Why Any Retail Business May Profit From Carefully-Planned Advertising

By T. B. KLEPPER

Why any retail business may profit from a carefully planned advertising budget. The budget should be designed to assure a business of continuously increasing sales volume. The funds budgeted for advertising should be sufficient to accomplish a sales goal. When funds are inadequate, advertising can not be expected to do a good job.

Mer Crowellite Sponsored by Jacksboro P. W. Club

Mae Crane, secretary in charge of school superintendent A. Moore of Jacksboro, was Business Woman of the month at the recent dinner meeting of Jack County Business and Social Women's Club.

R. L. Campbell Elected District Chairman

R. L. Campbell of Corsicana, was elected district chairman of the Methodist College Association at its annual conference at Corsicana held the past few days.

Shows Sheep at Iowa Park Fair

M. L. Speer, local 4-H Club boy, showed three of his registered Southdown breeding flock at the Texas-Oklahoma Fair last week.

CANDIDATE FOR QUEEN

Miss Nelda Kay Brooks, daughter of Mr. and Mrs. J. T. Brooks, was chosen as one of the candidates to run for Freshman Queen at Oklahoma State University at Stillwater.

MANAGE CO-OP. STATION

Mr. F. Bradford, former manager of the West Texas Gas Station in Margaret, has been accepted as manager of the new Co-op. Service Station in Margaret.

RY CLUB

Bill Crawford of Quanah was a visitor at the Wednesday luncheon of the Rotary Club at Goodwin was in charge of the program and it was voted to watch the world baseball game between the Texas Braves and New York Yankees.

Yesterday? A fresh view of the postmistress sub-station concerning a new design.

charity and to worthy organizations are certainly fine, but they are not advertising. Such contributions have no place in an advertising budget.

The advertising program of a business should be planned with progress and profits in mind. The budget should be designed to assure a business of continuously increasing sales volume. The funds budgeted for advertising should be sufficient to accomplish a sales goal. When funds are inadequate, advertising can not be expected to do a good job.

Polio Vaccination Program Set for Friday, Saturday

Foard County "all-out polio vaccination program" under the direction of Dr. M. M. Kralicak, county health officer, will begin Friday, as was announced last week by John W. Wright of Thalia.

News About Our Men in Service

Pvt. DuWayne Elliott arrived at home last Friday from Fort Ord, Calif., on a 30-day furlough to visit his wife and other relatives. He expects to get his wheat crop sown while here.

HOSPITAL NOTES

FOARD COUNTY HOSPITAL
Patients in:
James Choate.
Mrs. Jessie Johnson.
Karl ten Brink.
Ray Stinnett.
Mrs. B. D. Russell.
Debbie Johnson.
Mrs. Wilburn Nichols and infant son.
Will Johnson.
Ollis Johnson.
Mrs. J. W. Chowning.
E. D. Howard.
Thomas Crowell.
Mrs. Fannie Menefee.
Mrs. Luther Denton.
Mrs. Roberta Barker.

Patients Dismissed:
Mrs. Curtis Casey.
Mrs. M. M. Welch.
Diane Gouge.
Dennis Gouge.
Mrs. Clara Spivey.
Mrs. Karl ten Brink.
Helen ten Brink.

DOWN TOWN BIBLE CLASS

There were forty members present at the Sunday morning meeting of the Down Town Bible Class. The president, Dick Todd, presided.

NEW VEHICLES

New vehicles registered here since September 23 follow:
Sept. 23, Beatrice G. McCarty, 1957 Ford 2-door; Sept. 25, Joe Vernon Smith, 1957 Ford 2-door; Sept. 26, J. J. McCoy, 1957 Chevrolet pickup; Sept. 26, W. R. Newsum, 1957 Chevrolet 4-door; Sept. 27, J. W. Bruce, 1957 Ford pickup.

KNOWLAND ANNOUNCES CANDIDACY — Sen. William F. Knowland announced his candidacy for California governor against fellow Republican Gov. Goodwin J. Knight. The Senator, who is retiring from Congress, is considered to be a strong candidate for the Republican presidential nomination in 1960.

Census County Divisions to Be Established Here

In a joint program with the State of Texas and each of its counties, the Bureau of the Census is establishing areas, known as "Census County Divisions," for use in statistical reporting. Similar areas were established in the State of Washington prior to the 1950 census, and since 1950 have been put into effect in eleven other states.

James R. Kirby, a member of the Census Staff, was in Crowell Tuesday from Washington to consult with county officials and solicit their advice in regard to the proposed areas for Foard County. The proposed Census County Divisions should be particularly useful for local administrative purposes. The Census County Divisions are generally larger in area and population than the Justices' or Commissioners' precincts; they have clear-cut boundaries which can be easily identified; and they are intended to remain as permanent areas. For the most part, they are based on the communities which serve as the focal point of each area. The statistical data for these divisions will serve as a yardstick with which to measure the sphere of influence exercised by such communities. It is believed that the Census County Divisions will be a handy tool for the use of county officials, local newspapers, and business and civic organizations.

Mr. Kirby says the county divisions set up by the Bureau of the Census will not interfere in any way with the use of Justices' or Commissioners' precincts by the state or counties.

Doyle Clayton Has Resigned as Soil Conservation Mgr.

Doyle Clayton has resigned his position as manager of the Soil Conservation Unit in Foard County, effective Friday, Oct. 4. Mr. Clayton had held this position for the past five years. Graduate of Texas A. & M. College in 1940, Mr. Clayton has been with the Soil Conservation Service for the past 17 years. His plan for the future are indefinite since he intends to change to another line of work.

Roy Barker Buys Margaret Gin

Roy Barker has purchased the gin at Margaret from the West Texas Gin Co. of Quanah. Mr. Barker took over operation of the gin Monday and will continue its operation, making extensive improvements in the gin plant, including the installation of a Moss lint cleaner. Experts of the West Texas Gin Co. are checking all machinery in the plant and making necessary adjustments and repairs.

The gin plant is equipped with a large cotton house for the storing of seed cotton and also plenty of storage room for storing seed. Included in the transaction are ten acres of land, a five-room house and a feed house.

EMPLOYED IN LOUISIANA

Kenneth Fox, son of Mr. and Mrs. Glen Fox, left Saturday for Lafayette, La., where he will be employed as a mud engineer for Core Laboratories Inc. This company is engaged in well logging and core analysis for the oil industry. Fox is a recent graduate of Texas Tech where he majored in Petroleum Geology.

TO CONFER DEGREE

Crowell Lodge No. 840, A. F. & A. M., will confer the master's degree on one candidate on Monday night, Oct. 14, beginning at 7 o'clock.

REV. RONALD HUDSON

Revival to Be Held at Assembly of God Church Oct. 13-27

A revival meeting will begin at the Assembly of God Church on Sunday, Oct. 13, it was announced this week by the pastor, Rev. Kenneth Bingham. A service will be held at 2 o'clock in the afternoon on the opening day. The revival will run for two weeks.

Evangelist for the meeting will be Rev. Ronald Hudson of Ferris, Conn.

The public is invited to attend, the pastor stated.

Funeral Services for John F. Riethmayer Held Sunday in Vernon

John F. Riethmayer, 60, of Los Angeles, Calif., brother of George Riethmayer of Crowell, was buried in the Crowell Cemetery Sunday afternoon following services conducted in St. Paul Lutheran Church in Vernon at 2:30, conducted by Rev. J. A. Birnbaum, pastor.

Mr. Riethmayer died in a Vernon hospital after a brief illness. He became ill while visiting his father, Fred Riethmayer, and other relatives in Vernon.

Surviving are his wife; a son, Ernest Riethmayer of Los Angeles; a daughter, Mrs. Agnes Moench of Terrabella, Calif.; his father, Fred Riethmayer of Vernon; a brother, George Riethmayer of Crowell; four sisters, Mrs. Albert Lowke and Mrs. Mary Hysinger, both of Vernon; Mrs. Herman Gloyna of Kress and Mrs. Charles Gloyna of Lockney; and two grandchildren.

Sister of Fred Diggs Died in Vernon Last Thursday, October 3

Mrs. J. B. Crossland, 66, sister of Fred Diggs of Crowell, passed away at her home in Vernon Thursday, Oct. 3, after an illness of several months.

Funeral services were held in Calvary Baptist Church in Vernon at 2 p. m. Saturday conducted by the pastor, Rev. E. G. Clark. Burial was in East View Memorial Park.

One Person Injured in Auto Collision Sunday Morning

One person was hospitalized as the result of a two-car collision northeast of Crowell Sunday.

Crowell Wildcats Defeat Iowa Park Hawks 46 to 0; Meet Holliday Friday

The Crowell High School football team won its opening conference game of the season here last Friday night from the Iowa Park Hawks by the score of 46 to 0. The Hawks, with a new coach and an inexperienced team, never moved closer than Crowell's 40-yard line during the whole game. The Wildcats scored about every conceivable way except on a blocked punt. They passed for two touchdowns, ran two intercepted passes back for touchdowns, and ran three touchdowns over.

Game at a glance:

Crowell	Iowa Park
15	4
218	Yds. First Downs
61	Yds. gained rushing
3 of 6	Yds. gained passing
2	Passes completed
2	Passes intercepted
2	Fumbles lost
2 for 31	Punts
2 for 10	Penalties

Crowell scored 13 points in the first quarter. Fullback Ray Thomson ran from 3 yards out for the first score, and quarterback Ivan Cates intercepted a pass and ran 62 yards for the second Wildcat touchdown. Harvey Smith kicked one of these extra points.

Athletic Field House Demolished by Wind Monday

The Crowell High School athletic field house was demolished by the wind storm here last Monday evening. The entire roof and part of the walls were torn off. The roof was lifted intact and dropped about 100 feet south of the building. All of the windows and about half of the walls were blown out.

The damage to the concrete block building was estimated to be approximately \$10,000. All of the high school's football equipment, valued at about \$3,000.00, was damaged by rain. The building and contents were insured for \$10,000.00. According to Mike Bird, president of the Crowell School Board, the building will be replaced as soon as final adjustment has been made on the insurance.

Rob Wood Succumbs in Wichita Falls on Thursday, October 3

R. A. (Rob) Wood of Iowa Park, 78, a former resident of Foard County and brother of C. H. Wood of Thalia, died at the home of his daughter, Mrs. Maurice Turner, in Wichita Falls Tuesday, Oct. 1. Mr. Wood was a retired grocer and had lived at Iowa Park for the past ten years.

Funeral services were held at 9:30 a. m. Saturday from the Wesley Methodist Church in Wichita Falls, conducted by Rev. C. B. Williams of Wichita Falls and Rev. Lee Stanford of Lockney. Burial was in the Bellevue Cemetery.

4-H Junior Leaders Attend Recreation School at Munday

Janet Raspberry, Margie Raspberry, Arlos Moore and Duane Johnson attended a recreation training school in Munday, October 7, 8 and 9 from 6:30 to 9:30 each evening. They were accompanied by Mrs. Mary D. Brown, County Home Demonstration Agent.

The Wildcats scored 13 points in the second quarter. Right half Princess Gidney and Thomson ran 4 and 41 yards, respectively, for these touchdowns. Smith converted one of these extra points.

Crowell scored 13 points again in the third quarter. Cates threw a pass to Gidney for 35 yards and a touchdown, and then Cates intercepted his second pass of the evening and galloped 55 yards for another score. Smith came through for one more extra point try.

The last quarter was played mostly by reserves on both sides. Quarterback George Moss tossed one pass to left half Jerry Eubanks that was good for 22 yards and Crowell's last touchdown.

Jackie Hickman ran the extra point over to make the final score 46 to 0.

Too much praise could not be given to the blocking of Crowell's linemen. These boys paved the way for most of the Wildcats' touchdowns. Seniors in the forward wall are Billy Everson, Dale Rettig, Louis Rettig, Jerry Pittillo, and Harvey Smith.

Two Inches Rain Fall Here Monday

A heavy rain and some hail visited Crowell Monday afternoon, the precipitation measuring 1.97 inches by the Government gauge at the Crowell State Bank.

About 7:30 Monday evening, tornadic winds accompanied by heavy rain struck the town doing considerable damage, most of which was in the north part of town where tree limbs were broken off and scattered over a considerable area around the Crowell School plant. The greatest damage was the destruction of the Crowell High School field house.

Total rainfall for Monday afternoon and Monday night was 2 inches.

A severe rain and hail storm struck the Truscott and Gilliland communities Monday where the crops and buildings suffered great damage. Seven inches of rain was reported to have fallen in the Gilliland community and 3 inches in the Truscott community.

Survivors include his wife; his daughter, Mrs. Turner; a sister, Mary Thomas of Oklahoma, and a brother, C. H. Wood of Thalia.

CONFIDENTIAL JURY DISMISSED — Seemingly happy at the outcome of the Confidential Magazine trial, defendants Margorie and Fred Meade smile as they leave the court in Hellywood, Calif. After thirteen days of deliberation, Judge Herbert V. Walker dismissed the jury when they were unable to come to an agreement on the verdict.

Professor Studies Production in Foreign Countries

First hand information on how progressive oil corporation operates in a foreign country has been obtained by Prof. W. L. Alden, Texas Tech petroleum engineering department head, during a visit to Venezuela.

part of that organization's long-range program to acquaint the nation's petroleum technology educators with progressive operational policies.

The Tech professor also met a number of Texas Tech graduates that are Creole engineers in Venezuela. Of the 80 petroleum engineers from the seven schools represented by the college professors, 10 are Texas Tech petroleum engineering graduates, Ducker said.

Because pigs, especially white ones, can get sunburned, agricultural authorities recommend the use of sunburn lotion on them.

The Rain on the Plane Stays Mainly Down the Drain

Anyone who has ever driven an automobile through a blinding rainstorm with faulty or inoperative windshield wipers can appreciate the problems of a pilot trying to land a high-speed jet bomber in a downpour, particularly when he must rely on his eyesight to line the bomber up with the runway and accurately estimate his height from the ground.

An aircraft company has solved the problem handily, by blasting hot engine air over the windshield,

deflecting the water and keeping the windshield itself as dry as the Sahara.

Jet blast rain deflectors have previously been installed on fighters and interceptors, but far more complex channeling and equipment are required to keep larger bomber windshields rain-free. Such attention to detail is another facet of the aircraft industry's continuing program to increase the safety and combat efficiency of the crews and equipment of our military services.

LONGEST SCORING RUN

Duke Frisbie's 72-yard dash against Oklahoma A&M was Texas Tech's longest scoring run last season.

THIS WEEK -In Washington

Clinton Davidson is Washington is getting set for another whirl on the inflation merry-go-round and dreading the ride.

There are almost daily huddles of top government officials seeking some way to slow down the pace. Almost no one talks about stopping inflation.

For fifteen years now we have had officially-approved creeping inflation. Your dollar will buy only half as much now as it did in pre-World War II 1940. In the past year, it has decreased by about 5c in value.

Inflation, if it does not move too fast, can easily be mistaken for growing prosperity. It encourages people to invest their money, with hopes of getting more dollars back when they sell.

It is only when the monster threatens to get out of control that Washington becomes alarmed. It is like a little fire that warms the economy, and a big fire that destroys.

To those of us who lived through boom and bust period of the late 1920s and early 1930s, inflation is an awesome and fearful thing. We know it can destroy men and bring a nation to its knees.

From World War I until 1929 we saw inflation and called it prosperity. We learned then that inflation is the destroyer of prosperity, not its promoter. We ought to remember that now.

President Eisenhower's warning that inflation is an immediate threat to the national welfare was based on confidential reports by both government and private economists and financiers.

We have talked with some of the same experts. None of them think rapid inflation is inevitable; and only a few think it is probable. All think it is avoidable, but they don't agree on how.

Mr. Eisenhower thinks it can be avoided, or at least slowed down, if you and I stop buying things we don't have to have when the price gets too high; if labor will ease up on demands for higher wages, and industry will hold down on profits.

Those are three mighty big "ifs." When prices are going up, people tend to buy before they go higher. Labor leaders say that living costs are rising and wages must go up to keep pace. Industry complains that higher wages force higher prices.

It is a vicious circle that no one seems able, or willing, to break. The difficulty is that none of us know just where the "breaking point" is between inflation and depression. At what point under inflationary pressures will the economy snap?

The signs that most of us see all point toward continued prosperity. There is no indication of scarcity. Industrial production is at an all-time high. We have an abundance of foods and fibers.

National income in both dollars and consumers goods and services is at an all-time high. Employment is at a record high of almost 67 million, and unemployment at a remarkably low 2.5 million.

We are, as a nation, "living higher on the hog" than ever before. We are buying more homes, automobiles, television sets, other conveniences and luxuries than ever before—much of it on the installment plan.

Already we have ventured far beyond the point at which our economy collapsed in 1929. We know that there is a "breaking point" in any inflationary boom, but we don't know where it is.

Red Cross Releases First New Textbook in Twelve Years

The first completely new Red Cross First Aid Textbook in 12 years has just been published and now is being distributed to the organization's 3,700 chapters, A. W. Cantwell, national director of Red Cross Safety Services, said this week.

Primarily designed for use in classes taught by American Red Cross instructors throughout the world, the book provides a ready reference for use in common emergencies arising out of every day living.

It incorporates all of the latest first aid techniques, including the much publicized artificial respiration method for infants called "mouth-to-mouth" breathing.

Copies of the Red Aid textbook are available at Red Cross chapter offices and can be obtained for the cost of publication and distribution—75 cents for paperback copies and one dollar for the clothbound.

Mr. Cantwell said Red Cross instructors will begin using the book in their classes just as soon as sufficient copies for students are on hand.

Use of the new textbook will result in shortening the standard first aid course from 20 to 10 hours. But the advanced course now is increased from 10 hours to 16.

First aid techniques adopted since the last first aid book was published in 1945 include:

A tourniquet should not be released once it has been put into place. Former advice was to release it every 15 minutes.

Before applying a bandage, minor wounds should be cleaned with soap and water.

Danger from lockjaw (tetanus) now is associated with all wounds, instead of only punctured wounds as it was formerly believed.

In shock, the body should be kept slightly cool. Formerly, heat was applied.

Areas of the body suffering from frostbite should be warmed rapidly instead of slowly.

Injured persons should be moved by pulling them along the long axis of the body—not by rolling or pulling them laterally.

The section of the book covering the standard first aid course includes dealing with such common emergencies as heart attacks, apoplexy, simple fainting, epileptic convulsions, unconsciousness, and foreign bodies in the eye and in the air passages.

In the advanced course, common emergencies cover appendicitis, blisters, boils and styes, hernia and poisoning. Anatomy, physiology and special wounds, including snake bites, also are considered.

For the first time, the book discusses such special first aid problems as mental disturbances and insulin reaction.

The colored plates in the volume cover the circulatory and skeletal systems, the musculature, internal organs, poisonous snakes and poisonous plants.

Desert Sheep Back in Texas from Arizona

Wild desert sheep which once roamed the mountains of the Big Bend area of Texas are now being given a chance for a comeback. Five of these animals, three ewes and two rams, are getting acquainted with their new home in Texas.

They are the sole occupants of a one-section trap in the Black Gap Wildlife management area in West Texas.

Capture of the five sheep was a long and tedious job for Biologist Tom Moore of the Game & Fish Commission and personnel of the Arizona Game & Fish Department this summer. Traps were set near waterholes in the Arizona desert country. The wary sheep, however, failed to fall into the traps as rapidly as hoped for. Finally four were caught and moved from Arizona to Texas, via airplane.

Then a couple of weeks ago, a big ram was found tangled in a wire fence in Texas. It was moved to Texas via pickup truck. Apparently it also likes its new home, according to E. A. Walker, director of Wildlife Management for the Game & Fish Commission.

"From here on, it is a proposition of watching and waiting," he said. "We hope we may have two or three lambs next spring. We may try to trap some more of the big horns. If they do well, it is possible that some day we may again have a controlled hunt of desert Big Horns in Texas."

MONEY PROBLEMS

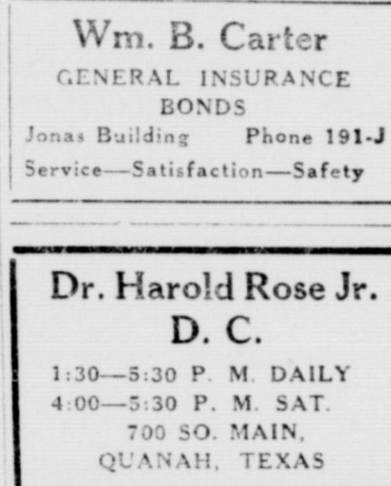

Chairman Martin of the Federal Reserve Board recently testified before a House committee on money problems. In the course of his remarks he said: "The tight-money policy, I insist, is a misnomer. Actually, what we have been faced with in this country is loose money. It has been tight in the sense that demand has been tantamount to a California gold rush."

Maintenance Men Make Clean Sweep of Bomber Wings

The harried housewife who is tired of sweeping her home should have sympathy for the personnel of one U. S. aircraft plant who periodically sweep an area equal to about four average five-room houses—the 185-foot wings of a modern jet bomber.

This king-sized housekeeping task is performed in the final assembly area some 17 feet above the factory floor at the highest point. The wing area alone is 4,000 square feet, but actually, the entire airplane receives a good sweep down at regular intervals until the time arrives to roll the 400,000-pound bomber from the production line.

The aircraft can be swept off completely in about three hours, with careful attention given to each section. The wing job, including the flaps, takes half an hour to complete.

But aircraft employees who make the clean sweep have one great advantage over the housewife. On the wing there isn't any furniture to move about.

FISHING GEAR KIT

The \$15 CARE fishing gear kit that provides a livelihood for refugees who have fled to Hong Kong from Communist China represents five weeks' pay to a working fisherman. Contributions to the CARE Self-Help Program, 660 First Ave., New York City, may be marked specifically for this package.

DRINK Coca-Cola

Your friends and family will be delighted when you serve them TV snacks, picnic lunches, or cook-out treats on this colorful big (18 3/4" x 13 3/4") TV tray! Sturdy, decorative, useful: you'll want several!

When you bring home the Coke today, Don't forget your TV trays!

Soil Conservation News of District

Lower Pease River Soil Conservation District, Lower Pease River District Board: W. C. Howard, Grady Halbert, O. T. Holmes, O. H. Brandon, H. L. Ayers.

Austrian winter peas are an excellent soil building legume which is adapted to heavy and mixed soils in the Lower Pease River Soil Conservation District. Winter peas should be seeded from September 1 to November 1 at the rate of about 20 to 30 pounds per acre. They are usually drilled in with an ordinary grain drill to a depth of 1.5 to 2.5 inches. The seed should always be treated with the proper inoculant before they are planted.

Winter peas can either be planted alone or with other crops. Low residue, warm seasonal crops such as cotton can be interseeded with winter peas. These peas will furnish cover for the land after frost kills the cotton. Interseeding can be done with an ordinary grain drill by removing some of the discs and plugging the holes or with a special planter made for interseeding.

Growing a good crop of Austrian winter peas on a field can add as much nitrogen to the soil per acre as 800 pounds of ammonium sulfate. Clippings were taken this spring from a field of Austrian winter peas on the O. K. Harbor farm located 1 mile north of Medicine Mounds. From these clippings it was determined that there was approximately 34,000 pounds of green forage per acre on the ground. According to Dr. Carl Gray, soil scientist at Midwestern University, this amount of Austrian pea residue will add about 170 pounds of nitrogen per acre to the soil. This is equal to over 800 pounds of 21 per cent ammonium sulfate per acre. At the current price, this is about \$22.00 worth of nitrogen per acre added by these legumes. Along with nitrogen, organic matter is added to the soil. Organic matter opens up the soil, increasing water penetration and aeration. It also makes the plant food in the soil more available for crops to use.

Eugene Kennedy of Chillicothe has found that when land is put in winter peas, plowed under in May, summer fallowed and followed with wheat, yields are greatly increased and in some cases even doubled. Others have experienced similar results.

Other cooperators who use Austrian winter peas as a winter legume are Rufus Taylor, J. O. West, Grover Moore, Leon Speer, Earl Embry, Red Emerson, Orval Brandon and Walt Walsler.

As with any crop, the success of a winter legume depends upon the rainfall. Austrian winter peas have about the same moisture requirements as wheat. Years when drier crops are a failure because of dry weather, winter legumes should not be expected to produce much either.

Grainfed steers and yearlings were again very slow, and bids 50 cents or more lower prevailed on most of the fed steers. Feeder cattle shared the slow and weak market with the finished cattle.

This stockers were steady, and the cow trade was active and fully steady to strong. Bulls ruled steady to weak. Slaughter calves were generally steady.

Comparative prices included: Good and choice fed steers and yearlings \$18 to \$22.50, and medium and lower grades \$13 to \$18. Fat cows \$13.50 to \$15.50, and canners and cutters drew

\$8.50 to \$13.50. Bulls mostly \$11 to \$16.

Good and choice slaughter calves \$18 to \$20, few baby beef heavyweights to \$21 and better. Common and medium butcher sorts \$13 to \$17.50, and culls \$7 to \$13. Stocker steer calves of good choice grades \$19 to \$23.75, and heifer calves drew \$21 down. Stocker steer yearlings cashed at \$20.50 down, and feeder steers cashed at \$18.50 downward. Replacement cows ranged from \$12 to \$14.50.

Top butcher hogs cashed at weak to 25 cents or more lower prices at Fort Worth Monday. Choice butcher hogs scored \$18.50-18.75, and medium to good butchers sold at \$17 to \$18. Sows held steady at \$18 downward. The weakness in the hog trade stemmed directly from the resumption of heavier marketings in the Northern livestock centers. The some 80,000 hogs reported at 12 major markets was some 13,000 above a week earlier.

The offering of sheep and lambs at Fort Worth last Monday was again met by strong demand and steady to strong prices. However, once again the offering contained mostly medium and lower grades and strictly choice kinds were absent.

Some good to low choice fat lambs cashed at \$20 to \$21, and both woolled and clipped lambs sold at \$21, and something strictly choice was quotable higher. Cull to medium lambs drew \$12 to \$19. Stocker and feeder lambs ranged from \$16 on some common stuff to \$20.50 on the better fates, something fancy quotable higher.

Yearling and aged muttons were virtually lacking. A few old slaughter ewes drew \$7.50 to \$8.50, and some breeders drew \$10 to \$16, with better young ewes quotable well above that.

Farmers Advised to Look Out for White Grubs

Farmers should be on the lookout for white grub infestations in their wheat land and if found they should apply control measures, says Joe Burkett, County Agent.

White grubs can be controlled by treating the wheat seed prior to seeding with lindane, BHC, aldrin or dieldrin. This treating should be done in the field just prior to seeding. Treating seed ahead of time is not recommended.

Burkett gives the following recommendations: "If you use BHC, you should use 3/4 pound of 12 per cent Gamma Isomer BHC to each 2 bushels of wheat seed.

"If you use lindane, aldrin or dieldrin, use 1/2 pound of the 25 per cent wettable powder to each 2 bushels of wheat."

It is possible for BHC to lower the germination of the wheat seed, but this can be partly overcome by first treating the wheat with Ceresan. BHC should not be used on seed that have not been previously treated with Ceresan.

In The News . . . 30 YEARS AGO

News items below were taken from the issue of The Foard County News of Friday, Oct. 7, 1927:

Wednesday afternoon figures obtained from the three Crowell gins showed that they had ginned 1,317 bales. An estimate of the number of bales ginned by the other gins in the county follow: Thalia's two gins, 1,100; Rayland's gin, 800; Margaret gin, 400, making a total of 3,617 bales, with a prospect of around 4,000 bales by the end of the week.

As a result of a fire originating from the explosion of a gas stove at the home of Mr. and Mrs. C. C. Martin at Margaret Friday afternoon, one member of the family, Henry Clay, 3 years old, is dead and the home and contents in ashes, and other members of the family are in Crowell where they are receiving treatment for burns. Only two members of the family, Clara May, 11, and Vera Texas, 2, were uninjured. Mr. Martin and Nolan, the 14-year-old son, were most severely injured.

County Agent Fred Rennels and secretary of the Chamber of Commerce, Mack Boswell, left Wednesday with Foard County's exhibit to be made at the Dallas Fair.

Mrs. T. H. French, 74, resident of Foard County since 1901, died last Thursday. She was a native of Rome, Ga.

The Vivian school opened last Monday with a good attendance and a staff of four teachers. Bailey Rennels is principal; Misses Claudia and Ola Carter, intermediate, and Miss Cora Carter, primary.

Splendid progress is being made on the new high school building and it will not be a great while until it is completed and ready for use.

The commissioners court has closed a contract with Byron Reese to do the engineering work on Lee Highway.

The marriage of Gordon Bell to Miss Estelle Woods was solemnized in Uvalde last Thursday, Sept. 29. Mr. Bell was accompanied to Uvalde by his father, T. N. Bell, and his brother, Alton.

Jas. F. Witherspoon, a pioneer resident of this city and well known to Foard County people, died in El Paso Oct. 6. Burial was made in Lee Quah Cemetery.

George W. Brown Sr., resident of Truscott for several years, died last Friday. The body was shipped to Robert Lee for burial.

\$11,503 Series E and H Savings Bonds Sold Here in August

\$11,503 Series E and H United States Savings Bonds were purchased by the residents of this county during August. These figures were released Wednesday by George Self, chairman of the Foard County Savings Bond committee. Sales in this county during the first eight months of this year totaled \$68,737 which is 56.8 per cent of the yearly goal of \$120,896.

Sales in Texas during the first eight months of 1957 totaled \$112,833,400, or 58.4 per cent of the 1957 goal of \$193,100,000. August sales in Texas were \$13,118,000.

"During the months of September and October, many schools throughout Texas are again installing the Savings Stamp program for their students. The school stamp program affords our young citizens an opportunity to learn the habit of thrift. In addition, they will develop a better understanding of our government and will learn to realize their responsibilities as citizens of this great land," Chairman Self said.

The Foard County Savings Bonds committee is hoping that the two schools of the county will install the Savings Stamp program, chairman Self concluded.

Elected V. P. of Texas Atomic Energy Research Foundation

Houghton R. Hallock, who recently retired from the U. S. Army Corps of Engineers after 20 years service, has been elected executive vice president of the Texas Atomic Energy Research Foundation. It was announced by Cal Young, WTU president and a director of the Foundation.

The Foundation, organized last April by eleven Texas electric power companies, has contracted with General Atomic Division of General Dynamics Corporation for a joint \$10 million, four-year research program.

The objective of this long-range research program is to develop an understanding of the basic processes which may make possible the generation of electric power by nuclear fusion.

Colonel Hallock, who served from 1951 to 1954 at Fort Worth District Engineer, U. S. Army Corps of Engineers, returned in June from army duty on Okinawa.

Treat Grain Seeds for Smuts and Blights, Says Agent

Planting time for winter grain crops is at hand, and Joe Burkett, County Agent, reminds farmers that smut is likely to take a toll if the seed is not treated before planting. He reports that smut showed up in damaging amounts in Foard County during the past wheat harvest and warns it will be worse this year unless precautions are taken at planting time. He lists these as cleaning the seed to remove weed seeds and smut balls which may be present, and chemical treatment of the planting seed.

Stinking smut is the disease which should get major attention. If untreated seed are planted which are infected with the smut spores, a good crop of stinking smut will develop where the grain should be, says Burkett. Smut reduces the yield in the field and marketing. This smut is hard to recognize in the field except by its foul odor and the somewhat greenish color of the infected grain heads. The kernels of the infected plants change to smut balls, and when the grain is combined, these smut balls are broken and millions of black spores are scattered over the healthy wheat seed.

Oat and barley smut, on the other hand, is easily recognized by the black, barren heads in the field. According to Burkett, the stinking smut of wheat and also of oats and barley can be controlled by chemical treatment of the planting seed and recommendations that producers use one-half ounce of Ceresan M or New Improved Ceresan per bushel of wheat seed.

The cost is very small and in addition to controlling stinking smut, the treated seed germinate faster, more seed germinate which means a better stand and yield, says Burkett.

Loose smut of wheat is something else, explains Burkett. It too leaves empty black heads in the field, but cannot be controlled with chemicals. It can be controlled by a difficult hot water treatment. "However, Burkett suggests that it might be better to get clean wheat seed from growers who were not bothered with loose smut last season.

Holmthosporium blight is relatively new disease which attacks oats. It affects the roots and stems of oats causing weakened stems and later lodging. It can be controlled by the same chemicals used in treating seed for protection against stinking smut. However, points out Burkett, the control may not be as complete as on the smut.

With limited wheat planting again in force, Burkett says, producers should use every proved production practice which will enable them to produce top yields as well as top quality wheat and chemically treating the planting seed is of major importance. It will mean extra bushels of top quality grain come harvest time next spring.

Bulletins Answer Questions on Surface and Ground Water

What is surface water? What is ground water? It is lawful to use them for irrigation? If so, how much of this water can you use? Is a permit necessary? These questions and others of similar nature are being asked by farmers relative to an individual's rights to use surface or ground waters for irrigation, says Joe Burkett, county agent.

Robert Thurmond, extension agricultural engineer, has prepared two bulletins, MP-214, "Questions and Answers on Ground Water Laws in Texas for Irrigation," and MP-215, "Questions and Answers on Rights in Surface Water for Irrigation."

Persons interested in this subject will find these bulletins very helpful and informative. They may be obtained from the county agent or from the Agricultural Information Office, College Station.

occasionally comes dropping down from above. Wee to the baby bird that drops out of the nest, or the mouse that tumbles into the water, or the grasshopper that makes a careless jump—if the bass is there.

An old trick is to cast a lure over a low-hanging tree branch, let it dangle down and splash lightly on the water, then let it rest on top, and after waiting awhile, splash it again.

Once I had a bass strike three times on a lure worked that way. Missed it every time. Or maybe he was just bumping it with his snout for pure curiosity.

Finally I gave up and started to retrieve the lure. My partner cast over by the tree and immediately caught the bass, a three-pounder.

Some day you ought to give up, maybe, but you never do.

PERSONALS

Check our tire prices before you buy.—Crowell's. 46-tfc

Ray Ilseng and Bill Klepper spent Saturday in Dallas attending the State Fair of Texas.

Mrs. C. O. Nichols has returned home from a visit with her sister, Mrs. Vida Brant, of Anton who was seriously ill with the shingles, but whose condition is improving.

Mr. and Mrs. Litter Cook, Mrs. Margaret Carroll and Fred Vecera attended the funeral of Mr. Cook's brother-in-law, W. A. Matthews, at Gainesville Sunday.

Miss Nelda Kay Brooks and Larry Zirkle of Oklahoma State University at Stillwater, Okla., spent the week end here visiting her parents, Mr. and Mrs. J. T. Brooks.

Mr. and Mrs. Ed Thomas and son, Bob, and Mrs. Hazel Thomas spent the week end in Fort Worth visiting Mr. and Mrs. Ike Wilson and children and Mr. and Mrs. R. L. Thomas.

Mrs. Sallie Archer has accepted a position as secretary in the office of Leslie Thomas, county judge. She is a former employe in the office of J. A. Stovall, county clerk.

Mr. and Mrs. Cecil Carroll, Mr. and Mrs. Clyde James, Mr. and Mrs. T. S. Haney, Mr. and Mrs. D. R. Magee, J. A. Stovall and Bill Klepper attended a Masonic meeting in Chillicothe Tuesday night.

Martin Jones returned last week from a trip to Saint Louis, Mo., where he visited the Purina farms and laboratories with several other men of this area. They also attended a professional baseball game between the St. Louis Cardinals and Chicago Cubs.

Miss Marjorie Brock of Wichita Falls spent the week end at home visiting her mother, Mrs. Vertrice Brock, and family. Miss Brock has recently resigned her position as secretary to Leslie Thomas, county judge, and has accepted a position to do secretarial work in the offices of the Texas Liquor Control Board in Wichita Falls.

A real bargain—500 sheets 16-lb., 8 1/2 x 11, typing paper, for only \$1.60, at the News office.

Mr. and Mrs. N. J. Roberts and Miss Leona Young, who has been visiting in their home, went to Dallas Tuesday. Miss Young will stop in Fort Worth and Mr. and Mrs. Roberts will visit with their son, Dr. Tom R. Roberts, his wife and daughter.

Mr. and Mrs. Nick Chatfield visited during the week end with their son, Wayne Nickie, at Southwestern Junior College near Fort Worth. They also attended the wedding of Mr. Chatfield's niece, Miss Mary Louise Layland of Cleburne on Saturday evening.

Miss Maye Andrews, bookkeeper at Self Motor Co. is spending her vacation in Fort Worth visiting Mrs. John Hakala, and husband, and will also go to Amarillo to visit her sister-in-law, Mrs. J. B. Andrews, and family before returning home.

Mr. and Mrs. Gayle Stanfill of Baton Rouge, La., announce the birth of a son, Gayle Jr., in a Baton Rouge hospital Tuesday of last week, Oct. 1. The baby's maternal grandparents are Mr. and Mrs. George Rietmayer of Crowell. Mrs. Rietmayer went to Baton Rouge last Thursday to visit the Stanfill family.

ed in the A. B. Owens home here Sunday.

Mrs. L. B. Robertson attended a shower in Quannah Friday at Mrs. Gladys Land's home for Mrs. Bobbie Pool.

Mrs. W. T. Dunn and son, Ed, of Crowell visited Mr. and Mrs. J. H. Taylor Sunday afternoon.

Mr. and Mrs. Leroy Hobratchek and Hugo Rummel of Hinds were dinner guests of the August Rummels Sunday evening.

Mrs. L. B. Robertson attended a fellowship meeting of the United Pentecostal Church in Vernon Monday night.

Mr. and Mrs. Frank Montgomery of Matador visited their sister, Mrs. C. W. Ross, through the week end.

Mr. and Mrs. Clarence Orr and daughter, Debbie, of McGregor visited their parents, Mr. and Mrs. Claude Orr, last week end.

Jerry Slovak and son of Dallas spent last week end at the home of his parents, Mr. and Mrs. C. F. Haseloff and daughter, Sherry, of Dumas and Mr. and Mrs. Woodrow Williams of Fort Worth visited their mother, Mrs. W. R. McCurley, through the week end.

Mr. and Mrs. Frankie Halenack and children; his father, Frank Halenack, and son, Raymond, were Saturday morning visitors in Verell. Mrs. Rietmayer went to Baton Rouge last Thursday to visit the Stanfill family.

CARD OF THANKS

We wish to express our heartfelt appreciation for the many acts of kindness, cards and floral offerings received during the illness and passing of our loved one, Mrs. M. E. Moore. We are also grateful for the food. Many thanks to all.

Family of Mrs. M. E. Moore.

NOTICE TO PUBLIC

I have opened a rest home for women in the home of Mrs. Pete Moody, and solicit a chance to care for your mothers.

Mrs. R. S. Haskew.

Margaret
MRS. BAX MIDDLEBROOK

Mr. and Mrs. Bill Murphy attended the reunion of Company H, 142nd Infantry, 36th Division of World War I at Childress Oct. 5 and 6.

Mrs. W. R. Womack of Crowell visited Mrs. A. B. Owens Sunday afternoon.

R. A. Bell and daughter, Lynette, of Burk Burnett visited his parents Saturday.

Ben Bradford of Knox City spent Sunday afternoon with his brother, C. F. Bradford.

MacK, Gamble of Thalia was a Monday visitor here.

Mr. and Mrs. Earl Williams of Anson spent the week end here. They returned to Anson Sunday afternoon where Mr. Williams is employed with the A & A Construction Company.

Mrs. Jewell McCurley and sons, Weldon and Doyle, of McLean brought her mother, Mrs. Cora Dunn, home Wednesday, who had spent several days visiting there.

Miss LaVoy Rummel of Vernon spent the week end with her parents, Mr. and Mrs. August Rummel.

Mrs. Clois Orr and daughter, Betty, and her niece, Debbie Orr, of McGregor visited Mr. and Mrs. Joe Orr Saturday.

Mr. and Mrs. Bill Murphy visited Mrs. Pearson, formerly Mrs. W. S. Tarver, mother of Mrs. Walter Murphy, in Childress Sunday. Ray Tamplin of Lubbock visited in the A. B. Owens home here Sunday.

Sr., and family in Clarendon.

Mr. and Mrs. J. C. Eubank spent Saturday in Post visiting their son, Dennis Eubank, and family.

Mrs. George Sledge and Mrs. Bill Sledge accompanied the group from Crowell High School who attended the State Fair of Texas in Dallas during the week end. Those students from this community going were Linda Caddell, Charlotte Sledge, Dianne Sledge, Mary Ann Brown and Tim Mason.

Mr. and Mrs. Walter Caddell and son of Munday spent Saturday visiting his parents, Mr. and Mrs. Farris Caddell. Their son remained for a longer visit.

Hardie Glascock of Cisco spent several days last week visiting his daughter, Mrs. Warren Corder, and family here.

Mr. and Mrs. Jimmy Pollard and boys of Post spent the week end here visiting friends.

Mr. and Mrs. Walter Chowning and boys, Floyd and Lyndal, of El Paso spent last week visiting in the home of his parents, Mr. and Mrs. M. V. Chowning, and Mary K. Other week end guests were another son, Cecil Chowning, and son, Martin Wayne, of Electra.

Week end guests in the home of Mr. and Mrs. George Solomon were Mrs. Minnie Graves, Mrs. Luther Craig, Mrs. Tom Craig and son, Sammy, all of Jacksboro, and Roy Craig of Cundiff.

Mrs. W. M. Sutherland of Jacksboro is here visiting in the home of her sister, Mrs. J. W. Chowning, and family.

Mr. and Mrs. J. D. Carroll and children of California left Wednesday after visiting in the home of her father, George Myers, and sister, Mrs. Floyd Roberson and husband, and brother Bud Myers, and family, and others here. They were going to visit his father in Abilene before returning home.

Truscott received 2.4 inches rain Monday afternoon. Some very large hail stones did damage to roofs of houses. Some stones measured 2 1/2 inches in diameter. Giltblad had over 5.9 inches of rain. Hail did quite a bit of damage to cotton in the area.

Coturnix Quail Young Are Seen After Planting

Hatchery produced coturnix quail are already raising families of the oriental import in parts of Texas, according to W. J. Cutbirth, executive secretary of the Game and Fish Commission.

"We have reports of several chicks having been seen, particularly in Travis county," Mr. Cutbirth said. "Indications also point to hatches in other areas where the birds have been distributed."

Some 5,300 of these birds have been released in Mason, Tom Green, McCullough, Hudspeth, Kerr, Travis, Wise, Andrews, Martin, Ector and Midland counties. The game department hatchery at Tyler still has between 2,000 and 3,000 more birds to release, he said.

More than 22,000 bobwhites also have been produced and released from the hatchery this year, he said. Land owners with proper cover areas, can buy these birds at 50 cents each for release on their places. Applications should be made through the local warden, or in writing to the commission in Austin.

INCREASING MEAT RATION

"Physicians, newly impressed with the growth and energy potentials of a high protein diet, are increasing the meat ration for patients of all ages." — Chagrin Falls, Ohio, Exponent.

Fair's Famous Clown

Jimmy Savo, one of the world's most famous clowns and pantomimists, will be starred in his own show, "Two A Day," during the 1957 State Fair of Texas in Dallas, Oct. 5-20. The sad-eyed little comedian and his company will perform in the Margo Jones Theatre Building.

Autul, Tex.—Gov. Price Daniel apparently is going all out to get the balance of his 1957-58 program adopted into law.

Special legislative session begins Oct. 14.

In recent speeches over the state Daniel has plugged for lobby control and a crime commission. More talks were scheduled—one on water conservation in San Antonio and another in Liberty.

In addition, the governor has made some outspoken statements on federal-state relationships. Excerpts from his busy round:

CRIME—Present criminal code, says the governor, "is antiquated and it protects the convicted criminal more than it protects the public."

He asked for a state law enforcement study commission that would make recommendations to the next regular Legislature on how crime and highway accidents can be reduced.

Texas crime rate is rising faster than its population, 46 per cent of it by juveniles, said Daniel. (A recent FBI survey showed that during the first half of 1957, Texas has had an increase, up to nearly 10 per cent over 1956, in every type of major crime.)

LOBBY CONTROL—Opponents of this bill are trying "to picture it as a struggle between business and labor," said the governor.

"This is ridiculous... the bill would require registration of those employed by both labor and industry to influence legislation. "Vast majority of Austin lobbyists are legitimate operators who identify themselves and honestly perform their work. They have nothing to fear from this bill."

Opponents of the bill, said Daniel, are "modern-day carpetbaggers who hide their identity and improper expenditures."

FEDERAL SCHOOL AID—"Full responsibility for the operation and financing of public schools should be exercised by the states and their political subdivisions."

Governor Daniel sent a resolution to this effect to the Federal State Action Committee meeting in Chicago.

"With federal dollars comes federal controls," commented Daniel. As a single exception, Daniel favored federal aid for schools with a heavy enrollment from U. S. military installations.

LITTLE ROCK CONTROVERSY—Governor Daniel suggested that both President Eisenhower and Arkansas Gov. Orval Faubus had fumbled in handling the school integration problems there. Neither, he said, had "exhausted every means at their command" to avoid a violent showdown.

"Of course, here in Texas," said the governor, "we would have sent a couple of Texas Rangers to handle the situation."

BRIGHT FUTURE—Texans can look forward to more money, but a little less elbow room in the next few years.

So says U. S. Sen. Lyndon Johnson in predicting a population of 12 million for the state by 1975 with a total personal income of \$24,000,000,000. This compares with a \$9 billion income for some 9,500,000 people in the past few years.

Senator Johnson forecast a 1975 farm output of \$2,900,000,000, up a billion from now, and factory production worth \$8,600,000,000, nearly three times present production.

But, said Johnson, we cannot operate a \$24,000,000,000 state on the basis of our present water use. The rosy prospects for the future will quickly vanish unless we act to control our water resources.

"Texas," he said, "is a growing giant wearing last year's shirt. It's going to strangle, he said, unless there is quick action."

WEATHER TOLL—Cost of Texas' natural disasters in 1957 would be \$12 for every man, woman and child in the state.

Latest Civil Defense Department reports put the year's toll from blizzards, floods, tornadoes and Hurricane Audrey at 61 dead, 638 injured and \$100,000,000 in property damage.

Once again, said Department Director William L. McGill, Texas holds the "dubious distinction of being first in the nation in major disasters."

TB IN TEXAS—Startling facts revealed about tuberculosis in Texas came from Dr. Patrick McShane, head of the state's TB hospitals.

In a twin-panel session composed of newsmen and doctors, Dr. McShane reported that 22,669 Texans have active tuberculosis. One out of three persons has TB germs in his body.

"Texas spends \$6 per patient per day on its TB hospitals," Dr. McShane advised. "And we rank in the bottom fourth on what is spent in trying to get them well."

SCHOOL PANEL NAMED—Way is clear for a new study into needs of the public school system. Six appointments by Gov.

Riverside

MRS. CAP ADKINS

Luther Marlow of Foard City and Jim Marlow of Crowell visited their daughter and niece, Mrs. Delmar McBeath, and family Thursday.

John Matus Sr. and son, Johnnie, were visitors in Lubbock Sunday.

Mr. and Mrs. Henry Bice spent the week end with their daughter, Mrs. Edward Raska, and family of Electra.

Mrs. R. G. Whitten and brother, J. Q. Simmonds, spent the week end with their cousins, Mr. and Mrs. Louis Moore, of Temple.

Mrs. Murry Burkhardt and daughter, Edris, visited the Dallas Fair Saturday in Dallas.

Arlie Cato and son, Jamie, and a friend, all from Fort Worth, spent Saturday night in the R. G. Whitten home.

Louis Kieschnick returned home Sunday from a visit with his sisters of Kingsville.

Mr. and Mrs. Harold Hunt and daughter of Pasadena are visiting Mr. and Mrs. Sam Kuehn. He has accepted the call of the Church of Christ of Thalia and will move there this week.

Wanda Moore and Janis Morris visited the Dallas Fair last week end. They accompanied the FFA girls from Crowell.

Delmar McBeath took his uncle, Arthur Booth, to his home in Wichita Falls Thursday. They were accompanied by Mr. and Mrs. J. L. McBeath of Thalia. They also visited Mr. and Mrs. Sherman McBeath while in Wichita Falls.

Mr. and Mrs. Bert Cerveny and girls of Vernon spent Sunday with her parents, Mr. and Mrs. John Matus Sr., and family.

LaVoy Rummel of Vernon spent the week end with her parents, Mr. and Mrs. August Rummel.

Mr. and Mrs. Robert Matus and sons of Vernon visited his brother, Johnnie, and family Thursday.

Mr. and Mrs. Harvey B. Lewis and family of Vernon visited Mr. and Mrs. M. L. Cribbs and Veda Sunday afternoon.

Mr. and Mrs. S. B. Farrar and family spent Sunday with her parents, Mr. and Mrs. Buck Hudgens, of Vernon and visited with Mrs. Farrar's brother, Ralph Hudgens and family of Lubbock, who also spent the week end with his parents.

Mrs. Sherman McBeath and children of Wichita Falls spent Friday night with Mr. and Mrs. Delmar McBeath and family.

Arlis Moore is attending a recreational school at Munday this week for 3 nights. He will accompany Mrs. Mary D. Brown of Crowell.

Mr. and Mrs. L. Kempf and daughters, Mrs. James Bowers and Mr. and Mrs. Floyd Ferguson, all spent Thursday with Mr. Kempf's twin brother, Henry Kempf, of Thalia, where the men celebrated their 77th birthdays.

Mr. and Mrs. T. Gilbert and children of Hobbs, N. M., spent the week end with their parents, Mr. and Mrs. Robert Hudgens.

Mr. and Mrs. Ward Kuehn attended the Altus-Vernon football game at Vernon Friday night.

Kay Ann Taylor visited Thresa Wright of Thalia Sunday.

Mr. and Mrs. Sam Kuehn and Mr. and Mrs. Oliver Holland and Mr. and Mrs. Harold Hunt attended singing at the Church of Christ in Quannah Sunday afternoon.

Mr. and Mrs. Dave Shultz visited his sister, Mrs. R. C. Johnson, and family of Crowell Sunday afternoon.

Mr. and Mrs. Jim Brown and baby and Mr. and Mrs. Dewey Fortwood and baby of Wichita Falls visited the ladies' parents, Mr. and Mrs. Anton Kajs, and family Sunday. They also visited their nephew, Charles Kajs, in the home of his grandparents, Mr. and Mrs. Ed McDaniel of Crowell.

Mr. and Mrs. Buster Manning of Crowell and their grandsons, Aubrey Don and Leprell Burns of Paducah, visited their niece, Mrs. Delmar McBeath, and family Saturday.

Mr. and Mrs. Anton Kajs Jr. of Lubbock visited his parents, Mr. and Mrs. Anton Kajs Sr., and family and their small son, Gregg, who is visiting his grandparents here, during the week end.

Mr. and Mrs. Ira Toole and Jerry spent the week end with his brother, John Toole, and family of Thalia, and their uncle, Jim Cooper, of Olton.

Norman Shultz of Arlington spent the week end with his parents, Mr. and Mrs. Dave Shultz, and Billy Doyle.

Mr. and Mrs. H. L. Blevins and family of Azle visited the Delmar McBeaths Saturday night.

Mr. and Mrs. Bert Cerveny and girls of Vernon visited her brother, Johnnie Matus, and family Wednesday night.

Mr. and Mrs. F. A. Carey and family and Mrs. D. H. Skelton of Vernon were supper guests of their sister and daughter, Mrs. R. N. Swan, and family Monday evening.

Mr. and Mrs. Herman Schwartz and family and Mr. and Mrs. Johnnie Zahn and family were supper guests of their son and brother, Tony Schwartz, and daughter, Barbara, of Lockett Tuesday evening.

Randy Adkins and Glen Doyle Goodwin of Crowell spent the week end in the Cap Adkins home.

Mrs. Johnnie Matus was hostess to the Holy Rosary Society of the Catholic Church in her home last Tuesday. Eight members were present.

Mrs. Lela Estes and daughters, Mrs. Lucille Henderson and Mrs. Patricia Parker of Vernon, visited in the M. L. Cribbs home Sunday afternoon.

Mr. and Mrs. Eddie Jones of Vernon spent Sunday with their daughter, Mrs. Ward Kuehn, and Mr. Kuehn.

Mrs. John S. Ray and mother visited Mrs. W. C. Ross and Mrs. R. E. Moore of Vernon Friday.

Mrs. Monroe Karcher and her parents, Mr. and Mrs. Karl Hase-

loff, spent the week end with their brother and son, Arthur Schur, and Mrs. Schur of Muleshoe. They also visited the Hasehoff's grandchildren, Mr. and Mrs. Ernie Kiesling and Travis Hasehoff, of Lubbock Sunday.

Thomas Holland, who has been in the service in Virginia, has served his time and returned to the home of his parents, Mr. and Mrs. Oliver Holland.

Rudolph Richter of Lubbock spent the week end with his parents, Mr. and Mrs. Joe Richter.

Miss Leona Young of Ft. Worth, Mrs. Bert Self and Mr. and Mrs. N. J. Roberts of Crowell visited Mrs. John S. Ray and mother, Tuesday.

Mr. and Mrs. A. J. Morris visited Mrs. R. E. Moore of Vernon Saturday.

NEW TYPE OF UNION

Fortune reports that "The appearance of a union of union organizers has caused some embarrassment among A. F. L.-C. I. O. officials." It is known as the Field Representatives Federation, and it wants recognition as a collective-bargaining agent. Officers of the big unions are said to be regarding its demands with cold eyes.

Noah was 600 years old when the ark was completed.

Home Demonstration Notes

MRS. MARY D. BROWN

Our re-upholstery workshop will start here in Crowell next Tuesday and Wednesday from 9 a. m. to 3:30 p. m. for three weeks. The Thalia and Riverside ladies will meet Thursday and Friday, starting Oct. 17. They will start at 1 p. m.

For the first meeting you will need to have your chairs completely stripped down and already refinished if you plan to do that. Be sure to bring all of your old stuffing and each piece of fabric that you remove from your chair. Also bring with you the first day all of your supplies and equipment except your sewing machine.

Here is the schedule we will try to follow. 1st and 2nd day, replace webbing and tie springs; 3rd day, burlap and moss; 4th day, padding and muslin cover; 5th day, muslin cover, cushion and cutting of final cover; 6th day, final cover and cushion.

Our recipe this week is: 7 No. 2 can French cut green beans, 1 can cream of mushroom soup, 1/2 cup grated cheese, cup toasted bread crumbs.

In greased casserole, alternate layers, beans, soup and bread crumbs. Sprinkle with bread crumbs. Bake uncovered at 350 degrees for 1 hour. Serves 6.

GENERATION

Thirty-three years usually constitute a generation.

A camel can run about 18 miles an hour.

A quarter doesn't go as far today
as it used to unless you happen
to drop it on the sidewalk."—
Stockton, Kansas, Rooks County
Record.

BULK HANDLING OF MILK

Bulk handling is swiftly replac-
ing milk cans on dairy farms. Na-
tionally, the number of farm tanks
doubled in 1955 and again in 1956,
according to A. M. Meekma, exten-
sion dairy husbandman. Producers
usually expand their herd with
the installation of this system.

Herbert Hoover is the only man
of Swiss descent to be president
of the United States.

TO WASH THESE CLOTHES...?

TO BEAT THESE RUGS...?

TO WASH THESE DISHES...?

Electricity does it for only a few cents!

Electricity is the biggest bargain in your budget — and even more of a bargain today than it was years ago — in fact in homes served by WTU, the average cost of a kilowatt hour of electric service is 20% LESS than it was 10 years ago. Your electric bill may be higher, but that is because electricity is so inexpensive you can afford to use much more of it these days. Don't you think so?

West Texas Utilities Company

THE WILDCAT

(Continued from page 2)

Tues., Oct. 15: corn meal muffins, pinto beans and bacon, spinach, Frito franks, cheese slices and crackers, peanut butter candy, cookies.

Wed., Oct. 16: light bread, roast and gravy, candied sweet potatoes, lima beans, celery strips, butter cake.

Thurs., Oct. 17: light bread, Creole spaghetti, green beans, scalloped potatoes, lettuce and tomato salad, Jell-o with fruit cocktail.

Friday, Oct. 18: light bread, fish sticks, sweet potato balls, English pea salad, lettuce with cottage cheese, rice pudding.

ABSENCES

The following students were absent one or more days last week on account of illness:

Gaylon Hough, Charles Carroll, Roy Washburn, Bobby Barker, Janet Washburn, Bill Smith, Linda Harris, Barbara Goodwin, Joyce Howard, Joe Barry, Virginia Hudgens, Roberta Hough, Larry Love and Monte Churchill.

The following students were absent one or more days due to other reasons: Larry Sledge, Roy Ford, LaRue Diggs.

Shower Honors Future Bride of Crowell Man

The B. & P. W. Club house in Quanah was the setting Thursday night of last week for a miscellaneous bridal shower and tea honoring Miss Gail Johnson, bride-elect of Jimmy Doyal of Crowell. The groom-elect is the son of Mrs. Pearl Doyal.

Hostesses were Mesdames R. W. Truitt, Price Hargshamer, P. D. Gilpatrick, Phillip Mackoy, Herman Pierce and Meredith Dennis. Guests calling between the hours of 7:30 to 9:30 were greeted by Mrs. Mackoy and presented to the honoree, her mother, Mrs. Grady Johnson, and Mrs. Doyal, mother of the groom-elect.

Mrs. Truitt presided over the refreshment table which was covered with a white outwork cloth and centered with a blue raffled net containing an arrangement of white carnations. A miniature bride and groom, standing beneath a vine-covered arch amidst the flower arrangement, was accented by a background of four white tapers in silver containers. Other table appointments were silver.

Mrs. Pierce, Mrs. Dennis, Mrs. Hargshamer and Mrs. Gilpatrick assisted with the refreshments and the display of gifts. Among the forty guests registering were the following from Crowell: Mrs. Jack Powers, Mrs. C. S. Bartley, Mrs. M. L. Rettig and Mrs. Willie Garrett.

Engagement of Miss Rondelle Carter of Plainview Announced

Mr. and Mrs. John R. Carter of 1695 West 7th, Plainview, have announced the engagement and approaching marriage of their daughter, Rondelle, to Dale Wayne Newton, son of Mr. and Mrs. J. G. Newton, 1109 Fresno, Plainview.

Both the bride-elect and her fiancé attended Hardin-Simmons University in Abilene last year and are at present enrolled at Wayland College in Plainview. Miss Carter is a native of Crowell and is the granddaughter of the late Mr. and Mrs. J. C. Calvin, and Mr. and Mrs. J. H. Carter. She is the niece of Mrs. W. B. Tysinger, Mary E. Carter and Lorraine Carter of Crowell.

The engagement was announced with a break September 28 in the dining room at Blasingame's Restaurant in Plainview.

The bride-elect's chosen colors of blue and white were carried out in the flower arrangement of a ribbon entwined bird cage with two lovebirds swinging over clusters of white roses and a nest of greenery. Adjacent to this was a triangular arrangement of fragrant white carnations and stocks which revealed the wedding date to be November 23.

As the guests registered, they heard faint strains of the traditional wedding march coming from a tiny musical box concealed in the white satin bride's book.

Place cards were laid for 26 guests.

HENRY CIRCLE

Mrs. Ray Duckworth conducted the program for the Henry Circle at the meeting on Monday afternoon with Miss Dorothy Erwin serving as hostess.

The subject was "Thankfulness to God for His Blessings and Loving Kindness." The Scripture was taken from Psalms 90. It was stressed in the lesson that Christian Missions are needed all over the world.

Mrs. Henry Borchardt talked on "The Need for Daily Prayer." Gratitude was the first source of Paul's dedication in leading the life of a missionary.

B. & P. W. CLUB MEETS

The Business and Professional Women's Club met Thursday evening, Oct. 3, at the Gusta Davis Beauty Shop. Sally Archer, president, conducted a short business session, at which time it was voted to meet on the third Thursday of each month instead of the first and third Thursdays as has been done in the past.

Gusta Davis, legislative chairman, was in charge of the program. A very interesting discussion was brought on the proposed amendments to the State Constitution to be voted on in a special election Nov. 5, after which a question and answer period was enjoyed.

Eight members were present.

SURPRISE SHOWER

Mrs. Gene Owens and Mrs. Ed Thomas were hostesses Thursday night of last week for a surprise pink and blue shower honoring Mrs. John Potts. Several entertaining games were played, and delightful refreshments were served.

Guests invited were members of the honoree's Sunday School class and also other close friends.

PIONEER CIRCLE MEETS

The monthly social meeting of the Pioneer Circle of the Women's Society of Christian Service of the Methodist Church was held in the home of Mrs. E. R. Roland Monday afternoon. Mrs. O. M. Gentry was co-hostess with Mrs. Roland.

Mrs. F. B. Flesher was program leader on the subject, "Our Home Missions Centers and Race." The opening song was "Jesus Saves." Mrs. C. R. Bryson gave a thoughtful devotional on missions, using a scripture from Eph. 4:1-7.

Mrs. Flesher told in detail of the Home Mission work being done by the church. Mrs. S. S. Bell gave some statistics concerning the mission centers.

The hostesses, assisted by Mrs. C. W. Thompson, served a tempting refreshment plate to fifteen members.

THALIA H. D. CLUB

The Thalia Home Demonstration Club met Thursday, Oct. 3, in the school cafeteria with the president, Mrs. Ed Huskey, in charge. Roll call was answered by 9 members.

Mrs. Huskey read the collect for club women and the courtesy reminder. Mrs. Robert Hammonds read "Prayer." Minutes were read and approved. Mrs. Huskey appointed a nominating committee of Mrs. Hester Hammonds, Mrs. G. A. Shultz, Mrs. Roy Shultz to select officers for next year. Mrs. W. G. Chapman reported on the 1958 yearbook. Mrs. Huskey gave a beautiful demonstration on "Dyeing and Drying Flowers."

Club will have a special meeting Oct. 8 at Mrs. Robert Hammonds' home to make planters from plaster of paris.

RIVERSIDE H. D. CLUB

Looking for a hobby? "Drying and dyeing flowers for bouquets can be an interesting and endless hobby for anyone who has time on their hands," was a statement made by Mrs. Grover Moore when the Riverside Home Demonstration Club met at the Riverside school house Tuesday afternoon, Oct. 1, with Mrs. S. C. Kuehn as hostess.

"To dye dry flowers, dip in boiling hot Rit and hang to dry on a clothesline," continued Mrs. Moore as she proceeded with the program, "Drying and Dyeing for Christmas Bouquets." She had prepared a number of attractive dry arrangements for her demonstration.

Mrs. S. C. Kuehn, vice president, called the meeting to order and the club courtesy reminder and prayer were read in unison. Mrs. Monroe Karcher gave the opening exercises. It was decided that the upholstery workshop will be held on Thursdays and Fridays, beginning Oct. 13 and 17, at 1 p. m. each day at the Riverside school house. There will be a covered dish family social at the Riverside school house Saturday night, Oct. 12. The next club meeting will be Oct. 15 at the Riverside school house with Mrs. Grover Moore as hostess. The program, "Managing Your Bank Account," will be brought by Mrs. S. C. Kuehn.

The treasury cake was cut and served with drinks to 11 members.

ADELPHIAN CLUB

On Wed., Oct. 2, at 2:30 p. m., the Adelphian Club met in the club house.

"Special Observances" was the theme of the afternoon meeting with Mrs. Henry Borchardt serving as leader. She introduced Mrs. W. B. Tysinger who gave highlights of her recent tour of Europe and showed interesting slides. Very little modern art can be found in Europe. This continent is known for its outstanding churches, bridges, roads, etc., which are still being reconstructed in Europe due to the war.

Mrs. F. B. Flesher, federation counselor, gave a timely federation report stressing "American Homes and Communications."

Mesdames W. A. Dunn and Bob Thomas were hostesses for the afternoon meeting.

COLUMBIAN CLUB

The Columbian Club met on Wednesday, Oct. 2, in the home of Mrs. M. N. Kenner for the study of Home Gardening.

The meeting was called to order by Mrs. Roy Barker, vice president, in the absence of Mrs. Kari ten Brink, president.

Roll call was answered with suggestions as to what to plant this fall. The devotional was given by Mrs. Sam Crews who gave the Bible story of the raising of Lazarus from the dead by the touch of the Master's hand.

The study of Home Gardening was presented by Mrs. Beavers of Vernon. She gave a very helpful lecture on planting.

Ten members and the one visitor were present, to whom the hostess served a salad plate with punch. The next meeting will be Oct. 16 in the home of Mrs. Guy Morgan.

Cattlemen Urged Not to Overstock Range Lands

After taking a mid-year look at the West Texas livestock industry, Dr. Wayland Bennett of Texas Tech's agricultural economics department advises area cattlemen to go easy when stocking range land.

While February rains brought the most promising prospects for spring range and pasture feed, this moisture is almost gone in many areas of West Texas. Dr. Bennett states in the current issue of West Texas Today.

With the 1949-56 drought seriously depleting subsoil moisture, only moderate stocking under a rotation management program will help gain the maximum survival

of grass in many areas, he says. "One or two years of normal or above normal rainfall will not have the customary restorative values," Dr. Bennett writes. "It will take, under favorable weather conditions, from five to ten years before our ranges—even with sound range management practices—are capable of being stocked at pre-drought rates."

Dr. Bennett points out that while cattle numbers were down approximately two per cent below the 1956 peak in the United States, numbers in Texas have declined approximately 13 per cent below their 1952-53 peak.

Improvement in both range and livestock conditions has led to an increased local demand for heifers and young cows as both farmers and ranchers restock. Others, however, are withholding restocking at present to allow their ranges to recover further from the drought.

Fire Prevention Week in Progress

Get out of the house the minute you discover a fire or suspect one—and get everyone else out at the same time.

"Everyone should memorize this and other life safety rules about fire," warns County Agent Joe Burckett, "because they're your best guarantee of surviving a fire in your home."

He recommends these other rules as important to remember, too, if fire should strike:

Be ready with different escape routes from any room in your house.

Feel a door before opening; if hot, block it with furniture and seal with wet towels and blankets; try to get out another way.

Never jump from upper story

windows except as last resort; wait for firemen.

Hold your breath if you have to dash through smoke and flame; and remember that the air is usually better near the floor in a smoke-filled room.

Once out, don't ever go back into a burning building—smoke and gases from even the smallest fire can be deadly; children very often go back into their homes, so keep them restrained.

Get medical treatment at once if you are burned or exposed to smoke; seemingly minor burns or smoke inhalation can be exceedingly dangerous.

Call the fire department the instant you're certain that everyone is safely away from the fire.

Tennis was purely an amateur sport until 1926.

HIGHEST INTEREST SINCE

The U. S. Treasury recently issued a special savings bond for \$1,750,000,000. The interest rate of 4.173 per cent on the offering was the highest since the bank holiday period of 1933.
