Saturday morning at 8:30 in the Wilbarger Memorial auditorium.

Mrs. C. M. Carroll, FHA mother, assisted Mrs. Doyle Kenner, spongarday, there was an incident in his of the spectatory football is here.

After registering, the girls took their seats near the front. They pressive scene was the installa- country. On Saturdays, Sundays, tion of new officers. Latrelle Duckworth was elected District sports-minded boy is out of doors with his trust shotgun

After the meeting they went to shopping and sight seeing.

BAND ATTENDS M. U. HOMECOMING

The CHS Band along with approximately 35 other bands from this locale, went to Wichita Falls last Saturday to participate in a colorful parade which was sponsored by Midwestern University. The parade lasted from 10 a. m. until about 12 noon.

Immediately after the parade, which required about two hours, the band hurried out to the MU cafeteria where they were served a delightful luncheon, (The best part about it was that it was

HUNTING CLASSED FAVORITE SPORT WITH EVERY CHS BOY

The weather is getting colder, and more and more ducks, geese Latrelle and after school hours, every with his trusty shotgun.

From the early hours in the mornings until late in the evening, the hunters stalk their prey. The cold, bitter climate offers a chal-lenge to every red blooded American boy, and they will hunt for hours in freezing weather. After the hunting is over, and the hunter returns with his kill, he likes nothing more than a hot meal

and a warm fire to sit by. The meat from his fowl seems to taste better than anything he has ever eaten before. Hunting is truly a great sport, but remember, that piece of steel and wood in your hand is not a toy. It has the ability to kill at command, human beings as well as animals.

Why more than a million owners this year have chosen the "Worth More" FORD.

They have discovered first hand what the surveys show... Ford, with all its fine-car features, is worth more when you buy it, and worth more when you sell it!

> Over a million owners can't be wrong! Ford is the one fine car in the low-price field. It gives you the "Go," the style, the comfort, and "build" of cars that sell for far more. And, it's only natural that Ford keeps its value better, in resale, than any other car on the American Road. Check the features below for some of the "Worth More" reasons for the swing to Ford.

Blocks East of Square on Commerce Street

PUZZLE:

Who got

the hundred million dollars?

He walked into our office seven years ago, sat down. We knew the customer. And a wonderful credit rating he had, too.

Said he wanted airplane engines. By that time blueprints were scattered all over the place. He was taking no chances. Not one engine would he accept without testing first, stripping apart, building up again, and testing once

And more. Every engine he bought would be overhauled after 15

He didn't say so, but he must have known we would have ideas, too. (Lights burn all night when engineers at our place see ways to

improve things we make.) The climax was last August. The customer announced that he would allow 1,200 hours flying time from these G-E engines before an overhaul.

In other words, 80 times as many hours without overhaul as seven years ago. And today only every tenth engine is tested twice before delivery because of what has been referred to as the "perfection rate" of G-E jet engines.

Oh, yes. The hundred million dollars. With General Electric engines now giving extended service, not so many are needed. Im-

provements have saved the customer that much in five years. P. S. Who's the customer? The U. S. Air Force. And what was the engine? The J-47 jet engine.

And who got the hundred million dollar saving? Who profits from more Air Force per dollar? The taxpayer, everybody. This story is one more example of what happens where research men and engineers are at work. Products gain in efficiency, do more. New products emerge, and the public is always the gainer.

AMERICA'S NEW RAILROAD

The "stamp of newness" - and another new Santa Fe freight car is ready to roll

21 miles of new freight cars added by Santa Fe last year!

Remember when you used to count freight cars as a kid?

How would you like to count and stencil the "stamp of newness" on

21 miles of them? That's what Santa Fe did last year-added 21 miles of new cars to its great fleet of modern freight cars.

And so it goes—year after year after year - until today there are 84,898 freight cars serving shippers on the Santa Fe. With this building new program,

Santa Fe is meeting the ever-grow-

ing need for moving vast tons of

wheat, livestock, perishable foods, minerals and merchandise to the markets of America.

And many of these cars are new and special types to serve shippers in new and better ways-like the "MTC 3150" mechanical refrigerator car that works like your home

It costs Santa Fe millions of dollars-earned dollars-to acquire this great fleet and maintain its own "steel highway."

But it doesn't add a penny to the taxes you pay.

NOW IS THE TIME to Drive the car Check the price-Compare the deal

If you want the most for your money, Pontiac is the car to buy. You can prove it in one ride.

Pontiac's smooth, whisper-soft flow of power, quick response and flexibility guarantee a heart-warming experience-truly great perform-ance delivered with a thriftiness and reliability that means dollars in your pocket.

This fine car action is combined with fine car comfort and luxury. It is a rich feeling just to sit in a Pontiac.

Yet the price is only a few dollars above the lowest! The difference is even smaller when you consider resale value. An independent research study reveals that Pontiac retains much more of its new car value than any other car in its price class.

Come in while your car is at its peak worth. Get the clinching proof that deal for deal you can't beat a Pontiac.

Convince yourself that *Dollar for Dollar* you can't beat a Pontiuc PHELPS MOTOR CO.
