FARMERS WANT TO REVIVE TRADES DAY

Some of the people, especially farmers, have called attention of the news to the fact that the revival of Trades Day in Crowell would be a good thing for all our industrial interests and have asked us to boost the proposition.

A study of the history of Trades Day in Crowell, we think, will reveal the fact that like nearly everything else it has had its ups and downs. It is now having one of its downs. But by a little effort it has always been brought back again. And the further it has come and gone, its coming has always proved a help in stimulating business activities in our county.

That is the way our friends feel about it or else they would not ask us to boost Trades Day again.

In boosting the proposition we have nearly always called attention to the fact that most towns of any size in the country have a day set apart in each month which they call Trades Day, or something of the kind, and that they have evidently found it to be profitable, else they would abandon it. Not because they have such a day do we advocate it, but because we have ourselves found it profitable. Therefore we gladly boost it for the good it does.

First Monday is a very suitable day for the farmers and everybody to be in town, and that has been the way on which they have heretofore done so it is suggested that First Monday be continued as Trades Day.

In compliance with the request of a number of farmers, therefore, we now and now announce that Monday, January 2, will be the beginning of a revival of the old-time custom of the farmers coming to town with a sense of a social event for the promotion of the county's internal commercial interests.

Everybody remembers when the farmers used to bring their stock to town and spend the day trading among themselves. They found it extremely profitable. In that way they secured a great deal about the stock markets. And it was not confined to that, but included anything and everything that one might have to sell or exchange. It stimulated commercial interests generally and all were profited by it.

By all means we would say let us revive Trades Day and then keep it going.

T. L. HUGHSTON BUILDING 30x60 FOOT WAREHOUSE

T. L. Hughston has under construction a 30x60 foot warehouse to facilitate the handling of sacked grain. It is being built along the railroad track south of his elevator and when completed will hold from 6 to 8 cars of sacked grain.

The foundation is bois d'arc blocks set in concrete and is high enough to make the floor of the house on a level with the car floor.

Mr. Hughston intends to make other improvements as they are needed.

FOR COMMISSIONER PRECINCT 1

C. D. Stephenson wishes us to announce that he is a candidate for County Commissioner, Precinct No. 1, and will appreciate your support at the coming election. Mr. Stephenson is spending the winter in Ohio, but will come back to Foard County in the spring.

NOTICE TO FARMERS

The News has been requested to advise the farmers who have cotton in the yard at Crowell to turn their bales over so as to prevent damage by moisture. There has been so much wet weather that it is said that this cotton is liable to considerable damage, which will interfere with its sale.

WILL GAMBLE KILLS BIG HOG

Will Gamble recently killed a full blood Big Bone Poland China hog that weighed 461 pounds. From this hog he made twenty gallons of lard.

Mrs. A. H. Clark left Wednesday for her home in Oklahoma City after a month's visit with her mother, Mrs. Annie Thacker, and many friends here. She stopped over in Quanah and left Wednesday night with Mr. and Mrs. J. H. Cope.

Mr. Perry Bowers and Miss Estelle Boyd were married Tuesday at 2 o'clock at the Methodist parsonage by Bro. Hamblen. They took the north bound train for Royse City where they will make their home. Mrs. Bowers is the daughter of Mr. and Mrs. Chas. Boyd.

WITH OUR READERS

G. D. Owens writes us from Southland, Texas, and says he wants his paper changed from Post to Southland. He says he has not received his Foard County News for four weeks. He says they have a 60-mile rural route and that they do not get their mail on account of the bad condition of the roads. They have had all kinds of bad weather, including snow and rain.

J. W. Bruce writes from Lampport, Colo., enclosing a check for another year's subscription to the News, and says, "I can't get along very well without the News. It's like getting a letter from all my old friends when it comes." He adds that there was a big snow on the ground at the time of writing but that it was rapidly disappearing. As to stock conditions he says, "We have had a nice winter and stock are doing fine. Haven't had to feed any." He says they had good crops last year.

Mrs. T. S. Murphy sends in a renewal from Margaret.

Miss Emily Purcell always remembers the time on her paper and is prompt to renew, for which our thanks are gratefully extended.

J. W. Owens gives the News a lift by placing his subscription far in advance. Mrs. Owens is living in town so that their children may have the benefit of the school, and therefore has the paper changed to Crowell.

Miss Vera Waldrop has her paper changed from Brownwood to 4609 Victor St., Dallas. She has a position with the Security National Bank of that city.

J. E. Shannon of Thalia still reads the News, having favored us with a year's renewal.

Joseph Drabek wants the News to come along for another year. Mr. Drabek has recently bought the R. M. Pyle place near town, known as the Judge Cole place.

Ray Banks of Royse City sends in his check for the News for a year. A number of the Royse City people are interested in Foard County and want the News. Quite a number of them have bought land in the county and so far as we have learned they are well pleased with their purchases. They ought to be, for they have bought bargains. Can't beat Foard County in the State.

Jesse Whitfield started the News last week to his uncle, M. J. Whitfield, Beckville, Texas.

While he was here from Guthrie last week visiting his mother, J. F. Witherspoon renewed for the News. L. P. Jones of Foard City still wants the News and sends us a check to cover a year's subscription.

A. Brian orders the News sent to his daughter, Miss Jode, who is at Austin attending the State University.

C. C. Wisdom of Thalia made the News boys feel good the other day when he came in and spent \$6.00 for subscription to the News. One for himself and his father, W. M. of Thalia, one for his brother, W. W., at Valley View, and one for his father-in-law, S. R. Porter, Gainesville, Texas. The Wisdoms are a big hearted, whole-souled, enterprising family of people, and if Foard was 100 per cent like them this country would bloom like a spring rose. The only reason A. B. Wisdom, brother to C. C., did not pay that six dollars was because his brother beat him to it, but he renewed his own.

J. L. Ownbey, Claude Nichols, B. Johnson and J. L. Short remembered the News with yearly subscriptions Thursday of last week. Each has been a reader for many years.

C. W. Collins was up from Burk Burnett Friday and renewed his paper. He says he is making good money in the oil field and is reasonably well contented.

Mrs. Robert Cole sends the News for six months to her daughter, Mrs. D. R. Vandersall, Fort Worth.

T. D. Edwards of Margaret and W. Jeff Fleming of route 2 renewed Saturday for the News. Mr. Fleming made a selection with us for his year's reading, including the Pathfinder, Capper's Weekly and the Dallas News.

C. D. Stephenson who is wintering in Ohio, wants the News to come right along while he is there. He will return to Foard County in the spring.

Mrs. Laura Ross was among the number to renew Saturday.

W. F. Draper renews for the News and the Dallas News for another year.

L. R. Morgan of route 2 came in Saturday and had his name placed on our list as a new reader.

W. T. Razor once said when he failed to get the News sleep went from his eyes. He has reached an age where he can not afford to lose

WOMEN ARE PAYING THEIR POLL TAXES

For the last two or three weeks the women of Foard County have shown that they want the privilege of voting in the next election. In our last report there were less than half a hundred who had qualified to vote, but at the present time the number is around the hundred mark. An examination of the record at the sheriff's office Tuesday showed 91 to have paid their polls and there were two exemptions. It is safe to say at this time, Thursday, one hundred or more have paid.

Sheriff Bomar says many of them told him while he was out collecting taxes this week that they wanted to pay their polls, but it had been such bad weather they could not come to town.

Up to the present time about 60 per cent of the men in the county have paid polls. The number, to be exact, on Tuesday was 390, with 15 exemptions, which brought the total to 405.

These are given by precincts as follows:

Black	13
Good Creek	7
Vivian	19
Rayland	28
Thalia	48
Foard City	47
Margaret	64
Crowell	164

In this connection it might be well to call attention to the fact that only 8 more days remain in which you may pay your poll and qualify to vote, and figuring that there are about 1200 men and women in the county who would be eligible to vote provided they pay their polls, one can readily see that there will have to be some tax paying within the next 8 days if all avail themselves of this privilege.

There are many reasons why you should qualify to vote. The first and most important one is that you may maintain your citizenship. But if there were no other than that the poll tax money goes to help maintain the public schools, that itself should induce every one to pay.

As we go to press with the last run the report is that "Uncle" Joe Johnson is in a very serious condition with pneumonia. The outcome is uncertain. Mrs. J. G. Witherspoon, who has also been suffering from an attack of pneumonia, is said to be improving.

sleep, so he makes sure that if he fails to get his paper for another year somebody else shall be responsible for it.

Rev. Ed. Tharp of Margaret is staying with the Margaret church for another year, and also will stay on our list as a regular reader.

Besides renewing for himself, W. B. Jones sends the News to his son, Garret Jones, who is at Abilene taking a business course in Draughon's Business College.

Mr. and Mrs. G. A. Burks of Los Angeles still want to hear from Foard County and therefore renew for the News.

Ellis Gafford was up from Sulphur Springs this week. He gets the News himself and so does his father, T. M. But he said they enjoyed the paper so much that he wanted to make sure they did not lose an issue, so he renewed for T. M. He said they were comfortably situated and were very well contented, but sometimes they expressed a desire to see this country again.

E. S. Flesher came in Wednesday and subscribed for the News. He was on his way to Amistad where he has bought two sections of land and will locate and go into the cattle business.

C. T. Wisdom of route 3, S. I. Shultz of Levy, N. M., and G. A. Burks of Los Angeles were among those renewing for the paper this week.

Renewals for the News Monday were, Allan Sanders, F. B. Flesher, S. E. Seales, R. M. Pyle, W. B. Jones. Mrs. J. W. Harris of route 2 becomes a new reader with this issue.

J. J. Brown came in the first of the week and ordered the paper sent to his son, Travis, who had sent a new \$1 bill for 8 months sub. Travis is at Gainesville holding his old job with the railroad as operator. Travis is doing well. Mr. Brown also stated that his brother, J. M. Brown who is visiting in Tennessee had got the News and said it was like a letter from home.

J. L. Ownbey had the News sent to W. M. Galloway at Blanchard, Okla. Mr. Galloway is an old friend of Ownbey's, having come from North Georgia, and whom he visited during Christmas week.

GOVERNMENT GOODS ARE HEARD FROM

GOV. GROCERIES SHIPPED
Bill of Lading and invoice of the car of Government groceries bought for Crowell some weeks ago have reached the committee and they are expecting the groceries to arrive at any time.

The car is composed of the following items and amounts: 1200 cans sweet corn, 120 cans green peas, 288 cans corned beef, 960 baked beans, 6 pairs rubber boots, 100 pairs jersey knit gloves, 42 pairs overalls, 1440 cakes hand soap, 500 cakes toilet soap, 5016 cans tomatoes, 480 cans baked beans No. 3, 1296 cans P. A. tobacco.

A duplicate order was sent in a few days after the above car was ordered and it is expected that it will also be shipped. The matter of distribution will be worked out by the committee so that no one will be allowed to buy and hoard this stuff, so they will likely limit buying to a certain amount. This of course will have to be done in order to protect those whose means may be limited. But if any one does not get what he expected to get out of this car he will have a chance to buy more out of the next car.

INCREASES FARM

Foard County has many thrifty and enterprising farmers. Some of these came to this country with money and invested it and have made the investments very profitable. Others came with little or no money, and in such cases had to make as their first investment experience. But in most cases where experience was first invested, and where it was backed by good judgment and supported by thrift and economy success has been the rule, and it is from examples of this kind of citizens we may learn facts of greatest importance relative to one's possibilities in this country. Occasionally one of these thrifty fellows will break loose and give us an interesting sketch of his career and we can not always refrain from making a note of it for the benefit of our foreign readers.

U. C. Rader did not intend for us to note for publication what he was saying the other day when he told us that he was just closing a deal for one hundred acres of land just across the road from his 200-acre farm. Of course, buying a hundred acres of land in Foard County is a frequent occurrence, but the 300 acres which Mr. Rader has bought and paid for within a very few years is more than a common one. He said, "When I left Williamson County and came to Foard County in 1911 without anything the folks down there said I would soon be back, but I am still here and I have bought and paid for that land and don't owe a cent on it." He has done this by farming. That 300 acres of land lies in one of the best sections of the county and is worth today \$15,000.

The story is a simple one. Mr. Rader worked hard, as he would have done anywhere, used good judgment and saved his money. Another thing is that he has always made most of his supplies at home. Speaking of hog raising, he said, "I usually make my own meat, but on account of the shortage of feed in 1918 I had to buy more meat than I ever bought in one year, but during the season years I can make it all back and then some."

LAST LYCEUM NUMBER

The Columbia Sextette, composed of six young ladies, the last number of the Lyceum course, was greeted by a large audience at the opera house Tuesday evening.

These young ladies were all artists and the entertainment was pronounced by some to be the best of the course.

WOMANLESS WEDDING

A large crowd attended the Womanless Wedding at the opera house last Friday night. This entertainment was given under the auspices of the Woman's Missionary Society and Junior League, the net proceeds which amounted to something like \$200 is to be applied to the new Methodist church fund.

FOR SHERIFF

We call attention of our readers to the announcement column in this week's issue in which a new name appears, that of E. P. Bomar for reelection to the office of Sheriff and Tax Collector. Mr. Bomar is serving his first term and asks to be elected for a second term.

CROWELL SCHOOL NEWS

The sentiment for a Parent-Teacher Association in Crowell is growing. On last Tuesday, as had been announced, the first meeting of the parents and teachers was held at the school building. Owing to the inclemency of the weather not enough were present to perfect an organization but much interest and enthusiasm were manifested by those who were present. There can be no question as to the need of such an organization in every school district, whether it be rural, village, or city school. Since the homes and the school share in the training of the child, they should certainly co-operate in that training; they cannot afford to work at cross-purposes, nor to regard one another with indifference. Parents and teachers must get together and in a spirit of intelligent sympathy co-operate toward a common end.

The ultimate purpose of a Parent-Teacher Association is, of course, the welfare and successful training of the children of the school. But the more immediate purpose is the creating of a means or vehicle by which the community can come into constructive relationship with the school in practical ways, and by hearty and sincere co-operation with teachers and school boards provide means and stimulus for the greater effectiveness of the school plant. Moreover, the Parent-Teacher Association is, in a sense, a clearing-house of information between parents and teachers. It enlightens the parents as to the needs of the school; the difficulties the teacher has to confront; and the kind of surroundings in which the child spends his school life. On the other hand, it enables the teacher to come into a more helpful and sympathetic attitude toward her individual pupils through contact with their parents.

The Parent-Teacher Association is not an exclusive club, used to further the social ambitions of a few leaders. The schools are for all the children of all people, and the Parent-Teacher Association is for all the parents and friends of all the children and youth in the community. It is, therefore, the organization above all others that touches impartially every home; for it invites into its membership not only parents but everyone interested in children and youth.

If you are interested in the welfare of the school you are urged to be present at the meeting on next Tuesday at the school building. Anon.

TAXES AND SCHOOLS

If plans materialize, now being considered by the educators and authorities of Texas, perhaps we shall some day have a just equalization of taxes for the maintenance of our public schools. It has become necessary for some steps to be taken along this line in order that we may have any public schools. Where it has been possible tax dodgers have made it out of the question to raise adequate funds for school purposes, a fact which is largely responsible for the dwindling of the number of teachers. Tax limits have been voted but valuations have been held down and the only thing to be done has been for patrons to go down in their pockets for tuition. This they have done rather than allow their children to drop out of school. It has been the practice in our own city for several years.

But it is an encouraging fact to note that plans are being studied by the school authorities of the State looking to better and more just condition of things.

In addition to financial relief to be somewhat supplied from income tax sources, State Tax Commissioner James A. King, has drawn three important tax bills and is writing a new brief dealing with taxation and asking the Legislature to enact bills prepared in his department.

Relative to this matter a paragraph in the Dallas News of Sunday from an Austin dispatch says:

"Mr. King is finishing an elaborate bill creating a State Board of Equalization in line with recommendations of the State Tax Assessors' Association. This measure, Mr. King says, will equalize taxes over Texas. He insists that they are wholly unequal, and that even in adjoining counties the same measure of assessment does not apply. This works hardship and injustice to thousands of citizens, he declares, whereas a State Board of Equalization would make tax burdens equal and uniform in every county in Texas."

We do not understand that this is to effect only the rural schools. It is wider in its scope than that for in the first paragraph of the article the statement is made that a special session of the Legislature is believed

HAIR TONIC KILLS 4 AT MEMPHIS, TEXAS

Childress, Jan. 21.—Four men are dead at Memphis, thirty miles west of here, and six others are recovering from the effects of drinking hair tonic believed to have contained wood alcohol.

The dead are:
Dee Henderson, R. C. Anderson, Ed Denson and a man named Britt.

The men drank the tonic, which was supposed to have contained grain alcohol, Monday night. Anderson was a prominent ranchman of Hall and Childress counties; Henderson was a prosperous property owner and the others were farmers. The men died shortly after drinking the tonic, according to information received here today.

TO FIGHT BOLSHIEVISM

Japan has announced her intention of opposing the advance of Bolshevism into eastern Siberia, which would menace the island empire through Korea, Mongolia and Manchuria.

Premier Kel Hara, in an interview, stated that "while Japan hopes to harmonize her military action in Siberia with that of America and to square it with the general anti-Bolshevist policy, under no circumstances can she permit the Red influence, as long as it remains dangerous, to touch her borders."

The premier also denied any territorial ambitions, saying solemnly "Japan has absolutely no territorial ambitions in Siberia, will not take a single square foot of territory, and the minute the Red menace is settled she will withdraw every soldier."

FARMERS URGED TO RAISE POULTRY

An average person has very little conception of the aggregate value of the poultry products of the United States. In order to give our readers some idea of its enormity we are here reproducing an article in Sunday's Star-Telegram prepared by the West Texas Chamber of Commerce. It is worth reading. Here it is:

Sweetwater, Texas, Jan. 17.—The production of poultry in the United States leads every farm product except corn, according to figures compiled by the West Texas Chamber of Commerce. It means that the value of the poultry of the nation surpasses that of cotton, the South's greatest crop. It exceeds the livestock and wheat business of the nation.

In 1916-17 West Texas shipped hundreds of cars monthly to the large packing interests. It was a very inconspicuous town which did not contribute to the plethora of eggs and poultry which helped feed the American people. During the depression of 1918 the poultry industry in West Texas took a most abject slump, from which it has not yet recuperated. Eggs at 15 and 25 cents a dozen during 1916 and 1917 have reached 50 to 80 cents a dozen in many parts of the West, and the supply is not up to the demand.

The campaign now being put on by the West Texas Chamber of Commerce in every part of West Texas, co-operating with the Department of Agriculture, home economics department, is expected to recover to West Texas the great industry and make chickens and eggs take care of the expense of the farm and urban home.

OWNING THE RAILROADS

No one will deny the statement of Mr. Gompers that the period of government operation of the railroads has not resulted in a "fair opportunity during wartime or since." But whatever one's opinion may be on the question of government ownership there is little disputing the fact that government operation has been an expensive luxury. In November the roads cost the government \$64,500,000, a low record for the year. For the twenty-three months of government operation the people will pay \$548,000,000.

Still, we may be kindly informed that this has nothing to do with "Independent" districts.

As Dead as the Dodo

Every druggist in town—your druggist and everybody's druggist has noticed a great falling off in the sale of calomel. They all give the same reason. Dodson's Liver Tone is taking its place.

"Calomel is dangerous and people know it, while Dodson's Liver Tone is perfectly safe and gives better results," said a prominent local druggist.

Take "Dodson's Liver Tone" Instead!

Dodson's Liver Tone is personally guaranteed by every druggist who sells it. A large bottle costs but a few cents, and if it fails to give easy relief in every case of liver sluggishness and constipation, you have only to ask for your money back.

Dodson's Liver Tone is a pleasant-tasting, purely vegetable remedy, harmless to both children and adults.

Take a spoonful at night and wake up feeling fine; no biliousness, sick headache, acid stomach or constipated bowels. It doesn't gripe or cause inconvenience all the next day like violent calomel. Take a dose of calomel today and tomorrow you will feel weak, sick and nauseated. Don't lose a day's work! Take Dodson's Liver Tone instead and feel fine, full of vigor and ambition.

DIVORCES BEING CONDEMNED

One of the leading churchmen of the country says "one of the great evils of our day is divorce, a cancer eating into the very vitals of our national life." This is all true, but nevertheless a thing that can be cured only when its causes are corrected. Marriage for love is the American ideal, but when love vanishes few reasons exist for the continuation of an unhappy estate. If Americans would decrease the divorce evil let them teach the doctrine of love to the younger folk. Let the double standard get its just denunciation and let young men and young women learn how wonderful and how holy, is love. Then divorces would decrease.

MARGARET MUSINGS

(By Special Correspondent)
We have had a week of delightful weather although it has been very muddy under foot.

We saw a dark cloud yesterday in the north and we predicted a storm, but it proved to be a car of colored jints coming to pick cotton.

Mrs. Myrtle Taylor rode the goat last Saturday night. It failed to buck her off, but she was so badly shaken that Dr. Clark was called and she has not yet recovered. Some people will hold onto a good thing if it kills them.

We succeeded in getting a car of coal after it had laid over twenty days at Clinton, Okla. It was distributed in three hours among the needy people. This is the second car that has been held at that place twenty days while the people froze. Government control is a wonderful advantage to railroads but not good for the people.

Our tax collector was held up right in the middle of the road and a bunch of ladies demanded their tax receipts. Of course he accommodated them, for he is a candidate. We were in hopes that this box would go Republican but our hopes were shattered when we heard these ladies express themselves.

The "flu" has again broken out in this vicinity and our new doctor has not arrived, and it is impossible to get any of the right kind of medicine. In the absence of good whiskey the people are using wood alcohol and hair oil. Several of our young men have developed a fine growth of hair on the inside.

Our enumerator is busily engaged taking the names, ages, nationality and assets of the dear people. Each man, woman and child can get their family tree without expense by getting a copy of their rendition from the enumerator. It takes half a day to get through with one family. They are paid by the day now, so it pays to take all the time there is.

CONCRETE SIDEWALK TO DEPOT UNDER CONSIDERATION

At a meeting of the City Council this week the matter of building a concrete sidewalk to the depot was brought up for consideration, and without doubt this step will meet with the hearty endorsement of the citizens of Crowell. During the continued bad weather it has been almost impossible to get to the depot. At times the condition of the street leading to the depot made it impossible to reach the station by auto, when people coming into or leaving town had to, "hoof it" through the mud which makes an unfavorable impres-

sion of Crowell on the minds of the traveling public.

We are told that it is very probable that the sidewalk can be constructed in the early spring.

That is not all. Plans for grading the street and putting it in first class shape are also under consideration and it is thought that this can be done at an early date.

These are very urgent needs for the town of Crowell and we hope will become a realization in the near future.

Buy Beaver Board that is BEAVER BOARD

You want better walls and ceilings, in your new home, in present waste space, or to replace cracked plaster and dingy wallpaper.

So you ask for Beaver Board, the original wallboard, that has been building better walls and ceilings for a dozen years.

But do you know that inferior wallboards are often sold as Beaver Board? They may look like Beaver Board, feel like Beaver Board, and even claim to be as good as Beaver Board.

But they can't give Beaver Board results.—

Be sure to get what you ask for. The Beaver trademark on the back of every panel of genuine Beaver Board is there for your protection. Look for it.

ARE LOWER PRICES COMING

In England and America low reserve ratios, that is the total bank reserves to net deposits and liabilities, tell a story of straining credit. In this country there seems to be a rush to go ahead regardless of cost, just as we did during the war in order to win. Such an early assumption of financial obligations brings disaster unless it is checked.

The present exchange market practically closes the European market to all American manufactured goods. Raw material, of course, is indispensable, but foreign nations can not pay the present prices, plus a ruinous exchange rate. The slump in foreign demand for manufactured articles will lead to great accumulation of goods in this country, with resulting decrease in prices.

EDUCATIONAL SERVICE

For disabled soldiers, sailors and marines.

Funds are now provided for far reaching educational advantages for Texas ex-service men. This includes Free Scholarships, Reconstruction Lecture Courses and Occupational Guidance.

A State Committee of leading business and professional men will have charge of administering this fund in the state, and is making elaborate arrangements to insure this to be one of the greatest opportunities afforded our returned soldiers, sailors and marines.

Local Educational Service Committees will be appointed and the work extended throughout the state especially into communities where there is no local Young Men's Christian Association, and every possible ef-

THE UNIVERSAL CAR

Insist on Genuine Ford Parts

Imitation "Ford" parts are being sold by many mail-order houses, down-town stores and garages to unsuspecting Ford owners as "Ford" parts. But they are not Genuine Ford parts made by the Ford Motor Company. They are made by concerns who have no connection whatsoever with the Ford Motor Company. These imitation parts are not even made from the same grade of steel, or under the same formulas used by the Ford Company. They are counterfeit parts. Tests have shown them to break when the genuine Ford parts didn't even bend, and they generally are from thirty-five to one hundred per cent lower in quality.

The Authorized Ford Dealer is your protection. As such, we handle nothing but the Genuine Ford parts. They are made from the famous Ford Vanadium Steel and each part—according to its use—is heat-treated in the way that will give it the longest wearing qualities. Every part is the same as its duplicate in your Ford car or Ford truck.

Our stock of parts is complete. And our Ford garage and Ford mechanics are at your service at all times. Drive in when replacements or repairs for your Ford car may be necessary. Save your car and also your money.

MOTHERS OF TEXAS

Houston, Texas.—"I consider Dr. Pierce's Favorite Prescription a wonderful tonic for women. It has been of especial benefit to me during motherhood and I recommend it very highly to other young mothers."—MRS. WILLIE McNEELY, 2113 Common St.

Bensley, Texas.—"During expectancy I have always taken Dr. Pierce's Favorite Prescription as a tonic and strengthener, and in each case it has proved to be a wonderful comfort and help to me. I had practically no suffering and my babies have been strong and healthy. I believe Dr. Pierce's Favorite Prescription is the best medicine the young mother can take, and I never hesitate to recommend it to my friends."—MRS. IDA CHANCE.

San Antonio, Texas.—"Dr. Pierce's Favorite Prescription is an excellent medicine for women in a run-down and weakened condition or during and after expectancy to give them strength and keep them in a good healthy condition. I took 'Favorite Prescription' before my youngest child came and it kept me in a strong, healthy state and my suffering was much less than at my previous times. I also took it afterward and it did me all the good in the world. I have always thought well of Dr. Pierce's medicines and always recommend them."—MRS. S. LEE, 214 Reddle St.

Dr. Pierce's Favorite Prescription is a non-alcoholic remedy that any ailing woman can safely take because it is prepared from roots and herbs containing tonic properties of the most pronounced character.

It is not a secret remedy because its ingredients are printed on wrapper. Get Dr. Pierce's Favorite Prescription to-day, either in liquid or tablet form or send Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., 10c for large trial package.

PROMINENT MERCHANT FOUND LASTING RELIEF

In a South Carolina county-seat a prominent merchant suffered for years with eczema. Money was not a consideration if he could only be relieved from the terrible itching, burning, and irritation. He scratched his back at nights until it bled, but the soreness only became worse. He visited Western Springs, and consulted various physicians, but never found a permanent cure until a friend brought Zemerine to his notice. He tried this great treatment, and now sings its praises highly. Zemerine is a wonderful treatment for diseased skin, especially eczema, tetter, rash, itch, and similar disorders. It is sold upon the fairest basis imaginable—your money will be returned if it

doesn't help you after a fair trial. If you can't get Zemerine at your druggist send \$1 or 50 cents to the Zemerine Chemical Co., Orangeburg, and a jar will be sent you direct.

Dr. LeGear's Remedies

Those celebrated remedies are too well and favorably known for it to be necessary for us to tell you any more about them than that they embrace a wide range. They are more numerous than we can name in this small space, but this we have to say that if you have a horse, a cow, a hog, a chicken or any other animal or fowl raised on the farm or in town, you should know that they are at times in need of a tonic or a remedy of some kind. We offer the celebrated Dr. LeGear's Remedies as unsurpassed in effectiveness when it comes to building up and strengthening the life and constitution of your stock. These remedies have proven effective in fighting all the diseases known to animals, and beyond any doubt they stand at the top and merit the highest favor of any.

Your attention is called to display of Dr. LeGear's Remedies in our show window this week. See them and inquire about them.

Build a Barn to Fit Your Needs

The needs of one farm may not suit another. You have certain conditions to meet that are not found on any other place. The size and arrangement of your barn should be determined by your requirements.

Your aim is to build a barn that will comfortably house the live stock, hold the feed, machinery, etc., with economy. It is easy to put too much money into any building. The barn is no exception.

Our experience in selling materials for building barns and in helping farmers in many ways should be worth money to you. This is merely a part of our helpful, serviceable way of doing business. Why not come in and discuss your barn plans with us? You need not buy here—unless you feel it is to your advantage. Let us talk it over, anyway.

ZEKE BELL

Out of accumulated capital have arisen all the successes of industry and applied science, all the comforts and amenities of the modern life. Upon it the world must depend for the process of reconstruction in which all have to share.
—JAMES J. HILL

The Successful Farmer Raises Bigger Crops

and cuts down costs by investment in labor-saving machinery.

Good prices for the farmers' crops encourage new investment, more production and greater prosperity.

But the success of agriculture depends on the growth of railroads—the modern beasts of burden that haul the crops to the world's markets.

The railroads—like the farms—increase their output and cut down unit costs by the constant investment of new capital.

With fair prices for the work they do, the railroads are able to attract new capital for expanding their facilities.

Rates high enough to yield a fair return will insure railroad growth, and prevent costly traffic congestion, which invariably results in poorer service at higher cost.

National wealth can increase only as our railroads grow.

Poor railroad service is dear at any price. No growing country can long pay the price of inadequate transportation facilities.

SAVE YOUR DOLLARS TODAY

Dollars buy less today than in many years. If you want to get an old-time "dollar's worth" save your dollar. Sooner or later, and probably sooner, the world is going to get on its feet again, and prices will recede from the war level. When they come down use the dollar that you have saved. It will go further.

A man who is able to save money today will get more for it the longer he holds it. The world is suffering from inflation, an over-plus of credit. The value of money is based on its relative quantity in proportion to the things for which it is to be exchanged. During the war vast note issues have flooded the world with money, making it greatly exceed its former proportion. Then it became cheaper.

The war is over. Every nation is striving to cut down its obligations. Note issues have ceased. Payments on them are being made. The amount of money in circulation is being reduced. Every dollar that is withdrawn enhances the value of every remaining dollar. All that you save now and spend later, when the amount in circulation has been considerably reduced will be worth more. Sell when money is cheap and save; buy when money is dear—that is the road to prosperity.

SAVING AMERICAN FORESTS

It takes from sixty to a hundred years to grow a large saw log. It takes about fifteen minutes to cut it down. The answer is easy. Unless something is done to preserve the forests of the country it is only a matter of years before we will have practically no lumber, and the annual floods and waterflows will testify to the deforestation of the watersheds.

Today the United States is cutting two and a half times as much lumber as is grown. Through simple and national regulation it would be easy to maintain each year a balance, and thus maintain our great timber reserve. More than 100,000,000 acres of forest lands are lying idle, mere stretches of waste, when they should be growing wood to replace the trees that have been removed.

The United States is a great user of timber, our people using twice as much wood per capita as is the case in Europe. We have less than half as much productive forest in proportion to area. Europe practices forestry; we do not.

THE EXODUS OF TEACHERS

It is announced by Secretary Lane that 143,000 school teachers resigned during the past year to accept more lucrative positions. This is one-fourth of all the teachers in the country during 1914. To say that any business can lose one-fourth of its experienced leaders and remain in as high a state of efficiency is foolhardy.

At this time more than ever the children of this country must be correctly trained, and brought up to respect their country and the authority of the law. Various poisonous doctrines are in the air, and ill-paid teachers are not the best weapons to counteract obnoxious theories.

Public opinion must realize that better money must be paid all teachers in order that better teachers may be secured and held. A school which changes its whole personnel every few years can hardly be successful in the largest sense of the word.

UNCLE SAM AND THE FARMERS

The year through which we have just passed has been a prosperous one for the stockmen and the farmers but especially for the cotton farmer. A bountiful yield and the high prices received for cotton and other products of the farm will no doubt more than double the number of Income Tax payers among the farmers for the year 1919. It should be borne in mind by those who have never made an Income Tax Report, but who will be due a tax for 1919, that it is not necessary for the Government to notify you of your liability. The law places the duty squarely on you and you should inform yourself as to the requirements and comply with them. Ample time is allowed in which your Income Tax return may be legally filed—failure to file it on time renders you liable to severe penalties.

The Filing Date—Returns (or reports) for the calendar year 1919 may be filed at any time after Jan. 1, 1920, but not later than March 15, 1920.

Where Filed—They may be mailed to "A. S. Walker, Collector, Austin, Texas," or filed with a Deputy Collector if one is near you.

Income Tax Forms—Ask your banker for one—if he can't supply you, write to A. S. Walker, Collector, Austin, Texas, and ask for Form 1040-A if you made less than \$5,000 in 1919 and for Form 1040 if your income exceeded this sum.

Single Persons—Every single man and every single woman whose net income for 1919 was \$1000 or more must file a report. Remember that your board, lodging and other personal expenses are not deducted in figuring your net income.

Married Persons—Every married man whose income, including that of his wife, amounted to \$2000 or more must file a report. Don't forget that \$2000 net income will require you to file a report—the fact that you may have dependent children entitling you to an additional exemption does not relieve you of making a report.

Widows and Widowers—Unmarried persons, including widows and widowers, are required to file Income Tax Reports if their net income for the year amounts to as much as \$1000. You may have dependents that will give you an additional exemption but the law says that you must file a report if your income equals or exceeds \$1000.

Do It Now—Go through your bank book, cancelled checks, cotton tickets, store accounts and bills, and other records and figure up the amount of cash and other produce sold and other income received. Make a detailed list of the expenses you paid from Jan. 1, 1919, to Dec. 31, 1919. Then present your figures to the Deputy Collector nearest you—he is an employee of the Government and will assist you in making up your return without charge—that's his business.

ALL CHILDREN LOVE "SYRUP OF FIGS" FOR LIVER AND BOWELS

Give! When Feverish, Cross, Bilious, for Bad Breath or Sour Stomach

Look at the tongue, Mother! If coated, it's a sure sign that your little one's stomach, liver and bowels need a gentle, thorough cleansing at once.

Win peevish, cross, listless, pale, doest sleep, doesn't eat or act natural or is feverish, stomach sour, brea bad; has stomach-ache, sore throo diarrhoea, full of cold, give a teaspoonful of "California Syrup of Figs" and in a few hours all the foulconstipated waste, undigested food and sour bile gently moves out of little bowels without griping, and you have a well, playful child again!

You needn't coax sick children to tak this harmless "fruit laxative"; they love its delicious taste, and it always makes them feel splendid.

A your druggist for a bottle of "California Syrup of Figs," which has dirdons for babies, children of all ages and for grown-ups plainly on the bot. Beware of counterfeits sold her. To be sure you get the genuine ask see that it is made by "California Syrup Company." Refuse another kind with contempt. 55

Old Friends are True Friends

The man, who loves a dog and a pipe, has two staunch friends that never fail him in good luck or in bad. They give all and ask nothing in return. Day by day they become nearer and dearer to him. The man who has not a dog and a pipe has missed two of the greatest things this good old world can give.

Every man who loves his pipe should know Velvet, the one tobacco that brings out all of a pipe's best and sweetest qualities. Your pipe takes on an added friendliness from Velvet's choice Kentucky leaf aged in the wood to a mellowness that's rich and smooth as cream.

Your pipe takes on a mild sweetness that is Velvet's natural tobacco sweetness. And around you hovers the real tobacco fragrance that all good pipe smokers love.

Never did Velvet Joe say a wiser, truer thing than this:

"Folks say you can't buy friendship. You can buy a dog and a pipe and good old Velvet—and I reckon no man ever had three better friends."

Lightly by the way Tobacco Co.

There's a lot of pipe-loads in every big generous tin of Velvet, and every pipe-load is good tobacco at its best.

DIFFERENCE IN SERUM FOR DIPHtheria CURE AND THAT TO PREVENT IT

Austin, Texas.—The attention of the Texas Board of Health has been called to the confusion existing in the minds of the physicians and the general public as to the nature of the product causing the unusual reactions in Dallas and a few other localities in Texas. The general impression is that Diphtheria Antitoxin was responsible. This is not the case. The material used is known in medical practice as Diphtheria Toxin-Antitoxin Mixture. This mixture is administered for the purpose of protecting against an attack of diphtheria, while Diphtheria Antitoxin, an entirely different product, is administered to cure the patient after the disease has been contracted.

Regrettable as the occurrence has been, the results will be as nothing compared to what will obtain, unless the confusion is promptly corrected. If physicians refrain from using Diphtheria Antitoxin, and parents refuse to allow its use on the ground that it was responsible for the unusual reactions, such action will result in the sacrifice of many more lives and cause a great deal more suffering than occurred in the use of Diphtheria Toxin-Antitoxin Mixture.

On the ground of a broad general public health measure, an earnest appeal is being made to make it clear that Diphtheria Antitoxin was not concerned and was in no way at fault. Therefore the State Board of Health urges that the use of Diphtheria Antitoxin be not refused in any case where it is needed.

The State Board also requests that where this treatment is refused, that report of such refusal be made direct to the State Health Officer.

THE STATE OF TEXAS
To the Sheriff or any Constable of Foard County, Greetings:
You are hereby commanded to cause to be published once each week for a period of ten days before the return day hereof, in a newspaper of general circulation, which has been continuously and regularly published for a period of not less than one year in said Foard County, a copy of the following notice:

THE STATE OF TEXAS:
To all persons interested in the estate of Glendor McAdams and J. J. McAdams, Jr., will take notice that Amos M. McAdams, guardian of the estate of said Glendor McAdams and J. J. McAdams, Jr., has filed in the County Court of Foard County, an application for an order authorizing him to borrow the sum of \$32,075.31, and interest as set out in his application, and execute a Lien or Deed of Trust to the F. B. Collins Investment Company, of Oklahoma City, Okla., and bond for said sum bearing six per cent interest per annum, from date, interest payable annually providing for ten per cent attorney's fees if not paid at maturity and placed in the hands of an attorney for collection, to become due in 10 years from date of its execution and secured by Deed of Trust or Mortgage on all the lands belonging to the estate of said Glendor McAdams and J. J. McAdams, Jr., and also a note for the sum of 2 per cent of the loan made for four years to become due in annual installments for four years after date and secured by second mortgage on said land, described as follows: 640 acres of land known as Section No. 10, located by virtue of Certificate No. 3739, issued to the G. S. & S. F. R. Co.; 520 acres of land, known as Section No. 11, located by virtue of Certificate No. 3738, issued to the G. S. & S. F. R. Co.; 193 acres of land known as Section No. 1, located by virtue of Certificate No. 1-23, issued to John S. Craft, all of said land situated in Foard County, Texas, which application will be heard at the next term of said court, commencing on the first Monday in March, A. D. 1920, the same being the 1st day of March, A. D. 1920, at the court house thereof in Crowell, Texas, at which time all persons interested in said estate may appear and contest said application, should they desire to do so.

Herein Fail Not, but have you before said court on the said first day of the next term thereof this Writ, with your return thereon showing how you have executed the same.
Given under my hand and seal of said court at office in Crowell, Texas, this 14th day of January, A. D., 1920.

TO PREVENT RECURRENCE OF INFLUENZA
Austin, Texas—Recognizing the possible danger of a recurrence of the influenza epidemic of a year ago, the State Health Officer has issued the following statement, as a warning:
"If a person has a cold, cough or sore throat, then he should stay at home, avoiding crowds at all times, and especially where there is poor ventilation. If the feet get wet, or the clothing wet or damp, dry them at the earliest possible opportunity.
"Spend as much time as possible out of doors and be sure that the bedroom is well ventilated. When compelled to cough or sneeze, cover the mouth and nose with a handkerchief, thus avoiding the spreading of germs among others.
"In brief, keep the body as healthy as possible, for a healthy body offers a high resistance to the invasion of any disease."
Dr. Goddard stated that he thought this warning was timely inasmuch as reports from foreign countries show that the disease is again epidemic in some of these countries, and all precautions should be used to prevent

the return of the disease in epidemic form in this state.
Some few cases have been reported to the State Board of Health every month since the first outbreak of last year.
