ANTHRACNOSE boll rot can reduce the grade of your cotton

taken off by the grader for spotty cotton, you know what anthracnose, or pink boll rot, can cost you as a cotton grower. It is expensive and persistent; but it can be controlled now by measures that cost you little.

ease, and is at its worst in times of heavy rainfall and where cotton grows rank. The fungus lives over the winter on diseased bolls and stalks left in the fields, and in or on the seeds from infected plants. Clean fall plowing and rotation of your crops helps to control it.

Anthracnose is a fungus dis-

You will also find that treatment of your seed with an organic mercury dust before | treaters are in this area.

If you've had some points | planting helps a lot to kill off the anthracnose fungi. This treatment cuts off the disease at its source. Used with other control measures, it can practically wipe out the disease from an entire area in a few years. Mercury dust treatment will also control seed decay and damping-off (sore shin) organisms and reduce angular leaf

The cost of the chemical amounts to less than 10¢ per acre. Treatment can be done on your farm or by many ginners and delinters. Ask your County Agent or Farm Extension Service about the value of seed treatment and about where the are on the same day but ten years

BY DR. JUNE M. COOK

can you sleep, or do you spend an evening tossing to and fro yawning, counting sheep, and

Sleeplessness may be caused by a number of different things. Essentially it is the congestion of blood around the brain, which makes it over-active. If you are troubled with this condition, it would be wise to find out what Chiropractic can do for you. After a careful examination, the Chiropractor will find out what is wrong with your Nervous System. Spinal adjustments have been highly successful in normalizing blood circulation and relieving congestion of the blood vessels of the brain.

(One of a series of articles published in the public interest to explain and illustrate the practice of Scientific Chiropractic, written by Dr. June M. Cook, Chiropractor, whose office is located at 308 E. Com-Crowell, Texas, Tel.

HELIUM HELPS TRACE OIL

Tests by oil company and Bureau of Mines engineers have shown that helium gas is a useful tool in tracing underground oil and natural gas reservoirs. When used as a tracer, helium is added to the natural gas injected into natural underground reservoirs to effect the secondary recovery of oil. This enables operators to trace the underground migrations of hydrocarbon fluids.

Four Performances of Grand Opera to Be Staged in Dallas

The tenth annual presentation of the Metropolitan Opera Company in Dallas is scheduled for April 27, 28 and 29, when four performances will be staged at State Fair Auditorium. Sponsor of the Met season is

the Dallas Grand Opera Associa-tion, composed of 135 civic leaders who present the world famous company as a non-profit civic entertainment project. Music lovers from more than 300 Texas towns, 28 other states and Mexico come to Pallas each spring for the gala week end.

Interest is particularly keen this year as this is the first visit under the new general manager, Ru-dolf Bing, who will come to Dallas with the company. Also, Dallas was able to obtain for its season the two newly restaged operas, "Die Fledermaus" and "Don Carlo," which brought critical raves this eason in New York.

Official announcement of the 1951 season is as follows:
Friday night, April 27, "Die Fledermaus," by Johann Straus, with English lyrics by Howard Dietz, staged by Broadway director Garson Kanin, conducted by Tibor Kozma, and sung by a stellar cast including Patrice Munsel, Charles Kullman, Marguerite Piazza, Brian Sullivan, Jarmila No-votna, and John Brownlee. The Metropolitan Ballet, directed by Anthony Tudor, will present Nana Gollner as premiere danseuse.

Saturday matinee, April 28, Verdi's "Don Carlo," staged by Broadway director Margaret Webster, conducted by Fritz Stiedry, and sung by Cesare Siepi, Richard Tucker, Robert Merrill, Jerome Hines, Blanche Thebom, Delia Rigal and Anne Bollinger.

gal and Anne Bollinger.
Saturday night, April 28, Puccini's "Madam Butterfly," presenting the new European soprano discovery, Victoria De Los An-

STAINLESS STEELS IN WESTERN EUROPE

The chemical and petroleum industries remained the largest outlet for nickel - containing stainless steels in Western Europe during 1950. New oil refineries in Great Britain have taken large tonnages. In India, the world's largest sulphate of ammonia plant, now under construction, has required substantial quantities of stainless steels.

MR. FARMER:

There are many parts of machinery on every farm that could be benefitted by HARDFACING METALS.

A few of these items which have been successfully hardfaced are disc, drill disc, chisel spikes and sweeps, plow shares, plow land slides, moldboards, ensilage cutter knives, cylinder bars, cylinder teeth, hammermill hammers and middle buster shares.

Parts are going to be scarce in the future so keep what you have by having them hardfaced. Also save time and money.

WICHITA FALLS SATURDAY

More than 1200 school teachers and administrators met at the 10th annual convention of Oilbelt District, Unit 7, Texas State Teach-Friday night and Saturday.

The election of A. B. Passmore, superintendent of schools at Vernon, as district president, and selection of Sweetwater as 1952 convention site, were highlights of the business session staged by the House of Delegates at a breakfast in the Kemp Hotel Saturday. G. H. Kirby, director of elementary education in Wichita Falls, schools, out-going president, was in charge of all sessions.

Saturday morning's general sesion featured a report on the legisative program of the TSTA by Charles H. Tennyson, executive secretary of the state association. Tennyson, who brought official greetings from the state group, utlined the organization's opposi ion to the pending Nimitz bill, nich, if passed, would enable a child reaching the age of 6 between Sept. 1 and Jan. 1 to enter public schools in the January term. The opposition to the bill is based on lack of space in Texas schools. The passage of such a bill would place too great a burden on the physical plants of state school systems now

Clayton Rand, Gulfport, Miss., lecturer, author and editor, was main speaker for Saturday morning's session, choosing as his subject, "It May Be Sooner Than You Think.'

Rand believes that in the past various trends in Europe finally come to the U. S. For that reason he has spent the past three summers studying conditions in Europe, especially in England. He warned of the dangers of socialism, citing several instances of present conditions existing under England's socialistic regime. He is also concerned over conditions in our own nation by making this statement, "If the teachers of the Oilbelt are confused, they should go to Washington." Clayton Rand made most of his points clear by

combining humor with seriousness. Music for the session was pro-vided by Wichita Falls High School Band, directed by Don Hatch, con-

Following the Saturday morning session, the teachers and administrators adjourned to 16 sectional meetings held by various departments.

Teachers attending from Crowreachers attending from Crow-ell were Mr. and Mrs. C. G. Graves, Mrs. Gordon Cooper, Marvin My-ers, Mrs. F. A. Davis, Mrs. J. E. Black, Mrs. Elmo Todd, Mrs. Doyle Kenner and Mrs. Lewis

Replace Herringbone Twill in Army Clothes

Austin, Texas—A new type cot-ton sateen cloth eventually will replace herringbone twill as the material for Army fatigue clothing, the Department of the Army has announced.

Developed by collaboration between the Army Quartermaster Corps and the textile industry, the new fabric has been found, after extensive testing, to have much better wearing qualities than herringbone twill.

The Quartermaster Corps plans to purchase 15,000,000 yards of and citizens who deheard on the final re-Airport Zoning Composing airport zoning to be adopted by this to burning or fishing on any of my land. Trespassers will be prosecuted.—Leslie McAdams. 24-tfc fatigue clothing will not be issued to troops until present supplies of herringbone twill uniforms are exhausted.

The new sateen, which, like herringbone twill, be will 8.5 ounce NO HUNTING, FISHING or tres- weight to the square yard, was passing of any kind allowed on tested in laboratories, at the Quartermaster Corps combat course, termaster Corps combat course, Fort Lee, Va., and by troops in the field. How can you think clearly, keep calm, and be ready for work with constant fear of an automobile accident occuring and not having money to meet the losses. Investigate our auto insurance policies. The cost of these policies is very reasonable for the protection they afford. Call the LANIER FINANCE COMPANY, today!

grown-ups.

The hostess served refreshments to the following members: Mrs. Hugh Shultz, Mrs. Verda Bell, Mrs. Clois Orr, Miss Audra Orr, Mrs. Bax Middlebrook, Mrs. Jim Owens, Mrs. C. F. Bradford, Mrs. R. H. Blevins and the hostess, Mrs. Bell.

ADELPHIAN CLUB

George Truscott came here from Galveston. She had two beautiful daughters and three sons. In later years, the daughters married two of the Range Riders. Emma married George Myers and Eugenia married J. A. Moody. The earliest pioneer settlers of Truscott were the J. A. Moodys, the Huttons, Bill Turner, the Hamby brothers, J. R. Craig and Pete Moody.

"J. R. Craig had the first ranch house in the community. They

The Adelphian Club met Wed- thought it was beautiful for most "As the children grew up, the

Club House for an interesting Texas Day program and a lovely tea.

Mesdames J. M. Hill Jr., George Self and Ray Brown were hostesses for the occasion.

The Sub-Junior Adelphian Club presented the Texas Day program for the senior club. Mrs. Henry Borchardt introduced the fifteen girls who participated in the pageant, "Texas Under Six Flags."

Marcia Kincaid prefaced the pageant by playing two piano num-
