4-H Youths Leave June 9

4-H Roundup

One of Texas' best known youth organizations will be held at Texas State College on June 9 and 10. The State 4-H Roundup and estimated 2,000 4-H members, county extension leaders, county extension agents and others interested in the youth organization will be present.

The big day will be June 10 when the state winners in 25 judging contests will be named. Those participating in the contests have won that opportunity by first being county winners and then by taking first place honors in their respective districts. Several of the winners will have the opportunity of representing Texas in national contests later in the year.

The first general assembly, scheduled for the evening of June 9, will feature an address by Dr. Kenneth McFarland, educational consultant and lecturer for General Motors, Topeka, Kansas.

The roundup is complete with the chuck wagon and barbecue. The 4-H one is no exception. Everything is in readiness for the 4-H Club Recognition Contest, the chuck wagon barbecue and the opening feature of the second evening's program. The general assembly will follow the barbecue.

Members of the Recognition Committee will be presented by Norman H. E. Burgess of Colleton Station, Texas A&M College. Dr. McFarland will address the statewide gathering. Entertainment for the evening will be provided by members when selected acts of the Show-the-Fun program are presented. Members of the 4-H Council will be in charge of both general assembly programs.

Four County 4-H youth who are planning to attend the Roundup are Jerry Setliff, Charles ten Jim Mac Gafford, Bob Borchert, J. W. Golden, Larry Hord, Wheeler, Jimmy Thompson, R. H. McCoy, Jim Drabek, Arlos Moore, Jan Morris, Martha Fish, Carol Kay Johnson, Linda Mechell, Virginia Kinsey. Alternates to the Roundup is the livestock judging team, which won third place, is composed of Don Welch, Bax Ekers, Junior Hopkins, Jerry Latimer. All of the youth either won first or second in their contests at the district meeting at Wichita Falls last week.

Adult leaders who plan to accompany the Foard County group are Mrs. Henry Borchardt, Ramon Rasberry, Mrs. Otis Ford and Joe Burkett, County agent.

Farm-Market Road Will Be Built to Raspberry Oil Field

Highway 70 Will Be Widened to Cottle County Line

Contractors' notice of high-construction is being run in issue advertising for bids for widening of U. S. 70 from miles west of Crowell to the Cottle County line. A total of 66 miles of grading, structures, base and surfacing is included.

Wildcat Staked on Tom Bursley Land

Four miles north of Crowell, the Anadarko Petroleum Company has staked the No. 1 Tom Bursley well, 1/2 mile from south and west of section 469, block A, T. C. survey.

The test will be a 5,900-foot well.

Health Insurance

According to Dr. Edward L. ... a former president of the American Medical Association, a "do-it-yourself" health program is the greatest insurance policy for a younger, healthier life. The major cause of the aging, he says, is largely the result of faulty, flabby bodies from poor hygiene, excessive fatigue, and aimless living.

14th Annual Santa Rosa Roundup Will Be Held June 24-27

Rex Allen, famous Western singing star of motion pictures, television and radio, will headline a glittering array of specialty acts for the 14th annual Santa Rosa Roundup and Quarter Horse Show in Vernon June 24 through 27.

With his wonder trick horse, Koko, called the most beautiful horse in the world, the star of numerous movies and the successful television series, "Frontier Doctor," will appear at each of the four night performances of this great rodeo.

John Biggs, Roundup general manager, has booked the laugh-provoking Clark brothers, Bobby and Gene, for a return appearance as clowns and also to present specialty acts. Appearing as an added attraction this year will be Billy Buschhorn and his trained horse, Sir Roger, familiar to movie and television fans.

Also featured for the 14th edition of Santa Rosa Roundup will be an attraction guaranteed to send chills up and down the spines of spectators. Girl riders' barrel races, one of the highlights of last year's rodeo, will be on the program again this year with top racers in the nation appearing here in this thrilling and dangerous sport.

Ruby Nance and his great rodeo band from Oklahoma City and popular announcer Cy Tailion will be back to lend their talents to this year's bigger and better rodeo.

More than 200 of the world's best rodeo performers will be on hand to seek the \$8,000 plus entry fees in prize money.

Advance tickets are available by calling LI 2-6868 or by writing Santa Rosa Roundup Ticket Headquarters, Vernon, Texas.

Charles L. Gafford Receives Degree at S. M. U. in Dallas

Mr. and Mrs. Otis Gafford and son, Jimmy Mack, attended commencement exercises at Southern Methodist University in Dallas where their son and brother, Charles L. (Cham) Gafford, received his Bachelor of Business Administration degree in advertising.

He is a grandson of Mrs. C. E. Gafford and Mr. and Mrs. Leslie McAdams of Crowell, and is a graduate of Crowell High School.

Donations Listed for Crowell Cemetery

The following has sent donations to Mrs. N. J. Roberts for the upkeep of the Crowell Cemetery during May:

Jim Cook, \$10.00; Mrs. M. D. Sloan and Mr. and Mrs. Gene Gordon, Fort Worth, \$5.00; Fredia Miller, Childress, \$5.00; Mrs. Bert Matthews, \$2.00; Glen Jones, \$5.00; Mrs. Will Jones, \$10.00; Mrs. Charley Huskey, \$2.00; Mrs. M. S. Henry, \$5.00; Mrs. J. J. Choate, \$2.00; Mrs. Blake McDaniel, \$5.00; W. A. Cogdell Estate, \$14.19; a friend, \$10.00; Mrs. Bert Hanks, \$1.00; Mrs. Alex Krause, Fort Dodge, Iowa, \$10.00; a friend, \$20.00.

Mrs. Roberts said, "We are urgently in need of more contributions. Don't let us down. The Veterans of Foreign Wars placed small flags on soldiers' graves on Memorial Day. It would be a commendable undertaking for some organization or person to list the names of all soldiers who rest in our cemetery. We have those from the Civil War, Spanish-American, and the two late wars and then there would be none overlooked."

History Says Nations and People Who Looked for Security Decay and Rot

"History tells us that every nation and people who look for security instead of opportunity decays and rots. All advancement comes through discovery of new ideals and ideas. In a half century we have discovered and developed thousands of ideas in flying and other ideas of transportation to nuclear energy and over-coming of space by atomic power. Let us pray that we never become a nation of drones or victims of socialism."—Oswego, Kansas, Independent.

Recent Killing of Negro Agitating Race Question

"Recently, an unknown group of scoundrels broke into an Alabama jail and removed a Negro who was charged with rape. The body was found in the Mississippi River.

"Such actions by unthinking, ignorant people, do more to agitate the present race question than any other of the integrators, as well as nauseate the American people who are ingrained with a wholesome respect for laws, enforced by proper authority." —Walterboro, S. C., Press and Standard.

Crowell-Seymour Road to Be Open by June 15th

Resident Engineer Says Final Work Almost Completed

The new road to Seymour from six miles east of Crowell, will be completed and opened to the public by June 15, if weather permits, H. T. Cunningham of Monday, resident engineer, said in Crowell Tuesday morning.

Mr. Cunningham said that the highway would probably have been ready this week, but recent rains have delayed the finishing work.

Gasoline Tax Refund Cards Are Available

Cards (Form 2240) to be used by farmers to file for refund of federal gasoline tax are now available at the county agent's office.

County Agent Joe Burkett suggests that farmers needing these cards pick them up as soon as convenient.

The period covered by the current claim will be from July 1, 1958, through June 30, 1959. The claim must be filed prior to Sept. 30, 1959, and only one claim will be allowed.

To be included in the application will be a request for refund of the federal tax, figured at three cents per gallon, on gasoline used for farm purposes during this period. Do not include gasoline used (1) on the highway, (2) in processing, packaging, freezing or canning operations, or (3) for personal or non-farm purposes.

The claim should be filed with the U. S. District Director of Internal Revenue.

These forms have no connection with claims for refund of state gasoline tax, Mr. Burkett said. The latter claims are processed by state authorities.

Free Will Baptists Have Conference in Crowell Church

The Free Will Baptist quarterly conference was held from Thursday through Saturday afternoon with the Free Will Baptist Church of Crowell acting as host to delegates from Amarillo, Vernon, Levelland, Lamesa and Andrews.

Swimming Pool Opened Friday

The Crowell Municipal swimming pool opened for the season last Friday. There was an average of 150 per day in the pool for the first three days. However, the rains this week have caused cooler weather and a slow-down in the number of participants.

Miss Jerry Fairchild Receives Scholarship in Midwestern Band

Miss Jerry Fairchild, a 1959 C. H. S. graduate, has received a band work grant scholarship at Midwestern University in Wichita Falls.

The scholarship is valid for one semester, but will be renewed as long as Miss Fairchild's scholastic achievements and band membership are satisfactory.

Miss Fairchild is a daughter of Mr. and Mrs. J. B. Fairchild.

Three New Vehicles

Three new pickups were registered here last week as follows: May 30, J. M. Barker, 1959 Ford pickup; June 1, Glen Gamble, 1959 Chevrolet pickup; June 1, B. A. Whitman, 1959 GMC pickup.

Alton Cavin Named 'Lion of the Year' in Wichita Falls

Alton H. Cavin, son of Mr. and Mrs. C. L. Cavin, was honored by the Wichita Falls Lions Club Wednesday of last week by being named "Lion of the Year" of the Wichita Falls Club for 1959.

Mr. Cavin has been very instrumental in many worthwhile activities in his community. He has been active in helping with the Children's Center, a school for retarded and physically handicapped children; active in the Sight Conservation Program for school children of this area; and in the promotion of the Lions Club Boy Scout Troop in North Wichita.

In addition to being Lion of the Year, Mr. Cavin was also elected first vice president of the club.

Both Mr. and Mrs. Cavin are graduates of Crowell High School. Mrs. Cavin is a daughter of Mrs. J. L. Bradford of this city.

Tom Crowell to Begin Special Course at University of Texas

Thomas Crowell, son of Mr. and Mrs. Marion Crowell and a senior in Crowell High School, is one of 30 talented high school students selected by the University of Texas to take part in a summer "science enrichment" training program in modern experimental biology.

The students were chosen on the basis of IQ scores, current grades, essays, and recommendations of teachers and superintendents. Dr. Irwin Spear, University botanist and program director, said:

An \$8,970 National Science Foundation grant will help support the six-week summer program beginning June 16.

"Primarily the summer biology program is designed to present the exciting field of modern biology to a selected group of talented high school students. We hope this exposure will fire their interest in science as a career," Dr. Spear said.

The biology program is one of two new high school student-training programs the University will initiate this summer. A third program, in chemistry, was begun in 1956. The chemistry program proved so successful the idea was adopted by several other Texas colleges in 1957 and 1958. This is the first summer NSF has helped finance the program.

The students will receive allowances to cover costs of room, board, travel and books. They will be housed in University dormitories.

To Serve as Judge at Stamford Reunion for 30th Consecutive Year

George Humphrie of the 6666 Ranch, Guthrie, will serve for the 30th consecutive year as a judge in the Cowboy Reunion at Stamford which starts July 2 for three days.

The long-time Guthrie rancher has been a judge since the rodeo began in 1930, according to W. G. Swenson, president of the reunion.

"One of the most difficult problems in a rodeo is the selection of judges," noted Swenson. "It takes a lot of know-how and riding skill to cover a rodeo arena and judge the contests."

'Socialistic Chickens Are Coming Home to Roost'

"Our financial problem is not something that developed overnight. It has been in the making ever since the national government began toying with the Marxist theory of unequal taxation—soaking the rich to pay for government. Such a theory worked as long as government costs were reasonable and restricted to governmental functions. But as the Marxism spread and . . . government took on more and more of the responsibility of the individual to provide for himself, the cost of government became more than the rich alone could pay for . . ."

"Our socialistic chickens are coming home to roost . . ."—Italy, Texas, News-Herald.

Future of Nation Depends on Intelligent Thinking

"The other day we started to explain to a friend why we hoped to continue operation of The Independent. Since we felt the future of our nation depended on intelligent grass-roots thinking, we felt the smallest community in the nation was far more important than the biggest city . . . that the smallest newspaper was perhaps more important than the largest daily . . . that if the smallest community couldn't take care of its own welfare, the county couldn't, or the state, or the nation, or the world."—Whitewater, Kansas, Independent.

No Changes Made in Methodist Pastors in County

All pastors of the Methodist Churches in Foard County were returned to their respective churches at the annual conference held in Abilene last week.

Childress District—J. Edmund Kirby, superintendent; J. Carl Hudson, Crowell; Thomas T. Beck, Margaret-Medicine Mound; Garner J. Berg, Thalia; David E. Stephens, Truscott-Foard City. Pastors returned to neighboring towns were M. Horace Brooks, First Church, Quannah, and J. E. Shewbert, First Church, Vernon.

Other appointments of interest to Abilene Methodists are: Hubert Thomson, district superintendent; Ray N. Johnson, Aldersgate, Abilene. Amarillo District: Vernon N. Henderson, San Jacinto, Amarillo, Brownfield District: D. D. Denison, superintendent. Lubbock District: Carlton H. Thomson, Crosbyton.

Singing to Be Held at Margaret Sunday Afternoon

It is generally believed there has never been a time, including the present, when the world was entirely free of cannibalism.

There will be singing at the community house in Margaret Sunday afternoon at 2:30. Everyone is invited.

OVER 161,000 BUSHELS OF WHEAT HARVESTED

Harvesting of the 1959 wheat crop of Foard County started the latter part of last week, but the heavy rains over the county Monday night stopped the combines, with the wheat barely underway.

The five elevators of the county had received approximately 161,100 bushels of wheat by Tuesday afternoon. However, the skies remained cloudy during Tuesday and more rain fell early Wednesday morning. The rain was accompanied by high winds.

Although there has already been excellent yields reported on irrigated land, and there will be some very good grain made on unirrigated fields, the general yield per acre reported so far in this harvest season was from 4 to 10 or 11 bushels.

T. F. Lambert Jr. of the Rayland community completed harvesting 79 acres of irrigated wheat Monday which averaged 30 bushels to the acre. According to a report, Mr. and Mrs. Harry Schlagel, who live northeast of Crowell, made an average of 22 bushels without irrigation. Many fields that were in the soil bank and summer fallowed will also make good yields per acre. Very few of these had been harvested until the News went to press Wednesday afternoon.

Rain Delays Little League Opening Game Tuesday

Rains and wet grounds delayed the long-awaited opening of Foard County Little League Tuesday night, June 2, but the teams originally scheduled for Tuesday play will lock horns on Friday night (tomorrow) in the initial contests of the season, with the V. F. W. Cardinals in the 6 p. m. game, and with the Rotary Braves taking on the Farmers Elevator Yankees in the night game at 8 p. m.

A short pre-game league opening ceremony will precede the night game, according to Little League president Marion Crowell, and Little League Inc. District Representative Arch Hughes of Iowa Park will toss out the first ball.

Mr. and Mrs. Clark Hitt Resign Jobs in Crowell Schools

Mr. and Mrs. Clark Hitt, teachers in the Crowell Elementary School for the past five years, have resigned from their positions. Mrs. Hitt has been Principal and teacher of eighth grade history. Mrs. Hitt has been teaching English in the Intermediate Department.

They are moving to Lancaster, where they owned their home before coming to Crowell. Mr. Hitt will teach in one of the Dallas schools, and Mrs. Hitt will teach in Lancaster.

Several applications have been filed for Mr. Hitt's position here in the Crowell School. The Crowell School Board will probably fill the place next week.

Youth Fellowship Will Not Meet Again Until Fall

The City-wide Youth Fellowship will not meet during the summer. Programs will be resumed after school starts, it was announced Tuesday.

Bakery Sale Saturday

The ladies of the Bethel Church will sponsor a bake sale at the home of Mrs. Ike Everson beginning at 10 a. m.

FOUR-FOOTED FURY, represented by this storm-kicking bareback bronc, falls to unseat the well-balanced bronc rider. To stay aboard, the bareback rider has only a simple rigging to hang onto, a plain cinch with a leather handhold. The ride lasts for eight seconds, eternity enough on this kind of a hot seat. The nation's top contenders will be competing in this event at the Santa Rosa Roundup in Vernon, Texas, June 24-27.

Problems Tougher and Incentives Weaker

According to Petroleum Week, in the exploration for oil the problems are getting tougher and the incentives weaker. The cost of finding oil continues to be a major headache to the explorers. Recent developments in exploratory techniques have, for the most part, increased costs instead of lowering them.

STATE CAPITAL
Highlights
AND
Sidelights
by Vern Sanford
TEXAS PRESS ASSOCIATION

Austin, Tex.—Whether or how the state's tax problem is met now depends largely on the Senate.

House members, apparently eager to "get the monkey off their backs," passed out most of the program recommended by Governor Price Daniel.

Biggest milestone was House passage by a 71-to-56 majority of the governor's "package bill." As finally passed, it would raise about \$150,000,000 in two years—only about \$10,000,000 short of the governor's goal.

Included in the "package" would be an increased levy on natural gas, a new franchise tax on interstate corporations and bigger taxes on tobacco, liquor, automobiles, utilities, etc.

Some members bitterly criticized the bill as dangerous to Texas' industrial future and a product of the labor-liberal lobby. But most seemed to agree that it is "the only way to avoid a general sales tax or income tax."

Senators showed no apparent desire to set a speed record on the first money-raising bills sent them by the House. Bookkeeping bill, designed to erase part of the \$65,000,000 deficit by changing the accounting procedure, was sent off for an Attorney General's opinion on its constitutionality.

A bill to increase the corporation franchise tax for one year only—also to ease the deficit—was set aside. Better to wait for the whole program, the Senators decided, than to work at it "piecemeal."

Senate did take one step forward, however, when Sen. Crawford Martin of Hillsboro introduced

the abandoned property bill which had bogged down in the House taxation committee.

STITCH-AND-CUT TEAM—Ten lawmakers—five from the House, five from the Senate—have the difficult task of making one package out of the different spending bills passed by the two houses.

Sen. William S. Fly of Victoria and Rep. Bill Healy of Paducah head the group. House-passed appropriation bill is more than \$20,000,000 larger than the Senate's. Conference Committee's task will be to cut a little off here, tuck a little on there until an acceptable compromise is reached.

In past sessions, this piecing together process has taken several weeks. Even on a day-and-night schedule, this committee will be hard-pressed to finish its job before the present session ends in mid-June.

More than different spending ideas separates House and Senate. Each house used the bill to express its ideas on how the State Board of Insurance should operate. House says full-time; Senate, part-time. Unyielding views have been expressed on each side.

ELECTION CHANGES URGED—Study leading toward a complete revision of the Texas Election Code is the goal of a House-passed resolution.

Rep. Harold Parish of Taft is sponsor. If passed by the Senate, the resolution would provide for a 15-member committee to draft recommendations for the 1961 legislative session.

Making up the study panel would be three House members, three Senators, the Attorney General, the manager of the Texas Election Bureau, three persons named by the governor and four persons named by the national committee members of the Republican and Democratic parties.

ALL ONE JOB—Two House committees—taxation and appropriations—would be merged under a resolution proposed by Rep. Truett Latimer of Abilene.

One committee of 31, called the House Ways and Means Committee, would replace the two 21-member groups.

Latimer declared that since

money raised and money spent have to come out even, it would be more logical to have the decisions made jointly rather than separately.

FARM-TO-MARKET ROAD CHANGE—State's pressing money shortage may bring about a change in the favored budget position farm-market roads have had for the past 10 years.

Since the Colson-Briscoe Act was passed in 1949, the General Revenue Fund has been automatically nicked \$15,000,000 a year for F-M roads. Goal was to build 35,000 miles of all-weather rural roads.

Rep. Richard Slack of Pecos has introduced a bill to take F-M road spending out of the State Highway funds rather than from General Revenue. It would not cut farm road spending, but would reduce the money available to the Highway Department for state highways.

Sen. Neveille Colson, Navasota, co-author of the 1949 act, opposes any alteration in the program. Even though more than 29,000 miles have been paved, she said there are still school bus and mail routes that are not "out of the mud."

Farm Bureau opposes, as well as others who say that it will lead to an increase in gasoline taxes to make up the cut in highway funds.

Those favoring the change argue that the farm road program has had creamy spending for a long time, but that with general

revenue going \$65,000,000 in debt it can no longer be afforded.

VALUE-RATE the ROCKET

The man who knows value goes Olds!

More and more medium-priced car buyers who want the most for their money are joining the swing to Olds. Why? Because they figure up all the extra quality features and conveniences Olds has as standard equipment. They carefully consider the economy of the Rocket Engine... the low-cost maintenance of an Olds... its higher resale value. But most of all they ask themselves,

"Is this the kind of car my family and I will be proud to own... one that will give us the full measure of fun and comfort we want... is this the car whose style will stay in style?"

The overwhelming "yes" can be found in the zooming sales success of the '59 Oldsmobile. See your Oldsmobile dealer today... Value-Rate the Rocket!

A recent Supreme
 Court decision plac-
 ing companies that
 issue a relatively
 new form of annu-
 ity insurance under the Securities
 and Exchange Commission affords
 added protection to those who
 invest in order to provide income
 in their later years.

The decision applies only to
 Variable Annuities, so called be-
 cause the income from such annu-
 ities varies with changes in the
 purchasing power of the dollar.
 They protect the holder against
 inflation that would reduce the
 buying power of his income from
 the annuity.

Through a regular annuity, you
 can purchase a fixed income for
 life. For example, a man aged
 65 can pay \$10,000 to a life in-
 surance company and receive
 \$783.30 a year for as long as he
 lives. The payment remains the
 same regardless of the purchas-
 ing power of the dollar.

Under the Variable Annuity
 plan the dollar amount of the an-
 nuity fluctuates up and down in
 accordance with the market value
 of the stocks in which the annuity
 company has invested its reserve
 funds. When stock prices rise the
 annuity increases, and when they
 decline the annuity does also.

Decision Ends Dispute

The S. E. C. claimed that a
 variable annuity is not life insur-
 ance but is essentially a security
 and that companies issuing the
 new form of annuity should be
 regulated by it under powers
 granted it by Congress.

The companies issuing variable
 annuities claim that these are life
 insurance contracts, the same as a
 fixed annuity, and therefore should
 be regulated by the state laws
 that govern life insurance. State
 laws covering life insurance vary
 from state to state.

The life insurance field is one
 in which I worked full time from
 1912 to 1938. During the last
 seven years of that period I wrote
 more life insurance each year
 than anyone else in the world.
 Based upon this experience, I be-
 lieve the decision to place the
 companies which issue variable
 annuities under S. E. C. regula-
 tion will be helpful to all those
 who purchase such annuities.

Regulatory Agencies

Two divisions of the S. E. C.
 will supervise the companies ef-
 fected by the court decision. They
 must register with the Corporate
 Finance Division, and they will be
 regulated by the Division of Cor-
 porate Regulation.

Harry Heller, Assistant Direc-
 tor of the Corporate Finance Di-
 vision, has been with the S. E. C.
 for more than 20 years and is well
 qualified to see that complete in-
 formation regarding the issuing

Revision of Tax Laws Needed

Annual Texas 4-H Roundup Set for June 9-10 at College Station

"4-H Leads the Way" is the theme of the 1959 Texas 4-H Roundup to be held on the campus of Texas A&M College on June 9-10. An estimated 2,000 4-H members, adult leaders, county extension agents, friends of 4-H and others are expected to attend.

While major emphasis and activities of the Roundup will be devoted to determining state winners in 25 different judging and team demonstration contests, plans have been perfected for other features. The feature of the general assembly on the evening of June 9 will be an address by Dr. Kenneth McFarland, educational consultant and lecturer for General Motors, Topeka, Kansas.

Always a highlight of the Roundup, the Chuckwagon barbecue sponsored by the Texas 4-H Club Recognition Committee, will be the opening feature of the second evening's program. A general assembly will follow the barbecue and will feature an address by President M. T. Harrington of the Texas A&M College System. Entertainment for the evening will be provided by 4-H members when selected acts from the Share-the-Fun program will be presented. Members of the State 4-H Council will participate in both general assembly sessions.

June 10 will be a day long remembered by the 4-H members. They will be competing for state

honors, and in some cases, the right to represent Texas in national contests. All contestants won the opportunity to participate in the state contests by winning first place in their county and then by placing first or second in their respective district contests. Seven teams from Foard County will compete in these contests.

They are the: land judging team composed of Jerry Setliff, Charles ten Brink, Jim Mack Gafford and Bob Borchardt; dairy judging, J. W. Golden, Larry Hord, Joe Wheeler and Jimmy Thompson; safety, Margie Rasberry and R. H. McCoy; Farmers Co-Op method demonstration, Cecelia Drabek and Arlos Moore; vegetable producing and marketing, Janice Morris and Martha Fish; poultry method demonstration, Carol Bell and Kay Johnson; vegetable preparation, Linda Mechell and Virginia Kinsey.

The livestock judging team won third and is the alternate team for the state contest. Members are Don Welch, Junior Hopkins, Jerry Latimer and Paul Bax Ekern.

The youth phase of Agricultural Extension Service work in Texas is now in its 51st year. Last year, 106,239 boys and girls were members of the state's 4,026 local clubs.

162 Pay Fines For Forgetting Fishing License

Game wardens booked 162 persons during the month of March for fishing without a license. It was the first time in several months that any other violation exceeded trespassing. There were 22 arrested for fence climbing, however.

The wardens also arrested 10 persons for illegal use of electric devices—telephoning—to catch fish.

The monthly report of the director of law enforcement shows violators paid fines of \$9,886.33 and costs of \$617, making a total of \$10,503.33 for the month.

Such charges as shooting doves, quail, duck, deer and turkey out of season also were shown on the report. There were 36 arrests for hunting at night in known deer range.

"At the beginning of the fishing season we always find many persons who try to get by without buying a fishing license," the director said. "We can expect that

News From the Congress

by Frank Ikard, 13th Dis.

Recently the House acted upon the appropriation for the Department of Agriculture. While there can be no real question but what our present agricultural program needs to be changed in many respects—in fact, probably completely reworked—there is a great deal of misunderstanding about the program, and about the use for which the funds appropriated are used. Many implications recently in the press leave the impression that all of the money spent by the Department of Agriculture goes directly into a farm subsidy program. The truth of the matter is that a great number of activities are carried on by the Department of Agriculture for the benefit of the public generally and should not be charged to the farmer or to those engaged in farming exclusively. In the first place, the Department is the largest regulatory body in the Federal Government. It administers over fifty different laws, many of which protect the consumer, such as ensuring clean, healthy meat and poultry through Federal inspection, and the grading of meat products.

Second, all of the farm commodity export program is handled through the Department. Third, millions of dollars in the form of loans are made annually through the Farmers Home Administration and the R. E. A. This money is all in the form of loans, and the rate of repayment has been very high. The Department also conducts an extensive market research program which has developed new handling methods of farm produce and has provided the technique for reducing food handling costs, all of which are of primary benefit to the consuming public, and about \$22 million a year is spent on the eradication of brucellosis which is primarily a program to protect the health of the public.

The Department of Agriculture also disposes, through sales to friendly foreign countries, of a substantial part of our agricultural surpluses. Up to now, they have sold over \$7½ billion worth. It also administers the School Lunch Program and the program which provides dairy products to veterans in armed forces hospitals. In addition, the Department also handles soil and water conservation work which is one of the most vital and important programs to those of us living in the Southwest. The simple point is that even though there is a need for substantial revision in our agricultural program, much of the expenditures that are allegedly charged up to the farmer never reach him but are spent on programs for public benefit.

where some 8 million persons are involved. The shooting of game birds and animals, however, after the season has closed is deliberate. Some of the courts are giving maximum fines on this type of violation."

Spectacular Failure
The National Association of Manufacturers states that the most spectacular failure in the Russian planned economy has been in agriculture. Soviet agricultural labor productivity per worker is only one-sixth to one-twelfth that of the American farm worker.

In 1850 there were scarcely a dozen writers of merit producing stories for children.

Power Mowers Can Be Deadly in Hands of Careless

"For a boy, the power mower is probably the smartest thing to appear on the American scene since Tom Sawyer finagled his friends to pay him for white-washing Aunt Polly's fence."

J. O. Musick, general manager of the Texas Safety Association, made the above statement this week as he cautioned Texans to take "extra care" when using power-mowers, edgers and clippers.

"Handy as the mechanization of lawn tools may be, they also have at least one disadvantage: that is that they can be extremely dangerous when handled by an inexperienced or careless worker," he said.

Musick stated that one study of power mower accidents revealed that one injury in every seven results in a permanent disability; that 70 per cent of injuries came about through direct contact with the mower; and that 30 per cent were caused by shrapnel-like objects thrown from mowers.

"This, of course, does not mean that we should condemn all power lawn tools," Musick said. "It means that the operator must be aware of the tool's inherent dangers and know how to counteract them."

The safety expert offered the following twelve safety suggestions as an aid to reducing hazards when working with power lawn equipment:

1. Never permit small children to operate any kind of power mower, edger or clipper.

2. Know how to throw tool out of gear quickly.

3. Know how to stop engine or motor immediately, and NEVER leave the tool unattended when running.

4. Allow for gas expansion when filling tank and be sure engine is turned off and cool before refueling. Always refuel out of doors.

5. Use approved fuels and store them in safe containers.

6. Clean yard of debris before mowing: i. e., sticks, bones, rocks, etc.

7. When starting a mower, maintain your balance and have solid footing.

8. Do not allow pets, children or other bystanders near mower during operation. This will prevent their injury by objects thrown from the mower blades.

9. If using electric equipment, be sure motor is grounded and wiring is in perfect condition. Never mow or clip when grass and shrubs are wet.

10. Maintain firm control of mower. Mow hills sideways—not up and down.

11. Disconnect spark plug, or electric plug, before working on power tool parts or while oiling. Always keep hands and loose clothing away from blades or other moving parts.

12. Be AFRAID of all power mowers and other tools—you are not as apt to become careless.

Austin Highlights

by Senator George Moffett

Texas is faced with one of the most serious financial problems in its history. Many other states have the same problem. In the past ten years the population of our state has increased by nearly two million people. Enrollment in our public schools and colleges is increasing by 100,000 each year. Since the state pays 80 per cent of the cost of operation of the public schools and state-supported colleges, it follows that about \$40 million of additional revenue must be raised each year just to take care of the normal growth of the school system.

This same record-breaking population increase also overworks our state hospitals and penitentiary system, both of which have more inmates than they have ever had. These conditions, plus the rising cost of all supplies purchased by the state, create a need for an annual increase in state revenue of at least 60 million dollars.

Unfortunately on account of foreign oil imports, our state tax revenue on oil has been reduced 42 million dollars. In order to take care of the state's contribution to the schools and colleges, hospitals, penitentiary, etc., and also offset the loss in oil revenue, it is necessary to increase statewide taxes in the amount of about \$100 million per year to keep our state government running as it is now.

In addition to this \$100 million the Hale-Aikin program for expansion of school facilities and increased teacher salaries calls for another \$100 million in new state revenue annually. In the judgment of most members of the Legislature, the people of Texas cannot stand anywhere near a \$200 million increase in taxes at this time.

The tax bill considered in the regular session actually would have provided only about \$30 million in new revenue. It failed of passage. The special session is faced with the problem of how much additional tax money should be raised and where it should come from.

Most members of the Legislature, including myself, would appreciate statements from the people generally about this serious tax problem. To restate the matter as clearly as possible, it will take nearly \$100 million annually in new taxes to keep our state government going on the present basis of operation for its schools, colleges, hospitals, highways, etc.

Do you think that more than \$100 million in new taxes should be levied by the special session

Spring Rains Prove Benefit to Wildlife

General rains throughout Texas during the past two weeks have brought on many favorable conditions for the benefit of wildlife according to the assistant secretary of the Game and Fish Commission.

"These early rains will promote fine grass and cover for both birds and animals," he said. "This is particularly good for the production, provided we don't have floods during the nesting season."

There was an exceptionally early carry-over quail crop in many of the areas of Texas during the past season, according to the assistant secretary. In areas, however, where additional stock is required, he will be an ample number of quail from the State game farm at Ler.

"Now is the time for landowners to place their orders for quail," he said. "If they will contact their game wardens, wardens can inspect their property and they can order the quail for future shipment."

The quail are sold to landowners at 50 cents each for restocking purposes. This is approximately half the cost of production.

They are not released in suitable areas, however. To must be sufficient cover and possibilities to care for the birds.

In some places sportsmen clubs have bought the quail release on land where hunting privileges will be available in season.

England, because of its bells, has been called "the ring isle."

Television News
Man, I really had to "eat crow"
for Mamie Thomas the other day.
She called me in to look at her
TV. Big black bars rolled through
the picture.
"Mamie," I said to her, must-
ering my most wise and profes-
sional manner, "Don't you know
that's just another station on the
same channel?" She insisted that
no one else had it but her.
I ran over to Guy Morgan's
house. His reception was fine . . .
NO black bars. I bounced into Jack
Spikes' house . . . reception O. K.
NO black bars!
So back to Mamie's I went . . .
turned the set back on . . . and
then I ran onto a hot clue . . .
turning the volume back to where
the set was perfectly still killed
off the black bars, but ANY kind
of vibration . . . even the slight-
est . . . would start the black bars
rolling through her picture.
Eventually I pulled the chassis
out to the shop . . . tied
the old oscilloscope to about
the mid-point of the circuitry . . .
where my reference lines should
have been perfectly straight, there
were about 8 wiggly lines instead
(in perfect step with the black
bars displayed on her picture tube
after that it was easy, and
now, once again, Mamie is my
neighbor and friend!

Foard County Little League News

by Marion Crowell, President

Sixty impatient Little Leaguers
were terribly disappointed Tuesday
night. The old "No Game . . .
Rain" sign was up, and the game
they had waited months for was
delayed for another three nights.
But this extra day or two will
allow the field maintenance com-
mittee to strut its stuff and really
put the field in top shape. Previ-
ously, T. R. Cates and L. G.
Simmons had worked it over with
the big City maintainer, but the
mound still remains to be built
up to regulation height, the in-
field needs smoothing up more, and
the foul lines need to be run.

The kids really worked this past
week . . . and the managers (many
at quite a sacrifice) worked with
them daily, and many improve-
ments in playing ability were
noted by the end of last week.
Many amusing things happened,
of course. One youngster told
manager Gordon Bell: "I'll just
give it to you straight. I throw
better than I hit . . . and I just
CAN'T catch that ball!"

Incidentally, all managers seem-
ed to think the parents should be
informed relative to what the
league furnishes, so here's the
dope: The league furnishes the
bats, balls, uniforms (including
caps and socks) and all the catch-
ers' equipment. The boys are ex-
pected to furnish their own gloves
and their own shoes (and they can
be either tennis shoes or Little
League-approved rubber soled,
rubber cleated shoes.) Don't miss
our season opener Friday night.
You're gonna be proud, proud of
our Little League kids!

Railroads Honored

The nation's railroads have been
presented with an "Appreciation
Plaque" by the National Council
of the Boy Scouts of America for
the role they have played in the
promotion of safety among youths.

NATO Observes 10th Birthday

"Ten years ago . . . the United
States broke a tradition that had
existed since the foundation of
the Republic. Despite the gloomy
prediction of a minority the United
States joined a peacetime mili-
tary alliance—the North Atlantic
Treaty Organization . . .

"On its 10th anniversary NATO
stands as the hope of the free
world. Bitterly reviled and oppo-
sed by the Soviets—as it was . . .
by Russian attempts to weaken
or dissolve it—NATO remains the
great and indispensable bulwark
against aggression in Europe or
North America." — Williamsburg,
Va., Gazette.

points.

CHEVY BESTS

Independent experts and official facts and figures prove Chevrolet's ahead of its field in seven big ways.

BEST BRAKES . . . In direct competitive tests of repeated stops from highway speeds, conducted by NAS-CAR*, Chevy out-stopped both the other leading low-priced cars—and why not: Chevy brakes are far larger, built with bonded linings for up to 66% longer life. **BEST TRADE-IN** . . . Check the figures in any N.A.D.A.† Guide Book. You'll find that Chevy used car prices last year averaged up to \$128 higher than comparable models of the "other two." **BEST STYLE** . . . Popular Science magazine sums it up: "The fact is, in its price class the Chevy establishes a new high in daring styling . . ." It's the only car of the leading low-priced three that's unmistakably modern in every line. **BEST ECONOMY** . . . No doubt about this: two Chevrolet Sixes won their class in the famous Mobilgas Economy Run, got the best mileage of any full-size car. **BEST ROOM** . . . Official dimensions reported to A.M.A.‡ make this clear. For example, Chevy front seat hip room is up to 5.9 inches wider than comparable cars. **BEST ENGINE** . . . Every motor magazine has given Chevy's standard and Corvette V8's unstinted praise. As Sports Cars Illustrated puts it: "Indeed, this device is surely the most wonderfully responsive engine available today at any price." **BEST RIDE** . . . You'll be able to tell this yourself, instantly. But Motor Trend magazine expresses it this way: ". . . the smoothest, most quiet, softest riding car in its price class."

About Your HEALTH

A weekly public service feature from the Texas State Department of Health. HENRY A. HOLLE, M. D., Commissioner of Health.

How often have you asked yourself, after reading a newspaper account of the authorities swooping down on a narcotic den, what would prompt a person to willingly become a slave to the drug habit? It seems unreasonable that any normal, healthy person would deliberately endanger his life, family and future by allowing himself to become enmeshed in a net from whence there is often no escape. Yet, many thousands have developed the sleeping pill habit without considering the possibilities of becoming an addict to the drug. A habit of this type is a menace to health as well as the cause of an alarming number of deaths.

Weekly Sermon

April 15 Deadline The east end of Chicago's busy, eight-lane Congress street expressway runs beneath the main post office building. Traffic in that direction was unusually heavy late on the night of April 15 as people hurried to mail their income tax returns. I did not see nor hear the crash, but arrived on the scene perhaps a minute after it took place. A car had sliced sideways into a giant concrete and steel utility pole and scattered into a dozen pieces. One man was lying on the pavement critically injured. Though conscious, he could not rationally receive spiritual help. The other occupant was grotesquely pinned beneath a front wheel. For this 18-year-old youth, help of any kind was forever too late. Driving away, I wondered, where is he now? He was either in heaven or hell, depending on his relationship to the Saviour, Jesus Christ. But had he ever heard the good news of forgiveness of sins? Had any man cared for his soul? Benjamin Franklin said that in this world nothing is certain but death and taxes. We know the tax deadline and prepare to meet it. The wise man will not let death catch him unaware; he prepares to meet his God (Amos 4:12). "Behold, now is the accepted time; behold, now is the day of salvation" (II Corinthians 6:2). "Believe on the Lord Jesus Christ, and thou shalt be saved" (Acts 16:31). Live so that if this day should be your deadline, you will not be ashamed to stand before God.

Sleeping pills, or "goof balls" as they are commonly referred to by addicts, belong to a group of drugs known as the barbiturates, which when properly used have a high medicinal value. The too frequent or indiscriminate use of the drug may lead to serious illness, mental crampings and death. As an individual continues to use sleep-inducing medicines without consulting a physician, the dose required to relax and put him to sleep grows larger and larger. It is here that the grave danger lies-then tentacles of addiction have entangled him and he is unaware of the fact. His tolerance to the drug has been so greatly increased that to be effective, the dose must necessarily be greater than a physician would ordinarily prescribe for a patient. In severe cases, to overcome the habit of inducing sleep with these pills, the help of a physician is advisable. But in most cases good living habits, moderate exercise and sufficient rest will insure sleep. Often drinking a glass of warm milk before going to bed and light reading to relax the mind will help produce sleep. Regardless of how the habit is broken, it should be broken before it causes serious damage. (A weekly public service feature of the Public Health Education Division, Texas State Department of Health.)

Bright Side to Much-Discussed School Picture

The Chamber of Commerce of the United States finds a bright side to the much-discussed school picture. Since World War II, the number of teachers has increased more than 50 per cent, and the average number of students per teacher has declined from 28 to 26. Where total expenditures for public schools, including construction, came to \$2.9 billion in the 1945-46 school year, the figure for the current year is \$14.4 billion. More than 600,000 classrooms have been built in the postwar period.

Farm Tractor Can Be a Killer

Ignorance and carelessness in using farm machinery are sure ways to make the headlines. Records show that more than 1,100 fatalities in the United States each year are caused by tractor accidents. Joe Burkett, County Agent, offers suggestions for preventing such accidents. A child's safety is a parent's responsibility, he says. Teach children the importance of safety and point out dangers involved in the use of machinery. Emphasize that operating a tractor is a job for a mature person. Tractors are involved in 35 per cent of all farm accidents making it the Number One farm killer. Forty per cent of all tractor accidents are fatal to the operator. Chances of an upset, points out the agent, increase four times when speed is doubled. If possible, lock brake pedals together when driving on the open highway. Use brakes cautiously and keep them evenly adjusted. Other safety suggestions by Burkett are: throttle down before making turns, do not carry extra riders on either the tractor or on trailed implements, and avoid last week.

Most Comprehensive Alliance in Time of Peace

Ernest K. Lindley writes in Newsweek: "NATO is the most comprehensive alliance ever formed in time of peace. Its primary purpose was and is to prevent a great war. Behind its shield, Western Europe has recovered its vigor and progressed to new heights of economic strength and well-being. The operations of NATO, with all of its apparatus and the habit of consultation, have brought the West together in closer fraternal association. From this, much more may develop in the future..."

Miss Susie Johnson and Mr. McClellan Wed in Denton Thursday

In a simple but impressive ceremony, Miss Susie Johnson became the bride of John R. McClellan Thursday of last week in the home of her sister, Mrs. Ben F. Witt of Denton.

The single ring ceremony was performed before a background of baskets of white gladioli, jade greenery, and candelabra holding stately white tapers. Nuptial music was furnished by the bride's niece, Miss Suzanne Witt, and the bride's nephew, Dan Witt, who sang "Because" and "I Love You Truly."

The bride looked lovely in a street-length tuck, navy blue, crepe dress styled by Mancini of California, and fashioned with scooped neckline, accented by a white collar. She wore a tiny white straw hat, and other accessories were bone color. Her corsage was of white gardenias.

Mrs. Witt served her sister as matron of honor, and J. Hurl McClellan of Gatesville served as best man.

A reception was held in the Witt home immediately following the ceremony. Those attending were members of the wedding party and Mr. and Mrs. Joel McClellan of Chillicothe, Mrs. Hurl McClellan, Mrs. A. J. Johnson and Mrs. James Bowers of Crowell, Ben Witt and Suzanne, Linda and Dan Witt of Denton, and Mr. and Mrs. C. F. Witt of Frisco.

When the couple left for the wedding trip, the bride was wearing a two piece daron dress in brown tones. Her accessories were bone color, and she wore a white gardenia corsage. The couple will be at home at 3300 Mansard St., Vernon, about June.

Mrs. McClellan is a daughter of the late Mr. and Mrs. A. L. Johnson of Crowell, and is presently audio-visual co-ordinator for Wilbarger County Schools. She also taught school in Wilbarger County for several years. She received her BA degree at West Texas State College, Canyon, and her Master's degree from Highlands University at Las Vegas, N. M.

Mr. McClellan is retired from the auditing department of Colorado Fuel and Iron Corporation in Pueblo, Colo. Prior to his tenure there, he taught school near Gatesville, where he formerly lived.

Miss Mary Joan Boyd and Hollis C. Payne Will Marry June 17

Mr. and Mrs. Truman Boyd of Harrison Chilhower Baptist Academy, Seymour, Tennessee, announce the engagement and approaching marriage of their daughter, Mary Joan, to Hollis C. Payne of Floydada. Mr. Payne is the son of Mr. and Mrs. Coy Payne of Margaret.

Mary Joan is a graduate of the California School of Vocational Nursing, Los Angeles, Calif., and has been employed in the Foard County Hospital as a part-time employee for the past two years. She received her B. A. degree from Wayland Baptist College in Plainview this month, with a major in elementary education and a minor in English.

Mr. Payne received his B. A. degree from Baylor University in 1950 and has completed two-thirds of his required work toward a B. D. degree from Southwestern Baptist Theological Seminary at Fort Worth. He has been employed with the Floydada Independent School District for the past eight years.

The bride-elect's parents are former residents of this community, having been in pastoral work at the Margaret and Foard City Churches. He was also employed in the educational system of this city.

The wedding is scheduled for June 17 in the Arney Baptist Church, where Mr. Payne is now pastor and has served there for three years.

Miss Gayle Taylor and Mr. Scott to Marry in Crowell July 31

Mr. and Mrs. Percy W. Taylor have announced the engagement and approaching marriage of their daughter, Donna Gayle, to Billy Don Scott, son of Mr. and Mrs. Bill Scott of Quanah.

The wedding will be an event of July 31 at 8:00 p. m. in the First Baptist Church in Crowell.

The bride-elect is a 1959 graduate of Crowell High School where she was an honor graduate, football queen in her senior year, member of FHA four years, and served as president this year, editor of the "Wildcat," and a member of the Sub-Junior Columbian Club. She lettered in basketball four years, and was a member of the Wildcat Band for two years.

The prospective groom is a 1956 graduate of Quanah High School where he was a member of the football, basketball, track, baseball teams four years. He attended Texas Technological and North Texas State Colleges. At present he is attending Texas Highway Patrol Recruit School, Texas Department of Public Safety, in Austin, where he will be a July graduate.

Sunday School Class Honored at Coke Party

Members of the Study Class of the First Methodist Church Sunday School were honored with a Coke party last Thursday afternoon in the home of Mrs. Bill Klepper.

Mrs. Klepper was assisted by Mrs. Marjorie Ferguson, class teacher, and Mrs. J. T. Hughton.

West Side H. D. Club

The West Side Home Demonstration Club met in the home of Mrs. Donald Norris May 26. The opening exercise was a song and "collect for club women." Minutes were read and approved. Roll call was answered by a favorite Bible story.

Mrs. Bert Mathews, leader, selected 2 Exodus 25 for the basis of her Bible program. She also conducted a Bible quiz.

Refreshments were served to 9 members, 2 visitors and 2 new members. Mrs. Thelma Henry and Mrs. Arleta Halenack.

The next meeting will be an all-day affair in the home of Mrs. Henry Ross June 9.

It takes at least a full year aboard an active submarine for an officer to become eligible to pin on his "dolphins" and become a full-fledged submariner.

Home Builders Circle

The Home Builders Circle met Tuesday, May 26, at the home of Mrs. Baylor Weathered. A prayer by Mrs. Arthur Bell opened the meeting with business being discussed by the president, Mrs. Fred Collins, with each member making a new pledge for the year.

"Yes, 'Tis Sweet to Trust in Jesus," sung by Miss Alta Bartley, Miss Sue Sanders and Miss Carria Driver, opened the very inspiring program.

"And the work of righteousness shall be peace," John 14:27, given by Mrs. Travis Vecera, followed by a prayer by Mrs. Marjorie Ferguson. "Let us teach our children more about God, and to trust in Jesus. The more we are with our children, the less time we will spend looking for them," was a very enlightening program given by Mrs. C. V. Barker.

Refreshments were served to the following members: Mesdames Travis Vecera, Jess Whitfield, Clyde Eddy, C. V. Barker, Fred Collins, Arthur Bell, Marjorie Ferguson and Baylor Weathered.

Co-Laborers Class Has Picnic Thursday

The back-yard garden of Mr. and Mrs. Guy Bounds was the place for a delightful yard garden party on Thursday evening, May 28, given by the Co-Laborers Class of the Methodist Sunday School.

Members of the class and their families were guests. Each brought a covered dish and an excellent meal was served. Rev. Clarence Bounds gave the invocation.

Following the picnic supper, a general conversation period was enjoyed.

Mrs. Bounds is the retiring president of the class and Mrs. E. H. Shrode is the incoming president.

Troop 1 Girl Scouts

The Girl Scouts had their regular meeting at the home of Mrs. Ray Shirley May 22. Sharon Sue Mapp, Paula June Vecera and Shirley Mike Rasberry held the flag ceremony. The president then took charge of the meeting. The girls then started to work on their tea strainers for little things such as ear clips, pins or other things that size. They are putting sequins and little beads to decorate the holders.

The Girl Scouts had their regular meeting at the Girl Scout house May 29. The president, Sharon Sue Mapp, was not present so the vice president, Rosa Lee Latimer, took charge of the meeting. The roll was called and the girls answered with a good turn they did during the week. The minutes were read and a correction was made. The girls worked on making notebooks as part of

Pioneer Circle Meets

With Mrs. T. B. Klepper, Mrs. Ed Tharp and Mrs. Thomas Hughton as joint hostesses, the Pioneer Circle of the Woman's Society of Christian Service of the Methodist Church met in the home of Mrs. Klepper on Monday afternoon.

After the singing of two songs, Mrs. C. W. Thompson, leader of the program, took charge of the service. The subject was "A New Ambassador for Christ — The Tourist." She spoke of various phases of the subject. She used for a devotional, "God, Be Merciful to Me, a Sinner." She based her thoughts on Luke 18:9-14.

The hostesses served an ice course to twelve members present.

Steel Wages and Employment Costs at All-Time High

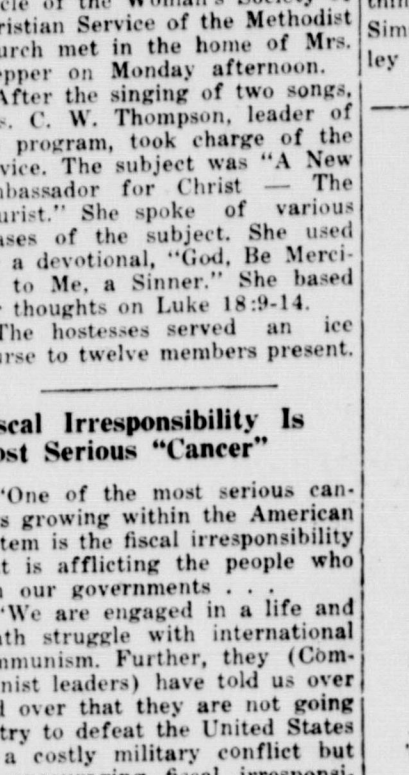

1970. Isn't it about time we evaluated our situation, and did something constructive about it???"

On May 11, 1943, at F. W. Rockwell captured the Japanese stronghold of Attu, Aleutians, thus wrecking the hope for conquest of Alaska.

Fiscal Irresponsibility Is Most Serious "Cancer"

"One of the most serious cancers growing within the American system is the fiscal irresponsibility that is afflicting the people who run our governments. . . . We are engaged in a life and death struggle with international communism. Further, they (Communist leaders) have told us over and over that they are not going to try to defeat the United States in a costly military conflict but by encouraging fiscal irresponsibility and reckless spending in the United States until the capitalist system and our Republic is buried in the dust and rubble of national bankruptcy. The goal is pegged by Russian leaders at their badge requirements. The notebooks will be used to keep a record of Girl Scout activities."

STEEL WAGES AND EMPLOYMENT COSTS AT ALL-TIME HIGH

Steelworkers' average hourly earnings have consistently been above the average for all employees in manufacturing industries, and have increased more rapidly, according to Steel Facts, published by American Iron and Steel Institute. The increase in earnings far exceeds the increase in the consumer price index, as shown in the chart above. The rise in steel worker wages is even more precipitate if all employment costs per hour worked (insurance, pensions, etc.) are taken into account.
