Insect Control Course for Farmers and Ranchers to Begin in Crowell Tonight

What is the most effective and economical way to control insect pests of livestock and crops? This is one of the questions to be answered for farmers and ranchers of this area this month. The courses are being organized by Marvin Myers, vocational agriculture teacher, and will be taught at the Vocational Agricultural Center with headquarters at Texas A&M College. Turney has both a M. S. degree in entomology and has had three years of experience in insect control.

The insect control short courses, which are also being held in Knox City, Munday, Goree and Throckmorton, are being conducted under a new program undertaken by the Vocational Agriculture Division of the Texas Education Agency. Under the program, agricultural specialists are made available to vocational agriculture departments in public schools to conduct specialized training on a short course basis for farmers and ranchers. Specialists are stationed at Texas A&M College and their work is coordinated through the Agricultural Education Department. The chief purpose of the program is to enable vocational agriculture teachers to provide better educational services for rural people.

Plans call for Entomology Short Course certificates to be presented to enrollees on the closing nights of each short course. An entry fee of \$2.00 per person is to be charged. Enrollment is handled by the vocational agriculture teachers in the sponsoring schools.

My Philosophy of Life

Our most humble and celebrated philosopher, Jesus Christ, proclaimed love to be the most important thing in every person's life. My own personal philosophy of life is along that same line. I believe that love in its many different forms can make an unhappy, unsuccessful life into one which blossoms with richness.

There are many different kinds of love. The love of a mother for a child is important in each of our lives. Another love is the love of strong character and honesty which helps to make our country a strong, proud power. Then there is the love of two young people as they build a new family.

All of these loves mold our lives and make us what we are, but in my opinion and in my philosophy of life the really important thing is typified in the following:

"For God so loved the world that He gave his only begotten Son." Yes, the eternal love of our God, the Father of all humanity, directs the life of every person.
 Bill Graves.

A Missing Face Around CHS

School just hasn't seemed the same the past few days. There have been no stern "Scatter, Thugs" to clear the halls before nine o'clock! The reason behind this is that Mr. Black has been in the hospital recuperating from his recent operation.

Truly, in the absence of Mr. Black, one does notice a certain emptiness or vacancy around CHS. His friendliness, warmth of character, wit, and great sense of humor make him an essential element in an enjoyable school day.

He has spent many years in helping and guiding young people with their high school problems. His willingness to cooperate and his vast experience qualify him to be a person to whom it is easy and wise to go to for advice.

Each pupil wishes for you, Mr. Black, a speedy recovery. We, too, wish a speedy recovery for Mrs. James Welch who is also "vacationing" in the hospital.

Yearbook Pictures Near Completion

The Annual staff and Mr. Byers from the Norman Greene Studios in Vernon, made the following pictures on Wednesday of last week: Spanish Club, Library Club, Student Council, Faculty, FFA, FFA. These pictures will appear in the 1959 Roundup.

What Is Wrong with Education?

A college professor says "Such lack of preparation in the high school is to blame."

The high school teacher says, "Good heavens, what crudity—the boy's a fool—and the fault, of course, is in the elementary school."

The intermediate teacher says, "From such stupidity may I be spared—they send him up to me unprepared."

The primary teacher says, "Kindergarten block head, and they call that preparation! It's worse than none at all!"

And the kindergarten teacher says, "Such lack of training never did I see. What kind of a woman must that mother be?"

Poor mother, at the very bottom and all alone. Her only comment, "Poor helpless child, but he's not to blame; his father's folks are just the same." — Copied.

Statements You Hope They'll Never Finish

At some time during our lives, we are forced to face up to something a little bit distasteful. Every now and then it becomes necessary to face the facts and realize

that we must pay for our mistakes. Here are just a few examples of forewarning. These are statements we hope the teachers, principal, parents, etc., will never finish.

"Since the rules specifically state that anyone who is late for class must write the constitution, and since it is 15 minutes after the bell, you will . . ."

"I realize that you have gone through all your school years with this class. However, when the rest of the class graduates this spring . . ."

"Certainly you are a necessary part of our team, but your grades are so low that I'm afraid . . ."

"We have warned you time and time again not to leave Coke bottles on the grounds. This is the last time; from now on . . ."

"We appreciate spring and young love, but the halls of our school are not the proper place for . . ."

"I realize that you have been sick, and that caused your absence; however, it says here that you must have an 'A' average to be exempt, and your average . . ."

"I know you broke a leg, but we need you in that game, so . . ."

"I don't care if you only meant it for a joke! The school is no place for practical jokes; therefore, I must . . ."

"Of course, you have a ball game tonight, but lessons are important too. For tomorrow . . ."

"It's not my fault you worked the wrong lesson. Your class grade for today is . . ."

"After looking at your grades for this six weeks, perhaps it would be best if you asked your parents to come to see me. Maybe then . . ."

The average school year up to now has been nine months. However, a new act of Congress has extended that time, and . . ."

And so on and on we could go, but . . ."

FHA to Have Style Show

The FHA will have a style show, with the latest fashions March 12. It will be held in the high school auditorium, admission 10c. The proceeds will be used to send delegates to the area and state meetings.

The Valuable Things of Life

It has often been said that when a man faces sudden, inevitable death, the events of his life rush before him in a hurried review. Would it be the social prominence, material wealth, and important advances of his life, or would it be the trust of a child, the beauty of a friend's devotion, the love of another person or persons, the unexpected word or act of kindness, the look of gratitude for a good deed well done—that he sees? Which of these things is really his life?

Perhaps his existence had no wealth or social acclaim. Perhaps he knew few people. But someone loved that man. Somewhere

in his life someone had planted a spark of never-forgotten beauty. So it must be with all of us.

There must be something valuable and beautiful in each of us in order for us to live. Perhaps that spark has died down to a memory; perhaps it is only beginning in our hearts and minds; nevertheless, it is the necessary component of value and worth. All good in us must come from love, for "as a man thinketh, so is he," and as a man loves, so are his thoughts. What but the love of a God so mighty to love gave us the right to exist? What but an act of love between mortals gave us our seed to life? What but love will mourn us at our death?

Life is a precious and priceless gem, but a gem without its sparkle is worthless. Life without the sparkle and beauty of love—regardless of the nature—is worthless. Learn to love! Let us learn to love together, not ourselves or each other, but a world as God created it. Let us learn to love—and to live.

Judy Borchardt.

When asked where he would like to venture on the senior trip, he replied, "New Orleans, naturally."

Good luck, Oecie.

Roving Reporter's Report

Yep, I'm back again. Things have been running pretty smoothly fashion-wise, lately. I'll let you in on what I've seen.

The boys made most of the fashion news this week. On Monday I noticed that Charley Gidney and Ronny Bradford were both all "spruced up." Bill Taylor turned up that day in a multicolored shirt which he said he got at the same place that Mr. Black buys his ties. Could he!

Carole Bell joined the "I believe in looking pretty" club in a two-piece shirt and waist set in red plaid, with a complimentary blouse.

Tuesday's spotlight again went to the boys. Gerald looked good (as usual) in tan slacks and matching shirt. Freddy had on the prettiest bulky knit sweater! It was blue-grey in color, and really accentuated his good looks.

The girls were fashionable this week, too. On Wednesday, Jerry Ann wore a suit-style white sweater that was stunning. Her blue bracelet and earring set. Gayle Taylor looked luscious in a tan straight skirt that seemed to have a light orange tint in the color. She topped her skirt with an orange and tan print blouse. Orange is a fabulous color this year and was really highlighted by Gayle's dark hair.

Linda Caddell turned up Thursday in a green print shirt-waist dress that was cool and cute. D'Lois wore a darling grey knit overblouse that really captured my fancy.

Guess the boys are going to start and end this, but did anyone else notice how nice the band boys who were dressed for the trip to Brownwood Thursday looked? For that, maybe we should let them go places more often!

If I overlooked the way you looked last week, I apologize. Being a student, I'm only half awake at times and have a tendency toward not being alert to all your fashion. However, I want to thank you for making the fashion news and ask you to "keep up the good work!"

Yours from rags to riches,
 Roving Reporter.

Stage Band Wins Top Honors at Brownwood

The Crowell Stage Band, under the direction of Earl Hesse, arrived in Brownwood for the annual Stage Band Festival Contest Thursday, Feb. 26, at 5 p. m. Previous arrangements had been made for them to stay overnight at the Longhorn Motel. Mrs. Hesse attended as chaperone of the girls.

After a night's rest, the members were awakened at 7 a. m. Friday. They arrived at the high school auditorium at 8 a. m. After listening to a few bands, the Crowell Stage Band made its fine performance at 10 a. m. The members were dressed in black skirts and trousers and the band award sweaters. The band stayed and listened to the remaining bands, and at 6:15 p. m. the award winners were announced. Mr. Hesse accepted the Showmanship Award trophy for the Crowell Stage Band. This is the first time that the band has received an honorary award of this kind, and we are all very proud of the progress and improvement that Mr. Hesse has made. The band is now making plans to attend the Tri-State Contest at Enid, Okla., in May. We wish you luck!

Senior Personalities—Oecie Tarver and Vera Porter

Vera Porter is 5' 6" tall, has brown hair, brown eyes, and is eighteen. Her favorite meal consists of chicken fried steak and all the trimmings, plus a big slice of angel food cake.

In her spare time, she enjoys the company of Jimmy Alcorn, who hails from Wichita Falls, and is the son of the evangelist, Rev. Alcorn.

Vera has only one pet peeve, and that's for anyone to borrow her lessons without trying to get them by himself.

If she had one wish, she would like to be a millionaire and take a trip around the world.

Her favorite subject is typing, while her most disliked subject is English IV. Henry Black ranks as her favorite teacher.

Vera has belonged to the Library Club and is an officer of that organization. She also belongs to the Spanish Club.

After graduation, Vera plans to work for awhile, then to become married later on.

During her high school days, Vera has most enjoyed being in the Library Club.

Lots of luck to you, Vera. Oecie Tarver is 5' 8" tall, has brown hair, green eyes, and is eighteen.

Fried chicken, french fries, topped off with banana pudding make a real he-man meal for him.

Oecie can usually be seen riding around in the big city of Thalia listening to any good western or popular music. His favorite record is "Talk to Her Mr. Sun" by Tommy Edwards. Speaking of movies, Oecie likes good westerns or good mysteries, especially when the stars are James Stewart and June Allison.

Anyone who is constantly looking for something to gossip about is Oecie's pet peeve.

To be able to change places with Elvis Presley (when he was out of the army) is what Oecie would wish for if he could take his pick.

Typing is his favorite subject, and English his most disliked. Henry Black is his favorite teacher.

Oecie has belonged to FFA for three years and was on the basketball team two years. After graduation, Oecie plans to work for Gonager & King Inc. Several ex-grads have also been

STATE CAPITAL Highlights AND Sidelights

by Vern Sanford

TEXAS PRESS ASSOCIATION

Austin, Tex.—56th Legislature moving like a snowplow—with snow still falling and the lawns flying.

Testing and spending committees are pushing doggedly through their schedules. But new bills are still swirling into their path, and, in whatever direction they go, they're constantly pelted with objections.

With the 120-day session nearing the halfway point, each passing day increases the possibility that they'll come to the May 12 quitting deadline still "snowed under."

OVERHAUL PLAN—Rep. Frazer Seelgison is pushing his take-home, add-some tax plan as a long-needed updating of Texas' tax

structure.

Seelgison (of San Antonio) told the House Revenue and Taxation Committee that many taxes still on the books (such as those on clock peddlers, waxworks, medicine shows, etc.) are no longer useful. Others, such as the chain store tax, he called inequitable.

Seelgison's bill would repeal some 38 such taxes and increase levies in other areas—auto sales, cigarettes, liquor, beer, corporation franchises. His plan also would include two ideas backed by Gov. Price Daniel—to take over abandoned property for the state and to make a bookkeeping transfer of \$18,000,000.

But unlike the governor, Seelgison is frankly pulling for a general sales tax.

Other new tax ideas are to increase the levy on beer from \$4.30 to \$10 a barrel, by Rep. Leon Thurman of Anson.

Rep. W. T. Oliver of Port Arthur has introduced a five per cent gross receipts tax on hotels, motels, rooming house rentals and airline passenger business. Oliver also proposed a five-cents-a-gallon tax on soft drink syrup and a three per cent levy on pop sales.

GALS AT IT AGAIN—That hardy repeater from many past sessions, the women's equal rights amendment, is back again.

Sen. George Parkhouse of Dallas is sponsor of the proposed constitutional amendment which would remove legal restrictions on women.

Representatives of the Federated Business & Professional Women told the Senate Committee that some Texas laws classify women with "infants, imbeciles and lunatics." They pointed to the statute that prevents a married woman's selling, without her husband's permission, property she acquired on her own hook.

As usual, no one opposed the women. But the proposal was packed off to the attorney general

for a "full appraisal of what effect it would have."

OF CHURCH AND STATE—Religion and politics got mixed—with explosive results—when four legislators announced they'd heard atheism was being taught in state colleges.

A bill to require all faculty members in state schools to take an oath they believed in a supreme being was introduced by the four. They are Reps. Bill Howell of Grand Saline, Joe Chapman of Sulphur Springs, Ben Lewis of Dallas and W. T. Dungan of McKinney.

College officials and university pastors joined in calling the charge "ridiculous." Several University of Texas spokesmen, both educators and ministers, said they had never known a time when there was more sincere interest in religion among both faculty and students than at present.

WHY VACCINATE? — Sen. Floyd Bradshaw of Weatherford and the medical profession are at odds as to the value of smallpox vaccinations.

Sen. Bradshaw refused to send his four children to Austin schools, which require vaccinations, and is teaching them himself in his office. He also introduced a bill which would prohibit local school boards from requiring that children be vaccinated before they can attend school.

Quoting from a 34-year-old medical article, Bradshaw told the Senate Public Health Committee, "the bedbug is the sole conveyor of smallpox."

But medical spokesmen credited vaccinations with eliminating the scourge that once killed thousands every year. Dr. J. M. Coleman of Austin told the committee that allowing children to come to school unvaccinated had the same "potential for destruction" as allowing them to bring "pistols and switchblade knives."

FOUR ALARM HEARING — Committee discussion of bills on city firemen's and policemen's hours brought more spectators than a first class fire.

City officials and the firemen's and policemen's associations are in a head-on clash over the old issue.

A bill by Rep. Robert Johnson of Dallas would set maximum hours, increase overtime pay for fire and police work in cities over 10,000. A rival bill by Rep. Ben Sudderth of Brownwood would give the cities control over these matters.

City officials declare the people who have to foot the bill ought to be able to make the decisions. Spokesmen for the associations said, in effect, that they have to come to the legislature because they can't get any help from their cities.

HOW MUCH CREAM? — Milk producers and milk sellers are squabbling as to whether the law should require that milk be labeled as to butterfat content.

House Health Committee sent the labeling bill to the sub-panel. Retailers opposed the bill, said the procedure would be costly. They said, too, that there would be competition to provide richer milk which a calorie-conscious public doesn't want. Present law requires 3.25 per cent butterfat content for whole milk.

Producers said they thought the public ought to know what they're buying.

Agent Says Wheat Being Damaged by Greenbugs

Damaging infestations of greenbugs and spider mites are beginning to show up in some wheat fields in Foard County, according to Joe Burkett, County Agent.

Outbreaks usually occur where the wheat or small grains suffer from deficient moisture in mild winters and cool springs. They reproduce rapidly at temperatures between 55 degrees and 65 degrees. Their natural enemies (ladybugs) reproduce very slowly when the temperature is below 65 degrees.

Fields infested with greenbugs usually show small deadened areas during the winter when these insects suck sap from the plants. Later, they increase and migrate throughout the entire field.

Greenbugs are actually plant lice or aphids. They range in size from 1/32 to 1/16 inch and vary in color from brownish-black to a bright pea-green color. They can be found on ground under leaves, on the leaves, and on the stems.

To determine if control measures are needed, an infestation count should be made. A minimum of five counts, consisting of one linear foot each, should be made at random while walking diagonally across the field. It may be necessary to make more counts where large acreages are involved. The plants should be examined carefully and all the greenbugs counted.

When to Spray: Control measures should be applied when the average number of greenbugs in fall-seeded small grain reaches 100 per linear foot at any time before the boot stage. High populations are more injurious early in the season. In very young wheat and spring-seeded grains, populations of 25 to 50 greenbugs per foot may warrant treatment.

If parasites and predators are very numerous and the greenbug population is declining, control measures may be deferred.

What to Use: Parathion or methyl parathion will control the greenbug effectively. Use 1 to 2 pints per acre of an emulsion concentrate containing 2 pounds of active ingredient per gallon. The required amount of emulsion should be applied in 2 gallons or more of water per acre by airplane or ground sprayers. The lower rate per acre is satisfactory in most parts of the state. Apply insecticides when the temperature is 50 degrees or above. Better control can be expected at higher temperatures.

Spider mites can be controlled with 2 pints of parthion emulsion concentrate (2 lbs. per gallon) applied in the amount of water the sprayer puts out per acre. Spider mites are hard to control and it usually takes several sprayings to control them and this doesn't always pay, says Burkett.

Caution: Do not apply malathion within 7 days or parathion or methyl parathion within 15 days of harvesting or grazing. Parathion and methyl parathion are highly toxic to man and animals and should be handled with extreme caution.

New Testament Translated into Modern-Day Slang

"It is stated in the daily press that the New Testament is being translated into 'native idiom and current usage' in England. Maybe it won't be long before the Bible will be translated into modern-day slang. If it's all the same with the learned translators, why not use all power possible to raise the lives of people up to the high standards of the words of the King James' translation, rather than whittle that great translation down to the talk of the street?"—Pourt Gibson, Miss., Reveille.

Strong Government Action

"If President Eisenhower wants to halt inflation, he will have to call for strong government action. He will have to ask for enough taxes to balance the budget. He will have to take issue directly with American business and union leaders even to the point of threatening wage and price controls. . . . To get the American people to discipline themselves in a fight on inflation calls for extraordinary leadership. . . ." — Quincy, Mass., Patriot Ledger.

Vernon Community Concert Has Successful Membership Drive with 1,019 Members

The Vernon Community Concert Association ended the most successful membership campaign in its 15-year history Saturday night with announcement of a membership list of 1,019 for the 1959-60 season.

This is an increase of 380 over the 639 members for the 1958-59 season and represents an increase of 647 for the past two seasons.

The Concert Association board in meeting Saturday night selected four attractions for the 1959-60 season, including the fabulous "Vienna on Parade," with a cast of 65 for a February 1960 concert.

Pioneer Circle Meets

The Pioneer Circle of the Women's Society of Christian Service met in the basement of the Methodist Church Monday afternoon in its monthly social meeting. Hostess duties were shared by Mrs. O. B. Davis, Miss Dina Mitchell and Mrs. G. L. Cole.

Mrs. R. J. Thomas was program leader for the meeting, assisted by Mrs. A. S. Hart.

Mrs. Thomas opened the meeting with "The Call to Worship," after which the group sang "Work for the Night is Coming." The leader then read a prayer given in the program book. Another song, "Take the Name of Jesus with You" was sung.

Mrs. Hart gave a most interesting paper entitled "Working with Others." Following this, Mrs. Rude Magee led the group in prayer, after which another song, "A Charge to Keep," was sung.

Mrs. Thomas stated that the subject for the program was "One in Christ." She brought some very challenging thoughts on the subject, "Missionaries to the USA."

The program was closed with the singing of "Blest Be the Tie That Binds," and a prayer from the study book. Mrs. C. W. Thompson served as pianist for the songs.

The hostesses invited the women into the lovely church kitchen where they served ice cream, angel food cake and punch to eleven members.

THIS WEEK -In Washington

Clinton Davidson
How would you like to be tried for a crime in a court without the judge and jury present to hear all of the evidence?

That, of course, would be extremely unlikely to happen, and if it did the verdict would be voided by an appeal court. But it has happened many times in Washington before so-called administrative courts.

Congress over the past 25 years has delegated judicial powers to a number of government administrative agencies and boards without requiring that they observe ordinary court procedures.

The results are forcing Congress to review and reconsider procedures followed by these quasi-judicial administrative agencies, such as the ICC, the FTC, the CAA, and the SEC and others.

Studies are being made by special subcommittees of the House Judiciary and Legislative Oversight Committees. Preliminary reports already made strongly suggest the need for legislation to eliminate what one report describes as "fundamental weaknesses" and "flagrant abuses."

Code of Ethics
Eminent lawyers and judges disagree over whether judicial powers should be delegated to administrative agencies, but they are unanimous in their opinion that if these agencies are to have court powers they must conduct themselves as a court in all respects.

The reports are sharply critical of some of the legislative-administrative-judicial agencies for failure to follow ordinary court procedures and practices when exercising life or death powers over business firms appearing before them.

Some members of these boards and commissions have, in all good faith, felt that their doors should be open for consultation with all parties having an interest in a case before them. It was a way of obtaining all of the information they could.

That is a practice that no judge in a court would permit, and it is a practice that has led to resignations resulting from charges of improper influence being exerted on the board members or commissioners.

Absentee Decisions
Because of public criticism most of the members of the quasi-judicial government agencies have discontinued "out-of-court" conferences on cases before them. That is a step in the right direction. It would, however, be a mistake unless still another step is taken.

If members of an agency exercising judicial powers are to bar all contacts and close their minds to all evidence except that presented in official hearings, they should either be present at all hearings and read all of the evidence or else abstain from voting when the decision is made. Unfortunately they have joined in voting on decisions without having read all of the evidence. This they admit.

This is the view held by the United States Court of Appeals for the District of Columbia which, in a decision last year involving the granting of a radio station license, held that since one of the Commissioners said he had not read all of the evidence, but had voted anyway, the decision was void and the case should be reheard.

In most cases, however, where the commissioner votes without having read all of the evidence, the injured party usually is afraid to sue because the commission with which he has to live has great punitive powers.

We can't, in the interest of common justice, have two sets of judicial rules, one for judges in a court of law and other, less strict, for appointed government officials who sit as judges.

Cub Scouts Have Blue and Gold Fellowship Dinner

The Cub Scouts, their leaders, and their parents of Pack 49 observed the annual Blue and Gold Family Fellowship Dinner in the basement of the Methodist Church on Monday evening with 104 persons present. The roll call listed every active Cub Scout and his parents present for this meeting. Two boys have dropped out of the program and Armando Villarreal and George Stanley Myers were received into the Pack, along with their parents, last evening.

Each of the three Dens arranged displays of the things that had made or were working on currently. The families brought a buffet dinner and ate together as Dens. Den 3, with Mrs. Baylor Weathered and Mrs. O. L. Myers as Den Mothers, gave the opening ceremony and welcome skit. Den 2, with Mrs. Ray Shirley, Mrs. Tom Ellis and Mrs. Chester Hord as Den Mothers, conducted the theme ceremony and a flag salute. Den 1, with Mrs. Carl Hudson and Mrs. J. T. Hughton as Den Mothers, presented a skit in the form of a parade of great events that occurred in February including the introduction of Scouting in America in 1910.

A charter review was held and the following persons registered with the Pack for the next charter year: Pack Committee Chairman, Tom Ellis; Pack Welfare and Finance, W. F. Stater; Secretary and Treasurer, Mrs. W. F. State Governments Cost of Operation May Total \$25 Billion This Year
Changing Times reports that the cost of running state governments may total \$25 billion this year—five times the 1948 figure. It adds that as a rule, increased costs must be met with higher taxes, as most of the states have used up their surpluses and are in debt to the hilt.

On the Job
Airman Harry Titus, stationed in Japan, owes his life to his wife's knowledge of home nursing. Recognizing a thick blue lump on his leg as a possible blood clot, she refused to rub it, as he suggested and rushed him to the base hospital where a medical officer confirmed her surmise. He said that rubbing of the lump might have caused death in a few minutes. Home nursing, which taught Mrs. Titus precautionary measures, is one of the services financed by contributions to the Red Cross campaign.

Grading on the Lee Highway from Vernon to the Foard County line has been completed and just as soon as a few bridges are completed, the entire distance from Crowell to Vernon can be traveled over the new grades in both Foard and Wilbarger Counties. G. A. Shultz has purchased the interest of E. S. Foust and Hilton Buster in the Thalia Drug Company and started its operation last Friday.

Colored School Enters Basketball Tournaments

The Colored School of Crowell has played in four basketball tournaments this year and has placed second in three of them. They have been playing in tournaments given for B teams because the school no longer has upper grades. The upper grades attend school in Vernon.

Led by co-captains, Thomas Byrd and Herbert Lane, Crowell placed second in the Anson invitation. To reach the finals Crowell edged Anson and Knox City. They were defeated in the finals by Eastland. Claude Chappell, Clark Gates and Henry Anderson also gave good accounts of themselves in the Anson tournament.

In the Clarendon tournament, the Crowell team was sparked by the sharp shooting of Gates, Byrd and Lane. Crowell tripped Memphis and Turkey to reach the finals. In the finals they were defeated by Wellington 47-51.

Crowell's hope was kept alive in the Quanah tournament also by the shooting of Gates, Chappell, Byrd and John "Man" Harper. Crowell defeated Quanah and Hollis, Okla., to reach the finals. Again, Crowell met and was defeated by Wellington 44-57. Lane and Anderson did a good job in bringing the ball down and working it to the pivot man.

Kin Found for Holland Refugee

A 16-year quest has ended happily for Netherlands-born Adrianus DeBruin of Murray, Utah, with the help of the Salt Lake County Red Cross Chapter.

He has enjoyed a reunion in Canada with the three brothers he hadn't seen or heard from since the family was scattered in 1942 by the Nazis occupying his homeland.

In that year, Mr. DeBruin, 16 and an orphan, was placed in a labor camp. His brothers, 8, 7 and 4, living in foster homes, were moved with their foster families to make way for new fortifications.

After the war, his inquiries were fruitless. He married a French girl and migrated to Utah. Recently word came that the younger brothers had migrated to Canada.

The chapter in Salt Lake City sent a foreign location inquiry to Red Cross national headquarters, which forwarded it to the Canadian Red Cross. That society located the brothers in Toronto, where they had been living for the past 8 years.

Chevy stops quickest... goes farthest on a gallon!

Chevy showed the best brakes of the leading low-priced three in a test of repeated stops at highway speeds conducted and certified by NASCAR*. Chevy also won over the other two in a NASCAR economy run—with the highest gas mileage for 6's and V8's at cruising speeds of just over 55 miles an hour.

Here's a car that knows how to get the most out of a gallon. And it's the only car in its field to bring you hydraulic valve lifters in all popular engines—6 and V8. This means smoother, quieter performance for you.

There are many other advances just as fundamental as the efficiency of Chevrolet's engines and the dependability of its new brakes (with more lining area than any other low-priced car). But why not stop by your dealer's and let Chevy do its own sweet talking!

Fishing Booms; Buy License Before Going

Fresh water fishing definitely is on the upgrade in Texas with an apparent break in winter weather, according to Capt. E. M. Sprott, director of law enforcement.

"Wardens are reporting increased activities on every lake and stream in the state," Capt. Sprott said. "Some exceptionally large crappie are being taken in lakes in East Texas. Bass fishermen also are reporting catching some 6 to 8 pounds in most of the lakes. This is especially true in Falcon, on the Rio Grande south of Laredo."

There is an unconfirmed report of an 11-pounder being caught in Falcon last week. Eight pounders, however, have been frequent.

White bass are still running at the upper end of all major lakes. Some fantastic catches also have been reported below the dams.

"This is a good time to warn fishermen they must have a license if they fish outside of their home counties are use a rod and reel," he said. This applies to all persons between the ages of 17 and 65. Texas has a universal license fee of \$2.15 which permits fishing in both fresh and salt water. It applies to both residents and non-residents.

Life Span Increased 27 Years in Less than Century

From the Portland Oregonian: "The new mortality table compiled for insurance companies and comparisons with the previous one issued 18 years ago and with statistics on life expectancy for 1868 show the tremendous progress which has been made in stamping out death-causing childhood diseases.

"Ninety years ago an infant at birth could expect to live 41.5 years. By 1941, this expectancy had been stretched to 62.3 years and since then another six years has been added. The average life span of a newborn child thus has been increased by 27 years in less than a century."

Men who are industrious, sincere, and honest will have easy sledding on their way to success.

The good judgment of some people will never wear out. They don't use it often enough.

Miscellaneous Shower Last Saturday Honors Miss Jo Helen Aly

A miscellaneous bridal shower in honor of Miss Jo Helen Aly and J. W. Swink of Morse, Texas, who will wed soon, was given at the Adelpian Club house on Saturday afternoon, Feb. 28.

Mrs. J. A. Marr stood at the head of the receiving line and presented the guests to the honoree; Mrs. C. T. Aly, her mother, and Mrs. A. L. Park, mother of the groom.

Miss Aly selected a pale pink sheer dress with which she wore matching shoes. Her corsage was of white carnations. Mrs. Aly wore a rose beige dress, and Mrs. Park wore a navy blue ensemble. Each member of the receiving line wore a corsage of white carnations, presented by the hostesses.

Miss Jo Frances Long and Mrs. Woodrow Lemons alternated at the piano and the register table which held a single white gladiolus in a crystal bud vase. Names of the guests were recorded in a beautiful white bride's book.

Mrs. Ector Solis directed guests to the refreshment table which was covered with a white cut work table cloth over light blue, white and blue being the chosen colors of the bride-elect. In the center of the table was an arrangement of white gladioli from which extended blue ribbons with "Jo Helen J. W." inscribed in gold. On each side of the floral arrangement were two light blue tapers in crystal holders.

From the crystal punch bowl, frosted punch was poured by Misses Judy Barker and Linda McClain. Dainty heart-shaped cookies and mixed nuts were served from crystal trays. The guest napkins were white lettered in gold.

Hostesses alternating in greeting the guests and showing the gifts were Mesdames Bonnie Davis, Roy Barker, Bill Kell, Shelby Wallace, Sherman Nichols, Clark Hitt, Guy Todd and Roy Fox. Other members of the house party were Mesdames Grady Graves, W. F. Statter and Cora Belle Whatley.

Co-Laborers Class

Mrs. Guy Bound, and Mrs. Allen Sanders were co-hostesses to members of the Co-Laborers Class of the Methodist Sunday School at the home of Mrs. Bounds on Thursday afternoon.

Mrs. Bounds, president of the class, conducted the business session. "Are Ye Able" was sung by the group with Mrs. Sanders playing piano accompaniment and Mrs. C. W. Thompson leading. "Near the Cross" was also sung.

Mrs. E. E. Roland was leader and conducted a chapter from the book, "Disciples to Such a Lord," which is the study course for the class. Mrs. A. S. Hart led an inspiring devotional based on Matt. 28:39. Mrs. Thompson also gave a chapter of the book. She used Mark 10:26 for a scripture basis. The lesson was brought to a close by the recital of "The Lord's Prayer" in unison.

The hostesses served a lovely refreshment course to twelve members present.

Youth-Parents Banquet Held in Methodist Church

A total of 56 youth and their parents attended the annual Youth-Parents banquet in the Methodist Church on Tuesday evening, Feb. 24. The Woman's Society of Christian Service prepared the meal and served as hostesses for the dinner and program. Miss Jo Frances Long, local Methodist Youth Fellowship president, served as toastmistress. Judy Borchardt presented a skit on the use of the Bible in the average home. Miles Welch, Paul Bax Ekern, Wanda James and Jo Carol Cooper, presented a clever stunt and Cindy Erwin sang "The Whole World in His Hands." Mrs. H. E. Monkres, MYF Counselor, assisted by R. H. McCoy, brought the devotional. The Rev. Horace Brooks, pastor of the First Methodist Church in Quanah, was the speaker of the evening. Rev. Brooks used the theme of "Courtship and Marriage" in his address. The banquet and the program were an outgrowth of the five weeks study of courtship and marriage, which was conducted by Mrs. Monkres.

Margaret H. D. Club

The Margaret Home Demonstration Club met Feb. 27 at the community house with Mrs. C. T. Murphy as hostess. The opening prayer was given by Mrs. Verda Bell. Roll call was answered with "how I would like to improve my bedroom."

Minutes of the last meeting were read and approved. A report from council was given by Mrs. Hugh Shultz. The club voted to pay next month's water bill for the community house.

Mrs. W. F. Bradford brought the program on "Colors for Your Bedroom." She said that color is one of the best and least expensive means of making rooms more pleasant and attractive, but colors have to be arranged in planned schemes before they are effective. She explained how to use colors and showed with pictures the effects of color in a room.

The hostess served refreshments to 19 members and one visitor.

West Side H. D. Club

The West Side Home Demonstration Club in the home of Mrs. Albert Dunagan Feb. 24. Mrs. Donald Norris, president, opened the meeting. "Prayer" was opening exercise. Minutes were read and approved. Roll call was answered with "how I would like to improve my bedroom." Mrs. L. G. Simmons gave an interesting demonstration on colors for bedrooms.

She said to make a room look larger, use all one color. One should add white to color to make a tint and black to a color to make a shade. Mrs. Simmons also used a color chart wheel to bring out the color schemes. Mrs. Dunagan gave the council report.

Refreshments were served to the following members: Mesdames Donald Norris, Bert Mathews, S. E. Tate, Dayton Everson, Tom King, Albert Dunagan, Oscar Gentry, L. G. Simmons, Walter Thompson, Herman Kincheloe, Baylor Weathered and two visitors, Mrs. Ed Norris and Mrs. Josie Jones.

The club will meet in the home of Mrs. Dayton Everson March 10.

T. E. L. Class

The T. E. L. Sunday School class of the First Baptist Church met February 26 with Mrs. Cora Belle Whatley, with Mrs. Ada Burkett assisting with hostess duties. The meeting was opened by singing two songs, Mrs. C. C. McLaughlin led in prayer. Mrs. Bonnie Davis led in devotional thought using scripture from 9th chapter of Acts. Mrs. Frank Moore was elected teacher of the class in the absence of Mrs. C. T. Aly. The meeting was closed by prayer by Mrs. E. A. Dunagan, who also led in a musical quiz for the social hour. Refreshments were served to 13 class members.

Bridal Shower March 6th

A bridal shower honoring Mrs. Virginia Williamson Reagan will be held in the home of Mrs. Jim Christian March 6 from 3 until 5.

County Federation Meets

The regular meeting of the County Federation of Women's Clubs was held Friday, Feb. 27, in the Margaret community house. The Riverside H. D. Club acted as hostess and the Margaret H. D. Club was in charge of the program.

Mrs. Clarence Garrett presided at the business session which she introduced with the reading of a very clever poem entitled "What Is a Club Woman?" Officers elect-

ed for the new club year beginning in September and to be installed at the next regular meeting in April were Mrs. Ed Huskey, president, and Mrs. Paul Payne, secretary. Mrs. Agnes Dunn led the group in the singing of hymns and then introduced Mrs. Tommy Beck who brought the morning devotional which was on the resurrection. In this she especially paid tribute to the late Mrs. Gertrude Wesley, who was an active member of the Margaret H. D. Club during

her lifetime. After a bounteous covered dish luncheon, Mrs. Jack Roberts was introduced as the speaker for the afternoon. Mrs. Roberts gave an interesting account of how the Foard County copper mine was discovered by a buffalo hunter, Jones Vaughn, which led to an expedition to the area by the famous Union general, George B. McClellan in 1877. Next Mrs. Roberts gave a brief history of the town of Margaret beginning with the time it was located two miles

northeast of its present site and known as Pease. She very vividly described the growth of the town, the renaming of it as Margaret in honor of Margaret Wesley, first Anglo American born in the county and finally the moving of it to its present site so it would be near the railroad.

All ten clubs of the county were represented at the meeting. The next regular meeting of the County Federation will be April

30 with the Vivian H. D. Club as hostess and the Thalia H. D. Club bringing the program. The place of the meeting will be decided upon at a later date. Announcement prior to April will appear in the Foard County News.
