## John W. Wright Attends March of Dimes Meeting

## Foard County March of Dimes Workers to Meet Friday Night

The future of the continuing fight against polio will depend in large degree on the success of the next January's March of Dimes, John W. Wright, Chapter chairman, said Wednesday.

Mr. Wright has just returned from a March of Dimes planning meeting in Dallas with Basil Conner, president of the National Foundation for Infantile Paralysis, which was attended by volunteer leaders from Texas, Oklahoma and South Arkansas.

"The Salk Polio vaccine marks a great step forward, but polio won't be until polio crippling is a thing of the past. That happens only when everybody is susceptible has been given the protection vaccine affords, and we have rebuilt the lives of thousands for whom the vaccine came too late.

Preparations for the 1956 March of Dimes will start immediately in Foard County, Mr. Wright said.

The Foard County Chapter will meet with Guy Todd, campaign director, on Friday evening at 8 o'clock and all chapter members are urged to be present.

He, along with three other men who had failed to produce drivers' licenses, were brought to Crowell by the officers.

After reaching the court house Humphreys darted down the stairs to the basement floor and escaped without being missed for a few minutes. ## Crowell Wildkittens Win District Title By Defeating Iowa Park Last Monday

The Crowell Wildkittens, coached by Gordon Erwin and Glen Taylor, won the IA-9 Grade School championship for the third straight year at Iowa Park last Monday night when they defeated the little Hawks 32 to 12. This left them undefeated with nine victories for the season.

Crowell went out in the lead early in the game when quarterback Ivan Cates teamed up with left end Bill Graves for a pass and run play that was good for 65 yards. The little Hawks tied the game up when their quarterback, Jimmy Banks, teamed up

with right end Tony Waters for 63 yards on a similar play. Roy Ford placed the Crowell boys back in the lead when he went four yards for a score. The game was again tied up when Waters traveled 46 yards on an end-around play. Crowell made it 18 to 12 immediately before the half when big fullback Duane Nichols returned the ensuing kick-off 54 yards to the three. Jim Henry crashed over for the TD.

The second half was all Crowell's with Nichols going four yards for a touchdown and also adding the extra point. The last TD came on a jaunt by Jim Henry from six yards out. The extra point was added by a pass from Cates to Graves.

Crowell's entire team played excellent ball and it would be unfair to mention stars. Fredrick Youree and Bill Graves played the end positions; Don Tole and Joe Barry, tackles; Jerry Eubanks and Jackie Hickman, guards; Thomas Crowell, center; and Ivan Cates, Jim Henry, Roy Ford and Duane Nichols, backs.

#### PREPARE YOURSELF!

In the future preparing for college while in high school will be a necessity. State University, because of the crowded conditions this year and because of the expectation of an even larger number next year, is giving aptitude tests in order to "screen" the students. Other colleges will probably announce similar plans later.

Recent report cards received by parents whose sons are attending A&M College have a grade with another grade listed beside it. The second grade is for class attitude and is marked important.

Many may say, "I don't intend college." How many who have gone to college on the G. I. Bill, do you suppose, have said the same thing? Many who have not planned to do so go to college.

High school students have often been told, "You're having the time of your life. Take advantage of it. Don't miss anything." Following this advice is extremely worthwhile if followed in the right manner; however, many of us think only of having a good time. Take advantage of your chances and prepare yourself now!

### JANIS CROWELL IS 1955 BAND SWEETHEART

In a beautiful ceremony held on November 18, Janis Crowell was crowned Wildcat Band Queen for the 1955 season.

Queen Janis chose for the coronation a bouffant black after six dress of taffeta. Her hat was cap style covered with brilliant turquoise blue sequins.

After circling the field in a red and white convertible, with Jerry Cates at the wheel, she stopped the car in the center of the field as the band played "Sweetheart of Sigma Chi." James Choate, president of the band, presented Queen Janis with a huge bouquet of spider mums that graduated in color from yellow to a deep bronze center. This lovely corsage, along with an honorary plaque, was given to Janis by the entire band.

Moderator for the annual affair was Eddy Rickard, band director, who introduced the queen, band president, and the junior and senior bands. This was the first time that the junior band has taken part on this occasion.

Janis, daughter of Mr. and Mrs. Marion Crowell, is a junior. She is presently serving as secretary of the junior class, secretary of the Junior Adelpian Club, and secretary of the newly organized Spanish Club. Serving as secretary of three different organizations must prove dependability with a capital "D."

Janis, having served as band sweetheart in 1953-54, is the only girl to be elected band sweetheart the second time.

#### NEWS, VIEWS AND INFO

It's now time for our mothers to plan our Thanksgiving menu, as we will be welcoming home our college sons and daughters for the Thanksgiving holiday whose high point of interest is the festive dinner table. Homemaking girls can probably offer their mothers new suggestions for the menu and the table decorations.

This writer supposes that many of you read recently in the paper about the little girl who was invited to dinner at her friend's house. As the friend's father bowed his head, the little girl asked what he was doing.

"Daddy said grace," the small hostess replied.

"What's grace?" asked the visitor.

"It's thanking God for your food."

"Well, what do you know," said the pagan guest. "We have to pay for our's."

The small hostess realized the difference when later the visit was reversed. Everyone sat down and began eating immediately.

The visitor inquired shyly, "Don't you say a prayer before meals?"

"No," mumbled the hostess.

through a mouthful of biscuit, "We don't take time for that." The visitor looked thoughtfully at the food and then said, "You're just like my dog. He starts right in!"

The paper brought out the fact that according to the Gallup Poll that four out of ten American families say grace at meals. Those who persist in the ancient custom form happy families, for it is still true that "those who pray together."

#### SPANISH CLASS ORGANIZED

The Spanish I class, under the sponsorship of Henry Black, met for the purpose of organizing a Spanish Club Monday, Nov. 21. Committees were selected to draw up a constitution, select a name, motto, colors, password and slogan.

Officers elected were Nelda Brooks, president; Elizabeth Davis, vice president; Janis Crowell, secretary; and Lowell Page, treasurer.

The first meeting will be held after the Thanksgiving holidays in the home of Nelda Brooks.

#### SENIORS SAY "THANKS"

We, the seniors, wish to express our greatest appreciation to Paul Taylor of Quanah, owner of the Chief Packing House, who donated enough wieners and chili already prepared to serve for two ball games, and to J. C. Autry of Mrs. Baird's Bread Co., who donated enough bread for every game this year. These people, along with many more, are greatly appreciated by the senior class. We also wish to thank the senior mothers who so willingly helped in every way possible to make the senior stand a success this year.

#### IT COULD ONLY HAPPEN TO FRESHMEN

The members of the freshman class met at 6 p. m., Nov. 14, in front of the school, ready for their hay ride. They finally got started at 6:15. After two break downs, they had to come back to town and get cars to go to a place north of Margaret, near Pease River. This is a party??? Nevertheless, the "kids" had loads of fun.

The sponsor, E. L. Rickard, and two room mothers, Mrs. Houston Adkins and Mrs. Gerald Knox, were responsible for the cats and drinks that added to the fun.

#### SENIORS OF THE WEEK

Gaylon Whitman, "Hey, stop that thief," comes the cry, and as the villain with the money bags comes running down the hall, you tackle him and victoriously yell, "Gotcha!" When upon turning him over, you discover that it's only Gaylon Whitman, senior treasurer. Don't feel too bad—it's happened before.

Nevertheless, if you think apologies are in order, just turn on that ole Southern hospitality and invite him to a fried chicken dinner. After the meal, pull up a chair for him, turn the radio on, and tune in Abe Lincoln with "the music that makes you glad or sad, but never mad," or give him a little time and then throw a "rip snortin', rootin' - tootin' hoedown."

If you've got a "ham" rig, Gaylon will want to fiddle with it. He's an electronics fiend. Naturally, he enjoys literature relating to science fiction and electronic theories. Math and geometry are his favorite subjects, while English and physics rate as his most difficult.

When asked about his future, Gaylon replied, "I don't know what I want to do yet or what college to attend." All I've got to say is that I'd like to be aboard his space ship on the first trip to the moon.

Francyne Coffey One of CHS's most popular personalities, Francyne Coffey, or Fran as her many friends call her, has blond hair and hazel eyes and was voted one of Crowell High's most beautiful girls for two consecutive years.

Anyone who has seen Fran "rooting" for the Wildcats during the three years she has served as cheerleader knows that her favorite spectator sport is football. She proved herself a real Texan when she listed horseback riding as her hobby.

When she isn't attending a Sub-

Junior Club, FHA, or Dramatic Club meeting, Fran enjoys listening to her favorite singer, Elvis Presley, sing her favorite music, "rhythm and blues," or reading some of Ray Bradberry's science fiction.

An active Thespian, Fran has starred in many of CHS's productions and she won a place on the all-district cast for her portrayal of Jane in "Children of the Moon" her sophomore year. She also served as call reporter her sophomore year and was scandal editor last year.

When asked what was her favorite type of clothes Fran grinned and answered, "Levis and a mouton coat."

A perfect meal to Fran would be one composed of shrimp, french fries and strawberry shortcake. Being a good student, her favorite subject is chemistry and her hardest is Algebra II. Ranger Junior College is the lucky school that she plans to attend next year, but it will be a long, long time before CHS forgets the warmth and friendliness of lovely Francyne Coffey.

#### TOM SAWYER LIVES AGAIN

#### CROWELL BOPS HENRIETTA

The Crowell Wildcats ended a successful season last Friday night with a 52-21 rout of Henrietta's Bearcats. The hard charging Cats from Crowell started fast and didn't stop until the final whistle. Senior fullback Ray Gibson led in scoring with four touchdowns followed by Roy Don Payne with two, Billy Everson and Dwayne Boren with one each.

The Cats from Henrietta were scoreless until the final quarter when they scored three times

against reserves. This victory left Crowell ranked third in district competition. Seniors who played in their final game were Ray Gibson, Floyd Bice, Dwayne Boren and Lindell McBeath. Seniors out with injuries were C. T. McDaniel and Jimmy Thaxton. These men will be missed very much next year. Defensive leaders Friday night were Jerry Pittillo and Louis Rettig. McDaniel's and Thaxton's positions were ably filled by Charles Todd and Billy Everson.

#### FUN AT THE CANTEEN

Loads of fun was had by all Henrietta and Crowell students who came to the canteen Friday night.

Music, whether fast or slow, was furnished by Eddy Rickard throughout the football season. Many thanks to Mr. Rickard and to the sponsors, Mrs. Lee Black, Mrs. J. C. Prosser, Mrs. Hallie Sanders and Mrs. J. B. Fairchild for helping to make it a success.

**Ballet Theatre-Berlin Appear in Wichita Falls December 2**

In addition to the several renowned American ballet companies brought to Wichita Falls in recent years and enjoyed by the people of this area, the Ballet Theatre-Berlin, one of Western Europe's most sensational modern ballet troupes, has been obtained to appear in the Memorial Auditorium in Wichita Falls Dec. 2, it was announced this week.

Arrangements for a Wichita Falls appearance of the famous company have been credited to Mr. and Mrs. Frank Pal, who conduct the department of dance in Midwestern University, and Miss Juanita Kinsey, MU dean of women and artists' course director. Frank Pal and Irina Kladiwova (Mrs. Pal "grew up" in the National Czech Opera Ballet of Prague), he to the status of choreographer and principal dancer, she to the rank of prima ballerina.

From 1945 to 1950 they were in Western Germany, and on numerous occasions worked in ball-standing solo artists who comprise the Berlin group.

Tickets for the Ballet Theatre-Berlin may be obtained at the Kreutz House of Music, 721 Tenth; the Norsworthy Music Center, 614 Ninth; or at Midwestern University.

**Playing Peek-a-Boo with Motorists Is a Deadly Game**

"Playing peek-a-boo with motorists is a deadly game!"

In these words, E. C. McFadden, president, Texas Safety Association, Inc., urged walkers not to obscure their vision with parcels as they cross streets.

"These and other careless walking habits have cost many pedestrians their lives," McFadden said.

He pointed out that walking becomes especially dangerous at this time of the year when rain and ice make visibility poor and footing precarious. These weather conditions, he said, also make it difficult for motorists to see pedestrians and to control their vehicles.

"Another factor that increases the pedestrian's danger is the greater number of hours of darkness," Mr. McFadden said. "Pedestrian deaths increase sharply during the fall and winter months and the increase usually comes in fatal accidents which occur after sunset."

McFadden reminded walkers to do everything they can to make themselves visible to motorists when walking at night. He advised them to wear light colored clothing when possible and to carry a flashlight. He also recommended the wearing of the new reflectorized garments which make a pedestrian visible in the path of a car's headlights from a distance of several hundred feet.

"But, above all, be alert!" Mr. McFadden urged walkers. "You risk your life every time you take a chance in traffic."

### By-Products and Your Meat Bill

The American Meat Institute recently issued a booklet filled with facts and figures about the meat industry. On one page a group of assorted objects is pictured—a pair of shoes, a cheese, a camera, a physician's handbag stocked with medicines, a can of oil, and others. The caption is a question: How do such things as these affect the price of meat?

The answer makes a fascinating little story. Only about 50 per cent of a meat animal is actual meat. The other half consists of non-edible by-products. If those by-products were simply thrown away, the full cost of the animal, plus the processing costs, would have to be recovered from the sale of the meat alone.

Happily, that is not the case. The meat packers—following their famous policy of "saving everything but the squeal"—sell the by-products to other industries that need them. Hides and skins go into leather goods; gelatin into photographic film; glands into medicines; fats into soap; wool into clothing; bone charcoal into ball bearings, and so on down the long list. The revenue thus

earned cancels out many of the costs of processing the meat we buy.

How beneficial is that to the consumer? Believe it or not, money from the sale of the by-products frequently makes it possible for the meat packer to sell the beef from a steer for less than was paid for the animal on the hoof!

### Safe-Driving Day Set for December 1

Three kinds of persons are responsible for the nation's traffic accidents—men, women and children. They will be the target for the second observance of S-D Day on Dec. 1, sponsored by the President's Committee for Traffic Safety.

President Eisenhower has set this Safe Driving Day for Americans to prove that by their own efforts traffic accidents can be held to an absolute minimum for a 24-hour period.

The day is typically American, the committee said. Although officially sponsored by the President and his committee, its observance and all activities connected with it will be on a cooperative and volunteer basis.

Enforcement of traffic laws will not be given unusual emphasis for this special day. Instead, officials hope that arrests will be lower because of increased observance of safe driving practices.

Purpose of the day, the committee said, is to increase awareness of the traffic accident problem and inspire drivers and pedestrians to assume their individual and personal responsibility for highway safety. They will be urged to:

1. Obey the letter and spirit of all traffic regulations by driving at speeds prescribed by law or indicated by road and weather conditions, by signaling turns and stops, by being extra alert and slowing at railroad crossings, and by crossing streets correctly at intersections.
2. Be courteous to all drivers and pedestrians, give a break to pedestrians and turning motorists, and to practice good sportsmanship by keeping to the right, staying in their own lane, and avoiding unnecessary use of the horn.
3. Give full attention to driving and walking, practice the fundamentals of safe driving by keeping two hands on the wheel and attention on the road, keep windshields and windows clean and clear, and be alert to traffic conditions well ahead of and around their own cars.

Your rights and privileges as an American citizen are protected by the Constitution, a unique and magnificent document whose principles are as sound today as when written, over 150 years ago. Through the years, amendments have been added to keep the Constitution up-to-date. The same is true of the regulatory powers of the Interstate Commerce Commission. Congress has enacted more than 150 amendments to the Interstate Commerce Act since it was passed in 1887, completely overhauling it twice. In principle, present ICC regulations governing the various transportation systems are pertinent, constructive, and modern in concept. Under these principles, we have developed the greatest competitive transportation system in the world!

**Electrification of Texas Farms Continues**

The 1954 agricultural census recorded a total of 292,946 farms in Texas. The total number electrified last November stood at 269,219 for a percentage total of 91.9. By contrast, in 1940, only 22.4 per cent of the farms reporting were electrified; by 1950 the number had jumped to 260,373 farms or 78.5 per cent.

In 1940 only 17.6 per cent of all farms in the state reporting had telephones. During the next ten years the percentage rose to 23.9 per cent but from 1950-54 the percentage jumped to 38 per cent.

A summary of the preliminary reports from the 1954 Census of Agriculture covering Texas also show that rural residents have equipped their farms and homes with many electrical appliances for making life in the country more enjoyable and also have used electricity to save labor and increase production.

The summary shows that by October of 1954, 30.8 per cent of all farms had television; 68.1 per cent had piped running water; 32.1 per cent had a home freezer; 12.6 per cent had a power feed grinder; 3.4 per cent a milking machine and .8 per cent used electric pig brooders.

It must be remembered, points out Extension Agricultural Engineer W. L. Ulich, that the percentages are for all farms in the state and that the percentages vary with almost every county. In case of feed grinders, he says the greatest numbers are found in the counties where much grain and forage is produced and fed to livestock and poultry. Milking machines are most numerous in the counties where dairying is of major importance.

Electricity, he adds, has provided the energy needed to replace man power and bring more efficient production to the farm. Motors and appliances handle the chores which formerly required human labor, and they do it faster and cheaper. Research, he says, is continually coming up with new machinery and equip-

## State Capitol NEWS

by VERN SANFORD Texas Press Association

Austin, Tex. — After three exiled years, Texas again has an official, accredited Democratic national committeeman.

Lt. Gov. Ben Ramsey's acceptance by the national committee gave Texas full representation for the first time, since September, 1952. Wright Morrow was refused recognition because he supported Republican Dwight Eisenhower.

Official groups of both conservative and liberal Texas Democrats supported Ramsey. Only scattered protests were heard, one by the president of the liberal faction of the Texas Young Democratic Clubs.

Shivers Okays Demo Rules Gov. Allan Shivers says he is willing to play by the rules adopted for the 1956 Democratic national convention.

He said at a news conference that he expects to be challenged, nevertheless, by a "bunch of wild-eyed punks."

Rules set for 1956 were viewed by Shivers as being the same as in 1952. Then they required heads of delegation to work for placing the party nominees' names on the state ballot under the proper column.

Shivers said he is not surprised to hear that some old political enemies, like Stephen Mitchell, Aam's Stevenson's aide, think he should not be allowed a 1956 seat.

He held firm that he would not take any pledge to support the party nominee. "I will give no pledge to support a nominee until I know who he is," Shivers said.

He said he considers himself a "bona fide democrat" and feels it is no crime for a Democrat to vote for a Republican friend.

"I consider President Eisenhower a friend of mine," the governor said. His statement was widely interpreted as indicating he might support Eisenhower again if he is a candidate.

UT Tests Slated High school seniors with a minimum of Texas career in mind will find a good vocabulary, logical mind and number sense helpful in taking the scheduled aptitude tests.

Tests may be taken in 42 Texas cities on three dates — Feb. 4, May 12 and Aug. 10.

Dr. H. T. Manuel, director of the University Testing and Guidance Bureau, said that, as a general rule, a student can be confident of his ability to succeed with university work if he is in the upper three-fifths of his high school class and makes a score of 75 or more on the aptitude test. Most of those applying for entrance would be admitted, he said.

The tests are designed to measure two very general abilities in academic work. First is the ability to work with words and to understand their meanings. Second is the ability to work with numbers and to solve problems. Scores on the required tests will not be the only basis for admission, Dr. Manuel added. All test scores will be kept confidential.

Giles Appeals Pending Former Land Commr. Bascom Giles can count on at least 2 1/2 months more of freedom.

Both Giles' convictions in land scandal trials have been appealed to the Court of Criminal Appeals. Formal submission of the Austin conviction and three-year prison sentence is set for Jan. 18.

A six-year sentence imposed in San Antonio was appealed and is expected to come before the court about Jan. 25 or Feb. 1.

Legislative Council Posts Filled Lt. Gov. Ben Ramsey announced committee assignments at the first meeting of the new Legislative Council.

Serving on the executive committee with Ramsey will be Sen. Abraham Kazen of Laredo and Reps. Ohio Bristow of Big Spring and W. G. Kirkin of Odessa.

Studying finances will be Sens. Neveille Colson of Navasota and Gus Strauss of Hallettsville, Reps. E. F. Crim of Henderson, W. S. Heatly Jr. of Paducah and Pearce Johnson of Austin.

On the subject matter committee are Sens. Rogers Kelley of Edinburg, George Moffett of Chillicothe, Reps. Tom King of Dallas, Gus Garrett of Raymondville, James W. Yancy Jr. of Houston, Ben A. Glasing of Kingsville and Joe Burkett of Kerville.

session, committee members say the council already is "loaded."

Historical Committee Organizing Every county in Texas is being asked by the State Historical Survey Committee, to set up a County Committee, announced HSC director George W. Hill of Austin.

The state committee was authorized by the 1953 Legislature to "study the subject of preservation and dissemination of the records of Texas and Texans."

County judges, with other officials, have been asked to appoint committees for their counties.

Should Be Simple—But On Sept. 6 the fee for driver's license renewal was increased to \$2. All summer, however, Texans kept jumping the gun and sending in the larger fee. Patiently, the Department of Public Safety sent back the over-payments.

Now, however, the new law is in force and guess what. The DPS is busy writing Texas drivers — asking for more money. Many of them are sending in the old \$1 fee.

END OF THE "78" The phonograph record familiar to more than a generation of listeners is on the way to oblivion. Early next year at least one major company will stop cutting 78's — those records which revolve around a turn table 78 times per minute. But watch the progress of the record making only 16 revolutions. It is used mostly for "talking books" now, but it is about to catch on for other types of material, too. A new record player installed in automobiles uses the 16 exclusively.—Changing Times.

### Our Weekly Sermon

Two Minutes of Time A native New Yorker was taking a Chinese visitor on a tour of the large city. As their local subway train approached the station, another marked "Express" zoomed into sight at the same time.

Above the din, the American shouted, "Let's hurry and grab that express!"

Quietly the Chinese gentleman followed his guide who sprinted across the platform to the opposite side. They managed to squeeze through the crowd and pushed their way into the train just as the doors were sliding back into place.

The American mopped his perspiring brow and beamed, "Boy, we made it! Now we'll save two minutes!"

Gently the bewildered Chinese inquired, "And what will we do with them?"

Time means different things to different people. We talk of having a "good time," or a "dull time," or "losing time," or "gaining time." We say that "time is money." But what a glorious time we can have here on earth as well as in eternity simply by using it to seek our Lord (Isaiah 55:6), acknowledging Him (Romans 10: 9, 10), and His love for us (John 3:16), as well as enjoying the rich fellowship that is the fruit of this behavior (I Corinthians 1:9).

God, our Creator and the Creator of time as well, does not force us to acknowledge Him, although He gives us every opportunity to see the evidences of His handiwork (Romans 1:19, 20). During the time He allots to us on this earth, He allows us to choose freely the kind of life we would spend here. At the same time He lets us know that upon

our choice depends the kind of life we shall spend in eternity. God is not willing that any should perish spiritually, but He offers to all who ask, the privilege of a joyous homecoming with Him some day. In fact, He offers us this gift right now. The Bible tells us: "Now is the accepted time; behold now is the day of salvation" (II Corinthians 6:2).

The Adelpian Club met at the club house on Wednesday afternoon, Nov. 16.

Mrs. L. E. Archer, president, presided over the business meeting. The club collect was read by Mrs. Virgil Johnson.

The leader for the afternoon was Mrs. Jack Turner. "Building through Books" was the theme of the program. Mrs. F. B. Flesher reviewed Tolbert R. Ingram's book, "Maid of Israel," in a very interesting manner.

Mrs. Doyle Kemmer, youth committee woman, gave a report on juvenile delinquency. The six major causes of juvenile delinquency are: 1. destructive toys (pulling a toy gun on a person makes it easier to point a real one), 2. improper literature, 3. alcohol, 4. marijuana, 5. movie, radio, TV ("plenty of cleaning up to be done"), 6. automobiles.

**This Time it was Cooked ELECTRICALLY**

... and look what happened to the big bird! Nothing but a stack of bones.

Reddy isn't surprised... neither is the family. They know Reddy has wonderful cooking ways with all kinds of food.

Best of all, when Reddy takes over, Mom is free of basting, oven-peeking and testing. All she must do is put the meal in the oven, set the controls and flip the switch. Reddy does all the work until it's time to serve.

How will YOU cook the next bird? If your Electric Range isn't installed yet, better see about it. There's still time to give yourself real cooking pleasure during the holiday season.
