Band Director Attends Meeting in San Antonio

E. L. Rickard, Wildcat Band director, returns today from a four-day meeting of the Texas Bandmasters Association which is an annual affair held in San Antonio each August. This meeting has a two-fold purpose. It is designed to give band directors in the State a chance to hear all of the new music that has been written during the preceding year and also to attend a series of discussions pertaining to football half-time shows, Mr. Rickard says.

He further remarked that "the new music is played by the 4th Army Concert Band of Fort Sam Houston. This band is made up of a group of outstanding Army musicians who have all had wide experience in playing band music."

Your Name in The Newspaper

How valuable is local newspaper advertising to local business people? Here's what the American Bankers magazine, a publication which represents a traditionally hard-headed profession, has to say: "No business man or woman in any town should allow a newspaper to go to press without his or her name and business being mentioned somewhere in its columns. This does not mean you should have a whole, half, or even a quarter page advertisement in each issue of the paper but your name and address should be mentioned if you do not use more than a two-line space."

"Esplanade of Light" to Be Featured at State Fair of Texas

Spectacular illumination and scenic water effects will be incorporated into a dazzling "Esplanade of Light" for the 1956 State Fair of Texas, Oct. 6-21.

The lighting effects will be the most magnificent and thrilling since those which illuminated the Texas Centennial Exposition on the Dallas fairgrounds in 1936.

In addition to the modern theatrical illuminative techniques, an array of 1,772 jets and fountains of water will leap and cascade in and around the 730-foot-long reflecting pool which forms the centerpiece of the Esplanade, just inside the main gates to the fairgrounds.

Lights playing on and under the water will provide ever-changing kaleidoscopic effects of magnificent color.

Dallas Power and Light Company is co-sponsor with the State Fair of Texas of the lighting and fountain project.

The Esplanade of Light will utilize enough electrical voltage to light up a small city. There

What's Ahead in Auto Engines

The first automobile manufacturer to produce a workable, powerful and economical successor to the present internal-combustion gasoline engine may put his competitors in the shade, say the editors of Changing Times, the Kiplinger Magazine.

Three types of engines may fill the bill: the gas-turbine engine, the free-piston engine and the fuel-injection engine. Only the latter type can claim any relationship to engines now in use. Luxury cars, such as Continentals and Cadillacs, may be equipped with it next year. A refinement of the motor in your present car, it has no carburetor; the fuel is sprayed directly into the cylinders. The result is fuel economy, improved acceleration and smoother operation.

Experimentation with the gas turbine has been extensive, but you won't see it in cars for at least another five years. It requires only one-fifth the number of parts in a piston engine and weighs a third as much, needs only one spark plug, gets along without a radiator or conventional cooling system and uses a cheap fuel. At present, the cost of producing the motors is prohibitive since fantastically expensive metals are needed to sustain the 1,600-degree heat created.

The free-piston engine has been successfully operated with cheap fuels, including peanut oil. It needs even fewer parts than a gas-turbine engine and is almost vibration-free. And it can be made of conventional metals, since it does not work up excessive heat. But it still has lots of bugs in it.

What about atomic-powered engines? Scientists brush off any suggestions that atomic-powered cars are just over the horizon. They are not even sure such cars are possible. It's hard enough, they say, to harness atoms for locomotives, airplanes and steamships.

WANTED BY THE FBI

FLENOY PAYNE

A complaint was filed before the U. S. Commissioner at Clarksdale, Mississippi, on September 22, 1953, charging Payne with a violation of Title 18, U. S. Code, Section 1073, in that he fled from the State of Mississippi to avoid prosecution for the crime of murder.

Payne is described as follows: Age 47, born July 18, 1909, Scott, Mississippi; Height, 5' 11"; Weight, 139 to 160 pounds; Build, slender; Hair, black, kinky; Eyes, brown; Complexion, brown; Race, Negro; Nationality, American; Occupations, laborer, farmer; Scars and marks, cut scar on right temple, cut scar on chin, spot and cut scar on left forearm, vaccination scar on left arm, cut scar on lower right buttock, two spot scars on back of right hand, cut scar on back of head; Remarks, may be wearing mustache, has a loud voice.

Payne has been convicted previously for murder. He is reportedly armed with a pistol at all times and should be considered extremely dangerous.

Any person having information concerning the whereabouts of Flenoy Payne is requested to contact the Director of the Federal Bureau of Investigation, United States Department of Justice, Washington, D. C., or the Special Agent in Charge of the Federal Bureau of Investigation Office nearest his city.

O'Daniel Voters Switch to Daniel

Scores of former key supporters of W. Lee O'Daniel in the Governor's race have pledged their active support to Senator Price Daniel in the run-off campaign which winds up Saturday, August 25.

Daniel led the ticket in the first primary by 165,500 votes over his run-off opponent, Ralph Yarborough.

Former O'Daniel backers now supporting Daniel include Judge Tom L. Beauchamp of Paris, who served as Secretary of State in the O'Daniel administration and later served on the Texas Court of Criminal Appeals for many years.

Beauchamp wrote Daniel that "we are in a great fight for our rights as a state. My long association with you in the State Capitol assures me you are the man to best lead us as Governor."

Others include Mayor R. E. (Nitter) Kollman of Fort Worth, a prominent Central Texas cotton man; Bill Corry of Fort Worth, longtime political associate of O'Daniel; Ike Wynn of Sulphur Springs, O'Daniel's campaign manager in that East Texas area during the first primary; and Bruno Elzner Jr. of Bastrop, leader of the O'Daniel forces in Bastrop County.

Daniel received one telegram signed by 27 former O'Daniel supporters from Hopkins County and 15 from Colorado County, all pledging him their support in the run-off election.

Catch the Rain Where It Falls

Nowadays millions of people think of flood control as something that requires huge multi-purpose dams costing an incredible sum of tax money.

The truth is that big-scale flood control, in case after case, can be better effected at vastly lower cost, by small upstream dams.

This story was recently told in a National Municipal Review article by Peter Farb. Mr. Farb dealt with what has been done on a stream in Western Oklahoma which formerly suffered an average of nine floods per year. The Soil Conservation Service—with only pennies to spend where the big dam groups spend dollars—solved the problem by the upstream approach. Of this, Mr. Farb writes, "The upstream approach is as different from the big-dam approach as earth is from concrete. While SCS diminishes floods by trapping water upstream, and thus minimizes downstream flood conditions, the Army Engineers try to control already-swollen rivers." The upstream dams, he adds, are each about 1/2000th the size of the typical big-dam built by the engineers and the cost is comparably less.

will be a total of 981 spots and floods. Special mercury vapor lamps will give a silver-green glow to the 40 great live oak trees along the Esplanade.

The overall lighting effects for the Esplanade of Light were designed by C. M. Cutler of General Electric Company.

The whole theory of upstream construction is devoutly desired by those who want to see a tax-subsidized, socialized, federal electric power monopoly established in this country.

Why, then, has there been so much propaganda for the multi-hundred-million dollar big dams? One reason is that these dams also produce power — and their

Rural Voters Overwhelmingly Support Will Wilson for Attorney General

Will Wilson, Democratic candidate for Attorney General of Texas, has much in common with the rural folks.

He's a farmer too! He is sharing with many of them, disheartening experiences with the drought.

Wilson loves the land, and is a practical farmer. He spends all available time trying to fix his fences and to save the crops and trees he planted himself.

Wilson recently toured Texas with the Soil Conservation Service inspecting the small dam projects planned for creeks. He believes that this form of flood control is a possible solution to the water problem.

As attorney general, Will Wilson will act as legal advisor to the Agriculture Commissioner. During his campaign for Attorney General he has pledged strict enforcement of water conservation laws and water rights.

Rural voters of Texas feel that as their Attorney General Will Wilson can bring the attorney general's office closer to them and their problems, as he shares the same problems they have on their own farms.

In the July primary election, Wilson gained overwhelming support of the rural voters. He carried 206 out of 254 counties. In a four man race he received over 49% of the vote and a 185,000 vote lead over his nearest opponent. A total of 673,000 Texans voted for Wilson, in the primary, giving him more votes than any other candidate received in the governor's, lieutenant governor's, or attorney general's races.

WILL WILSON is pictured above as he inspects his burned out crops on his farm near Brushy Creek in Williamson County.

Texas will make the big decision Saturday: Price Daniel or Ralph Yarborough for Governor.

The choice to us is quite plain. Price Daniel, because of his experience, his personal integrity and his very great ability to serve, should be given a rousing vote of confidence on election day.

Price said last March that he was going to run a clean campaign. He said the people were tired of bitterness and name-calling. His 628,000 votes lead in the first primary—a lead of 165,500 over Yarborough—proved he was right.

Those of us who know him, or who have heard him speak during this long, hot Governor's campaign, are impressed by the fact that he sincerely wants to help solve Texas' critical water problem. He sincerely wants to do something for farmers and ranchers who are just about finished by drouth. He sincerely wants to do a variety of other important things that will enhance the progress and prosperity of our state.

Despite all the smearing of a flock of opponents in the first primary and his one opponent in the run-off, Price Daniel has stuck to his guns and campaigned on his own merits. He has been good and mad at times at some of the things thrown at him, but he has done remarkably well at holding his temper.

That's the kind of Governor Texas needs and wants. If there have been any doubts regarding Daniel's statesmanship and qualities of leadership, these questions have been answered by now. With Price Daniel in the Mansion, we will get clean government and real work toward restoring unity in the Democratic Party. He should become one of our greatest Governors.

the State Fair line; thus the Dallas Monorail will become the only one operating in the nation. Officials said the transportation it will provide will be "safe, silent and swift."

Monorail utilizes a fiber-glass coach suspended from an overhead beam supported by a system of inverted J-shaped towers. The 60-passenger coach which has been used in Houston will be completely remodeled for its State Fair debut.

The State Fair line will be approximately 4,000 feet long. It will extend from a point near the Automobile Building and the Auditorium through the fairgrounds to the main parking lot on the rear of the grounds.

The beam on which the Monorail coach will run on its pneumatic tires will be supported by 40 steel towers, 30 feet high, and spaced approximately 100 feet apart.

There will be ground-level loading stations at each end of the line and one intermediate stop—an elevated loading platform on the Midway plaza near the main entrance to the Cotton Bowl.

To be known as the "Monorail Skyway," it will serve both as an unusual exhibit demonstrating the most modern type of fast transportation and also is expected to have a novelty appeal comparable to that of a giant Midway ride.

Although the Monorail coach is capable of attaining speeds up to 250 miles per hour, the short distances it will travel on the fairgrounds will limit its speed. It will probably take about two minutes to travel from the front part of the fairgrounds to the back, exclusive of the time it takes to load passengers at the intermediate stop.

The line will be operated by the Texas Skyways Co., a subsidiary of Monorail, Inc., under terms of a six-year contract with the State Fair. A 25-cent fare will be charged. After the Fair, the Monorail will be operated throughout the year on week ends and at other times.

It seems to me a political convention offers a rare opportunity for good song writers, but the efforts thus far have been pretty amateurish. Just the what a job Johnny Mercer could do with IKE ADLAI. In fact—with his lyric-writing ability—could even rhyme Stevenson or Eisenhower (to make it sound good!).

It seems to me also that Philco has done a job with their new television line. Something has been added to the new 1957 Philco table model. The sound comes out the FRONT. This is a feature the public has clamored for . . . and rightly so. —in the sound-out-the-side models—sometimes sound was shuttled right out an open door or window. And, as a special "back to school" offer, Philco offers a terrific deal on a nice globe and atlas (something YOU'VE wanted all your life!)

Drop in tomorrow and inspect the DIAMOND PHILCO!

Sincerely, Marion Crowell.

What
Grandmother
did

that Granddaughter doesn't!

For one thing Grandmother spent 5½ hours a day in the kitchen. Granddaughter doesn't—she spends about an hour and a half on the average.

Plenty of low-cost electricity is the biggest part of the reason why. There's more than enough to do your cooking, your mixing, your dishwashing, your water heating.

And the men and women at your electric service company are planning and building ahead so there will be plenty for granddaughter, too.

In fact, you can be sure of plenty of electricity always when you are served by an independent electric company like this one.

Next Tuesday morning at 9:30, Judge Leslie Thomas will give the training meeting on Jury Duty to the club leaders who are to give this program back to their clubs in September. I'm sure this will be a very interesting and informative meeting, so if you are a club leader for this program plan now to attend.

Summer Squash with Bacon
2 pounds summer squash, 1/4 cup boiling water, 1 teaspoon salt, 4 strips bacon, 1 green pepper, 2 medium onions, 1/8 teaspoon ground black pepper.

Wash and cut tender unpeeled summer squash into slices 1 inch thick. Place in a saucepan with the boiling water and salt. Cover. Bring to boiling point. Cook until crisp-tender, about 15 minutes. Drain if necessary. In the meantime, fry 4 strips bacon until crisp. Remove from pan. Pour off all fat except 2 tablespoons. Add green pepper and onions and saute until almost limp. Add drained squash and black pepper.

Divers Dodge Deep Denizens

Not everything is love and sweetness down where Game and Fish aquatic biologists are experimenting with skin diving equipment in Lake Travis.

The Commission's chief aquatic biologist, Marion Toole, said that, although it is mighty comfortable being submerged for long periods during the heat of the summer, the peace and quiet oftentimes is disturbed.

For example, Project Leader Kenneth Judgens told about one diver giving ground "all the way" when a huge snake approached his equipment. Asked later what kind of reptile it was, the technician said he didn't tarry long enough to tell.

Another biologist, on location thirty feet down studying Rio Grande perch nesting routine, came face to face with a giant catfish. The big cat looked straight through the mask into the diver's eyes. Suddenly it humped its back like a bristling dog and seemed ready to charge. The biologist, armed only with assorted tanks and gadgets, broke off the incipient engagement. He admitted the

THIS WEEK

-In Washington

With Clinton Davidson

A session of Congress is, in some respects, like a baseball game.

One team is made up of Democrats and the other of Republicans.

Each is trying to make a "hit" with voters, or "score" by passing a bill that would be popular with the "fans."

And, of course, each wants to throw the other "out." You are the umpire, and sometimes the coach as well.

Every two years, in November, you add up the box score and cast your vote for the team you think has done the best job.

If your principal interest is farming, you look at the box score on farm legislation.

We thought it might be interesting to take an impartial look at what the second session of the 84th Congress did about one of the most controversial issues it faced, that of farm legislation.

President Eisenhower opened the session in January by throwing out a 9-point farm program which he asked Congress to pass.

You might say it was a 9-inning game starting in January and ending in July.

With Secretary Ezra Taft Benson pitching and the Democrats at bat, the first ball hit was a line drive, a 90 per cent parity bill directly to Eisenhower.

It was a hot one, but Ike scooped it up and threw the Democrats out at first, with a veto.

Then the Republicans came to bat and the first pitch was the soil bank. The Democrats looked it over and let it go by for a strike, although some of them claimed it was a foul.

At any rate it can put an extra \$1.2 billion a year in farmers' pockets, and no Democrat thought that was bad.

Next, the President called for surplus disposal program, bigger and better than ever before.

Democrats and Republicans both went to bat on that one, and the result was a \$5 billion "home run" appropriation that landed in the White House front yard and was autographed by Eisenhower.

The game was delayed while Democrats and Republicans argued some more about price supports.

Secretary Benson, the Democrats contended, had been pitching them too low.

President Eisenhower said he thought so, too.

BELT SAVES LIFE

Waukegan, Ill. - Arthur Doty, 22, credits the fact that he was strapped in the seat of his car with a safety belt with saving his life.

Doty's car roared along the shoulder of the highway, then spun out of control, going frontward, then sideways, and then forward again, then rocketed into a utility pole and snapped it in half.

It then went 140 feet more and crashed into a two-foot thick tree. Doty, although seriously hurt, was alive, despite a fractured pelvis, broken left elbow and head injuries.

When found he was still strapped in the seat.

While it was still a territory, women in Wyoming were given the right to vote.

Recent Bride Honored at Reception and Shower in Vernon

Mrs. Hubert Paul Schur of Vernon, who before her recent marriage, was Miss Margaret Stephens, was honored with a bridal shower and morning reception Wednesday of last week at the home of Miss Robbie Castlebury in Castlebury Park in Vernon.

Mrs. Schur is the niece of the late Mrs. R. L. Kincaid and granddaughter of the late Mr. and Mrs. A. Brian, pioneer residents of Crowell. Her mother, before her marriage, was Miss Jo De Brian

of Crowell. Mrs. M. L. Sharp, Mrs. Onie Simmons and Mrs. Harry Colley alternated at the door and presented the guests to Miss Castlebury; Mrs. Will I. Stephens, mother of the honoree; Mrs. Schur; and Mrs. Karl Schur, mother of the groom. A long, low arrangement of white gladioli, stock and greenery, into which was tucked a tiny white cupid, adorned the mantle in the living room.

Mrs. Schur selected an imported blue batiste dress, interwoven with gold threads, for the reception and wore alabaster shoes. Her corsage of white split carnations, studded with seed pearls, was a gift of the hostesses.

Other members of the receiving line also wore corsages of white carnations, tied with white ribbons. Mrs. J. L. Eggleston, Mrs. T. Edgar Johnson and Mrs. Lucille Killough alternated in showing the guests to the dining room, where the refreshment table was laid with a white cut-work cloth of pineapple linen, imported from Italy. Gracing one end of the table was a silver and crystal epergne, filled with white carnations, white

stock and greenery, with a shower of plastic spray falling down over the arrangement, and a large white bisque cupid, tucked into the flowers at the front.

A large, crystal punch bowl, placed at the other end of the table, held the fruit punch, and dainty cookies and frosted fruits were served from silver trays. The buffet was decorated with a five-branched silver candelabra, holding white cathedral candles. Assisting in the dining room were Miss Dorothy Hlavaty, Miss Reva Shelton, Miss Brenda Gelhausen, Miss Marcia Kincaid, Miss Frances Kincaid, Miss Margie Sharp, Miss Ann Glazener and Mrs. Ed Schur.

Mrs. Walter Hofmann, Mrs. John Carmichael, aunts of the honoree, and Mrs. Homer E. Rogers presided at the punch bowl. The guest napkins were white, lettered in silver.

Mrs. C. L. Glazener, Mrs. H. A. Thompson and Mrs. Claud M. Harrison alternated in showing the guests to the gift display rooms where Mesdames H. L. Westerman, Paul Ramsey, A. J. Carpenter, Raymond Kooz and other hostesses were in attendance.

At the table where guests registered, an arrangement of white carnations and greenery, highlighted by a small white cupid, was flanked by pink tapers in silver hurricane lamps. Assisting at the table and showing guests to the door were Mesdames Leonard Hoke, R. W. Abbott, Newe Woolard, Ira Luttrell, F. B. Elliott, Roy Pinkston and W. P. Thomas. The hostesses presented Mrs. Schur with a large silver tray. Mr. and Mrs. Schur were married August 4 at the home of her mother.

Miss Johnson and Mr. Bradford Exchange Marriage Vows Friday

Miss Bertha Jeanette Johnson and C. F. Bradford Jr. were united in marriage in a simple double ring ceremony performed in the Margaret Baptist Church Friday night, August 17, at 7 o'clock with Rev. Truman Boyd, pastor, directing the exchange of vows in the presence of the immediate families of the couple.

The bride is the daughter of Mrs. A. L. Johnson and the late Mr. Johnson of Crowell. Mr. Bradford is the son of Mr. and Mrs. C. F. Bradford of Margaret. Decorations included large baskets of pink gladioli which flanked tapered candelabra on either side of the altar. The bride's dress was white crystalline over taffeta with a sweetheart neckline, and her shoulder-length veil fell from a tiara of seed pearls. The white Bible she carried was topped with a spray of pink carnations and satin streamers. She wore something old, new, borrowed, and blue.

Miss Lanell Carey of Lubbock, who served as maid of honor, chose a light blue glazed cotton dress of princess style with a matching head band. She wore a waist corsage of pink carnations. William F. Bradford served his brother as best man.

A graduate of Crowell High School, Mrs. Bradford will receive her diploma in nursing from the Methodist Hospital at Lubbock on August 27. The groom attended the Margaret and Crowell schools and is now employed with the Santa Fe Railway Co. The couple will make their home in Slaton.

Out-of-town guests were Misses Nina Ray Allen, Margie Howard, Gladys Addison, Lois Guetersloh and Miss Carey, all school-mates of Mrs. Bradford.

Reception Honors Sister Mary Margaret Sunday Afternoon

A reception was held Sunday afternoon at the home of Mr. and Mrs. Karl ten Brink in honor of Sister Mary Margaret on her twenty-fifth anniversary as a nun. Mesdames Joe Drabek, R. L. Pechacko, Charlie Drabek and Miss Martha Rettig alternately presided at the reception table, which carried the color scheme, green and yellow. The table cloth was of cream colored damask, and refreshments included a light punch, which was served from a large crystal bowl, white angel food cake, and green and white mints.

Mrs. Bryan O'Connell registered the guests at a table on which was placed a large bouquet of pink crepe myrtle. Miss Helen ten Brink and her brother, Charles, received the guests at the door. Sister Mary Margaret is now registrar at the University of Dallas and has taught in Fort Worth at Our Lady of Victory. She was also Mother Superior for two years at Our Lady of Good Council in Dallas. She is the daughter of Mr. and Mrs. M. O'Connell, long-time Crowell residents.

Revival at Margaret

The Margaret Baptist Church reported a wonderful climax to a ten-day revival Saturday evening. The young people were in charge of the program. A girls' ensemble introduced the program with beautiful hymns. Songs, duets, and trios were also rendered. A piano solo was also employed. Following the musical program, a sermon was given by the pastor, which placed special emphasis on the young people. After the services, the women of the church surprised the young people with refreshments.

R. L. Ballard and Miss Leahy to Marry on September 8 in Austin

Mr. and Mrs. John Francis Leahy of Austin announce the approaching marriage of their daughter, Ann Celestine, to R. L. Ballard, the son of Mr. and Mrs. Dick Ballard of Crowell.

The wedding will be at Saint Mary's Cathedral in Austin at 11 o'clock on September 8.

Both Mr. Ballard and Miss Leahy are medical students at the University of Texas and plan to resume their studies there this fall.

MARGARET M. Y. F.

Seven were present at the Wednesday MYF meeting. Eight members had an impromptu meeting Saturday night after the closing revival service. The Sunday night service included two youth group songs sung before congregation and a trombone solo, "The Holy City," played by James Choate and accompanied by Noel Wilkins.

Seventeen Margaret members attended the sub-district meeting at Rock Crossing last week. Margaret was responsible for the program. Janie Bowers led prayer, Louise Gordon read the scripture verses, Mary Jo Boyd played the piano, and James Choate led the singing. Janie Bowers and Sandra Choate sang a special number, "Nesth the Old Olive Tree." Then the short lesson on "Prayer" was presented by Sandra Choate after which the congregation stood and repeated the Lord's Prayer.

FLIGHT FROM IRAQ

Mrs. Helen Subbagh, of Palo Alto, Calif., and her son, Laith Paul, 23 months, are all smiles after their flight from Rome, Italy, and arrival in New York. The 27-year-old California mother, who fled with her child from her Moslem husband in Iraq, said she was forced to leave that country with no belongings other than the clothes on her back.

GARAGE IS A TUNNEL

Lawrenceburg, Ky. — What was once Deputy Sheriff Herbert Phillips' garage is now a "tunnel." Phillips, driving his car into the garage, caught his foot under the brake pedal and the car went through the back wall. Fortunately, the car was not damaged.

Texas Farmers' Cash Income Shows 12 Per Cent Drop

Texas farmers' cash income was 12 per cent lower during the first half of 1956 than during the comparable period in 1955, the University of Texas Bureau of Business Research reports.

The mid-year comparison shows \$571,925,000 was the total income for January-June, 1956, against \$648,920,000 for January - June, 1955.

Decreases were recorded for nine of the 17 major commodities:

Too Late To Class

flaxseed, down 83 per cent; cotton, 22 per cent; cattle, 12 per cent; calves, 11 per cent; and wool, 1 per cent.

Combined decreases in and cattle meant a loss of \$52,000 from last year. A meter is 3.37 inches than a yard.
