WANT TO IMPROVE YOUR PERSONALITY

Maybe some high school students would like to know how to improve their personalities. The NEA Journal offered a little test for girls and boys of high school age to take to polish up on personality.

Do you try to be liked by this method?

I go along with whatever the crowd proposes, even if I don't think that the crowd is absolutely right... When things go wrong, I just glower and sulk... I don't do my best in school because I

am afraid that if I make good marks I may be ridiculed by some of my classmates.

Or do you try to be liked by the correct method?

I like to play the leading role, but realize that the behind-the-scene workers are important to the group too... I'm called a good sport because I do my share... I don't talk about others in a way that hurts, and I come to the defense of people when I hear unfair criticism spoken about them.

Do you try to be recognized by this method?

You can always hear my voice when I'm around... I usually wear flashy clothes and like to be first with a fad... I brag to get attention... I "raise Cain" in class to show that I'm not afraid of the teacher.

Or do you try to be recognized by the correct method?

I think good manners are important... I got the best grades I can with my capabilities... I try to be appropriately dressed and to have that "scrubbed" look when I have a project, I work hard to make it a success.

Do you try to gain a feeling of security by this method?

I associate exclusively with my own clique... I try to have my seat changed when I find myself near someone I don't like... I'll date only a popular boy or girl.

Or do you try to gain feeling of security in the correct way?

I try to save some of my allowance for big events.

If my allowance is inadequate, I supplement it by working in my spare time... I don't let praise go to my head, and I try to learn from honest criticism.

Do you try to have adventures and new experiences in this way?

Instead of doing worthwhile things, I daydream that I'm rich and famous... I don't stick to any one job very long.

I am easily bored... I try to escape boredom by reading blood-curdling comics.

Or do you try to have adventures and new experiences in the correct way?

I enjoy doing constructive things... I join the school activities and clubs... I give some of my time to worthwhile social causes... I am interested in world events.

JO HELEN ALY CROWNED GRIDIRON QUEEN

In a simple ceremony held on Jan. 20 during the football banquet at the Men's Bible Classroom, Her Majesty, Jo Helen Aly, was crowned Wildcat Gridiron Queen of the 1954 season.

Queen Jo Helen chose for the coronation a lime green dinner dress trimmed with black velvet and rhinestone buttons. Tri-captain Jackie Walker presented Her Majesty with a bouquet of American Beauty roses.

The slender auburn haired queen was attended by Barbara Fairchild and Jana Black. These girls were runners-up for Queen.

Moderator for the royal affair was Frances Kincaid who introduced members of the court coming to pay homage to the queen.

Entering first were Lords and Ladies Barbara Fairchild, Gordon Graves and Jana Black and Gerry Knox. Lady Barbara and Lady Jana were presented corsages by their escorts.

Tri-captains Jerry Knox, Gordon Graves and Jackie Walker crowned her majesty.

Queen Jo Helen, daughter of Rev. and Mrs. C. T. Aly, is a member of the Junior class. She came from Phillips, Texas, at the beginning of her sophomore year. Because of her friendly manner of greeting everyone, she is a well liked student at CHS.

DICK TODD SPEAKS AT ANNUAL GRID BANQUET

Thursday night, January 20, the annual Football Banquet, given by the Booster Club in honor of the Crowell football boys, was held in the Men's Downtown Bible Classroom.

The old hall took on a new exciting look with the addition of clever decorations made by Mrs. Earl Manard and the Pep Squad girls. Berries, leaves, tumble weeds and candles, which dotted the tables, afforded glamorous arrangements after being doused with gold paint and glitter. A unique "football tree" rested on the head table.

As toastmaster, George D. Self presided over the program. Everyone began the evening by joining in on the hearty singing of "America." Then Rev. W. B. Fitzgerald, pastor of the Thalia Baptist

Church, gave the invocation.

Then came the introduction of the football players by Coach Amonett. Following this the guests began busying themselves with the delightful task of eating the meal of baked Virginia ham, California raisen sauce, candied sweet potatoes, early June peas, chilled salad, cherry tarts, hot rolls, and tea or coffee. After finishing the meal, the Football Queen, Jo Helen Aly, was crowned.

After the coronation, Grady Graves introduced the guest speaker of the evening, Dick Todd, whose short pithy talk inspired everyone. Tom McCandless, president of the Booster Club, presented Coach Amonett and assistant coaches, Glen Taylor and Gordon Erwin, with gift certificates as tokens of appreciation.

The whole affair turned out splendidly except for one embarrassing incident. Does anyone know who the cute reheaded waitress was that Clark Hitt pinched?

VARIETY IN REVUE

"Variety in Revue" is the name chosen by the Wildcat Band as the tag for their musical show which will be presented in the near future.

Featured in the show will be concert and "swing" music played by the entire band, a dozen or more novelty acts consisting of vocal talent and skits. The highlight of the show will be our principal, Henry Black. Don't miss it.

COME TO BAKE SALE SATURDAY

The Crowell FHA Girls organization will hold a cake contest at the Men's Downtown Bible class on Saturday, Jan. 29, at 10 a. m.

Each girl in the FHA is urged to bake a cake and enter it in the contest by 9 a. m. A \$5.00 prize will be awarded to the first place winner, \$3.00 for second place and \$1.00 for third.

In order to make enough money to send delegates to the state meeting in Galveston April 20-23, the cakes will be sold immediately after they are judged.

Every girl will be working hard to produce the best cake, so come one, come all, next Saturday.

KID MOVES TO WICHITA

Don Kidd, one of the friendly faces around CHS, moved to Wichita Falls Sunday. Don played left guard on the '54 Wildcat team, and is a two-year letter man.

Don plans to attend Wichita High School, but we hope to see him back in CHS next year.

EX-STUDENTS' COLUMN

Hey, guys, get on the ball! The girls have taken over this week, but we're hoping for next time. Girls, keep the news coming in.

The cute twins, Vera and Johnny Dee Kindt, formerly of Thalia, are now having a grand time at Fort Belvoir, Va. They live near Valley Forge, Mt. Vernon and Washington, D. C., and they have visited all these places. Nevertheless, they like the true blue Texans, are waiting impatiently for their CHS (The Great State of Texas) annuals.

Ex-seniors Jean Whitby, Fred Barker, David Jackson, V. A. Smith, Raymond Halenack, Don Gobin and Coy Payne were welcome visitors at CHS this week.

BROWN-EYED ROBERT LOVE PREFERS COLLEGE FOR FUTURE

Of course you know him! Any time you see someone "duck" to get through a door, you just automatically know that it is Robert Love.

If you want to see something funny, just embarrass him and watch that face glow!

His big brown eyes will twinkle like diamonds if you mention his height, play hillbilly music of any kind, or call him to "supper" when sizzling fried chicken, golden-brown biscuits and bubbling cream gravy topped with iced tea and pecan pie await him.

His future plans seem very definite. He plans to enter college in the fall and major in agriculture.

SEVENTH IN LINE

Some call her "Dustye," some call her "Windye," but to us, the ones who know her best, she is just plain "Sandy."

If she has her way, she will be with her friend, Rachel Haston, of Paducah, watching a good football game or playing a good fast game of volleyball.

Robert Wagner and Susan Hayward are her favorite movie stars and her favorite type of books are autobiographies, preferably by Gilbreth.

Sandy stands 5' 8" tall and has brown hair and brown eyes that portray the conscientious outlook that she has on life. She is the seventh of her family to go through Crowell High School. This is proved when she makes "A" in all her subjects and chooses Algebra II her favorite over the others!

After graduation, she has sev-

CROWELL LOSES TWO GAMES TO LOCKETT

The Crowell Wildcats, boys and girls, both dropped games to Lockett last week. The boys lost by a 55-48 decision, while the girls finished with a 43-33 count.

The Wildcats were not hitting the basket as consistently as usual and their passing game was bad. Graves, who fouled out in the last of the third quarter, led in scoring with 14 points.

The girls' game was an interesting contest with the Crowell guards, Zonell Eddy, Sue Meason and Charlene Borchardt Hopkins playing brilliant ball as they held the strong Lockett girls to a small 43 points. Billy Bell Graves led in scoring with 12 points.

KAT TELLS

All the boys have lost their hearts to Roberta Davis, the beautiful waitress at the Football Banquet.

Couples enjoying the banquet were: Dwayne and Geraldine, Joe and Sandra, Edward and Rachel (Haston), James and Ruth, Ray and Betty Jane, Printess and Jerry, Gordon and Billye, Edward and Peggy, Robert and Betty Sue, Gerry and Sue, Roy Don and Ginger, Louis and Barbara, Don and Clara, Jimmy and Francene, Ray and Jana, Jackie and Jo Helen, Floyd and Karen and Gordon and Carolyn.

Taking over the Plaza Saturday night were Clara and Don, Elizabeth and J. C., Maxine and Dan, Peggy and Lavon, Gwen and Rufus and Joy and Chun.

Waiting for a bullet at the local flicks Thursday night were Elizabeth and Lowell.

Marilyn Stone was renewing an old friendship Sunday. The Kat doesn't know his name, but he is from Q-Town.

Enjoying "Three Ring Circus" Saturday night were Doris and Coleman.

A regular visitor to Crowell, or maybe we should say June Ford, is Hughie Whitmire from Quanah.

Seen at the Lockett ball game Tuesday night were Maxine and Dan and Peggy and Lavon Adams. Together Friday and Saturday nights were Nelda and J. M. Rumor has it that Patricia Buddy have broken up. Sure, for good.

Dating Saturday night were Karen and Floyd, Sammy and Frances were Sunday night.

We hear Sue and Gerry have been quarreling, but it must be right because they were together Sunday night.

Betty Sue was with a Midwestern basketball player, Lester (Continued on Page 7)

SKEPTICS WRONG ABOUT OKLAHOMA OIL FIELD

After skeptics said that an Oklahoma oil area had played out, one oil company drilled anyway. Today, the field has 77 producing wells, and an average production of 1,905 barrels a day. Oil men, who must use plenty of guesswork on the presence of oil in a given spot, risk hundreds of thousands of dollars drilling to find it. They are not always so fortunate as the company mentioned. In fact, only one well in nine drilled in new or unproven territory finds oil.

Less Than a Week Left in Annual March of Dimes

With less than a week left in the 1955 March of Dimes campaign, it is well for the citizens of Crowell and Foard County to realize that, according to figures recently released by the National Foundation for Infantile Paralysis, polio strikes the hardest and the most frequent in small counties. It is the small county that suffers, therefore, when the financial response to the March of Dimes campaign falls short of the goal.

In 1952, shortly after the annual March of Dimes drive, six persons in a single Ellis County community were stricken with polio. At least two of the victims required long periods of respiratory treatment. These polio victims were residents of the small community of Maypearl, which has a population of just more than three hundred persons. Because people across America had given that polio might be effectively combated, each of these victims was helped to recovery through the March of Dimes program.

We need to realize that, when we give generously to the March of Dimes campaign, we will be preparing Foard County to combat polio among its citizens, should the dread disease strike here. We cannot know or foretell where polio will strike. By our gifts, we can help control it, wherever it strikes.

Remember, when you give to the 1955 March of Dimes, you give life and opportunity for recovery to the thousands stricken by polio, as well as giving it to those who, in our community, may be stricken in the future.

by VERN SANFORD
Texas Press Association

Texas is growing and one of the consequences is that the cost of government is going up. Introduced in both houses of the Legislature were appropriation bills calling for the expenditure of \$1,560,000,000 during the next two years.

That would be the biggest outlay in Texas history.

How much more money it would mean for the next two years as compared to the last two depends on revised budgets for the various state agencies.

But appropriations measures designated \$198,580,000 from the general fund, whereas, according to the comptroller, present taxes will produce only \$148,869,000.

That indicated the necessity of taxing the people to the tune of an additional \$50 million.

Governor Shivers' budget office had previously estimated that additional taxes in the amount of \$65 million would be required.

Budget Board

Legislative Budget Board members have presented their recommended general fund appropriations for the next two years.

University of Texas appropriations were set at \$15,358,946. The amount is \$5.7 million less than the university asked. It is \$2 million more than was appropriated in 1953-54.

Other recommendations called for a \$7,515,000 boost over present expenditures for the state hospital board; a \$345,000 increase for Youth Development schools; \$2.2 million more for the State Health Department; and \$440,000 more for the Texas Prison System.

Senate Chairmen

Senate chairmanships announced by Lt. Gov. Ben Ramsey include Sen. Crawford Martin of Hillburo for Finance; Sen. Donsey B. Hardeman of San Angelo for State Affairs; Sen. Johnnie B. Rogers of Austin for Insurance and Sen. George Parkhouse of Dallas for Labor.

Smith Makes History

Rep. Max Smith of San Marcos made history when House Speaker Jim Lindsey appointed him chairman of the House Appropriations Committee.

Representative Smith is the second man in Texas history to be twice-named head of this all-important committee and the only man to serve consecutive terms as a chairman.

Rep. Travis Henderson from Lamar County served as Finance Committee chairman (now called the Appropriations Committee) in 1893 and again in 1899.

State Jobs

More than 60 appointments to state positions by Gov. Shivers, will soon be due.

Included is the naming of a new secretary of state, a highway commission member, two members to the State Board of Public Welfare, one member to the State Board of Control, three new University of Texas regents and three A&M College directors.

Shivers is expected to reappoint Major General K. L. Berry as adjutant general and Mark Wentz as State Fire Insurance Commissioner.

Curtis Ribble has moved to Mrs. J. M. Clifford's farm.

Leon Solomon who is working at Crowell and Cecil Matthews who is teaching in the Margaret school visited relatives at Thalia Sunday.

Fred Brown and wife moved Wednesday from the C. C. Wheeler farm east of Thalia to the W. D. Burress farm northeast of Thalia.

Rev. T. M. Johnston of Margaret will fill his appointment at the Thalia Methodist Church Sunday.

J. E. Harwell, the variety store man, has recently bought a half interest in a dry goods store at Knox City, however, Mr. Harwell expects to remain in Crowell.

H. L. Fisher, merchant, cotton buyer and postmaster of Thalia was in town yesterday. Mr. Fisher was shipping 100 bales of cotton to Galveston.

News from the Congress

by Congressman Frank Icard

The first of this month, President Eisenhower issued a proclamation which set January 31 as the termination of G. I. benefits under what is known as the "Korean G. I. Bill." This proclamation keeps alive the historic policy in this country of separating the benefits between peace-time and war-time service for members of our armed services. I favor this action taken by the President.

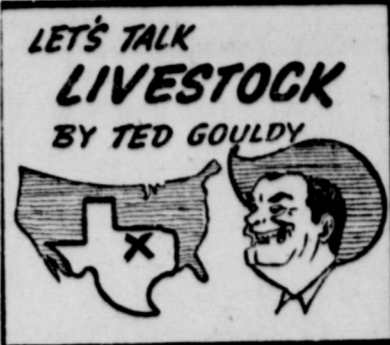

There has been legislation introduced which will allow all men in the service on January 31 to continue to accumulate educational benefits. I would favor the passage of this bill because of the fact that many of the boys that would be in the service on January 31 were assured at the time they entered that they would have certain educational benefits. It all boils down to the fact that anyone who is not in the service on January 31 of this year will probably not be entitled to any of the benefits under the so-called "Korean G. I. Bill."

The committee on Ways and Means of which I am a member, began hearings this week on H. R. 1, which is the legislation that would extend the Reciprocal Trade Acts for three years. Generally speaking, I think that we must continue in this country a policy of reciprocal trade and freer movement of goods from one country to the other. The relative free interchange of goods in a free world is necessary. There are, however, a good many exceptions to this general rule. These hearings are expected to continue for about two more weeks. In all probability this will

be the first piece of major legislation that is acted on by the House.

Last spring the Supreme Court in a decision that has come to be known as the "Phillips Case" decided that the Federal Power Commission had the jurisdiction to regulate the sale price of gas when it was sold by the producer at the "wellhead." This, of course, was a revolutionary decision in that it extended the power of the Federal Power Commission so as to include the independent producer of gas which, up until the time of this case, had been relatively unheard of. There is no more reason to regulate the sale of gas at the "wellhead" than there is to regulate the sale price of a pair of pants at the factory where they are made or a sack of potatoes at the field where they are grown or any other commodity that moves into the market. This would be an instance of the Federal Government moving in and actually fixing prices in a way that we have never done before in peace time. I am hopeful that Congress will pass legislation that will amend the Natural Gas Act so as to make it very clear that the Federal Power Commission does not have the power to regulate the sale of gas by the producer and that this action can be taken at a very early date. I expect to introduce a bill within the next few days covering this question.

It has only been this week that the final organization of committees has been completed, the last appointments having just been announced. Since these assignments have now been accomplished, the work in all the committees can get underway. It will be only a short time until they will start reporting bills to the floor for action.

Demand for stocker and feeder cattle and calves was again very active and prices strong to 50 cents or more higher at Fort Worth Monday. Several factors influenced the brisk demand and observers pointed to them as:

1. The buildup of international tension was credited with stirring some speculative buying and contracting.
2. Continued improvement of moisture conditions which created some speculative demand in the hope the long drought was nearing an end and that come green grass and weeds in the Spring a higher stocker trade would result.
3. The stability of the price structure on fat cattle for the past year was encouraging professional feeders to take an optimistic view of the months ahead when fed cattle will be in smaller supply than now.
4. The nation's consumers are showing no signs of let-up on their beef eating spree and apparently will continue to eat record amount at current prices, a stabilizing factor for the months ahead.
5. Nearby needs for cattle and calves to graze grain fields which in many areas of the grain belt are coming along fast after recent moisture and open weather.

Stockers and feeders were strong to 50 cents higher Monday and some spots up more, the kind

and quality considered. Lightweight calves topped at \$22 and numerous loads and smaller lots of medium to choice stocker calves and yearlings cashed at \$16 to \$21. Replacement cows also had strong demand and prices of \$8 to \$12 were seen, and light cows of choice quality were quotable above that figure.

Slaughter steers were fully steady to strong. Cows ranged at fully steady to strong prices with shippers and independent packets out-distancing the majors for the big end of the supply. Bulls held fully steady.

Slaughter calves and yearlings and heifers were slow and weak to 50 cents lower. Numerous short-fed lots of yearlings and heifers again appeared in the days run.

Choice fed steers topped at \$24 but were quotable to \$25 and above. Plainer offerings sold around \$12 to \$18. Fat cows and canners sold mostly from \$7 to a few shells below \$7.

Good and fat calves cashed mostly at \$16 to \$19, a few \$20. Lower grades sold at \$10 to \$15.

Beat the Spring Rush—Get Soil Tests Made Now

The harvest season in Foard County is complete and that means a slackening of farm activities. But it is not too early, says Joe Burkett, County Agent, to begin planning for next year's operations. A first, according to Burkett, is to take and submit soil samples for analysis. Knowing what the soil needs in the way of plant food and organic matter is an important part of any soil building program, says the Agent, and a sure answer to "sick" soil is a complete analysis. If soil samples are submitted now ahead of the spring rush, Burkett says the recommended fertilizers can be purchased and stored. They'll be on hand when needed and there'll be no question about getting the kinds and amounts needed, he adds. Doing the job now is insurance against not doing it when the rush of farm work begins with spring operations and, too, results will be available for planning next year's cropping program. Information and the blanks which should be sent to the soil testing laboratory with each sample can be obtained at the County Agent's office. Mr. H. E. Gribble of Vernon was visiting in Crowell Monday afternoon.

Check Fruit Trees Before Pruning

Observe carefully the number of fruit buds on trees before pruning the orchard this winter, advises Joe Burkett, County Agent. Burkett says unfavorable weather has caused subnormal terminal growth on fruit bearing trees this season in Foard County. Generally, fruit trees, especially peach, have set only a light crop of buds

Check Fruit Trees Before Pruning

for next year. Where this condition prevails, very little pruning will be necessary, says the agent. A tree having few buds needs only to be thinned to remove dead or diseased wood. Do not "head back" trees under these conditions, Burkett cautions. Commercial nurseries are having many of the same difficulties as home orchardists and nursery stock presently is scarce. Burkett advises growers who plan to set out new stock to make their orders now to assure delivery.

The RILEY "Handy Andy" Farm Building

Type 37 Raftco

Here's a new Riley building designed for modern farm use. It's economical and easy to erect—it's modern in appearance—it's flexible. While designed primarily as a Machine Shed, this versatile structure is adapted to many other uses such as a farm shop, storage building, livestock shelter, garage or roadside stand.

Come in and ask us for more details. We know you'll want one of these new buildings on your farm, and we can help you plan a Type 37 Riley Machine Shed to fit your needs.

Malathion Is New Control for Dog Fleas

Malathion can be used safely on dogs to control fleas, says Joe Burgett, County Agent.

In preliminary tests, reported by Manning A. Price, professor of entomology, several dogs were dusted and sprayed with different malathion concentrations. Two days after treatment no fleas were found on the once-infested animals.

The new phosphorous insecticide will control many DDT-resistant insects. The studies were begun to determine whether mala-

thion might be used in sufficient strength to kill fleas and still not harm the animals.

Prof. Price says a five-per-cent dust of malathion will give the longest control. A 2.5 per cent spray or four per cent dust eradicate the pests in garages and other infested areas.

The entomologist adds a note of caution. Do not use malathion on the family cat. A formula containing more than two per cent malathion is fatal to members of the cat family.

Three out of four traffic accidents involve passenger cars.
