

THE FOARD COUNTY NEWS

AND CROWELL INDEX

CROWELL, FOARD COUNTY, TEXAS, THURSDAY, SEPTEMBER 18, 1947

EIGHT PAGES

Three Regional Exhibits Will Be Added to State Fair

Dallas, Sept. 15.—Three regional exhibits will dramatically portray the great agricultural and industrial wealth of Texas at the forthcoming State Fair of Texas, Oct. 4-19. They will be found in the State Fair's magnificent Hall of Agriculture.

Sprinkling the county exhibits of former years, these exhibits will be attractive, co-ordinated pictures of the resources of East Texas, the Lower Rio Grande Valley and South Texas.

Utilizing "Balance Agriculture with Industry" as its theme, East Texas will present a comprehensive picture of its agriculture and industry. The exhibit, sponsored by the East Texas Chamber of Commerce, will show virtually every manufactured product of that 72-county region, through the use of photoette miniatures.

The agricultural phase will show cotton, sweet potatoes, corn, tomatoes, blackeyed peas, peaches, fruits and truck vegetables raised in this region.

An equally spectacular exhibit, in an area covering 2,800 square feet, the Lower Rio Grande Valley's year-round production of fruit, truck vegetables, and cotton will be shown. Bearing citrus trees and live palm trees will be seen in the State Fair.

Another big exhibit, comprised of 24 huge sections, will portray the agricultural prowess of the South Texas region in the Hall of Agriculture. There will be displays devoted to chemurgic developments, the Luling Foundation, Texas A. & M. College, the Agricultural Experiment Stations at Beaumont and Winter Haven.

Others will point to the progress made in dairy and poultry industries, including the development of the broad-breasted turkey, and still others depicting the wool and mohair industry in this region.

West Texas will be represented by the Hansford County exhibit, showing its fine variety of wheat, Hereford cattle, and farm products.

HOLLAND CHEESE AUCTION . . . Every Friday morning during the summer, thousands flock to the cheese market at Alkmaar, Holland, where for centuries the famous, delectable cheeses from north Holland are auctioned off. This year, Dutchmen can only look at their cheeses. They get none to eat, because the bulk of the cheese produced is being shipped overseas to speed the country's postwar economic recovery. Here, cheese carriers move a 300-pound bier of cheese to the scales.

Floydada Team Defeats Crowell Wildcats 33 to 0

The game inexperienced Wildcats, Crowell High School football team, was defeated 33 to 0 by the Floydada Whirlwinds here last Friday night in the opening game of the 1947 season for both teams. Crowell defeated this team by two touchdowns last year at Floydada, but it was a different story last Friday night. The Crowell boys, playing with only one regular, Thomas Tamplen, from last year's squad were outweighed by eight pounds to the man. The Floydada team is studded with regulars from its last year's championship team. However, they lose their entire eleven off of this squad at the end of this season. These teams have broken even in their opening games for the past ten years.

The game was played on even terms during the first quarter, with neither team being able to score and each chalking up two first downs. The Whirlwinds got started in the second quarter and drove down field on ground plays to send Ray Jones, quarterback, over from the two-yard line for the first touchdown. Jake Connor kicked the extra point to make the score 7 to 0 at half time.

The Floydada boys scored twice more in the third quarter to make the score 19 to 0. Coach Scott Whitaker began to substitute Crowell reserves freely at this point to give all members of the squad some experience.

Thomas Tamplen, Grover Yocham and Ray Black looked the best on defense for the Crowell team. Dalton Biggestaff was on the business end of several offensive plays that netted first downs for Crowell. The Wildcats did not threaten to score during the entire game. Each Coach used twenty-two players in the contest.

The Wildcats play one more exhibition game before opening their district play at Holliday next week. They journey to Paducah tomorrow night to play the Paducah Dragons. This is the first time Crowell and Paducah have played one another in football since 1942. Paducah, like Floydada, has about ten or twelve lettermen back from its last year's squad. The Dragons defeated the Chillicothe Eagles by a 20 to 6 score last Friday night at Chillicothe.

Coach Whitaker plans on starting the same line-up that he started last week against Floydada unless Fred Glover is unable to play the right tackle position. Glover received a back injury on the second play of the game last Friday night and was unable to play any more in that game. It is doubtful whether he can start the game at Paducah. Mark Hill Taylor will likely start in Glover's place.

Dr. R. L. Kincaid Retires as Active Official in Bank

Dr. R. L. Kincaid has retired as an active official of the Crowell State Bank. Merl Kincaid, active vice president of the bank, has assumed the duties formerly performed by his father. Dr. Kincaid will retain his office as president of the bank, but will devote his time to other business interests.

Miss Dorothy Pechacek is a new employee in the bookkeeping department, and Miss Fay Griffin, formerly employed in the bookkeeping department, has been promoted to assistant teller.

No other changes have been made in the bank personnel.

Former Crowell Man Seriously Burned Last Friday

Ernest Spears of Altus, Okla., son-in-law of Mrs. P. H. McLain of Crowell, a welder for the bureau of reclamation, was seriously burned last Friday when a spark from his cutting torch ignited a gas tank on a nearby truck at the bureau of reclamation shop in Altus.

Spears received burns on three-fourths of his body and suffered shock. Five or six other men working nearby in the open air yard escaped injury.

Mrs. McLain and family have been in Altus most of the time since Mr. Spears was injured and Clinton McLain reported Tuesday morning that he was making a satisfactory recovery.

Pioneer Settler of This Section Moves to Plains

Mrs. A. A. Reynolds, resident of Crowell for many years, left Monday with her son, Harry Reynolds, for Denver City on the South Plains, where she will make her home. Mrs. Reynolds came to what is now Foard County with her parents, the late Mr. and Mrs. W. M. Snyder, and the family settled on Pease River near the mouth of Mule Creek in December, 1878. She was 12 years of age at that time and has lived in Foard County most her life.

Mr. Reynolds has just completed a new home for his mother in Denver City.

Grandson of Crowell Couple Drowns in Colorado River

Search continues for the body of Alvin Langston, age 27, grandson of Mr. and Mrs. W. L. H. Johnson of Crowell, who was drowned in the Colorado River near Blythe, Calif., on Aug. 31.

He was born Oct. 25, 1920, at Thalia, Texas. He served four years in the Navy and was discharged in 1946.

Survivors include his mother, Mrs. Zeba Langston, and brother, Bill Langston, of Henrietta, and his father, G. R. Langston, of Wichita Falls, and his grandparents, Mr. and Mrs. Johnson of Crowell.

At the time of his death he was employed as floor man at the Gold Banner Packing House at Redlands, Calif. He was a member of the Methodist Church at Tolbert, Texas.

Meeting Called to Consider Organizing P-T Association

A meeting will be held in the high school auditorium this afternoon at 4 o'clock to consider the re-organization of the local unit of the Parent-Teacher Association in Crowell. It was announced Monday by Mrs. Van Browning of Truscott, district vice president of this county.

Anyone interested in P-T. A. work should attend this meeting and lend assistance to the organization of a local unit.

Mrs. Browning stated that there would be out-of-town speakers present and a good attendance is expected.

Petit Jurors to Appear in District Court on Sept. 22

The following list of petit jurors are to appear for duty in the September term of District Court at 10 o'clock on Sept. 22, 1947:

J. D. Huskey, Walter Streit, Walter Ramsey, L. E. Ward, H. R. McLain, R. E. Manard, M. A. Miller, J. E. Roark, Antone Kajs, S. B. Farrar, Wayne Gamble, R. G. Gribble, E. R. Roland, C. L. Adkins, W. B. Fairchild, Glen Goodwin, Warren Everson, E. D. Kainer, C. W. Ross, Fate McDougle, Earle Ingle, Edgar Long, Clyde Owens, Oran Ford, J. F. Matthews Jr., Bud Temple, J. C. Prosser, R. T. Carroll, Willie Cato, C. E. Blevins, Geo. Davis, H. C. Edwards, Ray Hysinger, L. B. Smith, W. C. Self, J. P. Rader.

Bluestone Makes Clean Water Troughs

Here's some dope you want to hear, especially if you've been wondering about the best way to clean out your stock troughs, reservoirs or ponds that are clogged up with green scum or slime. Chemists and engineers of the Texas A. & M. College Extension Service have had a look into this trouble, and they say that for troughs and small reservoirs, your best bet is simply to put a cover or roof over the water to keep out sunlight, according to Joe Burkett, county agent.

But there's also a chemical you can use to kill green scum. It's copper sulphate, which you probably know by the old familiar name—bluestone. You have to be careful with bluestone, however, since it is harmful to stock, fish and humans if you get too much in the water. Safe bluestone dosage is one level teaspoonful for 1,500 gallons of water, or one ounce for 8,000 gallons, eight pounds for a million gallons, if you want to treat that much water.

Now, after mixing the bluestone. Dissolve the right amount of the chemical in a wooden, stoneware or enamel ware container, not just a plain bucket. Then stir into the water to be treated. You can splash the bluestone water on trough walls to kill any scum that has formed there.

For treating larger bodies of water, the bluestone can be put in a sack and dragged through the water from a boat until it is all dissolved.

every district but one is far above marks for the same period last year.

Veterans News

World War II veterans who renounce disability payments for any reason do not lose their rights for them or their dependents, the Veterans Administration has ruled.

VA said these veterans may apply for disability compensation or pension at any time in the future and that approved awards will be payable from the date of the second application, but will not include retroactive payments covering the period the renunciation was effective.

VA's ruling is of particular interest to disabled veterans who desire to enroll as officers or enlisted men in the National Guard or Naval Reserve. They may enlist in these units under the law only by waiving their disability payments. Reserve officers are not subject to this restriction, but while receiving active service pay, they may not also receive compensation or pension.

Almost as many World War II veterans will be alive at the turn of the 21st century as there are living veterans of World War I today, according to the latest Veterans Administration estimate.

VA computes 3,400,000 War II veterans will be alive in the year 2000. The number of War I living veterans as of June 30, 1947, was 3,727,000.

However, although the average age of War I veterans now is approximately 54 years, the average age of the War II veterans expected to be living in the year 2000 will be slightly over 77 years.

The War II figures come from a projection that VA made to determine that its administrative and operating requirements for these veterans will be in the future.

The projection begins with the potential War II veteran population of 16,051,000 as of July 25, 1947. The average age of this group of that date was 28.6 years.

The projection ends with the year 2030 when VA expects less than a thousand War II veterans to be alive, averaging 104 years of age.

According to a report issued by the U. S. Interior Department the fuel oil situation for the coming winter "looks tough." The shortage is said to be caused by the lack of steel to build storage tanks, tank cars and drilling equipment. Representatives of the Interior Department even go so far as to predict that some homes dependent on fuel oil for heat will be cold next winter.

Mrs. J. N. Nislar Dies at Home in Lubbock Monday

Mrs. J. N. Nislar was taken from Lubbock where she had been for the past two weeks with Mrs. J. N. Nislar, who passed away at the Nislar home Monday morning following an illness of long duration. Funeral services were held Tuesday afternoon and interment was made in Lubbock.

Mrs. Nislar formerly resided in Gainesville but has lived in Lubbock for the past twenty-three years. She had visited in the home of Mr. and Mrs. Klepper numbers of times and had many friends here.

Survivors are two sons, Oscar and Joe Nislar, of Lubbock; four grandchildren, three great grandchildren and one sister, Mrs. Oscar Peery, of Lubbock.

John Calvin Carter Gets Appointment to Military Academy

Congressman Ed Gossett Tuesday nominated John Calvin Carter of Crowell for appointment as principal candidate for admission to the United States Military Academy as a cadet for the 1948 session, according to a letter received from Mr. Gossett of Wichita Falls Wednesday.

Carter is now on active duty in the Army. If he qualifies physically he will be transferred to the Military Academy Preparatory School for special preparatory instruction pending his entry to the Academy on July 1, 1948.

He is the grandson of Mr. and Mrs. J. H. Carter of Crowell.

GRAND JURY REPORT

State of Texas,
County of Foard.
In District Court of Foard County, Texas, September term, 1947.
To the Hon. Judge C. Y. Welch, judge of said court.
The grand jury begs to report to the court that it has been in session one day and having investigated all matters coming to its attention makes this report.

The grand jury finds one true bill and passes one case for further investigation due to the absence of what may be an important witness.

Having finished our labors, we beg to be discharged for the term.
Otis Gafford, Foreman.

ROTARY CLUB

J. C. Autry Jr., junior Rotarian from the Crowell High School, was introduced at the Friday noon meeting of the Crowell Rotary Club at the DeLuxe Cafe. J. C. has been selected to attend the Rotary meetings for a period of three months.

Visitors at the Friday meeting were Clayton Edwards and Rotarian Vance Favor of Quanah.

With Jeff Hardin as program chairman, Rotarian Hubert Brown conducted a musical program with Rotarians present furnishing the music. The first number was a quartet by Merl Kincaid, Herbert Edwards, James Weiss and Mr. Brown, followed by another one rendered by Joe Burkett, J. C. Autry, Jeff Hardin and Jim Catos. Lizzie Fisch and Weldon Johnson sang a duet with the following group rendering a selection. First group, Fred Carr, J. A. Stovall, Jack Seale, Clayton Edwards; second group, Richard Ferguson, Luke Archer, Marion Crowed, Grady Graves, W. F. Kirkpatrick; third group, Rev. N. B. Moon, Rude Maizee, Vance Favor, T. B. Klepper; fourth group, George Self, Elmo Hudgins, Grady Halbert and Virgil Smith.

ATTEND BURROW FUNERAL

The following out-of-town relatives and friends attended the funeral of E. W. Burrow here Tuesday of last week:

Mr. and Mrs. Crawford Burrow and two sons of Brownfield, Mr. and Mrs. Ted Burrow of Lubbock, Mr. and Mrs. Ralph Burrow and two daughters of Fort Worth, Mrs. C. C. Bowers of Greenville, Mrs. Alice Linton, Mrs. Bill Holcomb and daughter of Ector, Ott Burrow of Roanoke, Texas, Mrs. A. G. Bratcher of Denton, Henry Burrow of Tulsa, Okla., Mr. and Mrs. H. S. Chandler and son, Mr. and Mrs. Vernon Pyle, all of Wichita Falls; Mr. and

ENROLLS AT NEW KENNY FOUNDATION . . . Helping little Charlotte Jarenko take her first steps with the aid of crutches after she was stricken with polio is Shirley Ashlund of Chicago, first Illinois nurse to be enrolled by the recently dedicated chapter of the Elizabeth Kenny foundation at Centralia, Ill. Following 13 months' training in the Kenny institute at Minneapolis, she came to Centralia to complete her two-year course.

Gilliland Couple Are Building New Home in Crowell

Mr. and Mrs. Roy Fox of Gilliland are building a new home in Crowell on lots formerly occupied by the residence of the late Mrs. J. M. Allee in the northeast part of town. The house will be a 5-room structure with a double garage and 14-foot screened-in breezeway connecting the house and garage.

The roof will be covered with Flintcoast composition and asbestos siding will be used on the outside walls.

Leotis Roberts is in charge of the construction work and is being assisted by Sheldon Ferguson, C. C. Joy and L. D. Fox. Ed McDaniel is doing the plumbing work.

Mr. and Mrs. Fox have sold their farm home in the Gilliland community but do not give possession until Jan. 1, 1948.

Joe Y. Roberts Seriously Injured in Car Accident

Joe Y. Roberts of Fort Worth, son of Mr. and Mrs. N. J. Roberts of Crowell, was seriously injured when his car was sideswiped by another car near Harold last Thursday. One of his arms was badly crushed and he suffered from shock.

Mr. Roberts was en route to Crowell to visit his parents. He was returned to a Fort Worth hospital, accompanied by his father, and is reported to be doing as well as could be expected.

Attend Observance of Brother's 65th Wedding Anniversary

Mr. and Mrs. J. N. Ribble have recently returned from Graham where they attended the celebration of the sixty-fifth wedding anniversary of Mr. Ribble's brother and his wife, Mr. and Mrs. S. L. Ribble.

The observance took place within 100 yards from the scene of the wedding near Graham. The couple have had eleven children, ten of whom are living and eight of whom were present on this occasion.

A large number of relatives and friends were present for the celebration. E. L. Ribble and wife of Vernon, another brother of S. L. Ribble, attended.

Jim Naron Raises Fine Tomato Crop

Jim Naron has raised a fine tomato crop on his place on Pease River this summer without irrigation. He brought some samples to the News office last week, the largest of which weighed one and one-fourth pounds. They were not only large but delicious in taste.

Mr. Naron said that the family had been well supplied with tomatoes since they began to ripen and that 150 jars had been canned and some had also been used for preserves.

Mrs. J. D. Bowers Dies in Wichita Falls

Mrs. J. D. Bowers of Beaumont, step-mother of Mrs. Homer Johnson of Crowell, died at the home of her son, Raymond Bowers, in Wichita Falls at 5 o'clock Sunday afternoon.

The body of Mrs. Bowers was returned to Beaumont for burial. Mrs. Johnson was accompanied to Wichita Falls Sunday by her husband who returned home that night. She went on to Beaumont to attend the funeral.

Mrs. Sam Whatley and daughter, Mrs. J. T. Netta and children of Mineral Wells, Mr. and Mrs. A. M. Bryson of Graham, Mrs. Vern Walden of Chillicothe, J. R. Carnley and E. G. Travis of Amarillo, Mrs. Fannie Lee of Brownfield,

UNCLE SAM SAYS

Uncle Sam Says

Millions of my young nieces and nephews are returning to school to learn from their teacher, schoolmates and books a way of life. Besides grammar, history, arithmetic, other courses, they will come face to face with sportsmanship, honesty, self-reliance and the habit of thrift. Facts crammed into the heads of Willie and Jane will come in handy, but that is something which will be vital to their well-being every day of their lives. Of course the habit of thrift may be acquired in many ways, but a sure way is the participation in the United States Treasury Department's School Savings Program.

Dozens of Stars in "Variety Girl"

"Variety Girl," Paramount's spectacular, all-out musical comedy that has been eagerly awaited ever since the announcement of its going into production, will open Sunday, Sept. 21st at the Rialto Theatre, and now it can be reported that the waiting has been richly rewarded. The star-studded, laugh-filled and melodic extravaganza has just about everything desirable in motion picture entertainment. The list of over forty top-ranking stars, never before seen in one picture, is staggering. This is a fair sampling of the cast: Bing Crosby, Bob Hope, Ray Milland, Alan Ladd, Gary Cooper, Barbara Stanwyck, Paulette Goddard, Dorothy Lamour, Sonny Tufts, Burt Lancaster and Billy De Wolfe. This list, we hasten to add, is a partial one. Practically every Paramount star on the lot contributes something to the film. "Variety Girl" is the story of the first founding adopted by the Variety Clubs International, an organization of showmen who comes to Hollywood with aspirations toward a screen career. She finds herself on the Paramount lot, at Grauman's Chinese Theatre, the Brown Derby and the Cocoanut Grove, and runs into all the stars who help make the picture what it is. Lovely Mary Hatcher, teen-aged star of the Broadway musical, "Oklahoma," plays the title role, with Olga San Juan and De Forest Kelley also prominently involved in the plot. The final touch to this wondrous film is the most tuneful collection of song hits, including "Tallahassee," that ever set an audience's feet to tapping.

MARGARET

(By Mrs. S. B. Middlebrook)

Mr. and Mrs. S. T. Monkees of Vernon and Mr. and Mrs. Clyde Johnson of Houston spent Tuesday with their daughter and sister, Mrs. Ray Hysinger, and husband.

When Your Back Hurts
And Your Strength and Energy Is Below Par

It may be caused by disorder of kidney function that permits poisonous waste to accumulate. For truly many people feel tired, weak and miserable when the kidneys fail to remove excess acids and other waste matter from the blood.

You may suffer nagging backache, rheumatic pains, headaches, dizziness, getting up nights, leg pains, swelling. Sometimes frequent and scanty urination with smarting and burning is another sign that something is wrong with the kidneys or bladder.

There should be no doubt that prompt treatment is wiser than neglect. Use Doan's Pills. It is better to rely on a medicine that has won country-wide approval than on something less favorably known. Doan's have been tried and tested many years. Are at all drug stores. Get Doan's today.

Your home needn't be NEW to be ALL-ELECTRIC

IT IS not necessary to build a new home to enjoy all the comforts and conveniences of living electrically. Your present home—whether it's castle or cottage—can be an ALL ELECTRIC home. With adequate wiring, and the new electrical appliances now coming on the market in ever increasing numbers, any home can be made a modern, all electric home with the resulting time and labor saving advantages—the added beauty, comfort and convenience.

Electric service is today's biggest bargain! The average cost of a kilowatt hour of service to residential customers has decreased 32.6 per cent since 1933.

M. G. Garvin of Dallas visited his wife and family here over the week-end.

Uncle Sam Says

"What's in it for me?" Any time you buy something or invest money in something you should ask this question and get a gilt-edge answer. Supposing a U. S. Savings Bond could talk—it would say: "Here's what's in it for you. When you exchange your money for me you get for yourself these things: future security, safety of your investment, profit (\$4 for \$3 in 10 years), the means to take advantage of opportunities, a nestegg to handle any emergencies." U. S. Treasury Department

VETERANS'

QUESTIONS AND ANSWERS

Q. I have been drawing \$57.50 each month from my \$10,000 war-risk insurance policy since my discharge from the Army after World War I. Are such payments discontinued when the \$10,000 is exhausted?

A. No. Payments may be continued for the remainder of your life provided your total disability remains unchanged.

Q. How often can I get on the rolls to receive unemployment allowance?

A. You may be placed on the rolls to receive unemployment allowance as many times as necessary until you have exhausted your period of entitlement.

Q. Why do I have to pay two monthly premiums instead of one when I reinstate my National Service Life Insurance policy?

A. One premium is for the 31-day grace period following the date of lapse, during which the insurance was continued in force without payment of premium; the other is for the current month of the reinstatement.

Q. If I use part of my Armed Forces leave bond to pay my insurance, can I receive the balance in cash?

A. No. The remainder of your bond is placed to your credit until such time as it becomes payable in cash, or you authorize further premium payments from the balance of your credit.

Q. My son, a World War II veteran, is in a VA hospital and I would like to know if I can visit him every day.

A. Yes. All Veterans Administration hospitals have special hours set aside each day for visitors the same as civilian hospitals.

make it unavoidable.

Other innovations are also being used in an attempt to help the hard-pressed consumer. Many food retailers, for instance, are offering plainly-marked, lower priced meats and are featuring alternate foods for buyers who cannot afford Grade A prices. Merchandisers in other lines are performing similar services.

A retail association reports that fewer consumers are blaming stores for high prices than in the past. That is a healthy sign, and shows that the public is learning an important lesson. High prices are the result of many causes, some extremely complex, and to lay the blame on any group or any organization is unjust. It is especially unfair in the case of retailers, who cannot control wholesale prices, and must pay the going rate for their stock of goods. Every intelligent retailer would like to slash his prices now—but it just can't be done.—Industrial News Review.

Quarter Horses and Palominos to Compete at State Fair

Dallas, Sept. 7.—Speedy, intelligent Quarter Horses and graceful Palominos from every section of Texas and the Southwest will compete for top honors and \$6,000 in premiums during the 1947 State Fair of Texas, Oct. 4-19.

First of the two spectacular horse shows is the Palomino Show, Oct. 4-10. In this event golden horses will demonstrate the skill, grace and beauty which inspire their popularity on both range and bridle path, at halter and in a variety of performance classes. Halter classes are to be judged on Oct. 5, with performance show judging following on Oct. 6 and 7.

Quarter Horses will be on parade from Oct. 11 until Oct. 19. The speed, maneuverability and alertness to command of the range country's top ranking cow horses will be judged on Oct. 17 for halter classes and Oct. 18 and 19 for performance show events.

J. T. Boothman of Fort Worth, president of the sponsoring Texas Palomino Exhibitor's Association is superintendent of the Palomino Show. Champion golden horses will receive special trophies, offered by the exhibitor's association. The Palomino Show has been added this year to the State Fair's livestock program in response to wide-spread demand.

IT CAN'T BE DONE

Who's worried about high prices? You, the consumer, naturally are. And you aren't alone. So are the manufacturers who produce the goods you buy. And so are the retailers who sell them to you.

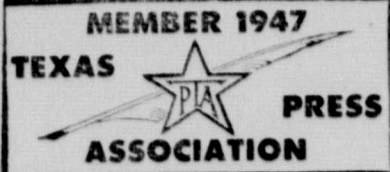

Retailing in general has held to a consistent policy during post-war price inflation. The policy was developed by the chain systems, and thousands of independents of all kinds and sizes have voluntarily adopted it. It consists of increasing operating economy to the highest possible level, to hold unit profits to the lowest point consistent with sound business practice, and to raising prices only when higher wholesale prices

Look to yourselves, that we lose not those things which we have wrought, but that we receive a full reward.—Second John 8.

It is a mistake not to teach young people to work. It is a mistake to think that a young person can idle his young years away and then step out of school into a position and successfully discharge its duties.

Notwithstanding a lot of horse play that goes on among some of the delegates at the American Legion Convention there is a lot of sound Americanism preached.

The economists tell us that the dollar is now worth 63 cents. That may be the general average, but we are inclined to doubt it.

HISTORY

Birthday of James Whitcomb Riley—October 7: James Whitcomb Riley was born in Greenfield, Indiana, on October 7, 1839. His death occurred in 1916. Riley is one of the few men in history, the public celebration of whose birthday, began while he was still living.

The best old age security any man or woman can secure for themselves is a good trade. The longer it requires to learn the trade the better it will be, for the reason that there will be less competition.

We've often heard the expression "working himself to death," yet the healthiest persons we know are the ones who work the hardest.

After some women get their husbands reformed to suit them the husbands are no one ever notices that they are around.

What We Think (By Frank Dixon)

Margaret Truman, daughter of President Truman, made her debut the other evening before a crowded Hollywood bowl.

It goes without saying perhaps that, included in the crowd of eighteen or nineteen thousand persons, were those who had come out of curiosity to hear the daughter of the President sing, as well as those who had a desire to hear her voice in song, and appraise her talent.

The critics were both fair and kind. They expressed their opinions frankly and honestly, praised where praise was merited, and criticized where criticism was merited.

The fact that Miss Truman made her first appearance in the famous Hollywood bowl is not so important as is the thing that the appearance reveals.

Miss Truman, although she is the daughter of a President and might, without criticism have given herself over to the social life of Washington, traded on her father's official rank and position, and has chosen to live and make her own life and create for herself her future world.

She has chosen music and for a number of years has given it her time and her effort. It has been the aim and the goal of her future. She has worked diligently, and seriously, and long, to achieve for herself a place through her own talents and her own efforts.

Her father's unexpected elevation to the highest position in the gift of the people of this coun-

try, and her own recognition, has not changed her in any way. She is still Margaret Truman of the small Missouri country town, a typical wholesome energetic, ambitious American girl.

Because of her energy, her sincerity and her unaffected manner, the best wishes of everyone in this nation go with her.

As her goal she has chosen the class of music known as the classic. It will never be heard from juke boxes or hold the spotlights of the stage and the screen.

I think the example of Margaret Truman possesses something of a challenge to every young person today. All over this great country are young women and young men, who, because of family circumstances, are doing nothing to fit themselves for an independent life. They have no worthwhile ambition to make anything of themselves but social puppets, trained in the arts of social patter, but ignorant of every useful thing.

It begins to appear that owing to the obstruction policies of Russia, the United States, England and France will eventually become the big three with Russia on the outside. The feeling is growing, due to Russia's attitude, that more can be accomplished by the three nations without Russia than can be done by wasting time, energy, and nerve force trying to harmonize her obstructionist views with the views of the rest of the world.

Chancellor Hutchins of the Chicago University makes the announcement that the explosion of two high power atomic bombs would render the United States uninhabitable. He gives the country just five years to get the entire world civilized and halt this kind of thing.

The act of fishing by hand, illegal in most states, is called doodling.

IN THE NEWS 30 YEARS AGO

We wish to express our appreciation for the many deeds of kindness shown to us by friends in our recent sorrow. We also wish to extend our thanks to the doctors and nurses. May God bless each of you. Mrs. Jim Shook, Glenn and Lavoyce.

Wheat Expert Advises Farmers on Good Variety

(From Canyon News) "Wheat quality means gluten strength," according to Keats Soder, director of the Texas-Oklahoma Wheat Improvement Association, Oklahoma City, who made a variety survey of this county just before harvest.

"Some varieties like the old Turkey and the new Comanche and Westar have a strong gluten that will stand the mechanical punning of the commercial bakery where a single dough weighs up to a thousand pounds," explained Mr. Soder.

Other varieties may have the same amount of protein yet their gluten will be weaker, or "mellow" as the baker calls it, and thus be suitable for family-type flour that will be kneaded by hand," continued Soder.

"Wheats in this group are the new Triumph and Wichita as well as the old Early Blackhull. The new wheats are higher yielders and slightly higher in quality. Farmers are pleased with these varieties too, because they are early and stand up better for combining than Early Blackhull," stated Soder.

"Principal offenders among the varieties with a weak gluten are the beardless Chief and Red Chief," according to Director Soder. "Those wheats have such a weak gluten that it won't hold the gas from the yeast finely dispersed throughout the dough. The loaf settles instead of rises, the dough is sticky and ropy, and the loaf turns out small, coarse and heavy. All this means the housewife won't buy the flour or the bread and nobody can blame her."

"Millers and the grain trade generally know where the poor wheat is raised. So far they have been able to buy it all and export the wheat the housewife won't buy. This year for the first time they stayed out of certain areas almost entirely rather than fill their bins with undesirable varieties," advises Soder who is in a position to know. "Our big export demand will fold up over night some one of these times and wheat buyers will be forced to discriminate or go out of business. When that day comes I believe the discounts for undesirable wheats will shock a lot of people," states Soder.

"The job of wheat improvement is really a simple one," believes Soder, who is heading this work. "The new varieties are consistently the highest in yield, good in test weight and stand better for combining, all important to the producer. They are the best in gluten quality too, and will bring top prices for they make the best loaf of bread. Nebraska has 98 per cent good varieties and Kansas has 43 per cent of three now wheats this year. It is our job to catch up," concludes Soder.

Don't look to your retailer to put into effect the major price reductions that people are always talking about and which never occur.

Retailers, large and small, chain and independent, dealing in every kind of commodity, have fought one of the most aggressive battles against price inflation. They are on the firing line—they get every consumer complaint and have an intimate understanding of consumer economic problems. They have used every weapon in their arsenal to hold price increases to the minimum.

But that arsenal is limited. Retailers must pay the going price for goods at wholesale. Like all other business, they must carry heavily increased overhead, in the form of higher wages, rents, taxes, supplies and everything else. They must earn some kind of profit or go to the wall. What they have done is to cut their unit profits to a low figure, and kept down expenses to the limit of their ability. That has saved American consumers untold millions of dollars, and will save them millions more in the future.

Retailers will reduce prices if—and when—wholesale prices and the unavoidable costs of running a store come down. Competition, which grows stiffer every day as more and more goods are produced and the "easy money" dwindles, will take care of that. The price tags on the goods you buy are an honest reflection of today's conditions. Your retailer is not a magician—but remember that he is doing a fine job in providing you with what you want at the

OLD DOBBIN LIGHTS UP . . . In Hempstead, L. I., for one reason or another, a city ordinance was passed requiring that all horses must be equipped with headlights and rear reflectors if they go out after dark. This action immediately gave rise to several million gags, one of which is shown here. Alfred Surridge, manager of a riding stable in Hempstead, hangs a lantern on his nag, while Archie Young Jr. fixes the tailight.

Wheat Expert Advises Farmers on Good Variety

(From Canyon News) "Wheat quality means gluten strength," according to Keats Soder, director of the Texas-Oklahoma Wheat Improvement Association, Oklahoma City, who made a variety survey of this county just before harvest. "Some varieties like the old Turkey and the new Comanche and Westar have a strong gluten that will stand the mechanical punning of the commercial bakery where a single dough weighs up to a thousand pounds," explained Mr. Soder. Other varieties may have the same amount of protein yet their gluten will be weaker, or "mellow" as the baker calls it, and thus be suitable for family-type flour that will be kneaded by hand," continued Soder. "Wheats in this group are the new Triumph and Wichita as well as the old Early Blackhull. The new wheats are higher yielders and slightly higher in quality. Farmers are pleased with these varieties too, because they are early and stand up better for combining than Early Blackhull," stated Soder. "Principal offenders among the varieties with a weak gluten are the beardless Chief and Red Chief," according to Director Soder. "Those wheats have such a weak gluten that it won't hold the gas from the yeast finely dispersed throughout the dough. The loaf settles instead of rises, the dough is sticky and ropy, and the loaf turns out small, coarse and heavy. All this means the housewife won't buy the flour or the bread and nobody can blame her." "Millers and the grain trade generally know where the poor wheat is raised. So far they have been able to buy it all and export the wheat the housewife won't buy. This year for the first time they stayed out of certain areas almost entirely rather than fill their bins with undesirable varieties," advises Soder who is in a position to know. "Our big export demand will fold up over night some one of these times and wheat buyers will be forced to discriminate or go out of business. When that day comes I believe the discounts for undesirable wheats will shock a lot of people," states Soder. "The job of wheat improvement is really a simple one," believes Soder, who is heading this work. "The new varieties are consistently the highest in yield, good in test weight and stand better for combining, all important to the producer. They are the best in gluten quality too, and will bring top prices for they make the best loaf of bread. Nebraska has 98 per cent good varieties and Kansas has 43 per cent of three now wheats this year. It is our job to catch up," concludes Soder.

Pyrorrhea Is Not Incurable, State Health Officer Says

Austin.—Contrary to the popular belief that pyrorrhea is incurable, this is only true in the most advanced cases, Dr. Geo. W. Cox, State Health Officer, advises those persons who even suspect the presence of pyrorrhea to seek an early diagnosis from their dentist so that proper treatment can be instituted while the disease is still curable. "Early detection and proper treatment of pyrorrhea represent the formula for a successful cure. This means that the dentist must have an opportunity to discover the presence of the disease at the earliest possible moment since the symptoms are often so vague that the patient is unaware of its existence," Dr. Cox said. "Regular visits to the family dentist are therefore extremely important." The treatment of pyrorrhea is not an involved procedure. In the average early case one of the main therapeutic features is the proper hygienic care of teeth and gums as outlined by any reputable dentist. Carelessness regarding mouth hygiene is usually the basic cause for the condition. The family dentist can usually remove the cause of the trouble, Dr. Cox said, and when this has been done, intelligent routine home care of the mouth by the patient will effect a cure in the majority of early cases. Bill Klepper of Dallas spent the week-end at home. Mr. and Mrs. Charlie Thompson Jr. left Sunday morning for Austin where they will attend the University of Texas. Mrs. W. L. Thurston returned home Tuesday night from Lubbock where she visited her daughter, Mrs. Bob Beck, and family. R. L. Ballard and M. W. Waggoner went to Abilene Sunday where they enrolled in Hardin-Simmons University Monday morning. They were taken to Abilene by George Meason. Mr. and Mrs. W. B. Johnson and Mr. and Mrs. Bert Ekern and children have returned home from Roundup, Mont., where they spent the summer at the Johnson ranch. Lowest price now possible.—Industrial News Review.

A TIMELY SUGGESTION Let us take care of your INSURANCE NEEDS We write all kinds of insurance. See Leo Spencer or Nelson Oliphant Phone 56 Office North Side of Square

Uncle Sam Says

Millions of my nieces and nephews are increasing their take-home pay by the simple automatic Payroll Savings Plan. Let's take one example. Suppose you tell your employer that you want to take \$6.25 of your weekly pay in Bonds. In three weeks the accumulation of \$18.75 will buy one \$25 Savings Bond. Merely by holding these bonds to maturity in 10 years you are raising your take-home income \$2.08 every week. It is obvious that the so-called deduction for Savings Bonds is not a deduction but a way for you to store up and increase your earnings for your future use. U. S. Treasury Dept.

SANTA FE CARLOADINGS

Santa Fe System carloadings for week ending September 13, 1947, were 29,323 compared with 25,788 for same week in 1946. Cars received from connections totaled 11,641 compared with 11,728 for same week in 1946. Total cars moved were 40,964 compared with 37,516 for same week in 1946. Santa Fe handled a total of 37,094 cars in preceding week of this year.

MISTAKEN

"The people who were saying, a few years ago, that the days of the passenger trains were numbered, will have to change their minds. They forgot to take into account that, in a country in which individual initiative and private enterprise are the guiding principles, wonders and miracles have a habit of happening."—Cincinnati, Ohio, Times-Star, July 31, 1947.

The U. S. Department of Agriculture has recently issued a book on canning, giving the latest scientific advice, for only five cents. The information is contained in Bulletin A 18-64 available from the Superintendent of Documents, U. S. Government Printing Office, Washington 25, D. C.

Illinois has just finished harvesting one of the largest peach crops in recent years. The crop was estimated at 2,300,000 bushels, worth about \$6,000,000. Wholesale prices ranged from \$2.25 to \$2.50 a bushel.

The experts say that a dollar today is worth about as little as it will be at any time until the next war or until an inflation that might follow a deep depression that might occur.

Only three states in the nation do not require driving tests before an automobile driver's license is issued. They are: Kansas, South Dakota and Missouri.

Hawaii produces 90 per cent of the world's pineapple.

ANNOUNCEMENT

We wish to announce to our many friends and customers that a half interest in this drug store has been sold to Fred Youree, a registered pharmacist, who comes to Crowell from Lubbock.

We have worked together for several years at Monahans and Lubbock, Texas.

Mr. Youree has assumed his duties as manager of the prescription department and wants to become acquainted with the people of this community.

We appreciate the patronage that has been extended to this store in the past and sincerely solicit your continued patronage and good will.

QUESTION OF THE WEEK: ARE YOU LIKE SUSIE?

Susie joined the pep squad the first week of school. She attended the pep meetings and voted for cheer leaders. When the first football game of the year was played, Susie went. She got in free because of her pep squad membership. At the second game she sat in the pep squad section, but she saw a couple of her girl friends who had decided to sit by themselves. Susie and her friends wondered why the pep squad was so small that night.

Are you like Susie? Do you criticize the pep squad and the leaders for not being interested? The pep squad is made up of individuals. Whether or not a member has a good supply of school spirit is her own personal problem! The pep leaders do their best to instill some. They know and so should you, what it means to our football boys to know that the high school is backing them! You cannot play football yourself, but you can join the pep squad and be a member of good standing. Do your best!

MEN, CO-EDS, DISAGREE

Fashions, especially skirt lengths, have come to this point: Do women want skirts to look longer or men to look longer?

According to a survey taken among CHS students the long skirts are here to stay to the dismay of the male. Notice these different statements:

Ray Black, "Heck, no!"
 Monez Laquey, "Yes."
 J. C. Autry, "Long skirts are silly."
 Julia Johnson, "I do not think a girl with pretty legs should hide them."
 Kenneth Adams, "I had rather have short ones."
 Joline Lanier, "I think they hide the pretty part of a girl's legs."
 Marion Bailey, "Some girls need them."
 Grover Yocham, "I think they

are all right."
 Mary Edna Norman, "I like them because they hide my bow legs."
 Betty Williams, "I rather like the new lengths with the flattering lines. They make a person look smaller and taller."
 Edna Lee Dunn, "I like them ten times as well because they make me look taller."
 Mary Payne, "To suit me they should come to the middle of the calf."
 Mrs. Kenner, "I like the skirts a little longer, but not the extreme ankle length."
 Mr. Black, "Long skirts are hiding America's greatest scenic beauty."

Davenport Selected Pep Squad Sponsor! Barker Elected Cheer Leader!

Betty Barker, freshman, was elected cheer leader to fill the vacancy made when Maggie Eavenson moved to Wichita Falls. Last week Mrs. Otto Davenport was elected sponsor of the Pep Squad. "Our plans are still indefinite," says Mrs. Davenport, and added, "at present the girls are trying to decide whether or not uniforms will be possible this year." Regardless of the outcome, we have the largest pep squad in several years and hope to make it the best one.

CHS POINTS WITH PRIDE

Blue-eyed senior president, J. C. Autry, steps into the spotlight as personality of the week. With a big smile for everyone this senior boy rates high in his classmates' admiration. Hailing from Foard County, he stands 5 ft. 8 in. high and is eighteen years old. His pet peeve is to see girls "acting silly."

When it comes to food, his favorite is good ole southern fried chicken. He secretly admitted his favorite subject to be girls and more girls. He spends most of his time playing soft ball. Betty Hutton and Humphrey Bogart

"MICKY" AND HIS GANG

are his favorite cinema stars. He can be seen selling cokes for the seniors at all ball games.

J. C. has taken advantage of the youngsters who wear them. The chosen ring has a C on a black shield. This C is raised from the engraved rectangular surface, the foundation of the ring. A small I and S are found under the C and to make the symbol of all seniors more personal, the rings have the owners initials on the inside of the band. If you want to make some one happy notice those rings, for they are the symbol of all the fun and work high school really is.

SENIOR RINGS ARE HERE

Just feast your eyes on those gorgeous senior rings that arrived last Tuesday. You've noticed also the shining faces of the youngsters who wear them. The chosen ring has a C on a black shield. This C is raised from the engraved rectangular surface, the foundation of the ring. A small I and S are found under the C and to make the symbol of all seniors more personal, the rings have the owners initials on the inside of the band. If you want to make some one happy notice those rings, for they are the symbol of all the fun and work high school really is.

DROP 'EM IN!

So you have been wanting a book that isn't in the library? Now's your chance. Place the name and author of the book you want in the box at the window of the library. Selections will be made for the best books to go in our library this year.

NOTICE

The Rialto Theatre invites Betty Williams to see Bing Crosby and Bob Hope and three dozen other stars in "Variety Girl," Sunday and Monday, Sept. 21 and 22.

NEW ADDITIONS IN HOMEMAKING

Umm! The delicious odors that come floating from the home economics room are possible because of the new electric stove. This sparkling masterpiece, a Magic Chef, has a shiny red clock to time the meal above the burners. A big modern broiler oven is found on the left side. There's more to come, too! The new refrigerator we talked about last year will come soon.

Brightly painted red chairs make work much more fun. Notice, FFA boys! There's work for you, too! Rods must be put up so the new crash curtains of green, red, blue, brown and white can be hung.

We'll be expecting some chic new dresses, for they have two new electric sewing machines to help them.

Here's to an up-and-coming department of CHS.

THREE GIRLS CHOSEN P. E. CAPTAINS

The second period physical education class has divided into three teams of six players and a captain for a snappy volleyball contest.

The captains are Rosella Autry, Betty Barker, and Mary Norman. November 15, the losing teams will give a chuck wagon party for the winning team, and each cowgirl will invite her favorite cowboy to the party.

Girls in team one are Mary Norman, Mildred Templen, Ruth Slovak, Wanza Spears, Virginia McKown, Jenny Weibna, Joyzelle Thompson.

Team two girls are Rosella Autry, Rose Marie Werley, Peggy Weaver, Emilie Kafs, LaVerne Shultz, Violet Rummel and Anna Rea Owens.

Team three is Betty Barker, Edna Jewel Curtis, Billy Love, Bobbie Akers, Christene Hanks, Mary Huskey and Frankie Mabe.

WHIRLWINDS UPSET WILDCATS; WIN 33-0

The Crowell Wildcats were stormed by the Floydada Whirlwinds Friday night by the score of 33 to 0. Crowell outplayed Floydada in the first quarter, and they fought it out on even terms in the second quarter. In the second half they scored four touchdowns as their tricky "T" formation baffled the Wildcats. The Wildcats fought valiantly all through the game although they with at the aid of their largest tackle, Fred Glover, who was injured on the second play and was unable to play any more.

Tamblen showed up well on defense and Dalton Biggerstaff showed up well on offense. Nearly all the reserves saw action in the game.

HAS ANYONE ELSE—

Wished they had worn a coat Friday night?
 Fallen on the stairs, besides Peggy Traweek and Ann Haynie?
 Thought "Caught in the Coke Stand Crush" would be a good murder mystery?
 Thought our Cheer Leaders were something extra?
 Had a study hall you used for studying?
 Hoped we will beat Paducah?
 Crammed for three weeks exams?
 Wondered how Floydada hid the ball so well?
 Wished that our drum was repaired?
 Noticed the large crowd at the ball game Friday night?

WILDCAT PURRS

Speaking of college boys, we wonder if Kenneth Payne and A. G. Wallace are missed by Elizabeth Joy and Betty Brock since they resumed their college days. We wonder also if "Eddie" Dunn's smile isn't because "Babe" Sandlin is going to be "around."

Seen taking in the "Horse Opera" Friday night were Betty and Grover.

A cute freshman who has been taken in by the eyes of a Junior boy, Floyd Borchardt, is "Posey" Autry.

Too bad they quit having speech isn't it, Violet Dalton just isn't in Junior Business.

Something new Friday night was "Jackie" Wesley and Franklin Raska.

James Bice and Ruth Slovak are seen strolling the halls between classes. Strolling?

Congratulations to Louis Pyle and Virginia Hammonds, also to Jo Ann Nichols and Bill Swan.

We see that several of our teachers are coming to school in new cars. Lucky people!

Two people we'd like to see together more often are Joline Lanier and J. C. Autry. What's wrong, J. C.; lose your technique?

While ambling down the halls between periods, watch your step or you won't get to that drinking fountain in time!

There has been quite a bit going on in Truseott these past few months. We hear Betty Smith is making it a steady with Marion Howard. What about it, Betty?

Jack Henderson seems to be making quite a hit with the freshman girls. But of course, he has eyes only for Ruth Slovak.

Joe Hill Hall and Laverne James seem to be on the steady list, too.

Have you noticed all these cute freshman girls floating around? The freshmen boys are plenty cute, too.

We hear that Wanza Spears likes a certain guy from Seymour. Also hear that he's plenty cute.

Mary Payne misses Bob Hunter very much.

What about the Rader-White and Abston-Hall foursome? You could let us in on this you know!

Before signing off this week we'd like to say that we're going to miss all you who are going away to school this year, and here's luck to all of you.

Signed,
 The Cat's Tail.

FREE ENTERPRISE SETS ANOTHER RECORD

The electric industry has long been the favorite target of those who would promote socialism in this country. It has been belittled by every known form of political attack. It has, in many parts of the country, been confronted with subsidized, tax-free government competition of the most unfair kind. But, despite all this, the spirit of progress which has always characterized the industry is as vital as ever.

A recent release from the Edison Electric Institute illustrates that spirit. During the twelve months which ended June 30, 1947, an all-time record for new connections of electricity was established. During the first six months of this year alone, the industry added 1,102,000 new customers to its lines, of which 929,000 were rural and urban residential users. At the same time, the amount of electricity used for household purposes also set a new high, jumping from a nationwide average of 1290 kilowatt hours per domestic customer to 1385 kilowatt hours.

It is expected that more new records will be set in the future. To prepare for that, the industry now has underway a \$5,000,000 construction program, involving the spending of a billion a year during the next five years for new

Weekly SURPLUS NEWS WAA

A rapid-fire auction of nearly a quarter million dollars worth of newly released surplus consumer goods will be open to the public at the Fort Worth Quartermaster depot September 23 and 24. It will be WAA's second annual auction disposal of this type in the Texas area. Goods will be offered in approximately 70 lots containing wooden army lockers, office furniture, cotton sheets, wool trousers, cafe supplies, a sewing machine and assorted miscellany. Inspection is scheduled at the depot from 9 a. m. to 3 p. m. September 23, and the floor bidding will start the following morning at 9 a. m. The sale will provide additional storage space in the army's regional program for repatriation of overseas fatalities.

Remaining unsold surplus from the big August clearance of the Grand Prairie War Assets Administration warehouse plus 28,000 feet of scrap lumber will be lumped off for a purchase by informal bidders September 23, 24 and 25. Materials will be arranged in 19 lots for public inspection and dropping of bid cards from 8 a. m. to 4 p. m. September 23 and 24, and from 8 to 12 noon on the 25th. Much of the merchandise will be aircraft components, everything from nuts and bolts to special instruments and fittings. Bids will be opened at the warehouse office at 1 p. m. September 25.

The significance of that enormous spending will be found in more comfortable homes, in more productive farms and in more efficient industry. And, furthermore, every penny of it will represent private capital that will create new taxable assets for every unit of government. The electric industry stands for free enterprise at its best—and the kind of progress that built and developed this nation. It provides a perfect answer to those whose real goal is the destruction of individual opportunity in the United States. —Industrial News Review.

In the 24 years that records of car accidents and fatalities have been kept about 750,000 Americans have died on the country's streets and highways, over half as many as have been killed in all wars in which this country has been engaged.

According to a recent report by American Anthracite Institute, a world wide shortage of fuels will occur this winter.

Clearance of four warehouse buildings from Hereford Prisoner of War Camp at Hereford, Texas, is expected to result from the government's announced public sale of the structures. Priorities close September 22 after which the general public will be permitted to place bids until October 3, according to officials of the Office of Real Property Disposal of the Grand Prairie office of War Assets Administration.

The Customer Service Center of the Grand Prairie WAA office is offering pipe and machine tools in a fixed price sale to priority and commercial groups until September 26. Included in the offering are radial and press drills, high duty grinders, hack saws,

pipe benders, rivet machines, lathes, drill bushing and micrometer check pilots. The equipment offered is described as being standard in make and readily adjustable to commercial use and for instruction purposes in schools.

Eighty-three items of surplus machine tools as outright gifts to qualified institutions, including schools and colleges, now stored in Dal-6 WAA warehouse at Grand Prairie, await distribution through the Priority Claimants Division. Application should be made to this division before September 29. Other items to be disposed of in like manner are located at Todd-Houston Ship Yard and the WAA Warehouse located at 2600 Clinton Drive, Houston, Texas.

Contest Winner "Brands" His Prize

A pioneer of the auto industry, hunted throughout the nation in a contest to discover the oldest Chevrolet truck in America, turned up, appropriately, in the possession of a Montana homesteader. The venerable vehicle, vintage of 1918, was still serving Rancher Leslie A. Storey, of Jordan, Mont., whose ranch lies 18 miles from a typical "last frontier" town. The award for owning the oldest licensed and operating truck was a new Chevrolet "advance-design" model, which Storey "brands" here with his distinctive Circle-Heart brand. It was presented to him by J. W. Burke, manager of Chevrolet's truck department, as Mrs. Storey and Montana cowgirl Merle Spears (right) look on. Nearly 7,000 old-time Chevrolet trucks were entered in the contest won by this vehicle, which was one of 384 built by the division in 1918, its first year of truck production.

Two Minute Sermon
 (By Thomas Hastwell)

Phosphorus Bombs: Unkindness, in my opinion, is one of humanity's worst sins. Unkindness is more than most transgressions because it harms, in most instances, innocent persons. It would be less painful, I think, if the offender should take a heavy whip and lay it across the bare back of his victim, leaving the flesh raw and quivering from the force of his cruel lash. Wounded flesh bleeds readily and leaves in its place but a faint scar, but unkindness, unnecessary, unprovoked, sinks into the heart of the soul, and burns deep. During the war one of the terrible elements of destruction was the

HOUSEHOLD HINTS

Removing Yellowness From White Clothes.—When white clothes have turned yellow from washings, put them in a boiler half full of water, to which a handful of salt and washing soda mixed has been added. Bring to a boil and keep simmering for a few hours. Rinse in plenty of cold water and hang in the sun. They will come out perfectly white. Repeat a few days later if necessary.

How to Prevent Icing from Sugar.—When making cooked garing. When making cooked cake icing add a pinch of salt to the sugar and the icing will not grain and turn to sugar.

There is nothing so wretched or foolish as to anticipate misfortunes.—Seneca.

A HOME IN VERNON—Here it is and a gem! 1915 Mesquite Street. Three bed rooms, sleeping porch, floor furnace, two log-burning fireplaces. Three blocks from court house. Fine neighborhood. To see, call Mrs. Johnson, 1927 Marshall St., Vernon; phone 735. No agents. 9-2tc

FOR SALE—One 1947 model H-Farmall Tractor, complete with 2-row lister, planter and 2-row cultivator. This tractor and equipment has worked only 100 acres of land. Priced to sell. See us today.—Lanier Finance Co. 3-1tc

Lost

STRAYED—Horned white-faced cow, branded F bar on left hip. Notify me at Crowell.—Tom Bursey. 9-2tp

LOST—Between Burk Burnett and Lubbock, 2 cartons ladies' clothes, including coat and dresses. Please call or write Frances Kelly, Tex. call or J. S. Kelly, Burk Burnett, for reward. 9-1tc

For Rent

FOR RENT—Furnished apartment, all conveniences.—Mrs. E. A. Dunagan. 7-1tc

Wanted

WANTED TO BUY—Second hand feed mill.—T. R. Cates, Thalia, Texas. 8-2tp

WANTED TO RENT—4 or 5-room house for nine months. Close to town.—Mrs. Bill Cox. 8-1tp

SEPTIC TANK CLEANING.—New equipment. Also clean cesspools, and will pump out cisterns and storm pits.—J. H. Crawford, Seymour, Texas. Phone 381-M. 9-4tc

WANTED—Man under 55 with car who would be satisfied with opportunity to earn \$50.00 per week to start. Excellent chance for advancement. Write F. E. Carr, 1616 Avenue "D," Brownwood, Texas. 7-3tc

The U. S. Civil Aeronautics Administration is planning on 250 seaplane bases scattered throughout the United States on which seaplanes can land. Existing lakes and rivers and flood control irrigation reservoirs will be used. The scheme is to have at least one such landing base every 125 miles across the country. Each port will have docks for unloading, facilities for refueling and repair.

According to the Agriculture Department 11,140,000 persons were working on farms on August 1, an increase of 100,000 over the same time last year. This is the third consecutive year in which farm employment has risen. Of the number 8,301,000 were farm operators and unpaid members of their families. Hired workers totaled 2,839,000, an increase of 2 per cent over a year ago.

Canada is making plans to displace some 3,000 persons from the country by the war from Europe each month. Twenty planes will be added to the Trans-Canada Airlines to assist in the job. The movement is being handled by the Canadian reconstruction department. The program will get under way this month. Canadian officials will select desirable men and women and settle them in the wide open spaces of that great country.

SOCIALISM IS INEFFICIENT

According to some of the best-informed authorities on England, the present crisis has been deepened by the insistence of the Labor government on forcing through its program of regimentation and socialization regardless of the effect on the morale of workers and managers—and on the productive energies of the nation.

It is a statistical fact that every step forward for the socialist ideology has been accompanied by a step backward in efficiency and output. That is the main reason why the American loan, which was supposed to last into 1949, is nearly exhausted now, and will be totally gone before the end of this year. And that is the great fallacy underlying the theory that socialism can cure a country's economic ills.

The capitalist system, whatever its faults may be, is built on the sound principle that high productivity and a high standard of living accompany individual incentive. That incentive may take many forms. It may, for instance, be purely economic—the man who risks his money on some venture or the worker who does a better job is suitably rewarded. On the other hand, there is incentive in freedom itself—in the kind of economy in which a worker may change his job as he pleases, and a man can start a business or stop it on his own volition. Freedom is never compatible with socialist economics. Socialism must rule by dictation and, at its worst, by brute force. All enterprise becomes a function of the state—and the whole population is regarded as the ward of the state.

At its very best, socialism punishes dissenters by loss of jobs, fines, reduced rations, etc. At its extreme, it employs the shooting post and the gallows.

Whether England will eventually escape the terrible blight of socialism remains to be seen. In the meantime, she is presenting the best of all object lessons for the United States. She is losing freedoms that stem from the Magna Carta. She is becoming more and more impoverished, as she sinks deeper and deeper into the gloomy morass of statism. She is, by negation, a superlative argument for free enterprise—and for the free economic system we call capitalism.—Industrial News Review.

Canada is making plans to displace some 3,000 persons from the country by the war from Europe each month. Twenty planes will be added to the Trans-Canada Airlines to assist in the job. The movement is being handled by the Canadian reconstruction department. The program will get under way this month. Canadian officials will select desirable men and women and settle them in the wide open spaces of that great country.

THE BIBLE TODAY
 International Union Sunday School Lesson
 By LOUIE D. NEWTON, D.D.

SCRIPTURE: Proverbs 3:5-7; 4:22; 6:16-19; 9:10; 14:34; 15:1; 16:18; 21:3; 22:1; 27:1; 28:1; 29:18; James 4:7; 5:14-16.

DEVOTIONAL READING: Proverbs 16:19.

Guidance From Proverbs
 Lesson for September 21, 1947

OUR study of Sunday's lesson centers about the idea of goodness, which is a rather tripartite-sounding theme, but very vital, I assure you, and quite interesting.

The Scripture passages are all found in Proverbs, save one, and that from the very practical preacher of the New Testament, James, chapter 4, verse 17.

Perhaps you will find the passages from Proverbs as helpful and interesting as I did.

It will require but two minutes to read them—Proverbs 3:5-7; 4:22; 6:16-19; 9:10; 14:34; 15:1; 16:18; 21:3; 22:1; 27:1, 2; 28:1; 29:18. And after you have devoted two minutes to the reading of these passages, you will have something to think about for the rest of the day, the week, all your life.

One Man's Experience
 A very successful business man in Atlanta, a shoe manufacturer, was telling me his life story one day as we fished together at Homosassa, Fla. Finally, he said:

"Do you know the passage in the Bible that has meant most to me as a rule and guide for my faith and practice?"

"I wondered what he would say. And then he quoted from Proverbs 3:5-7.

"Trust in the Lord with all thine heart; and lean not unto thine own understanding. In all thy ways acknowledge him, and he shall direct thy path. Be not wise in thine own eyes; fear the Lord, and depart from evil."

The Essence of Goodness
 What is goodness? We talk about good men and bad men, good times and bad times, good luck and bad luck. Just what is goodness?

Jesus himself once said to a young man:

"There is none good but One, that is, God." Mark 10:18.

Goodness then, permit me to suggest, is what happens when God lives in us. We can never know goodness apart from God, for as we may say.

The essence of goodness, therefore, is found in that heart, in that life, that sincerely prays, "Thy will be done."

The Essence of Badness
 Guidance from these great Proverbs identifies the things that we are to shun as well as the things we are to do—the essence of badness as well as the essence of goodness. Here are the seven things that God hates—the seven qualities of heart that constitute the essence of badness:

"Haughty eyes, a lying tongue, hands that shed innocent blood, a heart that deliberately plans wickedness, feet which are swift in running to mischief, a false witness who utters lies, and one who sows discord among brethren."

Analyze these seven qualities of heart, and you have the explanation of the woes of the world. Many clever modern books toy with these deadly sins, trying to make them seem good, but no amount of decoration can atone for the heart that consistently entertains these cancers of hell.

The Individual and Society
 I like the impact of these Proverbs. They begin with the individual. They fruit in society. Individuals who "trust in the Lord with all thine heart," will "exalt a nation." It is not enough to put better food in peoples' stomachs, better clothes on their bodies, better roofs over their heads. These essentials as expressing the better life; but you have got to give people something to live for as well as something to live on.

Good business depends upon good business men. Good international relations depend upon good nations. Good race relations depend upon good races.

We have been greatly enheartened by the establishment of United Nations as a world idea and ideal. Will it succeed? The answer is found not in dollars and bullets, but in hearts that always "trust in the Lord."

"Except the Lord build the house, They labor in vain that build it; Except the Lord keep the city, The watchman waketh but in vain." —Psalm 127:1

Career training will be founded by the Ford Motor Company to the outstanding students of the country between the ages of 20 and 29. Selection will be made from 120 colleges beginning this fall. Only those will be selected who can meet high standards of scholarship, enterprise and personality.

There are about 11,419,138 foreign persons living in the United States.

Weekly Sermon

(By D. M. Olson, Moody Bible Institute.)

Is Christianity Old-Fashioned?

Thoughtless persons often complain that Christianity is out of date. It will not work, they say, because it is too old-fashioned.

In one sense they are quite right, but in another way they are quite wrong. For in one sense Christianity is always changing, and in another sense it can never change.

Truth, by definition, must be unchanging. In theology this principle is known as immutability. But the application of the eternal and unchanging principles of the Bible to a given society or culture may produce vastly different results. The same summer sun that melts fresh asphalt will harden newly laid concrete.

It is foolish to think that there are really any new solutions or answers in a final sense. We don't need them, for our basic problems and questions are the same. All during the span of known history it is evident that human nature has not changed. Our deepest need today is no different than it always has been—to find the way to God.

The coming of Christ was—and still is—the answer to that need. His life completely fulfilled all of man's potentialities, leaving us a perfect pattern. His death and resurrection offer us assurance of forgiveness of sin and power for a new life.

These are old-fashioned truths, and happily so. But, once you have become a child of God by acting on them, they open a challenging new world to you. The way God's unchanging principles are worked out in your life will be something entirely new.

He wants us to preach the Gospel, but He doesn't expect us to wear sandals just because first-century preachers did.

Old-fashioned? Basically, yes. But in your own life Christianity will result in changes and new experiences of which you never dreamed.

A nation wide boom in road building is scheduled to start as soon as costs come down sufficiently. Under the new plan a unified system of roads will be built throughout the nation. Super highways will connect 182 of the 199 cities of 50,000 people or more. Altogether the U. S. will spend \$20,000,000,000 on highways during the next ten years. The new super highway will permit high speeds through the largest cities by building the roads over or under cross streets.

The new interstate roads will be of four lane construction near and through the large cities with two lanes in the open country. It is expected that in the new road program toll roads will become common place. The system might be described as stupendous in concept and from the standpoint of construction. It is aimed to provide a complete system of super highways connecting every city in the United States of 50,000 and over. Smaller towns will be served by spurs. The right of way on the new super highways will be from 250 to 500 feet wide.

It is a great blunder in the pursuit of happiness not to know when we have got it.—Unknown.

Arrangements have been completed to have the banks of the country will begin cashing G. I. bonds September 2. To insure that payment will be made to the right party in each case banks have been cautioned against cashing the bonds for anyone other than the person in whose name they are issued. The presentation of original discharge or separation papers will be required as a means of identification. Banks will make no charge for the service but will be paid by the Treasury according to the volume of bonds handled.

One California company is planning on shipping eight car loads of orange juice a week to the East where it will be delivered each day by Eastern dairies to homes on their milk routes.

The driver of one of these cars was in the act of passing another motorist just as he neared the crest of a hill. He collided head-on with a driver coming over the brow of the hill, and with the terrific impact the lighter car was crushed under the heavy one. The lane-breaker in this accident was killed—so was the other driver, and a passenger was seriously injured. Passing on blind curves and on hills is simply gambling with death. Improper passing accounted for more than 25,000 highway deaths and injuries in 1946, according to the National Conservation Bureau.

Edna Ruth Streit and Duane Capps Married Sept. 7

Miss Edna Ruth Streit, daughter of Mr. and Mrs. George Streit, of Five-in-One community, and Duane Capps, son of Mrs. Maggie Capps and the late Harley Capps, of Thalia, were married Sunday evening, Sept. 7, in the Lockett Lutheran Church. Rev. J. W. Kern officiated as the vows for the double ring ceremony were exchanged.

Roses, fern and fall garden flowers banked the altar. Electric candles were in the background. Two tall flower wroughts of pastel mums were placed on a platform. They were flanked by other flowers and candelabra formed the sides. Preceding the ceremony the candles were lighted by Misses Florence Graham and Jean Kahl. They carried candles with satin streamers. They were dressed in yellow gowns with matching halos and mums corsages.

The bride, given in marriage by her father, wore a white satin dress which fell in a long train. There were petal point sleeves over the wrist and a deep sweetheart neckline. Her full length

veil was caught by a sweetheart cap of shirred satin and wax orange blossoms. The cap was worn at the wedding of her mother. She carried a white prayer book from which fell showers of mums and stephanotis tied with streamers. She wore her mother's locket watch for something old. For something borrowed, she wore a diamond-studded watch belonging to Miss Florence Graham. There was a blue marker in her prayer book. Her shoe contained a sixpence.

Mrs. Virginia Bane was matron of honor. She was dressed in pink organdy. Miss Agnes Streit, maid of honor, wore a dress of blue organdy. The bridesmaid, Miss Janette Self, Thalia, wore a dress of pink organdy. They carried identical large nosegays of pastel mums and were matching braided halos with large matching bows in the center back of their hair. The junior bridesmaids were Beryl Jean Streit and Theresa Thompson. Miss Streit wore a dress of pink net. Miss Thompson was dressed in blue net. Both wore matching halos and carried small nosegays of pastel mums.

Carolyn Kern and Kay Frances Streit were flower girls. They wore identical white gowns and matching halos.

Gary Streit carried the rings on a heart shaped white satin pillow.

Homer Streit, brother of the bride, served as best man. Groomsman were Larry Wood and Beverly Gray of Thalia. Edward Streit and Johnny Miller were ushers.

Miss Joyce Evelyn Burch, organist, played "Because" preceding the ceremony. "I Love You Truly" and "Ah, Sweet Mystery of Life" were sung by Mrs. Bob Kern. Traditional wedding music was used.

The bride's mother wore gray. The groom's mother was dressed in navy blue. Both wore corsages of white carnations.

Following the wedding, a reception was held in the home of the bride's parents. Members of the house party included Mrs. Herbert A. Haseloff, Mrs. Homer Haseloff, Mrs. George O. Streit, Mrs. Ernest Streit and Miss Emma May Crisp. The bridal table was covered with an ecru lace cloth over blue. Centering the table was a three-tiered cake topped with a miniature bride and groom. On each side of the cake a punch bowl was placed. The bride's colors of blue and white were used.

Immediately after the reception, the couple left for a short wedding trip to points in East Texas. For traveling, the bride wore a gray crepe dress with three quarter length sleeves, and a draped bodice and skirt trimmed in rhinestones. Her accessories were gray and red. She wore a mums corsage.

The bride graduated from Five-in-One High School. The groom is a graduate of Crowell High School. He has attended ACC and Texas Tech. Mr. Capps served in the armed forces and was discharged in 1945.

The couple will reside in Hereford.

Griffin. The matron of honor chose a winter wool jersey dress with brown accessories. Her corsage was of pink gladioli.

The bride's mother was attired in black with a corsage of white carnations. The groom's mother, also dressed in black, wore a white carnation corsage.

Mrs. Johnson is the daughter of Mr. and Mrs. Doyle E. Callaway. She graduated from Crowell High School with the class of 1943. She attended Howard Payne College in Brownwood for two years, having been chosen favorite of the freshman and sophomore classes during that time.

Mr. Johnson is the son of Mr. and Mrs. W. A. Johnson of Thalia. He graduated from Thalia High School in 1942 and attended Texas Technological College in Lubbock and North Texas State College in Denton. He served in the Navy for one and one-half years.

Miss Fay Griffin presided at the bride's book and secured the signatures of the guests. The list included Mr. and Mrs. Callaway; Mr. and Mrs. Johnson; Mrs. Nona Johnson, grandmother of the groom; Sim Gamble, grandfather of the groom; Mr. and Mrs. A. W. Barker, grandparents of the bride; Mr. and Mrs. Alton Abston; Waldon Johnson; G. B. Neill Jr.; Misses Joyce Owen, Wanda Gilbert, Dorothy Pechack and Fay Griffin and Rev. and Mrs. Moon.

After a wedding trip to points in New Mexico, the couple will be at home near Thalia where the groom is engaged in farming.

Miss Kirkpatrick Given Surprise Party on Birthday, Sept. 9

Miss Frankie Kirkpatrick was honored with a lovely surprise party on her birthday, Sept. 9, when the Girl Scouts of Troop 1 and Mrs. Moody Bursey were hostesses at the Girl Scout Little House.

Guests for the party arrived earlier and registered in an album. At the arrival of Miss Kirkpatrick, guests sang "Happy Birthday," and showered her with gifts. The Girl Scouts of Troop 1 presented her a "Thank You" badge for her outstanding work in Scouting.

After the gifts had been opened Miss Kirkpatrick was invited into the adjoining room where she cut and served a huge birthday cake on which was written "Happy Birthday, Frankie."

Girl Scouts of Troop 1 served throughout the party. Bunch was served from a madeira covered table with a center arrangement of white asters.

About 40 guests were present. Miss Kirkpatrick has been active in Girl Scout work for a number of years and it was through her efforts that the Girl Scout Little House was purchased. There are now four troops of Girl Scouts who meet at the Little House each week.

People of the community appreciate very much the work that Miss Kirkpatrick has done for Girl Scouts.

Daughter of Former Foard Couple Marries on August 30th

Mr. and Mrs. Walter Ross of Flomot, former Foard County residents, announce the marriage of their daughter, Elizabeth, to Mr. Lawrence Andestad of Chicago, Ill. They were married in the First Methodist Church in Reno, Nevada, on August 30, 1947.

Mr. and Mrs. N. F. Behyme of Oakland, Calif., attended the ceremony. The bride wore a grey suit with black patent accessories with pink sweetheart rosebud corsage.

Mrs. Andestad graduated from Oklahoma College for Women and Mr. Andestad from the University of Illinois. They are both employed by the War Department Corps of Engineers, Western Ocean Division, Sausalito, Calif.

After a short wedding trip to Lake Tahoe, Calif., and Carson City, Nevada, they are making their home at Belvedere, Calif.

The American Automobile Manufacturers Association recently published some interesting facts regarding the automobile business. The report states that the 537,000 automobile businesses employ 8,200,000 persons, one in every seven of the nation's workers. To care for the cars and trucks of the United States requires 240,000 gas stations, 52,000 automobile repair garages, 24,000 taxicab companies, and 2,500 auto finance companies.

The state of Massachusetts leads the nation in the production of cranberries.

Co-Laborers Class Has Social Meeting in Wehba Home

Mesdames Fred Wehba, Carrie Hart, A. R. Sanders, G. L. Cole and W. R. Ferguson were joint hostesses to the Co-Laborers Class of the Methodist Church at a recent social meeting in the home of Mrs. Wehba.

A humorous reading, "The Minister," was given by Sue Meason. Mrs. J. W. Bruce led the worship service in a devotional on the key phrase, "Trusting God in Spite of Trials." An interesting lesson on Job was presented by Mrs. F. B. Fletcher as leader and Mrs. C. W. Thompson as assistant.

Mrs. Claude Brooks read the following poems of James Whitcomb Riley: "House Wife," "In His Name," and "His Home Town."

During the business session, the following report of the nominating committee was accepted: Mrs. A. Lewis Ballard, president; Mrs. A. V. Beverly, vice president; Mrs. O. M. Gentry, secretary; Mrs. Sam Mills, treasurer; Mrs. J. W. Bruce, social service chairman; Mrs. M. S. Henry and Mrs. W. B. Johnson, co-teachers; Mrs. F. C. Brooks, pianist; Mrs. R. R. Magee, song leader.

Visitation committees—Mrs. A. Higginbotham, October, November and December; Mrs. S. S. Bell, January, February and March; Mrs. W. B. Tysinger, April, May and June; Mrs. Clint White, July, August and September.

A delicious refreshment plate was served to thirty members. The class was glad to have Mrs. Morris as a new member.

FOARD CITY W. S. C. S.

On Monday, Sept. 15, Mrs. John Rader of Crowell was hostess to members and guests of the Foard City Women's Society of Christian Service. During the business session, Mrs. W. L. Johnson told of the busy but enjoyable day spent at the parsonage in Trustcott when Mrs. Dan Callaway, Mrs. Luther Marlow, Mrs. Virgil Johnson, Mrs. W. L. Johnson, Mrs. Jay Barker and Mrs. Grady Halbert re-upholstered the divan and occasional chair and made drapes for the living room.

For her devotional, Mrs. Virgil Johnson gave Psalm 23:4, "I shall fear no evil." This scripture, together with others, Mrs. Johnson gave, were enlarged upon, showing the need of dispelling fear of all kinds. The psalmist showed faith in his Heavenly Father. To-day one need have no fear if he hath such faith for, although this promise does not insure avoiding trouble and sorrow and strife, strength shall be given to withstand such trials.

"The child and his education," was the theme of the day's program. Mrs. Jay Barker brought reports and letters from schools in Puerto Rico. She told of work begun with children of kindergarten age and given thorough home-making courses. Pictures were passed around, showing scenes taken of Puerto Rican children at school and at play. Mrs. Barker told of schools in the United States which are helped by the W. S. C. S.

Mrs. Dan Callaway's article was based on schools of China, Africa and Mexico. The school in China Mrs. Callaway told about is in reality an orphanage. Many of the schools of China have either been closed or have been converted into institutions to care for war orphans. The African school discussed is divided into groups, the older girls of third and fourth grade work help with the children in the first and second grades. In view of the American educational system, this plan seems preposterous.

In Mexico City there are 135 girls in the primary school and 40 in three years of secondary school in the Methodist institution. Under missionary leadership, the girls have a beautiful Christian home life. "Today we do not ask, 'should the child be educated?' but what should the child be taught?" said Mrs. Allison Denton in bringing her discussion of child education at home and abroad. "Children catch character, like the measles," and our most significant acts, to our thinking, may be an instrumental factor on determining the character of some child. Mrs. Denton read a poem, "The Broken Heart," and displayed a copy of the poem written in the Navajo picture language.

Concluding the program, Mrs. Jay Barker was presented with a life membership and pin by the Foard City W. S. C. S. in recognition of her outstanding service. Mrs. W. L. Johnson called on Mrs. Grady Halbert to dismiss the group with prayer, after which cake and punch were served to fourteen members and one guest.

Former Resident Weds in Shamrock

Miss Avalon Smith, daughter of Mr. and Mrs. Eli Smith of Shamrock, formerly of Crowell, was married to John Richard Newman at the Methodist Church in Shamrock on Friday evening, September 6th.

Miss Ada Jane Magee was member of the wedding party. Bridesmaid was Miss Kathryn Smith, sister of the bride. Friends from Crowell who attended the wedding were Mr. Magee, Mr. and Mrs. D. R. Miller, Mrs. Clint White and Miss Barbara White.

Over 1,740 persons met the death in motor car accidents on railroad crossings in the United States in 1945, the last year for which complete records are available.

A total of 28,600 persons were killed in automobile accidents in the United States in 1945, the last year for which complete records are available.

Over 96,000 persons lost the lives in various types of accidents in the United States in 1945, the last year for which complete records are available.
