Chillicothe Gridders Come to Crowell Tomorrow Night for District 10A Conference Game Beginning at 8

Chillicothe Eagles will be their first conference victory of the season tomorrow (Friday) when they come to Crowell to take on the powerful Wildcat boys.

Gordon Erwin are taking no chances in this game and have been working the Crowell boys out hard this week, as if the contest was against one of their strongest opponents. There were no serious injuries in last Friday night's game and the regular starting lineup should be ready. Charles Pittillo returned to the lineup last week and had a great hand in Crowell's sweet victory over the undefeated Seymour Panthers.

Probable starting lineups for the Chillicothe-Crowell district 10-A game that is to be played at Wildcat Stadium at 8 p. m., Friday, October 20, follow:

Crowell	Wt.	Position	Wt.	Chillicothe	No.
Paul Norman	158	L. E.	170	Richard Woods	29
John Wood Bell	184	L. T.	200	Charles Moore	40
Charles Pittillo	160	L. G.	150	Quinton Hampton	30
Ray Ribble	132	C.	140	Don Dismuke	23
Ray Ribble	132	C.	140	Wallace Reed	31
Ray Ribble	132	C.	140	A. Hamilton	37
Ray Ribble	132	C.	140	Dean Morris	27
Ray Ribble	132	C.	140	Dan Morrison	35
Ray Ribble	132	C.	140	S. J. Pressley	33
Ray Ribble	132	C.	140	Keneth Aulds	38
Ray Ribble	132	C.	140	St. Hammock	24

Crowell Reserves
Ginger Johnson, No. 64, wt. 136; Leon Pechacek, No. 146; Lee Roy Bice, No. 60, wt. 145; Billy Johnson, No. 68, wt. 140; Barker, No. 69, wt. 120; Jimmy Abston, No. 35, wt. 132; Caddell, No. 21, wt. 110; Jimmy Everson, No. 27, wt. 120; Joe Simpson, No. 74, wt. 162; Glyndon Johnson, No. 71, wt. 140; Ray Latimer, No. 62, wt. 145.

Chillicothe Reserves
Ronald Lee Jones, No. 32, wt. 135; James Ward, No. 160; Charles Crocker, No. 39, wt. 135; Keith Thorp, No. 26; Rex Gibson, No. 22, wt. 150; and Waymon Gibson, No. 41.

Silas Boone, No. 42, wt. 130; Jerry Dan Emerick, No. 00; Bill Pannell, No. 20, wt. 140; Otis King Tooley, No. 34; Joe K. Heilhecker, No. 21, wt. 136.

ALS: Rufus Emmons, Texas A&M, Referee; Raby Webb, Payne, Umpire and Bert Ezell, ACC, Headlinesman.

Pease River District Board Meeting in Crowell

Meeting of the board of supervisors of the Lower Pease River Conservation District was held at the county court house in Crowell, Wednesday, Oct. 11, at 2 o'clock.

The present were Grady O. T. Holmes, O. H. Brandy, A. W. C. Howard, Joe Burkett, county clerk, J. B. Harlan, and Bomer of the Soil Conservation Service.

Following is a list of applications for assistance applied for by the board: H. E. Ferguson, Kincaid, application for a list of farmers was applied for by the board.

Henry Greenan, Hughston, Chester John and Bill Fish, Quantrell, W. D. Hopkins, C. A. Kennedy, J. T. Freese, and Fred Dennis.

At the meeting the board elected H. E. Ferguson as delegate and H. E. Ferguson as alternate to attend the supervisors' meeting in Wells.

The committee gave a report on the grass seed drill recently set. Drill will be stored in the implement Co. board of supervisors set a \$15 per work unit to be made for making covers for visual inspection to be paid out of a fund and not state aid.

HALIA CEMETERY

Cap Adkins writes as follows concerning the Halia Cemetery which was bought did not and the money was returned to Mr. Johnson. So, he is helping some workers in the cemetery now is in good shape. There will be a meeting to discuss further plans for the cemetery. The following has been received, Jessie \$5.00."

MEXICAN CHILD DIES

A Limon, little daughter of Mrs. Jesus Limon of died in the Foard County hospital on Monday, Oct. 16.

Gate Receipts at Football Game Fri. Largest in History

The gate receipts at the Crowell-Seymour football game last Friday night were \$1534.50, which is about \$300.00 more than was taken in at the 1938 regional game with Newcastle here. Crowell's last regional game here was with Balinger in 1943 but had weather that crowded down. Crowell football teams have played before crowds as large as the one here last Friday night only twice before, once at Olney in 1934 in a district game, and another time at Wichita Falls in a regional game with Plano in the same season.

The Federal tax on Friday night's receipts was \$252.70, expenses for visiting team, officials, etc., were \$112.00, which leaves \$1169.80 to be divided equally between Crowell and Seymour. The good gate receipts this year have enabled the Crowell Athletic Department to pay out of debt for the first time since Crowell won its last football district championship in 1945. The Wildcats captured the district championship for three straight years, 1943, 1944, and 1945. Bi-district games generally always pay off.

Barn and Cattle Sheds Destroyed by Fire Monday Night

A large barn and cattle sheds on the site place of Dr. J. M. Hill were destroyed by fire of unknown origin Monday night about 11 o'clock. The Crowell Fire Department reached the blaze in time to save another large barn, a granary and other sheds from being destroyed.

The loss is estimated to be about \$12,000.00.

IN WICHITA HOSPITAL

T. S. Jernigan, who fell last week and dislocated a hip, has been taken to a Wichita Falls hospital for treatment.

TO GRIND TWO DAYS

A. L. Rucker announced Monday that he will grind feed two days a week instead of one day each week as he has been doing for the past several months. He will run his grinder Friday and Saturday until further notice, beginning tomorrow.

The first sawmill west of the Mississippi was built in 1827 at Fort Vancouver, Washington, by the Hudson's Bay Company.

Oil-Gas Leases Filed for Record

Mineral leases filed in the office of Mrs. Fern McKown, county and district clerk, from August 14 to August 24 follow:

H. W. Banister, et ux, to D. J. Bisett of Houston, sixty acres of Sec. 36, Block 18, H&TC Ry. Co. Survey.

Lee Whitman, et al, to D. J. Bisett, first tract, 260.5 acres of Section 260, Block A, H&TC Ry. Co. survey; second tract, 74.2 acres of the John Seaton 1920 acre survey.

T. R. Cates, et ux, to D. J. Bisett, first tract, 166.05 acres of Section No. 260, Block A, H&TC Ry. Co. Survey, second tract, 169.6 acres of the John Seaton 1920 acre survey.

Mattie M. Schlagal, et vir, to the Skelly Oil Company, 160 acres of Section No. 428, Block A, H&TC Ry. Co. Survey.

Lowell Campbell, et al, to the Skelly Oil Company — 120 acres of Section No. 427, Block A, H&TC Ry. Co. survey.

D. C. Zeibig, et ux, to Skelly Oil Company, 160 acres of Section 429, Block A, H&TC Ry. Co. survey.

L. D. Fox Jr., et ux, to D. J. Bisett, 160 acres of Section 292, Block A, H&TC Ry. Co., also 90 acres of Section No. 37, Block 18, H&TC Ry. Co.

W. J. Long, et ux, to D. J. Bisett, first tract, all of Section 230, Block A, containing 674.5 acres of land, H&TC Ry. Co., second tract, 346 acres, all of Section 231, Block A, H&TC Ry. Co.

Robert Hammonds, et ux, to D. J. Bisett, 80 acres of Section No. 37, Block 18, H&TC Ry. Co.

Willie J. Garrett, et ux, to Magnolia Petroleum Co., 200 acres of Section 368, H&TC Ry. Co. Survey, Block A.

Maggie Hammonds, et al, to D. J. Bisett, 206.71 acres of Section No. 41, Block 18, H&TC Ry. Co.

J. C. Taylor, et ux, to D. J. Bisett, 320 acres of Section No. 273, Block A, H&TC Ry. Co.

Anton Kajs, et ux, to John F. Robinson, 160 acres of Section 291, Block A, H&TC Ry. Co.

L. H. Williams, et ux, to John F. Robinson, 160 acres of Section 255, Block A, H&TC Ry. Co.

H. R. Zeibig, et ux, to Skelly Oil Company, 80 acres of Section 429, Block A, H&TC Ry. Co.

Mattie M. Schlagal, et vir, to the Skelly Oil Co., 160 acres of Section 429, Block A, H&TC Ry. Co.

R. M. Fox, et ux, to Skelly Oil Co., 80 acres of Section No. 429, Block A, H&TC Ry. Co.

Sim Gamble, et al, to D. J. Bisett, 80 acres of Section No. 291, Block A, H&TC Ry. Co., also 80 acres of Section No. 291, Block A, H&TC Ry. Co.

Henry A. Moore to D. J. Bisett, 74 acres of Section No. 36, Block 18, H&TC Ry. Co.

Minnie Lee Moore, et al, first tract, 74 acres of Section No. 36, Block 18, H&TC Ry. Co., second tract, 60 acres of Section No. 36, Block 18, H&TC Ry. Co.

Leslie McAdams, et ux, to C. P. Chisholm, Houston: first tract, all of the Robert Barton 640 acre survey; second tract, 400 acres of Section 4, Block X, T&NO Ry. Co.; third tract, 640 acres of Section No. 29, Block L, SP Ry. Co.; 4th tract, 640 acres of Section No. 31, Block L, SP Ry. Co.; fifth tract, 160 acres of Section No. 32, Block L, SP Ry. Co.; sixth tract, 160 acres of Section No. 33, Block L, SP Ry. Co.

Leslie McAdams, et ux, to C. P. Chisholm, Houston: first tract, 194.5 acres, all of Survey No. 1, issued to John S. Craft, second tract, all of Section 10 containing 640 acres of land, GC&SF Ry. Co.; third tract, 520.7 acres of Section No. 11, GC&SF Ry. Co.

Mrs. John Carmichael of Vernon, who is district chairman of church arrangement of the Garden Clubs, was guest speaker at the meeting of the Crowell Garden Club on Friday afternoon, Oct. 13, when Mrs. R. J. Thomas, Mrs. H. E. Thomson, Mrs. J. H. Shultz, Mrs. W. F. Statter and Mrs. Alyene Graham were co-hostesses. The meeting was held in the Community House.

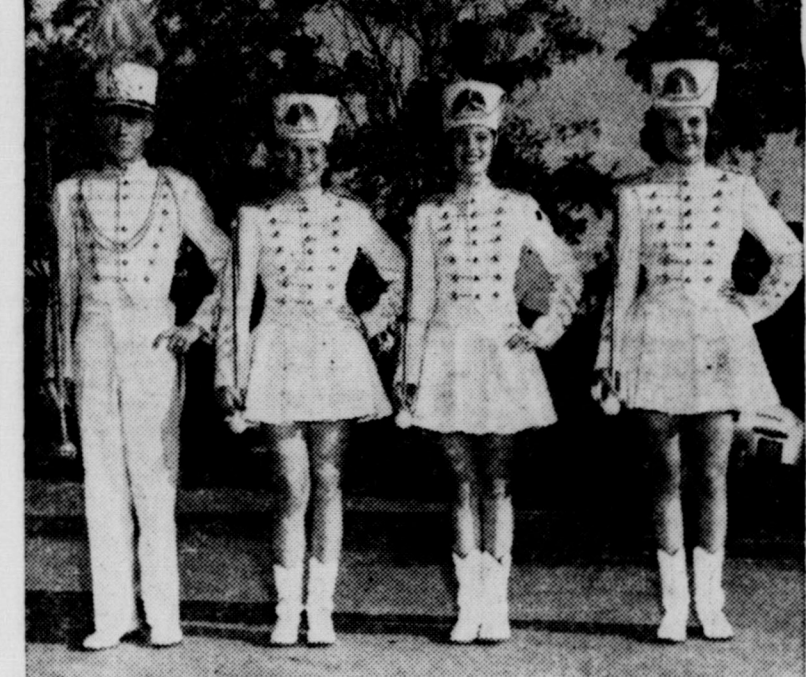

Mrs. Carmichael stated that flowers and churches are closely united and she gave some fundamental facts to be remembered in making arrangements for churches and also about containers which should be used.

For Thanksgiving or special holidays, berries and evergreens were suggested, such as magnolia leaves, cedar and ferns. Mrs. Carmichael also gave some experiences of her vacation trip to France, England, Scotland and Italy, stating that squares of land were covered in flowers of every color and that everyone had flowers in Italy. Flower carts along the roads where people could buy what they wanted were attractive. Flower pots and cut flowers were in all hotel rooms. Flower decorations were always found in the cathedrals and flowers without containers were found at different vantage places in the churches.

Mrs. R. L. Kincaid, vice president, served as president since Mrs. R. L. Hunt, who was elected president, has moved away. During the business meeting, Mrs. J. B. Harlan was elected in Mrs. Hunt's place.

The hostesses served refreshments to twenty-one members and the guest speaker.

C. H. S. Drum Major and Majorettes

Drum Major Dowal Parks and Majorettes Geraldine Schmittow, Marcia Kincaid and Melba Coker will march at the head of the Crowell High School Wildcat Band of 40 pieces in the annual Midwestern University Homecoming Parade Oct. 28. Their band is directed by Miss Mary Close. (Picture furnished by Times Publishing Co., Wichita Falls.)

Over 1900 Bales of Foard County's 1950 Cotton Crop Had Been Ginned by the Five Gins of the County Wednesday

According to reports received from the five gins of the county, 1,926 bales of the 1950 cotton crop in Foard County had been ginned up until Wednesday afternoon. The cotton crop, which suffered severe damage by insects and wet weather, is generally estimated to be about one-half out.

The price of cotton went up the limit Tuesday of this week and was reported to be 39.65 in New York. The price being paid by local buyers ranges from 35c to 39c. H. C. Duncan, manager of the Farmers Gin in Crowell, reported paying 40c per pound for a bale of strict middling, light spot inch last week, grown by Walter Thomson on his farm on Pease River. Mr. Duncan said it had been a long time since he had paid that much per pound for a bale of cotton.

Mrs. Moody Bursley to Direct Annual All-School Hallowe'en Carnival Oct. 31

It's always fair weather when old school boosters get together, 1951 carnival planners are hoping. The 1950 carnival activities are going to be a little different this year, according to Mrs. Moody Bursley, general chairman.

Better equipment for the children is the goal of the carnival organization. Wednesday, October 11, a large crowd of mothers and teachers met in the Elementary School study hall. At this time the following chairmen were appointed: parade, Mrs. Gordon Bell; speaking system and location of booths, Mrs. Gerald Knox; king and queen contest, Mrs. Herman Kinceloh; publicity, Mrs. Lewis Sloan; lighting, Mrs. Alton Bell; financial, Miss Cora Carter.

Lions Club Street Carnival Success

The Crowell Lions Club Street Carnival was blessed with perfect weather and fine cooperation by the Crowell merchants as well as the people of Crowell and surrounding communities.

Four Truscott Stores Reported Burglarized Tuesday Night

Four stores in Truscott were burglarized Tuesday night. It is reported that from \$35 to \$40 and 35 or 40 cartons of cigarettes were taken in the burglaries.

ROTARY CLUB

Rotarian Bob Sherrill of Vernon was a visitor at the noon luncheon of the Crowell Rotary Club Wednesday at the Club Cafe.

LEAVES FOR ARMY

Dr. J. H. Barnebe, Jr. will leave today for Fort Hood, Texas, to re-enter military service. Dr. Barnebe holds a captain's commission in the Army Reserve.

Crowell Wildcats Defeat the Seymour Panthers in a Thrilling and Closely Contested Conference Game Fri. Night

The Crowell High School football team won a thrilling 26 to 20 conference 10A victory from the Seymour Panthers here last Friday night. Seymour came to Crowell undefeated in conference play and had been picked to win the district championship by the Wichita Falls Record News sports editor. This leaves Olney with the only perfect record in 10A district play. Crowell has a tie with Electra marked against its record.

The Wildcats were very nervous at the beginning of Friday night's game and Seymour recovered their second fumble, which was Crowell's third offensive play of the game. Seymour took possession of the ball on Crowell's twenty-seven yard line and Douglas Nix passed to Leonard Moeck to the 4-yard line; Archie Johnson, 196-pound Seymour fullback, drove to the one. Nix scored on a quarterback sneak and Johnson kicked the extra point.

Rainfall Recorded at Joe Orr Farm

Rainfall during 1950 in the Margaret community, up to and including September, was 31.70 inches according to the record kept by Joe Orr at his farm home in that community. The precipitation amounted to 11.63 inches more than fell at Crowell up to Sept. 16, according to the Government gauge at the Crowell State Bank.

The record kept by Mr. Orr for the first nine months of the year is as follows: January, .90; February, 1.65; March, 0; April, 1.45; May, 4.50; June, 2.75; July, 4.50; August, 6.15; September, 9.80.

Good Plant Food Greatly Increases Crop Production

"Feed the land and fatten the crops" is a good slogan for Texas farmers to adopt, because plants must have plenty of the right kind of food in order to grow well and produce good yields, says Joe Burkett, County Agent.

Good crops cannot be grown without sufficient plant food, even when the best seed and cultivation methods are used. Burkett points out that plants also need plenty of water and suitable soil conditions to grow in.

He states that feeding the land by plowing under a well-inoculated and fertilized legume is the best way to provide these important items. Legumes supply plant food, especially the high-priced and badly needed nitrogen, which they get from the air by means of bacteria in the nodules on the roots.

Organic matter or humus, supplied by the legumes when they are plowed under, improves the condition of the soil and thus makes it more suitable for plants to grow in. And the more organic matter there is in the soil, the more water there will be for the plants because the vegetation that decays in the soil acts like a sponge and increases the water holding capacity of the land.

Burkett reports that increased cotton yields of over 100 pounds of lint per acre were obtained when cotton followed hairy vetch on the East Texas Experiment Substations at Nacogdoches and Tyler. And corn yields were more than doubled at these substations. On the more drouthy soils at College Station, vetch increased cotton yields 59 pounds per acre.

At the Temple Substation in the Blackland area, cotton following phosphated and inoculated humus sweetclover produced a five-year average of 315 pounds of lint per acre—and the humus was harvested for seed before being turned under. On similar land where no legumes were planted, the five-year average was 165 pounds of cotton per acre.

The sweetclovers, hubam, Madrid and annual yellow blossom, increase the yield of crops that follow them. Hubam and annual yellow blossom are especially beneficial because they also reduce losses from cotton root rot. To farmers who are troubled by cotton dying from root rot, Burkett recommends the planting of these two sweetclovers in the rotation, for a seed crop, for grazing and to be plowed under green.

REXALL ORIGINAL 1c SALE STARTS TODAY AT FERGESON DRUG STORE

A three-day Rexall One-Cent sale is being conducted at the Fergeson Rexall Drug beginning today, it has been announced by Henry Jones, owner and manager. The sale will continue through Saturday and the numerous bargains being offered in this sale are listed in a half-page advertisement on page three of this issue of the News.

MAKES HIGHEST GRADE

Bobby T. Hord, son of Mr. and Mrs. S. P. Hord, formerly of Crowell and now living in Abilene, was one of two boys who made the highest grades on the pre-registration tests at Hardin-Simmons University, according to Dr. Hoyt Ford, director of testing and professor of education.

ATTEND BROTHER'S FUNERAL

Abb Dunn, Mrs. Bax Middlebrook, Mrs. Frank Dunn and Mrs. John Taylor have returned from Starks, La., where they went to attend the funeral of their brother, Eph Dunn, who died at his home there.

Besides the brothers and sisters, Mr. Dunn is survived by one daughter, Mrs. Gene Dickens, of Beaumont.

EX-RESIDENT VISITS HERE

Mrs. Elan Young of Breckenridge is visiting in the home of her niece, Mrs. T. N. Bell, and other relatives and friends in Crowell. On Monday, Oct. 16, her 96th birthday was quietly observed in the Bell home.

"Aunt" Elan is an ex-resident of Crowell, but she has resided in Breckenridge in the home of Mr. and Mrs. Counts Ray for many years. Mr. Ray is her grandson. Mrs. Otto Moates, an old-time friend of the family, is also a visitor in the Bell home this week.

leo the inhibited wildcat
 my school—yes even my whole town is buzzing with praise for our good ole wildcats since the thriller we all witnessed Friday night.

osh oh gee the first thing I noticed in Monday's star telegram was that Jon Sanders was again on the high school football honor roll.

did yuh see the swell pictures of our majorettes and drum major in the Wichita record news I couldn't understand why the picture of the whole band in that pretty v formation they made on the football field Friday night wasn't in the paper too.

why doesnt mr graves install a television set around here some where I'd give fifteen years of my education to see our band on tv reckon it could be arranged to get our band on.

I'm getting so excited about this year it's all great fun to be able to read all these wonderful stories about our grand football team they are heap big wildcats after my own heart come to see me sometime leo

FOOTBALL BOYS MUNCH STEAK AT LION'S LUNCHEON

On Tuesday, October 10, the Crowell Wildcat football boys were honor guests at a luncheon given by the Lion's Club at the Club Cafe. A guest of distinction was the Lions' district governor.

Delicious hamburger steak, potatoes, green beans, fruit salad, hot rolls with butter and pineapple pudding were served to the boys. J. M. Crowell, president of the club, predicted the scores of the Crowell games yet to be played. A feature of the program was short talks by Coaches Thayne Amont and Gordon Erwin.

The Crowell football boys wish to thank each member of the Lion's Club for a delicious luncheon and an enjoyable luncheon hour.

WISHON AND AYERS ATTEND NATIONAL F. F. A. CONVENTION IN KANSAS CITY OCTOBER 8-12

After attending the Dallas Fair Saturday, October 6, Charles Wishon and H. L. Ayers left Dallas on a special bus for Kansas City, Mo., Sunday morning. Two boys from Garland, Glen Roney, Geo. Chise, also boarded the bus. From this point on, the four stayed together and were roommates at the hotel. At Fort Worth the boys boarded the train for the rest of the journey. Since there was one woman in their car, the boys said that they were pretty nice! Charles

and H. L. ate supper on the train and then it changed engines and reached Topeka at 10 o'clock that night with four cars of FFA boys. An hour later they reached their destination and caught a taxi to the Ambassador Hotel.

After being told the convention hall was not very far away, Charles and H. L. took a taxi and found that it took about forty minutes and a fare well over a dollar. They then moved to the Dixon Hotel which was only one and one-half blocks away.

The opening session was carried on according to parliamentary procedure by the officers. The National FFA 120-piece band played. This band was composed of boys from all over the U. S. Next a chorus composed of 100 FFA boys from different states sang. This was followed by a talk by the past president and a roll call of delegates from each state, Hawaii and Puerto Rico.

The Mayor of Kansas City, W. E. Kemp, welcomed the boys and invited them to visit the City Hall. Nearly all the boys accepted the invitation and enjoyed a good view of the city from the thirtieth floor of the building.

All of the meetings were held at the Municipal Auditorium which was so large that the 8,000 FFA boys looked very small.

One of the high points of the convention was an address by the Secretary of Agriculture, Hon. Charles F. Brannon, who stressed the good job of farming, raising livestock, and building up the soil that is being done by the FFA boys.

An interesting feature was an interview of the boys from Hawaii and Puerto Rico. The boys were given a tour of the city for 25c each. On this tour they made a thorough inspection of the Swift Packing Company and the Kansas City stockyards. The next stop was at interesting Swope Park, where they were interested in Monkey Island and the big zoo.

During the convention the platform guests or the donors who make the national convention possible were honored.

The closing night was talent night. Although no prizes were awarded, the boys thought honorable mention should go to Grady Price, a blind accordion player from Texas.

American farmers degrees were awarded to 27 boys from Texas, whose way was paid to the convention and an award of \$50 given to each. This degree requires five years' work. The boy who received first place among the American Farmers was from Florida. He received a scholarship to college and a check for one thousand dol-

ars. Campaign speeches were made by the boys for national offices for the coming year. The winner was judged by his answers to FFA questions. A boy from Oklahoma was the winner.

Boys from New York explained in a very beautiful ceremony the making of the FFA emblem.

From Texas, 900 boys attended the convention and 318,00 are enrolled in FFA work in the U. S. The National Treasury contains at present \$91,000. Next year the National FFA convention will celebrate its 25th year.

NEW PERSONALITIES ON CAMPUS REVIEWED BY WILDCAT STAFF

Have you been wondering at all the new faces seen on our campus lately? (No, we don't mean you, froshes!) Well, in order that we may get better acquainted with all the new students, we are reviewing a short personality sketch of each.

Woodson Roddy is a senior boy who hails from Liberty, Kansas. This black-haired, grey-eyed boy enjoys hunting, and his hobby is guns. Woodson's favorite food is cheese and his pet peeve is hill-billy music. Much of Woodson's spare time is spent in studying psychology. Woodson, or Woody as he is called by the students, plans to attend West Texas State College at Canyon upon his graduation from CHS.

An addition to the Junior class is Richard Kimbrough. After interviewing Richard, I came to the conclusion that he likes the West. He likes to listen to Clint, Texas, radio station and his favorite books are Western. He likes hamburgers and hunting. Richard's pet peeve is studying, but his favorite class is study hall. Betty Grable rates as his favorite actress. CHS is very fortunate to have this addition from Lubbock High School.

Buddy Hardin is a new senior boy living in Truscott. Buddy is hazel-eyed and black-haired; his favorite food is southern fried chicken. His pet peeve is having week end assignments, and biology rates as his favorite subject. Ann Blythe and Gary Cooper are tops on his list of movie stars. Buddy enjoys reading sports books, and his favorite sport is football. He last attended school at Aleda, Tex., High School.

CONTEST FOR FIRE SLOGANS ANNOUNCED

Paul H. Brown, fire insurance commissioner, announces for the Fire Insurance Commissioners a Fire Safety Slogan Contest for students in the Texas high schools.

A total of \$250 in prizes will be given. First prize is \$50; fourth prize, \$10. The next 10 best slogans will receive \$7.50 each, and next best will receive \$5 each.

The money for prizes has been donated by the Texas Safety Association, \$50; American General Insurance Company of Houston, \$100; Trinity Universal Insurance Company of Dallas, \$100.

The rules listed below are to be followed:
 1. Open to all students of junior and senior high schools in the seventh to twelfth grades inclusive.

Rain Plagues GI's

SOUTH KOREAN FRONT — If there's one thing Sgt. George Rainwater hates it is rainwater, when it makes a swimming hole of his foxhole. He is shown (right) with Sgt. Robert McGregor, of Lincoln Park, Mich., bailing out their foxhole with a couple of tin hats. Sgt. Rainwater hails from Fort Worth, Texas.

2. Slogan must not contain more than 10 words.

3. No student may submit more than one slogan.

4. Slogans may be on any phase of fire safety and must be original.

5. All slogans must be post-marked on or before November 1, 1950. They must be addressed to Fire Insurance Division, State office Building, Austin, Texas, and marked on the outside of the envelope, "Fire Safety Slogan."

6. Slogans must be submitted upon the stationary of the school in which the student is enrolled and have nothing on the front page except the slogan.

7. On the reverse or back page will be written the name of the student, the address of the student enrolled, the name of the principal of the school and the name of the superintendent of the school.

8. All slogans become the property of the Fire Insurance Division of the Board of Insurance Commissioners.

FROM HOME-MAKING DEPARTMENT

Birthday Calendar
 This week the FHA girls will begin work on their first money-making project for the year. Remember the FHA birthday calendars that were so nice and came in so handy in 1947? Well, that is what the FHA girls hope will be successful again this year.

The price for a name printed on the day of the person's birthday will be 15c. There will be 2, 4 and 5 dollar ads.

Sharing Their Christmas
 The FHA girls in the third and fourth period sophomore class made the Home Ec. room look like Christmas time. They brought Christmas gifts to be put in one huge box to send to the World Christmas and Chanukah Festival. Each gift has a tag on it telling whether it was for a boy or girl and approximately what age. They chose to send their box to Holland. Many foreign children will enjoy Christmas this year through the World Friendship Among Children, 214 East 21st St., New York 10, N. Y.

Health of Aluminum Cooking Utensils

Hygiene, the Health magazine, was recently asked this question that is in the minds of thousands of people today. "I have been told by a salesman of steel cooking utensils that aluminum ware is dangerous for cooking and in addition to causing stomach trouble is a cause of cancer. Is this true?"

Answer: "This lie, circulated at periodic intervals by unscrupulous salesmen is a said commentary on ethical salesmanship."

Good Housekeeping says: "We have investigated thoroughly the matter of absorption of aluminum from cooking utensils, both as to extent and to possibility of toxic amounts and we believe there is absolutely no danger from the use of such ware."

This title of a newspaper column came out in May 1949 from The Cleveland Better Business Bureau: "Authorities agree aluminum satisfactory for cooking utensils."

The Biochemical Research says that aluminum is present in all foods. "Just as nature causes growing things to absorb other substances from the soil, so she causes our plant foods to absorb aluminum as they grow." In addition to being proven that it does not harm or effect food in any way, aluminum cooking utensils have many advantages. They have superior heat distribution, are easy to clean, light but strong, and aluminum is "friendly to food."

DRAMATIC CLUB

The Crowell High Dramatic Club met Wednesday night, Oct. 4, in the auditorium of the high school building with 65 of its 84 members present.

A parliamentary drill was given by the club parliamentarian, Betty Barker. Practice on the selected plays will begin at the next club meeting.

FOOTBALL QUEEN TO BE CROWNED FRIDAY NIGHT

The football queen of the 1950-51 Crowell Wildcat team is scheduled to be crowned at the Crowell-Chillicothe game at the Wildcat Stadium Friday night about fifteen minutes before game time.

As yet, the queen is unknown, but will be selected by the football team and announced the latter part of the week.

PLAYER OF THE WEEK

"There is a pile-up at the line of scrimmage as Bubba Bell again makes his tackle."

Gordon Wood "Bubba" Bell is a six foot two, 195 pound tackle for the Wildcats. Seventeen years old and a senior this year, Bubba is a spark for the Wildcats as left tackle on offense and right tackle on defense. He is a whiz at handling those "big guys" on opposing teams.

When you see a staggering opponent hit the dust, it may be because "Bubba" Bell made his famous "flying tackle."

WILDCAT WHISPERS

How happy can you be? Melba Ward looked like a ray of sunshine during the week while Layton Holt was home. Another happy couple during the week end were Maurine and F. L.

Neva Lou is still being true to Joe Harris while he is gone. Riding around Sunday night were Gordon Wood and Frankie.

Jimmy Tom is still going to Truscott to visit Melba Coker. That Jean Kile really gets around. She was with Lewis Hunter Friday night.

Something old: Buster and Betty. Something new: Myra and Joe Reid Jones. Something borrowed: "Booger" from Tommie. Something blue: Billy Joe Halen-cak.

Plan to attend the Halloween Carnival October 31st. Seen in Quanah Saturday night were Billy Abston and Carolyn Bell and George Ann Davis and Leon Pechacek.

Has anyone besides Genevieve

McDaniel and Carla Manning gotten a letter from the boys they met at the fair?
 Saturday night Betty Sue Bartley was enjoying her ferris wheel ride with Jack Sellers.

We wonder why Wayne Borchardt never is seen with a girl?
 Norman Shultz is a cute freshman boy from Thalia who is looking for a girl. What boy isn't?

Bobby Spears and Rosemary Moss were with some "fly boys" the other day.
 Question of the week: where do Booger and Kildee spend their Sunday afternoons?

The Sheppard Air Base boys seemed to have enjoyed Truscott Saturday night.
 Plan to attend the Hallowe'en Carnival October 31st.

When fifteen girls get together for a sleepless night, you had better watch out.
 It seems as though Mary Alice and Jimmye Louis are still seen around.

We wonder if Mary Lou has a secret love. From what we hear, she has.
 Elba Caddell and Pete Moody were enjoying the ball game Friday night. Who wasn't?

June Carroll and Nancy Hallmark enjoyed a couple of good looking Seymour boys' company at the game Friday night. With them were Judy McGregor and L. C. Gordon.

Posey and Floyd were double dating with Charles and Patsy Friday and Saturday night.
 Marcia says the Texas and Oklahoma game Saturday at Dallas, where she went with her family, wasn't any more exciting than the game here Friday night.

Wonder why Laverne Shultz was so happy over the week end? Could it have been because Buff came in?

Plan to attend the Hallowe'en Carnival October 31st.
 It seems we have a new triangle in our midst: Ham Tاملين, Patsy Hammonds and Charles Wishon.

We would like to know who printed the "notes" Sunday afternoon about 3 o'clock.
 It seems as though R. C. Sanders is keeping his eye on his one and only, Kay Cribbs. Could this be love?

Coy Payne seems to know the way to Vernon perfectly. Don't you, Coy?
 Wanza Spears has the loneliest look on her face. Wonder why?

It seems as though David Jackson and Myrna Loy Riley have likes in common.
 What's this we hear about Virginia McKown and Marion Gobin? Tell us more!

It seems we have a new steady couple in CHS: Doyle Sparks and Virginia Railsback. Good luck.
 That's all for this week, but we'll be back again next week with more Wildcat Whispers!

The Cat's Tail.
 St. Elizabeth was the mother of John the Baptist.

Think twice today when you buy a truck!

THAT new truck you're considering may have to last a long time. So you'll be wise to look at a GMC for these important reasons:

GMC's are built by the world's largest exclusive manufacturer of commercial vehicles—with the broadest truck engineering experience.

GMC's are real trucks. Engine, transmission and frame, as well as cab and axles, are all specially truck-built to give you longer service.

GMC truck-built engines have high horsepower with higher sustained torque—greater pulling power. They are built to give extra years of service with less maintenance.

GMC extra-value features include Synchro-Mesh transmission, Tocco-hardened crankshaft, full-pressure lubrication, recirculating ball-bearing steering gear, airplane-type bearings and Lifetime Weather-sealed cabs as standard equipment on practically all models from 1/2 ton up.

That's why more truckers are buying GMC's today than ever before—experience proves them best in the long haul!

New Regulations for VA Study Were Issued on October 9

Veterans planning to change to new fields of G. I. Bill study or to apply for courses commonly considered avocational or recreational may be affected by new Veterans Administration regulations issued today.

According to Robert W. Sisson, manager of the Lubbock VA regional office, the regulations are based on Public Law 610 enacted July 13. Among other things, that law permits veterans to change general fields of training for the first time merely by applying. It also reiterates avocational and recreational training restrictions which have been in effect for some time.

According to the new regulations, a veteran who wants to change his GI Bill course or take an additional course must submit an application to the VA regional office handling his records. If VA determines he has not previously changed general fields, it will approve his application, even though it's in a different general field.

But if he desires to make a second change of general fields of study he will be informed that he may undergo advisement and guidance. VA will use the results of advisement and guidance to determine whether he has need of an aptitude for the course. If he is not notified of VA decision within 45 calendar days from the date his application is received in the VA office holding his records, his request for the second change of general fields will be automatically approved.

The new regulations describe what is to be done in the case of a veteran who previously changed general fields twice and now wants to change a third time.

His request may be approved only if he establishes need for a short, intensive course which will prepare him for employment in a critical occupation where there is a known shortage of trained workers. The burden of proof rests with him to establish those facts, VA explained, and a decision will be made on the basis of

the evidence of record.

The new change - of - general field provisions apply to three categories of veterans, Sisson said: Those now in training who want same school or in other schools; those who discontinued training and now want to resume it, and those who completed a course and want to take another one.

Today's regulations on avocational or recreational restrictions are, for the most part, similar to regulations which have been in effect.

A veteran wanting to enroll in a course listed by Public Law 610 as being avocational or recreational in character first must submit complete justification to VA that the training "will contribute to bona fide use in his present or contemplated business or occupation."

Courses listed include dancing, photography, glider, bartending, personality development, entertainment, music both instrumental and vocal, public speaking and sports and athletics.

Exempted from the list are courses in applied music, physical education or public speaking offered by colleges for credit as an integral part of a course leading to an educational objective. Courses not on the list may be declared to be avocational or recreational if it is well known that they are commonly taken for those purposes in various areas of the country.

A veteran who desires to enroll in such a course has a choice of submitting either:

1. Complete justification that the training will serve a bona fide use in his present or contemplated business or occupation, or

2. A certificate in the form of an affidavit, supported by corroborating affidavits by two competent disinterested persons, to the effect that the training "will be useful to him in connection with earning a livelihood."

The new regulations emphasize that the law's July 25, 1951, cut-off date for starting GI Bill training still stands. Also still in effect is VA's April 1, 1950, regulation on the deadline, which states that veterans actually must have started and must be pursuing their courses by July 25, 1951, date if they want to continue afterwards.

Certain exceptions to the deadline have been allowed. Among them are veterans who interrupt GI Bill training to return to active duty, and teachers who spend their summers taking courses under GI program.

RAT POISONS DEADLY

For all practical purposes, it's wise to consider every kind of rat poison as dangerous for livestock and pets, unless the manufacturer gives a guarantee to the contrary. That advice comes from the American Veterinary Medical Association, which points out that many farm animals and pets have become ill or died from the effects of supposedly "safe" rodent poisons. When placing rat and woodchuck poisons around the farm premises, the best safeguard is to pick spots that are out of reach of herds and flocks.

Korea has a population of thirty million.

OUT OF BOUNDS

The Enid, Oklahoma, News has taken the head of the Federal Security Administration sharply to task and with good reason. According to the News, the Administrator says, in reply to critics, that he sees it as his "duty to lobby for a big Federal health program and for what those opposed to me call 'socialized medicine.'"

Commenting on the Administrator's viewpoint the News observed "He was selected to administer his agency within the laws governing it. He was not hired with the taxpayers' money to work against their interests or against the interests of a free American citizenship. He certainly was not, in theory at least, hired to devote his time and the taxpayers' funds to promoting the expansion of the agency, thus enhancing his own power."

"There are enough misguided groups and individuals whose sole business seems to be to promote socialized medicine and other Federal regimentation and give-away schemes, without these silly programs requiring any help from a high salaried Federal administrator."

Many competent persons in and out of public life have warned that administrative government has become a serious problem and a threat to our structure of self government. There is no question but that in a large measure the ceaseless efforts of the power-seeking administrators of Federal agencies have created this threat. — Industrial News Review.

Law does not compel husband and wife to live together.

ECONOMIC HIGHLIGHTS

Even skeptics cannot but be impressed by the speed with which supply lines to the Korean beachhead have been built up. From a standing start less than two months ago a sizable army has been moved across six thousand miles of ocean and sent into combat. It is impossible for laymen to appreciate fully the magnitude of such a task. A single U. S. infantry division, for example, needs a staggering 17,000 tons of equipment — weapons, trucks, fuel and food — just to get it started in combat. From then on, if it is fighting a delaying action such as the war in Korea was for so long, it needs an extra 436 tons of equipment a day, including medicine and replacement parts to the offensive, its daily needs jump to 580 tons. Life magazine has made an illustrated feature of this great undertaking. It shows a map of the Pacific Ocean with a worldwide network of supply lines — planes and ships — converging on a tiny white dot on the shores of Korea. This dot is our beachhead. Life then described the movement over these supply lines during a forty-day period. The Military Air Transport Service, flying 236 planes, delivered 15,000 passengers and 3,000 tons of cargo. Each round trip took from 72 to 120 hours. Turn around time for the planes in Japan and the United States was twelve hours. Simultaneously, the Navy-run Military Sea Transportation Service, in three hundred ships — transports, tankers, and cargo vessels — delivered more than 50,000 men, and 500,000 tons of cargo. Round trip for one of these ships from the Pacific coast ports required 40 to 75 days.

In the words of Life: "To accomplish all this within nine weeks, U. S. logistics experts have had to improvise a major miracle."

The fact that a miracle of transportation and supply is now being accomplished does not excuse the tragic miscalculations in top management of the American defense program. Rather, it is another magnificent demonstration of the vast reservoir of resourcefulness and

stamina so characteristic of this country. Very likely the present effort will go down in history just as Life described it — a major miracle. Credit for achieving it must go to the people who have taken part in it; the pilots of the planes, the captains of the ships, the workers and managements in the oil fields and factories and mines, the hard-bitten Marines, the Navy Air Force and the Army. The performance of these people has impressed the world and is doing more for the cause of freedom and Western Civilization than most of us realize. If anyone can, they will make the United Nations a workable organization. Industrial News Review.

POWER WITHOUT POLITICS

Immediately after the Korean war started advocates of socializing the nation's power resources used the situation to bolster their demands for more billions of tax funds for government dams and power authorities. Their argument is that only government can save this country from a power shortage. They have used this same line of talk for twenty-five years.

Business - managed private electric companies are furnishing 80 per cent of the nation's electric power and will have to meet any current war emergency. The highly-taxed private electric industry is not asleep and is ready to meet any war emergency. Since V-J Day the utilities have increased their generating capacity by about one-fourth in a \$7,000,000,000 expansion program. The money was obtained from the savings of private investors, not from tax funds. According to published reports, they were talking of spending another \$7,000,000,000 by 1954 — not badly needed tax funds but, again, private savings. It is now reported this program has been revised upward and speeded up.

According to a survey by the Edison Electric Institute, orders for equipment by electric companies, either placed in recent months or on the way, call for about 70 per cent as much new equipment as has been installed in all the expansion of the past

five years. The big spurt came in July following the outbreak of the Far Eastern fighting.

This is what the investor-owned electric industry is doing. Instead of costing the taxpayers money when every dime in taxes should be saved, new business - managed plants will be built to care for the nation's increasing electric needs, and help supply additional tax revenue that the government is crying for. There will be no politics or political boondoggling involved. That is the difference between private industry and socialized industry such as is forced on this nation in public power authorities. — Industrial News Review.

FLOWER ISLANDS

Under most favorable pre-war conditions the Scilly islands 25 miles off England's southwest corner shipped about 85 million individual flower blossoms a year to London. Flowers bloom out of doors the year round at a latitude 650 miles north of New York City. The warm gulf stream gives the

islands a mild temperature range from 46 to 58 degrees. Starting plants outdoors in September, the London markets in December or early January by forcing blossoms under glass. Because of sales, tenderest flowers have to be protected by masses of purple-flowering veronica and tall hedges. Gale winds may send a salt spray to ruin blossoms. They may ruin cargoes by holding ships in harbor until the flowers fade.

He that complies against will, is of his own opinion still. Butler.

Mr. and Mrs. Bill Parker spent the week end in Dumas visiting relatives and friends.

Mr. and Mrs. Cap Tuggle and Mr. and Mrs. C. J. Tuggle and children, John and Bennie, of Corpus Christi visited with Mr. and Mrs. H. D. Lawson and Mr. and Mrs. M. L. Cribbs Sunday afternoon.

Mr. and Mrs. Louis Kieschnick and son, Glenn, and baby daughter and Mr. and Mrs. F. A. Streit visited in Wichita Falls Tuesday.

Mr. and Mrs. Junior Schoppa of Midwestern University at Wichita Falls visited here with their parents during the week end.

Mr. and Mrs. A. T. Beazley visited with Mr. and Mrs. H. D. Lawson and daughter Sunday.

Miss Lydia Streit of Midwestern University at Wichita Falls spent the week end here with her parents, Mr. and Mrs. F. A. Streit, and family.

Mrs. W. W. Ashcraft and Mrs. A. T. Beazley attended WMU meeting at Lockett Baptist Church Monday.

James Russum of Midwestern University at Wichita Falls spent the week end here with his parents, Mr. and Mrs. C. A. Russum, and family.

Miss Laura Custer of Vernon visited with Mr. and Mrs. Homer Custer and daughter, Sandra, Sunday.

James Rice of Odessa visited here with friends during the week end.

Mrs. A. H. Martin is visiting with her daughter and son-in-law, Mr. and Mrs. J. C. Taylor, and family of Sundown.

Gene Baldwin will leave Thursday for Amarillo for his physical examination for the Army.

Rev. Leon B. Patterson of Southwestern Baptist Theological Seminary in Fort Worth will preach at the Rayland Baptist Church Sunday, Oct. 22. Everyone is cordially invited to attend both services, 11 a. m. and 6:30 p. m.

Frances Lawson visited with friends in Lockett Sunday night.

INDUSTRY AT ITS BEST

There is one thing about private industry that gives the United States a great production advantage in case of emergency. It does not have to wait on political decisions and appropriations from Congress to get moving. Virtually every basic industry in the nation has told the government it is ready to go ahead and produce what it wants when it wants it.

DAMAGED BONES

Stainless steel is used by some surgeons to patch or replace damaged bones because the metal withstands body acids and does not poison the blood.

Out front with the finest

yet priced with the lowest

These days you can't tell from the price tag how much quality a car holds. Ford, for example, is still priced with the lowest... yet in other respects it's in the fine car class. Take its styling, for example for two years in a row Ford has been the recognized fashion leader.

Like America's finest cars Ford offers you a V-8 engine. No other low-priced car does. Nor does any other car at any price offer you a choice of V-8 or Six engines. And remember, Ford's V-8 costs hundreds less than most sixes—Ford's Six costs even less.

October 22-28 NATIONAL AUTOMOBILE DEALER WEEK Come in and "Get to Know Your Dealer Better" Let us show you our fine facilities to serve you.

And it came to pass, when Jesus had ended these sayings, the people were astonished at his doctrine: for he taught them as one having authority, and not as the scribes.—Matthew 7:28-29.

One of the things that comes with the march of progress, if we can call it that, is the displacement of horses by motor trucks by circuses. Our memory goes back to the days when four, six and eight and sometimes twelve great Norman or Percheron horses pulled the heavy clunking circus wagons from the railroad to the show grounds across town and back again.

Mrs. Roosevelt has been quoted as saying, after her brief trip to Holland: "I never knew there were so many Roosevelts." To which the alert editor of one of our exchanges adds, "Neither did the Republicans."

Consistent advertising each week, backed up by good merchandise and modern merchandising methods and intelligent buying, constitute the simple formula upon which nine-tenths of mercantile successes of the country are built.

The small town dollars that go to the city get lost and never find their way back home. The dollar we spend at home stays at home and circulates in the community, buying food and clothing.

Optimistic Veteran: If Uncle Sam doesn't send me a letter of greeting this year I should be able to graduate from college before my daughter begins school next fall.

An apple a day may keep the doctor away, but at the present price the doctor would cost little more than the apples.

The idea of higher taxes and restrictions because of the war should not be distasteful to those who remain at home while others have to go to battle. Equitable division of the load will only come about when the sacrifices of those who remain at home equal the sacrifices of those in the armed forces. Democracy means that we all share alike. It means that those who remain at home measure up in efforts, sacrifice and giving to those who don their country's uniform, shoulder a rifle, and march away to foreign battle fields to fight in mud and filth, to preserve a theory of government that we call democracy.

Thomas Dewey took a long chance at a recent banquet when he made some true but harsh remarks about Russia in the presence of Jake Malik and Andrew Vishinsky. The two Russians walked out in the middle of the speech. They might have remained and thrown radishes.

Six new Veterans' Administration hospitals will open their doors to veteran patients by the end of October. The hospitals are located in Michigan, Texas, Nebraska, Washington, Louisiana and Pennsylvania. The six will have a capacity of 1450 patients.

This from one of our exchanges: a man can tell another man he looks like a million and mean every word of it, and a woman can tell another woman she looks like a million and mean every word of it.

Col. E. V. Spence, personal representative of Texas' Governor Allan Shivers on the Committee, praised its activities in a speech at San Antonio on October 9, before the Texas Water Conservation Association. He predicted that "much good" would come from the work of the Inter-Agency committee "if the states will exercise their sovereign prerogatives."

Colonel Spence, who is also Compact Commissioner for Texas on the Canadian, Red and Sabine Rivers, plans to attend both hearings in Amarillo, as does Colonel Prentiss and most other members or their representatives.

Virtually every possible phase of present and potential land and water use is within the scope of the study authorized by Congress and is being carried out by the Committee. "Not only must we plan for better use of our land and water for today's conditions," Colonel Prentiss said, "but we also must develop a feasible plan to meet the needs of the reasonably foreseeable future. We want to obtain from the states, local governments, groups and individuals the kind of a future they are working toward."

"If some locality is thinking in terms of an industrial growth, we intend to look into the possibilities of planning to enhance such a growth. If agricultural expansion has favorable prospects, our planning will explore the possibilities in that direction. Whatever the course visualized for an area, we want the benefit of the grass roots thinking on the land and water problems involved."

There are represented on the committee specialists in every field related to these problems, and their services will be utilized whenever needed during the study as well as the preparation of the report to Congress. These specialists are available from both the states and Federal agencies. "However," the Chairman has stated, "this is not a technical task alone but a problem involving the broadest concepts of economic development."

Public hearings are a part of the first phase of the Committee's activities which are tentatively scheduled to result in a completed plan for land and water development in July 1952. Another series of public hearings is scheduled when planning has reached the stage that programs and projects can be laid before the people for their comment.

During the next two years the Inter-Agency Committee, composed of six Federal members and the governors of eight states, will hold regular monthly meetings. Numerous technical conferences and sub-committee meetings will continue to be held and staffs will continue full-time work on the study.

The next Committee meeting is being held in Jefferson City, Mo., on October 26, at the invitation of Governor Forrest Smith. Prior meetings have been held in Oklahoma City, Okla., and Little Rock, Ark.

Ten regional public hearings have been completed. Seven more hearings (including those on October 18 and 19 in Amarillo) are scheduled. Future hearings will be in Little Rock on November 1 and 2, Baton Rouge on November 28, and Oklahoma City on December 11 and 12.

POSTAL RECEIPTS IN TEXAS
Austin, Texas, Sept. 30—Postal receipts in Texas stepped up 9 per cent in August from July, the University of Texas Bureau of Business Research reported.

After adjustment for seasonal variation, the Bureau's index of postal receipts rose 11 per cent from July to 328 per cent of the 1935-39 base period in August.

Brownfield, with a 64 per cent gain over July, tallied the largest monthly increase in postal receipts. Austin, Texarkana and Uvalde presented 32 per cent increases over the month. Other Texas cities turning in notable increases in postal receipts from July in August were: Nacogdoches, 29 per cent; Luling, 26 per cent; San Angelo and Temple, 17 per cent; Odessa, Dallas, and Lamesa, 16 per cent; and Houston and Cleburne, 12 per cent.

Koreans Aid Wounded Marine

SOUTH KOREAN BATTLE FRONT — A wounded Marine is shown being carried back from the front by weary South Korean stretcher-bearers and a U. S. Marine corpsman. Just one of the casualties suffered during the 2nd Division's drive toward the Naktong River.

What We Think (By Frank Dixon)

I can remember when men used to work on the roadwork as section hands ten hours a day for a dollar and fifteen cents. I can remember when skilled printers used to work for seven and eight dollars a week and the top wages for the foreman of the office was fifteen dollars a week. Farm hands received eighteen dollars a month and good school teachers thirty dollars a month. Three or four room houses rented for six and seven dollars a month, and incidentally there was a lot of families who lived in three and four room houses, splendid people who were never concerned over the fact that they were not able to afford six and eight room houses with all that went with them.

Of course in those days, food and clothing were cheaper. There were no movies, no radio, no television, no automobiles, no talking machines. The better to do families had a horse and buggy. Nearly every one owned a cow, and those who did not, bought their milk from those who did at five cents a quart or six quart tickets for a quarter. Everyone who had a cow disposed of his surplus milk in this manner. I recall that the quarts were always generous and the housewife, after filling the quart buckets to the little rim that indicated a quart, always used to put a little more in each bucket to be sure that the measurement was good.

Of course food and clothing were correspondingly cheap but it took the same close figuring to make ends meet as it does today. I find myself marveling yet how some families of four and five and six children (and there were many of them in those days) ever made it, ever paid the grocery bills, the rent, the fuel and kept their children in school — but they did. Incidentally the finest people I have ever known came up from such humble circumstances. It seems to me that there must be something about such frugality and simplicity of living that develops the best there is in the human being. Not that it isn't possible in the present day in which the humblest citizen has the things that only the best to do had in the days to which I refer, it is, but I think it a splendid tribute to the manhood and the womanhood of that day that they were able to do so much with so little.

In that day we had no welfare office to which to take our troubles when disaster struck. A few, a mere hand full of aged widows received ten dollars a month aid from the county. All of which amounted to less money each month than the welfare now spends for office supplies alone.

In those days a five room home, without electric lights, without water or sewer, could be purchased for five or six hundred dollars, and incidentally most of the people in my town lived in that kind of a house.

As I recall it we enjoyed life and its good things as keenly and with the same zest that people do today who have more money invested in a car than the average family in that day had invested in a home. More money invested in a television set or radio than was required to purchase all the furniture in the average home.

Truly we live in a great and wonderful country — great and wonderful not only because of what its genius has brought to the every-day lives of even the little people, but great and wonderful because, surrounded with all these luxuries we are still a people with a fine sense of real values and of fine and sturdy character. This has not been destroyed by our great prosperity.

Basin Study Group to Hold Amarillo Hearings Today
The first "comprehensive" public hearing of the Arkansas-White-Red Basins Inter-Agency Committee will be held in Amarillo, Texas on Thursday (today) Oct. 19, following a "regional" hearing there the day before.

The primary emphasis at the regional hearing will be placed on the problems of greatest interest to the immediate territory surrounding Amarillo. On the second day the discussions will be directed toward problems of interstate scope and broad plans affecting the high plains area, particularly those involving systems of projects rather than particular projects. Col. Louis W. Prentiss, Committee Chairman, explained. Both hearings will be held in the Municipal Auditorium, and both will begin at 9:30 a. m.

The purpose of both is to get the views of the people with regard to their needs in the future development of the land and water resources of the Arkansas and Red River watersheds. The Arkansas watershed includes the areas drained by the Canadian, North Canadian and Cimarron Rivers. Salt Fork, North Fork, Prairie Dog Town Fork and Pease River are included in the Red River watershed.

Col. E. V. Spence, personal representative of Texas' Governor Allan Shivers on the Committee, praised its activities in a speech at San Antonio on October 9, before the Texas Water Conservation Association. He predicted that "much good" would come from the work of the Inter-Agency committee "if the states will exercise their sovereign prerogatives."

Colonel Spence, who is also Compact Commissioner for Texas on the Canadian, Red and Sabine Rivers, plans to attend both hearings in Amarillo, as does Colonel Prentiss and most other members or their representatives.

Virtually every possible phase of present and potential land and water use is within the scope of the study authorized by Congress and is being carried out by the Committee. "Not only must we plan for better use of our land and water for today's conditions," Colonel Prentiss said, "but we also must develop a feasible plan to meet the needs of the reasonably foreseeable future. We want to obtain from the states, local governments, groups and individuals the kind of a future they are working toward."

"If some locality is thinking in terms of an industrial growth, we intend to look into the possibilities of planning to enhance such a growth. If agricultural expansion has favorable prospects, our planning will explore the possibilities in that direction. Whatever the course visualized for an area, we want the benefit of the grass roots thinking on the land and water problems involved."

There are represented on the committee specialists in every field related to these problems, and their services will be utilized whenever needed during the study as well as the preparation of the report to Congress. These specialists are available from both the states and Federal agencies. "However," the Chairman has stated, "this is not a technical task alone but a problem involving the broadest concepts of economic development."

In The News . . . 30 YEARS AGO

News items below were taken from the issue of the Foard County News of Friday, Oct. 22, 1920:

John Rasor is at home from Denton where he attended the commercial department of the State Normal.

Due to the low price of cotton all gins in Crowell have agreed to reduce the price of ginning from 50c to 40c per hundred.

High School Notes by Sidney Collins. School life is becoming a general favorite because much has been done during the last week to make it so. All high school classes were organized, officers elected and colors adopted last Friday morning.

Mr. and Mrs. A. W. Keller have been here for several weeks from Burkburnett visiting relatives.

Misses Margaret Curtis and Thyra Belle Campsey left Sunday for Bowie to take a combined course in stenography, bookkeeping and shorthand.

Miss Myrtle Cooper resigned last Friday from her position with Self Dry Goods Co., after six years of service in that institution.

Bruce Gibson was here between trains Sunday from Vernon.

George Self went to New Mexico last week with Henry Gribble and Riley Self on a deer hunt.

Mrs. E. G. Murphy of Clinton, Okla., visited the family of G. C. Morgan recently.

Miss Bona Stovall has resigned her position at the First State Bank and left Thursday for Plainview where she has accepted a like position.

Rev. J. H. Hamblen left Monday for Clarendon to attend the Northwest Texas Conference of the Methodist Church which convened in that city Wednesday.

Prospects for the completion of the Orient Railroad to Mexico City have been made brighter by a general reorganization program to begin at an early date.

On the other hand, July-to-August decreases in postal receipts ranged from 1 per cent in Del Rio to 25 per cent in Gladewater.

August postal receipts for 72 Texas cities totaled \$4,005,963, or 12 per cent higher than in the same month of 1949.

Snyder, with a 123 per cent jump in August 1950 postal receipts, continued to mark up the biggest increase over year-earlier levels. Receipts climbed 82 per cent in Brownfield, 45 per cent in Lufkin, 35 per cent in Lamesa, 33 per cent in Luling, 32 per cent in Cleburne, and 30 per cent in Midland.

Declines from August 1949 varied from a fractional dip in Laredo and Pampa to 17 per cent in Gladewater.

During 1949 there were 30 persons killed and 1550 persons injured in accidents with horse drawn vehicles in this country.

Insurance Protects You — And the Other Fellow . . .

Accidents are often the fault of neither party and adequate insurance is the protection that stands between both of you and financial loss in replacement or repairs to damaged property. It is needlessly burdensome to drive your car uninsured.

We can write insurance for your car, on your house and business or to protect you from accidents and protect your family in the event of your death. Why delay longer? — Protect yourself now!

Hughston Insurance Agency

NEW METER REGISTERS OPINIONS OF GROUP OF INDIVIDUALS

A new device known as an opinion meter, which electrically measures the composite opinion of a group of individuals, has been developed. Designed for any group from a business conference to a small audience of 120 persons, the opinion meter records a true, uninfluenced group opinion, since each individual opinion is expressed secretly and carries the same weight.

The opinion meter consists of an indicating unit and one or more strings of individual units, or hand-held stations, which may number as high as 120. Both the indicating unit and the hand-held stations have circular dials, calibrated from zero to 100, over which pointers move. Each member of a group using the device moves the pointer of his hand-held station to the number indicating the strength of his favor or disfavor. Negative opinion is registered from zero to 50, and positive opinion from 50 to 100.

The operator of the indicating unit, usually the chairman of the group, then turns a selector switch to "opinion," and the meter starts operating. Within a few seconds, a sweep hand on the large indicating-unit dial moves up-scale from zero until it reaches the group average opinion.

During 1949 some 510 persons were killed and 39,100 persons injured in bicycle accidents in this country.

HISTORY

Dedication of the Statue of Liberty, Oct. 28 — The Statue of Liberty Enlightening the World located on Bedloe's Island, in New York harbor, was a gift by the people of France to this country.

The statue was presented in fulfillment of a suggestion made soon after the Revolution that there should be a suitable memorial of the friendly feeling between the two countries. The French-American Union was organized in France in 1874 and took over the solicitation of subscriptions for the memorial. As a result, a fund of a million francs was raised. The commission to produce the statue was given to Frederic August Bartholdi, French sculptor. Bartholdi's model was accepted by the committee and work was begun. The United States set aside Bedloe's Island in New York harbor as the site on which the statue was to be placed and a campaign was launched to raise a fund of \$250,000 for the construction of the pedestal. The statue was dedicated to the American people on July 4, 1886. It arrived in the United States in 1884, and years later was erected on a pedestal that had been planned and dedicated services were held. It remains today the largest piece ever to be built. The figure of Liberty standing in the entrance of New York harbor looking out toward the world, upheld right arm bears the torch of liberty. The statue is visible many thousands of miles away. An elevator makes it possible for visitors to go to the top of the statue. A circular stairway leads to the top of the statue. Those who desire to climb to the top of the statue are one of the significant ever erected in this country. The Goddess of Liberty faces out to the sea with a torch as though beckoning visitors to this great country.

Wins Nobel Prize

Lake Success, N. Y. — Dr. J. B. Dunne, Jr., director of the U. S. Geological Survey, was awarded the Nobel prize of \$31,777 for his paleontological studies. Dunne, first Negro to win the prize, modestly credited to the U. S. and the Count Folke Bernadotte.

New bedroom and living room furniture, just received at Beverly Hdw. & Furn. Co.

Sheriff J. L. Gobin and City Marshal D. W. Jefferson visited Dan E. Callaway in a McKinney hospital last Sunday. Mr. Callaway is reported to be resting well, following a broken leg sustained more than a week ago.

Joe Burkett, county agent, spent the week of October 2 at Texas A. & M. College in College Station judging 4-H Club boys and girls records entered in State and National competition. About 250 records were judged.

A letter to the News from Mrs. John Kerley of Marshall, Ill., says they have already had two light frosts in that section. Mr. and Mrs. Kerley are former residents of the Margaret community. Mrs. Kerley also said that their son, Willard, who is a minister of the Church of Christ, has moved to a church 100 miles north of where his parents live.

CARD OF THANKS

Words are inadequate to express the appreciation I feel to my friends and loved ones who were so very nice to me in sending cards, flowers, gifts and kind words and thoughts while I was sick. I also thank the doctors and nurses. May God's blessings be upon you.

Mrs. T. L. Hughston

CARD OF THANKS

With grateful hearts we thank the friends who ministered to us with so many deeds of kindness at the death of our dear husband and father. Each friendly act is very much appreciated by all of us. God bless each of you.

Mrs. H. L. Jinks and Family.

CARD OF THANKS

We wish, by this means, to acknowledge with deep appreciation each card, bouquet of beautiful flowers, letter, kind word, and each deed of neighborliness and love extended to us during the illness of Charlie at the hospital and since being home. The doctors and the hospital staff we would thank, also. All of us thank all of you who were so kind and still are. May God bless each one.

Mr. and Mrs. Charlie Thompson and Family.

TEXAS RETAIL SALES

Austin, Texas, Sept. 30 — Texas retail sales for August 1950 climbed 22 per cent from a year earlier, the University of Texas Bureau of Business Research reported.

Preliminary tabulations placed August sales at an estimated \$576 million, or 4 per cent below the all-time peak reached in July 1950. August sales of durable goods stores fell 10 per cent from the previous month, while nondurable goods stores registered a 5 per cent gain. From the same month a year ago, durable sales were up 32 per cent to outdistance the 11 per cent increase for nondurable goods stores.

Household and appliance stores presented a 23 per cent reduction in August sales from the previous month. Sales of motor vehicle dealers were off 16 per cent; farm implement dealers, 12 per cent; and hardware stores, 7 per cent.

Counter to the over-all monthly decline for durable goods stores, jewelry sales jumped 21 per cent from July. Lumber and building material dealers and furniture stores turned in smaller increases of 6 and 3 per cent, respectively.

Without exception all durable goods stores recorded higher sales in August 1950 than in the same month a year ago. Sales of lumber and building material dealers jumped 63 per cent; jewelry stores, 35 per cent; farm implement dealers, 32 per cent; furniture and household and appliance stores, 29 per cent; and motor vehicle dealers, 25 per cent.

Women's specialty shops, with a 19 per cent gain, tallied the biggest July-to-August advance among nondurable goods stores. Florists and office, store, and school supply dealers showed increases of 18 per cent, and shoe stores reported a 15 per cent upturn in their August sales. Smaller gains ranged from 2 to 12 per cent.

On the other hand, August sales of filling stations decreased 12 per cent from July; men's and boys' clothing stores, 7 per cent; country

THE COUNTRY PRESS SAYS

Welch, Okla., Watchman: "Many observers felt the government's attack upon bigness might have been stirred up by Economic Planners who want to scuttle our free enterprise system. The system encourages bigness but only if bigness can be more efficient than smallness and can win the approval of the consuming public without which, of course no company can grow. If industries were to be broken, our advance as a nation would be seriously slowed down and our national security critically weakened."

Lewistown, Penn., Sentinel: "Those who like the form of government that we inherited from those who founded the United States of America might keep their eyes on the pressure groups."

Syracuse, New York, Herald-Journal: "In times of peace and war alike, the Iron Horse has played an indispensable part in American life... It's still the backbone of our transport system."

Great Falls, Montana, Journal: "About 74 per cent of all automobiles in the United States in 1948 were owned by families or individuals with less than \$5,000 yearly income, according to figures of the Federal reserve board."

Cypress, California, Enterprise: "Under the farm support programs Uncle has to keep on buying products that are already running out of his cars... It costs the government billions to buy the stuff that nobody wants—at the prices being charged. Uncle buys it to keep the prices up so he and everybody else has to pay more. How crazy can we get?"

Mansfield, Ohio, News-Journal: "An American Gas Assn. survey reports that gas utilities expect to add 1,150,000 home-heating customers, 3 per cent; grocery stores without meats, 1 per cent; and combination grocery stores reported a fractional decline."

Increases over August 1949 sales for nondurable goods stores varied from a 3 per cent gain for women's specialty shops to a 20 per cent climb for shoe stores.

The colored Morning Glory Gospel Singers of Dallas put on a program at the Baptist Church here Sunday night, in addition to the regular services. There were quite a number of colored people present.

NO MAGIC FORMULA

Proof that government operation of an industry is no guarantee of superior performance can be drawn from the Annual Report of the British National Coal Board for 1949. The mines were nationalized in 1947. Since then the record speaks for itself.

In 1949 total deep-mined output of coal was 203 million tons—28 million tons less than in 1939. The output per man-shift was 1.16 tons in 1949 compared to 1.14 tons per man in 1938 and 1939. The percentage of absenteeism in the two periods was 12.34 versus 6.94, respectively. The drop in production was largely due to workers choosing to stay home when they were supposed to be working. Actually there is no magic formula for achieving production and plenty.

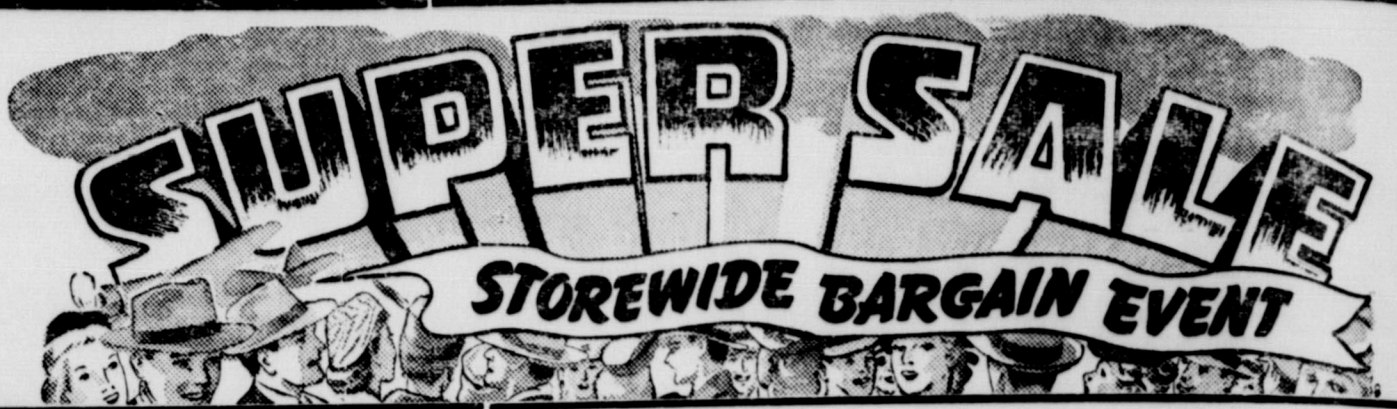

The comparative Utopia that was intended to evolve out of British nationalization of basic industry has not materialized.

The impressive peacetime and wartime performance of the American coal industry certainly would never have been attained had it not been for the disruption of the industry by the investor-owners and management who have spent lifetimes building up efficient and productive companies. The mechanization and research that have quietly revolutionized the coal business in recent years could not have been realized at one sweep by any board or centralized planning committee. It could only have been done as it was, by the cumulative effort of free citizens seeking to operate at a profit. — Industrial News Review.

Weekly Sermon

FISH TALK
by D. N. Harding, Moody Bible Institute, Chicago

As an aid in detecting enemy submarines in the last war, hydrophones (underwater microphones) were strung across the opening to Chesapeake Bay. Shortly after their installation, the control panel for these ingenious listening devices lit up with activity. The alarm went out. It was feared a fleet of submarines was invading America. However, thorough investigation proved the noises came from a school of Croakers, deep sea fish. This was proof positive that the "silent deep" wasn't silent after all.

If ten years ago, we had suggested that "fish talk" we'd soon have won a reputation for sorcery or insanity. But now it's a known fact.

Because we had no underwater listening device ten years ago, it was concluded that the inhabitants of the deep were silent. But the invention of the hydrophone revealed fish "talk," screech, and even cluck like barnyard chickens.

Similarly, many people deny the very existence of God because they haven't "heard" Him. To say that there is no God because we haven't heard His voice with our physical ears is as foolish as a deaf man saying there are no audible sounds because he hasn't experienced them.

As we need mechanical "ears" to hear underwater sounds, spiritual "ears" must be applied to hear God. And these need not be discovered, for the Bible, God's inspired Word, is the already known medium through which we can personally know God and His Son, Jesus Christ, if we are to inherit eternal life.

Faith in God cometh by hearing, and hearing by the Word of God (Romans 10:17).

Two Minute Sermon

(By Thomas Hastwell)

Thy Kingdom Come: "Thy Kingdom come on earth as it is in Heaven." There is a complete prayer in this single petition contained in the Lord's prayer. What could be more wonderful to the world and to mankind than the coming of God's kingdom on earth? With its coming will vanish all evil, all wrong, all hatred, all strife, all covetousness, all envy, all malice, all contention, all injustice. In other words a perfect world will come on earth. I believe that some time God's kingdom will come on earth even as it is in heaven. I believe that it will one day come because I believe the universe was planned for good. The struggle of man through all the known history of the race has been upward and onward toward higher, and nobler, and better and finer ideals, and living. But all who pray, "Thy Kingdom come on earth as it is in heaven" should remember as they do so that God's kingdom will never come on earth until it first comes to the hearts of men, in the heart of him who prays "Thy Kingdom come." When God's kingdom comes to the hearts of mankind, the prayer will be answered, God's kingdom will have come on earth.

BETTER THAN EVER

Our railroads are in better shape now to handle defense emergency traffic than they were before World War II, according to William T. Faricy, president of the Association of American Railroads.

That is the result both of the railroads' expansion and betterment programs and of improvement in operating techniques which have greatly increased the service they are able to get out of each piece of equipment. Today's trains and cars are bigger, faster, and superior in every way to those of the past. Loading and unloading is accomplished more swiftly. Since 1939 the railroads have spent more than \$7,000,000,000 on improvements, and that is reflected in every phase of operation.

Mr. Faricy observed that "there is a better understanding on the part of all concerned that transportation is just as much a part of any national effort as is the manufacture of material and equipment for the armed forces. There is a general realization of the truth of the statement of Colonel J. Monroe Johnson, chairman of the Interstate Commerce Commission, that neither the nation nor the armed forces can have more of anything than can be hauled. In any program of allocation of materials, it is essential that railroads receive greater and more prompt recognition than they did prior to 1943, and that they be allowed access to the manpower and materials necessary both for their operations and for repair and maintenance."

If the railroads receive government and shipper cooperation, and the supplies they need, they are capable of outdoing even their magnificent emergency jobs of the past. — Industrial News Review.

6:15 p. m. Evening worship service, 7 p. m. Subject of the sermon: "A Message from God." Prayer meeting, Wed., 7:30 p. m. Choir rehearsal, Wednesday, 8 p. m. The Methodist Men, Thursday, 7:30 p. m. Come, worship God with us. Aubrey C. Haynes, Pastor.

MARGARET MRS. BAX MIDDLEBROOK

Mrs. Lizzie Bradford returned to her home in Chickasha, Okla., Friday after several weeks visit here with her mother, who is ill.

Mr. and Mrs. O. C. Allen and Mr. and Mrs. Arthur Bell visited Mr. and Mrs. Doyle McCurley in Shamrock Sunday.

Mr. and Mrs. Carl Bradford of Vernon visited his mother, Mrs. Sude Bradford, Sunday.

Mansel King of Carlsbad, N. M., visited in the W. R. McCurley home last week.

Mr. and Mrs. Arthur Pruitt of Fargo spent Sunday with his mother, Mrs. Sarah Pruitt, and Mrs. Jack Roden.

Mr. and Mrs. Jimmie Moore and children and Mr. and Mrs. Allan Tucker and children of Wichita Falls and John Wesley of Iowa Park were here Sunday to attend a birthday dinner for their father, G. C. Wesley. Mrs. John Wesley and daughters, Agnes and Lucille, who had attended the wedding of Mrs. Wesley's sister in Lubbock, stopped over for the celebration. Mrs. G. C. Wesley served dinner to sixteen.

Mrs. Archie Brakeen of Vernon brought Grandmother Bradford home Friday from Vernon where she has been several weeks for medical treatment. Her daughter, Mrs. Clint Arnwine, of Longview is here taking care of her.

Mr. and Mrs. C. F. Haseloff and sons, Gary and Ed, of Quanah visited her parents, Mr. and Mrs. W. R. McCurley, Sunday.

Mr. and Mrs. J. D. Mahoney of Quanah spent Monday night with her sister, Mrs. G. C. Wesley, and husband.

Laverne Owens from Texas Tech at Lubbock spent the week end with her parents, Mr. and Mrs. A. B. Owens.

Mr. and Mrs. Shad Guthrie and Mrs. Bill Guthrie of Seymour and Mrs. Sarah Hilburn of Harlingen visited their cousin, Bax Middlebrook, Thursday.

Mr. and Mrs. Ben Bradford of Thalia visited his mother, Mrs. Sude Bradford, Sunday.

Mrs. Dora Fay Wharton of Crowell spent Sunday with her father, J. H. Taylor.

W. A. Dunn, Mrs. Bax Middlebrook, Mrs. J. H. Taylor and Mrs. E. F. Dunn were called to Starks, La., Thursday because of the death of their brother, E. J. Dunn, who died suddenly of a heart attack.

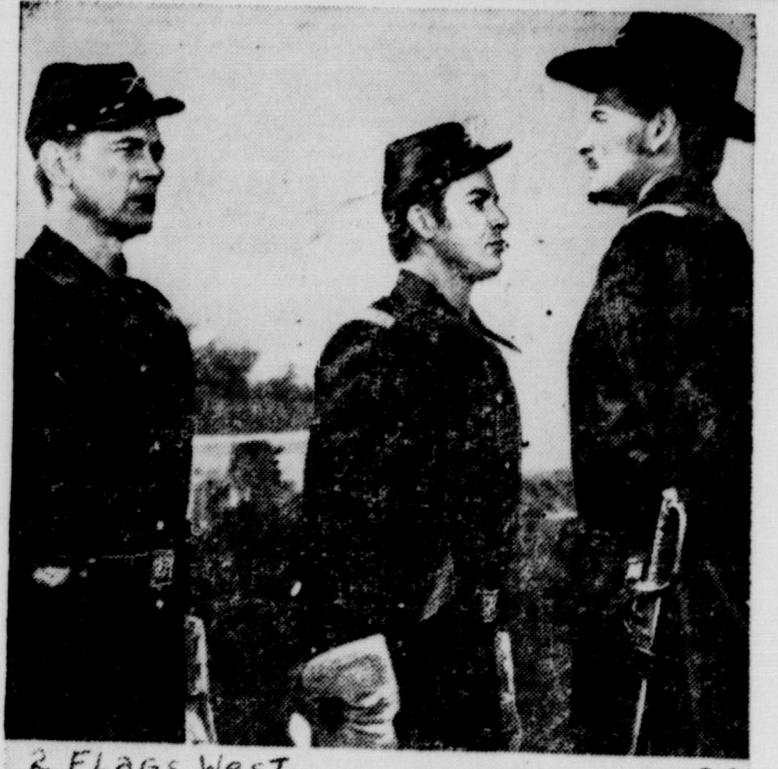

Mrs. Bill Marlow, Mrs. Carl Taylor, Mr. and Mrs. Allan Taylor and Mr. and Mrs. Joe Fox were called to Dallas Friday to be with their sister, Mrs. Frank Moore, who underwent an operation in Baylor Hospital there.

Mrs. Allan Tucker and children returned to their home in Wichita Falls Sunday after a two weeks visit with her parents, Mr. and Mrs. G. C. Wesley.

Mr. and Mrs. Arthur Bell went to Wichita Falls Thursday where Mr. Bell went through the clinic.

Mr. and Mrs. J. M. Owens and son have moved to Happy, Texas.

Mr. and Mrs. Willie Holt and son of Vernon visited her father, Dick Smith, and grandmother, Mrs.

Confederate Colonel Joseph Cotten and Northern Captain Cornel Wilde report to Union commander Jeff Chandler in Twentieth Century-Fox's "Two Flags West," which makes its local debut on Sunday and Monday at the Rialto Theatre. Lovely Linda Darnell co-stars with the trio in the Civil War story of Confederate soldiers who fought the Indians along the western borders for the Northern Army. The spectacle, directed by Robert Wise, was produced by Casey Robinson.

W. L. Smith, Sunday.

Mr. and Mrs. Raymond Gentry of Paducah, who have been visiting her parents, Mr. and Mrs. Ernest Elliott, left Wednesday for California.

Henry Ansley of Whiteflat visited Mr. and Mrs. Dink Russell Sunday.

Mr. and Mrs. Henry Bradford and daughter, Betty, spent the week end with relatives here.

Rev. E. R. McGregor and family and Mr. and Mrs. Ernest Elliott were Saturday evening visitors in Vernon.

Mr. and Mrs. Buddy McCroary of Goodlett spent Sunday with her brother, Dink Russell, and wife.

Mr. and Mrs. Arthur Bell were Monday visitors in Vernon.

Mrs. J. S. Smith and daughter, Miss Ruby, of Vernon and Katherine Adams of Farmers Valley spent Sunday with Mr. and Mrs. Tom Smith and children.

NOW is always a good time to buy a HOME

THIS IS AN IDEAL STOCK FARM— 320 acres with 250 acres in cultivation, 70 acres of real good pasture. Four-room house with bath and running water. Good chicken houses, good barn, with 150-acre wheat allotment, 35 acres cotton allotment, located 3 miles of Crowell. Priced to sell at once and give possession. \$72.00 per acre. This place is well watered with real good tank and good well.

Four-room house, priced at a bargain to sell at once at \$1750.00. The location is good.

Six-room house with bath, well located, street being paved. Priced to sell in October at \$5600.00. Can give immediate possession.

CLAUDE CALLAWAY, Agent

Better Light... FOR Better LIVING

Enjoy better living with better light... modern engineered lighting... properly diffused and adjusted... makes seeing easier and adds beauty and dignity to your home. Check your lamps, look under the shades. Lamps should be equipped with diffusing bowls to prevent glare; have light bulbs of the right size and type. We will be glad to help with your lighting problems... ask for a representative of our Home Lighting Department to make a free survey of your lighting needs.

POROUS WALLBOARDS

Wallboards differ in porosity. Some kinds of wallboard being more porous than others. Oil paint applied to wallboard without first sealing the precaution to seal the pores may sink in too much and necessitate additional coats of paint. On the other hand, if the wallboard is first sealed with a water-resisting undercoating for the purpose of providing a firm, even foundation for the paint film, succeeding coats of paint should adhere and cover as well as would be the case on a hard surface. Water-mixed paints usually are self-sealing, and one, or if necessary, two coats of water mixed paints will be sufficient to cover wallboard satisfactorily.

DEGREES CONFERRED

ustin, Texas, Oct. 14 — Since opened in 1883, the University of Texas has conferred 52,082 degrees, including 767 Doctor of Philosophy and 64 Doctor of Education degrees. Masters' degrees numbered 17,209 and bachelor's degrees, 42.

Thalia Couple Married at Baptist Parsonage

Miss Rose Marie Werley, daughter of Mr. and Mrs. L. R. Werley of Thalia and Carl Shultz, son of Mr. and Mrs. Dave Shultz, both of Thalia, were united in marriage on Saturday, Oct. 14, at 4 o'clock in the parsonage of the Baptist Church with the pastor, Rev. H. N. Estes, officiating.

The bride was attired in a blue taffeta dress and her corsage was of pink carnations. Miss Laverne Shultz, sister of the groom, attended the bride as maid of honor and wore a brown gabardine dress. Her corsage was of white carnations.

Donald Werley, brother of the bride, served the groom as best man. Mrs. Shultz is a 1949 graduate of Crowell High School and Mr. Shultz attended Crowell High.

The wedding was attended by only close relatives of both bride and groom. The couple will make their home near Thalia where the groom is engaged in farming.

Sharon Loraine Chatfield, R. H. McCoy, Jimmy Lee Rader, Dale Johnson, Don Hunter, Gerald Bradford, Duane Johnson, Don Ray Fox, George Robert White, Sidney Lanier and Wayne Nickie.

Many nice birthday remembrances were presented to the honor guest.

JUNIOR COLUMBIAN CLUB

The Sub-Junior Columbian Club met on Wednesday, Oct. 20, in the home of Jean Whitty, Virginia McKown, president, was in charge of a short business meeting. Plans for a Halloween party were completed.

Jean Gamble was lesson leader for the afternoon. Roll call was answered with facts about London. Essie Franklin gave an article on "Queen Mary's Million Stitch Rug." Eva Rae Geaslin gave an excellent book review of "The Little Princesses," the life history of the two royal daughters, Princess Elizabeth and Princess Margaret Rose.

The hostess served a delicious salad plate to nineteen members present.

BIRTHDAY PARTY

Ten candles topped the birthday cake for Wayne Nickie Chatfield when his mother, Mrs. Nick Chatfield, entertained with a birthday party at the Chatfield home on Wednesday afternoon, Oct. 11.

Outdoor games were played during the afternoon. The pretty blue and white cake was served with ice cream to the following: Jerry Ann Fairchild, Betty Linda Knox, Jeannie Johnson, Patsy Fox, Linda Marie Ferguson, Patricia Prosser.

VIVIAN H. D. CLUB

Mrs. Mary D. Brown, Foard County Demonstration Agent, presented an interesting demonstration on copper tooling to the Vivian Home Demonstration Club which met with Mrs. I. D. Gilbert on Thursday, Oct. 12, in an all-day meeting.

Each member made a pretty copper picture, the motif for most of which was a flower or flowers.

Those present for the day included Mesdames Maude Rasberry, T. W. Cooper, Clyde Bowley, Arthur Sandlin, Leslie McAdams, Allen Fish, J. W. Carroll, Darwin Bell and Mary D. Brown and Misses Myrtle and Neoma Fish and one visitor, Mrs. Earnest Fields of Chalk, and the hostess.

The Club will meet next with Mrs. E. T. Evans on Oct. 26.

Home Demonstration Notes

MARY DEEB BROWN

Well, so far the women of three clubs have made copper pictures and I think they are all enjoying it. Several women from Truscott came to the Margaret Club meeting and we were mighty glad to have them. All of the club women are making lovely pictures and if you are interested in learning how, I am sure they would be glad to help you.

Today I ordered my Christmas pine cones, sweet gum balls and holly for decoration. If you would like to order some, call the agent's office, the number is 14, for the price list and address. They are sold by club women in South Texas and they do make beautiful decorations.

Next Tuesday, October 24, is United Nations Day and there will probably be a United Nations flag flying your post office or school. When you see this blue and white flag which is a symbol of our hope for peace, stop to think a minute and join us in praying for a lasting peace.

The Council will meet Saturday at 2:30 p. m. in the Agent's office.

HENRY CIRCLE

Sixteen members of the Henry Circle of the Woman's Society of Christian Service met at the Methodist Church on Monday afternoon for a study on "Missions."

Mrs. Foster Davis was devotional leader on the subject, "Reconciliation Between Nations." The song, "We've a Story to Tell to the Nations," was sung.

Mrs. Doyle Kenner was lesson leader on the fourth chapter of the study book "Panorama of the Near East," which dealt with the economic and political life of the people of the Near East. Mrs. Kenner had prepared an outline of the chapter for each one present which made the lesson very interesting. A large number of members have been present for the study of the new book.

FOARD CITY W. S. C. S.

In the absence of the president Mrs. Boss Johnson had charge of the October 9 meeting of the Foard City Woman's Society of Christian Service which met at 2:30 at the Foard City church.

After the opening song, a devotional based on verses from the eighth chapter of Romans was ably given by Mrs. Blake McDaniel. She said, "Many people are in great perplexity today because of their spiritual shortsightedness. In the midst of a storm they see only the low hanging clouds and will forget that the earth, the sky and the sea lie in the hollow of God's hand. Life cannot be interpreted rightly by any one thing, for God sees life as a whole and he weaves all things, sunshine and shadow, loss and gain, life and death into the fabric of life. If we are willing to trust Him, we shall be able to see, as the days go by, that all things have worked together for our good."

Closing the study course, Mrs. Virgil Johnson stated, "The tragedy of some communities, even within our own county, is the lack of a church to build a community spirit lost as a result of consolidation of their schools. There is no force equal to the Community Church for erasing social inequalities. Even a social center binds a community by nothing excels the ties formed by such a church."

Plans were made for a Halloween party for the Foard City community and the group was dismissed with a prayer. Mrs. Blake McDaniel was hostess for the meeting.

TRUSCOTT SUB-DEB CLUB

On October 14 the Truscott Sub-Deb Club held its regular meeting with Nettie Black as the leader of the program.

The program consisted of a book review, "South Pacific," given by Camille Todd. A quartet composed of Pat Owens, Nora Davidson, Peggy Trawek and Fay Black sang two numbers, "I'm in Love with a Wonderful Guy" and "Some Enchanted Evening."

Cokes and sandwiches were served by the hostesses, Martha Ohr and Pat Owens. The next meeting will be on Oct. 28.

COTTONSEED AT TEXAS MILLS

Austin, Texas, Oct. 14 — Cottonseed received at Texas mills totaled 130,171 tons in August, rising 8 per cent from July, the University of Texas Bureau of Business Research reported.

Cottonseed received at Texas mills in August dropped 47 per cent from August of last year.

Cottonseed crushings stepped up 29 per cent in August from July and 21 per cent from August 1949.

After adjustment for seasonal variation, the Bureau's index of cottonseed crushings fell 38 per cent from July to 195 per cent of the prewar (1935-39) base period in August.

U. OF T. ENROLLMENT

Austin, Texas, Oct. 14, — Graduate School enrollment continues to increase at the University of Texas with 2,331 graduate students registered this fall. Graduate enrollment of 553 in 1945 increased to 1,254 in 1946, 1,464 in 1947, 1,824 in 1948 and 2,088 in 1949.

Miss America-1951

Atlantic City, N. J. — Winner over 54 other contestants, Miss Yolande Betheze, of Mobile, Ala., was crowned "Miss America of 1951" at the finals of the Atlantic City Bathing Beauty Contest. Miss Betheze, 21 and 5 feet and one-half inches tall, is shown with her trophy.

Health Letter

Texas State Department of Health, Austin, Texas, Geo. W. Cox, State Health Officer

Austin — Old style, palate tickling, succulent smoked hams like you used to prepare for special Sunday dinners are giving way to the tenderized and ready-to-eat varieties.

Increased danger of spoilage comes with the change, State Health Officer Geo. W. Cox says. Used to be you could salt down a ham, then home-smoke it slow and easy. When done, you could hang it on the back porch easily accessible for a quick slice.

Those days are fast waning, for city bound folks. Ask your butcher for a smoked ham nowadays, and you get two choices: "tenderized," or "ready-to-eat." They look the same, and have some of the old sweetness. But there the similarity ends, Dr. Cox says.

Since less preservative salt is used in the smoking process, today's ham products have to be placed under immediate refrigeration, the same as any other meat.

"Tenderized" hams are smoked at a temperature of approximately 129 degrees. Dr. Cox says that means they have to be cooked before eating in order to kill any trichina larvae that may be present.

"Trichina larvae, which cause trichinosis, are killed at a temperature of 137 degrees F," the health officer cautioned. "That's internal temperature."

He warned that "ready-to-eat" ham products are smoked at approximately 160 degrees, and cured with less salt than regular smoked hams. They'll spoil easily unless kept under refrigeration until eaten.

Here are the health officer's recommendations regarding these meat products:

1. They cannot be stored in temperatures above 50 degrees. Neither can prepared dishes or sandwiches made of the products.
2. Strict sanitation should be observed in handling them.
3. They should be handled in refrigerated equipment from packing plant to consumer.
4. Cook-before-eating must not be confused with ready-to-eat meat products. Always ask the retailer about the meat to make sure of the cooking procedure.

3,453 Men Will Be Inducted into Army During November

Austin, Texas, Oct. 4 — State Selective Service Headquarters today placed in the mails calls on Texas draft boards for 3,453 men to be inducted into the army during November.

This brings the number of men called for induction in Texas to 8,480 since the beginning of conflict in Korea. Brigadier General Paul L. Wakefield, State Director of Selective Service said.

First inductions of a quota of 2,513 were made in September and inductions of 2,514 in October will continue through October 13. Local board quotas for October were announced a month ago.

The State Director of Selective Service said State Headquarters had received no quota for December. He added that one is expected within a "day or so," but that he did not know how many men would be called for in the December quota.

November inductions will take place at Abilene, Amarillo, Corpus Christi, Dallas, El Paso, San Antonio, Houston, Texarkana and Shreveport.

R. O. T. C. ENROLLMENTS

Austin, Texas, Oct. 14 — University of Texas, Army, Air Force and Naval ROTC enrollment this year has increased 45 per cent over last year. There are 1,325 enrolled in ROTC units, including 400 in the Army, 615 in the Air Force and 310 in the Naval ROTC programs.

Efforts to Raise Funds for Gonzales WSF Started Sept. 25

Gonzales, Texas — Fund raising efforts got underway Sept. 25 for the Gonzales Warm Springs Foundation for Crippled Children, Texas' chartered non-profit treatment center for boys and girls afflicted with polio and other neuro-muscular ailments. Mrs. J. Howard Hodge of Midland is co-chairman of the Foundation Committee with Governor Allan Shivers. Volunteer committee chairmen in counties throughout the State will localize the drive.

Ultimate goal of the rapidly advancing institution is a million-dollar expansion program to meet the critical need for more beds and advanced equipment to serve adequately the nation's largest state which has been scourged by a polio rampage in recent years. For the past two years, the Gonzales Foundation has operated at capacity of 115 beds.

The treatment center, formed in 1937, and fully approved by the American College of Surgeons and American Hospital Association, is expected to become the nation's first accredited hospital specializing in physical medicine and rehabilitation. Dr. Duane Schram, medical director, is one of few physical medicine specialists in Texas, and has advanced important developments in the field. One of the leading exponents of hydrotherapy, he has brought and developed many underwater treatment innovations to the Texas foundation and is assisting in formulating plans for a large scientifically designed building to embody all forms of physical therapy treatment.

Other plans for improvement include a modern clinic and much-needed reception and recreation center and dining unit. Facilities for the ever-growing "out patient" department also will be enlarged upon, and parent training programs for post-hospitalization treatment will be conducted.

Though the Foundation hospital was not founded for polio patients alone, a majority of the patients at the present time are polio victims. Proper treatment of a polio victim in the post-acute stage is vitally important in physical and psychological effects of the disease on the patient. At Gonzales Warm Springs Foundation, patients receive 24-hour-a-day treatment from vigilant and highly skilled doctors and technicians.

LAKE SUPERIOR

On a surveying expedition in 1882, William A. Burt, inventor of the solar compass, discovered Lake Superior new iron ore deposits when the iron caused his compass to fluctuate sharply.

Pink Bollworm Situation in Texas Demands Action

The spread of the pink bollworm during the current crop season is definitely the most serious threat to the future of cotton production experienced since south-wide spread of the boll weevil which reached South Carolina about 1920, the Division of Pink Bollworm Control has announced.

The pink bollworm is capable of causing severe damage, as most recently proven by the tremendous build-up and localized damage resulting from failure to observe stalk destruction or chopped-up residue in 1949 by a date established on an insect control basis. This delay in stopping pink bollworm breeding in the fall of 1949 is directly to blame for the infestation in central and north-central Texas this season.

Prompt destruction of stalks following picking of the cotton is essential throughout pink bollworm infested areas where the crop is picked out in advance of killing frosts. Each farmer has an individual responsibility to get his crop picked quickly and then immediately destroy the stalks and plow under the residue. If this is done well ahead of frost it ought to prevent a full generation of pink bollworms from feeding to maturity and going into hibernation. Federal pink bollworm officials and Agricultural Commissioner J. E. McDonald have conferred and now urge that stalks be destroyed not later than October 15 in Fayette, Austin, Lavaca, Colorado, Fort Bend and Brazoria counties, and by October 31 in all newly infested counties north of those listed above. It was agreed the destruction by these deadline dates would not be made mandatory in the newly infested counties for this season because the growers did not know they would be expected to destroy their stalks by a given deadline when they planted their cotton. The ginners, oil mill operators, county agents, and other agricultural leaders are urged to band together with progressive cotton growers to secure destruction of stalks early enough in each county to prevent the hibernating generation of pink bollworms from being produced. "It is your future, it is your problem, but we are anxious to help you help yourself in maintaining continued production of cotton at a profit. The price may not always justify heavy expenditures for insecticides so let us all work to prevent the pink bollworm from getting established in central and north-central Texas," L. F. Curl, Division Leader, stated.

The full list of newly-infested

counties in Texas at close of October 4 follows: Val Verde, Kinney, Kerr, Gillespie, Llano, Comal, Blanco, Liberty, Chambers, Brazoria, Fort Bend, Colorado, Lavaca, Fayette, Austin, Eastland, Lee, Travis, Williamson, Milam, Bell, Falls, Limestone, McLennan, Bosque, Hill and Johnson.

TEXAS WHEAT GRINDINGS

Austin, Texas, Oct. 14 — Wheat grindings in Texas stepped up 49 bushels in August, to 2,871,000, the Texas Bureau of Business Research reported.

In comparison with August 1949 wheat grindings rose 6 per cent. The Bureau's seasonally adjusted index of wheat grindings stepped up 6 per cent from July to 118 per cent of the 1935-39 base period in August.

FIND CIVILIANS EXCEED IN CONSUMPTION OF FOOD

Based on the per capita allowances of food under the army master menu, compiled by the office of the quartermaster general, the soldier eats less food than the average active civilian, a report from the War Department reveals.

The figures for civilians, as compiled by the department of agriculture, show that very often civilians consume as much as 4,500 calories per day, while the army master menu is designed to provide a soldier with 3,780 per day. This is 720 calories more than the calories taken recommended by the National Research Council as the minimum for the army. The master menu is laid out three months in advance by nutritionists and market experts in the office of the quartermaster general, not only to conform with the nutritional requirements prescribed by the surgeon general, but with an eye to economies that result from taking advantage of seasonal and plentiful foods.

Another economy has been effected by avoiding too frequent repetitions of any item during the month. Frequent repetitions were found to promote acceptance through satiation. These precautions, plus constant insistence of conservation, have resulted in well fed and nourished soldiers, yet has reduced edible food waste to an average of 24.3 ounces per month for each man.

BEE BRUSHES

Bee brushes are used mostly extracting time to brush the bees off the combs. Two types of brushes are used: one is a whisk mow of long pliable strands soft enough not to injure or disturb the bees. The other type is a horizontal, long-handled brush with soft bristles, approximately two and one-fourth inches in length. This brush comes in both a single and double row of bristles.
