## Mr. and Mrs. W. T. Graves and Five Sons

W. T. Graves, justice of the peace at Stephenville, former legislator, is shown on the day he was presented honorary membership in the Stephenville Rotary Club as the fifth stalwart son look-alike. Graves is seated beside Mrs. Graves, all of whom served as civic club presidents. From left to right, Terrell Graves, Coleman, Grady Graves, W. T. Graves of Stephenville, I. T. Graves of Brownsville, and J. K. Graves of Brownsville. The above picture has been taken in the Stephenville Enterprise and Floydada Hesperian. Mr. Graves appeared in the October

issue of The Rotarian. The cut was furnished The News through the courtesy of the Hesperian. W. T. Graves, 77, who taught school in Stephenville and Erath County for 53 years and decided he wanted a college degree when he was past 60, has been made an honorary member of the Stephenville Rotary Club. He was guest speaker of the club's meeting recently. Unknown to him, his five sons had been mustered to Stephenville for the occasion and were presented, one by one, after his address. Four have served as presidents of Rotary Clubs and the fifth is a past president of a Lions Club.

Like their father and sister, Mona Marie, married and now a language teacher at Corpus Christi, all are graduates of Tarleton State College. W. T. Graves was graduated from Tarleton at the age of 67. He is a native of Erath County, is a former legislator and county school superintendent, and has been justice of the peace for the past five years. He continued to teach school during his three terms as state representative, starting in 1942. He taught Sunday School for 42 years at the First Baptist Church, of which he is a deacon, and has been a member of the Odd Fellows Lodge since 1902.

## C. H. S. Football Team Will Play New Castle Bobcats Here Tomorrow Night, Last Home Game for Three Weeks

The Crowell High School football team will be playing its last home game for three weeks when it entertains the New Castle Bobcats here tomorrow night. The New Castle team has broken even in games thus far this season. The Nocona Indians took them into camp last week by a 12 to 0 score but the week before that they looked exceptionally good in defeating the Throckmorton Greyhounds by the score of 18 to 13. The Crowell Wildcats have scored three victories out of four games played this season. They should have the edge in this contest. However, they are not taking the game lightly.

This is the first time these two clubs have met since New Castle came to Crowell in 1938 to play

the Wildcats in a regional championship game. Crowell won that contest 26 to 7. Some of the players on Crowell's team at that time were Cotton Owens, Charles Branch, Wayne Cump, Bernice Fitzgerald, Raymond Joy, Que Meason, Frank Dunn, Ed Gafford, Jack Fitzgerald, Hugh Solis, John Lee Orr and Oran Johnson. Coach Thayne Amoret and Gordon Erwin have been working hard this week teaching some new plays that will be experimented with before they take on the Seymour Panthers and Chillicothe Eagles away from home the next two weeks.

The probable starting lineups for the New Castle-Crowell game that is to be played at Wildcat Stadium at 8 o'clock Friday night follows:

### PROBABLE STARTING LINE-UP

## Crowell Wildcats Win Over Iowa Park Friday Night

The Crowell High School football team won a hard-fought conference 9A game from the Iowa Park Hawks here last Friday night by the score of 14 to 0. There was very little difference in total yardage gained by the two clubs and the Hawks led in first downs 7 to 6, but the Wildcats played smarter ball and took advantage of some breaks that resulted from the fine kicking of Jimmy (Booger) Rasberry. Rasberry kicked eight times in the game for an average per kick just a fraction below 40 yards. Iowa Park's kicker averaged only 25 yards per kick. One of Crowell's punts set the Hawks back on their own nine yard line early in the game and after two running plays failed to gain, they attempted to kick from behind their own goal line and a bad snap back from center caused Kenneth Scott, fullback for Iowa Park, to attempt to run the ball. Charles Pittillo, stellar right end for Crowell, tackled Scott behind his own goal line that gave Crowell a safety and two points. The Hawks had to kick off from their own twenty yard line after the safety. Crowell marched downfield to Iowa Park's eighteen yard line but a holding penalty of fifteen yards moved them back to the 33 yard line. Rasberry kicked out on the Hawk three-yard line and on the next play, James Bice, all-district guard for Crowell, jarred the ball carrier loose from the ball to give the Wildcats possession at this point. On two attempts, Billy Earl Lynch, fullback for Crowell, carried over for the first touchdown of the game early in the second quarter. The halftime score was 8 to 0 for the Wildcats.

The Hawks chalked up four first downs in the third quarter but never threatened to score. About the middle of the fourth quarter, Rouse Todd, left halfback for Crowell, intercepted a Hawk pass about the middle of the field and returned it back to the Hawks' 41-yard line. F. L. Ballard, quarterback for the Wildcats, passed to Jim Paul Norman for 5 yards and on a double reverse from Ballard to James Weathers to Todd carried the ball to Iowa Park's six-yard line. Ballard shot another pass to Jim Paul Norman for Crowell's second touchdown of the game. The extra point was no good to leave the final score 14 to 0. James Weathers, right halfback for Crowell, turned in a beautiful forty-yard run in this quarter but it was nullified due to a holding penalty. Ben Huckaby, right half back

## Rialto Theatre Sold to Dallas Man Last Friday

The Rialto Theatre of Crowell was sold last week by Leon Theatres, Inc., to L. M. Childress of Dallas, a former West Texan. The deal was closed Friday and the theatre passed to the new owner Saturday night at 12 o'clock. Jeff Hardin, manager of the Rialto for several years, has been employed by the new owner and for the present no change has been made in the personnel. The new owner and his wife expect to be in Crowell on Tuesday, October 11, and spend several days here getting acquainted with Crowell folks. Mr. Childress says he expects to make great improvement in the equipment of the theatre and also in the type of pictures shown on the screen.

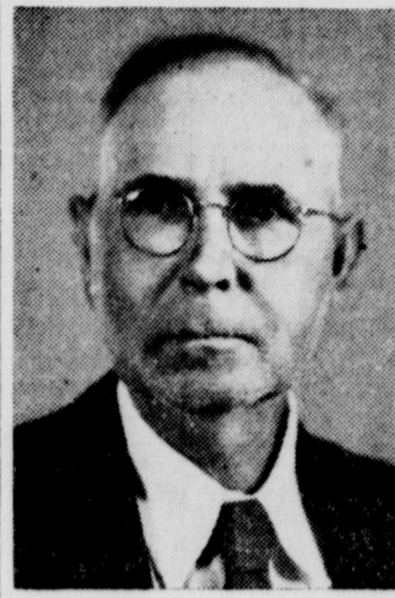

## Hilton Crane Has Resigned As C. of C. Secretary - Manager

Hilton Crane has resigned as secretary - manager of the Foard County Chamber of Commerce to accept a similar position with the Jacksboro Chamber of Commerce. The board of directors accepted his resignation at a meeting Tuesday night which will be effective Saturday. Mr. Crane will assume his new duties in Jacksboro Monday morning. Mr. Crane, who has served faithfully as the secretary - manager of the local chamber for more than a year, says he regrets to leave Crowell and decided to make the change after thoughtful consideration.

Mrs. T. S. Haney has been employed temporarily to take care of the chamber of commerce office on the north side of the square. Florida has 314 species of native and naturalized trees, the greatest number of any state.

for the Hawks, prevented Crowell backs from making good gains continually throughout the game. Huckaby was District 9A champion in the 440-yard run at the district track meet last spring. Hack Norman, left tackle for Crowell, continued to look like all-district with his defensive playing in spite of his bad ankle. The Wildcats play the New Castle team here tomorrow night in a non-conference game. They play away from home the following two weeks at Seymour and Chillicothe, respectively.

## To Celebrate 50th Wedding Anniversary

Sunday, October 9, will make a happy occasion in the home of Mr. and Mrs. T. L. Ward, pioneer residents of Thalia, for it was fifty years ago on that date that they were married. Another highlight of the day is the fact that it will be the first time in twenty years that all the family has been together. Open house will be held in their honor from 2 to 5 p. m. in their home. Personal invitations have been mailed, but if by mistake any

of their friends have been overlooked, a personal invitation is hereby extended to them to call also. Mr. and Mrs. Ward were married in Grapeland, Houston County, Texas, in 1899. They moved to West Texas three years later, locating in Wilbarger County, near Vernon. They moved to a farm in Foard County a few years later where they were actively engaged in farming until retiring five years ago.

The six children of Mr. and Mrs. Ward, two sons and four daughters, and their families, will be at home for the 50th anniversary celebration. They are Tom Ward of Chillicothe, Mrs. Sam Kuehn of Riverside, Mrs. Leon Taylor of Thalia, Mrs. Gilbert Kasparek of Houston, Mrs. J. D. Patterson of Chico, Calif., and Walter Ward of Santa Rosa, Calif.

## Services Held Sunday to Dedicate Foard City Church

Services were held Sunday at the 11 o'clock hour to dedicate the addition to the Foard City Church for worship and the benefit of all the people of the Foard City community. Both the Methodist and the Baptist congregations, who use the church jointly, together with their pastors, Rev. J. V. Patterson, Methodist pastor, and Rev. D. W. Ward, Baptist pastor, participated in the services. Rev. Ward preached the dedication sermon, following which a bountiful basket dinner was served in the recreation room of the new building to the church members and visitors. Preceding the sermon, a song was sung by a quartet composed of Mrs. O. N. Baker, Mrs. Howard Ferguson, Mrs. Roy Ferguson and Mrs. Luther Marlow. Mrs. Jack Welch played accompaniment for all the songs.

Plans for the new building were made in December of last year and a building committee was composed of Grady Halbert, Virgil Johnson, Allison Denton, Mrs. J. M. Barker and the late Roy Ferguson. Mr. Ferguson was the original chairman of the committee and he worked faithfully and gave unstintingly of his time until his death June 30th.

Surplus material secured when the old school building was torn down was used in the erection of the educational building for the church which is 30 x 50 feet. The original church building, 30 by 60 feet and rock veneered, was dedicated in 1940. New material for the building was bought from Wm. Cameron & Co. of Crowell. The lumber company made 2x4's from 2x12's free from the old lumber and also donated the septic tank. Alonzo Kelly, local building contractor, erected the building. Jabus Harris did the painting and decorating.

The Baptists and Methodists conduct a union Sunday School and the new year started last Sunday. There are seven classes and an enrollment of about 90 with an average attendance each Sunday of around 70. These two denominations are to be congratulated for their excellent cooperation in providing a church building so well equipped to be used and enjoyed by the people of the entire community. The church and its facilities belong to the community.

## New Brick Building Being Erected by Otto Davenport

Otto Davenport, local brick mason and contractor, is erecting a new brick building, 50 by 75 feet, on the lots formerly owned by Roy M. Fox on North Main Street. The building will have 9-inch walls, 14 feet high with a built-up roof covered with asphalt. The building sets back from the street and the front will be practically all glass with two big doors.

How soon the building will be completed depends on the number of bricklayers he can secure. Mr. Davenport stated.

### HOMEODIES

At least 65 per cent of the people in the U. S. have never spent a night in a hotel.

## 3-Weeks' Revival Meeting to Close Sunday Night

The revival meeting in progress at the big tent on the south side of the square under the leadership of Rev. B. B. Crimm and party continues to draw large crowds and will continue through Sunday night. The outstanding song services conducted by Rev. Bob Cooper of Aberdeen, Miss., accompanied on the piano by Alex Bain of Marshall, Texas, is greatly enjoyed by those who attend. Both of these men are accomplished musicians and add much to the spiritual power of the meeting. Paul Crawford, custodian of the tent and other revival properties, is also a material aid to the meeting.

The evangelist is preaching forceful and helpful sermons at each service. It is a privilege for the people of Foard County to have Bro. Crimm here for this meeting, earnestly striving to impress upon his hearers the importance of religious living and the destructiveness and futility of sin. The tent should be crowded for the few remaining services of this evangelistic campaign.

Sermon subjects for the five remaining services are: Tonight, "Picture Show, Mixed Swimming, Dance and Honky-tonks;" Friday night, "Sinning Against the Holy Spirit;" Saturday night, "The Most Vital Moment in Life;" Sunday at 3 p. m., "The Highway to Heaven;" Sunday night, "The Easiest Way to Hell."

## Mrs. W. L. Thurston Died in a Lubbock Hospital Yesterday

Mrs. W. L. Thurston passed away in a Lubbock hospital Wednesday afternoon following a long illness. She was recently moved to the Lubbock hospital from the Crowell hospital.

Daughter of G. A. Mitchell of Crowell, Mrs. Thurston had lived most of her life here. She was moved to Lubbock on account of her daughter, Mrs. Bob Beck, being a resident of that city. The body will be brought back to Crowell for burial but funeral arrangements are incomplete.

### CARNIVAL TO BE HERE

The Heart of Texas Shows will be in Crowell one week, starting Monday, Oct. 10, under the auspices of the Crowell Volunteer Fire Department, it was announced this week.

Modern shows and thrilling rides will feature the entertainment and the location will be at the soft ball park.

The giant sequoia trees in California are assumed to be between 3000 and 4000 years old.

## Campaign for Funds for Re-Activation of USO Will Begin in Foard County Today, County Chairman Announces

The USO reactivation campaign in Foard County will begin today, Thursday, in every community in Foard County, J. R. Beverly, County Chairman, has announced. The campaign committee representing each community met Wednesday night and mapped out plans to begin the fund drive today. The purpose is to finish as soon as possible, so that Foard County can publicly announce that the county has done its part in the

reactivation drive. There are 48 young men and women from Foard County now serving in the Armed Forces, Chairman Beverly stated. He further remarked that "It is up to us one and all to keep up their ties with home, so that they may return to us happy and useful citizens. The best way to assure this is through USO which is on the scene to serve them whether they are stationed at some military location here or at an overseas outpost." Through USO Clubs, USO Camp Shows and Travelers Aid units, USO seeks to provide not only recreational facilities for service personnel, but also to give them religious, health, information and personal counsel.

Laymen's Service at Methodist Church Tuesday Night at 8

On Tuesday evening, Oct. 11, the Methodist Laymen of the Vernon district will hold a meeting in the Crowell Methodist Church. An inspirational meeting is promised those who attend and all churches of the district will be represented. Paul Cates of Lubbock, well-known layman, will address the group on the work of the Methodist Church. The men and boys of Crowell are invited to attend this meeting on October 11, at 8 o'clock in the evening.

### ROTARY CLUB

Rotarians James Baldwin and Spencer Marrow of Quanah were visitors at the Wednesday noon meeting of the Crowell Rotary Club at the DeLuxe Cafe. Alton Bell, president of the chamber of commerce, was also a visitor. With Pete Yates in charge of the program, Grady Graves made a short talk on Rotary.

## Fresh Paint Job Gives News Office the "New Look"

E. W. Kidd, local painter and contractor, assisted part time by H. E. Thomson, completed painting the News office building Tuesday, which included the walls, ceiling and woodwork on the inside as well as the awning and woodwork on the outside. The ceiling is being painted white, the walls a green tint and the woodwork ivory.

New shelves have been built for office supplies and this department is being enlarged and arranged so that better and quicker service can be given to customers. An effort will be made to keep in stock office supply items needed by all business firms in Crowell and patronage in this line is solicited and appreciated. Everyone is extended a cordial invitation to visit the News office.

## Scarlet Fever Is Dangerous Disease

Austin, Texas—Scarlet fever is one of the most disabling and dangerous diseases usually associated with childhood, although actually it is confined to no age limit, according to Dr. Geo. W. Cox, State Health Officer. While only six cases were reported in the state during the week ending September 24, it brought the year's total to 911 cases.

The doctor described scarlet fever as an acute infectious disease, the onset of which is sudden. The first symptoms including sore throat, vomiting, fever, and headache, may appear in three to five days after exposure. These are followed by the distinctive red rash which gives the disease its name. Dr. Cox stated, "Complications may cause prolonged disability or death. Children suffering with scarlet fever may develop sinusitis and middle-ear infections which can lead to mastoiditis. As the germs spread through the child's system, the joints, kidneys, and heart may become involved, causing life-long invalidism or crippling."

"A child with any kind of a sore throat should be seen by the family physician promptly," Dr. Cox asserted. "If scarlet fever is present, the treatment recommended will do much to alleviate discomfort and reduce the possibility of serious complications." Dr. Cox stated that children under ten years of age are most susceptible, and that those persons who fail to contract scarlet fever until grown stand an excellent chance of never having the disease.

On the average in the United States it takes \$8000 invested in land, tools, and equipment to create a job for one man. In the chemical industries and the petroleum industry the investment is \$20,000.

## THA Tenant Families Will Attend Dallas Fair October 12

More than three hundred Texas farmers who have mixed good farming practices and hard work pay off their Farmers Home Administration tenant purchase loans more than thirty years hence will be awarded certificates of achievement at ceremonies at the State Fair Park auditorium October 12, County Supervisor J. Wright announced this week. He is arranging to accompany a delegation of Foard County farmers associated with Farmers Home to the State Fair ceremonies in Dallas. Not only farm owners' families will be present but also farmers whose operations are financed by funds furnished through the county office of Farmers Home located in Vernon.

Some of the features of the movement day, designated as "Farmers Home Day," at the State Fair of Texas, will be an address by Judge Marvin Jones who, as a congressman from this county, fathered the law making funds available to deserving farmers for the purchase of family-type farms. Six thousand of these loans have been made in Texas and nearly one-third of them have been paid off and are owned free by former tenant families. Radio interviews of several farmers who have achieved unusual success in their farming operations have been arranged as a part of the program for the day and there will be prizes given as a reward for outstanding success with their crops.

### THALIA CEMETERY REPORT

The following donations have been made to the cemetery fund of the Thalia cemetery, since last report was made: Mack Gamble \$10.00 Mrs. Josie Holland, Denver City \$5.00 Mr. and Mrs. Mortie Reese, Ralls \$5.00 C. D. Haney, Lubbock \$5.00 Dave Shultz \$3.00

The Zildjians who came to this country from Armenia in 1929 have been making cymbals for 20 years. The formula is a secret.

### GOING TO SCHOOL? BETTER DOUBLE CHECK

Watch how you drive when going from town to the school or you may get a ticket. Hubert Brown, mayor of Crowell, warned last week.

Brown warned that Audie Brown, city marshal, will check all cars possible who violate the new stop signs placed on the corner by the Adelpian Club House, that is, First and Logan Streets, also when going south on First Street there is a new stop sign at Jack Roberts' corner; therefore you must stop when crossing Logan going either north or south. These intersections have long been danger spots.

When going south on Main St., or going east on highway Seventy-two, one must come to a complete stop at the red blinker light. These violations are being strictly enforced. The fine is five dollars!

### VOICES THAT RASP AND RACK RUIN EFFECT OF FASCINATING FACES

How is your telephone voice? No one likes to talk to the mumbler. His voice is so low that one must climb into the receiver to catch an occasional sound.

On the other hand there is the donkey type who brays loudly and belligerently into the mouthpiece as if he were divulging the greatest news in history.

Clothes and appearance do not make the complete individual. Many people rely upon the speaking voice as well to form impressions and characterizations. If the voice misrepresents the appearance, there is often a tendency to accept the impression given by the voice.

Since people form first impressions quite easily, voices in an introduction are very important. Naturalness is the best policy. If one assumes an affected air, he is likely to forget which of his selves he first portrayed when he again meets the person.

The public speaker usually leaves a very definite impression—either good or bad. One likes a speaker to be forceful but not dogmatic. If he speaks as if he is not quite

sure, then certainly he is going to convince no one else.

The professional politician spends more time perfecting the method of delivering a speech than he spends on the speech itself.

The voices one uses in classroom discussion is another sure way to judge a person's character. Does he present his views in a friendly, competitive manner inviting discussion or does he defy opposition?

### WORK BEGINS ON CHS YEARBOOK

The work on the CHS annual for '49-50 has begun. The editor-in-chief is Rondyn Self and the business managers are Joe Ray Setliff and Don Wilkins, who are selling advertisements. If we have all of our advertisement pages in by November 1, there will be a one dollar discount per advertising page on the printing cost. Every one who wishes to buy an advertisement should contact one of the three working on the advertising. You do not have to live in Crowell to advertise in the CHS annual.

This week and next week the campaign to sell annuals will begin. A two dollar deposit will be required. If two hundred deposits are received the cost per book will be about \$4.00, but if as many as three hundred annuals are sold the cost will be only about \$3.50. Whether you are a student or not you can buy an annual if you would like a permanent record of the CHS activities for 1949-50.

That girl with the charming personality who will be seeing you about your deposit is Jean Gamble, General Sales Manager. Jean is a junior in CHS and has as many friends as any student in the school. Let's make her task easy by giving her our order as early as possible.

### CHS TELLS OF TRIP TO BOSTON

How would you like to spend a week at Cape Cod? Sounds pretty good, doesn't it? This summer one of CHS students did just that. And besides a week at Cape Cod, Jane Bruce saw parts of twelve other states besides Massachusetts on a car trip from Texas to New England with her sister, brother-in-law, and nephew.

Jane enjoyed the scenery in the Ozark Mountains, but she did not like the coal mining town she saw in West Virginia. The West Vir-

ginia town was very old, and dirty from the coal smoke and dust. Across the state line in Pennsylvania the travelers drove through a farming district where many Quakers lived. On the barns they saw the famous "hex" signs.

A short sight seeing tour was made in New York before going on to Boston, this included Times Square, the Empire State Building, the Chrysler Building, and a visit to New York harbor where the Queen Mary was docked.

From New York they went to Cape Cod, and rented a beach cabin for a week. The Cape is a 65-mile curve of land at the southeastern corner of Massachusetts, reaching out into the Atlantic Ocean.

On Saturday they left the Cape for Boston, arriving there Saturday night.

Boston is just as Jane expected it to be. It is an old town with narrow, brick streets, and some of the older buildings are almost black with smoke. While in Boston Jane saw the Boston Red Sox play the New York Yankees.

Most of the New England states were alike. Nearly all have a seashore, the country is hilly and very green. The people talk with different accent, but it is not too hard to understand them. Most of the people work in offices or factories. This gives the towns atmosphere different from our own which are built on a farming and ranching basis.

We know that Jane is infatuated with Boston, for the time being at least, since she made this remark, "I liked it so well that I would like to live there some day." We wonder if this remark has a special significance.

### POCKETS, WESKITS HIGHLIGHT TEEN FALL FASHION NEWS

Warm colors. Smooth lines. These are the high school girls' demands, and fall fashions toe the mark.

Autumn leaves lose their colors to the new materials, which have taken a lesson in color from nature. All the bright red, green, gold and brown are stirred together for scotch plaids and tweeds.

Suits have new feminine lines with new short jackets and rounded collar coupled with pencil slim or slightly flaring and very flattering skirts.

Corduroy headlines the style news. A versatile material, corduroy is flattering in dresses with soft gathered skirts or suits with tailored, sporty lines. Wool jersey comes into its own in glowing colors. Pleated jersey skirts with turtle neck pull-over blouses in vibrant blues and greens.

Weskits in bright corduroy or suede will play a leading role. Some weskits are made with a combination of bright colors in three-inch strips forming the front. Tiny buckles are being used instead of buttons.

Pockets are important in the fall fashion scene—and the higher the better. Some have climbed all the way up to the shoulder. Sloping shoulder lines will have smaller pads this winter.

Dates are gay and pretty in crisp taffeta with rustling ruffles, touches of velvet, and feminine cap sleeves.

Basic cloches in velvet or berets in warm fall colors made of the same material are very popular in millinery. Berets may be worn tilted over one eye or perched gaily on the back of the head.

### CHORAL CLUB ENJOYS A CAPPELLA CHORUS

The CHS Choral Club under the direction of Mrs. Jeanne Davis traveled to Wichita Falls Monday evening to hear the Abilene Christian College A Cappella Chorus at the Municipal Auditorium at 7:30 p. m. Since the choral students have been studying the fundamentals of music, they will put their knowledge to use by writing a theme on what they observed about the chorus.

Besides choral selections, students of ACC from Korea, Italy and Mexico spoke on "What ACC Means to Me." Don H. Morris, president of ACC, stressed the importance of Christian education and the advantage that ACC affords in this field.

The enrollment of our choral club is about twenty-five of whom two are boys. They have made one public appearance at the Crimm Meeting where they sang, "What a Friend" and an original composition of the song leader, Rev. R. H. Cooper.

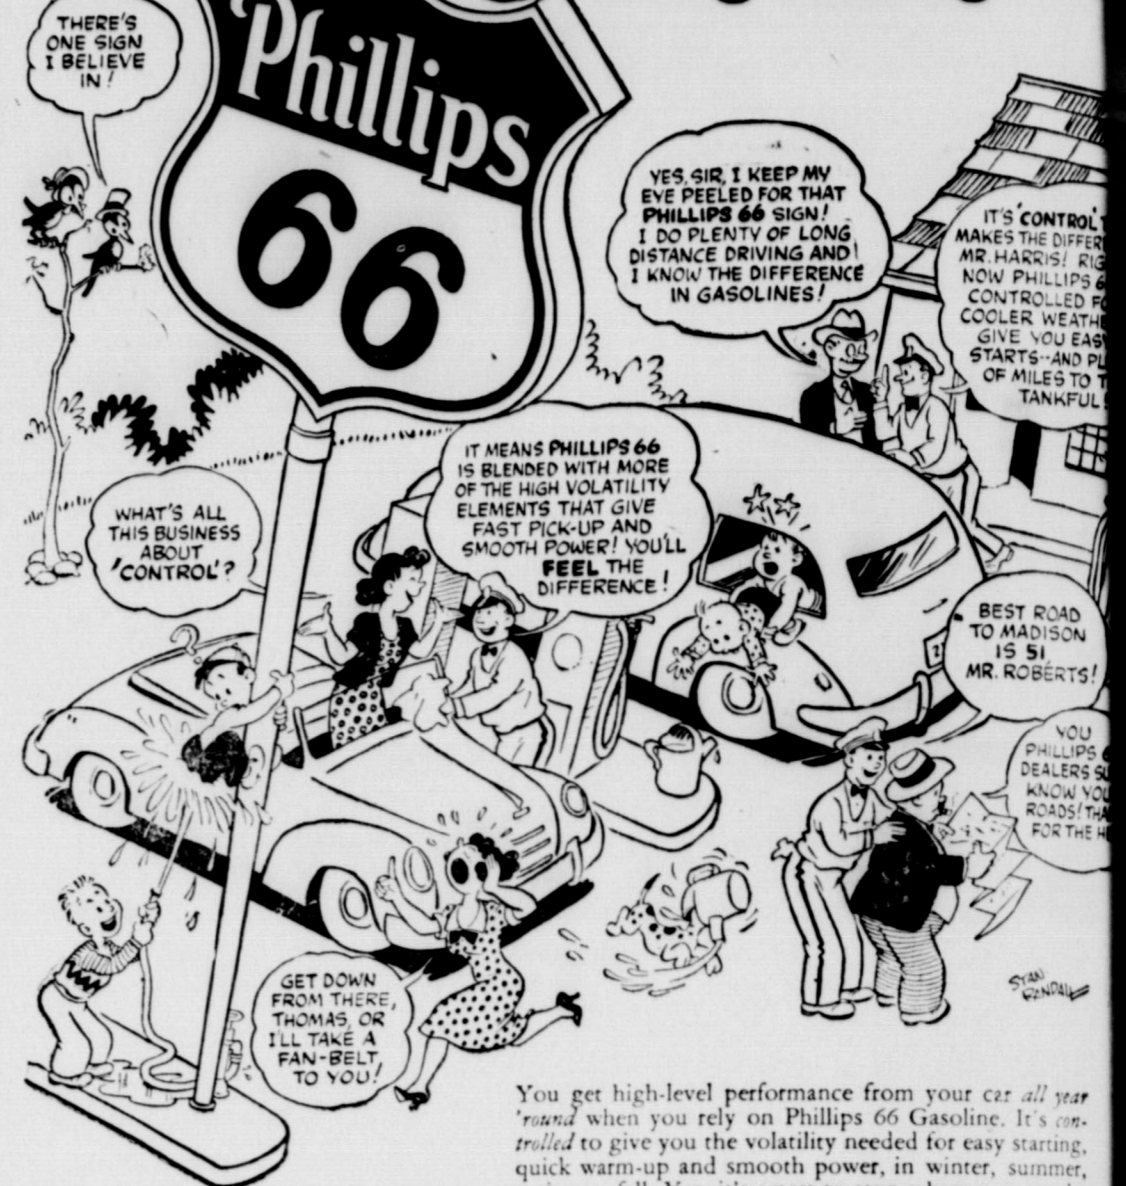

At present they are studying music for a Christmas program. When asked what other activities are planned, Mrs. Davis stated, "We plan this year to enter the Interscholastic League."

Those who have heard the choral club have great expectations for its activities this year.

not over the trophy case any more, but has been moved to the Typing Room. This was brought about by Mr. Black.

This painting by De Vinci is the world's most famous painting; therefore many lines have been written about it. Against a fantastic background of rocks and water, De Vinci painted a face that has been the theme of many discussions. Since it is a painting of the Italian Renaissance, its manner is of a quizzical and curious nature. To understand this, look at the "Mona Lisa" closely when you are in the Typing Room.

### SPEECH ACTIVITIES

Speech I and Speech II under the direction of Miss Beulah Turney, have enthusiastic plans and activities for the 1949-50 year.

In Speech I class, round table discussions on current events are being held while in Speech II casting for one-act plays begins this week.

A drama festival consisting of one-act plays is planned for a program sometime before Christmas. About fifty-eight students are enrolled in both classes, and before they are ready for a performance, Miss Turney says, "There's a lot of work to do."

### SHOW PASSES FOR SENIORS

This week the Rialto Theatre invites Peggy Everson and James Bice to see Abbott and Costello

in "Africa Screams" on Thursday, October 6, or Friday, Oct. 7.

## THE WILDCAT

(Continued from Page 2)

### WILDCAT BAND TRAVELS TO CHILDRESS

The Crowell High School students were surprised Wednesday morning when the band students appeared in their classes with their new black uniforms on. The occasion? The band was to leave at 12:30 by bus to go to Childress to participate in the Childress State Fair parade. This was the band's first appearance in a parade.

After everyone had hastily gulped down his lunch, twenty-nine members of the band, Miss Close, Mr. Graves and Allen Taylor left the campus of CHS and were on their merry way to Childress.

Before arriving in Childress, the band was given last minute instructions about keeping lines straight, keeping in step, and all the necessary elements that help to make a good marching band. In Childress the drum major, Jerry Culbertson, and the two major-ettes, Violet Rummel and Tommie Meason, donned their white uniforms and everyone was ready to go. Anyway they were ready if one calls shakely knees and fast-heating hearts being ready.

As the parade formed, the Wildcat Band was placed between an implement display and a group of motorcycles known as the "Hell Drivers." To the strains of "The Thunderer" the band began the hour-long trek through the streets of Childress. After the parade the members were told to report to the bus at 6 o'clock, and in the meantime they had the opportunity to see the sights of the Fair.

Few attractions were missed but the rides on the ferris wheel, tilt-a-wheel, and rocket planes proved to be the most exciting. For information on the side shows see Mr. Graves and Mr. Taylor.

After consuming many hamburgers, hot dogs, and soda pops, everyone arrived at the bus at the proper time to go home. Following a stop in Quanah for supper, the band reached Crowell tired but happy, feeling that they were experienced marchers.

### CROWELL WILDKITTENS DEFEAT PADUCAH LITTLE DRAGONS

The Crowell Wildkittens went to Paducah, Tuesday, Sept. 27, and defeated the Paducah Little Dragons 34 to 0. The first touchdown was made in the first quarter by James Denton, Crowell full-back. Left guard, George Scott, in the last quarter, intercepted a Paducah lateral and ran it over for a touchdown. All extra points were made by runs. Denton, Halenak, Barker and Polk made extra points. Game time was 7 p. m. Wayne Borchardt accounted for 18 points for Crowell.

The following Crowell boys saw action in this game: Larry Johnson, Jimmy Everson, George Scott,

Carroll Polk, James Pittillo, Billy Ray Dunn, Jimmy Harper, Raymond Halenak, Wayne Borchardt, James Denton, Fred Barker, Jerry Knox, Robert Kincaid, Gerald Meyers, Galynt Whitley, Boyce Cox, Rudy Hinkle, Joe Don Thompson, Gordon Graves, Robert Graves, Duane Elliott, and Buddy Caddell.

### WILDCAT PURRS

Why does Mary Comer's eyes brighten up every time the name, Walter, is mentioned?

Maurine, we all enjoyed your Cake party Saturday afternoon, even though Ann couldn't understand why all the little boxes were being passed around the room.

Seems like A. L. McGinniss and Rita Gilbert are getting along.

H. L. Ayers and Jane Cooper were seen sitting together at the ball game.

Jimmy Hall seems to be interested in Virginia Tamplin.

We wonder if Raymond Carter might know why "Bubba Bell" was looking for Bernice Magee Saturday night.

Rondyn, Vernon, Bobbie and Jerry journey to Vernon to the show Sunday afternoon.

Maurine and F. L. were seen at the Country Club dance in Vernon Saturday night. With them were Jon Sanders and Ann Bondurant of Lubbock.

Peggy Eavenson spent quite an enjoyable week-end in Wichita Falls.

Could hardly have three slumber parties over the week-end. Clara Jones, Jean Hughston and Rondyn Self are the guilty ones.

Jerry Culbertson was awakened Friday night by a rapping on his screen. (Rats, of course!)

Mary Rader and Jimmy Jones went to the Fair Saturday!

It seems that Sawdust was having a good time at the ball game Friday night.

We wonder how three freshman

girls enjoyed eating raw eggs?

Marcia has been being escorted about the halls by Martin Langham. What about this, Ginger?

Maida King and Bobby Daniels were seen together Saturday nite.

Would someone please tell Joline, Tommie and Myrtle that the stop light down at the intersection does not mean stop for 15 minutes.

Wonder why James W., Ham, and Presley can hit a girl and they won't hit back.

Question of the week! Did everyone enjoy the Vernon Hill Crest Country Club dance Saturday night?

Why did 15 till 6 mean so much to Joline and Betty Lou Saturday night?

If you see something old, something new, or something borrowed going on around CHS, please write it on a piece of paper and drop it in Locker 136.

I'll be seeing your shining faces next week! Same time, same place.

### SIDE SPLITTERS

Mrs. Davis: And now after completing the equation that took the entire board, we find that X equals zero.

Blackie: My gosh, all that work for nothing.

Neva Lou: I don't see how John, my brother in the Army, is going to live on the money he makes this month.

Sweet Pea: Why's that?

Neva Lou: He wrote that he's been confined to quarters this month.

Floyd: There's an important question I've been wanting to ask you for months.

Possey: Go ahead, I've had the answer for years.

Mrs. Benham: Jerry, I'll give you three days to pay your rent.

Jerry: O. K., I'll choose the Fourth of July, Christmas and Thanksgiving.

The payroll tax, out of which unemployment compensation is paid, is scheduled to advance to 1 1/2 per cent January first unless Congress freezes it at 1 per cent. Most business men believe that what is needed is not an increase in the payroll tax but something resembling a business administration of the payroll tax that is now being collected. This is one of the most poorly managed of all government collected funds—due in part to the weakness of the law governing its operation. Here again, instead of cleaning up its own premises, government is planning on another raid on employers.

There is at least one grain of comfort in the fact that practically all of Europe is in desperate need of aid from this country. As long as they are so destitute, there is no danger that they will start much of a war.

**What We Think**

(By Frank Dixon)

I have a lot of fun building over the house in which I live. It is a roomy, comfortable house, built in the days when people gave less attention to conveniences and modern housing than they do today. As a result I find myself thinking at times that there is a lot of things I would like to see changed. I would like a hall here, the bathroom moved over to here and the kitchen rearranged. I would like some extra closets and a room or den to which I could retire and at times be away from diverting noises and conversation. In attempting to achieve these results I have, as I said, built the house over a great many times.

This would prove very expensive in view of recent day building costs except for the fact that all my building has so far been on paper. I recommend the practice to any one in search of an interesting and entertaining hobby. Most any one in a few minutes can rearrange an old house and in their opinion can make it a more convenient and more liveable place with a few minor changes here and there. That is what I thought when I started on my house building venture. I soon discovered that I was going to run into more problems than I had ever dreamed could be involved in so simple an

undertaking. From the beginning I held in mind the matter of cost. If one were going to pay no attention to the cost of remodeling, a lot of problems that face the remodeler would be swept aside. The fact that I would spend the least amount possible in fixing over an old house brought up a whole host of problems that would not have presented themselves where cost was not considered.

This is the most important point. If one is going to pay no heed to costs, he had better give up the idea of remodeling an old house and start from scratch and build a new one. It will be cheaper and far more satisfactory, for after all one spends in an old house he still has an old house.

I found out also that one couldn't change rooms and partitions at will. It was necessary to take into consideration how the house was built, where the timbers overhead were anchored. What would happen if that which was supporting the room above or the roof, were moved. Something would have to take its place to carry the load. Here again cost bobs up and the extent of that cost is surprising. It costs to tear a wall out and it costs to put it some place else, and it costs to put in the necessary supports in place of the wall that was moved.

Stairs which one decides to move have a way of coming up in the second floor in unexpected places and of missing the expected landing by feet or inches. These and many other puzzling problems plague the amateur builder. For these reasons I suggest a preliminary plan drawn to exact scale. After it is done lay it aside and think about it. Changes will suggest themselves which will show the original plan really not the thing that was wanted, make the changes and lay the plan away for more thinking.

My experience has been that the plan finally approved is quite different from the original plan. A lot of money has been saved in construction costs and the homeowner has had a most entertaining and instructive and profitable hobby.

**Annual Meeting of WTCC Will Be Held in Ft. Worth Nov. 22**

Abilene, Oct. 1.—The need for water in West Texas now has top billing in the Bureau of Reclamation of the Department of Interior and the biggest show of its kind will be held in Fort Worth, Tuesday, Nov. 22.

J. A. Krug, secretary of the Department of Interior, has accepted the invitation of the West Texas Chamber of Commerce to speak at its annual banquet there on that date. The WTCC has promised a thousand water-thirsty West Texans there to hear him, along with Reclamation Commissioner Nathan Strauss and Senator Lyndon Johnson.

This, the annual meeting of the WTCC board of directors, will be the climax of the year's work of the organization in defining water needs of the area, and establishing economic loss through lack of water companion to flood loss.

"The federal government will learn how badly West Texas needs water at this meeting," said WTCC President John D. Mitchell in reporting the plans to his executive board in session here this week. "We have been sitting over water-holes with Winchesters or fighting to keep our domestic water rights in West Texas for a long time."

"This is a program to develop new water, a program so big it can only be handled in a big way and that's what we are doing in bringing a man at cabinet level here to hear our story and tell us what the federal government can do to protect our economic loss from lack of water."

The WTCC has a nominal board of approximately 200 among its 6,000 membership in the 132 county area, but the organization hopes to take interested officials from all the towns to help the water cause, according to Manager D. A. Bandeden.

Already the Bureau of Reclamation has authorized three West Texas surveys under the direction of Harry P. Burleigh, state planning engineer, according to Bandeden. One will provide for all the area on the Brazos river shed above Possum Kingdom and below the Caprock; another is on the Colorado above the mouth of Pecan Bayou, while the other under authorization is a survey of the Prairie Dog creek area and tributaries of the Red river in the Memphis-Childress area.

These are in addition to the \$85 million Canadian project already approved by the Bureau, to supply water to a dozen West Texas towns between Borger and Lamesa.

LOOPHOLES in the Law

By WILL WILSON

Past President, Texas District and County Attorneys Association

(Editor's Note: This is one of a series of short case histories, all taken from court records, showing how legal loopholes often enable criminals to escape punishment in Texas. Will Wilson, of Dallas, is chairman of a special steering committee of the State Bar, which is working for revision of the antiquated Criminal Code and Code of Criminal Procedure in order to eliminate these loopholes.)

Mr. Homeowner went out for a short while, neglecting to close the front door of his private residence. The entrance was completely open, the door not having a screen, and during Mr. Homeowner's absence Lightfingered Harry came in and started picking up articles that suited his fancy.

Just as Harry had his arms pretty well loaded, he heard a noise behind him. He whirled around to see Mr. Homeowner standing in front of him. Harry dodged past the owner of the

house, ran out the front door, which was still open, and disappeared with a number of Mr. Homeowner's valuables still in his possession.

Harry was captured and prosecuted for burglary. Mr. Homeowner testified convincingly against him and he was convicted.

The verdict was reversed by the appellate court. This court held the defendant could not be guilty of burglary because he had walked right into the house through the open door without any use of force and had left the same way, again without using force. The court ruling held that force must be used either in entering or leaving premises before the crime of burglary can be committed.

The State Bar of Texas is endeavoring to close such legal loopholes as this. This statewide organization of attorneys is working to bring this about through a revision of Texas' outmoded criminal statutes.

SUNSPOTS

The dark blotches that often appear on the sun are really terrific hurricanes that extend over billions of square miles of the sun's atmosphere. Photographs show great masses of hydrogen gas and calcium vapor sweeping into the gigantic whirlpool of the hurricane's vortex. Scientists have discovered that each hurricane's center is in itself a powerful magnet.—Santa Fe Magazine.

It required 41 years for a postcard to be delivered between two county towns fourteen miles apart near Lancaster, Pennsylvania. The card was mailed February 13, 1908 by Fannie Cassel, then a student of Millersville, Pa., Normal school to Anne Blensinger of Mount Joy. Miss Blensinger received the card the other day. The post offices involved were able to offer no explanation.

Despite the fact that more cars are on the road than ever the rate at which they are being scrapped is much lower than dur-

ing the war. In 1925 the average life of the cars on the road was six and one-half years and the mileage 25,000 miles. Today the average life of cars on the road is twelve and one-fourth years and the mileage is 103,000.

A survey reveals that some 19 million Americans follow consistently some sort of a hobby. Stamp collecting leads all the hobbies. Glassware collecting is in the second place and wood working occupies third place. The reason given for the growth in the number of hobbyists is that the strain of modern day living calls for something to take a man's mind off his work during his non-work hours. To such, a hobby is regarded as an excellent medicine.

## Interest Being Shown in New Housing Act Passed by Congress

Farmers in Foard County are showing considerable interest in the new Housing Act recently passed by Congress and signed by the President on July 15, according to Julian Wright, Farmers Home Administration supervisor. He said that his office had received a number of calls or visits from farmers anxious to construct or repair farm buildings.

Mr. Wright said, however, that his office was not as yet accepting applications for farm housing loans. The actual loaning program will not be placed in operation until funds are made available by action of Congress. At present he is keeping names and addresses of persons desiring loans, and will notify them as soon as funds are available.

To be eligible for loans once funds are available, an applicant must be a farm owner, and be unable to obtain credit for his construction or repair work from local sources at reasonable terms. A farm tenant may not obtain

a loan under the Housing Act, but a farm owner may borrow to repair or construct farm buildings for his tenants.

In a brief description of the farm housing program as authorized, Mr. Wright said that most loans would be made for construction or repair of homes and other farm buildings to farmers whose income from farm or other resources is sufficient to repay the loan plus interest without further assistance from the government.

On this type of loan the Act does not set a limit on the amount a farmer may borrow, but Mr. Wright estimated that—since most of the loans are expected to be for remodeling rather than new construction—nationally they would average about \$2,200. Loans will be repayable in a maximum of 33 years, at 4 per cent interest. When a farmer, because of circumstances beyond his control, is unable to make his payments, a moratorium on interest and principal may be granted, and in extreme cases the interest for that year may be forgiven.

A farmer whose income is considered inadequate to repay a loan on schedule may borrow money if a change in farming methods make his income adequate to repay the loan. In such cases where the farmer works out a farm plan that will bring the needed increase in his income, the government will offer special assistance. During the first five years of the loan if the adjusted farming plan is carried out, up to half the principal payment and all of the interest due may be paid by the Government.

For the farmer whose income is not adequate to repay a loan and whose farming operations cannot be changed enough to make the income adequate, assistance will be available if existing housing is considered a menace to the health or safety of the occupant or the community. In these cases loans and grants may be used for needed minor repairs which will provide safe or sanitary housing. The total amount of grants may not exceed \$500, however, nor may the total of grants and loans for such minor repairs exceed \$1,000.

When necessary, loans may be made to enlarge or develop farm land to help provide income needed to pay off a housing loan.

The program during its first year is expected to start slowly, with total authorization nationally of \$25 million for construction and repair loans and an additional \$2 million for loans and grants for minor repairs and loans to enlarge

or develop farm land. It is estimated that this will provide funds to help about 13,000 farmers—about 5 per cent. The program, however, is authorized to continue for four years, with a total authorization of \$275 million in loans and grants over that period. If appropriations match authorization this would permit helping about 135,000 farm families nationally—an average of about 50 in each county during the four years.

Supervisor Wright said that these loans, to be made through his agency and approved by the Farmers Home County Committee, are only part of the aid which the new Act holds out to farmers. The Agricultural Research Administration is authorized to work out research on new materials and construction methods. This information, plus building plans for various farm construction, will be made available to farmers through the County Agent. In addition, The Bureau of Agricultural Economics will make special surveys to determine farm construction needs.

## HOUSEHOLD HINTS

To prevent jelly glasses from cracking, heat them and set them on a cloth wet with hot water. Pour the jelly in slowly.

You can be sure that an egg is fresh if it sinks in water. If it is fresh it will sink to the bottom, if it is not fresh it will float. A little soda or vinegar in water will make tough meat tender.

To remove ink stains from cotton or linen goods, soak in milk and wash the stain in milk until removed. A little soda or vinegar in water will make tough meat tender.

OVER 5,000,000 FORD V-8's

Yes, FORD—maker of more V-8 engines than all other makers combined—gives you the most powerful engine in the low-priced field. And only FORD gives you your choice of a 100 "horse" V-8 or 95 "horse" Six.

**FORD'S OUT FRONT**  
with a 100 "horse" V-8

YOU GET THIS V-8 FOR LESS THAN 10 OTHER "SIXES"

Only FORD in its field offers you a V-type, 8 cylinder engine—the type of engine used in America's costliest cars.

And you get this "eight"—the famous FORD—for hundreds less than "sixes" of ten other popular makes.
