# What We Think

(By Frank Dixon)

We hear a great deal these days Communism being the greatest threat to this government and what we have come to call the American way of life. So much has been said and printed along this line that many people are thoroughly aroused and visibly disturbed over the growth of Communism in the country and the fact that this government seems unable to deal with Communism as many persons feel it should be dealt with. There is no doub my mind that our attitude o leniency toward a philosophy of government that has as its aim and goal and object the over throw of this government is wrong basically, fundamentally and dangerously wrong. Our attitude ap proaches the indifferent. We offe ly a token resistance to thi philosophy of government with the full knowledge of its aims and number, had each lost \$6000 Money can't buy happiness but design. As dangerous as I feel that ommunism is, there is a threat o our well being that, in my pinion, constitutes even a greater threat to our way of life than does Communism or any other old world philosophy of govern-ment designed to destroy the democratic way of life.

The greatest threat, as I see it, is the growing tax burden of this country and the seeming comolete inability of the administrathe Congress or our state egislatures to resist the urge to

vy more and more taxes. There has come into being in this country within the last twenty years the feeling that the funcn of the government is to hand everyone something free. It has reached a point where only rareis a proposition presented of a paternalistic nature that calls for the expenditure of tax money defeated in Congress. ### Texas Retail Sales Exceed \$424 Million

Austin, Texas, May 16—Estimated retail sales for Texas, exceeding \$424 million, increased 1 per cent in April over the preceding month, but declined 1 per cent from a year earlier, the University of Texas Bureau of Business Research reported.

Because of a late Easter, nondurable goods store sales rose 7 per cent above March to lead durable goods, which usually dominates Texas retail sales.

Florist's sales in April, with a 28 per cent gain over March, howed the greatest increase among nondurable goods stores. Sales of men's and boys' clothing stores climbed 29 per cent; shoe stores, 22 per cent; and family clothing stores, 21 per cent. Sales of grocery stores without

neat and combination stores, risng 5 and 3 per cent, respective-y, contributed to the 2 per cent ike in the overall food picture. Although small gains over March were recorded by jewelry (1 per cent) and furniture and household stores (3 per cent), durable goods store sales declined 5 per cent from the previous month. Sales of lumber and building material dealers fell 10 per cent; farm implements, 9 per cent; and motor vehicles, 6 per cent. Over the April-to-April span, wider fluctuations were registered by Texas retailers. Sales of motor vehicle dealers went up 19 per cent; and automotive stores, 14 per cent; while building materlumber and hardware sales

# CANCER

Many forms of cancer can be cured if discovered early. The death rate from cancer of the stomach, skin and mouth is going down. Cancer frequently gives "danger signals" as:

1. Any unusual lump or thickening especially in the breast. 2. Any irregular or unexplained bleeding. 3. Sudden loss of weight, strength, or appetite. 4. Continued unexplained indigestion. 5. A sore that does not heal. 6. Any persistent changes in the normal habits

It is estimated that 30 to 50 per cent of the deaths from cancer today might have been prevented by earlier recognition and prompt treatment.

Cancer is most frequent after 45 years of age. Consequently, periodic examinations by your physician is a logical and intelligent means of self-protection.

This drug store can take care of your prescriptions in an efficient manner and will appreciate your patronage.

### BAND CONCERT FRIDAY NIGHT

Friday night, May 20 at eight o'clock, the Crowell High School Band will present a concert in the high school auditorium under the direction of Miss Mary Alice Close.

There will be no admission charge. Under Miss Close's guidance the band has developed from a group of students trying to do the scale and exercises into a smooth, co-ordinated band unit about to give its first concert. The band mem bers have been preparing for this concert all year, and invite every-one to attend.

The program will include the following: Basketball Team by Ed Chenette, played by all members of the band; Track Team by Ed Chenette, all members; Celebrated Gavotte by G. F. Handel, by clarinet trio, Bobbie Abston, Mary Alice Rader and Melba Ward; Football Squad by Ed Chenette, members; Recess Time by E Chenette, all members, Cracker lacks, by E. de Lamater, by Cor-net trio, Melvin Newland, Don Brisco, and Jimmy Stinebaugh; and Baseball Nine by Ed Chenette, all

# SUGGESTIONS FOR THE SENIOR TRIP

On Monday the girls might wear a dirndal skirt and blouse or levis and a shirt. They should take at least one dress for shopping downtown or for a dress up date. Play suits, shorts 'n shirts, levis or cot ton dresses will do well for the time spent on the boardwalk. Nat urally a bathing suit is packed somewhere when one makes a trip to Galveston. The girls might also include a pair of dress shoes, loaf ers or moccasins, and maybe some beach sandals. It would be nice if they tucked in one or two bright colored silk headscarves.

Items everyone would take in lude sun glasses, sun tan lotion bathing suit, towels and wash cloths, soap, camera, comb and brush, toothbrush and as much folding money as they can get

### Two Minute Sermon

(By Thomas Hastwell)

Our Time Is Short-I recall

as a small boy that my father on frequent occasions admonished me against wasting my time in idle-ness and the doing of useless things. He used to say that life is too short to waste any of it and one should spend his time in useful pursuits, reading, studying, learning and doing useful, worthwhile things. I must admit that I did not always spend my time in the way he suggested and perhaps missed many golden hours. I could not understand what my father meant by saying that life is short. It seemed to me then that fifty or sixty years was a for the cooking. Long, slow cookfound out later, however, that life is short and even though it may extend as long as sixty years being tough. ### FORERUNNER OF UNIONS

In ancient times, before trade and manufacturing were much developed, farming was regarded as the most important and honorable form of labor, according to the World Book encyclopedia. Traders and merchants were regarded as tricksters, not to be trusted. One of the main purposes of the guilds of traders and craftsmen developed during the latter part of the Middle Ages-which in many ways resembled trade unions—was to prove that their members were honest men, worthy of trust and

### Efforts of Cancer Control Should Not Be Relaxed

Houston (Special)-The cancer control goals of a previous generation are today almost within our grasp, J. Louis Neff. execu-tive director of the Texas Division of the American Cancer Society, control leaders of the state, argthe 1949 fund-raising campaign

the Society.
"We must not slacken the pace of cancer education, service and research. Thirty-five years ago, cancer was the seventh cause of death in our nation," he pointed out. "Today it is the Number Two Killer. What will it be tomorrow, unless we intensify our cancer control work?"

Mr. Neff's letter came as the Texas Division of the Society beits fourth year of cancer control work in the state. The Texas organization was founded May 8, 1946, and in this brief time has become one of the leadng public health movements in

The executive director warned members of the Society that they "dare not relax the pressure."
"You might be helping to build something which some day might save your life," he reminded. Discussing cancer control prog-ress, Mr. Neff said: "A few years ago our scientists could see almost no corrolation between the few verified facts about cancer. Today they have a mass of information, all corrolated, and they are finding new clues to causes and new methods of treatment.
