SCHOOL FUND ABOUT \$7,000

Something like \$5,000 have been collected for taxes in the Crowell independent school district according to figures given out by the tax collector. Of this amount about \$2,150 goes to the sinking fund, which leaves approximately \$3,000 for the maintenance of the school. From the state we get about \$3,500, which added to the \$3,000 gives us between \$6,000 and \$7,000 for the running of the Crowell school. Figuring that it requires \$1,000 per month to operate the school we will lack \$3,000 after the taxes have all been paid. This is an amount equal to the taxes already collected from the residents of the district. So the school board must have been about right last week when it stated that we would have to double our valuations in order to get money enough to operate our school for a period of eight or nine months.

For the present term, of course, this has been remedied by collection of tuition from the pupils at the beginning of the term, and it is that very bad arrangement which the board would correct and which many of our citizens would have corrected by raising the valuations in order to provide sufficient funds for the

So I look to the a cloth saturated with turpentine, and while she and some other children eous" to speak of. were out playing one day the saturated cloth was accidentally ignited when a match was struck. This could not be removed before the child was severely burned. It is said the burning of the cloth drove the turpentine into her system and poisoned the child.

For several days it was thought she could not survive, but later reports are that she is out of danger and is getting along alright.

MERGER OF EXPRESS COMPA-NIES MAY CONTINUE AFTER

RAIROADS ARE RETURNED A report has been circulating recently to the effect that the various companies which now constitute the American Railway Express Company will continue their present merger even after the railroads are returned to private control. When he was asked sbout this rumor, George C. Taylor, the President of the Corporation, made the following statement:

"The continuance of the corpora tion in its present form has merely been discussed and no positive action is possible until after the railroad legislation in Congress has been completed. My view is that no other disposition of the express companies vould be feasible."

When Mr. Taylor was asked what the attitude of the various railroads toward such a step as the continued consolidation would be, he said that

the attitude of the railroads appeared "DIAMOND DYE" OLD

The Year to Build

YES, THIS IS THE YEAR TO BUILD. YOU MAY NOT THINK SO AT FIRST THOUGHT. YOU MAY SAY MATERIAL IS TOO HIGH, BUT IT IS NOT.

LET US GVE YOU THIS THOUGHT: A BALE OF COTTON TODAY WILL BUY MORE THAN TWICE AS MUCH BUILDING MA-TERIAL AS IT EVER WOULD BE-FORE. BASING THINGS ON THE PRESENT PRICE OF FARM PROD-UCTS, YOU CAN BUILD A GREAT DEAL CHEAPER THAN YOU COULD HAVE IN 1914, OR IN YEARS PAST.

THIS IS THE YEAR TO BUILD, WHEN FARM PRODUCTS ARE SO HIGH AND WILL GO SO FAR IN PAYING FOR MATERIAL. LET US GIVE YOU ESTIMATES. WE WILL GLADLY DO SO.

A CHILD GETS CROSS, SICK AND FEVERISH WHEN CONSTIPATED

Look, Mother! If Tongue Is Coated Clean Little Liver And Bowels

If your little one's tongue is coated, it is a sure sign the stomach, liver and bowels need a gentle, thorough cleansing at once. When your child is cross, peevish, listless, pale, doesn't sleep, eat or act naturally; if breath is bad, stomach sour, system full of cold, throat sore, or if feverish, give a teaspoonful of "California Syrup of Figs," and in a few hours all the clogged-up, constipated waste, sour bile and undigested food will gently

move out of the bowels, and you have a well, playful child again. Sick children needn't be coaxed to take this harmless "fruit laxative." TUBERCULOSIS PREVENTABLE AND CURABLE

Austin. Texas.-Thoughtlessness is one of the great causes of the spread of tuberculosis, declares D. E. Breed, executivt secretary of the Texas Pub- thering of the educational interests lie Health Association.

"This may seem to be a peculiar County: statement," said Mr. Breed; "but you often hear people say: 'Why should I help to prevent tuberculosis? I haven't the disease; and I won't get it.' But these people do not know that they are liable at any moment to contract the 'white plague' if it is allowed to spread. Their thoughtless- pete for the honor of being permitted ness and heedlessness may allow tuberculosis to enter their homes and attack their wife and children. This disease is preventable and curable."

The census of 1910 showed that there were over 690,000 negroes in Texas in that year. The tuberculosis death rate among the colored race is League and if we try at all we should estimated to be 450 for every 100,- have some very strong representa-000 yearly. This would mean that tives in the State Meet. there are over 3100 deaths from this disease among the negroes of Texas are just as strong physically and menevery year. The death rate among the Mexicans is very high on account of the bad living conditions under tributed if given a chance. which many of them exist.

"It is the duty of every Texan to help drive the 'Great White Plague' from the state and the thoughtlessness which says: 'I haven't the disease so why should I help?' allows tuberculosis to spread," said Mr. Breed. "The dread disease which causes such ravages among the people of our state must be checked; the negroes must be helped as well as the whites."

The Texas Public Health Association which has been fighting tuberculosis for over eight years is sending a negro lecturer, F. R. Barnwell, among his race to lecture and teach the lesson of good health. He is teaching health habits as prevention for disease.

COUNTY INTERSCHOLASTIC LEAGUE CONTEST

March 26-27, 1920, Crowell, Texas. To the teachers, trustees and any others who are interested in the furof the school children of Foard

On Friday and Saturday, March 26-27, 1920, the schools of Foard County will hold competitive contests at Crowell to determine the County Champions in the events listed below. These champions to attend the District Meet at Quanah there to comto attend the State Meet at Austin.

These contests have become a very important factor in the development of the children and we hope for a very enthusiastic meet this year.

Foard County schools enrolled 100 per cent strong in the Interscholastic

The track and field events will be held during the daylight hours and the contests in debating, spelling, declamation, essay writing and extempore speaking will be conducted at night in the district court room.

The contest for County Championship in basket ball for both boys and girls will have been decided by interschool games before the date of the County Meet.

Owing to the shortness of our playing season these games will be limited to one game between each school and of course will depend for their outcome on the physical condition of each team on its playing date.

This is one of the best events on the schedule and should be encouraged by patrons and teachers alike.

Give your boys and girls a chance. Let them win honors at home and they will have a stronger incentive to win still more honor when they go to the higher institutions.

The events open for competition are as follows:

Girls-Track Events Junior Girls

30-yard dash. 140-yard dash, relay. Senior Girls 30-yard yard dash. 140-yard dash, relay.

Field Events Junior Girls

Percheron Mares

Public Auction

The Rockwell Stock Farms Co, of Oklahoma, having a surplus of mares and horses, have been induced and will sell at public auction 24 Percheron mares and horses.

All are well broke, from 4 to 7 years old, weighing from 1300 to 1800 pounds, among which will be found some of the very best that grow, all of our own raising. We have taken great care in selecting good blood in order to get the Bone, Substance and Conformation. There are several nicely matched pairs of these mares; some are in foal to a MAMMOTH JACK, winner of several Blue Ribbons.

The Geldings are a very nice Assortment and are suitable for the oil fields or any place where weight is needed. We will also sell two general purpose horses that have been used to the buckboards and are broke single to ride. These horses will be sold on one year's time under an Iron Clad Guarantee, without any by-bidding whatever or protection. Any person wanting to get in on the ground floor to raise good mules or parties wanting good draft Horses it will pay to attend this sale. Other announcements will be made by Auctioneer the day of sale.

WHAT IS THE WORLD

There are so many voices proclaiming new ideas that the average citizen doesn't know whether the high cost of living is due to the war, the meat trust or the influenza. Every public man, and many that aspire to publicity, have their own ideas of the cure that is needed. The world is rattled. Unrest abounds because stability has been shattered in the social order, but how few of us realize that destiny is working.

Regardless of what happens during the next twenty-five years, whether the Reds triumph or democracy main-We cannot see it. Even the spirits and spooks of the scientific spiritualists do not tell us of it. But fifty years from now some wise man, who will impress his age with his wisdom, will rise in his learning and trace clearly the working of inevitable fate through all the present mix-up.

How clear it will seem then! Cause and effect will stand forth unmasked! Just as we today think we know everything about the past, and as we assert that the course of history would be the downfall of civilization if the American republic had not been founded, so in the future men and women will say that without this war and immediate aftermath certain ruin would have faced the world. How human, but how false. Who knows what our present might have been unhampered by its past? Who can dream how glorious the future might have been without our present?

UNIVERSAL TRAINING PLAN

LIKELY TO FAIL It is now said that the determination of House leaders to keep public expenditures down so as to avoid the necessity of another bond issue is likely to defeat the universal military at the age of thirty-two years, which training plan now pending before Congress.

It is argued that, in the present a prospective deficit of \$3,000,000, it the egg-layer. is unwise to incur the additional expense of \$700,000,000 per annum which would be necessitated by the man beings. inauguration of the universal military training plan.

In a speech delivered in the House, Representative Moncell, the Republican floor leader, stated that the cost of the proposed regular army of 275, 000 officers and men will amount to from \$425,000,000 to \$475,000,000 per annum, and pointed out that even the lower figure, together with the \$700,-000,000 estimated cost of universal training, would run the cost of our military establishment up to \$1,125,-000,000 per annum, or more than the entire cost of running the Federal Government before the World War.

Mr. Moncell urged that, in view of the present urgent need for economy in Government expenditures, the decision of the question of universal military training should be deferred "until we shall find ourselves in better financial condition."

The last blizzard tied up many railroad trains. Another reason govern ment operation is inefficient!

Terrible Suffering From Headache, Sideache, Backache, and Weakness, Relieved by Cardui, Says This Texas Lady.

Gonzales, Tex .- Mrs. Minnie Philpot, of this place, writes: "Five years ago I was taken with a pain in my left side. It was right under my left rib. It would commence with an aching and extend up into my left shoulder and on down into my back. By that time the pain would be so severe I would have to take to bed, and suffered usually about three days ... I suffered this way for three years, and got to be a mere skeleton and was so weak I could hardly stand alone. Was not able to go anywhere and had to let my house work go... I suffered awful with a pain in my back and I had the headache all the time. I just was unable to do a thing. My life was a misery, my stomach got in an awful condition, caused from taking so much medicine. I suffered so much pain. I had just about given up all hopes of our getting anything to help

One day a Birthday Almanac was thrown in my yard. After reading its testimonials I decided to try Car-dui, and am so thankful that I did. for I began to improve when on the second bottle...I am now a well woman and feeling fine and the cure has been permanent for it has been two years since my awful bad health. I will always praise and recommended." Try Cardui today.

PLANS OF WEST TEXAS

CHAMBER OF COMMERCE Stamford, Feb .- Plans of the West Texas Chamber of Commerce for repoultrization of West Texas have been announced as follows by headquarters here:

Selected boys and girls in West Texas counties will be assigned two settings of pure bred eggs each by the organization through the generosity of Mayor R. L. Penick and J. W. Mc-Cloud of Stamford. The recipients are required to set these eggs and raise as many chickens as possible Between August 15th and September 15th a poultry show will be held at which all chickens raised by these youthful fanciers will be exhibited, expenses of shipment to be borne by the West Texas Chamber of Commerce. Prizes will be awarded by the organization Part of the increase of the flocks will be retained and the remainder returned to the boys and girls who raised them. Boys and girls wishing to enter the contest are asked to write to the Poultry Department, West Texas Chamber of Commerce, Stamford.

Mrs. J. L. Landrum, Field representative of the W. T. C. C. and the State Department of Agriculture, Home Economics Division, is at present traveling in all parts of the West to organize poultry clubs. She will give instructions upon her arrival, or through letters to inquiries sent to her at Stamford.

Another plan suggested: Let merchants of each town buy a few pens of chickens to lend to their farmer friends from which to increase the poultry flocks of their sections. During the fall have the farmers bring their old pens and increase to the town poultry show to compete for prizes. Let the merchants retain 80 per cent of cockrels and 20 per cent of pullets and the old pens and give the farmer the remainder. This will stimulate repoultrization of West Texas.

Still another plan: Have the banks and merchants finance the purchase of settings of eggs for children to raise large flocks. At the conclusion of the season have each community hold a poultry show where the increase may be brought in to compete. Banks and merchants who made possible the financing of the repoultrization campaign may then be rewarded with a portion of the increase to care for their expenditures in the begin-

The fact that the poultry industry of the United States is one of the largest, exceeding even the cotton industry, and further fact that West Texas is the most adapted habitat of the chicken and needs to expand in this line—these lead the West Texas ial efforts to magnify the industry.

All West Texas counties are eligible to enter the contest of the organi-
