CROWELL, FOARD COUNTY, TEXAS, FRIDAY, JULY 16, 1920

8 PAGES \$2.00 A YEAR

CHAMBER MEMBERS TALK ADVERTISING

A crowd at the Chamber of Commerce Tuesday night at Sanitary Cafe got a large one, as might be expected, for it is yet a very busy time. Now several of the people of the county are actively engaged in getting small grain threshed and none of the people residing in the rural districts could be present. However, a representation was on hand and a meeting was the result.

Plans for advertising the country of the town were discussed and it was decided to erect signs at the northwest and the southwest corners of the square with words something like this: "Foard County Chamber of Commerce, northwest corner base of court house." Secretary McGowan was instructed to do this with the consent of the commissioners.

Also a big sign at the depot with suitable words advertising the wheat crop of the county. A sign of that kind would be read by hundreds of people passing through Crowell and would be an effective means of advertising the resources of the county. This means of advertising was suggested by J. L. Martin, who is an interesting talk at the luncheon. Along the line of advertising, Miller of Royse City also made some timely suggestions. He emphasized especially the necessity of our finding some money for conveniences, such as waterworks, hotel accommodations, etc., that would be in line to prospective investors. He thinks Crowell has the opportunity of making a splendid little city and that Foard County's development will be aided when these things are a reality.

Secretary McGowan suggested the plans for the square, as above mentioned, also he thought it would be for us to have trade excursions to the different towns and communities and invite them to come to Crowell to do their trading. As to the Chamber of Commerce, McGowan feels confident that our citizens are going to support it financially. He makes a splendid report of its finances, but he insists on a more hearty co-operation of our people with their presence. Of course, as stated above, this is a very busy time and we would not hope for a large crowd, but as soon as the present strenuous work has eased to every one can attend. The big problems are still before us and must be disposed of. At the very earliest moment possible the water works proposition will be pushed. Steps are being taken to have an exhibit at the State Fair and the details are to be worked out within the next few days.

Three banks of Vernon are donating 100 each with which to purchase a ticket for their county agent, N. R. Tisdale, to go with the county's representative on the Texas Farm Boy special. This is a train that will carry representatives of the various counties over a distance of more than 1,000 miles, at various points in which they will have contest work for judging. A short course in judging will be given at College Station before making this trip.

Believes Foard County Leads the Nation in Wheat

There is some county in the United States that is making a better average yield of wheat than any other. That much we can assert as a reasonable certainty. And at least one of our wheat farmers believes that county is Foard, in the state of Texas.

A representative of the News, conversing with one of the leading farmers on the wheat yield, remarked that he was confident we will easily lead the South this year. The farmer went us one better by replying that he did not doubt that we are leading the Union.

When one comes to think about it, that is not unreasonable, and when the acreage, yield and the grade are taken into consideration it is not unlikely that this man is right.

It would be interesting to know whether this is correct or not, and the only way we see how to find out is to make an exhibit and have that exhibit made not only in Texas but in the leading wheat regions of the country, where comparison can be made. This year offers the best opportunity we ever had to get our county before the world as a real country.

Farmers Over the County Still Report Big Grain Yields

J. W. Cook says while we are telling folks about the grain crop we need not forget to say that he threshed 76 bushels of oats to the acre. That is not quite so good as some have done, but it will do to brag about.

Jim Miller reports a yield of from 25 to 28 on 400 acres. The Millers are good farmers and we understand they are preparing to spread out more down in their neck of the prairie, since they have purchased another tract of land and will enlarge the wheat acreage another year.

G. W. Wallen does not claim to be a big farmer. He would, however, if he could call back 20 years of his life. Mr. Wallen, while not a young man, gets by more easily than lots of us. He is not far from 70, but is as spry almost as if he were only 40. He has just threshed 1400 bushels of wheat off of 50 acres, making an average of 28 bushels. Not bad for a man of that age, is it?

The farmers in the Vivian country would not have us forget that they are some farmers, too. The wheat yield is going from 25 to 35 in that section. Egbert Fish got an average of 36 bushels of soft wheat on 30 acres and 27 of hard wheat on 80 acres, while W. O. Fish made 25 bushels of soft wheat and thinks his hard wheat will go better than that. R. N. Beaty of the same community threshed 1510 bushels off of 50 acres, making a little more than 30. A. L. Walling made a fair yield of oats. Oats are running in that community to about 65 bushels.

A. L. Sloan got about 30 bushels to the acre on 90 acres. A little of his wheat was thin on the ground and made only about 20. If it had all averaged up with the best he thinks the yield would have nearly reached 40 bushels.

W. A. Cordell says he made an average of 26 1/2 bushels to the acre. He also reports that his neighbor, C. C. Joyce, who lives on J. R. Beverly's farm across the lane from his place, as making 30 bushels. He accounts for the difference in yield on the two places to the preparation of the land. On account of labor shortage he failed to get his land plowed early.

Another Farmer Makes Crop Equal Land Value

Worth Hunter made a crop equal to value of his farm this year. He bought a farm of 160 acres, paying \$60 per acre for it, which made the farm cost him \$9,600. He has just threshed his crop of wheat on something like 130 acres of the land, making an average of 32 bushels, or a little more than 4,000 bushels, which is worth more than \$10,000 at the present price of wheat.

There are a number of instances of this kind in the county, not all of which will be mentioned in the News because we will never know of them. The principal reason is because they regard them as too common to mention. Yet, it is something that few farmers can do in most countries.

BURRESS' BEETS BIGGER

W. D. Burress says he has practically quit farming, but has not quit raising gardens. With that statement he submitted the proof in the form of a 3 1/2 pound beet which measured 21 inches in diameter. He raised that beet in his garden at Thalia. It was not the only one grown, understand, for he brought two or three of this one's mates which would tip the scales at something like 3 pounds and easily measured 18 inches in diameter.

But while these beets are worthy of mention, they are not all the vegetables Mr. Burress raised. He has made a fine all around garden of potatoes, beans, peas and onions. They have had all they wanted for home use, and divided with their neighbors.

LIGHTNING KILLS MULE

One night last week during an electric storm Jim Miller lost a good mule which was killed by lightning. It was about midnight when the cloud came up and the boys of the threshing crew were moving around to get things arranged for a storm when lightning struck this mule which was tied only a few steps from the shack. Jim says it was the best mule he had and was worth \$300. But inasmuch

SCHOOL BOARD CALLS MASS MEETING TO CON- SIDER REPAIR WORK

Bond Election Carried by Overwhelming Majority but Board is Confronted with Need of Repair Work Before Bonds Can Be Approved

We, the board of trustees of Crowell public school, request a mass meeting of the citizens in the court house, Friday evening, (tonight) at 8:30 o'clock to consider a question of vital interest to our school.

We are endeavoring to repair the school building so as to make it a safe place for our children. For this purpose a bond election was called, voted on and carried, only one voted against it. This, we think, insures plenty of money to do the work. But to realize the money on these bonds will require a longer time than we can afford to wait.

The object is to devise a plan to begin work at once without any delay. This is absolutely necessary if we open school in September. To delay will cripple very much the efficiency of our school.

No one will be asked for a donation of money. Don't leave this to some one else, the other fellow may do the same and our effort will come to naught.

The meeting will be short.

S. S. BELL,
T. M. BEVERLY,
W. F. KIRKPATRICK,
SAM CREWS,
H. L. KIMSEY.

Planning for Picnic for Club Members

County Agent P. D. Chaney informs us that he is planning for a picnic for the club members over the county to take place Friday and Saturday, July 23 and 24. While the place has not been definitely decided on, he thinks they will hold the picnic at the lake. There is a peninsula running out into the lake which he thinks will furnish a suitable place. A shade can be had and this with the cool breeze from the water ought to make it very pleasant for those who attend.

Mr. Chaney is planning to have speakers here from Childress and Wilbarger counties. He can get County Agent N. R. Tisdale from Vernon, who is a wide-awake man and who is doing much to stimulate agricultural and stock raising interests in Wilbarger county. Mr. Tisdale has been in that county several years and has worked up great interest along these lines and can help the boys and girls of this county by giving them lectures in connection with their work here. They should be interesting to grown-ups who have any part in the agricultural activities of this county, and it might be said that those are invited to be present, as well as everybody else.

Mr. Chaney is not certain that he can get a man from Childress but he is making an effort to do so. Those people up there are especially interested in stock raising, making hogs a specialty, and it is one of these men whom he is trying to get to give the boys lectures in connection with their pig club work.

Besides the program to be had at the lake, it is planned to have an automobile parade Saturday afternoon, the 24th, through Crowell of all those interested. Those entering the parade will visit the hog farms of J. L. Orr and Ferguson Bros. near Margaret. That will close the program of the occasion. Mr. Chaney thinks it will offer a good opportunity to have some photograph scenes taken, which will make good advertising for the county and for work being done by the various club members of the county.

The News has always boosted the work of the county agent, because it regards it as very important. It is Foard County's agricultural and stock raising interests that will put the county before the world. Nothing is so important today as these. They are dependable. They are the lasting things of the county. We may get oil some day, but it will pass. These other things will remain and grow as long as there is a Foard County. So everything should be done that can be to strengthen and better our vital interests. If Mr. Chaney needs co-operation to make this a worth while event, he ought to have that co-operation from everybody in the county. He has undertaken a work that is uphill for him and for the comparatively few who are interested, and to demonstrate its value he should have the co-operation he needs and craves.

as the boys themselves had a narrow escape he feels fortunate that the loss was confined to that of a mule.

Miss Dorothy Thompson left this week for Colorado Springs to be gone several weeks.

Former News Editor Here from Royse City

J. L. Martin and B. E. Miller of Royse City are here for a few days. Mr. Martin, as everybody in Foard County knows, was formerly the editor and owner of the Foard County News, having operated the paper from 1913 until 1915, when he sold his interest and moved to Royse City where he has since run the Royse City News-Times. Mr. Martin has just sold the paper at Royse City to D. M. Norwood, formerly connected with the Chillicothe News, and is taking a vacation. Mr. Miller is one of the progressive business men of that city and is engaged in the hardware and furniture business. This is his first trip to this country and he is very favorably impressed with it.

Mr. Martin has not been in the very best of health and has felt that a vacation was necessary, and in order to take it said he had to sell, as that is the only way a newspaper man can get a vacation. He had one of the best country newspaper plants in Texas and gave those people the best paper they ever had. But he says he has never gotten away from the spirit of the west. Having known the possibilities of this country, Mr. Martin has been a booster for Foard County ever since he left.

After a few days stay at Crowell they expect to go south from here.

A VISIT TO MARGARET

A News reporter paid the thriving little town of Margaret a visit this week, and while there took advantage of the opportunity of seeing the little burg.

An electric light plant is being installed to furnish light for the whole town and is just about ready to begin operation. Every business house we visited was a scene of activity and healthful business life. A new elevator adds to the appearance of the town very much, and Uncle John Wesley, the Old Texas Long Horn, showed us a few sights and informed us that a gin would be built there just as soon as the cotton begins to open.

Uncle John confided to us a secret that was very interesting. It is too good to keep. He says by taking butter milk and keeping it enclosed in an air-tight vessel for a certain number of hours it will ferment and produce a kick that will make Four Roses a back number. Everything on his place that can be sealed air-tight. The only question is can he sell it. If he can, he will own Margaret in a short while. He told us of things that happened fifty years ago in the good old days when there was a keg well iced and he could take a few schooners and buy any section of land in Foard County. We remember those times in our day but are very glad they are in the past never to return.

Politics were being discussed pro and con and signs on every post directed you whom to vote for, all of which shows Margaret to be up in the front ranks.

Miss Eva Mae Clark came in yesterday from San Angelo to spend a few days visiting Mr. and Mrs. Joe Couch in the Black community.

Texas People Picnic at Ganesha Park, Pomona, Calif.

We are indebted to C. E. Hutchinsen, of Azusa, Cal., for the following account of a picnic held at Pomona, Cal., by Texas people in the vicinity of Los Angeles.

In honor and as courtesy to Mr. and Mrs. J. W. Allison and Mrs. N. A. Crowell, of Crowell, Texas, California's Crowell population celebrated at Ganesha Park on July 4th with the following present:

Mr. and Mrs. J. W. Allison and Mrs. N. A. Crowell, Crowell, Texas; Mr. and Mrs. C. R. Crowell, Los Angeles; Mr. and Mrs. C. E. Thacker, Sawtelle; Mr. and Mrs. J. W. Shnell, Ruth, Rose and Rex Shnell, Sawtelle; Mr. and Mrs. H. Allison and daughter, Marjorie, Covina; Mrs. J. C. Sanders, Covina; Miss Augusta Sanders, Covina; Misses Novella and Daisy Woods, Dallas, Texas; Mr. and Mrs. J. R. Hutchison and son, Clayton, San Dimas; Mr. J. V. Bost, Wilmington; Mrs. Sue Bost and Olivia Bost, Covina; Mr. and Mrs. J. W. Whitlock, Covina; Mr. and Mrs. G. A. Burks, Tom, Hays and Doris Burks, Covina; Mr. and Mrs. Will Bost and daughter, Lucetia, Covina; Miss Ella Dorbritz, Los Angeles; Mrs. Blanche Parker, Floyd Parker and Mrs. Ella Miller, San Pedro, and Mr. and Mrs. C. E. Hutchison and little daughter, Jennie Reid, Azusa.

Mrs. J. V. Bost, Floyd Bost and C. D. Bost and wife of San Pedro failed to be present.

With few exceptions the above named were at one time residents of Crowell, Texas.

A GENERAL ICE SHORTAGE

Crowell is not the only town in this country that has suffered from an ice shortage recently. Vernon has been up against it in supplying the needs of that town. The plant there being unable to supply the demands, ice has been shipped from Altus. This has made it difficult for Crowell to get its supply, since Altus has been the main source of our supply. One cause assigned for the shortage on trunk line roads is that by order of the Interstate Commerce Commission refrigerator cars carrying fruits from California to eastern points have been taking all the ice available along the routes.

If the present situation continues, all small towns are going to be forced to make their own ice or do like our daddies did 50 years ago.

Makes Forty Two Bushels to the Acre

Perhaps there are no 300 or 500 acre patches of wheat that have made a yield of 42 bushels. The bigger the acreage the more likely is the yield to be common, for on that amount there is more or less inferior wheat and so the yield is cut down. On single small pieces of wheat O. N. Baker has made the best we have heard of. On 11 acres he threshed 465 bushels, making 42 3-11 to the acre. If there is another 11-acre piece of land in the county that has done as well or better the News would like to know it. If nobody reports, we shall consider that Mr. Baker holds the record this year for the best 11-acre piece of wheat in Foard County. It may be there is not another equal amount of land in Texas that will make it. There may not be one in the United States. That's getting close to the top.

IMPRESSED WITH THE WAY FOARD COUNTY DOES THINGS

F. M. Self and wife left Sunday for their home at Buffalo, Mo. They had been called here on account of the fact that their son, Jim, had undergone an operation for appendicitis a short time ago. They were here through the very busy harvest and threshing season and Mr. Self was very much impressed with the big scale on which things are done in Foard County. There is quite a difference between this and Southwest Missouri, especially at this time. They have not had favorable conditions there this year and consequently crop conditions are not the best. But even when they are at their best that country does not make anything like this country in the way of crops.

The son did not return with the parents, but left yesterday morning.

Herbert Edwards and Mrs. J. C. Self will leave Saturday for the St. Louis markets for the R. B. Edwards Co.

WILL AVERAGE 25 BU. OVER COUNTY

When we started out two weeks ago to give the wheat reports we had no thought of making an estimate as to the average from these reports. Every farmer was consulted with the view of giving the facts as they appeared. These reports have nearly all been given by farmers who have actually threshed their grain and know what they have made. We did not pick out the wheat men whom we expected to give good reports but took them as they came. Neither have we thrown any of these aside because we thought their yield was too small to mention. Including this week we have talked with 35 farmers scattered over the county and summing up their reports and making a general average we find that it reaches the high mark of 27 3-5 bushels.

We do not think that all of the best yields have been given us, but we rather think this is a test that enables one to make an estimate for the whole county. Granting that there is some poor wheat not reported—though we do not expect any to come under 15 bushels—we think one is conservative in saying that we have a 25 bushel crop.

QUANAH COULD NOT "CUT THE MUSTARD"

The Crowell ball team played the Quanah team on the Quanah grounds Wednesday and won by three scores. Up to the 5th inning the scores stood 2 and 2. When it looked like the Quanah boys were going to fall down the Crowell boys gave them the lead in the sixth and seventh innings. In the sixth Quanah scored 3 and Crowell 2. In the seventh Quanah added 3 more and Crowell 1. This lead which Quanah now had stimulated them so that they appeared able to stand up through the two remaining innings and the Crowell boys easily captured the game winning 6 scores during the eighth and ninth, making them 11 and Quanah 8.

J. O. Vick was Crowell's pitcher and Earnest Crosnoe our catcher.

In their desperation during the 8th and 9th innings Quanah changed pitchers twice, but Crowell was not willing to allow Quanah any further successes.

A CORRECTION

In the W. R. Womack ad in last week's issue a mistake was made in one of the figures where the ad gave the time in which certain items could be baked. The one here referred to is that of biscuits. Instead of saying that biscuits could be baked in 15 minutes we should have said 5 minutes.

Mr. Womack is pushing his Red Star stoves and calls attention especially to the short time in which this stove will bake bread, and when we made this mistake the value of this particular item of biscuit baking was lost because any stove will bake these in 15 minutes, but few, if any, except the Red Star, will do it in 5 minutes.

Election For School Bonds Saturday Al- most Unanimous

The bond election Saturday for funds to repair the Crowell school building was as nearly unanimous as could be not to be, there being only one vote registered against the bonds, and that one is said to have been voted against by mistake.

This demonstrates the fact that our people want a better school building and a better school, and they are willing to vote bonds or do anything else that can be done to have a first-class school. A good house is just about as essential as anything. We are going to have that and we already have secured a good faculty, so there is no reason why we should not have next term the best school we ever had in Crowell. It is commendable in our people to take the interest they have in the school and the splendid vote for the bond issue is a strong indication that they are going to stand by the school.

LOSES CALVES FROM BLACKLEG

Dr. M. M. Hart lost two fine registered Hereford calves last week from Blackleg. So far as we have heard there have been no other cases in the country. In order to prevent further loss Dr. Hart has had the balance of his herd vaccinated.

When the mercury soars around the century mark--you'll need one of these cool sturdy Palm Beach Suits of ours. Order now--Wear a cool suit through August

MARGARET MUSINGS

(By Special Correspondent)

Will Goodman and wife are visiting his father and other kinfolks at Margaret.

There is considerable activity in the land market and sales are being made at advanced prices.

Showers have hindered the threshing for a few days but they were very beneficial to growing crops and the thresher men needed a rest.

Buck Priest has bought two blocks of Margaret property and will build a residence at once. We are glad to have good people settle among us.

Our new blacksmith is doing good work and if the people will patronize him there will be no more trouble about getting their work done in good shape.

Since the National parties have selected their best men for the Presidential race, the little fellows are looking around for the small crumbs that are left and our candidates will decide who will be elected by the primary on the 24th.

We were uncertain about female suffrage and voted against it but since our legislature ratified it against the majority of the people we think it may be alright. Our wife has not scolded us in two weeks and when we come in with mud on our shoes she does not object.

Mike Dunn who was hauling in wheat from the thresher met with an accident last week and had a very narrow escape. He was crossing the railroad north of Margaret and was struck by a train which made kindling wood of his wagon but Mike and the team escaped with a few bruises.

The White Head show is in town and doing a fine business. Their tent on Monday and Tuesday nights was full to overflowing, and if they would locate here permanently they would do a fine business. The only objection we had to the show was a side tent where they exhibited a rattle snake. We don't like snakes although we never had them in our boots, but there is no snake medicine to be had nowadays.

GAMBLEVILLE ITEMS

(By Special Correspondent)

Mrs. Garrett is still improving. We hope that she will soon be well again.

Miss Carrie Johnson of Crowell spent Saturday night with Odell Garrett.

If it will stay dry a few days longer all the people will soon get through threshing.

Zelda Pyle and Odell Garrett spent Saturday night with Misses Leta and Georgia Burk in Crowell.

We have been having some good rains which were very beneficial to crops, but knocked off threshing for awhile.

Our Sunday School has almost died down, but we are still trying to have it every Sunday. Everybody come and bring somebody with you next Sunday.

BRUCE & WALLACE, Proprs.

Brazil is second to the United States as a commercial factor in the Western Hemisphere. "Revise your notions of jungles and aborigines and unequal fastnesses if you would get correct picture of Brazil," says a Rio Janeiro editor. "Those things are found in Brazil as are Indians, prairies and forests in the United States; they are only the national parks, utterly unexplored as yet of a nation which ships its rubber, its diamonds, manganese and its hides to all quarters of the known world; does its shopping in Europe and the United States and has for its capital that jewel of the Atlantic, Rio, in a natural setting of rarest beauty, rich, prosperous and beautiful with its boulevards, its stately homes, and its skyscrapers less lofty, but vastly more operative than many of the North American sort."

Meet me at Ferguson Bros.

TWO CARLOADS OF MELONS WERE PULLED TOO GREEN

Houston, Texas, July 11.—The inspection of three carloads of watermelons by city food inspectors yesterday resulted in the contents of two cars being condemned as unfit for human consumption on account of being too green.

M. H. Beer, chief inspector, said that in cutting several hundred melons in one of the cars he found 90 per cent of them too green, the other car was better and the third was passed as in good condition.

The high price of melons is assigned by Mr. Beer as the cause of so many green melons reaching the market.

You will be delighted with the results of Rexall Cream of Almonds when you once try a bottle. Soothes the skin and makes the complexion fresh and fair.—Ferguson Bros.

French Straley went to the Masonic lodge at Crowell Monday night.

Jim Vernon and family of Crowell visited Mrs. A. R. Johnson Sunday.

Mr. Mahn and Mrs. Maggie Johnson visited relatives at Crowell Sunday.

Mr. and Mrs. W. C. Golden are entertaining a new boy in their home.

Miss Opal Davis from Goodcreek visited her cousin, Miss Evelyn Jones, last week.

Miss Emma Pendleton of Crowell was visiting her sister, Mrs. W. B. Jones, Sunday.

Ben Kexie who has been here working in the harvest fields left Monday for his home at Chalk.

Misses Lucy, Susie and Eunice Randolph of Jamison are visiting their brothers, John and George Randolph,

KANTLEEK

It Can't Leak, Because It's Made in One Piece

A KANTLEEK is built like a bottle—all in one piece. Most hot-water bottles are made in sections, then cemented together. When cement dries and cracks, the bottle leaks. Every Kantleek Hot-Water Bag is moulded of pure soft rubber—one continuous piece. No parts, patches, cement. Even stopper socket is moulded in. And guaranteed for a full two years' service—or a new Kantleek free. Don't wait until your old bag leaks. Get a Kantleek. Your old one may break open tonight.

of this community.

Mr. and Mrs. Will Varner, formerly of Paducah, are in this community and intend to stay until after harvest when they will go to Roaring Springs.

Lenard Johnston left Sunday for Colorado Springs. He was accompanied to Quanah by Ross Bevers and French Straley and his son, Herbert.

A. W. Barker and John M. Johnston made a business trip to Crowell Monday. They went from there to the Hoffman farm which Mr. Barker is thinking of buying.

The ice cream and birthday party given at the home of Mr. and Mrs. Lenard Johnston Saturday night in honor of their daughter, Vera, was greatly enjoyed by a large crowd.

Mrs. F. C. Borchardt and little daughter, Bettie, left Thursday afternoon for Lewisville where they were called to the bedside of Mrs. Borchardt's father, J. R. Greer, who was dangerously ill.

FARMERS FORCED TO STOP WORK TO KILL JACKRABBIT PESTS

Baliinger, Texas, July 12.—Runnels County farmers have suspended work to join in a wholesale war on jackrabbits. Drives against the pest are being organized in every section of the county. The rabbits were never known to be so numerous and estimated damages to farms growing cotton run from \$5,000 to 110,000 daily, or \$5 to \$10 a farm.

Local merchants are supplying ammunition at actual cost, while the townspeople are turning out to aid in checking ravages on the cotton crop.

BOOKLET BEING COMPILED FOR TEXAS FARM SPECIAL

Dallas, Texas, July 10.—A booklet describing industries and resources of Texas and containing illustrations of Texas, varied agricultural lands is being compiled for distribution along the route of the Texas Farm Boy Special through eighteen states and a portion of Canada during the last three weeks in August.

Thousands of the booklets will be handed out along the route with a view to bringing homeseekers from the north, northeast and east to Texas.

I have plenty of Poland China pigs of all sizes for sale now. These are the best to be found anywhere. Better be quick if you want one. They will not last long.—J. E. Bell.

ZEKE BELL

City Meat Market

Carries everything in the line of an up-to-date meat market, together with packing house meats such as Boiled Ham, Mince Ham, etc., except beef. Will also carry pure hog lard, the kind your mother used to make during hog-killing time.

Come in for a fresh tender steak of beef or pork for dinner, or maybe its pure hog sausage you want. If so the City Meat Market is the place to get it.

F. J. MEASON, Proprietor

THE FOARD COUNTY NEWS

KIMSEY & KLEPPER, Owners and Publishers

Entered at the Post Office at Crowell, Texas, as second class matter.

Crowell, Texas, July 16, 1920

Whoever is elected as president this fall will be a representative of the newspaper fraternity. Harding, Cox and Debs are all newspaper men.

A fellow tried to ride down the rapids of the Niagara the other day in a barrel. The barrel was pounded to smithereens and the man shot into a bottomless hole of water gouged in the rocks from which he had not emerged at the last reports. It looks like another fool is dead.

According to reports coming from the American Wholesale Coal Association the coal production is eight weeks ahead of previous years and that this condition together with the fact that an embargo has been put on exporting coal, virtually eliminates the danger of a coal famine next winter.

TO PLAY BENJAMIN SATURDAY

The Crowell ball team will play Benjamin Saturday on the home ground. Crowell is making a good record now, winning in most of the games she plays, and if Benjamin has a good team the game Saturday should be an interesting one.

The boys want everybody to come out Saturday and see the game. They need your presence and the little help they ask is to defray the expenses of the visiting teams. Come out. You will enjoy the game and your presence will encourage the boys.

A mattress factory was destroyed at Vernon recently when a match was run through the machine and ground up, igniting the cotton. The loss was estimated at \$4,000.

Childress is worrying over the lack of adequate water supply for the city. What is known as the Quitaque water project has been abandoned and other sources are being considered.

Monday of last week R. S. Crawford of near Kirkland committed suicide by cutting his own throat. He was said to be a well-to-do farmer and a good citizen. No cause for the deed is known.

Donations by Vernon business men to the Chamber of Commerce of that city totaled nearly \$15,000. Vernon makes the chamber of commerce a business proposition and support it liberally. Several firms donated as high as \$400.

LEAVING ON VACATION

Mrs. J. H. Self and mother, Mrs. G. W. Thompson, left Tuesday for Amarillo where they will visit their sister and daughter, Mrs. Wilson, for a few days. J. H. Self left yesterday to join them at Amarillo and from there they will go on to Colorado for a two weeks vacation. It is likely that they will go as far as Salt Lake City before returning.

THALIA ITEMS

(By Special Correspondent)

Clarence Self of Crowell transacted business in Thalia Tuesday.

Mr. Langley bought corn Monday from Walter Banister.

Miss Cleo Phillips visited Miss Opal Edens at Rayland Sunday.

Mrs. Jas. Garrett of Vernon visited relatives here last week.

M. J. Phillips and family visited old friends at Rayland Sunday.

Charley Shultz of Dallas visited his brother, Allen, here Monday.

The juniors enjoyed the party at Myrtle Moore's Thursday night.

Millard Phillips lost one of his fine mules last week from blood poison.

Roy Reinhardt of Margaret was transacting business here Tuesday.

Homer Gibson of Goodlet is visiting his cousin, W. M. McKinley, here this week.

M. J. Phillips has recently purchased a new Liberty car from Horace Lambert.

A. T. Miller is here from Clarendon helping to take care of the grain on his farm.

Bill Marlow and wife of Ayersville and daughter were shopping in Thalia Saturday.

Mrs. Nash and children of Crowell visited her sister, Mrs. Jessie Phillips, last week.

Mr. and Mrs. Fred Rennels and son, F. L. of Rayland visited her parents here Saturday night.

Miss Fannie Capps entertained with a party Thursday night of last week. All report a good time.

Mr. and Mrs. Carl Huddleston visited relatives here and attended the show Wednesday night.

A large crowd attended the party at Jack Woods Monday night. They report a delightful time.

Mr. and Mrs. Buckman and children from the Talmage community attended Sunday School here Sunday.

Mrs. Jeff Fleming and daughter, Mrs. Frank Richter, left Sunday for a visit with old friends at Tahoka.

Ray Pyle and family of Crowell visited Mrs. Pyle's father and mother, Mr. and Mrs. D. M. Shultz, Sunday.

Miss Marie Skipworth of Vernon spent a few days last week here visiting her cousin, Albert, Jones, and wife.

Mr. and Mrs. Harley Capps of Crowell spent the week-end here with her parents, Mr. and Mrs. Mark Self.

Miss Irene Davis and brother of Rayland spent Monday and Tuesday in the home of their brother, Gordon.

Mrs. H. W. Banister and daughter, Merl, went to Crowell Wednesday where Merl had some dental work done.

Everett Haney and wife of Vernon spent Saturday night with his parents, Mr. and Mrs. T. M. Haney, of this place.

Mr. and Mrs. Marion Self of Buffalo, Mo., were the guests of his brother, Mark Self, and family here Wednesday.

Miss Essie Shultz gave an expression and piano recital at the Baptist church Saturday night. All enjoyed it very much.

Will Banister went to Crowell Wednesday of last week to consult the artificial limb man who stopped off there between trains.

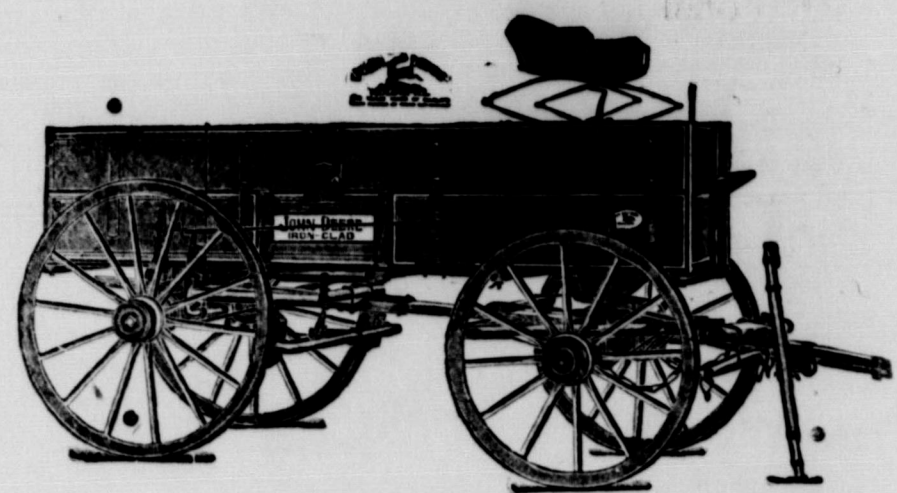

Mrs. Walter Taylor came home Sunday afternoon from Vernon after a week's visit with her parents, Mr. and Mrs. D. M. Ferebee.

There will be preaching at the Church of Christ next Sunday at 11 o'clock and Sunday night. Elder Cate of Vernon will do the preaching.

Millions for a New Stomach

One of the greatest American millionaires said to his physician, "A million dollars, doctor, spot cash and no grumbling, for a new stomach," and then the sick man groaned and turned away. All his wealth could not make him happy or contented, for happiness largely depends upon digestion. Without health where does happiness come in? After all the stomach plays a great part in everyday life. Without a healthy stomach and good digestion our blood is thin, watery and poor, our heart action is weak, our liver does not do its duty, and man is miserable and unhappy. Prevent disease by putting the house in order and strengthening the system against the germs of disease.

Dr. Pierce, of the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y., years ago understood disease and their prevention, and he discovered certain roots and herbs which were nature's remedies, and succeeded in putting them up in a form that could be easily procured at the drug store (liquid or tablets). This he called Dr. Pierce's Golden Medical Discovery. This Discovery gives no false stimulation because it contains no alcohol or any narcotic. It helps digestion and the assimilation of such elements in the food as are required for the blood. It gives to the blood the food elements the tissues require. For over fifty years it has enjoyed the confidence of the American public. Try it now!

COX AND HARDING

(State Press, Dallas News)
A Dallas consumer asks for a record of the public services of Messrs. Warren G. Harding and James M. Cox, both of Ohio and both ambitious for high political preferment, including free house rent and an exclusive neighborhood in the city of Washington. Also our Dallas friend wishes to know if Mr. Cox ever beat Mr. Harding for Governor of Ohio, and what is the church affiliation of each. Mr. Cox, we believe, never ran against Mr. Harding for Governor; neither, on the other hand, did Mr. Harding ever run against Mr. Cox. Mr. Harding, according to the best of S. P.'s knowledge and belief, once ran for Governor against Hon. Judson Harmon, with results satisfactory to Hon. Harmon. If S. P. is mistaken in this, his error undoubtedly will be pointed

out to him. Every mistake he makes (and who of us is perfect?) comes back to him either red hot or in cold disdain. As to the church of their preference, Mr. Harding is listed as a Baptist, but as he is said to be a golf player, his standing in the church may have become impaired since he took up that habit, so temptations of profanity. Mr. Cox's church has not been named in any biography State Press has encountered. But at fourteen years of age he was sexton in a church of the United Brethren, at Jacksonburg, Ohio. Whether he belonged to that church or was merely a mercenary attaché is not quite clear, but as his salary was 35c a week, there is ground for the suspicion that he was concerned mostly for the money. A little later he became janitor at the district schoolhouse at 25c a week, making a total of 60c weekly for his two positions. Even at that tender age he was inclined toward what our socialistic friends call capitalism, and we find him, at fifteen years of age, giving up his two active jobs and accepting employment as printer's devil at \$2 a week—publishers then, as now, always trying to outbid everybody else in hiring good men. While Mr. Cox, or Jim, if we may be permitted such a familiarity, was pulling down his two dollars each and every week as printer's devil, Warren G. Harding, or Hardy, as we like to call him, was a complete compositor, earning around \$40 a month and patronizing a mail-order laundry. Mr. Harding is five years older than Mr. Cox, and had that much start of him in the race for the White House. When both were printers, neither knew the other was a candidate for President, therefore they concealed nothing from each other. At least, both have agreed to bar personalities in the campaign. The country will not be ruined in the event that either of these Ohioans is elected, as one of them certainly will be. Mr. Cox is the Democratic nominee, and although he was not S. P.'s choice, the latter is now for him as strong as horse liniment.

Meet me at Ferguson Bros.

For a Greater Foard County

There never was an organization that could succeed as well without as it could with the enlistment and co-operation of those whom it proposes to benefit. These make up its life. These constitute its power and efficiency for the benefit of the community. That is why the Chamber of Commerce wants you as a member.

The development of our country has only commenced. Its resources are limitless, and therefore our opportunities are boundless. The chamber of commerce is a means to an end, and that end is that our county may take its proper place in the ranks of modern progress. Foard County by rights belongs there. With your membership and means, your mind and might, she can acquire and maintain her rightful place.

Don't Be a Leaner, Be a Lifter

The Foard County Chamber of Commerce

MANY WOMEN USE

GLYCERINE MIXTURE
Crowell women will be surprised at the INSTANT pleasant action of simple glycerine, buckhorn bark, etc., as mixed in Adler-i-ka. One spoonful relieves ANY CASE gas on stomach or sour stomach. Because Adler-i-ka acts on BOTH upper and lower bowel it often cures constipation and prevents appendicitis. One lady reports herself CURED of a bad case of bowel trouble and constipation.
V2 FERGESON BROS., Druggists.

You can do no more progressive, patriotic thing than to carry out your building plans now.

Building is conservation, it gives employment, it is profitable to you.

We offer you patriotic, conservation values on all lumber and building materials.

BIGGEST MILLET EVER

We have often said that Foard County never half does anything. As a proof of this statement we have this to say about some millet which J. A. White brought to town Wednesday. This was volunteer millet and the sample was not out of a crop, but it beats anything we ever saw of this kind of feed. Nearly all the heads were unusually large, but the biggest

one measured 7 inches in length and around the largest portion of its body it measured 6 inches. A bundle will be given to the secretary of the Chamber of Commerce for an exhibit at the State Fair.

Strayed—A sorrel filly about 4 years old, owned by John Fowler, no brands, will weigh about 500 lbs. Notify A. P. Barry.

RECKONING AGE BY YEARS IS A GRIEVOUS ERROR

When the world "wears out on one," when even the changes of the seasons lose their charm, when some other possible world begins to look better than this splendid one, when the grave becomes attractive for "rest and peace," then it is time to make a radical change in one's habits of living. The old life has gone stale. A complete and radical change is the prescription of wisdom.

That such a change is not only possible, but rather common, is shown in a thousand biographies of well-known men. Adam Ferguson, historian of Rome and a professor of philosophy, broke down at fifty. The physicians called it paralysis, but it was really incorrect living. The paralysis cleared away somewhat, but it had done its work. It taught the professor of philosophy how to use a little of his philosophy in his daily living. He abandoned the use of all stimulants. He became a strict vegetarian. He became an advocate of simple living and he cultivated cheerfulness.

Dr. Ferguson did great and notable literary work after this and lived to celebrate his ninety-third birthday. His biography says, "At no time in his life was he more graceful and entertaining than when he entered the nineties."

Dr. L. L. Nasher in the People's Magazine tells how he made himself over from an old man into a young man by similar radical changes in his modes of life and thought. He says: "In one year the change in my appearance and actions and feelings was so complete that persons who had not seen me since the earlier days, when I was aged, did not recognize me."

The doctor boldly advocates the outward as well as the inner means of youthful grace. He writes:

"There is not a single one of the objective manifestations of senility, those that give the appearance of old age, which can not be removed, suppressed, or hidden, or at least a youthful substitute found for it. To restore the spirit and buoyancy of youth

It's dollars to doughnuts—

no man ever smoked a better cigarette at any price!

CAMELS quality, and their expert blend of choice Turkish and choice Domestic tobaccos hand you a cigarette that will satisfy every smoke desire you ever expressed. You will prefer this Camel blend to either kind smoked straight!

Camels mellow-mildness will certainly appeal to you. The "body" is all there, and that smoothness! It's a delight!

Go the limit with Camels! They will not tire your taste. And, they leave no unpleasant cigarette aftertaste nor unpleasant cigarette odor!

Just compare Camels with any cigarette in the world at any price!

Camels are sold everywhere in scientifically sealed packages of 20 cigarettes for 20 cents, or ten packages (200 cigarettes) in a glassine paper-covered carton. We strongly recommend this carton for the home or office supply or when you travel.

BUSINESS OF POSTOFFICE SHOWS BIG INCREASE

Figures submitted by Postmaster Leo Spencer as to the business of the office for the fiscal year ending June 30, 1919 and 1920 shows an increase of more than 50 per cent for the last year.

Number of registered packages and letters are 1515 this year as against 1068 last year; Insured, 1544 as against 963; C. O. D. packages, 328 as against 78; Money orders 6376 as against 3355. Stock sales show an increase of only 10 per cent, but this is because of the fact that the one and

two cent postage rates have been in effect this year.

NOTICE TO REPUBLICANS

All Republicans are requested to meet in Crowell on July 31, for the purpose of electing delegates to the State Convention, which meets August 9th and 10th, to put out a state ticket. Let every Republican take notice and be present if possible.

J. E. BELL, Chairman.

A coal shortage which will seriously hamper industry is foreseen by the Federal Reserve Board in a recent review of business, industrial, and financial conditions.

Mattress Renovating

New 45lb. Mattress \$14.00. Large assortment Fancy Art and plain ticking to select from. Feather beds made into feather folding mattresses. Farmers, have that bolly cotton made into mattresses. Our truck will call for and deliver anywhere in ten miles of Crowell. Phone your order to the News office.

INSURANCE

Fire, Tornado, Hail, Etc.

Mrs. A. E. McLaughlin

50% More Mileage

In Boston, Green & Swett Co. watched the Miller records on some hundreds of large cars. They found that Millers increased the former tire mileage from 50% to 75%. They eliminated blow-out troubles. And only six tires in each 1,000 proved disappointing to the users.

\$1,000 Daily To Reduce Your Tire Cost

The Miller Tire mileage, now discussed everywhere, is not an accident.

Over \$1,000 daily is spent in tests and inspections. Fifty inspectors guard against defects.

Every lot of tread stock is first vulcanized and tested in the laboratory.

Over 1,000 tires yearly are worn out in factory mileage tests.

Every tire is signed by maker and inspector, and both are penalized if a tire falls down.

Highly-paid experts spend their years in making betterments.

Mark the results

The Miller Tire is now talked everywhere. It is today's sensation.

It is winning countless contests where a score of makes are brought into comparison.

In the factory tests—radical rear-wheel

tests—Miller cords last year averaged 15,000 miles.

The new Miller treads, in these tests, outwear the best of others by 25%.

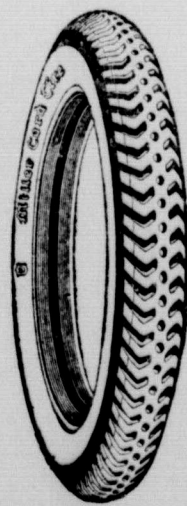

Defective Miller Tires are a rarity. Some large Miller dealers last year had not a single adjustment.

If you don't know these new-day tires you should find them out. They are saving millions of dollars to motorists.

Get one and watch it. It will give you new conceptions of a modern tire.

Tread Patented

Center Tread smooth with suction cup, for firm hold on wet asphalt. Geared-to-the-Road side treads mesh like cogs in dirt.

SOUTH IS TURNING AGAINST CALOMEL

Mr. Dodson, the "Liver Tone" Man, Responsible for Change for the Better

Every druggist in town has noticed a great falling off in the sale of calomel. They all give the same reason. Dodson's Liver Tone is taking its place.

"Calomel is dangerous and people know it," Dodson's Liver Tone is personally guaranteed by every druggist who sells it. A large bottle doesn't cost very much but if it fails to give easy relief in every case of liver sluggishness and constipation, just ask for your money back.

Dodson's Liver Tone is a pleasant-tasting, purely vegetable remedy, harmless to both children and adults. Take a spoonful at night and wake up feeling fine; no biliousness, sick headache, acid stomach or constipated bowels. It doesn't gripe or cause inconvenience all the next day like violent calomel. Take a dose of calomel today and tomorrow you will feel weak, sick and nauseated. Don't lose a day.

TRESPASS NOTICE

All parties are warned not to fish or haul wood on the Worsham & Johnson ranch.—Worsham & Johnson. 6p

FERGESON FARM IS MAKING BIG YIELD

T. M. Fergeson, druggist, is not worrying about reserve bank credit restrictions or the high cost of living these days. He has just received word from his farm south of Crowell to the effect that the yield will be from 36 to 40 bushels of wheat to the acre and from 75 to 100 bushels of oats to the acre.

In view of the fact that there are 350 acres of wheat and 100 acres of oats, the full significance of the message received by Mr. Fergeson becomes evident. The farm has about 400 acres in cultivation and has been a very profitable investment for Mr. Fergeson, who bought it years ago, when the land was cheap.

The farm yielded a clear profit of \$13,000 in 1919.—Vernon Record.

For Sale—Two 12-20 HP "Cletrac" tractors, 8 track, gasoline driven, practically new, immediate shipment. \$1,000.00 each, f. o. b. Houston.—Crown Oil Refining Company, Purchasing Department, Houston, Tex. 3

Mrs. Tom Baker has gone to Olustee, Okla., to visit relatives.

OUR SITUATION BECOMING CRITICAL

The horse may come back into use as he was once used. Certainly he will, or else some other means will have to be found to carry the traffic and travel growing to greater and greater proportions. The United States has not in sight enough oil to last long at its present rate of consumption and when it must be imported the expense will almost make it prohibitive. It may be that joy riding will have to be restricted. There is a great waste of gasoline and in order to lengthen out the world's supply for essential commercial purposes, users will have to commence to save gasoline. That is what Davis White, chief geologist of the United States Geological Survey, thinks. It might be well to hear what he has to say relative to this, so we are here reproducing some quotations from him:

Washington, July 11.—The growing American consumption of petroleum might constitute one of the greatest menaces to the future prosperity of the United States and to its later equality of competition with the rest of the world, David White, chief geologist of the United States Geological Survey, declared today.

"The oil situation confronting the United States is genuinely critical and demands the most sober thought and wise but prompt action," said Mr. White. "It is time to call a halt, and inquire whether we are drifting and where we shall end?"

White considers 7,000,000,000 barrels as a moderate, but not liberal, estimate of the oil still in the ground in the United States. Production is closely approaching 4,000,000,000 barrels annually.

Recoverable oil in this country, according to conservative estimates, would probably be practically exhausted in seventeen years if the 1919 rate of production was maintained, Mr. White said. A reserve of 7,000,000,000 barrels, considered a moderately liberal estimate, would disappear in eighteen and a half years, it is figured.

Mr. White estimated that by 1925 the requirements on the petroleum industry in this country will approximate 650,000,000 barrels a year, an increase of over 220,000,000 barrels over the requirements of 1918.

Will Soon Be Importing

"A drain of over one-half million barrels, even if the annual demand be not further increased, would, if taken from the oil fields of the United States, probably exhaust the oil resources remaining available in the ground in fourteen years, or in sixteen years, if we assume that our recoverable oil amounts to so much as 8,000,000,000 barrels, which seems improbable," said Mr. White. "It is fortunate for the country that oil can not be so rapidly extracted."

"It also seems quite improbable that an annual production of natural petroleum amounting to so much as 450,000,000 can be taken in any year from our oil fields. The peak of the production from which is likely to be passed by 1925.

"We must expect, therefore, that unless our consumption is checked, we shall by 1925 be dependent on foreign oil fields to the extent of 150,000,000 barrels and possibly as much as 200,000,000 of crude oil each year, except in so far as the situation may be by that time, perhaps, helped to a slight extent by shale oil.

"Add to this probability the other greater probability that within five years, or perhaps three, our domestic production will begin to fall off with increasing rapidity, due to the exhaustion of our reserves, and it becomes evident that except for such relief as may come from shale oil production, America's future in oil will yearly become more and more dependent on supplies to be brought from foreign fields. This we can not evade and must prepare for."

Mr. White said that prevention of waste, restriction of employment and greater efficiency in use and recovery of oil would give great assistance, but all combined would not meet the situation nor solve the problem.

Should Cut Down Use

"The United States must either assure itself of sufficient oil for the future, or it must change its habits and cut down its use of oil," he said. The present outlook makes it practically certain that after a time the United States will be buying oil from commercial rivals in quantities greater than it ever sold to them, Mr. White said.

"While this may be inevitable, it should be postponed as long as possible," he added. "If we are to have these oils as cheaply as they are sold in the home countries, if our industries, our transportation, our navy and our standards of living are to be safeguarded in advantages as great as those of our rivals, and if our mer-

HORSE BADLY CUT BY FALL

Specialist's Prescription Prevents Complication

In telling of the accident to his horse, Mr. Luther Carmen of Valley Park, Mo., stated: "My horse fell down and cut his knees all up. I dressed them with Dr. LeGear's Antiseptic Healing Powder and they are healing fine. It is a wonderful remedy for healing sores on horses."

Mr. Carmen is simply voicing the sentiments of hundreds of others who feel that having Dr. LeGear's personal prescriptions on hand at all times is nearly as good as having Dr. LeGear where they could reach him in a few minutes.

Wounds and sores must be taken care of immediately. Get a can of Dr. LeGear's Antiseptic Healing Powder from your dealer. Dust on enough of it to cover the wound sore. It forms a protection against insects and infection and healthy healing.—Dr. LeGear, Med. Co., St. Louis.

Mrs. W. A. C. Abilene, Tex., writes: "C. T. Herring, up ill but is recovered."
