Social Security Benefits May Be Available to You

Workers who are 65 years of age or over (women age 62 or over) may be suffering a loss of benefits if they have been working on a job or were self-employed in employment covered by social security and do not know the meaning of retirement as it pertains to the social security law.
 Retirement, as defined in the social security law, does not mean that you must be completely inactive, but rather that you are:
 1. Working for wages or self-employment income of not over \$1200 a year, or
 2. You are age 72 or over (in which case amount of earnings has no effect regardless of how much you earn).
 You can earn up to \$2080 and still get some payments. Also, individuals who earn over \$1200 in a year may draw their social security benefits for any month in which they neither earn over \$100 nor render substantial services in self-employment, regardless of how much they earn during the year.
 If you are a male worker over 65 years of age (or a woman over 62) who has worked in employment or self-employment covered by social security and you have not as yet checked with your local social security district office, it would be advisable for you to contact them.
 A representative will be in Crowell at the court house on Tuesday, Sept. 6, from 10 a. m. until 12. You are invited to meet with him concerning any social security matter.

Locking Barn After Horse Has Fled

"The Government paid commercial storage warehouses \$411 million for grain storage last year. Controller General Joseph Campbell said some warehousemen made a profit of as much as 265 per cent, because of the policy of setting a single rate for all grain warehouses, regardless of operating costs or capacity. The Agricultural Department has begun studying storage costs as a basis for setting future rates, locking the barn after the horse has fled."

400 Pay Fines for Fishing with No License

There were many lucky fishermen in Texas during August, but 400 of them definitely weren't. Of the 501 arrests made by game wardens last month, 400 of them were for fishing without the \$2.15 license required.
 Unlucky hunters also were arrested for hunting from automobiles, killing deer, ducks, quail and curlew out of season.
 Two more fishermen also paid fines for "telephoning," which is the use of electrical device for taking fish.
 The 501 arrested paid fines and costs totaling \$8,514.80, according to E. M. Sprott, director of law enforcement, Game and Fish Commission.

Snakes Alive!

Watch out for snakes. This is the warning of game wardens to persons going into woods or on the waters for the next few weeks. Cooling rains have put poisonous snakes on the move again and almost every day someone suffers a painful snakebite through negligence.

You pay 90¢ tax on 10 gallons of gasoline

Gasoline taxes up 51% in ten years

Federal tax to 4 cents a gallon, in addition to the State tax of 5 cents a gallon.

Looking at it another way, in the last ten years gasoline taxes have skyrocketed 51%—yet the price of gasoline itself has risen only 5.5% during the same period.

\$78 a year for gasoline taxes! Gallon by gallon, these taxes add up to a lot of money. Each year the average motor vehicle owner in this state pays \$78 for gasoline taxes alone. That's just a few dollars less than the average week's pay for most people!

Everywhere in Texas, car owners pay 90¢ tax on every 10 gallons of gasoline they buy.

Does a tax this high—on a basic commodity like gasoline—really make sense? Gasoline taxes across the nation amount to a 50% sales tax—and that's five times as high as the tax rate on luxuries like diamonds and mink coats.

HIGHWAYS AND GASOLINE TAXES

Your gasoline retailer, naturally, favors construction of the roads that the motoring public needs. He believes in fair and reasonable taxation for this purpose but feels that taxes on gasoline have now reached unreasonably high levels. He also believes that all special taxes on the motorist should be used only for highway purposes. Yet last year, out of every automobile tax dollar collected by the Federal Government from highway users, more than 40 cents went for non-highway purposes. If these automotive tax revenues were dedicated for highway purposes, there would be no need for the latest increase in the federal gasoline tax.

A reception followed at the church parlor where the bridal table was covered with white net accented white jeweled wedding bells and seed pearls.

For a wedding trip to Raton, N. M., the bride wore a black

sheath with black and white jacket and tiny feather hat. Her flower was a white orchid from the bridal bouquet.

The couple will make their home at 622 So. Palm, Ponca City, Okla. where the bride will teach and Mr. Pool will complete school at Oklahoma State University. The bride is a graduate of OSU.

Thalia Couple Honored at Shower Thursday

Mr. and Mrs. Bobby Powers were honored with a shower at Thalia Methodist Church banquet room Thursday afternoon. A blue and white color scheme was carried out in the decor. The refreshment table was covered with a blue cloth overlaid with a lovely white hand made tatted cloth made by Mrs. Laura McLarty.

Dainty cookies, fruit punch and mints were served to the guests by Earlyn Hammonds and Vicki Farrao.

Guests were met at the door by Mrs. Cecil Carpenter, who introduced them to the bride, Mrs. Powers; her mother, Mrs. Love, and the mother of the groom, Mrs. Dee Powers. The three ladies wore white corsage of carnations and stephanotis, which were gifts of the hostesses.

The register table had a rose-gay arrangement of colorful cut flowers as did each end of the display table and the piano. In the center of the display table was a lovely arrangement of love birds and wedding bells in the chosen colors of blue and white.

Judy Johnson and Martha Gaye Ramsey alternated at the register and the piano.

Other hostesses assisting at the gift tables and other services were Mrs. Bill Moore, Mrs. Roy Shultz, Mrs. Joe Coufal, Mrs. Jake Wisdom, Mrs. Robert Hammonds, Mrs. Homer McBeath, Mrs. Raymond Grimm, Mrs. Jim Moore and Mrs. W. A. Johnson.

Soft music was played throughout the entertainment and an original poem was read by Mrs. Maggie Capps.

Many beautiful and useful gifts were displayed.

Near the end of the party, Roy Martin Shultz, Joe Coufal, Billy Doyle Shultz and the groom, arrived and made several pictures of the affair.

Raise of Transient Value

"Steelworkers themselves know that any raise will be of transient value, because any raise they get will trigger demands of unions in all other industries . . . Newspaper polls before the strike showed that union members were generally aware of this discouraging fact.

"Yet a strike we had, because monopoly unions today are more responsive to the demands of intra-union politics than to the wishes of the members.

"Thus we are reminded that the new labor act, valuable as it

Home Demonstration Notes

Is there still some room in your home freezer? If so, why not preserve some colorful melon cubes or balls for use later in the year . . . for dessert, salad or appetizer.

For home freezing, select firm-fleshed, well colored, ripe melons. Cut in half, remove seeds, and peel. Cut the peeled melon into cubes or cut in balls the size of large marbles using one of the small spoon-scoops sold for the purpose.

Pack into freezer containers and cover with cold syrup made in the proportion of 1 cup sugar to 2 cups water. Leave enough head-space for expansion in freezing—one-half inch for a pint container with wide-mouth opening and 1 inch for a similar quart container. Freeze at zero degrees F. or below and keep stored at zero.

Watermelon preserved this way might be used as a novelty first-course for Christmas dinner, for example. Its attractive red fits the holiday color scheme.

You can also freeze cantaloupe and honeydew melons. Commercially frozen packages of melon balls usually include several kinds of melon for variety in color and flavor. Work out your own assortment from the melons available to you.

Skillet Fried Corn

Cook in skillet over medium heat until crisp, drain and crumble 4 slices bacon. Combine four cups fresh cut corn, including milk scraped from cob, one-half cup light cream, 1 tsp. salt, dash pepper, crumbled bacon. Add corn mixture to bacon drippings in skillet and cook over low heat until ingredients are well blended, 15-20 minutes, stirring frequently.

Education Becoming More Important

"In the next ten years, 26 million youngsters will enter the labor force for the first time . . . The outlook: Thirty per cent of them will not have a high school education. During their best years, most will be averaging less than half the pay of those who have been trained in skills.

"Every effort must be made to encourage our young people to obtain the best education possible . . . for their sake and for the sake of our entire space-age society." — Danielson, Conn. Transcript.
