The rest will be made up on Saturdays after Christmas. School will start at 8:30 o'clock and turn out at 3:00 in the afternoon each day until most of the cotton can be gathered.

WILDCATS DEFEAT CHILLICOTHE 21-7 FOR 7TH CONSECUTIVE VICTORY

The Crowell High School football team won its seventh consecutive victory of the season at Chillicothe last Friday night to remain one of the few undefeated class 1A teams of the State. The Wildcats defeated the Chillicothe

Eagles 21 to 7 in a well-earned victory.

Crowell made 14 first downs to Chillicothe's 5; ran for 265 yards to the Eagles' 60; completed 2 of 5 passes while Chillicothe was making it four out of ten com-

pletions; Crowell recovered three Eagle fumbles and lost one; the Wildcats were penalized for 50 yards and Chillicothe for 30 yards; and Chillicothe intercepted one Crowell pass while Crowell backs dropped two that should have been interceptions.

The Wildcats scored the first time they got possession of the ball. Chillicothe received the opening kick-off and Veon Scott was jarred loose from the pignskin by a vicious tackle thrown by DuWayne Elliott of Crowell. Ed Daniel recovered the fumble. This gave the Wildcats the ball on Chillicothe's 38-yard line. James Denton, James Pittillo and Gerry Knox alternated carrying the ball until it was placed on the three. From this point, Pittillo carried over for the first score. Some excellent blocking in Crowell's line made up of DuWayne Elliott, Jimmy Everson, Jackie Walker, Joe Don Thompson, Buddy Caddell, Edward Daniel and Robert Kincaid, made it possible for this drive. Elliott kicked his first extra point to make it 7 to 0 at the end of the first quarter.

The second quarter was a stalemate for both clubs and the half-time score remained 7-0.

Denton recovered another Eagle fumble for the Wildcats to give Crowell possession on the Eagles' 42-yard line. On fourth down, Elliott, Crowell's punter, faked a kick, and rambled 38 yards to pay dirt. Elliott kicked his second extra point of the evening to make the score 14 to 0.

Funeral for Mrs. McCormick Held Last Thursday

Funeral services for Mrs. Nora McCormick, prominent welfare worker and philanthropist of Cheviot Hills, Los Angeles, Calif., were held at 2 o'clock last Thursday afternoon, Oct. 22, with Rev. Eldred Charles, pastor of the Cardiff Christian Church, officiating, according to an account published in a Culver City newspaper.

Mrs. McCormick lost her life Sunday, Oct. 11, in a tragic automobile accident near Oxnard, Calif. She was killed instantly, according to reports.

A native of Moody, Texas, Mrs. McCormick had resided in Cheviot Hills for the past 29 years and was identified with many humanitarian and philanthropic projects, devoting much of her time to the welfare of others, according to the newspaper account.

In addition to her husband, W. B. McCormick, she is survived by two sisters, Mesdames Betty Melton and Cora Brumbelow, and two brothers, Isaac and Walter Gipe, all of Texas. Two nieces, Mrs. J. S. Pike and Mrs. John Lamb, of Temple, flew to Los Angeles to attend the services. A nephew and his wife, Mr. and Mrs. C. L. Gipe, of San Francisco, also attended the funeral.

Mr. and Mrs. J. R. Beverly, who were seriously injured in the automobile accident, are recovering satisfactorily, according to latest reports.

Crowell Wildcats to Meet Archer City Wildcats Here Tomorrow Night in Crowell's Fourth Conference Game

The Crowell High School Wildcats will be trying for their eighth consecutive victory Friday night when the Archer City High School football team comes here for a 1A-9 conference game. The Archer County boys have not been very consistent in their play this season and have been able to win only two games thus far. However, they have not played a bad game against Crowell in eight years and have come out on top in six of these contests. Two years ago they upset the dopsters to defeat Crowell 7 to 6 here. Last year they held Crowell to a 6-point margin until the last quarter. The final score was 19 to

0. Sonny Sullivan, the boy who made the winning touchdown against Crowell here two years ago, is their leading ball carrier this season. He scored all three touchdowns in their victory over Nocona.

Coaches Thayne Amonett and Gordon Erwin plan on using some reserves in this game if they can get ahead. However, they are not taking the game lightly and plan on starting the same line-up that looked so good at Chillicothe last week.

Probable starting line-ups for the Archer City-Crowell game that is to be played at Wildcat Stadium Friday night, Oct. 30, follows:

Rains and Cooler Weather Come to Foard County

Heavy rains have visited Foard County beginning last Friday when 2.49 inches were recorded at the Crowell State Bank. On Sunday, .65 of an inch was recorded, and in some parts of the county the precipitation was much heavier, the total being 3.14 inches.

The rain was fine for the wheat, except where the water stood in the fields, but the cotton suffered some damage. Prospects for plenty of wheat pasture for stock were never brighter than at the present time. All earthen tanks in the county are full also, as a result of the recent rains.

A norther accompanied the rains and dropped temperatures to the 40's early Tuesday morning.

Rotarians and Lions Have Joint Meeting

Congressman Frank Ikard spoke to a joint meeting of the Rotary Club and Lions Club here Wednesday at noon. He was accompanied by his secretary, John Stallings, of Seymour. Rotarian Vance Favor of Quanah and Lion Dock Roberson of Vernon were also visitors. The speaker was introduced by J. A. Stovall.

Mr. Ikard expressed the opinion that there would be more major pieces of legislation considered and acted upon at the next session of Congress than in many years before. In his opinion, the Government must cut expenditures to meet income and in a manner that will not affect the defense program.

All Rotarians were present except one and 18 Lions attended the meeting.

The term "hand" in measuring the height of a horse, is four inches.

WHAT'S A "REAL AMERICAN"?

There's a lot of talk nowadays about Americanism. People talk about someone being a "real American," yet only in a general way, making us want a definition, down to earth, definition.

What is a "real American"? Is it the one who holds top government positions? Is he the social leader and reformer of America? Maybe a "real American" could be defined as a common John Doe or Joe Student who lives his life calmly doing every task put before him, feeling pride in

a job well done.

A recent editorial commented on an outstanding student in one of its local schools. "You don't have to watch this fellow very long before you realize there's something special about him. Soon enough it hits you. He's a throw-back to the America our forefathers died for, the America where every fellow had pride in doing a good job, giving his teachers the best he had, and more. He belongs to the era when men found joy in the personal mastery of their tasks."

Maybe this guy didn't make the best grades, but even so, he worked for what he got, in fairness and honesty toward his fellow students and fellow men.

Now and then, all over the country, a person like this crops up in schools and other organizations. In a sense he's like a rose in a weed patch sturdily climbing above the brambles, soon victorious over all. He's a "real American!"

SHE'S A SENIOR, SHORT AND SWEET

Who's just about the shortest girl in the senior class? Well, Rebecca Calvin is, of course, and that's just who we are going to tell you about this week.

Becky, as almost everyone calls her, is seventeen years old but only five feet, one inch tall. She is vivacious and energetic, always having fun. Her biggest ambition? To start growing and become very tall. We like her better the way she is.

Becky has a great fondness for food. She is perhaps fondest of fried chicken. She loves to cook and likes to eat what she cooks.

She is a really good typist, and that has been her favorite subject in high school with algebra coming next. Rebecca is typist on both the annual staff and the Wildcat staff.

When asked about sports, she will tell you that she would rather watch a good football game than anything else, but when participating she will choose swimming. Just about any day during the summer, Becky could be found in the swimming pool where she excels.

Becky is a fine pianist and has served as pianist at the Men's Down Town Bible Class. She is a member of the FHA, a Thespians, member of the Dramatics Club, and treasurer for the Sub-Junior Adelpian Club. She is an

all-round girl who says she really enjoys associating with the students of CHS.

After she graduates next spring, Fort Worth will probably claim Becky, for her future plans include attending business college in that city. Since secretarial work has interested her for a long time and since she usually does her best, the firm that secures her services will be fortunate.

THEY'RE ALL MY FRIENDS, SAYS JIMMY HARPER

If you are walking down the hall and see someone towering above everyone else, you can recognize him as Jimmy Harper, Crowell High's tallest boy.

Jimmy, who is six feet, seven inches tall, plays football and basketball. He will tell you any time that he likes basketball better. Sports take up a large part of his day, but he finds time to hunt and work on his 1931 Ford which takes up most of his spare time and which he keeps in good condition.

His favorite pastime is hunting and fishing. He is always ready for fall and winter to come because he really enjoys duck and quail hunting. After coming in from hunting on a winter day, he likes to relax with a good western book, listen to popular music which is his favorite, then go in to a meal consisting of lots of fried chicken with a big bowl of gravy.

Jimmy hasn't given his future much thought. He knows that when he graduates, he will go on the harvest. After that his future plans are uncertain. Jimmy's friendly grin and greeting, "Hello," is commonly heard around CHS halls.

"FOUR WAY TEST" THEME WINNERS READ AT ROTARY

In response to the Rotary sponsored theme contest on "The Four Way Test," nine winners were guests at the weekly Rotary Club meeting last Wednesday.

The contest included only high school students. Winners were 3 seniors, 2 juniors, 2 sophomores and 2 freshmen. The seniors were Robert Graves, Genevieve McDaniel and Jean Whitby. Junior finalists were Frances Kincaid and Gordon Graves. Top sophomore honors went to Doris Cates and Bill Halbert. Roma Jan Spikes and DeAnna Ferguson won top places for freshmen.

After the meal, each student read his theme, which was written on the Four Way Test that stresses the principles of Rotary. Each student received a hearty round of applause upon conclusion.

Mr. Graves, who was in charge of the program, stated that the winning themes were much better than the average themes that he expected. The winners were complimented further when the Rotarians remarked that the program was one of the best, in their estimation, that they had seen presented at any Rotary meeting.

DEADLINE SET FOR SALE OF ANNUALS

One hundred and sixty copies of the 1953-54 Roundup have been sold up to this date. If any student or businessman would like to buy a copy of the yearbook, please contact the sponsor, Mrs. Earl Manard, or one of the associate editors, CloYonne McKown, Vance Barker or George Ann Davis, by Friday, Oct. 30, the deadline.

A WONDERFUL WAY TO SPEND A WEEK END

One of the highlights of the FHA activities of the year came last Friday night when a group of FHA girls, Mrs. Doyle Kenner, two FHA mothers, Mrs. Claudius Carroll and Mrs. George Fox, and Misses Marian and Marilyn Hays boarded the buses at Holliday for the long trip to the Dallas Fair.

The trip there was long, tiresome and uneventful. (Except for one flat tire and a broken distributor cap).

Instead of the hustling, pushing crowd, the fair grounds were strangely deserted at five in the morning; however, they didn't remain that way for long, for buses loaded with FHA and FFA students began arriving. The noise of the midway sent out an invitation for fun and frolic. Everywhere one looked there were rides, shows, exhibits and food.

A visit to Ice Cycles was the first thing on everyone's list. Here the girls felt as if they had stepped through a magic door into fairyland, for here were creations straight from big-time performances. Skaters dressed in colorful costumes performed under the spot light while the audience watched spellbound.

Many and varied exhibits were offered. Most of the girls, of course, liked the automobile exhibit best. The car that, in most

of their estimations, took the prize was a bright orange Lincoln with a clear top. Another favorite was the woman's building, where needlework, hobbies, and other exhibits to please the women were attractively displayed. It didn't matter what you wanted to see, just name it and it was there.

"Hey, look girls, what I won. It only cost a quarter." Enthusiasts admired Nan Sue Shultz's huge panda. Other prizes and souvenirs were brought home. The most popular among the girls were silver necklaces with their names printed on them.

At 10:30 p. m. it was time to leave the brightly lighted midway and head for Denton and a nice warm bed at TSCW.

Next morning all the girls and their sponsors attended services held in the beautiful Chapel in the Woods. Immediately following breakfast, a tired but happy group headed home, loaded with treasures and memories of a wonderful week end.

CATS CLIP EAGLES 21-7

The Crowell High School Wildcats rolled to their seventh consecutive victory last Friday night when they spoiled Chillicothe's homecoming 21-7.

The Cats got to rolling early in the first when fullback James Pittillo crashed over from the three, after a thirty-eight yard drive set up by Edward Daniel's recovery of Veon Scott's fumble. Elliott converted and the score remained 7-0 until nearly half-time. DuWayne Elliott sprinted forty yards in the third quarter on a fake punt to mark up the Wildcats' second score. Elliott also converted. In the fourth, Pittillo climaxed a thirty-yard drive with his one-yard plunge. Elliott's boot split the uprights for his third point after of the

game. Chillicothe's lone tally came the fourth when Buddy Eagle guard, intercepted a don Graves pass and converted to make the final 21-7.

Defensive demons for the cats were Buddy Caddell, Ed Daniel and Gordon Graves. James Pittillo, James Denton, Gerry Knox did most of the

The Wildcats rolled up sixteen first downs while the Eagles only five, two of which were on penalties.

New 1954 Chryslers Will Go on Display Today, Oct. 29th

Chrysler automobiles for 1954 will be on display at Lowe Motor Co., local dealer, today and the public is invited to visit the show rooms and see the 1954 models. The completely redesigned Chryslers for 1954 introduce a new 235-horsepower FirePower V-8 engine—the most powerful and efficient passenger car engine in America today—plus many major engineering advancements combined with the smartest, most beautiful exteriors and interiors in Chrysler's 29-year history. The 1954 Chrysler is offered in five models with a total of twenty body styles. The lines this year are the Windsor DeLuxe, New Yorker, New Yorker DeLuxe, Custom Imperial and Crown Imperial. All lines feature new wheel covers of distinctive, light-reflect-

ing design. Side name plates of gold or chrome provide swank identification of all models. Eighteen standard and 28 two-tone color combinations are available. Chrysler's rear bumper and tail lamps are new, as is the one-piece, wrap-around rear window which adds width and lowness to the car. The separate tail, backup, and stop lights are combined into one large, vertical unit emphasizing maximum visibility. Fine fabrics and careful color coordination highlight the new interiors and reflect the importance of close color harmony between interiors and exteriors. Each body color has color-related interior trim. The instrument panel and garnish moldings are painted to match the over-all color scheme. Chrysler's new instrument panel is the ultimate in style, convenience, and safety. The conventional type gauges for oil pressure and amperes have been replaced by indicator lights. If either oil pressure or battery current should reach a low point, a red light flashes on the instrument panel attracting the driver's attention.

The new 235-horsepower FirePower V-8 engine with hemispherical combustion chamber is the most advanced, most powerful automobile engine in the industry. A new standard of transmission operation, featuring an unmatched combination of performance and smoothness, is provided by PowerFlite. Chrysler's new, fully automatic transmission, which is standard equipment on all 1954 V-8 models, and optional on the Windsor DeLuxe. Consisting of a new torque converter and two-speed planetary transmission, PowerFlite represents years of research and development work with automatic transmissions. The safety-selector lever on the steering column has an easy-to-operate shift pattern. The four shift positions; reverse, neutral, drive, and low, are arranged to give simple but fool-proof shifting selection. In addition to superior performance, PowerFlite's design is the simplest of all automatic transmissions. It is the lightest, weighing as much as 100 pounds less than competitive designs, and

uses the fewest number of major parts by a considerable margin.

The belief that the seasonal peak of cattle movement had passed was further enhanced by the lighter runs of cattle and calves around the major marketing circle Monday.

This factor, coupled with rains over much of the Southwest, was enough to spring a stirring rally in prices that wreathed the faces of cowmen with smiles all over the Stockyards here. While the advance was uneven and some sales showed more climb than others, the general picture was one of climbing prices. Sales 50c to \$1 per hundred above last week's close were the rule. Some spots were up considerably more. As an example there were 113 small calves of 202 pounds at Fort Worth Monday shipped from the Kokernot Ranch at Alpine. These calves drew \$20. Mates to them a week ago sold at \$15.50 with a trim. While the general advance was not so pronounced as this case, it was typical of the way the stocker trade came to life on the heels of the rain.

Reports of rain from sections of the winter wheat grazing areas could be expected to revive speculative interest in cows, calves and yearlings suitable for such pastures. Some open weather could bring up the green stuff in jig time.

While the run-up in prices was most noteworthy on the cattle and calves, other species shared the better tone.

Hogs drew steady to 75 cents higher prices, small butchers and shippers setting a fast pace and buying most of the top hogs 50 to 75c above last week's close. In the sheep barn, slaughter lambs and slaughter yearlings were strong to 50c or more higher. Some spots were \$1 or more above the close last week, the kind and condition considered. Feeder lambs drew strong prices. Old ewes were strong to 50c up.

Good and choice slaughter steers and yearlings sold from \$17 to \$22, and common and medium sorts sold from \$10 to \$16, some shelly kinds below \$10. Fat cows drew \$9.50 to \$12, and canners and cutters sold from \$6 to \$9.50. Bulls sold from \$7 to \$13.

Good and choice fat calves sold from \$13 to \$17, with some outstanding fancy heavies of around 600 pounds to \$18 to \$20. Common and medium slaughter calves drew \$9 to \$13, with culls at \$7 to \$8. Good and choice stocker calves sold mostly from \$14 to \$18, with a few lightweights to \$20. Stocker cows drew \$7 to \$12.50. Stocker and feeder steers and yearlings sold from \$10 to \$16.

Good and choice butcher hogs sold at \$22 to \$22.25 on weights of 190 to 240 pounds and other

Motor Vehicles Must Be Inspected Soon to Avoid April Jam

Automobile Safety inspection stations in this area are going to be jammed unless motorists begin having their vehicles inspected within the next few weeks.

This warning was issued this week in Austin by G. C. Morris, executive director of the Highway Safety Council. He said a cross-section survey of inspection stations, including those in this area, indicated only four cars out of every hundred had been inspected.

The inspection period, under the new law, began Sept. 15 and will end April 15.

There are more than 3,000,000 vehicles to be inspected, and during the first 30 days of the seven-month period only a fraction of that number, roughly 125,000, were checked, Morris said. The proportion of cars inspected in this area is about the same as statewide, he said.

"There is almost certain to be a last-minute rush unless there is a speed-up in inspections," he said, urging motorists in this section to avoid the rush by having their cars examined now.

Morris said there was also the safety precaution to be considered. "Most cars have not been inspected in more than a year and may have developed some mechanical defect," he said.

"You may be gambling with your life if you are operating a mechanically unsound vehicle. Accident figures show that one traffic death in every ten in Texas is caused by faulty mechanism."

The new law, Morris said, calls for the inspection of brakes, lighting equipment, horns, rear view mirror and windshield wipers.

He urged motorists, however, to request that steering parts be also included in this inspection.

There is no rhyming word for orange.

Good hogs sold from \$20 to \$21.75. Sows cashed at \$19 to \$21.

Good and choice slaughter lambs cashed at \$15.50 to \$17, and good shorn lambs sold at \$16.50 down. Stocker and feeder lambs cashed at \$10 to \$13. Medium and lower grade lambs cashed at \$8 to \$15.

Old ewes sold from \$5 to \$5.75, some solid-mouthed ewes to \$6.50. Yearlings muttons sold from \$10 to \$14, old wethers drew \$6 to \$8. Old bucks sold at \$2 to \$2.50.

While stockmen in general are jubilant over the rains and the improved market, we'll bet that none of them breathed a bigger sigh of relief than Secretary of Agriculture Benson.

The pressure has been building up on him hour by hour and the Cattlecade organized by the Farmer's Union was a climax that was highly unpleasant for Benson. Some observers feel that Benson will either have to back down from his previous opposition to high supports or resign in short order. Some Washington observers feel like his tenure of office has only a matter of weeks to run.

However, personal friends say that Benson is not the type to become dismayed and quit under fire. Certainly right now he is getting the test of a lifetime.

Lyndon Johnson Lauds REA Work

Rural electrification is a movement resting primarily upon the initiative and integrity of farm consumers of electricity, declares U. S. Senator Lyndon B. Johnson in an article published in the November issue of Progressive Farm-

Since the Rural Electrification Administration was established in 1936, four million consumers have been connected to REA-financed lines, the article reports.

"In the Southern States," Johnson writes, "the number of farm homes receiving electric power has jumped from 3.3 per cent to more than 83 per cent of the total. In the country as a whole, more than 85 per cent of all farms are electrified. Nearly 300,000 farm families in Texas are receiving electricity through farm cooperatives."

REA cooperatives are more than \$50,000,000 ahead of schedule in repaying the \$2,700,000,000 lent them to build transmission networks and to buy power from private utilities and Federal hydro-electric projects, according to the Progressive Farmer article. Delinquencies amount to only one-fifth of one per cent of the amount due.

Declaring that REA is neither a political issue nor "anti-private power" in its concept, the Texas Senior Senators hail its program as "a heartening example of the Government helping people to help themselves."

Rural electrification has made farming both easier and more productive, Johnson asserts in his article, continuing:

"The future of REA is a matter of concern to all of us who have witnessed and participated in its development. The limits of progress in rural electrification have not been reached. More than 16 per cent of the South's farms are still without electric service. Modernization of facilities is far from complete. Existing lines must be 'heavied up' to take care of increasing farm use of electricity."

The article points out the importance of maintaining the authority of REA co-ops to build their own generation and transmission facilities. Weakening of

this authority, Johnson would simultaneously increase need for loans and lessen cooperatives' ability to meet their repayment record.

Home Demonstration Notes
 MRS. MARY D. BROWN

The EEE Committee met last Friday, October 23, to make some final plans for the Achievement Day. Don't forget: 1. Each club is responsible for one poster to be put up the first week in November. 2. All dresses must be in my office by 5:00 p. m. Friday, Nov. 13. Bring dress on a hanger and have your name and club on slip of paper pinned at back of neck. 3. The exhibits should be open by 9:30 Saturday and the Dress Revue will begin at 3 p. m. 4. All products to be sold should be there by 9:30 a. m. Saturday morning. 5. There will be a covered dish dinner and you will need to bring your own eating utensils, plate, etc., along.

Let's all try to come for this and let's all bring along a neighbor.

Our recipe this week is for: **Cream Puffs**
 1 cup water, 1/2 cup butter, margarine or other shortening, 1/4 teaspoon salt, 1 cup sifted all-purpose flour, 4 eggs, unbeat-

en. Bring water, butter, margarine or other shortening and salt to boiling point. Add flour all at once and stir over heat until mixture leaves sides of pan and forms a compact ball. Remove from heat and continue beating to cool mixture slightly—about 2 minutes. Add eggs, one at a time, beating thoroughly after each addition. After last egg is added, beat until mixture has a satin-like sheen. Drop 10 to 12 mounds of batter, swirling the top of each, 2 inches apart on an ungreased baking sheet. Bake in a moderate oven (375 degrees) F. until well browned and puffed, about 50 minutes. Remove from oven and immediately cut one or two slits in the side of each puff. Return to the oven for 10 minutes. Cool on a cake rack. Yield: 10 to 12 medium Cream Puffs.

Postmaster's Job at Truscott Open for Applications

An examination for Postmaster at Truscott, Texas, at \$2,883 a year, under revised and more exacting eligibility requirements agreed upon by the U. S. Civil Service Commission and the Post Office Department will be open for receipt of applications until Nov. 17, 1953, the Commission announced this week.

All previously existing postmaster examinations for first-, second-, and third-class post offices and lists of eligibles were cancelled at the time higher standards of eligibility were prescribed for the filling of more than 7,700 vacant positions throughout the country.

The Commission is taking all possible steps through special publicity to civic and other community organizations to encourage well qualified persons to apply for the examination.

Competitors for the postmaster vacancy in Truscott must show that they can deal with the public agreeably and effectively and that they are reliable citizens who would command the respect and confidence of patrons of the post office. They must also show that their background will enable them to maintain simple records of accounts or that it has given them a knowledge of postal procedures.

Applicants must take a written test. Those who pass will be assigned final ratings on the basis of this test and on their experience, ability, and character. There is a 1-year residence requirement and applicants must be at least 21 years of age and must not have passed their 63rd birthday.

Complete information about the examination requirements and instructions for filing applications may be obtained at the post office for which this examination is being announced. Application forms must be received in the U. S. Civil Service Commission, Washington 25, D. C., not later than the closing date.
