## SPEECH AND SERMON DRAW FULL HOUSE

Rev. Waterfield of Vernon Delivers Address and Rev. Murrell Preaches Sermon

The fact that our people recently had the opportunity of hearing two very fine speeches should not pass without mention. We refer to the one delivered by Rev. Waterfield of Vernon Friday night at the school auditorium and the other one by W. M. Murrell, pastor of the Methodist church, at his pulpit Sunday night. In both instances the speakers had full houses.

Rev. Waterfield chose as his subject "The Value of the Individual" and in the course of his address said many things of extreme practical value to every one. The leading thread of thought that ran through the whole argument was that man was made for service, and of course, education is merely the unfolding of the life for that service. One very striking truth that the speaker uttered was that too many people want to do little things. The average person seems to want to render the least possible service he can in order to get through life. He emphasized the fact that all men should strive to do the biggest things of which they are capable, to assume responsibility and live up to their privileges and duties. The speaker dwelt at length with the character and influence of the individual as his gift to society. If selfishness is an outstanding element in character service will be correspondingly small, in spite of other noble qualifications.

At the Methodist church Sunday evening at 8:00 o'clock Rev. Murrell was awaiting him a full house, and was strong evidence of general interest in the education of the youth of the county, for his was prepared the commencement sermon. As his subject he chose "The Value of Life," the speaker pointed out the two conflicting opinions of man's origin, one given to the world by the book of Genesis, that God created man in his own image; the other that man ascended from an ape. The evolution theory has never been proven, therefore it can not be accepted.

On the contrary the evidence that man possesses the image of God and that he was created in that image is sufficient to justify the Biblical account of his creation. Then it is his duty to go forward to work and develop the possibilities which were being placed in him. Lenses counts for nothing, said the pastor in the sight of him who created men. The important question with every individual is whether or not he claims himself to be a child of the Heavenly King, in the spiritual sense. This furnishes the basis for character and usefulness.

The News does not attempt to quote either of the address of Rev. Waterfield or the sermon of Rev. Murrell, but the thought in both ran somewhat alike. It is very fitting that the highest life is that one which is of greatest sacrificial service, that this was the purpose in the Divine Mind in man's creation. It is the necessity of being willing to accept responsibility, and dare to do things which he does not measure with his own strength.

## Graduating Class

The graduating class of the Crowell school consisted of 14 girls and 5 boys. The names follow: Agnes Todd, Bernice Irene Jewell, Alice Jewell Teague, Ethel Curran, Willie Fern Nicholson, Bess Thompson, Mattie Lee Meason, Catherine McLaughlin, Olive Hilda Gribble, Bessie Ophelia Mary Sam Crews, Frances Elizabeth Blakemore, Marie Bell, Walter Blakemore, Ernest King, Horace S. Brady, A. Sidney Collins, Travis

## School Graduate Marries

Mattie Lee Meason and S. R. Bell of Quanah were married last afternoon at the First Christian church in Quanah at 4 o'clock by the pastor of that church. Swindell is the daughter of Ben Meason and graduated from the Crowell High School at the end of the past term. The newly married couple will make home in Quanah.

## JUDGE G. W. WALTHALL SELLS HIS LAW OFFICE

R. T. Groves has bought the law office, including the books and fixtures, of Judge Walthall and will make law his practice in Crowell. Mr. Groves served as superintendent of the Margaret schools the past term, and has from time to time been engaged in school work for some years, but has been practicing law during the summer months. He is a young man and took his law course at the Texas State University.

Judge Walthall will remain in the practice with Mr. Groves until the judge's term of County Attorney expires this fall. He will then retire from the practice of the legal profession. He then plans to dispose of his property interests here and will likely go to California.

## Football Ball Boys Elect Captain

On last Thursday, May 18, the football boys met and formed tentative plans for next year's season which shows every advance sign of being a good one.

B. J. Glover was elected captain by the team and should be able to handle his team well next year. He showed evidence of good stuff in the last season and the sages predict that he will, with Coach Tate, turn out a winning aggregation for next year.

Only three team members finished this year and there is enough good material coming on to more than supply the loss of Lovelady, Hayes and Collins.

Seventeen men were present at the meeting and it is estimated that at least twelve more will try out at the beginning of the season.

## DEATH OF FORMER FOARD COUNTY MAN

On last Saturday night R. W. (Dick) Hill died at Paducah after several years of failing health. The home of Mr. and Mrs. Hill was at Guthrie, but for some time Mr. Hill had been at Paducah for medical treatment.

For several years Mr. and Mrs. Hill were residents of Crowell and are well remembered by all the old timers here.

It is said Mr. Hill was rational up to the very last and shortly before his death he requested that J. A. Wright of this place sing at his funeral. This request was granted and besides Mr. Wright's presence and participation in the funeral services, all the pall bearers were from Crowell, they being Gus Patton, S. J. Ferguson, C. R. Ferguson, Judge G. L. Burk, Judge G. W. Walthall and N. J. Roberts.

Those attending the services from Crowell were: Judge Walthall, N. J. Roberts, Judge Burk and son, S. P. McLaughlin, Gus Patton, J. A. Wright, Julian Wright, Mrs. J. A. Wright, Mrs. Bettie Thomson, Decker Magee, Mrs. R. M. Magee, Mrs. Belle Allee, Mr. and Mrs. S. J. Ferguson, Mr. and Mrs. C. R. Ferguson, and J. F. Witherspoon, who was here from Guthrie visiting. Funeral services took place at Paducah at 3 o'clock Sunday afternoon.

## Farewell Party

Monday evening was the occasion of a delightful party given by Mesdames J. T. Carter and Walford Thompson at the residence of Mrs. Crowell, home of Mrs. Thompson, in honor of Mrs. Harry J. Fast of Mexia.

The guests assembled were entertained throughout the evening at eight tables of "progressive 42." Choice selections on the Edison and piano were enjoyed by all.

At the close of the games the hostesses served a delicious ice course to about thirty-five guests. At a late hour, after thanking their hostesses for this enjoyable affair, they bade a reluctant adieu to Mrs. Fast and wished for her a happy and prosperous future in her newly assumed relation.

## Father Died in Oklahoma

Mr. and Mrs. M. N. Kenner returned Monday afternoon from Grimes, Okla., where they were called Saturday night on account of the death of Mrs. Kenner's father, W. P. Tucker, who died at 2 o'clock Saturday afternoon. He was 71 years of age and had been in failing health for several months. He is known by many Crowell people having visited here a number of times.

## CREMATED BODY OF WILSON BURIED HERE

The body of I. A. Wilson arrived from Amarillo Friday and was interred in the Crowell cemetery at 3 o'clock.

The death of Mr. Wilson was caused by an accident near Amarillo in connection with his work as an oil well driller. Mr. Wilson was one of two who lost their lives, the other man, J. F. Peterson, a truck driver.

The story of the accident is something like the following: These two men with another worker at the well were sitting in the dog house on the derrick floor when an explosion occurred. Walton, who was the one to escape fatal injury, said that he noticed the lights flicker and knowing that an explosion was going to happen he made a jump to the derrick floor to escape. He had hardly struck the floor when the blast occurred, hurling him several feet clear of the floor, burning him severely about the face and hands and rendering him for a time unconscious. He came to himself in time to rescue Peterson before he died from his burns but was never able to rescue the body of Wilson. Peterson died shortly after the accident and the body of Wilson was cremated.

Mr. Wilson is a son of S. R. Wilson, now of Clovis, N. M., but who formerly resided in the Good Creek community. He married a daughter of Mr. and Mrs. H. E. Davis, of this county and is survived by his wife and one child.

Burial services were conducted by the Masonic Order, the following members from Petrolia Lodge No. 932, Wilson's home town and lodge being present: R. R. Fultz, John Bishop, J. A. Whitmire, J. W. Johnson, S. B. Slayback, E. T. Wolfe, J. E. Johnson, P. W. McDonough, H. Fowler, J. A. Mabry, L. G. Nunley, T. J. Ball, R. I. Kennedy, P. G. Arnold. Visitors from Petrolia were: Mrs. T. J. Ball, Mrs. J. A. Whitmire, H. J. Basham, W. E. Ikard, Wm. Winzer.

Mrs. S. R. Wilson, parents of the dead man, were here from Clovis, N. M.

## Sign Contract for Chautauqua Again Next Year

The Cadmean Chautauqua people closed their chautauqua engagement at Margaret with the Wednesday evening performance and the people of that community are so well pleased with the programs rendered that they signed a contract for next year, 51 men giving their names as guarantors.

The people at Thalia are also getting the excellent programs being put on by this company. It is a day later at Thalia and closed there last (Thursday) night. We do not know whether they signed a contract for another year or not.

## Fire Narrowly Averted

It was not merely a little blaze without its possible disastrous consequences that happened at the L. A. Beverly & Co. filling station Monday at noon, therefore it was not out of place that men rush to the rescue of the building. It was caused by the ignition of carbon as it was being poured from one bottle to another, a few drops having spilled on the floor. When it ignited it frightened Mr. Beverly, who was handling the carbon, and he dropped the bottles. This caused more fire and more fright, even enough to bring out the fire fighting engine.

The blaze soon died down after the application of some chemicals and water, and the floor of the station being cement, no damage was sustained.

## A Severe Wind Sunday Night

While rainstorms were raging in some localities in Texas and Oklahoma Sunday night about 10 o'clock Foard County was having an old-time sandstorm. It must have been a flareback from tornadoes reported in Oklahoma. The wind was strong enough to blow down the chautauqua tent while a program was being rendered at Margaret. Although no one was seriously hurt a few persons are reported to have been bruised slightly, one of whom was a chautauqua man.

M. L. Mitchell is here from Memphis, Texas, to look after the matter of running a separator for T. J. Cates. Mr. Mitchell ran this machine last season and will do so again this season.

## CROWELL HI WINS OVER KNOX CITY

The Crowell High baseball team put it all over Knox City with a score of 6 to 2. Slugging was the order of the day with the Crowell boys. Three two-base hits were made by home boys and two three-base hits were made—one by Collins and one by Beverly.

The Fox band was hired by the men of the town to play for the game. A parade was formed at the post office and proceeded to the baseball park. The band did good work and their pep had enough effect on the visitors to help out a great deal. As the Crowell men took the field the band gave a very lively march, but when the Knox City men trotted out—a slow and solemn funeral march foretold their fate.

Both Jones and Cates did excellent work in the box. Both men are well above the ability of the ordinary high school pitcher and both were up to usual form. The visitors were as unable to solve Jones' curves and they were Cates' fast ones. Only five hits were garnered from Jones in six innings and none were taken from Cates in the three innings during which he held the mound. Jones' crooks fooled them and Cates' hard ones scared them out of hits.

The game was played to a record breaking crowd and the stands overflowed.

The box score:

CROWELL	AB	R	H	PO	A	E

Summary: Two-base hits, Ashford, Collins, Jones; three-base hits, Beverly, Collins; struck-out, by Jones 5, by Cates 6, by Dutton 6; bases on balls, off Jones 1, off Cates 1, off Dutton 3; time of game, 1 hour, 46 minutes. Umpires: Hughston and Matthews.

## FFF Highway Is One of First Seven Per Cent to Receive Aid

The FFF Highway has been designated by the State and Federal Highway Commissions as one of the routes which will receive first preference in governmental aid. There are seven per cent of the highways of the United States which will receive 85 per cent of the appropriations for permanent road construction. Efforts are being made to re-adjust the laws so that it will not be necessary for counties improving their roads to issue bonds in order to participate in the funds available for Federal and State aid. J. D. Fauntleroy, state highway commissioner, has announced the designation of the FFF Highway as one to receive first attention from the governmental agencies.—Plainview Herald.

## Class Contest Closes Sunday

The contest being carried on by the Young Men's Class of the Methodist Young Men's School in the interest of a larger membership closes Sunday. The opposing sides are running close together and a record attendance is expected for Sunday. A large number of new members has been added to the class roll.

The News received this week a renewal of the paper from E. J. Averitt of Mannford, Okla. Mr. Averitt lived here many years and says the paper is like a letter from home.

Geo. Munroe is here from Anson looking after business interests at Margaret.

## SAYS FOARD HAS BEST WHEAT IN TEXAS

Mr. and Mrs. T. N. Bell returned last week from Dallas where they had been to the commencement exercises of Powell Training School where their son, Alton, graduated. Mr. Bell, in reporting the wheat crops along the way says that there is nothing between here and Dallas that begins to compare with Foard County's crops. His information as to wheat crops in North Texas is that they are very spotted, some fair and many poor. He is confident that Foard County has all other sections of Texas bested in wheat this year.

## Truscott Loses to Crowell

With three first string men missing from the game the high school ball team last Saturday defeated the Truscott high school by a score of 4 to 2.

Only four hits were made off Cates' invincible pitching. Crowell made only three hits off Turner but errors won them the game in spite of the valiant work of the Truscott pitcher.

Beverly's home run in the sixth, with a man on, started the Crowell rally. Truscott made both of their scores in the fifth and Beverly's homer tied the score. A hit by Thompson in the eighth and an error for Truscott secured the winning runs.

The box score:

CROWELL	AB	R	H	PO	A	E
Beverly, 1b	4	2	1	15	0	0
Ashford, c	3	0	0	0	1	0

Score by innings:  
Crowell—000 002 02x—4.  
Truscott—000 020 000—2.  
Summary: Three-base hits, Beverly, Moody; home-runs, Beverly 1; struck-out, by Cates 10, by Turner 9; bases on balls, Turner 1; hit by pitcher, Sloan by Turner; double plays, Haney to Chilcoat to Haney; time of game, 1 hour, 30 minutes. Umpires: Gallup and Jones.

## RADIOPHONE IS NOW INSTALLED

Financed by Club of 50 Members Proposition Promoted by American Legion

The new radiophone which has been made possible for Crowell by a club proposition promoted by the American Legion arrived yesterday and was installed in the Legion headquarters in the Johnson Feed Store building yesterday and was tried out last night.

The club financing the proposition consists of 50 members, each of whom subscribed \$5.00, making a total of \$250, the cost of the apparatus. The machine has an amplifier and is such as will make it possible for as many as about 50 to be entertained at one time. An admission charge of 50 cents will be made until the machine has been paid for. Entertainment will be conducted on a plan that will make it possible for every one to hear. Those who have once been entertained will be required to step aside and let somebody else hear until all have had the opportunity.

A complete program will be had for entertainment from 11 o'clock in the morning until about the same time at night.

## Attending Grain Dealers' Association at Fort Worth

Those from Crowell who are attending the Grain Dealers' Association at Fort Worth this week are T. L. Hughston, J. R. Allee and J. W. Bell.

W. M. Wisdom returned home Sunday after spending five weeks with his son, W. W. Wisdom, at McAdoo, Texas. He was called to that place five weeks ago on account of the death of his grandson, Burton Wisdom, 14 years of age. Mr. Wisdom was in town Tuesday and ordered the News sent to his son at McAdoo, and also renewed for his daughter, Mrs. L. H. Mickey, of Clovis, N. M.

Miss Lela Womack returned Sunday from a visit in Vernon.

## FARMERS WANT A COUNTY FAIR

They Are Already Making Inquiry As What Will Be Done About the Matter

If you were to canvass the county with the view of ascertaining the sentiment regarding a fair this fall there is no doubt that practically everybody would favor it. This is the opinion of the writer, and it is supported by reports of others who have had occasion to test out the sentiment over the county, particularly it is true with the county agent, who is out among the farmers all the time. Many of the farmers are expecting us to have a county fair this fall and are anxious to contribute their part to make it a success. Some of them feel such community pride that they want community exhibits so that the various communities over the county may compete for honors. That is a very fine spirit and is highly commendable.

Last year was our first attempt to have a county fair, and almost everybody feels that it was a splendid success. There may have been a few errors which could not well be avoided at that time, but which can be this summer. But whatever these may have been they are incomparably small when put up by the side of the great advantages which were derived from the effort. The Fair Association was a mere temporary affair and aimed primarily to put over a fair for 1921, but it is our understanding that there was then a strong sentiment favoring the organization of a permanent association. This is what we ought to have, it seems, in order to get the best results. Let it be as permanent as any business in town. Let it be a fixture. Foard County is going to stay here, so is Crowell, and our people are going to grow and expand in every line of endeavor. Then why not organize a permanent county fair association as one of the needed enterprises of the county for the good of every producer, first of all, and then for the general welfare.

Foard County has laid the foundation for some great achievements in the years to come. We have built good roads, which means an increase of travel and a more frequent coming together in a social way, and an intensifying of commercial activities. Some of our people have launched out into fields of greater endeavor in lines of livestock breeding, and practically all are applying the most approved methods of scientific farming with very gratifying results. So there are bound to be great things in store for the people of Foard County. Why not come together once a year and show our friends what we are doing?

There is another thing which urges us to put on and keep putting on a county fair, and that is the fact that every other county around us is doing it. We do not favor aping anybody, or doing a thing just because it is customary, but we can have a county fair for the same reason that any other county has one—to promote our interests. That is the first reason we would favor it. The second would be to defend ourselves against the criticism that we are not enterprising enough to have a county fair. And then it seems all the more important that we do this because we have the best county in West Texas. We really ought to lead. We have the soil, as rich as that of the famous Nile Valley, adapted to the widest range in products, thus affording successful diversified farming, and the best of all a people who are taking advantage of these invaluable gifts of nature.

Our chamber of commerce can handle the proposition by getting together and organizing a fair association and selecting a good strong man as its manager and then go after what belongs to us.

## SUFFERED STROKE OF PARALYSIS

Doug Dunham on Tuesday night about eleven o'clock suffered a stroke of paralysis, which left him unconscious most of the time. He has lost the use of his limbs, and is gradually sinking. No hopes are entertained of his recovery.—Quanah Tribune-Chief.

J. W. Stovall of Bardwell, Texas, after having stopped for a week's visit at Albany, arrived in Crowell Monday to visit his daughter, Mrs. D. W. Tate, and family. He will likely remain here for several weeks.

## AYERSVILLE NEWS

(By Special Correspondent)

Roy Ayers is attending the grain dealers association in Fort Worth this week.

Several from here are attending the Cadmean Chautauqua at Margaret and Thalia.

Ulysses Brown and family went to Vernon Sunday to see the airplane stunts performed.

The families of Claude Davis and Frank Matthews visited John Davis and family Sunday.

Mrs. W. A. Walker and daughter, Miss Mary, of Vernon spent Monday with Mrs. J. H. Ayers.

Lee Shultz and family have started on the road with their show to be gone all summer. They left for Acme Friday.

Mrs. Metta Withers of Electra and Mrs. Pauline Abbott of Wichita Falls came in Monday for a visit with J. H. Ayers and family.

Annie Davis of Rayland spent last week with little Ralph Davis and Gracie Matthews is helping him pass away the lonely hours this week.

J. L. Short and children visited Mr. and Mrs. Northam and Mr. Short's baby at Chillicothe Saturday night and Sunday. Mr. Short reports his baby as growing and doing well.

Little Ralph Davis, who is crippled and will be confined to his bed several months will appreciate a visit from any one. If you can't call on him, a card or letter might cheer him up.

Mrs. Boyd and grandson, Lee Matthews, have moved into the house vacated by Mr. and Mrs. Ferrin and will help Hugh Shultz with the harvesting and threshing of his grain crop.

Foy Pauley and wife went to Iowa Park Thursday and returned Friday. They were accompanied by Mrs. Bessie Matthews and little Eula Shultz. Mrs. Matthews was returning home from a visit here and Eula was visiting her grandparents, Mr. and Mrs. Watts.

The following gathered at the home of Mr. and Mrs. Will Gamble Sunday and celebrated Will's 45th birthday: J. R. Gamble and wife and sons, Sim, Pete, Mack and their families, Mrs. Mollie Free and children, Mr. and Mrs. Herman Greening, Johnnie Gamble and family, Frank Gamble and family, W. A. Johnson and wife, Forest Durham and wife, Marion Garrett and family, Mr. and Mrs. Jesse Fleming, John Greening and family, Misses Tommie Monkres, Willie Clara and Katie Lee Burks, and Lonnie Henderson and Emory Gray.

## U. S. Department of Agriculture Mixture for Keeping Flies Away from Stock

The stock fly is one of the most important sources of annoyance to livestock throughout the United States. When present in small numbers it has no apparent injurious effect, but on frequent occasions conditions arise which permit its development in enormous numbers, and at such times the injury to all classes of livestock is easily seen.

Until recent years it was thought that around the barnyard was the normal breeding place for this pest. Investigations have shown that great numbers are bred out in straw stacks.

The stock fly develops more slowly than the house fly and is less likely to carry contagious diseases. The larvae is very sensitive to drought and soon succumb, if the material in which they are developing is not kept moist.

According to Bulletin No. 1097 U. S. Department of Agriculture, there is no application that will keep the flies away from stock for any great length of time, however, the mixture given below has been found fairly effective in keeping them off for a short time, when applied lightly, but thoroughly.

A mixture of: One gallon Fish oil, oil of pine tar 2 ounces, oil of Pennyroyal 2 ounces, and kerosene one-half pint.

Mrs. N. A. Crowell and little granddaughter, Virginia Sue, are visiting the families of Ben and Grover Crowell at Breckenridge. They will be gone for a week or so.

Pipe! Pipe! Pipe work and fittings, bathtub, lavatory and everything in the plumbing line. See or phone T. L. Hayes.

For Sale—Dark bay horse 6 years old, weight 1200 lbs., perfectly gentle. Cheap at \$110.00.—F. C. Borchardt.

C. D. Williams and family of Vernon were here Sunday visiting the family of W. H. Dunagan.

For Sale—18-36 Avery tractor, 6-disc plow and 32-disc harrow.—Tom Wade, Thalia, Texas.

Make your automobile new with Devco's Auto Gloss.—Ferguson Bros

# It's Here at Last

**A Revolutionizing Invention--The Superfix Burner**  
that cooks as fast as GAS, and is absolutely reliable.

The speed and success of the New Perfection oil cook stove is all in the New Superfix, which grills a minute steak, roasts a leg of mutton, bakes a chicken pie or preserves a kettle of fruit in proper time—fast or slow—for each operation, be it an intense searing flame or a gentle simmering heat.

Over four million house wives already appreciate the reliability, safety, economy and comfort of the NEW PERFECTION Oil Cook Stoves. But the NEW PERFECTION SUPERFIX just placed on the market equipped with the Superfix Gas Burner has revolutionized all other Wick type stoves.

We want our customers to know that we handle three of the very best Oil Stoves made. Namely, THE RED STAR, the one we had picture and description in last week's paper. The regular New Perfection and the New Superfix mentioned today. We also sell an ASBESTOS RING stove that is a very fine stove.

We keep a large assortment of wicks for New Perfections. The Red Star does not have any kind of wicks.

COME TO OUR STORE FOR A DEMONSTRATION. We will be glad to show you the workings of any stove we have.

FURNITURE AND UNDERTAKER

## SHERIFF'S SALE

THE STATE OF TEXAS,  
County of Foard.

Notice is Hereby Given That by virtue of a certain Order of Sale issued out of the Honorable District Court of Foard County, of the 6th day of May 1922, by Marie Harris Burgess, clerk of said court, for the sum of Three Hundred Twenty-five and 17-100 Dollars and costs of suit, under a judgment in favor of I. R. Denton in a certain cause in said Court, No. 1132 and styled I. R. Denton vs. E. E. Stubblefield et al, placed in my hands for service, I, L. D. Campbell as Sheriff of Foard County, Texas, did, on the 6th day of May 1922, levy on certain real estate, situated in Foard County, Texas, described as follows, to-wit: Lots numbers one (1) and eighteen (18) in block number eighty-five (85), in the town of Crowell, Texas, and levied upon as the property of E. E. Stubblefield and that on the first Tuesday in June 1922, the same being the 6th day of said month, at the Court House door of Foard County, between the hours of 10 a. m. and 4 p. m., by virtue of said levy and said Order of Sale, I will sell said above described real estate at public vendue, for cash, to the highest bidder, as the property of said E. E. Stubblefield.

And in compliance with law I give this notice by publication, in the English language, once a week for three consecutive weeks immediately preceding said day of sale, in the Foard County News, a newspaper published in Foard County.

Witness my hand, this 15th day of May, 1922.

L. D. CAMPBELL,  
50 Sheriff Foard County, Texas.

Mr. and Mrs. John Strickland and children of Branson, Colo., arrived Monday for a short visit with relatives. On their return home they will be accompanied by Mrs. Strickland's parents, Mr. and Mrs. D. P. Sink, of Los Angeles, Cal. Mr. and Mrs. Sink will visit in Colorado for several weeks and return to their California home by automobile.—Vernon Record.

Positively no fishing allowed on my premises. Do not ask permission.—Mrs. W. S. Bell.

How to Kill Lice  
Mites and Blue Bugs

By F. W. Kazmeier, Poultry Husbandman, A. & M. College of Texas

In warm weather all kinds of poultry vermin multiply very rapidly. Unless special efforts are made to control these vermin, many small chicks will die and many more will be stunted. Hens infested with lice will give decreased egg production and are also more subject to diseases.

Begin Early

Too many people wait until the hen houses are literally alive with mites before they commence applying kerosene to kill them. It is surprising how fast they will multiply. A few days sometimes makes a great difference because of the fact that they multiply so fast. The hot sun appears to hatch them out in great numbers. It is important to get after them as soon as the weather begins to

get warm.

Mites

The common red mite is one of the most injurious vermin. Large numbers of them have been known to kill small chicks in one night. The red mite stays in the cracks and crevices about the hen house including such places as the perches and nest boxes in the day time. At night they crawl out of their hiding places and on to the chicks or mature stock where they suck themselves full of blood. The red mite is a blood sucking insect. Large numbers weaken mature stock and kill small chicks. The thing to be dreaded about red mites is the incredible speed with which they multiply.

We have found kerosene or crude oil very good with which to kill mites. We apply it very liberally over the entire inside of the house including the fixtures, roof and floor because the mites will hide in any of these places. Kerosene may be applied with a brush or sprayer. It is important to use it liberally and regularly, say once every ten days or two weeks. Some people use carbolineum for killing mites, with excellent results. Keep the houses clean. Start early and use kerosene liberally and it should be an easy matter to control red mites.

Lice

Chicken lice stay on the fowl all the time. They live and breed on the chickens. They do not suck blood but cause great injury by worrying the chicken and irritating the skin. Lice live on dead skin and scales of the fowl. There are many species of lice but all can be treated and killed in the same way.

We have found the use of Sodium Fluoride as very excellent to kill all kinds of lice on fowls. Sodium Fluoride is a mild poison and may be purchased at any up-to-date drug store. Generally it retails for from 60 cents to 90 cents per pound.

There are two dependable ways of applying it. One is the powder applied by the so-called "pinch method" and the other is by making a dip. For treating setting hens the dry powder applied by the pinch method is the best. To apply it by the pinch method, we take all the powder we can hold between two fingers and place it close to the skin. It is necessary to place ten pinches on a grown hen on ten different parts of the fowl. One pinch on each wing, one on each thigh, two on the body and fluff, one

We carry a big stock of extras

under the vent, one on the neck, one on the back and one on the breast. This powder may also be applied by the old style powder-sprinkling box method.

Sodium Fluoride when used on setting hens should be applied when the eggs are placed under the hen and not at hatching time. If it is used at hatching time, it may kill many of the little chicks as they hatch. Always remember that it is a mild poison.

In using it as a dip, take one ounce of Sodium Fluoride to one gallon of water and mix thoroughly. We have found a common wash tub very good. Keep the hens confined and early in the morning place a catching coop or box in front of the fowl exit. Drive a number of hens in here from where they are easily caught. Place them standing in the tub of water and Sodium Fluoride with one hand on the back of the chicken to keep it from getting away. With the other hand ruffle up the feathers all over the body to permit the dip to penetrate to the skin. Just before removing the bird, submerge the head under the solution for a moment. We do not recommend dipping in cold weather. In warm weather, if the birds are handled carefully, it may be done to advantage without affecting the egg production. One dipping a year as a general rule kills all that is necessary; certainly two dippings should be sufficient. Dip everything on the place that has feathers. If this is not done, those that are not dipped will soon infest the remainder of the flock with lice.

Out of Date Ways

Some people feed sulphur, nuxvomica and other drugs to kill lice on chickens. We know it for a fact that the above methods of killing lice on chickens are not impractical but do not kill the lice. Do not let your neighbor advise you to practice any of these foolish indirect methods that will not work. It is much more sensible to put something on the louse to kill it than to feed something to the chicken to kill the louse.

Blue Bugs

The blue bug is here to stay and unless strenuous efforts are made to control the spread of the blue bug especially in West Texas, he will make serious inroads on poultry profits. We would not be surprised to find the blue bug in some sections drive the poultry men out of business. This vermin lives like the red mite. They are blood sucking insects and hide in the cracks and crevices, or any other place about the hen house,

blue bugs. Blow torches may also be used to kill blue bugs. (Copyright 1922 by F. W. Kazmeier)

Press reports have it that 3,000 people attended the convention of the West Texas Chamber of Commerce at Plainview Monday and Tuesday. This was a big thing for Plainview, but that little city with its enterprise is fortunate in having this as an opportunity of showing how big the town is. The all-important fact is that this was only another demonstration of the business of West Texas. Without any doubt this portion of the state is the coming section. It will not be many years until West Texas will be giving orders rather than taking them as to what shall be in this vast domain. The balance of wealth, population and power are swinging towards the one hundredth meridian.

We understand that the Baptist Convention goes on record as opposing any organizations whose activities are at variance with law, for pastors and churches were urged against "becoming allied with or giving support and approval to any movement or organization that violates" the law. It could not act otherwise, but we wonder what those little fellows are going to do who have sold out to the bed-sheeted bunch. If they continue in the direction they have started it looks like they would be subject to discipline, to say the least of it.

As the wheat crop of this county nears its ripening stage, conservative estimates are placing the crop in number of bushels at 50 per cent of normal. The condition of all early crops is certainly above that, but a number of late ones will not yield anything. This is what will cut the crop down. There will be some better crops made than were harvested last year. It is estimated that we have in sight about a half million bushels.

Enthusiasts for aerial travel will have a hard time convincing everybody that travel by airplane is safer or even as safe as travel by land. There is a chance for you to escape fatal consequences if you fall out of a moving train, but none if you leave an airship while it is above the ground. If the world's rapid pace ever makes aerial travel a necessity, we shall prefer that we move back a notch.

The K. Lamity Harpoon is an ardent supporter of the Ku Klux Klan. That publication is not fit to be admitted into a decent home. The Pitchfork is another wart of the same class and should be excluded from the mails because of its obscene language. It, too, is in sympathy with the klan movement. That is the kind of company good citizens have to keep who are in sympathy with the movement.

**Two Lynchings**  
One was public; the other private. In Texas a mob took the law into its own hands and ferociously slaughtered three negroes, without giving them a chance to prove their innocence. In New York City a young man took the law into his own hands and, deliberately seeking out a former friend, shot him to death because, he alleged, the victim had beaten the slayer's mother. No opportunity was afforded the accused of defending or exonerating himself; he was tried, found guilty, and executed by lynch law applied at the hands of an individual who set himself, for purposes of vengeance, above the law of the land. Thus far there is little to choose between the two lynchings. But here a divergence appears. The Texas murderers are at large; it is doubtful whether any real effort will be made

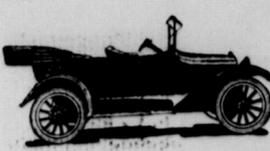

to bring them to justice. The New York slayer was tried before a typical sob jury and acquitted in a scene of sickening sentimentalism. Rightly estimated that verdict constitutes a graver menace to law and order than the action of any mob that ever hanged or burned a negro. It was considered and deliberate and it strikes at the very roots of justice. In this comparison New York makes a sordid showing than Texas.—Leslie's.

### POULTRY FINE FOR ALL WEST TEXAS FARMS

By Miss Myrtle Murray, Poultry Specialist, Extension Service, A. & M. College

West Texas is an ideal country for the poultry industry. It should be, and is fast becoming, one of the main crops. Drouth does not affect the poultry industry. You have an ideal climate, produce your own feed and have plenty of range. Because of your wonderful range turkeys should be raised in herds and a herder employed to care for them. This alone will yield the country thousands of dollars. You have some railroads already, and others in sight that insure quick transportation to market. The Fort Worth and Denver railroad saw the splendid possibilities of the poultry industry in this section of the state when they "stood at attention" and granted practically every request and suggestion of its agricultural agent, when he organized and featured the special poultry demonstration campaign last January and February. This was one of the most systematically conducted agricultural campaigns ever promoted in this state. The fact that a railroad company spent several hundred dollars on a poultry campaign is sufficient evidence that the poultry industry has passed its infancy and is worthy of the attention of the best business brains of the country.

All up and down the Fort Worth and Denver-Wichita Valley line, bankers were ready with various propositions to promote the poultry industry.

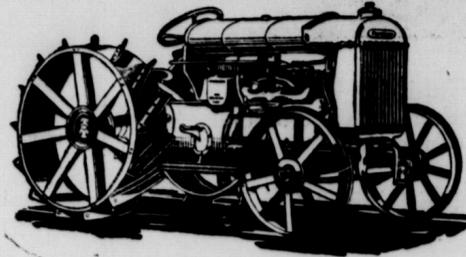

Just last year in the city of Plainview, the Hub of the Plains, there was shipped out \$600,000.00 worth of poultry. This was \$100,000.00 more than the aggregate of the wheat crop.

If I understand the work of the Chamber of Commerce it is not only to promote the various business interests of the city, but its responsibility reaches to the boundaries of the country in which the city is located. In agricultural states such as ours the success of the business man depends altogether upon both the yield and marketing of the farm crops. Since it has been proved that poultry is a cash crop, ranks with other crops you cannot do a greater work for your city and county, and one that will yield as great a per cent of gain for the amount of money invested than to encourage and promote campaigns that will stimulate this industry.

A successful poultry winning campaign is composed of links. Each link represents a seasonable campaign. Since a chain is no stronger

# Fordson

## THE UNIVERSAL TRACTOR

### Buy Your Fordson Now

At this amazing low price you can't afford to be without your Fordson another day.

There is no tractor made that can approach the money value of the Fordson. Nor is there a tractor made that will do more different kinds of work for you.

Remember the very day you get your Fordson it is ready for the many different jobs it can do as a tractor or stationary power plant.

Fordson figures are interesting money-savers, labor savers, drudgery savers, facts that you ought to know.

Years of faithful and economical use have made the Ford and Fordson universal.

# Self Motor Company

### Damsite Lake Is to Become a Pleasure Resort

Negotiations are on foot between a well-known promoter and the Rice Bros. of Houston by which the Damsite lake is to become a pleasure resort of considerable dimensions.

For years the two thousand acres of clear water, which constitute this lake have attracted tourists for the fine fishing it offers. Large catches of bass weighing from two to eight pounds are nothing unusual, and there are always people camping en route to or from Colorado, enthused over the fine sport they are having.

To put the possession of this lake on a commercial basis, it is the intention to enclose the water with an eight foot iron fence to exclude trespassers. A number of summer cottages are to be built, which will be rented out at a nominal figure. Other conveniences will be provided to make it a health as well as a pleasure resort, and the people of the surrounding country will be given access to the lake at any time of the year on the payment of a nominal fee.

The promoter believes that he can build up here one of the most popular resorts in Northwest Texas. Its being only four miles from Quanah will mean that the supplies will all have to come from this town, and that the whole country will be benefited.—Quanah Tribune-Chief.

When in need of oil of any kind see me or phone 326.—Texhoma Oil & Refining Co., W. B. Wheeler, agent at postoffice, Residence Tel. 252.

## For Ten Dollars and Ninety Cents—This 30 x 3 1/2 Usco

THE 30 x 3 1/2 tire situation today is just this—

The man who buys an USCO at \$10.90 is justified in believing that his money is going farther in tire value than it ever has gone or could go before.

Naturally he appreciates the quality of USCO. That was established long ago.

It is still fresh in his mind that USCO led the national market into the \$10.90 price range.

The makers of U.S. Tires always intended the 30 x 3 1/2 USCO to be the highest value in its field.

At \$10.90 it creates a new classification of money's worth.

United States Tires are Good Tires

Where you can buy U.S. Tires:

Self Motor Co., Crowell, Texas  
Magnolia Motor Supply Co., Crowell, Texas

than its weakest link each link should be systematically planned and efficiently promoted. The links or campaigns might be a "swat the rooster" campaign, "infertile egg," "culling" campaign, a "more and better poultry" campaign, "community and county egg poultry show." Perhaps an appropriate motto would be "Say it with poultry."

A "Swat the Rooster" campaign, an "Infertile Egg" campaign at the present season would mean a saving of thousands of dollars to West Texas. This should be followed by a strenuous culling campaign in the fall. Weed out the "star boarders" and keep only the producers for the breeding pen next year. Culling campaigns in the various states have done more to interest people in standard-bred poultry than any other one thing. It is a winner every time.

A "More and Better Poultry" campaign should be launched in January and February. A plan to furnish standard-bred eggs to everyone interested should be operated.

The climax both financially and educationally will be the county and community fairs which include exhibits of both eggs and poultry. That is where we learn what is a good or bad product. Sales are made and interest stimulated for next year's poultry crop.

But some one or more organizations must assume the responsibility of starting the work. Why not that one be you?

Do you want to make more money in West Texas? Well, the hen, better housed, better fed, better culled and bred, is the surest, quickest and most economical short cut.

#### Sweet Potato Slips for Sale

I will be ready to supply you with plants in season. These are home-grown seeds, carefully selected and sterilized so that they may be as free from disease as possible. Every one guaranteed, none better. Nancy Hall an Porto Rican varieties, prices consistent with the grade you get.

1,000 ..... \$2.75  
2,000 to 5,000, per thousand.....\$2.50  
5,000 or more, per thousand.....\$2.00

Let me book your order now that you may get plants when you want them. Plant form just south of big yellow barn. Write or phone, J. C. DAVIS, Thalia, Texas. 48p

For Sale—Good maize and oats.—Farmers Co-operative Society, phone 15, Medicine Mound, Texas. 11

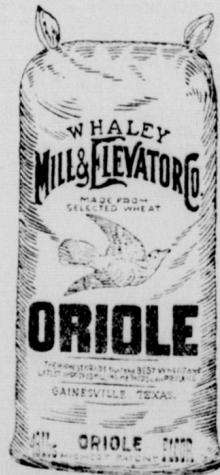

The Snyder Utilities Company has moved into its new quarters in the Baker, Grayum and Anderson building on the west side of the square. Mr. Anderson already identified with the company exchanged his building interest for stock in the company although still retaining the office of the Chamber of Commerce and Baker, Grayum and Anderson in part of the lower floor. The new location makes excellent quarters for the Utilities Company and is another move toward added service for their patrons.—Snyder Signal.

Devoe's Auto Gloss, nothing better for your automobile.—Ferguson Bros.

For Sale—Six good work mules. See A. B. Wisdom at Thalia or M. S. Henry at Crowell. 50p

## The Test Furnishes the Proof

If an article can not stand on its merits let it go down. It is not worthy your consideration. On the other hand, if it has merits, it will stand. That is the reason we are willing to put Oriole Flour out on an absolute guarantee. It stands because it has to. Its manufacturers have a reputation to protect and this they do by keeping the quality of Oriole up to the highest standard. You run no risk whatever in buying this flour. Our hundreds of satisfied customers are the best advertisers Oriole has, but we want others to join their ranks. Come in and get our price, which is reasonable.

**THINKS WE SHOULD CO-OPERATE WITH THE TEXAS HIGHWAY ASSN.**

Without doubt Texas is going to have to make a change in the handling of its highway funds if the State is to get Government aid. All the states in the Union are going to be forced to accede to the Government's requirements in order to be thus benefited. Some of the states have already done so and they will receive all the Government aid for highways as long as the other states refuse to comply with the Government's regulations as to the manner in which these funds are to be handled. In short, it is simply that these funds must be placed under direct control of the State Highway Department. In a communication recently received by the News from S. Dean Wasson, the following statements are made relative to the matter, which may be worth reading. Says Mr. Wasson:

The little matter of some five million eight hundred thousand dollars of federal aid, provided for Texas under the new federal highway act is not to be sneezed at. But if we don't alter our state statutes to conform with the new law we will be coughing just that much money into the laps of other states, who have made proper provisions to take advantage of the great highway building and maintenance program.

The law does not say that it would be a good thing to put the power of construction and maintenance of thorough highways in the hands of the State Highway Department, it demands that it be done. Section 7 of the Act is very plain on this subject. It reads:

"That before any project shall be approved by the Secretary of Agriculture for any State such State shall make provision for State funds required each year of such States by this Act for construction, reconstruction, and maintenance of all Federal aid highways within the State, which funds shall be under the direct control of the State Highway Department."

It is to assist the citizenship of the State to understand the workings of this new highway plan, and the opportunities afforded under it for the development of a complete system of major highways throughout Texas at the expense of the State as a whole and the federal government, while counties will be left to spend their funds on local roads, that the Texas Highway Association has been created. Every citizen who desires to see a better social development throughout the commonwealth should associate himself with the Association by sending in his name and the two dollars annual membership fee to L. W. Kemp, acting secretary-treasurer, The Texas Company, Houston, Texas. As Governor Neff stated, it is a proposition that merits the support of the people who do things worth while.

**NEXT DOSE CALOMEL MAY SALIVATE YOU**

It Is Mercury, Quicksilver, Shocks Liver and Attacks Your Bones

Calomel salivation is horrible. It swells the tongue, loosens the teeth and starts rheumatism. There's no reason why a person should take sickening, salivating calomel when a few cents buys a large bottle of Dodson's Liver Tone—a perfect substitute for calomel. It is a pleasant vegetable liquid which will start your liver just as surely as calomel, but it doesn't make you sick and can not salivate.

Calomel is a dangerous drug, besides it may make you feel weak, sick and nauseated tomorrow. Don't lose a day's work. Take a spoonful of Dodson's Liver Tone instead and you will wake up feeling great. No salts necessary. Your druggist says if you don't find Dodson's Liver Tone acts better than treacherous calomel your money is waiting for you. 66

**GOOD SEED ARE BEING PLANTED**

There are a number of farmers in Foard County who are planting pedigreed seed of the longer staple variety because of the probability of obtaining a premium for longer staple cotton.

As an inducement to help keep the seed pure and improve the class of cotton we have consulted the manager of one of the gins here and he states that he will be glad to set aside a certain day convenient to most of the planters of this seed and gin nothing but the pedigreed cotton on these days. This should be an inducement to plant good seed.

All planters of good seed of the better staple variety should make an effort to get their cotton ginned so

as to keep it as pure as possible. Each year there are hundreds of dollars that go out of the county that could be kept at home if we would give more attention to improving the cotton which we already have, and there would be less danger of the country becoming infested with the boll weevil and pink boll worm. FRED RENNELS, Co. Agent.

**Blacksmith Notice**

**POSITIVE PROOF**

Should Convince the Greatest Skeptic in Crowell

Because it's the evidence of a Crowell citizen. Testimony easily investigated. The strongest endorsement of merit. The best proof.

A. L. Johnson, Crowell, says: "My back and kidneys caused me trouble. My back ached and pained most of the time through the small of it, and when I bent a sharp, stinging pain caught me. I could hardly sleep at night and mornings I was so lame and stiff I could hardly get around. My kidneys were weak and troubled me by their irregular action. I decided to try Doan's Kidney Pills and they helped me from the start. Altogether I used eight boxes of Doan's and they cured me."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Johnson had. Foster-Milburn Co., Mfrs., Buffalo, N. Y. 39

**THE STATE OF TEXAS**  
To the Sheriff or any Constable of Foard County, Greeting:

You are Hereby Committed to cause to be published once each week for a period of ten days before the return day hereof, in a newspaper of general circulation, which has been continuously and regularly published for a period of not less than one year in said Foard County, a copy of the following notice:

**THE STATE OF TEXAS**

To all Persons Interested in the Welfare of Lock Reinhardt, Raymond Reinhardt, Ruth Inez Reinhardt, Emily Ellen Reinhardt, Mack Reinhardt and Beatrice Reinhardt, minors, Verdie Reinhardt was by the County Court of Foard County, Texas, on the 19th day of May, A. D., 1922, duly appointed Temporary Guardian of the persons and estates of said Minors, which appointment will be made permanent unless the same shall be successfully contested at the next term of said Court, commencing on the first Monday in June, A. D. 1922, the same being the 5th day of June, A. D. 1922, at the Court House thereof, in Crowell, Texas, at which time all persons interested in the welfare of said Minors may appear and contest such appointment if they so desire. Herein Fail Not, but have you before said Court, on the said first day of the next term thereof, this Writ with your return thereon, showing how you have executed the same. Given under my hand and the seal of said Court, commencing on the Texas, this the 22nd day of May, A. D. 1922.

MARIE HARRIS BURRESS, Clerk, County Court, Foard Co., Tex.

If the F. F. F. Highway is to receive government aid, as seems certain, Crowell will be one of the luckiest towns in Texas because of its favorable location.

For sale my place in Crowell, consisting of a 4-room house with underground cistern, 3 lots, outbuildings, etc. Close to school building.—Mrs. M. J. Davis. 49p

T. J. Cates returned Thursday of last week from a trip to New Mexico, visiting his son, R. F. Cates, at Nolan. He also visited Raton, N. M., and Trinidad, Colo.

#### Reception Given Senior Class

On last Saturday afternoon Mr. and Mrs. John Bell entertained the senior class with a reception in honor of their daughter, Marie. The house was beautifully decorated with the class flower, white carnation, and with white roses.

Punch was served upon arriving, after which pictures were taken of the guests. Then music, jokes, lively conversation and recollections of the past year were enjoyed.

After a dainty and delicious course was served, books tied with the class colors were given the guests. These were passed around and each one wrote something appropriate in them for the owner to remember them by. We shall always keep them—not only in memory of the writers, but also in memory of the pleasant afternoon we spent at the home of our class mate.

At eight o'clock the seniors formed the receiving line to welcome the other guests. After a pleasant half-an-hour spent out-of-doors we entered the house to find our "train" waiting. After buying our tickets we boarded it and took one of the most enjoyable trips of our lives, despite the fact that the train broke down in the mountains and we were forced to fight for our lives.

Other features of the evening were all greatly enjoyed. At a late hour we took our departure, each declaring his or her great enjoyment of such a pleasant occasion. We shall always remember this as one of the most enjoyable events of our senior year, and we shall look back to it with pleasure, for it will be a dear and happy memory as long as we live.—A Senior.

#### Seniors Entertained

After the commencement exercises on Friday evening, the 19th, the majority of the senior class together with several other guests went to the home of Mrs. S. T. Crews where they were delightfully entertained.

Upon arriving delicious cream was served. Games, music and lively conversation filled the evening's program. At a late hour a midnight lunch was served, after which the boys departed, leaving the girls to spend the night. The fun continued until the early hours of the morning. At four o'clock we settled down for a little sleep, which was broken at 6:30 by some of the girls who awoke—and consequently they awoke the rest of us. After partaking of a dainty breakfast we reluctantly departed, each declaring this to have been one of the most enjoyable events of the year.

The guests of the evening were: Mr. and Mrs. D. W. Tate, Misses Razor, Goode, Mary Sam Crews, Marie Bell, Fern Nicholson, Kitty Belle Smith, Ruth Haney, Marion Cheek, Frances Hill, Frances Blakemore, Ethel Curtis, Jewell Teague, Bernice Long, Mattie Lee Meason, Vera Crews, Olive Hanks, Bess and Thelma Thompson, Bessie Fish and Mildred McLaughlin; John Carter, Sidney Collins, Sidney Miller, Travis Hayes, George Cates, Horace Lovelady, B. J. Glover, Ernest King and Walter Thomson.—Contributed.

#### THE STATE OF TEXAS

To the Sheriff or any Constable of Foard County, Greeting:

You are Hereby Commanded to cause to be published once each week for a period of twenty days before the return day hereof, in a newspaper of general circulation, which has been continuously and regularly published for a period of not less than one year in said Foard County, a copy of the following notice:

#### THE STATE OF TEXAS

To all persons interested in the Estate of Wesley McCormick, a person of unsound mind, W. M. Weathers, guardian of the estate of Wesley McCormick, a person of unsound mind, has filed in the County Court of Foard County, Texas, an Annual Exhibit of said Estate for the year ending on June 1922, which will be heard by our said County Court on the first Monday in June 1922, the same being the 21st day of said month, at the Court House of said county, in Crowell, Texas, at which time all persons interested in said Estate may appear and contest said Exhibit, should they desire to do so.

Herein Fail Not, but have you before said Court on the said first day of the next term thereof, this writ, with your return thereon, showing how you have executed the same.

Given under my hand and seal of said Court, at office in Crowell, Texas, this the 13th day of May, 1922. 50 MARIE HARRIS-BURRESS, Clerk County Court, Foard Co., Texas.

Herbert Edwards went to Dallas Monday, returning Thursday.
