Seen only on higher priced cars and Chevrolet

The meaningful emblem of Body by Fisher

When you see "sterling" on silver you know what it means-solid silver, all the way through.

And when you see the medallion "Body by Fisher" on an automobile it means much the same thing-quality all the way through, in things unseen as well as on the visible, gleaming surface.

The significance of this emblem cannot be tested on the showroom floor. Its meaning was not built up in a day but only after long years in which owners learned that "Body by Fisher" was a veritable symbol of solid, enduring satisfaction.

Only one who has owned a Chevrolet for several years can fully know the deep sense of satisfaction this emblem pledges. It is the warranty of an inner soundness that your eye or your touch cannot test. And only Chevrolet in the low-price field is entitled to wear the small, proud plaque that proclaims "Body by Fisher."
