here Some of Those Huge Raids Start

U. S. Flying Fortresses are now using over 11 recently equipped air bases near Foggia, Italy, to drop tons of bombs on Nazi-controlled Italy. These bases will make possible a campaign extending over the entire range indicated by the light area on the map. Bombers can take off and return to these bases usually without facing serious enemy opposition.

1944 Death Trap Set for Nazis

Many-sided trap which is expected to smash the German military machine and culminate with an Allied march on Berlin. From every direction men and planes will stream toward this city which is already laid to be a smoldering ruin. From Russia, the Balkans, Corsica, Italy, and from England will come the crushing blows.

Championship Tournament of Dist. 9-A to Be Held at the Crowell High School Gymnasium Friday Night and Saturday

The basketball championship of district 9-A will be decided here in a week-end by a tournament held at the High School gymnasium. The following seven schools will participate: Archer City, Willicoth, Crowell, Holliday, Park, Seymour and Valley View. The winner of this tournament will play in a regional tournament for the right to attend the State meet. There will be three games played Friday night with the first one starting at seven o'clock. One team will have a bye in the first round. The semi-finals will be played Saturday morning at ten and eleven o'clock and the championship determined Saturday night. Drawing for the schedule will be held Friday afternoon after all the coaches arrive. Joe Forrester, principal of Quanah High School, will do the officiating. The regular prices of 15c and 30c will be charged for each series of games.

V. Winningham Purchased Lanier Hardware Stock

Q. V. Winningham has bought the Lanier hardware stock from H. Lanier Sr., and assumed management of the business Wednesday at the same location in the Lanier building on the west side of the square. Mr. Winningham is experienced in the hardware business and will be active in the operation of this long established enterprise. Mr. Lanier, who has been in the hardware and grocery business in Crowell for approximately thirty years, will devote his time to other interests. He has been assisted by his family in the operation of the two stores. Mr. Winningham's blacksmith shop will be operated by Jack Miller, who has been associated with him for the past year.

Men in Service

Alfred Eddy, who recently went to the Army reception center at Fort Sill, Okla., has been sent to Camp Lee, Va.

Glenn H. Randolph, son of Mr. and Mrs. John Randolph of Crowell, is now enrolled in the U. S. Maritime Service Training Station at St. Petersburg, Fla., according to a news release received by The News. He is now in his preliminary training and upon completion of his basic training, he hopes to enter the school for Hospital Corpsman—Junior Assistant Purser where he will receive specialized training.

Serving on the Board of Governors of the Non-Commissioned Officers Club of Camp Campbell, Ky., is S. Sgt. Robert (Ed) Dunn, son of Mrs. W. T. Dunn of Margaret. This club was organized seven months ago with at least 1,000 members having been transferred in assignment, many of them to overseas theaters. Last week the club placed \$1,000 of its surplus funds into Series "G" War Bonds. Since many of the NCO Club's former members are now overseas, they find themselves serving their country in an unusual capacity—they are literally backing their own attack.

Lieut. Riley R. Griffin, son of Mr. and Mrs. W. B. Griffin of Crowell, has been transferred from Australia to some place in New Guinea. Another son of Mr. and Mrs. Griffin, Chippie Griffin, has been promoted from Pharmacist Mate 3rd class to Pharmacist Mate 2nd class. He is somewhere in the South Pacific.

S. Sgt. Melton Connell of Patterson Field, Ohio, was here several days visiting his grandmother, Mrs. J. W. Owens. He came to Crowell from Lubbock where he visited his parents, Mr. and Mrs. O. E. Connell, former Foard County residents.

Pfc. Howard Lee Black, who is stationed at the Lubbock Army Air Field at Lubbock, is here visiting his wife and infant son.

Y 3/C Sam D. Russell and Mrs. Russell arrived here Saturday from Norman, Okla., where Yeoman Russell is stationed, for a visit in the homes of their parents, Mr. and Mrs. Tom Russell and Mr. and Mrs. C. D. Mallins. Mrs. Russell remained for a longer visit, but her husband returned to Norman Sunday afternoon.

Mo. M. M. Glendon Russell, son of Mr. and Mrs. Tom Russell is spending a 10-day leave here visiting in his parents' home.

New Ladies' Dress Shop Opened by Mrs. H. Schindler

Mrs. H. Schindler has opened a dress shop in the Ringgold building in which the dental office of Dr. Schindler is located. The Dress Shop will occupy the south side of the building and the dental office occupies the north side.

Mrs. Schindler has been to market and has a stock of dresses, blouses, skirts, bags and accessories and expects to further complete her stock at an early date. She is well known to Crowell and the surrounding communities. She plans to return to market at an early date for the purchase of summer goods.

INFANT DIES TUESDAY

Mary Ann, infant daughter of Mr. and Mrs. M. D. Durham, passed away at the family home Tuesday, Feb. 8, after a short illness. The baby was born on Jan. 30.

Funeral services were held at the Church of God, Wednesday afternoon, Feb. 9, with the pastor of the church, Mrs. Gertrude Alexander, officiating. Burial was made in the Crowell cemetery under the direction of the Womack Funeral Home.

Surviving the baby are the parents, six brothers, Charlie, Henry, Elbert, Hubert, Melton and Jerry, and four sisters, Mrs. E. L. Woodard, Adeline, Mildred and Melinda Fay Durham.

To the People of this Community YOU CAN AFFORD IT

You can afford to buy Extra War Bonds during this Fourth War Loan Drive. Everyone in this community knows incomes are higher than ever before—that both workers and farmers have more cash than ever before. Everyone knows that more than one member of hundreds of families are income earners—and everyone knows that increases in wages and salaries have far outstripped rising prices, and increased taxes. You can afford to buy Extra War Bonds.

As a matter of fact, you can't afford NOT to buy Extra War Bonds. If you spend your money for needless, scarce goods, you are increasing prices. If you want to help win the war you can't afford NOT to buy War Bonds. If you want to help that boy in the service, you can't afford NOT to buy Extra Bonds and if you want a gilt-edged investment for your own future security, you can't afford NOT to buy Extra War Bonds. Don't just do the expected—buy All the Bonds you can.

Election of Officers at Red Cross Meeting to be Held Friday P.M.

The Foard County Chapter of Red Cross will hold its annual meeting in the office of County Judge Leslie Thomas Friday, (tomorrow), evening at 7:30, and County Chairman George Sell asks that there be a large attendance at the meeting.

The main business of the meeting is to be the election of officers for the year 1944. There will also be committee reports from the chairmen of the various communities. Everybody who is at all interested in the workings of Red Cross, which is probably the outstanding organization at the present time, is urgently requested to be present.

Extension Service Agents Meet Here Wednesday

County agricultural agents and home demonstration agents of five counties held an all-day meeting in Crowell Wednesday. The topics of discussion at this meeting were farm outlook for the year, income taxes and dairy conservation program.

Extension Service employees attending the meeting were J. A. Scofield and Mrs. Isla Mae Chapman, district agents; Tyrus R. Timm, economist in farm management; L. L. Johnson, State Boys' Club agent.

County home demonstration agents were Miss Gwendolyn Couts, Cottle County; Miss Lucile King, Knox County; Miss Nanette Hill, Wilbarger County, and Miss Elizabeth Elliott, Foard County.

County farm agents were Rufus Emmons, Motley County; Grady Lane, Cottle County; R. G. Dunkle, Knox County; Grafton F. Henry, Wilbarger County and D. F. Eaton, Foard County.

Eighteen girls are employed to renew the burned out light bulbs in the Pentagon office building in Washington, D. C. The building has between 65,000 and 70,000 lights.

Out of the Rough

The Bureau of Agricultural Economics of the Agriculture Department—the most authentic source of farm figures—estimates that the farmers' share of the national income last year was a little over 14 billion dollars, including government payments. According to these figures the farmers receive only 23 per cent of the population get less than 10 per cent of the income. This in view of the fact that the members of the farm industry have heavy investments in their and work the longest hours of any labor in the country.

The zone mail system which has been given a trial by the postoffice department will be made permanent. Under the zone mail system each large city is laid out in mail districts. In addressing a letter the sender is required to put after the name of the city of destination the number of the zone in which the addressee lives. It is claimed that the use of the zone numbers greatly facilitates the distribution of the mail to the carriers working out of the postoffice.

These agents of the neighboring county talked about the work they are doing among the boys and girls of Knox County.

Mr. Dunkle and Miss King were visitors in Crowell on that day attending an all-day meeting of county and home demonstration agents and other Extension Service officials, all of whom attended the Rotary meeting.

Ensign Dick Todd of the U. S. Navy was also a visitor. Amos Lilly and L. Y. Tate attended for the first time as new members.

BUY NEW HOME

Mr. and Mrs. Frank Flesher bought Granville Lanier's home on North Main Street this week from J. H. Lanier and will move into it as soon as some minor repair work is done.

The Bureau of Agricultural Economics of the Agriculture Department—the most authentic source of farm figures—estimates that the farmers' share of the national income last year was a little over 14 billion dollars, including government payments. According to these figures the farmers receive only 23 per cent of the population get less than 10 per cent of the income. This in view of the fact that the members of the farm industry have heavy investments in their and work the longest hours of any labor in the country.

In addressing a letter the sender is required to put after the name of the city of destination the number of the zone in which the addressee lives. It is claimed that the use of the zone numbers greatly facilitates the distribution of the mail to the carriers working out of the postoffice.

Only one out of six of the persons administering the work of the OPA on ration boards throughout the country receives any compensation. For every six workers five are volunteer workers.

Crest of Fourth War Loan Campaign in Foard County Reached with Eighty Per Cent of Bond Quota Already Sold

According to figures released Saturday, Feb. 5, total bond sales for Foard County in the Fourth War Loan Bond drive, amounted to \$102,000.00. This was only \$25,000.00 short of the county quota of \$125,000.00 and the county bond officials and community committee chairmen were confident that the quota would be reached before the close of the campaign on Feb. 15. The amount of bonds sold is about 80 per cent of the quota and this is just about the ratio of the sales to the quota over the entire nation. Of the bonds sold, 30 per cent have been Series "E."

At this time five communities have exceeded their quotas. They are Thalia, Foard City, Vivian, Rayland-Riverside, and Margaret. All the other communities are very near the top and feel confident that they will go over.

Much credit is due for the success thus far to the community workers, as they are the ones who are responsible for the attainment. In next week's issue of the paper, there will be a total report of the bonds sold in each community and the quotas. Foard County is backing the war effort on every front and with just a little more effort, it is hoped that it will be possible to announce that the quota of War Bonds has been sold, and even more.

Wins Highest Award

Lieut. David C. Waybur of Piedmont, Calif., who was awarded the Congressional Medal of Honor for heroism in Sicily. This is the highest American military award.

Culling Campaign Will Be Conducted by Local V. A. Boys

The local V. A. boys are sponsoring a culling campaign in cooperation with the request of the Government to cull 50 million non-profitable hens from flocks in the United States.

This is necessary to save valuable feed needed so much for profitable hens.

The boys plan to work a few at a time with Marvin L. Myers after school in carrying out the program.

Baby Has Many Grandparents

Norman Lee Black, infant son of Pfc. and Mrs. Howard Lee Black, is blessed many times over with grandparents. His case is almost fit for Ripley's Believe It or Not.

The baby is the grandson of Mr. and Mrs. H. M. Black of Truscott and Mr. and Mrs. Sam Mills of Crowell. He is the great-grandson of Mr. and Mrs. H. E. Black and of Mr. and Mrs. S. W. Gentry of Crowell and of W. K. Matthews of Itasca. Thus he has nine grandparents. And, in addition to that, he has two step-grandparents, Mrs. G. G. Mills of Foard City and Mrs. W. K. Matthews of Itasca.

Both the parents of the baby are the first grandchildren in each family and infant Norman Lee is the first great-grandchild.

Banker on Newsstand

The Texas Highway Commission on January 18, 1944, passed an order prescribing for the 1944 registration year, which begins April 1, 1944, two metal tabs 2x2 inches bearing the designation of the State, year and an identification serial number. The tabs must be used in connection with the 1942 plates which must be retained throughout the 1944 registration year. The same procedure applies to vehicles which are required to have but one license plate, except that one tab is prescribed and the one 1942 license plate must be retained.

The Highway Commission has also ordered that the 1944 tab or tabs be securely fastened to the 1942 plates in such a manner as to be clearly visible. On all motor vehicles for which two tabs are issued, one shall be attached to the front license plate and one to the rear license plate.

The Highway Commission has made every effort to comply with the request of the Federal Government for conservation of critical materials and both the steel and paint used in manufacturing the 1944 tabs were obtained from stocks on hand before Pearl Harbor. All motor vehicle owners in Texas are earnestly requested to co-operate by applying 1944 registration insignia in the manner legally prescribed.

Guy Emerson, vice president of a New York bank, sells papers at a newsstand while the owner took time off to purchase a war bond. His act typifies the unity with which the big and small business men are buying bonds and getting war tools to men at the fronts.

Co-Op. Society to Extend Charter for Fifty Years

The Farmers Co-Operative Society No. 1 voted to extend its charter for a fifty-year period at the annual membership meeting held Saturday in the district court room. A large number of members were in attendance.

D. F. Eaton, county farm agent, gave an address at the meeting, and called attention to the fact that this year is the one hundredth anniversary of co-operative marketing.

The Society, which owns and operates the two farmers' gin plants in Crowell, has been organized for twenty years and has a membership of 270 at present, fifteen of the charter members being present at the meeting Saturday.

For the past ten years the gin has had an income of \$175,845.77 and has paid dividends totaling \$71,000.00. The value of the two gin plants in Crowell is \$60,700.00, one being new and equipped with modern machinery.

Of the 270 members, 210 carry a mutual insurance policy of \$210.00 each. Two policies were paid last year. The interest on each member's stock pays the annual premium on the insurance policy.

M. S. Henry is president of the Society and Glenn Jones is secretary. T. V. Rascoe is manager of the gins and the following are serving as directors: Glenn Jones, J. J. McCoy, J. M. Barker, M. S. Henry, George Davis, S. E. Norris, T. F. Welch, W. O. Fish, C. C. Ribble, A. L. Davis, Claudius Carroll and Jim Bailey.

Highway Commission Prescribes Metal Tabs 2x2 Inches

The 48th session of Texas Legislature, introducing unusual conditions due to the scarcity of materials used in the War Effort, authorized the State Highway Commission to prescribe whatever type of motor vehicle registration was available and best suited to the requirements of the State and the traveling public for the 1944 registration year.

The Texas Highway Commission on January 18, 1944, passed an order prescribing for the 1944 registration year, which begins April 1, 1944, two metal tabs 2x2 inches bearing the designation of the State, year and an identification serial number. The tabs must be used in connection with the 1942 plates which must be retained throughout the 1944 registration year. The same procedure applies to vehicles which are required to have but one license plate, except that one tab is prescribed and the one 1942 license plate must be retained.

The Highway Commission has also ordered that the 1944 tab or tabs be securely fastened to the 1942 plates in such a manner as to be clearly visible. On all motor vehicles for which two tabs are issued, one shall be attached to the front license plate and one to the rear license plate.

The Highway Commission has made every effort to comply with the request of the Federal Government for conservation of critical materials and both the steel and paint used in manufacturing the 1944 tabs were obtained from stocks on hand before Pearl Harbor. All motor vehicle owners in Texas are earnestly requested to co-operate by applying 1944 registration insignia in the manner legally prescribed.

The Fourth War Loan Drive is fast drawing to a close. The government has asked every person to buy extra war bonds and stamps during the drive to support the war effort and to back the inevitable invasion of the continent. All good citizens know the tremendous cost of waging a war. Especially there is a high cost of invasion, therefore it is necessary to raise these many billions of dollars. Many people are prone to take the attitude that the war is practically over, but the authorities believe that the war in Europe will not end before the

invasion. The best strategy of war is to double and re-double the effort when the enemy is on the run never giving him the chance to get that second breath. The money will have to be raised, and it will be raised in one way or another. War Bonds is one way, taxes is another way. Your response to the War Bond Drive might well determine the method in which the government will extract the money to wage the war against the Axis.

War Bonds benefit you in many ways; they give you interest on your money, they ward off inflation and prevent depressions. These benefits are topped by the greatest advantage of all, for it shortens the war. It is up to you to buy only necessities and to put the surplus money in War Bonds and stamps.

ENGLISH IV POLL SHOWS DESIRE FOR PROFESSIONS

Professions are the choice of 50 per cent of the English IV students of CHS. This was revealed by a recent poll taken by Mrs. Sloan in her two English IV classes:

	Per Cent
Own business	16
Farm	5
Profession	50
Large Organizations	12
Government Public Serv.	12
Secretary	5

Many students gave reasons for their choice. The following are typical comments:

"I would rather be a professional man, a farmer, or own a small store or business than work for the government or any other place where you are not managing your own money, thoughts and labor. I like my own ideas."

"Farming is good, healthful work. You have plenty to eat, plenty of freedom, and no snooty neighbors!"

"The majority of girls interviewed chose nursing or teaching with the idea of serving humanity. A boy specified engineering as his choice, because he wanted to help re-construct the world."

"Another chose farming because so much food will have to be produced to feed the starving people."

"A government employee's salary is stable and his job is usually secure."

"I prefer working for a large corporation because there is security, regular pay, and good working conditions."

DISTRICT 9-A BASKETBALL TOURNAMENT TO BE HELD HERE

The District 9-A Basketball Tournament will be held here in the CHS Gym beginning tomorrow night, February 11, and continuing through Saturday night. Games will be played Friday night, Saturday morning and Saturday night. The admission will be 15c and 30c.

The following teams will participate in the Tournament: Seymour, Iowa Park, Archer City, Valley View, Munday, Holliday, Chillicothe and Crowell. All students and patrons are urged to attend.

Let's back our team!

WELCOME

The school wishes to take this opportunity to welcome all members of the basketball teams of Seymour, Iowa Park, Archer City, Valley View, Munday, Holliday, Chillicothe and Crowell, and their respective coaches to CHS. We hope that your visit with us shall be pleasant.

SPECIAL ANNOUNCEMENT

The Junior Red Cross is going to town! We're getting "hep" to the tune of a 42 Tournament. This lovely song will be played at the high school building. All you slick chicks come. It just costs 25c, which will go for gym equipment and maybe a tennis net. Let's all help. After all, it's your Red Cross.

JUNIORS TO HAVE PARTY

The Juniors will have a Valentine party Monday night, Feb. 14, at 7:30. The place will be announced later. All Juniors are to bring twenty-five cents to O. C. Wharton as soon as possible.

THE MOST EFFICIENT JUNIOR RED CROSS MEMBER

Wilma Fleisher is the most faithful and efficient Junior Red Cross member in Crowell High School. She has been sewing one or two periods daily since the beginning of the second semester. She is finishing the Army utility bags that the Homecoming II and III girls started. Each girl made at least one; then Wilma took the responsibility of checking these "finishes" the remainder. There will be about one hundred utility bags when they are all finished.

WHAT'CHA SAY, HUH?

What'cha say, huh? Let's all back our grand basketball team at the Tournament this week-end, and let them know that we're behind them all the way. It seems to me that the school spirit has been dragging quite a bit late-

and Uncle Sam doesn't mean maybe!

If you are a patriotic American, this is an invitation which you must read and heed!

The life of our country may depend on the life of your car. If this sounds exaggerated, remember that official estimates declare that the nation's all-out war effort will be seriously endangered if the number of serviceable cars in the U. S. falls below 20,000,000.

In 1943 the number of cars scrapped was 1,500,000. This year 2,000,000 more will probably go to the junk heap. Yours must not be among them. Literally, you must coax and cajole every last bit of usefulness from the aging engine, chassis, and tires of your car.

Phillips 66 service men are specially pledged to perform all services which will improve the operating efficiency of your car and lengthen its life. Phillips Tire-Saving Service includes checking air pressures at least once a week... inspecting for nail holes, cuts, and bruises... examination of tire carcasses to warn you when recapping is advisable and still possible.

Phillips Car-Saving Service includes inspection of battery, air filter, and anti-freeze protection... regular lubrication at every point specified by the maker of your car.

So do the right thing. Do it right. Care for your car and your country by enlisting the aid and operation of the nearest Phillips service man. Drive in at any Old and Black 66 Shield... signamous Phillips 66 Gasoline and Phillips 66 Motor Oil.

Be Quick To Treat Bronchitis

Chronic bronchitis may develop your cough, chest cold, or acute chitis is not treated and you are afforded to take a chance with a less potent than Creomil which goes right to the seat of trouble to help loosen and expel laden phlegm and aid in soothing and healing tender, inflamed bronchial mucous membranes. Creomil blends beechnut creosote by special process with time tested medicines for a way it quickly allays the cough, permitting rest and sleep, or you have your money back. (Adv.)

We have been appointed dealers for the—
"Gustafson Choke-Proof Duster"
—in the Counties of Foard, Hardeman and Wilbarger.

To you who have not heard of this Duster, we wish to state it is by no means a new duster for this country, it is a proven piece of merchandise and has been sold throughout Texas for the past number of years.

Due to war restrictions the supply is very limited. We have in stock here in Vernon all of the Dusters we will get this year. However, we realize it is early to be thinking about buying a machine of this kind, nevertheless it is our intention to sell these Dusters now so the farmer will be prepared this spring, so let us suggest that you buy now before it is too late.

Get in touch with us today. We will be glad to furnish you with descriptive literature and prices, or if you are in Vernon, come to see us, as we have these Dusters on display.

In the fear of the Lord is strong confidence; and his children shall have a place of refuge.—Proverbs 14:26.

One reason we have so many foolish and irritating laws is that at the time the law is being considered we think it won't affect us but will crack the other fellow. Because of our indifference we don't help the other fellow defeat it. When our turn comes and a law is under consideration that will be especially irritating and costly to us, the other fellow, whom we, in our selfish indifference, failed to help, returns the compliment and does nothing to help us. As a result we all get caught with a lot of laws which good judgment and simple common sense cannot justify.

A valuable addition to every soldier's kit is a metal mirror about four inches square. A flier forced down at sea can use the mirror to attract the attention of rescue planes by the reflection of the sun's rays. In clear sunlight these rays may be seen as far as ten miles.

We always knew that money talks, and judging from recent releases from the Treasury Department, the stuff can stand up and shoot, too!

HISTORY

The Boston Massacre—March 5: The quartering of the British troops in Boston in 1768 was bitterly resented by the citizens of the community. Numerous disturbances resulted which culminated on March 5, 1770, when seven soldiers under the command of Captain Preston were pelted with stones and snowballs by a crowd of some fifty or sixty citizens. Captain Preston ordered his men to fire a volley into the crowd. Three of the crowd were killed outright. As a result a mass meeting was held by the people of Boston which was attended by three thousand persons. Speeches denouncing the outrage were made and it was demanded that the troops be removed from the city at once. A week later the British troops were all transferred to Castle Island in Boston harbor. In November the soldiers and their captain were tried for murder. They were found guilty of manslaughter and were given light sentences. For a number of years the anniversary of the date of the event was observed by the people of Boston "to perpetuate the memory of the horrid massacre perpetrated on the 5th of March, 1770, by a party of soldiers under the command of Captain Preston of the Twenty-ninth Regiment." After the Revolutionary War was won and the Declaration of Independence was adopted, the observance of the day was combined with the observance of Fourth of July. In 1888 a monument was erected on Boston Common in memory of the victims of the massacre and a circle of paving stones marked the place in the street where they fell.

SAFETY SLOGANS

Do your part in the national campaign for safety on the highways by eliminating some fault of your driving. Everyone has a few. There is no excuse, no apology one can make for poor brakes. A driver is responsible for his brakes. A beautiful young woman may be scarred for life by one trip through a jagged, broken windshield—drive carefully. The law requires every known rule of health and yet meet an untimely death in an accident because of lack of care. Not all automobile accidents are the fault of the driver. There are many careless pedestrians. Safety means a clear mind, a steady hand and quick action in emergencies. Safety means safeguarding the nation, the home and the industry. Thinking one thing and doing another causes accidents—watch your step.

What We Think (By Frank Dixon)

In my opinion the resentment throughout the country is growing against the present pay-as-you-go income tax law, especially among the small business men and farmers. Most of them feel that it is unnecessarily obtrusive and impracticable and in their resentment refer to it as crack pot legislation designed by impractical men with no business knowledge or experience. The law requires the same complicated calculations from the small business man and farmer that it does from the large business concerns whose organizations include expert bookkeepers and skilled accountants. There are two glaring faults with the present law. In the first place it is too complicated. It is difficult to conceive why any law making body should presume to impose upon its people a law so involved and so obtrusive that it cannot be understood by most people who are called upon to make out returns. The contention that the law and the blanks cannot be made simpler is an admission of futility and inefficiency. If the present group that is now in charge of framing the law and getting up the forms and instructions is unable to prepare them in a manner that they can not be understood by those who are supposed to use them to make their returns, they should be dismissed from public service and men, if they can be found, who are able to prepare them in an understandable manner, be put in their places. It is not an evidence of intelligence or anything resembling intelligence that a technically trained person can prepare a form that the laity cannot understand. It is an evidence of intelligence when a technical matter is presented in a way that the laity can understand. In my opinion the calling upon business men and farmers to "estimate" their income and to pay taxes on an estimated income is an indefensible imposition. It is indefensible because it multiplies an already complicated problem and in the end secures no more money for the treasury than the older and obviously more sensible plan of paying taxes on income after it has been earned and when the business man or the farmer knows what his income will be. The plan of pay-as-you-go was an idle catch phrase designed to fool the people into thinking that this system would be easier than the obviously sensible plan it superseded. Had there been a need for the pay-as-you-go plan among business men and farmers to ease the load it could have been worked out with a system of tax certificates which taxpayers could have purchased in advance to apply on their taxes when they became due. Most people are willing and eager to pay their share of the cost of running the government and financing the war to the last dollar but they feel that the means of determining the amount of taxes they shall pay has been made unnecessarily obtrusive and inexcusably and indefensibly difficult. The pay-as-you-go plan for business men and farmers is a half baked theory. It is without a single justification. It secures no more tax money and is a nuisance and a hardship upon everyone upon whom it is imposed. It should be repealed, and, until a better plan can be devised the old plan of paying an income tax after one knows what his income is, be put back into effect. Washington, Conn.—Fearing they would fail their surgical dressings quota, Red Cross women sponsored a party for their husbands, served refreshments, then put the men to work folding dressings. They filled their quota two weeks ahead of time.

Food, Home Notes

(By Miss Elizabeth Elliott, County Home Demonstration Agent.)

Fresh Pork For Roasting A moderate oven temperature is best for roasting fresh pork, whether the roast is a fancy ham or loin, or a thrifty stuffed shoulder. Pork, like any tender, well-fatted meat, roasts best in an oven set about 325 F. for the entire cooking period. A shallow open pan rather than a deep sided roaster is recommended for pork roasts because it allows the heat to move freely around the meat. A rack in the bottom of the pan keeps the meat from sticking. No water should be added to the pan. Water makes steam in the oven which draws juice from the meat and causes it to lose weight and also flavor. Set the roast fat side up in the pan so that it will baste itself as the fat melts and runs down over the meat. Turn the pan from time to time so that all parts cook evenly. Pork roasts must always be cooked "well done" for health's sake. No pink juice will show if the meat has been properly cooked. The time necessary for roasting fresh pork properly depends not only on the weight of the roast but also in its shape and the amount of bone it contains. A compact chunky roast like a stuffed shoulder needs longer time in the oven than a longer thinner cut containing considerable bone such as center loin. A heavy chunky roast like a whole ham needs less minutes to the pound than a small chunky piece like a half ham. Fresh pork roasts should be sprinkled with salt and pepper before they go into the oven. Flour may be rubbed on the roast if a crispier crust is desired. Loin Roast Pork loin is a roast that can be bought in a size to suit the family and the number of ration points. It is the cut from which pork chops come. Have the butcher crack the bones of the loin so that the roast can be carved by slicing between the ribs. Set the loin in the pan, ribs down and fat side up. In an oven of 325 F. a center loin roast needs about 30 minutes to the pound, an end loin which is thicker needs about 45 minutes to the pound. Fresh Ham Roast Fresh ham is one of the most delicious large pork roasts for a company or Sunday dinner. A whole ham is usually too large for the average size family, but a half ham makes a good oven roast. Ham cooks more quickly and shrinks less if the rind is not removed before roasting. Start the ham in the oven with the rind side up but turn occasionally for even cooking. In an oven at 325 F. cook a whole ham about 30 minutes to the pound a half ham about 50 minutes to the pound. When the ham is done, remove it from the oven and carefully take off the stiff rind by breaking through it on the flesh side of the hock, then turning it over and simply lifting off the rind in one piece. Stick long-stemmed cloves here and there in the fat covering, then sprinkle brown sugar over the fat. Put the ham back in a moderately hot oven just long enough to brown over the top. Shoulder Roast When pennies as well as points count, fresh pork shoulder is a wise buy for a roast. If the butcher removes the shoulder bone and the space is filled with stuffing and then sewed up, the roast is easy to carve. A 5 or 6 pound shoulder is a good-sized roast. Make a bread stuffing with savory seasoning like chopped celery and parsley. Lay the shoulder fat side down, pile in some of the stuffing, begin to sew the edges of the shoulder together to form a pocket, and gradually work in the rest of the stuffing. This "compact" cushioned roast requires about 45 minutes

It's IN THE AIR. You can feel it, every time the Axis is struck. This is the climax year, the year of decision. In history, 1944 will be the big year of the war—every stroke for victory counts more now. That's why it's vitally important for every American to beat his post, doing his part right now. You, personally, have an important job in winning the war—buying War Bonds. It's not glamorous—no, not even a sacrifice, really, because you are only lending your money, to be returned with interest. But it is essential to complete victory. Your part in this year of decision is at least one extra \$100 Bond, above your regular Bond buying. That is your minimum individual quota. But don't stop there. Remember wars are won only by all-out effort. So buy \$200, \$300, \$500 worth—buy more than you can afford. And buy your Bonds where you work—at the plant or at the office. Your country is counting on you—let's make the year of decision OUR year!

AGRICULTURE

(D. F. Eaton, County Agent.)

Garden Is Good Investment January is a good time to begin the preparation of garden soil. Weeds and grass may be removed at this time, looking ahead to February and March planting. A good gardener can expect a yield of one-half to one pound of vegetables per foot of row. That means extra space in the backyard devoted to a Victory garden will yield good returns.

It is also possible to increase vegetable yields by the addition of fertilizer to the soil. In sandy areas, three to five pounds of commercial fertilizer per 100 feet of row is recommended. It should be chopped into the soil 10 days before planting time. But in heavy soil, or where moisture is limited, commercial fertilizer is not desirable. You can use barnyard fertilizer or compost, however, using 25 to 50 pounds of well-rotted manure to each 100 feet of row space.

Wolves Are Doing Serious Damage

We notice that in some sections of the state that jackrabbits are doing serious damage to crops and feed. Here in Foard County our chief concern is with the wolves which are causing more damage than any other pest.

We would like to trade some of our wolves, for some of West Texas jackrabbits, for the wolves have about cleaned out the rabbits and are preying on our poultry, turkeys, calves, quail, pigs and sheep.

Kansas has what is known as a Little Legislature or a Legislative Council. The members of the Council are chosen from both houses of the legislature and meet several times a year to discuss legislation to be introduced at the next session of the legislature. The council collects data relative to proposed bills, seeks to supply and codify legislation and studies needed changes in the state government. The Council is regarded as a beneficial body.

come that many people have quit trying to grow poultry and turkeys, and those who do try suffer hurtful losses.

We notice that in some sections ammunition is being released with which to destroy these pests. Also in some sections they are using the airplane to hunt and destroy them, with success.

There is widespread concern over the losses caused by this predatory animal and we would like to have constructive suggestions as to the best means of control.

Like the rabbits referred to above that go in droves these animals are going in packs and with the scarcity of wild life to feed on they are playing havoc with sheep, calves, turkeys, pigs and chickens, forcing many growers out of production or making it unprofitable to continue growing these livestock.

With the full co-operation of all concerned, we should be able to effect the control of this destructive animal.

A Dreadful Poultry Disease

Just to give you some idea of the discouragement that sometimes confront farmers we will detail an experience we have just had.

We have just returned from a farm where he had 100 chicks that had just reached eight weeks of age and many of them were just ready for the table, in fact, he had planned to have some of them for Sunday dinner.

But here is what happened during the last two or three days: some of these birds became ill and not a few died. So we were consulted and paid the farm a visit and carefully checked to find the trouble and to try to salvage some of them at least.

It appears they have occidiosis, a disease that strikes birds anywhere from a few weeks old to six or eight weeks of age. Usually it is fatal and frequently but few survive. In this case several have died and many are sick.

The only thing we could do was to suggest a remedy which may enable him to save a few of his remaining birds, we hope.

We recommended using sulphur in the following amounts mixed with mash: a ten per cent mixture for a couple of days, a five per cent mixture for five days and a two and one-half per cent mixture for several days to follow.

In addition to this we recommended a mixture of vinegar and copper sulphate in the following proportions: one ounce of copper sulphate and one pint of vinegar. Use one tablespoonful of the mixture to one gallon of water and place before the chicks.

Also, we recommend that he take away all feed and flush his

chickens out with buttermilk, and to feed some of the milk to the chicks regularly.

Not only was this a disappointment to the farmer but was to me as well, as we had planned to try to talk this good farmer out of some of these birds.

Grain Sorghums

The farmers of this county made good progress in planting certified grain sorghum seed, and found yields above those planting general run seed, during 1943.

Most of them also found that they planted most of the grain sorghum too thick in the row and as well as too late in many instances.

They all agree that it was a profitable crop as prices were good and with the present shortage of feed grains it looks like it will be a good bet this year. At least the price was so good that many farmers sold short and need more than they kept for feed.

So from the standpoint of feed insurance we know it will be a good plan to have an abundant supply stored in the feed bins this year.

Many have made inquiries about seed sources to date, and some have wisely ordered seed already. If you wish to secure these seed it will be well to order now as the available supply is rapidly diminishing.

Some are securing the chinch bug resistant types grown in the vicinity of Childress of which Bonita is a good variety.

It only costs 40 to 60 cents per acre to buy this seed and we feel that it is a good investment as the increased yield will pay a good dividend.

You can get the seed shipped direct to you in 50 and 100 pound bags at around six and one-half cents f. o. b. shipping point. The cost of shipping will be around one dollar per hundred pounds.

Your Horoscope

February 7, 8.—You have a fine active mind, but somewhat impractical at times, though you are often disappointed in your undertakings. With all your faults you are a very nice person.

February 9, 10.—You are sly and often tricky, yet you possess a fine, active mind and are a good reasoner. Without much thought and calculations you often enter into large operations and suffer disappointment in their outcome. You are musical, artistic, and have high ideals and refined tastes.

February 11, 12, 13.—You are affectionate, sly, tolerably truthful, and very lovable when you want to be. You have a strong vein of selfishness and are very domineering. Yours is the only way to do things, and you severely criticize anyone who tries to do them any other way. Unless a project is of your own origin, you are very apt to put a wet blanket on it.

Weekly Sermon

Taking Inventory

I used to fill orders in a wholesale drug store during school vacations. Near the close of the year every item in the store had a slip posted nearby, showing how much was on hand. This was for the annual inventory. It seemed a great bother to me to write down the amount of goods being taken out of a certain box. I understand it better now; the company needed to know how much of each kind of goods was left over for the next year.

Men and women need to take inventory too. Many people do this around the first of January. They notice the points in which they are weak, and they "turn over a new leaf." Although frequently these "new leaves" are not taken very seriously, there are some who really would like to make a change in their manner of life. They "swear off" of this or that habit, but then they come to realize they do not have the power to stop the habit. Is there any help for such people?

Yes, there is. Paul said, "I am not ashamed of the gospel of Christ: for it is the power of God unto salvation to every one that believeth" (Rom. 1:16). Christ gives the power one can never have of himself. Christ gives the will power one could never manufacture in himself.

As you take stock of yourself at this new year season you will probably find some practices that keep you from being your best, and that harm others. And note, when a man harms himself, he also often harms others as well, "for none of us liveth to himself, and no man dieth to himself" (Rom. 14:7). Why not let the Lord Jesus Christ take charge of your life? "Thou shalt call his name Jesus, for he shall save his people from their sins" (Matt. 1:21). He will make the business of your life a satisfaction and a success. Remember the promise of Romans 10:9, 10: "if thou shalt confess with thy mouth Jesus as Lord, and shalt believe in thy heart that God hath raised him from the dead, thou shalt be saved: for with the heart man believeth unto righteousness; and with the mouth confession is made unto salvation."

"Soul" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, February 13. The Golden Text is: "I will greatly rejoice in the Lord, my soul shall be joyful in my God" (Isaiah 61:10).
Among the citations which comprise the Lesson-Sermon is the following from the Bible: "O Lord, thou hast pleaded the causes of my soul; thou hast redeemed my life" (Lamentations 3:58).
The Lesson-Sermon also includes the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Soul is immortal because it is Spirit, which has no element of self-destruction" (page 311).

Agricultural Research Developments

Impressive research results that have come out of the laboratories, field plots, and experimental kitchens of the Department of Agriculture include the release in a single year of 35 new varieties of strains of crop plants, stepping up production of penicillin, developing method by which sheep can dose themselves for intestinal worms by taking worm medicine in their salt, curing Cheddar cheese in half the time previously required, revolutionizing ways of fighting insect scourges, and developing recipes so that new soybean products may be used to supplement scarcer foods.

Record Egg Crop Expected

Three out of every four eggs to be produced in 1944 have been allocated to civilians, the War Food Administration announced. The anticipated supply of eggs this year, possibly exceeding 61 billion, is based on the potential production of the greatest number of laying hens on record in the United States.

Autos, Bicycles, Tires, Gasoline

February quota of new passenger automobiles is 100,000, two-thirds of the January quota, and of new bicycles is 7,500, one-half the January quota, the Office of Price Administration has announced. Except for a decrease of approximately one-fourth in the number of used and reclaimed (grade III) passenger tires, February quotas for tires and tubas are about the same as for January. Essential truck operators in areas where tire recapping facilities are inadequate or unavailable may obtain a ration certificate permitting them to exchange with dealers a tire which needs recapping for a used tire or a new "war" tire. Automobile drivers hereafter will find that the purpose for which they drive, rather than the distance they drive, will determine their eligibility for tires. Motorists may now use indelible pencil as well as ink to write their license numbers and state of registration on each gasoline coupon. Motorists must now present their recapping records when applying for special gasoline rations.

Labor Needs of Agriculture

The largest single increase in total labor requirements is the seasonal demand in agriculture, according to a recent War Manpower Commission survey of the nation's manpower needs for the first half of 1944. Between January and July about 2.4 million persons will be needed for farm employment. The bulk of this labor will be supplied by women and young persons.

More Raisins and Less Cheese

An additional 54 million pounds of raisins from the 1943 pack is being released for U. S. civilian use, by WFA. This action makes 336 million pounds of raisins released to civilians from the 1943 pack. Cheese supplies in 1944 will be divided so as to make available for civilians about four pounds per capita, or one pound less than they received during 1943. About five million more pounds of cheese have been allocated to U. S. servicemen than they used last year, an increase necessary mainly to provide milk nutrients for the larger number of soldiers overseas.

Farm Machinery Production

Farm machinery production for the year beginning July 1, will be about the same as for the current year, but the War Production Board warns that the recent schedules issued may be altered any time should circumstances demand such action. More than one million tons of carbon steel production is now tentatively earmarked for the American farmer.

Consider Use of War Prisoners

Possibility of using prisoners of war in farming and industry in U. S. areas where free labor is not available has been studied by representatives of WMC and the War Department. Limited use of prisoners on farms was begun last summer. The employer is

required to pay the wage prevailing in his community, and the prisoner gets credit of 80 cents a day for personal expenditures, the remainder going to the government for camp maintenance.

Round-Up

WFA says dairy payments at present rates will be continued up to February 17, and beyond that they will depend upon congressional action. Cider vinegar will cost approximately three cents a quart more at retail. A 20 per cent increase under a new OPA regulation to compensate processors and packers for increased raw material costs. Local rationing boards may now issue an interim coupon sheet enabling a consumer to buy fuel oil while OPA investigates the loss or theft of his ration sheet. Retail prices increase per pound of three cents for sea scallops, five cents for lemon sole round, and 16 cents for lemon sole fillet are expected as a result of wholesale price increases allowed by OPA. Manufacture of 400,000 aluminum pressure canners, one size holding seven one-quarter glass jars, and another size holding 14 one-quarter jars, has been authorized by WPA, provided there is no interference with munitions manufacture. To increase horse collar production, WPA has issued special instructions to manufacturers to bring about the increase. Civilians will get slightly more edible fats and oils products per person in 1944 than they had on the average in 1935-39, according to WFA. They will get slightly less butter, however. OPA predicts a larger supply of lower-priced rayon knit garments and lower prices for better quality in such garments. Rather than make loans for purchase of farm land at inflation prices, Farm Security Administration County Committees have been instructed by FSA to turn back their money. The action was taken to insure that the program will protect applicants from acquiring land debts that would ruin them later on. Maximum prices for producers of the 1944 broom-corn crop will be the same as for the 1943 crop, \$300 a ton for "shed-cured" broom-corn and \$250 for all other broom-corn.

Mr. Rasor: "How long have you been working back here in the stock room?"
John Thomas: "Ever since I saw you coming."

A drunk (we're not calling any names!) watched a man enter a revolving door. As the door swung around, a pretty girl stepped out. "Darned good trick," he muttered, "but I don't see how that guy changed his clothes so fast."

John Thomas: "I'd go through fire for you."
Mary: "What a silly ash you'd be."

Gobin (pointing to a cigarette butt on a company street): "Is that yours?"
Sergeant: "Of course not, you saw it first!"

Marriage of Pfc. Johnson and Miss Dorman Takes Place

Miss Dorothy E. Dorman of Unadilla, Neb., and Pfc. Gordie E. Johnson of this place were married at the Methodist parsonage Friday evening, Feb. 4, at 9 o'clock with the pastor of the church, Rev. R. S. Watkins, per-

forming the ceremony. Present for the wedding were Mr. and Mrs. Crews Cooper and Miss Juanita Johnson.

The bride is the daughter of Mr. and Mrs. C. W. Dorman and attended the schools of Unadilla and also attended the University of Nebraska at Lincoln. She was formerly instructor in music in Lincoln, Neb., and is now employed in Lincoln as stenographer in the U. S. Department of Agri-

culture. She is a member of Beta Sigma Chi sorority and is a past Noble Grand of the Rebecca Lodge.

Pfc. Johnson is the son of Mr. and Mrs. George Johnson of Crowell and is a graduate of Crowell High School. He entered the U. S. service in July, 1942. He has been a Military Police in the Army Air Corps at Lincoln, Neb., since August, 1942. The couple left Sunday for Lincoln.

Social Meeting of WSCS Held Monday

Mrs. S. S. Bell and Mrs. J. A. Stovall were joint hostesses for the monthly social and study program of the Woman's Society of Christian Service at the home of Mrs. Bell Monday afternoon.

Mrs. Hines Clark was leader of the lesson, which was titled, "The Lord's Song in a Strange Land." She was assisted in presenting the program by Mesdames Gordon Cooper, B. F. Hinds, C. W. Thompson, J. W. Bruce and R. S. Watkins.

The hostesses served a delicious plate of refreshments to a large attendance of members.

P. T. A. Will Meet Tuesday, Feb. 15

The Crowell Parent Teacher Association will have its February meeting in the Music Room at the Grammar School building next Tuesday, Feb. 15, to begin at 4 o'clock, at which time Founders' Day will be observed.

Mrs. Q. V. Wingham will be the program leader and will discuss the subject, "Freedom Through Citizenship." Mrs. Roy Archer will talk on the subject, "Adults Make the Blueprints for Citizenship."

Mrs. L. E. Tackett will bring as an additional feature, a talk on "The General Health of the Community." A social hour will be spent following the program with past presidents as honor guests.

ADELPHIAN CLUB

Mrs. L. A. Andrews was hostess to the members of the Adelpian Club on Wednesday, Feb. 2, at the Club House.

The program for the afternoon was on "India" with Mrs. H. C. Brown in charge as leader. She

gave a geographical and historical sketch of the country, and followed with a discussion of the people, the different castes, the religion and the lack of industries in the country.

Mrs. Verge Walden gave a summary of India's contribution to the present efforts, and gave a detailed description of Mahandas K. Gandhi as a leader.

Refreshments of molded salad, wafers, cookies and hot coffee were served to sixteen club members by the hostesses.

The club will meet Feb. 16 at the Club House with Mrs. L. E. Archer as hostess.

B. & P. W. CLUB

Eighteen members of the Business and Professional Women's Club answered roll call when the club met in regular session February 7.

The program for the evening was in charge of Mayme Lee Collins. The subject of discussion was "The Shape of Things to Come," and concerned post-war problems. Ila Borchardt's talk on "Looking Ahead" afforded a glimpse into the future, and Hazel Harrison spoke on "Where's the Honey Coming From?" The evening program emphasized the importance of planning now for peace.

COLUMBIAN CLUB

Miss Elizabeth Elliott was hostess to the Columbian Club members at her home at Mrs. O'Connell's apartment on Wednesday afternoon, Feb. 2. Mrs. N. J. Roberts was program leader for the afternoon.

The program was concerning Health and Safety and the leader talked on "Home Nursing." Mrs. Hines Clark discussed "Eating for Health." The subject, "Burns—A Common Accident," was discussed as a round table topic. A Time Quiz was conducted by Mrs. Roberts.

The hostess served a refreshment plate.

Crowell Garden Club Will Meet Friday

The Crowell Garden Club will meet at the residence of Mrs. M. S. Henry Friday, Feb. 11 (tomorrow). The program will consist of "The Gardeners' Calendar for Spring," "Cold Frames" and a quiz.

New officers for the coming year have been elected; Mrs. N. J. Roberts, president; Mrs. Q. V. Wingham, vice president; Mrs. Leo Owens, secretary-treasurer; Mrs. W. A. Cogdell, reporter.

GAMBLEVILLE H. D. CLUB

The Gambleville Home Demonstration Club met on Feb. 8 in the home of Mrs. J. R. Meadors. Due to the bad weather, this was the first meeting of the year.

The business was conducted by Mrs. W. Garrett, president. During the business session a report of Council was given by the delegate.

The topic for the program was "A Good Citizen is Informed." The motto is "Remember that American ends with I-can." Mrs. Guy Morgan discussed "A Good Citizen goes to a Meeting." Mrs. J. C. Prosser talked on "Lady, Take the Chair." Mrs. Fred Diggs on "How to Write Your Congressman," and Mrs. W. Garrett on "What is the County Budget Law?" A quiz concerning "Whom Do You See About Rationing?" was conducted.

April 11-14, Date Set for Panhandle-Plains Dairy Show, Plainview

Plainview, Feb. 7.—The seventeenth annual Panhandle-Plains Dairy Show will be held here April 11-14, inclusive. The show annually attracts entries from a wide Tri-State area.

As in the past, activity will start with the production contest of which Wayne Thomas of Perryton is superintendent. Entries for show entries is Saturday, April 8. Entry lists are open to the states of Texas, Oklahoma and New Mexico. Catalogues and entry blanks will be in the mail within a few weeks.

The pageant, which will attract princesses from many communities, is slated for the night of the opening day of the exposition. Plans are being made to produce a pageant this year in keeping with the spirit of the times and which at the same time will furnish colorful entertainment. The dairy show queen will be crowned at the pageant and the queen's ball will follow.

The annual auction sale of Milking Shorthorn cattle is scheduled for the last day of the show. There will be departments and activities for club boys and other show extras will be arranged to add to the scope of the event, said

C. H. S. Basketball Team Loses Game to Wellington, 30-20

The Crowell High School basketball team broke even again in its two games played during the past week. The Wildcats defeated the Victory Field team from last Friday night and dropped a game to the Wellington Skyrocks at Wellington on Tuesday night by a 30 to 20 count. The Wildcats were playing without Cecil Parkhill, regular forward, in the Wellington game. Parkhill had an infected leg that kept him from playing.

The game with the Victory Field team was rather rough. However, it was fast and full of thrills. Delmar Paul McBeath made sixteen points to lead in that department. Odell Morrison, former Vernon High School star, looked the best for the Victory Field team. The Wildcats were only three points ahead at the end of the third quarter.

Delmar McBeath was the only Crowell boy who could find the basket with any consistency at Wellington. The Wildcats had defeated the Skyrocks by sixteen points here two weeks ago and they went into the game too confident. However, Parkhill was sorely missed. Leach, center for Wellington, scored fifteen points. The Wildcats made only two of twelve free shots, while the Skyrocks were sinking eight of their twelve attempts.

Cecil Parkhill has recovered from his injury and will be able to take over his forward post in the district tournament here this week-end. The Wildcats should stand a good chance of winning the tournament and becoming the district 9-A champions.

Health Officer Gives Advice Regarding Care of Measles Patients

Austin.—The incidence of measles in Texas last week was shown as more than 50 per cent above the seven year median, in a statement issued by Dr. Geo. W. Cox, State Health Officer.

"Any contagious disease can spread to epidemic proportions," Dr. Cox warned, "if proper care is not used to isolate the patient, and protect others from exposure."

Dr. Cox said that measles had not approached even a near-epidemic stage as yet; nevertheless he wanted to emphasize the need for proper nursing and strict compliance with quarantine laws, in order to prevent its widespread appearance.

Measles alone is not necessarily a dangerous disease, Dr. Cox stated, but serious complications, such as streptococcus, mastoiditis, and pneumonia which frequently follow, make it a disease to be carefully nursed, with close attention from a doctor.

"Unskilled treatment of a plain case of measles can result in complications which often kill," Dr. Cox warned, "and it is not to be regarded lightly as simply another childhood disease."

Dr. Cox urged parents to watch exposed children carefully, and at the first sign of temperature, flushed face, sniffles, or watering eyes, advised that the child be put to bed immediately and placed under a doctor's care.

Measles is a highly contagious disease which is spread by direct contact with the patient, or by contact with objects which have been in contact with the patient.
