Highlights

AND Sidelights

TEXAS PRESS ASSOCIATION

Austin, Tex.—Election year upheavals plus Texas' "lame duck law" are playing havoc with the work of interim legislative committees.

Atty. Gen. Will Wilson ruled that, except in special cases, interim committee members not elected to the Legislature may not continue to serve on the committees. This brings a shake-up in the membership of a number of study groups now in the midst of their work.

Biggest change will be in the make-up of the House General Investigating Committee which has been asked to look into several politically touchy questions. Going off the five-member committee are the chairman, Rep. H. J. Blanchard of Lubbock, and Reps. Joe Burkett of Kerrville and Carl Conley of Raymondville.

Nine other legislative committees lost one or more members who either did not run again or were defeated.

Not affected were members of the Commission on State and Local Tax Policy. Attorney General noted that this group was set up under a law which specifically provided its members should serve a two-year term.

Also continuing to serve, whether re-elected or not, will be those members of the Legislative Council and Legislative Budget Board who—like the Speaker of the House—are members because of the jobs they hold.

In the appointment of committees on which "lame ducks" may not continue to serve, next year's speaker and lieutenant governor face a problem. Only way to prevent vacancies would be to second-guess the political future of each appointee.

YOUTH CRIME RISE SEEN—Juvenile delinquency in Texas will get worse before it gets better, the Texas Youth Council director predicted.

Dr. James Turman presented to the Legislative Budget Board the Council's request for an appropriation of \$4,234,470 for the coming biennium. This is an increase over the present two-year allocation of \$3,487,442.

A part of this increase is to build for future needs. Turman noted that the Gatesville Training School for Boys had 403 boys in 1950 compared to its present average of 1,300. He predicted an average population of 1,700 during the coming two years and 2,359 by the end of the sixties.

Turman also urged the setting up of a system of paid parole supervisors "to keep some of these kids from coming back."

He said that some of the boys had been to Gatesville as many as five times and that up to one-third were repeaters.

ANTI-LOAN SHARK COMMITTEE—A citizens committee is being formed to work for approval of a constitutional amendment to give the legislature more regulatory power over the small loan industry.

Amer V. McCall, executive vice president of Baylor University, is chairman, and Tom Reavley, Austin attorney and former secretary of State, is vice chairman.

Proposed amendment will be Number Four on the general election ballot in November. It would give the Legislature power to license and regulate lenders and set maximum rates of interest. Until and unless the Legislature sets a new rate, the present constitutional maximum of 10 percent would apply.

Adoption of Amendment Four is an essential first step, said McCall, to wiping out Texas' reputation as "the lone shark state."

He said that Gov. Price Daniel, Lt. Gov. Ben Ramsey and Atty. Gen. Will Wilson favored the amendment and were honorary members of the committee.

T. E. C. HITS CHEATERS—Texas Employment Commission has filed complaints against some 100 persons accused of drawing unemployment compensation pay while actually working.

As a result of a widespread investigation, TEC has filed several score suits against persons it declared were receiving benefits and salaries at the same time.

Some of the defendants have already been tried, fined and ordered to repay the money received from TEC. Most of the cases involve workers in Houston and Brownsville.

Law provides that workers who lose their jobs through no fault of their own and cannot get other jobs may receive \$28 a week for up to 26 weeks, while unemployed. Violators can receive up to a \$50 fine and 30-day jail sentence.

LAW BREAKING ON INCREASE—Department of Public Safety report shows that one of the fastest growing statistics in Texas is the number of major crimes committed—up 10.3 percent for the first half of 1960.

For the first six months of this year, DPS estimates 96,681 major crimes were committed in Texas, compared to 87,679 for the same period in 1959.

One of the brighter spots in the report that murders and homicides decreased by 15.1 percent. Burglaries, however, rose 19.2 percent.

Biggest crime increase was in urban areas—up 12.5 percent. In rural sections the rate was down a little—less than one percent.

VACCINATIONS URGED—Texas is one of the safer states as far as paralytic polio is concerned, but it's seventh in the nation in number of whooping cough cases, ninth in diphtheria and scarlet fever.

All these rates could be cut, said a State Health Department spokesman, if there were fewer people who can't be bothered with getting protective shots.

Late August and September are the usual season for polio epidemics, the Department warned.

GOOD PASTURAGE—Texas range conditions showed a bigger mid-summer improvement this year than in any summer for 37 years, reports the U. S. Dept. of Agriculture.

Range conditions usually grow less favorable from July to August in Texas, but this year they got substantially better.

Though some areas of the state were reported very dry, 85 percent was rated 12 points above the 10-year average.

Book for Bird Lovers
Printed by Game and Fish Commission

Although the Roger Tory Peterson "Field Guide to the Birds of Texas," published by the Game and Fish Commission, has been on sale for only two weeks, approximately one-fifth of the 25,000 books available has already been sold.

These books sell for \$3 each post paid, and can be bought only from the Game and Fish Commission in Austin, or at regional offices. This field guide lists nearly 600 different Texas birds for field identification. It has been produced for bird lovers at cost.

Everyone Should Check on Social Security Account

Do you know why the Social Security Administration wants you to be sure your social security account is correct? "Because the right of you and your family to retirement, survivors and disability payments depends on it," answers Erton Tate, district manager of the Wichita Falls social security office.

Every year is important, continued Mr. Tate, in building up your future benefits. For example, if you have reached retirement age this year, you will need at least 4 1/2 years of earnings on your account to qualify for benefits. If your retirement age is after June 30, 1960, you will need even more credits. Illustrating this, he said, you were born in 1906 or later, (a woman born in 1909 or later) you will need 10 years of social security credits to get retirement benefits. He also added that you will need at least 5 years of social security credits for disability payments.

Mr. Tate pointed out that it is easy to check your social security account to make sure you are getting credit for your earnings each and every year. The checking should be done at least once every 3 years. He added that the social security office will furnish you with a special postcard which you can use to request a statement of your earnings. To get the card, write, call or visit the social security office at Wichita Falls and ask for card form 7004. The service of providing you with a record of your earnings is furnished free of charge.

Mr. Tate concluded that all people who contribute toward social security have an obligation to themselves and their families to take the simple precaution of checking their social security records at regular intervals. This obligation applies not only if you work for wages as an employee, but also if you work for yourself and report your self-employment income with your annual income tax return.

The SECRET

of Evenly Spaced Letters

A numbered scale! That's the secret! A vertical numbered scale which is on each sheet of Webster's Micrometric carbon paper. This scale is always visible in the typewriter, and the numbers and lines correspond to the lines of typing. It simplifies typing, makes it easy to get accurate spacing every time.

Moreover, you can remove the carbon paper by the scale. The papers separate neatly. There is no need to touch each carbon and risk smudging your fingers or copies.

USDA Plans New Research on Screw Worms at Kerrville

While some scientists are trying to send a rocket to the moon, others are trying to rid the South- west of one of its worst livestock pests . . . the screwworm.

The USDA has announced that new research on means of eradi- cating the screwworm will begin soon at Kerrville. This is the same USDA station that was respon- sible for much of the basic re- search that led to the sterile-fly technique used successfully against the screwworm in the Southeast.

One of the main projects of the USDA's entomologists will be to develop better methods of rearing screwworms, and also to find ways to produce strains of the insect better suited to steri- lization by radiation. Another im- portant aim of the Kerrville re- search is to learn more about the nutritional requirements of screw- worm larvae so that an improved, inexpensive rearing medium may be developed. Project scientists will also seek new methods by which flies can be irradiated with minimum effect on their life pro- cesses.

In announcing the new proj- ect, the USDA reported that Dr. Raymond C. Bushland will head the researchers.

Anyone who thinks the custom- er isn't important should try do- ing without him for 90 days.

Iseng-Jackson Nuptials Recited in Vera Church

The First Baptist Church in Vera was the scene of the ceremony uniting in marriage Miss Virginia Ann Jackson of Crowell and Raymond A. Iseng, also of Crowell. The ceremony was performed Friday at 7 p. m. by Rev. Glenn Wilson, pastor of the First Baptist Church of Crowell.

The church was decorated with mimosas and palms. Miss Barbara Otis, vocalist of Midwestern University, provided traditional music accompanied by pianist, Mrs. Douglas Crow, of Vera.

The bride was given in marriage by her father. She wore a floor length white dress designed with a scoop neckline and short sleeves complemented with elbow length lace mitts.

Maid of honor was Miss JaNelle Jackson of Wichita Falls. Miss Jean Burkett of Crowell and Miss Barbara Coffman were bridesmaids.

O. D. Iseng of Duncan, Okla., brother of the groom, served as best man. Ushers were Martin Jones of Crowell and Clyde Beck of Vera. T. O. Ellis of Crowell served as groomsman.

The bride holds a B. S. degree from Midwestern U. and is presently employed as home demonstration agent of Foard County. The groom attended Coney Electrical School of Illinois and University of Kansas. He served two years in the Navy and is presently employed as an electrician.

Mr. and Mrs. Clyde Beck held a reception for the couple following the ceremony.

Robert G. Dunlop, president of Sun Oil, speaks of the growing notion among Americans that "they can just vote themselves large shares of the good life."

Efforts to do so, he goes on, have already resulted in a "vast federal bureaucracy, a swollen national debt, and a cancerous inflation that has distorted values, penalized the prudent, rewarded the improvident and undermined morality."

Mrs. Russell served a lovely refreshment plate to 13 members.

Card of Thanks

We wish to take this means of expressing our thanks to each one who helped in any way during the recent illness and loss of our loved one. For the food, flowers and cards and for every word of kindness, our heartfelt appreciation. May God bless each of you.

Hit of Opening Session

"Former President Herbert Hoover, at the age of 85, still can thrill his listeners and his clear voice and cheery smile can hold attention. The elder statesman of the Republican Party proved himself to be the 'hit' of the opening session of the Republican convention in Chicago."

"He attacked the Communists, the eggheads and the beatniks who would place America second and who fail to stand up to their heritage. He sought a rebirth of a great spiritual force which has been impaired by cynicism and weakened by foreign infections."

Co-Laborers Class

The Co-Laborers Sunday School class of the First Methodist Church met Thursday, Aug. 25, in the home of Mrs. Tom Russell. Several songs were sung; Jesus Is Calling, Beautiful Garden of Prayer, and Bringing in the Sheaves. Mrs. Clarence Bounds led in prayer.

Mrs. Will Jones was leader and brought a lesson on the Parables, the Seeds and the Soil. Mrs. C. R. Bryson was assistant and brought the lesson on the parable, The Mustard Seed.

Mrs. Russell served a lovely refreshment plate to 13 members.

SEE TEXAS FIRST

Fort Worth Has the Time
 Texans have a big time. They also have a big timepiece. Fact of the matter is, it's the world's largest. It's the clock that's atop the 50-story Continental Bank Building in Fort Worth. Time is controlled by a microwave radio from the U. S. Observatory in Washington, D. C. The clock itself is five stories high. It weighs 77 tons and the numerals are so large—25 feet high and nine feet wide—that the clock can be read from a distance of five miles.

Gonzales Honors Flag

A plaque commemorating the making of the first battle flag of Texas hangs on the walls of the museum at Gonzales, in South Texas, the town where the flag was made.

It was the first flag on which the now famous "lone star" was used.

This flag carried the words, "Come and Take It" in answer to the Mexican Army's demand for return of the Gonzales cannon. The cannon had been given to the Texans by the Mexicans for defense against the Indians.

Good Enuf for Comstock
 Springs that provide 116,000,000 gallons of water per day should be good enough for anybody.

People in the Southwest Texas town of Comstock decided long ago that such springs were good enough for them, so they named them "Good Enough Springs."

The springs are located just south of Comstock, in Val Verde County, and their fine waters feed the Rio Grande River.

Famous Tree Near Rockport

You won't believe it until you see it yourself.

It's the largest live oak tree in the world, and it's located by Goose Island State Park near Rockport, in Aransas County, on the Gulf Coast.

This majestic symbol of the ages is more than 2,000 years old, having burst into life a hundred years before the birth of Christ. From its majestic trunk, branches spread forth 118 feet to shade the approximate area of a city block.

No Similarity Between Communists and Christ
 "According to an AP dispatch last week, Premier Khrushchev is reported to have said, 'There is much in Christ common to us Communists.'
 "How about the freedom loving Ukrainians in the 1930's who were resisting collectivism, and the man-made famine conducted by Stalin's lieutenant, Khrushchev, in which 7,000,000 Ukrainians died?
 "There have been, and are, but few instances where the practices of Communists or Communism have had any resemblance with any of the teachings of Christ."

Home Builders Circle

The following members of the Homebuilders' Circle, along with its circle mother, Mrs. R. J. Thomas, and one guest, Mrs. Fred Wehba, met Tuesday evening in the Boss Johnson home. The members were Messames Arthur Bell, DuWayne Elliott, Howard Ferguson, Boss Johnson, Hulm Monks, Travis Vecera and Jack Welch. The circle president, Mrs. Vecera, appointed a committee to outline the programs for the new date books.

The first part of the program was presented by Mrs. Johnson, who challenged each American to look at himself as non-Americans see him. Her presentation was based upon the 25th chapter of Matthew, verses 35 and 36.

Mrs. Ferguson introduced Mrs. Welch's presentation with a solo entitled "My Prayer." Mrs. Welch then concluded the program with her part concerning correct attitudes for more direct and prayerful prayer.

The group was dismissed by clasping hands and forming a circle in which each member stated a sentence prayer.

Personal Shower

Miss Patsy Ribble was honored at a personal shower Wednesday at the home of Mrs. L. H. Williams. Hostesses were Misses Jeanette Bollbruch and Barbara Goodwin.

The refreshment table was covered with a lace cloth and was centered with an arrangement of green and white carnations.

Mints, nuts, cookies, and frosted cakes were served to the following: Misses Carolyn Bell, Alta Bartley, Janise Morris, Margie Kashberry, Dorothy Denton, Wilma Denton, Martha Fish, Carolyn Aydelott, Carol Sue Fisch and Joyce Latimer.

Farmers and ranchers cannot afford to be dull and lazy during late summer and early fall. Extension range specialists say that winter is not very far away, and now is the time to make preparations for carrying the livestock until next spring.

Texas A&M College System entomologists say that stored grain cannot be forgotten. Insects may be stored with the grain, and these insects could cause tremendous losses. To combat insect damage to stored grain, the storer should fumigate the grain according to recommendations of the local county agent.

THIS WEEK -In Washington

With Clinton Davidson
It is time we in America face some hard, unpleasant facts, and that we make up our minds what we are going to do about them.
Communism and the communist totalitarian form of government have been accepted by, or imposed upon, almost half of the people of the world. Our Free World is growing smaller almost day by day.
Democracy is in trouble, serious trouble, in many parts of the world. In no time in recorded history has there been so much worldwide unrest, turmoil and conflict during a time of "peace."
Christianity faces a challenge such as it has not known since persecution by the Romans almost twenty centuries ago. Communists deny and ridicule the teachings of Christ as vehemently as did the Romans.
If democracy is crushed, then Christianity will surely die. There is no freedom of religion under a communist dictator; nor does communism recognize any of the other basic freedoms of a democracy.
Spread of Marxism
Half a century ago, Karl Marx, author of the communist "bible," developed a program for world conquest from which his successors have never deviated. It was, and is, a diabolical plan of deceit, dissension and subjugation to discredit, then destroy democracy and individual freedom.
Communist dictators don't want a military war for the simple reason they believe they can conquer the world without firing a shot. But, neither do they want peace, as we understand it, in the world. There is no sincerity in their talk of "peaceful co-existence."
Russia and Red China will start a shooting war only if and when they become convinced that communism cannot conquer the world by other means. Let us hope, then, that we are not goaded into a "hot" war out of despair of winning the "cold" war.
For the Minds of Men
World War III is a struggle between communism and democracy for the minds of men. It is an ideological battle waged with words in a propaganda war in which we have, so far, been almost entirely on the defensive.
Events of the past few months have brought into frightfully clear focus the deterioration of United States and Free World prestige in many areas of the world. We

need to re-examine very closely many of the programs which make up the bulk of our basic foreign policy.
We have largely followed a program of cocktail and dollar diplomacy to win the support of governments. We have, in short, attempted to buy friends with military assistance and generous economic aid.
The communists, on the other hand, have been disturbingly successful in over-throwing many of those governments by infiltration into student and labor groups. They live with and work with people while many of our diplomats give lavish cocktail parties to entertain government officials.
The record in Turkey, South Korea, Cuba, Japan, and, more recently, the Congo, should convince us that it is time to re-evaluate and revise our foreign policies and programs. The survival of democracy depends on intelligent planning, hard work and sacrifices. Are we equal to the task? Or have we grown too soft, self-satisfied and complacent?

Change Made in Requirements for Farm Housing Loans

Under a recent change in eligibility requirements for housing loans, a farmer who has a farm that will annually produce for sale or home use a \$400 worth of commodities if he meets other eligibility requirements, is able to obtain farm housing loans.
Previously, according to Smith, Farmers Home Administration county supervisor, a applicant had to own a farm which would produce a substantial amount of the operator's income.
Farm Housing loans are by the Farmers Home Administration and are used to construct and repair needed farm and farm service buildings.
Other eligibility requirements for farm housing loans are unchanged. These requirements that the applicant lacks the sources needed to obtain elsewhere, be a citizen of the United States, and have sufficient income from farm and other sources to pay farm operating expenses, when due, on his own.
Applications for this type of credit may be made at the office of the Farmers Home Administration located at 1721 11th Street in Vernon, Mr. Smith will be in Crowell in the office located in the basement the court house the first and Monday of each month from a. m. until 12 noon.

Arthur Godfrey and "Goldie" to Perform at 1960 State Fair

Television and radio star Arthur Godfrey will make personal appearances on the first three days of the 1960 State Fair of Texas Horse Show.
"The Old Redhead" will appear with his famous Palomino, "Goldie" at the night performances of the Horse Show Oct. 7 and 8 and at the matinee performance Oct. 9 in the State Fair Livestock Coliseum.
The Horse Show gets under way on the Friday evening before the State Fair officially opens Saturday, Oct. 8.
Godfrey has been a horse lover for more than 25 years. At his farm, Beacon Hill in Loudoun County, Va., he keeps horses of several different breeds. The most famous is his Palomino stallion, Catocin Gold, known as "Goldie" to the millions who have seen him on the Godfrey TV shows or in personal appearances he has made from coast to coast.
Godfrey and "Goldie" will appear at the State Fair Horse Show in an exhibition of "dressage" riding, in which the horse is sent through intricate maneuvers without discernible instruction from the rider.
Godfrey has appeared with "Goldie" at a number of major horse shows in recent years, including the National Horse Show in New York and the International Horse Show in Chicago.
The State Fair's Series I Horse Show which opens Friday night, Oct. 7, will present five and three-gaited saddle horses, fine harness and walking horses, roadster and parade horses and hunters and jumpers. The Series I show runs through Oct. 11.
The opening series will be followed by cutting horses and quar-

T. E. L. Class

The TEL class of the Baptist Women's Assn. met in the home of Leon Solomon Aug. 25 for a regular social and business meeting. Mrs. Delia Fox assisted with the duties. Mrs. Dunagan, charge of the meeting, Mrs. Whorton led in prayer. After short business session, Mary drew brought the devotion, "The Hands of Jesus." She led the class to sing "The Scattered Hand," after which closed with prayer. Mrs. Dunagan had charge of the social hour. Refreshments were served to 50 members and one guest, Mary drew.

Free Enterprise

Getting things free is a favorite thought with nearly every child including two small boys who overheard a discussion of the subject. Said one of them: "My father is a doctor. He can be sick for nothing." The other boy, not to be outdone, replied: "My dad's a doctor, so I can be good for nothing." —Santa Fe Magazine.
