\$2.00 A YEAR

## More Than Three Inch Rainfall Here Friday Until Monday

Before the News had mailed out last Friday a good rain amounting to one and a half inches had fallen and everybody was feeling better because of the improvement of crop prospects. Along about the middle of last week one could see discouraged looks on the faces of all farmers and even some business men were not happy over prospects. Everybody was saying the cotton crops were gone and feed would be cut short. It did look discouraging. In many places cotton was beginning to die and feed had stopped maturing. The former estimate of 20,000 bales of cotton for the county had to be cut in two and even then one could doubt if we should reach 10,000 bales. And while we must yet wait to see the outcome of weather conditions to some extent, no one doubts but that crops will be benefitted.

There is the opinion that cotton will throw off some, but it is conceded by all that the bolls that stay on the stalk will grow larger. It is expected also that much of the cotton now blooming will mature and produce cotton on the strength of the rains. Others say they do not expect much throwing off and cite to conditions last year when the rains came a little later than these and which made an abundant crop.

Possibly we shall be compelled to wait a few days to make anything like a reasonable prediction as to the effects of the rains on the cotton. It is a certainty that they will help the late feed. There was quite a lot of feed planted after the rains some weeks ago but it had begun to need rain and looked like it would make nothing if the rains were late in coming. It looks like much good feed will be gathered.

As to the benefits of the rains for wheat sowing, it is all that could be desired at this time. And just how much it will be worth to the wheat farmers depends somewhat upon their readiness for the rains. Some of them have their lands well plowed and disced and are now ready for sowing but are just waiting for a little more time to pass. They think it is too early to sow now but they are ready when the time comes and they will be certain to get their wheat up. Some of the farmers are not ready and will have to disc their land before sowing.

With the present moisture in the ground and the hot weather about over we may say the present outlook for a splendid harvest is very encouraging.

The rains came again Sunday and Sunday night amounting to 1.65 inches, making a total for the three days of 3.15 inches.

## Claytonville Woman Died Suddenly Sunday

Mrs. Lou Lyles, daughter of J. M. Clayton, died at Mr. Clayton's home Saturday about noon. Mrs. Lyles had not been well for some days but her sudden death was altogether unexpected and was a severe shock to relatives. She died before the doctor could reach the Clayton home after he was called.

The husband of Mrs. Lyles died with the flu during the epidemic in 1919. She is survived by two boys and at the time of her death was 34 years of age.

The remains were buried at Foard City Sunday afternoon.

This is two deaths in Mr. Clayton's family recently. Only last week the News reported the death of his wife who had undergone an operation and this week his daughter. Mrs. Lyles had made her home with her father since the death of her husband six years ago.

The sympathy of the entire community is with Mr. Clayton and other relatives in this time of their bitter sorrow.

## Washout on Orient Delays Southbound

Owing to a washout somewhere between Crowell and Chillicothe the southbound train Sunday night failed to reach Crowell until about 9 o'clock Monday morning.

The floods Sunday and Sunday night not only interfered with Orient traffic but it put the rural route from Crowell to Quanah out of commission Monday and we had no mail from that source. Some bridges were washed away and the trip could not be made, so it was reported.

## School Opens Under Favorable Auspices

The Crowell public schools opened Monday morning with most favorable conditions confronting it.

It may be properly said that one of the most important things necessary for a good school is a capable force of teachers, including a superintendent thoroughly awake to the school's needs. The Crowell school board worked hard to get such teaching force and it thinks it has been successful.

That fact coupled with the fact that there is a high spirit of education among the people of this place virtually means that we are going to have a great school this year.

Those who were present at the opening Monday morning could easily read the signs of the times, so far as the school is concerned. A student body of 500 is to be handled by 17 teachers, and it was made plain by the superintendent that business is uppermost in his mind in the direction of the work this year. Time is not to be fooled away.

It might be said to the credit of the Crowell citizenship that the parents of the pupils are behind a man who means business and they will give him their co-operation. That is what it takes to make a school what it ought to be. The school board as well as the superintendent would like to have the co-operation of the patrons, for they realize they must have it to make the school the best. With that co-operation this should be the best term in the history of the school.

## Christian People to Build New Church at Thalia This Fall

Sand is being put on the ground at Thalia for the construction of a new church building for the Christian people of that town, according to information given the News recently.

Definite decision has not been made as to the dimensions of the building, but it is said it will likely be a one story building about 50x70 feet and will be made of stucco. The cost of such building is estimated to be around \$5,000 or \$6,000.

The building will be done with the view of taking care of the needs of the church for some years in advance of the present. It will be provided with class rooms to take care of the Sunday School work and with a baptistry. About half the money necessary to pay for the building has been subscribed.

A site has been acquired west of the tabernacle.

## Meets Old Friends After Many Years

W. T. Rasor returned Friday from Collin County where he had been to visit his brother whose health is not the best. He had a very pleasant visit and while he was there he met two old friends one of whom he had not seen for 50 years, a Mr. Stiff from Iowa. The other friend is a brother to this man and lives at McKinney. Mr. Rasor, his brother and the two Stiff brothers were all together for the first time since they left Kentucky 50 years ago, and was a kind of reunion of old friends very much enjoyed by the four.

Crops are not very good in Collin County. Most of the cotton is now being picked. There had been no rain there, Mr. Rasor said, up to the time he left.

## Christian Pastor Goes to T. C. U. to Finish Bible Course

Rev. E. M. Wheatley, pastor of the Christian church for the last year, preached his last sermon Sunday night and goes to T. C. U. where he will finish his work in Bible study.

The Methodist services were dispensed for that hour that all who wished to go to hear Rev. Wheatley's last sermon might feel free to do so, but the heavy raining at that hour prevented many from going.

Rev. Wheatley has made many friends in Crowell since he has had charge of the church here and not only his members but many others regret his leaving. He is a fine young man and is held in the highest esteem by all who have formed his acquaintance here.

Mr. and Mrs. W. T. Walling of Ft. Worth are here visiting Mr. and Mrs. W. H. Bell, their cousins.

## Man Bound for Foard City, Lost at Vernon and Found at Dundee

On Monday of last week Frank McEuin, aged 66, arrived at Vernon and was bound for Foard City. He was coming from Gainesville, Texas. One of his sons was also coming to Foard City but came through in a car, while the father came on the railroad. Another son, John McEuin, resides at Foard City. It was understood that the father was to be met at Vernon and conveyed to Foard City by one of the sons. But when the son went to Vernon on Tuesday he could not find his father but did find that he had been there at a hotel. Thorough search was made without even finding any clew as to the man's whereabouts. The matter was reported to the sheriff's department at Vernon and at Crowell and a thorough search was made all day Sunday and until 3 o'clock Monday when he was finally located at Dundee, Texas, a town about half way between Wichita Falls and Seymour on the Wichita Valley railroad.

After having phoned to different places over the country they learned early Monday morning that he had gotten on the train at a small station not far from Wichita Falls. That gave the officers a clew and they followed it up and finally located him at Dundee. Sheriff Campbell talked to the operator at that place about 3 o'clock Monday afternoon, who reported that the aged man had been seen there only a short while before.

Immediately upon receiving this information one of the McEuin brothers left for Dundee after instructions were given the operator to have the man held at Dundee.

When the news of the old man's disappearance was known it was feared that he had become a victim of foul play and that he had been robbed and possibly murdered. But there appears now to be nothing of the kind true. He is partially paralyzed in his right arm and leg, does not talk very plainly and walks poorly.

It is thought by some that the aged man has partially lost his mental balance and that he did not know where he wanted to go or could not make himself understood.

## World Needs Pure Gospel Preaching

"For I am not ashamed of the Gospel for it is the power of God unto salvation to every one that believeth; to the Jew first and also to the Greek."

This Scripture, taken from the 16th verse of the first chapter of Romans, furnished the basis for the remarks of Rev. J. M. Fuller's message Sunday morning.

He pointed out Paul's courage in preaching the Gospel in its purity and in taking a stand for Christ and the right in the face of the strongest opposition.

Reference was made to Nero, the Roman emperor, and the deplorable political conditions arising from his misrule when he allowed money to dominate his whole life. At that point the speaker paused long enough to declare that it becomes a sad day in the history of the church or state when the money kings hold the reins of government.

Paul's life was an example of one who had conviction of right and who stood by that conviction. An example of one in modern times whose life was similar to that of Paul was the late William Jennings Bryan who threw himself across the trend of opinion favoring evolution and died in defense of the Gospel of which he was not ashamed.

The cause for alarm today, as pointed out by the pastor, is the prevalent sin of indifference on the part of church members. Many preachers have been mollycoddling for the last ten years, listening too much to men rather than following the direction of the Holy Spirit in preaching the Gospel in its convicting power. But things are changing, he said, and they are coming to realize that they should speak the truth from the pulpit as they have not done in the last decade. More hopeful signs are now present to lend encouragement. The pure Gospel will and must bring a change in religious conditions.

Mrs. N. A. Crowell and granddaughter, Katherine Crowell, visited her son, Ben, and family in Wichita Falls last week.

## Washington Man Sees Future for County in Agricultural Pursuits

According to A. B. Barber of Washington City, Foard County need not depend upon oil or potash for its prosperity. Those things will be valued but they are not the things to depend upon, but Foard County can do no better than to look to the development of its agricultural resources. In his estimation the county's wealth and prosperity will be enhanced by better farming methods from year to year and that agriculture is the one great dependable thing here. He is glad, however, to note that interest is increasing in oil and potash.

Mr. Barber is a representative of the United States Chamber of Commerce of Washington City and is a member of a committee looking after transportation and his work brings him in touch with people over a wide area of the country. He had been to Denver and was returning when he stopped over here Friday to look at a section of land to which his wife became heir. Upon his return from this land he was asked to make a talk to the citizens of Crowell and at 7:30 a fair crowd met to hear the visitor.

He outlined his work in connection with the Chamber and it was both interesting and instructive. As we understand it the Government's inefficiency in handling transportation during the war after it had taken over the railroads gave rise to the organization of a body whose purpose it was to help re-establish good transportation service as well as to increase the efficiency of that service if possible. This committee has been at work in that direction and had marked success, as is evidenced by the fact that only a few years ago cars were very hard to get, while now they are supplied at once to the shipper. Better shipping service by water has also been effected and this country is better able to compete with the foreign producer by reason of that fact. This Chamber devotes its energies to matters of national scope.

He paid a high compliment to the citizenship of Crowell for their civic pride as has been manifested in the building of a clean modern little city.

## Rural Questions for the Rural Community

The following is submitted for publication by the United States Department of the Interior Bureau of Education, and is worthy the consideration of the friends of education, especially those interested in rural conditions:

The program recently announced for American Education Week, November 16-22, suggests many questions of vital importance to the rural community. The general topic for discussion November 20, "Know Your School," should attract the whole country-side to its school that Friday afternoon.

You can not really know your own school without comparing it with other schools in country and city. Is it better than or not quite so good as the schools in other districts? Why is it not so good a school as those provided for city children? Is the city elementary school really better in every respect than the country school? If so, why? Is it because the city schools have longer terms, better teachers, better school buildings with better equipment?

Why are all the city schools in session nine months in the year, and some of them ten months, while the country schools average terms of seven months and in some States only five or six months? Why are the country schools not open nine months in the year? Is it because the people do not want the full term or because they can not provide the funds? Is this also the reason they can not always employ teachers as competent as those who teach in the cities, or is it because so few well trained teachers offer their service for rural work?

Why are there better school buildings better equipped for the city schools? Is it because the cities raise more money for these things than rural schools can possibly secure? If you could have all these better things for the country schools would they not bring better attendance and better progress? Under present conditions is there any such thing as Equality or Opportunity in Education for the children of the country?

Wouldn't it be a queer world if everybody believed everybody else?

## Foard County Fair Only Few Days Off

The County Fair will be on us within a short time. October 1, 2, 3, are the days set for it, Thursday, Friday and Saturday. It will be here before we know it, almost.

Those in charge of the fair are doing everything possible to have a good county fair. It should be one of the best in the history of the county, and with the hearty co-operation of all who want to see a good one, this is possible.

The recent rains will be quite a help in that they will bring out the crops and make it possible to have a better showing in the exhibits than would have been possible had it not rained. Then, too, everybody will be in better spirits and feel more like exhibiting their stuff.

The exhibit this year will be something like that of last year, except possibly there will not be the general exhibit. This has not been definitely decided as yet, but there will be the community exhibits, as was had last year. And the club members are expected to make exhibits of their pigs and poultry.

In addition to the exhibits there will be a carnival attraction put on by the Big A Amusement Company of Dallas, the same company which was here a few weeks ago. There will be no rodeo, except that furnished by the carnival people. The rodeos have heretofore proven so expensive that the profits have been more than consumed and those who have been bearing the responsibility of the fair have had to carry some pretty heavy indebtedness. They hope to get out of debt this year, and with favorable conditions they will.

Next week the News will carry a premium list with further announcements in regard to the fair.

## Troop Committee Bans Rink Skating on Meeting Nights

The troop committee of the boy scouts, composed of W. W. Griffith, president; T. P. Reeder, secretary; Q. R. Miller, Dee Roberts and H. L. Kimsey, went on record in a meeting last Friday as placing a ban upon the boys' attendance of the skating rink on Friday nights, the time of the weekly meetings, and as discouraging their attendance at any time, upon the grounds that skating is dangerous, is a waste of money and time, and the habit of congregating and loitering around the rink is one calculated to be detrimental to them in many ways. The committee appreciates the fact that practically all the boys expressed themselves as approving this action of the committee at their meeting Friday night and the committee further calls upon all the parents of the members of the troop to co-operate with them and with the scout master in their efforts to put over a clean troop. The fullest measure of success in making the troop what it ought to be will depend largely upon that co-operation and for that reason and that alone is this solicited.

## Will Build Fine Country Residence

Foundation work was started Tuesday on a fine residence for S. S. Bell on the property he recently bought from J. W. Wishon two miles west of town. It is the place just recently sold by C. W. Thompson to Mr. Wishon and was one time the home of Mr. Thompson and his family. That place consists of 60 acres and Mr. Bell has bought 20 acres east of the place from S. P. McLaughlin which squares up the place into an 80 acre tract.

The residence Mr. Bell is building will be of brick and tile and will consist of five or six rooms and is expected to cost \$7,000 or \$8,000. The house will be modern in every particular and all modern conveniences, including electric lights and city water, will be added. The location is a short distance from the site of the old building and is on the top of the hill that overlooks the city of Crowell and the surrounding country. The location is 25 to 40 feet higher than the top of the court house. It is one of the most ideal places for a home in the country.

Ben Roberts of Denton spent last week end visiting his brother, N. J. Roberts, and other relatives. He will teach school in Wilbarger County again this winter.

## Two Improvement Programs Nearing Completion Here Now

One of the big things undertaken by Crowell, that of putting in a sewerage system, is now nearing completion. The ditches are practically all finished and it is expected that soon after the first of October if nothing happens to delay matters the system will be ready to tie onto. Such things as a sewerage system is what brings favorable remarks by visitors who not infrequently are heard to say "You are building permanently." That is to say the work is being done with the view of staying here. Twenty years ago there were few houses built in Crowell with the view of making Crowell a permanent place in which to live. Things have changed and it has been decided by most people here that Crowell is a good town in which to live and we might as well build with the idea of permanency in mind.

Another program of improvement is that of the Crowell Utilities Company in the installing of a white way in the center of the business section. This is going forward rapidly and will be completed within a few weeks at least. Quite a lot of extra work is having to be done that was not expected at first, that of laying bigger cables than was originally planned by the former owners of the light plant properties. It has become necessary to drill through the concrete curbing on the square in order to remedy this and it has caused some delay and quite a lot of extra expense.

But one of these days these things will be realities. We shall have sewerage and one of the best lighted towns in the West.

## Lubbock Team Wins In Denver Ball Games

A. L. Sloan made a trip to Lubbock last week, returning Sunday, accompanied by his son, Lewis, who had been in the series of ball games in Denver, Colo. The games started August 24th and closed Sept. 6th, and were put on by the Denver Post, being open to all amateur teams. Team after team was eliminated but Lubbock, the team in which Sloan plays, stayed through coming out winner of the first prize.

Besides the grand prize offered the winning team a large number of presents were given to individuals for their masterful playing. Sloan won several, one being for the longest hit made, and another for his excellent work in catching.

It is quite a distinction for Lubbock and we are all proud of her record, but Crowell is especially pleased that one of her townsmen helped put it over.

## New Brick Home Nearing Completion

The new brick home of Mr. and Mrs. M. S. Henry on the southeast corner of the Dr. Clark block is nearing completion. The carpenter work has been completed and the finishing of the upstairs rooms is done. The painters and paper hangers are now completing their work on the ground floor which will be done in a short time.

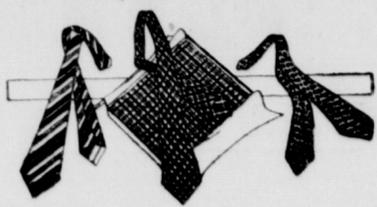

This beautiful home is equipped with all modern conveniences, including a three-way lighting system, cistern water running to the kitchen and bath rooms, also city water. The cistern water will be pumped by an electric pump from underground cisterns. Concrete curb and sidewalks have been built on the east and south sides and the yard filled in.

Mr. and Mrs. Henry expect to move in about the first of October.

## Orient to Put on Motor Car Service

San Angelo, Sept. 12.—Motor car service daily, except Sunday, between San Angelo and the Reagan County oil field, will be inaugurated Monday by the Orient. The car will leave San Angelo at 7 a. m., reach Texon at 10, leave Texon on the return at 5:30 p. m. and will be due here at 8:30 o'clock.

Two motor trains, consisting of two cars each, will be delivered to the Orient by Oct. 1. They will be placed in regular service between San Angelo and Alpine, western terminus of the road, replacing steam passenger trains. Quicker service will be rendered.

## Fall Neckwear

AUTUMN calls for plenty of color in Men's Neckwear—and plenty of color is to be found in our extensive stock. Stripes, checks and conventional designs in full cut silks and duo-bows are featured at prices that invite the purchase of a season's supply.

50c to \$1.00

### HOSIERY

Whether it be silks, fine flises, mixtures or light-weight wools, you'll find the Hosiery you desire. Plain colors as well as figured effects and clocks are shown.

35c to \$1.00

# Coupons Free

With each cash purchase at our store from 5 cents up we are giving coupons that will entitle the holder to credit one one of a number of premiums. Coupons will also be allowed on accounts of a month's time when paid by the 10th of the month following purchase.

We can not enumerate the premiums, but there are hundreds of them and you may secure a catalogue for the asking at the store.

With your purchases do not fail to call for coupons. And if you need a catalogue call for it also.

You will always find our regular prices on groceries very attractive.

## SWIM & SONS

In Ringgold Bldg.

The prices of many staple groceries fluctuate to such extent that we are often selling to our customers at prices below wholesale. This means advantage to our customers, but even if this does not happen every day, the fact that we sell you good quality eats as low or even lower than cheaper grades is a matter of satisfaction to us because we know you are pleased and we try to please you first.

There is a great difference in the quality of groceries and it never pays to buy poor grades. That kind is always the highest and should we sell you such foods at any price you will not be satisfied and we would be the losers.

This is a dependable grocery store where you can always get a dollar's worth for every dollar you spend with us.

Mr. and Mrs. Lem Davidson and children were in Crowell on business Saturday afternoon.

Our community was visited by at least a 6-inch rain Sunday and Sunday night which will be a benefit to both feed and cotton.

Lem Davidson and R. N. Beatty returned to their homes Friday night of last week from New Mexico where they went after a load of apples.

Misses Nellie and Gracie Carroll were visitors in Crowell Saturday afternoon.

H. Young and son, Roy, were transacting business in Crowell Saturday afternoon.

J. M. Marr, Arthur Sandlin, G. J. Benham and sons were in Crowell Saturday afternoon.

Miss Jewell Fish returned to her home Saturday afternoon after several days visit with her aunt, Mrs. A. L. Walling, and cousin, Mrs. Geo. Benham, of Crowell.

Mr. and Mrs. Ben Easley were in Crowell Saturday afternoon.

R. N. and Charlie Beatty were in Crowell Saturday afternoon.

### Rayland News

(By Special Correspondent)

Mr. and Mrs. H. D. Lawson and daughter, Frances, Mrs. W. N. Reid and children are visiting friends and relatives at Floydada and Post City

and will return home this week. Cotton picking is beginning in our community.

Archer Lawrence of Doans spent Sunday with Walter Lawson.

Dr. Clark and Dr. Hill of Crowell were called out to see W. W. Wood Monday to dress his burns. He is not resting well.

The Antelope school opened Monday with a large enrollment. The teachers for the term are, Mr. and Mrs. E. J. Covey, Miss Florence Black of Crowell and Miss Russell of Fargo.

Mrs. Jacob of Vernon was brought out to nurse W. W. Wood.

Ruby Simmons was taken to the Vernon sanitarium Tuesday morning.

Mr. and Mrs. Fred Belew left Sunday for Floydada to visit Mrs. Belew's brothers, Clayton and Will Paschell.

Ralph Gregg and Arnold Young were Vernon visitors Tuesday.

J. E. Young left Saturday for Floydada to get Mrs. Young who has been at the bedside of her father. They will return home this week.

Dr. Maime of Thalia was called to see Mrs. Addie Spruell who is sick.

Bailey Rennels left Saturday for Decatur where he will enter school.

The man who used to travel by rail without a time table is now running around in an automobile without a road map.

Everything in its place. The automobile belongs in the garage at least after midnight.

There is difference between punishment in the woodshed and on the football gridiron.

Too many people make the mistake of trying to clean up a bad situation with soiled hands.

It's easy for some men to get too sick to work and still be well enough to go fishing.

## A Few of the Many Reasons Why We're Glad We Sell McCormick-Deering Grain Drills

A McCormick-Deering grain drill is assurance of getting the best possible yield that soil and moisture conditions will permit. For each individual requirement there is a size and type of McCormick-Deering drill, quality built, and so carefully designed that they do good work under all conditions. McCormick-Deering drills are known by the service they give. Thousands upon thousands of satisfied users who know the value of a sturdy, compact, and convenient grain drill vouch for McCormick-Deering as the drill that starts the seed right.

Since the first McCormick-Deering grain drill was placed on the market, improvements and refinements have been made until today they are a standard of quality recognized by farmers in all parts of the world. Everything humanly possible has been done to make McCormick-Deering drills as near mechanically perfect as possible. No opportunity to improve their design and construction has been overlooked—truly McCormick-Deering drills are built right.

Their select quality is sure to keep that smile of satisfaction glowing on hubby's face.

It means much to buy goods where you get satisfaction both in the quality of goods and in the service rendered. It is worth while because of the smiles it brings, and after all happiness is that for which most of us are striving.

It will be a pleasure to add you to our growing list of satisfied customers.

With your order let us send you a sack of that famous flour,

AMERICAN BEAUTY

## Fox & Thompson Grocery

**THE FOARD COUNTY NEWS**

KIMSEY & KLEPPER, Owners and Publishers

Entered at the Post Office at Crowell, Texas, as second class matter.

Crowell, Texas, Sept. 20, 1925

Several persons in the county, among them being commissioners, have said the News expressed their sentiments in an editorial a few weeks ago relative to the highways. We have believed that there ought to be some way of bringing this matter before the state highway commission in such way as to get action and save our roads. If there is no way, then we have been done serious damage by the State's taking the roads over. It is hoped that there may be set in motion an influence that will cause action and that pretty soon. An investment of \$150,000 is at stake, to say nothing of the danger that confronts us in the possible loss of much traffic.

According to statements made in the American Press, country newspaper advertising is coming to be regarded with more favor by the big manufacturing concerns of the country than ever before. Fifty-eight of the biggest manufacturing establishments of the United States all together spent more than \$3,000,000 more for advertising in the country papers than they spent in the magazines and metropolitan publications last year. The reason is plain, the country papers go into the homes of the consumers and advertisers are coming to realize that fact. Millions of buyers never see the magazines. Practically everybody sees the home paper.

Somebody comes along now and says they are trying to invent a machine that can pick up all the words that have ever been spoken and give them out in audible tones to the world. The theory is that sound never ceases to ride on the etherial waves. Well, now, if they are going to do that you had better begin to guard your words and quit saying ugly things about your neighbor.

The only serious accident we have heard of at the skating rink is that of a broken limb. The only damage done by headlong plunges has been that sustained by the floor and that can be repaired. As long as one who skates hits on his head he is unhurt.

J. R. Allee and family returned Wednesday night from an automobile trip to Indiana. They visited Mr. and Mrs. Ben Bledsoe at Vevay, Ind., and from there they went to Warsaw, Ky., where they visited another Bledsoe family. Returning to Indiana they visited in the home of E. Swaim's father. On the return trip home they visited relatives of Mrs. Allee in Missouri, also stopping a few days with Mr. and Mrs. Chas. Hunt at Sand Springs, Okla.

Mr. and Mrs. E. Swaim and family and Miss Bernice Schlagal returned Sunday night from their visit to Indiana. Among the historic places they visited were the caves in Kentucky, among them being the one in which Floyd Collins was imprisoned. They had a very pleasant trip and a delightful visit with relatives. Mr. Swaim says they drove in mud from Arkansas home. They went a northern route through Missouri and Illinois and the return trip was made through Tennessee and Arkansas.

**Announcement**

We take great pleasure in announcing to our patrons that we have added to our phonograph department two of the most celebrated and world-famous radiophones, namely, "R. C. A." (Radio Corporation of America) products, including the famous Super Hetrodine that operates perfectly without visible wires or other accessories—and the Crosley, voted by a census of the American farmer to be the most popular radio. Our prices are as low as the lowest—our service as good as the best. We want you to visit and hear them. Prices \$23.75 to as high as \$750.00.—Womack Bros.

Miss Frances Hill has gone to Fort Worth where she will be a student in the Texas Womans College.

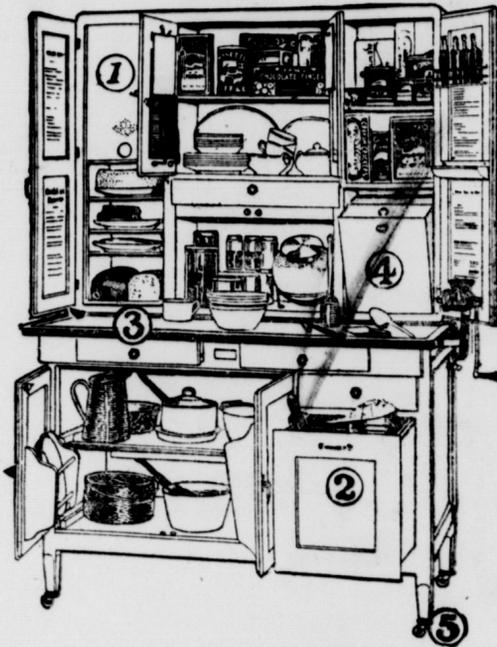

**Cathedral Will Dwarf Washington Monument**

Several years will be required for the drying of the cement plastering on the vaulted ceilings of the Chapel of the Resurrection in the crypt of Washington cathedral on Mount St. Alban, says the Boston Transcript. This isolated fact of itself impresses the quality of the undertaking whose purpose it is to present the national capital with a church structure designed to stand for 2,000 years. The design of this chapel is unique in modern times; and while the cement is drying the cathedral chapter, it is announced, will search for a Leonardo da Vinci, who will be commissioned to decorate its walls with frescoes in primary colors depicting the doctrine of the Resurrection. A fresco can be applied only while the mortar is moist; and it is said of the frescoes of Brumidi in the senate corridors at the capitol that the artists could mix and apply only enough mortar for each day's design. This second crypt chapel, which is not that in which the remains of Woodrow Wilson and Admiral Dewey lie, was designed by Philip Hubert Frohman of Boston.

The future visitor to Washington will be interested to know that when the Washington cathedral is completed the Washington monument probably must take second place as a local landmark. Mount St. Alban stands at an elevation almost as high as the top of the monument, while the main roof of the cathedral will extend above 100 feet higher than the Bethlehem chapel and the Chapel of the Resurrection, already completed. The building, it is believed, will be visible from a greater distance than the monument. At least, it will bulk much larger to the eye.

### West Texas News

**Ballinger, Texas**—Within a short time the cotton rush will be on in Runnels County and there will be busy times here for the next sixty days or longer. The gins are humming and the daily receipts of cotton are increasing on the local market. Up to date more than thirty bales have been marketed.

**Muleshoe, Texas**—A fleet of seven trucks have been provided for the schools here for the purpose of conveying the children to and from school, rain or shine, regardless of weather. Muleshoe has a population of 1,000 and is located in the heart of the great plains district.

**Moran, Texas**—The Moran Luncheon Club met recently with more than sixty members and visitors present. The Moran Band rendered several selections before the luncheon, at which J. F. Scott, of Haileyville, Okla., was the principal speaker.

**Amarillo, Texas**—In session last week at Fort Worth, the Texas Department of the American Legion selected Amarillo as the place for the 1926 convention. Amarillo put up a stiff fight, eliminating Houston, her strongest competitor.

**Plainview, Texas**—Agricultural Exhibits of Hale County will be shown this year at the Amarillo Tri-State Fair and Exposition; the Texas-Oklahoma Fair at Wichita Falls, and the State Fair of Texas at Dallas. Col. R. P. Smyth, Sam T. Scaling and Maury Hopkins, secretary of the Board of City Development will have charge of the exhibits.

**Childress, Texas**—The Fort Worth & Denver City Railway Company is erecting the second large steel storage tank in Childress. The tank is being built on a concrete and steel support with a diameter of 24 feet and more than 60 feet to the top of the cover. The capacity of the tank will be 150,000 gallons of fuel oil for locomotives.

**Brady, Texas**—A H. Board was re-elected president of the Brady Chamber of Commerce at a meeting of the directors recently held, and Wm. D. Cargill was re-elected secretary. Considerable time was given to the hearing and discussing of plans for the developing and building of Brady and McCulloch County.

**Artesia, N. M.**—Plans are under way here for two additional municipal improvements. Plans for the installation of a modern street lighting system, also a paving program, were submitted to the City Council at a meeting recently held.

**Comanche, Texas**—More than 5,000 people here heard the address of R. Q. Lee, president of the West Texas Chamber of Commerce, on diversified and intensive farming. An informal reception for Mr. Lee was held and numerous farmers discussed with him the program he is advocating. Following the speaking a water-melon feast was held on the court house lawn and several hundred melons furnished by the local chamber of commerce and Lions' Club were served.

**Quanah, Texas**—Contract has been let for the remodeling of the Tribune-Chief building here. After a 35-foot brick extension, two linotypes and three job presses will be removed to the new part of the building. A concrete floor is to be laid, the walls plastered, a metal ceiling put in, and the old iron front will be replaced by a modern brick front with plate glass.

**Littlefield, Texas**—Water mains are now being rapidly laid on the streets of Littlefield. The two wells furnishing the water supply have been completed and pumps installed. The Chamber of Commerce is now discussing ways and means for a sewerage system and the paving of the main street of the town.

### Card of Thanks

We desire to thank the many friends and neighbors for all they have done for us during the illness and death of our dear one, Mrs. Lou Lyles. Your words of sympathy and tender acts of kindness were a wonderful consolation to us. From the depths of our hearts we sincerely thank you.

J. M. Clayton and Family, Charlie and Claude Lyles, Mrs. Giddings and Family.

### Pointed Paragraphs

Folks who realize that there is a happy medium always get along in peace and harmony.

People who never believed in trial marriages decide sometimes that a trial is the only way out.

Too many people's idea of a good time seems to be too many people's idea of a wicked time.

How'd you like to be the husband of the woman who writes all the cooking recipes for the papers?

A secret is what you tell someone not to tell because you promised you wouldn't tell it yourself.

A good way to promote honesty is to make dishonesty unprofitable.

Most of the trials of being a movie star are held in court.

## To Stay In Your Car And Out Of The Repair Shop

Why wonder which battery to buy? Experienced motorists by the millions have bought Exide since the day of the first electric starter. They are still buying them. East Side Square

When a ball player argues with the umpire, you may put it down he's still single. The married players have forgotten how.

Night is a good time for sleeping, but the best time is that which the baby selects.

Lacking the real thing, Oklahoma bankers will use dummy bandits for target practice.

Glory fades when it is dyed.

### IT DRIVES OUT WORMS

The surest sign of worms in children is paleness, lack of interest in play, fretfulness, variable appetite, picking at the nose and sudden starting in sleep. When these symptoms appear it is time to give White's Cream Vermifuge. A few doses drives out the worms and puts the little one on the road to health again. White's Cream Vermifuge has a record of fifty years of successful use. Price 35c. Sold by For sale by all good drug stores

"The price must be cut to \$595 but I want every one of these new features included."

John N. Willys

President Willys-Overland, Inc.

Such was the President's order. Result—a new day automobile. . . The light car classic of the year, at a price unbelievably possible until now.

Now, for the first time in history, you can have a regular full-sized, five-passenger Sedan, with sliding gear transmission, for less than \$600!

... before you decide on any car, in any price class, you owe it to yourself to pay us a visit and to examine carefully this wonder-value in our showroom.

... smartly designed, clean cut, rakish, low, extraordinarily good looking! ... lacquer polish finish, as handsome a light automobile as anybody would want to own, women instantly demand it.

... a 27 horse-power engine, sturdy and reliable ... all the power you need to carry you 50 miles or 50,000. Notable for its power on the hills ... Economical

... hundreds of owners report as high as 15,000 miles without a dollar spent for engine upkeep.

... three speed, selective, sliding gear transmission, just as in the most expensive automobiles ... Disc type clutch of the same type as used in the highest priced cars. Starting, lighting and ignition system that is the last word in dependability

... axle shafts of Molybdenum steel, the toughest and strongest steel known to science.

... a chassis that has proven its strength and durability in the hands of over 300,000 owners. Springs of Chrome Vanadium steel, the finest spring steel known to engineering.

In short a real quality automobile at a price that absolutely establishes a new measure of car value.

Easy terms. Only a small payment down and fifty-two weeks or more to pay the balance. Trade in your present car as part payment.

**They're Likeable!  
Fall Hats**

There's a certain sophisticated charm about the new Millinery that goes well with the simple modes in outer apparel. While some of the hats possess more brim than heretofore, it is tucked in and turned back. Satins, velvets, and hatter's plush is being featured extensively.

**Crowell Dry Goods Co.**

**BACK TO SCHOOL AGAIN**

The school year is opening again and the school house door is beckoning to youngsters to return and partake of the knowledge that the community is offering them, free of charge, that they may be able to compete successfully in the great struggle for existence when they become men and women.

School means much to children—more than they realize. It means an opportunity to learn not alone the facts that books contain, but how to live so that their lives will bear abundant fruit.

Some parents feel a sense of relief when school opens—that a great weight has been lifted from their shoulders. And this is where they fail as parents.

Responsibility does not end when the youngsters are returned to their instructors. Teachers may instruct and guide them while they are in the school room, but can not follow them after they leave its doors.

To parents fall the obligation of sheltering and protecting them from the pitfalls of the street and the open, from the snares which to them appear to be but innocent pastime.

The responsibility of the teacher is heavy, but the parents is infinitely greater.

The school authorities have worked out their program for the year and they are prepared to do their duty. It is squarely up to those outside the school organization to assist the authorities by fulfilling their part of the unwritten contract.

Keep looking forward and you see where you will be; keep looking backward and you only see the mistakes you made.

What has become of the old-fashioned wife who used to notice a button off, instead of a blond hair on her husband's coat?

About the time that one feels he is becoming truly great, it's necessary to take some heroic steps to prevent shrinkage.

It is the better part of wisdom to laugh when your friends tell a joke, because you may have one to tell some day.

Some people sit on the front porch to see who goes riding to see who sit on the porch.

When you think you are too old to learn, it's about time to begin.

**YOU MAY HAVE PELLAGRA!**  
**MANY SICK PEOPLE HAVE PELLAGRA AND DON'T KNOW IT. READ WHAT THESE TWO TEXAS LADIES SAY.**

W. C. Roundtree, M. D. Texarkana, Texas.

Dear Doctor: I was nervous, had hurting in my stomach all the time, could not eat or sleep, lost weight, skin turned brown, feet burned, mouth sore, swimming in the head, dizzy headaches, shortness of breath, constipation, and general weakness. I tried many different kinds of medicine and many doctors, but got no relief until I took your Pellagra Treatment. In one month I was sound and well. I now do all my work and have gained 27 pounds, I had Pellagra and didn't know it.

Mrs. Edna Murphy, De Kalb, Texas, April 1, 1925.

W. C. Roundtree, M. D. Texarkana, Texas.

Dear Doctor: My normal weight was 150 pounds. I lost weight until I only weighed 115 pounds. I had all the symptoms of Pellagra—stomach trouble, hands sunburned, diarrhoea, very nervous, had crying spells and thought I would lose my mind. I took your Pellagra Treatment in 1923 and it entirely relieved me. I have had no trouble since and I now weigh 175 pounds.

Mrs. L. H. Young, Yantis, Texas, April 1, 1925.

If you are suffering from any of the symptoms mentioned in the above testimonials write for booklet "The Story of Pellagra," and FREE Diagnosis.

W. C. ROUNDTREE, M. D., Texarkana, Texas. 12p

**T. E. L. Class**

Last Thursday afternoon at 2 o'clock the class met with Mesdames A. L. Rucker, T. N. Bell and Joe Couch. We met an hour earlier than usual and were requested to bring our hand work. So at 2 o'clock 16 women were present with all kinds of hoops, needles and embroidery and a social hour was enjoyed. Then the house came to order and business of the class attended to. Mrs. T. N. Bell, led the devotional. Mrs. A. L. Wright sang "Tenting by the Cross," with Mrs. Rucker at the piano. Mesdames Griffith and Bell sang a duet, "He Cares for Me."

The class was delighted to have the following visitors: Mesdames Paul Shirley, Louis Saunders, Grover Cole, R. J. Roberts, George Allison, Miss Josie Wright and Miss Lottie Cole. And especially were we glad to have a former member of the class, Mrs. Claude Adams, of Austin, Texas. Delicious ice and cake were served.—Reporter.

**MANY BRIDGES WASHED OUT**

All over the county the bridges have gone out or if the bridge has held the approaches have washed out to such an extent that it is impossible for a crossing to be made. The county authorities are trying to remedy these cases by building troughs which are laid over the washout and can be crossed with little danger. This is only for temporary relief for as soon as the ground is dry enough for a slide to gather any amount of dirt these places will be filled in.—Quannah Tribune-Chief.

**DELICIOUS ROASTS FOR LESS MONEY**

THERE'S nothing finer on a platter than a savory, tender roast from the Star Meat Market. Order a cut or two today.

**STAR MEAT MARKET—Graham & Campsey, Props.**

**Renew Your Health by Purification**

Any physician will tell you that "Perfect Purification of the System is Nature's foundation of Perfect Health." Why not rid yourself of chronic ailments that are undermining your vitality? Purify your entire system by taking a thorough course of Calotabs, —once or twice a week for several weeks—and see how Nature rewards you with health.

Calotabs are the greatest of all system purifiers. Get a family package, containing full directions, price 35 cts.; trial package 10 cts. At any drug store. (Adv.)

### Statesman Forgot

Like so many famous professors of science, Prime Minister Painleve, who, of course, is known to the world primarily as one of its greatest modern mathematicians, is excessively absent-minded. During a recent debate on Morocco in the chamber of deputies—a debate of crucial importance to his ministry—M. Painleve discovered as he was making an address that he had forgotten the name of his foreign minister (M. Briand). "I am ready to meet the wishes of the chamber," he said, "and the question of Morocco, which is so important, can be discussed today, tomorrow or Wednesday. Tomorrow, however, may be unsuitable because my friend M. ——" Here M. Painleve forgot the name, hesitated and stammered and pointed to M. Briand. "I mean," he went on, "M. — M—the ex-premier —" and then again he came to a halt, blushing. "M—" he tried once again and the chamber, interrupting with roars of laughter, shouted M. Briand's name. It was only then that M. Painleve was able to continue. "Yes," he went on, "Thank you, that's it. M. B— B— will be detained in the senate tomorrow, and so perhaps it will be better for us to postpone the debate till Wednesday."

### Shield to Be Returned

The city of Quebec has just been notified that the shield taken from the gates of the old city after the capture of the place from the French by General Wolfe will be returned to it by the town of Hastings, England, as the result of a vote by the town council. The shield had come into the possession of Gen. Wolfe Murray, who presented it to his home town. The town of Hastings voted at first to keep the shield, but reversed the decision.

### Nutmegger Gentlemen

Salesmen calling on the hardware trade and selling wholesale only in the state of Connecticut, have organized themselves into an association. They named themselves "The Nutmeggers." Their purpose is to jealously guard the ethics of their craft, their moral standing in the community and to boost the hardware business. They will endeavor to give new and young men in the field a lift and teach them the unwritten laws of their profession. Here is their slogan: "A Nutmegger will always be a gentleman."—Good Hardware.

### Tadpoles Kept Young

Scientists at the Johns Hopkins Medical school have found the fountain of perpetual youth, but so far only tadpoles are permitted to drink of its magic waters. When frog eggs were hatching at the laboratory, before the tadpole was developed fully, the anterior lobe of a certain gland in the brain was cut away. With this gone the thyroid gland does not develop normally and the tadpole remains the same.

### Elderly Tripping

Theodore Dreiser, the eminent novelist, was talking at a Greenwich Village tea about a veteran critic who had deserted his loyal wife and abandoned a good job for a silly country girl of seventeen or eighteen summers. "Our poor friend's fate," said Mr. Dreiser, shaking his head and smiling whimsically—"our poor friend's sad fate shows us that you can watch your step for 50 years and then trip over a dimple."

### INDIVIDUAL THE UNIT

The responsibility of the individual was never greater than now, yet there has been a growing disposition to let governments, whether they be national, state or local, function in all matters, and blame this intangible thing called government if anything goes awry.

There never has been a time in the affairs of the people of this country when a higher standard of individual character and conduct was essential than now.

Determined influences are being exerted to undermine the regard of the individual for the very laws which the individuals, collectively, through their representatives, have enacted as rules of their own conduct and relations to one another.

If a clear understanding of individual responsibility in matters affecting the common good could be gained, there would never be even the remote possibility of failure in any worthy undertaking.

Neither would there be any failure in the community, the state or the home of the effort to establish and maintain harmonious conditions. This happy realization is not always reached, but this is because some individual, or group of individuals, are unable or unwilling to contribute unselfishly to the total.

The failure of most community en-

terprises is in large measure due to the unwillingness of some individuals to realize their responsibility to the community and to bear their share of it.

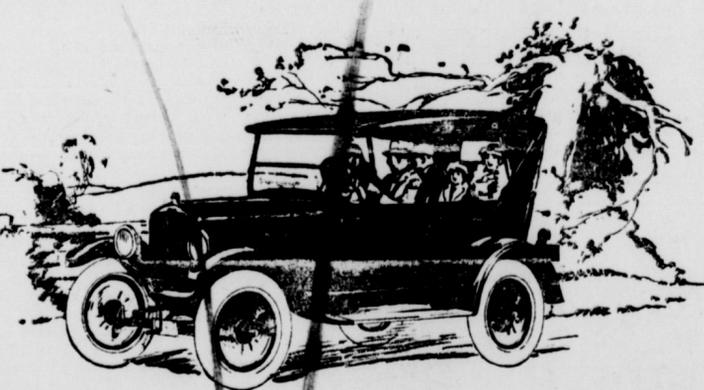

The communities that get ahead are those where the merchants, the professional men, the laboring men and all other groups have a deep sense of their individual obligation to the community, which is their home, and endeavor to live up to it.
