L. Myers Selected as One of Outstanding Vocational Agriculture Teachers in Northwest Texas Area

L. Myers, teacher of Agriculture in the High School, has been selected by the Vocational Teachers Association of Texas to receive five-year distinguished service award.

MR. L. MYERS

L. Myers, teacher of Agriculture in the High School, has been selected by the Vocational Teachers Association of Texas to receive five-year distinguished service award. He has been a member of the association for 15 years and has received a bronze lapel pin for his fifteen years of outstanding service as a teacher of Vocational Agriculture in the Public Schools of Texas. The awards are made only to Vocational Agriculture Teachers who have rendered outstanding service to their communities and to the state of Texas over a period of years. Myers was selected by the Association because of his organization program for agricultural improvement in the Crowell community.

The awards will be presented August 6 at the annual meeting of the Association at the Adolphus Hotel in Dallas. The well known instructor, a graduate of West Texas State College and holder of an M. A. degree from Texas A&M College, not only excels as a capable teacher, but he has also set an enviable record as advisor for the various judging teams entered from the local school in FFA contests. During Myers' tenure in the local school system, judging teams under his tutelage have established a record probably unexcelled by any other FFA department in the state.

Within the years he has served in this capacity, his students have copied the Tarleton Sweepstakes and many other high honors in the district, area and state judging events. In 1948, a Myers' coached poultry judging team represented Texas in the National Poultry division at Waterloo, Iowa.

Other teachers in Northwest Texas who are to receive the bronze lapel pin for fifteen years of service are: J. K. Bradshaw, Iowa Park; B. R. Hurley, Henrietta; and Buel E. Range, Saint Jo.

Three Cars Cotton Seed Pellets Arrive Here for Cattlemen

Three freight cars of cotton seed pellets were received here this week and the 156,000 pounds of the government drought disaster feed commodity was immediately issued to the farmers and ranchers of this area who previously filed applications for this federal aid.

In order to furnish feed to as many cattlemen as possible, only one-half the amount applied for was distributed to each individual.

This was the second shipment decided to this county by the federal government. Thus far 125 applicants have been served a portion of their accrued allotment. The price for this feed was \$35 per ton.

First Baptist Church's Summer Revival to Start Sunday, Aug. 2

Preparations are well under way for an open air revival under the direction of the First Baptist Church. Services will be conducted in the church building Sunday morning and night and each morning through the next week. Week day services will be conducted at 10 a. m. and 8 p. m. The evening services are to be held in the open across the street south of the church.

Robert Schram of Brownwood is to have charge of the singing. He is a very popular young gospel singer with revival engagements throughout Texas and Oklahoma.

Pastor C. T. Aly will do the preaching in the services. Bro. Aly has recently come to the local church from Phillips.

The public is invited to attend these services.

Self Motor Co. to Furnish Car for Driver Education

The Self Motor Company will furnish a 1953 Ford for the Crowell High School driver education course this school term. The Borchardt Chevrolet Company has furnished a car for this program for the past three years. This course is sponsored by the American Automobile Association and the Texas Education Agency in cooperation with the State Department of Public Safety.

James Welch, who recently completed a course at Baylor University in Driver Education, will teach this work. Henry Black has taught it for the past three years. Forty freshmen, twenty each semester, will take this subject, which will qualify each for a driver's license. A book is furnished by the State Textbook division for the theory, and the practice in driving is given with the car furnished by a local dealer. The examination is given by the State Department of Public Safety.

LIONS CLUB

Bro. Frank A. Grubbs was the principal speaker at the weekly meeting of the Crowell Lions Club held Tuesday noon in the Down Town Bible classroom. Minister Grubbs, an evangelist from Muskogee, Okla., and holding a revival at the Christian Church here, dealt on the subject, "High Aims in Life."

Misses Janis Crowell and Carolyn Kay Smith rendered "It Is No Secret" as a vocal number at this meeting.

Funeral Services for E. V. Cato Held Monday Afternoon

Long-Time Thalia Resident Succumbs Sunday Morning

E. V. Cato, 75, retired farmer, died about 9 o'clock Sunday morning at the home of his daughter, Mrs. Dave Shultz, of Thalia, following a long illness.

Funeral services were held at 4 o'clock Monday afternoon in the Thalia Baptist Church with the pastor, Rev. W. B. Fitzgerald, officiating. Burial was in the Thalia Cemetery, under the direction of the Cato Funeral Home of Vernon.

Mr. Cato is survived by two daughters, Mrs. Shultz and Mrs. Claude Roberts of Vernon; and three sons, Royce Cato of Vernon and Willie and Arlie Cato of Fort Worth.

He was born June 21, 1878, in Van Alstyne, and came to Wilbarger County in 1891 with his parents. He lived at Lockett for many years before moving to Thalia several years ago. He had been living at the home of his daughter for the past six months. His wife, the former Miss Birdie Fox, whom he married in Vernon, preceded him in death in 1948.

He was a member of the Thalia Baptist Church.

4.55 INCHES OF RAIN FALL HERE LAST FRIDAY AFTERNOON IN 1 1/2 HRS.

Torrential rains measuring 4.55 inches deluged Crowell within a 90-minute period last Friday afternoon and evening.

When the downpour subsided about 7 o'clock, flowing waters

resembling a young flood were quite evident as some merchants found water standing in their establishments following the gross rainfall activity, which was the largest precipitation recorded in

this community in over 20 years. Other results of this outburst were indicated by motors drowning out while motoring on the pavement during and immediately following the rain. Water ran from gutter to gutter during the deluge.

No property damage was reported in Crowell. Telephone and electric power were out of commission for a short time, however.

Friday was the second day rains visited this vicinity with fairly general rains of about 1.1 inches reported here and various other places in the county Thursday afternoon. It was a different story Friday, however. It seemed as though the heavy storm clouds apparently emptied their moisture content on Crowell with rainfall measuring over an inch reported east and northeast of Crowell.

Almost every vicinity receiving a sizable amount of rain had enough hard fast precipitation to increase the water level in the stock tanks. Areas around Foard City and Vivian had traces but hardly enough to dampen the soil.

A neighboring city to the north, Quanah, also experienced a wet time last Friday evening. The Hardeman County seat had a great deal of high winds which uprooted seven large poles and snapped several gray wires which supported the screen at the Chief Drive-In Theatre. Estimated damage created by this disaster was reported at \$25,000. This was the only major destruction caused by electrical and rain storm.

Foard County's Cotton Fields Being Measured by PMA

Foard County's cotton fields are currently being measured in an effort to establish a partial basis for Congress to use in determining the cotton allocating acreage in 1954.

The task of measuring this 1953 acreage will be manned by crop reporters who recently started the process. Results of those measurements must be recorded by September 1, a Production Marketing Administration official disclosed this week.

The local PMA authority stated that farmers were requested to assist these reporters and likewise designate cotton lost to drought or other circumstances beyond the farmer's control.

Cotton acreage of 1951 and 1952 will also be considered, but Congress has specified that one year's official measured acreage must also be used.

Pictured above is Rev. Allen C. Forbis, recently appointed to the pastorate at the Truscott and Foard City Methodist Churches. A graduate of Texas Tech and SMU's Perkins School of Theology, Rev. Forbis was a former pastor of Becton and Lakeview Methodist Churches in the Lubbock district. The preacher replaces Rev. Carl Hudson, who was transferred to Jayton, Rev. and Mrs. Forbis and children, Elizabeth 10 and Curtis 7, have established residence in Truscott and Bro. Forbis has already assumed the pastorate in these two churches.

THALIA CEMETERY

Mrs. Cap Adkins reports the following donations to the Thalia Cemetery Association:

Mrs. T. M. Haney, Vernon, \$5.00; Mrs. Nettie Pearson, Childress, \$5.00; Leser Martin, \$5.00; J. D. McCary, Chattanooga, Okla., \$5.00.

ROTARY CLUB

Decker Magee had charge of the weekly luncheon meeting of the Rotary Club Wednesday. Mr. Magee's program consisted of the history of Foard County, with Mrs. N. J. Roberts telling of this background.

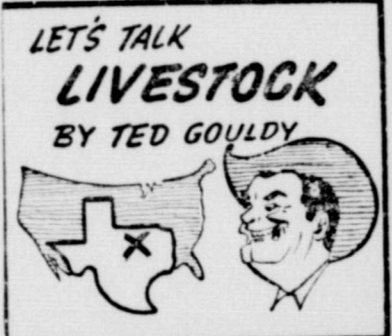

Visitors were C. P. Sandifer and Rotarians Vance Favor of Quanah and H. S. Powell of Vernon. Janis Crowell played piano accompaniment for the song service.

DOLLAR DAY BARGAINS IN CROWELL FRIDAY, SATURDAY, JULY 31 - AUG. 1

Friday and Saturday, July 31 and August 1, will again inaugurate another of the monthly "Dollar Day" campaigns staged by the local merchants in connection with the Crowell Booster Club who jointly sponsor the event. Many of the extra special bargains being offered during these days are listed in the advertisements in this issue of the News.

It is the ultimate desire of the Crowell Booster Club to make Crowell an attractive and convenient place for the people of this trade area to shop; consequently, much preparation and consideration has gone into promoting this program. Since the "Dollar Days" were first originated last September much progress has been displayed toward achieving more trade for Crowell as a result of

these money saving sales. Local enterprising businessmen are looking forward with eager enthusiasm to convince more people that for better values at the lowest prices, you can't beat Crowell. Several hundred extra copies of this "Dollar Day" publication are going into almost every home in this trade area to better inform residents of the many reductions that await them in Crowell.

LET'S TALK LIVESTOCK BY TED GOULDY

JIM PAUL NORMAN

Fort Worth — Receipts were of moderate size at Fort Worth, but were heavy around the major marketing circle Monday and cattle and calf trade developed slowly. Most slaughter cows and bulls were 25 to 50 cents lower, and fat calves were steady to 50c lower. Stocker and feeder cattle and calves of the higher grades were about steady, but the medium and lower grades were easier. Slaughter steers and yearlings were in small supply and generally steady.

Butcher hogs were 50 to 75 cents lower and topped at \$23.75 to \$26, while sows were largely steady.

Slaughter lambs drew steady to strong prices, and other slaughter sheep were fully steady. Stockers and feeders sold steady.

Good and choice slaughter steers and yearlings sold for \$17 to \$22.75, some mixed steers and heifers \$17 to \$22.75. Common and medium kinds sold from \$12 to \$17, with cull yearlings from \$8 to \$12.

Fat cows cleared at \$9.50 to \$12.50, and canners and cutters sold for \$6 to \$9.50. Bulls cashed at \$8 to \$12.50.

Good and choice slaughter calves cleared at \$16 to \$18.50, a few outstanding calves to \$19 and \$20. Common and medium slaughter calves sold from \$10 to \$15, and culls cashed at \$8 to \$10.

Good and choice stocker calves sold for \$15 to \$20.50 and yearlings steers sold from \$13 to \$19 down. Stocker cows sold from \$10 to \$16.

Good and choice butcher hogs averaging 185 to 250 pounds sold at \$25.75 to \$26. Lighter and heavier weights sold for \$22 to \$25.50. Sows cashed at \$23, and pigs sold from \$22 down.

Good and choice fat lambs sold from \$20 to \$23.50, and cull to medium lambs sold from \$10 to \$18. Stocker and feeder lambs sold from \$12 to \$17.75. Medium and good slaughter yearlings drew \$12 to \$15, and old wethers sold from \$7 to \$9. Slaughter ewes sold from \$4 to \$5.50 and some solid mouthed ewes sold breeders up to \$9 and \$10.

County Agent Says Bollworms Damaging Foard County Cotton

The cotton bollworms are doing considerable damage to cotton in the Margaret, Riverside, Rayland and Thalia communities, according to Joe Burkett, County Agent.

Once the bollworms get a good start they are hard to control, Mr. Burkett warned.

Farmers are cautioned to check their cotton often for this pest and when it appears, control measures should be applied at once.

"Control should begin when you find from 4 to 6 small bollworms and eggs per one hundred cotton stalk terminals," added Mr. Burkett.

To control bollworms you should use 3 pounds of 2-1 mixture per acre and apply from 1 to 3 applications at 5-day intervals until the bollworm is brought under control, Mr. Burkett concluded.

Final Rites Held in Waxahachie Last Week for Carl Rainey

Funeral services were held in Waxahachie last week for Carl G. Rainey, who died in a Dallas hospital. Mr. Rainey was a former resident of Crowell.

Mr. Rainey moved from Waxahachie to Emory four years ago. He was a real estate man and rancher and a member of the Baptist Church.

Survivors include his wife; a son, Grady Rainey of Enid, Okla.; four daughters, Mrs. Charles Sherlock, Mrs. R. H. Parks and Mrs. Winford Long, all of California, and Mrs. J. H. Caldwell of Midland; a brother, J. E. Rainey of Fort Worth, and three sisters, Mrs. Ollie Satterwhite of Oklahoma, Mrs. Bessie Rexrode of Lockney and Mrs. E. A. Bryant of California.

"Statistical Picture" of Foard County in 1952 County, City Data Book

The "statistical picture" of Foard County's population, homes, business and agriculture is presented in the new publication of County and City Data Book, compiled by the Census Bureau. The book contains a great portion of the information compiled as a result of the census survey in 1950.

General contents in this book stated that Foard County had 4,216 inhabitants, 1,481 farms, 495 farms and 69 stores.

A great deal of technical information relating to Foard County is reported in this book. The population of the total number of inhabitants was 30 years; 21 years old or over numbered 2,590; there were 1,120

families and the average family income was \$2,269.

Figures pertaining to the housing situation indicated that 1,249 of the county's 1,481 dwelling units were occupied. Four and one-half per cent of the occupied houses were equipped with central heating, 74.3 per cent had mechanical refrigerators and 90 per cent had radios.

The agriculture section claimed that the average value of each farm was \$38,050. Some 403 farms in the county were reported to be wired for electricity, only 92 farms being without this service. The value of farm products sold in that year was \$5,095,000.

Sixty-nine retail trade houses had 135 paid employees and reported sales totaling \$3,217,000.

Wheat Farmers to Decide Whether to Use Controls in Marketing Their 1954 Crop at An Election on August 14th

Recent proclamation of a national wheat marketing quota by Secretary of Agriculture Ezra T. Benson means that wheat farmers will soon be called on to decide whether to use controls in marketing their 1954 crop, a spokesman of the local P. M. A. office stated Tuesday.

The local office reminds farmers that a referendum on the quota will be held August 14. At least two-thirds of the farmers voting must approve quotas before they can be put into effect.

At issue also is the level at which the Government will support the price for the 1954 wheat crop. Legislation directs support at 90 per cent of parity if quotas are approved. However, if farmers disapprove marketing quotas, the support drops, according to law, to 50 per cent of parity to those farmers who comply with their wheat acreage allotments.

Officials point out that the Secretary had little choice in the matter of issuing the wheat quota proclamation. Legislation directs that such a proclamation be made whenever the total supply of wheat exceeds the normal supply by more than 20 per cent. The normal supply consists of estimated domestic consumption plus exports plus a 15 per cent reserve.

The supply of wheat this year is now estimated at about 1,760 million bushels, about 370 million more than the quantity at which a national marketing quota proclamation is mandatory.

All wheat farmers who are subject to quotas are eligible to vote in the wheat referendum. A farmer is subject to the quotas generally if the acreage classified as wheat on the farm in 1954 is more than 15 acres, or if the farm has a normal production of 200 bushels or more on the acreage planted for harvest.

Wheat acreage allotments will be in effect for the 1954 crop of wheat. Allotments are not affected by the outcome of the quota referendum.

Have you mailed your camping letter to me yet? Remember this Saturday, August 1st, is the deadline for sending it in. I do hope a lot of you will come, as we are planning to have a fine time. As you know we will leave Crowell from the west side of the court house at 2:30 p. m., August 5, and the schedule is as follows:

Wednesday: 2:30, leave Crowell; 3:30 to 6, start craft; 6 to 7, eat and clean up; 7 to 9:30, party; 9:30 to 10, get ready for bed; 10, bed.

Thursday: 6 to 7, get up; 7 to 8, breakfast; 8 to 10, recreation; 10 to 12, work on craft; 12 to 1, lunch; 1 to 2, finish craft; 2 to 2:30, clean up; 2:30 leave for home.

I'm looking forward to seeing many of you there.

CO-LABORERS CLASS

The Co-Laborers Sunday School Class of the Methodist Church met in the home of Mrs. M. S. Henry Thursday afternoon, July 23, with Mesdames Henry, G. L. Cole, Alton Higginbotham, Oscar Gentry and E. W. Kidd as co-hostesses.

Mrs. Jeff Bruce was chairman of the program, "Paul and His Works," given in an excellent manner. She closed her talk with a quiz prepared on Paul's life, which was very challenging to the women.

Twenty-six members and guests registered in the guest book.

Appetizing refreshments were served at the close of the program.

Halley's comet will reappear in 1985.

In The News... 30 YEARS AGO

News items below were taken from the issue of the Foard County News of Friday, June 27, 1923:

D. L. Reavis is just completing a large map of Foard County, showing the ownership of every tract of land in the county.

The death of F. G. Ferguson, pioneer resident of this section and the oldest of a family of 14 children, occurred at his home here Thursday morning.

There is a probability of Crowell getting a bakery the first of next year.

Little Bernice Poland, daughter of Mr. and Mrs. H. D. Poland, celebrated her sixth birthday on July 17.

T. A. (Lat) Johnson, pioneer Thalia resident, died at his home in that community Wednesday afternoon late, following an illness of several months.

Foster's forecasts for August are favorable. He predicts heavy rains from the first of the month to the 8th for this section of the county.

Mr. and Mrs. Frank Moore have returned to Crowell from Dallas to make their permanent home here.

Mr. and Mrs. J. H. Westbrook and Mr. and Mrs. Tom Westbrook were here Saturday from Truscott.

Mr. and Mrs. W. B. Tysinger of Electra are here visiting relatives.

Fred Rennels left the first of the week to attend the annual short course at A&M College.

Ritchie Newton of Marietta, Okla., who has been visiting his aunt, Mrs. T. B. Klepper, has returned home.

Austin, Texas—“A natural disaster and public calamity” exists in the drought areas of Texas, according to an official proclamation by Governor Shivers.

The proclamation was a legal requirement for putting the state drought aid program into action.

Using his emergency powers, the governor set up a state de-

partment had not thought of asking for either paupers' oaths or financial statements as a prerequisite for aid to farmers and ranchers.

Members of the local committees will be farmers, ranchers, bankers, and agriculture experts, able to judge each application on its own merits, Shivers said.

He added that work is going forward on the drought aid program at the state level.

A meeting of the Texas A&M College board was to follow conferences between representatives of the attorney general and the college on a plan to furnish hay to drought areas.

And the State Department of Health surveyed water supplies as related to health.

In Washington, Senator Price Daniel of Texas, following a visit to the drought area, said “our great need today is for a long-range state-federal program for drought control.”

Temporary relief in time of emergency solves no permanent problem, Daniel commented, and “we must control droughts by joint effort or else, in the not too distant future, droughts will control us.”

While the drought relief program was getting started, hard rains fell at scattered points over much of the state, bringing joy to some of the people in parched places and cooler weather to most sections.

The rains, however, were not general and it was not considered that the drought was broken.

Charges against District Judge

Woodrow Laughlin of Alice will be investigated by the Texas Supreme Court, which appointed District Judge D. B. Wood of Georgetown to hear testimony on eight of the counts, four others having been dismissed.

The probe will include the accusations of 11 lawyers in Judge Laughlin's district that he ordered impounded ballot boxes delivered to a nephew of George Farr, the nephew at that time was sheriff of Duval County.

Also to be looked into is a charge that Laughlin impeded a Jim Wells County grand jury which was considering the slaying of Jacob S. Floyd Jr.

Another subject for the investigation is a charge that Laughlin dismissed 68 indictments in Starr County, 50 of the indictments being based on alleged fraud and irregularity in the July primary last year.

Judge Wood is to make his report to the Supreme Court by October 1. Judge Laughlin's attorneys will then have 30 days in which to file their objections.

Thereafter the court will determine whether or not to sustain the charges and whether to remove Laughlin from his office.

Governor Shivers will be in Seattle on August 2 for a five-day session of the national governors conference.

President Eisenhower is scheduled to be present for discussions on federal-state relations. Shivers is chairman of the conference.

The state property tax this year will remain at 42 cents per \$100 valuation—35 cents for schools, 5 cents for the college building program, and 2 cents for Confederate pensions.

An extra 30 cents will be collected in the Dallas flood control district, in precincts of Jefferson and Matagorda counties, and in all of Aransas, Austin, Brazoria, Brazos, Burleson, Calhoun, Cameron, Coke, Fort Bend, Grimes, Milam, Robertson, San Patricio, Tom Green, Waller, and Washington Counties, all of which pledged state taxes to pay for conservation projects.

The rate was set by the State Automatic Tax Board, composed of the governor, Comptroller Robert S. Calvert, and Treasurer Jesse James.

Return to the state from the tax is an estimated \$26 million for the year.

For September, the Texas draft quota is 1,232 men, state selective service headquarters announced.

That's two more than the August call and 54 below the number of draftees in the July quota.

Thirty doctors of medicine will be inducted in August, largest number for any single month to

date, said Brigadier General Paul Wakefield, state draft director.

There was one political development: State Senator Searcy Bracewell of Houston said he might run for lieutenant governor next year “if it is an open race.”

By that he meant he would not run if Ben Ramsey, the incumbent in that office, seeks reelection.

And the “if” in that sentence is a big one in the state political picture.

Ramsey is considered a sure starter in the race for governor “if” Shivers does not run. Shivers has said that he might ask for a third term.

On Shivers' decision rests the candidacy of more than one hopeful, not only for the governor's office, but for other places that might be vacated in the political shuffle.

Purchaser of a site for a new headquarters building in Austin is the Texas Public Employees Association, an organization of state and local government workers.

The location is a block north of the capitol. Pirtle Watt, executive secretary of the association, said that the date for beginning construction of the building has not been set.

State police have coined a word: “motorcide.” It means a traffic fatality.

Col. Homer Garrison, director of the Texas Department of Public Safety, said two of his staffers, N. K. Woerner and Lewis E. Berry, invented the word.

In Texas, the “motorcide” rate is decreasing, according to the department's figures for 1952 and first six months of 1953.

Socialism Eats Our Tax Money

The head of a southern power and light utility recently made a little analysis of one economic aspect of socialized electric development.

He expressed his findings in these words: "The government, with one-seventh the capacity of the private companies, carries only one-six hundredth of the tax load. It would have to pay 25 times as much to be on an equal footing with the private companies. Stated another way, with 12 per cent of the capacity, federal power carries less than one-half of one per cent of the tax load."

Here is more evidence of the uncontested fact that socialized power is subsidized, both directly and indirectly, by all of the taxpayers. Today national attention is focused on the problem of cutting government costs. One of the best ways would be to get government out of the power business as quickly as possible—as has been suggested by former President Hoover and other statesmen. Until then tax all government power the same as private power. Why exempt users of public power from tax payment?

News from the Congress

by Congressman Frank Ikard

Washington, D. C., July 24, 1953. As we approach August first, chances look reasonably good that Congress will adjourn close to that date.

The two major obstacles in the way of adjournment are action upon two proposals that the President has put on his "must" list. They are a bill which would admit approximately 250,000 South-eastern Europeans into this country, in addition to our regular immigration quotas. There is expected to be considerable opposition to this bill and there is some question in my mind as to whether or not it will be passed. As I have stated previously in this column, I am opposed to this legislation.

The other bill is the one that deals with an increase in the postal rates. Among other things, this would increase the first-class

rate from 3c to 4c. As is well-known, the Post Office Department's deficit is roughly seven hundred and seventy-five million dollars. Of this loss, approximately three hundred and eighty-five million represents the loss on second and third class mail alone. I would not favor increasing the first class postal rates until after there has been an adjustment in the second and third class rates. At the present time, the first class mail shows a profit of over one hundred and five million dollars per year.

The House Ways and Means Committee has announced that this fall there will be a full scale study and investigation made of our whole Social Security setup. Early during the next session of Congress, there will probably be a number of bills introduced as a result of this investigation. This is something that has been needed for a long time, for under the Social Security law as it exists at this time, there are many inequities.

Visitors in my office this week were Tom Craddock of Seymour and Joe Ward of Wichita Falls.

Activities in which the group participated included swimming, shuffle board, horseback riding, and ping pong. A barbecue was given in honor of the Delta Thetas during their three-day stay.

Every Man Is Either an Asset or Liability

It ought to be possible for every good sensible man to see the value of cooperation in community building. Every man in a community is either a builder or a destroyer. He is either an asset or he is a liability. He may be a large asset or he may be a small asset. The same truth applies if he is a liability. No man fills his place as he might and measures up to the fullness of his opportunities if he fails to ally himself with the highest and best interests of his community. The word which explains this is "co-operation."

There are other men in business who have as much right to expect your business patronage as you have to expect theirs, and if the business people of a town do not recognize and observe this truth, some legitimate interests suffer. The town or the community constitutes a body and the individual interests are the members. No member can suffer without the body sustaining harmful effects. The same thing applies to the moral and religious interests. Permanency and power as means of accomplishing things worth while come as the result of co-operation.

"Propaganda and Trick Bookkeeping"

Raymond Moley recently traced the history of socialized electric power over the past 20 years. He discussed the revolutionary plan, beginning with TVA, to create seven regional valley authorities—"each with an autocratic board appointed by the President and with control of electric energy as a source of political power capable of superseding state and local governments and of absorbing private industry." This was blocked, he pointed out, by the House of Representatives and the governors of the threatened states. Yet the march of public power continued. And of it Mr. Moley said: "The generation of electric power instead of remaining a by-product of other legitimate federal concerns such as flood control, navigation and irrigation became the major objective. The purposes of navigation and flood control became mostly a screen."

"Electric power and its monopolistic control was the end. Propaganda and trick bookkeeping became the means."

Mr. Moley's charges are supported by the record. The propagandists for power socialism have dealt in half-truths and plain untruths. They have said that private enterprise is incapable of constructing and operating the big power-producing jobs—whereas the fact is that, when given the chance, private enterprise has never failed, no matter how costly or difficult the undertaking. They have claimed that socialized power is cheap power—and tried to hide the fact that it is "cheap" because, and only because, of tax subsidies, tax freedom and what Mr. Moley calls "trick bookkeeping."

At long last, the socialistic trend is being checked. But the friends of socialism haven't given up. They're still looking for a chance to put their program over. We must be forever on our guard against them.

A MEAN TRICK

Hodgenville, Ky. — Somebody played a dirty trick on Sheriff Joe Barnett of Wayne County. A 220-gallon moonshine still—one of the largest ever discovered in Larue County, of which Hodgenville is the county seat—was set up in a heavily wooded ravine in a remote section of Burnett's farm.

Benjamin Franklin was the first Postmaster General of the United States.

Health Letter

Texas State Department of Health, Austin, Texas. Geo. W. Cox, D. State Health Officer.

Polio isn't running wild in Texas this summer as it did in 1952, but it is still smarting with the kids. State Health Officer George W. Cox, says:

There are several common items parents ought to be mind during the polio season. Dr. Cox lists them like this:

Don't get panicky. Keep your child's health as good as you can. Most polio victims recover completely, and 90 percent of the other half recover with only slight weakness.

14 per cent have lasting paralysis. Realize that gamma globulin is not a cure for polio. There is no cure. GG is intended as a temporary preventive only. At best it is effective for 5 weeks, after which has all been eliminated from the body.

Gamma globulin has been used on more than 54,000 cases and the results are now being studied, but once the polio has reached the nerve cells cannot alter the course of the disease.

You can find out whether your child is eligible to receive gamma globulin by calling the health officer in your county. He is familiar with the facts for GG distribution in each county.

Keep them clean and healthy. Keep your child's health as good as you can. Most polio victims recover completely, and 90 percent of the other half recover with only slight weakness.

Last, but highly important, your doctor at the first sign of any of these signs: headache, fever, sore throat, upset stomach, stiff neck or back. The sooner a case of polio is diagnosed the better are the chances for recovery without lasting damage.

Great strides are being made toward the development of a vaccine, but until it is finally developed, Dr. Cox believes that gamma globulin is still valid.

"A high level of environmental sanitation and personal hygiene is the individual's best defense against polio."
