SANTA FE PLANS BUILDING NEW LINE

WILL CONNECT FLOYDADA WITH CROWELL. ONE OF TWO ROUTES LIKELY

Following a communication from the Chamber of Commerce of Paducah, the secretary of the Foard Chamber, the Santa Fe railroads are planning to extend its line from Floydada to Seymour and Paducah. This matter has not been definitely decided. Influences are operating to route the line through Dickens, King and Counties west of here. All of the towns between the active points are pulling for further to the north, toward Paducah and Crowell. The purpose of the above mentioned communication is to get these towns mentioned in the proposition and get it possible. Mr. McGown is on this matter before our people for their consideration.

Of course, just what would be expected of these towns in the offering of presents to the Santa Fe in any way, we do not know, but at least if it they can well afford to do so into the matter and at the same time submit data as to shipping livestock and farm products to Santa Fe might expect to in case it should build through an investigation of the matter to be a good thing just at this time.

It is readily seen that such a route through this county would give a direct route to the big market of the state and a more direct route with our sources of supply. It would not get a road that would be a better service and it would be a means of hastening the development of this country as no other road could.

It would be well for the members of the Chamber of Commerce to keep this in mind and at the next regular meeting take the matter up. If there is any possibility of securing the road the greatest opportunity we have had of landing something that would mean everything for us commercially.

RETURN FROM LOS ANGELES

C. R. Crowell is here this week from Los Angeles visiting the Crowell family, arriving here Sunday from a visit where she spent six weeks with her parents. This is Mrs. Crowell's first visit to our town and she will be well pleased with the country. She had never met any of the Crowell family before, however, and saw many Crowell people she had been acquainted with in California. She expects to leave Saturday for home accompanied by her mother-in-law, Mrs. G. T. Crowell, who will be on a month's visit in Los Angeles. She has been seven years since Mrs. Crowell has seen her son, Cliff, and anticipates a very pleasant visit with him in Los Angeles.

Everything has been done to make Crowell's visit to Crowell an enjoyable one, by her friends as well as by the guests, one of the gatherings being at Sloan Springs Tuesday evening where a delicious supper was served by a large crowd.

Emma Stuhmer, who has had charge of the millinery department of B. Edwards & Co.'s store the past season, left yesterday for Dallas on vacation. After visiting the city in St. Louis in July she will return to Crowell the 1st of August and will prepare for the fall and winter season.

Earl Boman was away last week on an Antonio and Dallas visiting trip.

Crowell School Is Raised to First Class

A short time ago the News carried an article stating that our school had been raised from a second class school to a school of the first class. Last week R. R. Magee, secretary of the school board, received a certificate from the State Superintendent of Education certifying that the Crowell school had been classified by the State Department of Education a first class school.

We are glad to make this announcement of our school. Some of the threshers are starting next week, but we can not at this time say what the yield of wheat is. We hope to have reports next week time to give them out.

Orient Officials Appreciate Service Rendered at Wash.

Appreciative of the services rendered by this community through their representative, Judge G. W. Walthall, before the Interstate Commerce Commission, A DeBernardi, Vice President and General Manager of the Orient, sends the Judge the following letter:

Mr. G. W. Walthall, Crowell, Texas. Dear Mr. Walthall:

While we are quite sure the Orient officials attending the hearing in Washington, June 3rd, including Mr. Kemper, verbally expressed their appreciation of the valuable service to the road which was rendered by you at this hearing, yet I am sure Mr. Kemper would not feel that our appreciation had been fully expressed without a confirmation by letter.

I therefore take this opportunity to again thank you and the community you represented in behalf of the Orient officials for the interest and valuable assistance rendered.

Yours very truly,
A DE BERNARDI.

AN INCORRECT REPORT

According to information given by the captain of the Crowell ball team, Everett Bell, the Quanah boys did not defeat the Crowell team two weeks ago here. It was reported in one of the Quanah papers that Crowell forfeited in the eighth when the umpire gave a decision to Quanah. The headline said "Quanah 9, Crowell 0." Either the operator failed to touch the key that releases the "1" mat or the reporter got things mixed, for Mr. Bell says the scores stood 10 and 10 at the eighth inning and the Crowell boys were to go to the bat again. The fact of the business is it seems that the Quanah boys were so hard pressed that their umpire saw the only chance to win the game was through his decisions, and trying to do that, the Crowell boys would not stand for it.

School Board Elects Two More Teachers

At a meeting of the Crowell school board last week Miss Lora Thacker and Miss Carrie Shornick were elected as teachers in the Crowell school for next term.

Miss Thacker is finishing her course in the State University and graduates with the B. A. degree. Miss Shornick has had several years experience in public school teaching and is well recommended as a teacher. The election of these two young ladies made it necessary for two members of the board to resign on account of kinship. H. E. Ferguson and Dr. J. M. Hill. H. L. Kimsey was appointed to fill the vacancy caused by the resignation of Mr. Ferguson. The appointment is to be made to fill Dr. Hill's place.

WITH OUR NEIGHBORS

The authorities at Vernon are doing their best to prevent intoxication there but they are having to fight patent medicines containing high per cent of alcohol. The papers of that town say there has been a great deal of drunkenness within the last few months caused from the use of such patent medicines. The authorities are gathering up all such medicines and storing them in the county jail.

Vernon is putting idlers to work. A number of fellows were reported to have been found in that city recently lolling around and said they could not find work. The fact was revealed that they would not work unless they got \$10 per day and board. They were advised differently, however, that if they did not find jobs themselves these would be procured for them on the county roads.

Bad checks are reported to have been given in a number of cases in Childress and Vernon recently. One business man was reported to have gotten ten in one day in Childress. Another seven in one day. This is an offense punishable by imprisonment, but that fact does not seem to be regarded.

A bonus of \$25,000 is being raised in Hardeman County for the first oil well brought in in that county. The well must produce as much as 100 barrels per day. The plan is said to be having its effect in speeding up operations.

Toy Pippin, 15-year old son of Rev.

AUTO CLUBS ARE INTERESTED IN OUR HIGHWAYS

Secretary of the Foard County Chamber of Commerce G. C. McGown recently received a communication from the Plainview Chamber of Commerce inquiring about the condition of roads and highways in this county, or rather from Benjamin through this county and on to Paducah.

This information was sought by Automobile clubs of South Texas which are seeking out routes for tourists from that country through West Texas.

Of course Mr. McGown can only give the facts as they are. The only thing that does not look fairly good for tourists is the fact of river crossings which are not any too good. Outside of these the condition of the roads from Benjamin by way of Crowell to Paducah is perhaps as good as the average in West Texas, and it is probable that many tourists can be routed through here.

This matter is here mentioned for the purpose of showing what we could gain in the way of tourist travel if we had good river crossings but which we may lose because we haven't them. It shows that tourists are seeking out the best roads over which to travel. They will do that and nobody can blame them. We are not wishing that any community may have worse roads and crossings than we have, but we hope that travelers may find ours as good as any and that they may come this way. That is one of the best possible ways in which a country may be advertised, besides tourists always leave a little coin behind as they pass by.

Mrs. W. H. Compton and children, while en route to Quanah from Fort Worth Tuesday were the victims of an automobile accident, however, the entire party escaped serious injury. When near Electra their automobile skidded off of the newly graded road and went into the ditch, the car being completely overturned with the occupants underneath. All of them were able to get out from under the car excepting Fay, and additional help had to be secured before the car could be lifted enough to release her. Nearly every member of the party was slightly injured and Fay had nearly all her clothes burned from her body by acid escaping from the battery.—Quanah Observer.

Plainview is calling for harvest hands. In Hale County, a portion of Floyd and part of Swisher, all in the Plainview trade territory, the wheat acreage was increased last fall about 30 per cent over that of the preceding year, the present acreage being about 150,000 acres. The harvest in that country is about two weeks later than in this county.

After a strike at Galveston tying up freight for some time conditions are reported to be improving. Gov. Hobby was criticised by some people for sending an armed force to that city to handle the situation but most people endorsed the move.

Visits Old Home After Thirteen Years

D. P. Sink is here from Vernon this week. He and his wife returned only recently from a visit to the old home grounds in North Carolina. Mr. Sink left that country 45 years ago but has made visits since, this one being the first within the last 13 years.

He says North Carolina is in better condition than it has ever been and the country really looks good to him. He has sold some of his property at Vernon and he and his wife expect to go to California within the next few weeks and will likely locate there permanently. The objective point is Los Angeles. But he has not definitely decided whether he will locate there or at Long Beach. Mr. Sink has seen West Texas come all the way up to where it now is and says he will not cut loose entirely, but will retain part of his property at Vernon in case he wishes to return.

Pippin of Chillicothe, was drowned in Damsite lake last week. The boy was a member of a picnic crowd and was diving out of a boat into deep water when cramps seized him and making it impossible for him to reach the boat which had drifted. It is said that that lake has claimed a number of victims within the last few years.

STARTS WITH LONG ORANGE TYPE OF POLAND CHINAS

This writer has had so much to say about hogs within the last few months that he may be properly called the hog editor, but if that be the case we are rather proud of the title. We have no apology to make for the fact that we stand for better stock of all kinds, and with that of course better people, too. But just now we are saying more about hogs. The slogan should be not fewer hogs and better hogs, but more hogs and better hogs, and with that thought in mind S. M. Tole made his initial step in the hog business Jan. 1, 1920, when he purchased the young "Giant," a male of the Long Orange strain from a swine breeder at Decatur, Texas.

Mr. Tole had bred hogs of different types, some of which were thoroughbreds, but he had thought so little of the importance of keeping registration papers up that he had neglected them and the time ran out. Consequently he found himself after a while with a fine bunch of hogs that could not be registered. These were the Iowa Black. And then, too not figuring on selling for breeding purposes but just raising hogs for his own use, had caused him to neglect registering them.

But now Mr. Tole is starting in with the Long Orange type of Poland Chinas and will keep them pure. He will go into the market before a great while for some thoroughbred sows of the same type and expects to give the breeding of purebred hogs close attention.

Mr. Tole's experience with good stuff has convinced him that it pays to have no other kind, even if one raises hogs only for his own use, and he is right about it. He says they eat less, grow off faster and fatten quicker. From every standpoint they are better and cheaper in the long run.

MRS. L. A. SELF DEAD

On Thursday evening, June 10th, the spirit of Mrs. L. A. Self entered into that land of rest.

For nearly fifty years Mrs. Self had been the wife of a Methodist minister, sharing the hardships of an itinerant life, and rearing a family of eight children.

Some eight years ago this good woman was stricken with apoplexy, which left her an invalid. As the tired and suffering body passed through the valley of the shadow of death the Savior whom she trusted in early life was still her stay and comfort, and during her last days the words, "Heaven, Sweet Heaven," were repeatedly upon her lips.

May the religion which has been her stay comfort the bereaved family.
A FRIEND.

Miss Ruby Branham of Fort Stockton visited Miss Lela Womack last week, returning home Tuesday of this week. Since the Branham family moved from Crowell to Fort Stockton Mrs. Branham has died and Mr. Branham has lost his sense of seeing, being now practically blind.

New Furniture for Crowell Lodge Hall

The new furniture for the Masonic hall which was bought some time ago arrived this week and has been installed in the hall. This furniture consists of three large officers' chairs, pedestals, pillars, jewels, etc.

As soon as possible a new carpet for the hall will be bought and when placed in the hall will make the furnishings complete and up-to-date, and a place of meeting all members of the order will be proud of.

Rev. J. H. Hamblen, of Crowell, was here Tuesday to preach the funeral of Mrs. Proctor. He was formerly pastor of the Methodist church here. He is doing some fine work for the Crowell church. By the close of this week the last brick will have been laid in the new Methodist church. This will cost \$45,000. Rev. Hamblen says it will be hot air heated, have basement, auditorium and balcony, a seating capacity of 1,000 people. There will be seventeen Sunday School rooms. There are four memorial windows, ranging from \$300 to \$450, and other windows to match. This is a splendid monument to the pastor and to the people of Crowell. The host of friends of Rev. Hamblen here rejoice with him in his great work and success in Crowell.—Hamlin Herald.

Will Office in Basement of Court House

At the last meeting of the Chamber of Commerce the matter of providing an office for the secretary was mentioned. It was suggested that perhaps the Justice of the Peace's room might be available as an office. Privilege has been granted Mr. McGown and County Agent P. D. Chaney to use this room together, so it is now being used as an office for the secretary and also by Mr. Chaney. The work of the secretary and the county agent are of like nature and each can work to the benefit of the other in their line. One thing in which both will be equally interested will be that of an exhibit to the state fair next fall. Also in an exhibit to go to the West Texas Chamber of Commerce at Stamford to be carried through 18 different states, commencing early in the fall and lasting for two or three months.

Mention was made in the News a week or two ago relative to this, and we then stated that the West Texas Chamber of Commerce would cull the State exhibit and take the best of our products from that exhibit, but that seems to be a mistake, as we understand our products are to go directly to the West Texas Chamber of Commerce from here and then carried through the states, as above stated. We understand that from our state exhibit will be made up another to go before the Cotton Palace. But as to the correctness or incorrectness of the statement it matters little so that we get up the exhibits.

With the view of getting up these the County Agent and the Secretary of the Chamber of Commerce are preparing to take care of these in the office room in the court house and will go after all kinds of products raised in the county. The wheat and oat crops are already made and the row crops are coming on in good condition, so we have everything in our favor this year of making an excellent showing at the state fair, as well as with the exhibits to be made by the West Texas Chamber of Commerce.

Miss Lora Thacker Received B. A. Degree

Austin, Texas, June 16.—Among the 411 graduates who received degrees at the University of Texas at the regular commencement, June 7, was Lora Thacker, B. A., from Crowell. Pres. Robert Ernest Vinson of the University delivered the Baccalaureate sermon Sunday, June 6, and President W. B. Bizzell of the Agricultural and Mechanical College of Texas made the commencement address.

The degrees granted were as follows: Bachelor of Arts, 233; Bachelor of Business Administration, 24; Bachelor of Journalism, 2; Bachelor of Science in Home Economics, 11; Bachelor of Science in Medicine, 9; Bachelor of Science in Architecture, 3; Bachelor of Science in Civil Engineering, 7; Bachelor of Science in Electrical Engineering, 10; Bachelor of Science in Mechanical Engineering, 2; Degree of Civil Engineer, 3; Bachelor of Laws, 62; Master of Arts, 42; Master of Business Administration, 1; Master of Journalism, 1; Teachers' diplomas were awarded to 26 students. Twenty-three graduates were elected to membership in Phi Beta Kappa, national honorary scholarship fraternity, which is the highest academic honor awarded at the University of Texas, the eighth of the class making the highest record being elected.

M. Bond came in last week and had his paper changed to Colorado where he and Mrs. Bond go to spend the summer. They spent last summer up there and say they like the fine climate and the good water of that country.

B. W. Wallace left Sunday morning is his car for Normangee, Texas, to visit his parents for ten days. He has resigned his position with the grocery store and expects to take up some other kind of work when he returns.

U. C. Rader was in town Monday and said he had finished cutting his wheat Saturday. He has 100 acres in wheat this year and says while it is not so thick on the ground it is splendid good wheat.

Miss Jode Brian is at home from the State University. She has finished her junior year in the State University and expects to return next fall and take the senior year. She is taking a degree.

ELEVATORS DOUBLE STORAGE CAPACITY

LEFT-OVER OF LAST YEAR WITH PRESENT CROP MAKES IT NECESSARY

Nearly all the elevators in the county are being forced to increase their storage capacity this year in order to handle the grain crop. This is reported as being done at Margaret and Foard City, as well as Crowell.

Both the Allison and the Hughston elevators are undergoing changes that will largely increase the capacity and facilitate the handling of the crop. Mr. Hughston is making an addition to his elevator that will just about double its capacity. Some of the farmers are reported to be building granaries in order to take care of the crop. Some of them still have large quantities of last year's crop on hand and are forced to provide additional bins until a general movement of grain can be effected.

It is a surprise to many people that so much of last year's wheat is still in the granary. When Judge Walthall told the Interstate Commerce Commission that we still had at that time more 100,000 bushels of last year's crop which was held because of crippled transportation facilities there was no little surprise. That is not much compared with a million bushels, and yet provision must be made to keep the remainder of last year's crop and the present one separated.

Everything is being done to provide better facilities for handling the large amount of grain which will soon begin to seek the channel of trade. The unusually large oat crop this year is helping to force such condition.

FOLLOW BINDER WITH DISC

For the last two years farming in Foard County has been a comparatively easy proposition. What is meant by this is that it has not been necessary to give very much thought to the conservation of moisture. We have had all the rain we needed and consequently the ground had had an abundant store of moisture. And there is a good supply yet, but no one is expecting the abundant rainfall this next year that we have had for the last two. Therefore the necessity of saving the moisture we now have will be an important matter.

Looking to that end some of the farmers have been following their binders with discs, thus breaking the crust of the ground and destroying the weeds and other vegetation that so often come immediately after the grain is harvested to starve the ground. This idea was given in one of the farm journals of Oklahoma recently, the idea being to hitch discs onto tractors used in pulling binders. It was pointed out that the ordinary tractor was not loaded with one binder and consequently there was a waste of power, and that this power had as well be used by putting on a disc. The idea seems to be a very good one.

It is said by some of the leading farmers of the country that with the present store of moisture in the ground if the land can be broken early and the moisture conserved they have an excellent showing for another wheat crop even with less rainfall than we had last year, and so far conditions are favoring early breaking of land. The weather has been ideal for harvesting and most of the grain is now in the shock. Next week will see many threshers running. If the favorable weather continues grain will be put into the bins within a very short time and preparation work commenced for the next crop.

Mrs. Jeff Bruce returned Sunday from a visit with her mother, Mrs. Bush, at Nocona.

Hearing Cannot Be Restored Doctors Say

Mr. and Mrs. Leo Spencer returned Sunday from Mayo Bros. Institute at Rochester, Minn., where they had gone to have an examination made of their little son, Markham, for deafness. A thorough examination was made and a consultation held by the doctors and they informed Mr. and Mrs. Spencer that nothing could be done to restore the child's hearing.

They were not very hopeful that anything could be done, since all the local doctors had expressed the same opinion, but they felt that they would be better satisfied after having gone to Mayo Bros.

They expect to place Markham in the Deaf and Dumb school at Austin this fall.

BEAVER NEWS

(By Special Correspondent) Mr. Cain made a business trip to Crowell Monday.

Miss Vergie Borchardt was shopping in Crowell Saturday.

Audry Johnson has been cutting grain for Will Ferguson.

Cas Johnson of Amarillo is back again to work in the harvest fields.

W. M. Randolph of Jamison was in this community Saturday and Sunday.

Mrs. Maggie Johnson and children were shopping in Crowell Saturday.

Buford Randolph of Jamison community is here working in the harvest.

Noah and John Jones of Electra are here on their farm planting a feed crop.

A. W. Barker and son, Roy, cut oats for John M. Johnston Thursday afternoon.

Carl Campbell of Claytonville was a visitor in this community Saturday night and Sunday.

Mr. and Mrs. W. B. Jones and children, Glenn, Evelyn and Dale, spent the week-end with relatives at Goree.

John Greenway who has been selling stock for the Spring Wheel Automobile Co., left Sunday for his home in Haskell, Texas. He was accompanied to Truscott by Lonnie Johnson and Forest Straley.

PLAINVIEW POINTERS

(By Special Correspondent)

Frank Matthews' family called at Claud Davis' Sunday.

Arthur Davis has gone to Denton where he will enter the Summer Normal.

Floyd Newbrough and sister, Eva Mae, from Pilot Point are visiting their brother, Will Newbrough.

We simply don't have much news as most everybody is just too busy to go fishing or sight seeing these days.

Uncle Jim and Aunt Sallie Gray came out from Thalia Sunday and spent the day at the J. M. Adkins home.

Cap Adkins and family accompanied Gordon Davis and wife to Paducah Friday where they visited friends until Sunday.

A new baby girl has arrived at the home of Mr. and Mrs. Otis Harris, of Parker, Ariz. Mrs. Harris was formerly Miss Orah Scales and once resided in this community.

Sam Scales and family came down from Crowell Sunday and spent the day with Dick Coffman's family. We knew Sam would get hungry and come back to the sand to get something good to eat.

MARGARET MUSINGS

(By Special Correspondent)

We are having ideal weather for harvesting and the wheat and oats are nearly all in the shock. A good rain now would be fine on row crops before threshing begins.

Let Us Plan Your Home with You

We've made many cheerful homes in this community for those starting out anew, hand-in-hand on life's blissful journey. We know that you want your home furnishings to be substantial, in good taste, refined, serviceable and economical. Our experienced judgment will be of great assistance in providing all of these essentials within your appropriation.

We are prepared to outfit your home practically complete from living room to kitchen. We are selling the wonderful Wickless Stove--THE RED STAR--the stove that gives more heat under the vessel, uses less fuel, boils, bakes, fries, quicker than any other stove on the market except natural gas, and it is as quick as the latter. We also sell the NEW PERFECTION (wick) stove, a fine stove, but a different one altogether from the RED STAR.

W. R. WOMACK

FURNITURE AND UNDERTAKER

miles of Oklahoma and found our neighbor state right in the middle of prosperity. Crops were fine. Wheat and oats and alfalfa were being harvested and some were cutting their second crop of alfalfa.

The coal mines are all running but badly behind on their contracts. I did not learn the cause but I am of the opinion that the scarcity of labor is one trouble. The miners are getting about \$9 per day and work eight hours and the days work is completed at 4 o'clock and work stops until next day.

I found everything in good condition upon my return. The new elevator is still progressing but will not be ready for the grain when threshing begins.

The thresher men are having trouble about coal. They failed to buy early when coal was plentiful and now the speculators have bought up and contracted for all available coal in order to speculate and we may expect to pay high prices.

Mrs. S. H. Taylor of Elreno, Okla. is visiting her parents at Margaret.

Wilburn Ayers of El Paso is visiting his brother, J. H. Ayers.

Miss Ethridge of San Angelo is visiting her cousin, Mrs. Ray Thomas. Mr. and Mrs. Walter are rejoicing over the arrival of their oldest son from No Man's Land. We did not learn his name but he expects to remain with us.

Archie Munroe of Burkburnett is visiting his people and taking a rest.

Mr. and Mrs. Will Ewing of Quanah are here for the harvest. Will is a valuable separator man and has a crop of wheat here of his own.

One of our candidates for office will surely be elected if she makes the race without accident. She had been electioneering on Wanders Creek and arrived at the depot at Chillicothe but found a freight train in her way. It was too far to go around but she came right under it and made her connection without any mishap and if she don't get there on election day we will be disappointed.

Upon my return I found my Joe Bailey garden in fine condition. Peas, beans, onions, squashes and the finest potatoes you ever saw. We believe Joe has come to stay and it will take a dark horse and a strong combination to beat him.

Meet me at Ferguson Bros.

NOTICE

As it is now daylight at our regular time for starting up in the morning we will for some time not start till time for motors and fans, or about 6:30.

Fuel oil has gone up to over three times what it was when your present light rates were set and we must cut down expenses or raise rates.

The trouble at the power house Monday was caused by the factory shipping us a new piston which was a little too large to work and it had to be taken out. It was an unavoidable shut down as far as we were concerned.--D. P. Yoder.

DECLARE NEWSPAPER THE BEST ADVERTISING MEDIUM IN EXISTENCE

Indianapolis, Ind., June 9.—The newspaper was extolled as the best advertising medium in departmental meetings of the convention of the Associated Advertising Clubs of the world here today. In the retailers and church advertising departments, newspaper advertising was preferred, while in other sections the poster, direct mail and films were advocated as the best medium for other types of advertising.

Frank A. Black of Boston told the retailers that the newspapers provided the ideal vehicle for up-to-date store advertising, because of its form, elasticity, frequency and cost.

Atlanta was chosen the 1921 convention city.

Mrs. Mary Wamack of Vernon spent the week-end here with her parents, Mr. and Mrs. W. E. Pigg.

Mr. Webb and son, Charley, were transacting business here Tuesday. They live in the Talmage community.

Elder Cabe of Vernon will preach at the Church of Christ at this place Saturday night, Sunday and Sunday night.

Mr. and Mrs. Mark Self and daughter, Miss Isabelle, spent Thursday afternoon in the home of their daughter, Mrs. Harley Capps, in Crowell.

Several of the young people gathered in the home of Miss Myrtle Johnson Sunday afternoon and enjoyed some fine music on the piano and violin.

Mesdames Jim and Walter Banister, Gordon Davis, Miss Fannie Wisdom and her father, W. M. Wisdom, spent Monday afternoon visiting Mrs. J. G. and Hugh Thompson.

Dr. Hines Clark was called out from Crowell Sunday afternoon to see Mrs. Hugh Thompson who was sick. Mrs. Clark and son, Dan Hines, accompanied him. They spent a while in the J. G. Thompson home.

W. M. Wisdom and daughter, Miss Fannie, returned home last week from a visit to his son, Will, and family near Gainesville. Miss Maud Porter accompanied them. She will visit her sister, Mrs. Charley Wisdom, for a while.

Last Friday morning Hugh Thompson and his boys, Garland and Ben, decided to go to Beaver Creek fishing. They caught a big lot of fish and they were prepared, cooked and served at the home of his mother, Mrs. J. G. Thompson.

The Poles and Czechs are fighting in Teschen—these people must be gluttons of war.

The British government is pouring troops into Ireland. It will take lots of them.

For Sale—One double-seated, two-horse buggy at Collins Wagon Yard.

The man who doesn't know right from wrong is usually on good terms with wrong.

Time to re-tire—buy Fisk.—Self Motor Co.

Regular meals served every day at Sanitary Cafe.

Maybe the burglars who robbed the Chicago store can tell us how they got the sugar.

ZEKE BELL

City Meat Market

Carries everything in the line of an up-to-date meat market, together with packing house meats such as Boiled Ham, Mince Ham, etc., except beef. Will also carry pure hog lard, the kind your mother used to make during hog-killing time.

Come in for a fresh tender steak of beef or pork for dinner, or maybe its pure hog sausage you want. If so the City Meat Market is the place to get it.

Crowell, Texas, June 18, 1920

MONEY AND THE PRESIDENCY

The use of large sums of money in the presidential contest is not to be encouraged. Both of the leading political parties plan to spend millions of dollars this year. In fact, some of the candidates for the nomination of their parties have spent sums ranging from many thousands to nearly a million and a half. Without meaning to impute wrong to any candidate, or to any party, and merely with a view to attract attention to a common error, we ask the question, what legitimate use can a campaign committee have for three or four millions of dollars?

That such an expenditure is absurd is apparent to any of us who are not hired speakers, or paid workers. Those who get the bundle that the rank and file of the two parties put up are well paid for mediocre work. Naturally, they endorse the idea. We do not think that the use of this much money is conducive to clean politics, and for that reason we believe some law should be passed limiting the expenditure that may be made by parties and individuals. The use of much money in politics is always a gateway to corruption.

THE DECLINING OIL AGE

One of the troubles with the world is its wastefulness. Oil and gasoline are now being produced in unprecedented volumes but consumption is proceeding much faster than the output and the natural supply warrants. Experts predict that the use of gas-

oline and fuel oils must be restricted. Members of the American Gas Association say that heroic measures will be necessary next winter, and that unless exports are stopped "Gas-less" Sundays will come again.

Oil men in looking for increased production look to Mexico and Central America, but in the former the shipments of the leading companies show a decline. The Navy has purchased its supply at prices 150 per cent above its last contracts. Foreign fields are active, but there is much speculation as to just how free they are for commercial development. A rumor is that the Mesopotamian fields have been divided by Great Britain and France on a basis of three fourths and one fourths.

FOOD SUPPLY THREATENED

Agricultural experts call attention to the fact that the food supply of the nation is not by any means guaranteed. The average citizen never thinks of his source of food, he never gets beyond the shop from which he gets it. But back of the shop there are broad acres, dependent upon the seasons and the weather for their yield. The supply of any foodstuff is dependent upon the number of acres planted, and the other factors, but the average city dweller does not look this far.

The plantings of this year are hardly sufficient for the use of this country. The season has been bad in most places, and late everywhere. This will not produce great crops. A short-

age may occur, and when it comes the price of food will go higher and higher. The people in towns who have forgotten how to grow things in their garden will yearn for agricultural knowledge about the time that food is scarce, but next year, when the thing is over, they will do nothing about the new crop. They will expect their food to come to them automatically from the shops.

TWO CAUSES FOR H. C. L.

Two causes of the high cost of living may be seen in the following news items which appeared recently:

A Birmingham (N. Y.) clothing firm has been fined \$31,000 for profiteering, which is the largest fine so far imposed upon any one firm.

Fifty-one freight cars, loaded with 3,060,000 pounds of sugar, were being sought in the railroad freight yards around Chicago last week by federal agents. They had come in and been lost—in the meantime people needed sugar badly.

These are two causes of the high cost of living, extortionate profits and a poor transportation system impeding the proper distribution of products. The decision to use \$225,000,000 of a federal loan immediately to buy freight cars and shifting engines shows that the freight tie-ups may pass eventually.

One Ford roadster at a bargain. See Geo. Hinds. 2p

We have everything from a can cutter to a cook stove for your cook shack.—M. S. Henry & Co.

WILL SERVE CREAM AND CAKE
The Methodist ladies will serve ice cream and cake on the court house lawn Saturday evening commencing at 4:30.

On Saturday, May 29, a girl baby was born to Mr. and Mrs. Harris at Parker, Ariz. Mrs. Harris was before she married Miss Ora Scales, youngest daughter of Mr. and Mrs. Sam Scales of this city.

Sheriff L. D. Campbell made a trip to Austin this week to take Chas. Coy to the insane asylum. Mr. Coy is known to most of our people here, having once been a mail carrier. He has been away for some time but recently came back and was found to be insane.

Mr. and Mrs. Justin Anderson who have been visiting the latter's parents, Dr. and Mrs. Hart, left Friday for Dallas where they will attend the Theological Institute at S. M. U. Rev. Anderson has been elected teacher of Bible and Philosophy in the Clarendon College and they will make Clarendon their home after their return from Dallas.

ASPIRIN

"Bayer Tablets of Aspirin" is genuine Aspirin proved safe by millions and prescribed by physicians for over twenty years. Accept only an unbroken "Bayer package" which contains proper directions to relieve Headache, Toothache, Earache, Neuralgia, Rheumatism, Colds and Pain. Handy tin boxes of 12 tablets cost few cents. Druggists also sell larger "Bayer packages." Aspirin is trade mark Bayer Manufacture Mono-acetic acid ester of Salicylic acid. 164

The Easy Way
IS THE
Oil Stove Way

Have You Tried It?

Half of the trouble and worry and drudgery of Summer Cooking may be saved by installing one in YOUR home. An Oil Stove is a splendid investment for all the year round service, but an absolute necessity during the hot months.

We are agents for The New Perfection oil stove. Come in and let us show you.

M. S. Henry & Co.

THE HOUSE OF SERVICE

Will sacrifice 1918 Ford roadster.—Geo. Hinds. 2p

New Ford coupe for sale.—Leo Spencer.

J. E. Bray made a trip to Vernon Wednesday.

Mrs. R. J. Roberts is visiting in Vernon this week.

For Sale—3-months' old shoats.—J. W. Klepper, phone 73 3-rings.

Herbert Edwards and George Self went to Clarendon Saturday night to visit friends. They returned Monday afternoon.

G. W. Mills has bought stock in the Peoples' Grocery Store and is one of the efficient and pleasant clerks in that store.

Cas Johnson, son of J. M., who lives at Amarillo, has been here helping in the harvest for a couple of weeks, but will return Saturday to Amarillo. Cas says he can very easily tell the difference in the temperature of Foard County and Potter County. He says J. M. is getting along well.

Since the opening of the oil fields in the Breckenridge country that town has become a little city. Building has assumed such proportions that the fourteenth lumber yard has opened for business.

The canning season and the high price of sugar are conspicuously together.

You never can tell how many friends you haven't until they vote for you.

Threshermen

You are going to need a lot of groceries as the threshing season opens and of course you want to make the best deals possible.

This store will make it worth while for you to make your purchase here. We have the groceries but don't want to keep them. We can make you prices on bills that will cause you to buy. Do not fail to call and see us.

To the Trade in General:

There is a demand for fresh vegetables and our aim is to supply that demand as nearly as we can. It is hardly possible to get vegetables every day, but we hope to supply the trade several days through the week. Keep your eye on us for what you may want in this line and we'll do our best to serve you.

Texas Triple Oil Company

(Formed Under a Declaration of Trust, Filed in Wichita Falls, Texas, January, 1920.)

Owens leases covering 1,373 acres in Foard and Wichita Counties, Tex.

August G. Birkenmeier, Pres. and treasurer; William A. Fairlie, vice president and field manager; Albert C. Pedrick, secretary and counsel. Broad & Market National Bank, Newark, N. J., depository.

Mr. August G. Birkenmeier, president of this company, is a well-known business man of Newark, N. J., being: President of the Birkenmeier & Kuhn Co., hardware merchants; President of the Mortgage & Loan Co.; Director in the West End Building & Loan Association, the largest in the state of New Jersey, for over eighteen years.

He refers to the Broad & Market National Bank, Clinton Trust Co., American National Bank, all of Newark, New Jersey, and to Dun & Bradstreet.

Mr. William A. Fairlie, our vice-president and field manager, resides at Wichita Falls, and is giving his entire time to the operations of this company.

This company owns leases covering thirteen hundred and forty-eight acres in Foard County, located as follows: 341.73 acres in section 66, block 44; 80 acres in section 59, block 44; 286 acres in section 418, block A; 40.5 acres in section 2, certificate 77, SE & IW Co.; 75 acres in section 405, block A, H. & T. C. Ry. Co.; 325 acres in section 61, block 44; 75 acres in section 60, block 44; 50 acres in section 60, block 44; 75 acres in section 65, block 44.

In addition to its Foard County holdings, this company owns leases covering five acres in the Burk Burnett Field and twenty acres in the Electra Field. On the twenty acres, the company proposes to drill its first wells, and arrangements are now being made for the drilling of well No. 1.

On June 1, we received a report that the Bowers Well, block 832, had come in, at better than one thousand barrels, and that it shot more than ten feet over the top of the derrick. This well is within a short distance of our Electra acreage.

The company is conservatively capitalized at \$250,000, all of which is common stock, there being no bonds, preferred stock or liens of any kind. The company's leases are all paid for and the company is free and clear of all debt.

The company offers a limited amount of its stock to the residents of Foard County at a par value of \$1.00 per share, in lots of not less than fifty shares. It believes that for future development, its holdings in Foard County constitute a most attractive asset and the company feels that the people of Foard County will be glad to take advantage of this opportunity to invest in the stock offered.

Make check payable to the Texas Triple Oil Company and forward with the following subscription blank in which can be inserted the number of shares subscribed for.

SHOULD TAKE MEASURES TO PREVENT TYPHOID

Apparently for the last few years typhoid has been on the decrease generally. This seems to be especially true with Crowell. Last year there were very few cases in town or in the country, fewer perhaps than in any other one year. No doubt the decrease is due to the fight that has been made on typhoid for the last several years. Sanitary conditions, while far from what we should make them, are better than formerly, and besides, more people are taking the vaccination treatment to prevent the disease. But while we have made good progress along the line that is no reason why the fight should not be continued. And with the aim of keeping conditions good and making them even better, State Health Officer Dr. C. W. Goddard has issued a warning against the disease, since with the rise of the barometer in the state the disease has commenced to increase.

It is up to the various localities to take care of the local situation by heeding Dr. Goddard's advice.

"Typhoid in Texas appears to be a good companion to warm weather and flies," says Dr. Goddard, "and sanitary precaution and personal hygiene are vital in escaping its ravages." "Infection," he continues, "comes from direct contact with typhoid germs, contaminated food and polluted water." Here are ways to prevent the spread of this disease, according to Dr. Goddard:

- (1) Disinfect excreta from typhoid sufferers.
- (2) Secure safe disposal of all night soil.
- (3) Assure purity of drinking water.
- (4) Safe-guard all food supplies.
- (5) Keep down fly production by eliminating breeding areas.
- (6) Vaccinate against typhoid.

LELIA LAKE WELL HAS BEST SHOWING IN HISTORY

What is considered the best showing yet in the Lelia Lake test hole showed up Wednesday at 3,415 feet when a black formation such as is found in the Ranger district was baled out. Experienced oil men who have examined the samples taken from the well state that there is all likelihood of oil being found at any time. A number of those interested financially in this prospect, have been keeping close watch on developments. Phil Engel, who has been putting down the hole, informed a News representative Wednesday that judging from his experience, there was no question but

ONE DEATH FROM BUBONIC PLAGUE AT PENSACOLA

Pensacola, Fla., June 13.—Following the death here on Friday night of George Gardina, a clerk employed by a general merchandise store here, of what the State laboratory officials declare to have been a case of bubonic plague warfare on the rats was declared here today.

A special meeting of the City Commission has been called for Monday morning to discuss the situation, and Dr. Williams, of the United States Marine Hospital Service, is on his way from New Orleans to take charge of the campaign. He is bringing a large quantity of antiplague serum.

So far the case of Gardina is the only one found. According to the statement, Gardina attended a dance Wednesday night, and was taken ill the following morning, dying twenty-four hours later. The case is believed to have been sporadic, originating from a rat from a ship from some Mexican port.

A Frenchman says France can pay her debt in forty years. By that time we hope to pay ours.

Selected Mebane cotton seed \$2.00 per bushel at Johnson Feed Store.

MARKET WITH CARE

One of the important problems confronting the farmer today is the saving of the wheat crop and disposing of same in such a manner as to realize something of its real value, says W. B. Lanham, Acting Director of the Extension Service of A. & M. College of Texas. Reports from the various agricultural agencies and farm journals of the United States indicate an enormous reduction in the wheat acreage, while financial stringency, railroad facilities, strikes and inadequate elevator and shipping room are convincing evidence of our inability to move the wheat as rapidly for export or for the mills and elevators to buy and sell wheat as heretofore.

With four or five thousand cars loaded with last year's wheat in Galveston or in transit to Galveston—which may not be unloaded until the latter part of July on account of existing conditions—and the possibility that similar conditions exist or may arise at any of the ports in the near future, or in transit facilities and elevator service, it has been considered wise to call the attention of the farmers to the situation and suggest the importance of either arranging to stack their wheat or arranging for granary room, so that it may be marketed as demand calls for it, and thus avoid the possibility of being forced to sacrifice the wheat on the market under such depressing conditions.

Every step should be taken at once looking to the preservation and proper stacking or storing of the wheat now coming into harvest, and the utmost care should be exercised to prevent the wheat from being thrown on the market at one time, or becoming locked up in transit, or being in congested centers where weevil, weather conditions or improper care might result in destruction, or selfish manipulators might be enabled to secure control of the volume of the output and thus force the seesaw of price to the minimum for the producer and the maximum for the consumer. A little forethought and care exercised at this time in the preservation, care and marketing of the wheat crop may mean many dollars saved to the producer in the market value of his crop.

Yours very truly,
W. B. LANHAM,
Acting Director.

The supply and demand theory is hard hit in the face of the increase of the price of coffins.

What Is a Chamber of Commerce?

A Chamber of Commerce is an organization of the most progressive business men and farmers of any community that are for the development of a city or county.

How Are You Going to Develop a City or County?

The development of a City or County is done, first, through advertising; secondly, by co-operation of its people.

Therefore the Foard County of Commerce has for its aim the developing Foard County by advertising, and by the full co-operation of its people. It is the duty of every citizen of Foard County to become a member of the Chamber of Commerce and lend their full co-operation so that Foard County will be second to none in West Texas for its progressiveness and development.

If you are not a member, come out to the meeting and join. See what is trying to be done and then lend your efforts to accomplish this end.

Don't Be a Leaner, Be a Lifter

The Foard County Chamber of Commerce

SUCCESSFUL MEN BUILD

Men of action, men of success, are men who build because building means profit.

Every improvement built about your place is a sign of success and the source of additional success.

We are here to help successful men build. That means YOU when you are ready.

SERVICE FIRST QUALITY ALWAYS

OH, DEAR! MY BACK!

Merciful Heavens, how my back hurts in the morning! It's all

due to an over-abundance of that poison called uric acid. The kidneys are not able to get rid of it. Such conditions you can readily overcome, and prolong life by taking "Anuric" (anti-uric-acid). This can be obtained at almost any drug store, in tablet form.

When your kidneys get sluggish and clog, you suffer from backache, sick-headache, dizzy spells, or twinges and pains of lumbago, rheumatism or gout; or sleep is disturbed two or three times a night, get Dr. Pierce's Anuric, it will put new life into your kidneys and your entire system. Send Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., ten cents for trial package.

STROUD, OKLA.—"I suffered for a year with kidney trouble. I saw Dr. Pierce's advertisement and wrote for a trial package of 'Anuric.' It helped me so I went to the drug store and bought a supply of Dr. Pierce's medicines. The 'Golden Medical Discovery' and the 'Pleasant Pellets' cured me of bowel trouble, and the 'Anuric' of the kidney trouble and rheumatism. I am cured—can do my work and it does not hurt me at all."—MRS. MARY JANE FISHER, Route 5.

RUPTURE EXPERT HERE

Seeley, Famous in This Specialty, Called to Quanah

F. H. Seeley of Chicago and Philadelphia, the noted truss expert, will personally be at the Quanah Hotel and will remain in Quanah this Monday only, June 21st. Mr. Seeley says: "The Spermatic Shield will not only retain any case of rupture perfectly, but contracts the opening in 10 days on the average case. Being a vast improvement over all former methods—exemplifying instantaneous effects, immediately appreciable and understanding any strain or position. This instrument received the only award in England and in Spain producing results without surgery, injections, medical treatment or prescription. Mr. Seeley has documents from the United States Government, Washington, D. C., for inspection. All charity cases without charge, or if any interested call, he will be glad to show same without charge or fit them if desired. Business demands prevent stopping at any other place in this section.

P. S.—Every statement in this notice has been verified before the Federal and State Courts.—F. H. Seeley.

WHOLESALE PRICE OF POTATOES DROPS

Kansas City, June 15.—The wholesale price of potatoes dropped nearly \$2 per 100 pounds here today and dealers predicted additional declines. Southern new potatoes sold from \$7.75 to \$8.25 per 100 pounds.

Wholesale dealers said the break was due to increased supplies and the first of the seasons offerings of nearby growers.

Some folks will buy \$5.00 worth of fishing tackle, spend a day in the swamps fighting mosquitos and gnats and get themselves too tired to work the next day for a pound of fish.

LIMITING OF LOANS SLOWS UP BUSINESS

Public Has Shown Unwillingness to Go Beyond Point in High Prices

New York, June 15.—Uncertainty regarding the political outlook is holding the stock market in check, and in ordinary presidential years would have a similar effect upon general business. Wall street has taken courage from the fact that radicalism has been forced into the background. The Republican party has been the party of conservatism, and has chosen to make all the capital possible out of what it has declared to be the radical tendency of the Wilson administration.

The slowing down in general business here and there has been due not to fear of political consequences so much as to the efforts of the banking community to limit loans to necessary business. Reductions in retail prices have occurred chiefly in wearing apparel, including shoes, but only to a limited extent in foodstuffs. Retailers have undoubtedly been taking advantage of the fact that consumers would pay any prices necessary to satisfy their desires, or, rather, that they paid them rather than forego the purchases.

Public Reaches Its Limit
The public now, however, manifest an unwillingness to go beyond a certain point. This has thrown on the market speculative holdings of shoes having a valuation of approximately \$5,000,000, a similar sale about to be made shortly of ready-made clothes, to be followed by other sales of silks and woolsens. Naturally, this has caused the wholesale textile trade, more than any other, to show a definite slowing down. Wortsed and woolen yarn spinners have been requested to hold back deliveries, to say nothing of receiving actual cancellations of orders. Even in cotton goods there is less firmness, while a degree of uncertainty also exists in silk goods.

Wholesalers Are Bullish
Nevertheless, there is a distinct difference of opinion with reference to recent developments in the retail price situation. Wholesalers are exerting every effort to convince the public that these declines are not permanent. Those, however, who weigh facts from the standpoint of the economist, rather than the trader, feel that the peak of high prices has passed. As a matter of fact, it can hardly be otherwise. The recent inflation has largely been due to the exhilaration of those who found themselves possessed of war profits, including the labor element, with its largely increased wage scale.

Speculators had the idea that prices would advance indefinitely, which accounts for the accumulation of some of the large stocks of commodities, and which are now being turned back upon the market in the hope of at least receiving the initial cost. But this situation has now changed.

The popular mind is discovering that economy is a necessity. The present break in commodity prices was sensed as long ago as last February by keen observers, and many stock market operators are declaring that the break in stocks which occurred then was based upon it.

Railroads Have a Feature
The outstanding feature in the railroad situation has been the reduction in the usually stable dividend of the Chicago & Northwestern Railway. It indicates the serious plight of the railroads. Figures recently submitted by Howard Elliott to the Interstate Commerce Commission show that the war decreased the net operating income of the Baltimore & Ohio from \$26,000,000 in 1916 to \$5,000,000 in 1919, and the Pennsylvania Eastern lines from \$60,000,000 to \$7,600,000. These declines came about wholly through increases in operating expenses, the labor item being the greatest, although materials of every description have practically doubled in cost. The peak of commodity prices has been passed, as is generally believed, no further wage increases are expected to be made beyond the readjustments necessary, as in the case of the switchmen, who were not reached before the money gave out when the last increases were made.

Money Rates Are High
Regarding the money situation, high interest rates have been recognized in official circles, in the announcement that the Secretary of the Treasury, in issuing two new series of certificates, has placed the interest at 5% and 6 per cent, respectively. The Secretary's report should be favorably received in that there has been a reduction of both the national debt and the floating debt. There should be some fluctuation in the money supply during the next five weeks, for there will be approximately \$1,000,000,000 in Treasury certificates maturing on or before July 15, and, while the greater part of these are provided for by the income and profits taxes, installments payable in June, the withdrawal and redeposit of the funds can not be accomplished without a

temporary disturbance of the money supply.

Sterling exchange has strengthened considerably on the reports that arrangements have been made for the payment of at least Britain's share of the Anglo-French loan.

The stock market does not appear to be due for any great activity for the next few weeks, or, at least, until the nominations are all made and the campaign outlined.

SECOND CASE BUBONIC PLAGUE IN FLORIDA

Pensacola, Fla., June 15.—The second case of bubonic plague has developed here, Dr. C. L. Williams, expert of the United States public health service, who arrived today, confirmed the diagnosis made by Dr. C. L. Greene, state health officer, in the case of a negro ice wagon driver.

Preparations were being made today for an extensive rat eradication campaign.

See us for all kinds of electric bulbs, irons, fans, fuses and fixtures.—Self Motor Co.

This Miller Cord Tire has run 22,000 Miles On a Heavy Truck

22,000-Mile Tread And Why They Are Exceptions

Worn Miller Tires are often exhibited with some sign like above.

Countless letters also reach us telling such mileage tales.

These are very pleasing. But we don't want users in general to expect miracles from Millers.

Service to Expect

Expect from Millers greater service than from any like-type tire. And 19 times in 20 you will get it.

Expect it to outserve any tire you put opposite, and it almost invariably will. Expect twice the mileage tires gave a few years ago, and they will doubtless do still better.

Expect tread wear 25 per cent better than from others and you'll not be disappointed.

But don't expect that Millers, under all conditions, can match some exceptional mileage.

Why Mileage Varies

A Cord Tire gives vastly greater service than a Fabric Tire.

An oversize tire will vastly excel a tire that is undersize. Care, load and roads affect tire service greatly.

Millers are uniform tires. That is a major reason for their supremacy. But uniform tires will vary with conditions.

Tread Patented

Center Tread smooth with suction cup, for firm hold on wet asphalt. Geared-to-the-Road side treads, mesh like cogs in dirt.

With 3-Ton Loads

Miller Cord Tires were tested by Ray C. Carpenter on a 22-passenger bus, averaging a 3-ton load each trip. The first tire on a rear wheel ran 23,700 miles without a blowout, and was never removed from the wheel. The second was punctured by railroad spike at 5,000 miles, but when repaired ran 12,000 miles more without a blowout. On a front wheel the Miller ran 22,000 miles without a blowout. All were passenger-type tires.

What Our Tests Show

We run tires at our factory ten million miles a year to make these service tests.

These are radical tests. Tires are run constantly, night and day, and under heavy load. We want quick comparisons.

On our testing machines Miller Cords average 15,000 miles, and Fabrics about half that.

But these are not mileage records. We are running Miller Tires against high-grade rivals to prove that Millers last best.

Be Satisfied With This

You will get on a Miller an exceptional tread. It is by 25 per cent the best tread made.

Not one Miller Tire, made under present methods, has ever come back with the tread gone.

You will get uniform tires. Every Miller Tire is signed, both by maker and inspector. Every man knows that a faulty tire means a penalty for him. And faults are extremely rare.

You will get greater mileage than from any tire you put on the opposite wheel. That is so nearly universal that we will stake your favor on any single test.

But you will get the best tire built today. There are hundreds of thousands who know that.

When you buy a new car insist on Miller Tires. Twenty car makers now supply them and there is no extra charge.

SUMMER EXCURSIONS COST LIVES OF TWO

Whita Falls, June 14.—Summer excursions to nearby bathing resorts cost the lives of two persons here yesterday. J. H. Burke, an aged man, was overcome by paralysis while wading in the shallow waters of an inlet at Lake Wichita and drowned before relief could reach him. He met death in water but a few inches deep.

Vangale Panareles, 14-year-old youth, was drowned in the Big Wich-

ita river when carried down by a huge whirl pool.

The weakness of Edwards' candidacy for the Democratic nomination says the New York World, is that most of his supporters are residents of Cuba.

Immigrants coming to this country in the future will do well to bring a house and a few pounds of sugar.

Oldest and Largest

Busiest and Best

Austin, Texas, June.—Teachers by the hundreds are sought by trustees, who appeal to the State Department of Education, the University, the normal schools and other institutions as well as private teachers agencies. The average salary per month for 9 months, offered for teachers with degrees and experience is about \$111. Where more is offered, board is higher and absorbs the apparently higher pay. Many teachers are registered with the Teacher Placing Bureau but they ask an average of some \$200 more per year than is offered, and

usually indicate they are entering other occupations, their return to teaching being contingent upon receipt of increased pay next year.

J. F. Hays ran up from Wichita Falls Tuesday in his car to make a short visit and to bring Mrs. Parker Churchill who is visiting.

Many a man will help you if you help him, but it takes a man to help you after you hurt him.

KEEP POULTRY CLEAN

Enormous Baby Chick Loss Caused Annually by Lice

"I would not try to keep Poultry without Dr. LeGear's Poultry Remedy," says Mrs. L. V. Rose of Ochoa, Texas. "We have never had any of them fail to do even more than you claim for them."

Every year millions of baby chicks are lost because setting hens are not kept clean and free of lice. Dr. LeGear's Lice Killer quickly rids your flock of lice and vermin.

Through his advice and remedies, Dr. LeGear has helped thousands of Poultry Raisers during his 27 years' experience as an Expert Poultry Specialist. It will pay you also to take advantage of Dr. LeGear's advice just as Mrs. Rose did and increase your Poultry profits. Get a can of Dr. LeGear's Lice Killer from your dealer. Use it according to directions. Satisfaction or money back.—Dr. L. D. LeGear Med. Co., St. Louis, Mo.

Austin, Texas, June.—"Teachers salaries can be raised about three per cent for each million dollars appropriated for school relief," said Hon. Arnie Webb Blanton, State Superintendent, referring to the "Five Million Dollar School Relief" appropriation recommended by Governor Hobby. "If the same amount should be voted, it will give an average raise of salaries slightly more than fifteen per cent. But the appropriation is not yet made, those who favor this relief for the schools, which is imperative if they are to be saved from further deterioration, should make their desires known to legislature at the very earliest moment possible."

VIVIAN ITEMS
(By Special Correspondent)

Rosalie Fish is improving rapidly.

H. Young and family attended the Ivy Mae Fish is on the sick list this week.

funeral of Bro. Self's wife in Crowell last Friday.

Egbert Fish and Joe Moncus made a business trip to Crowell Monday.

G. W. Gallop from Crowell came out Monday evening to visit his daughter, Mrs. Egbert Fish.

Egbert Fish and daughters, Jewel and Bernita, and J. W. Klepper went to Paducah last Wednesday.

Mrs. Shelton returned to her home in Paducah Sunday after nursing Rosalie Fish for two weeks.

Mrs. Nute Buckeley and children of Ogden visited Mrs. Buckeley's parents, Mr. and Mrs. T. E. Turner, Sunday.

Mrs. Tom Johnson went to Crowell Saturday. She was accompanied home by Mr. Johnson's niece, Miss Susie Johnson, of Crowell.

Ray Whatley returned Wednesday from Greenville. He was accompanied home by his grandmother, Mrs. Whatley, and sister, Miss Page Whatley.

Mr. and Mrs. W. O. Fish went to Crowell Sunday. Mrs. Fish and children will stay a few days with Mrs. Fish's parents, Dr. and Mrs. W. H. Adams.

The little seven year old child of Mr. and Mrs. C. Gunter who had the diphtheria died Tuesday night and was laid to rest in the Vivian cemetery. The bereaved family have the sympathy of our community.

A LEOPARD CANNOT CHANGE ITS SPOTS

Mr. Dodson, the "Liver Tone" Man, Tells the Treachery of Calomel

Calomel loses you a day. You know what calomel is. It's mercury, quick-silver. Calomel is dangerous. It crashes into your bile like dynamite, cramping and sickening you. Calomel attacks the bones and should never be put into your system.

When you feel bilious, sluggish, constipated and all knocked out and believe you need a dose of dangerous calomel just remember that your druggist sells for a few cents a large bottle of Dodson's Liver Tone, which is entirely vegetable and pleasant to take and is a perfect substitute for calomel. It is guaranteed to start your liver without stirring you up inside, and can not salivate.

Don't blame calomel! It can not be trusted any more than a leopard or a wild-cat. Take Dodson's Liver Tone which straightens you right up and makes you feel fine. Give it to the children because it is perfectly harmless and doesn't gripe.

The trouble with the overall movement was that the people who put them on forgot to work.

Ready for That Granary?

If you are, we want to figure with you on the bill. You'll have no trouble in finding what you want. The bill will be as reasonable as can be made.

Pull Together for an American Merchant Marine

The war resulted in the creation of a great merchant marine—10,000,000 tons of American ships which cost us \$3,000,000,000.

Everybody agrees that we must keep this fleet on the sea.

If we fall back to pre-war conditions—when only 9 per cent of our foreign trade was carried in American ships—we shall be in the position of a department store whose goods are delivered in its competitor's wagons.

Congress is considering legislation which will perpetuate our war-built merchant marine.

Until this is done the ships we have should not be sold to face conditions which, prior to the war, resulted in the decline of our merchant marine to insignificance.

This Committee calls attention to these facts because a right solution of our shipping problem is vital to the future prosperity of shipbuilding, but equally vital to the safety and prosperity of the nation.

Send for free copy of "For an American Merchant Marine."
