M. FERRIN TELLS ABOUT IOWA CROPS

Row Crops Late But Wheat Prospects Good—Oats Failure—Corn Sells Cheap

The News received the following letter from H. M. Ferrin at Marcus, Iowa, just as the forms were being locked up for the last run last Thursday, so that it was too late for publication. It was written on June 5, and follows:

We arrived at the Iowa farm at 10 A. M. May 18, fully as free and well as when we left Foard County, as we had taken plenty of time and did not travel when the roads were muddy.

Most of the way through Kansas corn planting was late on account of numerous rains and cold weather, but small grain is looking fine. From Minneapolis, Kan., to the Platte River in Nebraska small grain was showing need of rain and there was not much moisture to sprout corn that had been planted. After crossing the Platte River until we neared the Missouri at Sioux City there had been plenty of rain and crops of all kinds, including gardens, were looking fine. Northwestern Iowa had a very dry May. On fall plowed land that had been worked corn is a good stand, but on much of the spring plowed land the stand is poor, too dry in many places to sprout the grain. Small grain, hay and pastures are still looking fairly well but the oats are certain to be short in straw. Gardens are the poorest I ever saw for the time of year. The strawberries bloomed full but unless rain comes soon the berries will be small, as they have commenced to ripen. All other fruit is looking well.

Vast quantities of corn have been going on the market. One elevator at Marcus unloaded 109 big loads in five hours one afternoon, the price paid being 48 cents per bushel. Many lots also are going on the market at \$1.70 to \$1.00.

Weather has been cool and cloudy most of the time since we came.

Many farms that were sold at wartime boom prices have been taken back by former owners, the ones purchasing at the high prices losing all they had accumulated by years of hard work. Where parties are obliged to sell, land is changing hands at half the boom prices and land can now be bought worth the money.

A fine state highway passes along the Iowa farm and many days there is an average of one automobile or truck every three minutes for ten hours. Gasoline is now 26 cents here.

Farmers and their families take great interest in the Farm Bureau here, having monthly meetings in many townships with fine progress and usually light refreshments. We attended a meeting near the farm on the evening of May 24, old and young taking part in a lengthy but interesting program. The county has a paid membership of more than 1500.

Our boy, Amos, whom many News readers remember, was here with his family three days. There are seven now, all told.

We are pleased to know that prospects are favorable for good crops in Foard County.

With best wishes for all,
MR AND MRS. H. M. FERRIN.

Some Nice Peaches

Carl Zeibig brought the News some very fine peaches Tuesday which were grown on his place north of town. Some of them measured nearly 9 inches in circumference.

As a rule when there are any peaches in the country Carl has some in his orchard. This may be accounted for by reason of the fact that the orchard occupies a high place and is not affected by the late cold spells in the spring. This year, however, there are some scattering peaches all over the country, but not a big crop. Carl says there is not much profit in trying to grow peaches but they are nice to have on the place. He is right about that. Speaking from the point of view of the commercial value of the peach industry, this is not a peach country, but they are nice to have on the place. Because from the orchard one can put up many cans for winter use, and occasionally have a "tobler," and these go a long way towards lessening the expense of living. Some folks had rather have a mesquite tree in the back yard than a peach tree, but a mesquite shows little profit to its owner until it is dug up.

THE BURDEN OF PROOF RESTS ON REV. NORRIS

Rev. J. Frank Norris seems to have been responsible for the report that Judge James C. Wilson, Judge of the Federal District of Northwest Texas, was seen dining and drinking in a bootleg restaurant in Fort Worth. Judge R. W. Hall of Amarillo took occasion to refer to this before his Sunday School class in Polk Methodist church in Amarillo. The matter was reported to Judge Wilson who denounced the report as an infamous slander. Judge Hall looked to Rev. Norris for proof but failing to receive this made a public apology through the columns of the daily press for what he had said about Judge Wilson. Mr. Norris, however, states in his paper, the Searchlight, that the proofs were forwarded to Judge Hall, and adds that when his son, who is now sick with an attack of typhoid reaches a condition that will justify his leaving home he expects to go to Amarillo and make a speech relative to the matter. Mr. Norris makes the proposition that if he fails to submit conclusive proof of his charges against Judge Wilson he will resign as pastor of the First Baptist church at Fort Worth provided Wilson will agree to resign as Federal Judge in case the proof is submitted.

This seems to be a fair proposition, and there is some indication of further interesting developments in regard to the matter. If Norris has the goods on the judge the people ought to know it. If he has not, then Norris ought to have his mouth closed for talking about people.

All Over Texas

Robert H. Russell, aged 30, an insurance man of Dallas, was almost instantly killed Saturday when he slipped on a banana peel in the lobby of the sixth floor of an office building, lost his balance, fell over the banister of the stairway and landed on his head at a second floor landing.

Camping grounds have been purchased in the Palo Duro Canyon for an annual assembly of Panhandle Baptists. Summer residences will be constructed and a road will be built from Canyon to the grounds before the meeting of 1923. Plans have been made for a \$10,000 tabernacle.

Two Dallas girls fought a duel over a man recently. It seems that both the girls wanted the man and he was willing to take either, but preferred that they settle the matter. As a result of the duel one of the girls went to a hospital, the other to jail, and the man left the country.

Burk Burnett has sold his school bonds in the amount of \$150,000 to a Chicago firm at a premium. This money is for the construction of a new school building. That city has 2,300 scholastics and employs 58 teachers.

Memphis, Texas, has commenced on a paving program that includes eighteen blocks in the city. The work is to commence within 30 days.

Goes to Howard Payne

Prof. Dow W. Tate left Sunday for Howard Payne college where he will do work this summer looking to the procuring of his A. B. Degree. With the work he has already done he feels sure that with two and a half months this summer and the same next summer he can complete the work that will entitle him to the degree. A degree from Howard Payne is equal to a degree from the State University, since Howard Payne is a senior college. After Mr. Tate completes the work in that institution for an A. B. Degree he expects to take the A. M. Degree at the State University.

Wants The News

S. M. Lundy of Minco, Okla., sends his order for a renewal to the Foard County News, saying that it always brings him interesting news from Crowell where he made his home for a long time. Mr. Lundy says he has 50 acres of corn that is waist high but says that wheat will not make much. Oats were a failure. He says also that he is milking six cows and sells weekly from \$8.00 to \$10.00 worth of cream.

Fourth of July Rodeo

A rodeo will be held at Crowell July 4th, consisting of bronc riding, steer riding and other amusements. \$10.00 will be given to the man who brings the best pitching horse.—J. E. Easley manager.

WATER SUPPLY DOES NOT WEAKEN

While Not All People Are Using Water Those Who Are, Use Freely

The people of Crowell are now using out of the city wells about 15,000 gallons of water a day, or approximately 10 gallons per capita. Of course, only a portion of the people have tied on, just what percent we do not know. Perhaps not 50 percent. They are tying on, however, every day, and will doubtless continue until practically all are taking water.

The supply does not seem to be touched by what is being used. The standpipe is kept full practically all the time and the 75,000-gallon reservoir, which is 15 feet deep, has never been lowered more than 10 inches, and within three or four hours it is again up to the top. This information is given us by Joe Walker, who operates the pumps and knows more than any one else just how much water is being used.

There were some who thought we would not have a supply of water from these wells, that after the first two or three days pumping they would be dry and Crowell would again be without water. If there had ever been any perceptible diminution in the quantity as the wells were being developed there might have been some reason to fear that a shortage would result sooner or later. All facts relative to the matter have indicated and do yet, that we have an abundant supply, and everyone who has a hydrant in his yard is proud of the fact that he can shoot a stream of water to the top of his house or to the limit of his property any time he wants to.

We predict two years from now that everybody will have water and most of the citizens of Crowell will have beautiful homes surrounded with shrubbery and lawns as attractive as those of any town in West Texas. It will take only a little time for that. Then Crowell will be to those who have made it, the most attractive place in the world, as it ought to be. One of the things that is giving Foard County just now more good advertising than any other one thing is its good roads. That which is going to give Crowell much good advertising in the future is its fine water system and abundant supply of pure spring water coming from the hills west of us.

DID YOU EVER SEE A COPY OF "WHIZBANG?"

After the carnival left Sunday morning one copy, at least, was picked up on the grounds where the carnival was held. This is a matter of interest because of the fact that in Arkansas only recently a man was arrested and fined in the amount of \$100 for selling "Whizbang," a book that has been printed. We are not reflecting on the carnival people, but it looks like somebody was allowed to carry this stuff along. The carnival company ought to get rid of any one who would dispense such printed matter, if indeed that was done.

Will Have Rodeo

The question has been asked from time to time of late as to whether Crowell would have a rodeo again this summer. That question can be answered in the affirmative now. J. B. Easley is taking the management of a proposition of that kind this summer and is announcing a rodeo for July 4. Mr. Easley is the logical man to handle a rodeo and will make it a success if any man in the county can do it. But that will not be a difficult proposition. A rodeo is always popular in Crowell, and we can have as good one here as anywhere in the West. The truth of that was shown by last year's experience.

FERGUSON TO SPEAK HERE

The News is in receipt of a notice to the effect that Ex-Gov. James E. Ferguson will speak in Crowell Friday evening, June 23, at 8:00 P. M.

Mr. Ferguson is going before the people of Texas in the interest of his campaign for the United States Senate and is entitled to a hearing from the people.

Receive Permanent Commissions

Major Claude Adams, Captain Q. R. Miller, Lieutenants Seales, Arp and Mitchell were in Quanah last week where the four latter officers took an examination and received permanent commissions. Dr. Hires Clark and Decker Margee were also in Quanah.

HIGHWAY CONVENTION COMES JULY 4-5

Delegates Will Go in Long Automobile Caravan from Fort Worth to Las Vegas

The second annual convention of the F. F. F. Highway Association will be held at Las Vegas, N. M., on Tuesday and Wednesday, July 4th and 5th. Embracing these two days with July 3 as its beginning, will be held the famous National Cowboy's Reunion in the same city. It has been arranged, however, that the two conventions may be held without conflicting with each other.

Information from publicity headquarters of the F. F. F. Highway Association is to the effect that the indications point to the greatest good roads meeting ever held in the Southwest. Not only will hundreds go because of their interest in the good roads meeting or the rodeo, but many will go principally for the fine hunting and fishing grounds offered by that country, as well as for the magnificent scenery of the New Mexico Rockies.

Delegates will go to the convention in a long automobile caravan, which will leave Fort Worth June 29. The caravan will be led by Ford Shook, president of the FFF Highway Association. At each town along the route additional delegates are expected to join it. Night stops will be made at Graham, Crowell, Plainview and Fort Sumner. This will make Crowell the stopping place on the night of June 30. So that those who fall into the caravan at this place will be ready Saturday morning, July 1, to proceed westward.

The governor of New Mexico and other distinguished citizens will be guests at the convention. The city of Las Vegas is making elaborate preparations to show visitors the time of their lives.

Women will have a prominent part in the convention and many of them will make the trip to Las Vegas with the caravan. Some towns on the route plan to send as many as fifty automobile loads of delegates to the convention.

The F. F. F. Highway is now recognized as one of the leading tourist routes in the Southwest. It is unique in that it has been promoted solely by the towns along the route and because no membership or other dues have been collected to maintain the association.

LAND PRODUCES AT RATE OF \$55 PER ACRE

According to figures given the News Saturday, S. M. Tole of Thalia, has six acres of land that will give him a gross profit of \$55 per acre. The land is growing alfalfa. He has already cut the first crop and put up 165 bales. He figures on getting at least four cuttings. If all the crops are as good as the first, it would mean a yield of 660 bales, or a revenue of approximately \$330 on the six acres.

This is a crop that does not do so well on the tight land as on the sand in the Pease River valley which might produce alfalfa with greater profit than any other crop. Several of the sandy land farmers are turning more attention to alfalfa than formerly. One of these is John Ray whose place is near Rayland. He finds it is much more profitable than wheat or cotton and is this year producing fine crops of alfalfa on an increased acreage.

Masons Elect Officers

At the stated meeting of Crowell Lodge, No. 840, A. F. & A. M., on Monday night of last week, the following officers were elected for the ensuing year:

Q. R. Miller, worshipful master; A. R. Sanders, senior warden; M. N. Kenner, junior warden; Leo Spencer, treasurer; L. A. Andrews, secretary; A. M. Loughmiller, tyler; Sam Russell, senior steward; Dr. Hart, junior steward; Jim Cotten, senior deacon; Glenn Shults, junior deacon.

At the regular convocation of Crowell Chapter, No. 276, Royal Arch Masons, on Friday night of last week the following officers were elected:

T. B. Klepper, high priest; W. S. J. Russell, king; H. Speck, scribe; Leo Spencer, treasurer; L. A. Andrews, secretary; A. M. Loughmiller, guard.

George Self and Mrs. Marie Earp were in Paducah Thursday night of last week to attend the wedding of Miss Lenora Sneed of that place and Snyder Atwell of Dallas.

HE'S STARTING OUT JUST LIKE HERO IN HORATIO ALGER BOOK

Horatio Alger and other reliable story writers have it that all the real Simon-pure millionaires started out as newsboys or bootblacks.

Frank Perkins, 117 West Thirtieth street, was seized with the ambition to be a capitalist.

So a year ago, when he was 8 years old, Frank began selling The Kansas City Post at Thirteenth and Walnut streets, thereby fulfilling the first requirements of the budding Croesus.

But it seems there is another necessity in the race of wealth—thrift.

Well, Frank had it. He sold Posts and he saved his money.

And now, at the age of nine, he has \$100 in the bank and holds a note for \$100, all earned by selling The Post.

But that isn't all. In addition to earning money, young Perkins goes to school every day. What's more, in the last 10 months he has run through two years work in one.

A few more years, hence, at the present rate, Frank Perkins will be president of a railroad or something.

(Note—The above article was taken from The Kansas City Post and Frank Perkins is a nephew of Mrs. Frank Hill of this city and the youngster spent a year in the home of Mr. and Mrs. Hill about two years ago, and will be remembered by many Crowell people.)

The Texas Highway Situation

The conference report on the measure which provides for Federal aid in the construction of highways by the States has been filed in the House and it should be passed in the near future.

The bill authorizes the appropriation of \$50,000,000 for this purpose for the fiscal year 1923, \$65,000,000 for the fiscal year 1924 and \$75,000,000 for the fiscal year 1925. The bill provides specifically that Federal aid in the construction of highways will be given only where the Federal money is matched by State money (not county money), and where the project is part of a State system, constructed under the direction of the State Highway Commission and is maintained by the State. Moreover, it provides that where the State fails to maintain a highway constructed with Federal assistance, the Federal Government shall step in, put the road in repair, charge the cost up against any part of the Federal road fund due that State, and shall not approve any more projects from that State until the Federal Government has been reimbursed for such money spent on repairs.

In Texas the authority to expend money used in highway construction is now vested in the County Commissioners' Court of each county, and obviously the above provisions would cut Texas off from Federal aid in constructing a State highway system. These provisions were also in the highway act of last year, but the amendment was adopted giving Texas a certain period to get into line. The new measure contains the following provisions:

"That in any State where the existing constitution or laws will not permit the State to provide revenues for the construction, reconstruction or maintenance of highways, the Secretary of Agriculture shall continue to approve projects for said State until five years after Nov. 9, 1921, if he shall find that said State has complied with the provisions of this act insofar as its existing constitution and laws will permit."

That means if we are to continue to receive Federal aid in the matter of creating a State system of highways we must put ourselves in shape to meet the provisions of the Federal highway law within the next four years.

We ought to do this, not merely because the Federal Government requires it, but for the same reasons that have led Congress to place those provisions in the law. Federal aid is given, not merely for the purpose of creating county roads, but for the creation of 48 connected State highway systems which, when completed, will form one national highway system. Experience has shown that there will never be a connected system of uniformly improved highways in Texas so long as dependence must be had upon counties and road districts to build such a system piecemeal. Most of the other States in the Union are building such systems, but Texas, while it has more mileage of improved roads than California, for example, is as far from having a system of highways as ever, because of gaps running through counties which are

WHEAT HARVEST IS ALMOST FINISHED

Weather Conditions Have Been Favorable and Wheat Is Up in Good Shape

Only in a few instances where there are green spots or late patches of wheat will there be much harvest after this week. Grain men are now getting ready to commence threshing and the last of next week will witness some threshers going. If the weather remains as at present a short time will be required to put the entire crop into the granaries.

The crop, it is thought, will aggregate more than half of what is usually produced in the county, which might be placed at from 300,000 to 400,000 bushels.

Farmers are not expecting this year's wheat crop to be a big revenue producer, because of the short crop and because of the indications that the price is not going to be as good as desired. Within the last few days the price has tended to the decline, staying around a dollar, basis. According to government reports there is a big surplus of wheat, which accounts for the low price at this time.

Beware of Fakers

There have always been fakers and always will be. And these have always found their victims. Few can say truthfully that they are immune from them. They get most of us some time in life.

The fakers we have now are what we call modern fakers. Those who preyed upon the public 2,000 years ago were modern then. There is no difference in the modern faker and the ancient faker. The principal of operation is the same—getting money from the public without giving value received. The methods employed may differ but the swindling is just the same old thing.

The Farmer Stockman of June 10th, carried an item relative to some fellows going through a portion of Oklahoma selling Bibles at \$12.85 without a cent of money down, with the promise of delivering the goods at some future date. Notes were taken from the parties to whom the Bibles were sold. The result was that the agents skipped the country after having sold the notes and got what money they could and the Bibles were not delivered as the agents promised to deliver them.

Almost any one knows that it is bad business for one to give his note for something forthcoming. There are a few rules by which the public ought to be guided in matters of this kind. One is, as stated above, not to give a note for something not actually in hand, unless purchased from a well-known party whose honesty is unquestionable. Another is never to sign a paper for a stranger.

The whole trouble comes from the fact that the public listens to the smooth tongued salesman and plays the part of suckers. It pays to have the grit to say "no."

J. A. Long Dead

J. A. Long of Thalia died Thursday of last week at the age of 82 years and 10 months. He had lived out his life and died of ailments incident to old age, passing out quietly.

Mr. Long came from Weatherford to Crowell 13 years ago and has made his home here since. He was the father of several children, among them being Jim, Walter and Frank Long, well known Foard County citizens. The body was shipped to Weatherford Saturday for interment.

Further information relative to Mr. Long will be published in the News in next week's issue.

either unable or unwilling to improve their parts of the highways. If we permit this situation to continue we shall wake up some fine day and find a national system of highways, with Texas the only State outside of it.

The Texas Highway Association has been organized to meet this situation and to insure that a State system of highways will be constructed. Every good citizen who desires to assist, even by his moral support alone, in this work should join the association. It costs only a small membership fee—the minimum fee being \$2 a year—but if all the friends of progress join it, it will accomplish a mighty work for Texas and for the country as a whole.—Fort Worth Star-Telegram.

THALIA ITEMS (By Special Correspondent)

Mrs. Ora Harris of Crowell is visiting here this week.
Otto Schroeder purchased a new Dodge car Thursday.
Mrs. Bennie Bradford has been quite sick for several days.
Bill Short is chopping cotton for Tom Abston this week.
Fred Rennels and family of Crowell visited relatives here Sunday.
Mr. Farrow and family of Rayland attended church here Sunday.
Walter Carr and children visited relatives in Crowell Saturday.
Mrs. Fred Woodruff left Saturday to join her husband at Alvord.
Mrs. Will Chapman and children were shopping in Crowell Monday.
Mrs. Grover Nichols and children were shopping in Crowell Monday.
Elmer Lee Brimberry of O'Brien visited Luther Ward and family last week.
Miss Kittie Belle Smith of Gambleville attended church here Sunday night.
Dan Roberts of Clayton, N. M., visited his sister, Mrs. Walter Long, here Sunday.
Messrs. Dunangan and Thompson of Crowell were writing insurance here Monday.
Mrs. B. F. Ringgold of Crowell attended the funeral of John A. Long here Friday.
Mr. Ashbey of Crowell is hauling oats to Crowell for J. G. Thompson this week.
Rev. McNair and family returned home Saturday from Abilene where they visited relatives.

Mr. and Mrs. Frank Pittillo visited relatives in the Bell community Thursday of last week.
Mrs. Mills of Paducah and sister, Mrs. Peacock of Gambleville, attended church here Sunday.
Elder J. T. Cabe of Electra filled his regular appointment here Saturday, Sunday and Sunday night.
Tom Ward of near Plainview passed through here Monday en route to Crowell with a load of peaches.
W. D. Burress and daughter, Miss Knoxie, spent several days with his son, Henry and wife, of Crowell last week.
Walter Banister and family visited Mr. and Mrs. Huskey who live on his farm north of town Thursday evening of last week.

Oran, the oldest son of Mr. and Mrs. Will Chapman, happened to the misfortune Wednesday of getting his arm broken cranking a Fordson.

Cora Mae arrived Friday of last week to bless the home of Mr. and Mrs. Arthur Phillips. Mr. Phillips is the well known garage man of Thalia.

Mrs. Schroeder and son accompanied her daughter, Mrs. Fred Woodruff, to Vernon Saturday where she took the noon train for her home at Alvord.

Mrs. Jno. Ray and daughters of Rayland and Mrs. Schindler and daughter of Crowell were the guests of Mrs. Otto Schroeder last Friday afternoon.

Mrs. Jas. Garrett of Tulia, Mrs. Dee Howard of Okla., Mrs. Jas. Long of Crowell, Mr. and Mrs. Sam McLarty of Vernon, were here last week on account of the serious illness and death of their father, John A. Long.

On Sunday, June 11th, the beautiful home of Mr. and Mrs. Homer Wilhite was the scene of a merry party of relatives who gathered to celebrate the 14th wedding anniversary of Mr. and Mrs. Frank Pittillo. Mr. Pittillo is the father of Mrs. Wilhite. As the noon hour drew near they were ushered into the dining room where the table laden with good things to eat greeted them. The best of all, this celebration was a surprise to Mr. and Mrs. Pittillo.

Seldom was a community saddened more than this last week when on Wednesday the death angel entered the home of W. D. Burress and took from him his beloved wife. The funeral services were conducted at the Methodist church at Crowell after which the body was buried in the Crowell cemetery. On Thursday the spirit of John A. Long, father of Frank and Walter Long of this city, quietly took its flight to the great beyond. Funeral services were conducted in the Baptist church here of

TRIP AROUND THE WORLD

"The trip around the world," given last week by the T. E. L. Class of the Baptist church was enjoyed by a large crowd. About 100 people took the trip.

The Baptist church represented the union station, and from there the tourists were taken in cars to the home of Mrs. B. W. Self which represented Japan. The committee at this place was Mrs. L. D. Campbell, Mrs. J. W. Allison and Mrs. Self.

The next country visited was Ireland and it was represented at the home of Mrs. R. B. Edwards. The committee consisted of Mrs. Archie Williams, Mrs. L. A. Andrews and Mrs. Edwards.

Mexico was represented at the home of Mrs. A. E. McLaughlin, the committee being Mrs. Pearl Carter, Mrs. W. W. Griffith and Mrs. McLaughlin.

Our own country—America—was represented at the home of Mrs. T. N. Bell, and Mrs. Lucy Woodard of Paducah represented Uncle Sam. Here the committee was Mrs. H. Speck, Mrs. Albert Dunagan and Mrs. Bell.

Returning to the union station an interesting program was rendered.

Daugherty and the War Frauds

What is all this row over Attorney General Daugherty about? He asked for a special appropriation of \$500,000 from Congress in order to prosecute war grafters, and he got it. But before he commenced the prosecutions the Senate seethed with denunciations of the Attorney General. Most of the attacks on him are based on the fact that he formerly represented C. W. Morse and obtained his release from the Atlanta prison. Morse was a millionaire and was convicted of crookedness, and as soon as he got out of Atlanta on the representation that he would die anyway, in a short time he began to get well. Of course if Morse had died it would have been different—and saved trouble. The affair seems to be an old law case in which no improper action has been proved against Daugherty. The Federal judicial grist will soon be grinding, and those who know war graft conditions pretty well will recall that immediately following the war there were numerous investigations, many of which showed terrible waste of public moneys, but there were not many instances where the facts warranted laying charges of fraud against contractors. Daugherty is a

AND ENAMELS

Why not bring out the hidden beauties of your home?

HAS long association with your rooms and furniture blinded you to their decorative possibilities?

Those scratched chairs; that marred floor; those stained and scraped panels—all can be made just as attractive as those in your neighbor's newly furnished house.

Shabby surfaces can be brought back to their original beauty by the use of Devos Mirrolac. Easily applied; lustrous and durable.

DEVOS PRODUCTS are time tested and proven—backed by 116 years' experience of the oldest paint manufacturing concern in the U.S. Founded 1754.

Killed in Kansas.

An Emporia hunter has killed a bird which seems to be a combination of duck, goose and buzz saw, being the size of a goose, having the appearance of a small teal, and boasting a saw-tooth bill. Without doubt it is the well-known carpenter-bird which was common in the district south of Emporia in the days of our youth. A closer inspection will reveal that it has a hammer-shaped head and nails on its toes. It saws boards with its bill for its nest and nails them together, and goes on strike during the busy season.—Kansas City Star.

WEBER

All Weber wagons are built with the patented fifth wheel. No matter how heavily loaded the wagon is, nor how sharp a turn is made, the bolster cannot rock back and forth.

The Webers are built for service in a hot climate, subject to a long dry period and hot winds.

WHEELS—Rims are doubled riveted and are of a special grade throughout.

TIRES—All tires are oval edge of a splendid quality of steel and extra heavy sizes.

City Meat Market

Carries everything in the line of an up-to-date meat market, together with packing house meats such as Boiled Ham, Mince Ham, etc., except beef. Also carry Pure Hog Lard, the kind your mother used to make during hog-killing time. Come in for a fresh tender steak of beef or pork for dinner, or maybe it's pure hog sausage you want. If so the City Meat Market is the place to get it.

F. J. MEASON, Proprietor

THE FOARD COUNTY NEWS

KIMSEY & KLEPPER, Owners and Publishers

Entered at the Post Office at Crowell, Texas, as second class matter.

Crowell, Texas, June 16, 1922

The chairman of the State Highway Commission of Texas advocates the appropriation of the entire amount of the automobile license, augmented by the addition of a tax of 1 cent a gallon on gasoline, as a means of financing the construction of highways in Texas. The people of Texas may not generally realize the importance of the State's raising a road fund to match that of the Federal Government. Unless the state does this, says the chairman, Texas will be unable to obtain the Federal aid. A new law passed last November provides that a separate fund be set aside by all the states to match the Federal appropriations. County funds can not be used under the new law. Texas and Arkansas are the only two states that prohibit taxes being levied and bonds voted as acts of the states for the building of highways. The big slice of Federal aid Texas is to get is conditioned on what we do to dig up the money, not as localities, but as a state.

In a resume of business and financial conditions made by the Federal Reserve Board, the conclusion is reached that financially the month of May was a period of comparative stability. No changes in discount rates took place at the Federal Reserve Banks and rates in the open market continued distinctly below those prevailing at the local Federal Reserve institutions. The report is that foreign trade shows a distinct tendency to improve. Among domestic developments the striking event was the announcement of a cut of 10 per cent in railroad rates by the Interstate Commerce Commission. All of which looks like we are getting back to normal where conditions may be stabilized and proper and equitable adjustments made in our economic relations.

According to a decision by the State committee, James E. Ferguson's name is allowed to be placed on the state ticket but not only can his former supporters not vote in the democratic primary, but Ferguson himself will be barred from voting. It looks like Mr. Ferguson ought to be received back into the party after he has come with a repentant heart and asked to be admitted back, and why not admit him as a Democratic voter if he is going to be placed on the ticket? This action is on par with that of Georgia when the Democratic State convention repudiated the Wilson administration and endorsed Cox, then capped the climax by electing Tom Watson to the Senate.

Arrangements for broadcasting weather, crop and market news by radiophone from Memphis, Tenn.; Jacksonville, Florida; Roswell, New Mexico; and Milwaukee, Wisconsin, have been made by the United States Department of Agriculture. This will make 41 stations in the United States from which agricultural news is being broadcast by radiophone. The radio news service of the Department of Agriculture was started in an experimental way less than 18 months ago. So that while it has its value as an entertainment proposition, it also has its practical value as an aid to the public in a commercial sense.

The railroads of Texas have agreed to a reduction of rates and on July 1 new rates will go into effect. The reduction will be great enough to make the increase of Aug. 1920 21.5 per cent instead of 35 per cent as was

ordered by the Interstate Railroad Commission. This will amount to a substantial reduction and will take quite a burden off the shoulders of the public. Freight rates have had much to do with keeping the cost of living up.

Mrs. Maude Hinds Wins in Color Scheme Contest

If you read the ad in last week's paper over the signature of Ferguson Bros. on the last page of the main section of the paper you saw that you were invited to come to their store on June 12, 13, 14, one or all of those days, to see the Devoe Interior Decorating Demonstration.

Miss Iris Kent, the demonstrator, was here and gave some demonstrations of painting and decorating that were valuable to the housewife. Quite a number of people attended and Mrs. Maude Hinds won the \$10.00 prize in the contest for the best color scheme.

Any one who may have used the opportunity of visiting the drug store one of these days was convinced of the fact that the purchase of a little paint and varnish may mean the saving of hundreds of dollars because of the beauty that one can add to the old furniture and thereby save buying new stuff.

Mrs. G. C. Boswell and small daughter, Helen, came in last Friday from Byers to visit the former's parents, Rev. and Mrs. W. M. Murrell. Mr. Boswell came Wednesday of this week and the family will be here for two weeks.

A letter received last week from Henry Tanner, Wheatland, Wyo., contained a check to pay for the News one year. Mr. Tanner stated that they witnessed May 10 one of the biggest snow storms in years. A large number of stock was lost as well as human lives. One company lost four thousand sheep and three men. Snow drifts were 60 feet deep.

Mr. and Mrs. R. B. Sherrill left Thursday for Dallas where they will spend a few days attending the commencement exercises of Southern Methodist University. They will be joined by their daughter, Miss Thelma, who is a student in that school. The party will then go to Commerce for a visit of two weeks with Mr. Sherrill's brother.—Vernon Record.

J. W. Klepper came in Tuesday afternoon from Mineral Wells where he spent the winter. He came through in his car, spending Monday night at Munday with his son, John, and family. Mr. Klepper is in fine health, weighing 200 pounds, the heaviest he has ever been. He says the roads from here to Benjamin are fine.

Miss Lourana Cope of Dallas and Mrs. J. H. Cope and small daughter, Marjorie Ann, came over Monday from Qanah to visit friends and relatives. Mrs. Cope returned home Tuesday, and Miss Cope went to Seymour yesterday to visit her parents, Mr. and Mrs. J. W. Cope.

Mrs. N. A. Crowell and granddaughter, Katherine Crowell, came in Sunday from Breckenridge. Mrs. Crowell made a visit of several weeks in the homes of her sons, Grover and Ben.

For Sale—Alfalfa hay at 40c and 50c per bale at press. Call B. D. Webb, Thalia.

J. F. Witherspoon is here this week from Guthrie.

YOUR HOSE MILEAGE.

Girls! What mileage does your hose yield on the waxed floor of your favorite dancing palace?

Fifteen miles on one pair of ordinary silk hose is the record established by Mrs. Laura Phelan, former instructor in dancing for the Detroit recreation commission.

She has figured it all out—how many steps she takes during an ordinary dance, and the length of each step.

The average working girl who visits a public dance an evening or two a week dances three miles on each such occasion, Mrs. Phelan says. Figured on that basis, a girl can attend five dances with one pair of stockings.

If a dancer can get 15 miles out of a pair of stockings, the average woman should be able to walk 45 miles before they are worn out, Mrs. Phelan believes.

To Attempt World Flight.

London regards with admiration Sir Keith Smith and his brother, Sir Ross Smith, who, two years ago, flew from London to Australia, covering the 11,294 miles in just under 28 days, and who now announce that they have begun preparations for a flight around the world.

The distinguished brother aviators are not after the long non-stop flight record. They feel that aviation will develop itself on routes upon which stops are possible. What they wish to prove is that there are practicable means by which every section of the civilized earth can be reached by flight, just as they now are reached by ship and train, and that this can be done at an immense saving of time and perhaps of actual cost of transportation. Fortunately for themselves and the cause they advocate so energetically the distinguished Smith brothers have plenty of money with which to demonstrate their theories.

ASPIRIN

Name "Bayer" on Genuine

Warning! Unless you see the name "Bayer" on package or on tablets you are not getting genuine Aspirin prescribed by physicians for twenty-one years and proved safe by millions. Take Aspirin only as told in the Bayer package for Colds, Headache, Neuralgia, Rheumatism, Earache, Toothache, Lumbago and for Pain. Handy tin boxes of twelve Bayer Tablets of Aspirin cost few cents. Druggists also sell larger packages. Aspirin is the trade mark of Bayer Manufacture of Monoaceticacidester of Salicylicacid.

Regardless of the work Cletrac "F" will do it

After the plowing, planting and row crop cultivating is over, Cletrac "F" steps right into the harvest field with an 8-foot binder. Its sure-footed, crawler-type traction carries it swiftly over soft ground and bogs, finishing the harvest before over-ripe grain begins to shell.

For an all year worker at any kind of farm job, Cletrac "F" leads the tractor world—both as to low cost and service rendered

At "F" demonstrations, farmers who know say, "that's the tractor for me."

See us about a demonstration of the "F" right on your own farm.

M. S. Henry & Co., Crowell, Texas

Mrs. A. E. Propps and daughter, Lora Gene, were here the first of the week from Benjamin visiting friends and relatives. Mr. Propps came up Tuesday afternoon in his car and the family returned home late in the afternoon.

Mr. and Mrs. Murry Martin and little son, H. M., and T. B. Klepper went Cottle County last Sunday afternoon and spent the night with Mr. and Mrs. J. H. Thomson, returning home Monday morning.

Miss Ruby Brannon of Fort Stockton came in yesterday for a visit with Miss Lela Womack. She came by Dallas where she visited her father who is undergoing treatment for his eyes.

WEAK, NERVOUS, ALL RUN-DOWN

Missouri Lady Suffered Until She Tried Cardui.—Says "Result Was Surprising."—Got Along Fine, Became Normal and Healthy.

Springfield Mo.—"My back was so weak I could hardly stand up, and I would have bearing-down pains and was not well at any time," says Mrs. D. V. Williams, wife of a well-known farmer on Route 6, this place. "I kept getting headaches and having to go to bed," continues Mrs. Williams describing the troubles from which she obtained relief through the use of Cardui. "My husband, having heard of Cardui, proposed getting it for me. I saw after taking some Cardui that I was improving. The result was surprising. I felt like a different person.

"Later I suffered from weakness and weak back, and felt all run-down. I did not rest well at night, I was so nervous and cross. My husband said he would get me some Cardui, which he did. It strengthened me. I was in good luck I got along fine. I was in doctor said I was in good healthy condition. I cannot say too much for it."

Thousands of women have suffered as Mrs. Williams describes, until they found relief from the use of Cardui. Since it has helped so many, you should not hesitate to try Cardui if troubled with womanly ailments. For sale everywhere.

Mr. and Mrs. Leo Spencer and family, accompanied by Miss Mineola Nash, made a trip to Stamford last week to visit Mrs. Spencer's relatives. They returned Friday, accompanied by Mrs. Spencer's sister, Miss Berta Markham.

Mr. and Mrs. L. R. Thompson of Merkel spent the week-end with Rev. and Mrs. W. M. Murrell. Mr. Thompson is a banker of that city. He made an interesting and instructive talk to the young men's class of the Methodist Sunday School Sunday morning.

Card of Thanks

FORGOT HIS CAB WAS THERE

Absentmindedness of Sir Herbert Tree Was a Matter of Some Expense During Year.

Mr. Fitzroy Gardner was Sir Herbert Tree's manager for many years, and tells some good yarns about the famous actor, who was often absent-minded.

"On one occasion, on leaving a house, not noting that there was a cab waiting, he hailed another and drove off elsewhere, the first driver, who knew his fare, following behind. After the next call he hailed a third cab, and so the actor arrived at his theater leading a little procession of cabs, and all three had to be paid for.

"When riding back to London from a country house near town where he had been spending the week-end, he became impatient, and stopped at a wayside inn, left his horse there, and hired a dog-cart for the rest of the journey. He quite forgot that he had not brought his horse back to the livery stable where it had its home until, several days afterward, it was led up to the stage door of the Haymarket theater. Its owner having been recognized by the innkeeper," Edinburgh Scotsman.

A Wise Chicken.

In a west side school the pupils of the eighth grade were studying about the different Presidents of the United States. They had just finished Jefferson's administration, and Miss D., the teacher, asked:

"President Jefferson was known as what?"

Harry was quick with the answer. "He was known as the Sage of the Age."

Before the teacher could ask another question, a hand shot up and a small boy asked:

"Miss D., what does sage mean?"

Harry was permitted to answer this one, too, and he said:

"Sage means wise."

Whereupon the small boy asked:

"Well, what's a sage hen, Miss D?"

Before she could explain, she was shocked to hear Harry, with disgust in his voice, turn to the small boy and say:

"Why a sage hen is a wise chicken, of course."—Indianapolis News.

THE FERRIS WHEEL FELL

It was not ours—or rather the one which was at Crowell last week—it could not have been. This one was in Washington City overlooking the placid waters of a gentle stream, when suddenly the wind blew up and turned the thing over, killing three persons and injuring a large number of others. The capacity of the wheel was 50 persons.

The same fate might have come to some of those who rode ours—that is the one we had at Crowell—or the one they had at Crowell. But fortunately none lost their lives here—they only lost their money.

Presbyterian Church Services

Sunday School meets at 10 A. M. Last Sunday we had a decided increase in attendance; let us do still better next Sunday.

Preaching at 11 A. M. and at 8:15 P. M. Prayermeeting and Bible study on Wednesday evening at 8:30.

Opportunity will be given at the morning service for any who desire to come into church membership. The public is cordially invited to come and worship with us.

We Offer You

Quality Groceries

It means economy, satisfaction, good living for you to buy such goods. The grocery demands of the harvest and threshing season will have as much bearing on quality as any other season. Groceries that are groceries are essential to the best possible physical strength and endurance during the long and toilsome hours.

In making our purchases our immediate profit is not considered—it is your welfare and your permanent trade.

We are consistent, therefore, in requesting your trade.

Preserving Eggs for Home Use

By F. W. Kazmeier, Poultry Husbandman, A. & M. College of Texas

As a general rule eggs drop in price during the spring and summer months, and go up in price during the fall and winter months. For this reason it has been found practical to preserve eggs when they are cheap, for home consumption, when they are high in price. It is not practical to preserve eggs as a commercial undertaking, because the eggs must be sold as preserved eggs and not be sold as perfectly fresh ones. Preserving low priced eggs for home use makes it possible to sell the high priced eggs in the fall and winter.

Kinds to Preserve

Infertile eggs are the only ones to preserve, and these infertile eggs should be perfectly fresh. In warm weather they should be collected twice a day and placed in the preservative as they are collected. Dirty shell eggs or bad eggs or cracked ones should not be preserved. Eggs that float when placed in the solution are not fresh and should be discarded.

When the shell of the egg is only slightly soiled, a cloth dampened with vinegar may be used to remove such stains. When eggs are purchased they should be carefully handled because one bad egg may spoil the rest in the container.

Methods

Of the various ways of preserving eggs, the water glass method is considered the best. The present price of sodium silicate (water glass) is from 25 to 35 cents a quart. At this price it will cost approximately 3 cents per dozen to preserve eggs. Do not use the solution a second time.

Use one quart of sodium silicate to nine parts of rain water that has been boiled and then cooled. Place the crock containing the eggs in a cool and dry place, well covered to prevent evaporation. Two or three sheets of waxed paper covered over and tied around the top of the crock will prevent evaporation. Eggs may be placed in the solution as gathered. At least two inches of the solution should cover the top eggs. If evaporation reduces the liquid add enough to keep the required two inches above the eggs.

Lime Water Method

Sodium or water glass can be purchased in most any drug store, where it is impossible to get this, the lime water method may be used. This is not considered quite as satisfactory as the water glass method, because in some instances eggs so preserved have tasted slightly of lime. This may be due to the fact that some eggs have more thin and porous shells, allowing the solution to penetrate through the shell.

Shake two pounds of unslacked lime with a little water and add five gallons of water that has been boiled and allowed to cool. Allow the mixture to stand until it appears clear and the lime has settled. Then dip the clear lime water out and pour over the eggs until the top layer is covered by two inches of the mixture. We prefer an earthenware jar for the container.

Using Preserved Eggs

Use the preserved eggs that were put up in the solution in the summer first, because they will not keep as long as those preserved in the spring. Eggs will keep from spring until winter in either of the previously described preservations. Before boiling preserved eggs, puncture a small hole in the large end of the egg penetrating the air space, thus allowing the air in the egg to escape when heated and prevent the cracking of the shell. The yolk and white of preserved eggs do not possess the firmness of fresh eggs. Age deteriorates the membranes. Preserved eggs do not possess the firmness nor the flavor of fresh eggs.

Selling Preserved Eggs

Preserved eggs cannot be sold as fresh eggs. They must be sold for what they really are. They are chiefly for home use, are also an economical factor in reducing the cost of living. Eggs in the spring selling for fifteen cents a dozen may be preserved at additional cost of three cents and used when fresh eggs are selling for at least fifty cents and sometimes more per dozen. Storing eggs as a commercial proposition requires cold storage facilities.

Cold Storage Eggs

Storing eggs in cold storage is a business in itself. The great danger lies in the fact that when eggs are purchased a certain percentage are bad, unless they are removed by careful handling, they are apt to spoil the entire case. A cold storage plan can only keep the egg the way it is put in. The charges are reasonable but the danger lies in the fact that it is difficult to buy good fresh and infertile eggs for cold storage use.

Mexico Trying to Qualify

Mexico has a foreign debt of \$700,000,000 upon which it has made no payment of principal or interest since the murder of Madero. The present administration of that Republic is seeking financial rehabilitation, and the Obregon government would do what most of the more advanced governments have been doing—borrow itself out of its bad debts and contract new ones. A billion or two would give Mexico all she needs with enough more to finance bull fights and other amusements that would divert the public mind from its revolutions. Undoubtedly the financial mission in this country could get all the money that it needs if it were not for a number of revolutions now going on. Felix diaz is, as usual, at the head of one of these. The American government is not deeply concerned about these outbursts, but it is likely that recognition will be withheld until it is certain beyond all doubt that the Obregon government can handle the situation and carry its financial obligations into effect. President Obregon is regarded very favorably in Washington, and the government of the United States would undoubtedly get behind him if it appeared certain that he would be able to preserve and maintain the existing Mexican Government. Mexico is no doubt trying to qualify, and she is making progress in that direction. The United States is indulgent in a fresh form of "Watchful waiting."

STILL HAS MANY FUR POSTS

Hudson's Bay Company Represented in Every Region in Which Pelts May Be Taken.

The Hudson's Bay company today has 155 fur posts throughout Canada. This is a greater number than it ever had before in its existence. They are scattered from the Arctic to the United States boundary and from the Atlantic to the Pacific in whatever region, near or far, furs are to be taken.

Fort McPherson and Arctic Red river are farthest north. The southernmost is North Bay in Ontario, Labrador, Ungava, the vast hinterland of Quebec, Ontario, and the northern portions of Manitoba, Saskatchewan and Alberta are dotted with posts that fly the company's banner. Fifteen encircle Hudson bay. Two are in Baffin Land north of Hudson straits. From Edmonton to the Arctic more than two dozen are scattered along the Peace and Athabasca rivers, Athabasca, Great Bear lakes and the Mackenzie Valley. The fur country entrenches upon the very heart of civilization. There are Hudson's Bay fur posts within a hundred miles of Quebec, Montreal, Ottawa, Toronto and Winnipeg.

CALOMEL SALIVATES AND LOOSENS TEETH

The Very Next Dose of This Treacherous Drug May Start Trouble

You know what calomel is. It's mercury; quicksilver. Calomel is dangerous. It crashes into sour bile like dynamite, cramping and sickening you. Calomel attacks the bones and should never be put into your system.

If you feel bilious, headachy, constipated and all knocked out, just go to your druggist and get a bottle of Dodson's Liver Tone for a few cents which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money.

Don't take calomel! It makes you sick the next day; it loses you a day's work. Dodson's Liver Tone straightens you right up and you feel great. No salts necessary. Give it to the children because it is perfectly harmless and can not salivate.

Many foresighted thinkers believe that the great war just closed is only a prelude to a greater one yet to come. Unfortunately, however, the Lord doesn't tell all that he knows.

Deviled Spanish Green Olives

Here's a little hors d'oeuvre that may be prepared in a few minutes. It's novel and tasty. The family will enjoy it, and so will the guests. It's one of those "surprise" appetizers that labels your dinner "unique and charming."

Pit large green olives and fill with the yolk of hard-boiled eggs mixed to a paste with a little butter. Lay an olive on a strip of bacon, sprinkle with paprika and a tiny pinch of mustard, roll up, fasten with toothpick and broil just long enough to crisp the bacon. Serve on toast fingers.

NEW WHEAT CROP

We are prepared in every way to handle your new wheat crop as we have the elevator entirely empty. Last season we had at one time 43,500 bushels of wheat in the elevator so we feel like with the cars we will be able to get we will be able to handle the situation O.K.

To those who haven't any granaries or place to put their wheat, we shall make a special effort to take care of it for you. To those who have room we will do our dead level best to handle your wheat when you get ready to sell it.

We pay the highest market price each and every day for your wheat. Our very best service is at your disposal and we ask that you give us a chance when you sell your wheat.

Still have plenty of oats for sale at the elevator, either sacked or bulked.

MARGARET NEWS

(By Special Correspondent)

J. W. Evans has been on the sick list this week.

Gurtis Priest and father were in Vernon Monday.

Miss Leta Burk of Crowell visited friends here Sunday.

Mr. and Mrs. Tucker Reinhardt's baby has been ill this week.

Will Cherry of Wichita, Kan., visited with his mother, Mrs. Cherry, Monday.

The young people of Margaret were entertained by Miss Mary Lou Grey Saturday night.

C. B. Graham and family left Wednesday for an extended trip throughout the States.

John L. Hunter and family and Mrs. Cherry spent Sunday with Mrs. J. W. Spotts near Vernon.

Mr. Callihan of Clayton, N. M., and S. E. Swim of Vernon, visited Mrs. Cherry Monday.

Bob Priest, who has been visiting relatives here, left Monday for his home in Mississippi.

Miss Irene Hunter left Sunday for an extended visit with her sister, Mrs. J. W. Spotts, at Vernon.

Bert Self and family and Mrs. Boman of Crowell were visitors in Sid Boman's home Sunday.

Mr. and Mrs. J. C. Bradford returned Saturday from Acme where they visited their daughter, Mrs. Rambo.

Miss Freddie Mae Reinhardt arrived Tuesday from Wichita Falls to spend her vacation with her sister, Mrs. Walter Ross.

Taking It Easier.

"The Japan of Larcadio Heurn and Loti is no more," said Hamilton Hartley, the author-traveler, at a Washington dinner party. "Labor troubles you know."

"You have heard of the Japanese rickshaw runners? These men trot between the shafts of a rickshaw at the rate of five and six miles an hour. I mean to say they need to trot at that rate. Since they've been unionized it's hard to get them out of a walk."

"Once, having forgotten my valise, I offered a Tokyo rickshaw man a double fare if he'd hurry back to my hotel for it. Well, as he galloped down the road his fellow workers stared at him in amazement, and one of them yelled:

"Hey, what are you running for? Aren't you working today?"

Trade Schools for Women.

Argentina's recently organized Social Federation of Women (Confederacion Social Feminina) has for one of its chief objects the establishment of trade schools for women and girls in order to teach the elements of the manual trades, thus making more women economically independent and enlarging the sphere of their activities. Thus far it has organized two such schools one of which has an attendance of 46 girls, who are learning to make men's and women's clothing, baskets and the like.

STILL HOLD ANCIENT COURT

Judicial Tribunal Established Seven Hundred Years Ago in England Never Abolished.

Among the courts of ancient origin in Great Britain a most interesting one still exists at Bristol, the last one remaining of the Pied Poudre courts which were established more than 700 years ago at places where large fairs were held, lasting very often for more than a fortnight, and attended by foreigners. The courts were provided, especially if the fair was at a seaport town, to deal with differences of opinion which were likely to arise between people who could not understand each other's speech. The stranger, in such a case, would find himself in a sorry plight.

Courts were therefore established so that complaints from those who were staying in the city for the fair or passing through without making any long stay, could be dealt with, and were called Courts of Pied Poudre or Dusty Feet from the dusty feet of the traveling hagsmen and peddlers whom it was intended to help.

In time Pied Poudre became Eye Powder court, and under that name was held once again in Bristol this autumn for a fortnight. The Recorder presided. The court was opened in accordance with ancient custom in the market place which adjoins the Guildhall for convenience. Although the number of complaints were few the court remained sitting for the full 14 days as it had done century after century. Thither the dusty feet can turn of those who feel they have a grievance, sure that attention will be given to their plaint.

WILD GAME IS INCREASING

Measures That Have Been Instituted for Their Protection Have Had Excellent Results.

Under the protecting care of the bureau of biological survey, United States Department of Agriculture, big game on government reservations has multiplied fast. The animal census shows 508 buffalo on such reservations now, as compared with 207 five years ago; 504 elk, as compared with 159; 92 antelope, as compared with 40, and so on.

Care of the birds progressed materially during the year through posting and defining boundaries of many of the bird refuges, the planting of grain to provide food and cover, establishment of new reservations, provision of additional warden service at certain reservations, and increased number of patrol boats.

Its administration of the migratory bird treaty act, which prohibits the shooting of migratory birds on their flight north in the spring, and contains restrictions as to the manner in which they may be hunted during the open seasons, and of the Lacey act, which regulates interstate shipments of wild animals and game, resulted in the apprehension of nearly 1,000 alleged violators of the federal game laws and the securing of more than 500 convictions in which fines were assessed ranging from \$1 to \$500 each.

No Hero to His Housekeeper.

What will Josephine say to the award of the Nobel prize for literature to M. Anatole France? Josephine during many years was housekeeper to the great novelist and kept his home in such a perfection of comfort—serving, indeed, as the model for the ideal Therese of "Le Crime de Sylvestre Bonnard"—that there was much grief in two hearts when infirmity made it necessary some few years ago for her to be superannuated. But though she cared so diligently for his bodily needs the old woman would never admit any very high opinion of her master's intellect. "Is the master in?" once inquired a very distinguished visitor. "The master," grunted Josephine contemptuously, "why do you call him the master? He is master of nothing but his food, and even that he can only master when he has it in his mouth."—Manchester Guardian.

Stanch Ocean Veteran.

Ask any veteran inhabitant of Dockside, in London, if he remembers the Cutty Sark, and it is likely that his eye will glisten as he answers, "Yes." Tell him she may be seen in the Surry commercial docks, and he will be hard of belief. Yet so it is. The Cutty Sark was once a famous tea clipper which, on one famous occasion did 182 knots in 12 hours. Steam power drove her off the China route, and now she sails the sea under the name of Ferreira, flying the Portuguese flag. For years her wooden walls have withstood the buffetings of the ocean, and it would appear as though she might outlast many an iron vessel driven by steam.—Scientific American.

Art.

The pick of recent Japanese paintings are exhibited in New York. Observe the subjects: "A Prairie Fire," "Scenes in the Buddhist Hell," "Wensel," "A Shinto Shrine" and "Yellow Bird on a Blossoming Tree."

These subjects reveal that Japanese imagination has a tremendous scope. Hence Japs are quick to sense the possibilities of a thing, as shown by their aggressive diplomacy.

But imagination is not all. Japan, within a few generations, will be eclipsed by the plodding Chinese giant, who imagines nothing except facts. That's what made our west—keeping its feet on the ground.

"Hey, fellows! Game's off! Jimmy Smith's mother says every boy can have some Kellogg's Corn Flakes! She's treatin' the whole nine yards we elected her Jimmy's captain! Oy-yoi, yoi, yoi!"
