## First Roping Show Held Here Sunday Afternoon at Arena

The Crowell Roping Club gave its initial performance at the club arena just east of the high school building Sunday afternoon with an estimated crowd of 1,000 people attending.

The roping club was organized in Crowell several months ago with fifty regular members and ten honorary members. The membership is composed of cowmen, cowboys, "would-be" cowboys, farmers, clerks and professional men. It is a non-profit organization which was started for the promotion of cowboys' sports and the development of better horses in Foard County.

Under the supervision of the club president, Bill Bell, and the chute boss, Bill Drabek, an arena 300 feet long, with the proper chutes and pens, was constructed just east of the high school building. It is stated that most of the performances will be free, however, it might be necessary occasionally to pass the hat. The club has about 31,500 in ground equipment and 20 Brahma calves.

Sunday afternoon the Crowell Club was host to the Truscott Roping Club and President Lester Hickman and his members were here with their calves and added much to the success of the show. Several visiting ropers from Hardean, Wilbarger, Knox and Cottle Counties.

The Crowell club will hold regular ropings for members and visitors on Wednesday and Sunday afternoons and the general public is invited to attend, it was announced this week by officials.

A meeting of officers and members of the club has been called by the president to be held in the offices of West Texas Utilities Co. Friday night to discuss important matters.

Some of the best roping horses of this section performed Sunday afternoon at the show here and did credit to their owners. It is reported that one fine horse sold for \$150.00 during the show.

Members of the Crowell Roping Club appreciate the good attendance at its first show.

Mr. Day says, "That he expects to treat everybody alike and give them an opportunity to pay their taxes before suit is filed, but there will be no favorites and all will be expected to pay. Prompt and vigorous action will be taken in the event that such taxes are not paid promptly."

## Intra-Mural Meet Held at School Tuesday Afternoon

The Crowell High School track squad had an intra-mural meet between the seniors versus the rest of the school Tuesday afternoon. The following boys placed in the meet: J. L. Brock, Horace Todd, Bill Chumbley, Johnnie Mitchell, Lon Launey, Hardy Sanders, A. G. Wallace, Miles Neill, J. C. Patton, Kendrick Joy, Larry Wood, Joe Mason, Carlos McBeath, V. Bond and Thomas Templen. The winner of this meet will not be determined until Friday afternoon.

Coach Louis Purvis is taking the squad to Chillicothe this afternoon for a practice meet with the Chillicothe Eagles. The Chillicothe boys will come to Crowell on Friday afternoon of next week for a return meet. The district track meet will be held at Seymour, Saturday, March 30.

## City of Crowell to Collect All Delinquent Taxes

The City Council of the City of Crowell has checked over the delinquent tax rolls and finds that a substantial amount of taxes due the City are unpaid, and that the failure to pay taxes on the part of some taxpayers restricts and handicaps the orderly financing of the city government and creates an extra burden on those who do pay promptly, it was announced this week.

The City Council feels that this condition is unfair and as a result has employed Frank R. Day, attorney of Plainview, to collect all delinquent taxes due the City of Crowell, and he has been instructed to institute suits to foreclose the tax liens, and has been given complete authority to proceed with tax suits in any case that he may deem necessary.

Mr. Day says, "That he expects to treat everybody alike and give them an opportunity to pay their taxes before suit is filed, but there will be no favorites and all will be expected to pay. Prompt and vigorous action will be taken in the event that such taxes are not paid promptly."

## Mrs. O. R. Boman Will Speak at PTA Open Meeting

## Death Takes Mrs. Leo Spencer Early Saturday Morning

Mrs. Leo Spencer passed away at an early hour Saturday, March 9, in the local hospital following an illness of only a few days. She had been in frail health for a number of years, however.

## Funeral Held from Baptist Church Sunday at 3 P. M.

Funeral services were held at the First Baptist Church Sunday afternoon, with Rev. Otis Strickland, pastor of the church of which the deceased was a consistent member, officiating. Mrs. R. R. Jones of Crowell and Mrs. George E. Holt of Wichita Falls sang as a special number, "Beyond the Sunset." Mrs. Arnold Rucker played piano accompaniment for them and also for the choir music.

Flower bearers were the personnel of the T. E. L. Sunday School class of the Baptist Church and Mrs. Thomas Johnson, Mrs. W. W. Lemons, Mrs. Bert Ekern and Miss Geniele Nelson.

Interment was made in the Crowell cemetery with the Womack Funeral Home in charge of arrangements.

Mrs. Spencer was formerly Miss Ida Markham, the daughter of the late Mr. and Mrs. J. B. Markham. She was born at Holland, Texas, on Sept. 14, 1882. She graduated from Holland High School and attended Baylor University for about two years. She moved with her parents, to Truscott in 1910 and soon afterwards accepted a position with the J. W. Allison Dry Goods Co. at Crowell. She held this position until her marriage to Leo Spencer on Dec. 22, 1913. Two children were born to them: Markham Spencer of Glendale, Calif., and Mrs. Nelson Oliphant of Crowell.

Mrs. Spencer was converted at an early age and had been an active member of the Baptist Church for more than forty-five years. She was a charter member of the T. E. L. class, was a member of the Crowell Garden Club and was always interested in any organization for the good of her community. Her home was always open to these organizations and she took a part in all activities for good causes.

She was a devoted wife and mother and had a close and tender feeling for her friends and her neighbors. She was of a friendly, kind disposition and scattered good deeds throughout her life.

Survivors are the husband, the two children, one granddaughter, Carole Oliphant, and the following brothers and sisters: Mrs. L. D. Teaff, Snyder; Mrs. Mollie Woodruff, Stamford; Mrs. W. H. Haynie, Truscott; Mrs. O. L. Hinds, Dallas; Charles Markham, Stamford; Mrs. Tom Dancer, El Paso, and Clay Markham of Stamford, all of whom were present for the funeral services. There are several nieces and nephews surviving as well as a host of friends.

Besides the immediate family members, the following out-of-town relatives and friends were present for the funeral: Mr. and Mrs. J. T. Trice, Snyder; Mr. and Mrs. Spencer Woodruff, Stamford; Mr. and Mrs. Rex Haynie, Stamford; Mr. and Mrs. Roy Oliphant, Haskell; Mr. and Mrs. J. R. Jameson Sr., Lubbock; Mr. and Mrs. W. B. Griffith, Lamesa and Mrs. Geo. E. Holt, Wichita Falls.

FOOD, HOME NOTES

(By Miss Elizabeth Elliott, County Home Demonstration Agent.)

A MILLION GARDENS AGAIN

A goal of one million home gardens for Texas in 1946 has been announced. The million home garden goal is an upward revision from the figure previously set, three-quarters of a million, and points out the need for home production of vegetables at a level equal to that of the war years.

The appeal to Texas home gardeners to plant an additional 250,000 gardens came after M. L. Wilson, director of the federal Extension Service, called upon Dr. Ide P. Trotter, Texas director, to again put into effect wartime policies of home food production.

Recent developments in the world food situation are such that food will be as critical an item, if not more so, than during any year of the war.

During the war home gardening was a patriotic activity. Now it is a practical matter. Much of our food will be diverted to Europe. That doesn't mean that we will be short of food, especially if we continue doing all we can at home food production.

It means that while food is a matter of life and death in many parts of Europe it may be a matter of considerable inconvenience here getting the kind of food we want when we want it.

Warmer weather moving into this part of the state permits planting beets, English peas, carrots, cabbage and other hardy vegetables now. Turnips, spinach, radishes, white potatoes, parsley, onions, mustard, and head and leaf lettuce may be added to this list during March.

Best results are obtained when it is possible to plant these hardy and semi-hardy vegetables 20 to 30 days prior to the average of the last killing spring frost.

Vegetables like tomatoes and peppers, which are frost tender, lend themselves well to starting in a hotbed or plant box. The seeds may be planted six to eight weeks prior to field setting.

RECOGNIZING THAT MOST TEXAS FAMILIES LEARNED A GOOD DEAL ABOUT SUCCESSFUL GARDENING DURING THE WAR YEARS, HERE ARE SOME POINTS AS REFRESHERS TO INSURE BETTER PRODUCTION FROM THE HOME PLOT:

Treat seed before planting. Soak over night in water seeds which germinate slowly. If barnyard fertilizer is used apply it several weeks or as far in advance of planting as possible; if commercial fertilizer is used apply it in the row seven to ten days ahead of planting. Drain the well. Rotate garden site or rotate vegetables within it. Flat rows in low rainfall areas, or where no irrigation water is available. Replant every week some kind of vegetable and keep the garden plot in full production. Use good seed and control bugs.

SERVING FROZEN FRUIT

Serving is the important factor in enjoying frozen fruit at its best. Otherwise, loss of flavor, texture and shape is apt to result.

First of all, serve it at once with only slight thawing. If the fruit is to be cooked, thaw just enough to separate the pieces. If it is to be served raw, leave it just a little icy.

Thaw just the amount of fruit you will use at one meal. If this

erly be used only for bread and flour. On the recommendations of scientists, millers and bakers in 1941 began to enrich white flour by adding two of the B vitamins, thiamine and niacin, and iron.

Two years later the standards were raised. More thiamine, niacin and iron was added in addition to riboflavin, another of the B vitamins.

Now definite standards for enriched bread or flour have been set up by law. The process puts back into the flour about the same amount of thiamine, niacin and iron that is lost in milling white flour from the whole grain. Riboflavin is added in even larger amounts.

Standards have also been set up for calcium and vitamin D, but the addition of these is voluntary.

In "restored" foods the manufacturer puts back the nutrients lost in processing. Sometimes breakfast foods are restored and the manufacturer puts back the thiamine, niacin and iron that were lost in the processing.

This process is voluntary on the part of the manufacturers. When the manufacturer adds nutrients that were not originally present in the food, his foods become "fortified." For example, almost all margarine is fortified with vitamin A and sometimes milk is fortified with vitamin D.

ENRICHED, RESTORED, FORTIFIED

Often confusing to homemakers are the three words, "enriched," "restored" and "fortified," found on food labels. Since many homemakers think these words mean the same thing, the following explanation may help to clear up the confusion.

MOM'S BACK IN THE KITCHEN

Yes, she's back at her old job of home-making—that 24-hour-a-day job with no overtime pay.

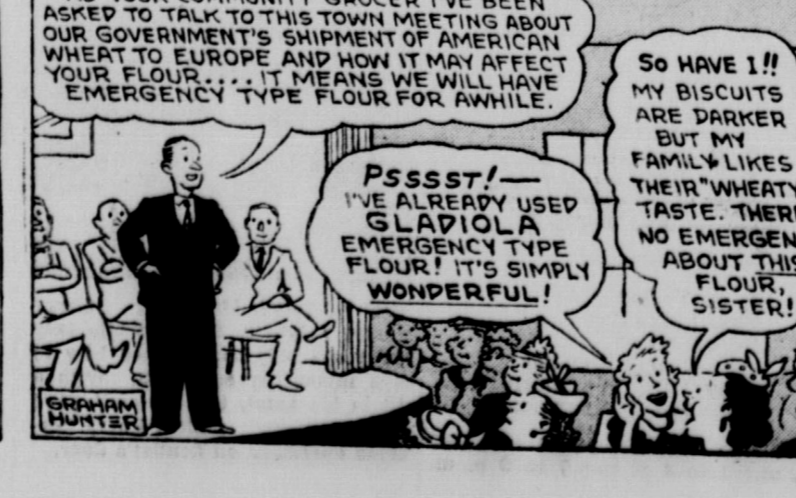

Mom learned a lot about electric service during the war. She found that stitching up a cruiser and stitching up a curtain are both done more easily and quickly when electricity lends a hand.

And when home-making had to be sandwiched in after war-pinger hours, Mom learned that the touch of a finger-tip brought her a dozen willing servants for the cost of a candy bar.

Mom's back in the kitchen. And electric service—always ready, dependable and cheap—is there with her, making her tasks easier, her life more comfortable. Service like that just doesn't happen. It takes hard work and good business management. The men and women in Mom's electric company—and yours, too—make it possible.

Pick any one!—but get an OIL-PLATED engine

They're all good. And you can prove that you're a good chooser . . . by getting an OIL-PLATED engine.

Any car you buy . . . (or the one you still want to keep!) . . . will have OIL-PLATING on guard in the engine if you make it a point to use Conoco N<sup>th</sup> motor oil. It's patented oil. It includes the added OIL-PLATING ingredient. And this acts magnet-like—to make your engine's fine inner finish attract lubricant that's durably surfaced right on . . . joined up or OIL-PLATED.

OIL-PLATING gives surfaces a barrier against wear. And wear is the big cause of carbon and sludge. So you can see why OIL-PLATING is just about a must if your car is a veteran—crying for its Spring change of oil. HISTORY

Birthday of John Tyler—March 29: John Tyler, tenth president of the United States was born at Greenway, Charles City County, Virginia, on March 29, 1790. His father was Judge John Tyler, Speaker of the Virginia House of Delegates, Governor of Virginia and a Judge of the State and Federal courts. He graduated from William and Mary College in 1807 and two years later in 1809 was admitted to the bar. At the young age of 21 he was elected to the Virginia Legislature. After serving five terms he was elected to the National House of Representatives. In 1823 he was again elected to the State Legislature. Two years later he was again elected Governor. At the end of his first term he was unanimously chosen to succeed himself. Following his second term as Governor he was elected to the United States Senate. Following his first term he was elected to a second term. He resigned in February, 1835. In 1840 he was nominated for vice president and was elected. At the death of General Harrison one month after he entered office, Tyler became president. Though elected as a Whig, Tyler broke with the party and aligned himself with the Democrats. The Whigs passed a bill providing for rechartering of the Bank of the United States. Tyler vetoed it. A second bill was passed which Tyler also vetoed. As a result of the feeling engendered by the veto of the two bills all of the Cabinet except Daniel Webster resigned. Later Webster also resigned. Following the resignation of Webster the Whigs announced that all political connection between the party and Tyler was at an end from that day henceforth. In 1844 Tyler sought the presidential nomination but the Whigs nominated Henry Clay. A small group also nominated Tyler but he withdrew throwing his support to Polk, the Democrat candidate. At the expiration of his term he retired to his estate in Charles City County. He voted for secession in the Virginia convention, served the provisional Confederate Congress and was elected to the Confederate House of Representatives. He died in January, 1862, before taking his seat.

BOBBY HAS POSSUM PET . . . Bobby Underwood, 8, Detroit, Mich., is always surprising his family by bringing home strange pets. They recently made him get rid of two cats, a rat, rabbits and a rattlesnake. The next day he showed up with the possum shown in his arms. Bobby's two-year-old dog does not intend to associate with a possum, according to his tilted chin.

What We Think (By Frank Dixon)

I read with distinct regret of the resignation of Harold Ickes from the Cabinet post. I feel that though his own admission that he is an old "curmudgeon," is an obvious understatement, and that in addition he is a cross-grained, cantankerous dissenter and disturber, he is definitely not a "yes" man, he is wholly honest, and is above political corruption. Furthermore, he is a type of personality that gets into the headlines. Whatever Ickes said or did, always made the front pages of the newspapers of the country.

For these reasons I have felt, ever since his appointment by Franklin Roosevelt that he was a good man to have in a key position in any administration where the danger of too many "yes" men is always a possibility. While I recognize that in a President's Cabinet a harmony of thought and action is desirable, I feel that whenever a cabinet member reaches the point where he hesitates to express an opinion at variance to the known desires of the administration head, there is a possibility that the administration is headed for a rut. If a cabinet is to echo its chief's thoughts only, then it has little excuse for its existence.

In my opinion every administration needs such an individual in a key position. Men who have the courage to rise in their places and oppose what they believe is wrong in the face of certain censure and criticism and even the loss of position are needed in government circles today as they have always been needed. In my opinion President Truman committed a tactical error in allowing the matter to reach a point where Mr. Ickes was forced to resign. Mr. Truman needed Mr. Ickes in his cabinet. His presence in the administration's circle, in my opinion, added to the confidence of many in the administration.

It was a tactical error for Mr. Truman to break with Mr. Ickes over the Pauley appointment. Mr. Truman earnestly desired the appointment of Pauley, the California oilman, to the position of Undersecretary of the Navy. While there was some objection to Mr. Pauley being placed in such a position because of his business connection, the objection was scattered and lacked definite force. It is barely possible that the difference might have been worked out and Mr. Pauley's appointment realized.

With the break with Mr. Ickes that possibility, in my opinion, has gone glimmering. I predict that Congress, because of the break, will not confirm the appointment of Pauley.

No one, not even Mr. Ickes, has charged Mr. Pauley with wrong doing of any kind. The whole matter is that Mr. Ickes, because of Mr. Pauley's extensive connection with the oil business, did not believe him a suitable man to place at the head of the Navy, the country's largest user of oil—and said so. Most people will agree with Ickes. They will also agree that the difference of opinion was not a matter that warranted the dismissal of a man like Ickes from the Cabinet.

Home Town Thoughts

Most people feel an obligation to help their own families attain success and prosperity. When people feel that same obligation to help the home town, they contribute to the progress of the community. "Words fitly spoken" are highly commended. Among the fitly spoken words are the advertisements that tell what goods cost, and which describe bargains that are on sale.

Washington News

By Congressman Ed Gossett, 13 District of Texas.

Washington, D. C., March 8.—After about two years of study, the Joint Committee on the Organization of Congress made its report to the Congress this week. As usual, the meat of the report is contained in the recommendations. None of these recommendations become effective, however, unless bills or resolutions in pursuance thereof are introduced and approved by one or both houses of the Congress, depending on whether the provisions of the resolutions are applicable to one or both houses.

Among other things, the Joint Committee recommended that the Senate's 33 standing committees be reorganized into 16, and that the 48 standing committees of the House be reorganized into 18. It further was recommended that House and Senate rules define clearly the jurisdiction of each reorganized committee so as to avoid overlapping and duplication and conflicts of jurisdiction. Committee chairmen would be required to report promptly all bills approved by the Committee, and seek a rule to bring them to the floor for consideration. Committees would be authorized to employ four staff experts in its special province, and such employees would not be dismissed for political reasons, under the recommendations.

Better budgetary and fiscal controls were recommended, through changes in the procedures of the appropriations committees, discontinuance of indefinite appropriations, discontinuance of the transfer of funds between agencies and departments, etc.

One important recommendation was that the Congress provide for a regular recess period at the close of each fiscal year, to insure the return of members to their constituencies at definite intervals each year. A good many years ago the Congress was in recess several months each year, and Representatives and Senators could return to their homes, see their constituents, and learn their views and opinions at first hand. For the past several years the Congress has been in almost constant session, recessing only for very short periods which have not allowed the members much time to be in their districts.

Like any other activity or business, the Congress can work more effectively if its flow of work goes smoothly, and it has proper equipment and personnel with which to perform its duties. It must be remembered that the executive departments and bureaus spend more on their publicity and public relations sections than it costs the nation to maintain the entire legislative branch of the government.

According to Army figures, over 750,000 returning veterans want to be farmers when they get out of uniform. The U. S. Bureau of Reclamation is now prepared to tell them where to go—out west. Some reclaimed land in the western states will be irrigated, and some 100,000 farms thus created. Some of these farms eventually can be had free by those meeting homesteading requirements, as they will be on public lands.

Veterans will get preference, with two years' war service counting toward the three-year residence which is required for establishing homestead ownership. Only a few farms will be ready for occupancy this year, more in 1947, and still more later. The farms expected to be opened this fall will be in the states of California, Oregon, Washington and Wyoming. Among other things, homestead applicants must show they have enough cash, machinery, livestock, or other assets to have a chance for success.

Washington this week has had a great many Texas visitors, many of them stopping here on their way to or from the national REA meeting in Buffalo, New York. One of these men told me he got into a taxicab in Buffalo, told the driver to take him to the particular hotel where the meeting was being held. The driver asked if he was from Texas, and receiving an affirmative reply remarked, "There certainly is a crowd at that Texas meeting." Actually every state in the nation was represented.

Among the Texans who visited my office this week were Mr. C. G. Freeling of Oklahoma, Mr. T.

Spending or Saving

There have been two theories as to how the American people would act in this postwar period on spending or saving their money. The prevailing idea seemed to be that they have more money than ever before, so that the biggest spending and buying movement known in our history was to be expected, as soon as the things they want to buy became plentiful.

Some have entertained the belief, in view of the long period before the war when business was depressed and great numbers were unemployed, that a great body of people would be cautious about spending their money. That they would be more inclined than ever before to save and collect reserves against the possibility of depression and unemployment.

The habits of the majority of the American people seem to indicate that the former theory comes nearer being correct. There are great numbers who usually spend their money about as fast as they get it. These people may have bought war bonds freely, and many have more idea of saving than they have had before. One would think that the great majority of them, now the war is over, would be free spenders, and they have a lot of money to spend.

The desire to spend is stronger than ever. Millions of families find homes only with great difficulty. They will be keen to rent or buy new homes as soon as these can be built. They will buy vast quantities of furniture and furnishings and labor saving equipment.

To date five million men have been discharged from the service. By the end of 1946 the number will reach ten million. As a result a shortage of two and a half million homes is predicted by the end of 1946 and three million by the end of 1947 and 600,000 more each year after that. One thing that contributes materially to the housing shortage is the fact that during the depression years in every town and village of the country homes were lost because of inability of their owners to pay taxes. These left idle were permitted to run down and were later sold at sheriff's sale for a small amount. Many purchasers bid a few dollars for the property, tore down the houses and let the lot go. In one town in the midwest of less than 3,000 population over a hundred of these houses were torn down and in a neighboring town the same size some fifty houses were torn down. The losses represented ten per cent of the homes in the community. In each instance not to exceed five new houses were built. This same condition prevailed in practically every country town in about the same ratio. In the something like 40,000 towns in this country the total loss in housing would run well over a million.

SUNNY SQUIBLET'S Some people say they time to do the things of them. Apparently the same 24 hours a day given to the rest of us. This is said to be a world. At least the earth 19 miles a second in around the sun, which some. Many people are ways in a hurry. Some are hurrying to get to would like to get away if they get there. It is said that in towns, everybody knows body else's business. They not only know about offer plenty of advice about. "Keep the home fires burning," says the nice song. Some seem to think they have a better time when they keep the automobile headlights burning. The shooting was supposed to be over when the war ended, but some mouths are still being shot off. The nation is told to wake up. It usually does when it comes time to eat breakfast, but some go to sleep again at their working places. Many men are led to get married by a pretty face, but to some the good pay envelope earned by a possible wife might seem more beautiful. Some folks are said to be always in a stew, but that is better than being half baked. Some persons are said to be so forgetful that they leave their parcels, umbrellas, gloves, etc., around at different places. It is to be hoped no lady will be so forgetful that she leaves her husband around when he goes to carry her bundles. The men are advised not to keep their hands in their trousers pockets. It is well to put them in there when the collector for some good cause calls. What shall be done with a husband who is not loyal to his wife? Don't know, but it might be useful to let him do his own cooking for a while.

Robert Lee, who recently received his discharge from the Army, has accepted a position with the Beverly Hdw. & Fur. Co. and assumed his duties Monday morning. Mr. and Mrs. Lee have established their home on the Welch farm northeast of Crowell.

Mrs. Hugh Ogden Norman of Crowell and Mrs. Jim Norman of Vernon left Friday morning for Seal Beach, Calif., on account of the serious illness of their husband and brother, Hugh Ogden Norman, who is stationed there with the Navy. A later message from a brother there states that he is some better though critically ill.

**After Long Vigil Dog Decides There's Nothing in Drain**

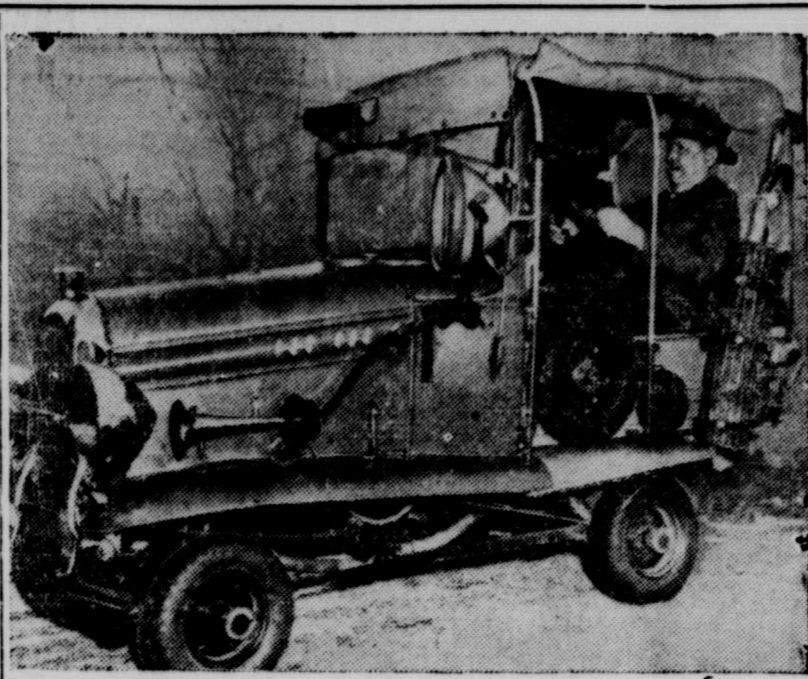

Denton, March 11. — Spots, North Texas State College's sewer-watching dog has finally been convinced that there is nothing down the hole, and has lost interest after staring down the college side-walk drain since Jan. 20.

The dog, who has been featured in leading newspapers throughout the nation and who was Life Magazine's picture of the week on March 4, watched Denton firemen flush the sewer-hole this week-end, in the presence of more than 150 visitors on the campus.

When firemen poured gallons of water into the sidewalk drain, the mongrel dog had to be restrained as he attempted to crawl down the sewer. Later firemen and college officials led the dog to the far end of the drain where it emptied into a flat basin near the college power house and allowed him to inspect the contents.

Spots interestedly watched the procedure about 15 minutes, then, disgusted, walked away. College officials had the drain cleaned following requests by telephone, wire and letter from all sections of the United States, Canada and Mexico. The drain held nothing . . . and now even Spots is convinced.

This week, college officials noticed the dog at the hole only occasionally and then he only hesitated, then passed it by. Spots has a home now, and although the gypsy dog prefers to roam the campus and belong to the student body in general, he finds his way to his new home at meal-time and is beginning to put on weight.

**BELIEVE IT OR NOT—IT RUNS . . .** Edward C. Hammond, Newton, Mass., did not let auto shortages stand in his way. With a bit of Yankee ingenuity he concocted his own auto which Hammond calls the "Weep." It has all accessories, including a wicker basket for golf clubs and a series of horns, sirens, bells and light. The builder says that it can go 50 miles on a gallon of gasoline. Hammond is at the wheel of his creation.

**Texas Doctors Will Oppose Socialized Medicine Bill**

Fort Worth, March 11. — Dr. Holman Taylor, secretary of the State Medical Association of Texas, has requested U. S. Senator James E. Murray to allow representatives from the association to appear in Washington at hearings on the Wagner-Murray-Dingell bill. Hearings on this bill, which would institute compulsory health insurance and place all physicians under Federal control and which is opposed by the Medical Association, will commence before the Senate Committee on Education and Labor March 18.

"A number of Texas doctors will go to Washington and testify," Dr. Taylor says. They will explain the desirability of voluntary health insurance rather than compulsory and costly prepaid medical care financed by withholding money from the pay checks of every worker. They will oppose this plan for socialized medicine and the destruction of private medical practices.

"This hearing is on the second Wagner-Murray-Dingell bill, which is a sugar coated version of the first measure. All mention of taxation was eliminated from the second bill so that it could be referred to friendly committees. To put the bill in effect would cost billions of dollars a year most of which would come from the pockets of working people. The new bill makes appropriations for aiding states in prevention and control of venereal disease and also tuberculosis. Existing Federal laws already do this, making the proposed bill a duplication.

"While the new bill refers to federal funds for medical care of the needy, there is no specific sum mentioned. Whatever might be implied it would be only a drop in the bucket in comparison with the tremendous contribution made voluntarily each year by the medical profession to the indigent," Dr. Taylor says. "The physicians of Fort Worth kept records one year which showed that their contributions in medical service to the indigent of that city alone ran into the millions of dollars."

**Old-Age Assistance Costs Tribled in Texas Since 1935**

Old-age assistance in Texas this year will cost State tax-payers nearly three times as much as the "ceiling" predicted by sponsors of the aid plan when it passed the Legislature in 1935, the Texas Research Institute points out in a report issued this week.

The report is a factual study of the cost of ten years old-age assistance in Texas.

When the first pension law was enacted, its sponsors said annual payments would not exceed \$9,000,000 from State funds. This year, the Institute points out, the aged people of Texas will receive \$25,400,000 from State funds.

Total cost to State taxpayers of ten years of old-age assistance has been, in round figures, \$155,000,000, the report declares. The cost has skyrocketed, according to the Research Institute, because the original idea of old-age assistance has been transformed into a system of old-age pensions. The policy of "granting assistance to people who are not needy has resulted in less funds for those who are in need," the Institute states.

Figures show that 452 out of every 1,000 Texans sixty-five or older are receiving assistance, while the national average is but 210.

Because of the drastic wheat shortage the President has ordered millers to extract 80 per cent of the grain for flour instead of the 72 per cent now being extracted. The change, it is estimated, will result in a saving of 25 million bushels of wheat. Beer and whiskey producers have been ordered to reduce consumption of wheat by 20 million bushels and from 25 to 50 million bushels will be saved by eliminating wheat from livestock feeds and by slaughtering livestock earlier.

A recent Gallup poll on Republican presidential possibilities showed Thomas Dewey 38 per cent; Stassen 27 per cent; and Senator Vandenberg 4 per cent. Party leaders were disappointed in the showing made by Dewey. They expected that he would be definitely the choice of the majority.

At the close of 1944 postal savings on deposit in this country totaled \$2,034,136,507.

### VANDALS, TAKE NOTICE

Yesterday I was looking over some books at the library. I finally found one that had a title with color and excitement behind it, so I checked it out. Since I had already read most of the new books, this one looked as if it had been knocking around CHS for about two years.

I took the volume to my desk. When I opened it, the pages of the first chapter fluttered daintily to the floor with a soft "plop!"

After I collected the pages and reassembled the book, I started reading. For two periods I read breathlessly, and then stopped short when I discovered that three whole chapters were from another book. Someone had mutilated both books and completely ruined them.

Our library buys several hundred dollars worth of books every year. We should have enough pride in our school to take care

of the books which we are allowed the use of.

### EX-NAVY MAN AGAIN ON CHS STAFF

That tall, dark and handsome ex-lieutenant, (jg), that everyone has been grinning at and telling how wonderful it is to have him back at CHS again is the well known Marvin Myers.

Mr. Myers was assistant first lieutenant. He spent twenty months on the U. S. S. Wilhoite (DE 397). The North Atlantic was their hunting grounds, enemy submarines their goal.

"Join the Navy and See the World." That is just what Mr. Myers, CHS V. A. instructor recently returned from twenty months in the Navy, did. Some cities that he visited: New York, Boston, New London, Norfolk, Long Beach, and that place well known among all Crowell girls who ever knew a sailor, San Diego.

Now that he is back in Crowell, he has had time to look around and has made the very flattering announcement that Crowell has grown and that the school has improved every year. Like all favorites he is being welcomed back by everyone, so we say, "Hi there, Mr. Myers," for everyone at CHS.

### LETTERS TO THE EDITOR

Dear Editor: Fun night is one day off and there are still a few students who think it is only for Seniors.

Mr. Purvis, senior sponsor, stated that many juniors, sophomores, and freshmen, have come to him asking if everyone is to take part in fun night. His answer to them was, "Yes, every student of CHS is especially invited to participate in fun night."

"The PTA with the help of the seniors are only sponsoring this activity," he continued, "and without the help of the other classes it cannot be a success."  
 A Senior.

### PTA TO SPONSOR FUN NIGHT

For all of those who have saved their energy, money, and good looks this week to be sure to be at Crowell High School, Friday night, for a rip roaring evening of fun and frolic, sponsored by PTA with the help of the Seniors because it means Galveston or

the Country Club on Senior Day. There are going to be many attractions such as cake walking contest, Mrs. Davis; doll throwing, Mr. Purvis; penny dropping, Mrs. Maynard; bingo, Mr. Black; candy and cold drinks, Mrs. Kenner; fortune telling, Mrs. Sloan; chunking at a negro, Mr. Graves; ring throwing, Coach Purvis. Lots of fun for young and old.

### SPRING IS HERE

Calling all girls! Do you want the boys to whistle at you? Then latch on some of these hints straight from the know.

Pretty blouses and full skirts with matching ribbons or engraved barretts in your hair will help to catch a second look from any girl's dream man.

If you are a little chubby, horizontal stripes will make you look slim. On the other hand, stripes that go around will make a frail little figure, something that will be noticed.

Butcher linen, seersucker, and chambray two piece suits are a necessity in every teen age girl's wardrobe. Neatly trimmed suits may be found in down town stores.

As for shoes, my pretties, let's put our best foot forward. Walk the clouds while the sun shines. Feather feet must be in the groove and looks, too—so tuck your toes into a pair of bright red loafers. These are keen enough to make you rank solid with the lads who like to dance. Ballet shoes will give your ankle a smaller look and make the guys shout "Huba! Huba!"

In addition to these good points, don't forget your smile. With a winning smile a girl's personality is assured.

### INQUIRING REPORTER

Comments from students who visited the Fat Stock Show this week-end.

Mary Sanders—I was impressed at what some people won't do for such a little bit of fun.

Mary Ray Ayers—I liked the airplane expedition best of all.

Joe Seales—I enjoyed the Earl Carroll Vanities, especially the beautiful dresses, (what there was of them).

Bill Irvin—The rodeo clowns. Mary Edna Norman—The radar exhibit.

Mrs. Davenport—The air show was worthwhile, especially the maneuvering of the helicopter.

Horace Todd—I enjoyed the Army Ground Forces' expedition a lot, especially the big guns and heavy tanks.

### THE CAT'S WHISKERS

Hello, Hello, Hello, everybody, how do you do? Here we are once again bringing you the top of the news of CHS, packed full of exciting adventure, romance and suspense.

Flash! Everyone seemed to have a busy week-end, especially Kathy and Danny, A. G. and Jenny, and "Shaney" and M. W. and "Dee" and C. D. More fun, more falls.

Ernie and Johnny kept up their reputation by being together Friday and Saturday nights.

The talk of the town—the romance of Wood and Thompson.

"Dee" really seemed to be getting around over the week-end, first it was C. D., then it was "Booger," My' these Thomases!

"Jenny" was seen again with her old flame, "Puss," Sunday night taking in the cinema.

One of our ex-seniors, John Carter, is in the Quannah hospital. CHS wishes you a "speedy" recovery, Johnny!

Of course, Saturday night would not be perfect if not for those couples, Booty and Bobby and Janet and Miles!

It looks as though some of the boys went to the Fat Stock Show, and by the looks of things, had quite a time!

Something old—Don and Martha.

Something new—Billy Bond and Tommy McLean. (Well almost new, anyway.)

Seen double dating Saturday night were Joyce and H. A. and "Bulldog" and Doris. By the way, girls, was Bulldog's car cold?

Doris Rummel seems to be interested in a certain Marvin Schulz from Lockett. Come on, Doris, give with the bait.

Speaking of love, Edna Lee and Kenneth have it.

We wonder why these Sophomore boys never go any place Saturday night. There are plenty of girls, boys.

We wonder why J. C. wasn't at the dance Saturday night. We heard someone was looking for him. And how!

There's a certain little blonde, and, by the way, she is cute, on the loose, boys. In case you are interested, she is Mary Payne.

Mary Edna and Mary Ray seemed to have had a swell time Friday at Fort Worth. Come on, tell all about it.

We wonder if Bob is still looking at "Ba Ba." Some one please give us the dope on this case.

"Ham" and Travis really had a swell time Sunday. I heard. By the way, a certain little brunette was there. We would tell who it was but promised we would not.

Everyone seemed to have a swell time at the dance Jo Ann Nichols gave Saturday night. Let's have more of these, Jo Ann.

The four scabs were loose Saturday night. We're speaking of Peggy, Maggie, Gerald and Mary Ruth.

Herman Athey seems to be making eyes at Betty Simms. Who is next, Herman?

Floyd Borchardt and Bobbie Ruth were seen Saturday night and was love flying now that they are back together again. Power to you, kids!

Gerald and Peggy certainly

**FIREWOOD FOR OPERA TICKETS . . .** Before you can buy a ticket for the opera in Kiel, Germany, you have to produce a pound of firewood in addition to the price of the ducal. seemed blue over the week-end since Travis and Hardy weren't here.

Julia Rose and Mary Ruth certainly do look towards Thalia these days. Who is it, girls?

John Potts has that certain gleam in his eye for Jo Ann Nichols. Stay away, Johnny, she's occupied.

Vera seems to be interested in Jess Whitfield at the present. Wow!

It looks as though Edna Lee and Kenneth are doing O. K.

Listen, boys, Betty Simms and Virginia Hammonds are two cute gals. Take a hint!

Bob Edwards is still true to his dream gal, Booty's cute little sis, Betty.

Booty, didn't you receive a mysterious phone call Sunday night? Ah-ha.

Well, there goes the gong, time to sing off. We'll be seeing you at the same time next week. Tune in to Station SCANDAL.

The Cat's Tail.

### SIDE SPLITTERS

Roberta: Did you count with a daisy to see if Jack loves you?

Ruth: No, indeed, it might have turned out wrong. I used a three-leaf clover.

"Don't you miss the folks next door since they moved away?"

"No. You see, they never borrowed anything, so I hardly knew them."

"This afternoon we will take Mr. Frog apart and see what makes him croak," said the professor to his zoology class. "I have a frog in my pocket to be used as a specimen." He reached into this pocket and drew out a paper bag which he emptied on the table. Out rolled a badly squashed ham sandwich.

The professor mopped his brow. "My goodness!" he stammered. "I distinctly remember eating my lunch."

Raymond seemed unusually

quiet for his seven years. "Did you enjoy yourself at church?" asked his mother. "I guess so," he said indifferently. "What was the main hymn?" "It was one I don't know," replied Raymond, "but I just sang 'Pennies from Heaven,' as loud as I could and it worked out all right."

Father: "Why were you kept in at school?"  
 Ike: "I didn't know where the

Azores were."  
 Father: "Well, in future remember where you put your feet."  
 Two truly blue-eyed can only have blue-eyed parents. However, most people who have some brown-eye and in such a case they have a brown-eyed child.

**Where Is Your New Home Now?**

Right now the home you want to build is in the tree, the iron ore pits, the clay banks and the quarry.

NO! But the irresistible force of industry has run into an immovable body!

In the case of Brick and Tile, for example, it took the OPA six months to grant a price adjustment that allowed 125 of 400 closed plants to reopen. This action resulted in a 35 per cent increase in production within the following three months.

Similarly, OPA's unrealistic pricing policies blocked adequate production of Gypsum board and lath, cast iron soil pipe, and clay sewer pipe for months.

Although price adjustments have been granted in the above-mentioned fields, lumber production still remains under wartime pricing formulas.

It is still more profitable for the lumber mill to cut items for export to foreign countries, or to cut logs into sizes used by industry than it is to manufacture lumber for home construction. Premium prices for industrial items have been granted in some instances during the war, but now that peace has come, price adjustments encouraging home construction lumber have not been made by OPA.

Price adjustments are needed to obtain maximum production of hardwood flooring, millwork, ceiling, siding, and plywood.

Recommendations have been made to the OPA repeatedly, but action is not forthcoming.

The Building Industry stands ready to build the homes Americans need. But until the production and flow of materials is unblocked by OPA, thousands upon thousands of homes for Americans and veterans will go unbuilt!

Any government program that does not **FIRST** remove the obstacles blocking production of materials will simply add additional difficulties to the problem facing the building industry.

Here are the materials that must be produced. These are the materials in short supply which are subject to distribution controls through priorities:

Lumber	Common Brick
Concrete Block	Millwork
Clay Sewer Pipe	Face Brick
Structural Clay Tile	Gypsum Board
Cast Iron Soil Pipe	Gypsum Lath
Cast Iron Radiation	Bath Tubs

What has happened that all these essential building materials are lacking? Have we exhausted raw material supply? Or pant production?

Weekly Sermon

By J. Arthur Springer, Member
of Faculty, Moody Bible Insti-
tute, Chicago.

Walking With God
The story of Enoch in Genesis
5 is a very brief account; in fact,
it is all in verses 22 to 24. But
twice in those three verses the
Bible says that "Enoch walked
with God."

He walked with God for three
hundred years! And he did that
during a period when the world
was very wicked, and was grow-
ing more wicked all the time.

Probably friends and relatives
repeatedly tried to get Enoch to
leave the fellowship of the Lord
and to walk with them in their
sinful ways. Yet he steadfastly
refused to do so. How did he do
it?

The explanation is given in
Hebrews 11:5, 6. There we read
that Enoch pleased God, which is
merely another way of saying that
he walked with God. And it says
also that the only way to please
God is by faith. That is, if a
person wants to please God, or
to walk with God, he must believe
God, he must trust God. He can't
do it in his own strength; he must
depend on the Lord for the abili-
ty to do it.

In Amos 3:3 the question is ask-
ed, "Can two walk together, ex-
cept they be agreed?" The an-
swer, of course, is no! If I want
to walk with God, I must agree
with Him.

When God says I am a sinner,
I say, "Yes, Lord, I am a sinner."
When God says I am a sinner,
I try to save myself, I reply, "No,
Lord, I haven't."

When the Lord says to me, "My
only Son, the Lord Jesus Christ,
died for your sins on Calvary's
cross, and the third day rose
again," I say to Him, "Lord, it's
true, every word of it."

And then when He says to me,
"My son, give me thine heart," I
gladly respond and give Him my
heart. Then, as I trust Him and
agree with Him in His estimate
of sin and righteousness and ev-
erything else the Bible talks about,
He gives me the ability to walk
with Him in happy fellowship.

## Miss Mildred Fish and Wm. R. Henderson Wed in Vernon Sunday

The marriage of Miss Mildred Fish of Vivian and William R. Henderson, formerly of Newberry, S. C., but now of Vernon, was solemnized Sunday evening, March 10, at 6:30 o'clock at the home of Rev. Robert E. Austin, pastor of the First Christian Church of Vernon, who officiated with the double ring ceremony. The couple was unattended. Those present for the marriage were Mrs. W. O. Fish, mother of the bride, John E. Fish, her brother, and Harry Adams of Waco, an uncle.

The bride was attired in a lovely powder blue crepe dress with pink and black accessories. She wore a corsage of pink carnations. For something old and something borrowed, she wore a cameo necklace, formerly belonging to her paternal grandmother and now belonging to an aunt.

Mrs. Henderson is the daughter of Mrs. W. O. Fish and the late W. O. Fish of Vivian. She is a graduate of Paducah High School and until recently has been employed as secretary of the County Agent of Foard County in Crowell.

Mr. Henderson is the son of Mr. and Mrs. R. L. Henderson of Newberry, S. C., and is a graduate of the High School of that place. He served for more than three years as a Chief Petty Officer in the United States Navy. He received a discharge from the service in October, 1945, and is at the present employed at Krebs Motor Co. in Vernon.

Mr. and Mrs. Henderson have established their residence at 1405 Deaf Smith Street in Vernon.

## Birthday of C. W. Carroll Observed by Family Tuesday

C. W. Carroll was honored by his family on Tuesday night, March 12, his 64th birthday, with a dinner party, with all his children present with the exception of Mrs. Ralph McKewen of Gainesville. Mrs. Carroll was assisted in preparing and serving the dinner by her daughters and daughters-in-law.

Other than the family, guests were Mr. and Mrs. W. R. Ferguson and Mr. and Mrs. Andrew Calvin and children.

Games of 42 followed the dinner. The honoree received many birthday remembrances.

## Foard City WSCS Meets Monday

On Monday, March 11, Mrs. W. L. Johnson was hostess to the Foard City W. S. C. S. The opening song "Ready" was led by Mrs. Virgil Johnson and Mrs. Grady Halbert led in prayer. Mrs. W. L. Johnson introduced the subject of repairing the parsonage and plans were made to start a parsonage fund with which to do some of the necessary repairing and redecorating.

Mrs. Luther Marlow gave the devotional for the day. She used as her scripture, the 23rd Psalm with emphasis laid on the fourth verse. Mrs. Grady Halbert discussed the growth of the Israelite conception on a monotheistic worship. Bible passages from the book of Isaiah showing the prophetic teachings of one God for all the world even before the coming of Christ were read. Her discussion was based on the second chapter of "The Servant of the Lord" of the book "One God—One World."

With those present reading various Scriptures, Mrs. Blake McDaniel brought the second part of the Bible study. She brought out the foretelling of Jesus Christ by the prophet Isaiah.

An offering was taken in observance of the World Day of Prayer and Mrs. J. M. Barker dismissed the group with prayer. The hostess served coffee or cocoa and cake as refreshments.

Three thousand and five hundred tug boat strikers tied up the activities of 6,000,000 residents of New York City and forced a yielding to their demands before they would permit fuel or food to enter the city. The disposition of organized minorities to black jack the country continues to grow.

## Floyd Wisdom Weds Miss Bette Weeks in Goodland, Kan.

In a quiet wedding, marked by simplicity, Miss Bette Weeks, daughter of Mr. and Mrs. Richard Weeks of Limon, Colo., became the bride of Floyd Andrew Wisdom, BM 2-C, son of Mr. and Mrs. A. B. Wisdom of Thalia on Monday afternoon, March 4, at the home of Miss Dorothea Templeman of Goodland, Kan. Rev. N. E. Deechman, pastor of the Church of Christ of Goodland, performed the ceremony.

The bride was given in marriage by her father. She was dressed in a navy blue street-length dress, with which she wore white accessories. Her only ornament was a string of pearls, a gift of the groom. She carried a bouquet of red sweetheart roses. Miss Helen Murchison of Limon, Colo., was maid of honor. She wore a pink crepe dress with navy accessories and her corsage was of white carnations. As bridesmaid, Miss Dorothea Templeman wore a lime yellow dress and black accessories and wore a corsage of white carnations.

Tommy Withers was best man. Mrs. Helen Caffey played the traditional wedding marches.

Following the marriage, a reception was held in the home of Mr. and Mrs. Johnny Matthews. The wedding cake featured the table appointments.

Mrs. Wisdom attended school in San Diego, Calif., and Mr. Wisdom is a graduate of Crowell High School. The couple is visiting now in the home of the groom's parents in Thalia. They will leave for Shoemaker, Calif., following the visit.

## Cub Scouts Give Party for Girl Scouts

The Cub Scouts, under the direction of their Cubmaster, C. P. Sandifer, entertained both troops of the Crowell Girl Scouts with a wicker roast Friday afternoon at the Cub Hut.

After a short impromptu program rendered by the Cubs, wicker was roasted over a camp fire. These were served by the Cubs to the Girl Scouts.

Those present were about fifty Cubs and Girl Scouts and Mr. and Mrs. C. P. Sandifer, Mr. and Mrs. Virgil Smith, Mrs. Joe Smith, Mrs. R. R. Jones and daughter, Shirlene, Mr. and Mrs. Bob Abston, Mrs. Herman Kincheio, Mrs. Claudius Carroll, Mrs. Charlie Carroll, Grady Graves and the Girl Scout leaders, Mrs. Alton Bell and Miss Frankie Kirkpatrick.

FIRST POSTWAR REGATTA . . . The National Midwinter regatta, held recently on the shores of Los Angeles, drew more than 75 crack sailing crafts from Pacific coast points, in a three-day meet. Many classes of the trim boats were represented in the colorful sailing event, the first since the start of the war. The event was sponsored by the Los Angeles Junior Chamber of Commerce and Southern California Yachting association.

## Co-Laborers' Class Has Social Meeting

The Co-Laborers' Class of the Methodist Sunday School met in the monthly social meeting and study at the home of Mrs. Clint White on Thursday evening, March 7, with Mrs. Herman Gentry, Mrs. A. Bracewell, Mrs. Ralph McKewen and Miss Nora Banister as hostesses.

The book of Leviticus was studied with Mrs. T. B. Klepper, Mrs. Will Erwin, Mrs. R. R. Magee, Mrs. A. Y. Beverly taking parts in the discussion with a round table consideration also.

After the business had been transacted the hostesses served a delicious ice course to those present.

### ADELPHIAN CLUB

Mrs. T. N. Bell and Mrs. J. A. Stovall were hostesses to the Adelpian Club on March 6th, when the annual Texas Day program was observed. Mrs. W. B. Johnson was leader. Mrs. R. R. Jones, accompanied by Mrs. William Ricks, sang two Texas songs, "Have You Ever Been to Texas in the Spring?" and "Beautiful Texas."

Mrs. Johnson gave an interesting review of J. Frank Dobie's

## New Picture, "They Were Expendable," Coming to Rialto

In line with the policy that great books make great films, MGM adds "They Were Expendable" to its impressive list of picture adaptations of best sellers.

"They Were Expendable," co-starring Robert Montgomery and John Wayne, which will open at the Rialto Theatre at the Saturday night preview, March 16, running through March 17 and 18, was adapted from Wm. L. White's best selling narrative of the part played by Torpedo Boat Squadron No. 3 in the Philippine campaign. The plot follows the heroic action of this gallant group throughout the many phases of the battle. These are the men who enabled high ranking officers to escape on a perilous trip from Batavia under the noses of Japanese destroyers; the courageous few who had to be "expendable" in order to slow the Japanese offensive. Only a few of the squadron survive but this powerful story of their courage and devotion to duty will live as a saga of grim bravery.

Along with this film the local theatre will show the pictures of the men and the women who left Foard County in the service of their country and, in this small way the theatre would like to welcome each one back, who has returned home, and pay homage to those who will not return.

Roll call "Men of World War II" proved to be an interesting feature of the meeting. Mrs. T. L. Hughton was leader for the afternoon.

"Roosevelt" was the subject discussed by Mrs. T. L. Hughton. She stated that Roosevelt loved life and humanity and in turn was loved by people throughout the United States. He worked with courage to fight the enemies and to restore peace to the nation.

Several of the members gave interesting comments on Winston Churchill.

Mrs. Crews Cooper discussed the life of Joseph Stalin. She said that Stalin is the man who took over the Russian Revolution and made it work. He is the creator of the iron age, the genius of the Five Year Plan, and the man who, by industrializing Russia, made socialism possible in a single state.

Discussing the life of Chiang Kai-Shek, Mrs. Carvel Thompson stated that he is very devoted to his country, and that he has done much for China and the Chinese people.

Mrs. S. J. Ferguson gave an interesting talk on President Truman. He worked under Roosevelt as Vice President. She stated that President Truman realized the responsibilities that he assumed when he became president; in fact, he said he felt that a heavy load had fallen on his shoulders.

"Our Secret Weapon" was the topic discussed by Mrs. D. F. Eaton. She stated that our secret weapon was "an American Boy."

Mrs. Floyd Borchardt, in discussing the article "Bad Boys can be Made Over," said that the boys are usually brought to the school, New York P. S. 37, by a truant officer. She stated that New York P. S. 37 is a school for boys who have played truant, assaulted teachers and kept class-
