## War Crimes Conference in Session

Here is a view of the scene in the law court of London as the United Nations War Crimes Conference opened. Great Britain's Justice (standing in center background) is addressing the assembled nations delegates to the conference.

## IN SERVICE

Sgt. Donald George Loving, of Mr. and Mrs. Don Lov of the Burnett Ranch, has awarded the Bronze Star for achievement in action against the enemy in the vicinity of Hengenberg, Germany, on March 1945, according to a citation from the First Army, Headquarters 9th Infantry Division, to the commanding officer of the 47th Infantry. He is also being awarded the Bronze Star for achievement in action against the enemy in the vicinity of Hengenberg, Germany, on March 1945, according to a citation from the First Army, Headquarters 9th Infantry Division, to the commanding officer of the 47th Infantry. He is also being awarded the Bronze Star for achievement in action against the enemy in the vicinity of Hengenberg, Germany, on March 1945, according to a citation from the First Army, Headquarters 9th Infantry Division, to the commanding officer of the 47th Infantry.

training, according to a letter to his parent.

Headquarters First Signal Battalion of the Seventh Army in Germany, recently received the following commendation from the commanding officer, part of which is quoted: "The problem of maintaining communications for the Seventh Army have been vast and complex from the landings in Southern France to the present. A vital part in providing continuous communications has been played by the 1st Signal Battalion. Each officer and man can be justly proud of the performance of the battalion. I wish to commend each member of the 1st Signal Battalion for superior performance of all missions." T-5 Jesse Fred Collins, son of Mrs. T. L. Collins of Crowell, is a member of the 1st Signal Battalion and served throughout the campaign of the Seventh Army in Southern France and Germany. He is now located in the Lubbock Army Air Field, Lubbock, Texas. He recently had a surprise visit with S-Sgt. Glen D. Goodwin in Munich, the first person he had met from home since he entered the service in July, 1942.

## Red Cross Camp and Hospital Committee Reports

The Foard County Camp and Hospital committee made the following report at the monthly meeting of the Sheppard Field Council on Thursday, June 14, which was attended by Mrs. N. J. Roberts and Mrs. L. A. Andrews.

Forty-one and a half dozen cookies were baked by the West Side Home Demonstration Club with Mrs. Henry Ross as sponsor.

Thirty-two gift-wrapped prizes and birthday presents were given by the Rebecca Lodge with Miss Margaret Curtis and Miss Nora Banister as sponsors.

Twenty-two birthday gifts from other donors were sponsored by Mrs. Leslie McAdams. Two radios were donated for the Hospital work-shop by the Thalia Service Club.

One large package of colored felt for the handicraft class was donated. Five books and twenty-five magazines were also given.

Office of AAA in Hardeman county, Sgt. McKown and wife were in Crowell Saturday visiting in the home of Mr. and Mrs. G. L. Cole. They also visited in Quanah.

Cpl. Lew Wisdom and his wife returned to Bryan Field today, after a visit with his parents, Mr. and Mrs. A. B. Wisdom, who returned with them. Cpl. Wisdom has been in Thalia since June 1st, helping with the harvest.

Pvt. Orval Myers of the Marines, is visiting relatives in Truscott after finishing boot training at Parris Island, S. C. After a 15-day furlough, he will go to Camp Lejeune, N. C. for a course in engineering.

Cpl. J. M. Hill Jr., U. S. Marine, who has been actively participating in the Okinawa campaign until he recently became ill, has been evacuated to a hospital on Guam, according to a letter received by his parents, Dr. and Mrs. J. M. Hill, this week. He stated that the clean hospital beds were wonderful and that he was getting along alright.

Sgt. Milton Callaway writes his parents, Mr. and Mrs. Claude Callaway, that he has arrived safely at Oahu Island, in the Hawaiian group. His wife is in Ranger, visiting her parents.

Pfc. Rudolph Matus, son of Mr. and Mrs. John Matus, is visiting his parents at Thalia. He is on a 90-day extended furlough.

Sgt. J. B. Eubank Jr. of Camp Bowie is at home on a 14-day furlough visiting his parents, Mr. and Mrs. Bruce Eubank, and other relatives and friends in Truscott.

Charlie Thompson, Ph M I-C, has recently been moved from Guadalupe where he had been located for several months, to Guam. He writes his parents, Mr. and Mrs. Charlie Thompson, that he is well and fine.

Major T. P. Reeder Jr. of the Medical Department of the U. S. Army, who has been serving in Army hospitals in England, has returned to Fort Sam Houston, San Antonio, from overseas. His wife left Wednesday for San Antonio to join her husband.

Sgt. Hugh Giles is in Truscott visiting his wife and children, who are in the home of her parents, Mr. and Mrs. J. V. Lindsey. He will return to Virginia Friday.

Lieut. (j. g.) Dick Todd, who is stationed at the Naval Training Base at Grand Prairie, his wife and small son, Denny, are here visiting their parents, Mr. and Mrs. L. J. Todd and Mr. and Mrs. H. D. Poland.

Sgt. Albert Lee Earthman is visiting his parents, Mr. and Mrs. Earnest Earthman, in Thalia.

Craig Sandlin, son of Mr. and Mrs. Arthur Sandlin, of Vivian, left Tuesday for Dallas where he reported for service in the Navy.

Charles Ray Thomas, Chief Yeoman of the U. S. Navy, is here on a leave visiting his mother, Mrs. R. J. Thomas, and family.

Sgt. Paul R. Gobin, son of Mr. and Mrs. Pete Gobin, who is somewhere in the Philippine Islands, writes his parents that he is well and fine but very busy. This is the first word the family has had from him in several weeks.

M-Sgt. Bill Bryant and wife and daughter, Dottie Gene, visited over the week-end in the home of Mr. and Mrs. Jess Bryant in Truscott.

Pvt. John T. Morris and family of Fort Sam Houston, visited his sister, Mrs. J. M. Jackson, of Thalia, Sunday.

Pvt. Roland L. Washburn, serving in the tank division, is somewhere in the Hawaiian Islands, according to a letter received recently from him by his mother, Mrs. Rosa E. Ford.

## Rationing Board Issues Statement on Canning Sugar

The Foard County War Price and Rationing Board is making an appeal to citizens of Foard County who have already received a heavy issuance of home canning sugar to return a portion of it so that other citizens who have not been issued their canning sugar may receive a fair share. The Board issued the following announcement Wednesday:

"In the beginning of the home canning season, actuated by the picture as it was then foreseeable, the Foard County War Price and Rationing Board was asked to ration sugar on a basis of an average of 10 pounds per War Ration Book IV, or on a basis of not more than 70 per cent of last year's issuance. We are governed by the supply situation as it is reported to us by the District Office, and we can only issue this sugar as the supply agencies in Washington give it to us.

"In order to give the citizens of Foard County some explanation of the canning sugar situation, the local board wishes to make a few statements concerning the critical shortage. We attempted to issue sugar on a basis of 10 pounds per person but our quota has been reduced to where it is now impossible to issue 5 pounds per person unless some who have received 10 pounds or more per person are willing to return a part of their certificates to the local board for redistribution. This, in addition to our quota assignment by the District Office, will possibly enable us to issue 5 pounds per person on the remaining applications.

"We are making this appeal to the citizens of Foard County who have already received heavy issuance to return a portion of this sugar to the board which will be added to our remaining quota as a matter of fairness to those people who have not yet received any sugar."

## Particulars Given Parents of Death of Pfc. Truett Gobin

In response to a letter asking for more details concerning the death of their son, Pfc. Homer Truett Gobin, Mr. and Mrs. Pete Gobin have received a letter from the personnel officer of the 359th Infantry of which Pfc. Gobin was a member when he met his death on January 16, 1945. The letter states that, after the bitter fighting around Bastogne, at the peak of the German counter-offensive in the Belgium and Luxembourg sector, the regiment was committed to a holding action in the vicinity of Longvilly, Belgium. The enemy was continually subjecting the positions to intense artillery, heavy mortar and machine gun fire. Many casualties occurred here.

The company of which Truett was a member, was given the task of assaulting one of the numerous enemy positions nearby. After the objective was taken the men re-grouped, it was found that Gobin was missing. From information gathered, he was seen to fall when an enemy machine gun opened fire during the advance. Later his body was found and it was found that he was probably killed instantly. He was laid to rest in the U. S. Military Cemetery at Haam, Luxembourg. His grave, marked properly, lies in the midst of many comrades who fell in the same battle. He was commended by his Company Commander as having been a good soldier of whom the family may be justly proud.

## Century Plants Blooming in Crowell Attract Attention

Crowell may boast of having two century plants in bloom, a rare thing, for the century plant is supposed to bloom only one time in one hundred years. The plants are at the home of Mr. and Mrs. H. E. Black and at the old Tom Patton home west of town. The place is now owned by Mr. and Mrs. John White.

## RETURNERS FROM ITALY

M Sgt. Robert L. Holmes arrived here Wednesday to join his wife and 19 months' old son, Robert Gerald, whom he had never seen. Mrs. Holmes and small son had been making their home in Crowell since her husband had been overseas. He served in Italy. Sgt. Holmes is the son of Mrs. John Holmes of Santa Fe, N. M., the family having resided in Truscott until a few years ago.

## BUYS LOTS ON EAST SIDE

L. L. Denton has recently bought two lots and the tin building on the east side of the square from Ferguson Bros., south of Owens Auto Supply. Mr. Denton expects to fix the building up to rent.

## Bounty on Coyote Pups to Be Fifty Cents Each July 1

Effective July 1, 1945, the bounty on coyote pups will be fifty cents instead of one dollar and fifty cents. Heretofore there has been no distinction made as to the age of the coyote, however, at its regular session on Monday, June 11, 1945, the Commissioners' Court voted that although it would continue the payment of the bounty on coyotes the bounty on coyote pups should be reduced to fifty cents each.

## GOOD RAIN FALLS

A good rain, coming from the northwest, fell here last night. The rain was greatly needed.

## Home Nursing Classes Under Way in Foard County

To date eleven classes have been organized in Home Nursing throughout the county.

The Business and Professional Women, under the Chairmanship of Blanche Hays, have had four lessons on "Signs of Illness," "Following the Doctor's Orders," "Making a Patient Comfortable in Bed" and "The Clean and Well Groomed Patient." Members of this class are Mmes. Ila Borchardt, Sallie Archer, Jean Reed and Misses Blanche Hays, Elizabeth Elliott, Gussie Todd and Iva Ruth Gafford.

The Columbian Study group, under the direction of Mrs. Lee Black, are sponsoring a group of mostly young mothers. They have held two classes. The following women are members of this class: Mmes. Winnie Brown, Dessa Black, Virgie N. Klepper, Geraldine Jones, Mildred Thompson, Elizabeth Davis, Rowena Sledge, Idah Pearl Crowell, Joyce Drake and Marjorie Oliphant. This class meets on Thursday and Friday afternoons.

All Crowell classes are held on the second floor in the court house.

A morning class, sponsored by the Adelphean and Columbian Clubs, under the chairmanship of Mrs. Charlie Thompson and Mrs. Merle Kincaid, meets on Monday, Wednesday and Friday mornings. They have had their third lesson. Besides Mrs. Thompson and Mrs. Kincaid other members are: Mesdames Ellen Roberts, Lizzie Kincaid, Pearl Carter, Katie Adams, Edna Sanders, Bevie Brooks, Ruth Maud Beverly, Mattie Paige White and Lucile Walden.

The Foard City women had their first meeting in the Home Demonstration Club room on June 19. Members registered for this class are: Mesdames Leo Halbert, Eunice Halbert, Mary Alice Borchardt, Charlene Wislon, Laura Johnson, Bonnie Johnson, Lois Jordan, Oneta Callaway, Beula Marlow and Miss Opal Callaway.

The West Side women, under the chairmanship of Mrs. S. E. Tate had their first class on Wednesday afternoon, June 20.

Other classes scheduled are: Margaret, beginning the afternoon of June 27, under the direction of Mrs. H. L. Schultz. Vivian, begins on the afternoon of July 9. These classes will be held at the home of Mrs. T. W. Cooper. Gambelville, begins in the morning of June 26, and these classes will be held in the home of Mrs. Glen Jones.

On July 24 two classes will be started at Thalia. Plans are under way to have these meet in the Service Club room.

Women of Foard County who desire more information about the Home Nursing Classes sponsored by the Red Cross are asked to get in touch with Mrs. Moody Bursey, County Home Nursing Chairman, or Miss Elizabeth Elliott, Home Demonstration Agent.

## Knows His Planes

Three-year-old Roger Michael Golden, South River, N. J., is called "aeronautically-precocious" by veteran airmen. At the Westover identification - recognition classroom, Roger identified 121 different U. S., British, Jap and German airplanes.

## Business Lots Where Buildings Destroyed by Tornado Are Sold

Deals have been closed within the last few days whereby business lots around the square on which the buildings were destroyed by the tornado have been sold.

The Foard County Implement Co., owned by Ernest Johnson of Crowell and L. V. Anderson of Paducah, Minneapolis-Moline tractor and farm machinery dealers in Crowell, have bought three lots from Ferguson Bros. on the southeast corner of the square where the Chevrolet building once stood. The company will erect a building on this site for the farm machinery business as soon as it is possible.

J. P. McPherson & Sons have bought four lots on the southwest corner of the square for a new home for their International Harvester business. They bought two lots from the Erwin Estate where the M. S. Henry & Co. hardware store was located, one from Henry Borchardt where the Haney Razor Grocery was operated and one from Oscar Hall of Paducah which was occupied by the Crowell post-office.

M. L. Hughton is the new owner of four lots where the Quick Service Station was operated on the northeast corner of the square. Mr. Hughton bought these lots from Gordon Cooper. They were formerly owned by John C. Roberts of San Antonio.

## Big-4 Ranch Will Sell 40 Head of Horses at Auction

The Big-4 Ranch in Knox and Foard Counties will sell 40 head of horses at auction at the Vernon Auction Barn on Friday afternoon, June 29, at 1 o'clock. It was announced by J. D. Smith, manager, here Monday.

Mr. Smith says they will sell twenty mares and colts, the colts being sired by a quarter horse, twelve thoroughbred, registered yearling fillies sired by a Government stallion, and also a few saddle horses, on this date. Bill White will be the auctioneer.

## Mother of Local Lady Passes Away

Mrs. J. H. Sauls, mother of Mrs. Pete Holcombe, passed away at a hospital in Hamlin, on Saturday, June 9, after an illness of more than six months. She had been seriously ill for ten days. Mrs. Holcombe has been with her mother at intervals during her illness and was there when she passed away.

Funeral services were held on Sunday afternoon, June 10, with Rev. E. L. Yeats, pastor of the Hamlin Methodist Church and a former Crowell pastor, officiating. Burial was made in East cemetery in Hamlin.

Mrs. Sauls was born in Coryell County on October 28, 1876, Lula Belle Stickney. She was married to Mr. Sauls on August 31, 1892. The couple celebrated their fiftieth wedding anniversary in 1942. They have been living near Hamlin since 1889. Mrs. Sauls was a consistent Christian and for many years had been a member of the Hamlin Methodist Church.

Survivors include the husband and five children, whose names follow: Mrs. Pete Holcombe, Crowell, D. B. Sauls, San Antonio; W. F. Sauls, Quitaque; George Sauls, Hobbs, N. M.; Mrs. Alene Ford, Altus, Okla.; Five sisters and one brother and several grandchildren and great grandchildren also survive.

Attending funeral services from Crowell were Mr. and Mrs. Pete Holcombe, Mr. and Mrs. R. G. Grubbe and Miss Nora Banister; Mrs. C. W. Henry and daughter, Carol Ann of Pampa; Mrs. Rudell Russell and daughters, Jackye and Frankie of Grandfield, Okla.; Mrs. Henry and Mrs. Russell are granddaughters of Mrs. Sauls. Many others attended.

## Men Released from German Prisons Arrive at Home

Three Foard County men, who have been prisoners of the Germans through the past months, arrived in the United States on June 11, were sent to Fort Sam Houston at San Antonio, after having been sent there from New York where he arrived on June 11. Sgt. Hays was a prisoner of the Germans from Jan. 11, 1944, to the time of the liberation on May 3, 1945. He was an engineer gunner on a B-17 and had made four missions when he was shot down by German Fighters near Berlin, Germany. He was in Belgium and Holland prior to that. He was in Stalag 17-B in Krems, Austria, 40 miles from Vienna. He traveled from Frankfurt, Germany, and marched the distance. On April 8th, 1945, he was started on a march from Krems to an unknown destination and was found in the Austrian woods near Brannau, on the German-Austrian border. While on the march, the men had less than one meal per day, slept in barns, stole what food they could and traded cigarettes for food. After the liberation on May 3, by the 13th Tank Division of the 3rd Army, he was flown to LeHavre, France, and there took the ship for home.

Lt. Tom A. Andrews, son of Mr. and Mrs. L. A. Andrews, arrived home Sunday, June 17, from Fort Sam Houston, where he was sent after arrival in New York on June 11. He spent four months as a prisoner of the Germans. He will have temporary duty for 60 days and then will report to Miami Beach, Fla. Lt. Andrews went overseas on Sept. 29, 1944, and was captured on Dec. 18, 1944. During that time he served in Scotland, England, France, Belgium and Germany. He was picked up by 1st. S. S. Panzer Division and placed in Stalag 7-A at Moosburg, Germany. Lt. Andrews was liberated by his own Division, the 99th, and finished the last of the war with his old division. He has seen Pfc. Richard Bird and says he is well and all right. Lt. Andrews was an Artillery Forward Observer. He is gaining weight and is well.

## Humble Oil Company Will Drill Oil Test on Halsell Ranch

The Humble Oil & Refining Co. is making preparations to drill a wildcat oil test on the Furd Halsell Ranch, seven miles south of Thalia. Three tests have already been put down in this vicinity about 2 1/2 or 3 miles north of the site of the new well.

## Released Prisoner Will Return Home

Mr. and Mrs. Bud Minyard received a telegram Monday from their son, Pvt. Joe A. Minyard, who was a prisoner of the Germans until the surrender. He wired from New York and said that he would probably be at home the latter part of the week.

Mrs. George Tabor is visiting her husband at Camp Hood this week. Billy Morrison has returned to

Health Protection Imperative at This Season of Year

Austin.—This is the season when dysentery, diarrhea, "summer complaint" are most prevalent throughout the State, and Dr. Geo. W. Cox, State Health Officer, has issued a warning to parents of young children regarding the prevention of these diseases. The chief causes of these intestinal diseases are impure milk, water and food; allowing a child to become overheated; using too much sugar and cream in the diet; and under- or over-feeding. Dr. Cox said, "For the young infant, mother's milk is usually the safest food; however, if other milk must be used, the supply should be clean and pure. Water should be free of impurities, and is safest when boiled and cooled before drinking. All foods should be fresh and clean, and left-overs should be properly refrigerated to prevent spoilage." Dr. Cox said definitely that when a feeding formula for infants is used, it should be prescribed by a physician and then prepared with extreme care, especially in regard to cleanliness and refrigeration. Babies should be fed at regular intervals and on a definite schedule. Their stomach and bowels can become easily upset if they are fed haphazardly whenever they happen to be fretful or restless. "If diarrhea develops, consult a physician at once," Dr. Cox advised. "This so-called 'summer complaint' can become a very serious menace to your baby's health, if not an actual threat to his life." The State Health Officer declared that with dysentery, as with many other diseases, the fly is an agent of transmission, and every home should be well screened and free of flies. Gene Stratton Porter's "Lumberlost Cabin" was built on Sylvan Lake near Rome City in the northeastern part of Indiana. The custom of using seals on documents has prevailed for centuries, in the East. It required 13 years to build the Brooklyn bridge. Amarillo after visiting her parents, Mr. and Mrs. Grant Morrison. J. E. Porter of Lubbock spent from Thursday until Friday with his parents, Mr. and Mrs. Clyde Porter, and family. Cpl. Harry Black and wife have returned to Amarillo after visiting her parents, Mr. and Mrs. G. Morrison. Mrs. C. F. Haseloff and Mrs. Bell Franz visited in Vernon Friday. Mr. and Mrs. Bobby Long and daughters, Peggy and Joe Frances, spent the week-end with her mother, Mrs. Mary Hunter, and family. Mrs. G. Morrison and Mrs. Evadell Williams visited Mrs. Henry Black in Crowell Saturday.

Respect for Hand Work

One of the results of the present wartime experience is likely to be an increased respect and popularity for hand work, for labors which people perform with their own hands. For many years many persons seemed to have some aversion to work of this kind. Many young men thought it was more creditable to be engaged in a commercial business or occupation than to work with their hands in some factory. Also the number of women who employed domestic workers to perform the labors of their homes was very large. Wartime conditions have drawn a great number of men and women into mechanical production in workshops. The former preference of many for commercial occupations was legitimate and appropriate, if one had a greater talent and aptitude for such employments. But insofar as based on the idea that these occupations were more creditable in some way,

it was based on a mistaken idea. The greater scarcity of domestic workers has led many women to take up domestic labors themselves, and perform the labors of their own homes or most of them. They have found this work interesting, and knowledge of these home arts gives them a new sense of power. Probably many men and women who in former times would have entered commercial or business work, will after the war continue to take up the mechanical tasks in which they have done well. Many women who in former times would have remained on in their homes, are likely to leave workshops. The world has learned the lesson that all forms of useful work are honorable. The mechanical tasks are very productive, they provide comfort for the world, and save labor to humanity when they help to make these things and keep them running.

Fighting Marine at 'Death Valley'

One of the Leathernecks, driving through Japanese machine gun fire while crossing a draw, later called "Death Valley" by the men, rises from cover for a quick dash forward to another position. The Marines sustained more than 125 casualties in eight hours of fighting.

Now that the War in Europe is over What about travel? traffic—new loads and greater loads and less space for civilian travelers than ever on Santa Fe rails. In The Meantime Santa Fe facilities have been enormously increased—bigger yards; more freight Diesels; centralized traffic control at key points; and improved shop tools and practices which keep our locomotives rolling. In peacetime these increased facilities will enable us to provide better service than ever. But in the meantime, the stuff needed to lick Japan is top priority. So—again we ask, "Unless your trip is essential, can't you put it off until we have a little better opportunity to serve you in the traditional Santa Fe manner?" Bigger Traffic Loads The stubborn fact is that the traffic in our Pacific ports of war is stepping up instead of letting down! This means, in the war days to come, there will be more passenger and freight SANTA FE SYSTEM LINES ALONG THE ROUTE TO TOKYO Santa Fe

Items from Neighboring Communities

RIVERSIDE (By Mrs. Cap Adkins)

Mr. and Mrs. Cliff Cribbs and children of Lubbock spent the week-end with his parents, Mr. and Mrs. M. L. Cribbs, and family.

Mesdames J. L. and Bailey Renels were dinner guests of Mr.

and Mrs. Pete Gobin and family of Crowell Sunday.

Mr. and Mrs. Gene Spradling and baby and Mr. and Mrs. Brown and baby, all of Arizona, visited in the T. C. Pope and T. J. Cox homes over the week-end.

Robert Garrett of Amarillo has been visiting here the past week. D. M. Shultz happened to the

misfortune of getting run over by a cow last Thursday. He was bruised considerably, but is resting pretty well.

Rev. Hudson of Fort Worth and Carolita and Doris Jones were dinner guests of Mr. and Mrs. Cap Adkins Sunday.

Mrs. Scharber and children of Foard City spent Sunday in the Jap Scharber home.

W. B. Shultz and wife of Houston visited his father, D. M. Shultz, a while last week.

James Everett Pyle of Houston, who has been visiting in the Dave Shultz home, has returned home.

Mr. and Mrs. Bill Anderson of South Lockett and Houston Adkins and family of Thalia visited in the Cap Adkins home Sunday.

Mrs. A. Oliver of Carlsbad, N. M., is visiting her daughter, Mrs. Wallis Scales, and husband.

Mr. and Mrs. Jack Roberts of Crowell visited Mrs. John S. Ray Sunday afternoon.

Mr. and Mrs. Ben Yeakley of Gainesville visited Mr. and Mrs. Frank Ward Sunday. They were accompanied by their daughter, Mrs. Weston Ward, and children, who will visit in the Ward home for a while.

Mr. and Mrs. Horace Taylor were business visitors in Childress Tuesday.

Mr. and Mrs. Tom Ward and family spent Sunday with her parents, Mr. and Mrs. Sam Toles.

Mr. and Mrs. J. W. Toles and daughter, Carolyn, spent the week-end with her parents, Mr. and Mrs. Grisham, of Quanah.

Mr. and Mrs. Tidwell of Vernon and Mr. and Mrs. Buster Harvel of Monahans visited Mr. and Mrs. H. H. Hopkins Tuesday.

Mrs. R. C. Johnson of Crowell and Mrs. C. D. Haney of Five-in-One and Allen Shultz of Vernon have been attending the bedside of their father, D. M. Shultz.

VIVIAN (By Mildred Fish)

Sgt. Merl Sandlin, who has recently been liberated from a German prison camp, arrived home Sunday for a 60-day furlough in the home of his parents, Mr. and Mrs. Arthur Sandlin.

Dwain Boren of Pampa spent last week with his grandparents, Mr. and Mrs. Ike Everson.

Y. L. C. and Mrs. Hughes, Fish and daughters, Elaine and Jane, who have been in Washington, D. C., where he was stationed with the U. S. Navy, are visiting his parents, Mr. and Mrs. Allen Fish. Y. L. C. Fish is en route to the West Coast and his wife and children will remain here.

Miss Myrtle Fish is visiting relatives and friends in Abilene this week.

Mr. and Mrs. R. L. Walling spent last Wednesday with her mother, Mrs. M. L. Gaudin, of Vernon.

Mr. and Mrs. Olaf Nelson and daughter of Brownwood are visiting in the home of his brother, Oscar Nelson, and family.

Mr. and Mrs. John Allen Fish and sons, Allen Joe and John Lee, of Dallas are visiting in the home of his parents, Mr. and Mrs. Allen Fish.

Lt. Franklin L. Evans, who has been at the Lubbock Army Air Field for the past six weeks, is spending a furlough with his parents, Mr. and Mrs. E. T. Evans.

Mrs. W. O. Fish and daughter, Mildred, spent last Wednesday in the home of Mr. and Mrs. Harry Adams of Crowell.

Mr. and Mrs. T. B. Klepper of Crowell spent Sunday in the home of his sister, Mrs. Allen Fish, and family.

Mr. and Mrs. Clyde Bowley, Lt. and Mrs. John Bowley and daughter, Betty, and Mr. and Mrs. James Sandlin and daughter, Judy, met relatives from Brownfield in Floydada Sunday for a family reunion.

Mr. and Mrs. W. O. Fish visited in the home of Mr. and Mrs. H. H. Fish of Paducah Saturday evening.

Lt. and Mrs. John Bowley and daughter, Betty, left Tuesday for Houston after spending several days with his parents, Mr. and Mrs. Clyde Bowley.

Mrs. J. M. Denton and daughter, Fay, of Paducah are visiting in the home of her parents, Mr. and Mrs. Allen Fish.

J. W. Klepper is visiting his son, T. B. Klepper, and wife of Crowell.

Mr. Stapp of Amber, Okla., is visiting in the home of his daughter, Mrs. Oscar Nelson.

Miss Geneva Marr, who has been teaching school at Floydada, returned home Sunday.

A 10-lb. baby girl was born to Mr. and Mrs. Bruce Benham in the Paducah hospital Sunday.

Craig Sandlin left Tuesday for Dallas to report for active duty with the U. S. Navy.

Home Town Thoughts

The stores that advertise their bargains and describe the goods they are selling, are rewarded by the greatly increased number of people who come to see those bargains.

The old timers worked a good deal harder than the average run of people do now, but they were apt to find time to grow vegetables and flowers around their home places.

The longer you stay away from Crowell this summer the better you will realize that you come from a mighty good town.

Placing flowers on the graves of the dead originated with the ancients, who believed the deceased enjoyed the fragrance of the flowers.

Prior to the death of Charles VIII of France, in 1498, widows wore white as mourning. His queen, Anne, changed the custom when she clothed herself in black.

Winner of the Silver Star for "gallantry and intrepidity in action" aboard the aircraft carrier Franklin when she was bombed off Kyushu, Chaplain G. Weldon Gatlin of Fort Worth, Tex., told Methodist church officials in New York, recently, that he stayed with the ship, although injured, to keep men "in touch with God." A member of the Methodist Central Texas Conference, Chaplain Gatlin served the church at Grandview, Tex., before entering the Navy chaplaincy two years ago.

To Secure First-Hand Information on the Comanche Indians

Lubbock, June 11.—First-hand information on the Comanche Indians will be sought by Dr. Ernest Wallace, professor of history at Texas Technological College, in a six-weeks' trip to various places in Oklahoma.

Dr. Wallace has already written 400 typewritten pages on the Comanche Indians which represents the results of years of study and research in preparation of a book soon to be published on this history of the most powerful of Indian tribes of the Southwest.

This summer's project is sponsored by the Research committee of the college and will afford Dr. Wallace opportunity to search existing records and make personal contact with some of the old Comanches. He will visit Anadarko, agency headquarters of the Comanches, and search the records in the University of Oklahoma library at Norman.

The book as projected includes chapters on the family life of the Comanches, their material culture, government and law, religion, and methods of warfare. The history of this tribe, their migrations and relations with other peoples are covered.

The Comanches, according to Dr. Wallace, held sway over a vast territory from the Arkansas River southwest to the Pecos and from the Rio Grande to the Cross Timbers in Central Texas, and for 200 years fought off all comers, including the Spanish, Mexicans, Texans and the United States Army.

Cost of the War

The war has already cost the United States \$275,000,000,000. Before Japan is finally conquered, the total cost will probably be a great deal more than that. After Japan gives up, then the cost of the war will keep mounting, through interest on the war debt, payment of pensions and various benefits, caring for veterans, etc. It is infinitely better to spend all this money than to let the Nazis and Japs become the controlling power in the world. American freedom is worth any price that is necessary to pay for it. The awful cost of the war is something which people should carefully consider. It should lead them to feel ready for any step that may be necessary to prevent any such stupendous conflict from starting again.

The burden of interest on the war debt, and the taxes necessary to pay that interest and gradually to pay off the principal, will be a load on the whole country. Families will have to deny themselves many satisfactions and comforts because of the taxes. It will be more difficult to educate children, because the taxes will eat so heavily into the income that under normal conditions could be used to put children through colleges and schools. The people will have to live in a simpler manner because of the war burden. Many people will have to do things themselves instead of hiring them done.

So the American people should be ready for whatever action is necessary to keep any new war from starting. They may have to send armies across the seas to keep some country from beginning again on war preparation. It will be cheaper the next time to nip any such movement in the bud, than to let it create a terrible power which can only be conquered with such great difficulty and at such a terrible cost. The loss of life, the sacrifice of such a great body of the finest young men, is, of course, the greatest loss.

Geologists of Texas interested in Ellenburger stratigraphy will take two field excursions to the Llano region of Texas June 15-16, and June 17-22. Dr. E. H. Sellards, director of the Bureau of Economic Geology at the University of Texas, has announced. The trips have been planned by the Bureau, with Dr. V. E. Barnes, University geologist, and P. E. Cloud Jr. of the U. S. Geological Survey, in charge.

Your Horoscope

June 18, 19, 20.—You are apt to have some very deep religious convictions but are not given to parade them. You have marvelous taste in working out home decorations. You are loving, kind, imaginative and generous to a fault, and while you possess a sarcastic vein it is generally good natured, witty and refined.

June 21, 22.—You are loving, sympathetic, and always looking after the welfare of others. You let the burden and care of others weigh too heavily on your shoulders. You are thoughtful, bright and scholarly and of a very religious nature. You are mechanically inclined and can design many beautiful and useful articles of furniture for your home.

June 23, 24.—You have an impractical streak which sometimes upsets your success in most unexpected ways. You are true to those you love and expect the same in return. As you are very brilliant you always appear to be the best advantage. You are fond of ornament and display.

Home Is Best

Some people may feel the limitations to travel that exist during the wartime, while gas is restricted and trains and buses are crowded. These opportunities to travel will come again in due time. Meanwhile we have an excellent chance to get acquainted with our home town, to make new friends, and to realize all the pleasant associations that can be had among the home town folks.

The home town may or may not have all the advantages to be found in large cities, but it does have opportunities for intimate friendship. People become closely acquainted with their neighbors and those they meet in public activities. These friendships add happiness and satisfaction to life.

HOUSEHOLD HINTS

Stubborn spots on windows can be cleaned with a cork dipped in gasoline. A cork, thus treated, will also take spots off linoleum.

For greasing bread or cake pans it is best to use lard or a butter substitute. Butter burns too quickly.

You can keep celery and lettuce crisp and fresh for several days if you wash them and wrap tightly in wax paper, closing both ends with rubber bands.

Soapstone found in Texas is valuable for hearths, linings of furnaces, and for appliances in cooking, because it retains and resists heat. Dr. V. E. Barnes, University of Texas geologist, says in a recent paper published by the Bureau of Economic Geology.

In China the mourning color is white; in early Egypt it was yellow; Ethiopia, brown; Turkey, violet.

The man who thinks that lower taxes are anywhere near is a poor judge of distance.

What We Think (By Frank Dixon)

In my opinion the suggestion that a day be set apart to be known and observed throughout the world as an International World Peace Holiday possesses too much merit to be allowed to pass unnoticed.

If we are to continue to keep alive the interest in the things now being worked out at the San Francisco Conference, and the conferences which will follow this, it is going to be necessary, in my opinion, to bring to the minds of people everywhere the necessity of eternal vigilance.

Peace means so much in so many ways to the world from now on that there should be no difficulty in securing complete co-operation in the observance of a day dedicated to its preservation.

The honor guest at the Texas delegation luncheon this week was Navy Lieutenant George K. Petritz of Illinois, just back from a Japanese prison camp.

It is predicted that after the war fresh fruit and vegetables will be transferred great distances in air transport planes.

Behold therefore the goodness and severity of God; on them which fell, severity; but toward thee, goodness, if thou continue in his goodness; otherwise thou also shall be cut off.

As we understand it the Allies have arranged for 60,000,000 jobs for the Nazis rebuilding what they destroyed in France, Russia, Poland and the other countries.

The farm is still the broad enduring base upon which the entire United States economy rests.

# AGRICULTURE

(E. F. Eaton, County Agent.)

### New Process of Curing Hay

Under a new forced ventilation process, which may now be installed, a grower producing hay may harvest his hay and safely put it in the barn the same day it is cut.

The procedure is about as follows: In handling the hay in the field, the hay is cut in the morning as soon as the dew dries off and is allowed to dry for about two hours; it is then raked into windrows where it remains for another three hours.

This field drying for four or five hours reduces the moisture content of the hay from 75 to 45 per cent. The hay is then removed to the barn which is equipped with a blower fan and specially constructed floor flues where the moisture is further reduced to 20 per cent, at which stage it can be safely stored or remain in the barn. These dryers are designed to cure the hay for a depth of 8 to 12 or 14 feet deep.

Should anyone be interested, we have a plot of the floor design and illustrations of the blower and floor design.

Curing hay this way may forestall loss or damage by rain, loss of leaves by shattering and the hay retains its green color and there is less loss in handling.

This, of course, would only be practical where the hay was grown for feed and not baled.

### Wheat Production Drops in Texas

The outlook for wheat production on June 1, according to the United States Department of Agriculture, was forecast at 36,200,000 bushels as compared with 56,562,000 one month ago.

Continued drought in many Panhandle plains counties resulted in complete failure in some counties and a greatly reduced yield in many others. Last year's production was 74,746,000 bushels, but the ten-year average was only 30,337,000 bushels. The indicated average yield was 8 bushels per acre.

Here in Foard County our yield will easily approximate an average of 15 bushels per acre.

There remains only a small amount to harvest. The showers we have had lately deferred final harvest.

Practically all grain stubble has been or will be one-wayed or chisled soon in preparation for a new crop.

Grain sown on fallowed land has shown a marked increase in yield.

There is also a marked difference in yield of the various varieties.

The government loan is not yet available.

### Protect Pigs From Disease

Raising as many pigs as possible for each litter to marketable weight this year will be a patriotic service, says E. M. Regenbrecht, swine husbandman for the A. & M. College Extension Service. The need for a larger supply of meat for people in all walks is great, but the production of pigs in Texas has declined considerably in the past 18 months.

Therefore the more pigs raised from this spring's farrowings, the greater will be the supply of meat and profit for the growers. Saving pigs, Regenbrecht says, means using every safeguard to protect the young ones from exposure to disease.

And, if they should become sick, see that they get prompt treatment.

Good management is one of the most effective ways to keep young pigs in good health. Regenbrecht says, "A simple practice like keeping them in fields which are away from public highways and not affected by drainage from other premises is a good health measure for young pigs. And raising them on clean ground, and keeping troughs and waterers clean and sanitary is a preventative of digestive disturbances."

Cholera, although at low ebb just now, always is a possible threat. The best safeguard is to have herds vaccinated with a proved serum before the disease has a chance to get a foothold. Keeping pigs free from lice also is a good practice because these parasites are carriers of swine pox.

Regenbrecht says that control of lice is simple and easy if a control hog-wallow is available. One application of crude petroleum oil will do the trick. Just pour the oil on the water in the wallow and allow the hogs to wet themselves thoroughly. It will take about one pint of oil for a pig, but for a grown hog about one quart is necessary. If a wallow isn't available any means of thoroughly wetting the animal with oil will do.

The important thing is to save the pigs to give everybody more meat.

### Cutting Guides For Making Hay

Hay-making time is here, and a well-stored supply will be a big asset to farmers who have cattle to carry through the winter. More good hay is one of the best stretchers of protein supplements which have grown scarce during the war years. But much hay in Texas is cut too late to retain its full protein content, with the result that it loses at least a part of its real value as a feed.

Loss of feed value can be prevented by cutting at the right time, says E. A. Miller, agronomist for the Texas A. & M. College Extension Service. For example, Texas' more prolific crops like Johnson and sudan should be cut when the first heads appear to be at their best for reserve feed. Johnson grass cut at that stage makes excellent hay and cows like it. Allow red top cane to head out before cutting.

Among the lesser Texas feed crops, alfalfa when cut at one-third stage contains approximately 18 per cent protein compared with about 15 per cent when mowed

## A Lesson in the Art of Good Friendship

AMERICANS and Canadians accept as commonplace the thing that should be their proudest boast. They have shown the world how two proud and brave peoples can live side by side for generations in harmony.

These two nations have been at peace for one hundred and thirty years. They have done it in small ways, such as the heart-warming example of the people of Ogdensburg, New York, in crossing the border to give their blood to the Canadian Red Cross, and the contributions of Canadian school children to the President's March of Dimes.

This friendship, one of the greatest blessings that either country enjoys, is not just a matter of accident. It is not merely because they are much alike and live near each other that Americans and Canadians are good neighbors. Leaders in both countries have worked to strengthen good will, and so have all the citizens of the United States and Canada.

Canada is the third largest country in the world covering nearly 3,700,000 square miles. Only Russia and China are larger. Canada is about as big as the United States and Alaska together, but it has a smaller population than New York State.

There are only 11,800,000 people in Canada, yet in peacetime it was one of the four greatest trading nations in the world and in war it ranks third as a source of supplies for the United Nations. One reason is that there is almost a square mile of territory for every three Canadians (as compared with a square mile for every forty-four people in the United States).

In the East the majority of Canadians live near the United States border; but the western wheat belt is from 300 to 500 miles wide; and the world's largest radium mines, at Great Bear Lake, are 1,300 miles due north of Seattle.

Two vast railway systems span the breadth of Canada. They are the Canadian Pacific and the Canadian National Railways, owned by the Canadian people. The Canadian Pacific Railway operates railroads and steamships and is the largest transportation system in the world. The Canadian National Railways have the longest railway mileage of any railway on the continent and operate steamships.

Canada and the United States share the great inland waterway system of the Great Lakes and the St. Lawrence which empties into the Atlantic. They also share the principal Pacific coast river, the Columbia.

late. Cowpeas should be cut when the pods begin to ripen.

The volume of feed which will be produced in Texas this year is in doubt, but the farmer who has one or two tons of good hay and some silage in reserve for the winter keep of each cow will be well off, Miller says.

### Practical Home-Mixed Poultry Ration

Maximum production of eggs depends on the amount and quality of food a hen consumes.

A large hen will eat approximately 80 pounds and a smaller hen 70 pounds of feed per year. Usually half of this is mash and half grain with green feed and water. For small flocks it is usually practical to secure ready-mixed mashes from dealers. In the case of larger flocks where commercial eggs are sold quite a saving can be had by home-mixing the mash used.

You can now obtain a commercial protein concentrate with which you can mix ground home-grown grains and secure a good mash.

The usual mixture consists of one hundred pounds of the protein supplement and two hundred pounds of home-grown grain, such as corn, milo maize, hezari or some other grain sorghum with oats, all ground.

You will then be feeding from 72 to 80 pounds of feed per year, half grain and half mash. Since two-thirds of the mash is home feed, this will be from 48 to 66 pounds of home-grown grain and only 12 to 14 pounds of purchased feed or concentrates per hen per year.

It will require about 3 to 3 1/2 tons of home-grown grain per year, or from 3.6 to 4 1/2 tons of feed per year, for 100 hens.

By following this practice you should save 3 to 4 cents per day on the eggs produced and sold. This same practice can be followed with growing pullets with excellent results.

Mash should be kept in a feeder, whole oats in another and other grain in the third hopper.

In growing birds, mash may be kept before them during the morning and grain at the time. This reduces mash consumption and develops a strong pullet that matures slowly and one that can stand up under production.

They will do better on range that produces green feed.

### OLD-FASHIONED GOOD MANNERS

While the war is far from over and there can be no let-up in our all-out effort in the Pacific, the cessation of hostilities has caused foresighted industries to perfect their plans for the reconversion period.

The Railway Express Agency, which deals with the shipments of more customers involving more varied means of transportation than any other single company, has, through its president, L. O.

Head, made public some ideas which it will incorporate in post-war service, that are worth consideration by any one who hopes to buy or sell products or services in the postwar period.

Mr. Head stresses one point that is most important when the buyer instead of the seller again becomes a dominant factor in business. He says the things that their employees and officers can do to better serve the public are very simple: "They spring from old-fashioned good manners, cordiality and efficient business practices. Good manners and cordiality, of course, spring from something within a person. They are based on sincerity." What better rule of action could there be?

War is a destructive task master. We have all been kicked around, stood in line and told what to do. Business niceties have been sadly neglected. "Performance" of some extra service for a customer, however small, a friendly manner, a slight courtesy or a pleasing telephone response pay big dividends," says Mr. Mead.

The express company is to be complimented for stressing a policy which is needed to bring our country back to a more gracious manner of living.—Industrial News Review.

### Two Minute Sermon

(By Thomas Hastwell)

Getting Rid of the Chickweed: I noticed in my lawn the other day an extensive infestation of Chickweed. Chickweed is a small leafed spreading plant that threatens to "take" the lawn. It is usually introduced into clean lawns by the sowing of impure seed. Once it gains a foothold in a lawn it is difficult to eradicate. When I discovered that my lawn was infested I called up the local County Farm Agent and inquired what I might do to get rid of the weed. He suggested two plans: that I might dig it out as one does dandelions, or that I might, through the use of nitrogen fertilizer produce such a heavy growth of grass that the unwanted weed would be finally choked out. It occurred to me when I received his instructions that bluegrass lawns are a lot like human lives. If we are going to keep them clean we must be forever working at the job. In spite of all we can do some wrong things get into our lives. As with the chickweed we can either uproot them bodily and cast them out or we can build up the good to such an extent that there just isn't any room left for the wrong. Lives are also like lawns in the respect that if we do nothing about them, the wrong finally chokes out the finer and the better things. Clean lives like clean lawns, require eternal vigilance.

William Morrison of Des Moines, Iowa, in 1892, made the first electric automobile.

## Safety Check-Up by Every Farm Family Is Goal

A farm safety check-up by every farm family in the nation is the goal of National Farm Safety Week, as proclaimed by President Truman for July 22-28.

Calling attention to the fact that the skill and labor of America's farmers is a vital factor in winning the war, President Truman said: "I request all persons and organizations concerned with agricultural and farm life to do everything in their power to educate farm people in the proper precautions by which they may eliminate farm hazards . . . and I further urge that farm people everywhere observe National Farm Safety Week by making safety checks in their homes and on their farms."

Following President Truman's proclamation, agricultural leaders throughout the nation endorsed the second observance of National Farm Safety Week, which was inaugurated in 1944 by the National Safety Council.

Secretary of Agriculture Wickard said: "The success attained by the nation-wide observance of Farm Safety Week last year . . . has been very gratifying. Agencies of the Department will again lend all possible assistance."

War Food Administrator Marvin Jones said: "It is imperative that both manpower and property losses due to farm accidents be materially reduced. The results obtained through observance of National Farm Safety Week in 1944 clearly demonstrates that this is an effective means of minimizing such losses."

Among farm leaders who have pledged their co-operation in the work of National Farm Safety Week are Edward S. O'Neal, president of the American Farm Bureau Federation; James G. Patton, president of National Farmers' Union; and A. S. Goss, master of the National Grange.

"President Truman's suggestion that farm people make a safety check in their homes and on their farms, if followed, will be the greatest single step that can be taken toward reducing accidents on farms," Maynard H. Coe, director of the Farm Division of the National Safety Council, said.

Mr. Coe suggested that individuals and organizations center their attack on falls, which occur in the farm home more frequently than any other type of accident; on burns, which usually rank about second in importance; on educating farm workers in the proper handling of farm machinery, animals and firearms.

Mr. Coe said that the importance of safe driving should be emphasized because figures show that highway accidents annually kill thousands of farm residents. "There are many other types of accidents which contribute to

farm losses in time, material and manpower," Mr. Coe said, "but a safety check-up during National Farm Safety Week will pave the way for the elimination of hazards that in themselves are the greatest drain on farm manpower."

### Swimming Pools in Texas to Increase Soon After War

More than 140 public and private swimming pools will be built in Texas within five years after the war, according to a recent study by a prominent swimming publication.

"Increased stress on swimming in the armed forces, the intensive instruction program of the Red Cross and the growing pollution of open waters will result in doubling swimming facilities everywhere," said Sylvan Hoffman, editor of Beach and Pool, who forecast that the nation will construct about 10,000 new pools in the first five postwar years.

Outdoor pools, now about 60 per cent of the total in operation throughout the country, will show a slight gain over indoor in future construction, Hoffman said. Hoffman said, "The will continue to be used extensively for pools because of its sanitary features and ease of cleaning. Chief change will be a demand for new designs and more use of color, he predicted.

"In general, municipal pools will be larger, with wading and diving separated from swimming sections," Hoffman said. "Tile indoor pools will be in great demand by schools and colleges, where swimming, like other body building exercises, will be stepped up after the war," he declared.

Texas now has about 145 pools, according to estimates of Beach and Pool. Swimming facilities of private estates, camps, hotels, schools, country clubs and pool operators, as well as municipalities, are included in this figure.

The greatest number of U. S. swimming pools—an estimated 4,000—of the national total of 19,000—are owned by municipalities and counties, according to Hoffman. YMCA's, colleges, schools and hotels come next, with 2,500, while private estates claim 1,500 pools, country clubs 1,200 and commercial interests 800.

The custom of presenting the keys of a city goes back to medieval times, when every fortified town in Europe was surrounded by walls and people could only enter or leave by the gates.

Jane Burke, better known as Calamity Jane, was an Indian scout and for several years carried government mail between Deadwood, S. D., and Custer, Montana.

Frank Winfield Woolworth was the founder of the ten cent store (February, 1879).

Canada is the third largest country in the world covering nearly 3,700,000 square miles. Only Russia and China are larger. Canada is about as big as the United States and Alaska together, but it has a smaller population than New York State.

There are only 11,800,000 people in Canada, yet in peacetime it was one of the four greatest trading nations in the world and in war it ranks third as a source of supplies for the United Nations. ## Don't Worry About Us! We'll do it!

THEY tell us that the fat salvage problem has got to be licked in the small cities, the towns and on the farms.

Our country has to have one hundred million more pounds of used fats this year over last. And we're the people who must save it.

We've rolled up our sleeves! We'll save every drop and bit it is possible to scrape—and keep on doing it till the last lap is licked.

HOW TO DO IT: Save all used fats in a tin can. Keep it handy to the stove. Scrape your broilers and roasting pans, skim soups and gravies, for every drop counts. Keep solid pieces of fat, such as meat trimmings and table scraps, in a bowl. Melt down when your oven's going, add the liquid fat to the salvage can. Take the can to your butcher as soon as it's full. He will give you four cents and two red points for every pound. Your County Agent or Home Demonstration Agent can give you full particulars.

100,000,000 More Pounds of Used Fats Are Needed This Year!

Approved by WFA and OPA. Paid for by Industry.

Book Advertised

Tells How to Make Good Riding Horses

Training Riding Horses, advertised in our columns is a book every cattleman should have. It tells by pictures and simple words how to make good riding horses.

John C. Burns, manager of the 6666 Ranch and president of the Southwestern Exposition and Fat Stock Show, whose long experience on ranches makes him competent to speak, says:

"Horses on commercial cattle ranches are a means to an end. The business requires that cattle be handled at times by men on horses. The better the horses are, the fewer will be required, and the more efficient the work. The gentle, well-trained horse that responds promptly and accurately to the rider will accomplish far more than the 'Bronc' or the 'Outlaw' and is both safer and more dependable. A gentle, well-trained horse will result in proper training begins with foalhood, provided he has been well endowed with possibilities through good breeding."

Galveston.—Fever therapy for the treatment of various diseases, all in extreme stages, has been used successfully at the University of Texas Medical School, Dr. Edward Randall, professor of therapeutics, has announced. Dr. Randall reports that since 1939 twelve different diseases, and 648 persons have been treated by fever therapy. Treatment ranges from six to 100 hours, the physician said, depending upon the disease.

Cocky Cockerel

Here is Chanticleer II, perched grimly on the undercarriage of a railroad coach. The chicken enjoyed the doubtful distinction of being the only "hobo" ever to carry a comb.

THE INTERNATIONAL SUNDAY SCHOOL LESSON

For JUNE 24, 1945

Subject: The Church in the Pagan World.

Scripture, The Larger Lesson: Acts 11:19-26; 13:1-3; 1 Timothy; Hebrews; 1 Peter; especially 1 Tim. 6:1-20, 1 Peter 4:7 to 5:4.

The Lesson for Class Study: 1 Timothy 6:1-20; 1 Peter 4:12-16. Golden Text. Seek ye first the kingdom of God, and his righteousness. Matt. 6:33.

Introduction: 1. Paul is writing to Timothy, a young preacher in the city of Ephesus. Timothy is pastor of a local church in this city of 400,000 population. Slavery was prevalent at this time.

2. The first letter to Timothy has two central thoughts: (1) The true function of the church. Proclamation of the truth to the world.

(2) The true function of the minister. The exposition of the truth in the church.

3. Peter is writing to encourage the Christians who are undergoing persecution during the reign of Nero.

Note: Peter did not use the word church in any of his sermons or writings. The Holy Spirit used Paul to indoctrinate the church. Peter was unstable. See Gal. 2:11-21.

1. The Church and the Slave Question. 1 Tim. 6:12.

1. The book of Philemon sets out Christianity's attitude toward the institution of slavery at that time.

2. Other scriptures which disclose Christianity's attitude toward slavery are as follows: Gal. 3:27, 28; 1 Cor. 12:13; Col. 3:11.

II. The Church and the Peril of Heresy as Taught by Pagans. 1 Tim. 6:3-8.

1. There were fanatics who dissented from the teachings of the above verses.

2. Their attitude is revealed in verse 4 a.

3. The result of their teachings is revealed in verses 4 b and 5.

4. The reason for their teaching that slavery is right was "for gain." The heresy was that money is more valuable than a human soul.

III. The Church and the Man Minded to be Rich. 1 Tim. 6:9-10.

1. Minded means the dominant desire and will.

2. The church is to teach her members the possible evils which they are subject to in being minded to be rich.

3. These evils are as follows: "Foolish and hurtful lusts" "destruction and perdition" "All kinds of evil" "Pierced with many sorrows."

3. The Bible tells us just how rich a man may be. 3 John 2. When one prospers materially and ceases to prosper spiritually, he then has enough of this world's goods.

IV. The Church is to Warn Her Members by Telling How to Avoid the Evils. 1 Tim. 6:11-16.

1. Fle the things mentioned above. This would not be cowardly but obedience to a divine mandate.

2. Follow, if we flee from evil we must follow these things: "Righteousness," "godliness," "Faith," "Love," "Patience," "Meekness."

3. Fight the good fight of faith.

V. The Church is to Glorify God when She is Persecuted by the Pagan. 1 Peter 4:12-16.

1. We are not to be surprised when trials come our way.

2. God permits persecution and trial to prove us.

3. God does not promise to bless us when we suffer for our sinfulness but when we suffer for doing right.

4. We ought to act like a Christian at all times especially when we are being tried.

SAFETY SLOGANS

A man at work is worth two in the hospital.

A thoughtless moment may cause an accident that a lifetime cannot repair.

Use more brains, have less pains.

Your body is a big part of your capital. Don't put it in the Bank of Careless Habits.

Two legs are better than a carload of crutches.

He that takes a chance is gambling with fate.

It is good to start the day safely, but better to end it the same way.

A thought for safety before is worth two behind the accident.

Weekly Sermon

By the Rev. Harold L. Lindquist, D. D., Member of Faculty, Moody Bible Institute, Chicago.

The Sin of Covetousness

It may be a surprise to many to learn that coveting—or desiring what belongs to another—is a sin. It has become one of the "respectable sins" accepted in the best circles and practiced by many church people. "Thou shalt not covet" is the tenth commandment. It covers the sin which underlies all the others against which the commandments speak.

The wardstick of success in the world is the possession of wealth—but this is not God's way. Have you become a lover of money, or do you long to have what your own? "Take heed, and beware of covetousness, for a man's life consisteth not in the abundance of the things which he possesseth,"—(Luke 12:15)

In verses 16-21 in this same chapter, our Lord tells the parable of the rich man who made elaborate plans to keep all his wealth for himself. One wonders what he had to say for himself when that very night his soul was required of him and he was called into the presence of God to give an account of his stewardship.—(v. 20).

Because covetousness destroys the best in life, and separates us from God, we should shun it like poison. This can be done if we put our trust and confidence in God. His children are to take no anxious thought for the morrow. This does not forbid proper preparation and forethought, but it does rule out fretful anxiety. If we trust the all-powerful One, what occasion is there for worry, or covetousness? Anxiety does not help anyone, anytime, anywhere. Worry never accomplished anything. So why worry? God will provide if we only trust Him.

When we get our eyes off things and on the Lord, life becomes simple, pleasant, useful, confident. Then God can truly bless us, and the blessing of God far exceeds anything the world has to offer.

THOUGHTS OF SERIOUS MOMENTS

Life consists in the alternate process of learning and unlearning, but it is often wiser to unlearn than to learn.—Bulwer-Lytton.

The rules which experience suggests are better than those which theories elaborate in their libraries.—R. S. Storr.

In all instances where our experience of the past has been extensive and uniform, our judgment as to the future amount to moral certainty.—Beattie.

INSURANCE

FIRE, TORNADO, HAIL, Etc.

Mrs. A. E. McLaughlin

Federal Land Bank Loans

Provide: Long terms—A protection in good times, or bad times.

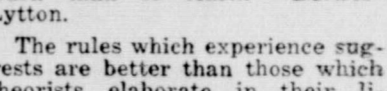

Low cost—4 per cent interest—Freedom from renewals.

Home Ownership—through small regular payments, privilege to pay earlier, future payment fund, business with home-folks.

## Mr. and Mrs. Arthur Sandlin Entertain for Service Men

Mr. and Mrs. Arthur Sandlin entertained at their home in the Vivian community Monday night in honor of their son, Sgt. Merl Sandlin, who reached home Sunday after having been liberated from a German prison camp recently, and another son, Craig, who left Tuesday for Navy service. Besides their sons, Mr. and Mrs. Sandlin also honored three other servicemen: Lt. John Bowley, Lt. Franklin Evans and Y-1-C Hughes Fish, who were home on leave.

Other out-of-community guests were Mr. and Mrs. John Allen Fish and two sons, Allen Joe and John Lee, of Dallas; Mrs. Hughes Fish and two little daughters, Elaine and Janie, of Washington, D. C.; Mrs. J. M. Denton and little daughter, Fay, Paducah; Dwaine Simpson, Paducah; Franklin Lawer, Houston; Mrs. John Bowley and little daughter, Bettie, of Houston; Kay Keller, Vernon; June Hickman, Truscott; James Marvin and Lee Allen Sosebee, Anson, Jimmie Starr, California; Mr. and Mrs. Grover Owens, Mrs. Bettie Stout and baby and Mr. and Mrs. R. J. Owens of Foard City. About 140 guests enjoyed a picnic supper.

## Miss Abston is Wed to Nick Craig in Fort Worth

Announcement has been made of the marriage of Miss Audra Abston, daughter of Mr. and Mrs. Tom Abston of Thalia, and Nick Craig, son of Mrs. Ruby Craig of Vernon, which took place in Fort Worth on June 9th. The marriage took place at the home of Mr. and Mrs. Andrew Craig in the presence of members of the immediate families. The vows were read by Oren Flatt. The bride wore an aqua dress with rose and black accessories. Her shoulder corsage was of Mystery gardenias. She is a graduate of Thalia High School and attended North Texas Teachers' College in Denton. She has been employed at Perkins-Timberlake store in Vernon recently. Mr. Craig attended Vernon High School and received his degree at Abilene Christian College. He is now sports writer for the Tyler Morning Telegraph. The couple will reside in Tyler.

## Former Resident to be Married in California

The announcement has been received of the coming marriage of Mrs. Mildred C. Cates of Covina, Calif., to Monroe W. Englett of Long Beach, Calif., by the mother of Mrs. Cates, Mrs. Agnes McLaughlin, who is leaving Thursday for Covina to visit her daughter and family. The wedding will take place in July and the couple will probably reside in Long Beach.

### VIVIAN H. D. CLUB

The Vivian Home Demonstration Club met in an all-day meeting at the home of Mrs. Egbert Fish on Thursday, June 14, with ten members and seven visitors present. Miss Olga Lawson, Red Cross Nurse, was a guest and the club voted to have a Home Nursing class, which will begin on July 9, under the supervision of Miss Larson. The class will be held at the home of Mrs. T. W. Cooper. Miss Elizabeth Elliott, Home Demonstration Agent, gave a demonstration on pattern alterations. Visitors were Mrs. R. L. Walling, Mrs. Henry Fish, Misses Olga Larson, Mildred Fish, Myrtle and Bernita Fish and Elizabeth Elliott. The next meeting will be with Mrs. Maud Rasberry on June 28.

A new law requires that parties to a cartel agreement must place on file where they may be read by interested parties the terms of the cartel agreement. A cartel agreement is one in which manufacturers control prices, share patents and agree not to sell in each other's territory. Before the war American manufacturers entered into cartel agreements with German manufacturers. Instances are cited in which American manufacturers agreed not to sell certain products in the United States leaving this field to German manufacturers. Suits are now being brought by the government to break up these practices and dissolve such agreements.

A bill has been presented to Congress to require all parties to a cartel to file such an agreement for public inspection. A cartel is an agreement between manufacturers by which each party agrees to maintain prices, share patents, and stay out of each other's territory.

World sugar stocks are at the lowest ebb in many years. As a result commercial users will receive a cut of from 20 up to 50 per cent after July. This will mean less commercial production of jellies, jams, soft drinks and pastries.

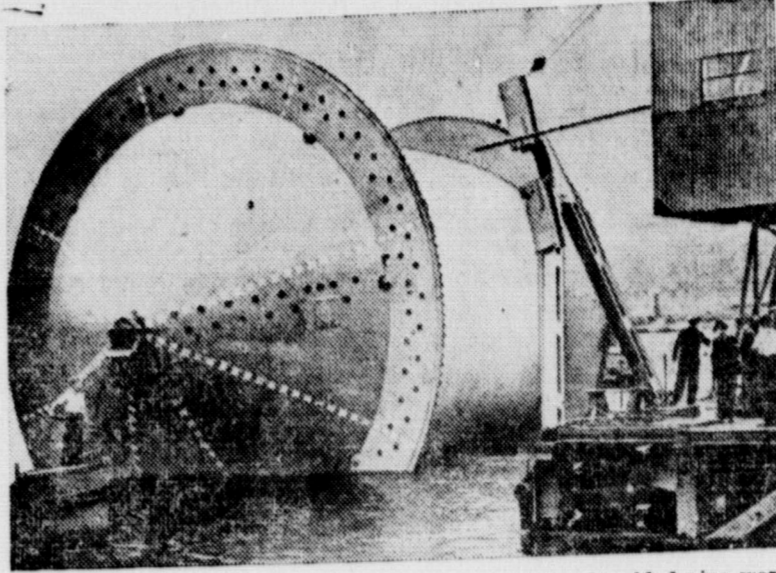

Showlow, Arizona, with a population of 500, claims the honor of being the first community to meet its Seventh War Loan quota. Townspeople bought \$15,250 worth of bonds before the drive opened or an average of \$30 for every resident of the community.

It is reported that there are still many people in this country who refuse to believe the atrocity stories now coming out of Germany—an indication that moving pictures of the murder camps should be more extensively shown in those sections of this country.

Operators of one type of black market in an effort to cover up their wrong doing are said to burn or dispose of the hides of cattle illegally slaughtered. This in addition to contributing to the meat shortage they also contribute to the leather shortage.

The average life of an automobile is seven years.

## Drum Spelt Doom for Germany

Here is one of the huge drums on which lengths of welded pipe were rolled to be laid along the bottom of the English channel to bring fuel for the tanks and planes of the Allies in the battle of Europe. The laying of the pipeline, under Germany's nose, is called one of the most remarkable engineering feats of the war—and a best-kept secret.

## Food Home Notes

(By Miss Elizabeth Elliott, County Home Demonstration Agent.)

Making Limited Sugar Supplies Fill the Food Preservation Budget Canning.

Sugar helps most canned fruit hold its shape, color and flavor. But sugar is not necessary to keep fruit from spoiling. When canning without sugar or with a small amount of sugar, use the strained juice from crushed fruit which has been heated. Process unsweetened fruit the same as sweetened.

Make sugar syrup according to availability of sugar and personal taste:

Kind of syrup—Thin—1 cup sugar, 3 cups water or juice. Makes approximately 3 1/2 cups. Medium—1 cup sugar, 2 cups water or juice. Makes approximately 2 1/2 cups. Heavy—1 cup sugar, 1 cup water or juice. Makes approximately 1 1/2 cups.

The general wartime rule is 1 pound or 2 cups of sugar to 4 quarts of fruit. One cup of syrup usually covers 1 quart of fruit when it is well packed. A thin syrup is very desirable from a nutrition standpoint.

Sugar Substitutes—Corn syrup or corn sugar may be substituted for part or all of sugar. One cup sugar and 2 cups corn syrup to 6 cups of water makes a desirable syrup. This is a thin syrup. If corn syrup is to replace all of the sugar, use 1/2 to 3/4 cup syrup and 1 cup water.

Brown sugar or syrups that have strong flavor such as sorghum are not desirable for canning. Honey may be used to replace a small part of the sugar. It affects the flavor of the fruit more than corn syrup. It is very good with fruit pickles.

Never use saccharin in canning. Heat makes it bitter. If saccharin is used, it should be added at the time you serve the fruit. Consult a doctor before using it, because too much saccharin may be harmful.

### How To Make Invert Sugar

A Florida Experiment Station scientist recommends making invert sugar to make it go farther. To do this, mix 2 cups of sugar and 1 cup water. Add 1/2 teaspoon of tartaric acid (which you can get at any drug store). Cover this sugar, water and tartaric acid mixture and simmer gently for 30 minutes. Allow it to cool. Then you have invert sugar syrup. Each cup is about 1 1/4 times as sweet as the same weight in plain syrup.

This syrup is excellent to use in canning, but it should be diluted. Use 1/4 cup invert sugar syrup to 1 cup water for a thin syrup. It is also good in sweetening fruits, cereals, ice cream and beverages.

### Freezing

The above information applies to freezing as well as to canning. Honey does not freeze as solidly and it thaws more quickly than sugar syrup or corn syrup. Therefore, it is not as satisfactory for freezing.

### Drying

Dry such fruits as peaches, apricots, apples, pears and figs. It takes less sugar when cooking dried fruits than it does for canning or freezing. Drying also gives variety. Directions for drying are given in C-170 "Drying Foods at Home."

### Preserves and Jellies

Fill your canning budget first. If you have enough sugar left, make a few preserves or jams. Jellies take more sugar and yield less food value than any other method of preserving fruit.

Honey Peach Jam—3/4 teaspoon allspice, 3 teaspoons broken stick cinnamon, 1 1/2 teaspoons whole cloves, 3 pounds peaches, 2 cups

### honey, 3 tablespoons lemon juice, 1/2 cup peach juice.

1. Put spices in cheesecloth bag.  
2. Cook all ingredients slowly until of desired consistency. Remove spices.  
3. Pour into sterilized jars and paraffin or seal.

Apple, Peach or Pear Pickles—8 lbs. firm fruit, 3 cups honey, 3 cups vinegar, 2 cups water, 2 tablespoons broken stick cinnamon, 1 teaspoon salt, 1 tablespoon whole cloves, 1 tablespoon whole allspice.

Mix liquid ingredients. Add spices which have been tied in a bag. Add salt. Bring to a boil. Add fruit and cook until tender. Let stand over night. In the morning remove spices. Drain the syrup from fruit and boil syrup rapidly until thickened. Pack fruit into clean, hot, sterile jars. Pour syrup over fruit, filling jars to top. Seal tightly with hot lids.

## Production Credit Association Buys 7th War Loan Bonds

The Memphis Production Credit Association has invested \$20,000 of its member capital and surplus in war bonds during the 7th War Loan drive, according to Ralph Howe, secretary-treasurer. "This makes a total of \$71,700 the association has invested in war bonds to date," he said.

The current \$20,000 purchase is credited on county goals in the association territory as follows: \$4,500 to the Cottle County quota, \$4,000 to Hall County, \$3,000 to Collingsworth County, \$2,500 to Morley County, \$1,500 each to the Childress and Hardeman County quotas and \$1,000 each to the Briscoe, Donley and Foard County quotas. Production credit associations in Texas are investing \$863,000 of their own funds in war bonds during the current drive. This represents practically all of the net increase in member-owned stock and earnings since the end of September, 1944.

Bob Hope, radio star comedian, recently signed a new seven year contract with Paramount picture for more than \$300,000 per year.

## Marine Corps Needs Fifty-Five Recruits

U. S. Marine Corps has authorized the enlistment of 55 additional 17 year old men during June. Recruits are enlisted in the Marine Reserves and will serve for the duration. Enlistees are sent to "Boot Camp" immediately, or called to duty within two weeks. Applicants should write U. S. Marine Corps, P. O. Bldg., Lubbock, Texas, sending their birth certificates.

## MAKE TAX DODGERS PAY

In April the San Francisco Housing Authority handed the mayor of that city checks totaling \$275,505.87 "in lieu of taxes" upon properties owned or operated by the Authority as a Federal agency. The sum equaled the full amount that would have been assessed against the properties had they been privately owned and listed on the San Francisco tax rolls. But here is the fly in the ointment: the "in lieu" payments were purely voluntary. The Chairman of the Commission said they "cannot be considered as a permanent and regular source of income to the city."

Commenting on the San Francisco situation, the Call Bulletin of San Francisco, said: "The Commission's fine gesture does nothing to remove the danger inherent in expanding Federal ownership. Certainly many wartime establishments now listed as 'temporary' will become permanent in the postwar era. And the local government will find itself more and more dependent on the whims of Federal agencies for its revenues. The need for legislation upon Federal properties remains imperative." — Industrial News Review.

## Class Day

In countless schools and colleges, class day is observed as a day of rejoicing for accomplishments, of emotional friendships are reviewed, and are regretful thoughts about the future. There are happy memories of things that have happened in student life. There is gratitude to teachers for help and instruction.

There are glimpses into the future, as the classmates forecast what the years to come shall bring to these young people. They are now closing their books and are about to start on different paths of life.

The years that are past are tinged with the haze of romance as they are viewed in retrospect. There is a sense of having completed the work of the year. So class day is a time of rejoicing and the community is glad of the happiness of the graduates.

There are about 20,000 of birds in the world, about 100 of them being in the United States.

Do you suffer from MONTHLY NERVOUS TENSENESS with its weak, tired feeling? If functional periodic disturbances shake you feel nervous, tired, irritable at such times—try this great medicine—Lydia E. Pinkham's Vegetable Compound to relieve such symptoms regularly—it helps build up nature against such distress. Also a good stomachic tonic. Follow label directions. Lydia E. Pinkham's Compound

WEST TEXAS UTILITIES COMPANY "HOW'D THE UMP GET IN THE GAME?" Illustration of a baseball game.

West Texas Utilities Company Whether it's baseball or business, Americans expect fair play all the way. In baseball, the umpire sees to it that the game is played according to the rules. But he is not a player. In business, government should be the umpire who enforces fair rules. But when government goes into business and competes with its own citizens, the American tradition of fair play is set aside. The umpire then becomes a player, and he enjoys advantages that are denied to all the other players. For example, government and municipal power-plants are not required to pay federal taxes; often get money from the U. S. Treasury at little or no interest; make up losses out of the pockets of the taxpayers. Maybe you run a store or service station or beauty shop. Would you like to have a next-door competitor who has little or no rent, or taxes, or interest to pay, and who is kept in business partly by your tax money? Fortunately for America today, over 80% of the tremendous electric power in this country is produced by tax-paying, self-supporting electric light and power companies, owned and operated by several million folks like you. These business-managed companies are a big reason why there is enough electricity to meet even the gigantic demands of war—and why, when most things cost more, electricity is still delivered at low pre-war prices. Hear NELSON EDDY in "THE ELECTRIC HOUR" with Robert Armstrong's Orchestra. Every Sunday afternoon, 3:30, CWT, CBS Network.
