Four other irrigation wells were started this week and will probably be producing very soon. One is located on the Sterling Robinson farm 1/2 mile northeast of Groesbeck store and another is on the Allen Cunningham farm 6 miles northeast of Quanah. The others are located on the Key Dennison farm 4 miles south of Quanah and one on the Bill Griffin farm 2 miles east of Quanah.

April 1 Deadline for Getting Auto Safety Stickers

In a survey made by the News this week it was revealed that many motor vehicle owners do not yet have their safety stickers. The law requires that every motor vehicle operated on the public roads of Texas must have the safety sticker on the motor vehicle by April 1, 1954. It is reliably estimated that there are approximately two hundred motor vehicles in the county that do not have safety stickers. Several motorists have reported that they have been stopped by officers and warned to get them before the deadline.

Reliable information is to the effect that on April 1 all Highway Patrolmen will stop vehicles without stickers and the owners will be subject to the penalties of the law.

The law requires that the lights, horns, tail lights, stop lights, brakes and windshield wipers be in good repair. The three official testing stations report a decline in the number of people applying for stickers. Unless motor vehicle owners get stickers at once, the testing stations will not be able to take care of all of them on time to meet the deadline on April 1.

It is hoped that Foard County will be 100 per cent in compliance with this safety law.

3,467.1 Additional Cotton Acres for Foard County

Recently enacted legislation increased the acreage allotted to Foard County from 12,340 acres to 15,807.1 acres. All necessary calculations to meet the 65-40-47 requirement for all eligible farms have been made and revised notices have been mailed to all farm operators in the county. This does not mean that all farms in the county received an increase in allotment; however, no allotments were decreased from the original notice.

Farmers wishing additional information concerning the 65-40-47 requirement are invited to call at the local ASC office.

Local Telephone Co. Seeks Higher Rates for Service

On Tuesday evening of this week, March 16, representatives of the General Telephone Company of the Southwest, J. A. McCrum Jr. of San Angelo, D. R. Mortimore, district manager of Seymour, and Martin Wagnon of Crowell, formally presented a request for an increase in local service rates to the City Council of Crowell.

In Mr. McCrum's presentation, he stated that the telephone company only made \$592.08 here for the year ending Sept. 30, 1953. He also stated that under present conditions, the telephone company is making only \$307.48 annually. "The new rates would produce earnings of \$6,907.00," Mr. McCrum stated.

He further stated that adequate revenues are essential to enable the telephone company to meet its responsibilities to its Crowell customers.

The proposed hand set rates are: business, one party \$12.00, two party \$10.00; residence, one party \$6.00; two party \$5.25; four party \$4.50.

At the March 16th meeting, there was no action taken by the City Council and the matter was deferred to a later date.

C. H. S. Contest Play to Be Presented Friday Morning

Crowell High School's one-act play entry for District Interscholastic League meet, March 21 and 22, is a cutting from "Children of the Moon," a three-act tragedy, based on the idea of the power of suggestion planted in a sensitive, impressionable mind.

The story of the play centers around the Artherton family who have lived for years on a lonely, rugged seacoast. The action of this drama, written by Martin Flavin and produced by arrangement with Samuel French, New York, has been placed in a late afternoon and evening of a present day.

Mrs. Elmo Todd, director of the one-act play, states, "This play, the most difficult from a dramatic and technical standpoint, attempted in the past four years, will be portrayed by students who will be making initial performances in one-act play contests."

The cast of characters has been selected by Mrs. Todd and follow in order of their appearance: Dr. Wetherell, Joe Don Brown; Madame Atherton, Carolyn Bursay; Thomas, Aldon Garrett; Jane Atherton, Francine Coffey; Major Bannister, Robert Graves; Laura Atherton, Roma Jan Spikes; Judge Atherton, Gordon Graves; and Walter Higgs, Devin McAnally.

Members of the cast will do their own make-up and costumes. David Jackson has been assigned the multi-dexterous task of sound effects man while Devin McAnally will act as electrician. Stage manager Aldon Garrett will be assisted by Joe Don Brown and Robert Graves. Lena Faye White, preliminary prompter, will assist Lavoy Rummell with properties. Cast is indebted to Chun Gafford for scenic design.

First performance of this play has been scheduled for Friday, March 19, at ten o'clock a. m.

Lions Club Installs Trash Containers on Down Town Streets

The Crowell Lions Club, with the permission of the City Council, has recently placed three trash containers on the main downtown streets of Crowell in an effort to help keep the business section cleaner and more attractive.

These containers are placed at equal intervals on the west and north sides of the square so that they will be more convenient for the public to dispose of chewing gum, candy wrappers, and other trash or garbage.

It is hoped that people will think to use the containers and help keep the streets clean.

A large number of visitors were present at the noon luncheon of the Rotary Club of Crowell Wednesday. Rotarian John M. Mouser of the Wichita Falls Club, and his son, John A. Enlistees in Army Have Choice of Several Branches

Young men who are qualified for enlistment in the Regular Army may now enlist for a certain branch of the Army rather than enlisting in the Army unassigned, according to Sfc. Jack Bailey, local U. S. Army and U. S. Air Force recruiting sergeant.

Branches of the Army that are now open for direct enlistment from civilian life are armor, artillery, engineer corps, infantry, medical corps, chemical corps, military police corps, ordnance corps, quartermaster corps, signal corps, transportation corps, and the adjutant general corps, the sergeant said.

Any one who would like more information about these enlistments is invited to contact Sgt. Bailey at Childress or see him each second and fourth Thursday when he will be in Crowell.

Typewriter Operator Sick Delays Week's Issue

The News' Linotype operator, Bill Klepper, entering the hospital with pneumonia Monday of last week, the remainder of the week, including Mrs. Grady Halbert, who was in the hospital on time. However, the paper printed and in the morning instead of Tuesday afternoon and most subscribers in the immediate vicinity got their papers on time as usual.

Norwood, Linotype operator at the Vernon Daily Record, was in the hospital for five hours which was appreciated and provided necessary boost needed to get paper on the press.

Wholehearted cooperation of advertisers in getting their ads earlier was also a great help.

Remained in the hospital a week and on Monday morning came to the office as new and feeling that he had a good vacation.

Operating a Linotype is hard any time, but when one is of practice and under stress T. B. K. found himself, the dials build up in a hurry. However, burned fingers from long hot Linotype slugs, was all the damage done.

ONE OF FOARD COUNTY'S MOST DISTINGUISHED CITIZENS

Leu Ellen Young Roberts, one

of the few remaining people who attended the old Crowell College, came to Foard County in 1892. She entered the third grade with Mrs. Bert Self and Mrs. Carrie Hart. In Mrs. Roberts' day there were no graduating exercises or senior trips, but at the close of each school year honor pupils were selected from the different classes. These honor students, of which Mrs. Roberts was usually one, were rewarded with a trip to Quanah. They went to Quanah in a wagon and had their pictures made. Mrs. Roberts says, "We studied most of the courses that you study today, but there was no chemistry offered until our present day school building was built." She studied Latin, Greek and Caesar. Although trigonometry was offered, Mrs. Roberts didn't study it. In the fall of 1898 Crowell College burned. For the remainder of the year the students had school upstairs in the courthouse. The next year the advanced pupils went away

to school. The superintendent of Crowell College went to Clarendon where he was the first superintendent of Clarendon College. Mr. Roberts and Bert Self went with the superintendent to Clarendon. Mrs. Roberts and a cousin went to Lockney Christian College, which was comparable to the Wright Hotel (in Crowell) in looks and size. The trip to Lockney, which was made in a wagon, required three days. They saw only one person from Crowell during a period of nine months. The next year the new school was completed, and the students returned home.

In 1901 Mrs. Roberts took the County Teacher's Examination, and she received her first teaching assignment at Diantha, which was ten miles south of Thalia on the Seymour Highway. She received thirty-five dollars a month of which eight dollars was spent for room and board. The people in the communities boarded the teacher. The family with which Mrs. Roberts stayed lived in a half dugout, and she had the room on top which was on the level with the ground. Mrs. Roberts says that this was typical of country homes at this time. In the summer of 1902 she went to Denton to North Texas State College and attended what was called Summer Normal. Following this Mrs. Roberts taught four more years. The social highlight of the week was on Saturday when her beau came for her to take her home to spend the week end.

About this time play parties came into being. At a play party they danced to singing such as "Josie" and "Skip to My Lou." At one of these parties someone substituted a french harp for the singing, and they danced to music. Gossip got out that the young people were dancing, and the preachers preached sermons directly to them. Actually, they hadn't done anything that they hadn't done before; they had just substituted the harmonica for the singing. Socials then became popular. At a social the young people talked and played games. Mrs. Roberts says that refreshments were unheard of except for candy pullings. In that day there were no telephones; therefore, dates were made by notes. The boy sent the note by a friend who rode over on a horse, gave the note to the girl, waited until she had written a reply, and brought the note back to him, and brought the girl rather go with the messenger, and while the messenger was waiting for the reply, they did some courting. Mrs. Roberts described a typical date as follows: there was nothing to do except go to church, sometimes a party, and occasionally a traveling show. The couple either had to walk or go by horse and buggy.

It wasn't unusual for a girl to tear a ruffle off her long petticoat on one of the many me-squites while walking, but they didn't have to worry about getting a runner in their twenty-five cent cotton hose. After the main event of the evening was over, they had their favorite drinks, strawberry glassade or a Dr. Pepper. On Sunday afternoon the beaus often took their dates riding out by Sloan Springs or to Bell's tank. Travels consisted of a trip to Quanah once or twice a year on a freight wagon. She can recall that the outstanding event of the year occurred when Molly Bailey Circus came to town.

Lou Ellen Young was married in 1906 to N. J. Roberts. They went to New Orleans on their honeymoon where they rode, for the first time, in an automobile. After they returned to Crowell, they built their home on First Street near of Logan and First Streets where they have lived for over 48 years. Mrs. Roberts has been engaged in the same business all during their married life. Three children were born to them, and they all graduated from Crowell High School.

Mrs. Roberts' activities and achievements are many. During the first World War she was county chairman of the Red Cross. She has been a member of the Columbian Club since 1911, served as its president, was county chairman of George Washington's Bi-Centennial in 1932. While county chairman in 1936, she had the historical markers placed over the county. She has taught a women's Bible class at the Christian Church for thirty years. She is a charter member of the Garden Club and has served as its president. Mrs. Roberts' pet hobby is taking care of the cemetery. She has served as president of the Cemetery Association for many years. Flowers are also one of Mrs. Roberts' favorite pastimes. Mrs. Roberts is a very lovable person who has always had the interest of others in her heart, and received the appreciation of the people of Foard County in 1949 when they voted her the most distinguished citizen in Foard County.

FUNDAMENTALS FULFILL FOUNDATION FOR FUTURE

One cannot pick up a magazine or newspaper these days without reading an article on our schools. A recent editorial in the Dallas News stated that from now on, SMU will require four credits in English for entrance regardless of the high school. In the March 19 issue of Collier's magazine, an article has been written on Boston Latin School, a high school that prepares students for entrance, especially to Harvard or Yale. Many schools today are not teaching enough basic courses such as mathematics, history, English, science and foreign language. Students in some large schools take most of their credits in courses such as effective living, glee club, dancing, and many others. One school in Denver gives credit for boys' fudge making. These courses are "snaps" or "breezes" and are very popular with the students just because they are easy. Boston Latin School, the most popular in the entire city of Boston, requires from seventh to the twelfth, six years of English, six years of Latin, five years of mathematics, four years of history, two years of general science, three years of French, two years of Greek or German, and one year of physics. As one can see, this is a rigid schedule. Band and other activities are after school.

Of course, we do not think the above schedule would be practical for a small school; however, we are proud that CHS does require a practical amount of credits.

Interviewing boys from the school passed on the campus or in bull sessions, some made the following comments on why they attended Boston Latin School.

"I'll tell you why we came here," said 17 year old Paul Brass. "It's to train the old thinking apparatus, the same as a football player trains his muscles. After a boy gets out of here, he can apply himself to most anything."

"You learn to work here. You learn that you don't get anything for nothing," said James Killalea, 18.

Mitchell Samuelson, 17, summed up, "There's no short cut to an education. It's hard work—but that's what we came here for."

Surely we should stress fundamental basic subjects that develop thinking. As Robert Maynard Hutchins, former chancellor of the University of Chicago, said: "To destroy the Western tradition of independent thought, it is not necessary to burn the books. All we have to do is to leave them unread for a couple of generations."

THIS, THAT AND THE OTHER

Everyone is excited as the Junior-Senior banquet and prom are only a few weeks away! Better hurry and make those dates, boys, or you'll let someone get the jump on asking your best girl.

The band has had a very busy week. All solos, ensembles, and the entire band performed for the Lions Club Tuesday and the Rotary Club Wednesday. Thursday they will present a concert to the student body, then last but certainly not least, they are entered in a contest at Memphis which they will attend Saturday. In concert, sight reading, solos, and ensembles, they will be striving to bring back some first places. Who's that tall, dark and hand-

some sailor roaming the halls of CHS? You guessed it! It's none other than J. P. Bartley, who has been in the Far East for quite a long time. Welcome home, J. P.!

??? THE SHADOW ???

On Monday, March 15, this senior boy wore a blue shirt, levis and brown shoes.

The first period you went to Foard City to take a flower to Mrs. Grady Halbert where you were excited to see a railroad car off the track. How did it get there? The Shadow Knows.

Second period you came to physics late, tried to sneak in and when you were caught told Mr. Welch that Henry was not in the office. You tried to distract the class by telling about the railroad car; why did you do it? The Shadow Knows.

The third and fourth you went to typing where you slipped out of class to visit. What were you talking about? The Shadow Knows.

You weren't very good the fifth period in Mrs. Sloan's English class. You do stay put, don't you? The Shadow Knows.

The sixth period you went to study hall where you should have studied your geometry, but talked with a friend. Who was she? The Shadow Knows.

The seventh period you went to Mrs. Davis' geometry class. Did you know your lesson, and what was that you were griping about? The Shadow Knows.

You, like all true Wildcat seniors, left school. The eighth period you sat in a car on the parking lot and visited with Buddy Caddell and some other friends. What were you wishing for? The Shadow Knows.

You are one of the unfavored ones who had to ride a bus, so you got on Allen's bus and went home. Were you a good Wildcat? The Shadow Knows.

You may be the next one to be shadowed, you never can tell, but—The Shadow Knows.

CHS' FUTURE ARTIST

The topic of our discussion

this week is the sophomore class secretary whose greenish brown eyes, big friendly smile and blond poodle cut identify her as Doris Cates.

Doris is a versatile young lady who always seems to be happy when everybody else is blue. She will tell you English is her favorite subject while Texas history is her hardest.

This fuzzy headed gal combines a love for art, jazz and pop music, fried shrimp, swimming and Bud Hammonds to make a good time all the time.

She told us that when her two remaining years in high school were finished, she would like to combine homemaking and illustrating as a career.

SPRING DRAWS CREW OF ASPIRING NETTERS

One of the many spring sports that are being played by the local high school students is tennis. At the present time there is only one court in playing condition; nevertheless, instructor Eddie Rickard has quite a few net men and women out under his supervision. The boys are Billy John Rader, Larry Johnson, Dale Keith Jones, Gerald McAnally, Mike Wilson, Gordon Graves, and Robert Graves. The girls who are learning the fundamentals and some experienced players improving their technique are Jean Whitby, Rebecca Calvin, George Ann Davis, Billye Bell, Carolyn Smith, Sue Meason, Gail Knox, Zonell Eddy, Carolyn Bursay, and Frances Kincaid.

From the turn of things so far, it looks as if Mr. Rickard will have ample material to build his district tennis teams.

THE CAT'S PURRS

All the juniors and seniors are worried about having the mumps in time for the Junior - Senior banquet, but you know how it is, if you gottum, you just gottem.

What's this we hear about Eugene and June, could this be a new twosome around CHS? What happened to your car Friday night, Fred?

George Ann has a new admirer, Glyndon Johnson.

Charlene has added another one to her collection, Dick, a burn from Vernon.

Seems as if Mrs. Sloan is music with her poetry during period. What about that, kids? Seen in the show Saturday were Carolyn and Jimmy, Jean and Jimmy Everson, Jean and Jimmy Everson, Jean and Jimmy Everson.

New, roomier bodies!
New, rugged construction!

New Chevrolet Trucks...
do more work per day... more work per dollar!

You save extra trips. That's because of the extra load space you get in the new Advance-Design bodies. New pick-up bodies are deeper, new stake and platform bodies are wider and longer. Also, they're set lower for easier loading.

You save hours on the road. Thanks to new high-compression power, you can maintain faster schedules without driving at higher maximum speeds. Increased acceleration and hill-climbing ability let you save time where it counts.

You save time on deliveries. With new truck Hydra-Matic transmission, you save time at every delivery stop. And you can forget about clutching and shifting for good! It's optional at extra cost on 1/2-, 3/4- and 1-ton Chevrolet trucks.

You save on operating costs. New power saves you money every mile! The "Thriftmaster 235" engine, the "Loadmaster 235" and the "Jobmaster 261" (optional on 2-ton models at extra cost) deliver increased operating economy.

You save with lower upkeep, too. Extra chassis strength saves you money on maintenance. There are heavier axle shafts in two-ton models... bigger clutches in light- and heavy-duty models... stronger frames in all models.

And your savings start the day you buy. In fact, they start with the low price you pay and continue over the miles. Chevrolet is America's lowest-priced line of trucks. It's also the truck that has a traditionally higher trade-in value.

Come in and see all the wonderful new things you get in America's number one truck. We'll be glad to give you all the money-saving facts.

Fort Worth — Movement of sheep and lambs to market continued at a fairly heavy pace at Fort Worth as the week's trade opened to around 7,500 sheep in the yards.

Woolled fat lambs of good and choice kinds sold from \$21 to \$22.50, the higher price on some club lambs from Cottle County, and some other choice woolled club lambs from Dickens and Kent Counties topped at \$23.

shorn lambs sold from \$15 to \$20.25 and woolled feeders reached \$21.

New crop milk fed lambs of good and choice kinds sold from \$23 to \$25, and the medium and lower grades sold from \$16 to \$22. Pearl and two-year-old wethers sold from \$15 to \$17.50, and aged wethers cashed at \$10 to \$14. A few slaughter ewes sold from \$7 to \$9.

The apparent scarcity of lambs for current marketing has led some observers to express the view that some of the fleshy lambs would do well with a quick turn in the feed lot here in the Southwest.

Reasoning behind this is the fact that the next liberal offering of fat lambs is due to come from the Southwestern area and the big movement of the Tennessee and Kentucky lambs will not be felt until late May or early June in the view of present conditions.

Cattle trade was again featured by highly sensitive reaction to supply and demand. Fed steers and yearlings were steady to 25 or 50 cents lower, and some of the medium to good kinds of lighter yearlings were fully 50c off and instances more. Many of these apparently had a wheat or oat pasture background and they were relatively numerous.

Cows were largely steady, though some buyers talked lower and bought a few that way. Bulls were steady. Slaughter calves got away about like late last week, some of the not-so-good heavies inclined lower with light yearlings of the same caliber.

Stocker trade was again featured by narrow outlets for most kinds. Choice quality got good action at steady prices, and the others were inclined to trail along with the slaughter market, and sell at or near their packer values.

Good and choice fed steers and yearlings drew \$18 to \$22 and some club steers drew \$19 to

Why value-wise buyers are swinging to Ford!

They are finding that Ford brings them everything they might want to meet modern tastes and requirements

You can't buy better! It's the stunning Customline Fordor Sedan.

Ford's the only low-priced car with all these "Worth More" features

Recognized leadership in styling

You can pay more but you'll never find a car that's more "at home" wherever you may drive it. For the smart new '54 Ford is as modern as tomorrow with the crisp, commanding lines of today's style leader. And it's just as smart inside! The sparkling new decorator-designed interiors have colorful new upholstery fabrics and harmonizing trim that spell quality wherever you look.

Choice of most modern engines

Ford and Ford alone, in the low-price field, offers you a choice of V-8 or Six — the brilliant new 130-h.p. Y-block V-8 or the flashing new 115-h.p. I-block Six. Both Ford engines have rigid, extra-deep blocks for smoothest, quietest operation and extra-long life... plus

the savings and "GO" of modern, short-stroke, low-friction design.

Ball-Joint Front Suspension

For the first time in any low-priced car, you get the smoother riding and easier handling of Ball-Joint Front Suspension — an advance you'd expect to find only in the costliest cars.

Choice of 5 power assists... including Fordomatic

Only Ford in the low-price field offers power on all four windows... a 4-way power seat which adjusts up and down as well as forward and back. Power steering, power brakes and versatile Fordomatic Drive are also available — and they make your fine Ford even more fun to drive.

Choice of 28 new models

With fourteen stunning body styles available with either of Ford's new engines, Ford offers the widest selection of models in the entire industry.

Top value at resale

Used car prices show that in recent years Ford has consistently returned a higher proportion of its original cost at resale than any other car. And for 1954, with all its advanced new features, Ford is worth even more.

We cordially invite you to Test Drive the 1954

Harvey J. Crosnoe Announces for Pre. No. 3 Commissioner

The News is authorized this week to announce the candidacy of Harvey J. Crosnoe for the office of Commissioner of Precinct No. 3 of Foard County, subject to action of the Democratic primary in July.

In announcing for this office, Mr. Crosnoe made the following statement:

"I am a native of Foard County, graduated from Crowell High School with the class of 1941, and have lived in the county all of my life.

"I have had some road construction experience and feel that I am capable of handling the duties of the office in co-operation with the county judge and the other commissioners, provided I am elected.

"I respectfully solicit the vote and influence of the voters of this precinct."

Home Demonstration Notes

MRS. MARY D. BROWN

Next Wednesday, March 24, we will attend the District THDA meeting in Seymour. So far as I know, about 16 club members plan to attend this meeting, and I am sure they will all enjoy it. The meeting will start at 9:30, I believe, and registration will be from 9 to 9:30. So we will need to leave here about 7:45 a. m. that morning.

At that meeting we will need to report if anyone from this county is interested in chartering a bus to the State Meeting in Dallas in August. Mrs. Callaway, THDA chairman, told members of council about it earlier, but so far as I know no one has reported that she would be interested in doing this. If you think you would like to go by bus, then please let Mrs. Callaway or me know before March 24.

Our recipe this week is for Rice and Meat Salad

1 1/2 cups cooked rice, 1 1/2

Sunday. Carole Sue Fisch of Crowell visited her cousin, Terri Thomas, Friday afternoon.

Mr. and Mrs. James Sandlin and daughters visited her parents, Mr. and Mrs. G. C. Owens, of Foard City Monday night.

cups cubed chicken, turkey or drained flaked tuna fish, 1 cup cooked peas, 1 cup raw carrots, shredded, 1/2 cup French dressing, 1/4 cup chili sauce, 1/2 teaspoon salt, 1/2 teaspoon curry powder, if desired.

Mix chilled rice with the meat and vegetables and toss lightly to blend. Add chili sauce, salt and curry powder to the French dressing. Pour over the salad ingredients and toss to mix well. Chill. Serve on salad greens. This recipe comes in handy with left-over chicken or turkey or works equal-

ly well with canned tuna. Serves eight.

CARD OF THANKS

Words are inadequate to express the appreciation and full thanks we have in our hearts to the friends who ministered to us in any way during the illness and at the passing of loved one. The cards, flowers, food, sympathy expressed in any way, are deeply appreciated and we ask God's blessings upon each one. The Family of T. L. Hughes

OIL STORAGE TANK RESEMBLES PLANETARIUM

A new type of oil storage tank, which looks like a planetarium, is being used by an oil company. The round dome topping the tank serves to collect and conserve vapors which otherwise would escape into the atmosphere through vents in conventional type roofs. Such innovations are being constantly developed by America's hundreds of oil business, because they work without the hampering strings of government restrictions which slow progress in other countries.

Mrs. August Rummel honored her husband on his birthday Sun-

day. Farm Income: Almost everybody knows farm income in 1952 was lower than farm income in 1951. Individual farmers in Texas are sharply aware of that fact.

In the nation, farmers last year retained as net income the largest percentage of their gross income that they have retained in any year since 1948.

Farm Spending: What the farmer spends in his operation is mighty important to the national economy—to all of us. The farmer is a good customer. Last year he spent 14.2 cents of every dollar spent at retail in the United States.

The farmer in 1953 spent \$3.1 billion dollars for goods and services of all kinds. Here where some of it went: \$3.1 billion for food; \$2 billion for machinery, appliances and house operation; \$2.1 billion for buildings and repairs to buildings; \$1.1 billion for clothing; \$3.2 billion for machinery, including automobiles; \$3 billion for gas, upkeep of equipment; \$4 billion for feed; \$1.6 billion for stock; \$1.2 billion for fertilizer and lime.

Concerns All: Those who sense why it is just plain sense for everybody to be concerned when the farmer's income goes down. If it goes down, stays down, everybody is trouble.

That is why we must make new farm legislation do more than the economic rug out from under the farmer. That would be bad for all of us.

Water: "We must store water or starve." That is a Texas friend recently wrote. He is completely right.

One part of the solution to our water problem lies in stream water control projects over Texas. I mean such projects as that in the Brady Creek watershed, where it is proposed to build 47 water-retarding structures.

day evening. Refreshments: sandwiches, cake and Cokes served to approximately 100 guests.
