Ferguson Celebrates 86th Birthday Sunday

Ferguson, one of the earliest settlers of this section, celebrated his 86th birthday Sunday at home in Crowell with all children and families being present with the exception of one, P. Schwab, and family of Pampa.

Ferguson has five sons and daughters, the youngest son, living with his father here. His sons and families here are: Mr. and Mrs. Henry Fergerson and son, and Mrs. Henry Fergerson and son, and Mrs. Theo Fergerson and son, and Mrs. Theo Fergerson and daughter, of Seymour; and the daughter and husband, Mrs. Henry Kilgore, of Pampa.

Ferguson was born June 18, 1866, in Tennessee, and came to Texas with his mother, six years and two sisters in 1879. He lived at Van Alstyne until moving to what is now Crowell in 1886.

Ferguson was married to Elizabeth Myers on Oct. 18, 1894. Mrs. Ferguson died here Feb. 18, 1949.

Ferguson is very active for his age and with the aid of his son, George, looks after his farming interests south of Crowell.

Member of the Crowell Methodist Church for many years, Mr. Ferguson is a regular attendant at services. He is also a member of the Down Town Bible Class.

Crowell School is sponsoring swimming program this year for thirty-six children in age from eleven to fifteen. Gordon Erwin is in charge of the group, with Grady substituting when Mr. Erwin is not available. The children are transported to Quannah in a school bus on each Tuesday afternoon to enjoy the 300,000 Quannah municipal where life guards are on duty at all times.

Program got underway last week and will last for twelve weeks which will give the children four trips in all. The bus leaves Crowell at one o'clock in the morning and is back in Crowell at 4:30.

Assistant Director of Wildlife for the Texas & Fish Commission said rains have aided wildlife in the area. The moisture came at a period of the spring nesting season for many bird species, quail, mourning dove and other birds.

Rains have also stimulated the growth of food and cover for deer and other game animals, as well as needed water.

Assistant Director pointed out that the rains have not yet brought in important crops of South Texas and West Texas.

Of the greatest benefits of the rains is the effect it has on turkey nesting in the country of Texas which produce an estimated ninety per cent of the turkey supply.

Assistant Director said this area has missed a good hatch of turkeys in previous years with the exception that the brood stock has been maintained.

Without rain to grow cover for wild turkeys simply do not have a disposition to nest," he said. "Then many of the birds die for lack of food."

WHEAT TRUCKS LINE UP SATURDAY AFTERNOON — The above picture was taken by L. V. Robertson, local photographer, late Saturday afternoon and shows the long line of wheat trucks waiting to unload at the local elevators which can be seen in the background at the right. The line of trucks extended for about six blocks and into the downtown section of Crowell. Mr. Robertson made this picture from the awning in front of the Crowell State Bank.

Methodist Pastors Returned Except Margaret Church

Only one change was made in the Methodist pastors of this county and Truscott last Sunday at the closing session of the 43rd annual conference in Lubbock. Rev. M. R. Mathis, pastor of the Margaret Church, was transferred to Moran in the Stamford district, and Rev. W. J. Knoy, formerly of Weinert, was appointed pastor of the Margaret church.

Rev. M. A. Walker was returned to Crowell. Rev. Clark Campbell to Thalia and Rev. Carl Hudson to the Truscott-Foard City churches.

Change in designation of four of the nine districts of the Northwest Texas Conference became effective with the reading of the appointments. Clarendon, Perryton, Sweetwater and Vernon districts were replaced by Pampa, Childress, Big Spring and Brownfield districts. Most of the territory formerly designated as the Vernon district is included in the new Childress district which also includes some of the former Clarendon district.

Rev. T. M. Johnston, who had completed six full years as district superintendent, was appointed to First Church in Pampa. Rev. W. E. Hamilton, present superintendent of the Clarendon district, takes over administration of the Childress district.

Harvesting of Foard County's 1952 Wheat Crop Greatly Aided by Favorable Weather Conditions During This Week

Harvesting of Foard County's 1952 wheat crop is drawing to a close, according to estimates made by farmers and elevator men up to Wednesday afternoon, although there are many fields of younger wheat scattered over the county that remain to be cut.

Wednesday afternoon, it was estimated that over 900,000 bushels of the 1952 crop had been received at the elevators in the county. It is believed that when

the entire crop is harvested that the total number of bushels will exceed 1,000,000. Considerable damage by hail was done in the west and north parts of the county shortly before harvest began. The average yield per acre over the county is expected to be from 12 to 15 bushels, although many fields made from 20 to 30 bushels per acre. It is estimated that the harvest is about 75 per cent completed.

The high point in the harvest season came late last Saturday afternoon when wheat trucks lined up on Main Street to the Crowell State Bank corner waiting their turn to unload at the elevators. This is the longest line of wheat trucks ever seen during a harvest season and covered about six blocks.

There was an ample supply of combines and trucks to take care of the harvest and many transient combines were never unloaded and have been leaving all week. According to a report from the Farmers Co-Op Elevator in Truscott Wednesday afternoon, about 200,000 bushels had been received from the Truscott and Gilliland communities.

Annual Meeting of Cemetery Ass'n. to Be Monday, 4 P. M.

The annual meeting of the Crowell Cemetery Association will be held at 4 o'clock Monday afternoon at the First Christian Church. It was announced this week by Mrs. N. J. Roberts, president.

Business in connection with the cemetery will be transacted and officers for the coming year elected. It would be a great encouragement to the president and others who have worked hard in promoting the program of the cemetery, if a large crowd of citizens in this community who are vitally interested in the care and upkeep of the grounds to set aside this time and be present to help solve the problems that may come before the meeting.

61 1/2 Bushels Per Acre Harvested on 10-Acre Plot

J. M. Jackson of Thalia reports that he harvested 61 1/2 bushels of wheat per acre on a 10-acre plot of ground on the Cap Morris farm east of Thalia.

Mr. Jackson says that in 1950 he harvested 700 pounds of vetch per acre on the same plot of ground and last year, after being hauled out, he harvested 300 pounds per acre.

This is no doubt a record per-acre yield for all time for Foard County.

FOREIGN AID VS. FARM WEALTH — The \$72 billion which the U. S. has spent for foreign aid since 1940 is almost four times the \$19 billion net income from farming in the U. S. last year. It is half as much as the \$143 billion total value of all US farm assets. The Chamber of Commerce of the United States recommends that the rate of foreign aid spending, which has been running at the rate of \$6 billion a year for 12 years, be reduced to \$5 billion a year. The federal budget calls for spending \$10.5 billion next fiscal year.

Big Crowd Greet Pupils in Exchange

Manitowoc, Wis. — Thirty young visitors from Macon, Ga., got a taste of northern hospitality when they were welcomed by a noisy crowd at the Manitowoc railroad station recently.

The visitors are high school juniors and seniors taking part in a pupil exchange program between Manitowoc and Macon. A similar number of Manitowoc pupils will go to Macon to learn about life in the south.

As the southerners' train pulled into the station the high school band broke out with "Dixie." A barrage of confetti met the Georgians as they stepped from their special car.

The Macon pupils attended classes at the high school and lived in the homes of pupils who will later visit in Macon.

Spending the Business Dollar

The enemies of business go to great lengths to make political capital of the large amounts of money the corporations take in.

But they carefully refrain from pointing out what happens to that money.

Take, for example, the 1951 financial experience of one of the largest businesses in the world. In that year it had the huge income of \$7,522,000,000. And here's how it was spent:

49 1/2 per cent went to suppliers, for the myriad goods and services the company needed to operate. Most of that eventually wound up in the pockets of the suppliers' employees.

26 1/2 per cent went to meet its own payroll costs.

15 1/2 per cent was earmarked for taxes.

1 1/2 per cent was set aside for depreciation and 1/2 per cent for reconversion.

4 1/2 per cent went to the owners—the army of shareholders who make the company's existence possible.

The balance, 2 per cent, was retained in the business, to be spent for improvements, plant expansion and other such necessities.

To sum up, this company's tax bill was equivalent to \$2.25 for each dollar of net profits, and \$3.14 for each dollar divided

among the owners. More than five times as much went to the workers as to the owners. And that is typical of the great majority of business operations today.

THE CHRYSLER IMPERIAL 6-PASSENGER SEDAN

YOU'LL FIND IT EVEN BETTER THAN YOU'VE HEARD!..

It's been many years since a new car has caused as much talk as today's Chrysler Imperial has. What you may not realize is how long it's been since a car gave so many reasons for excited talk as this one.

May we invite you to drive and test the best and most worth-owning engine on the road today? (Chrysler's magnificent new 180 H.P. FirePower V-8.)

May we invite you to handle the easiest and safest steering wheel in existence at the moment? (Chrysler's full-time Power Steering.)

May we invite you to try out brakes which require as little as one-third the usual foot-pressure, and still stop you in many feet less than other cars do? (Chrysler Power Brakes.)

May we invite you to sit on the most comfortable seat cushions, and enjoy the fullest window vision you can find? May we invite you to ride on the rough-road miracle of the Oriflow shock absorbers which only Chrysler-built cars have?

May we invite you to drive a Chrysler Imperial . . . and learn how much you'd miss, and deeply regret, if you bought another car today without knowing this one first?

We . . . and Imperial by Chrysler . . . are at your service, any time.

Safety — And Insurance Rates

Automobile insurance rates have been going up, and threaten to rise still further. While many factors are involved, reckless drivers are primarily responsible.

Particularly in states with modern safety-responsibility laws, responsible motorists feel it almost obligatory to take out liability insurance but this is representing a larger and larger dent in his pocketbook. The danger is that, unless the present trend is checked, a number of drivers will be priced right out of the insurance market.

It is known that 80 per cent of the accidents, roughly, are caused by 20 per cent of the drivers. In other words, the great bulk of our smashups are attributable to a careless and dangerous minority.

Relentless enforcement to get these reckless drivers off the highway would not only save lives and property, but would mean real dollars-and-cents savings to the millions of motorists who now must dig deep to meet their annual insurance costs.

When Is a Rate Right?

A great many travelers are asking the same question these days about rates at hotels and motor courts. The advertised room rate is sometimes much below the actual rate they are obliged to pay—and many times there is no published fee at all.

While there is an understandable seasonal fluctuation, too often rates are noted to change from one week to the next and then back again. The net effect is confusion among travelers and a justified suspicion. Hotel and motor court men would do well to frame a common answer to the question: When is a rate right?

The Public Backyard

Sometimes some of us forget that roads and roadsides belong to the people who use them and that each of us has some small obligation, personally, to help keep them attractive and clean. A country road can be a scenic delight, or an ugly blight.

We can help this particular cause by remembering that this highway is ours, paid for with our tax dollars, coursing through public lands that belong to all the people; and so, with some justifiable pride in the possession, a motorist somewhere may become less inclined to toss his trash into the public parlor.

Economic Highlights

So far as the Republicans are concerned, the ending of the primary season finds the situation about as the forecasters expected. In pledged delegates, Eisenhower poses, on an equal footing. Taft has a few more than his chief rival but the lead is too small to be significant. Neither man has anywhere near enough to assure nomination.

Only one other active candidate can now be taken seriously. That is Governor Warren, who would have a good chance in the unlikely event that Taft and Eisenhower cancel each other out. Stassen is far weaker than he was four years ago.

From the point of view of the political writer, the Democratic situation is extremely interesting. The only candidate who has shown any ability to attract a national following is Kefauver. He has amazed the old-line professionals, who were certain that his balloon would collapse ignominiously. Instead, he has had only one minor setback, in Florida, and even there he made a better showing against the popular Russell than was anticipated. If proven public sentiment meant a thing, he would be a cinch for the nomination. But the top Administration brass wants no part of him and the chances are that they'll be able to stop him at the convention—something they couldn't do in the primaries.

Potent powers within the party are behind Averill Harriman. But, politically speaking, he is a question mark. He has never run for

office. He is a quiet, undramatic figure who has, so far as anyone can now see, no public following of any size. There is a very real possibility that the Democratic convention will be deadlocked, and will finally choose someone who is rarely if ever mentioned now—such as Speaker of the House Rayburn.

Many Republicans still seem to feel that it's all over but the shouting—that their man, whoever he is, is practically a cinch to defeat any available Democrat. This, of course, was also felt in 1948, and the more objective political observers think that those who still hold it may be due for a painful awakening. The Democratic candidate will run on the Truman platform. The President, regardless of how badly his prestige may have slipped, will be the biggest force at the convention. All of the possible candidates have endorsed Mr. Truman's so-called "fair deal." This is true of Kefauver, who has leaned over backward to avoid criticizing the President and his program. It is true, to slightly varying degrees, of Russell, Kerr, Harriman and Stevenson. The Administration is making its strongest bid yet for labor backing — as witness the President's action in the steel crisis. And it has been given the unequivocal endorsement of Philip Murray and other labor leaders.

People who want to unseat the Democrats often make the dangerous mistake of considering only the Administration's political liabilities—and disregarding its political assets. The Democratic platform of 1952 will be, so far as basic principles are concerned, much the same platform with which Mr. Truman ran to victory in 1948 when almost no one gave him a chance. From the Republican viewpoint, overconfidence could be politically suicidal.

Knee breeches for gentlemen went out of style after the French Revolution.

Why are women's purses bigger than men's? Remember all those cartoons you've seen of a wife going through her sleeping husband's trouser pockets? They may give you a clue why some women's purses are bigger. But we're inclined to think that there are other and better reasons why more women than men own stock in so many of America's largest companies. For one thing, women are practical, thrifty, and inclined to do something sensible about their future finances and those of the family. Forgive us, mister, but the facts speak for themselves: Women have outnumbered men share owners of telephone stock since 1900. The big food companies have a predominance of women share owners. Ditto the country's largest auto maker. And, at last count, 116,800 women owned shares in General Electric as against 83,000 men. Big business, as it turns out, is a woman. About 2,100 of these women—and men—turned out this spring to attend the G-E annual meeting and eat a box lunch in one of our largest factory buildings. If you'd like a report of what was said and done, just let us know. A card asking for "Report of the Sixtieth Annual Meeting," Dept. 6B, General Electric, Schenectady, N. Y., will do the trick. You can put your confidence in— GENERAL ELECTRIC

When you pick a Tractor... be sure you can always get parts

Any tractor is a big investment. You have every right to expect years of profitable performance from such an investment. In this connection one of the first things to think about is—"Will I always be able to get parts?"

The Ford Motor Company manufactures the Ford Tractor. What greater assurance could you have of being able to get parts—anytime, anywhere.

Not only is this important to you as long as you have the tractor, but it is also something the buyer thinks about seriously when you go to sell or trade in your used Ford Tractor. This is only one of the many reasons why a used Ford Tractor commands a high resale price.

A Look at Capitalism

The Exchange, a publication of the New York Stock Exchange, recently carried an article called "A Clergyman Looks at Capitalism," by Reverend Edward A. Keller, director of Notre Dame's Bureau of Economic Research. He had these very pertinent remarks to make concerning capitalism and the attacks upon it:

"False propaganda blames our capitalistic economy for every existing evil—from athlete's foot to broken homes.

"Actually, however, capitalism, as it has developed in this country over the past century has operated primarily in the interests of the vast majority of Americans—not in the interest of a few 'bloated plutocrats.'

"It is surprising, to say the least, that union leaders, who talk so loudly about partnership status for the workers and who hurl against business charges of 'exorbitant' profits, refused to invest union funds in the shares of the companies for which they work. If they wish to share in management and in 'excessive' profits, they can do it the American way, by the purchase of ownership in American business and by the assuming of the risk inherent in such ownership. The large unions have sufficient funds in their treasuries to elect a union representative to the board of directors by the purchase of stock.

"Apparently, their 'class-conscious' opposition to management is the real stumbling block to their doing what is very much in the interest of their members."

Regardless of labor-management fights and strikes and all the rest, the American workers enjoy a living standard unknown in other lands—and the capitalist system, with its emphasis on freedom for both labor and business, is responsible for that. And no group has a greater personal interest in perpetuating that system than labor.

Future in Fresh, Green String Beans, Says H. D. Agent

Fresh string beans may be enjoyed the year-round if a supply is stored in the freezer locker or home freezer while gardens are still in production.

Mrs. Mary D. Brown, Acting County Home Demonstration Agent, says choose fresh, young, tender, barely mature beans of a recommended variety such as Tendergreen, Blue Lake, Logan or Kentucky Wonder for preserving.

To prepare beans for freezing wash in running cold water. Cut and snap off tips and sort for size. If desired, small whole beans may be frozen but larger beans should be broken or cut into suitable lengths.

The agent points out that it is necessary to scald beans in boiling water before freezing. This prevents loss of quality, preserves the vitamin content and brightens the color of the vegetables. Scalding also stops the action of enzymes and further cleans the product.

For scalding the beans, select

Ketchersid-Hunter Marriage Vows Exchanged May 29

Miss Charleia Gaynelle Ketchersid, daughter of Mr. and Mrs. Homer Ketchersid, was united in marriage Thursday evening, May 29, to Cpl. John Lewis Hunter III, son of Mr. and Mrs. John L. Hunter Jr. of Margaret, in a ceremony performed in the bride's home by Minister Lynn Fisher, pastor of the West Side Church of Christ.

The double ring ceremony was said before a beautiful archway of huckleberry and pink roses. Pink wedding bells hung at the top of the arch and large white bows adorned each side. Two-tiered wrought iron candelabra stood at each side of the altar, each holding seven tall tapers. The mantle was decorated with arrangements of pink roses and huckleberry.

Bobby Joe Hunter of Big Spring, brother of the groom, was best man while Mrs. Bobby Joe Hunter was matron of honor. Candelighters were Misses Wanda Jones and Virginia Tamplen.

The bride, given in marriage by her father, was attired in a lovely wedding gown of French imported nylon lace over taffeta, with a circular overskirt of nylon tulle. The dress had a strapless shirred bodice and a fitted jacket with tiny standing collar. Tiny covered buttons extended the length of the jacket. The full skirt was ballerina length. She wore matching mitts of lace and her finger-tip veil fell from a headpiece of the lace and shirred tulle with seed pearl trim.

She carried out the tradition of wearing something old, new, borrowed and blue. Her bouquet was of white carnations and stephanotis carried on a white Bible.

The matron of honor wore a yellow embroidered organza gown made over yellow salina. Mitts and head-dress matched the dress. Her corsage was of yellow roses surrounded by blue carnations. Miss Jones was attired in aqua net over taffeta with full gathered skirt and accordion pleated bodice and Miss Tamplen wore pink net over taffeta and each wore a corsage of pink roses surrounded by pink carnations.

For her daughter's marriage, Mrs. Ketchersid wore a dress of ocre lace with navy blue trim and a corsage of red and navy carnations. Mrs. Hunter, mother of the groom, wore an orchid lace dress and she wore a corsage of split pink carnations.

Appropriate music was played by record by Miss Noma Kelley who

wore a brown nylon dress, fitted bodice and full skirt. "Melody of Love" was played as the candles were lighted. "The Bridal Chorus" from Lohengrin was played for the entrance of the wedding party and "The Indian Love Call" during the ceremony. Other numbers were played as pre-nuptial music.

Reception
Immediately following the marriage, a reception was held in the home. Miss Jones poured punch and Mrs. Bobby Joe Hunter cut the wedding cake after the bride and groom had first cut it, from a table with lace cloth and pink and green, the bride's chosen colors, predominating in all appointments. Pink streamers with the names of bride and groom inscribed on them extended across the table. The three-tiered wedding cake was white and topped with two white wedding bells with decorations of tiny pink roses and green leaves.

For going away, Mrs. Hunter wore a camel's tan dress of linen with matching duster and matching accessories.

Upon their return, they will go to Murfreesboro, Tenn., where they will reside while Cpl. Hunter is stationed at nearby Sewart Air Force Base. He has been in the service for eighteen months.

The bride is a 1952 graduate of Crowell High School and Mr. Hunter graduated in 1950.

Out-of-town guests at the wedding included Mrs. J. W. Spotts of Stephenville, Mr. and Mrs. I. B. Ketchersid and Mr. and Mrs. Glen Matthews of Quanah and Mr. and Mrs. A. F. Ketchersid of Hollis, Okla.

Miss Joyce Ford and Mr. Williams Marry Here Saturday

On Saturday evening, May 31, at the Assembly of God Church in Crowell, Miss Joyce LaVerne Ford, daughter of Mr. and Mrs. Hayden Ford, became the bride of Jean Williams, son of Mr. and Mrs. Riley Williams of Raymondsville, Texas. Reverend M. F. Hankins, pastor of the church, performed the double ring ceremony.

The bride wore a street length dress of beige lace. She wore a corsage of pink and yellow carnations.

Miss Lois Gentry served as maid of honor and Curtis Tucker served as best man.

Home Demonstration Notes

MARY DEEB BROWN

We have not had a good attendance at Council for the last two months due to the weather, etc. However, Council does meet June 21, and at that time we will need to start plans for our county camp. If you are a member of Council, start planning now to be here June 21 for this is a very important meeting.

All club presidents should check the notices for each month in the yearbook before each club meeting. You will notice that this month each club is to elect a T. H. D. A. nominee who could go to Kingsville to the State Meeting in August. All of these nominees will be presented at the June Council meeting and Council will elect three from the six to attend the state meeting.

I'm afraid we made a mistake in figuring the basket handles. We all measured enough reed for one handle and if you will remember Mrs. Kincheole and Mrs. Lyons put two handles on each basket. I am sorry that some of us did not catch this error sooner, but since we didn't, you will need to come by and get the rest of your material for the handle.

VIVIAN H. D. CLUB

Highlights of the state meeting to be held in Kingsville in August was given by Miss Myrtle Fish.

The next meeting will be with Miss Bernita Fish on June 12 at which time baskets will be made. Roll call will be answered by a favorable Bible story and the program will be based on the Bible.

A rising vote of thanks was given Mrs. Haynie, who at present is not a member, for entertaining the club.

Those present were Mrs. C. W. Carroll, Mrs. Claudius Carroll, Mrs. H. W. Dawson and June Carroll of Crowell, and Nancy Hallmark, Carol Bell and Joylyn Haynie, and the following members: Mrs. Darvin Bell, Mrs. Johnnie Marr, Mrs. Allen Fish, Mrs. J. W. SHORT-TEMPERED BURGLAR

Pickneyville, Ill. — The short-tempered burglar didn't like it when he found only 30 pennies in the cash register of a cafe here so he proceeded to:

Smash 10 dozen eggs.
Throw three cream pies onto the floor and hurl hamburger meat against the refrigerator windows.
Pour vanilla extract on the chili and boiled ham, and on the pork and beef roasts.
Pour flour, tea, and sugar on the floor, then top it off by dumping a sack of sugar on the silverware.

1952 Bass Spawn Hurt by Cold

The Chief Aquatic Biologist of the Texas Game & Fish Commission reported that the 1952 bass spawn production slumped in mid-May after a bad early season showing.

He blamed cold weather for loss of eggs in several hatcheries and said the experience seemed to point up the importance of the temperature control regulator being tried out at San Marcos Fish Hatchery.

But the Chief Aquatic Biologist said plans are being made to assign aquatic biologists to the hatchery staffs next season to try to determine if dietary deficiencies in brood bass are partly to blame.

He said normal early spawn production was reported by only two of the 11 state hatcheries

in operation—those at Brownville and Jasper. The two hatcheries temporarily suspended Cisco and Medina. Water shorts closed both this year as well last.

The Chief Aquatic Biologist said brood bass began spawning again about mid-May at several hatcheries after the weather cleared off following seasonal fluctuations.

He cited the San Antonio hatchery which lost much of its spawn apparently because of spells. He said the good stock brood bass in that hatchery may possibly a substantial batch of spawn which began appearing about May 13.

The Chief Aquatic Biologist said no expansion in the temperature control plan is planned for the present pending further study of results as demonstrated at San Marcos.
