Chevy's the only car of the leading low-priced three that fires you the convenience of rank-operated vent windows. No awkward latches to fumble with . . . your knuckles and fingernails will appreciate it.

# THESE **BIG** CHEVY VIRTUES!

**LET ALONE** 

Bigger, yes, and built with bonded linings for as much as 66% longer life. And how's this for proof that Chevy's a real stopper: in a NAS-CAR\*-conducted test of repeated stops from highway speeds, Chevrolet outstopped both of the "other two" time after time.

The NASCAR Outstanding Achievement award goes to Chevrolet! #### full coil ride

You're the expert on ride, so you'll want to try Chevy's easygoing smoothness for yourself. MOTOR TREND magazine can give you a hint of what you're in for: ". . . the smoothest, most quiet, softest riding car in its price class." And Full Coil springs, of course, never squeak, never need grease.

POPULAR SCIENCE magazine gave Chevy's styling a thoughtful look, then said it this way: "In its price class, Chevy establishes a new high in daring styling . . ." You'll find your own happy way of saying that Chevy's the only unmistakably modern car in its class.

#### greater roominess

Automobile Manufacturers Association records carry the facts on this. In a Chevy sedan, for example, you've got more front seat head room than all but one of the highpriced cars! And Chevy's front seat hip room spreads up to 5.9 inches wider than comparable cars.

bigger savings

Here's solid proof that Chevrolet squeezes more miles out of a gallon: In the famous Mobilgas Economy Run, two Chevrolet sixes with Powerglide took the first two places in their class. Winning mileage: 22.38 m.p.g. And that, friends, took top honors for Chevy from every full-sized car!

## BUD'S MACHINERY NEWS

Crowell, Texas, Aug. 6, 1959 THE FOARD COUNTY NEWS-7

A machine of any kind is no good if a vital part is broken. Its usefulness is restored only when a new part is properly installed. That's why we spend so much time, effort and money in keeping needed spare parts, several good mechanics, and the latest in shop equipment.

Being a farmer, your writer realizes how costly a serious break-down can be in a busy season of work. whether it's a tractor, combine, plow or drill-unless it is repaired and put back to work very soon. We feel a sense of obligation to owners of machinery that we sell, both in parts and service work, and those machines take priority in our shop. We keep an extra pick-up truck equipped with hydraulic hoist, several tools, and a small stock of commonly used parts that are never taken out. This is ready for a field trip on

We like to think our customers feel that if they buy a machine from us, we will take care of them for its

Travis Vecera is very proud of his new Case tractor. He holds a regular job at the lumber yard and does his farming at other hours. "I can do my farming much faster, cheaper, and with less fatigue," he said. Myrtie says he comes home in a better humor, and has more time at home.

The measure of a man's life is the well spending of it, not the length.
