Frequent Headaches

"I suffered with chronic constipation that would bring on very severe headaches," says Mrs. Stephen H. Kincer, of R. F. D. 1, Cripple Creek, Va. "I tried different medicines and did not get relief. The headaches became very frequent. I heard of

Theford's BLACK-DRAUGHT

and took it for a headache, and the relief was very quick, and it was so long before I had another headache. Now I just keep the Black-Draught, and don't let myself get in that condition."

Theford's Black-Draught (purely vegetable) has been found to relieve constipation, and by stimulating the action of the liver, when this torpid, helps to drive many poisons out of your system. Biliousness, indigestion, headache, and similar troubles are often relieved in this way. It is the natural way. Be natural! Try Black-Draught. Sold everywhere.

Old U. Tellem

"They say that we should to live and not live to just the same though. I a lot of pleasure out of a just for the sake of pure, clean food adds to enjoyment. That's another reason why I insist on wife buying groceries at Russell Grocery Company where the stock is fresh where everything is handled in a cleanly and efficient manner."

"U tell'em beads; you've strung."

F. J. Halencak is picking cotton. He has out two bales and has eight or nine to pick yet. H. J. Byer and Tom Henry are helping him pick his cotton.

Born to Mr. and Mrs. C. H. Machac Sept. 13th, a girl.

H. J. Byer, Tom Henry and Mr. and Mrs. F. J. Halencak were at the fair at Crowell Friday and Saturday of last week. Had a nice time both days.

H. J. Byers is going to Lubbock County to visit friends and relatives.

T. E. L. Class

The social and business meeting of the T. E. L. Class was held at the T. E. L. Class room on Thursday, Sept. 14th.

Mrs. Frank Moore opened the devotional by reading the Love chapter. Good reports were given by the officers present, and our teacher gave a splendid talk on class scheme.

Two interesting contests were conducted by our president and after watermelon had been served we adjourned to meet with Mrs. Williams October 12.—Reporter.

The Hen Family

The Department of Agriculture has United States have taken a vacation and thrown the country back upon the necessity of eating into the 9,586,000 cases of storage eggs that wise commission men, speculators, etc., have laid by for the time when hens would not do the laying. In the olden days budding poets wrote lyrics and ballads in honor of the cow, but that was before the days of Borden, Van Camp, and the other milk canneries. Today the hen yields one of the greatest of necessities that goes onto the American breakfast table. It is, therefore, a matter of public concern that the quality of her product is threatened, even though the fault may lie entirely with the bird herself. The Agricultural Department observes that "Mrs. Hen has broken down completely under the excessive heat of hot weather and has gone vacationing." It is lamentable, but the Hen should be excused under all the circumstances. She may have been imitating humankind—and that latter breed has certainly worked the vacation period overtime this summer.

Methodist Church Notice

Sunday School at 10 o'clock, M. S. Henry, Supt. We just about reached the 200-mark last Sunday. Next Sunday we want to make it 250 and the first Sunday in October reach our goal of 300. Come on now, let every teacher and every member do their dead level best for next Sunday and see just where we stand, and know just what we have to do to reach that 300 October 1st. There can be no victory without a fight, no goal worth while can be reached without an effort. Come on and get in while the tide is high and we will go over together.

Preaching at 11 a. m. and 8 p. m. Song service at 7:45. Come in time to get the benefit of the splendid song service and let every member of the choir be on time. The subject for the morning hour will be "The River of God's Grace," at the evening hour "God's Family."

Come to church.

The Quarantine Against European Corn Borer

Widening of the Federal quarantine against the European corn borer to include additional towns in Massachusetts, Michigan, New York, Ohio and Pennsylvania recently found to be infested by the pest was recently announced by the Federal Horticultural Board of the United States Department of Agriculture. Shipment of plants and plant products likely to carry the pest from the infested areas to other localities may be made only under regulations provided by the quarantine. Since its first appearance in this country, a few years ago the corn borer, which came from Europe, has spread rapidly in the East and along Lake Erie, doing much damage to corn crops. Efforts are being made through Federal and State quarantines to prevent its spread to other parts of the country, particularly to the important corn-producing regions.

Wichita Boosters Here

It was a mistake that 20 cars of Wichita boosters were coming to Crowell last Friday. We do not know how the mistake was made. The News laid it on George Self, but the boosters called the News down about it. Perhaps it was made by the one sending or receiving the message. It makes no difference, now anyway. Twelve boosters were here advertising the big Oklahoma-Texas fair to be held in that city from Sept. 30 to October 4. They promise a big time. The persons in the party were: P. B. Curd, E. V. Leslie, Spike Cooper, G. T. Kimble, B. G. Ripley, Alf Miller, W. W. Gardner, Merle Waggoner, Tom Friedly, E. B. McCoy, George Gutzman, Ely Morgan.

Contrary to general opinion, money does not count. We count it.

THE FOARD COUNTY NEWS

KIMSEY & KLEPPER, Owners and Publishers

Entered at the Post Office at Crowell, Texas, as second class matter.

Crowell, Texas, Sept. 22, 1922

Adjournment of Congress

During recent years the multiplying problems that face Congress make it necessary that both legislative bodies remain in almost continuous session. A quarter of a century ago a Senator or Representative found that the public business could be carried through in six months for the "long session" and three months for the "short session." In other words Congress was in session nine months out of two years. This has been lengthened out to about twenty months out of two years. Even at that there is always a lot of important matter shovled over for a later day that should come up at times like the present when the fall elections are at hand.

The great problem of the present Congress has concerned the tariff. The old theory of protection to infant industries and the regulating of competition by means of the tariff has been replaced by new conditions. In consequence of the necessity of applying new methods, or new principles, to the determination of most matters in connection with the framing of the tariff bill, it has taken more than a year and a half to frame the new law.

The champions of the idea that the tariff is wholly an economic question and should be largely divorced from the political methods which dominate tariff-making are just now enjoying themselves, and they claim that the history of the past year and a half has proved that the tariff should be left almost entirely in the hands of a Commission, made up of experts who are free from political obligations. The persistence with which members of both branches of Congress fought for an "elastic" tariff was a confession that it is quite impossible under the changed order of things to make a tariff law that will apply in exactly proportionate terms this year, and next year and the year later. An "elastic" tariff means that the President shall be given power without special action by Congress to move schedules up or down to meet changing conditions.

The adjournment of Congress finds the merchant marine legislation deferred. The President and the Shipping Board are solidly behind this proposition which proposes a ship subsidy of about a million dollars a week and the retirement of the Government from the business of operating ships. This means that the entire Government business would be sold. In this connection a sale has just been announced by which all of the war-built wooden ships, costing the Government \$300,000,000 have been sold to Lent & Humphrey of San Francisco for \$750,000. There are 226 ships. The Government deficit on ship operation is now practically a million dollars a week. The proposal of the Shipping Board is to get rid of the ships but to keep the deficit, with the difference that the great sums will be paid to private companies who are expected to operate

these vessels with profit to themselves and with honor to their country.

Chairman Joe Eagle, at the Independent Democratic convention, drew a laugh from the crowd when he referred to Bob Henry as the "Stalking Horse of the Klan." In his recent withdrawal, however, Mr. Henry notified the klan that if it wanted to do any more stalking, it must get another horse.—Fort Worth Record.

Now, Mr. Johnson of the Hall County Herald, who was very ardent in his support of the klan, ought to say to the klan, since it turned him down, that if it wants any more braying done it will have to get another jackass.

When the war ended we found that it had cost Uncle Sam about \$22,000,000,000 to save Democracy. Each state, of course, had its share of the saving, and now the Ku Klux Klan has got about all Texas had.

And now they say they are going to exterminate the boll weevil by taking their picture with an X-Ray. If it works on them it ought to be tried on the negroes next.

Thursday Evening Bridge Club

On Thursday evening of last week at the home of Mrs. A. Brian, Misses Black and Cook were hostesses to five tables of young people organizing the Thursday Evening Bridge Club. On this, our first meeting, the following officers were elected: Glen Shults, president; Miss Mary Cook, vice president; Miss Era Higdon, secretary and treasurer, and Miss Floy Cheek, reporter.

After playing a number of hands of progressive bridge with Miss Higdon and Oscar Boman winning the highest score, we were served with delicious refreshments. On Thursday evening, Sept. 21, Misses Crews and Cheek will be hostesses at the home of Miss Crews.—Reporter.

TRUSCOTT ITEMS

J. C. Jones, who has been very ill, is able to be up again.

J. H. and Benton Westbrook made a business trip to Benjamin Monday.

Bill New was in last Friday from his work with the railroad surveyors.

Chris Moody left Sunday for Canyon where he will enter the State Normal.

Herman Holms left Sunday for his home at Dedman, N. M., where he will enter school.

Another new house is going up in the south part of town. Truscott is not grown yet for it keeps growing.

Farmers around Truscott are wishing for more rain. They have had a light shower but have not had enough to sow wheat on.

The Rev. Mr. Fisher who is helping the Methodist church in the protracted meeting has been speaking to quite a large audience at morning and evening for the last ten days.

Miss Sylvesta Lee, who was an assistant teacher in the Gilliland school last year, is visiting in Truscott before going to Swinson where she is to teach this winter.

FIRST TO FLY OVER CHANNEL

Jesuit Named Grimaldi is Said to Have Crossed Historic Strip of Water in 1761.

Who was the first man to fly across the English channel in a mechanical device? We all think that the honor belongs to Bleriot and he will retain it until adequate proof to the contrary is produced.

It is now declared, however, that this feat was accomplished 150 years earlier by a Jesuit named Grimaldi, who in the summer of 1751 flew from Cape Gris Nez to Dover, says La Petit Parisien, Paris. (Translated for the Kansas City Star). The story goes that Grimaldi used an apparatus constructed in the form of a black eagle, which was easily maneuvered at widely varying levels.

Serious documents are in existence, it is said, both in the Gergame library in Italy and in the British museum, establishing the truth of this extraordinary accomplishment.

Anything is possible. How comes it, however, that such utter silence has reigned since the year 1721 with respect to Father Grimaldi and his marvelous black eagle?

The Adelpian Club

The Adelpian Club met with Mrs. Archie Williams on Wednesday afternoon, Sept. 20.

During the business session it was decided to contribute fifty dollars, a part of which amount had previously been voted to be used toward furnishing ice for the school water, to the school board as a part of the funds necessary for installing fountains on the school ground.

After the business session Mrs. L. A. Andrews led the lesson which was the first of the course in Modern Drama. This lesson was an introduction to the plan of study and acquainted the members with methods of study and the main points to be stressed in the individual study of each play. A brief study was made of Arthur Wing Pinero. The topics considered were his life and works, his technique and great scenes from a number of his plays. This study was preparatory for the next lesson which is to be The Second Mrs. Tanqueray, one of Pinero's best productions. The hostess served ice cream and cake to the members present and Mrs. Arnold Rucker, guest of the afternoon.—Reporter.

EVERYONE MUST PAY

EVERYONE must pay for what he gets.

There is a law of recompense which cannot be evaded or ignored.

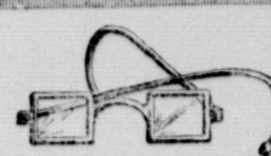

If one prizes his happiness he must expect to pay. Eventually the bill collector will demand his toll. Unless payment is made a rough pathway lies directly ahead.

Many constantly fear the bill collector who comes and demands money toll. But he is the most harmless of all the collectors. The real collector to be feared is the one which takes the form of conscience. It is impossible to dodge this one or to frighten him off with a double-barreled gun.

Those who imagine they have ended the collector when in the form of conscience are foolishly deluded. But even though they may get some enjoyment out of life because they think they have satisfied themselves that their consciences were wrong, they can always expect another collector which takes the form of law to hound them until the debt is paid.

In this age when many fathers and mothers are worried concerning the future of their children, there is good reason to impress upon the young people the importance of being on the square—on the square with the world as well as with themselves. Too many start into their world's pathways bent on getting as much as they can—both in material value and pleasure—without paying for its worth. If parents allow boys and girls, when their characters are in the making, to get this false impression of the way best to get on, sorry days are likely to be ahead not alone for the sons and daughters and their children, but for the fathers and mothers as well.

"The law of compensation is inexorable."

THE HOUSE OF SERVICE

"IN A BAD WAY"

Many a Crowell Reader Will Feel Grateful for This Information

If your back gives out; Becomes lame, weak or aching; If urinary troubles set in; Perhaps your kidneys are "in a bad way."

Doan's Kidney Pills are for weak kidneys. Local evidence proves their merit. Ask your neighbor!

W. B. Wheeler, machinist, Crowell, says: "Before I started using Doan's Kidney Pills my kidneys were in bad shape. My back ached most of the time and my kidneys seemed inflamed and acted too freely at night. I had to get up two or three times to pass the kidney secretions which were filled with sediment, the color of brick dust. I saw Doan's Kidney Pills advertised and started using them. It took only three boxes of Doan's to cure me."

Price 60c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Wheeler had. Foster-Milburn Co., Mfrs., Buffalo, N. Y. 41

EQUAL CITIZENSHIP BILL PASSES CONGRESS

The National Woman's Party in Washington is jubilant over the passage of the Cable Equal Citizenship bill through both branches of Con-

gress. Under the bill any woman may become a naturalized citizen of the United States even though she may be married. Another provision permits an American woman who marries a foreigner to retain her American citizenship. A great furor was raised over this feature of the old law a few years ago when Inez Mitholland, a prominent suffragist, married a Hollander, and thereby lost American citizenship.

Watch the little folks speed home for Kellogg's Corn Flakes

"Mudder, I always wins the race when I carry home Kellogg's Corn Flakes. I can't hardly wait till I have some quick, mudder!"

It's great to see child-enthusiasm for Kellogg's; great to see every one in the family enjoy their crisp crunchiness and wonderful flavor! To sit down before a heaping bowlful of these joyous oven-browned "sweet-hearts-of-the-corn" and some milk or cream—and fresh fruit, if it's handy—is just about the very last word in appetizing appeal! And, your good taste will prove that!

Kellogg's Corn Flakes ought to be superior—they are the original Corn Flakes! Kellogg's are never tough or leathery; never hard to eat; never a disappointment!

Be certain to get Kellogg's—the delicious kind of Corn Flakes in the RED and GREEN package—because none are genuine without the signature of W. K. Kellogg, the originator of Toasted Corn Flakes.

Kellogg's

CORN FLAKES

ROBERTS & BONAR, Proprs.

Taking Note of Our Progress

It's worth something to know that our neighbors are watching us in our onward march of progress. We here have reference to Texas politically. Read the following from the Louisville Courier Journal, the publication of the immortal "Mars Henry" whose long career recently ended with his passing into the other world. The Courier Journal says:

Directed now by the organization known as the Ku Klux Klan, Texans have recently thought the day or night illspent when they were not "safe guarding liberty," "preserving the white man's civilization," "making the state 100 per cent American." In carrying on this work, the Klan's procedure is to motor some person into the country and flog him mercilessly, then hop back into the automobile and, wishing the victim a happy journey on his way back to town, make off. Up until Tuesday night last, the Ku Klux Klan of Texas was masculine in gender. On Tuesday night it developed that the Klan's gender is feminine also. One adjunct of the organization comprises women who are known as "Ladies of the Invisible Eye" staged their first battle "in defense of American institutions" on Tuesday night at Stop Six, a little station on the interurban railway between Dallas and Fort Worth. At Stop Six, it seemed lived Mrs. I. C. Tatum. Four masked "Ladies of the Invisible Eye" called on Mrs. Tatum Tuesday night, invited her to a motor ride, whirled her away, jerked her out of the car when it came to a stop and then proceeded to flog her with cat-o-nine-tails. As usual, the Klan's victim, after being flogged, was permitted to find her way home as best she could. Grand Old Texas. Not quite so old as some of her sister commonwealths but getting grander every hour. San Jacinto, Goliad, the Alamo, Teneha, Charco, Denison—Stop Six.

Who says this isn't progress?

The bull no longer carries a chip on his shoulder. There are too many ready to knock it off.

One second hand corn binder for sale at a bargain.—J. H. Self & Sons.

The days of courtship are when men is what he isn't.

ORIENT RAISE FOUGHT BY TWELVE ROADS

Wichita, Kan., Sept. 16.—Charging that the Interstate Commerce Commission granted a greater division of joint freight rates to the Kansas City, Mexico and Orient Railway "for the purpose of giving out of the revenues of the plaintiffs financial aid to a railway system which was improvidently built," 12 railroads affected by the order allowing the increase to the Orient, filed application for a perpetual injunction against the enforcement of the order, in the United States District court here today. The plaintiff railways allege that should the order be enforced, they would lose at least \$500,000 annually, which would accrue to the Orient. The new schedule of point rates was to have become effective Sept. 15, but was postponed until Oct. 2.

The petitions of the plaintiffs charge that the construction of the Orient would not be authorized today under the provision of the Interstate Commerce Commission act requiring a certificate that present or future needs and conveniences would require the construction of the road. It charges further that the Orient "system" was badly conceived, constructed for a long distance parallel to already existing strong lines of railway through regions not containing and not promising sufficient traffic to justify the construction of the line.

It is alleged that the Orient is not now earning and never will be able to earn its operating expenses; that the road is entirely insolvent and unable to respond to damages or to make refund of any portion of the increased joint rates it might receive.

Participants in the suit, which is filed against the United States of America, are the Abilene and Southern Railway; Chicago, Rock Island and Pacific Railway; Clinton and Oklahoma Western; Fort Worth and Denver City; Galveston, Harrisburg and San Antonio; Gulf Coast and Santa Fe; Midland Valley; Missouri Kansas and Texas; Missouri Pacific; St. Louis and San Francisco; Texas and Pacific, and Wichita Falls and Northwestern.

The suit is not regarded seriously by A. Debernardi, vice president and general manager of the Orient, who said today that the Interstate Commerce Commission was in full possession of all facts entering into the case when it issued its order granting the Orient the increased division of joint rates and fares. The commission considered the question of public necessity and convenience, he said, and declared the Orient to be a necessary railroad. He declares further that the Orient is not paralleled by any main line railway, either weak or strong, for any considerable distance.

CALOMEL GOOD BUT AWFUL TREACHEROUS

Next Dose May Salivate, Shock Liver or Attack Your Bones

You know what calomel is. It's mercury; quicksilver. Calomel is dangerous. It crashes into sour bile like dynamite, cramping and sickening you. Calomel attacks the bones and should never be put into your system.

If you feel bilious, headachy, constipated and all knocked out, just go to your druggist and get a bottle of Dodson's Liver Tone for a few cents which is harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money.

Don't take calomel! It makes you sick the next day; it loses you a day's work. Dodson's Liver Tone straightens you right up and you feel great. No salts necessary. Give it to the children because it is perfectly harmless and can not salivate.

For Sale—Some extra fine registered Hereford bulls, Anxiety line of breeding. Also some fine Big Boned Poland China pigs, born 2nd day of March, just right for club boys. Have papers with all my stock.—J. E. Bell, phone 176.

Anyway, political speeches are popular with the candidates.

Paint Up and Look Up

You may clean up a tramp and put his rags back on him and he will still hang his head. But give him new clothes and he will look up, with pride and self-respect.

You have publicly committed him to cleanliness and respectability.

This philosophy will apply to many owners of faded and run-down homes. When they clean up the yard, and paint up the house, they look up with pride and satisfaction.

And the neighbors follow their example.

It's as poor reasoning to clean up and neglect the painting as it is to wear a clean shave and a dirty collar. There's nothing in either to inspire self-respect or the respect of others.

Consult us about your painting right now.

The new Goodyear Cross-Rib Tread Cord

A Popular-Priced Cord Tire Without a Rival

The new Goodyear Cross-Rib Tread Cord Tire is built with genuine high-grade long-staple cotton as a foundation. It is liberally oversize—the 4½-inch tire, for example, measuring nearly 5 inches.

The deep, clean-cut, cog-like pattern of its tread affords excellent traction even in snow and mud, engaging the road like a cogwheel.

The scientific distribution of rubber in this tread—the wide center rib and the semi-flat contour—gives a thick, broad surface that is exceedingly slow to wear.

This new tire is a genuine Goodyear through and through—in design, in material, in construction.

It costs less to buy than the net price you are asked to pay for many "long discount" tires of unknown reputation and value.

Why be satisfied with less than this efficient tire can give—why take a chance on an unknown make?

Compare these prices with NET prices you are asked to pay for "long discount" tires					
30x3¼ Clincher.....	\$12.50	32x4 Straight Side..	\$24.50	33x4½ Straight Side..	\$32.15
30x3¼ Straight Side..	13.50	33x4 Straight Side..	25.25	34x4½ Straight Side..	32.95
32x3¼ Straight Side..	19.25	34x4 Straight Side..	25.90	35x5 Straight Side..	39.10
31x4 Straight Side..	22.20	32x4½ Straight Side..	31.45	35x5 Straight Side..	41.05

These prices include manufacturer's excise tax

Goodyear Cross-Rib Tread Cord Tires are also made in 6, 7 and 8 inch sizes for trucks

Crowell Dry Goods Co.

The Home of Schaffner & Marx Clothing

THE STATE OF TEXAS
To the Sheriff or Any Constable of
Foard County—Greeting:
You Are Hereby Commanded to
summon W. L. Power by making
publication of this Citation once in
each week for four consecutive weeks
previous to the return day hereof, in
some newspaper published in your
county, if there be a newspaper pub-
lished therein, but if not, then in any
newspaper published in the 46th Ju-
dicial District; to appear at the next
regular term of the District Court of
Foard County, Texas, to be held at
the court house thereof, in Crowell,
Texas, on the 8th Monday after first
Monday in September, A. D. 1922, the
same being the 30th day of October,
A. D. 1922, then and there to answer
a petition filed in said court on the
14th day of September, A. D. 1922, in

a suit numbered on the docket of said
court, No. 1150, wherein T. B. Klen-
per is plaintiff, and W. L. Power is
defendant, and the cause of action be-
ing alleged as follows:
On the first day of August, 1922,
he was and now is lawfully seized and
possessed of the tract or parcel of
land hereinafter described, situated in
the said county of Foard, holding the
same in fee simple; that on the day
and year last aforesaid defendant en-
tered upon said premises and ejected
plaintiff therefrom, and unlawfully
withholds from plaintiff the posses-
sion thereof, to his damage five hun-
dred dollars; that the premises so
entered upon and unlawfully with-
held by defendant from plaintiff are
described as follows: A part of Sec-
tion No. 445, Block A., H. & T. C. Ry.
Co. surveys and being lot No. 22 in

block No. 34 of the town of Crowell,
as shown by the map of said town as
same is recorded in Vol. 2, pages 290-
291, of the deed records of said Foard
County.
Plaintiff further alleges that on the
28th day of July, 1909, said lot or
parcel of land was the property of
Crowell Realty Company, a corpora-
tion incorporated under the laws of
the State of Texas, with its principal
office and place of business at Crow-
ell in Foard County, Texas, and on
the day and date last above men-
tioned said Crowell Realty Company
sold said lot to one S. S. Thompson of
Madison County, State of Alabama,
and by mistake conveyed to said S. S.
Thompson lot numbered 21 of said
block No. 34 of the town of Crowell,
in Foard County, Texas.

That afterwards, the exact date of
which is unknown to plaintiff, the
said Crowell Realty Company was
dissolved and became defunct, and its
assets became the property of the
stockholders in the proportion of their
respective holdings and at the time
of said dissolution the said W. L.
Power, defendant herein, owned
all the stock of said corporation and
all the assets of said Crowell Realty
Company. That on or about the first
day of October, 1920, the said S. S.
Thompson, claiming good and perfect
title thereto, conveyed said lot No. 22,
in block No. 34, of the town of Crow-
ell, in Foard County, Texas, for a val-
uable consideration, to R. L. Kincaid,
of Foard County, Texas, by deed duly
executed with covenants of general
warranty, and under whom plaintiff
claims title to said lot. Plaintiff fur-
ther avers that the mistake in the
deed from Crowell Realty Company to
S. S. Thompson in describing said lot
as being No. 21 instead of 22 is a
cloud upon his title.

Wherefore plaintiff prays that the
defendant be cited to answer this pe-
tition and upon hearing hereof that
he have judgment that all title, in-
terest, right and claim in and to the
above described lot of land be divest-
ed out of the Crowell Realty Com-
pany, its stockholders and W. L.
Power and invested in the plaintiff,
for costs of suit and for general re-
lief both legal and equitable and as
in duty bound plaintiff will ever pray,
etc.

Herein Fail Not, But have you be-
fore said court, on said first day of
the next regular term thereof, this
Writ, with your return thereon, show-
ing how you have executed the same.
Witness My Hand and Official Seal
at my office in Crowell, Texas, this
15th day of September, A. D. 1922.
MARIE HARRIS BURESS,
(L. S.) Clerk District Court,
17 Foard County, Texas.

Anti-Klan Democrats Nominate Man for Senate

George E. B. Peddy, a young law-
yer of Houston, was nominated by
the Anti-Klan Democrats in conven-
tion last Saturday in Dallas to make
the race for United States Senate
against Earle B. Mayfield. Peddy is
an ex-soldier who saw service in
Europe and held rank as captain. He
is a brilliant young man and has a
very promising future. Peddy is a
Democrat but not a klanocrat. He
favored Ferguson's election, but
fought Ferguson when he was gov-
ernor in his opposition to State Uni-
versity appropriations. He is one of
the brilliant young orators of Texas
and knows how to fight. He is en-
dorsed by the Republicans of Texas.

Meeting of City Council

The City Council of the City of
Crowell met in regular session Tues-
day, Sept. 19th. Members present:
C. T. Schlagal, mayor; E. Swaim, M.
S. Henry, D. R. Magee, aldermen; P.
S. Lovelady, marshal; L. A. Andrews,
secretary. Minutes of previous regu-
lar meeting were read and approved.

Motion was made, seconded and
passed that the City Council offer a
standing reward of \$100.00 for the
arrest and conviction of any person
guilty of arson in the City of Crowell;
and that notices or placards offering
said reward be printed and placed in
public places within the city.

P. S. Lovelady was appointed fire
marshal.

Petition of business men requesting
City Council to purchase a street
sprinkler was presented but action
deferred on account of lack of funds,
however, the secretary was directed
to get in touch with adjoining cities
with the view of purchasing a second
hand sprinkler.

Owing to the fact that the general
fund was exhausted, it was ordered
that \$500 be transferred to it from
the street fund.

The claims registered were taken
up and the following accounts allowed
and ordered paid: Wm. Cameron &
Co., \$5.90; The Axtell Co., \$5.72;
Fairbanks-Morse & Co., \$17.22; M. S.
Henry & Co., \$43.15; Swaim's Garage,
\$19.60; Swaim's Garage, \$33.50; Geo.
D. Barnard Co., \$8.12; Briggs-Weav-
er Mach. Co., \$7.49; R. L. Kincaid,
\$6.00; Cicero Smith Lbr. Co., \$122.70;

SPECIAL-SIX SEDAN

Studebaker
\$2050

THE Studebaker Special-Six
Sedan will win your admiration
at first glance. After you have
examined it you will be even more
delighted with it. When you have
ridden in it you won't be satisfied
with anything else

The market does not offer a more
beautiful enclosed body. Certainly
none is built of better materials and
finer workmanship. It is a striking
example of the handcraft of Stude-
baker artisans.

Everything is in exquisite taste.
Its distinctive body lines are en-
hanced by massive headlights, the
graceful cowl lamps and the courtesy
light just above the running board
on the driver's side, which illumi-
nates the roadway in passing other
cars at night.

Inside, the inviting depth of the
cushions, the subdued harmony of
upholstery, the soft carpeting and
the completeness of appointments
offer an irresistible appeal.

It is mounted on the same Special-
Six chassis which has won the en-
thusiasm of thousands of owners for
its dependable performance, power,
comfort and economy in fuel and
tires.

The Studebaker Special-Six Sedan
offers the utmost closed car refine-
ment—and at moderate cost. At
the new low price of \$2050 it rep-
resents the greatest closed car
value that Studebaker ever offered.

The name Studebaker is your
assurance of satisfaction.

Four doors that swing wide open; simple, automatic window lifts raise or lower plate glass
windows; opalescent corner lights; massive headlights; artistic coach lamps; courtesy light;
cowl ventilator; windshield wiper and rain visor; jeweled eight-day clock; exhaust heater;
thief-proof transmission lock.

THE STATE OF TEXAS
To the Sheriff or Any Constable of
Foard County—Greeting:

You Are Hereby Commanded to summon W. S. Herndon and the unknown heirs of W. S. Herndon; J. C. Peirce and the unknown heirs of J. C. Peirce; George W. Russ and the unknown heirs of George W. Russ; H. J. Jarrell and the unknown heirs of H. J. Jarrell, by making publication of this Citation once in each week for four consecutive weeks previous to the return day hereof, in some newspaper published in your county, if there be a newspaper published therein, but if not, then in any newspaper published in the 46th Judicial District; to appear at the next regular term of the District Court of Foard County, Texas, to be held at the court house thereof, in Crowell, Texas, on the 8th Monday after the first Monday in September, A. D. 1922, the same being the 30th day of October, A. D. 1922, then and there to answer a petition filed in said court on the 15th day of September, A. D. 1922, in a suit numbered on the docket of said court, No. 1151, wherein J. H. Carter is plaintiff and W. S. Herndon and the unknown heirs of W. S. Herndon; J. C. Peirce and the unknown heirs of J. C. Peirce; George W. Russ and the unknown heirs of George W. Russ; H. J. Jarrell and the unknown heirs of H. J. Jarrell, are defendants and the cause of action being alleged as follows: On the first day of January, 1922, he was and now is lawfully seized and possessed of the tract of land hereinafter described, situated in the said County

of Foard, State of Texas, holding the same in fee simple; that on the day and year last aforesaid the defendants, and each of them, entered upon said land and ejected plaintiff therefrom, and unlawfully withheld from plaintiff the possession thereof, to his damage one thousand dollars. That the premises so entered upon and unlawfully withheld by defendants from plaintiff are described as follows: The southwest one-fourth of section No. 35, located and surveyed by virtue of certificate No. 16-19 issued to the Southern Pacific Railway Company, and containing 160 acres of land. Plaintiff further alleges that he has good and perfect title to said land because he says that he, and those whose estate he has, has had and held peaceable, continuous and adverse possession under title, or color of title, from and under the State of Texas, of the land and tenements above described, for more than three years after defendants rights accrued, if any, and before plaintiff was ejected therefrom, and before the commencement of this suit, and this he is ready to verify. Plaintiff further alleges that he has good and perfect title to said land because he says that he, and those whose estate he has, claiming the same under a deed, or deeds, duly registered, has had peaceable, continuous and adverse possession of the lands above described, using and enjoying the same, and paying all taxes due thereon, for a period of more than five years after defendants right of action accrued and before plaintiff

was ejected therefrom and before the commencement of this suit, and this he is ready to verify.

Plaintiff further alleges that he has good and perfect title to said land because he says that he, and those whose estate he has, now has, and has had, peaceable and adverse possession by an actual enclosure of the lands above described, using and enjoying the same for a period of ten years after defendants cause of action therefor accrued, if any, and before plaintiff was ejected therefrom and before the commencement of this suit, and this he is ready to verify.

That the defendants and each of them are asserting some kind of claim to said land, the exact nature of which is unknown to plaintiff, and that such claims are a cloud upon plaintiff's title.

Wherefore plaintiff prays that the defendants be cited to answer this petition, and upon hearing hereof that plaintiff have judgment against the defendants for the lands hereinbefore described, and that all right, title, interest and claim of the defendants in and to said land be divested out of the defendants, and each of them, and vested in plaintiff, and that plaintiff be quieted in his title and possession of said land, for costs of suit, and for general relief both in law and equity and as in duty bound plaintiff will ever pray, etc.

Herein Fail Not, But have you before said court, on said first day of the next regular term thereof, this Writ, with your return thereon, showing how you have executed the same.

Witness My Hand and Official Seal at my office in Crowell, Texas, this 15th day of September, A. D. 1922.

At the Presbyterian Church

The News is requested to state that there will be services at the Presbyterian church next Sunday morning.

Artificial Light to Make Hens Lay

By F. W. Kazmeier, Poultry Husbandman, A. & M. College of Texas

Many people are of the opinion that the newly discovered fact that short days adversely influences egg-production, is more or less theory. They are not ready to believe it much less put it in practice. They probably doubt the truthfulness of some experiments conducted on the grounds of the A. & M. College Poultry department two years ago. At that time the use of artificial illumination was being exploited, as an important factor, influencing egg-production. Few people believed that it was worth while. Many did not believe that it had any practical value. The writer can well remember the time, four years ago, when he for the first time, took courage to mention it in a public talk before the Dallas County Poultry Association in Dallas. Many hooted the idea. The newspaper reporters made light of it. The public did not believe it. A year later it developed that artificial illumination was one of the greatest factors influencing fall and winter egg-production. A year later the A. & M. College tried it and found that artificial illumination increased the fall and winter egg-production by about 60 per cent. Just to look at it, 60 per cent. A flock increase of 60 per cent is quite an item and worth many thousands of dollars to poultry keepers.

The object of artificial illumination is to increase the egg-production during the fall and winter months. At this time of the year eggs are high in price, and any increase will add greatly to the net profits of the flock. In the fall and winter the period of daylight is comparatively short as contrasted with the rest of the year. The use of lights, makes the short days longer, as a consequence they eat much more feed and lay many more eggs, when eggs are worth real money and when they are scarce. This practice is recommended for the laying stock but not for the breeding flocks.

It was also found a good idea to subject the late hatched pullets to artificial light and in this way hurry them along and get them to laying in time for high priced eggs. This plan is much to be recommended because late hatched pullets must be forced in order to get them to develop in time.

It was also found that when lights were used hens would go through the molt much quicker and get to laying earlier. This is an important item.

When to Use Lights
Careful experimental data, which is now available clearly indicates that the best time to use artificial lights is beginning with September or October and all through winter up to about March. In other words the lights are to be used when the days begin to get short and as long as they are short.

There seems to be some difference of opinion regarding the time of the day to use them. Experimental data indicates that there are three methods of using them as follows:

1. The lights are turned on an hour or two before daylight in the morning and again in the evening, before it gets dark, so as to make a 12 hour day for the hens.
 2. The lights being turned on only in the evening before it gets dark and remain on so as to give the hens the same number of work hours as mentioned above.
 3. To turn the lights on in the morning only, usually about 4:30 a. m. and turn them off as soon as it becomes sufficiently light in the houses for the hens to see. When this plan is used the lights are not turned on in the evening.
- Of the above plans the latter appears to be the best. When the lights are used in the evening the lights must be dimmed for a while before turning them off, otherwise the hens will not see their way to roost and many will roost on the floor. Those that use the lights in the evening provide dimmers or red lights for this purpose.

Kinds of Lights to Use

There are three important ways of providing artificial illumination to make hens lay. They are electric lights, kerosene lights and gasoline lights. The electric lights are by far the best, involving less work, better light and less danger from fire. It is possible to so install the electric lights that they can be regulated to come automatically. This is a great advantage. Electricity is not available on many farms at the present time, hence the other methods will be used for some time. The home plants, such as the Delco and others equally as good now are featuring electric lights for lighting the hen houses on the farms. In the case of electric lights we have found that one 40 to 80 watts is sufficient for 100 hens, figuring on the basis of 300 square feet of floor space per 100 hens. One gasoline lamp will generally be sufficient for the same number of hens. In the case of kerosene lamps, use lamps with deflectors and allow four lamps for every 100 hens. It is necessary to provide sufficient light to keep the hens at work. Insufficient light will cause the hens to go to roost as soon as it gets dark, or if lights are used in the morning they will not come off the roosts and go to work. The light should be strong enough so the hens can see to eat.

Fowls under artificial illumination should be fed somewhat different from the general practice. The grain must be fed at the time the lights are in use, especially in the beginning to keep the hens off the roosts. It is important that everything is fed so as to get the hens to exercise as much as possible. They need the exercise to keep them healthy under these more or less unnatural conditions. All drinking vessels, dry mash hoppers and green food should be fed on stands 2 feet above the ground so

Jesse L. Lasky Presents

ETHEL CLAYTON

IN

WEALTH

She married a rich man thinking to end her struggles, and she found she had married his rich family, who hated her. Not until she gave up wealth and luxury did love and happiness come to her. But then—There's excitement and joy in every scene of it.

Auction Sale

On the afternoon of Sept. 27th, commencing at 1:00 o'clock, at my place one-fourth mile south of Mrs. W. S. Bell's place, will be sold at public auction the following:

WORK HORSES

- One black horse, 9 years old, 16 hands high
- One bay mare, 6 years old, 16 hands high
- One sorrel mare, 5 years, 15 hands high
- One bay horse, 4 years old, 15 hands high
- One 2 year old mule
- Two young mule colts
- Two extra good Jersey milch cows

FARMING IMPLEMENTS

- One nearly new P. & O. cultivator
- One J. I. Case lister planter
- One drag harrow
- One John Deere cultivator
- One double disc plow good as new
- One 3 1/4 inch Mitchell wagon
- One set leather harness

MISCELLANEOUS

- 5 tons or more maize heads. Will sell one ton with the privilege of taking all.
- One organ
- One sewing machine
- Household and kitchen furniture
- Some canned fruit
- Buff Orpington chickens
- Old and young turkeys, and many other articles too numerous to mention

TERMS OF SALE—All sums of \$10 and under must be cash. On amounts of over \$10 will accept bankable notes at 10 per cent for 12 months time or will discount at 5 per cent for cash.

that they have to jump to get to it, which gives them more exercise. It would be useless to keep the hens up with light if they are not given something to eat.

It must be remembered that the lights alone will not make the hens lay. They must be fed an egg making ration. The lights will only help make more eggs, if all other things are provided. This part of the subject however we can not undertake to discuss in this article.

To reduce the cost of lighting it is well to remember that in a house 15 feet square the lights should be placed 3 or 4 feet from the floor, and 5 feet from the floor in a house 20 feet square. The use of deflectors also increases the light where it is wanted and thus aids in reducing the cost.

Cost of Lighting
The actual cost of providing lights for the house varies very much. In the case of electricity the price of current is a great determining factor.

We have found that under average conditions the cost for electric lights is about one to two cents per fowl per month. Kerosene lanterns cost about three to four cents a day to run. In nearly all cases the cost was a negligent factor.

Time It Takes Before They Will Respond

In starting the lights in the fall of the year, it has been found best to do so gradually. This is important and should be carefully kept in mind. If all factors are favorable the increased egg-production will be noticed in about ten days. Use lights in moderation and do not attempt to use lights for more time than will provide a 12 to 14 hour work day. (Copyright, F. W. Kazmeier, 1922)
