AYERSVILLE NEWS (By Special Correspondent)

Miss Aline Gamble is much improved at this writing.

Several from here attended the show in Vernon Saturday.

E. W. Burrow and family visited Harris Chandler and family in Quanah Sunday.

A new girl arrived at the home of Mr. and Mrs. Walter Shultz Thursday, April 20.

Mrs. J. B. R. Fox attended church at Margaret Saturday and took dinner with Grandma Bond.

Mrs. Mack Cates of Crowell is attending the bedside of her daughter, Mrs. Bertha Shultz.

Wesley and Lesley Davis spent from Thursday until Monday with friends near Chillicothe.

Tip Autrey and Miss Ruby Monks were married Wednesday, the 19. They will make their home with Omy Monks and wife on Henry Campbell's farm.

Mr. and Mrs. Ferrin visited the Rayland, Thalia and Talmage schools last week and visited Mr. and Mrs. Richard Johnson and Mr. and Mrs. Clarence Haney while at Talmage.

Most of the county candidates were present at Gambleville Friday night and made some splendid talks. One speaker's talk was very short on account of having but 15 days notice.

Mrs. James sustained a broken hip and Mr. James was badly bruised by being thrown from their buggy last Saturday when the horse they were driving became unmanageable. They are both doing as well as could be expected.

Mr. and Mrs. Will Gamble were called to the bedside of their daughter, Mrs. Zola Greening, who underwent an operation for appendicitis at the sanitarium at Crowell Wednesday night of last week. The patient is reported as doing fine.

Withdraws from Race

As there are many people in this county who think that, simply, my age, regardless of my present physical ability and mental qualifications, would incapacitate me for the office of county judge; and as this involves a condition that I cannot successfully combat, as well as the uncertainty of my election, I have decided to withdraw from the race and leave it to younger men.

I want to express my gratitude to my many friends for their kind words of appreciation of the little service that I have been able to render this county in the past, and earnestly wish, for every man and woman in Foard County a long, prosperous and happy life.

Mrs. Karl Myers of Amarillo, Texas, is visiting her mother, Mrs. B. F. Hallmark.

Misses Minnie and Hilda Logan, Lewis Sloan and Barney Lefevre were in Aeme Sunday.

George Weatherall of Vernon has been visiting in the home of A. Weatherall of Foard City.

Mr. and Mrs. J. A. Stovall and family of Vernon spent Saturday night with the family of D. C. Greer.

Mr. and Mrs. Charlie Andrews of Vernon spent last Saturday night with Mr. and Mrs. L. G. Andrews.

Mrs. I. M. Cates of Crowell has been visiting her daughter, Mrs. Walter Shultz, in the Ayersville community.

Mrs. E. P. Fowler has returned from a visit in Hot Springs, Ark. Mr. Whitman and his daughter, Mrs. Lowery, accompanied her home.

Mr. and Mrs. J. H. Thompson and Son, Joel, also their little grandson were here Saturday night and Sunday from Paducah visiting Mr. and Mrs. Murry Martin.

Mrs. M. O'Connell has returned from Plainview where she went as a representative of the Columbian Club to the annual meeting of the 7th District, T. F. W. C.

In an interview with Zeke Bell, manager of the Crowell Theater, we learn that he is planning a strong movie program for the ensuing summer. He is buying only the best programs, as for instance, specials from Paramount, Associated First National and Pathe. Many of the pictures are 1922 releases. Among these latter will be "Fighting Mad" and "The Sheik."

A Sure Recipe For Kitchen Comfort

During the Hot Days Soon to Come

We believe that every housekeeper who does her own work is interested in the above words.

Every house keeper dreads the hot, sultry kitchen. Often, after preparing a good meal the wife feels like she can not enjoy it herself. The rest of the family come in to the table fresh and cool and feel fine, but she is so warm and faint that she can't enjoy it.

LISTEN, ladies, we can not escape the hot days. They are the result of the laws of nature and nature's God. They are sure to come as day follows the darkest night. But God put it into the power of man to make the most of these benefits, and where he finds them too severe he has allowed man to mitigate them by his powers of invention.

It Is Said that Necessity Is the Mother of Invention

Men first learned to make a fire by rubbing sticks together. They cooked on heated stones; they carried water in skins, and protected their bodies from heat by wearing the lightest skins of animals in summer and heavy furs in winter.

Then came along the coal and wood burning stoves. It was good for winter, but added to the discomforts of the hot days.

Now we have the perfected oil stove. They are a boon to any housekeeper. They are suitable for the city home or the farm.

They cook just as quickly as any wood or coal stove. When the fire is turned out the stove cools off in twenty minutes, leaves one's kitchen fresh and cool. While the coal stove or the wood stove burns on until every bit of the fuel is consumed and often at midnight the whole house is kept warm by the old wood stove in the kitchen.

We think the next thing for the housekeeper's comfort is to have a good refrigerator. Man now makes ice. Man now makes a machine to use the ice in to control it.

A good refrigerator is economy. A poor one is false economy. Buy the best, it is the cheapest.

We offer you, the Red Star Oil stove, (no wicks). We honestly think and believe we can prove it is the most efficient oil stove made. We offer you the New Perfection, (wick), stove, we think is the best wick stove made and we offer you the Autofeed oil stove (uses asbestos rings) that we will guarantee to be equal to any asbestos ring stove made. Our prices are as low as any one's.

We offer you the Alaska refrigerator. The one insulated with cork, the kind that the U. S. Government approved as the best by actual test. Let us show you.

High School Agricultural Class Has Successful Experimental Farm

The agriculture class of the C. H. S. has been doing some exceptionally good work for the past year.

The class has done some excellent work in the laboratory. They have made a number of seed corn tests for several of the progressive farmers of the community. These tests were very successful.

The class has an experimental garden out at the farm of I. M. Cates, which has proved to be successful. Last Wednesday at noon the class was delightfully surprised when they were told to march to the laboratory where they found a delicious dinner had been prepared by several girls of the class. This was quite a surprise and it was highly appreciated by all. After the delicious dinner, the class went to their garden and worked in it during the afternoon. This work is enjoyed by all because it is made so interesting.

The garden contains over two acres, and is planted in corn, sweet corn, Irish potatoes and a complete variety of other garden stuff.

The community is asked to examine this experimental garden in order that the practical advantages of our high school agriculture work may be much manifest.

COMMENCEMENT PROGRAM BEING ARRANGED

An exceptionally good high school program is planned for commencement this year. The commencement address will be given on Friday night, May 19th, by Rev. C. A. Waterfield, pastor of the first M. E. Church at Vernon. The commencement sermon will be preached by Rev. Murrell at the M. E. Church at 8 p. m., Sunday, May 21.

The commencement exercises will be held at the school auditorium. The valedictory address will be given by Mary Sam Crews and the salutatory will be given by Marie Bell.

At the same time a prize will be given by the club ladies to the student of High School having the highest average in the study of English.

Senior Class Activities Drawing to Successful Close

New Ditcher Now Working

The new ditcher which is to be used in the work of laying the water pipes has arrived and has commenced work at the west end of the line. The new machine promises to do much better work than the one which has been in use so far. In the trial last Saturday the machine, for awhile, averaged six feet a minute. The engineers however hold hope for only 2,000 feet a day.

Miss Robbie Lee Adams returned to her home in Crowell Saturday. Her school at Rayland was out Friday, April 21.

high school life is rapidly approaching its close, and, as the time draws nearer for graduation, we feel more and more the responsibilities of life that await us.

We were made very happy the other day when Mr. Cook announced that the diplomas had been ordered, as no one is now afraid of failure. The order for the invitations has been sent, and we have received word that we would get them about the 1st of May. We have been practicing on our play and songs for the last of school. Some specialties will be introduced that we think will be enjoyed by all. We have tried to make this one of the best years of our school life and we hope we have succeeded.

Adelphian Club Active

The Adelphian Club is doing a good work in Crowell in that it is striving to beautify the town. Its members have set out trees at the sanitarium and are planting flowers on the court house lawn. This is indeed commendable work, and we are glad to see it making such progress. A town is judged by its outward appearance; and now that Crowell is rapidly coming to the front, we more than ever want this judgment to be favorable.

A prize will be given by the club to the one that makes the highest average in English for the entire term. This has been a good incentive and we feel that our English work has been made the better because of it.

The club has not yet gotten out its year-book but the subject for the coming year has been selected. It is "Modern Dreams" and is an extension course under the auspices of the West Texas Normal of Canyon. The subject for this past year was "American Art and Music." These subjects are educative and interesting, and we feel sure that they are a source of great enjoyment to all.

The entire school is indebted to the club for the many things it has done to help make the school better, and, for the encouragement it has given the pupils. We wish to take this means of extending our sincere thanks to the members for their help and encouragement.

Scholastic Census 482

The completion of the scholastic census shows a small decrease in number from last year's report. This is probably the first time in Crowell that there has been such a decrease. On the contrary the increase has been steady for years.

The total shows a number of 482,

229 of which are boys and 253 girls. There are no negroes or Mexicans reported this year, although there were several included in last year's report.

Work on Standpipe Progressing

Work was commenced about the middle of last week on the standpipe and this work is now rapidly nearing completion. A crew of five men and foreman are working steadily on the standpipe and Engineer Noland gives his opinion that the tank will be completely finished in three weeks time.

When finished the standpipe will be 135 high including the tank. This will give a very high pressure, sufficient for any needs that may arise.

Let us furnish you with your oil stove repairs, both New Perfection and Florence.—M. S. Henry & Co.

THE FOARD COUNTY NEWS

KIMSEY & KLEPPER, Owners and Publishers

Entered at the Post Office at Crowell, Texas, as second class matter.

Crowell, Texas, April 28, 1922

High School Issue

This is an all high school edition of the Foard County News. Every line of this issue has been collected, written and even proofed by the Crowell high school. If you find any fault with the paper, charge it to the high school. If you find it good and interesting reading credit it to the generosity of Messrs. Kinsey and Klepper, the regular editors, for the splendid spirit of co-operation that prompted them to turn over bodily one whole issue of one of the best papers in West Texas to a high school student body.

We hope that other editors over the country may take note and realize in what a measure the local paper is tied into the public school interests, and what a splendid co-operative spirit it is engendered by such generous initiative.

Radiophone Expected Any Day

Students of the high school, as well as people of the community, are a little impatient over the delay in the delivery of our new radiophone which was ordered by the school some two weeks ago. It was to have been delivered the last of last week, but for some unaccountable reason has not yet arrived. The agent at Oklahoma City wired representatives of the class here that he had five of the machines in the express for which he had received a bill, and that immediately upon their arrival ours would be headed this way. It is expected any day now.

Foard County on Top

There are many places in our country where cotton is grown successfully; where either good corn or good maize may be grown; where alfalfa rolls in luxuriance, or where native pasturage fattens the cattle upon a thousand hills. But where on the big wide globe have you ever seen the gratifying spectacle presented yearly by Foard County of all these crops flourishing side by side in the narrow limits of single farms? Foard first.

It is a happy trade that a teacher makes with his pupils—a little of the seriousness of his experience and the earnestness of his character for a world of their jollity and the inspiration of their youth and freedom.

Any man may make a big sacrifice for a big cause; but it is the little sacrifice continuously made that counts for the highest and best life.

Our over-rich fancies often load the past with pinked compliments, while our benumbed appreciation burdens the present with non-existing woe.

Bitter fruit swings low.

What we want the world to think of us divided by what we think it thinks is equal to what we think of it. Figure it out for yourself.

Yield to little people in their little whims and opinions in order that you may gain an opportunity to be firm in greater things.

Little neglected tasks, even when quite forgotten, hang over us like a pall and make our greater efforts unsteady and uncertain.

It's not what people think of you that makes them distant; it's what they imagine you think of them.

How good and fine a thing it is to have at once the fancies of a child and the judgment of a man.

Some people are afraid of being held up when they have money, others of being held down.

The world is working overtime on its luxuries and only half-time on its necessities.

Intellectually speaking, some people are like paper—easiest cut with a sharp knife.

Life is but a string of fuse that leads to some great bomb.

Beverly Leads State Batters

With the winning of the game of last Friday, Crowell High baseball team is now looking up. This game gives them a percentage of .500, three won and three lost.

In all of the games played the men have done exceptionally good playing. Especially has the hitting been good. Beverly leads the team and the high schools of the state with a percentage of .636.

The fielding also has been excellent. The infield has shown its ability more than once by fast, snappy work. The outfield is just as good, but has received very few chances this season.

LOCAL FIRM DISPLAYS INTERESTING RELICS

M. S. Henry & Co. have on display in their window this week some interesting relics owned by Mrs. S. O. Woods. There are several old Confederate bills along with a Bible which was carried by Mr. Woods through the Civil War.

But the oldest and probably the most interesting of the relics is an old Henry Clay badge of the date of 1824 at which time Clay was a candidate for the presidency. The badge is of yellow silk and shows very little evidence of its age. It is about five inches long and two inches wide, and has several phrases printed on it, the campaign slogans of the day. At the top of the badge are the words "Henry Clay, pride of America." An eagle just below holds a ribbon on which are printed the words, "His country's friend in the hour of danger." It also has on it the slogans, "People's Choice" and "Protector of America." At the bottom is the single word, "Industry."

State Inspector Visits Crowell

Cam H. Murray, state inspector of weights and measures, spent Tuesday and Wednesday of this week in our city on his regular inspection rounds. He returns a very favorable report upon the grocery and gasoline businesses of our town. Only one or two slight variations from standard measures were found and these, Mr. Murray says, were gladly corrected.

The inspector spoke in the highest terms of compliment in referring to the friendliness and spirit of cooperation with which he met in Crowell. He expressed great surprise at our agricultural development in Foard County. His work covers 61 counties from Fort Worth west to the Orient railroad, and he states that in all his rounds over this vast scope of country he finds the brightest agricultural prospects in Foard County.

Mr. Murray left here on the afternoon train Wednesday for Chillicothe.

John Deere "KC" Cultivator

A Distinctive Riding Cultivator You Will Like

An Exceptionally Easy Machine to Guide. Slight pressure on the foot levers guides the wheels and shifts the rigs. Crooked rows can be followed easily. Shovels remain in ground—no skips—no jumps.

Cultivator Shovels Face Work Squarely. Under all conditions, the shovels on the "KC" Cultivator cut their full width—no ground is left uncultivated.

Cultivator Instantly Adjusted from the Seat of the Machine. Levers are provided for changing the distance of cultivation from the rows, for depth of cultivation, and for level cultivation without leaving the seat.

Front and Rear Shovels Penetrate to Same Depth. The front and back shovels of each rig enter the ground level and continue level as they are lowered by the depth lever. The "set" and "suck" of the shovels are always the same regardless of the depth of cultivation. This is an unusual advantage.

Master Lever Raises Both Rigs and Balances Machine. Both rigs are raised and the machines balanced by raising the master lever. Separate adjusting levers are provided for each rig.

THE FOARD COUNTY NEWS

Attention, Crowell

Commencing Monday, April 17th, 1922, we will install a delivery service and include several towns, among them being Crowell and place our service at your door on a weekly schedule that will be of untold service to the housewife, bachelor, hotels, barber shops, rooming houses, etc., of your city.

On account of the excessive express rates it has been almost prohibitive to send laundry of any amount by express. By installing a service of this kind when our Mr. Miller will call at any residence in your city and deliver the same, we will eliminate this extra charge and bring this work within the reach of everybody. Any call given to C. T. Schlagal through the week will be given prompt attention Monday morning of each week. We will maintain an office at C. T. Schlagal's Barber Shop.

Kindly Note the Following Schedule Carefully:
Monday A. M. To Crowell. On this trip our representative, Mr. Miller, will gather soiled laundry and return to Quanah.
Thursday A. M. We will deliver Crowell laundry.

We guarantee you perfect satisfaction and will maintain the above service to the very best of our ability. For any other information see Mr. Miller, who will be at your service.

NOLAND TO HELP QUANAH GET WATER

L. Noland went to Quanah Tuesday and closed a contract with the city council of that city to put down a test well for water. Quanah has found it necessary to augment its water supply and Mr. Noland's work in connection with Crowell's waterworks, which is one of the most modern systems in this country, has awakened interest with the Quanah people in the inauguration of a similar system. It will differ somewhat, however, because of the difference in the water-bearing strata of that locality.

Mr. Noland's service as an engineer has been worth thousands of dollars to Crowell in the developing of our water system and to Foard County in the construction of the best dirt highways in West Texas. He has thus rendered an invaluable service to us in helping to put Foard County on the map.

Seventh Graders Hold Debate

The seventh grade history class varied their program for this week with a debate. The question discussed was, "Resolved that the Initiative and Referendum plan should be adopted in Texas."

The affirmative side was represented by Boyce Harper, Lee Black and Walter Bailey, while the negative side was represented by Mammie Lee Collins, Cornelia Beidleman and Florence Griffith. Three pupils from the tenth grade acted as judges and decided in favor of the negative side. The judges were: Beulah Kenner, Tom Beverly and Henry Black.

Girls Play Ball

Base Ball, with a capital "B" has been the slogan of the high school and even some of the grades for the past few weeks. Of course that in itself isn't so remarkable—but it is the girls that have organized a team—and one that is a credit to them, too. With a little more practice they could easily beat the boys. They have already talked about playing them but we think the boys have backed out rather than face defeat at the hands of the fairer team.

LOCAL LEGION POST TO STAGE BENEFIT PROGRAM

Gordon J. Ford Post No. 130 of the American Legion here is putting on a program at the Crowell Theater next Wednesday night to replenish their depleted treasury. These programs are the only means of raising funds to rent and furnish the Legion's club rooms and to meet their other incidental expenses, and they deserve a generous patronage.

Wednesday night's program will be an exhibition boxing bout between Delbert Webb of Vernon, weight 128 pounds, and Russell Jackson of Lawton, Okla., weight 133 pounds.

Webb has met some of the best boxers in the Southwest, including Kid Como of New Orleans and Floy Rogers of Oklahoma City. Webb has appeared here before in boxing exhibitions, and is much appreciated by the ring fans of Crowell.

Jackson carries the junior light-weight championship of the Southwest, and is the only Indian south-paw in ring history. He won the silver loving cup last week at Ft. Sill as the champion light weight boxer of Oklahoma.

This will be a good clean exhibition and will be preceded by some interesting preliminaries.

The Legion will appreciate your presence on this occasion.

H. KENNER HONORED WITH BIRTHDAY PARTY

In accordance with their annual custom, the friends and relatives of H. Kenner gathered at Mr. Kenner's home Thursday, April 20, to celebrate his 78th birthday. Everyone present brought a well filled basket of things good to eat and this, in a measure, accounted for the good time that was enjoyed by all present.

Among those who were present were eleven grandchildren and six children. Altogether there were thirty five visitors.

Mr. Kenner is one of Foard County's oldest and best known citizens. We wish him many happy returns of the day.

First to establish the \$10.90 price—"Usco"

THE makers of U. S. Tires made this announcement last November—

"Hereafter the price of the 30x3 1/2 'Usco' is \$10.90."

The lowest price ever quoted on a tire of quality reputation and standard performance.

And now, with the opening of Spring, there seem to be quite a number of "New and Special tires" coming into the market in the \$10.90 price range.

Perhaps you are wondering just what there can be either "new" or "special" about these tires.

It can't be the \$10.90 price—"Usco" established that five months ago.

Nor quality reputation and standard performance—for it takes more than one full season for any new tire to demonstrate where it stands in quality and value.

With so many tires rushing into this \$10.90 price

Recent Rains Great Blessing

The suffering wheat has been greatly relieved in all parts of the county this week by the widespread rains of the past few days. The wheat in almost all parts of the county was badly in need of rain and this precipitation came in the very nick of time to save it. The wheat is already looking much better.

The total amount of rain that fell in Crowell was a little over two inches.

To the Voters of the 114th Legislative District:

We, the undersigned teachers of the Goree Public School are personally acquainted with E. L. Covey of this place who is a candidate for the office of Representative. He is unquestionably well qualified to discharge the duties of the office. He was for five years superintendent of this school and we regard him as a friend of the schools. We believe him to be a man who will serve all interests faithfully and with ability.

Signed: H. D. Arnold, Supt.; F. P. Magers, Prin.; Monette Jordan, Mrs. H. V. Straughan, Mary Bowman, Faye Chambliss, Kate Kennedy, Ruth Beck, Pearl Livingston.

Press Comment

From Seymour Banner: "Editor E. L. Covey, of the Goree Advocate, has announced as a candidate for the legislature from the district composed of Knox, King, Hardeman and Foard Counties. We are glad to hear of the announcement. We believe the district and the state will be very capably represented in the person of Mr. Covey, and maybe he won't be hurt much by the deal. Mr. Covey is an able man, and one who is nearly always on the right side of every question. He has studied politics and few men are more familiar than he with affairs of our state. He should not have any opposition."

From the Wichita Record-News: "Mr. Covey is a clean man, served as superintendent of the Goree public schools, and always has taken an active interest in every worthy cause."

From the Benjamin Post: "Mr. Covey has the qualifications for a legislator and has the best interests of this district at heart and it looks now as if the voters would appreciate his being their representative at Austin."

From the Munday Times: "We believe that Mr. Covey is well qualified in many ways to fill the office of representative, and do not hesitate to recommend him to the voters of the county. He has had ten years experience as a teacher, and four years as editor of one of the best small town weekly newspapers in this section of the state, and in addition to this he has been a close student of law. While he is not licensed to practice, he has studied for several years, having spent two years in the office of practicing attorneys, paying

**STAPLE FOODSTUFFS
MAKE BIG JUMP IN PRICE**

Some surprising facts have been revealed by interviews with local grocers this week. These quotations show that most of the staple products have made a startling rise in price.

Some of the common foodstuffs have slumped in price, but these are few in comparison with those that have jumped.

Sugar, in the past thirty days, has risen from \$5.95 per hundred to \$6.70 per hundred.

Owing to the early frozes, all California fruit has advanced a great deal. This rise also included dried fruits. Oranges have advanced \$2.50 per case; lemons, \$1.50 and grape fruit, \$1.00. The dried fruits have made more than a corresponding jump. Dried apples have risen 4c per pound; dried apricots have jumped 11c; dried prunes, 3c; dried raisins, 6c. The canned California fruit has advanced in price until it is beginning to get above the average housewife's sense of thrift. The least rise in any of the canned fruit is \$1.50 per one half dozen gallon cans. Dried apples have also increased in price 50c per box.

Potatoes are off 1-2c per pound. Canned corn is off 10c on the case and canned milk is off more than one dollar per case. These decreases are comparatively small by the side of the increases.

And the half is not yet told. Coffee has advanced 6c per pound. Meat has advanced from 2 to 4 cents. Beans are up from 2 to 3 cents. Flour has gone up 40c on the hundred.

All this by the way of showing that the H. C. L. is not yet dead, and doesn't even look ill.

Warehouse Marketing

Every farmer in Foard County should know that the warehouse marketing department at Austin is at his service. This important branch of the state government is supported by the taxpayers and should therefore be used by them.

Have you any farm products for sale? Do you contemplate the purchase of any agricultural products, as for instance, improved cotton seed, seed corn, registered stock, or any other product of the farm? If so, you may find a ready market for your product or you may easily get in touch with the man who has what you want to buy, if you will write or wire Charles E. Baughman, commissioner of the market and warehouse department, Austin, Texas.

Mr. Baughman receives radiophone markets from New York every fifteen minutes in the day. He also receives many inquiries from prospective purchasers. He wants the farmers of Texas to use his department. Write him if you need his services.

Several lives are reported lost. The damage to property and the loss of life may yet prove appalling.

**CALOMEL SALIVATES
EVEN WHEN CAREFUL**

Treachery Drug Can Not Be Trusted and Next Dose May Start Trouble

Calomel is dangerous. It may salivate you and make you suffer fearfully from soreness of gums, tenderness of jaws and teeth, swollen tongue, and excessive saliva dribbling from the mouth. Don't trust calomel. It is mercury, quicksilver.

If you feel bilious, headachy, constipated and all knocked out, just go to the druggist and get a bottle of Dodson's Liver Tonic for a few cents which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money.

If you take calomel today you'll be sick and nauseated tomorrow; besides it may salivate you, while if you take Dodson's Liver Tonic you will wake up feeling great. No salts necessary. Give it to the children because it is perfectly harmless and can not salivate.

Mrs. M. N. Kenner was called to Grimes, Okla., this week on account of her father being critically ill.

Mrs. Louis Ferguson has been here this week from Vernon visiting her daughter, Mrs. Clifton.

Little Elbert Seay Kenner received a souvenir from his uncle on the Island of Trinidad, British West Indies, recently. The souvenir was a coconut grown on the island, which had been dressed and carved and made into a bank. It showed to advantage the fine art and workmanship of which the natives are capable.

H. M. Ferrin and wife of Margaret expect to leave Saturday or Sunday in their car for Cherokee, Iowa, where they will reside indefinitely. Although Mr. Ferrin has sold his farm, he says he still has interests here and expects to return to Foard County some time, but at present he does not know just when that will be.

Tip Edgin was in Wichita Falls Friday. He returned Friday night but went back to Wichita on Saturday. Tom Beverly, Merl Kincaid and Milburn Hart went with him on the latter date to see the baseball game between Wichita and Fort Worth.
