LE BECOM- INTERESTED IN FOARD COUNTY

The best evidences that people are becoming interested in Foard County is the fact that many are subscribing for the local paper, calling for back numbers of the same, especially the issue of April 15, in which we gave the news of the drilling of the well in Wilcox only a few miles over the line of Foard, and also the commencement of work on the Beverly well north of Crowell. To further their interest they are manifesting. News received a telegram from an oil company in an effort for a number of copies of the paper. Things are mentioned to emphasize the importance of advertising in Foard County has never been advertised. It is going to be advertised. The work is already commenced. Foard County is going to be covered one of these days, and there will be many people interested. It is the firm opinion of among them oil men of expectation that Foard County is directly in the path of the biggest oil field opened up in the West. Immigration has been across the country from east to west, so it is expected that the big oil fields of Texas will be opened up. The field has been extending westward ever since it was discovered a few years ago at Burkburnett. It came across Wichita County on a line directly west of the biggest gusher in West Texas within 12 miles of the Foard County line. It does not take a wise man to predict where it is headed.

THE TRACK MEET GREAT SUCCESS

Finished our track and field at Crowell Friday afternoon, and the event was one of the cleanest, as one of the fastest meets I ever participated in. The boys who were contesting were with a spirit that showed the sort of coaching and reflects to the schools from which they came. The fast records were set on the junior field events, while no records were recorded by senior field events they were good enough to win applause from the spectators who crowded the lines. Just here I wish to pay my respects to that crowd. I have seen and heard with a number of field days but this was the most orderly and well controlled that I have ever witnessed and it bespeaks for the citizenship of the county, a splendid representation. The meet was a success financially by a small balance to start work next year, thus relieving to some extent the handicap under which the boys worked this year. They were unable to award medals to different winners on account of lack of money but hope the winners of the ribbons will value them highly for they represent the honor have won and not the intrinsic value of the reward. Merchants and other business as well as the different schools should work in conjunction with the directors of the interscholastic and get up a list of prizes for the winners that would put our boys on a par with those of surrounding counties. We will not permit our giving a list of winners but a summary of points won in track and field gives Crowell first place, Marsden second and Thalia third place. Coach, as county director, has checked the results of the literary and I will not speak of those that to compliment the wonderful showing made by the pupils of a school, which I understand won place in those events. I wish to extend to the gentlemen who acted as judges during the meet, for the efficiency and fairness which they presided, also to Mr. J. E. Bell as official starter. I wish to thank the boys and girls who participated in the different events for their unflinching courtesy and fairness. Also to wish for them continued series of successes and I am sure that some of those boys will set high records in the State in the next few years. Let's all go to the Quannah meet.

Ferguson Bros. Make Good Profit in Hog Business

In September of last year, Ferguson Bros. of this place started into the hog business, buying from J. L. Orr of Margaret one registered Big Bone Poland China bred sow, paying for her \$100. Later they bought two more bred gilts, making three in all. That was the bunch they started with. They put these on an 8-acre patch of alfalfa on their place near Margaret. The first sow they bought brought six pigs, three of which they have sold for \$130 and have refused \$100 each for the other two. They now have 15 fine young pigs six of which have already been spoken for by the pig clubs of the county. They figure that the gross revenue in pigs from the first sow they bought will approximate \$600 for the year. As to feed, that has been comparatively a small expense. They have kept books on the feed bill and up to the present time less than \$60 worth of feed has been bought. This is comparatively nothing. If the rains had not prevented a third cutting of alfalfa hay last season they would have sold from the eight acres pastured at least \$600 worth of hay. As it was they sold \$400 worth. They are enthused over the hog business because it is fascinating and because there is money in it. They find ready sale for all the pigs they want to dispose of at a fancy price. We here say again what we have often said that Foard County offers just as good opportunities in the hog industry as any county in West Texas. And there is no danger of crowding it. Registered stuff is always in demand and at a good price. It will be many a day before such stuff goes begging.

FOR COMMISSIONER W. L. Johnson of Thalia announces this week as candidate for commissioner of precinct No. 2.

He has been appointed to serve the unexpired term of J. F. Webb, who has resigned, and his service will commence with the next term of the commissioners court. Mr. Johnson has been solicited by the people of his precinct to run and has consented to do so only because of continued insistence. He was commissioner for several terms a few years back and made a good and capable man for the place. He will do so again.

ATTENTION REPUBLICANS

All Republicans of Foard County are requested to meet at the Bell Opera house Tuesday, May 4, for the purpose of electing delegates to the State Convention which meets in San Antonio Tuesday, May 25, for the purpose of electing delegates to the National Convention.

J. E. BELL, Chairman.

Three Young Boys Left Home Monday

Albert Fox, 16, son of L. D. Fox, William Hardy, 11, son of Mr. Hardy who lives on the R. B. Edwards' farm, and Lannis Carver, 13, son of W. M. Carver, disappeared Monday from their homes here. Clarence Johnson was with the boys Sunday and states that they planned to leave and tried to persuade him to go with them. They were seen in town Monday afternoon but they did not buy tickets at the depot. It is supposed they rode a local out.

The boys were located at Altus later.

CHRISTIAN CHURCH LADIES AID

The Ladies Aid Society of the Christian church met at the home of Mrs. R. L. Kincaid on Monday, April 5th. After the business session had concluded the ladies took advantage of this opportunity to pay a farewell courtesy to Mrs. G. C. Bain who is leaving soon for a trip to Rochester, Minn., and thence to join her husband at their home in Burkburnett. As a token of love and esteem with which Mrs. Bain is held the ladies presented her with a shower of handkerchiefs. Mrs. Kincaid in presenting the gifts spoke in glowing terms of Mrs. Bain's excellent work both in the Aid Society and church. There the guests took leave of their hostess a dainty ice course was served. It is with much reluctance that Mrs. Bain is relinquished from our midst.

CHAMBER OF COMMERCE PERFECTED FRIDAY NIGHT

After a preliminary meeting Tuesday night, April 6th, and the appointment of committees on organization and membership with instructions to report Friday night following, a meeting was held on that night with M. S. Henry presiding. Claude A. Adams was elected as secretary until such time as a permanent secretary could be secured.

The report on organization by Judge G. W. Walthall as chairman of that committee was adopted, M. S. Henry being recommended as chairman of the organization and declared elected by the adoption of the report, the length of the term to be one year.

The committee on membership reported, but had not completed their work. At the time of meeting they reported in contributions the amount of \$200 besides several hundred dollars in membership fees. An opportunity was given those present to make contributions and to add their names to the list of members. At that time \$300 more was added to the contributions, making the total \$500. This added to the membership fees and dues already collected and given in on Friday night's meeting amounted to \$625.50, which made a grand total of \$1123.50. Since that time the membership committee has continued its work and have added more to the fund.

The executive committee was authorized to employ a permanent secretary without waiting for a regular meeting to ratify same. A water committee was appointed to work out some feasible plan of getting water for the city, the committee being T. L. Hughton, J. C. Self and Judge Walthall.

By-Laws of Chamber of Commerce This organization shall be known as the Foard County Chamber of Commerce.

The purpose of the organization shall be the material welfare of Crowell and Foard County.

There shall be a President, a Secretary, a Treasurer and such other officers and agents as may from time to time be found advisable.

The President, Secretary and three members of the organization shall constitute the Executive Committee, who shall have charge and the supervision and management of its business affairs. These officers shall be elected for a period of one year.

There shall be a Financial Membership Committee consisting of five members whose duty it shall be to solicit funds and membership. These officers shall be elected for a period of three months.

All officers shall be subject to removal from office by the organization after notice and at any regular meeting thereof.

The Treasurer shall have charge of the funds of the organization and shall pay same out only upon the order of the Executive Committee, and shall make reports of the financial condition of the organization at each stated or regular meeting and at such other times as may be required by the Executive Committee.

The President shall preside at all meetings and in his absence the Secretary shall preside, and in the absence of both of said officers those present at the meeting may elect a temporary chairman.

The President shall call such meetings of the organization as he may deem advisable or such as may be requested by the Executive Committee.

The Executive Committee may also appoint a committee on entertainment at its pleasure to the end that the meetings of the organization may be made as inviting as possible.

Ladies shall be admissible to membership in the organization the same as men.

The fee for membership in the organization shall be for the present \$5.00 for men and \$1.00 for ladies. The monthly dues shall be \$2.50 for men and \$1.00 for ladies, all dues to be paid in advance.

Recommendation for Officers
M. S. Henry for President, Secretary, T. N. Bell, John L. Hunter and J. W. Bell for Executive Committee. T. P. Reeder, J. R. Beverly, Garland Burns, George Burress and J. M. Raspberry for Financial and Membership Committee, M. L. Hughton for Treasurer.

A majority of each committee shall constitute a quorum for the transaction of business.

The regular meetings of the organization shall be the second Tuesday in each month at 8:30 p. m., at the court house in Crowell, subject to the permission of the sheriff and the com-

FORT WORTH MAN SAYS FOARD CO. WILL BE NEXT

That Foard County will be the next oil field opened up in this part of the state is the opinion of oil men who are coming into our country. This opinion was expressed by Paul W. Smith of the Texas Oil Drilling Association of Fort Worth, who was here this week looking over the situation. Mr. Smith was not merely talking to hear himself talk but evidenced his faith in the future of the county by the purchase of a lot of leases. He predicts that within one year from now not less than fifty wells will be going down in Foard County.

COMMISSIONERS COURT APPOINTS SHERIFF

The commissioners court, in session this week, appointed L. D. Campbell to fill the unexpired term of E. P. Bomar, who has resigned as sheriff of Foard County. Mr. Bomar was serving his first term and was a candidate for re-election until recently he decided upon the course as stated above. Mr. Campbell is familiar with the duties of the office, having served in that capacity.

Commissioners court of Foard County.

These rules and By-Laws may be amended at any regular meeting of said organization.

No member of this organization assumes any financial or other liability except such contributions and subscriptions as he or she may make to same by his or her voluntary act.

Interest Manifest- ed in Building of Brick Hotel Here

At the first meeting of our citizens for the purpose of organizing a Chamber of Commerce Tuesday night of last week the matter of a hotel was taken up and a committee appointed to look into the matter and see what could be done to get a modern hotel built. At a meeting of the Chamber of Commerce the following Friday night the committee reported that they found a number of people favoring the proposition and willing to take stock in it, but nothing definite had been decided in regard to the matter.

It is understood that as an inducement one lot has been offered as a site, but that is about as far as progress has been made. The fact of the business is, there is a general feeling that Crowell must have waterworks before any one can be induced to build a hotel, for it is conceded that a hotel without water would be at best a hard proposition. But it is not unlikely that water could be provided for a hotel even before city waterworks are put in.

In this connection it might be said that the matter of providing water for the city is taking better shape than formerly and it now seems probable that a test may be made as to supply from wells near town. If this is done and the test indicates that water can be had in sufficient quantity to supply the needs of the city, then it will be up to us to vote bonds to that effect.

Looking to that end city assessments are being made for this year and rolls prepared whereby we may determine the bond voting limit of the city. It will possibly be a week or more before this information can be had.

Some question has been raised as to whether we can take this year's valuations, but the News has the information that the matter has been looked into and that it is found we can do that. It is expected, of course, that valuations will necessarily have to be increased some, just how much it can not be said, but the opinion of many is that it can be done sufficiently to take care of a waterworks proposition.

At the present time nothing more definite can be said than that nearly every one is in favor of water works and everybody wants a good modern hotel, and there has already been made the promise of strong donations in case water is put into the town and several have said they would take stock in a hotel to the amount of \$1,000. It all depends on how much we are willing to push these matters to an accomplished reality. But the indications are that everybody is in earnest about these things and feel that we have arrived at the point when these things must be done.

Sells Registered Pigs to Boys' Pig Clubs

J. E. Bell, breeder of Big Type Poland China hogs, has had no difficulty in placing all the thoroughbreds he has had for sale. In fact, he says the demand is greater than the supply. Recently he sold three of these fine pigs to the boys' pig clubs of the county.

There was a time when if a pig club had been started it would have been necessary to go outside of the county to find thoroughbred stuff, but if that becomes necessary now it will be only because home breeders can not supply the demand. Just as good stuff is raised right here as can be found anywhere, because the stock bred by the home breeders has come from the best they can find.

FARMERS KILL 273 RABBITS

An automobile crew of farmers have been having good sport on the wheat farms east of town killing rabbits at night. They go out in a car with guns and when the lights of the car blind the animals so that they can get close to them they have no trouble in killing them by the hundreds. A splendid record was made by Ransom Meadors, Herman Kinchloe, L. D. Fox and Roy Fox Monday night when they killed 100. Then on Tuesday night they got 93. Wednesday night the crew was changed a little, Albert Dunagan and Clifton Kinchloe taking the place of two of the others, when they killed 80. This brought the total up to 273.

A letter from Rev. S. H. Holmes yesterday stated that he would be in Crowell Monday and will remain all week to assist in conferring the Royal Arch degree.

DRILLING COM- MENCED NEAR THALIA TUESDAY

The Coon-Reel Co. started drilling their first well on the Haney lease embracing 2,000 acres Tuesday morning. The well is located on the Frank Long property 2 miles east and a half mile north of Thalia.

The contract calls for a 3500 foot test, but the well is commenced with a 20-inch hole, which means a deeper test if necessary.

This makes the third well now drilling in Foard County. The fourth one will be started as soon as material for the derrick arrives which has already been shipped. This is for the Beverly well which was located a short time ago and where the casing has been placed on the ground.

It is rumored that negotiations are under way for the drilling of a well between Crowell and Thalia. Also it is reported that a company which has leases on the Johnson-Worsham ranch are figuring on drilling two wells, one about 8 miles west and the other about the same distance northwest of Crowell.

TO MY FRIENDS

In tendering my resignation as sheriff of Foard County, I feel that I am due my friends this statement that this course is made necessary from a financial standpoint. In this connection I wish to say that I heartily appreciate the loyalty of my friends during my term of service and regret that it becomes necessary for me to disappoint them by my resignation and withdrawal from the race for another term.

Yours truly,
E. P. BOMAR.

A GOOD REVIVAL AT M. E. CHURCH

The revival meeting at the Methodist church, conducted by Pastor J. H. Hamblen, is closing its second week. The interest has been good and the attendance large, especially at the evening services, and there have been a number of conversions. Bro. Hamblen is intensely in earnest and has been preaching sermons full of truth that ought to stir to greater activity the Christian element of the town, as well as to awaken the un saved.

It is well worth any one's time to attend these services. It should be put even stronger than that. No one can well afford to neglect the opportunity of attending, and the remaining few days of the services can be made the best of all if our people will help to make it so.

A NEW BARBERSHOP

L. B. Mapp went to Dallas last week and purchased fixtures for an up-to-date barbershop, consisting of three chairs and all necessary equipment.

He rented the north front corner of the Thacker rock building and beaver boarded the walls, making these very attractive quarters. The name of the shop will be the Sanitary Barber Shop. He will have in connection shoe shining service for both men and ladies. The shop is provided with electric clippers and is right up-to-date in every detail.

The News by oversight failed to mention the marriage of Mr. Hartley Easley and Miss Fay Barry on March 31st at the Methodist parsonage, Bro. Hamblen officiating. Mr. Easley is the son of Mr. and Mrs. Ben Easley and Mrs. Easley is the daughter of Mr. and Mrs. Paul Barry, two prominent families of this county. The young couple will make their home on the Easley ranch in the west part of the county and have the very best wishes of their many friends.

Mr. Rob Banister and Miss Lona Burk went to Vernon Tuesday night where they were married. They went from Vernon to Wichita Falls.

RED STAR

Detroit Vapor Oil Stove

Five Burner
Three on Top, Two Under Oven

This is the stove you have been reading about lately in all the leading magazines, journals and newspapers.

It is a gas burner or coal oil burner or a natural gas burner, just as you like.

It creates a vapor gas from either coal oil or gasoline.

It has no wick of any kind—the only real wickless stove on the market. It has over 8 pounds of cast iron composing each burner. It is quickly heated and holds the heat.

We have both the five burner and the six burner.

Here is its record:

No wicks or asbestos rings. Flame directly under vessel Burns any liquid fuel. Uses less fuel. Cooks as fast as gas. Easy to operate.

It has double flue oven, white enameled drip pan and has a durable enameled finish.

This is undoubtedly the best Vapor Oil Stove on the market.

For those who do not want anything but the wick stoves, we will accommodate you with the New Perfection, which we think is undoubtedly the best of its class.

In the Spring Time

Any fool knows enough to carry an umbrella when it rains, but the wise man is the one who carries one when it is only cloudy. Any man will send for a doctor when he gets bedfast, but the wiser one is he who adopts proper measures before his ills become serious. During a hard winter or the following spring one feels run-down, tired out, weak and nervous. Probably you have suffered from a cold, the Grip or flu, which has left you thin, weak and pale. This is the time to put your system in order. It is time for house-cleaning.

A good, old-fashioned alterative and temperance tonic is one made of wild roots and barks, without the use of alcohol, and called Dr. Pierce's Golden Medical Discovery, in tablet or liquid form. This is nature's tonic, which restores the tone of the stomach, activity of the liver and steadiness to the nerves, strengthening the whole system. First put up by Dr. Pierce over 50 years ago, now procurable at any drug store or send 10 cents to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., for trial package.

Clock Talk

In buying Clocks, the public regards the outward appearance or show that the case makes, giving proper thought to its mechanical perfection—the vital part of the clock.

Clocks that do not keep perfect time are an aggravation, and one that emits harsh grinding sounds in striking is grating on the nerves.

Our clocks are mechanically perfect, and are encased as elaborately as the prices asked will allow.

First, the Mechanism; Second, the Appearance; ... Third, the Price.

These three constitute a harmonious whole that makes it to your best interest to buy clocks here.

MARGARET MUSINGS (By Special Correspondent)

The March winds still continue to blow and it is a question when they will stop. No doubt it will be a windy year. So many candidates and politicians sending out hot air and the hot and cold currents coming from so many directions is the cause of the twisters.

Our Odd Fellows are tying their hall down to post set in concrete and storm houses are in demand.

Clyde Graham's new residence is nearing completion and is a valuable improvement to our town.

Our wife and Bro. Tharp and family started on a hunt this morning. Mr. Bradford and Shorty Bridges have gone a fishing and some of the school girls are collecting fishing tackle. All of these proceedings indicate rain.

We were out looking over our Joe Bailey garden. We found it badly digfigured but trying to come back. Joe is also trying to come back. He is advocating old time Democracy, old time religion, and I would be glad to be barefoot boy of seventy years ago trudging off to school with my blue black speller under my arm and not a care, but Joe can't bring that back.

Our people are filling their coal bunkers as fast as it arrives. They have learned from past experience to be prepared.

H. A. Wesley has been re-appointed postmaster at Margaret. He served in that capacity twenty-five years and he is looking for a competent young woman to be first assistant and then he will be settled for life.

We had a Chautauque lecturer here on Tuesday night with a good attendance. He was a forerunner of the Chautauque which will be here on April 25th to 29th. We expect an enjoyable time.

Some of our farmers are now bringing in their wheat that they had in their granaries, preparing for the new crop.

Our gin company is bringing in some material to patch up the old gin and we believe the farmers will let them fool them again. Strange how some people will buy the same gold brick several times.

The Orient Co. has sold every business lot in the town and the residence lots are going very fast. There must be something about to happen for this property was considered worthless one year ago and they offered to sell the whole town for \$1000 on time, only last May.

We can't make our hens pay the grocery bills like Mr. Sparks. We went to market this morning with twelve dozen eggs. This was two days work for the hens. We bought one dollars worth of sugar which we put in one pocket, one dollar's worth of snuds which we placed in the other pocket, and a can of Mary Jane which we carried in our hand. The hens did their part, but groceries go up and eggs come down.

COAL LEADERS INDICTED

One hundred and twenty-five coal operators and miners have been indicted at Indianapolis, Ind., in the Federal Court, charged with a general conspiracy to "limit the facilities for transportation, producing, supplying, storing, and dealing in a certain necessary, to wit, bituminous coal, by refusing to mine, sell or deliver coal, by calling and causing strikes among mine workers and by closing down coal mines."

Those indicted include Messrs. Lewis and Green, leaders of the coal miners, and Messrs. Brewster and Penna, leaders of the coal operators. Ten overt acts are charged by the government, including the strike order of October 16, last, signed by Messrs. Lewis and Green, and a charge that from January to August the operators refused to sell coal, holding it for a higher market.

While we do not know whether the suit will proceed to a successful conclusion or not we are glad that it is being brought. The sooner the leaders of labor and capital realize that the public has a day and enjoys some rights, which the law and the courts uphold, there will be an end to this business of striking and profiteering. The suit is brought under the Lever bill passed by the Congress of the United States and named after its author.

MORE PRODUCTION

William A. Law, a prominent banker, makes a suggestion as to lowering the high cost of living.

"Were it possible to get organized labor to consent to a fifty-six hour week until 1923, with proportionate additional compensation, production would so increase as to force general lowering of prices."

This supports what Chas. M. Schwab said on the subject: "The only way to reduce the high cost of living is to get together and get to work."

As long as people spend more than they produce there can be no lowering of prices. A man must learn not only to live within his income, but below it, so he can save some.

Economy and production would bring about a new price level, but we are afraid that the only way to bring about the following of these two practices is by necessity. And, that's a hard and bitter school.

Little Money Maker of the Earth

The field for Poultry Raising hasn't been scratched yet, for never has there been such a demand for chickens as right now. Then why shouldn't every farmer get a share of the profits?

Nature's incubator--the setting hen--is too slow to meet the present world-wide demands for poultry. On the other hand, a good incubator, properly managed, turns out a multitude of strong, healthy chicks and is as important about the modern farm as a planter, cultivator or a Ford car.

If you haven't time to tend to it, buy one for Mother and the Girls and let them get a little of the immense profits in Poultry Raising.

The SAFETY HATCH Incubator which we handle is one of the very best makes on the market; easy to operate and sure to give satisfaction.

This is the best season of the year for artificial hatching. Come in at once and talk it over with us.

Announcing a Special Display of

Millinery and Ladies Ready-to-Wear

In order to meet the growing demands of our trade and to serve our many friends and customers who have been unable to visit the large stores this spring, we have made arrangements to have on display at our Thalia store, Friday and Saturday, April 16 and 17, a complete line of Millinery and Ready-to-Wear. This is not a sale of old stock but an exhibition of brand new merchandise from Dallas and Eastern markets, which we are offering at the lowest possible prices. This sale will be in charge of a competent milliner, thereby assuring our trade of the highest service and authoritative styles.

- Hats popularly priced at \$5, \$7.50, \$10 and \$12 will prevail.
- Ladies Tailored Suits at - - - \$25 and \$60
- New Spring Coats at - - - \$35 to \$50
- Light Voile Dresses at - - - \$9.75
- Georgettes and Taffeta Dresses at - - - \$16 to \$35
- Special Lot of Children's Hats at - - - \$2.50

A profound desire to give better service and offer the best merchandise obtainable has prompted us to arrange for this special display. We therefore urge that you take advantage of the opportunity and inspect the many values we are offering.

A Saving Habit Is a Good Habit

There comes a time in each of our lives when the possession of money is all important—either permitting us to take advantage of a profitable investment, or to tide over in a time of stress.

The banking habit and saving habit, or the spending of less money than you deposit, is a good one to cultivate. Then, should hard times strike you, the blow will be softened by dollars you have saved.

Should opportunity knock at your door the saving habit will enable you to grasp an investment which may "Lead on to Fortune."

Do Not Be Satisfied With Drug Service Less Than This---

So far as you are concerned, a drug store has but one reason
for existence:

That reason is to SERVE the public.

Our service starts with the buying department of this store—it
ends when the goods have proven their worth to you.

Our service means quality drugs, and quality means purity,
freshness and strength.

Our service means that you can select from a variety so broad
your every want can be satisfied.

It means reliability--that you get what you buy.

It means courteous attention to your every want.

It is our working creed that it means--standing behind every
purchase until you are satisfied.

Such is the service of this store, which places at your door a
most magnificent collection of Drugs and Drug Store Sundries.

If you have failed to avail yourself of this service, then we in-

CASING TO BE SET BEFORE

DRILLING IN WHEAT WELL
Quannah, Texas, April 10.—The Wheat well of the Mid-West company is receiving casing, which will be set before the well is drilled in. Officials of the company are confident that they have a producer if it can be saved. The present depth of the well is

about 2,700 feet.

The Quannah Texas Drilling Association has recovered the tools from its Simmons well, southwest of Quannah, and is drilling at about 1,200 feet. A strong flow of gas was found in the well a few days ago.

The Great Western well, on the Gilman tract, south of Quannah, has a new

derrick and will be ready to resume operations in a few days. This company at a recent meeting of the directors changed its name to that of the Pennsylvania Producing and Refining Company.

SAYS DELEGATES SHOULD ENDORSE ADMINISTRATION

The News is asked to give publicity to the following brief statement of Hon. Marvin Jones in reply to an inquiry from State Chairman Clyde A. Sweeton as to whether or not, in his opinion, delegates to the San Francisco Convention should endorse the Wilson Administration. Mr. Jones says:

"I am in receipt of your letter of recent date making inquiry as to whether, in my opinion, the delegates to the San Francisco Convention should endorse or repudiate the achievements of the National Administration.

"Replying, will say that in my judgement such delegates should support a resolution endorsing the achievements of the National Administration.

"Sincerely yours,
"MARVIN JONES."

Culberson's Position

Dallas, Texas, April 10, 1920.—United States Senator Charles A. Culberson of Texas strongly endorses the National Democratic Administration and says a favorable delegation to the party's convention in San Francisco should be elected.

Writing from Washington under date of April 6, to Chairman Clyde A. Sweeton of the Democratic Administration Executive Committee, the Senator said:

"I believe the conduct of the National Democratic Administration should be approved and delegates to the San Francisco convention from Texas favorable to such action should be selected.

"At the Baltimore convention of 1912 Woodrow Wilson was nominated for President largely through the influence and efforts of the Texas delegation to that convention, and the Democracy of the State feels a natural and just pride in his election and the splendid achievements of the Government under his leadership. The course of his first administration was not only approved by the Democracy of Texas, but he was unanimously re-nominated at St. Louis in 1916 by the National Democracy. He is the only man born and reared in the South who has been elected President since Zachary Taylor, and the only Democrat from whatever section of the Union who has been successively elected President for two terms since Andrew Jackson.

"Aside from these considerations, when we turn to the accomplishments of his administration, our duty as Democrats to endorse him is plain. Among the more notable of these governmental achievements are the downward revision of the tariff, an income tax law, the Clayton Anti-Trust Act, the Federal Trade Commission Act, the Farm Loan Act, the Federal Reserve Act, the Eight Hour Law, and the Good Roads Law. In truth, in great constructive legislation of his

Administration challenges comparison with any in our history. "His conduct of the recent war with Germany was masterful. With consummate ability and skill he organized the material resources and man power of the Nation in the greatest war known to mankind, and at the Peace Conference in Paris, which concluded the great victory, he stood the foremost man in all the world."

PAPERS REFUSE TO SUPPRESS NEWS OF "OVERALLS MOVE"

Birmingham, Ala., April 12.—Birmingham newspaper publishers have flatly denied the request of a committee of retail clothiers that news of the "overall movement" throughout the South be suppressed on the ground that it was damaging the retail clothing business.

The publishers informed the clothiers committee that their papers would continue to report the overall movement which they considered legitimate news.

The "Tampa idea" of wearing overalls as a means of fighting the high cost of clothing, which originated in the city bearing its name, has spread to many cities throughout the South, where business and professional, as well as other workers, are going about in blue denim. It was reported here Saturday that when the demand for overalls began some retailers had raised the prices from \$2 to \$6 a pair.

Mass meetings and public demonstrations are being held in connection with the movement in many places throughout the South. It was reported today that there were over 4,000 members of the overall club in Birmingham alone all pledged to wear blue denim until the price of clothing comes down.

If the Senate has any sense it will cut out so much talking. The idea of using 15,000,000 words on the peace treaty!

Secretary Houston speaks like a savant when he says the business of this country is to pay its bonds, not sell new ones.

THE SOURCE OF VISION
 Marshal Foch ranks as great soldier. His ability and genius has been awarded the highest tribute, and the first battle of the Marne, the battle along Yser and the final series of mighty drives and counter-drives, which ended the war were handled on the Allied side by this eminent military commander.

Some people say that the allied victory was a miracle but not Marshal Foch. He only believes that "clear vision" was given to him on three very important and momentous occasions. Some folks will believe this perilously close to a miracle but the philosophical aspect is lost in importance compared to the actual significance. Foch says he had the gift of "clear vision" on at least three occasions and recognizes that it was sent from a superior and divine will.

In a recent interview Marshal Foch says:
 "I do not call it a miracle when at a historical crisis a man is granted a clear vision and discovers later that this clear vision has determined actions of enormous consequence in a frightful war. But I do believe in this clear vision. I think that I received it at the Marne, at the Yser, and on the 26th of March. I believe it comes from a providential source in the hands of which we are but instruments, and that the decision of victory is determined from on high, by a will superior and divine."

A CHILD HATES OIL, CALOMEL, PILLS FOR LIVER AND BOWELS

Give "California Syrup of Figs" if Cross, Sick, Feverish, Constipated

Look back at your childhood days. Remember the "dope" mother insisted on—castor oil, calomel, cathartics. How you hated them, how you fought against taking them.

With our children it's different. Mothers who cling to the old form of physic simply don't realize what they do. The children's revolt is well founded. Their tender little "insides" are injured by them.

If your child's stomach, liver and bowels need cleansing, give only delicious "California Syrup of Figs." Its action is positive, but gentle. Millions of mothers keep this harmless "fruit laxative" handy; they know children love to take it; that it never fails to clean the liver and bowels and sweeten the stomach, and that a teaspoonful given today saves a sick child tomorrow.

Ask the druggist for a bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly on each bottle. Beware of counterfeits sold here. See that it is made by "California Fig Syrup Company." Refuse any other kind with contempt.

225 MILES IN 184 MINUTES

Several prominent railroad officials were recently on the Canadian division of the New York Central, and in their honor some high speed was indulged in.

225 miles between Windsor and Buffalo, New York, were covered in 182 minutes, which meant a speed of about 75 miles per hour, or a mile and a quarter a minute.

The airplane has the engine hog-tied when it comes to speed, but, maybe, there is some possibility of a further development of the engine. Only a small per cent of the energy consumed in coal ever has been applied to the wheels in locomotive power, anyway.

AIR MAIL ACROSS CONTINENT

The Senate has adopted an amendment to the postoffice bill establishing an air mail route from New York to San Francisco, via Chicago. The amendment carries an appropriation of nearly a million and a half for planes and other equipment.

That means some fast mail, all right. The airplane will reduce the time for carrying mail, and in the next score of years the time for communication between all parts of this country will be greatly lessened.

Personally, we hate to read this, ourselves.—Life on the ocean wave may be the thing, but it certainly is—on the land.

A FAMILY MEDICINE

In Her Mother's Home, Says This Georgia Lady, Regarding Black-Draught. Relief From Headache, Malaria, Chills, Etc.

Ringgold, Ga.—Mrs. Chas. Gaston, of this place, writes: "I am a user of Theford's Black-Draught; in fact, it was one of our family medicines. Also in my mother's home, when I was a child. When any of us children complained of headache, usually caused by constipation, she gave us a dose of Black-Draught, which would rectify the trouble. Often in the Spring, we would have malaria and chills, or troubles of this kind, we would take Black-Draught pretty regular until the liver acted well, and we would soon be up and around again. We would not be without it, for it certainly has saved us lots of doctor bills. Just a dose of Black-Draught when not so well saves a lot of days in bed."

Theford's Black-Draught has been in use for many years in the treatment of stomach, liver and bowel troubles, and the popularity which it now enjoys is proof of its merit. If your liver is not doing its duty, you will suffer from such disagreeable symptoms as headache, biliousness, constipation, indigestion, etc., and unless something is done, serious trouble may result.

Theford's Black-Draught has been found a valuable remedy for these troubles. It is purely vegetable, and acts in a prompt and natural way, regulating the liver to its proper functions and cleansing the bowels of impurities. Try it. Insist on Theford's, the original and genuine. E 78

YOUNG WOMEN'S MISSIONARY SOCIETY

The Young Women's Missionary Society met Saturday afternoon at the home of Mrs. S. O. Woods with Miss Nora Alexander as hostess. The business of the society was taken up and Miss Oberia Hamblen was elected corresponding secretary. It was decided to have a fish pond at the postoffice, Saturday, April 24th to be opened promptly at 1 o'clock. Everyone is invited to come and try their luck "fishing." Mrs. Henry led in the Scripture reading and gave a very in-

teresting talk on the "Value of a Christian Life."

Several interesting current events were given by the members. The papers on, The Need of a Medical Missionary in China, by Miss Josie Wright, and The Interesting Example of a Missionary Who Could Receive a Great Amount of Money If He Would Give Up His Work, But Did Not Surrender to Temptation as He Valued Souls More Than Money, given by Miss Mitchell, were enjoyed by all present.

Dainty refreshments were served by

Miss Alexander assisted by Misses Martin and Woods. The next meeting will be May 8th at the home of Mrs. A. Y. Beverly. All the girls are invited and urged to be present.
