Thalia Student Taking Part in All-Cotton Fashion Show at Tech

Miss Jackie Kidwell, junior home economics major from Thalia, is dressing a small manikin duplicating one of the outstanding costumes to be premiered in Texas Tech's second all-cotton fashion show in Lubbock Municipal Auditorium January 26.

Miss Kidwell is a member of a costume design class. Garments will be made and accessorized by clothing and textiles classes. Home economics students will model the fashions.

Miss Kidwell is the daughter of Mr. and Mrs. H. L. Kidwell of Thalia. The fashion show premiere of Vogue Pattern styles for 1960 will demonstrate the effectiveness of all-cotton fabrics in high fashion costumes. Dr. Willa Vaughn Tinsley, Tech home economics dean, said.

Each of the free showings—at 1:30 p. m., 4:15 p. m. and 8 p. m.—will consist of six scenes presenting cotton fabrics and fashions for "A Day at Home," "A Day in the City," "Travel," "Holiday—USA," "American Invention—The Coordinated Wardrobe" and "Wedding."

Fifty-two garments prepared by students of all levels in the department of clothing and textiles will be shown.

Boy Scouts Have Demonstration at Meeting Thursday

On Thursday evening at the regular Boy Scout meeting, Patrol leader Barry Barker, assisted by Patrol leader Rickey Traweck, presented a demonstration on beds and bed rolls. The demonstration consisted of three parts: preparation of a ground bed, a bed roll made from two or three blankets, and the parts of a regular Boy Scout sleeping bag. Also included in the demonstration was a brief discussion on the care of a bed roll in camp. The demonstration was followed by a lively question and answer session.

The "do it yourself" project for the week was demonstrated by Barker and Traweck. It was a camp or tent lantern made from a 46 ounce juice can and a candle. Tenderfoot Scouts Stanley Shook and Jackie Eddy received their Tenderfoot badges in a closing ceremony. A group of Scouts have met the past two Saturdays and have bundled large quantities of paper that was collected some time ago. The boys will gather paper this Saturday and about two tons of collected paper will be delivered to the mill near Quanah this next week. The Scouts and their leaders expressed their deep appreciation to the people of the community for saving these papers for them. The boys will continue to gather newspapers at least once a month. The notice will appear in the classified column of this paper in regard to the date and time.

RANCHERS PROVE VALUE OF DEFERRED GRAZING

Deferred grazing and letting a pasture rest improves the vigor of grasses, grows valuable cover and produces a seed crop, ranchers are reminded by Ray Duckworth, technician in the Crowell office of Lower Pease River Soil Conservation District.

The length of the deferment period and the time of year it is carried out determines the extent each benefit is realized. Most of the pastures that were rested this past growing season have now been restocked. The freezing weather matured the last of the seed crop and caused the grass plants to go dormant, Mr. Duck-

worth continued. The management of these pastures during the next three months will greatly affect value that will be received from the past deferment, he added. This is especially true with respect to the cover. The dried grass can be harvested during the fall and winter months by cattle much cheaper and easier than if you have to deliver it to them in bales of hay. They will harvest it as roughage if you will furnish them with the protein.

The grazing of a plant during the fall and winter months while dormant does not affect root system where vigor and strength is stored. The seed crop has been produced, so it is not materially affected. However, the amount of grass which the cattle are allowed to graze off should affect your grass growing capacity for the next year, Mr. Duckworth said. If practically all of the forage is grazed off, the deferment has not helped a lot, except to provide the hay.

By leaving about 50 per cent of the forage on the ground, adequate ground cover may be maintained so as to get rainfall into the ground, reduce evaporation, help to control soil temperatures, soil erosion, and furnish better wildlife cover, said Mr. Duckworth. At least 2,000 pounds of cover, both growing and dead, is needed to protect the soil and grass. Soil with a good cover will not freeze as fast as a bare soil, nor will it get as hot in the summer. In the summer time there is a 40 to 50 degree range in the temperature between a bare soil and one with a good cover.

Cover is to the soil as money is to a bank. Don't over draw, save some for a rainy day, he advised. Mr. Duckworth said several farmers and ranchers in the Lower Pease River SCD have done a good job of deferring one or more of their pastures this year. Now these farmers and ranchers are properly using grasses produced during the deferment.

Conference Cage Games Begin Here Friday Night

The Crowell High School basketball teams, both boys and girls, have completed their practice games and are all set for their opening conference contests here Friday night with the Paducah Dragons and Dragonettes.

The boys defeated the Quanah Indians 66 to 50 at Quanah last Tuesday night to establish themselves as favorites to cop the western half championship of District 11A again this year. Quanah won over the Wildcats here last week by the score of 69 to 53. The "B" string boys broke even in their two games with the Quanah second team, too. Gary Carpenter and Fredrick Youree scored in the twenties at Quanah Tuesday evening. Wesley Cummings, Ivan Cates and Bill Graves looked good in this game, too.

The Crowell boys have won eight and lost five games thus far this season. They have not lost in their own classification. Their victories over Childers, Quanah and Knox City gave them a good record. The Crowell girls have won eight out of ten games played this season and should be strong contenders for the district crown for the third consecutive year.

Very little is known about the Paducah teams. However, the boys were pre-season favorites to win the district championship. They have several boys who are over six feet tall. They, too, have won the majority of their non-conference contests.

Deadline for Math Contest Extended

The closing date for registration for the 1960 High School Mathematics contest has been extended to February 1, according to Louie Huffman, M. U. mathematics instructor and chairman of the district committee.

Other members of the committee are W. A. Morgan, Nocona High School; James Beatty, Archer City High School; Mrs. Josephine Cogdell, Electra High School; and Randall Braley, Wichita Falls High School.

Counties included in this district are: Archer, Baylor, Childers, Clay, Cottle, Foard, Hardeman, Haskell, Stonewall, Throckmorton, Wichita, Wilbarger and Young.

1960 registrations include students from Quanah, Wichita Falls, Munday and Holliday High Schools. Registrations should be sent to Dr. H. J. Ettlinger, The University of Texas.

CHS Football Team Honored at Banquet Last Friday Night

Members of the 1959 semi-finalist Crowell Wildcat football team, their dates, the CHS coaches and cheer leaders were named honor guests at a banquet at the school cafeteria last Friday night.

The CHS dance band, under the direction of Earl Hesse, presented several numbers preceding and during the serving of the meal which was prepared by a Wichita Falls catering service.

Dick Todd, a CHS football star during the 1930's and one of football's all-time great players, served as master of ceremonies for the banquet.

Bill Graves crowned the 1959 football queen, Miss Gaye Ramsey, and presented her with a bouquet. Leslie Thomas made the presentation of gifts of luggage to each of the four coaches: Thayne Ammett, Gordon Erwin, Glen Taylor and L. H. Wall. Jim Henry, on behalf of the team, presented the coaches with footballs autographed by each member of the squad. Mr. Todd then introduced each member of the team, the majorities and the cheerleaders.

The last part of the program was a film shown by Coach Ammett of the bi-district Crowell-Keller football game.

Rotary Club Meeting

Jack Seale was in charge of the program for the Wednesday noon meeting of the Rotary Club January 13. Miss Eudora Hawkins of the West Texas Utilities Co. of Abilene presented an interesting film on the history of electricity.

Visitors at this meeting were Rotarians Vance Favor, Roy Sanson and Sam Breedlove of Quanah.

Down Town Bible Class

Twenty-four men were present at the Sunday morning meeting of the Down Town Bible Class. With Dick Todd in charge of the opening exercises, he introduced Miss Janey Bowers who sang a solo with Mrs. W. W. Lemons as accompanist.

Travis Vecera was a visitor.

JANUARY 31 LAST DAY FOR CANDIDATES TO FILE

With the filing deadline of January 31 rapidly approaching, county politics warmed up a little last week with the filing of two candidates for offices each. As of this week, only two county offices

will have more than one candidate: sheriff, tax assessor-collector and Commissioner of Precinct 1.

Due to the change in the law, all candidates for office must file with the Democratic chairman, Ray Shirley, by January 31 in order to get their names on the primary ballot. First primary will be in May and the second primary early in June.

January 31 is not only an important date for prospective candidates, but also for voters as well. This is the last day on which a poll tax receipt can be obtained to qualify the voter to participate in the many elections—city, county, state and nation—scheduled for 1960.

R. R. Magee stated Monday that 465 poll taxes had been paid up to noon Monday.

Do your duty as a citizen. Not only get a poll tax, but VOTE in every election for which you are qualified.

Rabbits are legal game throughout the state; squirrels in a few areas, but all other game hunting will be in violation, according to the director of law enforcement of the Game and Fish Commission. Shooting, however, will remain open on legal preserves until March 31.

Yea or Nay?

This is sound-off time for CHS students. Last Wednesday was mid-term exam day. The CHS system is set up so that a student may be exempt if he has not missed too much school and has a high enough grade average for the days he is present. Excused absences, as illness, death in the family, etc., count off a little, but poorly excused or unexcused absences count off heavily. A student loses exemptions because of poor conduct, poor grades, deliberately breaking rules, vandalism, or "cutting classes." In spite of the possibility of being exempt, several

students from each class do take the mid-term and final exams. What we're asking is this: How do the students feel about exams, and the absentee system of being exempt? What do CHS kids think of those mid-term tests?

Jackie Hickman says: I don't like them. If you can possibly get enough grade to be exempt, there's no need to take them. They might be good as a review if you had to take them, but I'd rather not. I like the absentee system. Some schools make students take exams and will not allow any exemptions. I'm glad CHS lets us have a chance to be exempt.

Carolyn Werley says: I think mid-term exams exemption system helps the daily attendance in school, and it helps you pay closer attention in class. The students try to make better grades so they will be exempt.

Library Meets

The Crowell High School Library Club met Tuesday afternoon at 2:30 at Mrs. King's room. Hostesses were Wilma Denton and Carolee Oliphant. The meeting was begun with Bonnie Little's giving the devotional.

After a short business meeting, a roll call was held with each member telling her new year's resolutions. Among those were vowing to be a better librarian, keeping the library cleaner, studying harder for the next semester, and serving others better while working in the library as well as in the class room. The meeting was concluded by a sponsor's report by Mrs. King. She encouraged the librarians to be more efficient in the library.

Be Smart—Accessory Wise

These days, good clothes (suits, coats, etc.) are rarely stamped for a certain season. You can rely on accessories to change their looks. The following are a few to try:

1. Buy a new striped shirt with a bow tie.
2. Try something bright white.
3. Add accessories in pale colors. Chamois is a new one. Don't

hesitate if they're lighter than your suit or coat.

4. Short white ones or shirt-striped ones are splendid mood changers.
5. Patent belts and pumps bring spring to black or dark suits.
6. Hats of white straw or felt bring a quick lift.
7. The newest kinds of pins are enamel reproductions of flowers.

These are all inexpensive items that would do so much for your wardrobe. They also prove just how important accessories are.

Judy Borchardt Is Award Winner

The 1960 Betty Crocker Homemaking award winner is our school's senior Judy Borchardt.

She received the highest score in a 50-minute written examination on home-making knowledge and attitudes taken by graduating senior girls. She will receive an award pin, representing the slogan, "Home is where the heart is." Her examination paper will be submitted for competition with other high school winners to name the state Betty Crocker Homemaking award of Tomorrow.

The test, which was prepared and judged by Science Research Associates, was taken by a record number of 379,018 girls in 12,537 schools, an increase of 29,868 girls and 337 schools over last year.

Total enrollment in the six-year-old \$110,000 scholarship program has neared the two million mark. (1,809,152 girls.) Alaska and Hawaii are participating for the first time this year.

Each state Homemaking award winner will receive a \$1,500 scholarship and an educational trip April 23-29 with her school advisor. The tour will include New York City and Colonial Williamsburg and will culminate with the American Table Banquet in Washington, D. C., on April 28, at the Statler Hilton hotel where the All-American Homemaking of Tomorrow will be announced. The runner-up in each state will receive a \$500 scholarship; the school of each state winner will be given a set of the Encyclopaedia Britannica.

The scholarship of the All-American Homemaking of Tomorrow will be increased to \$5,000. The second, third and fourth ranking Homemakers of Tomorrow in the nation will receive \$4,000, \$3,000 and \$2,000 scholarships, respectively.

Boosters Give Banquet for Team

Honoring the Crowell High School semi-finalist football team with a banquet Friday night at the cafeteria were boosters of the team.

As master of ceremonies, Dick

Todd did an excellent job. A bit of spice was added to the program by June McLain. Each of the football players, cheerleaders and majorettes were introduced. Then, Leslie Thomas presented the four coaches with gifts of appreciation.

Jim Henry, on behalf of the team, gave the coaches autographed footballs.

The banquet was highlighted when Bill Graves crowned Gaye Ramsey as 1959-60 football queen. Lovely background music was provided by the Crowell High School dance band. The cheerleaders, Mrs. Kenner and Mrs. Halbert provided the decorations.

The coaches and the football players would like to express their appreciation to all the people who had a part in making the football banquet such a great success. Especially do they wish to thank the individuals who contributed the money for the expense of the banquet and for the gifts.

Freshman Party

The freshman class journeyed to Vernon last Thursday night to see "Journey to the Center of the Earth." They were accompanied by their sponsor, Mr. Hesse, and his wife, Mrs. J. B. Fairchild and Mrs. James Sandlin. The class appreciated the use of the school bus for transportation. Everyone seemed to enjoy the show and fellowship.

Band News and Views

The CHS Band has been rehearsing for concert season. Last Friday night, the dance band played for the football banquet. This group has been improving steadily and is making plans for the big trip to the Dance Band Festival in Brownwood. To help them along, the members have arranged their classes so as to practice at the band hall the last period each day.

Senior of the Week

Wanda James, our featured senior for this week, is 17 years old, 5' 7" tall, and has brown hair and hazel eyes.

In her opinion, the most important people in the world are her parents because they have given her the things that she needed. Of course, we know who ranks second.

Her pet peeve is a person who tries to do everything and finally does nothing.

Wanda is a member of the Sub-Junior Adolphian Club and this year, she serves as vice president. She is also reporter for FHA and serves on the Wildcat staff. She has been a member of the Wildcat band four years and serves on the band council this year.

During her spare time, she enjoys watching football games, play-

ing miniature golf, and just "gobbling."

Her list of favorites include the colors blue and red, Mexican food, football, and typing. Her hardest subject is physics.

After Wanda graduates, she plans to attend either West Texas State College or Tarleton State College where she will major in elementary education. Wanda, we think you will make a fine teacher and would like to wish you much success with your future plans.

"Date Bait" Taken from "Sul Ross Skyline"

Three endless years of waiting and Leap Year has arrived once again. So you think you're out to get big game! The hunt is on. Are you going to be aggressive during this whole year of opportunity or will you just sit back and wait until it is too late?

The first thing to do is to wipe that grin off your face. This is really serious business. The next thing on the agenda is to decide what type of man you want. After making this decision, the procedure for setting the trap as fairly simple.

Below are some particular types of men and some procedures to follow for the type you have in mind:

Close Clarence: Here's a man who pinches pennies for his old age. He will probably die young and leave you a rich widow. By all means, show him how economical you are. If he compliments you on your new dress, say "Oh, that's a little dress I whipped up from a remnant that I bought for 49 cents." He will love you for it.

Prodigal Paul: He's the suave sophisticated type whom you can depend on to show you a good time, but who will no doubt be living on relief later on. Dress to the height of fashion for this man and never let him know that you're having to borrow clothes from your room mate to do it. Never worry about bills because you will probably be living with your parents after you marry.

Fussy Freddy: This man is always primly dressed with never a hair out of place. Never let him see you in your old sloppy levis or with your hair rolled up. Be sure never to wear polka dot blouses with plaid skirts; it may scare him away into next week.

Timid Timothy: This is the type that you untie from his mother's apron strings and wrap around your little finger. Begin the courtship right; show him who's boss, and never go on a date with him unless you wear slacks (the pants in that family).

He-Man Harry: You'll spend most of your time sitting home waiting for this guy, but when he comes home, he's the kind worth waiting for. He will be constantly needing reassurance that he's a man; so get out your frills and ribbons and put on the weakness act.

Sweat Shirt Sam: The athletic type is likely to be a running mate to Careless Carl and both of them could be the cream oil advertisement. This is one time that you don't need to worry about attracting... just be available.

Way Out Willie: Like man, this guy wants a cool chick. Put on your glad rags and show this character that you're way out of orbit. Don't go too far out though, because you might not be able to struggle back in.

If you don't want to take this advice, don't. Cats and rocking chairs are always available to the left maiden—left out, that is.

News and Nonsense

Hi there! Have a nice week end? At least it seemed that everyone was having a grand time at the Plaza Saturday night. Couples were Jim and Carol, Jimmy M. and Gaye, Wes and Jo, Freddie and Patsy S., (Quannah), Ronny and Carra, Billy B. and Sharon, Bobby and Ginger, Taylor and Lynda, Jackie and Elly, Joe and Carolyn S., Edward W. and Judy B., Gary and Barbara—by the way, where did all the gals run off to at once?

Remember last week's predicted "unexpected couples"? Well, how about Carolyn Sue and Joe Barry. Make a cute couple, don't they? And Jackie and Elly!!! And Tom and Charlotte!! Jackie and Linda M., Bill Smith and Margie R.

Well, kids, Lynda and Taylor are going steady again. We told you so!

Looks like there's another triangle around CHS: Marcia, Bobby, Sue. Something's got to give! Taylor and Elly were seen at the ball game Tuesday. Just like old times, huh?

Heard Don Welch and Linda McClain have gotten up quite a case. However, she was with Jackie H. Friday.

Disappointed over the Taylor-Linda steady—Jackie.

Heard the freshmen had quite a party Thursday night. Results: broken steady, Carolyn and Bob. Lonesome over the week end: Janey—Charles was sick.

Built Upon Freedom
 "Our government is strong only because it is built upon freedom. Our nation has flourished because individual initiative has been encouraged. There is great power in Washington because our country prospers through a free enterprise system.

"The government counts on a solid, productive people for strength. When the people are corrupted to believe their salvation springs from the government, both the people and the state will perish"—Riverport, Wyo., Ranger.

Attacks U. S. at Rally

WORTH MORE BECAUSE THEY WORK MORE

Chevy's new torsion springs and Sturdi-Bilt design are changing everybody's ideas about how much work a truck can do. Last year's schedules are out—Chevrolet trucks ride faster over the rough runs to get in more trips a day! Big repair bills are no longer a problem—Chevrolet trucks soak up punishment that means downtime to other makes! And trade-in time's put off for extra thousands of miles—'60 Chevrolet trucks stay new like never before!

New Dollar-Saving Prices

Step-Vans, 4-Wheel Drives, many light-duty models with automatic transmissions—all are lower priced. Prices have also been reduced on all optional VS's.

New Cabs—Wider, Safer, More Comfortable

Many models are a whole 7 inches lower (without sacrificing road clearance), so it's easier to hop in and out of cabs. Still there's more space inside: more room for hats and hips, more foot room with suspended pedals. Cabs are safer, too; new build makes them 67% more rigid.

New Torsion-Spring Suspension

Eliminates I-beam shimmy and wheel fight! With torsion springs up front there's a brand-new, smoother, easier handling feel behind the wheel. New rear suspensions include wide-based coil springs in most light-duty models; tougher variable-rate leaf springs in medium- and heavy-duty models.

Plus Improvements All Through the Line

A new steering linkage system that cuts vibration, means better control. There's new VS efficiency. Sixes long famous for saving. New key-turn starting. Higher, wider visibility. Talk to your Chevrolet dealer about the world's most advanced trucks.

Barbecued Fried Poultry

Fry your poultry the way your family likes it best and when it is a light brown, about 20 minutes, reduce heat to low, add 1 cup barbecue sauce, cover pan tightly and simmer until poultry is tender. You may need to add 2 tablespoons of water if poultry is large and it takes long for it to get tender.

Barbecue sauce: 1 cup catsup or chili sauce, 1/2 cup water, 1/3 cup lemon juice or 1/3 cup vinegar, 1/4 cup firmly packed brown sugar, 1/4 cup butter, margarine or other fat, 1 onion, finely chopped, 1 tablespoon Worcestershire sauce, few drops tabasco sauce or dash cayenne, 1 teaspoon salt, 1 teaspoon paprika.

1. Mix all ingredients in small saucepan. Simmer 10 minutes, stirring occasionally. 2. Use as directed in specific recipes.

Praises Railroads

Senator Carlson of Kansas gave high praise to the railroads for the successful movement of this year's wheat harvest. It marks the first time in many years, he said, that a serious railroad shortage did not develop. And movement was accomplished even though ideal weather made for short harvest, and receipts of grain at many centers ran to record or near-record quantities.

German Product Cheaper
 A midwestern company manufacturing nails pays its workers \$2.90 an hour and sells its product at \$9.80 per 100 pounds. Similar nails from a German plant, with wage costs of 90 cents an hour, can be purchased in America for about 15 per cent less. America now imports about 50 times more nails than it exports.
Railroads Carry Burden
 Even during the Korean War, when competing modes of transport were not hampered by rationing of fuel and scarce materials as in World War II, the railroads were called upon to transport 72 per cent of all military, freight and 64 per cent of military passenger volume. It is generally assumed that intensification or spread of that conflict would have sharply boosted these ratios.

Baptist Boys' Class Social
 The annual quail supper was enjoyed by the following members of the High School Boys' Sunday School Class of the First Baptist Church Monday night: Wendell Callaway, Bill Graves, Jim Henry, Duane Nichols, Dale Henry, Guy Todd Jr., and Melvin Johnson. The event was held in the home of the class teacher, Martin Jones. Special guests were Norman Davis, Young People's Sunday school superintendent, and Young People's Training Union leader, Earl Hesse.
 Chicken had to be substituted for quail because all seemed to have had bad luck with their hunting or else they ate them as fast as they bagged them.
 The informal strictly stag event was prepared by Chas. Davis and Jones with much assistance from the members.
 The menu consisted of fried chicken, mashed potatoes, creamed corn, creamed chicken gravy, hot biscuits, milk or tea, and of course topped off with hot biscuits and syrup. Then for dessert there were delicious home made cookies (courtesy of a considerate mother).
 The strictly stag event is one that is much looked forward to by the class. There is a slight possibility that it will be observed more often in the future.

Austin, Tex.—Nothing that has come out of state government in recent months has caused as big a ruckus as the merit plan auto insurance rates.
 It is possible to take either side of the question and start a lively argument on almost any street corner.
 Critics have mounted a two-pronged attack: (1) to get the Board of Insurance, which authorized the plan, to change it and (2) to get the courts to declare it unconstitutional.
 Board hearing to review the plan was called at the request of Sen. Grady Hazlewood of Amarillo, one of the most vocal objectors to the plan. Just before the hearing, a group of attorneys from the Harris County chapter of the Texas Association of Plaintiffs' Attorneys filed suit in an Austin district court seeking a permanent injunction against use of the plan.
 Chairman Penn J. Jackson declared the Board would listen to all protests with an open mind. Most insurance rates, he said, are subject to frequent changes. However, Jackson emphasized that the Board is directed by law to consider safety incentives and driving records, past and prospective, in its rate making.
 Under the merit plan, drivers with no accidents or moving traffic convictions on their records for the past three years would get lower rates. Compensating for this would be a sliding scale of higher rates to be paid by others according to the number and seriousness of the marks against them.
 Loudest gripes are about the retroactive feature of the plan and the fact that any moving traffic violation, no matter how minor, counts against the motorist.
 Because it does go back three years in effect, the plan is being labeled an "ex post facto law" (law against something that happened in the past) which is unconstitutional.
 Some motorists complain that in the past they have paid fines on tickets when they were not actually at fault—just to avoid the trouble of going to court.
 Sen. Hazlewood derided the idea of putting all violators in the same class—"those that go 23 miles an hour in a 20-mile zone and those that go 100 miles an hour." He charged, too, that much ticket giving is merely a money-raising proposition. Residents of cities where traffic is strictly policed and all accidents and violations faithfully reported to the Department of Public Safety will get it in the neck, said the senator. Small towns are generally less diligent in policing or reporting violators to DPS.
 Hazlewood said he was and still is in favor of a "realistic" merit rating plan.
 Defenders of the present plan say that if law enforcement is at fault, this, not the insurance plan, should be worked on.
 With all the fussing and fuming, say proponents, it must be admitted that motorists are now giving more thought to careful driving than ever before. A traffic ticket costing \$60 is a sobering thought.
TEACHER SESSION URGED
 Texas teachers still hope to get a salary raise in a special session of the Legislature this year.
 Leaders of public school teachers' organizations say they believe Gov. Price Daniel will call a session after Feb. 1.
 Teachers want to see the matter come up at a special session rather than at the next regular session in 1961. In a regular session, they would face again the same obstacles they faced in 1958: the necessity of taking care of regular money needs probably including a deficit, before any new appropriations will be considered.
FACULTY RAISES PROPOSED—Commission on Higher Education recommends the Legislature raise salaries for state college professors by 12 per cent for 1962 and 18 per cent for 1963.
 Commission said Texas colleges need to pay this much more to be able to keep up with other colleges in competing for the available supply of teachers.
 During its last session the Legislature cut the Commission's requested college budget by 7 per cent.
 Commission has agreed to let the University of Houston's request for inclusion in the state college system at its April meeting.
BANKING AUTHORITY SPELLED OUT—Savings and loan associations may not open branches without approval of the State Banking Commission.
 State Supreme Court issued its opinion in an 8-to-1 decision on a case in which a Houston savings and loan association had challenged the commission's right to pass on a proposed branch. Saving and loan associations, like banks, are chartered by the Banking Commission.
 Court said this regulation was necessary to prevent "excessive" by zealous competition through control of building and loan associations in an area.
 Dissenting judge said there was nothing in the law to give the commission this power.
