A. H. Sams Sr., father of Mrs. Jack Spikes of Crowell and a prominent banker and cattleman of Benjamin, died in the Knox County Hospital at Knox City Tuesday of last week following a month's illness.

A native of Benton County, he came to Knox County in 1899 with his parents, the late Col. and Mrs. T. C. Sams, to establish the Benjamin Mercantile Co. As a young man he worked for S. Burk Burnett, pioneer rancher of the area. He served as president of the First National Bank in Benjamin for 20 years.

Idea Contest Ends Saturday at Midnight

Some boy or girl is going to be mighty lucky and win a \$25 Defense Bond for his or her idea of a youth project. Up to Wednesday afternoon, Mrs. Ray Shirley said there had been very few entries, but she hopes for some more. She announced that the contest will definitely close Saturday at midnight, regardless of the number of entries.

Here is an example of what is wanted, Mrs. Shirley stated. Take the Youth Council as the youth project. The following questions should be answered: (1) who would make up the Council—representatives from what groups or organizations? (2) how many should be in the Council? (3) how should they be chosen? (4) should there be any adult supervision? If so, who, how many, and how should they be chosen? (5) what responsibilities could the Council have? (such as Youth Center work, etc.) (6) how often, when, and where should they meet? In other words, the ideas presented should be so detailed, that they could be put into use with little or no further study.

It is stressed again that Mrs. Shirley, Mrs. Merl Kincaid and Mrs. Ray Brown, the contest committee, would be more than glad to help anyone on their ideas. Entry blanks are available at either drugstore, and the deadline is Saturday midnight.

Date of Truscott Community Fair Set for Saturday, Sept. 15

The date for the Truscott Community Fair has been set for Saturday, Sept. 15, it has been announced. The success and interest achieved by last year's show has encouraged the community program committee to begin plans for another successful show.

Mrs. Q. D. Williams, committee chairman, met with the members of the group last week. They discussed the contest exhibits and special interest displays. This year, each local club is being asked to arrange a booth featuring a subject of popular interest, such as an herb garden, a native grasses exhibit and similar showings. Each club will also be allowed to sponsor a refreshment or entertainment concession, contributing one-half of the profits to the community fund. The fair's contestants' cash and ribbon awards will be given again this year. Exhibits in contests will include those similar to last year, plus several others.

Other members on the community program board are Mrs. J. H. Gillespie, Mrs. Elmo Todd and Mrs. Jack Brown.

A meeting to expand on these basic plans was held Monday afternoon in the Truscott community house. At this meeting Mrs. Williams reviewed the plans made at the previous meeting and with assistance of the Knox County Home Demonstration agent and the county farm agent enlarged the plans in full detail.

There will be eight exhibit divisions this year. The divisions and the directors include: Handwork consisting of quilting, embroidery, crocheting, knitting, rug-making and other hand work directed by Mrs. W. R. Owens and Mrs. Oscar Solomon.

Leathercraft, Jack Hickman, director. Foods: all baked foods, Mrs. Edgar Jones; home canned and preserved foods, Mrs. H. P. Gillespie; candies, Mrs. Curtis Casey.

Clothing: adult's and children's, Mrs. Midge Adecock and Mrs. Hornum Black.

Woodcraft, Bo Clark. Ceramics and art, Mrs. Jack Whitaker. Horticulture, which includes all home-grown fruits and vegetables, directed by Edgar Jones, Bill Stoker and Chester Pogue, assisted by the county agent.

Flower show, potted plants and flower arrangements, with Mrs. Marion Chowning Sr. and Mrs. Tom Masterson, directors.

The contests are open to anyone living in the Crowell-Benjamin-Truscott area. The area also includes Thalia and Gilliland plus all the smaller communities.

Anyone entering vegetables or fruits must enter at least five of a kind, such as five tomatoes, five peaches or five turnips. Large items such as watermelons may be entered singly.

Crowell High School Band Rehearsals Started This Week

The Crowell High School band has been working hard this week in both rehearsing and marching practice, Walter B. Harris Jr., director, announced Tuesday. The program for this week was two full band rehearsals Wednesday and full band rehearsals at 9 a. m. daily, in addition to sectional rehearsals, Thursday, Friday and Saturday.

Marcia Kincaid has been selected as a new drum major with two new majorettes, Billye Bell and Frances Kincaid. These three girls have been attending the Midwestern band camp at Wichita Falls the past two weeks. Robert Davis, baritone, and Bobby Weiss, cornet, also attended the Midwestern band camp.

On Friday, August 31 (tomorrow), Mr. Harris will meet with the Band Parents Association at 7 p. m. in the band hall to make plans for the coming year. All band parents are urged to be present.

Plans are underway, Mr. Harris stated, for the organization of an intermediate band class for beginners in the Junior and Senior high school. Plans are also being considered for the formation of a Junior Band for the grade school from grades 3 through 6. All parents who may wish to have their children participate in this instrumental program are asked to contact Mr. Harris at once.

Deadline to Secure Government Insurance on Wheat August 31

Foard County wheat producers who want to protect their wheat crop with a Federal Crop Insurance Policy have until August 31 to secure this insurance, it was announced this week by officials of the Production Marketing Administration. August 31 is the last day to apply for this policy with the PMA Committee, PMA Office or other personnel.

Quannah Wheat Is Disease-Resistant Hard Winter Wheat

The characteristics of Quannah, a new disease-resistant hard red winter wheat of excellent quality, are given in a new Texas Agricultural Experiment Station bulletin.

This new variety was developed by Dr. I. M. Atkins, Denton station agronomist, who is a joint employee of the Texas Agricultural Experiment Station and the U. S. Department of Agriculture, according to Joe Burkett, County Agent of Foard County.

Dr. Atkins reports that the average yield of Quannah has equaled or exceeded that of the present commercial wheat varieties at Denton, Greenville, Temple, Comfort, Stephenville, Iowa Park and Chillicothe. Comanche and Westar have given better yields than Quannah in the drier sections of Texas.

Quannah was developed from a complex cross of (Comanche x Homer-Forward) x (Mediterranean-Hope x Comanche). It has shown a high degree of resistance to common races of leaf and stem rust and to stinking smut. However, races of both leaf and stem rust are known which can attack Quannah.

Quannah is similar to Comanche in milling and baking characteristics. Tests show that it is satisfactory for the production of bakery flour.

Bulletin 734, "Quannah Wheat," is available from the Publications Office, College Station, Texas.

School Election to Be Held Here Saturday, Sept. 1

Saturday, Sept. 1, is the day set by the Crowell School Board for an election to be held concerning improvement of the Negro School and the construction of a cafeteria for the White School. Each of these proposed projects call for \$12,500 with a three per cent interest rate and they will be retired in twenty years.

The Crowell Colored School has only two rooms at the present time while it has four teachers and over one hundred children in the school. The cafeteria at the white school is also a project needed badly. Two class rooms in the grade school have been used for this purpose in the past, but due to larger enrollments each year, it is necessary that these rooms be used for regular class work.

 WHEREAS, at the general election held throughout the State of Texas on November 7, 1944, the qualified electors of the State, voting on the proposition, approved the amendment to Section 9, of Article 8, of the Texas Constitution, which amendment provides

that the Commissioners Court in any county may re-allocate the county tax levies authorized in said Section 9 of Article 8, by changing the rates provided for any of the purposes authorized in said Section by either increasing or decreasing the same, but no event shall the total of such taxes exceed Eighty (80) Cents on the one hundred (100) Cents valuation for any one year, provided that before the Commissioners Court may make such re-allocations and changes in such levies the same shall be submitted to the qualified property taxpayers voters of such county at a general or special election; and in event such re-allocations and changes are approved by a majority of the qualified property taxpayers voters of any such county, such re-allocations and changes shall remain in force and effect for a period of six (6) years from the date of the election at which same shall have been approved, unless the same again shall have been changed by a majority of the qualified property taxpayers voters of such county, voting on the proposition; and
 WHEREAS, the Commissioners Court of Foard County, Texas, deems it advisable and to the best interest of said County to re-allocate the county taxes authorized in said Section 9, Article 8, of the Constitution, by changing the rates in respect to certain county taxes as herein provided;
Therefore, Be It Ordered by the Commissioners Court of Foard County, Texas:

 Not exceeding fifteen Cents (15c) on the \$100.00 valuation, in any one year, for the erection of public buildings and other permanent improvements."
 In the event that the annual levy of a tax not exceeding fifteen (15c) cents on the one hundred dollars' valuation for the further maintenance of the public roads of said County has heretofore been, or shall hereafter be, authorized by a majority of the qualified property taxpayers voters of the County, voting at an election held for that purpose, nothing herein shall be construed as rescinding or in any manner affecting the power and authority of the Commissioners Court to levy and to continue to levy said tax.

HOT WEATHER TOUGH ON SOUPED-UP CATTLE
 Dairymen who feed their cows thyroid-stimulating drugs to increase milk production are singled out for a seasonal warning from the American Veterinary Medical Association. Ability to withstand hot weather is sharply reduced in cows fed thyroproptin, a thyroid gland stimulant, the AVMA says. In some cases, the souped-up cows are so busy panting that they are unable to eat. Reason is that the drug makes the heart beat faster and steps up the whole tempo of body activity. Coming on top of the natural strain of hot weather, it may be too much for some cows to stand.

FORDOMATIC
 GIVES YOU AN ENTIRELY NEW KIND OF DRIVING!

OUTGOES THEM ALL!

Combines best features of previous drives! Fordomatic gives you two automatic drives in one—a torque converter for smoothness—and automatic gears for get-up-and-GO.

Practically drives itself! Fordomatic thinks for you. It smoothly and automatically provides a countless number of drive ratios through which engine power is fed to the rear wheels.

Easier rocking! It's even easier to "rock" out of sand, snow or mud with Fordomatic than with Conventional drive. Just move the selector back and forth between low and reverse.

You're boss every second. Step down on the accelerator and you get an extra spurt of power for hill climbing and passing. Going downhill you can shift to low at any speed for extra engine braking.

It's a gas-saving powerhouse! Fordomatic's automatic intermediate gear provides smooth, fast, economical "getaway" without wasteful engine racing. Uses no more gas than the savingful conventional Ford.

Men Who Become 18 Are Required to Register on Birthday

Austin — The number of 18-year-old Texans failing to register under the federal draft law is increasing, Brig. Gen. Paul L. Wakefield, state Selective Service director, said here this week.

State draft headquarters records indicate that registration has been falling off since the end of March. General Wakefield estimated that 2,000 to 2,500 18-year-olds currently are unregistered.

"We've been watching this situation closely since late spring with the hope that the trend would stop," the state draft director said. "We've asked the local draft boards to act under a provision of the regulations whereby a letter will be sent to men in their communities suspected of being delinquent under the law."

General Wakefield reminded males subject to registration of penalties if convicted of failure to comply with the law. He quoted from a section of the law providing maximum penalties of fine up to \$10,000 and imprisonment up

Under the draft act, all 18-year-old males are required to register with the nearest draft board on their 18th birthday or within five days thereafter.

"It's up to local boards whether or not they want to turn any man over to federal district attorneys for prosecution," the state Selective Service director said.

"Our board members are patient, considerate men, and usually give a man better than a fair chance, if he's willing to cooperate."

"If the registration record doesn't improve within the next two or three months, we're going to advise the boards to be a little tougher than in the past. After all, the man who doesn't register on time isn't pulling his share of the load our people are carrying."

"A man is dealing fairly with his neighbors if he obeys the law just as they do. We hope parents and public-spirited citizens will keep 18-year-old men reminded of their responsibilities under the law," General Wakefield concluded.

As an expression of appreciation from his home town folks for his unselfish service as assistant to Senator Lyndon B. Johnson.

He has served his state and nation for more than ten years without any thought of personal reward. He has worked long and cheerfully, ever attentive to the needs and desires of the people of Texas. He has no ambitions—other than to render a good public service.

We are proud of him, and extend the best wishes of his home town citizens.

Austin, Tex. — A lot of people are concerned about the price of cotton.

Cotton today brings the producer about \$200 per bale. It costs around \$50 per acre to raise the crop. Thus, if a farmer makes a third of a bale to the acre, he profits something like \$15 per acre. That means if he has 100 acres in cotton, his year's earnings are only \$1,500, not much cash in these inflationary days.

CARD OF THANKS

It is with a grateful heart that I express my appreciation and thanks for the many manifestations of friendship and interest shown me while I was ill in the local hospital. I ask God's blessings upon each of you.

Mrs. J. R. Merriman.

CARD OF THANKS

We wish to thank our many friends and neighbors for their kind words of sympathy and for the beautiful flowers. We deeply appreciate every good deed which helps to make the sorrow of losing our loved one lighter.

May God bless each of you.

The Family of J. H. Carter.

Sister Mary Margaret of Dallas and Sister Mary Catherine of Fort Worth were here last week visiting Sister Mary Margaret's parents, Mr. and Mrs. M. O'Connell.

D. S. (Buster) Smith and a representative of the Gulf Oil Corporation, both of Iowa Park, were here Monday morning in the interest of the Texas-Oklahoma Fair to be held in Iowa Park Sept. 24-29. Mr. Smith, a former employee of the News, is a Linotype machinist in charge of the machinists of the Times Publishing Co. of Wichita Falls.

Governor Allan Shivers the other day issued a statement in which he recommended that cotton farmers consider putting their crop in the government loan.

That would keep the cotton off the market for the time being and tend to bring about a price increase.

Agriculture Commissioner John C. White has urged farmers to put their cotton in the loan. He has also asked the federal government to set the cotton loan at full parity. The loan is now 90 per cent of parity.

I am informed that the U. S. Department of Agriculture is opposed to raising the cotton loan price to full parity.

That is because of the pressure that would develop for full parity loans on other farm products.

The Secretary of Agriculture is thinking in terms of stockpiling cotton in federal warehouses for use in the event of a war emergency.

Such a program would not only insure a supply of cotton in the event of another war, but it would also take a large amount of cotton—possibly two million bales—off the market and would tend to send the price up.

Cotton farmers of the nation were asked by the federal government this year to produce 16 million bales of cotton, which was described as a war necessity.

The farmers correspondingly increased their acreage, and many of them are now expressing their dissatisfaction because of the unsatisfactory price.

As Governor Shivers pointed out, cotton is still the main cash crop in Texas, and the decline in price threatens to deprive farmers of a fair return for their investment.

The governors of some other states have frankly called upon cotton farmers to put at least half of their crop into the loan for a period of four months—this in an attempt to cause an increase in price.

The Texas governor did not make his statement that strong.

He explained that it was not within his province to tell Texas farmers what to do. But he pointed out that as the state's chief executive, he is interested in the

economic well-being of farmers as well as all others (and that would include the state as a whole) who are affected by the value of the cotton crop.

The price of cotton is the result of a number of conditions and factors, including the export quota, the size of the crop, the demand, and so on.

Most authorities seem agreed that the best step for the cotton farmer at this time is to put his cotton into the loan and hold it for an increase in price.

The cotton crop, Commissioner White believes, will be short of the government estimates, and the price will rise when the amount of production can be accurately calculated.

1,860 JOBS TO GET OIL

According to the calculations of one oil company, it takes 1,860 different kinds of jobs to get oil from the ground to consumers. Of these, 640 are in the oil fields, finding and producing oil; 580 are in refineries; 410 in transportation; and 230 at distribution centers, in service stations and in direct delivery. All these men are working to provide the American people and the armed forces with oil, when, where, and in the quantities needed.

Be It Resolved by the Legislature of the State of Texas:
Section 1. That Section 51a of Article III of the Constitution of the State of Texas be amended, and the same is hereby amended so that the same shall hereafter read as follows:
"Section 51a. The Legislature shall have the power, by general laws to provide, subject to limitations and restrictions herein contained, and such other limitations, restrictions, and regulations as may be by the Legislature be deemed expedient for assistance to, and for the payment of assistance to:

(1) Needy aged persons who are over the age of sixty-five (65) years; provided that no such assistance shall be paid to any inmate of any State-supported institution, while such inmate; and provided that any resident of the State, if otherwise eligible, may not be excluded who has resided in the State for five (5) years during the nine (9) years immediately preceding the filing of the application for such assistance including the one (1) year continuously immediately preceding the filing of such application; provided that the maximum payment per month from State funds shall not be more than Thirty Dollars (\$30) per month.

"Any applicant for or recipient of assistance, including the spouse in each instance, who shall dispose of any property after June 1, 1952, and any person who initially applies for assistance after June 1, 1957, who has disposed of any property within five (5) years prior to the date of application, shall be ineligible to receive assistance; provided, that if such property was disposed of by bona fide sale and conveyance, and for value commensurate with the actual market value thereof, such disposition shall not affect eligibility for assistance if it be shown that all proceeds from such sale have been used by such person and spouse for normal living expenses, or for the purchase of other real property of like value. If any recipient of assistance or spouse shall sell any real property, neither such recipient nor spouse shall thereafter receive assistance until all net proceeds of sale have been expended for normal living expenses, and in case of disposition of such property by gifts or for an amount less than its actual market value, such person and spouse shall not thereafter receive assistance until the expiration of the period of time during which the net proceeds of said sale would have paid their normal living expenses had the actual market value been realized therefrom.

"(2) Needy blind persons who are over the age of sixteen (16) years, provided that no such assistance shall be paid to any inmate of any State-supported institution, while such inmate; and provided that any resident of the State, if otherwise eligible, may not be excluded who has resided in the State for five (5) years during the nine (9) years immediately preceding the filing of the application for such assistance including the one (1) year continuously immediately preceding the filing of such application; provided that the maximum payment per month from State funds shall not be more than Thirty Dollars (\$30) per month.

State, if otherwise eligible, may not be excluded who has resided in the State for five (5) years during the nine (9) years immediately preceding the filing of the application for such assistance including the one (1) year continuously immediately preceding the filing of such application.

(3) Needy children who are under the age of sixteen (16) years; provided that any child, if otherwise eligible, may not be excluded who has resided in the State for one (1) year immediately preceding the filing of the application for such assistance, or, if said child is under the age of one (1) year, whose parent or other relative with whom the child is living has resided in the State for one (1) year immediately preceding the birth of such child.

"The Legislature shall have the authority to accept from the Federal Government of the United States such financial aid for the assistance of the needy aged, needy blind, and needy children as such Government may offer not inconsistent with restrictions herein set forth; provided, however, that the amount of such assistance out of State funds to each person assisted shall never exceed the amount so expended out of Federal funds; and provided further that the total amount of money to be expended out of State funds for such assistance to the needy aged, needy blind and needy children shall never exceed the sum of Forty-two Million Dollars (\$42,000,000) per year.

"Should the Legislature enact enabling laws and provide an additional appropriation hereto in anticipation of the adoption of this Amendment, such Acts shall not be invalid by reason of their anticipatory character."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to the qualified electors of Texas at the Election to be held throughout the State of Texas on the Second Tuesday in November, 1951, at which election there shall be printed on such ballot the following clause:

"FOR the amendment to the Constitution giving the Legislature power to set up a system of payments of assistance to needy persons over sixty-five (65) years of age; to needy blind persons over the age of sixteen (16) years; to needy children under sixteen (16) years of age; removing the Thirty-five Million Dollar (\$35,000,000) limitation upon amount of State expenditures for such purposes; disqualifying persons who dispose of property under certain conditions; providing a maximum payment of Thirty Dollars (\$30) per month from State funds for old age assistance; providing for the acceptance and expenditure of funds from the Federal Government; providing that expenditures from State funds shall not exceed the expenditure from Federal funds with respect to any individual; and providing conditions as to residence within the State in order to be eligible to receive assistance; and providing a limitation of Forty-two Million Dollars (\$42,000,000) per year on State fund expenditures for such purpose each year.

Home Demonstration Notes

MARY DEEB BROWN

September will soon be here and we will be starting regular club meetings again. This is the schedule I have:

Sept. 4 Riverside at Mrs. S. C. Kuehn; Sept. 11, West Side; Sept. 12, Foard City; Sept. 13, Vivian; Sept. 14, Margaret.

I will be at a meeting in Wichita Falls September 6 and 7, so if it is agreeable with the club members I would like to meet the Gambleville club either Sept. 5 or Sept. 21.

The demonstrations in September will be on Background for Your Living Room. This program will include wallpaper, paint, floor finishes, and other decorative effects. I have been fortunate in finding some very good illustrative material so make plans now to attend this meeting.

Also in September we want to plan for an October Bake Show and Achievement Day. Many of you have done some really fine work and we want to show others what we do in our clubs.

The living room demonstrators for the Vivian Club are Myrtle and Neomi Fish. "We almost went into the paper-hanging business," said Myrtle, for after they had done the living room it looked so nice they re-did the whole house. Their living room color scheme is dark rose, blue, and gray with the touches of gold. They repainted all the woodwork white first and then repainted the room in gray with a large gray leaf which is very faint and looks almost embossed.

The narrow windows were something of a problem, but they made blue plastic curtains and placed the rods out from the window sill to give an illusion of width. To add more light to the room they installed a glass door at the front which faces south. They dyed marquiset curtains blue to keep out too much glare.

Next they re-upholstered a platform rocker in blue plastic. The rest of the furniture is upholstered in deep rose beige.

To add a final touch they re-finished a lovely old gable table and are making a coffee table.

Of course all this took time and a great deal of work, but the results are more than worth it, according to Myrtle and Neomi.

CLAUDE CALLAWAY HEARTILY ENDORSES WAGONSELLER FOR CONGRESS

If you have not made up your mind as to who you will vote for in the race for Congress, I would like to recommend to you my great and good friend—

Wayne W. Wagonseller of Montague Co.

I served with Wagonseller in the State Legislature and he later was elected to the State Senate. He is State Senator at this time and asking to be elected to Congress to fill the place formerly held by Ed Gossett.

Wagonseller is a country boy who has really made good. He was born and reared in Montague County, served in World War II and was wounded twice in battle. He finished his education at the University of Texas.

He can do as much work as any man in Congress. He is energetic enough to get the job done. He is Christian enough to stay honest and humble while serving. He is one of the best orators I have ever heard make a talk. A fine Christian character, energetic and a hard worker.

Let's elect Wayne to Congress and you will be proud of him while he serves you up there.
