## COMMISSIONERS TO JOIN CITY STREET PAVING

County's commissioners on Monday voted to join the city in paving the streets around the square of Crowell. An action not made hastily, commissioners have had the matter under consideration for some time and it has been considered from several points, and finally the wise decision was made as above stated. News feels that the commissioners have acted wisely, both in time and finally in its decision in favor of paving. And they commendation for both.

Business men of Crowell have long been willing to bear their share of the expense. So has the city, but not thought wise to only do the work, that is, to pave the streets surrounding the court square and leave the other half unpaved. They believe this is one of the best things the commissioners have ever done. Of course roads are essential, and have them. Crowell has done it to get them. But the time when pavement about the square is as essential as road ever was and most of our roads seem to have come to realize this fact.

## Maye Andrews for County Treasurer

Having been solicited by many friends to make the race for treasurer, Miss Maye Andrews graciously consented to do so. She was born and reared in Foard County and was educated in the public schools of Crowell. She ever before asked for an office, and she is fully capable of performing the duties of the office. Therefore she asks for the nomination at the Democratic primary upon promise of efficient service should be fit to elect her.

## Lee Ribble Has Been Barred as Rock Breeder in This County for 12 Years

Lee Ribble is one of the first in Foard County to get a license of the importance of the poultry business and commenced twelve years ago with the Roy McDonald in the Barred Rocks. From time to time she has made additions to her flock with new birds and has taken pride in keeping her flock up to high standard.

## A Large Hen Egg

Frank Gee brought to the News the largest hen egg we have ever seen. It measured 6 3/4 inches around the middle and weighed one-fourth of a pound. It was as large as two ordinary eggs.

Mr. and Mrs. Frank Long and Walter Long went to Tullia the first of the week where they visited the family of Jim Garrett. The trip was extended to Amarillo where an International truck was purchased for use by the Crews-Long Hardware Company.

## Bootleggers Caught At Truscott Thursday Night of Last Week

Deputy Sheriff Jim Chowing at Truscott was fortunate to hear a crash of automobiles Thursday night of last week when two machines made a collision near his house, according to reports, and going out to see what had happened soon surmised the trouble from the odor of bootleg liquor escaping from broken jars. Chowing evidently was not taken for an officer of the law at first and one of the party showed fight, but the deputy sheriff happened to have his gun handy and persuaded A. A. Danagan, the fellow in charge of the fire water that submission would be best for him and he took the man in charge. The other fellow managed to escape for the time but was later arrested at Electra.

The crash of automobiles happened when the liquor transporters met another car carrying three boys from Cottle County, one of them suffering severe wounds in the collision, when their car was plunged into. The names of the three boys were not learned.

Thirty-five gallon jars of white liquor and the same amount of red liquor were taken from the bootleggers' car and four jars were found to have been broken.

## Dog That Bit Child Was Not Mad, Says Telegram from Austin

When a dog belonging to some one in town passed by the home of Mr. and Mrs. Edgar Womack Saturday he plunged at their son, Stanley, who was playing in the yard and bit him on the leg. It was feared that the dog was affected with rabies and he was killed and his head sent to Austin to be examined for traces of the disease. After the suspense of two days a telegram came Monday stating that no traces of the disease were found. Mr. and Mrs. Womack intended to take no chances and would have gone immediately if the report had been different. They are relieved to know that they will not have to go to Austin.

## Proud That He Was First to Cast Vote For Street Paving

Henry Gribble called the News attention to the fact last week that he cast the first vote in the election for street paving and proudly points to his vote as the first one ever cast in Crowell for such improvements.

A thing like that may have little interest for the average reader now but 25 years from this day when Crowell is a little city of 20,000 people and when every important street in the city is paved and Henry will not be so young as he is now, it will be with a greater degree of pride that he will say "I was the first man ever to cast a vote for the paving of the streets of the beautiful little city we now have."

## GOOD CREEK NOTES (By Special Correspondent)

Grandpa Jones is very low. No hope is entertained for his recovery. His children are all at his bedside. Miss Rosa Lee McDaniel of Crowell visited Sunday School at Good Creek last Sunday.

The Good Creek baseball team has been organized and there will be a pie supper Thursday night, April 17 for its benefit.

Tremont Chatfield left Monday for Sanger, Texas, where he will work for his brother, Richard, this year.

Luther Dockins of Clayton attended Sunday School here Sunday and visited Jimmie Stephens.

Miss Allie Clayton of the Clayton community was taken to Knox City Friday where she was operated on for appendicitis. Her father and mother accompanied her. She is improving nicely.

Bert Hanks of Crowell was visiting his father here Sunday.

Verner Dunn of Chillicothe visited his parents, C. E. Dunn and wife Sunday.

## HOW ROAD FUNDS SHOULD BE SPENT AS VIEWED BY A CITIZEN

Mr. Editor: Some three weeks ago you had a short editorial about roads and taxation. I enjoyed the article very much but it did not go deep enough into the subject. Since we all use the roads and, since we are all taxed to build and maintain them, it should be of great interest to every one that this be done in the wisest and most economical manner possible.

The State Highway Department is soon to take over about 60 miles of the county highways. To me, it seems very important that we take stock of our roads and see where we are. At different times in the past, each of the four commissioners' precincts voted a special road and bridge tax of 15c on the \$100 valuation. This helped but did not build roads fast enough. In 1918 we had the opportunity of getting the F. F. Highway. Notwithstanding it was to come through the most sparsely settled part of the county, the commissioners court wisely accepted the idea. Outside of Federal and State aid this cost the county \$65,000.00. The money was raised by deficiency warrants against the county road and bridge fund. Out the Vivian way it cost \$46,000.00 and bears 5%. The Foard City way cost \$25,000.00 bearing 6%. The interest and \$5,000.00 of the principal to be paid each year, a total of \$8,500.00 a year, but each year the amount grows less. This amount just about equals the amount of the special road and bridge tax.

The necessity and demand for good roads grow so we voted a bond issue of \$150,000.00 to further improve roads. This was used to build the highway through Thalia on to the county line leading to Vernon, known as the Lee Highway to build the highway to Pease River, to build the highway to Margaret with an idea ultimately extending on to Chillicothe, to improve the Good Creek road, to improve the Ferguson settlement road and to bridge Wichita and Pease rivers. The two bridges cost the county \$15,700.00.

We now have some fine roads but we have some that reflect on the name to call them roads. Shall we build good roads for tourists to pass through and leave our other roads so that our home folks have to wallow in the mud?

Our principal use for road is to go to town, to haul wheat, to go to gin and to get our mail. In general the more traffic goes over a road the harder it is to keep in repair. In the county are seven rural mail routes and two star routes. The star routes are over highways and will be taken care of by the State Highway Department. The rural routes go out by the farms and some parts of most routes are little traveled except by the carrier.

## Orient Officials Stop Over at Depot for Few Minutes Talk

A special car was attached to the regular down train Friday carrying some of the Orient officials. During the short stop here these met a score or more of the citizens who had met the train, they having been informed that the officials were coming.

The tourists were, Wm. T. Kemper, receiver; Clifford Histed, recent purchaser; E. H. Shaffer, general manager; W. A. Rule, an investor in the road; A. J. Clary, supt. of freight; J. M. Rutherford, general agent and tax commissioner; and Clarence E. Gilmore, chairman of the Texas Railroad Commission.

Mr. Kemper made a few statements relative to the mission of the officials and introduced Mr. Gilmore who made some remarks relative to the Orient and said that all parties whom the road serves, as well as the Orient officials and the Texas Railroad Commission, are interested in keeping it in operation.

Mr. Gilmore said there was a time when the road had gone just about as far as it could. Things looked mighty bad and the future uncertain but conditions are now more encouraging and every effort of the officials of the road will be to make it the great trunk line Mr. Stilwell intended it to be when he promoted the proposition.

Mr. Gilmore thinks the road will some day be completed to the Pacific coast and will then become one of the great roads of the nation. It has been undergoing just such ordeals as have come to many other roads of the country.

Judging from its present volume of business one has a right to expect the Orient to get on its feet. We are told by employees of the road that business is gradually getting better. It is now handling lots of through freight.

## J. W. McCaskill's Father Died Sunday

J. W. McCaskill and family returned Wednesday from Rising Star where Mr. McCaskill had been at the bedside of his father for the last six weeks. The father died Sunday morning after a long illness.

Mr. McCaskill returned yesterday to Rising Star to straighten up his mother's affairs. She will make her home here with him.

The average man is honest, or at least he thinks he is.

precinct No. 2 there are four rural routes besides one which comes from Vernon. There is one each in the other precincts.

In precinct 2 there are two gins while none are in the other precincts except at Crowell and Thalia.

precinct 2 live nearly half the people and quite half the cars are in this precinct.

Precinct 2 has fewer miles of state highway but many more miles of county roads than any other precinct.

After the deficiency warrants have been allowed 25% of the available funds for roads in his precinct. After the highways have changed the conditions, is this a real just way of dividing the funds? The auto tax does not bring in very much but surely it should be retained in the precincts in which it originated.

I have not written this in a critical manner, not to try to reflect on any one, but to show why some commissioners have no funds while others have thousands of dollars. I am trying to show the need for a change in the division.

## Producer-to-Consumer Area Increased By Good Roads

Statistics of the use of good roads by farmers for direct marketing to consumers show the great advantages hard roads possess for the man who makes his living directly from the soil. It has been shown that the longest dairy route profitable over a good earth road is 15 miles for the round trip, while over a hard road the dairy farmer can operate profitably a route with a total length of 40 miles. This applies to every truck farmer, poultry raiser, and farmers in general with produce to sell direct to the consumer.

Moreover, the 15-mile trip over an earth road is only practicable part of the year, while the 40-mile route over the hard road is good all the time, regardless of the season.

With hard roads, all country producers of foodstuffs can make profitable daily trips to the city and back from a distance of 20 miles, creating a producer-to-consumer area with a radius of 20 miles around every city.

Not only the farmer connected with a direct market, but he who is connected by a hard road with a railroad shipping point, reaps steady profit from good highways. In many states it has often happened that fruit has been allowed to rot and fertile fields have gone uncultivated because impassable roads have made profitable sales out of the question. Good roads mean steady profits and constant demand for farm products at good prices.

## Fifteen Men Get Together and Plow Field of Sick Neighbor

Neighbors of John Thompson, who has been seriously ill with an attack of pneumonia, 15 in number with 60 head of work stock, gathered at his farm on Pease river Wednesday of this week and prepared his land for the spring crop. They also planted a patch of oats for hog pasture, completing the job by 3 o'clock in the afternoon.

The same thing was done for Charlie Hunter, who lives in that community, recently. Charlie had been kept from work in the field by serious illness in his home.

Messrs. Lambert, Lawson and Davis were here from Ravland Tuesday and they report conditions in good shape and that the corn acreage will likely be increased this spring over that of last year.

## Crowell and Quannah Tie, 3 and 3, in An Eleven Inning Game

In an exciting game played on the Quannah diamond last Friday afternoon, the Crowell high and Quannah high baseball teams battled to an eleven inning tie, score, 3 to 3.

The game early developed into a pitcher's battle between William Bell, Crowell pitcher, and the Quannah hurler, Coach Ramsey was at a disadvantage since his force had been depleted by illness until he had only nine available men.

In the second inning Quannah by a pair of scratch hits and an error managed to cross the plate three times. The Quannah fans became jubilant, but learned the lesson that "He who laughs last laughs best," for during the next six innings the Crowell men steadily but surely drew up, a score at a time, and in the 7th inning the score stood three to two, with Bell still hurling superlative baseball and showing no signs of weakening.

In the eighth inning Roberts came to bat, and after playing with the Quannah pitcher for two balls, slapped out a beautiful three bagger. Rader followed with a single, scoring the tying run.

The game ran for three more innings, and it appeared that Bell became better as the game progressed. With Ashford at the receiving end, the battery struck out three men in the tenth, and also struck out the last man up in the eleventh.

The game has produced a high spirit of competition between the two teams and it is anticipated that the return game, which will be played at Crowell at a later date, will be a good, exciting game.

## Vivian School Shows Interest in Club Work

County Agent Fred Rennels made a trip to Vivian Monday afternoon where he presented to the pupils facts relative to agricultural club work in the county and his talk was apparently received with a high degree of interest, both on the part of the teachers and the pupils.

Mr. Rennels explained that free trips are being offered by some of the business men of Crowell for the best work in the various lines of club work. Cards were distributed and a large number of pupils manifested an intention to enlist in the work.

The Vivian school is one of the best in the county. The work is being conducted under the efficient leadership of J. M. Sosebee, assisted by Mrs. E. L. Redwine and Miss Georgia Burk.

The school has one of the largest enrollments of any rural school in the county, there being 86 scholastics, with a high percentage of attendance. They are a live bunch of wide-awake boys and girls and are apparently doing splendid work.

We say the Vivian school is one of the best in the county. This is true from several standpoints. It has a good enrollment, the attendance is good, the teachers are efficient and the community seems to have the school spirit in a high degree. This is shown by the fact that they have an excellent building and they are improving and adding to it as their needs occur. Only last year they made additional room to the amount of \$1600. They have paid for this addition and have been able to reduce the special rate of taxation from \$1.00 on the hundred to 65 cents this year and will have plenty of money to run a school of eight and one-half months. They could easily maintain a nine months school and while the contract calls for only eight months they are running for the time above specified, or two weeks longer than the contract. A nine months term would carry them too far into the summer. So that their greatest difficulty in running nine months is in getting started in the fall early enough.

Bud Thompson is here from Clayton, N. M., having been brought here by the serious illness of his brother, John. He formerly lived here but has been living in New Mexico for the past seven years.

Mrs. C. C. Browning of Truscott, who had been in Mineral Wells for several weeks for her health, has returned home and orders the address of her paper changed from Mineral Wells to Truscott.

The world of business, like the world of social life, is so regulated that only by paying attention to the needs of our neighbors can we gain good for ourselves.

An army officer is making a drive for German children. Six years ago he was making a drive for their fathers. War's a queer thing.

People once thought that rumor abounded only in small towns, but this was before the United States senate turned grand jury.

Life is a great leveler. The idle rich work like slaves trying to keep servants and the idle poor work harder than that dodging work.

## ASPERMONT MAN KILLED WAS ONCE CROWELL RESIDENT

E. F. Gibson, who was shot and almost instantly killed near his home ten miles north of Aspermont Monday night, was at one time in business in Crowell with his brother, Charley Gibson. He is a brother to Mrs. E. L. Ribble of this place.

According to reports Gibson had gone to Mount Olive school house where a rehearsal of a play was being made for an entertainment soon to be put on. Several of the other citizens of the community were there. J. R. Billberry and one of his sons from Jayton came to the school house while the rehearsal was in progress and after Gibson had been located, Billberry charged Gibson with having been instrumental in the grand jury's getting a bill against him for making liquor, Gibson having served on the grand jury. Some words were passed between the men and Billberry is alleged to have cursed Gibson when the latter knocked him down. Billberry arose shooting and sent two bullets into Gibson's body, one passing entirely through. Gibson died within ten minutes after the shooting.

During the shooting it is reported that the engine of Billberry's car had been started and he immediately jumped into it after the shooting and went home, phoning the sheriff what he had done. The sheriff was soon at his house and took charge of the man.

As soon as the message came Mrs. E. L. Ribble, Mr. and Mrs. Paul Logan and Earle Logan all left for the Gibson home. Other relatives of Mrs. Gibson from Paducah also went.

Mr. Gibson leaves a wife but no children. His wife is the oldest child of Mrs. M. A. Logan of this city.

Mr. Gibson was a very highly respected citizen and a good man and his friends here regret the tragedy.

## Rifle Club Organized with Membership of One Hundred Ten

For some time there has been talk of organizing a Civilian Rifle Club in Crowell and last week while Major Claude A. Adams was in town for the purpose of installing a rifle range for the two units of National Guard located here, it was decided to organize a civilian club with the result that one hundred and ten men have signed up for membership in the civilian club which will be one of the largest in Texas.

Major Adams is at present the president of the Texas State Rifle Association, and it is only right and proper that Crowell, his home town, should have one of the largest and best rifle clubs in the state.

The Crowell club will be affiliated with the State and National Associations.

## Small Vote Recorded In Trustee Election

In the election Saturday in which three trustees were elected for the Crowell school the vote was light, there being only 37 votes cast. There should be more than 150 when the vote is full, but perhaps the light vote was somewhat due to the fact that this was the third election within the week and by the time the last one was held the people had become tired of voting or had forgotten it. The first one on Monday was the city election on paving, the second one Tuesday for aldermen and the third one Saturday for trustees. The vote in the City election Monday was heavy but the other two were light. The aldermen election, however, showed 50 votes to have been cast.

The trustees elected were H. E. Ferguson, B. F. Ellis and Dr. J. M. Hill, all three standing for re-election.

The two aldermen elected Tuesday were H. E. Ferguson and L. A. Andrews.

Jim Wallen and son, Allen, an another young man arrived last Friday from Los Angeles, Cal., making the trip in a Ford car. They are visiting Mr. Wallen's parents, Mr. and Mrs. G. W. Wallen, south of town. They report a fine trip, having come the southern route via El Paso.

Poise is that attribute which makes your silence seem dignified when a fellow shows that he is just plain ignorant.

# COOKING?

Discriminating housewives in Crowell and vicinity have found that it is easy to get up delicious meals with our foodstuffs.

They have also found that the expense is no greater.

This is the result of our policy of selling good groceries at the ordinary price of inferior grades.

It satisfies our customers and in that way pays us.

### Issued by Mayor of City

I, C. T. Schlagal, mayor of the City of Crowell, hereby designate as clean-up days, April 15th, 16th and 17th, 1924, and call upon the citizenship of the city to turn out in a body to make our town a cleaner, more beautiful and better place in which to live.

The city will be divided into districts as follows:

District No. 1. Beginning at a corner on Main street at John Allison's residence, taking everything east and north. Supervisors of this district are Mr. and Mrs. Jack Roberts.

District No. 2. Beginning at the corner on Main street at G. F. Elliott's residence and taking in everything west and north. Supervisors for this district will be Dr. and Mrs. Kincaid.

District No. 3 will be the business section of the city, including all property within the following boundaries: Beginning at the street running east and west in front of J. W. Allison's residence and extending west to the city line, east to the city line and south two blocks south of Swain's Garage. The city marshal will have charge of this district.

District No. 4 will be all property south of district No. 3. Supervisors for this district will be Mr. and Mrs. Duke Wallace.

The first day, Tuesday, April 15th, will be designated as general clean-up day, the two following days should be used for cleaning around individual property.

For those who do not feel able to have trash hauled away, the City will furnish transportation upon recommendation of the supervisors of each district.

## Is Your Wife Marooned During the Day?

Have you ever considered what is meant by the hundreds of cars parked in the business sections during working hours?

Most of them carried business men to work, leaving their wives and families at home, marooned because the family's one car is in daily use by the husband and father.

That is one reason why architects and builders now find that all suburban and many city homes must be provided with twin garages. The Chevrolet Utility Coupé with high-grade body makes an ideal extra car, especially in combination with a 5-passenger touring or sedan.

The wife finds it of every day utility for shopping, calling, taking the children to school in bad weather, etc.

Its price and upkeep are low yet the quality is high.

THE STATE OF TEXAS,  
To the Sheriff or any Constable of Foard County—Greeting:

You are hereby commanded to summon Gladys Bates by making publication of this citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your County if there be a newspaper published therein, but if not, then in any newspaper published in the 46th Judicial District; but if there be no newspaper published in said Judicial District then in a newspaper published in the nearest District to said 46th Judicial District, to appear at the next regular term of the District Court of Foard County, to be holden at the court house thereof, in Crowell, or the 1st Monday in May, A. D. 1924 the same being the 5th day of May, A. D. 1924, then and there to answer a petition filed in said court on the 10th day of April, A. D. 1924, in a suit, numbered on the docket of said Court No. 1190, wherein D. B. Traweck, is plaintiff, and J. L. Bates and Gladys Bates are defendants, and said petition alleging: Plaintiff represents to the court that on or about the 1st day of February, A. D. 1924, he was lawfully seized and possessed of the following land and premises situated in Foard County, Texas, holding and claiming the same in fee simple, to-wit:

Beginning at a point in the east boundary line of said section No. 87, certificate No. 632, block 44, H. & T. C. Ry. Co. survey, 575.47 varas north of its southeast corner, the northeast corner of tract of 100 acres in the name of D. B. Traweck, out of said section;

Thence north on the east boundary line of said section, 448.53 varas for the northeast corner of this tract;

Thence west 981 varas to the northeast corner of this tract;

Thence south 448.53 varas to northwest corner of said 100 acre tract for the southwest corner of this tract;

Thence east 984 varas to the place of beginning.

That he has held peaceable, continuous and adverse possession of said land by deed duly registered in the county clerk's office of Foard County, Texas, for more than three years prior to the filing of this suit, and is entitled to possession of said premises by virtue of the three year statute of limitation.

That on or about the 1st day of March, 1924, defendants unlawfully entered upon said premises and ejected plaintiff therefrom, and unlawfully withholds from him the possession thereof to his damage in the sum of Seven Hundred Fifty dollars.

Wherefore plaintiff prays judgment of the court, that the defendants be cited as provided by law to appear and answer this petition, and that plaintiff have judgment for the title and possession of said above described land and premises, and that writ of restitution issue, for costs of suit, and such other and further relief special and general, in law and equity that he may be justly entitled to.

Herein fail not, but have before said court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

Given under my hand and the seal of said court at office in Crowell, Texas, this, the 10th day of April, A. D. 1924.
