## LAST NUMBER OF LYCEUM COURSE LAST SAT. NIGHT

### Judge Geo. D. Alden of Boston Delivers Very Fine Lecture At School Auditorium

It was a rare treat, indeed, that the people of Crowell had last Saturday night to hear Judge Geo. D. Alden of Boston, lecturer on the lyceum course. This was the last number of the course, and according to our way of thinking was by far the best of any we have had, both from the viewpoint of entertainment and instruction. But to regard circumstances unfortunate, whatever they may have been, to keep so many people away from the lecture. The audience was very much smaller than it should have been. Monday morning at the eleven o'clock hour, however, our people had the opportunity again of hearing the speaker at the Methodist church, the hour at that time being given over to Judge Alden.

The lecture was on matters pertaining to citizenship, government and home, the remarks dealing with principles of mutual relationship between man and man in business and government, while the remarks Sunday morning constituted a sermon based on scripture, and had to do with the religious life.

In the lecture the speaker dwelt at length upon the follies that are weakening our national structure. No nation, said Judge Alden, ever dies from old age, but from disease. The diseases that break down the nation attack it through the individual. Purge the almighty dollar has too long been the means of diverting the attention of our people away from the duties and responsibilities of citizenship. Lack of real education is hurting the country because it places in the feet of the selfish captains of industry the masses of people as their servants. We do their bidding because we do not think for ourselves.

Here the speaker defined education as meaning not merely going through school, but the fitting of one to think for himself so as to enable him to measure up to his privileges and responsibilities as a citizen.

The speaker made it plain that we need home training for the raising of the standard of citizenship. The parents of today have given over the government of the home to the children, or rather the children have assumed authority. A very probable cause of this lack of recognition of parental authority is due largely to the abandonment of the family altar, where the parents themselves acknowledge the source of all authority. The result of this falling down is a giving away to the light and superficial attractions of the day and lack of appreciation of the deeper and better things of life. This condition is undermining our national existence.

Attention was given to the growing tendency to evade the responsibility of parenthood and the evils that develop from failure to properly estimate the sacredness of the divine gift of life propagation and the impairment and destruction of this power by reason of disease. Here again comes in the responsibility of the parent to properly instruct.

Judge Alden disclaims any sympathy with the pessimistic idea that the development of the ideal man is beyond all possibility. He thinks we shall witness wonderful improvement in this particular within the next half century. He thinks the time will come when men will awaken to a proper adjustment of themselves to the conditions of the day and that the future holds for the human race unold possibilities.

### Occupies Pulpit

The scripture for the text Sunday morning at the Methodist church, as used by Judge Alden, is found in the well known utterance of the Savior when he said: "But seek ye first His kingdom and his righteousness; and all these things shall be added unto you."

It is characteristic of man, said the speaker, to seek after something, and since nations are made up of men, nations seek for something. History reveals well defined directions in which nations went in search for something. Rome was cited as a nation that sought power; Greece for learning and literature; America for freedom of speech and the exercise of religious thought. These were outstanding marks in the national life of the powers named. That for

## CHILDRESS BOY IS BECOMING EXPERT IN RADIO SCIENCE

The News is interested in an article which appeared in the Childress Post of last week relative to the achievements of one of the boys of that town in radio science.

The young man's name is Elwyn Atkinson. The Post says this young man has been studying the science of the literature he could on the subject and has recently become quite expert as an operator.

Young Atkinson has installed an instrument that enables him to receive messages as far away as Washington City and the Pacific coast. Recently he heard President Harding's address to the Boy Scouts, a number of friends being present to listen to the address on this occasion. Music received from Denver and other points.

## GLENN HIGHTOWER LEASES BALL PARK

Glenn Hightower closed a deal with the directors of the Ball Park Association this week whereby Glenn becomes the manager of the ball park property for the coming season. He has an ad in this issue announcing two ball games in the afternoon of March 6th. He will put on games from time to time after the season opens.

## QUANAH FARMER DRAGGED BY TEAM

Quanah, Texas, Feb. 27.—W. H. Conway was thrown from the wagon. Quanah, is in a critical condition at a local sanitarium as a result of injuries received when his horses became frightened and ran away.

Conway was thrown from the harness and was dragged two blocks. His left hip was crushed and several ribs broken.

Perhaps the cow men of this country said twenty-five years ago that there was not room for one-tenth of the population we now have. And perhaps many of us are saying today that there is not room for as many more people in Texas as we now have. But when another quarter of a century has passed some of us will find ourselves outdistanced by our neighbors and we will still be guessing what is going to happen next.

A tragedy took place 17 miles northeast of Floydada Monday morning in which two girls were slain and a young man probably fatally wounded. The two girls were Gladys Solomon, 17, and Belle Umberson, 15. The young man's name is Houston Upton. The tragedy occurred at the home of the Umberson girl, the two having been shot. Upton was found later in a near-by school house with a bullet through his body.

We have an inferior type of citizenship if concealment must become the badge of courage.

Some white lies are said to be justifiable. But who knows when they are white?

which a nation or an individual seeks furnishes the index to that life.

The religion of Jesus Christ is the fundamental and basic fact in every really successful life. This brought to its highest development is the only cure for the various ills of our national life. It was shown how this heightens self respect in the individual to such extent that his attitude to the commercial, political and domestic life makes for the peace, happiness and well being of himself and others. This thought was beautifully developed. In a commercial sense self respect is what makes a man do the square thing with his fellow man, but when he loses this he becomes the subject of a criminally inclined spirit. In a political sense man will sell his vote or his influence only after he has lost his self respect. In a domestic sense one can stoop to a basis of filth and degradation only after having lost self respect. Every man touches these phases somewhere, no matter what his circumstances may be.

Judge Alden made it plain that the highest hope of human as well as national life rests on an acknowledgment of and service to a Supreme Being, and that the Scriptures are his written message, which should of all books be the one most studied and wholly accepted as our guide.

## HOW TO OPERATE AN INCUBATOR

### By F. W. Kazmeier, Poultry Husbandman, Extension Service, A. & M. College

The machine should be placed perfectly level. All parts should be securely fastened especially the legs. Examine all ventilating holes, if they are clogged up remove the obstruction. It is a great mistake to plug the ventilating holes to keep the machine warm on cold days.

The thermometer should be examined very closely. In the case of a new thermometer, the mercury sometimes comes separated in transit. To remedy this take the thermometer in one hand, carefully protecting the bulb and give a few quick jerks of the hand, in such a way as to force the mercury together. Old thermometers should always be tested at the beginning of the hatching season, because they frequently are inaccurate. To test them take the thermometer to a druggist and compare it with a clinical thermometer in water of about 100 degrees, keeping the water in circulation while the test is made. If any variations are noticed make a notation of the same on the scale.

Thoroughly clean and disinfect the incubator especially trays and nursery with a solution of 1 to 25 parts of Kresol or any other coal tar disinfectant. If necessary renew the burlap or muslin covered frames.

The incubation temperature is 103 degrees at about the center of the egg. It is important to keep the temperature as uniform as possible. The first week or few days it is very important that the temperature does not run above 103 degrees. At hatching time it is equally as important that temperature does not run below 103 degrees. A low temperature at hatching time delays the hatch so long that many chicks will die in the shell due to suffocation. The bulb of the thermometer should always as soon as possible, be placed so that it will touch two fertile eggs.

The lamp should be filled once a day, with the very best grade of kerosene. The wick should be trimmed once a day, preferably in the evening. Always work on the lamp after turning the eggs.

Start the machine two days before putting the eggs inside. Heat it up to a temperature of 100 degrees with the bulb resting on the tray. Study the regulator carefully so that you have the machine under perfect control.

There is no difference between hot water and hot air machines, as far as hatching results are concerned. One produces as good results as another.

In filling the incubator with eggs, place them on the tray in their natural position, namely on the side. Do not crowd the eggs, and do not place them on end. More eggs will go in the tray when they are placed in promiscuously than when laid in rows.

The first and second day the eggs are not turned or touched. In fact the first few days the eggs must be handled very carefully because at this time the germ is very delicate. The morning of the third day we turn the eggs for the first time, after this we turn them twice a day as nearly 12 hours apart as possible until the evening of the 18th day when they are turned for the last time.

The best way is to turn the eggs with the palm of the hand shoveling them around in the tray and changing the tray end for end. This is necessary for two reasons, one is to keep the germ from adhering to the shell, and the other is to bring a uniform hatch. It is not necessary to work each egg, and in turning, turn them exactly one-half over. We generally take a few eggs out of the tray and shovel the remaining ones. Remove all cracked eggs because they won't hatch.

The eggs should be tested for the first time the evening of the 7th day. White shelled eggs may safely be tested the 5th day. The infertile egg at this time shows perfectly clear, and the fertile egg shows a spider like formation, representing a dark spot with blood veins radiating from it in all directions. The infertile eggs at this age may be hard boiled and fed to the growing chicks.

The second test is made the 14th day. At this time only the dead germs are tested out. These have various shapes but the fertile germ appears about 2-3 black or dark, with the air space occupying the remainder of the egg, always in the large end

## COLD SPELL BRINGS 2-INCH SNOW FALL

### Will Be Considerable Help to the Grain Crops, Some of Which Are Yet Alive

A fall of snow, such as we have had within the last few days, will be of considerable help to the wheat that is still alive. The amount of snow would perhaps measure two inches or more on a level. It has also been accompanied by the coldest weather of the winter, and there is probability that some cattle have suffered.

As to the outlook for a wheat crop, of course, it is not good. The fact is that we are not expecting anything like a crop. Most people think of the wheat as a gone proposition, generally speaking. Yet, there is some very fine fields. This is not said second-handed. We have been over much of the county from time to time, and less than a week ago we saw beautiful green fields of wheat, and on some of them large herds of cattle grazing. Crops of this kind will be wonderfully benefitted by the snow fall, which will be worth more than a rain of perhaps an inch. As to these splendid crops which we have seen, it is our understanding that most, if not all of them, are on summer-fallowed land. If that be the case, these will be striking examples of the value of such farming. It is thought by some that by summer-fallowing half the land while the other half bears a crop, almost every year would witness good yields of wheat.

The snow and cold weather comes as a blessing, even if the wheat crop is past being very materially helped, in that it causes a good hard freeze that will kill out lots of insects and then it will hold the fruit crop back. It is a welcome change and we hope that the old saying that when March comes in like a lion it goes out like a lamb, will hold true in this case and that when spring comes it will be here.

Don't blame the picture makers nor the companies who put them out. Who is to blame for the immoral scenes spread on the canvas, but the public who demands just such pictures as it gets. Don't blame these for the influence they set in motion. The public is responsible for allowing them. We get just what we demand, and if the influences are harmful to our children, let us like men, bear the responsibility.

Following motions for new trials for the Upsher County Commissioners, found guilty by a jury of alleged incompetency and neglect of duty, the entire body of commissioners including County Judge J. R. Melvin, resigned. The district judge will appoint successors to the commissioners.

of the egg. If the air space is in any other part of the egg, as a rule the egg will hatch a cripple or not hatch at all.

The airing or cooling of the eggs is another important incubation essential. In cool or cold weather, it is not necessary to cool them as much or as long. As a rule we recommend cooling the eggs for the first time for about five minutes, the 7th day, and keeping it up until the 16th day. Towards the end of the period we recommend cooling the eggs for fifteen minutes. In cold weather they get all the airing they need, while being turned twice a day. In hot weather they should be cooled twice as long. Cooling the eggs too much has a tendency to weaken the chicks and some times causes them to dry in the shell at hatching time.

The control of the ventilators, in the operation of incubators is very important, and should be studied for local conditions. In cold and dry weather it is best to close the ventilators more, and in warm and wet weather it is best to close the ventilators more. This will be discussed more in the next article. As a rule for the first time operate the ventilators of the machine as per directions coming with the machine.

At hatching time keep the incubator door closed. Do not open it under any circumstances. Too many people kill chicks at hatching time by opening the incubator door. Keep it closed.

The temperature must be kept at 104 to 105 degrees at hatching time. A low temperature is very detrimental at this stage because it does not bring the chicks out quick enough. The chicks should come out as nearly all the same time as possible.

## ORIENT RAILROAD MUST HAVE HELP OR QUIT

Wichita, Kan., Feb. 27.—Unless immediate relief measures are forthcoming from the Interstate Commerce Commission and the United States Railway Labor Board the Kansas City, Mexico & Orient Railway system, operating 740 miles of line in Kansas, Oklahoma and Texas, will be forced to suspend traffic by July 1, and, according to A. De Bernardi, vice president and general manager, may be scrapped and sold for junk.

Due partially to the general 10 per cent rate reduction, effective Jan. 1, the Orient lacked \$105,000 of earning its operating expenses for January, 1922. The loss for December, 1921, was around \$50,000; the 1921 deficit was \$1,200,000. If losses continue at the rate of the January, 1922, figure, the surplus realized from the sale of receivers' certificates to the Government for the protection of operating deficits will be exhausted by July 1. When the surplus is gone, nothing remains for the road but suspension of operations, it is claimed.

"The 10 per cent rate reduction, unreasonable regulation and rates established by the United States Railroad Administration and carried on by the Labor Board and the Interstate Commerce Commission, coupled with a general falling off of traffic, is responsible for the Orient's condition," De Bernardi said.

"It again devolves upon the people in the territory the Orient serves to act quickly if they would have the operations continue."

## MARGARET NEWS (By Special Correspondent)

Born to Mr. and Mrs. Roscoe Smith Wednesday a fine boy.

Dr. Wrenn was called to Zephyr last week to see his wife who is ill.

Born to Mr. and Mrs. Buck Murphy last Sunday a fine seven pound girl.

Miss Lila Cochran spent the week end with her sister who is teaching at Jamison.

Herman, the little son of Mr. and Mrs. Will Blevins, has been on the sick list this week.

Miss Letha Davis spent the week end with her parents, Mr. and Mrs. E. Davis, of Crowell.

Russell Bryson and family spent Sunday with Mrs. Bryson's parents, Mr. and Mrs. E. W. Bussey.

Miss Rose Hlavaty and Miss Grace Price of Odell spent the week end with friends and relatives of Margaret.

J. M. Doyle and family went to Medicine Mound last Sunday to visit with Mrs. Doyle's parents, Mr. and Mrs. Barnes.

Jesse Owens of Thalia was in our community last Saturday shaking hands with his old friends and making new friends.

Mrs. W. A. Dunn and Mrs. Elan White went to Electra Monday to be at the bedside of their grandmother who is ill.

Rev. Hankins went to his regular appointment at Thalia last Saturday and Sunday. He was caught by the wintry weather and did not get back till Tuesday.

Rev. A. F. Arce held services at the Baptist church Saturday morning and Sunday night. He was to have been back Monday night to meet with the convention, but the weather was too bad to have it.

Grandma Rodgers of Lakeview is much improved in her condition this week. But for the weather she would have been able to return home this week, but we are glad to have her longer and with better health.

## Falls and Breaks Rib

Jeff Bruce happened to the misfortune of getting a rib broken Wednesday evening when the slippery ice caused his foot to slip throwing him on the door steps. Dr. Hill was summoned immediately and came and relieved him of the intense pain he was suffering.

## Horse Falls and Breaks Boy's Leg

Eldridge Todd, the 14 year old son of Mr. and Mrs. J. B. Todd, sustained a broken leg Wednesday when a horse which he was riding after some cows jumped and fell on the boy's leg. One of the bones of the left leg was broken and the other one fractured.

## MONEY FOR WATER BONDS RECEIVED LAST WEEK

### Com'y. Having Contract to Install Machinery and Lay Pipe Wired to Ship at Once

At the outside within a couple of weeks we ought to see the pipe being laid from the city well to town. The money for the bonds of \$100,000 was received last week and the company at Birmingham, Ala., was wired immediately that the money is in hand for the completion of Crowell's water system. If this is shipped out right away, as no doubt it will be, or by this time has been, it should come on through freight and arrive in Crowell within a short time. Even before this comes it is expected that the digging of the ditches for the pipe will be started. It might be said here that while this work will be done by contract, it was stipulated in the contract that home labor is to be protected, so that outside of one or two men who will be needed with experience in handling the machinery, all the labor is to be done by home people. It is a fortunate condition that this money is to be kept at home to benefit our own people. It will be worth much to those who have wanted and needed work to do. The same thing is true with road construction over the county.

The city well was completed last week and the water turned into the 75,000 gallon reservoir Tuesday. It is a beautiful scene to go down into one of the shafts and behold the subterranean stream as clear as a crystal running along the rock-bottom, cement enclosed race that carries the life-sustaining liquid to the big reservoir. It is music to the ear to hear this coming out of the earth a veritable brook, encased and protected from all outside matter that might contaminate the water. It's going to be a water system that all Crowell will be proud of and that will excite the wonder and admiration of visitors. Only a few months ago it was a talked proposition; now the water is a reality. Within a few weeks and a few months and the completed system will be no less real than the fact of the supply today. We have 100,000 gallons of water that will soon be at the command of the city, and is virtually as good and pure as that which comes from the snow-capped summits of the Rockies. Would you have believed the realization of a dream of such a development a few years ago at all possible?

As great as a good water system is going to be for Crowell in a material way, that is only one of the consequent benefits we shall derive from this achievement. Crowell has learned that it can do something, and that confidence in the reserve power of our citizens will mean advanced steps in many profitable lines of endeavor in the years to come. Nobody will build our town but we ourselves. It will be and must be done by Crowell people.

We are thrilled with delight to know that we have made the one big start that means everything to us in a material way.

## CALLED BY DEATH MESSAGE TO BIG SANDY, TEX.

A message came from Big Sandy Tuesday to the Meason family here stating that Tom Meason was not expected to live. Immediately his brothers, Frank and Millard, left for Big Sandy and soon after they had gone a second message came stating that Tom had died Tuesday morning. No particulars were given as to the cause of his death.

Tom Meason is well known to many of the people of this county, especially of Crowell. He was a young man living with his father and mother, Mr. and Mrs. J. R. Meason, at this place some fifteen years ago, and went with them to Big Sandy when the family moved to that place. Since then he had married and had a family. For a number of years Tom had been working with a grocery establishment at Big Sandy when he and his family visited Crowell a year or two ago.

The old acquaintances and friends of the family will regret to learn of Mr. Meason's death.

John Shirley has been confined to his room for nearly a week with pleurisy but is reported to be improving now.

## Why Baggy Clothes Are Expensive

Baggy clothes wear out more rapidly than those which are kept cleaned and pressed.

The explanation is simple. The constant stretching of the fabric thins it and weakens it at the baggy spot—the cloth reaches a point where it can't stand the strain.

And that means a new suit which costs money.

The suits you send to us regularly do not bag. We keep them pressed, the fibers close knitted and strong. We keep them clean, there are no particles of grit to cut the threads and ruin the fabric. The price of a new suit will dry clean forty old ones.

Let us get after these baggy clothes for you. We clean and press the MODERN WAY. Phone us.

## The Magee Toggery

## Firestone and U. S. Tires and Tubes

Free air, water and battery water. Try us for service.

## Magnolia Motor Supply Co.

## Let Us Help You Save

SAVING on your eatables is not more a matter of price than it is of quality.

OUR PRICES ARE ALWAYS RIGHT,

But the important thing is that we guarantee you **First Class Quality** in everything we sell.

You can practice Economy at this store and eat better as well.

## Massie-Speck Gro. Co.

A two-dollar bill was sent to the American Legion in Boston by a hard-working woman whose son is insane from war injuries. She asked that hungry soldiers be fed.

Body pains and legal aches will not go unsoothed in Providence, R. I. Doctors and lawyers are offering free services to jobless American Legion men.

### As the Editor Sees It

There is reason in all things. Often there is much unreasonableness.

A noted New York preacher denounces the entire movie world because of the exposure of the unclean lives led by some of the too highly paid stars.

We might with equal justice condemn and denounce the entire ministry because of the few black sheep it contains. But we do not.

There are unquestionably many decent and self respecting film actors and actresses. Then there are many who are so drug sodden and morally filthy no speed limit is able to curb their ruinous pace.

It is the latter class who are bringing discredit upon the whole movie profession.

There is a law which forbids a person to advocate the boycott, and it is perhaps better so. But we know of no restriction against decency loving people making public announcement of the fact that they will no longer patronize a movie theatre in which an actor or actress appears on the film who is known to be of the depraved class so much under condemnation at the present time.

This is about the only effective method of fumigating the movie industry.

Raging in homes and then shoving our money through the ticket window will accomplish nothing.

Neither will the wholesale condemnation of a preacher with a single track mind.

One of our great railroad systems, notoriously exploited and dismally mismanaged, needs many millions of dollars with which to pay the bonded indebtedness soon to become due in foreign markets.

Apparently it is too poor a risk for bankers and other financiers to consider.

Hence the management of the road wants the government to make the loan which shrewd financiers can not "see."

The treasury of the United States is the people's bank, and the guardians of those funds are answerable to the people.

If this proposed loan is too risky for financiers who make a business of lending money it certainly is no place for the investment of government funds.

The public eye is watching this proposed deal. The people are not always asleep.

Carrying concealed weapons is a dangerous practice. It is an unlawful practice. It is a practice that is entirely too prevalent, especially in the larger centers of population.

The law abiding citizen has no desire to carry a gun around in his pocket, unless it be for the protection of life and property when they are in imminent danger.

The punishment should be made so swift and severe that the law breaker would shun a gun as he would a poisonous reptile.

Then there would be more honest work and less lawlessness.

### Women in Politics

Woman's influence in the political field has proven to be elevating. They exert none of that debasing influence which has debauched our political system for so many years past. They are not grafters, or tricksters, or hangers-on. They are, as a general thing, eminently fair minded and just.

These are excellent reasons for encouraging the political activity of American womanhood.

It would be well if the women of every community would form an organization for the study of political questions, especially those having a bearing on local conditions or affairs.

Truth and candor compels the admission that the political rule of man has exerted too much of a degrading influence upon the body politic. That scrupulous honor and devotion to duty which we have a right to expect from our public servants in this country is often—entirely too often—conspicuous for its utter absence.

Political womanhood has the power to compel its restoration, if political womanhood so desires.

It should so desire.

### Proverbs

A fool uttereth all his mind, but a wise man keepeth it till afterwards.

Even a fool, when he holdeth his peace, is counted wise; and he that shutteth his lips is esteemed a man of understanding.

Reprove not a scorners lest he hate thee; rebuke a wise man and he will love thee.

### Friendship

Every man should keep a fair-sized cemetery in which to bury the faults of his friends.—Henry Ward Beecher.

True friends visit us in prosperity only when invited, but in adversity they come without invitation.—Theophrastus.

# Alaska Refrigerators

--A Life Preserver for Foods--

Your refrigerator should save both ice and food.

--THE ALASKA DOES IT

The Government during the great war tried out everything. Everything that was used at all was by test selected and proved to be the best, or it was rejected. The Government found by test that cubed cork was the best refrigerator insulation known and demanded it. The Alaska refrigerators all have it.

FURNITURE AND UNDERTAKER

### Services at Christian Church

Next Sunday, March the 5th

Rev. J. Frank Montgomery, Christian minister, requests us to announce that the regular services at his church will be held next Sunday, Bible school at 10 a. m., preaching at 11 a. m., also at the evening hour.

"Even a tall man may not be above criticism," warbles an exchange. Neither is the short man beneath your notice.

Even a matrimonial knot can be untied by the person who tied it—if he is a judge.

The most hardened sinner is happy in his innocence until he is found out.

The Chamber of Commerce of Pittsburg, Pa., home of Secretary of the Treasury Mellon, has voted for the American Legion's adjusted compensation bill. Almost at the same time the Chamber at Los Angeles, Cal., with 9,000 members and called the largest in the United States, endorsed the bonus. Calling the U. S. Chamber's tactics unfair, the local commerce board at El Dorado, Kan., denied its membership and then voted for the compensation measure.

Some women have a good reason for never smiling. It might crack the veneer on their faces.

The beginning is often indicative of the end, without reference to what comes in between.

To prevent the spread of a smallpox epidemic, American Legion members by day and night guarded all entrances into Mansfield, Ark., to stop entrance or exit.

"They Satisfy"

**Barnacles Extraordinary**

We have an animal in this country whose services we could easily dispense—with profit. That animal is the "barnacle extraordinary."

Humanly speaking, Mr. Webster describes a barnacle as a "persistent lice holder."

Persistent is right. He never wants to let loose.

Political barnacles are expensive animals. They can eat up taxes faster than anything that travels on two

or four feet.

Chicago is a moaning example of barnacleism. In the windy city taxes this year have been increased 42 per cent in order that the army of barnacles may remain fastened to the public payroll.

Chicagoans are roaring mightily, but all they can do is to roar, and pay up, and roar again.

We, however, should be ready and willing to profit from the follies of others.

If we have any barnacles fastened to our payrolls in this state they should be dislodged.

If we have any public servants who are loafing on their jobs they should be replaced by men who are willing to do an honest day's work for a day's pay.

If the political leaders make too big a noise when the people want to clean house we should class them, too, as barnacles and drop them by the wayside.

The day is coming when the great mass of the people will conclude that they are being fleeced by incompetents, and loafers, and often by grafters, and when that day arrives we will witness a great slaughter of the barnacles.

They will drop off like leaves following the first frost.

Progressiveness and the legitimate expenditures incident thereto are highly commendable, and to these no fair minded citizen will object.

But boosting taxes in order to provide soft jobs for an army of political followers is damnable and should not be tolerated by the people who pay the bills.

This condition is not confined to any one political party or to any particular section of the country. It is general, but is more pronounced in some places than in others.

It is the canker in the heart of our political system, and as long as we allow it to remain we will nurse a destroyer instead of a builder.

Keep taxes down by keeping the barnacles out.

All men are rich in one way or another, but most of us can't tell which from t'other.

When a foreigner comes to this country to show off the newspapers soon show him up.

Anything is impossible to the fellow who thinks it so.

**At the Baptist Church Sunday**

10:00 Sunday School, B. F. Ellis, Supt.

At 11:00, Subject will be, "God's Middle Man," Jno. 1:6.

Sunbeams meet at 2:15, Mrs. Billing leader. Send the children from the age of 3 to 12.

B. Y. P. U.'s meet at 6:30. Lesson, Matt. 8.

Our revival as usual will begin in April, and all services from now on will be preparatory to this meeting, in song and sermons alike; the 7:30 hour will begin by good singing followed by sermon. Subject, "The Fountain of Living Water, or Cisterns," Jer. 2:13.

Ladies meet each Monday at 3:00. Prayermeeting Wednesday 7:30. A welcome to all.—Pastor.

**Methodist Church Notice**

Sunday School at 10 o'clock, M. S. Henry, Supt. Our school is growing right along. New scholars coming in every Sunday, so come on and fill your place. No one can fill it for you.

Preaching at 11 a. m. and 7:30 p. m. by the pastor. Morning subject, "A New Commandment." At the evening hour, "A Call to Intersession."

Choir practice Friday evening at 7:30. Bro. Wright is very anxious to have every member of the choir present for this practice.

W. M. MURRELL, Pastor.

**Intermediate League Program**

Subject—The Miracles of Christ. Leader—Bernice Schlagal.

Scripture Lesson—Luke 4:38.

Stelling the Storm, Luke 8:22.—Jewel Brown.

Healing the Leper, Mark 1:30.—Lucile Kinsey.

Healing the Man Sick of Palsy, Luke 5:18.—Marion Cooper.

Raising of Jairus' Daughter, Luke 8:49.—Gladys Carter.

Healing the Man with a Withered Hand, Luke 6:6.—Helen Hill.

Walking on the Sea, John 6:19.—Leslie Hart.

Curing Blind Bartimaeus, Luke 18:13.—Topsy Lovelady.

The latest checked patterns in every shade and design, as well as the newest stripes will all be on display. It will be profitable for you to wait for this big tailoring event.

Highest Quality—Lowest Price

DON'T FORGET THE DATE!

**Monday and Tuesday, March 6--7**  
**WRIGHT'S TAILOR SHOP**

Crowell, Texas

No, we are not writing any editorials on the subject of modest men. Life is too short to expatiate on dead issues.

Answering our solicitous query, a friend assures us that he is "fit as a fiddle." The fiddle is busted.

There is only one thing tight about a loose tongue. That is the trouble it fastens upon other people.

Why pay good money for a parrot when there are plenty of people who always agree with you?

Jazz, they tell us, is being relegated to the rear—but that's tough on the fellows who lag behind.

Some men provide the finances for their families, while their wives provide the conscience.

Churches should try charging an admission at the door. Idle curiosity might bring 'em in.

Even a slow man moves rapidly in search of an alibi when he makes a fool of himself.

If you want to gauge a man's christianity ask him for \$10 to help repair the church.

It would hardly do for food prices to take too big a drop. It might break them.

Money doesn't go far these days. Too many stopping places, perhaps.

**TRUTH TRIUMPHS**

Crowell Citizens Testify for the Public Benefit

A truthful statement of a Crowell citizen, given in his own words, should convince the most skeptical about the merits of Doan's Kidney Pills. If you suffer from backache, nervousness, sleeplessness, urinary disorders or any form of kidney ills, use a tested kidney medicine.

A Crowell citizen tells of Doan's Kidney Pills.

Could you demand more convincing proof of merit?  
J. B. Fox, retired ranchman, says: "Some time ago my back was lame and stiff and it was so sore I could hardly stoop. It ached way up through my shoulders a good bit of the time and my kidneys were weak and didn't act freely enough. Doan's Kidney Pills relieved me of the trouble in a short time, and put my kidneys in fine condition."

Price 60c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Fox had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

**THE FOARD COUNTY NEWS**

KIMSEY & KLEPPER, Owners and Publishers

Entered at the Post Office at Crowell, Texas, as second class matter.

Crowell, Texas, March 2, 1922

The first shovelful of dirt was thrown on the site of the big storage dam to be placed across Wichita River 50 miles west of Wichita Falls, Saturday. Three hundred people were present to witness the beginning of this gigantic project. This will impound the largest artificial body of water, it is said, in Texas, and perhaps in the Southwest. The capacity of the dam will be about 165 billion gallons of water. It will be ten times the size of Lake Worth and will afford water with which to irrigate 150,000 acres of land. The stone line made by the formation of the lake will be 125 miles in length.

A system for receiving the market reports from all over the country has been inaugurated under the auspices of the Markets and Warehouse Department and the State Department of Agriculture in Texas. The reports will be sent in from Kansas City at which point they will be collected daily from every quarter of the country, and will be disseminated over Texas from Austin daily by means of the radio service. 251 licensed radio operators are to be stationed over the state for this service.

A Law and Order League has been formed at Wichita Falls for the purpose of seeing that local laws are enforced. That is a great move, entirely different from the far and foolish rant which pretends to be 100 per cent American. The Law and Order League leaves the law sheet at home.

The native population of Texas is given as 71 per cent. The State's total population is 4,603,228, of which 4,299,296 are natives. The whites born in Texas 2,656,841 and the negroes 455,855.

The wheat situation is said to have been improved in the Panhandle by a half an inch rain the first of the week.

Lockney had a \$35,000 fire that destroyed an elevator last Thursday night.

When it had been announced a short time ago that an agent of the Ku Klux Klan was trying to organize a Klan in San Angelo, the Board of Trade of that city issued a statement protesting and stating for the benefit of the order that they did not need the assistance of the Klan in keeping things in fairly good shape, so it is probable that there will not be a Klan organized in San Angelo. Some leading men do their community great injustice when they place their endorsement upon an organization of this kind. Whether they are conscientious or whether they are bought is not known, but in either case the effort is the same, and it is just what the promoters of this movement seek. We can very well overlook a politician, whose moral trousers may not always be free from contaminations of sin, but when it comes to a minister of the Gospel expounding the pulpit into a public platform for the advertisement of a masked organization, the individual members of which it is supposed are unknown to said divine, that is more than most self-respecting citizens can swallow without capsules. The conscience of such a citizen revolts at the thought, and if that be the case, we wonder if the Almighty himself does not blush with shame as he looks down upon the follies of these heathen creatures, whom he most abhors as his.

That a minister of the gospel should boldly stand in his pulpit and advocate mob law, as exemplified by the Ku Klux, is quite out of harmony with the Post editor's views as to the proper function and purpose of the minister's holy office and calling. This was recently done by a Methodist preacher in the city of Wichita Falls. His name is Knickerbocker and he may be a descendant of that old Dutch colony that first settled around New York but he must have sadly departed from the sublime Christian faith formerly held by that sturdy tribe of Hollanders who were so famous for their obedience of the laws of the land in which they lived. This misguided preacher openly advocated the use of tar and feathers as a remedy for a number of crimes which he specified and for all of which the State of Texas has adequate laws if they are only enforced. The Post believes this reckless preacher has allowed his desire for sensational notoriety to overbalance his judgment and lead him into serious error. That the Ku Klux have done some good things, well worthy of approval, is not to be denied, but the fact remains that they are acting without the law and are treading on dangerous ground. The ends they seek are worthy but their means of achieving them are fraught with grave dangers to society. Just how any preacher, claiming to represent the lowly Nazarene, can find it in keeping with his sacred calling to openly encourage his flock to adopt such methods is more, yes, a great deal more, than our ideals of the church will permit us to endorse.—Childress Post.

**BRIDGE TO BE REMOVED.**

In accordance with an agreement, the Kantara bridge across the Suez canal, connecting the railway lines of Egypt and Palestine, is to be wrecked. It was erected to facilitate communication during the World war, but is regarded a menace to peacetime shipping. A tunnel to take its place is to be designed by the French engineer who built the bridge.

This is the Stove Polish YOU Should Use

It's different from others because more care is taken in the making and the materials used are of higher grade

**Black Silk Stove Polish**

Makes a brilliant, silky polish that does not rub off or dust off. It shines four times as long as ordinary stove polish. Used on sample stoves and sold by hardware and grocery dealers.

All we ask is a trial. Use it on your cook stove, your parlor stove or your gas range. If you don't find it the best stove polish you ever used, your dealer is authorized to refund your money. Insist on Black Silk Stove Polish. Made in liquid or paste—one quality.

M. L. HUGHSTON, Vice President SAM CREWS, Cash.

# \$200.00 CUT

IN PRICE OF

## Titan Tractor

and a P. & O.

### 3-furrow Plow FREE

## Titan Tractor Now \$700.00

f. o. b. Chicago

HARVESTER COMPANY'S EXCEPTIONAL OFFER

Effective February 3, to May 1, 1922

The Harvester Company makes this special offer to apply on all new International 8-16 and Titan 10-20 tractors purchased by its dealers on 1922 account. Each farmer purchasing one of these International 8-16 tractors for delivery on or before May 1 next, will be given by the Company, absolutely free, f. o. b. Chicago, a 2-furrow P. & O plow. On the same terms, each farmer who purchases a Titan tractor will be given a 3-furrow P & O plow.

This is not a stripped tractor, pared down to make a price, but complete with all essential equipment—friction clutch pulley, fenders, platform, throttle-governor, adjustable drawbar, angle lugs, brakes. This equipment, worth more than \$100 and necessary on any tractor to make it serviceable and safe, is included in our price. No extras to buy.

With the Titan at \$700.00 and a P. & O. plow free, you are offered the best and most economical outfit you can take into the field or put on the belt. **Neither horses nor any other tractor can equal it.**

P & O 3-furrow plow free with the Titan 10-20 tractor. If you now own a suitable plow we will substitute a tractor disk harrow.

Greatest Tractor Values Ever Offered

## J. H. Self & Sons

### Study Your Neighbor

He has many good qualities of which you are not informed, qualities which his good sense prevents him from parading before the public.

A close-up study of his better side will disclose them to you. It will also make you more satisfied with your neighbor, and will make life sweeter and more enjoyable to you.

Give him the once-over, oft repeated.

### Keep the Record Straight

The Vernon Record made a mistake last week when it stated that the top price paid at the Orr Poland China sale was for a 10 months old gilt which was bought by an Oklaunion man for \$155. That was not true. The price is right, but the purchase was made by N. J. Roberts of Crowell.

Just want to keep the record (and the Record) straight.

### Ball Game Monday

On next Monday, March 6th, at 4 o'clock p. m., there will be a game of baseball between the fats and leans of Crowell and also one between the town team and the school team. Admission 25c, ladies free.—Glenn Hightower. 37p

No one can be perfectly free till all are free; no one can be perfectly moral till all are moral; no one can be perfectly happy till all are happy.—Spencer.

While you pause in your hesitation the other fellow gets there by the aid of his determination.

After all, the spendthrift is of some use in the world. He helps to feed other people's families.

God must have loved the plain people; he made so many of them.—Lincoln.

Temper is one thing that can't be worked to death.

### CALOMEL GOOD BUT AWFUL TREACHEROUS

Next Dose May Salivate, Shock Liver or Attack Your Bones

You know what calomel is. It's mercury; quicksilver. Calomel is dangerous. It crashes into sour bile like dynamite, cramping and sickening you. Calomel attacks the bones and should never be put into your system.

If you feel bilious, headachy, constipated and all knocked out, just go to your druggist and get a bottle of Dodson's Liver Tone for a few cents which is harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money.

Don't take calomel! It makes you sick the next day; it loses you a day's work. Dodson's Liver Tone straightens you right up and you feel great. No salts necessary. Give it to the children because it is perfectly harmless and can not salivate. 65

### THE STATE OF TEXAS To the Sheriff or Any Constable of Foard County—GREETING:

You Are Hereby Commanded to summon E. R. Swift by making publication of this Citation once in each week for four consecutive weeks previous to the return day hereof, in some newspaper published in your county, if there be a newspaper published therein, but if not, then in any newspaper published in the 46th Judicial District; to appear at the next regular term of the District Court of Foard County, Texas, to be held at the Court House thereof, in Crowell, Texas, on the 8th Monday after the first Monday in February, A. D., 1922, the same being the 3rd day of April, A. D., 1922, then and there to answer a petition filed in said Court on the 28th day of February, A. D., 1922, in a suit numbered on the docket of said Court, No. 1130, wherein Alice Marie Swift is plaintiff, and E. R. Swift is defendant, and the cause of action being alleged as follows: That on or about the 4th day of March, 1920, plaintiff was duly married to defendant at Lubbock, in Lubbock County, Texas, and thereafter until about the 15th day of June, 1921, plaintiff and defendant lived and cohabited together as husband and wife. That during the time plaintiff and defendant lived together as aforesaid plaintiff treated defendant with respect and kindness and done all in her power to make him a good wife and companion, but defendant disregarding his marriage vows soon after their marriage began a course of cruel and abusive conduct towards plaintiff and often cursed, abused and struck her. That soon after their marriage defendant took plaintiff on a trip to New Mexico and just a few days after their arrival at Dexter, New Mexico, defendant was charged with the theft of Winchester rifle and other property and was arrested and put in jail but was afterwards released and returned to plaintiff and gave her a severe beating with a leather belt. That prior to said beating defendant had beat, cursed and abused plaintiff and was thereby guilty of cruel treatment and outrages toward plaintiff

## Run-Down Batteries Cause Trouble

You'll never get quick starting and brilliant electric lights from batteries that are run down and weak. It is hard on your electric system to let batteries become low.

### Once-a-Month Charging

Keeps your battery in the best condition, and is worth many times the small recharge cost. Let us take over your battery problems. Our equipment for recharging batteries is the finest we could buy and enables us to give each battery individual attention. Stop in—let us test your battery, then leave it for complete recharging. Service battery furnished if desired, to use while your own is on charge.

We furnish the Best Recharge Service in Crowell

## The Test of Quality

The test of quality is in the trying of the article. We have no fears that our brands of flour,

### ORIOLE, CREAM OF WHEAT AND LEGER'S BEST

will stand up under a most thorough test. These are tried brands of flour and have been found to meet the demands of the most particular bread maker.

We want to supply your pantry with a sack of one of these brands the next time you order.

Phone us your wants in the Grocery line.

## Matthews-Fox Gro. Co.

## Motorists

are often at the end of their wits to know where they can have the repair work on their cars properly done—how to avoid the absolute butchery that is so often inflicted upon cars by incompetent persons who hang out a sign and call themselves "motor mechanics."

This garage offers you the opportunity to have your repairs made in the proper manner by mechanics who DO KNOW THEIR BUSINESS and who have long since passed the experimental stage in motor mechanics.

You pay only for the actual time honestly consumed in the work.

E. SWAIM

of such a nature as to render their living together insupportable, and plaintiff left defendant and came home to her father's in Foard County, Texas, and since which time plaintiff and defendant have been entirely separated. Premises considered plaintiff prays that defendant be cited to answer this petition, and that she have judgment that the marriage relation between her and defendant be dissolved and that she have her decree of absolute divorce from the defendant and for such other and further relief as she may show herself entitled to and plaintiff will ever pray, etc.

Herein Fail Not, but have you before said Court, on said first day of the next term thereof, this Writ, with your return thereon, showing how you have executed the same.

Witness My Hand and Official at my office in Crowell, Texas, this 1st day of March, A. D., 1922.

MARIE HARRIS BURRESS,  
(Seal) Clerk District Court,  
41 Foard County, Texas.

# Bargain Week

## Prices That Talk Demand Attention

There is no logic like the logic of real honest Cut-Price Bargains where the Quality is not cut. They mean that your investment is a real saving of money for you, get things you need at Real Bargain prices. In inaugurating this Special Sale we only have one purpose in view; namely, to make prices so low that you cannot help from buying. Our 12 stores will sell a Million Dollars worth of merchandise to the people of Texas this year. This volume of business gives us a purchasing power that enables us to give you Real Bargains where there is Quality. Beginning Saturday, March 4th, and continuing one week. Get our prices before you buy.

## American Legion News

Discharged by a Wall Street banking house for refusing to write letters to Congress attacking adjusted compensation, an ex-service man has turned to the American Legion at New York for help in finding another position. He was one of three, out of 250 employees, who refused to sell his pen. The Legion secured his affidavit stating that typewritten forms were passed out by the firm to all their workers with an order that each employe hand in four unsealed letters,

one to President Harding and three to Congressmen, and the remark that "you fellows had better write these letters tonight if you want to keep your jobs."

With stores closed, the countryside out en masse, and a plane wheeling overhead to direct the attack, the American Legion at Beaver City, Neb., staged a record wolf and coyote hunt for the benefit of farmers. The money for the pelts went to needy ex-soldiers.

The order of "commander of the Le-

gion of Honor," conferred on him by the French government, has been declined as a personal decoration by Hanford MacNider, commander of the American Legion. He cabled Marshal Foch that he wished to accept the award only "as a tribute to all members of the Legion."

Ex-service men in Alabama will vote without paying a poll tax. A state amendment, backed by the American Legion, grants them the exemption.

One thousand "doughnuts and coffees" a day to feed jobless and homeless ex-soldiers in the growing bread-line at St.-Marks-in-the-Bowery, New York, are being supplied by a single post of the American Legion, during each day and night. The unfortunate men sleep in the church.

## To the Boot-Wearing Public

I am adding boot making to my already well established business. Give us your order. We guarantee satisfaction. Give us a trial.

**A. L. JOHNSON**

**Crowell, Texas**

## Tired

"I was weak and run-down," relates Mrs. Eula Burnett, of Dalton, Ga. "I was thin and just felt tired, all the time. I didn't rest well. I wasn't ever hungry. I knew, by this, I needed a tonic, and as there is none better than—

## CARDUI The Woman's Tonic

"... I began using Cardui," continues Mrs. Burnett. "After my first bottle, I slept better and ate better. I took four bottles. Now I'm well, feel just fine, eat and sleep, my skin is clear and I have gained and sure feel that Cardui is the best tonic ever made."

"Thousands of other women have found Cardui just as Mrs. Burnett did. It should help you. At all druggists. L. 67

Racing a street car for a mile, an ex-soldier in Dallas, Texas, just up from a sick-bed, beat five other applicants to a job.

Every sick and wounded ex-service man in New York state hospitals will be assigned an able-bodied member of the American Legion, who will see that his charge gets a square deal.

A string of world war medals (bought at a sale) across his chest, the world's fastest-working beggar took \$60 an hour from New York's theater crowds until the American Legion got the police on his trail.

Capt. Eddie Rickenbacker, America's premier ace, was the first Ohio war veteran to turn back his state bonus check of \$185 to a fund to establish a hospital for Ohio's disabled soldiers. The American Legion has asked all other veterans who do not have imperative need of cash to follow Rickenbacker's lead.

To Colorado alone 25,000 tubercular ex-soldiers have migrated. Only two percent of all hospital cases are Colorado citizens. The American Legion is sending the names of the service men to posts in their home states to set up lines of communication for them with friends and relatives.

Matteo Gambaiano doesn't ask anybody to take him at his word. When he paid his subscription to the American Legion Weekly he sent a check for \$2 and his bank book to show that the check was good.

A referendum on adjusted compensation taken by the Kansas City, Kan., post of the American Legion showed 74 in favor of paid-up insurance, 45 for farm and home aid, and 29 for cash.

Several thousand ex-service men who returned to "do Europe right" are stranded in the large cities there. Posts of the American Legion in London and Paris are helping them book passage "back home again."

It's no wonder some people invariably say too much. They don't know how to shut up when they have said enough.

Do you know of a confirmed pessimist? Use him as a solemn warning, lest you meet the same fate.

### THE STATE OF TEXAS

To the Sheriff or any Constable of Foard County, Greeting: You are Hereby Commanded to cause to be published once each week for a period of ten days before the return day hereof, in a newspaper of general circulation, which has been continuously and regularly published for a period of not less than one year in said Foard County, a copy of the following notice:

THE STATE OF TEXAS To all Persons Interested in the Estate of J. M. Teel, deceased, M. J. Teel, has filed in the County Court of Foard County, an application for the Probate of the last Will and Testament of said J. M. Teel, deceased, filed with said application, and for Letters Testamentary, which will be heard at the next term of said Court, commencing on the first Monday in March, A. D., 1922, the same being the 6th day of March, A. D., 1922, at the Court House thereof, in Crowell, Texas, at which time all person interested in said Estate may appear and contest said application, should they desire to do so.

## Tomorrow morning by all means try Kellogg's Corn Flakes

Tomorrow morning—set KELLOGG'S Corn Flakes before the family! A feast for the eye and a feast for keen appetites! For, Kellogg's are as extra-delicious as they look as you pour out generous bowlfuls—all sunny brown and wonderfully crispy, crunchy! My, but how they delight everybody!

Kellogg's Corn Flakes are not only distinctly superior to any imitation, but the most fascinating cereal you ever ate! Kellogg's appeal to every age! Little folks and old folks find in them the same joyous pleasure! For Kellogg's have a wonderful flavor—and Kellogg's are never tough or leathery or hard to eat!

Insist upon KELLOGG'S—the original Corn Flakes in the RED and GREEN package! It bears the signature of W. K. Kellogg, originator of Toasted Corn Flakes! NONE ARE GENUINE WITHOUT IT!

Don't forget, KELLOGG'S Corn Flakes are made by the folks who gave you the JUNGLELAND Moving Pictures. Coupon inside every package of KELLOGG'S Corn Flakes explains how you can see a whole copy of JUNGLELAND.

### WEST RAYLAND NEWS (By Special Correspondent)

Born to Elmer Scruggs and wife Feb. 28, a fine boy.

C. J. Fox took a load of hogs to Vernon one day last week.

Joe Huntley of Vernon is spending a few days with relatives here.

Little Weston, son of Frank Ward and wife, is ill with pneumonia.

Two of Jim Jolly's children are very sick at this writing with pneumonia.

Sam Tole and family of the Thalia vicinity spent Sunday with Tom Ward and wife.

Wallace Scales and family spent Sunday in the Perry Todd home near Crowell.

Will Newbrough and family spent Sunday in the Abe Martin home near Rayland.

Otis Harris and wife spent Sunday evening with Sam Scales and family at Crowell.

The Literary at the Rayland school house Friday night was attended by a large crowd.

Wag Corzine of Wheeler County is here at the bedside of his mother who has been very ill.

A large crowd attended the pie supper at the Plainview school house last Friday night.

Grandma Scales of Crowell, who had been visiting relatives in this community for the last two weeks, returned to her home Sunday.

T. L. Ward of Stanton, Texas, came in Sunday to be at the bedside of his grandchildren who are ill. He was met at Crowell by Jim Jordan.

C. B. Davidson and wife wish to thank all who so kindly and generously helped them in any way during the illness and death of their little daughter, Claribel.

#### Pecan Crop in Mexico.

The pecan crop of the Nuevo Laredo district of Mexico for the 1921 season is estimated roughly at between 250 and 300 short tons, as against 600 short tons in 1920. A marked falling off in value, as well as production, is also expected, due to the large crops in Texas. The Texas crop will be drawn on first, no doubt, before the Mexican production is touched.

## Get Ready

For Spring Building and Improving.

You may need to do some building or repairing about your house, barn or fence. We have all the materials you will need.

Perhaps you will want to paint the house or barn. Then get a paint that will stay and look good all the time, such you will find in the celebrated SEWELL PAINTS.

#### HER FAULT

Wife—No wonder you're not well. You mustn't eat while angry or excited. That's why you get indigestion.

Hubby—Then stop telling me what the food costs!

#### SEA GULLS FEAST ON PUTTY.

"The sea gulls of this section have such a broad taste that it is necessary to fasten the windows of many of our ferryboats and buildings with strips of metal instead of putty, the last-named commodity proving an irresistible delicacy to these sea fowl."

This announcement came in the mail of C. M. Andrews, district freight agent of the Southern Pacific railway in Seattle, from his San Francisco headquarters recently. The news was circulated along the water front by shippers and in a few hours the sea gull hankering for a putty dessert after a feast of ship's table scraps was magnified into a potent menace. In near-beer bars and other such places of congregation for sailors the putty gull assumed nature-faking proportions.—Seattle Post-Intelligencer.

#### TORONTO'S DISTINCTION.

Toronto is called a city of churches and big enough to become a member of the major league baseball family. It also has another distinction—that of leading all other Canadian cities in automobile registrations. Recently compiled statistics show the ten leading automobile cities of our neighbor to be as follows: Toronto, 32,334; Vancouver, 15,000; Montreal, 13,500; Winnipeg, 10,663; Hamilton, 6,714; Ottawa, 3,906; Quebec, 2,928; London, 2,569; Regina, 3,988; and Windsor, 3,132.

## Enlarged Pictures

Only \$1.00 Each

For the 8X10 Size from Your Negative

If you have had a picture of any kind—except the projection work—made here since August 20th, or if you have one made before March 1, we will make one 8x10 enlargement of it for \$1.00, during February only.

You can have these enlargements framed for 50 cents at Womack's Furniture Store this month.

All photographs now at pre-war prices.

**CLIFTON STUDIO**

## THE SANITARY CAFE

When in town eat at the Sanitary Cafe, west side square. We are here to please you.

## Oil Cheaper Than Machinery

Poor oil makes extra work for your engine.

Cheap oils are the most expensive. They simply can not lubricate properly—the RESULT is friction—friction puts an extra burden on your engine—wears it out prematurely—wastst both fuel and oil.

Get away from these troubles by using the high grade scientific lubricants, a tractor and automobile oil of superior quality. It pays.
