on the root system. Grubworms are the larval or grub stage of June Bugs or May Beetles. The more common species which occur in this area stay in this worm stage for two or three years, and sometimes even longer, depending on moisture conditions, food supply, etc.

Wireworms are larval or worm stage of Click Beetle and they also stay in the worm stage from two to three years or longer feeding on the roots of plants.

These pests are most likely to be found in fields where large amounts of organic matter, such as weeds or crop residues, is plowed under. If you have considerable damage from these insects one year you can usually expect damage the following year or two also.

Fortunately, both of these pests can be effectively controlled with a seed treatment of BHC or Lindane. If you use BHC, be sure to go by the per cent of the gamma isomer of BHC rather than the total per cent of BHC as it is this ingredient that kills the worms. Many times the label will read 10 or 12 per cent BHC when the actual content of the gamma isomer is only one per cent or so. Not less than a 10 per cent gamma isomer of BHC should be used because a lower grade product might affect the germination of the seed and such large amounts would be needed for the proper dose that it would be hard to mix with the seed. A wettable powder or dust should be used rather than the liquid.

Dosages to use are as follows: One-half pound of 25 per cent Lindane per 100 pounds of seed. One pound of 12 per cent Lindane or gamma isomer of BHC per 100 pounds of seed. One and one-fourth pounds of 10 per cent Lindane or gamma isomer of BHC per 100 pounds of seed.

Dick Todd Resigns as Head Coach of Washington Team

Dick Todd turned in his resignation last week as head coach of the Washington Redskins and is now here tending to his farming and ranching interests. The former Crowell High School standout, later an all-American selection at Texas A&M, elected to give up coaching for the present time and return to start work toward putting into cultivation a large amount of acreage of his 2,000-acre ranch near Good Creek.

"The Inside Story," a daily column written by Charles Burton of The Dallas Morning News, had Todd's resignation as his subject in Monday's edition. Mr. Burton stated, "You may expect Dick Todd to return to football, though probably not this season, for he is too fine a young coach to let go to waste." He continued the story by relating, "The rout of the Redskins by the San Francisco 49'ers and the Los Angeles Rams in their opening exhibitions had nothing to do with it. In fact he turned in his papers to George Preston Marshall, the magnificent impetuous owner of the club, several hours before the clash with the Rams."

"Todd, never one to speak unkind words about anyone, refused to say why he broke with Marshall. Asked directly if Marshall was interfering with him, Todd replied, 'Naw-w-w I wouldn't say that. I've just got a lot of work to do here on the place,' and with that paragraph the author concluded the Todd resignation."

Bass Bruised in Rush for Food
Shades of the old fishin' hole! Voracious bass strike so hard at food tossed into the Jasper State Fish Hatchery ponds that they often collide with harmful results.
The big breed beauties compete for food particles so consistently that it's understandable why anglers sometimes nail two bass with one cast.
An eye-popping demonstration was provided by Bill Byerly and Joe Allen of the hatchery staff.
"Watch this," suggested Byerly, as he tossed in a handful of chopped rough fish. Dark streaks flashed from the depths to snatch the morsels before they sank.
Action was so furious by bass ranging up to nine pounds that water was splashed on visitors standing twelve feet away.
"Listen to this," suggested Byerly, flipping in two pieces.
Huge bass sliced the water. Spray flew.
"Hear that bump!," exclaimed Allen. There was definite sound of contact.
"Hit so hard they sometimes rip their scales," said Allen.
"Fungus may develop in the bruised areas and even prove fatal."
Hungry bass, observed Allen, know no caution.

Health Letter

Texas State Department of Health, Austin, Texas, Geo. W. Cox, M. D., State Health Officer.

State Health Officer Geo. W. Cox has called for "less concern about so-called federal domination" of the state's business and "more positive action" to prevent it.

In a written statement to the Dallas Times-Herald, the veteran of 18 years of fighting the battle for public health said his position

on the propriety of receiving federal money was clear:

"I want my state to maintain its prestige, dignity, authority, and ownership of the state public health program," he said.

A previous statement to the effect that he didn't see anything wrong with accepting federal funds "except that we don't get enough of it" had been widely circulated by the Associated Press.

The Dallas Times-Herald editorialized on that view.

"Federal domination must inevitably develop as long as the state's public health money continues to supplement the federal public health money. The reverse should exist," he wrote, "with federal money supplementing that provided by the state."

"It is no less than like a stock company or corporation—the chap who owns the majority of stock will no doubt want to direct the operation. My position is that I want my state to maintain its prestige, dignity, authority, and ownership of the state public health program."

Dr. Cox has already made known his intention to wage a vigorous campaign for a 50c per capita legislative appropriation when the legislature convenes. The department is now operating on about 20c per capita, far beneath the national average of 62c per capita.

He said that is the reason he has been obliged to accept federal funds to keep the state's public standards up to par. But it is a

situation which can be corrected, he believes.

"If the legislature agrees to appropriate 50c per capita to operate on, then we'll be in a better position to use federal funds for supplementing the state's program."

Tin Cup in Hand

One of the speakers at the recent convention of the Chamber of Commerce of the United States gave that organization, and the country, some straight, down-to-earth talk. William Book, executive vice-president of the Indianapolis Chamber of Commerce said that local chambers have incoherently demanded government economy even as they have asked for more and more tax money for local projects. Then he added, "From one end of the country to the other they have all too often been waiting, tin cup in hand, on the doorstep of Congress or some Federal bureau for a handout; for a bit of aid to build a dike or a dam, to pave a road, to build an expressway, a school or a hospital. "Let's admit that economy begins at home. It begins with local chambers of commerce, among others."

The local chambers aren't the only offenders—not by a long shot. All manner of civic, business, agricultural, labor and other such organizations go piously on record in favor of rigorous government economy and debt and tax reduction—and then, in their next breath, clamor for handouts. And all too often Congress and the Bu-

And right here it becomes pertinent to repeat the old biblical admonition: 'Remove not, the ancient landmarks, which thy fathers have set.'"

Mebane, N. C., Enterprise: "When the average American's income begins to shrink . . . he looks for a way to cut expenses. But not so in Washington. Every time Congress suggests a small appropriation for any purpose, a bureaucratic howl rises. 'Tax and Spend' is still a popular song on the Potomac."

Brownsville, Pa., Telegraph: "We advocate an immediate and drastic reduction of government expenditures by abolishing useless commissions and offices, consolidating departments and bureaus and eliminating extravagance, to accomplish a saving of not less than 25 per cent in the cost of the Federal government." To refresh your memory, that was a plank in the Democratic platform just 20 years ago when FDR was nominated for his first term as President.

A false prosperity does exist, but it is built on pillars of sand and no sound economic development. It is bred of inflation and two decades of phenomenal government spending."

Yes, economy begins at home, in the grassroots. But we can't have economy for the other fellow—we will have it for all or for none.

Soil Conservation News of District

Lower Pease River Soil Conservation District. Lower Pease River District Board: W. C. Howard, Grady Halbert, O. T. Holmes, O. H. Brandon, H. L. Ayers.

Clipping studies were made of guar last week on Robert Streit's farm one mile south of Rayland. Mr. Streit is a cooperator with the Lower Pease River Soil Conservation District.

The clippings were made by technicians of the Soil Conservation Service to determine tonnage of green forage produced per acre. A small plot was clipped and weighed. In spite of the dry weather the guar produced 6 and one-fourth tons of green forage per acre.

Guar is an ideal summer legume for sandy soils. It is fairly drought resistant and produces good cover and adds large amounts of organic matter to the soil. The guar residue makes an excellent cover if left close to the top or on top of the soil to seed alfalfa or grass seed in.

Mr. Streit believes that guar is the answer to his problem in establishing cover on sandy soils and adding large amounts of organic matter in a short period of time. Some of the other co-operators in the district who have guar plantings are John Jokel, W. A. Dunn, Joe Coufal, R. H. Borchardt and Raymond Kubick.

Vetch, Austrian winter peas and Dixie Wonder peas are winter legumes which improve soil structure, breaks hard pans, adds nitrogen and organic matter to the soil. Vetch, Austrian winter peas and Dixie Wonder peas can be sown in crop stubble such as cotton and feed crop stubbles.

For more detailed information on legumes and seeding equipment see personnel of the Soil Conservation Service or District Supervisors.

CROWELL CEMETERY REPORT

The following persons have contributed to the Crowell Cemetery upkeep for the month of August: Beulah Patton of Paducah and Mrs. Vera Hannah, \$12.50; Mrs. J. L. Sallis, \$10.00; Louis Kempf, \$10.00; Dwight Campbell, \$5.00; and Wolford Thompson, \$5.00. Mrs. N. J. Roberts, president of the association, released the following information concerning the condition of the cemetery. "Since our last report, an attempt has been made to poison the johnson grass in the west section. This has entailed considerable expense, even though we got the poison at cost. Laniers furnished the spray and Henry Greening contributed the labor. Our water bill was higher than usual last month and the sexton hired and general upkeep expense must be met. "We have no means of financing this program other than volunteer contributions and sale of lots. The fence is only half built and new streets need to be opened. The west side needs to be surveyed, but unless friends come to our rescue, we cannot even maintain a sexton."

BUSINESS BRIEFS

Rep. Gardner Withrow (R-Wis.) was thumping through his newspaper a short time ago, and saw a junk dealer's ad offering used landing mats for sale. The mats in question are steel—the kind used by our armed forces for speedy construction of aircraft landing strips.

The Congressman checked up and found that the mats originally were sold by the Navy as surplus material for 67 cents a ton in 1947, and had since passed through several junk yards, with the price going up each step of the way. By the time he saw the ad, the asking price was \$75 a ton.

Further checking showed that the Army is now buying new landing mats and paying \$157 a ton for them, 67 cents—\$75—\$157. Can this be in the taxpayer's interest?

Health Letter

Texas State Department of Health, Austin, Texas. Geo. W. Cox, State Health Officer.

Typhus fever continues to make its appearance in various counties of Texas, says Dr. Geo. W. Cox, State Health Officer. Like typhoid fever, most cases appear during the summer and fall and all citizens are urged to help control the spread of typhus by assisting in exterminating rats.

"There is only one way in which Typhus can be controlled," Dr. Cox said, "and that is by, as nearly as possible, completely exterminating rats in the State, since fleas from infected rats transmit the disease to man. We can begin to visualize the extent of the need for extermination campaign when we realize that there is estimated to be 13,000,000 rats in Texas."

There has been some confusion concerning the type of Typhus Fever which is occurring in Texas, but Dr. Cox pointed out that this disease is entirely different from the old world type which has followed some of the armies in Europe. Ordinarily the kind of typhus in this section of the country is not a fatal disease, although there

Rialto Theatre to Aid in Fund Drive for Gonzales Foundation

Abe Willis, manager of the Rialto Theatre, announced this week that his theatre will participate in the 1952 Texas Theatres Crippled Children's Fund for Gonzales Warm Springs Foundation with audience collections during the week, August 31-Sept. 6.

Glamorous Screen Star Joan Crawford and former Gonzales patient Beverly Mills of Smiley, Texas, will appear in the special theatre movie produced at RKO Studios by director David Miller. Miss Crawford, a native Texan, makes the dramatic appeal for financial aid for the treatment center where Texans of every race, color and creed are treated for polio and other neuromuscular diseases.

R. J. O'Donnell, vice president and general manager of Interstate Theatres, and Col. H. A. Cole, head of Allied Theatres of Texas, are co-chairmen of the theatre fund. In announcing the third theatre-sponsored polio drive, Mr. O'Donnell pointed out that this year, more than ever, treatment money is vitally needed at the Texas hospital.

"Unfortunately our great state has been harder hit by polio than any other in the nation," he said.

PASTOR ON VACATION

Rev. and Mrs. Barnard Franklin left Sunday night after church services for Winona Lake, Indiana, for a ten-day Bible School. They will visit in the East for several more days before returning to Crowell.

In the pastor's absence at the First Baptist Church, Sunday morning's service will be taken care of by the following laymen: Joe Burkett, Grady Graves and James Welch. Jeff Bell will be in charge of Sunday evening's service.

Sid Martin, District Missionary, will speak about the mission work in the Pacific Northwest at 11 o'clock Sunday morning, Sept. 7. Judge Leslie Thomas will speak at the evening service on that date.

"It's up to us, the citizens of Texas, to prevent a state of crippled boys and girls by helping to provide the additional treatment facilities they need."

Almost every theatreman in the state has pledged support of the drive to provide valuable equipment and bed space at the non-profit Gonzales Warm Springs Foundation.

Local residents may contribute at the theatre collections or may make checks payable to the Texas Theatres Crippled Children's Fund and mail them direct to headquarters at 1209 National City Building, Dallas.

500,000 PERSONS SAVED

Death and taxes may be inevitable—but the experts are beating the former.

Since 1913, the year of the formal organization of the safety movement, about 500,000 persons have been saved from accidental deaths.

From 1900 until 1913 an average of nearly 75,000 persons were killed in accidents each year—a rate of 85 deaths per 100,000 population. The toll would have reached 84,000 persons in 1914 if this rate had continued, but it was reduced to 79 and the death toll to 77,000—a saving of about 7,000 lives. Similar comparisons based on rates for succeeding years show that about half a million lives were saved by 1951.

Despite these accomplishments, "Accident Facts," the National Safety Council's statistical year-book, shows that one home in every five is touched by a serious accident each year.

Former students of a small col-
 lege in Iowa will recall a certain
 elderly professor of mathematics
 who frequently would stand near
 the door as members of the class
 entered the room. Then, as the
 final bell rang, he would care-
 fully step across the threshold. A
 student half way or more inside
 the room when the bell rang
 would be marked "on time." Those
 less than half way were marked
 tardy.

We used to laugh at the profes-
 sor, but we understand his little
 object lesson. And we remembered
 that being almost on time was not
 good enough in his class.

God's requirements, likewise,
 are absolute. Every living per-
 son — man, woman and child —
 is at this moment on either one
 side or the other of God's great
 indivisible line. On one side are
 those redeemed forever from the
 awful consequences of sin. On the
 other are those for whom judg-
 ment is as certain as death.

But see the great mercy of our
 loving, seeking God. Not one of
 us who has turned his back on God
 insulted His name and broken His
 laws need remain on the judg-
 ment side of the eternal dividing
 line, except by his own choice.
 Jesus, the Son of God, has Himself
 paid the awful penalty for our sins
 that "whosoever will" may cross
 the line on the basis of Christ's
 own payment. God's invitation is
 still, "Come—receive my Son as
 your Redeemer, and enter immed-

LET'S TALK LIVESTOCK BY TED GOULD

Heavy receipts again featured
 livestock marketing at Fort Worth
 and other points around the mar-
 ket circle. Prices of cows and
 bulls on Monday were 50 cents
 and spots \$1 lower, and grass
 steers and yearlings suffered a
 similar decline.

Values were uneven, however,
 with prices steady on good and
 choice fed cattle, and steady on
 good and choice fat calves. The
 medium and lower grade calves
 eased off 50 cents or more per
 hundred. High grade stocker cat-
 tle and calves ruled steady but
 the plainer quality was weak to
 lower.

The Monday reports from 12
 major markets showed the biggest
 cattle run of the season, over
 127,000 head, 28,000 above a
 week earlier and 54,000 ahead of
 a year ago on the same day.

Hogs topped at Fort Worth at
 \$21.50, around 25c lower. Sows
 were steady at \$15 to \$18.

Sheep and lambs were steady,
 except some of the lighterweight
 feeder lambs recovered some of
 last week's losses.

A few good and choice fed
 steers and yearlings brought \$26
 to \$32, a package weighing 904-
 pounds from H. M. Erwin, La-
 donia, at \$32. Common, plain and
 medium kinds drew \$15 to \$25. Fat
 cows drew \$15.50 to \$18, odds
 higher, canners and cutters got

at least the peace and joy and
 eternal security He bought for you
 on the cross."

Here are Jesus' own words of
 promise in the fifth chapter of the
 Gospel of John. Read them in
 your own Bible. "Verily, verily, I
 say unto you, He that heareth my
 word, and believeth on him that
 sent me, hath everlasting life
 (right now), and shall not come
 into condemnation, but is passed
 (immediately) from death unto life."

Have you crossed the line? Will
 you cross it now? "Believe on the
 Lord Jesus Christ, and thou shalt
 be saved" (Acts 16:31).

Miss Rosella Denton and Mr. Anderson Marry Saturday

Miss Rosella Denton, daughter of Mr. and Mrs. Jake Denton of this city, and Robert Anderson, son of Mr. and Mrs. George Anderson, also of this city, were married in a double ring ceremony performed Saturday evening at 7:30 o'clock in the Assembly of God Church with Rev. M. F. Hankins officiating.

Mrs. Paul Shirley profaced the ceremony with nuptial selections and accompanied Miss Peggy Weaver who sang "Because." She played the traditional wedding marches and "Always" during the ceremony.

The bride, given in marriage by her father, wore a ballerina length dress of aqua with the bodice of lace featuring a V-shaped neckline. The skirt of net over taffeta stemmed from tiny pleats at the waistline. She wore a corsage of white carnations and tiny red rosebuds.

Mrs. Lawrence Glover was matron of honor. She wore a blue taffeta dress with white accessories and a white rose corsage.

Attending the groom as best man was Lawrence Glover.

Mrs. Anderson, mother of the groom, wore a blue dress of dotted Swiss.

Immediately following the wedding the reception was held in the home of Mr. and Mrs. George Anderson.

A huge white bow with tiny streamers lay to the front of the flower arrangement.

Home Demonstration Notes

MARY DEEB BROWN

September is almost here and with it we will start our regular club meetings again. Many of us lose touch with each other during the summer months when we vacation, etc., so be sure that each member of your club knows when and where your first meeting will be. Also, now is an excellent time to ask that new neighbor to go to club with you.

I will meet clubs as follows: Sept. 5, Gambelville; Sept. 9, West Side; Sept. 11, Vivian; Sept. 16, Foard City; Sept. 23, Riverside, Sept. 26, Margaret.

The demonstration will be on accessories for your living room and will concern pictures, vases, lamps, etc.

As you know, Mrs. Glen Fox, Mrs. Archie Campbell and Mrs. J. C. Prosser were adult leaders for our 4-H Camp Aug. 18, 19 and 20. I'm sure all of the 4-H mothers will join me in a warm "thank you" to them. Being an adult leader at these camps is a great responsibility, but they all did a wonderful job.

This week I received the pictures I took at the Home Demonstration Club members camp Aug. 5 and 6. They are very good, and I feel that you will enjoy seeing them as much as I did. I plan to bring them with me to the September meetings.

PINK AND BLUE SHOWER

Mrs. R. B. Allen Jr. was hostess in her home Tuesday night at a pink and blue shower honoring Mrs. Dalton Coffey.

Late summer flowers were placed at vantage points in the entrance hall and living room.

The dining table, from which the guests were served, was covered with a lace cloth. On a reflector at its center was a pink train, the cars of which were filled with baby asters shading from palest pink to a rose hue. The soft glow of slender pink tapers in silver holders enhanced the arrangement.

After a game was played, gifts were brought in to the honoree in a baby carriage.

Misses Ora Mae Fox and Frankie Mabe then assisted Mrs. Allen in serving a salad plate to the following: Mrs. Coffey, Miss Francine Coffey, Miss Martha Rettig, Mrs. Gressie Erwin, Mrs. Jim Harper, Mrs. Charlie Huskey, Mrs. Eunice Jones, Mrs. A. L. Kelly, Mrs. Bill Gafford, Mrs. Alton Higginbotham, Mrs. Pete Holcombe and R. B. Allen Jr.

FOARD CITY H. D. CLUB

"You can easily personalize and add individuality to your garments with the use of your attachments," stated Mrs. Virgil Johnson to the Foard City Home Demonstration Club at the recreation room Tuesday afternoon, August 19.

Mrs. Johnson gave a complete and very interesting demonstration on the use of her sewing machine attachments. There was a group discussion of the different uses of attachments and of various ways of doing the same jobs. Stay with the method that is easiest for you," advised Mrs. Johnson.

The club voted to join the County Federation of Clubs. The next meeting, an all-day gathering at the recreation room, will be on Tuesday, Sept. 2. "Re-Upholstering" will be in charge of Mrs. Tom Callaway.

Eight members, Mrs. W. M. Cox, Mrs. W. L. Johnson, Mrs. Tom Callaway, Mrs. Virgil Johnson, Mrs. Laura Johnson, Mrs. Floyd Borchardt Sr., Mrs. E. V. Halbert, and Mrs. Fred Trawek, were present.
