### Twelve Firemen and Meeting Thursday Night

Twelve members of the Crowell Volunteer Fire Department attended the regular meeting last night.

The department examined a new "Firefighter Stik," which is a piercing fog head designed for fighting almost all types of fires, but especially adapted for use in attics and walls, and also in fires. By using the streamer sleeve the fog pattern varied from a forward pattern to a pattern of fog degree.

Flameless steel fog head makes for ceilings, roofs, and walls in project. The pipe is designed for a minimum of water and water damage.

## Holliday Defeats Wildcats 40-0 in Conference Tilt

The Crowell High School football team, playing without the services of three of the seniors, Bob Borchardt, Junior Hopkins and Dale Doyal, were overpowered here last Friday night in an 11A conference game by the Holliday Eagles to the tune of 40 to 0. Borchardt and Hopkins were unable to start the game due to injuries, and Doyal received a head injury early in the contest and had to be removed from the field. The inexperienced Wildcats were unable to cope with the superior running of quarterback Jim Pausky and halfback Larry Finnell.

Finnell scored three touchdowns, and Pausky two. The other Eagle TD was made on a 60-yard pass and run play from Pausky to right end Eldon Alderman. The Wildcats could not muster a sustained drive, and never entered Eagle territory but a few times during the entire contest.

The Holliday boys received the opening kick-off and were held by the Crowell team and forced to kick. The Wildcats immediately made one first down, and fullback Dale Doyal had picked up four yards on a running play when he received the injury that forced him out of the game for the first time this season. It was late in this first quarter before Holliday was able to send halfback Larry Finnell across the goal line from two yards out for the first score of the game. The Eagles added two more TDs in the second quarter, two in the third period, and their final one just before the game ended.

Larry Henry, halfback for Crowell, had to carry the brunt of the Wildcat offensive attack after Doyal left the game. He did a good job as far as it went. Jim Pausky, brilliant quarterback for the Eagles, lived up to all pregame publicity. However, he was no better in the ball carrying department than his teammate, halfback Larry Finnell.

Center Ralph Campbell and tackle Leon Tice led in defense for the Eagles. Larry Henry, Paul Bax Ekern, Jon Lee Black and Jimmy Hudgens were the only experienced players left in the Crowell line-up.

This victory for Holliday gave the Eagles two wins and three losses in conference play. Crowell is one notch behind them with one victory and one tie. Munday cinched the 11A district championship by downing the Chillicothe Eagles 20 to 0. The Crowell Wildcats had copped the crown for five successive years, previous to this season.

## Community Center Fund Drive to Be Held Friday

### Hunting Seasons Announced by Game Warden

### Deer and Turkey Season Here Will Open November 16

Frank F. Ordener, Conservation Officer who serves Foard County, listed this week the various seasons on game in this area:

Goose Season—Oct. 31 to Jan. 13, from sunrise to sunset. Bag limit and possession limit: five a day, not more than two Canada geese or one Canada and one white-fronted goose, or one white-fronted goose.

Duck Season—Dec. 6 to Dec. 30 from sunrise to sunset, except on opening day from 12 noon to sunset. No open season on black-bellied tree ducks, redhead ducks, and canvasback ducks. Bag limit: two a day, with not more than one mallard, nor more than one hooded merganser.

Deer and Turkey (Foard and Hardeman Counties) November 16 to December 31 from one-half hour before sunrise to one-half hour after sunset. Bag limit is two buck deer with pronged antler and three turkey gobblers.

There will be no antlerless deer or doe season in Hardeman and Foard counties. There will be antlerless deer permit issued in some areas of Texas. These areas will be designated by the Game and Fish Commission and doe permits will be issued to the landowner. No antlerless deer will be taken without a permit. The bonus deer tag on your hunting license is for the antlerless deer.

A hunting license is required of everyone hunting deer and turkey, however, anyone under 17 years of age and over 65 years, or anyone hunting on land on which they reside, only an exempt license is required and can be obtained anywhere licenses are sold.

### United Youth Plan Annual Christmas for Needy Families

The City-Wide United Youth organization has begun making preparations for its annual "Christmas for Needy Families." The group takes donations and purchases food, clothing, and other gifts for families in this community who otherwise would not have a Christmas.

Anyone who wishes to contribute to aid these young people in this worthy cause should contact Nelda Chappell, Jo Wynn Ekern, Philip Welch, Judy Traweck or Mrs. Marion Crowell. All donations will be appreciated.

## County Has Now Ginned Total of 1,209 Bales Cotton

A survey of the four gins in Foard County Monday showed a total of 303 bales of cotton were ginned last week. This added to the 906 bales up to last week, brings the total ginnings for the year to 1,209 bales.

Due to late planting, rains late in the summer which caused a second growth, and a late killing frost, cotton harvest thus far has been able to get into full swing.

## H. D. Clubs Have Achievement Day Last Saturday

A large crowd was in Crowell Saturday to attend the annual Achievement Day of Foard County Home Demonstration Clubs which was held in the show room of Harris Ford Sales Saturday.

A large number of crafts made by the women during the year were shown, as well as a number of educational exhibits. Proceeds from a bake sale went to the council fund.

The clubs also sold various items including cook books, cup towels, etc.

## Two Indictments Returned by Grand Jury

The Foard County grand jury, meeting on Wednesday, Nov. 7, returned two indictments and no-billed one case.

An Oklahoma man was indicted on forgery charge and a former Crowell man was indicted on burglary charges.

The cases now await action by the petit jury.

## Revival to Begin Sunday at Foard City Methodist Church

The Foard City Methodist Church announces that a revival will begin on Sunday evening, Nov. 18. Rev. David Stephens, a former pastor, and presently a student at Perkins School of Theology, will do the preaching. Willard Traweck and Mrs. Jack Welch will have charge of the music.

A special service will be held on Thanksgiving Day. The public is invited to attend the services which will be at 10 o'clock each morning and at 7 o'clock in the evening. The series of services will end on Friday evening, Nov. 23.

On Friday morning, the Teen Town members will make a drive to obtain money for the Community Center. Every individual is urged to help in this community project. The money will be used to purchase additional games and playing equipment, and the executive committee of the Parents Club also plans to finish two additional rooms for the use of the young people.

No charge is made for the use of the center by the 4-H Junior Leaders, the polio immunization program, and many other worthy meetings, but it does cost money to pay for the electricity, the water, and the gas. No organization can operate without financial help, and everyone should include the Community Center in their program of giving.

The Community Center serves this area in many ways. In addition to the organizations listed above who use the center, others include the Lions Club, Rotary Club and Down Town Bible Class. This is all in addition to the primary purpose of the center—a place for teen-agers to gather and have wholesome, clean fun and entertainment.

## Wildcat-Dragon Contest Friday

The Crowell High School football team will play its final game this season here tomorrow (Friday) night at 7:30 o'clock with the Paducah Dragons offering the opposition. The Dragons, like the Wildcats, are made up mostly of upper-classmen. They have played some good games this season, but have not been able to win consistently. They were defeated at the point by Archer City, and lost more yardage than their opponents in two other district contests, but have failed to win conference victory.

The Crowell boys have played a good ball this season and most of their games have been interesting to watch. They are due a come-back this Friday night if some of the crippled boys can get back in the line-up. Dale Doyal, Crowell's all-state candidate, should be able to play again in this last high school contest of his career. Other seniors who will probably be playing for Crowell are Paul Bax Ekern and Bill Fitzgerald. Larry Henry, Jon Lee Black, Jimmy Hudgens, Mike Shrode, James Corder, John Carl Borchardt and Jimmy Pendergraft are the juniors who will probably see service in this contest. Otis Johnson, Bill Harris, Ronny Clifton, Freddie Wehba, Mike Gamble, Toye McCurley and Ken Ferguson are the sophomores that will be available. Dan Mike Bird, freshman, will start at quarterback.

Bishop Galloway, in his sermon, told the audience of some of the missionary work being carried out by the Methodist Church in foreign countries, which he witnessed in a trip he made around the world earlier in the year. for a girl to do things for herself. By not allowing boys to do nice little things for her, a girl robs herself of a lot.

(4) Finally, a boy is going "to break his neck" being courteous to a girl who has knocked him down the stairs rushing to lunch or who has hit him in the head with an eraser. He saves his chivalry for the girl who acts like a lady and who expects him to treat her like a lady.

Girls, let's make an effort to "wake up" chivalry in CHS. I think the boys will be glad to oblige us "if" we will let them. From this day forward, let's act like ladies and expect to be treated with all courtesy. I think everybody will enjoy it and all will benefit from it.

### Senior Personality

This week's senior personality has attended schools in Little Rock, Arkansas, and Electra, Texas, as well as in Crowell. He is an active member of the Wildcat band and is presently treasurer of the senior class. As everyone probably knows, he is Charles ten Brink.

Charles' favorites include the following things: favorite subject, chemistry; favorite teacher, Mr. Welch; food, fried chicken; pastime, "taking life easy"; and singer, Brenda Lee. His hardest subject is English IV. A "smart alec" is Charles' pet peeve.

Charles' parents and teachers have influenced him more than anything else. Through their teaching and guiding, he hopes to be able to cope with his future studies at Texas Southern University in Houston. He plans to become a pharmacist. We wish Charles the best of luck in his future endeavors.

### F. H. A. to Assist in State Project

As a state project, the F. H. A. club members are collecting Christmas cards to send to the State Hospital in Wichita Falls. To share with others is a real thrill, and the girls are pleased to be able to bring a little Christmas cheer by helping others meet their needs.

All members are asked to help by bringing unused cards in unsealed stamped envelopes to Mrs. Kenner.

### Librarians Dine in Quannah

Tuesday, November 6, Mrs. King and fifteen librarians journeyed to Quannah for their November meeting and a delicious dinner. Marolyn Denton's devotional from Psalms and Judy Traweck's talk, "Let's Be Thankful," both carried out the Thanksgiving theme. Betty Ann Welch sang "He," accompanied at the piano by Pat Brown. The librarians were indeed fortunate to be further entertained by a Quannah Spanish Club in the adjoining room!

This meeting, a variation from the regular type, was really enjoyed. Maybe the librarians will do a "repeat" at some future date.

### Sports

The Wildcats lost the game here last Friday night when the Holiday Eagles beat the Crowell "not so Wild" cats 40-0. The Wildcats suffered the loss of halfback Dale Doyal early in the game; this seemed to "let the air out" of the Wildcats. This was the greatest defeat suffered by a CHS team in a number of years, but they'll be trying to redeem themselves when they meet the Paducah Dragons on the Crowell field tomorrow night.

Fans, don't fail to come to the game. The boys will need your support.

### Perfect Girl

I asked some of the boys their opinion of a perfect girl, and the following are the answers I received. If any of you girls fit these qualifications, please let the boys know; you can't ever tell they might ask you for a date or at least be nice to you!

Kenneth Carroll: brunette with no "extra" color, brown eyes, 5' 4" tall, all around, 6 1/2 shoe, no glasses, no big bracelets, no eye shadow, sufficient make-up.  
 Kenneth Campbell: 5' 5", dark blonde, blue eyes, all around type,

like some jewelry especially bracelets, size 6 shoe, not too much make-up.

Ken Ferguson: 5' 4", black hair, brown eyes, dark complexion, rich, all around girl, 6 1/2 shoe, no jewelry, very little make-up, wonderful personality, and good looking! Wow!

John Carl: 5' 2", blue eyes, rich, good looking, light blonde hair in new style, all around girl, jewelry, no spray net, size 6 shoe.

Bob Borchardt: beautiful, well constructed, intelligent, vivacious, rich, spray net is O. K. for some girls.

Bill Fitzgerrel: 5' 5", blue eyes, not too much jewelry, devoted to me, doesn't make me feel inferior.

Charles ten Brink: 5' 2"-5' 6", blue or brown eyes, blond, little dumber than I, all around girl, some jewelry, not too heavy make-up, size 5 shoe.

Dale Doyal: 5' 5", brown hair, green eyes, all around girl, size 6 shoe, little jewelry, doesn't like spray net because makes hair too sticky, doesn't like ratted hair, in other words, Elaine Crowell.

Paul Bax: 5' 6", blonde hair, blue green eyes, sporty girl, size 6 shoe, hates spray net, likes make-up, doesn't particularly care for jewelry.

### Jokes

Jo Wynn: "Did you turn off the hall lights?"  
 Barbara: "I don't know, it's too dark to see."

Ella Ann to Fauncine: "What did Paul Revere say at the end of his ride?"  
 Fauncine: "I don't know."  
 Ella, "Whoa horse."

For sale ad in paper by Bobby Bond: "Good used car, low mileage, good condition, used mostly for 'parking.'"

### Menu

Monday: light rolls, baked ham, whole potatoes, creamed English peas, celery, pineapple rings.

Tuesday: corn meal muffins, pinto beans, barbecued viennas, steamed cabbage, candied carrots, rice peach pudding.

Wednesday: light bread, turkey, giblet gravy, dressing, cranberry sauce, green beans.

### Juniors Have Hamburger Fry

On Tuesday night, Nov. 6, the officers of the junior class and their sponsor acted as hosts for a hamburger fry at the farm of Mrs. J. L. Johnson, grandmother of Patricia Cates, who lives east of Thalia.

The party was held in the spacious barn which was attractively decorated in keeping with the autumnal season. After enjoying the bountiful supply of burgers, potato chips, cookies and drinks, a period of informal games was held. To conclude the event, the prizes won in the magazine sales contest were awarded.

Guests were the class mothers and their husbands, and E. C. King. The class wishes to thank the hosts, and especially Mrs. Johnson and Mr. and Mrs. Bill Cates who assisted in the preparations and decorations for the unique party.

Why does Fauncine like to hear car blinkers? What do they say?

Do Bill and Otis really wish they could be rich so they could wish that they weren't rich????

Broken steady—Scherry - Peanuts.

Seen at the canteen Friday night were Barbara - Kenneth, Fauncine - Chuck, Elly - Boob, Paula - Woody, Karen - Ricky, LaRue - Kenney, Mary Ann - Jon Lee, Ella - Edward, Shirley Mike-Ronnie, Ruth-Philip.

Couples at Dena's party Saturday night were Jackie - Carol, Rosa-Dan Mike.

Jill, how was United Youth Sunday night?

Hey, girls, how was your trip to the city lake? Did you get home in time?

Together Thursday night were Fauncine - M. L., Philip - Ruth, Elly - Boob, Paula - Woody.

Let's everyone attend the game and pep rally this week since it's our last chance for this year.

Please put scandal in the "Lip Locker."

## How Much Does Research Cost?

How much does research cost? The better question would be: What is research worth?

Research is indeed the proverbial "stitch in time." Medical research has brought about many outstanding drugs and spectacular operations which save individual lives and relieve suffering, but more outstanding and spectacular are the advances in preventive medicine that have been made which stop suffering before it starts.

Economically speaking, preventive medicine has saved the people of the United States countless dollars. A case in point is retrolental fibroplasia, an eye condition marked by the formation of fibrous tissue behind the crystalline lens. Prematurely born babies are often stricken causing partial or total blindness.

At first premature births were blamed. However, research financed by federal and private means discovered the cause to be the excessive administration of oxygen—employed regularly in incubators for premature infants.

This study cost approximately \$50,000. In the U. S., 5,000 children are blind because of retrolental fibroplasia. Each child will cost an estimated \$100,000 for education, training and support from birth to death—or a grand total of \$500 million.

Caring for these 5,000 children in our generation will cost 100,000 times more than the cost of the research which prevents the disorder.

Other items developed solely through research include the Salk vaccine and steroid (cortisone) compounds—which prevent blindness, relieve arthritis, and aid skin diseases and allergic conditions.

Who can put a price on the suffering and crippling averted because of them. The life expect-

tancy of Americans now has passed 70 years of age. In just 25 years—1937 to 1962—it increased 9.6 years.

This means, because of the decline in the death rate, over 10 million additional federal taxes were received in 1962 plus the accompanying increase in earning power and production from an increase span of life.

The wise man who said, "I would not give a trifle to prevent what he would give a thousand to cure," was right. (A feature of the Public Health Division, Texas State Department of Health.)

### Further Demonstrations

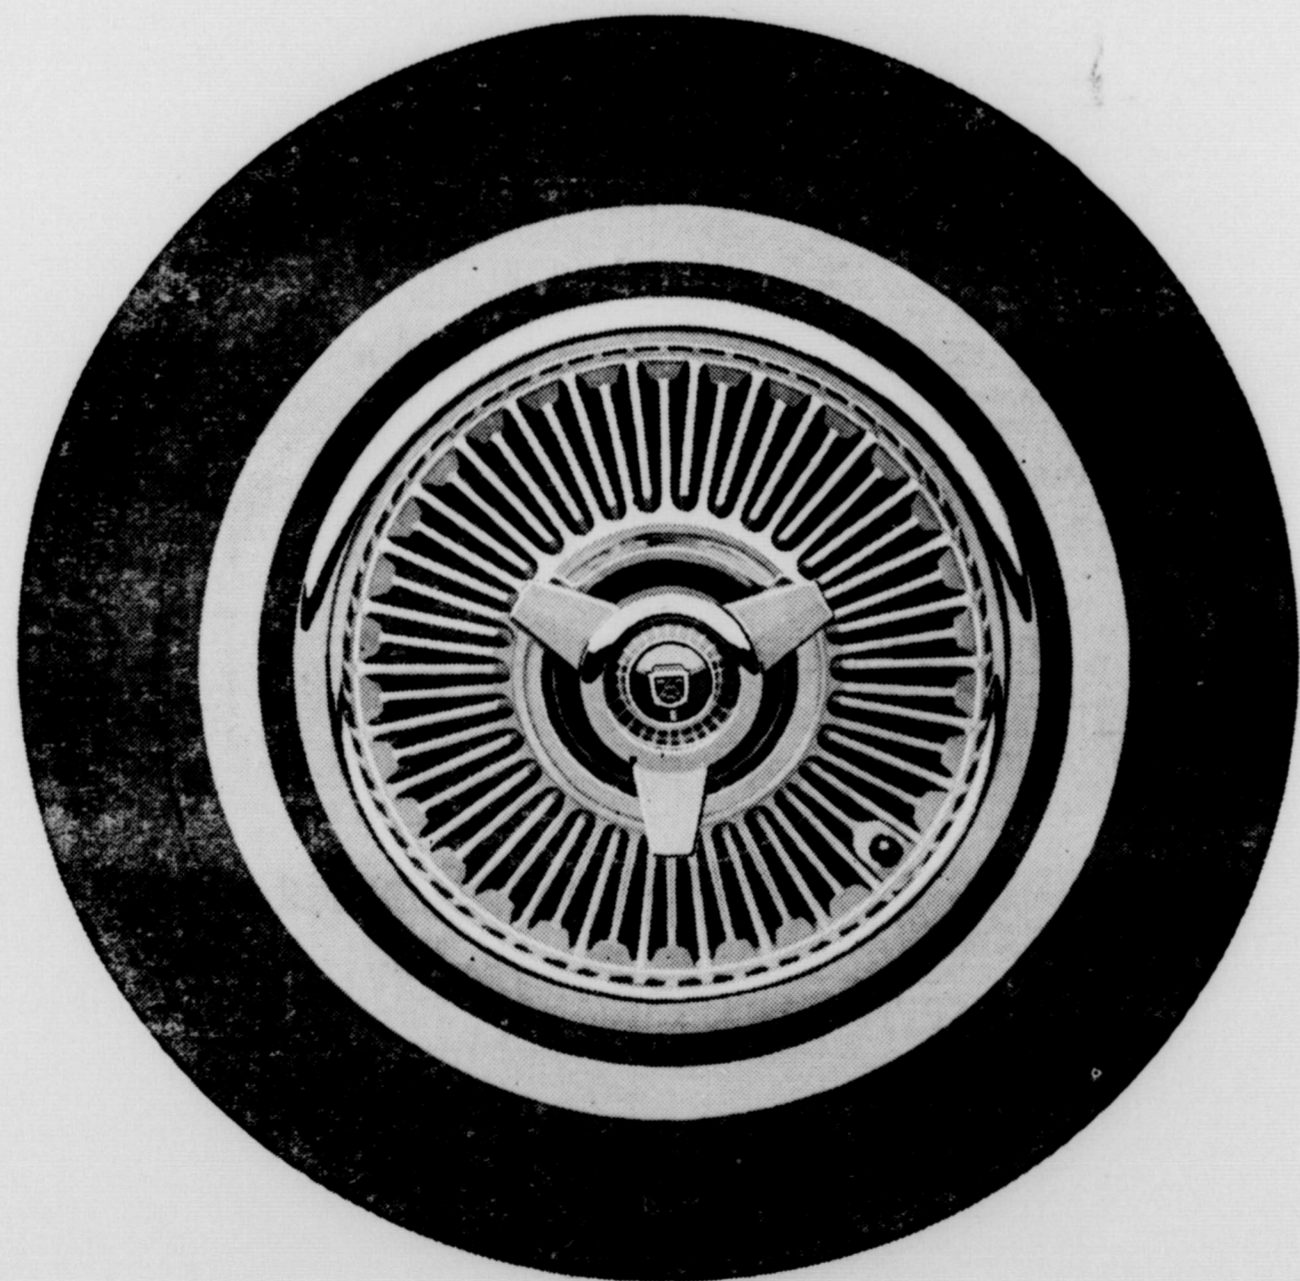

The new publication, *National Observer*, says editorially: morality in government was

ther demonstrated in a White House ceremony the day when the President signed new law authorizing the speed of \$900 million on "emergency public works. What is certain that this legislation authorizes pure pork-barrel waste. Not is the Government constantly spending enormous sums on many public works; it also "depressed areas" program led to accomplish the same desirable purposes as the new "agency" project."

**How to stand guard for freedom Today**

Some men of Concord in old Massachusetts once got themselves called Minute Men because it took them just 60 seconds to come to the defense of freedom, day or night. In the years since, the Minute Man has become a symbol of our determination to stay strong and to stay free. Other symbols of that determination are Savings Bonds.

When you buy a Bond today you do more than invest money for your own future. You also show your own personal determination to keep America strong and free right now—because the same dollars you save for tomorrow help the government defend freedom today.

That's why buying U.S. Savings Bonds is a way to be a "Minute Man" in 1962. And Bonds work for you and your country around the clock.

Why not join the ranks of America's modern Minute Men? All it takes is \$18.75 and a visit to the Bond window at the bank.

**Micronaire Service for Farmers Now Underway at Altus**

Micronaire services for farmers under the Smith-Doxey program got under way during the past week, according to C. E. Cox, Altus Cotton Classing Office. Applications are being received from gins and micronaire tags are being distributed as fast as these are approved. For the week ending November 9, a total of 1,474 samples were miked under the U. S. Testing Service. Total classing for the week indicates the cotton harvest is still moving slowly. About 9,000 bales were classed during the week, bringing the season's total to around 47,000. Total for the season last year to the same date was 153,000. Grades were better during the week, according to statistical averages on figures prepared by the classing office. Twenty-six per cent was classed white, 63 per cent light spotted, and nine per cent called spotted. Staples remained about the same, showing 14 per cent 29/32 inch, 38 per cent 15/16, and 18 per cent 31/32. One inch, 1-1/32 and 1-1/16 each averaged about 8 per cent. Only one-tenth of one per cent was classed wasty. Micronaire readings on cotton classed during the week showed one per cent reading between 2.7 and 2.9, four per cent between 3.0 and 3.4, eight per cent between 3.5 and 3.9, and 87 per cent 4.0 and better. Predominant range was 4.5 to 4.9, with 36 per cent. Heaviest sales reported during the week were on middling light spotted and strict low middling light spotted, 29/32 and 15/16 inch. Average prices paid farmers for current ginnings are: middling light spotted 15/16, 30.40 cents per pound; strict low middling light spotted 15/16, 29.40 cents.

### Editorial Chivalry Not Dead—Just Dormant

Last week I read an article on chivalry; it stated that chivalry was dead and woman was its murderer. I thought about that article and decided to see if it were the girls of CHS who caused the boys not to be so chivalrous as their great grandfathers were.

After thinking the situation over for a few days, I decided to perform a little experiment; so, instead of taking care of myself like a twentieth century girl does, I waited for boys to perform little courtesies for me. I was surprised to find that the boys of CHS are ready and willing to open doors; to hold coats, to pick up dropped articles; to use the old cliché, "ladies first"; to perform a hundred-and-one other little things that make a girl proud she is a girl.

I drew several conclusions from my experiment.

- (1) In CHS, chivalry is not dead—just dormant.
- (2) Boys like to be courteous—it bolsters a boy's ego to feel he is superior to girls. (He won't forget the girl who makes him feel superior either.)
- (3) Girls are the ones who are responsible for the scarcity of chivalry. Today, since women are considered to be men's equals (well, almost), it's almost too easy

for a girl to do things for herself. By not allowing boys to do nice little things for her, a girl robs herself of a lot.

(4) Finally, a boy is going "to break his neck" being courteous to a girl who has knocked him down the stairs rushing to lunch or who has hit him in the head with an eraser. He saves his chivalry for the girl who acts like a lady and who expects him to treat her like a lady.

Girls, let's make an effort to "wake up" chivalry in CHS. I think the boys will be glad to oblige us "if" we will let them. From this day forward, let's act like ladies and expect to be treated with all courtesy. I think everybody will enjoy it and all will benefit from it.

### Senior Personality

This week's senior personality has attended schools in Little Rock, Arkansas, and Electra, Texas, as well as in Crowell, Texas, as an active member of the Wildcat band and is presently treasurer of the senior class. As everyone probably knows, he is Charles ten Brink.

Charles' favorites include the following things: favorite subject, chemistry; favorite teacher, Mr. Welch; food, fried chicken; pastime, "taking life easy"; and singer, Brenda Lee. His hardest subject is English IV. A "smart alec" is Charles' pet peeve.

Charles' parents and teachers have influenced him more than anything else. Through their teaching and guiding, he hopes to be able to cope with his future studies at Texas Southern University in Houston. He plans to become a pharmacist. We wish Charles the best of luck in his future endeavors.

### F. H. A. to Assist in State Project

As a state project, the F. H. A. club members are collecting Christmas cards to send to the State Hospital in Wichita Falls. To share with others is a real thrill, and the girls are pleased to be able to bring a little Christmas cheer by helping others meet their needs.

All members are asked to help by bringing unused cards in unsealed stamped envelopes to Mrs. Kenner.

### Librarians Dine in Quannah

Tuesday, November 6, Mrs. King and fifteen librarians journeyed to Quannah for their November meeting and a delicious dinner. Marlyn Denton's devotional from Psalms and Judy Traweek's talk, "Let's Be Thankful," both carried out the Thanksgiving theme. Betty Ann Welch sang "He," accompanied at the piano by Pat Brown. The librarians were indeed fortunate to be further entertained by a Quannah Spanish Club in the adjoining room!

This meeting, a variation from the regular type, was really enjoyed. Maybe the librarians will do a "repeat" at some future date.

### Sports

The Wildcats lost the game here last Friday night when the Holiday Eagles beat the Crowell "not so Wild" cats 40-0. The Wildcats suffered the loss of halfback Dale Doyal early in the game; this seemed to "let the air out" of the Wildcats. This was the greatest defeat suffered by a CHS team in a number of years, but they'll be trying to redeem themselves when they meet the Paducah Dragons on the Crowell field tomorrow night.

Fans, don't fail to come to the game. The boys will need your support.

### Perfect Girl

I asked some of the boys their opinion of a perfect girl, and the following are the answers I received. If any of you girls fit these qualifications, please let the boys know; you can't ever tell—they might ask you for a date or at least be nice to you!

Kenneth Carroll: brunette with no "extra" color, brown eyes, 5' 4" tall, all around, 6½ shoe, no glasses, no big bracelets, no eye shadow, sufficient make-up.

Kenneth Campbell: 5' 5", dark blonde, blue eyes, all around type,

like some jewelry especially bracelets, size 6 shoe, not too much make-up.

Ken Ferguson: 5' 4", black hair, brown eyes, dark complexion, rich, all around girl, 6½ shoe, no jewelry, very little make-up, wonderful personality, and good looking! Wow!

John Carl: 5' 2", blue eyes, rich, good looking, light blonde hair in new style, all around girl, jewelry, no spray net, size 6 shoe.

Bob Borchardt: beautiful, well constructed, intelligent, vivacious, rich, spray net is O. K. for some girls.

Bill Fitzgerald: 5' 5", blue eyes, not too much jewelry, devoted to me, doesn't make me feel inferior.

Charles ten Brink: 5' 2"-5' 6", blue or brown eyes, blond, little dumber than I, all around girl, some jewelry, not too heavy make-up, size 5 shoe.

Dale Doyal: 5' 5", brown hair, green eyes, all around girl, size 6 shoe, little jewelry, doesn't like spray net because makes hair too sticky, doesn't like rattled hair, in other words, Elaine Crowell.

Paul Bax: 5' 6", blonde hair, blue green eyes, sporty girl, size 6 shoe, hates spray net, likes make-up, doesn't particularly care for jewelry.

### Jokes

Jo Wynn: "Did you turn off the hall lights?"

Barbara: "I don't know, it's too dark to see."

Ella Ann to Faucine: "What did Paul Revere say at the end of his ride?"

Faucine: "I don't know."

Ella, "Whoa horse."

For sale ad in paper by Bobby Bond: "Good used car, low mileage, good condition, used mostly for 'parking.'"

### Menu

Monday: light rolls, baked ham, whole potatoes, creamed English peas, celery, pineapple rings.

Tuesday: corn meal muffins, pinto beans, barbecued viennas, steamed cabbage, candied carrots, rice peach pudding.

Wednesday: light bread, turkey, giblet gravy, dressing, cranberry sauce, green beans.

### Juniors Have Hamburger Fry

On Tuesday night, Nov. 6, the officers of the junior class and their sponsor acted as hosts for a hamburger fry at the farm of Mrs. J. L. Johnson, grandmother of Patricia Cates, who lives east of Thalia.

The party was held in the spacious barn which was attractively decorated in keeping with the autumnal season. After enjoying the bountiful supply of burgers, potato chips, cookies and drinks, a period of informal games was held. To conclude the event, the prizes won in the magazine sales contest were awarded.

Guests were the class mothers and their husbands, and E. C. King. The class wishes to thank the hosts, and especially Mrs. Johnson and Mr. and Mrs. Bill Cates who assisted in the preparations and decorations for the unique party.

### The Flapping Lip

Who was with Nan Todd Sunday afternoon? Better watch out—the Lip knows.

Saturday night at the Plaza were Jon Lee - Mary Ann, Paula-Woody, Betty Ann - Charles, Ruth - Philip, Barbara - Bobby, Jean - Pete C., Pat - Barry, Elly-Boob.

New steadies are Nolan-Linda W., Jean-Pete C.

Why does Faucine like to hear car blinkers? What do they say?

Do Bill and Otis really wish they could be rich so they could wish that they weren't rich?????

Broken steady—Scherry - Peanuts.

Seen at the canteen Friday night were Barbara - Kenneth, Faucine - Chunk, Elly - Boob, Paula - Woody, Karen - Ricky, LaRue - Kenney, Mary Ann - Jon Lee, Ella - Edward, Shirley Mike-Ronnie, Ruth-Philip.

Couples at Dena's party Saturday night were Jackie - Carol, Rosa-Dan Mike.

Hudge, what is this we heard about you and Holloway?

Jill, how was United Youth Sunday night?

Hey, girls, how was your trip to the city lake? Did you get home in time?

Together Thursday night were Faucine - M. L., Philip - Ruth, Elly - Boob, Paula - Woody.

Let's everyone attend the game and pep rally this week since it's our last chance for this year.

Please put scandal in the "Lip Locker."

## How Much Does Research Cost?

How much does research cost? The better question would be: What is research worth?

Research is indeed the proverbial "stitch in time."

Medical research has brought about many outstanding drugs and spectacular operations which save individual lives and relieve suffering, but more outstanding and spectacular are the advances in preventive medicine that have been made which stop suffering before it starts.

Economically speaking, preventive medicine has saved the people of the United States countless dollars. A case in point is retrolental fibroplasia, an eye condition marked by the formation of fibrous tissue behind the crystalline lens. Prematurely born babies are often stricken causing partial or total blindness.

At first premature births were blamed. However, research financed by federal and private means discovered the cause to be the excessive administration of oxygen—employed regularly in incubators for premature infants.

This study cost approximately \$50,000. In the U. S., 5,000 children are blind because of retrolental fibroplasia. Each child will cost an estimated \$100,000 for education, training and support from birth to death—or a grand total of \$500 million.

Caring for these 5,000 children in our generation will cost 100,000 times more than the cost of the research which prevents the disorder.

Other items developed solely through research include the Salk vaccine and steroid (cortisone) compounds—which prevent blindness, relieve arthritis, and aid skin diseases and allergic conditions.

Who can put a price on the suffering and crippling averted because of them. The life expect-

tancy of Americans now born past 70 years of age. In just years—1937 to 1954—it increased 9.6 years.

This means, because of the decline in the death rate, over 10 million additional federal income taxes was received in 1955 plus the accompanying rise from an increase span of life.

The wise man who said, "I would not give a trifle to prevent worlds to cure?" was right. (A feature of the Public Health Division, Texas State Department of Health.)

### Further Demonstration

The new publication, National Observer, says editorially: "morality in government was demonstrated in a White House ceremony the day when the President signed new law authorizing the spending of \$900 million on emergency public works. What is certain that this legislation authorizes pure pork-barrel waste. Not is the Government expending enormous sums of money on public works; it also is 'depressed areas' program intended to accomplish the same purpose as the new 'emergency' project."

### Saturates Demand

Columnist Henry Hazlitt's free economy generally saturates demand because "... in a system of private property free markets, everybody's ready to equal the value of his production."

**Micronaire Service for Farmers Now Underway at Altus**

Micronaire services for farmers under the Smith-Doxey program got under way during the past week, according to C. E. Cox, Altus Cotton Classing Office.

Applications are being received from gins and micronaire tags are being distributed as fast as these are approved. For the week ending November 9, a total of 1,474 samples were miked under the U. S. Testing Service.

Total classing for the week indicates the cotton harvest is still moving slowly. About 9,000 bales were classed during the week, bringing the season's total to around 47,000. Total for the season last year to the same date was 159,000.

Grades were better during the week, according to statistical averages on figures prepared by the classing office. Twenty-six per cent was classed white, 63 per cent light spotted, and nine per cent called spotted.

Staples remained about the same, showing 14 per cent 29/32 inch, 38 per cent 15/16, and 18 per cent 31/32. One inch, 1-1/32 and 1-1/16 each averaged about 8 per cent. Only one-tenth of one per cent was classed wasty.

Micronaire readings on cotton classed during the week showed one per cent reading between 2.7 and 2.9, four per cent between 3.0 and 3.4, eight per cent between 3.5 and 3.9, and 87 per cent 4.0 and better. Predominant range was 4.5 to 4.9, with 36 per cent.

Heaviest sales reported during the week were on middling light spotted and strict low middling light spotted, 29/32 and 15/16 inch. Average prices paid farmers for current ginnings are: middling light spotted 15/16, 30.40 cents per pound; strict low middling light spotted 15/16, 29.40 cents.

**Provisions Changed to Aid Housing for "Senior Citizens"**

L. J. Cappelman, State Director, Farmers Home Administration, has advised the local county supervisor, F. O. Smith, that recent legislation amends Title V of the Housing Act of 1949 by adding new provisions with authorize loans and grants for moderate cost housing and related facilities for elderly persons and families in rural areas. It liberalizes some regulations on rural housing loans now being made by Farmers Home Administration and sets up new direct and insured loan programs.

This new legislation will be administered in Foard, Hardeman and Wilbarger counties by USDA's Farmers Home Administration. Rural housing loans are made by this agency to farmers and other families living in rural areas who need improved housing and cannot qualify for credit from other sources.

One new provision will give those people, who are 62 years of age or over, special advantages not available under the earlier loan program. Second, they can finance the cost of the building site as well as the dwelling with the loan proceeds; other families must own the land on which to build the homes be-

## What makes a Newspaper?

"... A federal jury ... handed down a conviction against owners of the Louisville Sporting News, where apparently the guilt rested on whether the publication was a newspaper. We fear that this conviction is getting perilously close to the entire newspaper industry, for we think this may be drawing a pretty thin line between what makes a newspaper and what doesn't. There may be among us those who place no significance, or value on racing news, and contend that it shouldn't be publicized. There may be others who place no significance on a lot of other subject matter which others may classify as news. This makes an interesting question: What makes a newspaper? ... Generally, we might say it is subject matter that will regularly command a large reading public. Then we might run afoul of a federal law which says a publication in interstate commerce can't run racing news—unless it can be classified as a newspaper."—St. Matthews, Ky., Voice.

## Two Minutes With the Bible

"Two Aspects of Christian Liberty"

"And ye shall know the truth, and the truth shall make you free . . . If the Son therefore shall make you free, ye shall be free indeed" (John 8:32,36).

The true believer in the Lord Jesus Christ enjoys glorious liberty. And our Lord Himself said that there are no strings attached . . . "ye shall be free indeed," free even from the most oppressive of all slave masters: sin. While the law never saved one man from sin, the Lord Jesus, by His death on Calvary did, for we read that "Christ died for our sins."

Therefore the Apostle Paul wrote by divine inspiration: "Stand fast therefore in the liberty wherewith Christ hath made us free, and be not entangled again with the yoke of bondage" (Gal. 5:1). His letters thunder severe rebukes against those who "desire to be under the law."

To the Colossian believers he wrote: "Let no man therefore judge you in meat, or in drink,

or in respect of a holy day, or of the new moon, or of the sabbath days; which are a shadow of things to come; but the body (substance) is of Christ" (Col. 2:16,17).

But true liberty is used for good, otherwise it only reverts to bondage again, for whatever overcomes a man becomes his master (II Pet. 2:19). Thus the Apostle says further:

"But take heed lest by any means this liberty of yours become a stumbling block to those who are weak" (I Cor. 8:9).

"For, brethren, ye have been called into liberty; only use not liberty for an occasion to the flesh, but by love serve one another" (Gal. 5:13).

"Happy is that condemneth not himself in that thing which he alloweth" (Rom. 14:22).

## Tour Guide of Texas Firms Printed by Highway Department

The Travel Division of the Texas Highway Department has compiled what it calls a first-of-a-kind booklet to assist tourists who wish to visit Texas industries.

Published under the title of "Visitors Tours of Texas Industry," the booklet lists 324 plant tours in 70 Texas cities. The first section of the publication discusses 77 regularly scheduled tours. The latter portion is devoted to 247

—Page 6—  
Foard County News  
Crowell, Texas, November 15, 1951

tours that can be arranged by appointment.

Each listing offers the name of the industry, its address or telephone number, name of the plant contact, products, day and hour of tours, and approximate length and whether linguists are available for the benefit of foreign visitors.

The Travel Division said it needed for such a guide was apparent because of the number of visitors, as well as Texans, who asked about industrial tours. A booklet was produced in cooperation with the state's chambers of commerce.

Complimentary copies of the publication are now available from the Travel Division, Texas Highway Department, Austin, from eight tourist bureaus operated by the Highway Department around the state.

to other years.

Burkett also said that Louisiana and Arkansas are experiencing no screwworms this year which is contrary to the past, while Oklahoma has reported only 300 cases—a fraction of the normal.

Individual inspection and treatment will continue to play an important role in the program, Burkett said. He urges producers to inspect their animals at least twice a week and treat wounds with approved screwworm remedies such as Korlan Smear, Co-ral Powder, EQ335 or Smear 62. He also recommends systematic spraying every 10 to 14 days with a 0.25 per cent Co-ral or 0.5 per cent Korlan solution.

He also urged producers to continue to collect 10 maggots from wounds, put them in alcohol or water and deliver them to him or send them directly to Screwworm Identification, Box 969, Mission, Texas. Reporting cases is an important aspect in the success of the program, he said.
