

THE FOARD COUNTY NEWS

AND CROWELL INDEX

SECOND YEAR NUMBER 51

CROWELL, FOARD COUNTY, TEXAS, THURSDAY, JUNE 17, 1943

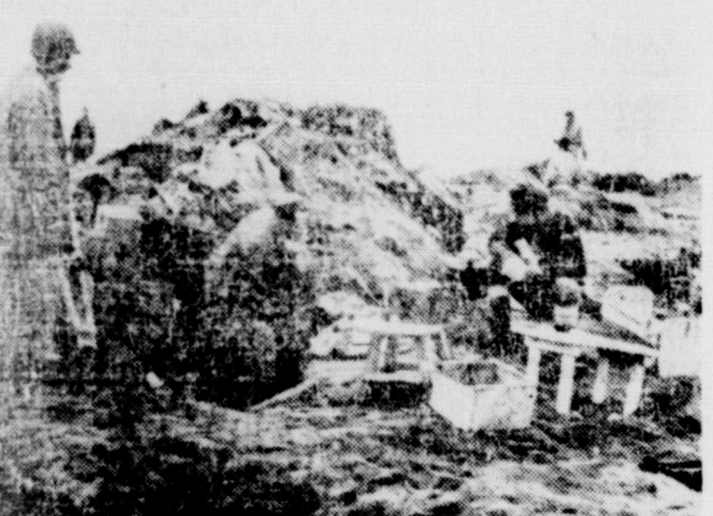

\$2.00 A YEAR EIGHT PAGES

A Different Kind of War

Board warfare is very different from the bitter conflicts these men have weathered in the Tunisian campaign. They are in the hospital at the Halloran hospital in Island, N. Y., from wounds received in action.

Japs Dug Their Own Traps

Holes like the one above connected with tunnels were the last posts of the Japanese on Attu island. These United States sailors are examining Japanese medical equipment left by the routed enemy. According to a Japanese radio broadcast the invading Americans annihilated all Japanese forces attempting to hold the island.

V. A. Project Garden Produces Large Beets

Travis Veceera, son of Mr. and Mrs. Tom Veceera, harvested about 150 bushels of beets from four rows, weighed from 1 1/2 to 2 pounds each, however, Travis brought three to The News office, the largest of which weighed 2 1/4 pounds.

BUYS STOCK FARM

Guy Ketchersid has recently bought a 200-acre stock farm nine miles north of Ranger and he and his family will move to their new home about July 1. Mr. Ketchersid and family have been residents of Crowell for many years where he has operated the Ketchersid Barber Shop in a partnership with his brother, Homer. The latter will continue to operate the shop. Mr. Ketchersid expects to sell his home in the north part of Crowell before leaving.

Nimitz Wins Again

Admiral Chester W. Nimitz, commander-in-chief of the Pacific fleet, strides victoriously as he wins a horseshoe pitching match with Signalman William B. Scoggins who is shown measuring the positions of the horseshoes.

New Masonic Officers Elected Monday Night

T. S. Haney was advanced from the office of senior warden to that of worshipful master of Crowell Lodge No. 840, A. F. & A. M., at the stated meeting of the local lodge Monday evening. Judge Leslie Thomas is the retiring worshipful master. D. R. Magee was elected for the seventh time to the office of secretary.

Other officers elected at this meeting were: Herman Gentry, senior warden; I. T. Graves, junior warden; Merl Kincaid, treasurer; J. P. Davidson, tiler, and W. L. Callaway, chaplain.

ALL-DAY SERVICE

The Assembly of God Church in Crowell will observe Father's Day with an all-day service at the church next Sunday. The church is located 2 blocks west of the court house. Basket dinner will be served.

Adrift 131 Days

Fish and rainwater was the complete diet of Poon Lim, this 25-year-old Chinese sailor, while he drifted on the Atlantic for 131 days with only a raft between him and Davy Jones' locker. His ship had been torpedoed.

Jimmy L. Heath, Farmer at Thalia, Accident Victim

Funeral Services Held in Thalia Church Saturday

J. L. Heath, 53-year-old farmer, who lived a mile west of Thalia, was found dead late Thursday afternoon in a field on the Loyd Fox place south of Thalia, evidently a victim of a freak accident.

Mr. Heath was plowing the field with a tractor. Apparently the tractor was driven over a small roll of barbed wire, which was picked up by lugs on the wheel and tossed over on the driver, probably killing him almost instantly. The body was found three or four hours later.

Funeral services were held from the Thalia Church of Christ Saturday afternoon at 4 o'clock with E. H. Garner, Church of Christ minister of Quanah, officiating. Burial was in the Thalia Cemetery with the Womack Funeral Home of Crowell in charge of arrangements.

Pall bearers were O'Neal Johnson, Loyd Fox, Aneel Hall, Monroe Cates, Buster Lindsey and Lowell McKinley. The list of flower bearers included Mrs. Ina Toler, Mrs. Velma Hudgens, Bonnetta Hopkins, Wilma Heath, Norma Vee Flesher, Imogene Cook, Charlene Gray and Wilma Flesher.

Jimmy Lee Heath was born Aug. 21, 1889, in Benton, Ky., and had lived in the Thalia community for several years. He is survived by his wife and one son, Delbert Ray.

Men in Service

Cpl. James Wallace, son of H. S. Wallace of Thalia, is now located at Ft. Ord, Calif., according to letters received recently by relatives here. He has been in the Army since last July and likes fine.

Sam David Russell, Seaman 2nd Class, of Norman, Okla., is at home on a furlough assisting his father, Tom Russell, in the grain harvest. His wife, who also lives at Norman and employed in the postoffice, was unable to come home with him.

Mrs. Pete Gamble had a letter from her son, Pvt. Wayne M. Gamble, which arrived here six days after it was postmarked by the U. S. Army mail service in the South Pacific. Pvt. Gamble is an airplane mechanic and does repair work on airplanes, jeeps and trucks. He likes his work and reports that his mail is reaching him more regularly now.

Set. Clyde King and Mrs. King of Childress spent Sunday here visiting in the home of his parents, Mr. and Mrs. Tom King, and of Mr. and Mrs. Joe King.

Miss Mary Ragland Thompson left Sunday afternoon for New York City where she will enter upon the duties of apprentice seaman in the WAVES. She will receive her basic training in Hunter College.

Aviation Cadet H. K. Edwards of Grand Rapids, Mich., arrived home Monday night on a seven-day furlough to visit his parents, Mr. and Mrs. Herbert Edwards. H. K. student in petroleum engineering at A. & M. College for four years, is attending an officers training school of the U. S. Air Force Technical Training Command in the meteorology division at Grand Rapids.

Mrs. E. C. King returned Monday from Richmond and Williamsburg, Va., where she had spent nearly three weeks visiting her husband, Second Class Petty Officer E. C. King of the U. S. Navy. He has since been transferred to Camp Endicott, Rhode Island, for advanced training.

Pvt. Ralph Flesher, son of Mr. and Mrs. Frank Flesher, has recently been promoted to the rank of Corporal at Palacios, where he is training. Corp. Flesher is in the Anti-Aircraft Division of the Coast Artillery.

Mrs. T. L. Collins has received notice from her son, Billy J. (Pete), that he has been promoted to the grade of sergeant. He is stationed with a port battalion in Indiantown Gap, Pennsylvania.

Pfc. J. W. Connell, grandson of Mrs. J. W. Owens of Crowell, is now located at the Army Air Base in La Junta, Colo., according to information given by Mrs. Owens Wednesday.

Staff Sgt. Melton Connell is now attached to the 2nd Weather Squadron at Patterson Field, Fairfield, Ohio, his grandmother, Mrs. J. W. Owens, stated Wednesday.

End of War for Nazi Generals

Monocled Gen. John von Broitch apparently still thinks he is in charge of the situation as he crosses the threshold of an Allied headquarters after his capture in North Africa with 200,000 other Nazis. In front of Von Broitch is another captive, General Cramer. Captured generals receive all the courtesy due their rank and Von Broitch looks as though he expects it.

Foard County Has Quality Wheat

Frederic T. Dines of Amarillo, director of the Texas Wheat Improvement Association, has issued a very comprehensive report on the distribution of inspected hard wheat varieties in the hard wheat area of Texas, according to information furnished by County Agent D. F. Eaton.

Included in this report is one covering eighty-seven farmers in Foard County. He finds these farms to be growing commercially desirable and acceptable wheat. The variety survey classified the grain into one of three groups. Recommended Hard Wheat varieties, Chiefkan and Early Black Hull, the last two being undesirable varieties from a milling and production standpoint.

The Foard County survey shows seventy-five of the eighty-six farms to have the more desirable varieties and twelve to have the less favorable types. This figures 86 per cent in the first group and 14 per cent in the first favorable group.

In comparison with the surrounding counties, the survey showed Hardeman County 92 1/2 per cent, Foard 86 per cent, Knox 76 per cent and Wilbarger 80 per cent. The elevators indicate that most of the wheat is grading No. 1 hard wheat and tests 60 pounds and above, and is comparatively free from foreign matter.

Monday.

Corp. Albert M. Sandin, son of Mr. and Mrs. A. J. Sandin of Vivian, has graduated from Texas A. & M. College for a course of Army Air Force instruction for approximately five months prior to being an Aviation Cadet. In the course there will be academic courses as well as flying training.

Pfc. John W. Davidson, son of Mr. and Mrs. R. L. Davidson, of Vivian, has graduated from an intensive course in airplane mechanics at Sheppard Field, Wichita Falls, according to a release from the Post Headquarters.

Ensign Ann Mabe arrived here Tuesday from the U. S. Navy Base Hospital in San Diego, Calif., and will visit for ten days with her parents, Mr. and Mrs. F. W. Mabe.

Lt. Glen Don Reeder returned Tuesday from a visit with friends in Houston. He will leave Friday for his post of duty at Camp Bowie, Brownwood.

Pfc. O. H. Ferguson of Scotts Bluff, Neb., is here visiting relatives and friends. Pfc. Ferguson is in the ordnance department of the 2nd U. S. Army Air Force. He has been in the service for eight months.

One of the most coveted awards of recruit training, the Honor Badge of Efficiency, has been awarded to Private Stanley F. Sanders, son of Mr. and Mrs. S. L. Sanders of Crowell, according to a news release received Monday by The News from the Public Relations Section of the U. S. Marine Corps, Southern Procurement Division, Atlanta, Georgia. This award is made to the man who, in the minds of his instructors, has shown particular aptitude and efficiency in military training and is open to every man in each recruit training platoon.

Pineapples May Be Delivered Later

Miss Elizabeth Elliott, Foard County Home Demonstration Agent states that the reason that the shipment of pineapples scheduled for last Saturday, did not arrive, was due to a train wreck which delayed all shipments. There will probably be no pineapples this week, but Miss Elliott says that it is possible there will be a shipment made next week or in the near future and information will be given through the paper.

Pineapple season is in full way at the present time but the season will last for another month and it is possible that a shipment will be received here at an early date.

ROTARY CLUB

Corporal Irving Fisch, Rotarian Lewin Plunkett of Quanah and Esca Brown of Fort Worth, were visitors at the meeting of the Crowell Rotary Club Wednesday at noon.

I. T. Graves was in charge of the program which consisted of a talk by Henry Ferguson, a classification talk by Herbert Edwards and also a short talk by Esca Brown.

The incoming president, Virgil Smith, was in Memphis Wednesday to attend a district Rotary meeting.

Crowell Rotarians and Rotary Arise will go to Rochester Friday night to attend the opening meeting of a new Rotary Club in that city at which time the charter will be delivered by Rotary officials.

California is said to have more dentists according to population than any other state, 67 to each 100,000 population. Arkansas is at the bottom with only 21 dentists to each 100,000 population.

A Torch Queen

America's champion woman welder for 1943 is petite, 19-year-old Vera Anderson (left), shown as she was presented with a silver cup, \$350 in war bonds, and a ticket to Washington, D. C., where she will meet Mrs. Roosevelt.

Harvesting of Foard County's Wheat Crop Almost Complete; Approximately 459,000 Bu. Delivered to Elevators

Approximately 459,000 bushels of Foard County's 1943 wheat crop had been delivered to the elevators of the county up until 4 o'clock Wednesday afternoon, according to figures given The News by the three elevators of Crowell, which also included grain taken to the elevators at Margaret and Foard City. It is estimated that three-fourths of the crop has been harvested.

Light rains which fell over the county last Thursday night stopped the combine until Saturday afternoon. It was possible to run combines in some fields Saturday afternoon, however, in places it was necessary to use two tractors to each combine. The weather continued close through Sunday and by Monday the harvest was in full swing again and has continued throughout the week.

The excellent test made by wheat harvested last week has dropped to some extent on account of the rain, however, it still tests 23 to 24 pounds to the bushel. The highest test last week was 63. The greatest yield per acre so far reported was 21 bushels, and many fields produced 20 to 25 bushels per acre, it is said. Wheat men believe that the average production per acre for the entire county will be around 15 bushels.

City Officials Will Clamp Down on Traffic Violations

Owing to the extreme danger of serious accidents occurring on the streets of Crowell with the present laxity in observance of traffic laws, it was decided at a meeting of the City Council Tuesday night to seek the co-operation of motorists and the public in general in bringing about a safer condition on the streets adjacent to the square in Crowell.

The habit of parking in the middle of the street, double parking and otherwise jamming the streets has been growing steadily worse and this step is being taken to avoid traffic accidents in which life might be lost.

The habit of turning around in the middle of the block is another traffic violation which has become too frequent of late. General traffic laws should be observed on the down town streets and the City Council sincerely urges all motorists to give their hearty co-operation in this undertaking.

Please read ad on page 2 of this issue.

Article Written by Marion Crowell Used by Radio Craft

An article written by Marion Crowell, local radio repair man, was printed in the June issue of Radio Craft, radio's greatest magazine. The article deals with wartime radio service and offers suggestions on how to keep receivers in operation in spite of the shortage of tubes and repair parts.

Before printing the detailed article on the subject of radio repair, the magazine had published service notes sent in by Mr. Crowell.

Margaret Home Is Destroyed by Fire

The 4-room home of Mr. and Mrs. Henry Blevis in Margaret was destroyed by fire about 11 o'clock Friday morning. When the fire was discovered by Mrs. Blevis in one of the rooms, the blaze had gained such headway that it soon spread throughout the house.

All clothing and furniture, including a new Frigidaire, and 400 cans of meat and fruit were a total loss.

REPAIRING HOME

Completion of the new home will be made soon.

HOSPITAL NOTES

Foard County Hospital

Patients In: Lillian Tate, Mrs. A. J. Wright, Robbie Dale Davis, W. A. Conner.

Patients Dismissed: Barbara Lee Anderson, Mrs. Glen Fox, G. L. Owens, Mrs. Monte Laguna, Glenn Norris Jones, A. D. Campbell, Mrs. I. Fisch and infant daughter, Carol Sue.

Visiting Hours: 9:30 to 11:30 a. m.; 2 to 5 p. m.; 7 to 9 p. m.

The following typographical error appeared last week in an advertisement in one of our exchanges: Wanted, a man to ruin a farm.

Delinquent Taxes Owed City Must Be Collected at Once

Delinquent taxes owed by taxpayers to the City of Crowell will have to be collected at once if the city government is able to operate, it was announced this week by the City Council. An advertisement telling of the financial condition of the city and setting forth the procedure to collect delinquent taxes appears on page 5 of this issue.

Investigation revealed that sixty per cent of the City taxes are delinquent and it is imperative that these taxes be paid at once or some satisfactory arrangement be made in cases where it is impossible for payment to be made.

S. S. Bell Left Tuesday for Omaha

S. S. Bell left Tuesday afternoon for Omaha, Neb., to attend a meeting of the National War Board as a representative of the Foard County AAA. The meeting is being held in that city today.

The purpose of the meeting is to make plans to organize farm labor and operators of combines so that the grain crops and feed crops of the entire nation may be harvested with the labor and machines that are now available. With such organization it is believed that surplus laborers and machines can be directed to sections where they are most needed.

Good Luck

Judge Fred M. Vinson (left) who was named director of the Office of Economic Stabilization, replacing James F. Byrnes (right), who was appointed director of the newly created Office of War Mobilization. They are shown congratulating each other.

THE FOARD COUNTY NEWS

AND CROWELL INDEX

SECOND YEAR NUMBER 51

CROWELL, FOARD COUNTY, TEXAS, THURSDAY, JUNE 17, 1943

\$2.00 A YEAR EIGHT PAGES

A Different Kind of War

Boardroom warfare is very different from the bitter conflicts these heart wearers have weathered in the Tunisian campaign. They met to right, Corp. Vernon D. Tilford of Los Angeles, Calif., Pvt. G. Usery of Rockingham, N. C., and Pfc. Raymond Beadman of Boston, Mass. They are recuperating at the Halloran hospital in Island, N. Y., from wounds received in action.

Japs Dug Their Own Traps

Holes like the one above connected with tunnels were the last posts held by the Japanese on Attu Island. These United States sailors examining Japanese medical equipment left by the routed enemy. According to a Japanese radio broadcast the invading Americans annihilated all Japanese forces attempting to hold the island.

A. Project Garden Produces Large Beets

Travis Vecera, son of Mr. and Mrs. Tom Vecera, harvested about 150 bushels of beets from four rows about 150 feet long. The beets weighed from 1 1/2 to 2 1/2 pounds each, however. Travis brought three to The News office, the largest of which weighed 2 3/4 pounds.

BUYS STOCK FARM

Guy Ketchersid has recently bought a 200-acre stock farm nine miles north of Ranger and he and his family will move to their new home about July 1. Mr. Ketchersid and family have been residents of Crowell for many years where he has operated the Ketchersid Barber Shop in a partnership with his brother, Homer. The latter will continue to operate the shop. Mr. Ketchersid expects to sell his home in the north part of Crowell before leaving.

ROTARY CLUB

Corporal Irving Fisch, Rotarian Lewin Plunkett of Quanah and Escan Brown of Fort Worth, were visitors at the meeting of the Crowell Rotary Club Wednesday afternoon.

I. T. Graves was in charge of the program which consisted of a talk by Henry Ferguson, a classification talk by Herbert Edwards and also a short talk by Escan Brown.

The incoming president, Virgil Smith, was in Memphis Wednesday to attend a district Rotary meeting.

Crowell Rotarians and Rotary Anns will go to Rochester Friday night to attend the opening meeting of a new Rotary Club in that city at which time the charter will be delivered by Rotary officials.

California is said to have more dentists according to population than any other state, 97 to each 100,000 population. Arkansas is at the bottom with only 21 dentists to each 100,000 population.

A Torch Queen

America's champion woman welder for 1943 is petite, 19-year-old Vera Anderson (left), shown as she was presented with a silver cup, \$350 in war bonds, and a ticket to Washington, D. C., where she will meet Mrs. Roosevelt.

Harvesting of Foard County's Wheat Crop Almost Complete; Approximately 459,000 Bu. Delivered to Elevators

Approximately 459,000 bushels of Foard County's 1943 wheat crop had been delivered to the elevators of the county up until 4 o'clock Wednesday afternoon, according to figures given The News by the three elevators of Crowell, which also included grain taken to the elevators at Margaret and Foard City. It is estimated that three-fourths of the crop has been harvested.

Light rains which fell over the county last Thursday night stopped the combines until Saturday afternoon. It was possible to run combines in some fields Saturday afternoon, however, in places it was necessary to use two tractors to each machine. The weather continued clear through Sunday and by Monday the harvest was in full swing again and has continued throughout the week.

The excellent test made by wheat harvested last week has dropped to some extent on account of the rain, however, it still tests 59 to 60 pounds to the bushel. The highest test last week was 63.

The greatest yield per acre so far reported was 31 bushels, and many fields produced 20 to 25 bushels per acre, it is said. Wheat men believe that the average production per acre for the entire county will be around 15 bushels.

Up until Wednesday night 170 cars of wheat had been shipped from the elevators at Crowell, Foard City and Margaret to Fort Worth elevators over the Panhandle & Santa Fe railroad, according to figures released by Verne Walden, Santa Fe agent in Crowell. The capacity of each car will average about 1,500 bushels.

Many of the out-of-town trucks here to haul grain to the elevators have gone. Showers that fell Wednesday night will probably delay harvest today.

City Officials Will Clamp Down on Traffic Violations

Owing to the extreme danger of serious accidents occurring on the streets of Crowell with the present laxity in observance of traffic laws, it was decided at a meeting of the City Council Tuesday night to seek the cooperation of motorists and the public in general in bringing about a safer condition on the streets adjacent to the square in Crowell.

The habit of parking in the middle of the street, double parking and otherwise jamming the streets has been growing steadily worse and this step is being taken to avoid traffic accidents in which life might be lost.

The habit of turning around in the middle of the block is another traffic violation which has become too frequent of late. General traffic laws should be observed on the down town streets and the City Council sincerely urges all motorists to give their hearty cooperation in this undertaking.

Margaret Home Is Destroyed by Fire

The 4-room home of Mr. and Mrs. Henry Blevins in Margaret was destroyed by fire about 11 o'clock Friday morning. When the fire was discovered by Mrs. Blevins in one of the rooms, the blaze had gained such headway that it soon spread throughout the house.

All clothing and furniture, including a new refrigerator, and 400 cans of meat and fruit were a total loss.

REPAIRING HOME

W. H. Moyer has bought two blocks of land two blocks northwest of the square, a location known as the former home place of the late J. F. Cheek, from Mrs. T. S. Haney and is improving it for a home for himself and family. He has purchased and moved to the location a two-room house and is building a back porch, 28 feet long and 9 feet wide, with 9 windows. The house on this piece of ground was destroyed by fire many years ago, however, the sidewalks and underground cistern remain in good condition.

Completion of the new home will be made soon.

Items from Neighboring Communities

MARGARET (By Mrs. John Kerley)

Mrs. Bud Minyard of Dallas has been visiting relatives here the past week. Billy Gene Moore of Dallas has been visiting in the home of his aunt, Mrs. George Wright, and family, several days. Mr. and Mrs. Elmer Jolly and grandchildren, Betty Lou and J. L., visited Mr. and Mrs. W. A. Priest Sunday. Mr. and Mrs. Henry Blevins had the misfortune of losing their home and contents, with the exception of a sewing machine and two chairs, by fire Thursday morning. They are now living in a small house on the J. L. Smith place. A shower was given for them at the home of Mrs. Johnnie Wright Monday afternoon. Mrs. Gilbert Chout returned Wednesday from Presidio after several days' visit with her husband. She cooked several days for the bridge gang while there, during the absence of the regular cook. Mr. and Mrs. Raymond Sikes and little daughters, Rita Rae and Neva Clair, of San Angelo spent for several days' visit.

THE POCKETBOOK OF KNOWLEDGE

Illustrations and text for 'THE POCKETBOOK OF KNOWLEDGE' including: 'THE "SUPER" TYPEWRITER', 'A NEW ELECTRONIC "ICE INDICATOR"', 'FLEXIBLE GLASS FIBRES THINNER THAN A HUMAN HAIR ARE USED IN CAMOUFLAGING IMPORTANT WAR PLANES', 'CHECK HOGS FOR WORMS', 'REMEMBER WE NEED GRAIN', 'MODERN MAGIC CARPET', 'AVAILABLE FARM LABOR'.

AGRICULTURE (D. F. Eaton, County Agent.)

Check Hogs for Worms. March pigs will soon be put in the feed lots, so why not check up and see if they need treatment for round worms? We have just given a demonstration of a treatment for expelling worms on the C. C. Weldon farm. In this case we used nema capsules which he had already procured; any standard remedies could have been used. In this case he used a water gun and a mouth opener with satisfactory results. These shoats were rather large, but by means of a V shaped trough we were able to handle them. Smaller hogs are handled differently. Feed is too valuable to feed to wormy, mangy or lousy hogs. All can be controlled at very small expense. Use a self feeder and a sanitary water trough. We will provide you with blue prints showing how to make them. Also have a good shade and plenty of sudan pasture. Remember We Need Grain. Again we would like to call attention to the possible shortage of grain and protein feeds this winter. At present, of course, except for hogs, poultry and dairy cows the need for grains is not as pressing and especially with small grain being harvested from which source a supply is available. Also protein is being supplied with grass and sudan and other growing crops, with alfalfa in limited areas. The latter crop is difficult to harvest because of rain. So we are getting by pretty good at present under the prevailing situation. However, it is always well to look ahead with a view of growing as much as possible a supply on the farm for use there and to have a surplus to sell. If this grain is grown, harvested and stored, there is little question as to securing a profitable price for it. Aside from the actual value in dollars and cents you are rendering a patriotic service. Remember there are no huge surpluses of grain in existence now and will not be at the end of this year. Available Farm Labor. We still have a few fine young men, under draft age, available for farm labor. Most of these boys have had experience in working on the farm and are willing and able to do most any kind of farm work. Some of them can operate tractors. From the inquiries from other counties coming in here there is a strong demand for hands and equipment in all the counties north and west of us. With favorable weather here

in the county we will be well over the top of the harvest by the end of this week. Fortunately we have had sufficient labor and equipment to get by with here in the county. The rains the past few days have been heavy in some places and light in other sections. Most combines are going full blast now. Replanting is also under way. Some have planted cotton three or four times and still have poor stands.

Poultry Situation. We doubt if this county has ever grown as much poultry before as has been grown this season. While the hatching and early brooding season is over, yet we have not gotten by all the difficulties. However, we have come to the place where we can get the birds out of the crowded brooder house into more roomy houses and yards, where the birds have a chance to run around and have the opportunity to get green feed and sunshine. After the birds reach four to six weeks of age they may contract coccidiosis and a heavy loss occur in a few days. There are treatments for this disease. Use careful sanitary methods as a precaution. But to forestall the disease, birds should be kept in a dry, clean place, with dry, clean litter. Keep them eating good feed. Damp mash may be fed for thirty minutes and then the container should be removed and cleaned. Remove dead and unprofitable birds and burn or bury them. If sulphur is used, use 10 per cent mixture for five days, 5 per cent three days and 2 1/2 per cent for several weeks thereafter in mash. Bluestone and vinegar may be used as follows: bluestone 2 ounces, vinegar one pint, and put one tablespoonful to each gallon of water of the mixture. For foul pox vaccinate the pullets when they get about six weeks old. Remember it will also be necessary to vaccinate all old stock or they will take the disease from the pullets. Use follicle system. For lice on hens use sodium fluoride as a dip, two tablespoonfuls to the gallon of water. Be sure all feathers are thoroughly wet. Canabalism is due to overcrowding, lack of vitamins, sunshine, green feed and fiber and feeding space. To correct this, give the birds more room, feed whole oats free choice if the birds are over five weeks of age and be sure they have grit.

THOUGHTS OF SERIOUS MOMENTS. The best way to get to the top is by being the best man at the bottom.—V. H. Jones. Merit exists without high position, but no one can reach high position without some merit.—La Rochefoucauld. Your circumstances may be un congenial, but they shall not long remain so if you but perceive an ideal and strive to reach it. You cannot travel within and stand still without.—James Lane Allen.

As Axis Troops Surrendered to Allies

Covered by a Sherman tank, German prisoners prepare to move on after surrendering themselves to Allied forces in North Africa. A short time later all organized enemy resistance had ceased in all sectors, and an estimated total of 150,000 German and Italian troops had been taken prisoner, together with their commander, Col. Gen. Juergen Von Arnim. Vast quantities of guns and war material of all kinds were captured.

FAMILY WASHTUB

We have read much of the attempts of the War Production Board to make available to the civilian population increased quantities of civilian goods in which shortages have become critical. For example, it is difficult for the average person to realize the function of the galvanized washtub to millions of our people. Over half the homes of America are without bathtubs, and the galvanized tub, used for laundry, is the only bathing facility for the family. Despite this need, however, there has been for many months an acute shortage of large galvanized tubs.

This situation is cited to illustrate the importance of renewing supplies of essential domestic items which the majority of our citizens must eat, wear and use in order to maintain the morale and health of the country. Only the local storekeeper and the people affected know the importance of such items.

Mistakes were inevitable in establishing any rationing program of food and commodity supplies, but the time for correction has arrived, and washtubs point the way.—Industrial News-Review.

Your Horoscope

June 14, 15.—You are very close in money matters, but sometimes very generous with a friend. You are faithful and loyal to what you consider duty. You are very reserved regarding your affairs except with your very intimate friends. While strongly inclined to have your own way, you will sacrifice your own desire for the sake of peace and the welfare of your family.

June 16, 17.—You enjoy luxury and ease, love home and kindred. You are very fond of music and poetry but are inclined to be impractical in business. You have many warm, devoted friends, and are a valued friend, but you do not understand fully how highly you are regarded by those who know you.

June 18, 19, 20.—Your disposition is generally happy and contented. You love home and kindred, have some musical talent. You are regarded highly by those who know you. You are not a very successful business person.

INTERESTING FACTS OF THIS AND THAT

California produced last year 62,000,000 gallons of wine. This was 44 per cent less than was produced the year before.

According to Secretary of War Stimson the Axis has 17,000,000 armed men in the service.

More than 450,000 negroes are now serving with the United States army both as commissioned officers and enlisted men.

(By Thomas Hartwell)

The Life That Lives In Harmony: The law of a perfect world in harmony—harmony of color, harmony of sound, harmony of motion among the planets. Without harmony in the universe there can be no order. Without harmony of color a picture becomes a worthless daub. Without harmony in sound a musical production becomes a jargon of unrelated noises, unpleasing and disturbing. There is a harmony in the heavens at night, in the movement of the clouds, in the rustle of the wind through the trees, in the murmur of a waterfall. In nature's world everything is harmony, even in the terrifying crescendo of the storm with its lightning and its thunder. All aspects of nature are beautiful because they possess the quality of harmony. Our lives must likewise be in harmony with the world in which we live. We must be in harmony with the forces of nature. We must conform to their way. We must be in harmony with the people about us if we would avoid unpleasant and disturbing clashes. We must be in harmony with God's plan for us. No one is big enough to live out of harmony with men, or nature, or with God. The life that lives in harmony is the happy, fruitful, contented life.

OIL ON THE TROUBLED WATERS

What We Think (By Frank Dixon)

A definite milestone in the adjustment of world affairs was passed last week when the announcement was made that the Communist International or Comintern was ordered dissolved.

The Communist International was a dream of Leon Trotsky and Lenin. It was an international Communist missionary society with headquarters at Moscow.

Following the death of Lenin the realistic Joseph Stalin came into the picture. He realized that Russia had a too big a job to do at home to concern itself with the rest of the world or to fritter its energies away on dreams of world revolution.

As a result he early clashed with the old Bolshevistic crowd headed by Trotsky. Stalin won and executed or shot most of the opposing leaders. He, however, permitted the Comintern to continue to operate apparently feeling it desirable at that time to hold all strong groups together...

Because of the fact that Stalin could not accomplish a complete change in Russia at once he was forced to make a deal with the strong Communist leaders to carry on their missionary work in a limited way. One of the results of this was the activity of the Communists in France which resulted in the break down of the nation and its defeat by Hitler's armies.

The existence of the Communist International created a world wide distrust of Russia and like a blight prevented normal international thinking and international reaction. It also gave false leaders like Hitler opportunity to rise as saviours and "protectors" of the people...

The war brought the opportunity that Stalin needed and he ordered the dissolution of the Communist International or Comintern. The act at once places Russia in a more advantageous place among the Allies. It also removes the menace from which Hitler deceitfully claims he is seeking to protect Europe.

Coming when it did the dissolution of the Comintern is not only a victory for Stalin but it is a victory for the Allies as well.

The devastating floods which have visited this country the past two weeks indicate that with all our learning we have not learned how to control floods. A series of reservoirs to care for the overflow and husband the surplus water through the dry part of the year would prevent enough flood damage in one year to pay for the project...

30 YEARS AGO IN THE NEWS

The items below were taken in whole or in part from the issue of The News of June 20, 1913:

At the regular communication Monday night the Masonic Lodge elected the following officers for the ensuing year: E. P. Bomar, worshipful master; J. R. Beverly, senior warden; John C. Roberts, junior warden; A. S. Hart, treasurer; Joe W. Beverly, secretary; B. W. Self, tiler.

W. M. Pearce of the Black School House community died last Sunday night following a lingering illness. Funeral services were conducted at the cemetery Monday by Bro. Woods, pastor.

J. W. Bell, one of Foard County's big wheat growers, has just finished threshing his crop and he informs us that one field of 60 acres averaged 12 bushels to the acre, while another field of 65 acres averaged 24 1/2 bushels, which is the best yield that has yet been reported.

At a meeting of the Ex-Confederate soldiers last Saturday, motion was made and carried that an invitation be extended to all Ex-Federal soldiers to attend the picnic and barbecue to be held at Crowell Monday and Tuesday.

Cottonwood Items—Mr. Inman and Miss Minnie Ringgold have been employed as teachers for our school next term. Mr. Inman has taught three terms at Cottonwood.

Last Wednesday evening, June 18, Mr. and Mrs. J. L. Martin opened to the Epworth League and to their many friends, their elegant home where a most delightful evening was spent in a social way.

Mrs. T. D. Britt and son, Jack, arrived here last Wednesday from Texarkana where Mrs. Britt has been teaching. Mrs. Britt has been elected to a position in the schools of this city for the coming term.

Miss Mae Major, who has been in the employ of the Allee-Henry Co., has resigned her position and returned to her home at Memphis.

Miss Gladys Staggs of Nashville, Tenn. is here the guest of her brother, J. F. Staggs. Miss Staggs will probably spend the summer in Crowell.

Mrs. Chas. Thompson and Mrs. Rob Wells have returned to Crowell from a visit to Pilot Point, much to the joy of their friends, more especially their huddles. Several of our business men have been experiencing a taste of bachelorhood and single blessedness for several days, and they are the most forlorn looking bunch one ever saw. Cheer up, fellows, it will be your time to go next—maybe.

If a grouch could see himself as others see him he would think it was some other person. He would not believe that it was himself.

CLOSING HATCHERY

I am closing my hatchery and will take off my last hatch on the 25th of June. Anybody wishing baby chicks, should let me know at once. I expect to hatch this fall and am taking orders for September hatches. I am buying poultry, eggs, hides and cream at top prices.

I have a truck load of good red maize. Please bring your sack.

I Will be Open Nights through harvest.

Synthetic Rubber Plant in Houston Almost Completed

Akron, Ohio.—One of Texas' largest synthetic rubber plants operated by a single company is nearly complete and ready for production, officials of the Goodyear Tire & Rubber Company disclosed today.

It is the 60,000-ton plant at Houston, adjacent to the Sinclair Refining Company's big, new butadiene plant. The Houston plant is expected to start turning out Buna-S type synthetic rubber for tires and other military uses about August 1.

Built with war-emergency funds provided by the Defense Plant Corporation, the Houston synthetic rubber plant will be operated for the war's duration by the Goodyear Tire & Rubber Company of Akron, which placed the nation's government synthetic rubber plant in operation in Akron last May.

The Akron plant now has the largest production total of any government synthetic rubber plant in the country.

Comprising two distinct 30,000-ton synthetic rubber units, the Houston plant will provide employment for about 600 persons while another DPC synthetic rubber plant erected at Baytown, Texas, under Goodyear supervision and of 30,000 tons annual capacity, will employ 350 more.

The Houston plant will be one of the first government plants to be completed under a standardized formula which permits maximum economies in construction materials.

One feature is the fact that the process building of each 30,000-ton unit at Houston will be without walls, increasing the structure's degree of safety and taking advantage of Texas' benign climate.

Another feature is that the Houston plant, like the others currently under construction, will turn out their product in 75-pound blocks. The first government synthetic rubber plants turned out their product in slabs and in blocks. Now the slabbing will be done in the rubber mills exclusively like Goodyear's in Akron.

In the Houston plant, the synthetic rubber will leave the driers on conveyors which will carry it directly to four automatic compressing machines in each unit to produce the synthetic rubber blocks to be baled for shipment.

Goodyear synthetic rubber experts from Akron will direct the Houston plant, in addition to another group which will assist in placing the Baytown plant in production. Both these groups are being trained at present in Goodyear's synthetic plants in Akron.

Pipe lines direct from the Sinclair refinery will supply butadiene for the Houston plant while styrene will come from the Dow Chemical Company plant at Celasco, Texas, and from the Monsanto Chemical Company at Texas City, Texas.

Practically all the pipelines providing original materials and supplying individual operations in each of the Houston 30,000-ton units are underground as an added safety feature.

The Houston and Baytown synthetic rubber plants are part of a synthetic rubber construction program in Texas which, when completed this fall, will make Texas the leading synthetic rubber-producing state in the nation.

The government investment represented by these synthetic rubber plants, together with their auxiliary butadiene facilities and increased styrene production, will total more than half a billion dollars and enable Texas to supply more than a quarter of a million tons of synthetic rubber yearly.

Into the Houston plant, it is estimated, will go about \$11,000,000 while the Baytown plant will cost approximately half as much.

PATRIOTISM TO WHOM?

This country has just witnessed the humiliation of our government by American coal miners and their leaders, us trying to overlook the facts—the men walked off the job in defiance of requests of the President of the United States; they refused to go back to work at his request, and only returned to work on orders from the head of their union.

This flagrant disregard of public welfare, and established agencies of government, was but one step removed from open revolution in war time.

And yet the head of the United Mine Workers, according to news reports of May 4, says to the men who struck: "Your record of patriotism can never be challenged."

STORMY TIMES!

Why worry about your property? There are plenty of worries which cannot be helped, but there is no need to worry and fret for fear your property will be damaged or destroyed by a storm or hail. Have it insured with the Hughes Insurance Agency and let them do the worrying. Take the precaution for the sake of the property and also for your peace of mind. Talk it over with them.

TEXAS FARMERS PAY DEBTS

Texas farmers and ranchmen have made remarkable progress during the past two years in reducing debts and getting their operations on a sounder footing for war production and for later peacetime readjustments, reports General Agent Jack Shelton of the Farm Credit Administration of Houston.

Credit facilities that were not available in World War I are now well developed and playing a major role on the farm front in this war, he said. "The Land Bank System, started 26 years ago during the war, has set a pattern for low interest rates and long terms and has helped thou-

sands to pay out of debt Federal Intermediate Credit Administration which through the need demonstrated by farmers for an institution that stands and is able to take agricultural credit as a discount.

"This year is the 10th anniversary of the Farm Credit Administration which brought together the various credit agencies and established the Production Credit Administration in Texas. The Co-operatives in Texas, experiencing their heaviest credit extension, manufacturing production, are also having their payments."

LOCALS

Bill Bruce has returned from Abilene where he had spent a week. Miss Louise Bennett of Amarillo is spending the week as the guest of Miss Bette Shaw Kimsey. Mr. and Mrs. C. R. Ellis spent last week-end in Paducah visiting Mr. Ellis' mother and other relatives. See us for Burial Insurance.—The W. R. Womack Burial Association. Don Ray Burrow, son of Mrs. Raymond Burrow of Fort Worth, is here spending the summer with his grandparents, Mr. and Mrs. E. W. Burrow, and with Mr. and Mrs. Karl ten Brink.

Sweeps, already sharpened, all sizes.—W. R. Womack. W. E. Hallmark of Kermit is spending his vacation here visiting relatives and friends. Simmons guaranteed house paint only \$3.00 per gallon at Beverly Hdw. & Furn. Co. Mrs. L. E. Tackett and son, Rickey, are in Brownwood visiting in the home of Mrs. Tackett's sister, Mrs. Geo. Norwood Jr. Mr. and Mrs. John White left Saturday for their home in San Antonio following a visit with Mrs. White's parents, Mr. and Mrs. George Canup. Don't forget to remember father on Father's Day next Sunday. Buy your gift at this store.—Ben Franklin Store. Simmons guaranteed house paint only \$3.00 per gallon at Beverly Hdw. & Furn. Co. Mrs. Ollie Henson and son, Melvin, of Abilene, were guests of Mrs. Henson's sister, Mrs. T. A. Spears, Sunday night and Monday. Kem-Tone paint, all colors. Paint your room yourself.—W. R. Womack. Will Kelly of Oklahoma City came in last week to visit his daughter, Mrs. Homer Ketchersid, and family. Mrs. T. A. Spears and son, Edgar B., spent Saturday night and Sunday in Goree visiting Mrs. Spears' father, J. D. Luttrell. Remember Father on his day, Sunday, June 20, and select the gift at our store.—Ben Franklin Store. Mr. and Mrs. Carl Owen and Mrs. Smith and two sons of Vernon were guests in the home of Mr. and Mrs. Roy Cooper Sunday. Simmons guaranteed house paint only \$3.00 per gallon at Beverly Hdw. & Furn. Co. Mrs. Belle McKown has returned from Fort Worth where she had spent a week visiting in the home of her daughter, Mrs. Fred Wachsmuth and family. Mrs. E. L. Bishop returned Tuesday from Gatesville where she had spent a few days visiting her husband, Lieut. E. L. Bishop, who is stationed at Camp Hood near there. Mrs. Bishop also visited her sister, Mrs. Frank Gallorenzo, whose husband is stationed at Camp Hood.

Fruit jars and canning supplies at Beverly Hdw. & Furn. Co. John Banister of Tulia was here Wednesday to get his combine for harvesting wheat. The machine had been used here by Carrie Wisdom. Fruit jars and canning supplies at Beverly Hdw. & Furn. Co. Rev. H. A. Longino, pastor of the Crowell Methodist Church, is in Dallas where he will be for ten days attending the Dallas Pastors' School at Southern Methodist University. Miss Sybil Gobin, who is employed in the Burk Burnett Clinic, is spending the week visiting in the home of her parents, Mr. and Mrs. Pete Gobin. Electrolux sweeper for rent—\$1.50 per day.—W. R. Womack. Miss Carrie Hughston and Miss Eva Hughston of Dallas arrived here Wednesday for a visit in the home of Mr. and Mrs. T. L. Hughston and other relatives and friends. Lee Allen Zeibig and son, Jerry Lee, who have been visiting their parents and grandparents, Mr. and Mrs. Carl Zeibig, left Wednesday for their home in San Diego, Calif. Mr. and Mrs. Raymond Sikes and children of San Angelo spent from Saturday until Tuesday visiting his parents, Mr. and Mrs. Green Sikes, and other relatives and friends at Margaret. Mrs. Jimmy Self of Lubbock is spending the week here visiting Mrs. A. E. McLaughlin and other relatives and friends. Mrs. Self is a former teacher in the Crowell schools. Fixall enamel for any surface only 20c at Beverly Hdw. & Furn. Co. Mr. and Mrs. Clifton French and two daughters, Carolyn and Kathleen, and Mrs. Maggie French of Corpus Christi, arrived here last Saturday for an extended visit with relatives and friends. Dr. Carl Wetstone, pastor of the First Presbyterian Church of Wichita Falls, visited in the home of Mr. and Mrs. Gus Patton last Wednesday. Mrs. Donald Burch of Paducah, daughter of Mr. and Mrs. C. R. Ellis, underwent a minor operation in the Quannah Hospital Tuesday and was returned to her home Wednesday afternoon. New shipment of bedroom rockers.—W. R. Womack. Mrs. John Todd and son, Gary, and Billie and Gloria Billington of Fort Worth are here for a two-weeks' visit with Mrs. Todd's parents, Mr. and Mrs. M. L. Owens, of Foard City. Mrs. Jake Moore of Vernon was here last week visiting relatives and friends and looking after her home and farming interests. She is employed as cashier in the Faith Cafe in Vernon. Pint, quart and half gallon fruit jars at Beverly Hdw. & Furn. Co. Horace Canup arrived at home Tuesday of last week from Honolulu, T. H., where he had been located since January doing construction work for the Government at Pearl Harbor. He is the son of Mr. and Mrs. Geo. Canup. Miss Myrna Holman, who was Foard County Home Demonstration Agent before moving to Brenham, Washington County, now resides in Bryan and is County Demonstration Agent for Brazos County. She has just recently made the change. Water hose, 25 and 50 foot lengths.—W. R. Womack. Mrs. Clarence Self of Wichita Falls and Mrs. Chas. Melton of Henrietta visited relatives here Wednesday. They were accompanied by Mrs. S. E. Woods and Miss Lottie Woods of Wichita Falls, who visited in the home of Mr. and Mrs. G. H. Patton. Mr. and Mrs. C. H. Wallace and son, Billy, of Austin, and Jane and Clyde Dodson Jr. of Fort Worth spent a short time here last Tuesday afternoon visiting Mrs. Wallace's father, W. S. Gallaway, pharmacist at Ferguson's Drug Store. If you need cotton chopping hoes we have 'em.—Beverly Hdw. & Furn. Co. Mr. and Mrs. Esca Brown of Fort Worth are at home to spend a two-weeks' vacation visiting relatives and friends and looking after the harvesting of their wheat crop. Mr. Brown, former employe of Self Motor Co., is employed as a tool maker in the Consolidated Aircraft Corporation factory where he has been working for the past year. Lawrence Kimsey of Plainview was here Sunday and Monday visiting his parents, Mr. and Mrs. W. W. Kimsey, and other relatives and friends. He had been to Fort Worth to take Mrs. Kimsey and their son, Larry, where they will visit relatives for a week. Lawrence is field supervisor for the Farm Credit Administration in Hale, Lamb, Swisher and Castro Counties with headquarters at Plainview. He says the Government is lending as much as \$60 per acre to farmers to raise Irish potatoes in that section and the crop is excellent this year.

J. M. Hill Jr. has returned from Atlanta, Ga., where he has been attending medical school for the past term. Mr. and Mrs. Paul Crews and small son, Paul Jr., are here from Texon visiting Mr. Crews' parents, Mr. and Mrs. Frank Crews. Mrs. Vivian Williams of Hamlin is in Crowell assisting Verne Walden, Santa Fe agent, during the rush season of wheat harvest. Miss Marjorie Lee Pechacek, daughter of Mr. and Mrs. R. L. Pechacek, who is employed in Vernon at the Herring National Bank, has recently been elected to membership in the Business and Professional Women's Club at that place. Miss Mary Ella Rettig returned home last week from Springfield, Mo., where she had completed her sophomore year in Drury College. Miss Rettig is majoring in home economics. She will spend the summer with her parents, Mr. and Mrs. Ed Rettig, south of Crowell. Miss Lenore Longino of Abilene visited for a short time in the home of her parents, Rev. and Mrs. H. A. Longino, over the week-end. She was accompanied on her return as far as Munday by her mother and three brothers, Hugh, Harold and Ray Wilbur. Mrs. Annie Goodson and Mrs. Ralph Miller and daughter, June, of Gulf Port, Miss., arrived in Crowell last Thursday morning for a visit with Mrs. Goodson's daughter, Mrs. Ernest Breedlove, and family. Their arrival here was delayed several days on account of high water interfering with railroad traffic. Mrs. Dan O'Conner returned to Washington last week after a visit here with her parents, Mr. and Mrs. Q. V. Wittingham, and sister, Jane. She was accompanied to Washington by Miss Eita Jo Bruce, daughter of Mr. and Mrs. Jeff Bruce, who will visit her sister, Miss Mary Frances Bruce, who is employed there. She will remain in Washington for an indefinite period. Lewellyn Morgan arrived here last week from Amarillo to join his family. Lewellyn has received his discharge from the Army Air Corps on account of his age after having served seven months in the mechanical division at the Army Air Corps field in Amarillo and is now in the reserve. Mr. and Mrs. Morgan are planning to move back to their farm near Floydada in the near future.

Miss Camille Graves, who has been teaching in the High School at Rule is at home with her parents, Mr. and Mrs. I. T. Graves, for a vacation. Mr. and Mrs. Cone Green and children, Patsy and Dan, returned to their home in Levelland Monday after having visited in the home of Mrs. Green's parents, Mr. and Mrs. W. S. J. Russell. Miss Frances Henry Johnson, daughter of Mr. and Mrs. W. B. Johnson, who has been attending the University of Missouri at Kansas City for the past term, arrived at home Wednesday afternoon. CARD OF THANKS We wish to thank our friends and neighbors for the kindness they have shown, in our hour of sorrow. Mrs. Ola Heath, Delvert Heath, Dumas Heath, Pvt. Clayton Heath, Mrs. Ethie Hopkins, Mrs. Lucy Travis, Mrs. Lula Cook, Mrs. Ollie Ballou, Mrs. Winnie Davis, and Other Relatives. SANTA FE CHANGES The promotion of J. A. Noble as district engineer of the Southern territory of the Santa Fe Railway Western Lines, to succeed W. H. Rochester, who was named Assistant Chief Engineer of the Coast Lines, was announced this week by G. C. Jefferis, general manager. Willard R. Baker, roadmaster at Clovis, was promoted to succeed Noble as engineer of the Pecos division, with headquarters at Clovis. Noble is one of the most popular officials on the Western Lines, and has been with the company since 1907, holding various jobs in the engineering department until 1917 when he entered the Ar-

CARD OF THANKS With the greatest appreciation for all the help given us after our home was destroyed by fire, we want to express our most sincere thanks to you, our friends. May God richly bless everyone of you. Mr. and Mrs. Henry Blevins. Since the African campaign has gotten under way over 339,000 bags of mail have been sent to Africa from the United States. The Americans there who did not have as much time to write as the folks at home sent 30,000 bags back to the United States. Over 4,300,000 V-Mail letters were handled. According to Dean William F. Russell of Columbia University, there are 650,000 physically fit men in the United States so illiterate that no branch of the service will accept them. my and served overseas as Captain with an Engineering Corps. Upon conclusion of the war he returned to Santa Fe service and was promoted to division engineer at La Junta, Colo. He served on the Northern District until 1930 when he was transferred to the Pecos division as district engineer with headquarters at Clovis. Baker has been with the Railway since 1904. He held numerous positions in the engineering department and was promoted to roadmaster in 1943.

War Work of a Santa Fe Wheat Car
This statement explains why many Santa Fe box cars, built to move wheat during harvest season, are many miles away doing other war jobs.
* This year an estimated 75,000,000 bushels of wheat must be moved by the Santa Fe from the wheat states it serves. It will take about 50,000 carloads to handle Santa Fe's big share of this vital job! To move wheat and other grains, Santa Fe has specially built weatherproof box cars—but today, many of these cars are far from the wheat belt. Where are they? What are they doing? The map above will give you an idea—it shows the movement of a wheat car for the past four months. A Wheat Car Gets Around Starting at Hutchinson, Kansas, with a load of flour for Boston, this wheat car has been kept rolling with vital war cargoes, including Army shoes, Army clothing, aluminum, lumber, machinery, and has just delivered a warload at San Francisco... far from the wheat belt where it is needed now! In four months this car has covered 1,439 miles on Santa Fe rails, and 9,749 miles on the other railroads. No rest for a war worker these days, but a fellow sure gets around! Every Car in Action Every Santa Fe box car, as well as box cars of all other railroads, is in action today. Some of these cars are too far away to be able to return to the wheat belt in time for use. But guided by the wise direction of the Association of American Railroads, the Office of Defense Transportation, and the Interstate Commerce Commission's Bureau of Service, plus the friendly cooperation of the Army and Navy and war freight shippers, Santa Fe is making every effort to secure as many cars as can be spared from war movements to handle this year's wheat harvest.
Santa Fe System Lines

NOTICE to City Taxpayers
DELINQUENT TAXES MUST BE COLLECTED AT ONCE!
The City Council at a regular meeting on June 15th made thorough investigation into the City's financial condition and from such investigation we regret to state that our City Government will be unable to operate unless delinquent taxes are paid immediately.
Our investigation further revealed that sixty per cent of our city taxes are delinquent. These taxes must be paid at once, and in this connection, all parties owing the City delinquent taxes, are hereby requested to pay same or make some satisfactory arrangement to pay same within fifteen days from this date, June 16th. Otherwise, tax suits will be filed immediately.
City Council

TOWN and FARM in WARTIME

OFFICE OF WAR INFORMATION

(A weekly news digest prepared by the OWI rural press section.)

Lower Meat Prices

Effective June 21, meat prices at retail will be lowered from 3 cents to 7 cents a pound by order of the OPA. New prices for cured and processed pork will go into effect on July 5. Reductions in price are smaller on cheaper cuts and larger on the more expensive. As in the case of the rollback of prices on butter, the lowering of meat prices will not directly affect the farm producer. Subsidies, which began June 7, will be paid to anyone who slaughters 4,000 lbs of meat or more per month.

Write To Men in Iceland

"American soldiers in Iceland are not getting nearly enough mail from home," said Chaplain Peter E. Cullom, who recently returned to the United States after two years of duty with Icelandic garrisons. "In spite of the fact that the Army delivers the mail with promptness and regularity to every Army post in Iceland, folks at home are not taking full advantage of this service," Chaplain Cullom said.

Ration Reminder

GASOLINE—"A" book coupons No. 6, good for four gallons each, outside the Eastern gasoline shortage area.
SUGAR—Stamp No. 13 good for 5 lbs. through August 15. Coupons No. 15 and 16 are good through October 31 for 5 lbs. each for home canning purposes. Housewives may apply to their local ration boards if necessary.
COFFEE—Stamp No. 24 (1 lb.) is good through June 30.
SHOES—Stamp No. 18 (1 pair) became valid June 16.
MEATS, ETC.—Red Stamps J, K, L, M good through June 30. N becomes valid June 20.
PROCESSOR FOODS—Blue Stamps K, L, M, continue good through July 7.

More Farm Machinery

A total of 300,000 tons of carbon steel, with other materials in proportion, has been allocated to the farm machinery program for the quarter beginning July 1. An additional 200,000 tons of steel have also been approved for each of the three quarters from October 1, 1943, to July 1, 1944. During the third quarter of this year, special emphasis will be given to the manufacture of harvesting machinery for this year's crop. The whole farm machinery program has been stepped up.

Ice Box Prices

Retail price ceilings on new ice boxes have been established by OPA by models and states. Present prices will be lowered in many cases. Three sets of retail ceilings have been provided: (1) sales by ice companies and their stores, prices ranging from \$26.75 to \$75.50 delivered; (2) mail order sales—\$18.95 to \$69.95; (3) all other sales at retail—\$30.75 to \$88.75.

Coffee By Mail

Coffee drinkers who order their blends by mail may now "pay" for the purchase by enclosing detached ration stamps with the order rather than the entire ration book, OPA has announced. Formerly, consumers were required to forward their war ration book to the

retailer or wholesaler for removal of stamps.

Inspection Requirements Changed

Tire inspections for commercial motor vehicles now may be made every 5,000 miles or every six months, whichever occurs first, ODT has announced. Previously, commercial vehicles had to have tire inspections every 5,000 miles or every 60 days, whichever occurred first.

Data On Prisoners

American soldiers officially reported as prisoners of war in enemy countries to date total 17,083, the War Department has announced. Of these, 11,307 are held by Japan; 3,312 by Germany and 2,464 by Italy. However, these reports are incomplete. Information in the hands of the War Department indicates that the basic diet of an American soldier in German prison camps is largely potatoes, cabbage, fish and an indefinite amount of meat.

To Substitute Tires

Farmers needing farm implement or front wheel tractor tires will be permitted to purchase suitable substitutes when they are unable to find a dealer with tires designed expressly for their purpose, the OPA has announced. Dealers may also sell passenger car owners tires and tubes of a slightly different size than is called for by the rationing certificate.

Leather For Civilians

Manufacture of many civilian leather products, which was prohibited after June 1, can be continued through 1943 out of manufacturers' inventories, under a recent WPB amendment. Among products affected are dress gloves and mittens, brief cases, new upholstery, radio cases, pocketbooks, handbags, cigars and cigarette cases, key cases, tobacco pouches, watch straps and dog furnishings.

Electricity to Farms

Rural electrification loans to 26 systems in 18 states have been made to a total of \$1,790,000 for immediate extension of service to more than 1,000 farms qualifying under present WPB regulations permitting connections to farms producing livestock, dairy and poultry products. The following allocations have been made in Texas: South Plains Electric Co-operative, Inc., Lubbock, \$10,000; Deep East Texas Electric Co-operative, Inc., San Augustine, \$85,000; Earth County Electric Co-operative Association, Stephenville, \$10,000; and Cap Rock Electric Co-operative, Inc., Stanton, \$10,000.

Gas Coupons Changed

A new "TT" gasoline coupon, which replaces the present "T" coupon, will become valid for use on July 1. The old type of "T" coupon will be invalid on and after July 1, except in the north-eastern shortage area where it will be used through July 25. OPA expects the change in design to help take up "slack" mileage and remove potential sources of black market gasoline.

Materials For Underwear

Materials for knit underwear for men, women, and children will be made available by an action of WPB. Manufacturers have been assured of supplies of cotton yarn, thread, fabrics and other materials

On the Road to Tokyo

British engineers in Burma are hacking highways through jungles, mountains, to create a system of roads and supply lines over which they plan to force the Japanese from their positions in that sector. At top: British troops are working on a new stretch of road. Below: A convoy of jeeps carry supplies around a loop on a new road in Burma.

to meet essential civilian requirements.

New Pipeline Approved

A 383-mile, 16-inch pipeline from Sundown, Texas, to Drumright, Okla., having an initial capacity of 54,000 barrels of crude oil daily, has been approved by the War Production Board upon the recommendation of the Petroleum Administrator for War. Construction is expected to begin early in October, 1943, and should be in operation sometime in March, 1944, the administrator added, providing that materials and workmen are available on schedule. The pipeline will serve to provide middle western refineries with additional supplies of West Texas crude oil, thus helping to relieve the national oil shortage.

Workers Stay On Job

Labor and management in the Southwest have given overwhelming support to the national wartime no-strike, no-lockout policy, a report by the Eighth Regional War Labor Board reveals. The region, including Texas, Oklahoma and Louisiana, has far surpassed the recent national record of only three one-hundredths of one per cent of man-hours lost through work stoppages. In the seven months the Regional WLB office has been in operation, only four strikes have been recorded, the report showed.

Death Rate High in Pneumonia Cases

Austin.—The unusually high incidence of pneumonia in Texas at this time, being over twice that of the seven year median is undoubtedly one of the dangerous and disabling sequelae of the current epidemic of influenza, according to Dr. Geo. W. Cox, State Health Officer.

"Pneumonia is a killing disease and a contagious one," Dr. Cox warns. "It is definitely transmitted from one person to another in the same manner as other contagious diseases. The pneumonia patient should be isolated with the exception of the attendant, and all paper tissues used for receiving nose and throat discharges should be immediately burned."

Dr. Cox advises all persons suspecting the presence of influenza to place themselves immediately under the care of the family physician and abide implicitly by his instructions. Bed rest, liquid diet and proper nursing will play a major part in the safe recovery of the influenza patient.

"Pneumonia is the most frequent complication resulting from influenza and is certainly one of the most dangerous. The death rate in pneumonia remains high in spite of medical efforts to control it and when it follows so debilitating a disease as influenza, the patient naturally has less resistance and vitality with which to combat it," Dr. Cox declares.

A PROVEN SYSTEM

In considering proposals that would result in total government domination of medical care, one important point should always be borne in mind. This country already has the best medical system in the world. In no sense would we be turning from nothing to something by establishing socialized medicine. A report on compulsory health insurance by Northwestern University has this to say of American doctors: "The lengthening span of human life, the startling reduction in infant and maternity mortality, the wiping out of plagues and pestilences, the revolutionary applications of medical and surgical science—all attest to the effectiveness with which our present medical system is working."

Far from automatically guaranteeing health improvement, socialized medicine would have exactly the opposite effect if the records of countries having it can be taken as a criterion. This, together with the political implications involved, should be sufficient to discourage its advocacy in the United States.—Industrial News-Review.

SAFETY SLOGANS

Well-kept working places pay bigger dividends than well-kept hospitals and cemeteries.

Electric irons may be sad irons if you don't watch out.

Carelessness has more power than the combined armies of the world.

HOUSEHOLD HINTS

The amount of light and glare in a room should determine the tone of paper used on the walls, a light tint which reflects well for a dark room and a restful shade for a brilliant room.

Add one-eighth teaspoon of baking powder to frosting to help keep it fluffy and prevent sugaring.

Sour milk or cream can be used in cooking or made into cottage cheese.

Office Supplies

The News has a good stock of Office Supplies, small items that are needed in offices and business houses around the square. Mimeograph stencils, typewriter ribbons, large receipt books, Mephisto pencils, Scotch tape, ledger sheets, two sizes; letter files; file folders, two sizes; legal pads, filing trays, typewriter carbon paper, 8 1/2 x 11 and 8 1/2 x 14, also pencil carbon cut any size; stamp pads, all colors.

We also have three Tot staplers and several thousand staples.

THE FOARD COUNTY NEWS

THESE HORSES HAVE JOINED THE CAVALRY!

The merry-go-round has gone to war!

Like the plants that made refrigerators, stoves, furniture, and many other familiar household items, a plant that made merry-go-rounds is now turning out vital equipment for our fighting forces.

It was the biggest job ever performed by American industry to change over from washing machines to guns, from automobiles to planes and tanks. A job that demanded more machinery, more equipment, more men—and more electric power!

That's part of the story why America clicks, of our amazing ability to get things done. Let's feel proud of our achievement... proud that we have more electric power here in America than all the rest of the world combined, and we are using it.

Yes, we have built up in this country more kilowatt-hour output than all the Axis dominated countries combined.

The electric power line is another line the Axis cannot hold.

Lines have been extended to new factories and military training camps ahead of schedule.

It was not an accident that America was power-full.

Electric companies, under business management like the West Texas Utilities, had planned ahead. Knowing their business, schooled in emergencies, they saw to it that Uncle Sam had plenty of electric power—wherever and whenever needed!

It's on tap for all civilian needs too—no shortages, no rationing, no increase in cost.

It's an outstanding wartime example of what free men can do. Free enterprise works!

We're fighting this war to hold this freedom. Government bureaucracies should place full emphasis on winning the war and desist from their political endeavors to permanently change our system of government.

WEEK of the WAR

render of Pantelleria, days of intense bombardment announced in a special message from General Eisenhower's headquarters. The attack came suddenly, less than 24 hours after the day's regional communiqué had reported continued heavy shelling of the island throughout the previous night.

General Eisenhower's message of Pantelleria gives an airdrome and naval base 60 miles southwest of the encirclement of Lampedusa, second largest of the Lipari islands in the Straits of Messina. The other valuable base, just southeast of Pantelleria, is the island of Trapani. Naval forces landed a landing party on Lampedusa June 6, and all but two were returned safely.

Attacked by Air Power

Communications reporting the Pantelleria said the surprise result of a period of intense air bombardment, supported by naval gunfire, was the capture of an unprecedented capitulation about almost all of the island. The British landed the island six times, greater part of the attack carried by American B-24 planes of all types.

A wave of bombers heaped destruction on the island in the last phase of the on-coming attack, and 37 planes were knocked down in the air battle.

Pamphlets dropped on Tuesday (June 8) indicated that the island would be shelled and blockaded. The garrison made no reply, planes inflicted on the island the severest kind of aerial bombardment. Secretary of War Stimson announced the Axis rejection of the offer to surrender meant the war would continue.

Surrender of Pantelleria at 11:40 a. m. (5:40 a. m. when the Axis garrison raised a white flag and placed a cross on the airfield.) After noon, American flyers marked the victory by a big parade through the advanced Allied air force fighters—an impressive display of the growing Allied aerial power.

A message from General Eisenhower was received by President Roosevelt early Friday—a good piece of news, he said. Shortly after he told a press conference he had no details on the surrender except the realization that the Italian defenders had enough water to sustain them.

air forces were concentrating on Pantelleria, American four-engine bombers of the Middle Eastern Command raided the Gervine and Catania airdromes in Sicily, thus carrying forward the campaign to cut down Axis air strength in preparation for possible large-scale amphibious operations.

Secretary of War Stimson, emphasizing that American Air Forces are striking with increasing vigor and effectiveness on widely scattered world fronts, said that while American and British planes continue to hammer the Mediterranean islands of Sicily and Sardinia, as well as the Italian mainland, the weather in Britain has interfered with bombing raids in recent days.

Over Europe a great quiet prevailed—the offensive interruption in the night air operations against Germany since the 24-night lull that preceded the Allied landings in North Africa.

Maj. Gen. Ira C. Eaker, head of the American Air Forces in the European theatre, said the USAAF in Britain has doubled since March and will be doubled again by September. By the end of the summer, said Gen. Eaker, the USAAF, increasing 15 to 30 per cent monthly, will be carrying its full share of the bombing offensive against the Axis.

The increase in American planes is in both bombers and fighters, he said, with a preponderance of bombers, both heavy and medium.

SANTA FE CARLOADINGS

Santa Fe System carloadings for the week ending June 12, 1943, were 23,601 compared with 22,578 for the same week in 1942. Cars received from connections totaled 11,870 compared with 10,392 for the same week in 1942. Total cars moved were 35,471 compared with 32,970 for the same week in 1942. Santa Fe handled a total of 32,987 cars in the preceding week of this year.

Weekly Sermon

By the Rev. Wendell P. Loveless, director of WMBI, Chicago.

"Peace Unto You"

In John 14:27 the Lord Jesus promised peace to His disciples. "Peace I leave unto you. My peace I give unto you." In John 20:19-20 we find Him giving His peace after His resurrection.

First, His peace will dispel fear (John 20:19, 20). Fear is common today. Luke 21:26 states that one of the characteristics of the last days will be "men's hearts failing them for fear, and for looking after those things which are coming on the earth."

On the evening of the resurrection day the disciples were assembled behind closed doors because of fear. But the Lord came into their midst, saying, "Peace be unto you." Then was their fear turned to gladness when they saw the Lord. That is the secret. When the eye of faith catches a vision of the risen, living Savior, fear must go. For "there is no fear in love; but perfect love casteth out fear" (1 John 4:18).

Peace is necessary for service to God (John 20:21, 22). These are days of great activity. One wonders, however, how much is in the power of the Holy Spirit. We are apt to think of doing things for God. But if it is to be pleasing to Him, it must be done with the conviction that we can do nothing; as we yield to Him He will do His own work through us in the energy of the Holy Spirit. How this sanctifies service, and how it transforms the servant of Christ from a victim of hustle and carnal activity into a calm, consecrated channel. Christian service is either overwork or overflow. The peace which Christ gives produces overflow.

The Lord's peace is necessary to dispel unbelief (John 20:26-29). Eight days had elapsed since the last meeting with the resurrected Christ. This time Thomas was present. Again the Lord came into their midst and said, "Peace be unto you." Thomas had expressed unwillingness to accept the fact of the resurrection by faith. Now it may be that when he heard "Peace be unto you" from the lips of the risen Lord, he believed without demanding evidence of physical contact. The peace which Christ gives is the only thing that can dispel unbelief. "He hath made peace by the blood of his cross" (Col. 1:20), and everyone who will receive Him as personal Savior (John 1:11-14) shall know for himself that peace has been made.

Ephesians 2:14 reminds us that our peace is a Person—"He is our peace." Being occupied with Him, coming to know Him, dispels fear and unbelief, and gives the enablement for service acceptable to God.

One of our every two families have at least two workers. Figure it out yourself how much beyond 10 percent of your family income you can put into War Bonds every payday.

Canada's Guns are Heard 'Round the World

The roar of Canada's guns is being heard today all around the world, on land, on sea and in the air. Foreign to Canadian industry before the war, gun manufacture is now being carried out in scores of plants from coast to coast.

Heaviest land gun built in the Dominion is the mighty 3.7 inch ack-ack gun. Many of these are defending England's coasts and cities from Axis air attacks.

Canada is now manufacturing more than 1,000,000 shells every month, together with great quantities of aerial bombs, trench mortar bombs, and anti-tank mines. Production of shells comprises 25 types of 15 different calibres. A great variety and quantity of shell components are also made. In production are 500-lb aerial bombs, practice bombs, depth charges, anti-tank mines, grenades, pyrotechnics, etc. Canadian factories turned out their 2,000,000,000th round of small arms ammunition during February.

Small arms ammunition now produced is of 22 types of nine calibres. This ammunition is made for every type of small arms being produced in the Dominion. Both go to more than 50 different destinations in every part of the world for the many battlefields of this global war.

The energy and productive facilities engaged in the production of small arms ammunition may be gauged from the fact that one of these calibres alone—the .303—takes more than 50 separate operations to complete.

Before the war 500 persons were employed making small arms ammunition in one plant. There are now 30,000 workers in two government arsenals and plants being operated for the government by private industry.

PLAIN TALK

A national oil shortage will be inevitable within two years, and responsibility for it can be placed squarely upon the OPA and the Federal Treasury, says Walter S. Hallanan, member of Petroleum Industry War Council, unless present trends are immediately reversed. He asserted that the nation is producing and consuming five times as much oil as is being discovered, and that the only remedy is price adjustment which will stimulate wildcatting and restore thousands of stripper wells to production.

"It is no time to be concerned about ruffled feelings of some government bureaucrats, or to be fearful of reprisals from Washington," said Mr. Hallanan. "This is a down-to-earth problem and it cannot be discussed in terminology of the stratosphere. I may use such an earthly word as 'monopoly.' I know that the starry-eyed dreamers in Washington regard this as a sordid term but they have not yet devised any synthetic substitute which can be used by oil men to pay lease rentals, drilling costs and increased taxes."

He added that Congressmen, public officials of oil producing states, Federal government committees and "every other disinterested individual or body" has warned of the impending oil shortage and has urged an immediate price correction.—Industrial News-Review.

The pivot of human destiny is the human will.—Bishop Hartsell.

NURSE'S AID A BLESSING

Phoenix, Ariz.—Those men who return from the fighting fronts and home service bases should find in the group of women who have done their part as Red Cross Nurse's Aids an excellent answer to the question, "What have you done?" This is the opinion of one Nurse's Aide, who says, "If the war has any blessings, I should say that the type of program offered in the Nurse's Aide course is prominent among them. It develops a self-reliant, useful type of woman, attuned to the needs and wants of others, capable of meeting an emergency of sickness and disease."

The government has invested to date 12 billion dollars in war plants.

Why butter won't melt in Africa

AS EVERYBODY KNOWS, butter will melt unless you keep it cool. And the African desert isn't cool.

Nevertheless, the Americans who are fighting there carry butter—and it doesn't melt.

It doesn't melt because it's fortified with a fat which has a high melting point. The result is a butter which can be packed in a can, like beans or beef, won't melt, and will keep indefinitely.

You might think our soldiers could get along without butter. They could. But—they don't have to! Butter is good for them—and Uncle Sam is seeing to it that American soldiers are the best-fed, best-equipped, best-cared-for soldiers in the world!

Of course, it takes money to do that. So much money that, to help pay the bill, every one of us must loan every dollar we can to Uncle Sam through War Bonds.

War Bonds are a swell investment. They pay you back \$4 for every \$3. Save part of every paycheck with U. S. War Bonds!

YOU'VE DONE YOUR BIT --- NOW DO YOUR BEST!

BOOST YOUR BOND BUYING THROUGH THE PAYROLL SAVINGS PLAN

Ensign Thos. Hembree Weds Miss Watkins

Ensign Thomas Hembree, son of Mrs. Jimmie Hembree of Margaret, and Miss Marie Watkins, daughter of Mr. and Mrs. J. W. Watkins of Lubbock, were united in marriage in Lubbock May 29, in the study of Dr. H. I. Robinson, pastor of the First Methodist Church, where he officiated with the single sign ceremony.

The bride wore a navy dress with which she wore navy and white accessories and a corsage of pink carnations. The couple was attended by Miss Frances Nell Holgood, Miss Dortha Bass, Charles Beatty Jr. and Gene Tabor.

Mrs. Hembree is a graduate of Deaugh's Business College at Lubbock and is employed at the Bryan McDonald and Son Funeral Home at Lubbock.

The groom graduated from Texas Technological College at Lubbock on May 31, as a mechanical engineer. He will begin active duty in the Navy on July 15, at the University of Arizona.

The couple has been visiting his mother, Mrs. Jimmie Hembree, of Margaret for the past week.

WEST SIDE H. D. CLUB

"To can for quality, there are six points to remember: 1. select fresh, good quality fruits and vegetables; 2. work fast; "One Hour from Garden to Can"; 3. use good containers and proper equipment; 4. seal hot; 5. follow reliable processing times; 6. cool properly, and store in cool, clean, dark, dry place" said Miss Elizabeth Elliott, when the West Side Home Demonstration Club met in an all-day demonstration at the home of Mrs. Ben Hinds on June 9.

In the morning, Miss Elliott demonstrated killing and preparing a hen for canning. A covered dish luncheon was served at noon. The afternoon demonstration was on the canning of vegetables by pre-cooking and the packing raw methods and the canning of fruits and tomatoes by the water-bath method.

Many interested visitors and club members enjoyed the helpful demonstrations. The next meeting will be with Mrs. G. H. Kinche-loe.

Former Crowell Man Weds in California

Corporal Walter C. Black, son of Mr. and Mrs. John Black, and Miss Ruby Clift of Caldwell, Kansas, were married at Redwood City, Calif., on May 10. They are now making their home in San Bruno, Calif., where Corp. Black is a squadron carpenter for the U. S. Army.

Mrs. Black is a welder and is employed at Eithel McCullough Tube Plant in San Bruno. Present for the marriage ceremony were Miss Lanny Clift, sister of the bride and S. Sgt. James Daniels.

TEXAS FARM PRODUCTS GO TO WAR

Preliminary figures on purchases of Texas farm products for Lend-Lease and related war needs during April, were released this week by L. J. Capleman, regional administrator of the Food Distribution Administration.

Included on the list of purchases with amounts were 10,393,000 pounds of dried eggs; 2,783,000 pounds of meat products; 14,498,000 pounds of rice; 20,444,000 pounds of wheat flour; 400,000 pounds of American cheese; 1,700,000 pounds of miscellaneous feeds; 320,000 pounds of refined lard; 6,000 gallons of concentrated grapefruit juice; 50,000 pounds of dehydrated carrots; 42,000 pounds of creamy butter; and 70,000 pounds of edible tallow.

This is only a partial list, Capleman said, inasmuch as many Texas farm products are shipped to terminal markets outside the state and are purchased there by the FDA.

LADIES COME TO RESCUE OF CORPULENT CORPORAL

Jacksonville, Fla.—You never can tell what production will produce, say the volunteers of Jacksonville, who have made 10,000 garments in the past year.

Take the case of the corpulent M. P. Corporal. Into Red Cross headquarters he dashed, carrying eight pairs of G. I. pants, size 38.

"Ladies," he shouted, "this is a national emergency! There aren't bigger pants and I can't get into any of these. I've got the duty for the next three days.

Canada Training Powerful Norwegian Air Force

Norwegian trainers (above) in flight over Canada. (At right) Armed with rifle and bayonet this young Norwegian flyer guards the Headquarters of his command. The Royal Norwegian coat of arms has been placed above the doorway.

A POWERFUL Norwegian Air Force has been mustered and trained in Canada and awaits the day of revenge.

In spite of the fact that Norway was one of the first countries to come under the German heel it has now built an air force equipped and trained in Canada more powerful than it possessed before the war.

The new air force is supported largely by revenue from the Norwegian Merchant Marine which escaped the clutches of the Nazis.

Camp Little Norway has been established in Ontario and here, amid rustic cabins that remind them of their home land, the traditional life of Norway is carried on by the young men and women who are training and working to wrest their country from the Nazis.

Where can I find the gusset department? Needless to say, the ladies rose to the occasion magnificently.

NEW FRONTIER

Every great war opens a new frontier. Prior to the first world war, the frontiers were geographic. The Civil War was followed by the great westward trek of war weary men and women looking for new opportunities and a new life. With the close of the current conflict, at least a major portion of the new frontier, like that of twenty-five years ago, will be in the industrial field. But instead of automobiles, it will be this time in the scientific development of the nation's natural resources. Research men of the coal, metal mining and oil industries, working quietly in laboratories surrounded by military secrecy, have lifted the veil of the future. They have seen the new frontier in all its promise, and enough hints regarding its nature and extent have leaked out to stir the imagination of the man in the street.

The miracles of the sulfa drugs, derivatives of coal, are just one phase of the coming revolution in discovery and research. Rubber synthetics are multiplying almost by the score, along with plastics and other materials, each of which can easily mean the establishment and growth of an entire new industry. Beyond these is a vast realm of discovery of which the public as yet knows nothing. There is a petroleum synthetic, for example, that is effective for its purpose even when diluted in a ration of one part in 100,000,000; it is handled in a "concentrate" of .01 per cent. The future will see 100,000-mile tires, 20,000-mile lubricating oil, 50 to 70-mile-to-the-gallon gasoline, and sealed cooling systems with petroleum-product liquids in both cars and planes.

This country has just begun to grow. Individual initiative and the capitalistic system are inseparable from the American republic type of government. They have barely begun to flex their muscles. If the way is kept clear, by comparison with the future, they will make the past seem puny. The way for future achievements can be kept clear only by a steadfast resolution that in this country government must not be the sinister competitor of free enterprise. This is as true of the natural resource industries as of the smallest popcorn stand. These industries hold the future of a new frontier. It will never materialize except by the efforts of free men under the stimulant of private ownership and management.—Industrial News-Review.

FARMERS FED UP

Many large dairies have gone out of business. More and more is the nation having to rely for its food on the family farm where the members get up in the early hours, milk the cows, tend to the farming during the day, milk the cows at night, and at a late hour call it a day, go to bed, and get up

Digging in Gardens Instead of Mines

These coal miners are shown working on their victory gardens after leaving their posts in the mines. For the second time within a month virtually all mines employing UMW members were paralyzed by lack of manpower. A nation-wide dim-out to eliminate all nonessential use of electricity and a 25 per cent curtailment of all train travel were mentioned as possible coal saving devices should they be necessary.

County Poultrymen Urged to New Goal in Egg Production

Foard County poultrymen are asked by the government to produce approximately 439,000 dozen eggs this year, 12 per cent more than in 1942, as their share in the Food for Victory program, the Poultry Defense Committee estimated this week.

This county goal, which is based on the percentage increase suggested for Texas by the U. S. Department of Agriculture, can be reached if adequate supplies of labor and feed are available, the Poultry Defense Committee Chairman, Hobart Creighton.

"Poultry farmers are now working harder than ever in all-out war production," Creighton said, "continuing the fine job they did in this county last year by producing approximately 392,000 dozen eggs to help supply civilian, military and lend-lease needs. Also, two developments during last year have resulted in larger laying flocks on most farms today: "First, egg prices as shown by purchases of the A & P, Tea Company, one of the largest buyers which paid \$800,900 in Texas last year for 2,522,040 dozen, were so favorable that farmers saved an unusually large proportion of potential layers. Second, conditions in 1942 were good for raising pullets, as fall weather was generally mild and the average hatching date was early.

"Those factors point to increased egg production," Creighton explained, "if an improvement can be made in the farm skilled labor situation and if farmers can get enough protein feeds. There are critical shortages of protein ingredients because imports have been cut so drastically. Even soybean oil meal is not being processed fast enough to meet demands. These are major problems facing the industry."

Texas poultrymen, who produced a total of 233,916,000 dozen eggs in 1942, are asked for 262,671,000 dozen this year as their share of the national egg goal of 4,780,000,000 dozen.

to do the job all over again, seven days a week.

If the farmer worked the short hours and received the high pay of workers in war industries who are constantly striking for even higher wages, those workers would probably be paying a dollar a quart for milk.

Nature's requirements on the farm recognize no artificial production limitations and slow-down sabotage. There are two good places to put strikers today—in the Arm and on the farms. They would then get an idea of what real work is.—Industrial News-Review.

The average U. S. home is 25 years old—two years older in the country than in the city. Four out of ten homes the country over lack toilet facilities according to the Census Bureau.

General Electric Sponsors Program

The General Electric Company has expanded its radio news service to the public from three to six nights a week, and increased the number of stations on the Columbia Broadcasting System carrying this news program from 60 to 117, when it began sponsoring the 10-minute news program, "The World Today," 6:45-6:55 p. m., EWT. The new program supplants the former news program sponsored by General Electric, carried at 6 p. m., EWT, for more than a year on CBS.

"It is appropriate that 'The World Today,' made possible by short-wave radio, a product of electronic research, should be sponsored by General Electric," Mr. Gerard Swope, president of General Electric, explained. "The Company is a leader in the development of international short-wave radio equipment, having built all of America's 100,000-watt transmitters. And General Electric's three short-wave stations, WGE0 and WGEA in Schenectady, N. Y., and KGEI in San Francisco, are now being programmed by the Office of

War Information and the Coordinator of Inter-American Affairs." —Paul G. Hoffman.

When the war came this country had about a year's supply of rubber and tin and a few supplies of other metals and necessary for the war, but a five year's supply of wheat

Smart Women's Wear

Spring Fashions at Reduced Prices

It has always been our policy never to carry over merchandise from season to season—hence the drastic mark-downs.

This is really your golden opportunity—and you will be smart if you take advantage of it—for in the future you may not be able to find this quality merchandise at any price.

COATS 100 Per Cent Wool SUITS
