SUPPORT YOUR HOME TOWN

SWEET N' SOUR

By A. Dill

You know what they say — "If March comes in like a lamb it goes out like a lion"—that being the case look out for the thirty-first, for it surely was a lamb last Friday, wasn't it? A mild little lamb with spring sunshine in its fleece and purple filaree under hoof. Texas weather is probably the original schizophrenic, running the gamut from Arctic blasts to equatorial heat in less time than it takes to tell it.

Watch KRBC-TV Monday afternoon at 4:30 for the Baird Choral Club Mrs. Foy and her senior choir will be featured on the "What's New" program and we think they'll add a bright spot you won't want to miss.

Guess who was here to celebrate a birthday last month? Ruth Etherly and two of the youngsters, Kay and Linda came in from Midland to be with Mom 'n Dad, Bess and Lonnie Ray for that happy occasion and we add our best wishes to all of them.

Glen Green, our energetic County Agent, took two of his 4-H club boys to Houston last week end for the calf scramble at the Stock Show and Rodeo there. Youngsters who went along were Glen Shirley of Putnam and David Schaffrina of Adams. Alvis Dill made this trip for the pleasure of it and that's what they had most of (pleasure, we mean) and though they didn't win a calf, it was still a grand trip. Glen Green brought home some big news -- Pat Johnson, one of his 4-H girls from Eula, won grand champion with a turkey hen entered in the poultry division of the show. The bird brought \$1,500 and that's not chicken, 'er turkey feed in anyone's lingo. Pat has been an active 4-H clubber for some time and has exhibited in shows throughout the state. Right now she's a freshman at Hardin-Simmons and doing a good job of that too. We think congratulations are in order to an outstanding girl for outstanding work.

Here is a date to look forward to -- March 29th. That's the day set for the annual Home Talent show. Under the auspices of the Senior class and their sponsors, Mrs. W. Clyde White and Coach H. R. Jefferies, the show has grown in popularity until it is a highlight of the school year. This year there will be three divisions, Elementary, High School and Adult, with three places to be awarded in each class. The time is 8 p. m. in the Cafeteria.

Nice to see department -- Ray Black back at work after surgery and feeling fine again. Ditto department -- nice to welcome Tee Baulech back after illness. He's at work once more and in just about tip-top shape which just proves you can't keep a good guy down -- not for long, anyway.

It's also good news to know that Erle Hall is better after a fall from a step-ladder netted him some broken ribs and all the misery that goes along with it. Don't forget that Monday afternoon at 3:30 is M.F.T. Club time. Last month's meeting, which featured a panel discussion of school problems, is still being hailed as one of the outstanding programs of the club year. This month's meeting will also be one you're sure to enjoy.

Bruce O'Brien Bell celebrated a tenth birthday Sunday was a "boy" party (that means all boys with no girls allowed) that ended with a theatre trip for everyone. Yvonne Spelkutt, not to be out-done, had a "girl" party (with you-know-what not allowed) at her home Sunday afternoon, with ice cream and a big pink birthday cake to climax a wonderful day. Yvonne was ten, too, by the way.

Congratulations are in order for Ray, Davis Harrell and his wife, who have a fine baby son, born February 28th. Mr. and Mrs. Tee Baulech had visitors last week and some very welcome ones too -- Mr. and Mrs. J. T. Baulech of El Paso. That bright glow in the West isn't a newly discovered planet or one of our super-colossal sunsets, but the J. T. Lawrence family glowing with happiness over the prospect of seeing son Dr. Jim Tom Lawrence, Betty and the children, Julie and Mary Lynn, who have been gone two long years. Jim and his family

Soil Bank Land Eligible For ACP

Land which has been placed in the Soil Bank, either the Acreage Reserve or Conservation Reserve, is still eligible for Federal cost-sharing in carrying out practices under the Agricultural Conservation Program (ACP), Tom Prater, extension farm management specialist, reminded Texas farmers this week.

But, he said, applications for cost-sharing for conservation practices must be filed with the county ASC committee before any practice is undertaken. Too, the county committee is the best source of information on practices which have been approved for ACP cost-sharing in the county for this year. Approved practices vary by counties, therefore, checking with the county committee is very important.

Application are now being received for the 1957 ACP at most county offices. All applications for approved practices that are received in time for inclusion under this year's program will receive equal consideration, said Prater.

If ACP practices are carried out on land placed in the Soil Bank, the Soil Bank provisions of no grazing and no harvesting must, of course, be met. Some practices which are not eligible for assistance under the Conservation Reserve are eligible under ACP, and may be carried out on Conservation Reserve land if approved by the county ASC committee. Assistance, however, cannot be given under both programs for the same practice on the same acres.

The safe bet, said Prater, is to contact the local ASC committee and find out what is available for helping conserve and build up your farm land.

Texas Shows Increase In Crime Rate

Crime in Texas during 1956 gained 11.8 per cent over the preceding year, according to Col. Homer Garrison, Jr., director of the Texas Department of Public Safety. The increase was attributed mainly to urban areas where a 14.4 per cent increase in crime was shown during 1956 in comparison with the records for 1955. Rural area crimes were up only 2.6 per cent.

The figures compiled by the Department's Statistical Division and the Bureau of Identification and Records point out that crimes of violence against the person were down with actually a decrease in comparison with the preceding year. On a statewide basis, including urban and rural areas, murder and homicide was down 13.7 per cent, rape was down 11.1 per cent and aggravated assault was down 4.7 per cent.

On the other hand, burglary was up 13.5 per cent, theft was up 14.5 per cent and auto theft increased 11.3 per cent. The rural areas showed a crime decrease of all divisions except two -- theft with an increase of 9.2 per cent and burglary with an increase of 1.1 per cent over the preceding year. Urban areas were up in four divisions, but down in violence against the person.

Garrison said the crime rate for Texas compares favorably with that for the entire nation. "Compared with crime statistics for the first six months of 1956 given in the Uniform Crime Reports for the United States, crime in the entire nation was up 14.4 per cent. During that same period crime in Texas was up only 9.8 per cent. "If the national trend continues for the entire year of 1956 the crime rate will be up 18.3 per cent over 1955, making our 11.8 per cent increase in Texas look encouraging."

The state police director said hopes for lower crime rates in the future are good in that not only are we giving our children better training each year, but law enforcement is becoming more proficient and more closely knitted together in its operation on all levels.

During the candlelight ceremony, Wolf badges were presented to Larry Monroe, Steve Stanley, Tommy Bearden, Larry Towler and Billy Bollinger. Receiving Bear badges were Billy Seelig, Danny Steakley, Raymond O'Brian, Wallie Harris and Richie Crow. Wallie Harris also received a gold and silver arrow points.

Highlights and Sidelights on your State CAPITOL

AUSTIN — Bribery charges and counter charges have driven the insurance investigations out of Austin headlines.

It's at least temporary relief for the insurance companies -- who have been hurt by loose accounting methods within their industry.

Grabbing the spotlight from the insurance firms was a naturopathic doctor and a lone member of the Texas House of Representatives.

Dr. Howard Harmon of San Antonio hurled charges of "offering to accept a bribe" against Rep. James E. Cox of Conroe. Cox countered with a "offer-bribe" charge against Harmon.

Dr. Harmon produced a tape recording of an alleged conversation he had had with Cox.

A Travis County grand jury investigation resulted in indictments against Cox, charging him with "consenting to accept a bribe."

Cox's attorney announced a grand jury would be filed against Dr. Harmon.

Meanwhile, a House investigating committee checked into phases of the matter.

All in all, it was the fastest time seen around the Capitol many years.

Reorganization Bills — Two bills to reorganize the Insurance Commission have been introduced in the Legislature.

One, by Sen. William S. Fly of Cotulla, proposes a part-time policy-making board. Members could meet 24 days a year. Executive director would run the department.

A second, prepared at Gov. Dan Daniel's behest, was introduced by Rep. Marshall O. Hill of San Antonio. It would provide a full-time board limited to quasi-judicial functions and, like the Fly bill, a department director.

Senate Race — With filing deadline passed for the special S. Senate race, little has changed since the last such election in 1941.

Field is overflowing; rules in effect. Pool bill, which would require run-off if the top man lacked

a majority, was lying in state in the Senate. Even supporters said it looked dead.

In 1941, W. Lee O'Daniel was top man in a field of 21. This year the field is laden with almost the same number of contenders. One Republican and almost every conceivable type of Democrat are included.

Water Bill Passed — First water conservation bill to gain final passage would allow the Water Board to cancel unused water permits to cities.

Sen. Charles Herring of Austin protested the plan could take away water supplies cities need for growth. He attempted to amend the bill to limit cancellation to permits for which cities could not show prospective need.

McLarty Conviction Upheld — Brady Land Dealer J. T. McLarty apparently is to be the second man to go to the penitentiary for fraud in connection with the veterans land program.

McLarty's conviction was upheld in Court of Criminal Appeals. He was sentenced to four years for "falsely interpreting a written instrument" in selling a tract in a Zavala County block deal.

More Revenue Seen — Possibility of new taxes this session faded with advance reports of the comptroller's report of expected income.

Comptroller Robert S. Calvert's estimate of revenue for the next two years is expected to show \$99,000,000 more than was available this biennium.

This is \$49,000,000 more than the last official estimate in December. It is also well above the figure Governor Daniel set as necessary for present spending requirements.

Congressional Redistricting — A constitutional amendment to reapportion Texas Congressional districts after the 1960 census has been approved by the House.

Present districts are based on the 1930 census. Urban areas, like Houston and Dallas, have multiplied several-fold since.

New plan would turn the job over to a five-man board of state officials if the Legislature failed to act in 1961.

Princt Changes — Realign-

ment of precincts within counties, due to population changes also is a warm issue.

House constitutional amendments committee sent such a measure to subcommittee for more study.

Proponents contend that the growth of cities have given Texas 81 counties with 50 per cent or more of their population in one precinct. According to majority rule principal, cities should get more precincts, they argue.

Opponents, including the Farm Bureau, say it turn county government over to city cities. Rural evaluations would be raised and the money spent in the cities, they claim.

New Road Financing — Cities and counties having difficulty paying for right-of-way for state highways may get help through a 50-50 plan.

Governor Daniel said he has asked Atty. Gen. Will Wilson to draw up a bill to let the state pay half the cost of land for intermediate roads. Highway Commission also has recommended the plan.

At present cities and counties pay full cost of land for state highways; state pay construction costs.

State now buys all the land for federal interstate road systems. Federal funds underwrite 90 per cent of this.

Short Snorts — Sale of 52 tracts forfeited by veterans land purchasers is set for April 3. Land totals 3,932 acres, is located in 23 counties. Ten thousand veterans have made inquiries, said the Land Office. Value of livestock in Texas dropped \$100,000,000 last year from 1955, reports the U. S. Dept. of Agriculture. Drought forced decreases in herds brought estimated value to \$622,000,000.

Visitors in the Ernest McBride home Sunday were: Mrs. Ernest Covington, Ector; Mr. and Mrs. Edgar McBride and daughter of Abilene, Mr. and Mrs. H. D. McBride and family of Fort Worth, Mr. and Mrs. Spencer McBride and family of Dickens, Mr. and Mrs. L. L. Lewis and daughter of Big Spring, Mr. and Mrs. J. L. Box of Abilene.

Lillian, Lynda and Hulon Crawford and Alice Ann Collins visited in Ranger Sunday.

Among those we visited were my aunt, Mrs. Rosa Taylor, who had the misfortune of falling and breaking three ribs, then two weeks later was involved in a car wreck and got her shoulder thrown out of place. She is doing nicely now, considering her age, and believe she said she would be 80 years old in April. Others who we had the pleasure of visiting were Mr. and Mrs. Aaron Stiles and Mr. and Mrs. Albert Bradford.

Lowell Webb, of Arlington, visited his sister, Mrs. Paul Shanks and Mr. Shanks, Sunday.

Oplin Observations

By Daphne Floyd

The ladies of the Quilting Party met at the Community Center last Thursday for an all-day quilting. The day was an opportunity for the ladies, in a small way, to pay tribute to their friend, Mrs. Tommie Windham, by quilting a quilt for her blind sister, Mrs. Eula Townsend of Palmdale, California. Such a large group joined the quilting that two other quilts were also quilted, one each for Mrs. Laura Johnson and Mrs. W. R. Johnson. Eighteen ladies were served at lunch, which reminded one of a "dinner for an old time threshing crew." You know, just a good old country vittles, such as roast beef, meat loafs, salads, vegetables, pies, cakes and from there you name it. By the time lunch was finished, seven more women showed up, making a total of 25 percent.

SOIL CONSERVATION DISTRICT NEWS

DEFERRED GRAZING OF RANGELAND

By Thomas N. Shiflet
Deferred grazing is a range conservation practice that is gaining popularity with soil conservation district cooperators all over the state.

summer and fall rest which runs from June 1st until two weeks after frost, approximately. This period allows established warm season plants to become vigorous, produce seed crops and make additional growth for soil protection and winter grazing.

Spring deferment is another period used by many ranchers as a part of their conservation plans. This period extends from February 1st through July 1st. It is beneficial in allowing seedlings produced from previous year's seed to come up and become well established.

Fall and summer deferment from September to February is some times used to allow winter growing grasses to produce seed crops and produce top growth for soil protection and to allow choice summer growing grasses to make seed crops.

Conservation ranchers agree that deferment should start with the pasture that has the highest percent of desirable plants present. This pasture will improve the fastest and reach top condition in the shortest time.

A full year's deferment is quite often needed on ranges in extremely poor condition as many are due to the severe drought. The initial goal on these ranges is to provide cover and litter for soil protection to prevent excessive soil and water loss.

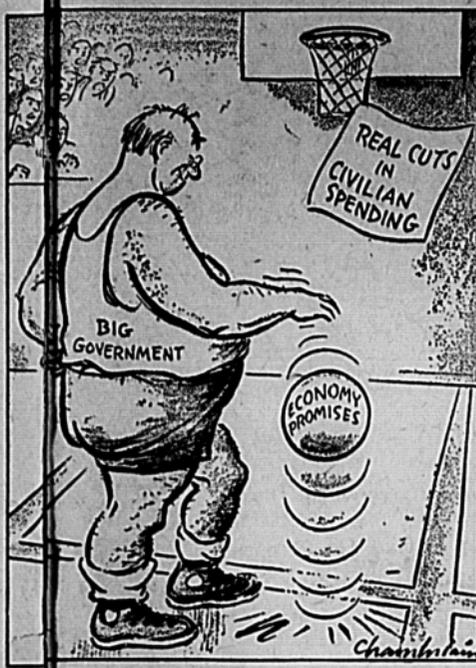

Some of the factors which indicate the need for deferred grazing are: important grasses and forbs are closely grazed and in poor vigor, bare ground present, litter needed for soil protection, soil is encrusted on the surface and less desirable plants being grazed excessively.

A large number of ranchers are making plans now to defer one or more pastures in 1957.

QUESTIONS AND ANSWERS
Q-I am a Korea veteran. Would I be permitted to study dressmaking in France under the Korean GI Bill?

A-The law prohibits it. The only foreign training allowed is college-level work, approved by VA, offered by accredited institutions of higher learning.

Q-I was injured on the job, and doctors tell me I am totally disabled. I hold a World War II GI insurance policy. May I stop paying premiums and retain my coverage?

A-No. You should continue paying your premiums. After you have been totally disabled for six months, apply to VA for a waiver of premiums. Continue to pay until VA informs you your waiver has been granted.

Q-Aim I supposed to notify my GI insurance beneficiaries if I want to make a change in my beneficiary list?

A-No. You need merely notify VA of your new list of beneficiaries. You need not notify the beneficiaries themselves.
