### First Conference C. H. S. Game to Be Played at Holliday

The Crowell High School football team will play their first conference game of the season at Holliday tomorrow night against the Holliday Eagles. The Holliday team has a 33 to 0 victory over Henrietta, a 13 to 7 win over Jacksboro, and a loss of 19 to 0 to Newcastle, a team that defeated Olney by one touchdown. The Wildcats have won only one practice contest out of four played, but their losses were to exceptionally strong teams. However, they will be playing without J. L. Brock, star right end. Brock received a hand injury in the Seymour game. Horace Todd, left halfback, and Larry Wood, left guard, have recovered from their injuries enough to rate starting positions in the game for Crowell. Holliday lost only one game last year, and that was to the Wildcats. The Eagles have never won over the Crowell team since they started football, however, they should have their best chance in this game. The Wildcats have been looking better since O. C. Wharton returned to his blocking back position and the Crowell boys should be playing their best brand of ball in this opening conference game.

The Wildkittens, Crowell's "B" team, lost to a similar football team from Vernon here last Thursday night by a score of 13 to 0. Pete Edwards, sensational passer for Vernon, was the difference in the teams. He threw one touchdown pass and set the other touchdown up with a pass. The Crowell boys made quite a few first downs but never threatened with a score any closer than the twenty yard line. A. G. Wallace and Ray Black in the backfield and C. D. Campbell at center looked the best for Crowell. All of the boys playing for Crowell in this game are eligible next year, and this experience should help in developing a good first string next season. These two clubs will have another game in Vernon on November 8.

### J. H. Woodman Buys New Way Laundry

J. H. Woodman of Dumas bought the New Way Laundry last week from Mr. and Mrs. C. W. Collins and took over the business Monday morning. Mr. Woodman has also bought the home of Mr. and Mrs. Herman Kinchele in the west part of town where he and his wife and two children, Nelda and Don, will make their home. The children will enter the Crowell schools.

President Truman has announced that the custom established by President Roosevelt of making an appeal each year for funds to fight Infantile Paralysis will be continued with the exception that instead of holding Birthday balls, Memorial concerts will be held.

S-Sgt. Tom Beverly received his discharge from the medical department of the Army last Thursday at Fort Sam Houston and arrived in Crowell Friday to join his mother, Mrs. T. M. Beverly. Sgt. Beverly served 31 months in the South Pacific and most of that time was spent on the New Hebrides Islands. For the past five months he had been in the Philippines and left Manila Sept. 19, arriving in the States Oct. 3.

Nelson Oliphant, who served in the European theater of war for 19 months, has received a discharge and is here now with his family. His wife, formerly Miss Marjorie Spencer, and their little daughter, have been with her parents, Mr. and Mrs. Leo Spencer, while he has been gone.

Ray Burrow, S-1-C, who is located somewhere in China, has written his grandfather, C. Thompson, that he had received a copy of The Foard County News, dated in June, but it was new to him and he had enjoyed it a lot.

S-Sgt. Glendon Hays of Lubbock spent the week-end visiting in the home of his mother, Mrs. Henrietta Hays, and family. He is stationed at Lubbock Army Air Field.

Cpl. Vance Swaim received his discharge from the Army in North Carolina last week and is here visiting in the home of his parents, Mr. and Mrs. E. Swaim.

Sgt. Harold Canup and his wife are here, having come on account of the serious illness of Sgt. Canup's father, G. M. Canup.

T-Sgt. Elmer Gidney of Camp Schaffee, Ark., is here on a 30-day furlough visiting his mother, Mrs. B. F. Brewer, and family.

Sgt. Wm. T. Gafford was discharged from the Army Sunday afternoon at Fort Sam Houston and returned home immediately.

### Sgt. James Williams Awarded Bronze Star Medal in China

According to a release from the Headquarters of the Tenth Air Force Public Relations Office, Master Sergeant James H. Williams has been awarded the Bronze Star Medal for meritorious service in connection with military operations against the enemy. The award was announced by Brig. Gen. Albert F. Hegener, Commanding General of the Tenth Air Force.

A member of the Twelfth Air Service Group, now assigned to the Tenth Air Force to assist in the redeployment of Chinese troops since the Japanese surrender, Sgt. Williams was awarded the medal by the 14th Air Force for service between May and September, 1944. The 12th Group, known throughout China as the "Service Commandos" served units of the 14th for nearly two years, operating advanced air bases and providing supply and maintenance for combat organization. It was the first complete air service group to enter the China theater.

During the period of the award, the 12th was stationed at various bases in east China which had to be evacuated and destroyed during the Jap drive to split China and establish lines of communication to Indo-China and Burma. American bases were heavily bombed at this time.

Sgt. Williams is the grandson of Mrs. J. S. Long and Mrs. B. F. Ringgold of Crowell. He is a graduate of Crowell High School. He entered the Army in June, 1941, at Dallas. He received his basic training at Kelly Field, San Antonio, and served at various stations throughout the southwest before sailing for overseas duty in Nov., 1943.

### Christmas Gifts for Men on High Seas to Be Made Ready Soon

The time has again come for the sending of Christmas packages to the men who will be on the high seas at Christmas time. This was done last year and many assurances of their arrival and pleasure with which they were received, have been evidenced. The project is under the direction of the Sheppard Field Camp and Hospital Council and the Foard County committee has taken its share of the responsibility. The time for preparing the packages is from Oct. 18 to Oct. 27.

Last year, the quota for the Sheppard Field district, which includes 9 nearby counties to Wichita County, was 1,172 packages. Of that number, Foard County filled 125 packages. The quota for the district this year is reduced, and is 880 packages and Foard County has been asked to furnish 100 of that number.

Mrs. L. A. Andrews, Foard County chairman, states that the regulations and directions for the packages are much the same as last year. They are repeated here. The gifts should be uniform and of about the same intrinsic value. The following things have been approved and any six of the number may be included in the package, not including the greeting card; Greeting card, writing portfolio, pencils with clip, gum or life-savers or hard candy in airtight cellophane bags, photo holder, crossword puzzle books, joke or cartoon books, small flat clothes brush, wallet, toothbrush, razor blades, pipe and pipe tobacco, stationery, cigarettes, soap, decks of cards, pocket-size books, small games, as dominos, miniature chess or checkers, oilskin pouch, handkerchiefs, washcloths, nail file, camphor ice, and manicure scissors, comb.

Each gift package should be attractively wrapped and they may be left at either drug store, Archer's Variety Store or Beverly Hardware and Furniture Store.

### HOSPITAL NOTES

#### Foard County Hospital

Patients In:

Mrs. Eva Ashford - G. M. Canup

Patients Dismissed:

Mrs. C. C. Hinkle - Patsy Fox - Mrs. David Eaton - and baby son - Mrs. Jose Brown

Visiting Hours: 10:00 to 11:30 a. m.; 2 to 4 p. m.; 7 to 9 p. m.

### ROTARY CLUB

Roland Leath of Little Rock, Ark., song leader for the revival at the First Baptist Church, entertained the Rotary Club Wednesday at noon at the DeLuxe Cafe. Mr. Leath rendered several piano numbers and one vocal solo. T. B. Klepper was program chairman.

Visitors at this meeting were Rev. Otis Strickland, J. M. Denton and John Rasor of Vernon.

The word kerosene comes from the Greek word, Keros, meaning wax.

### Millionth G.I. Home From Europe

Corp. Almon N. Conger, medic of Tacoma, Wash., left, the millionth G.I. to be redeployed from the European theater of operations since V-E Day, is greeted by commander of the 35th Infantry Division, Maj. Gen. Paul W. Baade, on the arrival of the Queen Mary at New York. Conger wears the distinguished service cross along with his service bars.

### Cone Green's Brother Reported Missing in Pacific Storm

Billy Green, motor mechanic's mate, second class, 22, son of Mr. and Mrs. W. A. Green, and brother of Cone Green of Levelland, Texas, has been reported missing since Sept. 16, when a typhoon struck the minesweeper to which he was attached near Okinawa. Mr. and Mrs. Green received the information from the U. S. Navy at 8 o'clock p. m., Oct. 4. Green was one of the 32-man crew on the minesweeper, however, all of the crew are not missing, according to the Navy.

The ship was first damaged when an ammunition ship was blown up near by. It was docked later at the Admiralty Islands. After V-J day on Guam, the ship was ordered back to Okinawa and was near that island when the storm struck.

M. J. Green enlisted in the Navy on February 10, 1943, and was in the Leyte, Palou and Okinawa engagements. He worked for six months in the Richmond, Calif. shipyards, prior to his enlistment. His last leave was spent in Levelland in April, 1944.

### The Texas Company Makes Statement Regarding Strikers

When asked to express The Company's attitude toward the government taking over its plants, Colonel Harry T. Klein, president of the Texas Company, said:

"The Texas Company is, of course, deeply disappointed that the unions' action in striking in violation of its contracts and in violation of the War Labor Disputes Act and in the face of the Company's complete willingness to continue bargaining under the established procedure in the Company's contracts with the union, has in the opinion of the United States Government necessitated this unfortunate and drastic step.

"It represents in our opinion a definite setback in our efforts to develop and maintain harmonious relationships with our employees.

"This industry and the Company have been in the fore front in America in the maintenance of high wages, liberal employee benefits, short working week, and all the things that make for healthful and satisfactory remunerative employment.

"We shall, of course, co-operate with the Government. We recognize, as does the Government, the critical situation in which these unlawful strikes have placed the American people and the Armed Forces of the United States.

"Despite these distressing circumstances, we shall continue in the future as has been our practice in the past, to do the things which will build to the extent of our ability and in spite of obstructionist tactics, the best possible relationship with the great mass of our loyal and deserving employees."

### Practices For Conserving Protein Feed For Poultry

More grain and less protein for turkeys, broilers and late hatched chicks, and culling of old hens and slowly maturing birds, are measures recommended by S. A. Moore for stretching the present limited amount of protein feed. He is the poultry husbandman for the A. & M. College Extension Service.

Moore believes that if these recommendations are adopted generally, Texas poultrymen should feel no alarm about the supply of protein feeds after the new crop of vegetable proteins is on the market. This program will be especially helpful in the weeks immediately ahead, he says.

Turkey raisers can stretch their protein mash or pellets by feeding two to three times as much grain, such as barley, oats, sorghum grains, wheat or corn, as customary, in proportion to the amount of protein feed. This method will take a little longer to put on the same weight, but it will finish out your birds and enable you to hold and market them at the regular time.

The same method may be used for broilers, but be sure to have your feed supplies lined up before starting more chicks. Moore says that well-matured pullets hatched before June are the birds for which growing and laying mash should be saved. These are the fall and winter layers.

Year-old and older hens should be kept for breeding purposes only. But Moore says these should be culled closely and the culled marketed as soon as possible. If they cannot be marketed quickly, place them in a separate building or on a separate range and feed barley, oats, sorghum grains, wheat or corn freely. The laying mash, Moore emphasizes, should be saved for the early pullets which should begin to lay this fall, and for breeding hens.

### Camp and Hospital Committee Makes Report of Council

Mrs. L. A. Andrews and Mrs. N. J. Roberts, co-chairmen of the Foard County committee of the Sheppard Field Camp and Hospital Council, met with the Council in Wichita Falls on Thursday, Oct. 11.

The following report was made for Foard County for the summer months during which time there were no Council meetings. A cash donation of \$50.00 was made toward the cost of the summer work. \$25.00 of this amount goes into a general fund and \$10.00 goes for the purchase of birthday gifts and prizes for disabled men. Donations toward the \$50.00 were made by Mrs. I. M. Cates, Mrs. C. R. Womack, Karl ten Brink, H. E. Ferguson, Mrs. Otis Gafford, Mrs. Leslie McAdams and Mrs. Hartley Easley.

### Committees and Quotas for Each Community in Victory Loan Drive Announced by County Chairman

The Victory War Loan drive starts on October 29th and closes on December 8th. The quota for Foard County as announced last week is \$95,000.00. Of that amount, Series "E" quota is \$65,000.00. The County War Finance committee chairman, Geo. D. Self, announces the community chairmen and the community quotas. They are as follows:

Crowell, \$45,000.00 — H. E. Ferguson, chairman, Merl Kincaid, J. C. Thompson, Deulah Bowley, Dr. R. L. Kincaid, T. P. Reeder, Mrs. W. B. Johnson, Clyde E. Graham, H. K. Edwards, M. S.

### B. & P. W. Clubs to Hold Annual Meeting at Graham Nov. 10-11

"We Re-dedicate" will be the theme for the annual conference of District No. 10 of the Business and Professional Women's Clubs, which will be held at Graham Nov. 10-11. Plans for the meeting were formulated at the Kemp Hotel in Wichita Falls Sunday with Miss Vera Fogz of Graham, district director, in charge. Clubs in this area were formerly in District One. The entire state has been re-districted and two districts have been arranged from the former group.

Registration will open at 3 p. m. on Nov. 10 at the Women's Forum in Graham and will close at 6:30. Throughout the afternoon, a tea will be held for the visiting delegates. At 7:30 an informal banquet will be held in the high school cafeteria. Miss Myrtle L. Tanner of Austin, state president, will be the featured speaker. Following the banquet, the Wichita Falls club, under the direction of Mrs. Dorothy Ellis Barr, will present the fun frolic. Breakfast will be held Sunday morning at 8:30 at the forum and will be followed by a business session at 9:30. While delegates recess at 10:50 to attend church services, the club presidents will meet with the director for the annual executive session and will select a new director. The luncheon at 12:30 will be in the school cafeteria.

Hospitality books will be \$5.50 and will include the three meals, hotel bill and registration fee. Reservations will close on Nov. 3, it was announced. Wellington, Childress, Quanah, Vernon, Electra, Wichita Falls, Crowell and Graham comprise the clubs in District No. 10.

### ROPING CLUB TO MEET

All members of the Roping Club are asked to meet at Self Motor on Monday night at 7 o'clock for the transaction of business.

Eric A. Johnston the 48-year-old president of the U. S. Chamber of Commerce will replace 65-year-old Will Hays as boss of the movies. Johnston will receive a salary of \$150,000 a year plus \$50,000 a year for expenses. Hays will remain for 5 years as consultant at a salary reported to be \$100,000 a year. Hays desires to return to his law practice in Sullivan, Indiana.

### Only Lady Exerciser

Marie Batzer, the only feminine exercise rider at Hollywood Park track, is shown with Wing and Wing before one of her regular morning workouts.

# GOOD? IT OUGHT TO BE GOOD!

Sure, the New Phillips 66 is a swen gasoline

## Why Not?

We'd be ashamed of ourselves if it *wasn't*! Since Pearl Harbor we've put every ounce of sweat and energy we possessed into perfecting the finest combat fuels the world has ever seen.

Millions of dollars worth of new equipment

...hundreds of thousands of man-hours and brain-hours . . . *were'n't* spent in vain!

Good gasoline? Man, it *ought* to be good!

And if you're one of those who aren't surprised that Phillips research and Phillips know-how have produced a world-beater of a gasoline, here's a little thought you can tuck in your hatband:

*The most important thing about a Phillips 66 Service Station is still the man who runs it. Yes, he can give you fine gasoline. But he'll also give the consistently high standard of thoughtful, courteous service that has always characterized the sign of 66.*

We didn't forget how to deliver *that* during the war, either!

### THE MESSY CAMPUS

Skunkily carelessly threw a candy wrapper and a coke can. "Say, bud, your manners showing?"  
 "Say, they are, huh? What do you mean by that?"  
 "I mean you just threw your wrapper down, and that you're forgetting about the points in the Honor System for school!"  
 "Yeah? What are they?"  
 "Well, I'll tell you. The four points in our school are loyalty, school courtesy, co-operation, and scholarship."

"I'll bet you have never seen so much loyalty exhibited in one school as there is in Crowell. That means not only yelling at football games, but also loyalty to each other and the faculty."  
 "There is our school courtesy. The Crowell boys and girls can tell you that it really pays to be courteous. We have all learned to smile and get very good results every day trying to smile a little more."  
 "Look, Joe, were you co-operating with the school when you threw down that candy wrapper

and coke bottle? We get things done in Crowell by co-operation that could never be done any other way."  
 "We let people know we are proud of our school. We are loyal, courteous and we co-operate. Also Crowell has a very enviable record in scholastics. Scholastics suggest 'smart' individuals, and 'smarter' individuals look even rounder."  
 Joe picked up the wrapper. "I never thought of it that way," he said. "But I am all for it. It's swell."

### RECEIVE AWARDS

Sharon Haney, Joann Meagon and Irene Pechacek, in recognition of their outstanding selling ability have received "Certificates of Achievement" from the Curtis Publishing Company. This award was offered to those who sold as much as \$30.00 worth of magazines in the recent sale sponsored by the Junior class.  
 Sharon sold \$63.50, Joann \$46.00, and Irene \$31.50.

### INQUIRING REPORTER

The Vernon versus Breckenridge game last Friday night attracted a lot of the Wildcat crowd, as the Wildcat A and B team, including Mr. Purvis and Mr. Graves. Also seen at the

game were Betty, Shaney, Jenny, Kathy, Janet and Booty. Popular tunes of the week are the following:  
 "If I Love You."  
 "Till the End of Time."  
 "It's Only a Paper Moon."  
 "That's for Me."  
 "Navajo Trail."  
 "I'll Buy That Dream."  
 The couple of the week is Larry Wood and Bobby Lee McDaniel.

Welcome visitors last week were Booty Bird, who just returned from Germany and Gordon Erwin, who is home on leave from the Pacific.  
 Henry Black, former teacher of CHS, was seen on the streets this week. Welcome home, Henry.

### WILDKITTENS DEFEATED BY VERNON "B" TEAM

The Crowell Wildkittens were defeated by the Vernon "B" team Thursday night in a fast game played on the Wildcat Field.  
 The Wildkittens team was second string Wildcats players, and the Vernon team was composed of boys in Junior High School and Freshmen and Sophomores in High School.  
 Vernon scored in the last few minutes of the first half on a pass which netted about thirty yards. Vernon's last score made early in the fourth quarter on a run around right end which totaled about twenty-five yards.  
 The Wildkittens' line plays worked good for a while but could never get to functioning properly.  
 Outstanding for the Wildkittens in this game were Ballard, Wallace, C. Campbell and Don Wilkins.

### EVELYN SAYS CHS IS SUPER

The senior personality of the week is Evelyn Barker, who has attended CHS for four years. During this time she has held the offices of secretary of Freshman class and president of Sophomore class. Not only has she been a reporter for Press Club all four years, song leader for FHT Club two years, and cheer leader this year, but also has an excellent scholastic record. She is all for CHS and says it is "super-duper." Her nickname, "Evie," was given to her in grammar school by all of her chums. Her favorite sport is volleyball. She was on the volleyball team last year and will make it this year, too! She is a favorite with all the students. Her main interest is centered around a blonde boy, whom she yells her lungs out for at football games. Just ask anyone and they will tell you that Evie's O. K. and not bad on the eyes either.

### CAGE SEASON TO START SOON

The Wildcat Basketball team for 1945 should be as good or better than ever. The Wildcats lost only one man off of the starting five and has some very favorable subs returning this year.

The starters from last year's team who are returning this year are: Carlos McBeath, J. L. Brock, O. C. Wharton and Joe Mason. Kendrick Joy was a starter part of the time. Mason may not be able to play due to a recent illness.

Other squadmen returning are Bobby Cooper, Larry Wood, R. L. Ballard, A. G. Wallace, Ed Thomas and Presley Thomson.  
 There will be several new prospects out for the team this year that might replace some of these experienced boys.

Basketball practice will start immediately after the football season.

### JOKES

Remember well, and bear in mind A real joke is hard to find. And when we find one that is new Please don't mind if the joke's on you.  
 Coach: "The next assignment will be pages 2, 5, 7, 9, 11."  
 Horace: (Just waking up.): "Block that point."  
 Mr. Bond: "Son, who is this wild young lady, I hear you've been running around with."  
 V.: "Aw, dad, she ain't wild; any one can pet her."  
 Mrs. Davis: (in the shoe store): "Of course, I want them comfortable, but at the same time good looking and attractive."  
 Clerk: "Yes, madam, I understand—large inside and small outside."  
 First Gossip: Why did they separate?  
 Second Gossip: Nobody knows.  
 First Gossip: Oh, how terrible!

### THE CAT'S WHISKERS

My, My. Why is everyone looking so bright this fine morning? (Big joke!) I guess everyone knows this is report card day. Maybe that's the reason so many suicides have been reported.  
 BEAT HOLLIDAY  
 Nearly everyone was seen at some time or the other Friday night. Good game, good carnival, well, the game was good anyway. Incidentally Mr. Graves' brother is Superintendent of Breckenridge, which beat Vernon 19-13. Yes, Buckaroo!  
 Many of CHS's happy-go-lucky people were seen in Vernon Friday night. Some of the gals included were Betty, Jenny, Janet, Kathleen and Shaney. More fun! Evelyn and Johnny aren't doing so bad either.

### BEAT HOLLIDAY

Floyd Oliver and Mary Jones were doing O K Saturday night. We wonder why Rebecca Ross and Mary Sparks are always talking about California?  
 Anna Laura Payne and Jerry Davis were hitting it off "swell" with the Navy, Sunday afternoon.  
 Listen—All you can hear is O-o-l. Isn't that right, V.? Dalton Biggerstaff is still

"toting the torch" for Betty Brock.  
 This is quite a foursome: Kathleen and Danny and Jo Ann and C. D.

### BEAT HOLLIDAY

Bobby McDaniel, Larry Wood, Janet Roark, Miles Neill were seen Saturday night. Who is it now, Bobbie? Ray, George or Larry?  
 How that Cooper boy gets around! First it was Peggy. Then it was Maggie Faye. Make up your mind.

### BEAT HOLLIDAY

Mary Payne and Bob Edwards were double dating Saturday night with Bobby Brock and J. C. Austry.  
 Carlos McBeath and Doris Denton are "on the beam."  
 This is a special for Jo Ann Meason: M. W. thinks you are strictly "out of this world." (Way Out).  
 This isn't exactly scandal, but it gives you an idea of what the CHS students like.

### Boys:

Porch lights that don't burn.  
 Cars that run out of gas. (In the right places).  
 Girl cousins.  
 Kiss-proof lipstick.  
 Girls:  
 The Navy, the Army.  
 Telephone calls (mainly from boys).  
 Levis and plaid shirts.  
 Dates (and I don't mean the kind you eat!)  
 So long, everybody till next week.  
 "Scratching off for now."  
 "The Cat's Tail."  
 P. S.—I forgot to mention it, but BEAT HOLLIDAY.

### ANSWERS

(Questions on page 2).  
 1. In a desert in New Mexico.  
 2. As the husband of Shirley Temple.  
 3. Florida.  
 4. San Francisco harbor.  
 5. Secretary of Labor.  
 6. Robert P. Patterson.  
 7. Emily Post says that it is never correct.  
 8. He predicted the end of the world on Friday, Sept. 21.  
 9. James Hilton.  
 10. His grandson, Henry Ford II.

### SAFETY SLOGANS

Every accident is a notice that something is wrong with men, methods, or material.  
 The most valuable man is the careful man.  
 A minute for safety beats a month for repairs.  
 More men are killed by accident than by war.

## Lightning Strike Thrice ?

YES  NO

Even if it scores a knockout first crack, lightning can still jolt the same spot some more! It often does. Another accurate weather fact is that you'll step up your aging car's chances this Winter by OIL-PLATING the engine's insides. You want Conoco N<sup>th</sup> motor oil for this protective OIL-PLATING.

Conoco N<sup>th</sup> oil's great wear-fighting method is this: it employs the magnet-like action of its added ingredient to make metal and lubricant join up! This creates OIL-PLATED surfaces—no longer all bare to frictional wear and corrosion. Hence there's less cause for carbon—sludge—breakdown. And surfaces kept OIL-PLATED even at a standstill are ready for quick safe Winter starts. Your engine and battery both say, "Conoco N<sup>th</sup> for Winter—today!"

**For Station Identification!**  
 The big red Conoco triangle identifies Your Mileage Merchant's Conoco station. Get good gasoline there today. And look for new hushed power—new high-octane—in his NEW-DAY GASOLINE! It's coming quick!—WHERE YOU SEE THAT CONOCO TRIANGLE! Continental Oil Company

ideas and systems of government. If we assume that Columbus is conscious in a future life of the events that have been going on in the world since he passed on, he will have been most tremendously amazed at what has happened as the result of his discovery.

He will have been astonished at the marvelous mechanical, technical, and scientific development that has followed his discovery. Railroad trains tearing across the country at fast speed, throngs of automobiles crowding the streets, airplanes shuttling across the land at tremendous speed, telephones and telegraphs, radios that bring us voices from all over the world, are a few of the wonderful marvels that time has brought.

City schools in Fort Worth, Texas, have arranged for classes in brick laying and plastering. Skilled mechanics act as instructors. Two years will be required to complete the school course.

The New Ford

For months hundreds of people have been asking us just when the New FORD will be here. Ford Motor Co. was prepared to build them in mass production when labor troubles arose from a supplier.

We hope to announce next week the exact date of our showing. Deliveries will begin immediately after the showing. They will come slow at first, but as time marches on, they will come in ever increasing numbers.

The price has not been announced by Ford Motor Co. and your guess is as good as ours as to the price. At this date new 1946 Ford Cars are rationed. However, the OPA has not announced the procedure or issued any form for application.

You can now place your order with us for a New Ford car, truck or commercial car. We are taking \$50.00 deposit, with the order with no provision made for the used car.

We have seen and driven the New 1946 FORD and we know you will be agreeably surprised at the splendid appearance and wonderful performance, with that new 100 H. P. Motor and that great new ride, with those improved new self-centering brakes.

Watch the News for next week's announcement.

POSSUM FLATS . . . SATURDAY SHOPPING

"It is true that tuberculosis no longer is first on the list of killing diseases, as it was formerly," Dr. Cox said, "but despite having been reduced to fifth place in Texas, it still is responsible for more deaths between the ages of fifteen and forty-five than any other disease.

"When a diagnosis of active tuberculosis has been made, an examination of all of the other members of the immediate family should follow as a matter of course. Tuberculosis runs in families, not because of any special susceptibility to the disease, but because it is communicable, being usually transmitted through close and prolonged contact with the active case.

To reduce the number of deaths caused by tuberculosis, Dr. Cox suggests periodic examination of all adults, a check up by physicians of the known active cases and contacts, regular examinations of high school children, isolation or hospitalization of the active tuberculosis case, and a more intelligent application of hygienic living principles.

Home Town Thoughts

If you meet one of your home town people in some distant city, you greet him with enthusiasm. That is an indication of a wholesome belief that the home town folks are the best on earth.

If a town is making steady or rapid progress, and useful improvements are being made there, it is an indication that it possesses plenty of energetic people who are active in pushing through these gains.

It is a sign of ambition when people are studying and thinking as to how they can make their services more valuable, and usually they realize these efforts are expectations.

Don't let go now —when the battle against rising prices is almost won. Now is the time to hang on to your War Bonds, to keep buying new Bonds, to plan your spending and plan your saving.

Here is why. Prices are high today. Goods are scarce. Competitive buying of scarce commodities bids prices up, makes our dollars buy less.

So, plan your savings now—buy Victory Bonds, add to your bank account regularly—for that big purchase you will want to make in the future, a home of your own, perhaps. Later, in a more abundant time, this institution can supply you with the credit needed to buy what you most want—if you save the down-payment now.

October 21 Has Been Designated by Navy League Navy Sunday

New Orleans, La.—October 21, which has been designated as Navy Sunday, will be a special day of tribute to the men in all the services who lost their lives at sea in the defense of the United States.

The Navy League is asking the American people everywhere to send one flower to one of the designated ports nearest their own community in time to arrive before midnight on October 20.

In the Eighth Naval District, comprising seven southern states and the northwest portion of Florida, the ports named are Pensacola, Florida; Mobile, Alabama; and Corpus Christi, Texas.

In mailing not more than one flower to any one of these three ports they should be addressed care of the following:

Senior Chaplain, Naval Air Station, Pensacola, Florida.

Senior Chaplain, Naval Air Training Center, Corpus Christi, Texas.

Senior Chaplain, U. S. Navy, Port Director, Mobile, Alabama.

All flowers received by these chaplains will be placed on Naval vessels, and following appropriate all-faith ceremonies at the respective docksides, a ship will proceed to set from each port and when the vessel reaches a point beyond the sight of land the flowers will be scattered on the waters.

Prevalent in Winter Than in Summer

Austin.—Contrary to popular belief, rabies is more prevalent in winter than in the so-called "dog-days" of summer.

In a statement released this week by Dr. Geo. W. Cox, State Health Officer, it was disclosed that in the mid-winter month of February last year the State Laboratory examined 312 animal brains for the presence of rabies.

Over thirty-seven per cent of which tested positive, whereas in August only 155 brains were examined, thirty per cent of which were positive.

"If all stray dogs were destroyed, and all pets vaccinated for rabies, it would go far toward stamping out this justly feared fatal disease," Dr. Cox said.

The doctor stressed that dogs suspected of having rabies should not be killed immediately, but should instead be confined ten days for observation to see if the disease develops.

If a dog sickens and dies during the observation period, the head should be packed in ice and sent to the State Health Department for examination. Freezing the brain, or killing the dog prematurely, or in such a manner as to injure the brain may make correct laboratory findings uncertain, if not impossible.

Dr. Cox declared that after a dog is confined ten days and then killed, there is still ample time for a victim of his bite to be treated for rabies prevention, but he cautioned that if the disease is found to be present in the dog, the victim should then begin treatment without further delay.

Indianapolis, Indiana, appropriates \$40,000 a year for community centers and parks for young people. The council sought to eliminate the item from the budget for 1946 but a committee representing the 10,000 young people of the community called on the council and asked that the item be put back in the budget.

Started as a recreational project the teen-age organization now tackles civic problems which concern young people.

Wichita County Fair Opened Monday, Oct. 15 at Iowa Park

The Executive Committee of the Wichita County Fair met Monday night, October 1, to make a final check with the various department heads and to put the finishing touches to plans for the big opening of the Wichita County "Victory" Fair Monday, October 15.

Honorable Beauford Jester, member of Texas Railroad Commission, will give the key-note address for the opening ceremony at the Fair grounds in Iowa Park Monday evening, October 15, at 7:30 p. m. Mr. Jester is a veteran of World War 1 and in his capacity as former chairman of the Texas Railroad Commission during the most critical period of World War 2, he was in a position to make a direct contribution to the war effort.

Civil Service Helps to Employ Physically Handicapped Persons

In connection with "National Employ the Physically Handicapped Week," October 7-13, 1945, as proclaimed by the President, the Tenth U. S. Civil Service Region (comprising the States of Texas, Louisiana and Mississippi) announced that 3,232 placements of physically handicapped persons were made in the Tenth Region during the period October 1, 1942, to July 1, 1945.

570 of this number being handicapped veterans. During the month of July, 1945, 104 physically handicapped veterans were placed in Federal positions in the Tenth Region.

The Tenth Region further announced that more than 10,000 physically impaired veterans had been placed in Federal field establishments throughout the United States since July 1, 1945.

The Civil Service Commission has, for the past three years, been engaged in a positive program designed to bring about the maximum use of persons with physical handicaps.

Advertising Makes Progress

People who have been reading newspapers for many years will recall how in the early years of this century, the newspapers began to expand quite generously. They put in many new features and covered the world and life more effectively.

This expansion was made possible mostly by the great increase in advertising which occurred during those years. Business concerns and companies got the idea that by advertising more generously, they could sell many more goods.

Their notices spread out and the newspapers had to give more space to these ads. The new advertising increased greatly the demand for goods. It made people want the new things, and they studied how they could earn more money so as to be able to buy these things. Thus advertising had a big share in promoting the development of the country.

Washington News

By Congressman Ed Gossett, 13 District of Texas.

Washington, D. C., October 18.—The Navy yesterday staged its biggest parade in air show in honor of Admiral Chester W. Nimitz.

It was exclusively a Navy show. The long parade was made up entirely of midshipmen from the Academy, marines, coast guardsmen, and other navy personnel.

One was reminded, too, that if all the losses sustained by our Navy throughout the history of this country were added together, and if all the damage inflicted by our seas in that time were added together, the losses and the damage inflicted in all our history would be only a fractional part of that which occurred during this war.

On "Nimitz Day" the President gave our highest decoration, the Congressional Medal of Honor, to 14 Marine and Navy heroes. Included in the list was Sergeant W. B. Harrell of Mercedes, Texas.

The House this week passed the Reorganization Bill of 1945. This bill authorizes and directs the President to reorganize and reduce the number of bureaus and agencies in the executive branch of the government.

In 1900 the federal government employed over 250,000 persons and annually spent less than one billion dollars. In 1922 these figures had grown to approximately 515,000 employees and expenditures of almost four billion dollars.

I helped write this bill in committee, and made two speeches on the House floor in support of it.

On the subject of transportation, it might be noted we have in this country 54,000 villages and towns that have all modern conveniences, but are not served by railroads.

Congress this week completed action on a bill authorizing the immediate start on our highway program. Under the federal aid highway act the federal government will contribute 500 million dollars annually during a period of three years for state highway construction.

Health News From Dr. Geo. W. Cox

Austin.—"Carelessness and ignorance represent two of the most powerful factors in spreading communicable diseases from man to man. No more emphatic example of this fact exists than the continued ravages of tuberculosis.

"It is true that tuberculosis no longer is first on the list of killing diseases, as it was formerly," Dr. Cox said, "but despite having been reduced to fifth place in Texas, it still is responsible for more deaths between the ages of fifteen and forty-five than any other disease.

"When a diagnosis of active tuberculosis has been made, an examination of all of the other members of the immediate family should follow as a matter of course. Tuberculosis runs in families, not because of any special susceptibility to the disease, but because it is communicable, being usually transmitted through close and prolonged contact with the active case."

To reduce the number of deaths caused by tuberculosis, Dr. Cox suggests periodic examination of all adults, a check up by physicians of the known active cases and contacts, regular examinations of high school children, isolation or hospitalization of the active tuberculosis case, and a more intelligent application of hygienic living principles.

Home Town Thoughts

If you meet one of your home town people in some distant city, you greet him with enthusiasm. That is an indication of a wholesome belief that the home town folks are the best on earth.

If a town is making steady or rapid progress, and useful improvements are being made there, it is an indication that it possesses plenty of energetic people who are active in pushing through these gains.

It is a sign of ambition when people are studying and thinking as to how they can make their services more valuable, and realize these efforts are expectations.

HANG ON!

Don't let go now—when the battle against rising prices is almost won. Now is the time to hang on to your War Bonds, to keep buying new Bonds, to plan your spending and plan your saving.

Here is why. Prices are high today. Goods are scarce. Competitive buying of scarce commodities bids prices up, makes our dollars buy less.

So, plan your savings now—buy Victory Bonds, add to your bank account regularly—for that big purchase you will want to make in the future, a home of your own, perhaps. Later, in a more abundant time, this institution can supply you with the credit needed to buy what you most want—if you save the down-payment now.

The New Ford

For months hundreds of people have been asking us just when the New FORD will be here. Ford Motor Co. was prepared to build them in mass production when labor troubles arose from a supplier.

We hope to announce next week the exact date of our showing. Deliveries will begin immediately after the showing. They will come slow at first, but as time marches on, they will come in ever increasing numbers.

The price has not been announced by Ford Motor Co. and your guess is as good as ours as to the price. At this date new 1946 Ford Cars are rationed. However, the OPA has not announced the procedure or issued any form for application.

You can now place your order with us for a New Ford car, truck or commercial car. We are taking \$50.00 deposit, with the order with no provision made for the used car.

We have seen and driven the New 1946 FORD and we know you will be agreeably surprised at the splendid appearance and wonderful performance, with that new 100 H. P. Motor and that great new ride, with those improved new self-centering brakes.

Watch the News for next week's announcement.

**LOCALS**

Special for Saturday—Oil cloth and good elastic.—Ben Franklin Store. 15-1tc

Mrs. R. L. Taylor left Wednesday morning for McKinney to visit her mother, Mrs. J. F. McLain.

Mrs. G. W. Mills of Amarillo is visiting in the home of her daughter, Mrs. R. R. Lanier, and family this week.

Mr. and Mrs. W. S. J. Russell and Miss Lottie Russell and Miss Thelma White spent the weekend in the home of Mr. and Mrs. Cone Green in Levelland.

Mr. and Mrs. Grady Magee have returned from Wichita Falls where Mrs. Magee went for medical treatment.

Mrs. Milton Hunter who underwent an operation in a Vernon hospital is reported to be making satisfactory recovery.

Mrs. Wayland Griffith returned Sunday from Shreveport, La., where she visited for two weeks with Mrs. Elsie Elliott.

Just Received—Men's 10c handkerchiefs; stamped art goods and transfer patterns.—Ben Franklin Store. 15-1tc

A. H. Culbertson of Fort Worth transacted business in Crowell this week.

Bill Swan, Faye and Juanita Johnson spent the weekend visiting Sybil Gobin and Sidney Swan in Pampa where the two young ladies are employed.

Mr. and Mrs. J. D. Carroll and two children moved to Abilene Tuesday to make their home. Mr. Carroll, who had already bought a home there, will be employed in the repair department of the Western Chevrolet Co.

**October 21 Has Been Designated by Navy League Navy Sunday**

New Orleans, La.—October 21, which has been designated as Navy Sunday, will be a special day of tribute to the men in all the services who lost their lives at sea in the defense of the United States.

The Navy League is asking the American people everywhere to send one flower to one of the designated ports nearest their own community in time to arrive before midnight on October 20. The League suggests that wherever possible the flower sent be either home grown or wild, and in no case should the expenditure exceed a modest sum.

In the Eighth Naval District, comprising seven southern states and the northwest portion of Florida, the ports named are Pensacola, Florida; Mobile, Alabama; and Corpus Christi, Texas. In mailing not more than one flower to any one of these three ports they should be addressed care of the following:

Senior Chaplain, Naval Air Station, Pensacola, Florida.  
Senior Chaplain, Naval Air Training Center, Corpus Christi, Texas.  
Senior Chaplain, U. S. Navy, Port Director, Mobile, Alabama.

All flowers received by these chaplains will be placed on Naval vessels, and following appropriate all-faith ceremonies at the respective docksides, a ship will proceed to set from each port and when the vessel reaches a point beyond the sight of land the flowers will be scattered on the waters.

**Wichita County Fair Opened Monday, Oct. 15 at Iowa Park**

The Executive Committee of the Wichita County Fair met Monday night, October 15, to make a final check with the various department heads and to put the finishing touches to plans for the big opening of the Wichita County "Victory" Fair Monday, October 15.

Honorable Beauford Jester, member of Texas Railroad Commission, will give the key-note address at the opening ceremony at the Fair grounds in Iowa Park Monday evening, October 15, at 7:30 p. m. Mr. Jester is a veteran of World War 1 and in his capacity as former chairman of the Texas Railroad Commission during the most critical period of World War 2, he was in a position to make a direct contribution to the war effort. He is expected to touch on the problems of returning veterans and to discuss the post war outlook for oil in his address at the opening of the Fair.

**Civil Service Helps to Employ Physically Handicapped Persons**

In connection with "National Employ the Physically Handicapped Week," October 7-13, 1945, as proclaimed by the President, the Tenth U. S. Civil Service Region (comprising the States of Texas, Louisiana and Mississippi) announced that 3,232 placements of physically handicapped persons were made in the Tenth Region during the period October 1, 1942, to July 1, 1945. 570 of this number being handicapped veterans. During the month of July, 1945, 104 physically handicapped veterans were placed in Federal positions in the Tenth Region.

The Tenth Region further announced that more than 10,000 physically impaired veterans had been placed in Federal field establishments throughout the United States since July 1, 1945.

The Civil Service Commission has, for the past three years, been engaged in a positive program designed to bring about the maximum use of persons with physical handicaps.

**Advertising Makes Progress**

People who have been reading newspapers for many years will recall how in the early years of this century, the newspapers began to expand quite generously. They put in many new features and covered the world and life more effectively. This expansion was made possible mostly by the great increase in advertising which occurred during those years.

Business concerns and companies got the idea that by advertising more generously, they could sell many more goods. So their notices spread out and the newspapers had to give more space to these ads. The new advertising increased greatly the demand for goods. It made people want the new things, and they studied how they could earn more money so as to be able to buy these things. Thus advertising had a big share in promoting the development of the country.

**Prevalent in Winter Than in Summer**

Austin.—Contrary to popular belief, rabies is more prevalent in winter than in the so-called "dog-days" of summer.

In a statement released this week by Dr. Geo. W. Cox, State Health Officer, it was disclosed that in the mid-winter month of February last year the State Laboratory examined 312 animal brains for the presence of rabies, over thirty-seven per cent of which tested positive, whereas in August only 155 brains were examined, thirty per cent of which were positive.

"If all stray dogs were destroyed, and all pets vaccinated for rabies, it would go far toward stamping out this justly feared fatal disease," Dr. Cox said.

The doctor stressed that dogs suspected of having rabies should not be killed immediately, but should instead be confined ten days for observation to see if the disease develops. If a dog sickens and dies during the observation period, the head should be packed in ice and sent to the State Health Department for examination. Freezing the brain, or killing the dog prematurely, or in such a manner as to injure the brain may make correct laboratory findings uncertain, if not impossible.

Dr. Cox declared that after a dog is confined ten days and then killed, there is still ample time for a victim of his bite to be treated for rabies prevention, but he cautioned that if the disease is found to be present in the dog, the victim should then begin treatment without further delay.

Indianapolis, Indiana, appropriates \$40,000 a year for community centers and parks for young people. The council sought to eliminate the item from the budget for 1946 but a committee representing the 10,000 young people of the community called on the council and asked that the item be put back in the budget. Started as a recreational project the teen-age organization now tackles civic problems which concern young people.

### Be Quick To Treat Bronchitis

Chronic bronchitis may develop if your cough, chest cold, or acute bronchitis is not treated and you cannot afford to take a chance with any medicine less potent than Creomulsion which goes right to the seat of the trouble to help loosen and expel germ laden phlegm, and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes.

Creomulsion blends beechwood creosote by special process with other time tested medicines for coughs. It contains no narcotics.

No matter how many medicines you have tried, tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough, permitting rest and sleep, or you are to have your money back. (Adv.)

### AGRICULTURE

(D. F. Eaton, County Agent.)

#### Planting Grain and Harvesting Cotton

Sowing the small grain crop is now well underway as the surface soil is rapidly drying so that this work can proceed.

In most cases oneways or tillage implements are preceding the grain drills to destroy late summer vegetation and rescue grass or other winter grasses, that has recently appeared.

Where the grain was dry sown excellent stands have come up and the grain is growing rapidly.

This grain can soon be grazed. The late sowing began in the west part of the county and is rapidly being extended to the eastern section.

There is an abundance of sub-soil moisture over the entire county which is a very favorable situation for small grain growing.

The harvesting of cotton has also been resumed after a two weeks' delay caused by rainy weather.

There is still a shortage of hands but this situation is rapidly being relieved as transient snappers are gradually arriving as they pick out the areas east of us and move this way. The ceiling price is generally being observed.

With open weather the grain crop will be quickly sown and the cotton crop rapidly harvested.

#### Trip To Woodward Experiment Station

In company with Dr. R. L. Kincaid and Virgil Johnson, we made a visit to the Southern Great Plains Range Experiment Station at Woodward, Okla., last Monday and Tuesday.

This proved a very interesting and helpful trip as this station has done outstanding work on range development and ranch experiments with cattle.

Under the very skillful leadership of Mr. Dave Savage, they have taken the native grasses found in the country, as well as imported grasses, and have re-grassed large areas with the more important of these grasses.

They have large areas grown to these individual grasses as well as combinations of different grasses. There are some 28 varieties on the station.

On these various areas cattle have grazed to determine the carrying capacity of the range, the palatability of the grasses, as indicated by the preference shown by the cattle, and the rate of gain in flesh of the steers used.

Checks are made on both summer and winter grazing on the various types of grasses. They also study the effect of moderately and lightly grazed pasture to determine rate of gain and the effect on the range.

They also have studied the results of supplementing the range grazing with cotton seed meal and other feeds, especially during the hot, dry summer months.

It would take too much space to give many details of results but one thing is definite our native grasses, and this includes a number of bunch grasses, along with our mesquite and buffalo, both running grasses, are just as nutritious and palatable as any grasses known. Most of these grasses grow here.

The rainfall in the Woodward area is about the same as in this area but gets a little colder in the winter. The soil where the 4,000-acre station ranch is located is a very sandy, rolling saccharine country, with some in mixed sandy areas.

Here are the 1945 summer gain on 316 head of uniform steers, grazed 166 days, weight at beginning 543 lbs., at close a gain of 308 pounds, or 1.86 pounds per day.

The winter grazing shows the following gains on 499 head of cattle, grazed 198 days—a gain of 51.8 pounds. They were fed 256 pounds of cotton seed cake per head, or a daily gain of 0.37 pounds.

The tests also show the heaviest gains were during the months of May, June and July, when the grass was fresh and green. Dry grass is less nutritious.

They made 90 per cent of the total gain by early August. Caking on late summer grass showed a profit on 20 head weighing 543 pounds at beginning, 2.18 pounds or on an acre basis they showed 51 pounds gain from June 30 to Oct. 1, 1945.

They were fed 2 pounds of cake per day and showed a nice profit. The 20 head caked showed a return of \$491.40 net more than the uncaked lot of 20 head.

Most of the regrassing work was done on abandoned farm

(Continued on Page 7)

# YOUR VICTORY BONDS WILL

**CONTINUE THIS!** . . . The care and cure of our tragic thousands of wounded. Victory Bonds help pay the cost! And they'll help pay for bringing all our boys back home—help wind up the war's colossal cost.

**PREVENT THIS!** . . . The bitter aftermath of squandered money that leads to inflation. No work—no living for the men who helped to make a better America! Depression can't strike if we have a secure backlog of Victory Bonds!

**ASSURE THIS!** . . . The necessary reserve that son of yours who's coming back to the farm will want for future repairs . . . for refertilizing the land . . . for erosion control . . . all the things that must be done to make the farm a better paying business.

**OUR QUOTA IS \$95,000**

## Family Reunion at Ed Adams Home

With the exception of one son, all the children of Mr. and Mrs. Ed Adams were at the family home Sunday, for the first time in several years. The absent son, Leighton Adams, who is in the Navy, is expected home some time soon.

The occasion for the reunion was the return of Pvt. W. H. Adams, who served for nearly three years in the ETO, chiefly Germany. He arrived at home Friday.

Others present were Mr. and

Mrs. Adams, Mr. and Mrs. Alton Brazier and three children of Dallas, Mr. and Mrs. Kenneth Henderson of Childress, Mrs. Clyde Wright and two children of Wichita Falls, Mr. and Mrs. Frank Webb of Quanah and Kenneth Ray, who resides at home.

## Returned Veterans Honored with Supper

Mr. and Mrs. Gordon Bell entertained with a supper party at their home Sunday evening as a compliment to Messrs. Floyd Thomas and Tom Beverly, recently returned from service.

## Homebuilders S. S. Class Meets

Mrs. Richard Ferguson was hostess to the members of the Homebuilders' Class of the Methodist Sunday School at her home on Wednesday, Oct. 10. Eleven members were present.

Mrs. Crews Cooper, class president, was in charge of the meeting. The hostess served a salad course to those present.

## FAMILY REUNION

Mr. and Mrs. E. Swain had their three children with them Monday, the first time in more than six years together. Lebert Swain of San Antonio, discharged from the service three months ago, Vance Swain, dis-

charged last week and Mrs. Harriett Griffith spent the day with their parents.

## Service Men Are Honored Friday at Margaret

The returned service men at home now in the Margaret community were honored by the community with a picnic supper and program at the school house Friday evening, Oct. 12.

More than 200 were in attendance. This is the fourth entertainment of this kind which has been held at Margaret.

Rev. R. I. Hart was master of ceremonies and a short biography was given of each service man present. After the bountiful supper which was brought by the families of the community, a musical program was presented.

## TRUSCOTT H. D. CLUB

A demonstration on "Cleaning, Blocking and Remodeling Felt Hats" was given by Miss Lucille King, Knox County Home Demonstration Agent, when the Truscott Home Demonstration Club met Oct. 11, in the basement of the Baptist Church in Truscott. Each member took part in the demonstration and some smart and stylish hats were made from old ones.

Miss King also gave instructions for fireproofing clothing, such as men's work clothes, cotton pajamas, etc.

Mrs. J. R. Brown, club president, was in charge of the brief business session. Members voted to let each hostess decide whether meetings should be held in the church basement or in her home.

Refreshments were served to Miss King, eight members, and one visitor, Mrs. Lee Blevins. The club will meet again on Oct. 25, for the purpose of electing officers.

## THALIA 4-H CLUB

The Thalia 4-H Club girls met in the typing room of the school on Friday, Oct. 12, with Miss Elizabeth Elliott in charge of the meeting.

The purpose of the meeting was to learn how to fireproof clothing and other articles such as potholders and curtains. To fireproof clothing a person should have 7 ounces of borax and 3 ounces of boric acid in two quarts of boiling water. When the water has cooled sufficiently the article to be fireproofed is dipped in the solution and wet thoroughly. It should then be dried and ironed as usual. This treatment has a stiffening effect and makes starching unnecessary.

A point to remember is that this fireproofing treatment is not permanent. It will wash out of the article and therefore must be done each time the article is laundered.

## Food, Home Notes

(By Miss Elizabeth Elliott, County Home Demonstration Agent.)

**Correction in Fruit Cake Recipe**  
We gave out a recipe in September to have demonstration club members and many others of the "Famous Old Fruit Cake" with the recipes for food to send overseas to service men. This is an error in the amount of sugar called for. Change the amount of brown sugar from 2 lbs. to 1 1/2 lb. After the statement "Mix thoroughly" insert "Last of all, add beaten egg whites."

We are sorry these errors occurred and hope everyone getting this recipe will learn of the correction. Please call it to the attention of anyone you know who got the recipes.

## Popcorn

Some people have reported packing freshly made popcorn into hot dry cans and sealing immediately. Others sent the popcorn unpopped. It was found that popped corn became soggy and tough if used as packing around cakes or cookies.

Other recipes for food which have been sent overseas successfully are available from your county Home Demonstration Agent or from home demonstration club members. Demonstrations were given in all home demonstration clubs in September by the County Home Demonstration Agent on sending food overseas

for Christmas. The above suggestions and others were given in these demonstrations.

A Pomona theater operator whose programs were interrupted by children blowing up and popping empty popcorn bags found a remedy by punching small holes in the bags. The holes while they allowed no corn to escape, made it impossible for them to be blown up and popped.
