Greased paper protects bread and cakes from sticking but unless it is pulled off immediately after baking, it may stick to the food. Then too, paper scorches easily and should be used only when baking in a slow oven.

For cakes and cookies that contain both fat and sugar, Mrs. Brown says either plain greasing or greasing plus dusting with flour may be used.

For quick breads, like muffins

and quick loaf bread, and for hot rolls that are cooked at a high temperature, greased pans but no paper are recommended.

On the other hand, heavy unglazed paper can be used successfully when baking macaroons which are mostly egg whites and are baked at a low heat. Mrs. Brown says this same type of paper, if greased, may be used for rich mixtures such as fruit cake, which burns easily and needs a long slow baking period.

Sponge and angel food cakes are something different. These cakes do not contain fat and the leavening agent is beaten in air. Therefore, states Mrs. Brown, use an ungreased pan. In a greased pan the cake batter cannot cling to the sides of the pan as it bakes and the cake does not reach its full height. Greasing also causes the cake to fall out of the pan when it cools, which makes a flat

and soggy product.

Grease only the bottom of the pans when baking cakes. Leave the sides ungreased so the batter can cling as it rises.

County, School and **Crowell School Trustees Elected**

County School trustees elected last Saturday's election were W. A. Dunn for precinct 2 and A. W. Barker for precinct 3. The three new members of the Thalia School Board who were elected last Saturday were Antone Kajs, Bill Cates and John W.

Mike Bird and Glen Goodwin were elected on the Crowell School Board. Sixty votes were cast at Crowell. Other members of the Crowell Board are Grady Halbert, Roy Barker, William Bradford, Edgar Jones and Otis Gafford. The Crowell Board met Monday night and organized for the ensuing year with Mike Bird as president and Grady Halbert, vice president. Jeff Bruce has been president of the Crowell School Board for the past sixteen years. Moody Bursey is the other retir-ing Crowell board member.

~ SAFETY INSPECTION INSURANCE

Once every four hours some Texan is killed by an automobile. Once every ten minutes there is an automobile accident in Texas.

WHY?

The two prime causes are human errors and mechanical failures. Laws cannot prevent human errors, but you can help prevent mechanical failure by letting us, your Official Inspection Station, check your car for Safety. This is the first important step to keep YOUR car safe for yourself and others.

The time is fast approaching when the law requires you have the Inspection Safety Sticker on your car and nearly 900 motor vehicles in Foard County still do not have them.

Why not bring your motor vehicles to us today for your sticker?

CHRYSLER FirePower is so much more than HORSEPOW

- + It's worth remembering that today's Chrysler V-8 is not a "warmed-over" engine, but basically brand new . . . the first truly new typé engine of modern times. It does, indeed, open new horsepower potentials, but what it can mean to you goes way beyond just that . . .
- + FirePower gives your gasoline a better place to work . . . the first hemispherical combustion chamber in a stock-car engine. It makes possible more power from every drop of gas. You feel it the minute you open up a Chrysler, in greater accelerating power than you've ever had at your command ...
- + FirePower is also a better-built engine throughout. It doesn't require premium fuel. It runs with less waste, less heat less waste, less heat than the second sec less wear, less carbon deposit than type engines can do. More of your gasoline's energy is turned into actual road power, greater reserve for passing and top speeds when needed . . .
- + Why not drive this revolutionary new-ty-engine, and feel its wonderful difference for yourself? Let your Chrysler dealers you how much *more* than horsepower you money can buy in the engine Chrysler designed from scratch to do an engine job better, longer, and more efficiently than previous engines can hope to do!

They knew that He had been laid away in the rock-hewn tomb of Joseph of Arimathea. All their hopes had been shattered, all their glorious expectations dashed to the ground. Friday night had passed, somehow. Saturday had drag-ged by, and Saturday night. Then Sunday morning dawned, and as the sun rose in the east it found some of the women who loved and trusted Him assembled at the tomb. But it was empty, and two angels appeared who informed them that He was risen!

They reported this astounding, but glorious, news to the eleven disciples and others. But a little later two disciples on their way to Emmaus evidently did not quite to Emmaus evidently did not quite believe it, for the Lord, when He appeared to them, upbraided them for their unbelief. A little later, after these two had reported to the eleven that they had seen Him themselves, He appeared in their midst with the words, "Peace he upto you". Their reaction be unto you." Their reaction to the sight of Him was the belief that they were seeing a spirit. But He reassured them, and showed them His hands and His feet. Whereupon, we read, "They yet believed not for joy, and wonder-

They were difficult to persuade; they were hard to convince. Had they been gullible folk, believing they been gullible folk, believing easily the astounding news, we might wonder whether they were not deceived after all. But their unbelief had to be overcome by multiple proofs of the most convincing sort. From this we glean a measure of understanding of the overwhelming nature of the evidence displayed, to transform them from a cowering group of
