE COUCH, Agent Fourteen Years with The Great National Life.

CHURCHES

Christian Science Church Sunday services at 11 a. m. Wednesday evening services at 8:00 o'clock. Sunday School at 10 a. m. Sunday, September 26, 1943. Subject: "Reality."

St. Joseph's Catholic Church Time of Masses: October-April (inclusive). 1st Sunday at 11:00. 3rd and 5th Sundays, 9:00. May-September (inclusive). 1st Sunday at 10:30. 3rd and 5th Sundays, 8:00.

Truscott and Gilliland Baptist Churches Preaching services are held at Gilliland on the first and third Sundays, and at Truscott on the second and fourth Sundays. A most cordial welcome is extended to all. Delightful Christian fellowship. J. W. ENGLISH, Pastor.

Assembly of God Church Services Tuesday and Friday nights, 8:30 o'clock. Sunday School 10 a. m. Morning service 11 a. m. and Sunday evening service 8:30 p. m. Every one is invited. WARREN EVERSON, Pastor.

First Christian Church We are living under great stress these dark days. The war is taking its toll. Our sons, brothers, husbands, fathers and our young women are in service in all parts of the earth in a deadly struggle—fight against wrong. At home, there is the labor shortage, the cost of war and many other things to think about.

But, we have a friend yet. God is still over the universe. Christ is still the Savior of men. We all need the comforting message of Christ through the church. Meet neighbors and friends there. Keep the home fires burning 'til the boys come home. Your church and my church. Sunday School at 10 a. m. Preaching at 11 a. m. and 8:15 p. m. G. O. McMILLAN, Minister.

Christian Science Services "Reality" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, September 26. The Golden Text is: "Since the beginning of the world men have not heard, nor perceived by the ear, neither hath the eye seen. O God, beside thee, what he hath prepared for him that waiteth for him" (Isaiah 64:4).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "All thy works shall praise thee, O Lord; and thy saints shall bless thee" (Psalms 145:10).

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "God created all through Mind, and made all perfect and eternal" (page 205).

Billings, Mont.—By means of a checkroom system in use at the Red Cross canteen a soldier passing through here a second time repurchased his overcoat he left six months before.

THOUGHTS OF SERIOUS MOMENTS

Right actions for the future are the best apologies for wrong ones in the past—the best evidence of regret for them that we can offer, or the world receive.—Tryon Edwards. Repentance without amendment, is like continually pumping without mending the leak.—Dilwyn.

God has promised pardon to him that repenteth, but he hath not promised repentance to him that sinneth.—Anselm. A conscience void of offense, before God and man, is an inheritance for eternity.—Daniel Webster.

Repentance must be something more than mere remorse for sins; it comprehends a change of nature befitting heaven.—Lew Wallace. What is past is past. There is a future left to all men who have the virtue to repent, and the energy to atone.—Bulwer-Lytton.

Every failure teaches a man something if he will learn.—Charles Dickens. The improvement of the understanding is for two ends; first, our own increase of knowledge; secondly, to enable us to deliver that knowledge to others.—Locke.

We cannot flatter ourselves that we have understood a truth until it is impossible for us not to shape our lives in accordance with it.—Maeterlinck.

SAFETY SLOGANS

There is no valid excuse a man can give for leaving a loaded gun around where there are children. There are still a few of the kind of people left who use a match to see how much gas they have in the gas tank. The driver of a car should remember that he is responsible for the lives of the others in the car with him.

MILITARY DRILL SECONDARY

Austin, Aug. 21.—Military drill may be used as a supplement to, but not as a substitute for, physical education in high schools and colleges to prepare youths for future military service, Dr. D. K. Bruce, University of Texas professor and state supervisor for the Texas Physical Fitness Program, points out.

Dr. Bruce cited a recent letter from Secretary of War Henry L. Stimson on this matter, in which it was explained that the total physical condition of the inductee is extremely important and a knowledge of basic military drill is relatively unimportant. Good physical condition, Dr. Bruce stressed, may be attained more satisfactorily by a well-rounded physical education program than by military drill.

Millions of Volunteers Settle Down to Hard Grind for 3rd War Loan

Washington, D. C., Sept. 15—With the first burst of enthusiasm spent, the "third" army of more than 4,500,000 volunteers settled down today for a steady siege and a day-by-day advance to reach its quota of fifteen billion dollars in the Third War Loan Drive.

Reports from all sections of the nation in the first week of the drive indicated that the battle to "Back the Attack with War Bonds" is progressing "according to plan," but that every possible effort must be exhausted if the goal of at least an extra \$100 War Bond for every income earner is to be reached.

First merger reports indicate that in some cities and in some sections on this important battle front the immediate objective has been obtained and the quota met. In other sections a long hard pull will be necessary in the house-to-house and bench-to-bench canvass which has been undertaken in order to reach every man, woman and child in the United States.

This Third War Loan Drive is a challenge to the American people without parallel in history, for they are being asked to "lend" the largest sum of money ever raised in the life of any nation. It is a challenge to their will to sacrifice to "back the attack" of their husbands, sons, brothers and fathers who are sacrificing everything, even life, so that the people back home may continue to enjoy the freedom and liberty of the American way of life.

Reports from many of the urban sections of the nation indicate that workers are answering the challenge to send their dollars to war to "back the attack." "Fur coat money," "automobile money," "new appliance money," "new home money," is going into War Bonds for the duration, into the assembly lines for tanks and planes, to settle today's job and guarantee a victorious America of tomorrow when every War Bond dollar will pay \$1 for \$3.

"Labor-Management committees are working hand in hand; returned war heroes, film stars, bankers, housewives, professional men, workers, clerks and salesmen—men and women in every walk of life are demonstrating that War Bonds bring unity to American life and that the nation is bonded in a common purpose in this great financing task." Ted R. Gamble, national director of the War Finance Division of the Treasury, said here today.

"The people of the nation are demonstrating that Americans on the home front can and will match the performance of the invading armies in 'backing the attack' when they are called upon to do a job," Mr. Gamble said.

"Never before in history have a people in civilian life been asked to do a job comparable to the task which must be done in this Third War Loan," Mr. Gamble observed. "But we have a sustaining faith in the ability of the American people to make every sacrifice, to meet every test with which they are faced, in the voluntary, democratic way so that our boys in the trenches and on the battle lines may have the tools with which to fight our common enemies."

crease in the present base price for cotton. Opinion is that even if the market did start up, it would be unable to move any distance before rigid ceilings on the fiber itself would be imposed.

Hence, increased income for the cotton farmer must be derived almost entirely from an increase in the quality of the cotton he produces. Premiums which are paid for the higher grades still offer him an opportunity to obtain more than the base market price for his own individual crop. In many instances these premiums reach several dollars per bale.

On the other side of the picture, the National Cotton Council has pointed out that failure to produce an increased supply of high grades this season is certain to threaten the Price Stabilization Program under which the industry is now operating, and which has made ceilings thus far unnecessary. As the Council puts it, "If high grades are so scarce that the premiums on them rise to excessive levels, the prices paid for these scarce grades will tend to drag the level of the market upward and the imposition of fixed ceiling prices almost certainly would follow."

The way in which the cotton industry can make its best contribution to the war effort, the way in which it can achieve higher prices from the 1943 crop, and one way in which it can help save itself from the necessity of ceilings, is an all-out effort to obtain a maximum amount of high grades.

The National Children's Fund of the American Junior Red Cross is made up of money contributed by children for children. During the past year money from this fund has been used to assist children of many war-stricken nations.

INSURANCE FIRE, TORNADO, HAIL, Etc. Mrs. A. E. McLaughlin

High Grades Mean More Money from 1943 Cotton Crop

Improvements in the grade of cotton produced in Foard County this season is a matter involving more than the patriotic appeal on which requests from the War Food Administration and the National Cotton Council have been based. Grade improvement means substantial increase in the farmer's income per bale. Those who know the cotton market declare that under the present textile ceilings there is little chance for any appreciable in-

worthy, who hath trodden under foot the Son of God, and hath counted the blood of the covenant, wherewith he was sanctified, an unholy thing, and hath done despite unto the Spirit of grace?" (Heb. 10:28, 29).

Surely the gospel is foolishness to many, but it must not be foolishness to you (I Cor. 1:8). Why not accept God's grace today, trust in the Lord Jesus now, and be saved forever?

Weekly Sermon

By the Rev. Warren Filkeni, Ph. D., Member of Faculty, Moody Bible Institute, Chicago.

The Greatest News in the World I remember the greatest news I ever heard as a boy was on Nov. 11, 1918—the signing of the armistice that ended hostilities of World War I. It thrilled me as if it were today. It was still a little fellow. It was news when Hitler began marching into the weaker countries of Europe. It was news when France double-crossed Great Britain and submitted to Adolph Schickelgruber. It was news when thousands of British soldiers escaped so miraculously at Dunkirk. It was sad, sad news when Hirohito attacked Pearl Harbor while acting as if his nation were trying to avoid war. It has been great news to hear of the victory of the United Nations in Tunisia, and it will be even greater news when we hear of the unconditional surrender of Hitler and his band of international gangsters.

But all of this is not the greatest news in the world. The greatest news is about the world's greatest debtor, the world's greatest gift, and the world's greatest possible possession. The greatest news in the world is the gospel of the Lord Jesus Christ—which literally means the good news of Jesus Christ.

What is this news, it is that "Christ came into the world to save sinners" (I Tim. 1:15). It is that "Christ died for our sins according to the scriptures; and that he was buried, and that he rose again the third day according to the scriptures" (I Cor. 15:3, 4). It is that "God so loved the world that he gave his only begotten Son, that whosoever believeth in him should not perish but have everlasting life."

What do you do with your old newspapers? Many people save them to wrap up packages. Others put them on the floor and walk on them. Others clip out portions of special interest and paste them in scrapbooks. What will you do with the greatest news in the world? Will you tear it up and quickly discard it? Will you walk on that news as though it were worthless? Remember, "he that despised Moses' law died without mercy under two or three witnesses: of how much sorer punishment, suppose ye, shall he be thought

Notice to Subscribers Owing to the fact that the Government is requiring all newspapers to cut down on their use of newsprint, and also the fact that newsprint is advancing in price, The Foard County News will not offer a bargain price of \$1.50 per year during the fall months, as it has been doing for many years. Conditions will force us to charge the regular price of \$2.00 per year in Foard and adjoining counties, including Zone 1, and the price outside the local territory will be as follows: \$2.50 per year \$1.35 Six months .75 three months We appreciate the excellent subscription business extended to this paper the past year—it has met with our fondest expectations during the past few years, for which we are deeply grateful. We expect to put forth every effort possible to print a weekly newspaper worthy of the patronage it now receives and it is on this basis that we solicit the renewal of subscriptions. Respectfully yours, THE FOARD COUNTY NEWS

SOCIETY

Picnic Supper for Visitors

Former neighbors and friends of Mr. and Mrs. E. M. Cronoe met together at the home of Mr. and Mrs. A. Y. Beverly Thursday evening and enjoyed a picnic supper on the lawn and an evening of visiting.

A bounteous supper was served from tables in the yard. Those present included Mr. and Mrs. Cronoe, Mr. and Mrs. John Long, Mr. and Mrs. J. R. Beverly, Mr. and Mrs. J. T. Brooks and little daughter, Nelda Kay, Mr. and Mrs. R. R. Magee, Mrs. A. S. Hart, Mr. and Mrs. T. B. Klepper, M. S. Henry and Mr. and Mrs. A. Y. Beverly.

B. & P. W. CLUB

Mrs. Claude Brooks and Misses Lottie Russell, Gussie Todd and Gusta Davis were hostesses to members of the Business and Professional Women's Club at a covered dish dinner at the home of Mrs. Brooks last Thursday evening. When the many delicious dishes were assembled, the bounteous spread denied the fact that food rationing is being enforced.

Following the meal, games of "42" were enjoyed. When the scores were added, it was found that Mrs. Ora Orr had high score, while Blanche Hays had low. A sing-song brought the evening's entertainment to a close.

Those present were: Sallie Archer, Ila Borchardt, Mayme Lee Collins, Elizabeth Elliott, Hazel Harrison, Blanche Hays, Irene O'Connell, Ora Orr, Jean Reeder, Ella Rueker, Alma Walker, Mrs. H. Schindler and Mrs. T. S. Haney and the hostesses.

ADELPHIAN CLUB

The Adelpian Club program for 1943-44 term, as for all years since its organization, has been planned to provide study and entertainment that will appeal to all interests of all members. This season it is offering the study of Allied Countries.

Mrs. Clint White entertained the club on Wednesday, Sept. 15, at the club house.

Mrs. Merl Kincaid, president, had charge of the business meeting. Chairmen appointed were announced as follows: Mrs. M. S. Henry, U. S. O.; Mrs. G. D. Self, Junior Club chairman.

The club thanked Mrs. Kincaid for the box of linens sent to the State Club House in Austin in the name of the Adelpian Club.

Mrs. L. A. Andrews was leader of the program and gave an interesting talk and exhibit on Russia. She gave as the most important reasons for studying Russia now: its geography, government, types of peoples, language and habits of its peoples.

Mrs. J. A. Stovell told of the industrial centers of Russia, which was very interesting.

The hostess served a delicious ice course to twenty members. The next meeting will be held at

Baptist Women to Observe Prayer Week

The Missionary Society of the Baptist Church will observe State Mission Week of Prayer in an all-day meeting next Monday, September 27, at the home of Mrs. Joe Smith.

The meeting will open at 10:30 a. m. and each member is asked to attend and to take a covered dish of food.

COLUMBIAN CLUB

The Columbian Club met in regular session at the home of Mrs. Hines Clark on Wednesday, Sept. 15.

At the business session, reports of officers were given and the year book committee presented the calendars for the coming year. The course of study continues last year's "Strategic Points of the Allied Nations," special stress being placed on the people, resources and strategic location of the various countries and islands engaged in the war.

The study for the afternoon was on India, a country of contrasts; the richest Moguls; the most desperately poor; the rich river valleys and desert uplands; the priests of Allah and the Untouchables; all present problems which baffle the statesmen of the world.

Mrs. R. L. Kincaid discussed the geography and resources of India; Mrs. W. R. Womack told of the religion, the caste system and personalities of India and Mrs. Grady Halbert spoke on "The British in India and Home Rule." Mrs. Charlie Thompson presided in the absence of Mrs. Sam Crews, president, who is on a visit to her son and his wife in North Carolina. Mrs. Grady Halbert was elected as treasurer in the temporary absence of Mrs. H. Schindler and Mrs. R. L. Kincaid was made corresponding secretary to take the place of Mrs. Jno. Ray, also temporarily absent.

For several years the roll call of the Columbian Club has been an interesting part of each program. Each member is assigned a subject for the year, and the response has been a discussion of a wide range of current news.

Mrs. Roy Ayers was a pleasant guest for the afternoon. The hostess served a delightful light refreshment plate and the social hour was especially enjoyed after the summer's vacation.

LIBRARY NEWS

There has been placed on the shelves of the library, "Inside Asia" by John Gunther. The book has recently been revised and reset to keep pace with changing events.

Some high spots of the book are: Pacific Strategy, Australia, Indian Struggle, Gandhi, Pearl Harbor, Burma Road, Persia, Near East and Palestine. The author

of the Club House on September 23 with Mrs. W. B. Johnson as hostess.

is to be congratulated upon the informal charm with which it is presented. It is a readable book, clear and unassuming.

It will be found interesting as well as valuable in information that any reader should desire. The outstanding personalities of the author and his fascinating descriptions of the countries of Asia make entertaining and informative reading.

AGRICULTURE

(D. F. Eaton, County Agent)

Wolf Control Problem

The logical way to meet this problem is to employ a government trapper for a period of not less than six months.

Farmers and ranchmen now have this problem under advisement and no doubt will soon take steps to secure an experienced trapper.

We had a conference this week with Boog Scott from the Predator Animal Control Service on the requirements for securing a trapper and the necessary procedure to get one.

In the first place, experienced men are very scarce, so some time is required to find suitable trappers.

The cost for the services of these men runs from \$160.00 to \$180.00 per month, which has to be guaranteed. This is usually provided by contributions from a wolf club, the county and the government, usually on a one-third basis. The trapper is paid a monthly salary and additional funds for car expense which, together total the above amounts.

This question is squarely up to the people of the county so far as working out the details are concerned. This office will attempt to secure all necessary information and will take necessary steps to assist in getting this program under way. There is no doubt about the need as the county is suffering many times the cost of the service of a trapper in loss of poultry, turkeys, sheep, calves and in some cases, pigs, from ravages of predatory animals.

Soil Conservation

Our terracing program is getting under way and a number of farmers have begun this work.

Among those who have completed their terraces is Clyde Owens out in the Foard City community. He constructed standard terraces on a 75-acre tract of land. In the construction of these terraces he used a tractor and a one-way plow and he did a good job. His terraces are broad and high, meeting the requirements of a standard terrace.

Mack Gamble also completed terraces on a piece of rolling land, and Geo. Self completed some early in the year, which met required specifications, and withstood all the heavy rains of the spring season.

J. H. Carter has also begun the terracing of his entire farm here near Crowell. Also Dan Callaway has begun a system on his farm and has completed part of them. Earlier in the year we completed a system on the J. M. Barker and the Mrs. P. H. McLain farms.

There has been some question about whether terraces can be effectively constructed with the one-way plow. It has been conclusively proven that it can be done, although there is other machinery more preferable, but it is not available.

Planting Winter and Summer Legumes
Some parts of Foard County can grow well a limited number

of these legumes, especially on the sandy soils of the county.

So far as winter legumes are concerned only a few would prove profitable and under the most favorable conditions. Harry vitch is the most promising of them all. We doubt if Canadian Peas would pay. Of the winter grasses, Italian Rye is perhaps better adapted than any other grass.

Our best bet is small grains, wheat, oats, barley on all soils, and perhaps rye on some of the deep, sandy soils.

So far as summer legumes are concerned, alfalfa heads the list on soils that are adapted to growing it. Sweet clover could be grown to a limited extent. Alfalfa is one of our best forage crops and offers excellent grazing in early spring and throughout the year, besides providing an abundance of excellent hay, and is a soil builder.

Field peas are our most universally grown summer legumes and are valuable as a soil improver, and provides a food and feed crop of peas and hay, as well as an excellent cover crop that may be plowed under as a green manure crop.

Of course, sudan is our best adapted, and will grow on all soils and furnishes more summer grazing than any other crop. In some instances grain sorghums are grown for grazing as well as forage.

Labor Situation Slightly Improved
Reports indicate that a third or more of the cotton in the black land belt has been picked. However, the situation in this section is quite

There are a few more pickers coming into the county and the indications are that more will be coming in during the coming week. Picking in the big cotton areas has been delayed some by rain.

Increased Food Production Result
It now appears that this year's production will exceed last year's by around four per cent, which is thirty-one per cent larger than the average from 1935 to 1939.

This outlook is based on the July crop report. While food crops have been ten per cent shorter than last year, the livestock production has brought the average above last year. Total food acreage has been three per cent larger than 1942. The yield per acre has been less. Seventy-five per cent of the country's food production goes to civilian use, thirteen per cent to the military forces and ten per cent will go to lend-lease shipment. Civilian per capita consumption for 1943 is estimated will be three per cent more than last year.

Good-Natured Nazi
Although vanquished in battle, this German Afrika Korps officer is able to laugh and joke with a United States coast guard and naval officer as he leaves North Africa.

Principals in Test of Army, Civil Power

Delbert E. Metzger, left, senior federal judge in the territory of Hawaii, who has issued writs of habeas corpus which are being contested by Lieut. Gen. Robert C. Richardson Jr., military governor of Hawaii and head of the Hawaiian Department, U. S. Army. The controversy grew into a test of military and civil law.

Stopped in Midair by Speed Camera

As graceful Betty Atkinson of the Ice Rink does a somersault over a baton, the speedway cameraman photographs her at three critical stages of the act and gets all three positions on the same negative. The unusual result is shown above.

GOVERNMENT FEED WHEAT \$1.90 Per Hundred

Requirements:

1. Make application for not over 90-day supply.
2. Sign on the dotted line that you will use this wheat only for livestock and poultry feed.
3. Cash on the barrel head.

FOARD COUNTY MILL

LEATHER JACKETS

All-Leather Jacket

\$11.98

We now have a good stock of JACKETS and SWEATERS for men and boys.

Visit our store and look them over.

BEN FRANKLIN STORE

THE LEAST WE CAN DO FOR HIM- IS TO DO MORE IN SEPTEMBER!

Here's what YOU must do to Back the Attack

Now, as America goes all out for the INVASION - your dollars must join the fight, too! For the very least you can do for your country - and for your loved ones doing the fighting - is to invest in MORE War Bonds in September.

Think of Jim fighting with Eisenhower . . . or Bill with MacArthur in the Solomons . . . or Bob up in Kiska. They've given their pledged fight - and die if need be - for their country. They're ready to go all the way.

And we at home must see them through all the way, too! That means every individual in the country who earns a wage or draws an income or has accumulated funds must invest at least one EXTRA \$100 War Bond if he can possibly do so. Those who can, must invest more. This in addition to your regular War Bond subscription.

Yes, the least you can do for your men in service is to do MORE in September. MORE in the safest securities in the world - U. S. Government War Bonds. But do it now - it's the INVASION!
