## HEAD OF ARMY ENGINEERS IS VISITOR HERE

MAJOR LEE OF VICKSBURG VISITS PROPOSED DAM SITE ON PEASE RIVER; LAST INSPECTION BEFORE FINAL REPORT

Major John C. H. Lee of Vicksburg, Mississippi, chief of the United States corps of army engineers, was a visitor in Crowell for a short time Sunday while on his way to visit the site of the proposed dam on Pease River. He was accompanied by Herbert D. Newell of Vicksburg, an official of the army engineers corps, and Robert P. Hall, manager of the Electric Chamber of Commerce.

This inspection of the Pease River project is supposed to be the last one before the report is sent to Washington. Last spring, the latter part of May and the early part of June, about ten engineers under the direction of Mr. Newell, completed a detailed survey of the dam site, about ten miles northwest of Crowell. A few weeks were also spent by Mr. Newell and his assistant, Jean Dubuisson, in investigating the drainage area of Pease River and in doing this they had spent some time on the Plains. Later they made a thorough investigation of the Lake Kemp irrigation project.

In connection with the investigation of storage in Pease River for domestic water supply, irrigation and other purposes, Mr. Newell secured data about the assessed valuations of Crowell, its bonded indebtedness and has since written asking if Crowell would be interested in a supply of water at Pease River for domestic purposes. The matter will be discussed at the next meeting of the city council.

The government is mainly interested in placing dams on the major tributaries of the Mississippi River as a matter of flood relief, but is also greatly interested in seeing that such dams will produce a revenue and of course the dams showing the best prospects for doing this will have the best chances of being built.

## Lindbergh's Classmate Visits at Foard City

Lieut. Ivan M. Palmer, a flying instructor at Kelly Field, San Antonio, landed in an army airplane at Foard City Saturday for a visit with his uncle, Claude Callaway, Tom Callaway and Will Callaway. He was flying alone in a pursuit plane and returned to Kelly Field Sunday.

Lieut. Palmer was a classmate of Charles Lindbergh at Brooks and Kelly Fields, the army training centers at San Antonio. He has been in the army air service since 1922.

## Demonstration of Beef Canning at Gambleville

An all-day beef canning demonstration was held Wednesday under the direction of Miss Dosca Hale, home demonstration agent, at the home of Mrs. George Free, in the Gambleville community.

About fourteen women were present to become acquainted with the details of beef canning. The beef was put up in five different varieties into 161 number one and two cans from the one beef.

## J. W. Klepper Named As Justice of the Peace

M. M. Hart Jr. has resigned from the office of Justice of the Peace of Precinct No. 1 and J. W. Klepper has been appointed by the commissioners court to fill out his unexpired term. Mr. Klepper was recently elected as the Democratic nominee for this office.

## Officers Elected by Seniors at Meeting Tuesday Afternoon

The 1931 Class of the Crowell High School held its first meeting Tuesday afternoon with approximately forty students, who can now proudly call themselves Seniors, present. Henry Teague, who was elected president of the class last spring, called the meeting to order.

Superintendent I. T. Graves made a short talk to the class after which officers for the year were elected. Those elected were: Ragsdale Lanier, vice-president; Frances Allison, secretary-treasurer; Mrs. W. B. Carter, class mother, and Henry Black, class sponsor. A committee composed of Dessa Housouer, Mary Frances Self, Crews Cooper and Elbert Griffith was appointed to look after business affairs coming before the class.

## Enrollment in Local Schools Totals 445

The total enrollment in the Crowell Schools so far this year is 445 and this number is expected to be increased within the next few weeks, according to I. T. Graves, superintendent. The total enrollment at this time last year was 502.

The enrollment at this time in various departments is: primary—194; intermediate—109; and high school, 142. The enrollment in the departments at this time last year was: primary—186; intermediate—151; and high school—165.

Mr. Graves stated that the entire school system was now in smooth working order.

## Revival at Baptist Church Will Come to a Close Sunday

The revival meeting at the Baptist church will come to an end Sunday night, completing services of two weeks. Rev. F. G. Rodgers of Spur, who is preaching for the revival, has preached twice daily and all of his sermons have been unusually interesting.

Much interest has been shown in the meeting and splendid co-operation has been afforded by the churches of Crowell. Sunday evening the church was filled to overflowing.

There has been a number of conversions and additions to the church since the beginning of the revival. Rev. Rodgers is without doubt one of the most popular preachers that has ever conducted a revival here and those who have not yet heard him should avail themselves of the opportunity to do so.

## Mrs. Tuttle Breaks Arm at Baptist Church

Mrs. W. R. Tuttle suffered a broken arm and a badly bruised hip as the result of a fall Sunday night that occurred while she was leaving the Baptist church after attending the services there.

She was going down the steps on the east side of the church and thinking that she had reached the sidewalk, she stepped accordingly and the short fall resulted that caused her right arm to break at the wrist and the injury to her right hip.

She is now unable to walk due to her injury but is sitting up and otherwise is doing well.

## BEST RAIN IN MONTHS FELL HERE TUESDAY

GOOD RAINS FELL IN EASTERN PORTION OF COUNTY BUT LIGHT IN WESTERN SECTION; .6 INCH HERE

The best rain that has fallen in Crowell since May 9, 1930, fell here Monday night and Tuesday morning with six-tenths of an inch being recorded at the First State Bank, official weather recording station for Crowell. The rain was considerably heavier in the eastern part of the county and even just a few miles east of Crowell it was reported that about one and one-half inches fell.

Thalia was about the center of the heaviest rains and as much as two inches and about an average of one inch and one-half fell in that vicinity. The rain was said to be particularly heavy in the southeastern portion of the county. Ayersville, Margaret, Gambleville, Rayland, Four Corners, and Catesville received good rains.

West of Crowell the rain was lighter. A fair rain fell in the Black community but was very light around Vivian. The rain was also light at Foard City and the section west of there. W. W. Kinsey reported a rain of about one inch or over at his place, about eight miles south of Crowell.

The rain was light in the Claytonville, Beaver and Good Creek communities. Ebert Fish reported a very light rain at his place twenty miles west of Crowell.

**To Sow Wheat**  
Sufficient moisture was reported in the Thalia section to start wheat sowing. Fred Rennels, county agent, stated that there was sufficient moisture in the eastern part of the county to sow small grain for pasture. He also advises farmers to have every section of the county to have their land in readiness so that sowing can start immediately following any further rains.

A good supply of water for stock and domestic purposes was provided for most of the farmers of the eastern section of the county. J. B. Easley reported that it rained sufficiently to provide stock water on his ranch in the northwest part of the county.

The city lake was also raised five inches by the rainfall, however, this slight raise is not sufficient to relieve the present water situation here.

## FREIGHT RATE CUT IS GIVEN FOARD COUNTY

COUNTY AGENT GIVEN AUTHORITY BY DEPARTMENT OF AGRICULTURE TO APPROVE SPECIAL RATE CERTIFICATES

Foard is one of the eighty-nine counties of the state eligible to receive drouth relief in the form of reduced freight rates on cattle and livestock. These counties were certified to Governor Dan Moody by Arthur Hyde, secretary of agriculture.

The states in which counties now are certified to receive livestock feed at reduced freight rates are Alabama, Maryland, Mississippi, Missouri, Montana, Ohio, Oklahoma, Pennsylvania, Tennessee, Texas, Virginia, West Virginia and Wyoming.

According to data received by County Agent Fred Rennels, the Department of Agriculture has given out the following information:

Anyone desiring to obtain a permit authorizing the movement of the designated commodities must first obtain approval certificate from the county agricultural agent. The local railroad agent, upon receipt of this application, will transmit the same to the transportation officer of his railroad requesting permit for such movement, such permit to specify the commodity to be shipped, the quantity to be shipped, the shipping point, destination, and name of consignee and consignor, and the time limit in which the shipments are to move. The transportation officer will issue the permit to the originating carriers and at the same time will furnish a copy of the permit to the district manager of the car service.

County agents will make an investigation of each application for reduced railroad rates and issue the approved certificate only when an emergency caused by the continued drouth makes it necessary to apply the reduced rates under the special authority issued by the interstate Commerce Commission are not applicable to the movement of livestock.

The county agents in the designated drouth counties are authorized by the Department of Agriculture to approve applications for reduced railroad rates on the designated commodities when the benefit of such reduced rates accrues to the farmer-consumer of hay and feed, and the farmer-shipper of livestock in the drouth stricken area.

The committee chairmen are: Mrs. L. A. Andrews, program; Mrs. W. B. McKown, finance; Mrs. George Burress, membership; Mrs. T. B. Klepper, publicity; hospitality and social, Mrs. A. F. Wright; Mrs. N. J. Roberts, magazine; Miss Lottie Woods, hygiene and health; Mrs. Frank Fletcher, room sponsor.

The executive board is made up of the officers of the association, I. T. Graves, superintendent, and the committee chairmen.

A series of programs has been worked out for the entire school year and the program next Tuesday will consist of an address from the president, a parliamentary drill and an outline of duties and plans of the chairmen of committees.

The meetings as outlined for the year and their leaders are: Mrs. H. K. Edwards, Recreation, Oct. 21; Mrs. L. A. Beverly, Children's Reading, Nov. 18; Mrs. Ruby Pierce, Safety, Dec. 16; Mrs. John Long, Child Labor and Education, Jan. 20; Mrs. R. L. Kincaid, Founders' Day, Feb. 17; Mrs. Hines Clark, Child Hygiene, March 17; Mrs. R. R. Magee, Social Hygiene, April 21, and Mrs. Sam Crews, Music, May 19th.

Two socials are to be held during the year, one in October and the other in February.

## M. M. HART JR. ACCEPTS POSITION WITH OIL CO.

M. M. Hart Jr. has accepted a position in the land department of the Southern Crude Oil Purchasing Company of Fort Worth and is now stationed at Tyler, Texas.

Mr. Hart has worked in the office of Bell-Roberts Land and Abstract Company for the past eleven years. He was serving his second term as justice of the peace but has resigned from that office and his vacancy has been filled by J. W. Klepper.

## Crowell High Plays Matador in Opening Game Here, Sept. 19

Crowell football fans will have the opportunity of witnessing the first football game of the season here next Friday, Sept. 19, when the Crowell Wildcats play Matador. Crowell defeated Matador 19 to 0 here last year, however Matador is said to have a stronger team this year and the game in all probability will be a good one.

The schedule for the rest of the season has been completed as follows:

- Sept. 19 — Matador, here.
- Sept. 26 — Knox City, here.
- Oct. 3 — Throckmorton, here.
- Oct. 10 — Munday, here.
- Oct. 17 — open.
- Oct. 24 — Knox City, here.
- Oct. 31 — Matador, here.
- Nov. 7 — Throckmorton, here.
- Nov. 11 — Chillicothe, here.
- Nov. 21 — Munday, here.
- Nov. 27 — Paducah or Estelline, here.

## Tage Holtberg Dies in Hawaii Hospital

Mrs. J. R. Beverly received a radiogram Monday morning that her brother-in-law, Tage Holtberg, died in a hospital at Paia, Hawaii, about twelve miles from his home in Puuene. The day of his death was not given and no details concerning it have been learned since.

Mr. Holtberg was about forty years of age and was a native of Sweden, coming to the United States when 14 years of age. He was a civil engineer and had been active in that work until the last few years. He had been in bad health for the past three years.

He was married to Miss Myrtle Huddleston in 1923 in Hawaii. Four years ago they visited his childhood home in Sweden and also Mrs. Holtberg's home at Mabank, Texas. They also visited in the home of Mr. and Mrs. J. R. Beverly in this city at that time. Mrs. Beverly is a sister of Mrs. Holtberg.

Mrs. Beverly visited Mr. and Mrs. Holtberg in Los Angeles last summer. They were in California at that time for Mr. Holtberg's health.

## Parent-Teachers Will Hold First Meeting Tuesday

The executive board of the Crowell Parent-Teachers Association met Tuesday afternoon at the high school for the purpose of making plans for the year's work. The first regular meeting of the association for this term of school will be held Tuesday afternoon, Sept. 16, at four o'clock in the high school auditorium with the teachers and mothers of the first grades as hostesses.

Officials of the association extend an urgent call to all mothers and others interested in the work of the school to be present at the meeting. There is an excellent opportunity for much good work to be accomplished by the association and it is sincerely hoped that it will have the thorough co-operation of the school patrons.

The officers of the association for this year are: Mrs. A. D. Campbell, president; Mrs. R. R. Magee, vice-president; Mrs. John McNear, secretary; Mrs. W. O. Clary, treasurer, and Mrs. T. B. Klepper, reporter.

The committee chairmen are: Mrs. L. A. Andrews, program; Mrs. W. B. McKown, finance; Mrs. George Burress, membership; Mrs. T. B. Klepper, publicity; hospitality and social, Mrs. A. F. Wright; Mrs. N. J. Roberts, magazine; Miss Lottie Woods, hygiene and health; Mrs. Frank Fletcher, room sponsor.

The executive board is made up of the officers of the association, I. T. Graves, superintendent, and the committee chairmen.

A series of programs has been worked out for the entire school year and the program next Tuesday will consist of an address from the president, a parliamentary drill and an outline of duties and plans of the chairmen of committees.

The meetings as outlined for the year and their leaders are: Mrs. H. K. Edwards, Recreation, Oct. 21; Mrs. L. A. Beverly, Children's Reading, Nov. 18; Mrs. Ruby Pierce, Safety, Dec. 16; Mrs. John Long, Child Labor and Education, Jan. 20; Mrs. R. L. Kincaid, Founders' Day, Feb. 17; Mrs. Hines Clark, Child Hygiene, March 17; Mrs. R. R. Magee, Social Hygiene, April 21, and Mrs. Sam Crews, Music, May 19th.

## M. M. HART JR. ACCEPTS POSITION WITH OIL CO.

M. M. Hart Jr. has accepted a position in the land department of the Southern Crude Oil Purchasing Company of Fort Worth and is now stationed at Tyler, Texas.

Mr. Hart has worked in the office of Bell-Roberts Land and Abstract Company for the past eleven years. He was serving his second term as justice of the peace but has resigned from that office and his vacancy has been filled by J. W. Klepper.

## LOCAL SCHOOLS OPENED MONDAY WITH PROGRAM

REV. RODGERS, FRED RENNELS AND I. T. GRAVES SPEAKERS AT OPENING PROGRAM IN HIGH SCHOOL AUDITORIUM

The Crowell schools formally opened Monday morning with a large number of patrons on hand to witness the opening ceremonies. The formal opening at the high school took place at nine o'clock in the morning in the auditorium. Besides the high school students, those in the intermediate grades were also present.

After the faculty, school board members and speakers took their places on the stage, Rev. Woodie W. Smith pronounced the invocation. The high school girls chorus followed with an appropriate song for the occasion by singing, "Happy Days are Here Again."

Rev. F. G. Rodgers of Spur, who is conducting the Baptist revival, was the principal speaker on the program. He gave a very interesting talk on the right attitude for the students to take toward themselves and others. "It is honorable to fail honestly, but a disgrace to succeed dishonestly," he told the students. In concluding he stated that the real reason for going to school was that the students might prove a blessing to the world.

Fred Rennels spoke for the school board of trustees. He gave a brief discussion of the present school situation and also gave some excellent advice to the students.

Superintendent I. T. Graves was the last speaker on the program. He asked that the pupils form the proper aims and purposes and diligently work for that which was best. He told the patrons that he did not want them to think of the school as belonging to the faculty and students, but to look upon it as "Our School."

An announcement was made by Mrs. S. T. Crews concerning courses in music and Mrs. I. T. Graves concluded the program with a reading.

Probably the largest number of patrons of the schools remained at the grammar school building to be with the students in the lower grades, a great many of whom are beginning their first year in school work. Interest in the beginners' section was particularly great and Miss Lottie Woods' room was crowded throughout the morning with relatives of the little boys and girls.

## CROWELL PLAYS QUANAH FIRST FOOTBALL GAME

SEASON OPENS ON QUANAH FIELD; ONLY CLASS A TEAM TO OPPOSE CROWELL THIS SEASON

The Crowell High School Wildcats will play their first football game of this season against Quanah High School at Quanah Friday, September 12th. While Quanah is generally thought to win, yet Crowell has defeated Quanah before when conditions pointed to a Quanah victory and an excellent game is expected when the two teams meet.

Crowell defeated Quanah here last year by the score of 13 to 7 in the first game of the season and the year before that Quanah defeated Crowell 7 to 6. This year Quanah has the advantage of a heavier team and also started practice about one week ahead of Crowell.

For a while this week it was feared that John Todd and Melvin Wozencraft would not be with Crowell in this game due to their absence from the city, however, they have returned from their work on the Plains and in New Mexico and will be ready to take their part in the game Friday, although their absence from practice for a few days may be felt.

Coach Grady Graves has had about 23 boys reporting regularly for practice and is pleased with the showing that they have made in the work-outs.

Quanah is the only Class A team that Crowell will play this year and for that reason the local boys are particularly anxious to win this game. Quanah is reported as having the strongest team in many years and is expecting to do well in its Class A district which is made up of the following teams: Wichita Falls, Electra, Vernon, Childress, Pampa, Amarillo, Plainview and Lubbock.

The line-up that will start the game at Quanah will likely be as follows: Guy Todd, quarterback; Ragsdale Lanier, Roy Mullins or Bud McCoy, halfbacks; Crews Cooper, fullback; J. M. Crowell or George Fox, left end; Ralph Burrow, right end; Recie Womack and John Todd, tackles; Hoot Gibson and Melvin Wozencraft, or Hubert Smith, guards, and Bill Middleton, center. Substitutes that will be taken to Quanah are: Neff Middlebrook, William Ricks, Dan Hines Clark, Mitchell Allee and Gerald Knox.

Bud McCoy has recently moved to Crowell from Iraan, Texas, where he formerly played football, and started working out with the squad this week. He is a capable backfield man and is a valuable addition to the team.

## Crowell Wins Over Tulsa in Polo Game

Crowell defeated Tulsa 6 to 3 Monday in a polo game at the tournament that is being conducted at Fort Reno, Oklahoma. Crowell was to have played Wichita Falls Wednesday but the result of that game has not yet been learned.

Those from Crowell at the tournament are Glen Offield, Bill Barry, Paul Shirley and Roy Barry. It is understood that A. C. Adkins of Amarillo and Henry Beck of Dallas have played for Crowell during the tournament. J. H. Minnick is reported to have played with the Tulsa team.

## Accounts of Rains Following 1913-18 Drouths Reprinted

As a matter of interest The News is reproducing information here concerning the breaking of the drouths of 1913 and 1918. This information was taken from the files of The News for those years.

The following is an account of the rain that broke the drouth in 1918 that appeared in The News in the issue of Sept. 6, 1918:

"No longer are we in the grip of the drouth which has spread its blighting hand over West Texas for the past several months. The rains have come at last, after a spell of the most patient waiting. Thanks to our trusted weather men, Foster and Banta, whose recent predictions have come true. They did not specify the amount prorated for this section, but would greatly relieve the situation and at Crowell the gauge registers 1.95. We wish it had held out a few minutes longer so that it could have been recorded in even numbers, yet we are not complaining. We are wonderfully blessed and again confidence begins to take hold of our people, some of whom had begun to show a spirit of despondency.

"Of course two inches of rain will not be sufficient to insure a wheat crop but the wheat men say it will do to sow on, and there will now be great activity in the preparing of lands, where they are not already prepared for fall sowing. It will help the late feed crops and may also help some cotton.

"It is wonderful how much this country can come out when it looks like the whole thing has gone to the bad, and we are expecting the rains to cause surprising development in Foard County's crops within the next few weeks."

(Continued on last page)

## E. A. Dunagan's Mother Died in Sherman, Texas

Mr. and Mrs. E. A. Dunagan returned Monday from Sherman where they attended the funeral of Mr. Dunagan's mother, Mrs. Frances S. Dunagan, that was held in the Baptist Church at Sadler, near Sherman, last Friday. She died the previous day at her residence in Sherman.

Mrs. Dunagan was born in Alabama on June 2, 1856, and had been a member of the Baptist Church for the past forty-five years. She had lived in Grayson County for 37 years.

Surviving Mrs. Dunagan are her husband, J. D. Dunagan; three sons, E. A. of Crowell; W. H. of Sherman; J. E. of Little Rock, Ark.; 5 daughters, Mrs. P. A. Holden, Mrs. C. A. Fleming, Mrs. W. L. Gribble and Mrs. Fred Voss, all of Dallas, and Mrs. B. V. McCorkle of Woodbine; one brother, T. J. Knight of Whitesboro; and 26 grandchildren and 18 great-grandchildren. All children were present for the funeral except J. E. Dunagan of Little Rock, who is in a government hospital. He was shell-shocked during the World War.

## State Aid to Foard Schools Based on 1,880 Scholastics

State school aid to the rural schools of Foard County will be based on the following enrollment: Four Corners 15; Thalia 293; Gambleville 67; Fish 28; Margaret 156; Black 39; Vivian 96; Ayersville 69; West Rayland 97; Foard City 153; Claytonville 25; Beaver 25; and Good Creek 47.

Transfers for Foard County rural students have been made in the following order: 30 to Crowell; 24 to Five in One school, Wilbarger County 2 to Antelope Flat, Wilbarger County; and one to Paducah. The total number of rural students, including transfers, is 1,169. The total number last year was 1,057.

Crowell has 711 scholastics, according to the school census this year, compared with 624 last year.

The state department of education has officially approved 1,880 names in Foard County's scholastic census and state aid will be awarded to the amount of \$17.50 for each scholastic.

Items from Neighboring Communities

GAMBLEVILLE  
(By Special Correspondent)

Misses Catherine Wheeler and Lorene Shultz left Tuesday for Denton

to attend C. I. A. They were accompanied by Glen Fox.

To Feature Texas in Radio Program

Abilene, Texas, Sept 11.—The state of Texas will be the subject of a radio program which will be broadcast by the Middle West Utilities System over Station W E N R, Chicago, from 8:00 to 8:30 Central Standard Time, Friday, September 12th.

Texas is one of 30 states in which companies of the Middle West System operate. Texas songs will form the musical program and descriptions will be given of some of the communities served by the West Texas Utilities Company, Central Power and Light Company and the Southwestern Gas and Electric Company, the three companies of the Middle West Utilities System operating in the state of Texas.

Station W E N R operates on a wave length of 870 kilocycles.

Pneumonia proves fatal in about one case out of seven.

Items from Neighboring Communities

MARGARET  
(By Special Correspondent)

Mr. and Mrs. C. B. Graham and little son, C. B. Jr., returned Tuesday of last week from Austin where they attended the American Legion Convention.

W. E. Taylor and W. A. Priest, Mrs. George Wesley, Misses Alma Wesley and Nena B. McGill, visited relatives in Wichita Falls one day last week, where Miss McGill visited a few days before returning to her home in Dallas, after several weeks visit with relatives here.

George Cullum and father visited friends at Medicine Mound one day last week while Grandma Cullum visited Mrs. Huckabee of Black community.

W. P. Phillips of Wichita Falls and G. L. Goze of Fort Worth were business visitors in Margaret Wednesday.

W. A. Priest and W. E. Taylor attended the Free Will Baptist meeting at Vernon Thursday night.

John Wesley returned to Amarillo last week after several days visit with homefolks.

Mrs. Marel Trout and little daughter, Helen, and Miss Emma Kempf left Thursday for Quannah to visit in the home of Mr. and Mrs. John Mahoney until Saturday when they went to Mrs. Trout's home at Miami accompanied by W. E. Taylor and sons, Gordon and Garland, who returned home Sunday.

Mrs. W. Ingle and Mrs. Bill Murphy and little daughter, Ludell, visited Mrs. R. L. Townley of Thalia Thursday.

Grady Thacker of Crowell was a business visitor in Margaret Friday.

R. H. Coggin and family moved last week to Southeast Texas.

Miss Bonnie Crisp of Rayland visited Mrs. M. Sikes Thursday.

Miss Clara Belle Bagley had her tonsils removed last week at Vernon. She is recovering rapidly.

Miss Ola Wigger, formerly of this place, underwent a serious operation last week at Streetman. She is slightly improved.

Mrs. Z. T. Fletcher and son, Charley, and Mrs. T. M. Harrington of Electra spent the week-end with Mrs. Cora Priest.

Miss Daisy Bob Vantine of Quannah spent the week-end with Misses Bertha and Jewell Priest.

Mr. and Mrs. T. J. Priest and family of Vernon spent Sunday with his mother, Mrs. Cora Priest.

Jack Murphy and Gilbert Choate visited friends in Star Valley Sunday afternoon.

William Jolly and family of Quannah spent Saturday night with Carl Roberts and family.

Herbert Bradburn returned to his home in Oklahoma City Saturday

after several days visit here with friends.

Bob James and family of Electra visited Marion James and family and other relatives here last week.

Grandma James, who has been ill for about 3 weeks is improving.

Mr. and Mrs. W. S. Hembree and daughter, Pauline, visited relatives here from Thursday till Sunday on returning to Dimmitt, their home. Wes Hembree and mother and Mrs. Jimmie Hembree and children returned with them for a week's visit.

Mr. and Mrs. T. C. Payne are rejoicing over the arrival of a fine girl.

J. Q. Middlebrook and Emmitt James made a business trip to Quannah Friday.

Rev. Guy Bellamy of the Red Fork Association will preach at the Baptist church the 2nd Sunday.

Mrs. J. W. Wesley and Fred Taylor visited John Mahoney and family of Quannah Thursday.

Mrs. Ona Belle Roberts returned from Vernon last week where she visited relatives.

Mr. and Mrs. Bill Bond and little son were Vernon visitors Saturday.

C. E. Blevins and family of Foard City visited V. A. McGinnis and family Sunday.

Mrs. V. A. McGinnis, Mrs. H. M. Phillips and son, H. A., and Mrs. Jack McGinnis and daughter, Mildred Leroy, were Vernon visitors Saturday.

R. P. Phillips left last week for a visit with friends at Putman before going to Norman, Okla., where he will attend school.

Worth Hunter was a Quannah visitor Sunday.

Mrs. G. T. Blevins of Ft. Worth is visiting her son, Bryan Blevins, and family.

Rev. Cecil Matthews of Thalia preached at the Methodist church Sunday and Sunday night.

Mrs. Maggie Crabtree returned to her home in Vernon Monday after spending several days in the home of her sister, Mrs. Ben Stokes.

Mr. and Mrs. E. E. Jewell were Vernon visitors Monday.

Mr. and Mrs. S. J. Boman and daughters, Lorene and Juanita, visited Mrs. W. T. Brown at Thalia Sunday afternoon.

Dr. and Mrs. W. S. Wren and her mother, Mrs. Houston, returned Friday from a 10-days visit with relatives in New Mexico.

Bryan Blevins made a business trip to Vernon Friday.

A party was given Monday night at the home of Mrs. T. D. Boyd in honor of Miss Estelle Whittington. A number of young folks were present in spite of the threatening weather and all report a jolly good time.

T. F. Goodman celebrated his 65th birthday on Aug. 31 at the home of his daughter, Mrs. G. M. Sikes. A bountiful dinner was spread which will be remembered by all. Those present were: T. F. Goodman, Mrs. Bill Crisp and little daughter, Marilee, of Southland, Mr. and Mrs. Bill Bond and little son, Mr. and Mrs. G. M. Sikes and sons, Raymond and Guyton Webb, and Mr. and Mrs. Fred Goodman of Vernon.

Hubert Smith, Cecil Ray Moore and Neff Middlebrook have entered school at Crowell for the term.

Mr. and Mrs. Pete Bell of Crowell spent Sunday with Mr. McDaniel and family.

Mr. and Mrs. Jim Minnick and their daughter and husband of Norman, Okla., are here visiting at the Minnick ranch.

**TEXON TALES**  
They aint been nothing here lately much but polo. We played Midland two games at Midland and won one so last Sunday we played the tie off and beat them 11 to 9. We got 75 dollars a head and several pretty wild riding cowboys which puts polo on the map in these parts. We are one on Midland now with two more struggles yet to come. There is a good chance to win at least one of the two coming games which will put us in good for the tournaments this fall. We will play Menard next and then get after San Angelo. We have played San Angelo once and tied them so it don't look like it will be much trouble to beat them. We hope to play also in the San Antonio tournament this winter if we have good luck until that time.

Well, outside of polo news there aint nothing else worth mentioning except rain. And it will rain before this is printed so they aint no use harping on that.

Yours for bigger and better rains.  
TEXON TATTLER.

P. S. Lots of people are kicking on farm relief. They just don't understand. They are just relieving the farmer of everything he has and then everything will be alright.

**New Electric Rate Explained in Series of Newspaper Ads**

A series of educational advertisements for the West Texas Utilities Company, explaining the new rate schedule, are now appearing in The Foard County News. The first of this series appeared in last week's issue.

These advertisements feature a trade character, the "Electric Man," who makes all explanations throughout the series. The purpose of the campaign is to call attention to the exceptional economy of the new low rate, and to show the general public the many ways by which it can economically profit from a greater use of electric service without a material increase in the total electric bill.

**Less Wheat for Fall Is Forecast**

Austin, Texas, Sept. 11, (UP).—Texas farmers report intentions to sow five per cent less winter wheat this fall than in 1929, according to Carl H. Robinson, agricultural statistician for the federal government.

Last fall 3,150,000 acres were sown. As weather conditions and other causes may prevent farmers from carrying out their plans, changes may be expected if circumstances warrant, Robinson said.

Drouth conditions interfered seriously with the preparation of the ground and seeding of the crop, and as a consequence actual sowings will depend to a great extent upon rainfall during the remainder of the planting season, the statistician reported.

Economic conditions in the cattle industry are likely to improve during the next year, Robinson said reports from the United States department of agriculture indicated.

"Market supplies of cattle in the next five or six months probably will be about the same as a year ago, but supplies of fed cattle during the first half of 1931 are expected to be smaller than in 1930," Robinson reported. "Demand for stockers and feeders this fall will not be equal to that of last year, and for that reason slaughter is likely to be somewhat greater."

Although feed crops have been reduced somewhat by drouth, the areas affected and the numbers and distribution of livestock are such that, barring further material crop damage, there seems to be no justification for any extensive liquidation of livestock, his report said.

THE DROUTH

Texas seems to have been more  
fortunate than most of the states  
which have been afflicted with the  
drouth. Centering in some forty  
West Texas counties, the full effects  
of the disaster have been escaped by  
most of the state. And with only  
forty of its counties in really straight-  
ened circumstances, there are many  
editors who think Texas should spare  
itself the humiliation of petitioning  
federal aid.

That Texas is big enough, and  
wealthy enough, to care for its own  
drouth problem is the opinion of the  
Dallas Journal, which insists that  
Texas at the present time is under no  
compulsion to wear blue goggles and  
pass the tin cup while it "fiddles on  
the doorstep of Uncle Sam."

Other editors, however, take the  
position that since the federal treas-  
ury is to be opened to drouth suffer-  
ers, Texas—which contributes its  
full quota of federal funds—should  
partake of any offerings from that  
source.

In this connection a recent pro-  
nouncement of the head of the Fed-  
eral Land Bank at Houston is some-  
what disturbing. He has stated, in  
terms unmistakably plain, that the  
Land Banks will extend none of the  
obligations which mature in sections  
affected by the drouth. "No morator-  
ium will be declared," he said.

He advises local capitalists to make  
second and third lien advances to  
drouth sufferers, with which they  
may retire maturing obligations to  
the land bank.

It would be a pretty system—if it  
works.

There is, however, little reason to  
anticipate that his suggestion is  
really workable. Moreover, the  
speech seems unnecessarily harsh  
just at this time.

If loans made to drouth sufferers  
are "safe investments" for private  
capitalists, they should be equally  
safe for the government. And it  
would appear more feasible for the  
government to extend obligations  
than for private capital to go through  
all the red tape of making new ad-  
vances for no purpose other than to  
pay government obligations.

It's to be hoped that the head of  
the Federal Land Bank spoke before  
he thought, or that there are officials

higher up with the inclination and  
the authority to reverse the decision  
now announced.—Editorials of the  
Month.

LAYING OUT THE FARM

When one builds a house attention  
is generally given to the making of a  
plan which will give an arrangement  
of rooms to most conveniently fit the  
needs of the family. This is especial-  
ly true of the modern home. Bath  
rooms are located adjacent to sleep-  
ing rooms. The kitchen opens into  
the dining room and other rooms are  
so placed as will lend to the comfort  
of those occupying the house.

Manufacturers have learned that  
lost motion is costly. Therefore build-  
ings are planned to fit the needs of  
that particular business and  
machinery is placed in such a manner  
as to save steps for workmen and  
loss of time in the handling of mat-  
erials.

Here and there one finds a farm  
laid out in a scientific and logical  
manner. Fields are so arranged and  
fenced so that livestock may be  
changed from one pasture to another  
without trampling crops or making  
long drives. The necessity for crop  
rotation is taken into consideration  
in the placing of fences, and in the  
location of buildings due attention  
is given to the matter of saving time  
and labor. Properly placed build-  
ings save hours of time to men feed-  
ing livestock, milking cows and in  
performing other work incident to  
duties around the homestead.

Too many farms are laid out with-  
out any plan in mind. Fences are  
constructed, if at all, to serve tem-  
porary convenience. Buildings are  
placed without thought of saving  
steps and labor. Fields are planted  
to crops without regard to crop  
adaptability to soil, or without an  
idea of a rotation system for soil  
conservation and soil building. Hit  
or miss layouts are indicative of the  
same kind of farming.—Farm and  
Ranch.

Still a Chance to  
Raise Fall Garden

"It is a generally accepted fact that  
severe drouths in this section are  
followed by an abundance of rainfall  
and every farm in this country  
should be put in condition to produce  
the greatest amount possible." Fred  
Bennels, county agent, stated. "Turn-  
ips, rape, radishes, peas, under  
favorable conditions, would still have  
time to produce in abundance and  
would go along way toward reducing  
a grocery bill during the fall months  
and early winter."

In the last year horses and mules  
on United States farms by 714,000.

All U. S. to Observe  
200th Anniversary of  
Washington's Birth

Beginning on February 22, 1932,  
and continuing until Thanksgiving  
Day of the same year, there will be  
observed throughout the United  
States a commemoration of the Two  
Hundredth Anniversary of the Birth  
of George Washington. The cele-  
bration is sponsored by the United  
States Government, and Congress has  
created a commission charged with  
the responsibility of formulating and  
putting into operation plans for the  
event. This commission, officially  
known as the United States Com-  
mission for the Celebration of the  
Two Hundredth Anniversary of the  
Birth of George Washington, is com-  
posed of the following:

The President of the United States,  
Chairman; the Vice-President of the  
United States and the Speaker of the  
House of Representatives; Senator  
Simeon D. Fess, Vice Chairman Sen-  
ators Arthur Capper of Kansas, Car-  
ter Glass of Virginia and Lee S.  
Overman of North Carolina; Repre-  
sentatives Willis C. Hawley of  
Oregon, John Q. Tilson of Connecti-  
cut, Joseph W. Byrns of Tennessee  
and R. Walton Moore of Virginia.  
There are also eight Presidential Com-  
missioners. They are: Mrs. John  
Dickinson Sherman, Colorado; Mrs.  
Anthony Wayne Cooke, Pennsylvania;  
Henry Ford, Michigan; George East-  
man, New York; C. Bascom Slem-  
per, Virginia; Wallace McCamant, Ore-  
gon; Albert Bushnell Hart, Massa-  
chusetts, and Bernard M. Baruch,  
New York. The Association Direc-  
tors under whose management the  
plans are being organized and direct-  
ed are Lieut. Col. U. S. Grant, 3rd,  
and Representative Sol Bloom of New  
York.

The program now being prepared  
by the Associate Directors is intend-  
ed to provide for the participation  
of every man, woman and child in  
the United States. The celebration  
will extend to every village, town  
and hamlet in the country. It is to  
be nation-wide in its scope—the  
most far-flung and all-inclusive ob-  
servance ever undertaken in Ameri-  
ca.

In order to prevent a geographic  
concentration of the program, there  
will be no exposition. The Commis-  
sion wishes to exclude all such  
material phases. There will be no  
great demonstration of the progress  
of America in a material sense, al-  
though a realization of the things  
for which Washington strived will  
serve to emphasize in the minds of  
all the untold blessings which are  
enjoyed by his countrymen to-day.  
Instead of an assembling of the evi-  
dence of wealth and prosperity there  
is to be an emphasis upon the spiri-  
tual—an appreciative reawakening in  
the hearts of all the people of the  
character and life of America's  
greatest citizen.

The Federal Commission is, of  
course, responsible for the formula-  
tion of plans for the proper ob-  
servance of the Bicentennial of George  
Washington's birth. However, the  
aid of each State and territory has  
been solicited by special action of  
Congress and it is expected that the  
Governors and legislative bodies of  
these units will appoint state bicen-  
tennial commissions to outline the  
work in their respective common-  
wealths. These commissions to have  
the full cooperation and assistance  
of the national organization which  
in turn will depend upon the local  
bodies for the organization and carry-  
ing through of local celebrations.  
Many of these commissions have al-  
ready been appointed and are now  
working effectively. In all proba-  
bility, those states which have not as  
yet taken action will do so in the  
near future.

The school children of America  
will have an important part in the  
celebration now being effected. It is  
planned to more thoroughly familiarize  
these boys and girls with the life and  
character of George Washington.  
For this reason a great deal of in-  
formation is now being gathered and  
carefully checked for absolute histori-  
cal accuracy. This material will  
very likely be placed before the 30-  
000,000 school children in the United  
States in the form of programs,  
pageants and plays to be given on  
dates of great historical interest.  
In this way the children will be im-  
pressed with the significance of Wash-  
ington's winter quarters at Valley Forge,  
the battles of Trenton and Yorktown  
and many other places in which  
Washington showed his heroism and  
loyalty to the cause of America.  
His boyhood days, when he learned  
the lessons which were later to prove  
so valuable to him; the respect he  
always had for his mother and her  
teachings; in fact, the example of  
obedience to authority which charac-  
terized his entire life—all these  
things will be pointed out and stress-  
ed.

Each school-house in the country  
will be presented with a portrait of  
Washington, and it is expected that  
the American flag will fly from  
these buildings during the entire  
span of the celebration in 1932.

Educational bodies throughout the  
country are enthusiastic supporters  
of the plan of the Commission. Many  
of them are proposing to hold national  
conclaves during the year 1932 in  
which George Washington and his  
many contributions to his country  
will be in evidence everywhere dur-  
ing the entire year.

In order to guarantee the historical  
accuracy of all publications sponsored  
by the Commission, Professor Albert  
Bushnell Hart of Harvard, a  
member of the Commission, has  
been designated as its historian. Professor  
Hart will be depended upon  
to check the historical correctness  
of all printed material. Besides this  
function, the historical department  
of the commission is preparing a

series of pamphlets on the various  
phases of the life of George Wash-  
ington. There will be some sixteen  
of these pamphlets. Each is being  
prepared by a historical expert un-  
der the editorship of Professor Hart.  
Two of these pamphlets will be writ-  
ten by the associate directors of the  
commission. Col. Grant, an army  
engineer, will write on "Washington,  
the Engineer and City Builder;" and  
Congressman Bloom will prepare the  
paper on "Race Elements of Wash-  
ington's time." These pamphlets  
which will average some 12,000 or  
20 printed pages in length, will later  
be combined in a 500 page book to  
be called "Honor to George Wash-  
ington."

The organized women of America  
will also figure prominently in the  
activities contemplated by the com-  
mission. Under the direction of Mrs.  
John Dickinson Sherman, special at-  
tention is being given to activities  
particularly appropriate for the par-  
ticipation of the various women's or-  
ganizations throughout the country.  
The life of Washington's mother and  
the importance of the influence she  
exercised in molding the life of her  
famous son are to be presented in  
a collection of interesting and au-  
thentic material. Complete pro-  
grams, depicting the life, character  
and achievements of George Wash-  
ington, have been prepared under  
Mrs. Sherman's supervision for use  
by women's organizations during the  
year 1932.

It may well be said of Washington  
that he left a better record of his  
life than can be found in any of the  
numerous biographies written since  
his death. Washington was a pro-  
lific writer. During the war and  
during peace, he found time to carry  
on an interesting and instructive  
correspondence. In order to under-  
stand Washington one should go to  
his writings. Only by studying his  
diaries, his letters and his journals  
can one get the true measure of the  
greatest American citizen of all  
time. With this idea in mind Con-  
gress authorized the collecting, edit-  
ing and publishing of Washington's  
writings. This enterprise is in the  
hands of Dr. John C. Fitzpatrick of  
the Library of Congress, editor of  
"Washington Diaries" and one of the  
leading authorities on Washington  
and his time. It is estimated that  
these writings will compose some 25  
volumes. Dr. Fitzpatrick expects the  
first volume to be ready by Decem-  
ber of this year. This complete  
Washingtonia will be made available  
to all the public libraries of the  
United States, and thus, for the first  
time, Washington will be able to  
speak for himself to all his country-  
men of today.

The details of the plans now being  
worked out under the supervision of  
the associate directors of the com-  
mission are developing rapidly.  
These will be given out from time  
to time as they mature, and through  
the medium of the press it is expect-  
ed that the public will be led to give  
the commission still greater coopera-  
tion.

NEW IMPETUS TO IN-  
DUSTRIAL DEVELOPMENT

The campaign for industrial devel-  
opment within the State received new  
impetus last week when the Ameri-  
can Legion, convened at Austin, went  
on record as favoring a statewide  
industrial survey and a determined at-  
tempt to build industry.

The Legion's action is in line with  
the editorial position of a great ma-  
jority of Texas' newspapers. More  
important, even, it is in line with the  
economic requirements of the time.

Texas will never achieve her high-  
est destiny until industries are  
brought into the State to make proper  
use of the vast resources with  
which she has been endowed. At  
this time, she stands in especially  
good position to achieve that end.  
She has nominated a governor in  
whom out-of-state industrialists im-  
pound confidence. Her legislature evi-  
dences a disposition to treat industry  
fairly. The determination to gouge, or to  
penalize, prosperity is no more.

Eminent economists say that busi-  
ness has turned, that consumption is  
now greater than production. This  
condition, of course, forecasts the  
day when industry must speed up to  
maintain the normal balance between  
supply and demand.

This time, however, industry will  
gain speed upon a saner scale. Manu-  
facturers will be seeking locations  
where the cost of production is least.  
And it is in such times, and under  
such conditions, that the advantages  
Texas has to offer loom largest.

The American Legion's action is  
most timely. It serves to emphasize  
the fact that Texas' greatest oppor-  
tunity is now.—Editorials of the  
Month.

UNFAIR TO BORGER

That Borger once upon a time was  
subject to the rule of martial law is  
a fact most difficult for some news-  
paper writers to forget.

Among certain journalists there has  
been developed a habit which is far  
from fair. They refer to undesirable  
persons as "of the Borger type" or  
"importations from Borger or Chi-  
cago."

The great majority of Borger citi-  
zens are peaceful, law-abiding citi-  
zens, just as the great majority of  
Texans are peaceful and law-abiding  
citizens. Except that it may be a lit-  
tle more progressive than some, Bor-  
ger is a typical, growing Texas city  
whose people are more interested in  
industrial development and civic im-  
provement than might be referred  
from contemporary newspaper writ-  
ers.

Newspaper men who find enjoyment  
in keeping an unfortunate episode  
in Borger's history before the public  
eye should visit that city and see for  
themselves the kind of place the real  
Borger is. They would find there is  
as much which is worthy of emulation  
as in any other Texas city of com-  
parable size—perhaps more. For  
the Borger spirit is constructive, alert  
and progressive.

The small minority which for a

time held sway in Borger is gone. They were not Borger citizens in the first place. The real Borger citizenry is in command, and they deserve the admiration, rather than the derision, of the men and women whose duty it is to correctly inform the public.

Fair play demands that Borger's day of martial law be forgotten. The new Borger is a credit to its peo-  
ple and to Texas, and should be pic-  
tured.—Editorials of the Month.

U. S. Boys To Model This Coach  
With "U" Scholarships as Goal

Newly formed Fisher Body Crafts-  
man's Guild offers \$50,000 in  
awards to youths

Detroit, Mich. — Four university  
scholarships of \$5,000 each are  
awarded to the boys of America in an  
announcement today of the forma-  
tion of the Fisher Body Craftsman's  
Guild, an organization dedicated  
to a program of education in manual  
arts and to perpetuate the ideals of  
the ancient craft guilds.

Model of Napoleon coach boys of  
nation will make in educational contest  
fostered by the Fisher Body Craftsman's  
Guild. Inset, Dan Beard, national com-  
missioner of the Boy Scouts of America  
and honorary president of the guild.

The scholarships and more than  
900 other awards having a total  
value in excess of \$50,000 will be  
given to the boys who build the best  
miniature models of a Napoleonic  
coach. The contest is open to every  
boy in the nation between the ages  
of 12 and 19 inclusive. Owing to the  
wide age range, there will be two clas-  
sifications: juniors aged 12 to 16 years  
and seniors aged 16 to 19 years, with  
awards to each group.

The Fisher Body Craftsman's Guild  
and its educational program are spon-  
sored by leading educators and indus-  
trialists. Dan Beard, national com-  
missioner of the Boy Scouts of Amer-  
ica, is honorary president of the Guild,  
and William A. Fisher, president of  
the Fisher Body Corporation, is  
vice president. The honorary com-  
missioners of the Guild are com-  
posed of the following nationally  
known educators:

Thomas S. Baker, president, Car-  
negie Institute of Technology; M. I.  
Brittain, president, Georgia Institute  
of Technology; M. E. Conley, dean  
emeritus, College of Engineering and  
Architecture, University of Alabama;  
G. J. Davis, Jr., dean, College of  
Engineering, University of Alabama;  
W. F. Durand, Stanford University;  
E. A. Hitchcock, dean, College of  
Engineering, Ohio State University;  
D. S. Kimball, dean, College of  
Engineering, Cornell University; P.  
R. Kolbe, president, Polytechnic  
Institute of Brooklyn; Robert A.  
Millikan, California Institute of  
Technology; R. L. Sackett, dean of  
engineering, Pennsylvania State Col-  
lege; Rev. A. Steiner, C. S. C.,  
dean, College of Engineering, Uni-  
versity of Notre Dame; and S. W.  
Stratton, president, Massachusetts  
Institution of Technology.

The Fisher Body Craftsman's  
Guild has been organized for the  
purpose of encouraging and stimulat-  
ing craftsmanship and the develop-  
ment of manual skill among the boys  
of America. It was felt that with the  
advance toward highly developed  
mechanical and electrical work, the  
next generation would grow to man-  
hood unskilled in any craft and that  
the extinction of real artisans might  
result.

It is our endeavor to foster, inso-  
far as we are able, that spirit of fine  
workmanship which permeated the  
work of bygone centuries. The  
purpose of the Guild is to encourage  
and Mr. Fisher is explaining the  
aims and purposes of the Guild.

The boys eligible to become mem-  
bers of the Guild and compete in this  
contest soon will be knocking at the  
doors of industry seeking their start  
in their life-work. We believe that  
they will come better equipped

New fall dresses.—Self's.

Men's latest hats.—Self's.

S. W. McLarty of Vernon was a visitor in Crowell Thursday.

Mrs. T. B. Richmond spent the week-end visiting relatives in Paducah.

S. J. Lewis and sons, Wayne Dishman and J. C. Gandy have returned from Ben Arnold, Texas.

Miss Irene Allen and Mary Meason returned Sunday from a visit in Dallas and other points near there.

Ray Boswell of Dallas left for Wichita Falls Thursday after a short visit with his brother, Mack Boswell.

T. V. Buzard, manager of the Tappan Paper Company of Fort Worth, was a visitor in Crowell Wednesday.

Thomas Perkins, who has been visiting in the home of his aunt, Mrs. Frank Hill, has returned to his home in Dallas.

Mack Boswell returned Sunday night from Plainview where he visited his father and family over the week-end.

Miss Beaulah Patton left Sunday for Paducah. Miss Patton is a teacher in the grammar school at Paducah this season.

Mr. and Mrs. J. A. Hallmark and son, Edward, of Abilene visited relatives here this week. They came to Crowell after visiting in Hale Center.

Floyd Lefevre of Roaring Springs left Tuesday after visiting here for several days with his uncle, Jeff Bruce, and his grandfather, F. R. Lefevre of Foard City.

Miss Elizabeth O'Connell returned last week from Pittsburgh, Pennsylvania, where she visited her brother, Bryan O'Connell and wife. She also visited Niagara Falls while away.

Miss Eddie Mae Oliphant, Mr. and Mrs. Eli Smith, W. O. Clary, Roy Archer, H. H. Hallmark and Price Lovelady attended a meeting of the West Texas Utilities Company at the Lake Pauline plant Wednesday.

Mrs. J. F. Long returned to Crowell last week from Fort Worth, where she has been for several weeks. Her daughter, Mrs. Howard Bursey of Wichita Falls, returned to Crowell with her and visited here for a short time.

Latest felt hats.—Self's.

Beautiful fall dresses.—Self's.

House for rent. Modern, close in.—M. S. Henry.

Bert Self made a business trip to Dallas this week.

W. B. Johnson and Clarence Self were business visitors in Fort Worth this week.

Miss Louise Binns and Lionel Campbell of Moody, Texas, are visiting in the home of Mrs. Gordon Bell.

R. L. Taylor made a trip to McKinney last week. He was accompanied as far as Denton by F. C. Borchardt.

Mr. and Mrs. A. F. Cannon have recently bought the J. W. Jonas home two blocks west of the court house square.

Mrs. C. Q. Crawford and children returned last Friday from Oklahoma City. Mr. Crawford has a position and will remain there.

Ed McDaniel and Grover Cole made a trip to Quanah the first of last week. Ed worked for several days with a plumbing company in that city.

Charles Pechacek and Joe T. Pechacek and family of San Antonio arrived here Wednesday night for a visit of about a week with relatives in Foard County.

Mr. and Mrs. R. J. Roberts and son, Joe Ben, went to Bonham last week for a visit with Mr. Roberts' parents, Mr. and Mrs. W. I. T. Roberts. They will return home the first of the week.

V. V. Parr, manager of the Pitchfork Ranch in Dickens County, was a business visitor in Crowell Wednesday. The Pitchfork Ranch contains 110,000 acres and now has 7,000 head of cattle on it. Mr. Parr is making arrangements to put in 1,400 acres of wheat.

Due to the general hard times over the county many people are unable to buy magazines now and for that reason Miss Dosca Hale, home demonstration agent, is collecting various kinds of magazines from people here to be turned over to those who are unable to buy them, but are anxious to have good reading matter.

### Ferguson and Rodgers Speakers at Luncheon

Henry Ferguson and Rev. F. G. Rodgers of Spur were the principal speakers at the Rotary Luncheon Wednesday. Mr. Ferguson spoke on the dry goods business having drawn that subject as a topic for discussion at the previous meeting. In his talk he stated that the main problem of the dry goods men was to determine what the men were going to put on and what the women were going to take off.

Rev. Rodgers spoke on the subject "One Firm That Never Fails." He described this as a life insurance firm. "We all can be members of this firm," he said. "All that one must have to be a member of it is to have a proper conception of life and a conquering purpose that lasts. He must be willing to meet the president of the firm and must be willing to confess all of his defects and surrender them to the president. No one has yet been turned down in securing this life insurance by following such methods. The president of this firm is the best partner that any individual or business could have and he is the one we refer to as Jesus."

Mrs. Claude B. McCartney of Oklahoma City was present and made a short talk in regard to the Red Cross. Ray Boswell of Dallas was a visitor at the luncheon.

### Wheat Does Well on Terraced Land

Terracing has proven practical on wheat land this year, according to Roy C. Todd, who lives three miles east of Crowell on the Thalia highway.

For the past three years Mr. Todd devoted about 75 acres of terraced land to row crops and during the past year he put this land in wheat. He stated that it produced much more per acre than any other land on his place under the same conditions. "Some people have been under the impression that a combine cannot be used on terraced land, however, a combine was used on my terraced field this year and worked very successfully," Mr. Todd said. He is now planning to terrace all of his rolling land. Even with the scant rainfall this year, Mr. Todd's wheat on the terraced land made a much better yield per acre than the average for the county.

### Shake-up Is Seen in Highway Commission

Austin, Texas, Sept. 11 (UP).—General State-house opinion is to the effect that Ross S. Sterling will resign as chairman of the State highway commission after the November election and permit Gov. Dan Moody to appoint a new member.

It would be possible for the Democratic gubernatorial nominee to select his own successor. He could continue in the highway commission capacity until he takes office as governor and automatically appoint the new commissioner. Such will not be his course, however, seasoned observers believe.

In January the new governor will have to fill the place now held by Cone Johnson of Tyler on the commission. It is considered certain that he will reappoint Johnson if the present commissioner wishes to continue at that post.

Two former highway commissioners have been most prominently mentioned as prospects for Sterling's place. They are D. K. Martin of San Antonio and R. M. Hubbard of El Paso, sponsor of the \$75,000,000 highway bond plan that was voted several years ago. They are under-standers to be agreeable to the present commissioner's highway bond program.

Johnson is due to be named chairman of the commission should a new appointment be made while he is still in office. Should he have vacated before Sterling's place is filled, W. R. Ely of Abilene is the most likely choice as chairman.

### Chevrolet Air Cleaner Removes Dust Danger

Dashing over a gravel or dusty road, with the wind causing swirls of dust to cloud the pathway of the car, the motorist often wonders what effect this dust has upon the engine of his automobile, and if it finds its way into the vital working parts thus causing a grinding wear.

The reassuring answer to this question is supplied by James M. Crawford, Chief Engineer of the Chevrolet Motor Company, who explains interestingly how the air cleaner removes the dust from the intake air making it purer than that which you yourself breathe.

"If it were not for the air cleaner, dust and sand would enter the carburetor—even in city driving—causing wear on the cylinders, rings and pistons," Mr. Crawford says.

"Quite often the dust on a good road cannot be seen but it is there just the same. Motor car wheels constantly grind off fine particles of road material which are dispersed through the air. These particles viewed under a microscope bear a striking resemblance to a valve grinding compound.

"Were it not for the air cleaner, this dust would enter the engine, form on the cylinder walls and soon become thoroughly mixed with the lubricating oil. The inevitable result would be formation of a grinding compound which would attack pistons, rings, cylinder walls, bearings and other working parts, causing damage throughout the engine, lowering its performance, shortening its life and making unnecessary repair expense.

"The air cleaner, used on all Chevrolet cars, is made entirely of metal, has no moving parts and will last for the lifetime of the car."

### Fifteen Years Ago in Foard County News

SEPTEMBER 10, 1915

**Andrews-Dickson**  
James Beaty Andrews, son of Mr. and Mrs. L. G. Andrews, and Miss Dixie Cathryne, daughter of Mr. and Mrs. J. B. Dickson, were married at the Methodist parsonage Wednesday evening, with Rev. R. A. Stewart officiating.

**Bank for Thalia**  
Messrs. Dr. Main, Burress and Lindsey were here from Thalia Wednesday, and among other things, Dr. Main told us that they had about completed the organization of a bank in his town. The new institution will be a State Guaranty Fund Bank with a capital of \$10,000. Dr. Main will be president of the bank and Dick Morrow of Vernon, the cashier. There will be a meeting of the stockholders Saturday and it is expected that all business matters tending to the completion of the organization of the bank will be consummated at this meeting.

Tom Patton and family of Vivian came down to visit his brother near town last Sunday and incidentally to show the new boy which lately arrived at the Patton home.

Pictures every night at the Bell Opera House.

Lost, a small red pig. Any information leading to recovery will be appreciated.—B. F. Ringgold.

Mr. and Mrs. D. L. Reavis and daughter, Miss Inez, arrived yesterday morning from Redlands, Calif., and will make their home here. For about five years they have made their home in Oregon.

E. Swain has purchased the Dr. J. M. Hill residence in the north part of town.

C. B. Garlinghouse has built a 20-foot extension to his blacksmith shop next to Burks & Swain Garage.

**Auto Line to Vernon**  
J. E. Schaum was here from Knox City this week making arrangements to establish a daily automobile line between here and Vernon.

**First Bale**  
Jess Miller, who lives on the M. O'Connell farm near Margaret, was in Crowell Saturday with the first bale of cotton of the season. J. M. Jonas Jr. was on his way to Crowell and would have won the honor and price but one of his horses balked and while he was trying to get his team to start, Mr. Miller passed him and came on to Crowell, beating Mr. Jonas by about an hour. We understood the two men divided the premium of \$25.00 equally.

**Old Timers Have a Day**  
As advertised in The News, Sunday was "Old Timers" day, and they turned out fairly well to hear what proved to be one of the best and most appropriate sermons the people have had the pleasure of listening to in many a day. Rev. R. A. Stewart did the preaching.

Immediately after the services many of the old timers and others gathered around two large tables where all enjoyed a sumptuous feast. Following are the names of those present at the morning service who have been in Foard County for as long as 20 years and the year in which they came:

Jake Wheeler, 1893; S. M. Roberts, 1885; Mrs. S. M. Roberts, 1888; W. S. Bell, 1885; John S. Ray, 1884; Mrs. J. D. Halsell, 1891; H. E. Ferguson, 1886; H. Young, 1892; Mr. and Mrs. J. H. Self, 1886; G. A. Mitchell, 1890; F. G. Ferguson, 1885; Mrs. Alonzo Banister, 1889; Lizzie Williams, 1895; Mrs. Georgia Pittillo, 1891; Harry Moore, 1889; Mrs. J. M. Allee, 1885; T. J. Ferguson, 1886; Miss N. E. Beaty, 1888; Mrs. J. A. Gafford, 1894; C. M. Moore, 1894;

S. S. Bell, 1891; W. F. Thomson, 1890; G. G. McLarty, 1882; Mr. and Mrs. J. A. Wright, 1886; J. H. Beaty, 1888; J. G. Witherspoon, 1881; G. H. Patton, 1891; Mrs. R. S. Patton, 1891; R. A. Wells and wife, married here in May, 1886; J. W. Klepper, 1885; J. W. and Laura Beaty, 1885; S. J. Ferguson, 1886; Mr. and Mrs. J. L. Hunter, 1889; Mr. and Mrs. W. T. Dunn, 1881; J. B. Stegar, 1888; Mrs. J. S. Ray, 1890; W. S. J. Russell, 1890; J. W. Bell, 1885; Mr. and Mrs. John Wesley, 1880.

### Second Appearance Made by Leaf Worms

Leaf worms have made their appearance for the second time during the season, according to Fred Renssels, county agent. Many farmers are poisoning in the east side of the county. Bailey Webb, stated that the worms were in his cotton in great numbers. John Matus is also poisoning his cotton. Calcium arsenate is being used at the rate of two pounds per acre.

### Freight Rates

(Continued from Page 1)

to market or the movement of hay and feed in the normal channels of trade. The final decision as to the application of the reduced railroad rates in specified shipments is determined by the railroads. It should be borne in mind by the agent that reduced rates are applicable only when the approval certificate issued by him filed with the local railroad agent previous to the movement of the commodity from the point of origin.

Each county agent is to keep on file in his office a copy of each approval certificate issued.

Under ruling of the Interstate Commerce Commission, the reduced rates authorized by the Commission and granted by the railroads expire on October 31, 1930.

The reason a slim girl is glad she is not fleshy is she figures there's more vivacity in an ounce of kitten than a ton of elephant.

### Popular New York Musical Comedy at State Fair of Texas

Dallas, Texas, Sept. 7.—Despite the fact that he run off from school when he was eleven years of age to go on the stage, Jack Donahue, star of "Sons O' Guns," the auditorium attraction at the State Fair of Texas, has attained a big reputation as an author, and has written for all of the leading magazines.

He is a regular contributor to such magazines as Saturday Evening Post, the Cosmopolitan, Colliers, and other magazines. He has also written numerous pieces for the stage.

Donahue's life reads as a romance. He has been on the stage since he was 11 years old, having left the Harvard Grammar School at that age to fill his first engagement. He has swept New York off its feet during the past few years and is recognized as one of the greatest entertainers ever to be starred in a Broadway production. The State Fair engagement of "Sons O' Guns" is the first time in more than four years Donahue has played outside of New York City.

During the 288 performance run of "Sons O' Guns" on Broadway, seats were sold out for two months in advance. T. E. Jackson, president of the State Fair, in opening the State Fair Box Office in the Baker Hotel, said that he wanted to give out-of-town visitors every opportunity to write in early for their seats, as many Texans visiting New York during the past year had been disappointed in not being able to purchase seats to see Jack Donahue in "Sons O' Guns."

Joe Roberts, E. F. Henry, Markham Spencer and Granville Lanier attended the baseball game in the play-off between Wichita Falls and Fort Worth at Wichita Falls Thursday. Gordon Bell attended the game Wednesday.

Women's independence from their husbands began back when they quit wearing dresses with twenty-four buttons in the back.

Vaccination of dogs against rabbies is usually effective for a year or more.

## HER INCOME CHECK

What a comfortable, secured feeling she has in knowing that each month the mail man will bring her income check from the Western Reserve Life Insurance Co.

FARMERS ATTENTION

Farmers seeking new homes should investigate farming possibilities under irrigation in the Big Wichita Valley in Texas. A place where crops mature every year due to the use of irrigation water from Lake Kemp. We have a deep rich soil, a long growing season and an adequate storage of water supply for 100,000 acres. We irrigated 35,000 acres in 1929. Our greatest need is for good young farmers to make their homes with us. Any visitors will be shown around through the irrigated section. For further information write to Wichita County Water Improvement District No. 1, Box 441, Wichita Falls, Texas.

THE STATE OF TEXAS

To the Sheriff or any Constable of Foard County—Greeting:

You are hereby commanded to summon J. W. Shaw by making publication of this Citation once in each week for four consecutive weeks previous to the return day hereof, in some newspaper published in your county, if there be a newspaper published therein, but if not, then in the nearest County where a newspaper is published, to appear at the next regular term of the District Court of Foard County, to be held at the court house thereof, in Crowell, Texas, on the fourth Monday in September, A. D. 1930, the same being the 22nd day of September, A. D. 1930, then and there to answer a petition filed in said Court on the 19th day of August, A. D. 1930, in a suit, numbered on the docket of said Court No. 2242, wherein Mrs. J. W. Shaw is plaintiff, and J. W. Shaw is defendant, and a brief statement of plaintiff's cause of action, being as follows:

That plaintiff has been for a period of twelve months prior to the filing of this petition, a bona fide resident of this state and has resided in Foard County for at least six months next preceding the filing of this suit; that plaintiff and defendant were lawfully married to each other on the 26th day of September, A. D. 1927, and lived together as husband and wife until about June 15th, 1930, when by reason of cruel, harsh and tyrannical treatment and improper conduct of the defendant toward plaintiff, she was compelled to permanently abandon him, that they have not since lived together as husband and wife; that defendant's action and conduct toward generally is of such a nature as to render their further living together insupportable. That there has been born to this union one child, a girl two years of age, named Mary Ruth Shaw.

Wherefore plaintiff prays that defendant be cited to appear and answer this petition, that she have judgment dissolving said marriage relations, and also that she have custody of said minor child, and for costs of suit and such other and further relief she may be entitled to either in law or equity.

Herein fail not but have before said Court, at its next regular term, this writ with your return thereon, showing how you have executed the same.

Given under my hand and the seal of said Court, at office in Crowell, Texas, on this the 19th day of August, A. D. 1930.

(Seal) IDA REAVIS, Clerk, District Court, Foard Co., Texas. By A. G. MAGEE, Deputy. 12p

CHURCHES

Christian Science

Sunday, Sept. 14, 1930, "Substance." Sunday, 11 A. M., Subject for Sunday School at 9:30. Wednesday evening service at 8:00. The public is cordially invited.

At the Methodist Church

To each and every member of the Methodist church, I want to say: We missed you last Sunday, if you were not at Sunday School and church. If you were not present, why were you not, and where were you? What would you think of a shepherd who would not be interested in his flock if some should habitually fail to come regularly into the fold? As your pastor, I am interested in you, I would not be true to you if I should not question why you were not in the services, or where you were. The church needs you. You need the church. I need your presence to inspire me to bring the best messages that it is at all possible for me to bring. Nothing can break the spirit of the preacher and his message quite so much as empty pews. Won't you see that your place will be filled by you in person next Sunday? I shall be so glad, and I am sure that you will feel better.

Sunday School at 9:45 a. m. Preaching at 11 a. m.

No preaching at the evening hour because of the revival at the Baptist church.

Leagues at 7 p. m. W. M. Society at 3 p. m. Monday.

Always a place and a welcome at the Methodist church.

B. J. OSBORN.

Christian Church

Though last Sunday's service was well attended, we need to increase attendance still more. The time of year for renewing our most active work; for beginning our new Sunday School year; of rallying to the church for an active winter and spring program of work, is here. Hot weather is about over, school has begun, vacations are over, and everything points towards better opportunity for serving God. Let's make the next thirty days a "Rally Month" in every line of our church activity. Rally in singing, rally in offerings, in fact, rally in all things of the church, is what we must do to prepare for a strong, effective campaign of work for the future months.

During this Rally Month there will be two special days—Promotion Day, Sept. 28th, and Rally Day, Oct. 12th. On promotion day all promotions, changing of classes and rearranging of the Sunday School will be attended to, with a probable installation of recently appointed teachers. Rally day will be a great time of securing the attendance and enrollment of old and new pupils, with the most interesting, instructive and inspirational service we can arrange. Let's get greatly interested in this rally day and tell everyone about it. Our whole year's work will be greatly affected by the interest we manifest in promotion day and rally day.

On account of rain the Workers Conference was not held Monday evening but will meet Friday evening at the home of Mr. and Mrs. John Long.

There will be no evening service next Sunday on account of the Baptist meeting, however, don't forget that the men of the church are to have complete charge of the evening service the third Sunday evening, Sept. 21st. If you miss this service you will miss something unusually good. When this service is over it will be long remembered and favorably commented upon by those who attended.

When in doubt, come to the Christian church, the friendly church. C. V. ALLEN, Elder.

Baptist Church News

Pastor's Study, Crowell, Texas. This week is one of joy and blessings in Baptist ranks. The two-day messages of our beloved brother, F. G. Rodgers, of Spur, Texas, have melted our hearts, caused us to love our Lord better, love our fellowman better and brought us into closer fellowship with each other and with Him, the giver of all life. We can never quit thanking God for sending him our way. Our hearts go out in gratitude also to his good church for lending us their pastor for these days. May our Heavenly Father bless and keep them while their preacher is absent.

The singers have given us the best of cooperation and it has been a long time since Crowell people heard better singing. This is always a feature of a good revival. We could ask for no finer help than the musical talent of our town has given us during these days.

The prayer meetings have been wonderful. We have met each evening thirty minutes before the evening service in the auditorium for ten minutes council and devotional service then breaking up in groups or departments to spend twenty minutes in intensive prayer. This is proving to be a balm of Gilead to our people. When the revival effort is history I hope we will still keep up these prayer groups.

The crowds are holding up in marvelous way regardless of the weather. We are all happy over the rain and bless God for it. The meeting will continue over Sunday and we are expecting great things to happen in these last days. There have been a number of conversions and additions to the church and we expect many more ere the meeting closes. Brethren, "Let us work the works of Him that sent us while it is day for the night cometh when no man can work."

WOODIE W. SMITH.

Presbyterian Church

Rev. J. T. Bryant will be present to preach for the morning services which begin at 11 a. m. Sunday School is to begin at the regular hour, 10 a. m. Evening services will be dismissed for the Baptist revival.

Thalia Senior Epworth League Program for Sept. 14, 1930

Subject—How do I know I am a Christian? Leader—Minnie Wood. Scripture, II Cor. 8:15; Rom. 8:14-17; I John 3:19-24.

The value of certainty—Mildred Adkins. Who is a Christian anyway?—Leola Box. How about feeling?—Norman Gray.

Putting ourselves to one kind of test.—Anna Mark Adkins. Duet—Mildred Adkins and Evelyn Tucker. League benediction.

M. E. Missionary Society

The Woman's Missionary Society met at the home of Mrs. Sam Crews, Aug. 4, at 4 p. m. with Mrs. W. R. Tuttle, assistant hostess. The business session and missionary program were combined. Mrs. Thomas Hughston was leader for the afternoon and the devotional topic, "The Supremacy of Love," was taken from Matt. 5:43-48 and Luke 6:32-38. The missionary topic, "Social Evangelistic Centers in Korea," was presented by Mesdames B. M. Button, Jeff Bruce, Sam Bell and Ben Hinds.

August 25th at 4 p. m. the society was entertained in the home of Mrs. Jimmie Doolen with Mrs. W. D. Ball and Mrs. Arthur McMillan hostesses. Mrs. Doolen was leader for the meeting and Mrs. A. Y. Beverly gave the devotional, "Reality in Worship," taken from Matt. 6:1-18 and Luke 11:1-4. The missionary topic, "The Kingdom of God in Japan," was presented by Mesdames Jack Brian, Baxter Johnson and T. L. Hughston. Monday afternoon, Sept. 8, a meeting was held at the church for the purpose of presenting in an especial way the work of the Missionary Society to the women of the church. The opening song, "My Faith Looks Up to Thee," was sung after which Mrs. Bruce led in prayer. The work was presented in an interesting and instructive manner by Mesdames M. S. Henry, A. Y. Beverly, B. F. Hinds and Baxter Johnson.—Pub. Supt.

Intermediate B. Y. P. U. Program

September 14, 1930

Topic—Edgar Young Mullins. Leader—Nancy Cogdell. At work at many trades—Ophelia Diggs.

STAY WITH YOUR BEST COWS

Culling your herd of low producers is good business any time, but it is most important right now. Keep your best cows and feed them well, for better times are in sight for the dairy industry. The long drought in the corn belt and in other sections of the country is reducing in a very material way the production of dairy products and the public is rapidly consuming the surplus in cold storage. In more Northern sections recent rains will help pastures but little, as the season is getting late. In the Southwest rains will make pastures and winter grains will provide grazing until early spring. Therefore the farmer and dairyman who keep their cows in good condition even at an extra cost at this time will more than make it back a little later. Pastures can come back, but an underfed cow will not increase its milk flow materially.

The industry in the Southwest is fortunate in the kind of farmers engaged in it. They have, for the most part, kept their cows in face of discouraging conditions. Those who have sold at a loss will find prices much higher for food animals when profits begin growing. Get rid of the low producers, but keep the best cows as a foundation for a growing herd. The dairy industry has never suffered long periods of depression.—Farm and Ranch.

Twenty Years Ago in The News

September 9, 1910.

Small Cyclone

Crowell was visited Sunday by the heaviest storm in many years. It came from the southwest, and judging from its work it must have been somewhat of a twister. Most of the outhouses were blown down and many of them completely torn to pieces. A number of dwellings were moved from their foundations, some being badly wrecked. The Christian Church was moved from its foundation and so badly wrecked that it will have to be rebuilt. Ed Gilliam's house was shoved onto his dugout and will probably have to be torn down and rebuilt. Jim Bomar's dwelling was damaged worse than any other in town. Mrs. Halsell sustained some damage to her home.

One of the most remarkable of the wind's work was the way it handled a box car. It picked up a car on the switch at the depot, set it on the main line and sent it up towards Margaret about two miles.

Following the wind a big rain fell Monday morning and another one in the afternoon.

Railroad News

Perhaps there has been too little encouragement as to the proposition of building a railroad southwest from Vernon by way of Crowell, to create high interest among the majority of the people interested. But there is promise now that something is going to be doing soon.

It will be remembered that Charles R. Hardy of Childress, a promoter and railroad builder, made Vernon and Crowell a proposition which was considered with favor by each town. Judging from recent statements by Mr. Hardy, it is evident that he regards this as a possible project and means to push it as rapidly as possible. He expects to begin actual construction within a year.

Some people have asked why the News had nothing to say last week about Socialism. Our answer is that we hate to jump onto a lifeless corpse. She's dead in Foard County, and the only sign of the existence of life at one time is an occasional wiggle of the tail.

It is not a common sight to see a saloon in a West Texas town and we regret that Amarillo has chosen to be enlisted in the wet column. By voting the saloons that town has injured her prospect of retaining the title of the metropolis of the Panhandle.

In our statement as to the wreckage of the Christian Church we stated that the building would have to be torn down and rebuilt. The contract to place it back onto the foundation as good as before has been let to Mr. Elliott.

C. T. Schlager and E. P. Bomar attended the laying of the corner stone of Benjamin's new school building by the Masonic lodge of that place.

Rev. J. E. Billington of Waco has arrived in the city and started a protracted meeting at the Baptist Church last night.

I will have my fall opening, Friday and Saturday, Sept. 16 and 17.—Mrs. S. J. Ferguson at Cecil & Co.

A. H. Clark & Co. moved into the Thacker Building yesterday, recently vacated by J. C. Dunn.

Rev. Willhoit of Chattanooga is here as pastor of the Presbyterian Church of this place.

Don't forget that Vannoy will sell you as cheap as anyone in Crowell for the spot cash.

W. F. Thomson can sell you feed cheaper than anybody. See him before you buy.

R. B. Edwards & Co.'s store is filled with new goods. Come and we will show you.

The News one year and a copy of the Hamilton-Thurman debate for only \$1.25.

We want your Hardware Business. Don't disappoint us.—Hughston-Henry & Co.

Records kept for fifty-three years show that the sun shines two-thirds of the time in Colorado.

Spent About Half of Her Time in Bed

Plainview Carpenter's Wife Gains 7 Pounds on Argotane; Now a Well Woman

"I have gained seven pounds since taking Argotane and am feeling like a well woman for the first time in two years," said Mrs. H. G. Cole, wife of a well-known carpenter, and living at 217 Hillcrest street, Plainview, Texas, recently.

"I suffered from a severe case of indigestion nervousness and general rundown conditions," she continued, "and in spite of everything I did, I just kept getting worse. I finally got to where I couldn't eat anything and gas formed and caused those bloating spells. My nerves were all on edge and I could hardly sleep at all for worrying about my condition and by morning I would be so weak and fagged out I was hardly able to get up at all. I was fast going down hill and I actually got so weak and listless at last I just had to stay in bed part of the time. I was gradually losing weight, and I tried all kinds of medicines and treatments, but nothing seemed to bring my health and strength back."

"One day a friend came to me and told me so much about Argotane, and what it had done that I decided to try it. I am certainly getting wonderful results, and had only taken a few doses and I knew that I had found the medicine I needed. I have improved right along ever since and can now eat anything I want and it now agrees with me. My kidneys are back to normal, and I rest every night and sleep like a child. I have honestly gained seven pounds on Argotane and it has helped me so much, my husband is now taking it. Argotane is the best medicine I have ever seen or heard of and a medicine that will do what Argotane did for me is certainly worth recommending."

Genuine Argotane may be obtained in Crowell at the Reeder Drug Co.

Goodyear Tire Dealers Feature Tire Service

"Motorists are beginning to realize that they can simply go into a place and purchase a tire, or, they can buy tire service," says M. F. Crowell, local Goodyear dealer.

"When purchasing an automobile, motorists have learned that it is good business to buy from a company that can give them good repair and upkeep service. Now they also are learning that it is just as important to purchase tires manufactured by a company that can back up their sales with good service.

"The Goodyear Company with its dealers in all parts of America, is in an excellent position to supply service to its tire users and makes a specialty of this important factor of the industry.

"The employees of my organization are taught to analyze the tire needs of our patrons and supply them with the tires best adapted for the conditions in which they will be required to serve. There is a Goodyear tire for every tire need.

"We will mount and inflate our patron's tire; in removing old tires, will clean the rims and will be concerned to see that maximum service is given. We also will be glad at any time to inspect tires and change them from one wheel to another to give the user the most wear possible.

"This service can be depended upon at Goodyear stations everywhere. The Goodyear Company also maintains up-to-date repair schools where dealers and their employees are taught the most modern and efficient methods of repairing all manner of injuries that tires can suffer. The user of Goodyear tires is never far from a convenient service station," Mr. Crowell concluded.

A specialized eye, ear, nose and throat hospital is being built at Washington University, at St. Louis Mo.

# Again Konjola Shows What It Can Accomplish

### Prominent San Antonio Man Eager in His Praise of New Medicine

"I am glad to endorse Konjola to anyone who suffers as I did," said Mr. Charles Oliphant, well-known San Antonio railroad man, 423 Lamar street, San Antonio. "About a year ago I suffered a breaking out on my skin. Little patches of pimples appeared and were called water-blives. They itched and burned severely."

MR. CHARLES OLIPHANT

It and, though I tried many remedies, I gained only temporary relief. From Konjola, I gained what I consider miraculous results. The breaking out disappeared within three weeks after I began taking Konjola. I had kidney trouble but now the pain in my back and the swelling under my eyes have disappeared almost. I feel better in every way and have gained weight. I think Konjola is a very fine medicine. Konjola is recommended over a six to eight weeks period and is designed to relieve ailments of the stomach, liver, kidneys and bowels, and rheumatism, neuritis, and nervousness. Konjola is sold in Crowell at Ferguson Bros. drug store, and by all the best druggists in all towns throughout this entire section.

### GIVING THEM A CHANCE

Every young man is entitled to a fair opportunity in the business and social world. He is entitled to be judged by his own mental and moral qualifications, and not by the standard of the parents who brought him into the world. Such is sometimes, but not often the case. Many young men of great promise are seriously hampered by the reputation of one or both of his parents. The sins of the father are visited upon the son, and the innocent youth suffers for the acts of the guilty adult. This is true because as a civilized people we are not yet entirely civilized. A polished veneer covers the surface, but often fails to penetrate to the heart. Give the young man a fair chance and let his own acts make or break him.

## Watermelon Recipes Used by Girls and Women of Foard Co.

BY DOSCA HALE Home Demonstration Agent

The women and girls of the home demonstration clubs do not have a great variety of products to can this season but they are trying to save what they do have. In many instances they are exchanging products with one another and in this way they are able to put up a much greater variety for winter use.

In some instances they are commercializing certain products. These are bought by the local merchants or exchanged for other canned goods. If a woman or girl expects her product to sell well she must use every precaution to make a product that tastes good and at the same time looks attractive. These products should be neatly labeled with an attractive label.

The following recipes have been used by some of the members and they have found them very satisfactory:

### Red or Green Watermelon Rind Garnishes

Watermelon rind (cut in 1/2-inch cubes), oil of cloves, oil of peppermint, red coloring, green coloring, 3 cups sugar, 1 cup water for each the red and the green cubes.

Use a thick rind melon for this purpose. Remove all pink and green from the watermelon rind. Use a sharp knife and cut rind into 1/2-inch cubes. Keep the cubes even and uniform in size. Discard irregular shapes. Add sugar to water and heat slowly until sugar melts. Cover the cubes with this and boil until syrup forms a good thread. Add enough extra water for syrup to cover cubes again and continue cooking until a medium syrup is formed and the cubes are glassy in appearance. These may be used with salads or to garnish desserts. They make a very satisfactory substitute for cherries.

For coloring and flavoring the cubes use the following: Red Cube Cubes—Add enough red coloring to the cubes after they are tender to give a soft, though good red color. Cook until coloring has penetrated the cubes. For the red cubes, use oil of cloves for flavoring. Add the flavoring at the last minute.

Green Peppermint Cubes—Add sufficient green coloring to the cubes after they are tender to give a medium, though clear green color. Continue cooking until clear and evenly colored. For the green cubes use peppermint flavoring. Add a drop of peppermint at a time to prevent a strongly flavored product.

Packing and Sealing—When the red or green cubes are finished cooking pack as follows: Pack cubes firmly in 5 ounce standard containers which have been sterilized. Fill to overflowing. Seal and process immediately for 15 minutes at 10 pounds pressure. Clean and label containers before storing. Pint glass jars may be used for packing cubes where commercial orders are given.

Coloring—Add coloring by one or two drops at a time to teaspoon and then stir into mixture. This will prevent getting too much coloring. If color paste is used, mix very small amount of paste with some syrup and then add to mixture. Use only the

best coloring on the market. This may mean a special order and extra effort but only quality products are desired.

Flavoring—Oil of cloves and oil of peppermint may be procured from the druggist. This insures quality flavoring. If a regular commercial flavoring is used, it should be of good quality even though a special order is made. Add flavoring to a teaspoon one or two drops at a time, and then add this to the mixture. This will avoid over-flavored products.

### Candied Watermelon Crescents

1 pound watermelon rind, 1 1/2 cups sugar, 1/2-cup water.

Use only a thick watermelon rind for this candy. Remove all green and pink from the rind. Soak the rind in lime water, using 1 tablespoon lime to one quart water and allow to stand for 3 hours. Drain and soak in fresh cold water for 1 hour. Drain again and cut the rind into crescent shapes using a commercial cutter.

Cook the crescents until tender. Boil the sugar and water for five minutes. The crescents may be left natural color and flavored with ginger or as directed under Candied Ginger Watermelon Rings. If colored a delicate red, use only the best vegetable coloring and flavor with a few drops of oil of cinnamon or according to taste. If crescents are colored green, have a delicate shade and flavor with a few drops of peppermint. Add crescents and cook until tender and transparent or glassy in appearance. The syrup should be very low and thick. Drain the crescents on a plate to save syrup. Place them on a clean thin white cloth, over a rack in a warm place. Dry the slices until they are not sticky (about 24 hours). A very slow oven might be used for the purpose but exercise care to prevent scorching. When the crescents are thoroughly dried, they should be perfectly clear and tender. Crystallize the crescents as follows:

Crystallized syrup—1 1/2 cups sugar, 1/2 cup water. Boil sugar and water until a good thread hangs from spoon. Remove from fire and beat a few seconds and keep syrup hot by placing pan in boiling water and keep boiling. Dip crescents at once into syrup, coating the candy with syrup. Place on oiled paper to dry. Remove to slow oven to evaporate any surplus moisture. Place carefully in boxes, using oil paper between each layer. Do not let crescents touch in the box.

## WHAT A WOMAN OF 50 AND OVER Should Weigh

### Keep The Fat Away

This is interesting—the figures given below are correct according to the leading authorities—Women over 50 should beware of fat—if your weight and height match the table below you are in luck—and should be thankful—weigh yourself today.

### Keep The Fat Away

|              |            |
|--------------|------------|
| 4 Ft. 11 In. | 131 Pounds |
| 5 Ft. 0 In.  | 133 "      |

## The Electric Man Explains the New Home Comfort Rate

Initial rate  
**12¢**

2nd rate  
**7¢**

Low rate  
**4¢ 3¢**

"As I told you last week, the new Home Comfort rate follows the wholesale discount system.

"Simply explained, this is a method of rate structure which divides the investment expense proportionately among customers according to the amount of demand upon the production and distribution capacity of the system, and upon the duration of such demand.

"In an average five room home, the first 4 kilowatt-hours per room, or the first 20 kilowatt-hours, would be at the initial rate of 12c per kilowatt-hour; the following 5 kilowatt-hours per room, or the next 25 kilowatt-hours, would be at the second rate of 7c per kilowatt-hour; all subsequent kilowatt-hours, or all in excess of 45 kilowatt-hours, would take the low additional service rate of 4c per kilowatt-hour, or 3c per kilowatt-hour in homes where service is also used for heating or cooking, one fourth the initial rate.

"Just think of the additional service possible with this new schedule. The normal necessities of your home should use more service than that covered by the first two rates, and then you can operate any of the multitude of time and labor-saving appliances on the Low Rate, or use a large amount of additional lighting service without a material increase in your total bill.

"Next week I plan to tell you more about the advantages of the new Home Comfort rate, so watch for me on the pages of this newspaper."

### Society

#### BIRTHDAY CELEBRATION

Mrs. Earl Davis celebrated the 5th birthday of her son, Ray, on last Wednesday afternoon by inviting the neighborhood children to spend the afternoon in play. Refreshments consisted of the birthday cake, lemonade and lollipops and were served to the following children: Charley Thompson, Jr., John Clark and Margaret Long, Jimmie Williams, Joe Dadd, Mary Housouer, Billie Newton Klepper and Charles and Frances Davis and the honoree.

#### ADELPHIAN CLUB

Members of the Adelpian Club opened their fall and winter activities with a covered dish luncheon at the home of Mrs. W. B. Johnson Wednesday, Sept. 3. Attractive place cards marked the places of each member and guest.

Mrs. J. F. Doolen was leader of a short and interesting musical program which included a vocal solo by Miss Doris Oswalt, a reading by Mrs. J. H. Lanier Jr., a solo "Our Yesterdays," by Mrs. W. A. Dunn and a duet, "In the Time of Roses," by Miss Lottie Woods and Mrs. Doolen.

Mrs. L. A. Andrews, president, presided during the short business session. Mrs. Joe Johnson was elected treasurer for the incoming year. Introduction to the year's work was given by Mrs. E. D. Oswalt. The course of study is music and drama. The club welcomed Mrs. W. A. Dunn as a new member.

Out-of-town guests were Mesdames

O. L. Maynard of Olney and A. T. Chaney of Quanah.—Reporter.

#### COLUMBIAN CLUB

The Columbian Club met at the home of Mrs. J. R. Self for the first meeting of the year on Wednesday afternoon of last week.

An amusing feature of the program was the answer to roll call. Each member gave some stunt.

The president, Mrs. D. B. Miller, delivered a very interesting message. Special mention was made of the fact that this club becomes a Pioneer Federated club this year.

A delightful ice course was served at the close of the meeting.—Reporter.

#### GAMBLEVILLE ORGANIZES LITERARY SOCIETY

The parents, pupils and teachers of the Gambleville community met Friday evening, Sept. 5th, and organized a literary society. Mrs. H. E. Both was elected president; Opal Mae Carroll, vice president; Mildred Solis, secretary and treasurer; Prebble Bailey, assistant secretary. The program committee is composed of Mrs. Vernon Pyle, Raymond Jonas and Mrs. Dave Solis. Finance committee, Mrs. Jim Bailey, Mrs. Mollie Free and Vernon Pyle; committee on ways and means is made up of Dave Solis, Lee Morgan and Mack Gamble.

An impromptu program was enjoyed for an hour. Mrs. Llewellyn Morgan gave an interesting discussion of her recent trip to California.—Contributed.

#### FOARD CITY CLUB

The club met at the home of Mrs. M. M. Horn Tuesday, Sept. 2, with

thirteen members and three visitors present. Miss Hale gave a demonstration on making sand tarts.

We will meet Sept. 16 at the home of Mrs. W. M. Howell. Mesdames Horn and Baker served watermelon to all present.—Reporter.

### Co. Federation Meets at Four Corners

About 35 ladies from the various clubs of the county met at Four Corners school house on last Thursday for the regular meeting of the County Federation. A most pleasant and profitable day was spent.

The following program was carried out: Mrs. Moore of Margaret, Mrs. Lewis Sloan of Foard City and Miss Elizabeth Kincaid of Crowell, gave readings. Mrs. Moore read "In the Usual Way," Mrs. Sloan "Carlotta" in Italian dialect and Miss Kincaid read "The Fire-Tenders" by Grace Noll Crowell. Mrs. Clint White gave an interesting talk on "The Unusual Occupations Held by Women." Mrs. R. L. Kincaid talked on "The Value of Federations;" Mrs. M. S. Henry discussed "The Financial Side of Art" and Mrs. Roy Steele led a questionnaire on the leading women of the world.

A covered dish dinner was spread at noon and thoroughly enjoyed. At the close of the afternoon session, a watermelon feast was enjoyed, the melons having been given by Mrs. Henry Ayers.

The next meeting will be held at Thalia on Nov. 5th.

### BAPTIST PASTOR AND FAMILY FOUNDED WED. EVENING

Wednesday evening at the close of the service, Bro. Rodgers informed the pastor that the church had some very important business with him to attend to and suggested that we retire to the basement of the church. The pastor was surprised and almost dum-founded and couldn't figure out what it was all about. But he remembered being in tight places before and thought it best to obey orders regardless of consequences, whereupon Bro. Rodgers led him down into the basement and seated him. The crowd followed. After a word from Bro. Rodgers Mrs. Tom Bell read the following on behalf of the church:

Some one has said, "What do the dead care for the pretty flowers, for words so kindly spoken, but for lack of just such things many living hearts are broken."

Bro. Smith, we have a little surprise for you, a little love token, and an appreciation. As our pastor we love you, we believe in you and we wish to show in a small way our appreciation. These gifts are not given in value of dollars and cents, for service like yours, can have no price set upon it, you who never tire of doing things for others, for us, we, your members. You bring us the message of truth and life, you are our teacher of spiritual and heavenly things. You comfort us in times of grief and sorrow, sickness and death, and we look to you as our leader in a general way.

In a small measure we show our appreciation of your labors, in presenting you with this shower. May you accept it in the same spirit in which it is given, and let us not forget that everything we have comes from the "Giver of All Good Gifts."

Then they led the pastor to the south end of the building, putting back the curtain they displayed the biggest pounding he ever received. As we looked at it we thanked God for the token of their love for our unworthy lives and most of all for the love that prompted it. May God bless the givers and help us to live up to their expectation at least in some degree. The intrinsic value means a lot but the motive power back of it has far greater value to us. We know it is a token of real love. May God bless our good people. Space forbids us listing the many things contained in the pounding, but two items will give some idea of the bigness of it: 175 lbs. flour and 80 lbs. of sugar.

After singing "Bless Be the Tie That Binds," the crowd disbanded.

We covet the prayers of the people that we may prove worthy.

PASTOR AND FAMILY.

### WIMODAUSIS CLUB NEWS

The Wimodausis Club met at the home of Mrs. Roy Todd, August 20. The leader, Mrs. Pete Bell, had prepared a very interesting lesson on "Table Service." Roll call was answered with "suggestions for preparing better meals." Serving a balanced meal was discussed by club members. Miss Hale gave a demonstration on "table service and table etiquette." The proper setting of the table, placing and use of silver and napkins, and different styles of service, were discussed by Miss Hale.

Delicious refreshments were served to club members and Mrs. Todd and daughters, Misses Eva and Gussie, and Miss Johnson of Thalia.

The club held its first meeting in September at the home of Mrs. Pete Bell with Mrs. Hubert Brown as leader. Roll call was answered by each member giving a simple dessert which she served most often. Mrs. Tom Russell made a very interesting talk on "the place of desserts on the menu." Mrs. Brown gave a short talk on the "dangers in desserts." Miss Hale discussed simple desserts, giving a number of recipes for same, stressing the importance of serving simple desserts, since they are less expensive, healthier and easier prepared. The demonstration given by tarts, a delicious little cooky, which Miss Hale was the making of sand was served with iced tea as refreshments by the hostess. The club adjourned to meet Sept. 17 at the home of Mrs. Hubert Brown.—Reporter.

### 1913-1918 Drouth—

(Continued from Page 1)

In the paper of August 30, 1918, just one week before the above item was published, an account was given of a good rain that fell at Thalia.

In the issue of September 20, an account was given of another inch of rain.

Heavy rains also fell during October and in 1919 Foard County harvested 941,670 bushels of wheat from 47,699 acres, an average yield of 19.74 bushels per acre, the heaviest per acre yield of any county in Texas.

### "1913 Drouth Broken"

In 1913 the long drouth was not finally broken until about September 24th, when general rains fell over this section. However before that time numerous showers fell over various parts of the county several weeks previous and accounts of these were given in the issues of The News for August 29, September 5 and 12.

### "Hogs Have To Swim"

In the issue of Sept. 12 the following account is given of a small water-spout.

"Although heavy showers have been visiting this section of the state for the past few days, what appears to have been the daddy of them all fell out at the west edge of town Wednesday at noon. Although it only sprinkled in town some of the small draws at the edge of town were bank full and several hundred yards wide. Just south of town the water rose quickly and covered the railroad track, ties, railing and all for something like four hundred yards square.

"About the middle of the afternoon Crowell was visited by what old residents say was the hardest rain that has fallen in this city in a number of years. It simply poured, streets were solid sheets of water, and residents of lower ground were completely surrounded.

"Hogs that had been confined in pens floated out and swam to higher ground. It has begun to appear as if this part of the country might be getting back to normal after three years of unusually dry weather."

### "General Rain"

In the issue of The News of September 26, 1913, the following account is given:

"One of the heaviest rains that has visited this county in many months fell Wednesday. The rain began to

fall about 5:30 in the afternoon and continued at intervals during the night. It appears to have been a general rain."

### "More Fine Rains"

In the issue of October 10 appeared the following:

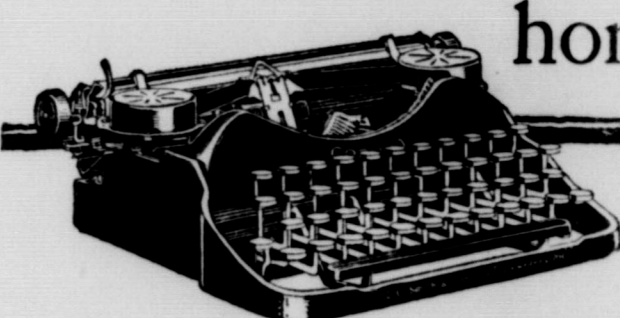

"Heavy rains have fallen over Foard County since our last issue and everything looks more promising than it has in many years. Old settlers say there is more moisture in the ground than there has been in six or seven years, some claiming that the ground is moist clear down. These rains say old settlers almost assure a wheat crop the coming year, and since a large acreage has already been sown, it is beginning to look as if we might have prosperous times next year. As The News has said before, "You had better stay with Foard County, for she is bound to 'come back,' and so will you, some 'come back,' and so will you, some."

There's no danger of the old corner saloon coming back. All the corners have been taken up by filling stations.

*A small payment*  
**puts this new Corona in your home**

It's great fun to own a Corona! Letter writing becomes a pleasure. You find yourself corresponding with old friends that you haven't thought of in years.

And a Corona in the house is a wonderful help to the children. It puts a new interest in their school work. Marks begin to go up.

Is it easy to learn to use a Corona? You'd be surprised! There isn't any trick to it. Just a matter of becoming familiar with the location of the letters on the keyboard and learning how to put the paper in, set the margin stops and return the carriage after you have written a line. We can show you all there is to learn in five minutes.

Terms? Certainly! A small down payment and the rest at the rate of a few dollars per month.

*Call us on the phone and we will let you have a Corona for a few days on trial—with no obligation to buy.*

Where Your Trade Is Appreciated

**Burglars Don't Seek the Limelight**

DARKNESS is their stock in trade. They work by stealth—unheard and unseen—their movements cloaked in secrecy. It's honest folks that seek the light. They are the only ones who can risk it.

It's the same way in business. The manufacturer or the merchant who is not sure of his goods does not dare to advertise. Advertising would hasten the end of his business career—put him to a test he could not meet.

The man who advertises, deliberately invites your inspection. He tells you about his product or his merchandise and then lets it stand on its own merits. You can depend on him. He knows his product is good.

That's one reason why it pays you to read the advertisements you find in the columns of this paper. It is through advertising that you are able to keep in touch with the good things that progressive business men are spending their money to introduce and to keep before you.

Advertisements are interesting, instructive and profitable. They throw a powerful light on the very things that concern you most. Read them.
