NOTICE!

I am making every effort possible to see each and every voter before the primary election; but if I fail, due to the shortage of gas and tires, I earnestly solicit your vote for County and District Clerk. Since it is necessary that I assist in the support of my family, I am seeking this office as a means of doing this. I feel thoroughly competent of discharging the duties of this office, and, if elected, I assure you I will render the most efficient service possible. Why we're buying WAR BONDS

In addition to seeing that train movements essential to Victory come first— Santa Fe employes in pay roll deductions alone are buying well over \$1,000,000 of War Bonds every month! We know there is no better way for us to back up those who have the toughest job of all in this dirty war—those millions of men and women in our fighting forces. 10,000 of them are former Santa Fe employes. By buying War Bonds and keeping "Loaded for War" trains rolling, we know we are helping to bring our victorious forces home quicker—and providing ourselves with savings for the days of peace to come. No matter where you work let's all dig a little deeper and buy more War Bonds now.

Prescription for SYNTHETIC RUBBER

THE MAJOR INGREDIENT, approximately 75 per cent, of synthetic rubber is Butadiene. The name sounds like medicine, and the product is truly a great healing compound for the rubber ailments on both the war and home fronts. In the vast Plains Butadiene Plant, (owned by Defense Plant Corporation) designed and built by Phillips : : : utilizing Phillips own patented processes : : : Phillips is headed for an annual production of 90,000,000 pounds of Butadiene. This is just another illustration of the growing importance of the chemical values now being extracted from petroleum raw materials. It highlights the fact that Phillips refineries producing gasoline, lubricants, and fuel oils, are also gigantic chemical plants, today, pouring out weapons for victory; tomorrow, producing new and better things for you from petroleum and petroleum gases. Nearer and nearer draws the day when synthetic tires will be generally available : : : when you can drive into any Phillips 66 Service Station and buy as many tires as you want. Yet the uncertainties of war make definite prediction impossible. That is why it is just as important as ever for you to coax every last bit of travel from your tires. To help you do that, call on your Phillips 66 Service Man. His Tire-Saving Service includes checking air pressures at least once a week . . . inspecting for nail holes, cuts, and bruises : : : examination of the tire carcass to warn you when re-capping is necessary . . . and crisscrossing with the spare every 3,000 miles. Remember, Phillips Tire-Saving Service at the Orange and Black 66 Shield, sign of famous Phillips 66 Gasoline and Phillips 66 Motor Oil.

WHO BLOCKS OIL PRODUCTION?

We have heard a lot about the importance of the government securing naval oil reserves for the protection of the country in an emergency. How many people know that political red tape is actively blocking the use of the Elk Hills Naval Reserve in California, and preventing it from furnishing oil for our armed forces in the nation's greatest crisis?

forthcoming from this field before the end of the year if work is started at once.

"This committee has several times pointed out the necessity for the development of crude oil from Elk Hills," he explained.

Here is a known reserve with every facility for producing oil, and yet it lies stagnant, while official Washington builds a pipeline across the frozen wastes of Canada at an expenditure of nearly \$200,000,000 to secure possibly one-tenth the daily oil production to be found in its Elk Hills reserve. Agencies of government also seek to build a pipeline across another foreign nation, from the Persian Gulf to the Mediterranean, for an "oil reserve for future wars," while right under our

nose one of the richest oil reserves, controlled by the government, stands idle during this war. It would be hard to find a better reason for keeping government out of business.—Industrial News-Review.

Army Trucks For Farm Use

The farmer in critical need of a truck may apply to his county AAA Committee for a used army truck, the War Food Administration announces. Upon the basis of applications on hand and further investigation, AAA offices prepare letters certifying to the needs for available trucks. These letters authorize and agree to negotiate with proper authorities and buy the trucks for resale to approved applicants. WFA warns that for some time relatively few persons who need trucks for essential agricultural purposes will get them.

Goal Is One \$25 War Bond Each

The 680 delegates attending a 4-H Club convention in Stillwater, Okla., set their goal for at least one \$25 War Bond from the personal earnings of each club member in Oklahoma and agreed to promote the sale of bonds to members of their families and their neighbors.

Farm Plans For War Vets

In formulating principles of guidance for establishment of veterans, war workers and farm youths on farms after the war, the Interbureau Committee of the Department of Agriculture points out that most of the good agricultural land in the United States already is in farms. Approximately one and one-half million veterans with farming experience will be demobilized following the war, many of the three million war workers with farm experience may wish to return to farming, and thousands of farm youths will be looking forward to a place in agriculture, the committee reported. "Intensification, improvement and further development in productive land areas" might make 350,000 family farms available during the five years after the war, and if additional farms are needed, perhaps 300,000 more could be developed within 10 years through reclamation, the committee said.

Galvanized Ware For Civilians

Increased production of galvanized pails or buckets, tubs, washtubs, wash boilers, funnels, garbage cans, ash cans, fire shovels, coal hods and scuttles for civilian use have been permitted by easing of the War Production Board restrictions on types of iron and steel that may be used.

Plentiful Foods For July

Foods that will be plentiful in most of the country during July include—eggs; canned green and wax beans; frozen vegetables; dry-mix dehydrated soups; peanut butter; citrus marmalade; soy flour, grits and flakes; wheat flour and bread; macaroni; spaghetti; noodles, oatmeal and rye breakfast foods, WFA says. Fresh apricots will be plentiful in the Pacific Coast area and fresh snap beans in Eastern U. S. Fresh peaches are expected to be plentiful in July and August.

Prices On Low Cost Clothing

Retail prices on new low cost clothing items that meet specifications of WPB, as announced by the Office of Price Administration, will be—cotton house dresses, \$1.49; women's cotton slips, 65 cents; men's printed, solid color and white shirts, \$1.39; and men's shorts, 39 cents. WPB is allocating the fabrics for clothing items to be produced and distributed during July, August and September.

Disabled Veterans To Get Training

Disabled veterans of the present war may apply for job counseling and vocational training and rehabilitation at centers to be established at colleges and universities throughout the country, according to the Veterans Administration and the Office of War Mobilization. The Veterans Administration will provide, free of charge to eligible disabled veterans, transportation to centers, meals, comfortable quarters, medical service, aptitude tests to determine veterans' abilities, interests and occupation in which they could be successful, and professional advice on vocational training. The first of the proposed centers will be opened at the College of the City of New York.

These Things Are Hard To Find Severe civilian shortages now exist in washtubs, alarm clocks, window screening and flashlights, WPB reports, with less severe shortages in flashlight batteries, clothes pins, double boilers, egg beaters, pails, radio tubes and umbrellas. Mild shortages exist in wood and coal stoves, thermos

bottles, baby carriages, mops, rope, bedsprings and hobbie pins.

Round-Up

OPA announces that it may establish ceilings on wage rates for independent contractors for services rendered on farms, where the War Food Administration has established maximum wage rates of farm workers. . . . Used car rationing is not planned at this time or for the future, so far as OPA knows. . . . Unused farmers Pr-10 certificates held by dealers have the same standing as new certificates for the purchase of farm supplies, WPB says. . . . Passenger travel for the first quarter of this year was 25.5 per cent over traffic in the same quarter last year, OWI reports. . . . To insure travel facilities for disabled military, naval and merchant marine personnel, railroads may cancel reservations, space assignments or tickets and if necessary must cancel or discontinue passenger train service and refuse permission of passengers other than disabled personnel or attendants to board trains, ODT has announced.

Your Horoscope

June 26, 27, 28.—You possess a love for jewelry, finery and and clothes or any showy ornament. Your ideals are high, and you get lots of enjoyment out of them even though they may have no real existence except in your own imagination. You enjoy the company of your own thoughts and do not like to be disturbed while thus engaged. You possess a fondness for your home, and arrange it in a very artistic manner. June 29, 30.—You love to rule and have a great deal of self reliance. You are fond of renown and appreciation, are rather secretive, and sometimes display a very quick temper. You love to impart information as well as to receive it. You are truthful, just, and have a strong spiritual tendency. You love to have the best of everything and while it will not break your heart if you do not get it, you will do so if you can possibly afford to.

July 1, 2.—You are one of those people who can adapt themselves to any condition, not very communicative, and very indifferent. You can be very quarrelsome and overbearing. You show much persistence in your undertakings and are not easily shaken out of your intentions.

A check-up of government owned war plants in the United States shows that the government has invested in war plants and other types of business a total of \$25,000,000,000.

There may be other effective means of turning off a lot of work during the day, but we can think of none that beats the simple rule of tackling the most difficult job first and getting it done.

Our guess is that the settling of this thing that we so glibly refer to as the post-war world isn't going to be an easy job.

There are too many people talking glibly about our foreign policy who don't know what a foreign policy is.

What We Think

Whether or not the invasion and the Fifth War Loan were timed to come at the same time makes little difference.

Our men involved in the invasion are putting everything they have into it.

There is no doubt that the invasion cost is going to be great in both material and human life.

We at home also have our work to do. It is up to us to supply the food and the guns and the ammunition and the planes and tanks and countless other things needed

Why a Farmer Should Buy and Keep War Bonds

by Paul A. Eke, Agricultural Economist, College of Agriculture, Moscow, Idaho

THE American farmer is ready now to make personal sacrifices beyond what the government has asked him to do by direct taxation.

The farmer will in 1944 be more able than during the past 2 or 3 years to buy Bonds.

1. It is better to buy Bonds than to bid against other farmers for what few farms are now for sale and thus inflate land prices.

2. It is better to reduce large inventories of livestock and put the money in Bonds now when meat is much needed and high priced than to carry over into the postwar period...

3. Farmers are all familiar with the wisdom of saving now to replace equipment wearing out but not being replaced.

4. Saving money as Bonds will make possible new homes, barns and conveniences after the war when the boys need a job installing these things.

5. Perhaps we need to mention the high pressure stock and town real estate salesmen and sellers of other 'gold bricks'.

Of course there is the matter of retirement for many farmers soon after the war.

It is hard now to buy anything except necessities and get our money's worth.

IN THE NEWS 30 YEARS AGO

News items below were taken in whole or in part from the issue of The News of June 26, 1914:

Just before going to press we were informed that some of J. L. Hunter's wheat was making 40 bushels to the acre and was testing 62 pounds.

The News man rarely ever mentions anything pertaining to himself and family, but it would be showing an injustice to one of the ablest men in the state, should we fail to make mention of the fact that the News man was only recently favored with a visit from Hon. Jas. Lowry, Honey Grove's distinguished citizen and candidate for Congress-at-Large.

It is said by those in a position to know that there are now 22 threshers running from early morn till late at night, all within a radius of a few miles from Crowell. Thousands of bushels of wheat are being hauled to our town and are being purchased by our hustling grain dealers, the prevailing price being 75 cents a bushel.

Commercial Motor Vehicle Operators to File with ODT

Commercial motor vehicle operators who need to purchase new equipment after July 1 were advised this week by the Office of Defense Transportation to file application in the area through the office of Richard E. Wood, district manager of the Highway Transport Department, ODT, 613 Lubbock National Bldg., Lubbock, Texas.

All field work incidental to the rationing of new commercial vehicles will be handled in that way through transfer of this activity from the ICC, which has handled the allocations for the past two years, it was explained.

Under the new setup the ODT's regional division will process the applications in the field in accordance with policies and procedures of the Allocation Section of the Highway Transport Department. New commercial vehicles do not

BECAUSE MY NAME WILL NOT APPEAR ON THE BALLOT OF JULY 22ND

I Am Asking You To Write My Name J. E. ATCHESON

First, draw a line or mark through the name that appears under the "For County Judge" and then write my name instead.

I sincerely regret that this has become necessary, but it came about, because I have not, never have, do not and never will click with a click.

I have resided here among you for the past 35 years and have had the distinguished honor of serving you as your County Judge for 4 years, about 14 years ago, for which I am indeed very grateful.

It is the duty of every voter to carefully consider the claims of each and every one that is asking for an office of public trust and elect the most worthy, that is, the one who will conduct the office to your best interest, and not to any special interest.

Thanking you for your careful consideration and, if in your judgment, you think I am the one that can best serve you, tell me by your vote on Saturday, July 22nd, and I will say "Thank You."

Sincerely, J. E. ATCHESON (Paid Political Advertisement)

VIVIAN H. D. CLUB

At the demonstration on pictures in the home, given by Miss Elizabeth Elliott at the meeting of the Vivian Home Demonstration Club at the home of Mrs. Sam Hall on Thursday afternoon, Miss Elliott stated that the story of the picture added interest. For instance in the picture of "The Boy and the Rabbit" the story of the boy who was deaf, adds human interest to the picture. She displayed a number of pictures and talked about how to select pictures for each room in the home.

Ten members and eight visitors were present. The visitors were Mrs. Hall's three daughters, Mrs. Rodgers, Mrs. Maybell Wall of Vernon and Mrs. Madine Baird, who has returned from Ohio where her husband has been stationed; Misses Bessie and Bernita Fish; Misses Marion and Glenna Self and Mrs. James Sandlin.

Miss Bessie Fish brought to the meeting a box of souvenirs she had received from the South Pacific, shells of different kinds, beads made of shells, coconuts and a grass skirt, all of which were interesting.

The next meeting will be held at the home of Mrs. Edd Self on Thursday, July 13.

LUMBER ESSENTIAL FOR SHIPS

THRIFTY!

ONE-A-DAY

Vitamin A and D Tablets

EACH tablet contains 25% more than minimum daily requirements of these two essential Vitamins. Insufficient Vitamin A may cause night blindness, may lessen resistance to infection of the nose, throat, eyes, ears and sinuses.

Vitamin D is necessary to enable the body to make use of the calcium and phosphorus in our food.

Insure your minimum requirements of these two important Vitamins, by taking a ONE-A-DAY Vitamin A and D Tablet every day.

Economical—50¢ - or less - per month.  
Convenient—you take only one tablet a day.  
Pleasant—children actually like the taste—and so will you.  
IMPORTANT—when buying Vitamins, compare potencies and prices. Get them at your drug store.

# This is the one that counts!

"...Ask the Joes in the front lines!"

"...Ask that kid on the stretcher!"

"...Ask those who bury our dead."

THEY KNOW. Every G. I. Joe knows. "This is the big show. This is the pay-off. This is the one that counts."

"Sure, we're going to take 'em. But it's going to cost us plenty . . . thousands and thousands of lives . . . billions and

billions of dollars.

"That's the price we must pay for a decent world—a world in which we and our children can live in peace. We G.I.'s will furnish the bodies. Will you furnish the dough?"

# ..and it's going to cost us plenty!

NOBODY needs to tell you that the fighting in this war is reaching a crisis. But we've got to realize also that we face a similar crisis in financing the war.

Make no mistake! The 5th War Loan is beyond question the biggest, most vitally important financial effort of this whole war!

We can't afford to fail.

Now is the time for every American, soldier and civilian, to go all-out. Buy double the extra Bonds you bought last time!

dier and civilian, to go all-out. Buy double the extra Bonds you bought last time!

And here are 5 More reasons for buying Extra Bonds in the 5th!

- 1. War Bonds are the best, the safest investment in the world!
- 2. War Bonds return you \$4 for every \$3 in 10 years.
- 3. War Bonds help keep prices down.
- 4. War Bonds will help win the Peace by increasing purchasing power after the war.
- 5. War Bonds mean education for your children, security for you, funds for retirement.
