Thanks Press Back Counter-Attacking Japs

Japanese landings in the South Pacific, probably for the purpose of gaining the offensive, were foiled by United States forces. This sounder shows U. S. coastguardsmen and marines unloading supplies near Jap warship, the Kingawa Maru, which was beached after a battle. Admiral Nimitz warned the enemy of new offensives.

ancient and Modern Locomotion in Italy

Italian peasants with their bullock cart present a strange contrast to the lightning-fast, streamlined fighter planes of the Royal Air force at an air field near Naples. The bullock team was loaned by a local farmer to clear the field for use by the RAF. This is a typical example of the cooperation Italian and Sicilian peasants have given the Allied armies as our forces steadily move northward toward Rome and Berlin despite desperate German resistance.

United Nations Launch U. N. R. R. A.

An international agency of 33 United Nations and 11 associated powers to relieve suffering in liberated countries was launched at the White House. President Roosevelt speaks with British Ambassador Lord Halifax as Leighton McCarthy, Canadian minister, signs for his country. The new agency was named the United Nations Relief and Rehabilitation Administration.

Ensign Dick Todd Injured in Game with Notre Dame

Ensign Dick Todd, son of Mr. and Mrs. Jeff Todd of Crowell, and a famous football idol of the nation, was injured in the football game between the Seahawks, football team of the Naval Pre-flight Training Station of Iowa City, Iowa, and Notre Dame of South Bend, Ind., Saturday afternoon. Ensign Todd received two fractures in his jaw bone.

He was injured at the end of the third quarter and was placed in the Notre Dame Hospital. Later he was moved to the Naval Hospital at Great Lakes, according to a telephone message to his mother from his coach Saturday night. Latest reports are to the effect that he is recovering satisfactorily.

Employee Humble Oil Co. at Truscott Seriously Injured

J. A. Lyons, employee of the Humble Oil Company at Truscott was seriously injured Wednesday of last week, Nov. 17, on his return trip from Comyn where he had gone to take his wife. His car overturned near Irdel, causing serious injuries to Mr. Lyons' head, back and chest and completely demolishing his car.

An ambulance took Mr. Lyons to a Stephenville hospital and he was unconscious until Sunday. Latest reports are that his condition is improving.

A cat's whiskers are delicate sense organs, enabling the animal to find his way about.

A single torpedo costs \$12,000 and consists of over 5,000 parts.

Crowell Wildcats Will Meet Stamford Bulldogs This Afternoon at 2:30 in Stamford in Bi-District Football Game

The Crowell Wildcats will go to Stamford today (Thursday) to play the Stamford Bulldogs for bi-district honors for the second consecutive year. The game will start at 2:30 p. m. Perhaps this is the first time in interscholastic league history that two teams that have not been scored on in conference play will be opposing one another in a bi-district contest. Crowell is the champion of district 12-A and Stamford is the champion of district 11-A, and neither have been scored on in their respective districts this season.

Stamford has the edge on Crowell in comparative records this season, having won all of its nine games, while Crowell has won only eight out of nine games played. Crowell dropped one game to the Quarah Indians, a class AA team, by one touchdown. The Bulldogs had very little trouble in taking a 7 to 0 victory over the Seymour Panthers, while the Wildcats were hard pressed in shading the Panthers by a 7 to 6 score. The fact that the game will be played on the Bulldogs' field is also in their favor. However, there is one big factor that the Crowell fans consider in the Wildcats' favor, the Crowell boys have been looking much better in their last few games than they did in early season games. They have scored 138 points to their opponents 6 in the last three games. This, having been against fairly strong opposition, especially at Childress and Wellington.

Coach Grady Graves reports that his "Cats" are in good shape and that they mean to try to even things up for the 9 to 0 defeat handed them at Crowell last year by the Stamford "Dogs." The winner of this game will play the winner of the Ballinger-Dublin contest for regional honors.

Men in Service

Sgt. Ernest Spears, who has been stationed at Camp Campbell, Ky., for some time, has been transferred to Aberdeen Proving Ground, Maryland. He will be there for five weeks.

Cpl. Fred Vecera has arrived safely in Iceland, according to a V-mail letter received by his parents, Mr. and Mrs. Tom Vecera. He likes the country fine and has already learned their money system which he said seemed quite complicated at first.

Pvt. Henry F. Briscoe of Pine Camp, N. Y., arrived here Friday on a 15-day furlough to visit his parents, Mr. and Mrs. Frank Briscoe. He is in the Medical Corps.

Word has been received here by Mr. and Mrs. Bill Cottrell that their son, Pvt. Delinda D. Cottrell, has arrived safely overseas. Pvt. Cottrell is in the Tank division of the service and received his training at Fort Knox, Ky.

Cpl. Orville White, who has been visiting his wife and son, and other relatives and friends, returned to Pine Camp, New York, Saturday. Accompanying him was Cpl. Wayne Diggs, who had visited his parents, Mr. and Mrs. Fred Diggs. These young men left Crowell March 13, 1942, and have been together since that time.

Pfc. Howard Lee Black of the South Plains Flying School at Lubbock and Mr. and Mrs. Steve Mills of Fort Worth were visitors in the Sam Mills home Sunday and Sunday night.

Alton Cavin, S-1-C, of the disbursing office of the Naval Air Station at Hutchinson, Kansas, was here from Thursday of last week till Wednesday visiting his parents, Mr. and Mrs. C. L. Cavin.

Letters have been received from Cpl. Elbert Kenner and Pfc. John Kenner by their parents, Mr. and Mrs. H. T. Kenner, that they had arrived safely somewhere in England, but in different sections.

Lieut. and Mrs. Thomas B. Johnson left Friday for West Point, N. Y., to visit his parents, Col. and Mrs. Robt. L. Johnson.

A letter from George Cates Jr. states that he has just arrived back in San Francisco from a trip to New Guinea and Australia. He is in the Merchant Marines and says he has recently been promoted to master storekeeper. According to his plans now he expects to visit relatives and friends at Crowell, arriving here about Nov. 25.

Lieut. James Hubert Lewis of the Army Signal Corps at Langley Field, Va., and his wife were here the first of the month visiting his mother, Mrs. S. J. Lewis, and family.

Tech. Sgt. Burke Bell of Camp Hyde, Ariz., arrived at home Tuesday to visit his mother, Mrs. R. W. Bell, and other relatives.

HOSPITAL NOTES

FOARD COUNTY HOSPITAL

Patients In:

- Mrs. Joe Rader
- Fred Mitchell
- Faye Toles
- D. F. Sanders
- Claude Howard

Patients Dismissed:

- Mrs. C. E. Johnston and infant son
- Mrs. Lucy Crosnoe
- Clark Brown
- K. F. Wilson
- Domingo Sanchez (Mex.)

The management requests all Negro patients and visitors to please enter by the rear door.

Visiting Hours: 9:30 to 11:30 a. m.; 2 to 5 p. m.; 7 to 9 p. m.

Madame Curie was the first woman appointed to the French cabinet.

New Methodist Pastor

Rev. R. S. Watkins, new pastor of the Crowell Methodist Church, and his wife arrived here last week from McLean and he filled the pulpit at the church Sunday.

Rev. Watkins concluded a successful pastorate at McLean and during the time he was there he was active in all civic affairs. He served as president of the Lions Club for the fiscal year ending last July, and was on the executive board of the Red Cross Chapter last year.

A large crowd greeted the pastor and his wife at both the morning and evening services at the local church Sunday.

G. M. Eubank Died Tuesday Morning Near Lubbock

Resident of Foard City Community from 1911 Till 1917

G. M. Eubank, 61, of Lubbock, former Foard County resident and father of Mrs. A. Weatherall of Foard City, died at his home ten miles south of Lubbock early Tuesday morning following a lingering illness. Funeral services were held Wednesday afternoon.

Mr. Eubank was born Oct. 5, 1882, in Mississippi and came to Texas in about the year 1880, and settled near Laron in Collin County where he lived for many years. He was elected sheriff of Collin County in 1906 and served in that office for two terms. Mr. Eubank and family moved to Foard County Jan. 1, 1911, and lived here until January, 1917, when they moved to a farm ten miles south of Lubbock, where he died of his death. Mrs. Eubank passed away in July, 1941.

Survivors include three sons and three daughters. They are as follows: I. A. Eubank of Lubbock, Mrs. A. Weatherall of Foard City, Mrs. J. B. McClure, J. H. Eubank, Mrs. J. J. Tison, and George B. Eubank, all of Lubbock. A large number of grandchildren and great grandchildren also survive.

One daughter, Mrs. A. D. Campbell, died from injuries received when the tornado struck Crowell, April 28, 1942.

He's Hunting Planes

This camouflaged soldier appears to be hunting wild boars. Actually he is trying to spot an "enemy" plane during maneuvers in Tennessee. His uniform closely matches the hides of the spotted pigs in the picture. He is Pfc. Ortha Radcliff of Toga, W. Va.

Interesting Story of His Miraculous Escape from Prison Camp in Italy Told By Lt. Thomas Johnson at High School

Editor's Note—The following article was written for the High School News and since it contained the information desired by the crowd comprising 12,000 people, it has been read in full on the front page.

The student who told the interesting story of his escape from a prison camp in Italy was Lt. Thomas Johnson, B. Johnson Army Air Corps, who was being visited by the former Miss Billy Brown, wife of his experiences while a prisoner of the Italian and German governments, and of his miraculous escape from an internment camp in Italy.

Lt. Johnson was captured "somewhere" in North Africa, and was on May 20, while on a mission in the desert, captured by the Italian army. He was held in a short internment camp for a few days, but it was a hopeless situation to try to break out, and he decided to try to escape. He had a holly berry branch in his pocket, which he used to dig a tunnel through the wall of the camp. He was able to escape on the night of May 20, and he was in Rome by the next day.

Charles Ferguson and C. S. Clark Talk to Rotarians

Charles Ferguson, pharmacist, and C. S. Clark, chairman of the State Board of Water Engineers, were the speakers at a talk at the meeting of the Crowell Rotary Club at the DeLuxe Cafe Wednesday at noon. Charles was returned to the United States on account of having malaria and is now at home on a 30-day leave. He was on Guadalcanal for eight months and witnessed many hardships between American and Japanese forces. Although with severe malaria, he was able to perform his duties. He was in the hospital for several weeks, but he was able to return to his home in Lubbock.

Crowell Boy Home After 14 Months Overseas

Charles Ferguson, pharmacist, and C. S. Clark, chairman of the State Board of Water Engineers, were the speakers at a talk at the meeting of the Crowell Rotary Club at the DeLuxe Cafe Wednesday at noon. Charles was returned to the United States on account of having malaria and is now at home on a 30-day leave. He was on Guadalcanal for eight months and witnessed many hardships between American and Japanese forces. Although with severe malaria, he was able to perform his duties. He was in the hospital for several weeks, but he was able to return to his home in Lubbock.

Reception at Baptist Church to Honor Rev. and Mrs. R. S. Watkins

The First Baptist Church and the First Christian Church are uniting in plans for a reception to be held in the basement of the Baptist Church Friday evening at 8 o'clock to meet and honor the new pastor of the Methodist Church and his wife, Rev. and Mrs. R. S. Watkins, with the members of the Methodist Church as guests, also.

TO OPEN GIFT SHOP

Mrs. Mary Ennis Carter is opening a gift shop in the Fox building on the north side of the square on Friday morning (tomorrow). The new business will be known as "Carter's Gift Shop."

Mrs. Carter will carry a complete line of gift goods suitable for Christmas and other special occasions. For opening she has bought, leather goods, stationery, pictures, toilet goods, dishes, etc., and will add other features as fast as she can obtain the goods.

BARBER SHOP REMODELED

Home Ketchersid has about completed the remodeling and repainting of his barber shop building west of the City Hotel and will be ready for business again Friday of this week.

A new floor was placed in the building and the walls sheetrocked and painted, and other improvements made. The barber chairs and other fixtures have been installed.

Lt. Johnson and his friend, after staying in the mountains for two days until their tongues were black from thirst, decided to try their luck with the Italian farmers. The first Italian they approached was a Fascist and refused to give them any food or water, but the second one was a friend of Americans and so they were fed black bread and given water. Then they walked 30 days (a distance of about 100 miles) and arrived near the front lines of action. Italian friends gave them civilian clothes, and they finally managed to get past the German sentries at a small town near the coast. Then they came upon three German lines that were crossed with caution. Although they were in disguise as Italian farmers, they were afraid of being picked up and taken to Germany as slaves. The four of them, they had picked up 2 more by this time, then made their way very slowly through a German mine field. By this time, they were past the German lines and could hear and see planes engaging in battle a little farther on.

"It was the most beautiful sight I have ever seen," said Lt. Johnson in reference to the first small village they came upon where they knew that British and American soldiers were. He said that they were given the best of everything at this village, including marvelous food and fine wine. He flew out of this village on October 31 to Casa Blanca and received orders that he was to come back to the States "any way possible." At Casa Blanca he boarded a steamer and arrived here in the U. S. exactly fourteen days later. This made a total of over 80,000 miles which he had traveled the past month.

Lt. Johnson stated that out of the 3,000 men that were interned in this camp, only 25 escaped. Eight of these have been reported as reaching safety.

AGRICULTURE

(D. F. Eaton, County Agent.)

Calf Table

The A. & M. College Extension Service has adapted to the needs of Texas cattlemen plans for a calf table which originated at the University of California College of Agriculture.

According to M. R. Bentley, Extension agricultural engineer, the calf table is a combination squeeze and operating table for use in dehorning, ear-marking, vaccinating and branding calves weighing up to 400 pounds.

A suitable corral to hold calves, with forcing pen in one corner leading to a chute, facilitates the handling of the animals to the table. The table is movable, but for best service it should be bolted or tied securely to the end of the chute.

The normal position of the calf on the table is to be well forward with its head through the stanchion. The head and neck then are forced downward and the neck held securely in the vee of the stanchion by the neck yoke.

The best of the common grades of lumber should be used for construction of the table. Rot resistant or treated lumber is recommended for the skirts, which need not be surfaced.

Woman Brines Beef

Throughout Texas there's more interest in killing, curing, canning and freezing beef for home use than in a number of years.

Mrs. Joe Spindle of the Elm Grove home demonstration club in Cooke County has brined most of one hundred quarters of the two first quarters of a 550 pound cow.

Mrs. Spindle used an eight-gallon crock for the job. She brined the meat then cut it into roasts and tied each piece into a compact roll.

Mrs. Spindle's brined beef is packed in a number of ways. She makes the brine from salt, sugar, salt-peter and water which she boiled for two minutes and then cooled it thoroughly.

According to the A. & M. College Extension Service horticulturist, the blackberry is best to fit into the backyard scene.

The plum-cherry hybrids Comstock, Opot and Sapa are well adapted to backyard planting because the trees are small and quite decorative.

Extension Service publication 1-150, "Fruit Varieties for Texas" will be found helpful. It may be obtained at the office of your county extension agent.

The Commissioners Court of Foard County has made available a quantity of poisoned grain to be distributed from this office.

There will be a small charge for the grain to create a revolving fund so that the supply, when exhausted, may be replenished according to County Agent D. F. Eaton.

Mrs. Houston McLain and baby spent Wednesday and Thursday with her mother, Mrs. J. M. Childress of Truscott.

Miss Wanda Hester left last Thursday for Healdton, Okla. after spending several weeks with Mr. and Mrs. John Wheeler and family.

Miss Hazel Marlow of Thalia spent Saturday with Mr. and Mrs. Howard Ferguson.

QUESTIONS AND ANSWERS

- 1. To what country does the area known as the Crimea belong?
2. Where is the Bug River located?
3. What largest man made works in Europe is located at Dnepropetrovsk in Russia?
4. To what country do the Azores islands belong?
5. Where was the trial for the murder of Sir Harry Oakes held?
6. John Boettiger, publisher of the Seattle Post Intelligencer, is a son-in-law of what well known American?
7. What is Clark Gable's rank in the Army?
8. Under what new name will the French liner, Normandie, recently raised in New York harbor be put into commission by the United States?
9. What is the first name of Winston Churchill's daughter?
10. Who was named the new under Secretary of State to succeed Sumner Welles?

(Answers on page 3).

Chardonnay, the inventor of artificial silk, was first interested in the problem while studying under Pasteur, who was at the time conducting his famous investigations on silkworm disease.

Chardonnay, the inventor of artificial silk, was first interested in the problem while studying under Pasteur, who was at the time conducting his famous investigations on silkworm disease.

Fruits For the Backyard

If wartime shortages have made you economy-minded, take a look at the backyard or small orchard plot. There are few yards or plots which cannot produce some fruits. And in small yards, food-producing plants can be made to do a double-duty.

According to the A. & M. College Extension Service horticulturist, the blackberry is best to fit into the backyard scene.

The plum-cherry hybrids Comstock, Opot and Sapa are well adapted to backyard planting because the trees are small and quite decorative.

How many miles older is your car this week?

Every mile you drive makes it more important than ever to Care for your Car for your Country

IF TIRE AND GASOLINE RATIONING were removed tomorrow, no victory-minded American would permit himself one single mile of unnecessary automobile driving!

Let the truth of this fact sink in. Even if gasoline and tires were plentiful, cars are not. There will be no new cars for the duration.

That is why your Uncle Sam is talking like a Dutch uncle when he tells you to care for your car for your country.

Phillips 66 Service Wardens are pledged to do their utmost to perform all services which will improve the efficiency of your car and lengthen its life.

The Phillips 66 Service Warden is waiting at every Phillips 66 Service Station, ready and anxious to do his part to help you "Guard America's Mileage".

FOR VICTORY... Buy U. S. War Bonds and Stamps

Biological Survey and is fresh. If good use is made of this grain we can exterminate these rodent nests and practically clean the county of them.

ants, sprinkle Sodium Fluoride thinly about where they range; you may use Pyrethrum powder in boxes in the same way. Keep these poisons out of reach of children and in the case of the grain also keep it out of reach of livestock.

"Take her down!" With these words, Commander Gilmore signed his own death warrant. Rather than risk losing his boat and crew from enemy fire, the wounded Commander ordered his submarine to submerge—with himself outside.

How much is "duty"?

WHEN A SOLDIER charges up a newly established beachhead heedless of the shells and machine-gun bullets ripping around him... that's duty.

When a sailor stands at an anti-aircraft gun fiercely firing at an enemy plane, disregarding the bombs and lead falling from the skies... that's duty.

A soldier or a sailor has duty clearly defined for him. But how much is "duty" for a civilian?

There is no clear definition. But there is one job which every man and woman of us must consider duty if he would like to see the war shortened and our fighting men back with us.

That's—Buying War Bonds. Not just a few. As many as you possibly can afford!

For your own sake... for the sake of your fighting men... for the sake of your country... boost your buying through Payroll Savings!

HISTORY

The Boston Tea Party—December 16.—The Boston Tea Party is perhaps one of the best known events in the series of protests made by the Colonies against taxation without representation by England.

Before anything is done about drafting fathers the single able bodied men in Washington bureaus should be measured for a uniform and competent older men and women put in their places.

Rather than give the country a new tax bill, a local man said yesterday, I think they should do a repair job on the one they already have, just patch it up in a few places and make it do.

For nations that do not major in war the Allies are conducting a well managed war. Our errors, if there have been any, have been small ones.

According to Senator Wheeler there are 187,000 men of draft age in bomb proof jobs in Washington who should be in the Army.

The rumor persists that sugar rationing may be eased up or at least its point value reduced.

An exchange suggests that one of the hardest post-war problems will be for a lot of people to get along on wages that they are actually worth.

There are few things that are more real pleasure than doing something you enjoy free from any interruption.

Too much government, like too much rain, is not a good thing even though good in itself with moderation.

BONDS OVER AMERICA

On the shores of the Delaware stands the oldest residence in Pennsylvania, the Calhoun Pusey House, built at Upland in 1683 of field stone and mortar like so many residences of early Colonial days.

Keystone Home

Keep Our Heritage; Buy More War Bonds

What We Think (By Frank Dixon)

Because the war shows a definite upturn for the Allies and because Allied efforts resulted in advances and betterments of the Allied cause and victories, the attention of the people is quite naturally centered more or less upon the movements of the troops and the several developments upon the several battle fronts.

At the present moment there is nothing as important to the welfare of the nation and its people as the control of the cost of living and the prevention of inflation.

Strangely enough the President appears to be the only person in America today who is concerned that the cost of living be held down and that inflation be prevented.

Why is this, I have heard it asked. The answer is elementary. It is due to individual and group selfishness. The fear among individuals and the pressure groups they make up, that they are not going to make a profit out of the war.

In my opinion it is no less than tragic that individuals at a time like this and when the results that they will gamble the present and the future to get what they choose to call "theirs" now.

I have wondered a good deal at the good citizenship and even the patriotism of a man or a group of individuals who will boisterously applaud the flag whenever it is shown on the screen at the picture show and will then go out and use his efforts and his influence against the country that the flag he so lately applauded represents.

If inflation is to be prevented it is going to require more than the President alone to do it. He is going to have to have some help from the people he is trying to protect. Without this help it cannot be done. It is too big a job for one man to do with everyone else pulling against him.

SAFETY SLOGANS

If you want to drink, don't drive.

No driver is so good that he does not need to exercise caution.

KEEP ON Backing the Attack! WITH WAR BONDS

30 YEARS AGO IN THE NEWS

Items below were taken in whole or in part from the issue of The News of Nov. 28, 1913:

The Missionary Society of the Methodist Church tendered the whole congregation of the church an invitation to be present at the home of J. L. Martin Saturday evening to meet the incoming pastor and wife, Rev. and Mrs. R. A. Stewart.

O. S. Bassett of Anthony, Kan., was here this week looking after his real estate interests. Mr. Bassett is one of The News' northern readers, and he says he enjoys the paper every week.

Some of the local musicians are organizing an orchestra and are putting in some time at hard practice. If the boys continue it will be but a short time before they will be making excellent music.

Rev. R. A. Stewart, the new Methodist pastor, preached his initial sermon for this conference year Sunday, Rev. Stewart will do his part toward making this a successful conference year.

Rev. J. L. Rucker and good family left Tuesday for Tell, where Rev. Rucker will serve as pastor of the Methodist Church.

Rev. G. J. Irvin and family left last week for Spur where Rev. Irvin was sent by the Methodist Conference that recently convened at Vernon.

Mrs. J. A. Stovall and little son are visiting Mrs. Stovall's parents at Paducah this week.

Navy V-5 Aviation Training to Include High School Students

Dallas, Nov. 20.—Requirements for enlistment in the Navy V-5 aviation training program have been broadened to include 17 and 18-year old high school graduates, it was announced today by the Navy.

Lieut. Commander G. W. Cook Jr., of the office of Naval Officer Procurement, said that for the first time in several months 18-year old youths were being considered for training as future Navy and Marine Corps pilots.

It is required that applicants be high school graduates or seniors in high school with a scholastic standing in the upper half of the males in their class and with a reasonable expectation of graduating by February 15. Boys also will be considered who have already graduated in the top 50 per cent of their class, or who are now in college and have indicated their ability to maintain a scholastic standing in the upper two-thirds.

Interested boys of 17 and 18 are urged to contact their nearest Naval Aviation Cadet Selection Board or office of Officer Procurement in Dallas, New Orleans, Memphis, Houston or Oklahoma City immediately.

Young men of 18 who have been processed and found qualified as Naval aviation cadets will be given a letter to their draft boards, Lieutenant Commander Cook said. They will be inducted into Navy and enlisted as apprentice seamen for training leading to their commissioning as Navy and Marine Corps fliers.

Through the Children's Bureau in Washington an average of \$84 is allotted to the wife of any soldier, sailor or Marine who is having a child. Since last March 49,000 of such maternity cases were financed. A sum of \$5,600,000 was appropriated to last through the year but an additional appropriation of \$18,600,000 is being asked for by the Children's Bureau.

The authorities of the British Columbia schools voted last week against the placing of the Ten Commandments on the walls of Vancouver city schools. The reason as stated by one board member was "I don't know of anything less likely to make a child feel warmly toward his school than seeing a lot of 'Thou Shalt Nots' staring him in the face every day."

TOWN and FARM

(A weekly news digest prepared by the OWI rural press section.)

Ration Reminder

Gasoline—In 17 east coast states A-8 coupons are good through February 8. In states outside the east coast area A-9 coupons are good through January 21.

Fuel Oil—Period 1 coupons are good through January 3. Period 2 coupons become good November 30.

Sugar—Stamp No. 29 in book four is good for 5 pounds through January 15, 1944.

Shoes—Stamp No. 18 in book one, good for 1 pair. Stamp No. 1 on the "Airplane" sheet in book three, good for 1 pair.

Meats, Fats—Brown stamps G, H, J, and K, good through December 4. Brown stamp L is good through January 1, 1944. Brown stamp M becomes good November 28 and remains good through January 1, 1944.

Processed Foods—Green stamps A, B and C in book four, good through December 20.

To Hold Down Flour Prices

To hold flour and bread prices at present levels, the Office of Economic Stabilization has inaugurated a subsidy program that will enable wheat flour millers to pay as high as parity prices for wheat (should the market go that high) and at the same time sell flour for no more than present ceiling prices.

No Increase in Butter

Butter available for civilian use will not increase during the next few months, although the Federal Government has discontinued all purchases of the commodity until April, according to information from OPA and WFA. Current production of butter averages about 16 pounds a year per person, or about half a pound less than in pre-war years.

OPA Authority Upheld

Authority of OPA to forbid persons from dealing in rationed commodities as a result of violations of rationing regulations was upheld in a recent decision by Federal Judge Archibald Lovett of Georgia. Judge Lovett ruled that OPA does have the authority, under the second War Powers Act, to issue such suspension orders and dismissed the complaint filed by a gas dealer who had been suspended from dealing in gasoline for 90 days because of violations of the rationing regulations.

Lift Pork, Lard Restrictions

Restriction on the number of pounds of pork and lard made from home-slaughtered hogs that can be sold or given by a farmer to people not living on his farm have been lifted from November 17 to February 17, 1944. The War Food Administration lifted the restrictions to help handle the slaughter and distribution of this year's record hog supply. Farmers are asked to find out from their market agency or processor whether their hogs can be handled before sending them to market.

Asks Farm Workers To Help

Farmers and workers engaged in agricultural occupations have been asked by the War Manpower Commission to give all the time they can spare in the agricultural off-season to pulpwood cutting, lumbering, and other war-useful occupations. Farm workers may transfer to such employment without obtaining a certificate of availability but, if of military age, must still obtain approval from their selective service boards. Local boards have been instructed to approve transfers for periods up to four months, and registrants will be continued in their deferred classifications. Workers are expected to return to agricultural employment at the end of the off-season or at any other time the need for them arises. Shortages in logging and saw mill products make it imperative that workers be recruited immediately. Any farmer or farm worker who does not have ready access to logging to communicate with the United States Employment Service Office in his community for information. Some other industry may have greater priority in his area.

Restricts Farm Equipment Sales

To prevent others from getting scarce farm equipment needed by farmers, the War Production Board has issued a revision of the Farm Machinery Order, L-257, which prevents dealers from selling rationed farm equipment for non-farm use, except on a rated order of A-1 or higher.

Apples Products To Cost More

Consumers will pay more for apple products because OPA increased maximum prices for apples in sales to processors. The amount of the increase at the consumer level will vary with the product and the size of the package.

Increase in Unemployed Money

The amount of unemployed money in the United States during the second quarter of 1943 amounted to 2.6 billion dollars, compared to the 1.7 billion dollars in the second quarter, 1942, the Office of War Information said in its first quarterly report on economical stabilization. In

DONT RISK—PLAY SAFE

Keep your Dwelling, Furniture, Automobiles and other valuable possessions INSURED at ALL times for they represent your life's earnings.

The only way to be fully PROTECTED is to be fully INSURED. We handle all kinds of insurance. It will pay you to give this your immediate attention.

Hughston Insurance Agency

Office Phone 238 Residence Phone 233

spite of paying more taxes and buying more War Bonds, Americans still were able to build up a store of unspent money. Should holders of this money now begin to bid against each other for scarce products, it would make the job of holding the line against rising prices enormously more difficult.

Byrnes Urges "Save Paper"

Urging a greater drive to conserve and salvage paper, James F. Byrnes, Director War Mobilization, said: "The war needs for paper and paperboard are greater than our present ability to produce. The shipment of bombs and shells depends upon paper bands and containers. Rations, blood plasma, medicines, bullets—all find their way to the fighting fronts in paper containers... we must all curtail all unnecessary use and then get all waste paper to local salvage committees or other charitable organizations for use in gifts and decorations to the mills at once. Every scrap of paper that you save and turn in will help."

Give War Stamps For Christmas

"A stamp in every stocking that's what the Treasury Department wants for Christmas. Encourage the giving of war stamps, many ideas for using them in gifts and decorations have been suggested—war stamps attached to a cellophane bag containing a small gift; war stamp lapel ornaments; a tiny Christmas stocking; small Christmas Claus holding stamps; small Christmas stockings containing stamps; a baby's rattle with stamps tied to it."

Radio Invasion Weapon

MOBILE RADIO STATION LINKS LAND, SEA AND AIR INVADERS

The terrific power of American invasion forces is made possible by combining aerial, naval, and ground forces into a single assault. A radio weapon used for this purpose in the African, Sicilian, and Italian invasion is the Hallicrafters mobile radio station, which is landed on the invasion coast and used for 3-way communication between ground forces on the beach, attack bombers in the air, and battle ships at sea.

The Hallicrafters mobile radio station, known to Signal Corps fighters as the SCR-299, is capable of receiving and transmitting battle orders over hundreds of miles. The telephone shown on the left can be operated at a distance of one mile from the station itself. A complete duplicate of the transmitter and receiver is carried in the form of spare parts in the cabinet bench on which the operator sits. Signal Corps Photos

Mrs. Clyde Knight of Childress is spending the week here visiting in the home of her sister, Mrs. H. B. Sanders.

Mrs. Geo. W. Stewart of Vernon was a guest Wednesday in the home of Mr. and Mrs. Will Erwin.

Rev. G. O. McMillan was called to Amarillo Wednesday afternoon on account of the critical illness of his sister, Mrs. M. L. Keith.

Mr. and Mrs. John Borchardt and two children returned home Friday from Pie Town, N. M., where they had spent five weeks.

Mrs. W. G. Pierce of Benjamin and Mrs. J. D. Cogdell and two small daughters, Joan and Marian, of Stinson, Colo., are here visiting their parents, Mr. and Mrs. Frank Brisco.

Garnet Jones of Crosbyton was here Saturday and Sunday visiting his parents, Mr. and Mrs. W. B. Jones, and other relatives and attending the dedication services at the Baptist Church.

THANKS

We wish to express our thanks for the lovely gift to Elmer from the people of the Thalia community on his recent visit home. To be remembered in this manner is greatly appreciated. Cpl. and Mrs. Elmer E. Patterson.

When present stocks are exhausted there will be no more twenty pound writing paper for the duration. The heaviest writing paper obtainable will be sixteen pound weight. Twenty pound weight is that most commonly used for letter paper. Another item that will soon disappear from paper stocks is colored paper used in printing hand bills. All hand bills will be printed on white paper for the duration. Magazine, as soon as present stocks are exhausted will be printed on a much lighter weight paper. Shortage of labor to cut the timber necessary to make the pulp, for the paper is given as the reason.

The army jeep is equipped with eight speed gear shifts.

FOOD FIGHTS FOR FREEDOM

When students read in the paper about the government designating November as "Food Fights for Freedom" month most of them brush it aside by saying, "What has that got to do with me, a student?" Probably that student does not realize that there are 30,000,000 students in the United States. No program could be successful without the co-operation of such a number. The program under way is to inform the public and increase the public's understanding of the food situation. It is true that the American people are producing more food than ever before in history. However, it is also true that we are feeding more people than ever before. American citizens should feel proud to be obligated to feed their fighting allies. There are many things students could do. There are projects for same, such as raising victory gardens. Merely eating all of your plate and doing away with waste will help.

The story about Lt. Tommie Johnson which was written for the Wildcat, has been used on the front page of the paper. Thanks, editors.

MISSIONARY SPEAKS TO HIGH SCHOOL

Monday, November 22, Mrs. Paul C. Bell, Baptist missionary to Panama, spoke to the High School students on Panama. She discussed the people and their habits, climate, scenery, animals, birds, transportation, government, celebrations, food, two cities, Panama City and Colon.

There are two kinds of Panamanians in Panama. The true blooded Panamanians are white just as we are and the brown Panamanians are of mixed blood. These people live in very small houses that open into the street. From six to twelve people live in a two-room house. To illustrate the gruesomeness of the living conditions, Mrs. Bell told of one certain incident. A man was passing through the streets one day and happened to look into one of the houses where there had been a death. The casket was on the table and the members of that family were eating around it. This shows just how crowded the people live. The cooking, washing and ironing is done in the streets. In the better houses there are basements, where the cars are kept and the washing is done. The houses are not heated. Whenever the people are cold, they get in a dry closet to keep warm, as there are no chimneys. This closet is also used for storing clothes.

At the present time Panama is very hot. Christmas is always hot but is celebrated just as we celebrate our Christmas. The celebration in Panama is very low on a scale. The houses are built in an order to keep the dampness out. During the dry seasons it is very hot in the day and cool at night. During rainy seasons a light sweater is needed because it is very cool. The people cannot stand water on their heads. Whenever it is raining, they spread papers, boxes or umbrellas over their heads and go slowly about their business. Raincoats and overcoats are very scarce. The Isthmus of Panama is very mountainous and beautiful with many flowers, trees and shrubs. The three most common kind of animals in Panama are the monkeys, sloths and the iguana.

HEADACHE IS SUCH A BIG LITTLE THING

ALL SET for a good full day's work when a nagging headache sneaks up on you. You suffer and so does your work.

Ready for an evening of relaxation and enjoyment—a pesky headache interferes with your fun, rest, enjoyment or relaxation.

DR. MILES Anti-Pain Pills

usually relieve not only Headache, but Simple Neuralgia, Muscular Pains and Functional Monthly Pains.

Do you use Dr. Miles Anti-Pain Pills? If not why not? You can get Dr. Miles Anti-Pain Pills at your drug store in the regular package for only a penny apiece and in the economy package even cheaper. Why not get a package today? Your druggist has them. Read directions and use only as directed. Your money back if you are not satisfied.

The monkeys are very active, but the sloths are extremely lazy. Sometimes they takes them from one to two days to cross a highway. Mrs. Bell said they reminded her of some children she had taught. The iguana is called the Panamanian chicken and is served in cafeterias and cafes for chicken. The meat is very delicious. The animal has a long tail and teeth down its back. Whenever it is angry, these teeth stick straight up. It lives in trees and eats bugs.

Some of the birds in Panama are very beautiful, but there are also those that are not. These birds do not sing but squawk like a parrot. The children carry parrots around with them for pets. Many buzzards are also found. The common insect is the termite. They eat everything they see and some things they do not see, as Mrs. Bell put it. There are no flies whatever in Panama, since Mrs. Bell saw only six in two years. The red ants are very large and are a great nuisance, since they build mounds in flower beds and stings. The people keep ant eaters for pets and to destroy ants much as we keep cats for pets and to catch mice.

For transportation, planes, cars, railroads, buses and chevacs are used. The buses are old fashioned and were painted with flowers until the government made a change. Chevacs are goats. The sports are football, tennis, baseball, archery and swimming. The beach at Panama is beautiful, but there can be no swimming because of the crocodiles and sharks. When a little boy ventured in swimming one time, his arm was cut off by a shark.

The Canal Zone is under the government of the United States. It has been leased for 99 years. Colon, where Mrs. Bell lived, is much like a large American city. Most of the people are Spanish speaking. At the end of her talk, Mrs. Bell conducted a questionnaire. The response to this questionnaire proved that the student body thoroughly enjoyed the talk and felt that they had practically made a visit to Panama.

STAMPS AND BONDS

The stamps and bonds bought in each home room are as follows:

- Sloan—1 bond (\$18.75), and \$5.00 in stamps.
- Myers—\$7.45 in stamps.
- Graves—\$4.55 in stamps.
- Conant—\$3.30 in stamps.
- Manard—\$1.55 in stamps.
- Bowley—\$1.10 in stamps.
- Graves—60c in stamps.

NOTICE

Home Economics III class is sponsoring an amateur program Wednesday morning, Nov. 30, in the High School auditorium. The talent of the high school and grammar school will be featured. Singing, piano playing, and acting will be the outstanding features used in this program. The audience is to select the winners by their applause. Prizes will be given to the winners. All you "gals" and "guys" be prepared to do your stuff.

SENIOR PERSONALITY

Who—La Verne Archer.
 Favorites—Cherry cokes.
 Food—Scalloped potatoes.
 Town—Quanah.
 Orchestra—Tommy Dorsey.
 Ambition—Nurse.
 Actor—Gary Cooper.
 Actress—Bette Davis.
 Dancer—Donald O'Conner (with Peggy Ryan).
 Boy friend—Bill Breedlove.
 Color—Red.
 Singer—Bing Crosby.
 Choice of college—Baylor University.
 Aversion—Those who tell on others just to spite them.

IF I'M WRONG—SUE ME

Bill Bruce

When your contributor said the own Pre-flight Sea Hawks would play the number one team in the nation, Notre Dame, the closest game of the season, he was not just kidding. Despite the fact that the Sea Hawks hammered the Fighting Irish to take the lead twice during the game, the boys on "number one" finally ended the victors. The final score, in case you would like your memory refreshed, was 14-13. Notre Dame over Iowa Pre-Flight. Dick Todd was heralded the star of the ball game. It is believed in most of the eminent circles that had Todd not been injured 12 minutes before the end of the game the Sea Hawks would have won the game.

The powerful Vernon Lions rolled on by defeating the Coyotes of Wichita Falls 7-0. If Vernon meets Amarillo at present strength, i. e., without Sammy Pierce, they will have a very rough time with the Amarillo Sandies whom they outplayed earlier in the season. This loss of Pierce will probably result in an Amarillo win in this bi-district tilt.

It might be noticed that the Texas Tech Red Raiders, pre-season favorites for the "losingest" team in Texas defeated S. M. U.,

a Southwest Conference team. Well, to be perfectly frank, the winner of the Southwest Conference will be Texas University after they defeat the Aggies today, Thanksgiving.

I'm in so deep now, I'll say Crowell will win Regional, but it will not be without one of the biggest fights ever recorded.

We hope the Cotton Bowl officials can find fit subjects for the Texas U. Longhorns in the New Year's Day Classic at Dallas.

CHS is "running over" with Aggie fans since the motion picture, "We've Never Been Licked," showed here. Therefore, if this column may seem a bit in favor of the Longhorns, please overlook it. I'm merely stating who I think will win. The Aggie spirit will probably be sufficient to win the game.

The Army-Navy game is still to be played. It still looks like an Army win.

This column is still very unofficial.

MYERS PRESENTS FIRST ASSEMBLY

Last Tuesday, November 16, Mr. Myers' class presented a humorous play, "Elmer Cleans Up," as the first assembly program of the year.

The cast was as follows: Billy Fred Short—Elmer. Mary Adkins—the mother. John Calvin Carter—the father. Betty Johnson—the daughter. Nancy Godwin—a friend. All the audience thoroughly enjoyed the program.

WHAT'S BUZZIN'

The frost is on the pumpkin and the fodder is ah' uh' Well, you know where the old man is, so let's get started on a new escapade just before, or should I say, Thanksgiving?

To start it off with the usual, we have "Babe" and Helen going over with John Calvin to see Ann. Have a nice time, kids? This didn't seem to make much difference to "Thos." as he had a date to the preview with Mary Atkins. From all reports he seemed to be having a good time. By the way, Helen Callaway was with Weldon Moody last Friday night.

It is rather hard to figure out Betty Johnson. She has been seen stepping out with Paul Bell lately, and she was seen with Bill Short last Sunday afternoon. Margaret Davis was seen at Jane Roark's dance last Saturday night with Kenny Norman. Margaret, what about Bill. Dorothy Greening was also there taking care of Kenny's brother.

It seems to your reporter that the only lasting romance in dear old CHS is that of Polly and "Doc." Let's hope so. Bill Breedlove has an enchanting, romantic case with Miss Lavene Archer.

It seems that no matter how Ann Favor does him, John Calvin keeps bouncing back for more. He somehow got through her schedule for a date Saturday night.

Jane Roark is wearing Buddy Shaw's bracelet. Could this lead to something or has it already? Say, Gordon, this Sunday night dating with Ana Laura Payne is getting bad.

R. J. Everson still has Virginia Mabe's heart. They were seen together at the party Friday night. Joann will surely be lonesome without G. B. Niell. He went to the Army.

We surely wish Carlos and Delmar Paul would find them a girl and let the girls in Crowell High know how they stand. Kenneth Archer, Janice Ward, Nancy Godwin, and Edmund Ward were seen in Vernon Saturday night. My, doesn't this reporter get around?

Carlynn Bell has called it off with Hardy Sanders. Tough luck, Hardy. Tommy Eaton, A. T. Fish, Billie Morrison, and I. D. Gilbert were seen around town Saturday night. Tommy, have you forgotten Harold?

Geneile Nelson, Anderson Whately, Dot Lewis, and Fred Pierce seemed to have a good time at a certain party last Friday night. Mary Jo Hogan is still "that away" about one of our popular ex-seniors, Clifford White. Vernon Garrett was with the little Baron girl again Saturday night. You know the old saying, "Love is blind."

Be seeing you. The Cuzzins.

JOKES

Jimmy: "I ought to know. Don't I go to school, stupid?"
 Leta Jo: "Sure, and you come home that way, too."

Friend (visiting in Hord family): "My, it isn't often that I get such a good dinner."
 Raymond: "Same here, Mr. Jones."

you thought you'd die?"
 "No, but I thought I might die after I laughed at the General."

Farmer (proudly showing off his pig): "Yes, sir, that's the cutest little pig I have, and his name is 'Ikk'."
 Visitor: "How's that?"
 Farmer: "Because he's always running out of the pen."

If you haven't heard of it before, one nice way to get your spinach is to feed it to the cow and then drink the milk.

A certain grocer was famed for selling tough meat. A man came into the store one day and asked for some beef.
 "Do you want it for boiling or roasting?" asked the grocer.
 "Neither," replied the man. "I want to use it for hinges on the stable door."

Joe: "You left something behind you."
 Moe: "What?"
 Joe: "Your footprints."
 Moe: "I don't want them anyhow. They're dirty."

"I saw you the other day at the corner winking at the girls."
 "I wasn't winking. That's a windy corner. Something got in my eye."
 "She got into your car, too."

A Frenchman came to America to learn the language and soon got into difficulties with his pronunciation, especially with the group comprising "t h o u g h," "plough" and "rough."
 When the film "Cavalcade" began its run, one newspaper review was headed "Cavalcade Pronounced Success," and the Frenchman gave up the struggle and went

back home.
 Prospective Roomer—This window is quite small. It wouldn't be much good in an emergency.
 Landlady—There ain't going to be any emergency, mister. My terms are in advance.

"I hear your brother is in the hospital. How is he?"
 "He's getting along fine, but he won't be coming home for a long time."
 "Is that what his doctor says?"
 "No. But I've seen his nurse."

A banker tells the story of a woman who appeared at the teller's window and presented a check to be cashed. The teller asked her for identification and she said, "Identification? Oh, yes, just a minute." After rummaging through her bag she took out a picture and held it up. "See that, that's my sister."

THOUGHTS OF SERIOUS MOMENTS

All the distinctive features and superiority of our republican institutions are derived from the teachings of Scripture.—Everett.
 Only free people can hold their purpose and their honor steady to a common end, and prefer the interest of mankind to any narrow interest of their own.—Woodrow Wilson.

We must accept the disciplines of democracy as well as its freedoms. Discipline from without flourishes when discipline from within grows weak.—Harry Woodburn Chase.

Women residents of New York State are allowed by law to fish without a license.

The Dallas Morning News

regrets its inability to supply its readers with as many copies as the public demands. However the publishers, in compliance with Government wartime regulations calling for the use of less newsprint, have been forced to "freeze" the volume of circulation within this community.

WHEN MORE PRINT PAPER IS AVAILABLE WE WILL BE HAPPY TO LIST YOUR SUBSCRIPTION.

PLEASE ACCEPT OUR THANKS FOR YOUR VALUED PATRONAGE IN DAYS GONE BY.
