## DIRECT COTTON MEN'S PLANS

Waco, July 23.—After going through preliminary steps for setting up the biggest co-operative organization of growers in the state, the directors of the Texas Farm Bureau Cotton Association adjourned this afternoon to meet again at 3. An executive committee, consisting of J. T. Orr of Dallas, W. D. Ferris of Ellis County, J. Gregg of Travis County, Jeff Ramsey of Titus County, and Phil Nolan of Nolan County, will have charge of affairs of the association between board meetings.

Alton Petet, of the Texas Farm Bureau, told directors that ample financial arrangements to take care of the cotton crops are assured. The sum is said to be more than \$100,000. More than 600,000 bales of cotton are said to be included in the pool.

Montgomery and Ferris were elected as Texas trustees of the American Cotton Growers' Exchange. It has its first meeting Aug. 1 in Memphis. This meeting will be attended by representatives of practically every cotton growing State in the South. An overhead sales agency disposition of the cotton of Oklahoma and parts of Mississippi and Arizona probably will be made.

O. Moser, present secretary of the Texas Farm Bureau, was selected as temporary secretary of the cotton organization. Orr had been elected president Friday afternoon. The executive committee of the association has been instructed to seek a man to become permanent secretary.

Money for financing crop movements in the Texas Farm Bureau Cotton Association is expected to be available about Aug. 10. It now is expected to advance 60 per cent of the net value of the cotton upon delivery to the association and the remainder as the cotton is sold. Forty thousand Texas farmers are members in 142 counties are represented so plans for signing of additional cotton in the pool were discussed at the meeting today and it is expected that active campaign will be waged in the twenty districts in the state.

## ADUCAH EDITOR CANDIDATE OF KHIVA TEMPLE SHRINE RING

E. A. Carlock, editor of the Paducah News, has announced his candidacy for diamond ring to be given away by Khiva Temple, A. A. O. N. M. S., the most popular novice at the ceremonial first of September. Carlock is a good fellow and will doubt get the support of all Nobles of this section of the country. We believe the Crowell bunch will support him.

He states in his communication to the news that his platform will contain some of the following "principles": "I believe in Jazz, Jazerine and Zazerenors."

"I am strong for the Jazz Saxophone and believe that all male boys and female girls (other children exempt) should be taught Jazz by the superintendent of our schools."

"I believe that the statue of man should be greater, and, therefore recommend that women's skirts be cut shorter to make men look longer."

"I believe that all Shriners, horse-dealers and bootleggers should assist the State Health Department in the passage of a law exiling all grasshoppers that may fever may be suppressed."

## Boy Gets Collar Bone Broken

Herbert Fish, son of Mr. and Mrs. Robert Fish, happened to the misfortune Thursday last week of getting his collar bone broken when a horse which he was riding at a rapid rate stepped into a dog hole and fell. The wound has been a little painful and the boy has been going with his arm in a sling.

When a fellow buys his first car he promptly repudiates all of the harsh things he has said about motorists.

## BAYLOR PROFESSOR ATTACKS KU KLUX

Waco, Texas, July 22.—Speaking tonight at a meeting of the laymen's council of the Seventh and James Street Baptist Church, in opposition to the Ku Klux Klan as it is supposed to operate today, Professor C. O. Calloway of Baylor University said:

"I believe the Federal Government and the Government of the States is adequate for all needs. Living in a democracy means that we elect the men who make the laws and who enforce them. If the laws are not enforced something is wrong, but that wrong is not with the Government. Our Government comes nearer meeting every political need of the people than anything else. If an offense has been committed, not covered by law or there exists a nuisance not regulated by any statute, it would be the rational thing to petition our Representatives to have enacted laws covering these cases. We choose our representatives and they must obey us. None, even a band of preachers, has the right to arrogate a law to themselves.

**Non-Enforced Cause**  
"The Ku Klux Klan has come because of nonenforcement of laws. If the officers we elect do not enforce the laws, if they prove unfaithful to their oath of office, we have the right to remove them from office. Let the evils of which we complain be removed by the application of the pure principles of democracy. Personally, I am in favor of the majesty of the law and supporting those whom we have elected to enforce the laws. I want no Government in which both my neighbors and myself can lie down at night in peace, not a Government where a band of masked men may execute laws of their own choosing."

"Juries do not indict because of the character of the men who compose them. We need to evolve a method where no man or group of men may control those who serve as grand jurors. If the law is entrusted to a secret organization we will have nothing but anarchy and chaos. If we are ever threatened with a negro domination or the heel of an oppressor I will be among the first to assist in reorganizing the Ku Klux.

**Effect on Youth**  
"Do you know that even the boys are today organizing their Junior Ku Klux Klans? You have a terrible state of affairs when the young men believe that law may supercede the law, and the law itself will pass away. Obedience to the law should be taught in the home, in the church and in the school. We should be willing to give our Government our loyalty and our love and to protect it with our lives if necessary."

"If government in Texas is to be executed by masked men, then anarchy will surely follow. In every community where there is no law, no respect for law, the people soon degenerate into a state of savagery. Texas is not safe for democracy if at night her citizens are to be harassed by men, masked and clad in strange garb."

## Crowell Girl Gets Mention for Scholastic Merit at University

Austin, Texas, July.—Names of students who attained the scholastic honor roll in the academic department of the University of Texas during the spring term have recently been announced by H. Y. Benedict, dean of the academic department. In compiling this list account was taken both of the quantity and quality of work accomplished by the students as indicated by the reports of the instructors. Emphasis was placed on quality in computing the score of each student by counting an A as 12, a B as 9, a C as 6, and a D as 3. The best one per cent of the upperclassmen made scores of 65 or above, while the best one per cent of freshmen made scores of 63 or more. The remaining groups made scores lower than these, but above 45 in the case of Freshmen and 43 in the case of upperclassmen.

Among the four thousand students of the University 331 merited this distinction. Miss Latha Crews of Crowell was included in the list of students among the best three per cent for scholastic merit.

A 3-months old baby was bitten by a rat at Frederick, Okla., while asleep in bed Thursday night of last week and died Friday following.

The pen is mightier than the sword, but most of us use a pencil or a typewriter.

## CITY BOND ELECTION CARRIED 10 TO 1

While the vote on the water bond issue was light Tuesday it recorded the sentiment of those interested in the water proposition for Crowell.

There are about 250 legal voters in the city and only 126 of them voted Tuesday. Of that number 115 were for bonds and 11 against, which is more than ten to one. The majority was large enough but the vote indicates that too many are not interested at all in the matter.

## ALL DAY SINGING AND DINNER AT THALIA PROGRAM FOR SUNDAY

The News was asked to make the announcement last week that an all day singing would be had at Thalia next Sunday. This matter escaped our attention and we hereby hasten to offset whatever effect that failure may have in making the day a success.

We have been informed that those people at Thalia have been making preparation for this occasion and are expecting everybody to come. One other thing should be said and not forgotten, that is that there will be dinner on the ground and everybody is expected to bring something to make that part of the program a success. It is easy to do when everybody helps in this particular. In that case everybody will be a guest as well as a host or a hostess.

Of course, the people of Thalia will lead in this matter and assume the bulk of the responsibility, and they will do it well. They know how because they have pulled such stunts before.

It is understood that a county singing convention will be organized also. Let nobody forget the date, next Sunday, July 31, which is the 5th Sunday in the month.

## Responsibility of the Parent

Many parents lose sight of the fact that the vacation period is one of grave dangers to the growing child. The boy or girl just out of school feels like a caged bird that is suddenly released from its captivity. It glories in its freedom to the exclusion of all else.

Many of the lessons in deportment that have been learned in the classroom are gradually forgotten as the child finds its way to the street. There is no room in its heart for anything but the glories of the present, unless the parental hand is ever guiding its steps. The future is a sealed book which will be opened only too soon for its purpose.

Herein the function of the parent becomes of double importance to the future life of the child, for the careful work and training of the teacher must be carried on through the days and weeks of the vacation period, not to the extent of hampering, or depriving it of the innocent pleasures of life, but rather the daily impressing upon its young mind the necessity for continuing the rules of conduct learned in its hours of study.

Children are quick to learn and equally quick to forget. An impression may sink deep today and be forgotten by tomorrow, but if it is repeatedly brought to the attention of the juvenile brain it will eventually take deep root and live.

The teacher is responsible to the parent for the proper instruction of the child during its hours of study, but the parent has a double responsibility of safeguarding the work of both.

## Undergoes Operation

Mrs. E. Swaim underwent a surgical operation Tuesday, Dr. Saunders and son of Fort Worth performing the work. Mrs. Swaim is reported to be doing as well as could be expected.

## Haney Elected As Director

T. M. Haney has been elected from this congressional district as director of the Cotton Association of Texas being one of 23 such directors in the State. He had two opponents, Jones of Cottle and Meacham of Hall.

Mr. and Mrs. R. J. Roberts and son, Ben, left this week for Bonham to visit Mr. Roberts' mother and other relatives and will be gone about two weeks. C. W. Showers of Vernon is taking Mr. Roberts' place at the lumber yard while he is away.

## ONE-THIRD OF CROP HAS BEEN SHIPPED

According to figures procured at the three elevators there will have been something like 225,000 bushels of wheat shipped out from Crowell since the new crop came on. This allows 150 cars and 1500 bushels to the car.

It has been estimated that about one-third of the crop has been shipped, which, if correct, would mean that we had about a 675,000-bushel crop. Some think this estimate is too low and have estimated the crop to be around a million bushels. It is hard to estimate it accurately, but we can get the shipments and get some idea from that. At any rate, we have harvested a better crop than was thought to be in sight just before harvest time.

Many of the farmers are getting their land in shape for another crop. Early plowing means everything to them. J. H. Carter is one of the successful wheat growers of the county and he remarked that if land is prepared early and gets a few good rains in the summer and early fall all it needs to make a wheat crop in the spring is a few heavy dews.

## INDIANIAN VISITS HIS PARENTS AT CROWELL

L. E. Townsley, son of Mr. and Mrs. H. Townsley of this place, was here the first of the week from Gary, Ind., paying his parents a visit. His wife and child were with him. They were on their way to the Pacific on vacation and intend to visit Oregon and return through the North Central states after an absence of four weeks.

Their trip entitles them to cover a distance of 3,600 miles and is a courtesy extended them by the E. J. & E. Ry. Co., for which company Mr. Townsley is division accountant at a salary of \$200 per month. He has been employed by the U. S. Steel Co. for eight years, having started at a salary of \$75.00 per month.

## Farm Life Looking Up

A noted writer declares that in time the lonesomeness of farm life will be done away with, and that tilling the soil will become a popular vocation.

He might have said that much of the lonesomeness has already been banished, and that the remainder is rapidly disappearing.

The automobile has done it. There is no need for the farmer or his family or his help to feel lonesome these days.

Distance no longer exists for him. With his car he can be in town at any time within a few minutes. He can visit his neighbors for miles around any evening after supper while attendance at church on Sunday and social gatherings at other times require but little more effort than is consumed in walking around a city block.

His life in many ways is preferable to that of the city dweller. His health is enhanced by the sunshine and the pure country air that he breathes. His life is not menaced by the constant stream of cars driven by reckless motorists, as is the case in most cities. His children grow to maturity in the purity of contact with nature, instead of being surrounded by the questionable environment of more congested centers, where there is little opportunity to sift the good from the bad. He is free to go and come as he desires and is not hedged around with myriads of restrictions and laws of the city man.

Tilling the soil is popular now. It will become more so as time goes on and the beauties and advantages of nature are better known and understood by those who now live by a clock and the factory whistle.

Miss Ruth Beauchamp of Rotan visited this week in the home of Mr. and Mrs. Murry Martin. She left yesterday for her home, but will return the first of September and will teach a piano class during the winter.

## Tourists Coming Thick

A common remark has been for some days that lots of tourists are passing through Crowell. Some idea is to be had as to the traffic from a count made by a Crowell citizen on day this week. He watched the tourist cars as they pulled up to the station for oil and gas and within a space of two hours counted sixteen cars. These were all tourists coming from the south and going out through the plains country into New Mexico or Colorado.

We are getting comparatively few to what we will have when the bridge across Wichita River is completed and the fact is made known that the river has no more terrors for the tourists. This will become one of the most popular outlets to the West in the entire country. This traffic will all pass through Crowell and tourists will all leave a little cash here and there, but best of all will be that wherever they go they will speak of the fine roads and the productive farms of Foard County. Seeing is believing and this is the kind of advertising Foard County is certain to get when this great highway becomes a known reality.

Eilbert Scales returned Saturday from Amarillo where he had been working with a thresher. He says it is raining so much up there that threshing the grain crop is being greatly interfered with.

## PEACH CROP SHORT BUT MELON CROP LONG

From reports as to the peach crop and from observation as to the melon crop the former is short but the latter is long in this county.

There has been quite a demand for peaches for canning purposes for winter use, but the supply is so short that few people are able to get the needed supply. The cold weather last spring is responsible for the shortage. But wagon loads of melons have been seen on the streets from day to day for the last two weeks, and so far as we have been able to tell the sellers have been able to find a market for them at home. And these are of splendid quality, too, just as good as are grown "way down east" or anywhere else.

The farmers will find that these cost little to raise and they bring in quite a neat little sum of money. They belong to the class of farm products that are always bringing in a little money when such things can be hauled to town every time the farmer goes after sugar and coffee. Melons are not being spoken of here as taking the place of peaches, but merely as a selling crop for the farmer, and therefore as a revenue producer.

## The Texas Rifle Team

This team of riflemen will be selected next month at Camp Mabry range near Austin. After the team is selected it will represent Texas in the National and International matches to be shot at Camp Perry, Ohio, some time in September.

It is desired that as many men from Foard County enter this contest as is possible. The contest, as outlined now, will be a ten days' shoot for practice. At the close of this preliminary shoot the fifty best shots will be selected to enter the finals, eliminating the second afternoon down to fifteen men, who constitute the team.

In order that Foard County may have as many men as possible enter this state contest, the following offer has been made: This company is entered as a whole for the preliminary shoot. Anyone will be included who may have previously qualified in any paid qualification on any Government range for the preliminaries, and should be able to qualify for the Texas team, this company will guarantee him against financial loss. In this way he will be paid the difference in cash, if there is any, between what his pay will be at this shoot and what his pay is before he goes, and not count his transportation or board anything. That seems to be a liberal proposition.

The pay for the preliminaries will be everything furnished, transportation, clothing and subsistence, with cash pay of not less than \$1.00 per day according to rank. But any man that makes the Texas team in the finals will be paid not less than \$2.25 per day with everything furnished.

If you are a rifle shot, or think you are, give Captain Claude Adams the information as early as possible that you wish to enter the contest.

The company will leave here August 13, and will be glad to have any shots it can get to go with them. They are going any way, but want all the help possible in this respect in order that Foard County may get distinction at Camp Perry, Ohio. Those who are in position to do so may render appreciated assistance by helping the boys get several good men on the team.

## GATHER AND PLANT AT THE SAME TIME

A letter from W. E. Simmons of Harlingen, in which was found remittance for a year's subscription to the News and the Dallas Semi-Weekly, says that they are gathering their crop and at the same time are planting another one. He reports splendid crops in the Harlingen country and although it is presumed that he likes that country he still wants to hear from Foard County and expresses his gratification that we have such good crops here. Mr. Simmons was formerly a resident of this county.

## Crowell Loses Two Games

The Munday ball team of Knox County was here last Friday and Saturday and took two games from the Crowell club. The score of Friday's game was 1 to 11 in favor of Munday, and the Saturday's game was 4 and 2 in their favor.

The game Monday between Crowell and Thalia was 1 to 11 in favor of Crowell.

The Crowell team is in Knox this week to play a number of games with the different towns in the county.

Carl Voder is building a new residence north of the old Henry Ferguson place on Main street.

## ROAD MEETING TO BE AT PLAINVIEW

The Plainview Board of City Development has issued a call for representatives of all towns on the F. F. F. Highway to meet in Plainview on August 1, which is next Monday. The object of the meeting is to reorganize the F. F. F. Highway Association.

It seems that this association died during the war, but the death of the association did not cause the highway to die. It has lived on and in some parts construction work has gone forward against adverse conditions. In this county we are glad to say that every foot of the highway has been completed and our connection with Knox County awaits the completion of the bridge.

Representatives from the various towns are urged to attend this meeting at Plainview Monday and it seems that Crowell ought by all means have representatives there. As just stated above, we can tell those people what we have already done, and that itself will be a big boost for Foard County.

The communication above referred to states that at the Plainview meeting officers and directors will be elected; plans will be made to put all parts of the road in good condition and mark it from end to end. Also plans will be made to give it the proper publicity.

Some of these times we are going to realize what the F. F. F. Highway means to this country, if we do not fully realize that fact now. It connects Texas, Louisiana and other Southern states with the Rock Mountains of New Mexico. There is no finer scenery in America than in these mountains. They are called by travelers the "Switzerland of America." The fishing and hunting grounds are not surpassed in any other part of the country.

The F. F. F. Highway will connect up with other highways that will give a direct route to California and the Pacific and will certainly become one of the most traveled highways of the entire country. So it is a matter of interest to every town on this highway.

Let Crowell have as many representatives as possible at Plainview Monday.

## Road Bonds Not Yet Approved

The road bonds for Foard County have not yet been approved by the attorney general, although Judge Burl has communicated with him, or at least has tried to, by letter and by wire. He is said to be off on a fishing trip. That being the case, of course, he is not bothering about Foard County highways.

Judge Burl thinks it will not be long until this matter will have passed through the necessary channels and the road bonds will be on the market. He does not anticipate much delay in the sale of the bonds.

In the meantime preparatory work is going forward on the Wichita bridge. Some of the material has already arrived and it is expected that work will soon commence on the construction of this bridge.

The physical culture teacher of a small Indiana college was giving a lesson to his class and happened to give a neck exercise which consisted of bending the neck until the head almost touched the shoulder. But some of his students did not bend far enough to suit him.

"Get some pep into you," he exclaimed. "This is a simple exercise, just to put your head on your own shoulder."

Several of the students giggled and the teacher looked surprised. Then one explained.

"Yes, it's easy enough, professor, but decidedly uninteresting to put your own head on your own shoulder."

**MARGARET NEWS**  
(By Special Correspondent)

Miss Edith Graham is quite sick at this writing.

Mr. and Mrs. G. W. Burress spent Sunday with relatives at Crowell.

The Methodist parsonage is receiving a new coat of paint this week.

Miss Daisy Bob Vantine of Quanah is visiting her aunt, Mrs. W. T. Dunn.

There was a noticeable lack of interest in the election Saturday, only 28 votes being cast.

T. P. Hunter and family left Friday for a ten days visit with relatives in Matador and Hereford.

Mrs. A. R. Baker and daughters left Saturday for an extended visit with relatives at Brownwood.

Mr. and Mrs. M. O'Connell of Crowell were out Thursday looking after the farm interests near here.

Misses Letha Davis and Rose Hlavaty and Messrs. Crosnoe and Rutledge motored to Vernon Tuesday night.

Mrs. J. W. Spotts came in Wednesday with her mother from Vernon for a visit and recuperation from her recent illness.

F. H. Donovan and family went to Medicine Mound for a visit with relatives there. Frank returned alone Monday looking rather lonely.

Foster Russell and Lee Bradford left Friday for the A. & M. short course in stock judging where they will receive about ten days instruction.

J. C. and Alvin Hysinger and others made a trip to Abilene Wednesday. Mr. Hysinger and his brother returned Saturday leaving again Monday for Ft. Worth.

Prof. Caldwell of Cisco, who taught two terms of school for us several years ago, spent the night here last Thursday, leaving Wednesday morning for his home. He reports the oil business in his section of the country rather dull.

Bro. Henderson and family returned from a three weeks visit to De Leon and other points in East Texas last Wednesday. Mr. Henderson, a brother, and Mr. Chatham, brother-in-law, of Bro. Henderson, returned with them, and are staying for a visit here.

**Cream Station a Success**

The cream station at Margaret is proving a success from every point of view. It has been in operation for four weeks and the receipts for this time show a steady increase. The first week 53 pounds from two customers were received; the second week, 104 pounds from three customers; the third week, 131 pounds from three customers; and the fourth week, 145 pounds, from five customers. Any cream community is a prosperous community, and our people are not slow to grasp an opportunity to add a remunerative project to their list of industries. It is a splendid asset with which to combat the high cost of living; it gives one more cylinder to the farm machine to boost it up the hill of prosperity. The total amount paid out for cream at the station to date is \$36.78. If the business did not increase over these figures, the annual income from this one item would be \$441.36.

**Picnic Party**

Thursday evening three cars loaded with fishermen, swimmers and eaters left Margaret for Mule Creek arriving just in time for the fish to bite and the water to be warm enough for a good dip. After fishing and bathing were enjoyed to the fullest extent, the party gathered around an old fashioned spread of the good things that go to make up a genuine picnic feed. Those present were Mr. and Mrs. L. A. Goodman, Mr. and Mrs. Geo. Burress, Mr. and Mrs. W. A. Dunn, Mr. and Mrs. Geo. Wesley, Mr. and Mrs. Walter Taylor, Misses Letha Davis and Rose Hlavaty, Roy Ayers, S. B. Middlebrook Jr., John Wesley, Nena McGill, Dennis McGill and Alvin Wesley.

**Wheat Movement**

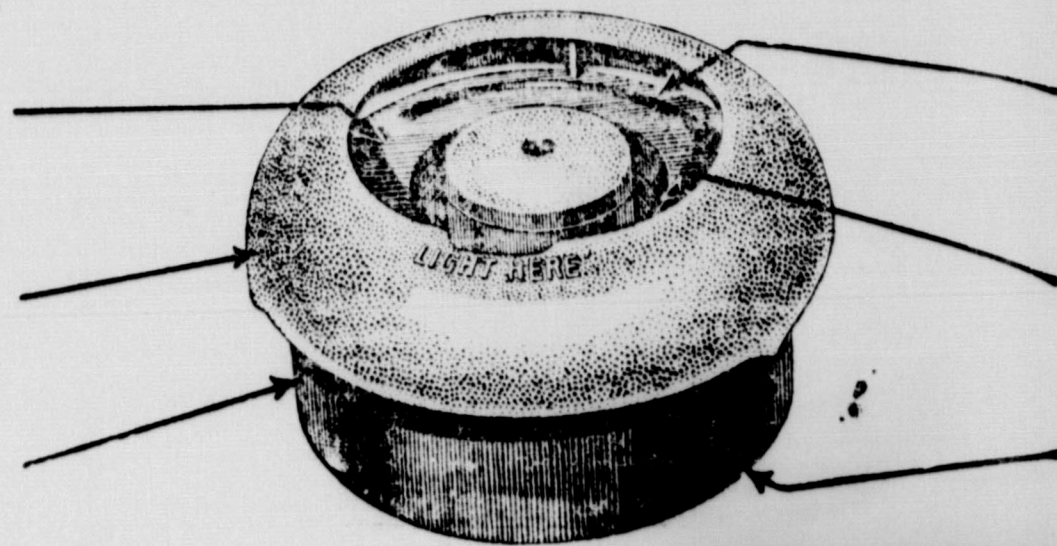

Up to date there have been received at the Margaret elevators 39 cars, 37 shipped with two more on the tracks ready to be loaded Wednesday morning. A total of 48,100 bushels have been shipped this season, and there is about 5,500 bushels on hand ready to be loaded out at once. Based on a price of \$1.00 per bushel, this represents a sum of \$53,500.00, which the wheat crop has brought to our community this year.

**Teachers Elected**

The Board of Trustees of the Margaret school has just completed the contracts for teachers for next year. Mr. R. T. Groves of Graham was elected for principal. The other teachers are as follows: Mrs. R. T. Groves, Miss Lila Cochran of Emory, and Mrs. Lon Goodman.

Farm Bureau. He returned Sunday night.

The Christian meeting closed Sunday night after running ten days. There were six additions to the church. The minister, Bro. W. Cypert, returned to his home in Mikel Monday.

Mrs. Sallie Blackburn and brother Lem Moore, and nephew, Ira Bell, all of Van Alstyne, Texas, drove to the home of J. G. Thompson Monday night for a fortnight's visit. Mrs. Blackburn and Mrs. Thompson school girls together long ago, but they had not seen each other for forty-two years. Needless to say was a happy meeting.

Some people race through life until they reach the brink of the crisis. Then the brakes refuse to work.

The things that must be done should be the ones that are first done. There is plenty of time for the rest.

No one hat is ever big enough to cover the brains of an entire community--your own excepted.

Beware of the man who claims to be without fault. Nothing is safe as his reach is safe.

A few people live for self alone, but the public is quite willing to let them at that.

## Your Wheat Land

Save your moisture by disking just as soon as you are through harvesting.

Disking kills all weeds, closes air pores, keeps your ground loose for plowing.

You are able to do this by using International Disk Harrows. We handle the size and kind for you to use.

The International Leverless Tractor Disk Harrow is the best tractor disk harrow on the market today. It is strictly a one-man outfit, you can handle the entire operation from your tractor seat.

We also handle a complete line of plows. Come in—let's talk over your needs.

**Uses for the Sweet Potato**  
A negro scientist of Tuskegee, Ala., has discovered manifold uses for the sweet potato, that near relation of the peanut, yielding everything from ice cream to ink. Mr. Carver enlightened the Ways and Means committee of congress and incidentally asked for a little "protection" on the products of southern soil. Said Mr. Carver, "Here is a bottle of mock oysters. Here is a bottle of relish for the oysters, made from peanuts. Peanuts make fine cereal coffee. The sweet potato products number 107 up to date. I have not finished working with them." So, after all, some of the tariff hearings are not so dull and humdrum as one would think.—Scientific American.

Entered at the Post Office at Crowell, Texas, as second class matter.

Crowell, Texas, July 29, 1921

Tom Reeder will not be forced to buy all the peaches he wants this year because he has some in his own back yard on his own peach trees. Part of a limb with the fruit on it which he exhibited one day this week is the evidence we offer for the statement providing, of course, that said limb came off of one of his trees. Six large rosy cheeked peaches closely clung to the limb. That makes one think. Anybody can have peach trees if he will put them out. They grow easily, and anybody can have peaches on those trees when there is a crop in the country. Peach trees are fast growth and do as well in this country as anywhere.

Mr. Gordon Witherspoon and family have moved to Fort Worth, being accompanied down by Mr. J. W. Cope. They have bought a nice home in that city and expect to live there for a good while. Mr. Witherspoon does not know just what he is going to get into there. Seymour people have enjoyed very much the residence of this good family in our midst and we give them up with very much regret. We hope their good fortune in their new home will be sufficient to make up for the regret caused by their departure from us.—Baylor County Banner.

Mrs. J. W. Wood has written friends here that her daughter, Miss Connie, underwent an operation at the Sanitarium in Dallas and is getting along fine. Mrs. Wood is very much encouraged that she stood the operation so well and is now doing nicely. She is very hopeful of a complete recovery and her friends here are glad to get this bit of news.

J. W. Fowler brought a load of melons to town yesterday. He says he has about half an acre and has already sold \$40.00 worth from it and can not miss them out of the patch. Hundreds of dollars will be realized by the farmers this year in Foard County from melons. It is one of the ways in which diversification can be practiced with splendid results.

Mrs. G. W. Wallen returned from San Angelo Thursday of last week where she had been attending the bedside of her son-in-law, G. C. Rector, who had undergone an operation for appendicitis. Mr. Rector was able to make the trip to Crowell and he and his wife accompanied Mrs. Wallen for a visit.

Since T. J. Bell returned from Marlin several days ago where he had gone for treatment for rheumatism

he is rapidly improving. His stay there was very helpful he thinks. Patients are carried through rigid treatment but those hot baths he says knock rheumatism quicker than anything.

H. Young was down from Vivian Monday and said that they were having a protracted meeting in his community. Rev. Anderson of Chillicothe is doing the preaching. He reports a need of rain also in that locality, as those people have received no rains recently to amount to anything.

Mrs. G. W. Walthall returned Wednesday from Amarillo where she had visited her sister, Mrs. Fannie Scruggs. She had gone up with the Haynes on their trip to Colorado, going by auto, but came back by rail. She reports lots of mud in that country but cool delightful weather.

### BOYS WILL REFOREST STATE

Louisiana Has Started Movement Which It Is to Be Hoped Other States Will Follow.

The state of Louisiana has a plan for reforesting a third of its twelve million acres that have been denuded of trees by the farmer and the lumberman. It has called on the boys to take part in the good work. The department of conservation is now engaged in establishing reforestation clubs and by the end of this year expects to have 25,000 boys enrolled for the work. Five thousand copies of a bulletin have been issued describing the trees best adapted to the lands in various sections of the state. And a state forester, who has been connected with the public schools and who understands the American boy and his ways, has been hired to supervise the whole plan.

A call has been sent out to farmers' sons mainly, though all boys between ten and eighteen are invited to take part in the work. One large lumbering concern, interested because of its business, has offered prizes totaling \$500 annually.

Since the demand for southern lumber has become large, the old and vigorous forests of Louisiana have suffered severely and the tendency there, as elsewhere, is to sacrifice second growth in an unscientific and wasteful manner. It is hoped to check this tendency and to replant large portions of the denuded territory.—Minneapolis Journal.

### CHILDREN WILL BUILD NESTS

Members of Junior Audubon Clubs Throughout the Country Are to Provide Bird Homes.

Birds winging their way northward just now will find 175,000 new houses built for them during the last year by boys and girls who are members of the 65,000 Junior Audubon clubs scattered over the United States and Canada, the New York Evening Post states. These youths are among the 1,500,000 members of the organization planted in kindergartens, grammar schools and among groups of young Americans by the National Audubon society.

Each club member, after paying 10 cents as an initiation fee, starts acquiring knowledge of the appearances and habits of both songsters and the unmusical types of birds. Through picture books and hikes to woodland spots they learn to distinguish one kind of bird from another by the kind of feathery clothes they wear and how also to tell them by their eggs, their nests and sometimes by their chirps.

Careless hunters have found the club members uncomfortably observant of those whom they suspect are bagging more than the limit or shooting out of season. Recently the association received a letter from a sportsman saying there were "400 young volunteer game wardens" in his city exerting a restraining influence upon truxy hunters.

THE HOUSE OF SERVICE

### FINALLY GAVE HIS OPINION

Mr. Harker Was Cautious, Though He Might Have Known That He Could Not Escape.

Henry Harker and his wife were returning from a village worthy's funeral, where the officiating clergyman had been a young man fresh from the divinity school.

"I declare," snapped Mrs. Harker, "I never did hear anybody run on the way that young whippersnapper does! Were me out before he begun to say anything. Talk, talk, talk! Nothing but words!"

"Giddap," said Mr. Harker to the horse.

"Why don't you say something, Henry Harker?" demanded his wife. "Don't he wear you out?"

"I dunno but what he does," said Mr. Harker, guardedly.

"Don't know but what he does!" echoed his wife. "Don't you know that he wears everybody out?"

"I, I can't say I knew that—not truthfully; for I ain't heard near everybody's opinion of him."

Mrs. Harker faced her husband. "What's the use of your backin' an' fillin' so?" she said. "I'd like to know your opinion of him—if you can get it out."

Mr. Harker tugged twice at the reins before he replied.

"It seems to me," said he at length, "that he's the kind of man that would rather change the subject than stop talkin'."

"Well," said Mrs. Harker, relieved, "you might have said that before."

**Mistaken Identity.**  
Miss Minnie McKee is a Terre Haute librarian, who is not by any means a suffragist. The other morning when she started to her library she decided to leave some notices for delinquent books on the way. She went to one porch, knocked at the door and gave the woman of the house the notice. At the next house, in which there happened to be a delinquent book, she did the same thing.

And then she heard in disapproving tones from two men who were behind her: "Now if there isn't one of those women candidates. Just see for yourself how masculine she looks passing hand bills."

And one question still remains unanswered in her mind: "Who on earth is to deliver future delinquent book notices?"—Indianapolis News.

Nowadays when a fellow begins to speak of the "best sellers" the thirsty immediately forget everything else and begin to mill around in a desperate effort to locate the entrance.

### Embarrassing Moment.

Several years ago I had a fancy white dress that I kept on a coat hanger in my closet, but on close examination I noticed that the hanger was leaving its print on the sleeves. In order to do away with that I pinned the dress by the belt to the back of a coat. One evening two friends called and asked me to go with them to the postoffice. As it was cool I put on a coat and had reached the street when my friends simultaneously noticed that I was wearing the coat that had my elaborate white dress fastened to the back of it. My embarrassment was little short of frenzy.—Chicago American.

## "Ouija! What's the good word?"

MY YOUNG sister,  
HAS A Ouija board,  
AND SHE believes it,  
AND TALKS to Noah,  
AND I think she talks,  
TO HER best fellow,  
WHO'S DEAD but doesn't know it,  
AND I used to give her,  
THE LOUD, rude laugh,  
BUT I'M sorry now,  
BECAUSE LAST night,  
I WAS home alone,  
SO I got the board,  
AND PUT in a call,  
FOR JOHN Barleycorn,  
AND OTHER departed spirits,  
BUT THE line was busy,  
FOR NOTHING happened,  
THEN I cheated a little,  
AND IT spelled this,  
"GRAMMASHOTTA SEVEN."

SO I shut off quick,  
TO HEAD off any  
FURTHER FAMILY scandal,  
THEN I stopped to smoke,  
A CIGARETTE,  
AND AFTER a while,  
I CRANKED up weejee,  
AND ALL of a sudden,  
IT STARTED off,  
AND QUICK as a flash,  
IT SAID something,  
"THEY SATISFY."

"SATISFY"—that's the good word. Just light up a Chesterfield and see what experts can do with fine Turkish and Domestic tobaccos when they blend them in that can't-be-beat Chesterfield way. You'll say "they satisfy."

### KNIGHTS GIVE PORTRAIT TO COMMANDER

Vernon, July 20.—A life-size portrait of L. G. Hawkins of Vernon, grand commander of the Texas Knights Templar, was presented to him Friday night by the Vernon and Wichita Falls Commanderies during a banquet in the Methodist Church. Emil Harmann, prominent portrait painter, was here to deliver his work.

Hawkins took his first Masonic degrees in 1893 and has been a Knight Templar since 1900. He is high priest and prophet of Maskat Temple, Wichita Falls, and past master of the blue lodge and high priest of the chapter in Vernon. He has been an officer in the Grand Commandery since 1911, commencing his career in Brownwood as grand captain of the guard. He has held all the offices in the order, being installed as grand commander last April.

The portrait came as a surprise to Hawkins. It was done from a photograph, with the assistance of a man of similar physique who sat for the artist. Harmann soon will come here and go over the features of the portrait, with Hawkins sitting for him.

W. N. Stokes acted as toastmaster at the banquet. C. O. Fritz represented the Wichita Falls Knights and W. H. Huggins the Vernon commandery.

Mr. Harding's world parley plan is reported to be pleasing to foreign governments. The world will breathe more freely when it has something more tangible than a report to base its faith upon.

Professor Einstein, returning from this country to his native land, expressed himself as intensely amused at the vociferous reception accorded him in the United States. No doubt the clown in a circus experiences much the same feeling.

Every free born citizen of the United States may aspire to the presidency, but to most of us the job is not worth the trouble of going after it.

Why are men taught to step off with the left foot first? We invariably kick the cat with the right one.

It may be true that all men are born equal, but not all are rocked in the cradle of opportunity from birth.

People are so near sighted these days that beauty of the soul seldom appeals to the modern eye.

### MAN WHO SHOT TO DEFEND HOME HELD

Childress, Texas, July 22.—Henry Adams of Northfield, Motley County, who fired on a party said to be Klansmen, Thursday morning as they approached his home was held under bond of \$2,500 at Matador today, charged with the murder of Charles L. Burden.

Six men said to have been members of the clan that called on Adams have given bond in the sum of \$250. Four of these are Bud Simpson, Houston Rucker, Alford Monk and John Timmons.

The shooting of Burden occurred when the party of alleged klansmen reached Adams' home and Burden called to Adams, who was asleep in his house, and demanded to see him.

It is said the party intended asking Adams what he intended to do in the way of providing support for his wife.

### Delmasso Gets Watch

Vernon, Texas, July 21.—Willie Delmasso of Vernon, first baseman of Bonham in the Texas-Oklahoma League, was recently given a gold watch by the Shriners of Bonham. The presentation speech was made by Sam Neilson.

The Filipinos are anxiously awaiting the day when the United States will grant them their independence, which leads a fellow to believe that some people are never so contented as when stirring up discontent. Independence for the Filipinos will mean renewed strife, disintegration, and final annexation by some foreign power.

### HARDEMAN COUNTY MAN ACCIDENTALLY KILLED

Sam Lisenby, who lived on his farm on the Childress county line, twenty miles west of Quanah, met his death Tuesday night by the unexpected discharge of a shotgun. He leaves a wife and baby, and was about thirty years old.

Squire Matlock went out there yesterday, and reports as follows:

Shortly after midnight Mrs. Lisenby and a fourteen-year-old boy staying with them were awakened by the report of a shotgun. They went outdoors, and found Mr. Lisenby lying off the porch lifeless, and a twelve gauge shotgun with one chamber discharged near by.

There had been a stray dog hanging about the house, that tried to sleep in the family jitney, and Mr. Lisenby had shot at it a couple of times but missed. He had borrowed the shotgun from his father, and it is supposed that hearing the dog again, he had gotten up quietly, secured the shotgun, and had stepped off the porch in the dark. That one of the shells had become discharged, and most of the contents of its No. eight buck shot struck him in the head, just back of the right ear, death must have been instantaneous.—Quanah Tribune-Chief.

### SOME MEASURE OF SUCCESS

Collector Got His Half of Debt, but Creditor is Wondering Where He Comes In.

A Vancouver man tells of a sea captain who, ashore, makes his home in that city, and who had loaned a sum of money to a neighbor. The latter, after the loan was a year or two old, made no effort to pay it.

Now, the captain began to look upon the debt as a bad one, indeed. On one occasion, however, upon his return from a voyage, he heard of a debt collector noted for his ability to extract money from such delinquents. Accordingly, the captain called upon this collector and advised of the circumstances.

"If," said the skipper, "you can collect that debt, I'll give you half of it."

The collector promised that the thing would be done. The captain sailed away on another voyage, and, on his return, sought out the collector again. "Any success with that bill?" he asked.

"Well," said the collector, "I haven't collected the whole of it; but I did collect my half. He hasn't paid me a cent since. I keep after him, but it's just as you said when you gave me the bill—he hasn't any conscience about it."

## Tired

"I was weak and run-down," relates Mrs. Eula Burnett, of Dalton, Ga. "I was thin and just felt tired, all the time. I didn't rest well. I wasn't ever hungry. I know, by this, I needed a tonic, and as there is none better than—"

### KNIGHTS GIVE PORTRAIT TO COMMANDER

Vernon, July 20.—A life-size portrait of L. G. Hawkins of Vernon, grand commander of the Texas Knights Templar, was presented to him Friday night by the Vernon and Wichita Falls Commanderies during a banquet in the Methodist Church. Emil Harmann, prominent portrait painter, was here to deliver his work.

Hawkins took his first Masonic degrees in 1893 and has been a Knight Templar since 1900. He is high priest and prophet of Maskat Temple, Wichita Falls, and past master of the blue lodge and high priest of the chapter in Vernon. He has been an officer in the Grand Commandery since 1911, commencing his career in Brownwood as grand captain of the guard. He has held all the offices in the order, being installed as grand commander last April.

The portrait came as a surprise to Hawkins. It was done from a photograph, with the assistance of a man of similar physique who sat for the artist. Harmann soon will come here and go over the features of the portrait, with Hawkins sitting for him.
