SPECIALS

Saturday

We are expecting Saturday to be another big day at this store. We will make every effort to have help enough to take care of the crowds, so come along and take advantage of the opportunity of buying some real specials here. These are items in the class of high-grade stuff, not second-class, we handle only the best. Our window will be filled with some real merchandise at money saving prices.

Then, vegetables, say boy, there is nothing to compare with ours in this part of the country. On Saturday morning the eye beholds a veritable bank of water-sprayed vegetables, such as lettuce, carrots, mustard greens, celery, beets, beans, green pepper, cabbage, new spuds, etc., as fresh and crisp as when taken from the gardens in California and South Texas. But don't wait until late in the day, they melt like a snow bank before the warm sunshine. Just get up from the breakfast table and call 172 for your Saturday and Sunday dinners, that is, if you can't come in person. It is better to come and make your selections, for the first to come are the first to be served, then, too, you will avoid the rush.

Watch for announcement of premium dishes to be given customers. We are going to have something for you which has not been offered before in Crowell. We are expecting arrival of these at any time and then we will tell you all about them. Get the habit of trading with us and be first in line for these when they are offered.

The Kerostat

AUTOMATIC OIL BROODER PERFECTED THERMOSTATIC CONTROL

Nothing but weather changes can effect the extraordinarily efficient automatic control. It acts in direct response to two brass thermostatic wafers which raise or lower the burner to adjust the height of the flame. And that is the point that puts Kerostat in a superior class by itself. After two years of careful experiment Makomb solved the problem of making this superior burner-raising principle automatic. It does away with cheap, unreliable needle valves which stick and clog. Nothing can equal it. Chicks cannot interfere with it. It is positive, simple, sturdy and dependable with moving parts armored by a sturdy steel shell. No better control can be found.

- Ten reasons why the MAKOMB BROODER is better: 1. Patented hand control. 2. Solid steel shell. 3. Patented thermostatic control. 4. New superior burner. 5. Handy floor bracket. 6. Convenient ventilator. 7. Asbestos insulation. 8. Heavy wire guard. 9. Efficient floor pan. 10. Brazed one piece oil line.

### Between Ferguson and Moody Predicted

ADON K. SHEARER Staff Correspondent

Texas, Feb. 26. (UP).—The race of the century in Texas promises to be waged this year between Dan Moody and Jim Ferguson against each other, with the third term as governor of the state at stake.

Extended all speculation on the course this week with his announcement of entry into the race but he made every effort to keep a prospective candidate from making a move to his position.

The legislature practical to a 50 cents-a-ton tax and fight for a dollar-a-ton submitted penitentiary law which the legislature passed with him three times, and a radio program to be going to the people.

Going to be a battle for the capital city. The political battle is necessary for each of them to win a run-off primary. It is the other numerous contests keep the race from being a contest of anti-Moodyites vs. Moodyites.

In strict use of the law and only one term and part of a second term, there must be Mrs. Ferguson's term. The third term aspiration would be successful, as no one has had three successive

### Fat Stock Show to Begin Next Month

Fort Worth, Texas, Feb. 26. (UP).—Almost 300 head of livestock will be used during the Rodeo which will be staged in connection with the Southwestern Exposition and Fat Stock Show which will be formally opened Friday night, March 7. This will not include the cowboys' and cowgirls' ponies which will be used in various contests. Including these animals the total figure mounts to more than 500.

Grand entries for all rodeos will be participated in by all contestants, judges, show officials and distinguished guests riding on horse back.

Sixty wild Brahma steers have been obtained for steer riding contests. Sixty ill tempered steers that have a mixture of the old long horn blood in their veins have been rounded up for bulldozing contests. Sixty range bred calves will be used in the calf roping. Then comes the string of 110 outlaw broncs. They will be shipped here in five special

### GAMBLEVILLE CLUB

The Gambleville home demonstration club met February 20, at the home of Mrs. J. F. Jonas.

House was called to order by the president, minutes were read and adopted. Nineteen members answered roll call. We had three visitors and one new member.

Our lesson was on Club Responsibility, and an interesting program followed after which we adjourned to meet at the home of Mrs. L. R. Morgan on March 6, 1930.—Reporter.

# THREE IMPORTANT FACTORS ENTER INTO THE COST OF YOUR AUTOMOBILE

1. How much it costs to make the car
2. How much extra you pay the dealer
3. How much it costs for operation and up-keep

**THE PURCHASE** of an automobile involves a considerable amount of money and it should be carefully considered from all angles before a final decision is made.

The value of the car to you depends on the value built into it at the factory, how much extra you pay the dealer for distribution, selling, financing and accessories and what it will cost to operate and maintain the car after purchase. Each of these factors, as it relates to the Ford car, is frankly explained below.

#### Economy in production

**THE FORD CAR** is made economically because of the efficiency of Ford production methods. The money saved through this efficiency is put back into the car in improved quality of material and in greater care and accuracy in manufacturing. The constant effort is to eliminate waste and find ways to make each part better and better without increasing cost—frequently at lowered cost.

Because of Ford economies in large production and because the Ford organization operates on a low-profit margin, the price you pay for the car is much less than it would be under any other conditions. Yet it brings you many unusual features of construction and performance.

At least \$75 extra value is represented alone by the Triplex shatter-proof glass windshield, the Rustless Steel, the four Houdaille double-acting hydraulic shock absorbers, and the five steel-spoke wheels. The unusually large number of ball and

roller bearings and the extensive use of fine steel forgings instead of castings or stampings are additional features that reflect the high quality built into every part of the car. Throughout, it is a value far above the price you pay.

#### Low dealer charges

**THE SAME PRINCIPLES** of efficiency and economy that characterize the manufacture of the Ford car are applied also to distribution. Obviously it would do the public little good to save in production if these savings were sacrificed later in excessive costs of selling, financing and accessories.

The Ford dealer, therefore, operates on the same low-profit margin as the Ford Motor Company, his discount or commission being the lowest of any automobile dealer. He does a good business because he makes a small profit on many sales instead of a large profit on fewer sales.

#### NOTE THESE LOW PRICES

Roadster . . .	\$435
Phaeton . . .	\$440
Coupe . . .	\$500
Two-window Fordor Sedan . . .	\$600
Three-window Fordor Sedan . . .	\$625
Cabriolet . . .	\$645
Town Sedan	\$670

(All prices f. o. b. Detroit)

Low charges for time payments through the Universal Credit Company

The lower cost of selling, combined with the low charges for financing and accessories, means a direct saving of at least \$50 to \$75 to every purchaser of a Ford, in addition to the savings made possible by economies in manufacturing. The money you pay for a Ford goes into value in the car. It is not wasted in high dealer charges.

#### Low up-keep costs

**IT IS IMPORTANT** to remember that the cost of your automobile is not the first cost only, but the total cost after months and years of service. Here again there is a decided saving when you buy a Ford.

The cost of operation and up-keep is lower because of simplicity of design, the high quality of material, and the reduction of friction and wear through unusual accuracy in manufacturing and assembling. The reliability and longer life of the car contribute to its low depreciation per year of use.

The intelligent, painstaking service rendered by Ford dealers is under close factory supervision and is a factor in the low up-keep cost of the Ford. All labor is billed at a flat rate and replacement parts are always available at low prices through Ford dealers in every section of the United States.

In two, three or five years, depending on how much you drive, the saving in operating and maintaining a new Ford will amount to even more than the saving on the first cost of the car.

## FORD MOTOR COMPANY

General R. L. Bobbitt, a likely candidate for governor can now be taken upon as having decided to resign his official position on the 28th of March. His friends say he has told him that is his intention. Further confirmation that this is so is seen in the announced resignation of First Attorney General Gallo. So long as Bobbitt is entering the governor's race, Calhoun kept himself in line as a candidate for attorney general by resigning his position of first assistant. Contrary to belief first expressed by his friends at Austin, Calhoun is not going to run for attorney general.

"I would not run against Bobbitt," said. Upon his resignation taking effect March 1, he will return to private law practice at Tyler.

The resignation was not being announced officially and Austin is having a good laugh over how it became public. A social item in an Austin paper announced a farewell dinner being given for Mrs. Calhoun, who has been highly popular in Austin. The wife of a newspaper writer read in the society items, commented on it to her husband and the story came out. Both Calhoun and the attorney general looked surprised when they saw it in print.

Getting back to the probabilities of the gubernatorial race, it is interesting to note that the Hogg brothers, recent supporters of Governor Dan Moody in his first race, appear likely to be with him again.

This although there was a virtual split between Steve Pinckney, general secretary for Will Hogg and Governor Moody over the Beaumont convention and selection of the Texas delegations to the National Democratic convention.

Will Hogg, delivering his first executive speech in the house of representatives for a full dollar sulphur, displayed such feeling that at last he was obliged to halt in his speech. If the bill fails to pass at this special session and Moody is elected to see Hogg ardently supports Moody. Especially as it was Hogg, who as one of the Texas delegates, fought against Ferguson.

### Orgatone Is Very Fine

Hope of Breckenridge Says That She Has Completely Relieved Her Digestive Troubles

I have been bothered by digestive troubles for about a year, but Orgatone entirely relieving my ailments," said Mrs. Charles Cope, wife of a well-known farmer who lives on a farm near Breckenridge, Texas, while taking a course of Orgatone.

"I had a bad taste in my mouth in the morning when I got up," continued Mrs. Cope. "I was often inclined to be bilious and had a burning in my stomach and throat. I frequently had palpitation of the heart caused by gas on my stomach and some trouble with constipation."

As I saw in the paper where so many people were finding relief for their troubles through Orgatone that I bought a bottle and after taking only a few bottles I am more than pleased with it. I have no more trouble with burning sensation in my stomach, the bad taste in my mouth is entirely gone. I am not bothered with gas on my stomach and my heart is not palpitate as it did. The constipation is entirely relieved. I think Orgatone is fine, and I'm glad to tell others about it."

Genuine Orgatone may be obtained at the Reeder Drug Store, Crowell, Tex. (Adv.)

**Senator In Favor of Purging Project**

Dallas, Texas, Feb. 25. (UP).—E. G. Senter, gubernatorial candidate on the Democratic ticket, takes occasion in the already increasing heat of political fervor to set forth his views on prohibition. From these views a plank in his platform may be clearly pictured. He also proposes a specific test to which he would have all candidates in the race subjected as a means of determining their moral standards.

"No man should sit in the executive office who is, or has ever been, a drunkard or gambler or libertine," Senter declared. "I will go further and say that no man should go there who has not been consistently clean in all his personal habits which relate to decency and sobriety."

"In order that the public may get the facts beyond dispute I propose that Bishop Sam R. Hay of the Methodist church, Dr. J. Frank Norris, pastor of the First Baptist church of Fort Worth and Mrs. Claude De Van Warts, president of the Women's Christian Temperance Union, shall name a committee of three who will make careful inquiry touching the private lives of the several candidates for governor, ascertain their habits as to gambling, drinking and other common vices, and publish their reports. If it shall be found that either of the candidates while engaged in public service has ever been fined for gambling or drinking in a public place, or that he has not always led a scrupulously clean and consistent life from the standpoint of morals, he will, upon the finding of this committee, promptly withdraw from the race."

**Republicans Will Favor Own Men**

Dallas, Texas, Feb. 26. (UP).—While Texas Republicans have invited all dissatisfied Democrats to join their ranks, they will restrict selection of candidates in coming elections strictly to staunch representatives of their own party.

This sentiment was gathered at random from public talks and private expression during a recent convocation of G. O. P. leaders here.

Chances of victory over solid Democrats appeared better to many Republican leaders with an out-and-out Republican as a gubernatorial candidate than with a Hooverer in the light of Texas political history.

R. B. Creager, national Republican committeeman, expressed the opinion that "Republicans have devoted their efforts in recent years not only to taking advantage of disruption in Democratic ranks, but to making their party to the liking of Democrats."

"We have been continually driving wedges into the Democratic ranks the last eight years, and in 1928 we split them from top to boot," Creager declared. "There is much bitter feeling between Democratic leaders that they will never get together."

**SPENDING OUR DOLLARS.**

Most Americans are convinced of the fact that it is better to buy American made goods than those made in foreign countries, where American made products can be obtained, and it is well to remember that it is equally as sound business sense to buy in one's home town, rather than in some nearby metropolis, when the goods can be had at home.

For just as we want to make and keep America the most prosperous nation in the world, so we should desire to keep our own community prosperous and progressive.

It is the home business and professional man who helps to keep the community going. He pays his share of local taxes which go to keep up schools and hospitals and to make public improvements, and every dollar spent at home increases business and consequently the public as well as the commercial revenue of the city.

No one ever saw a clean, progressive, happy community which did not have active, prosperous and healthy business institutions. It is the town with the best business which has the best schools, the best hospitals and the most modern improvement.

No agency for promoting these progressive conditions than the home newspaper. It is constantly urging its readers to spend their money at home and so build up its community in which all its readers must live. It practices what it preaches and refuses to accept advertisements of competing business in other communities. Therefore it is necessary to keep up the local newspaper if we are to have the right kind of progressive and prosperous American communities.

**INCOMPLETE DEVELOPMENT**

One of the outstanding developments of recent years is the almost phenomenal growth of the electrical industry, which many regard as being still in its infancy. Thomas A. Edison recently declared that "the electrical growth of America has only well begun," and added:

"So long as there remains a single task being done by men or women which electrically could do as well, so long will electrical development be incomplete."

cities and towns with a population of 1,000 and over, as well as a large percentage of smaller communities, it is evident that future expansion of the industry will lead to its extension to the rural districts, and a good start in that direction has already been made.

A high official in the industry recently stated that in the last three years 105,000 farms have been supplied with electrical service, an increase of 186 per cent in the number of farms so supplied. The South has been a leader in this movement, particularly the state of Alabama, according to the same authority, but the development is not confined to any one section, being practically

nation-wide in extent. Agricultural colleges, power companies and the farmers are cooperating in many states in working out plans for rural electrification and putting those plans into effect. The ultimate result will be relief from much of the drudgery which heretofore has been inseparable from farm life.

**SEABOARD CITIES TO HAVE NATURAL GAS**

Field work on a project that will put natural gas from the West Virginia wells into Atlantic Seaboard cities has been started and the initial investment will be \$40,000,000 in providing the framework for the vast system that is contemplated. Kentucky gas is to be piped to Virginia cities.

**How Big Is Your Town?**

POPULATION figures have lost their significance as a measurement of the importance of communities. Today, towns are valued not so much by the number of inhabitants they house but rather by the productive power of the community as a whole. The productivity of a community is largely determined by the available power supply.

On this basis, the communities in the territory served by this company may compete favorably with the large metropolitan centers, for these communities today are equipped with improved transportation facilities and an ample and economical electric power supply.

Interconnection of the electric generating and transmitting equipment of this company provides a broad, ample pool of power for industrial, commercial and domestic use. On the firm base of this power pool the future growth and development of these communities is based.

Rotary's 25th Birthday  
Observed by Club Here

Rotary's 25th birthday was com-  
memorated at luncheon of the local  
club Wednesday. John Rasor was in  
charge of the program and opened  
the program with a talk on the history  
of the local club and of Rotary in  
Texas. Mack Boswell gave a history  
of Rotary International.

It was brought out that the first  
Rotary Club in Texas was formed in  
Dallas in 1911 and there are now  
about 160 Rotary Clubs in Texas.  
The first Rotary Club was formed on  
February 23, 1905, in Chicago. Since  
then Rotary has spread to such an  
extent that fifty-five nations now  
have Rotary Clubs. There are now  
3,281 Rotary Clubs with over 150,000  
members.

Various facts concerning Rotary  
Clubs were reviewed by the speakers,  
C. F. Mock and E. L. Hensley, of  
Altus, Oklahoma, and Fred Allen of  
Quanah were visitors at the lunch-  
eon.

Christian Men's Class  
Held Party Tues. Night

Twenty men were present at a  
party at the home of E. W. Burrow,  
east of Crowell, Tuesday night, that  
was given for the Everyman's class  
of the Christian Church.

A number of games were enjoyed  
after which a business session was  
held. Plans for increasing the class  
and helping the church were also dis-  
cussed.

Following the business session re-  
freshments were served to A. T.  
Schoolley, Eli Smith, F. H. Crews,  
John Long, C. R. Dobbs, Roy John-  
son, Edgar Womack, Glynn Shults,  
Jim Cook, Jim Cates, Frank Hill, W.  
D. Morgan, Rev. John G. Clark, F.  
A. Davis, C. V. Allen, Teddy Bur-  
row, Joe Ward, Grady Walker and  
the host, E. W. Burrow.

The next meeting will be held on  
March 25th at the home of Edgar  
Womack, at which time the men are  
to bring their wives.

Many Vernon Rebekahs  
Here Last Friday Night

A large number of Vernon Rebe-  
kahs were here Friday night for the  
purpose of performing the initiation  
degree in connection with the initia-  
tion of Jimmy Ashford into the  
Crowell lodge. The performance  
was given by members of the Vernon  
Rebekah degree staff in connection  
with the joint meeting of the two  
lodges. Refreshments were served  
to about 50 members of the two  
lodges.

Those present from Vernon were:  
Misses Mary Coleman, Ethel McKin-  
ley, Rosalyn Coleman, Mary Love,  
Annie Lacy, Mary Tom Lamar, Ruth  
Livingston, Opal Thomas, Opal  
Lewis, and Mrs. O. R. Key, Mrs. O.

Mrs. J. E. Burton, Mrs. W. A. Lar-  
more, Mrs. Elves, Mr. and Mrs. B.  
H. Lewis, J. A. Carney, and Aubrey  
Fowler, S. A. Hambleton of Weath-  
erford was also present at the  
meeting.

**LARGE ORANGE**  
Lee Allen Beverly exhibited an  
orange, sixteen inches in circumfer-  
ence, at the News office Monday. He  
stated that he received a dozen  
oranges, just like the one he had  
with him, from his brother-in-law, C.  
E. Hutchinson of Covina, California.  
Mr. Hutchinson is a former resident  
of this city and is now manager of  
the Irwindale Citrus Association at  
Covina.

AYERSVILLE CLUB

The Ayersville Home Demonstra-  
tion Club met on February 20, in the  
home of Mrs. J. L. Short.

After the regular business session  
of the meeting Miss Freeman gave  
an interesting exhibit and talks on  
pictures appropriate for various  
rooms.

Delicious refreshments consisting  
of cheese sandwiches, angel food  
cake, hot chocolate and divinity  
candy were served to 9 members, one  
visitor, Mrs. John Ray of Rayland,  
and Miss Virginia Freeman.

The meeting adjourned to meet  
with Mrs. Dave Shultz on March 6,  
with Mrs. Rose Ayers as leader.—Re-  
porter.

NOTICE

There are a number of complaints  
coming to me about chickens running  
loose in Crowell and causing damage  
to neighbors' flower beds, etc. There  
is a city ordinance requiring that all  
chickens within the city limits be  
kept up by their owners. This or-  
dinance is to be rigidly enforced and  
fair warning is given to all owners  
of chickens to keep them properly  
fenced in.

Thank you for the immediate and tremendous response  
to our challenge, on the introduction of Conoco Germ-

Regular Customers as well as the many thousands of new  
users who have flocked to the Red Triangle stations, until  
it has kept all of us on the jump to drain and refill crank  
cases with this remarkable motor lubricant. Because of  
unprecedented demands for Conoco Germ-Processed  
Motor Oil, it has been difficult for our refineries to keep  
all our stations adequately supplied, but now stocks are  
moving faster and you can depend on quick and efficient  
service at any station displaying the Conoco Red Triangle.

Conoco challenged the oil  
world last November with the  
revolutionary new Germ-  
Processed Motor Oil. Definitely  
the first fundamentally better  
oil of the century, this oil is  
now smashing all sales rec-  
ords. No reasonable person  
will use any other oil once he  
has heard the story of this new  
oil and its "Penetrative Lu-

is important but--

WHAT ABOUT YOUR HEALTH?

At the first signs of Spring, your attention is turned to your garden, but at the same time your health should be the major thing for you to think of. The condition of your health generally depends upon the condition of your blood. Poor or impoverished blood is oftentimes outwardly manifested by minor skin eruptions and blemishes. When the blood is impure you are open to the attacks and ravages of disease. At the first sign of poor blood commence using

**Cruel Neuritis Finds Its Foe In New Konjola**

Happy Lady Enthusiastic In Praise Of Famed New Medicine

"No words can describe what this great medicine, Konjola, has done for me," said Mrs. Harry A. Unrath, 914 Lark Avenue, St. Louis. "Five bottles of this marvelous remedy put an end to a case of neuritis that I had despaired of ever shaking off. The pain settled in my forearm and

fingers and for days at a time I was helpless from the frightful agony and could not move my hands. My kidneys were weak and added to my intolerable misery.

"The first bottle of Konjola indicated what could be expected. I continued the treatment for five weeks and my health troubles, were at an end. Every vestige of pain had left my arms and fingers, there is no swelling and no stiffness in either. My kidneys responded weeks before and no back pains or dizziness occur. It is difficult, even now, to realize that one medicine could do all that Konjola did for me."

Konjola is sold in Crowell at Ferguson Bros. drug store, and by all the best druggists in all towns throughout this entire section. (Adv.)

**NEW AIR MAIL LINE**

Brownsville, Tex., Feb. 25. (UP).—New air mail connections have been established between the United States and the Canal Zone, this city being the international connecting link.

A tri-weekly service will be maintained on Tuesdays, Thursdays and Saturdays. Mail sent from the Canal Zone is scheduled to leave San Salvador and Guatemala on the afternoon of the third day, and arrive here on the afternoon of the fourth day from Cristobal.

The rate of postage to all destinations will be 20 cents for each half ounce or fraction thereof. This service brings the entire United States nearer in point of time to the Canal Zone, as a daily schedule of mail and passenger planes is maintained north from here.

A customs duty of 33 1-3 percent has been imposed on talking picture equipment coming into the Free State of Ireland.

**TEXON TALES**

Dietering is just a matter of form. There was a fellow wrote a letter trying to get a job in the post office. He says I am thirty three years old, have had some experience in that line of work, am married but considered intelligent.

Prof. Jesse Davis asked some of his pupils to make a sentence using the word butterfly. That is he asked one boy anyway as he says, "My cat got on the table and sure did make the butterfly fly." Now this kid says Prof. is goofy for he told them one day four and one was five and the very next day he contradicted himself and claims three and two is five.

A bird here claims the reason he don't never play polo is because if he had a horse good enough for polo he wouldn't abuse him that way. He thinks you have to have a good horse. Well, some people are that way but we know you don't have to have good horses. These ranchers around here bring in all their old spoiled horses so we buy them for polo and doctor them for leas and other diseases and just go right ahead playing. If we don't play polo it is something similar anyway and we can't be worried about the difference. Some of the boys feed their horses a long time and then kill them to make overcoats outta their hides. Your pet filly's hide makes a nice overcoat and then if his name was Julie why you can call your overcoats the same thing, gives it an added value you probably hadn't thought of at first. Why not start a fad of polo horse overcoats and help the horse business.

Could you use more money? Would

you like to double your present salary? If you will fold your bills as you put them in your purse you will find, when you take it out, it increases. You can double your money when you put it in your purse.

We made some quick money the other day. It was like this: A guy has been owing me five dollars for two years and he offered to match me to see whether he paid me double or nothing. Well, I figured he never did aim to pay me anyway so I just up and matched him so he now owes me ten dollars.

Well, if you aim to play polo you gotta learn to hit the ball.

# SOCIETY

### ADELPHIAN CLUB

Members of the Adelpian Club met February 19, at the home of Mrs. J. E. Harwell with Mrs. A. F. McMillan as hostess. Mrs. E. D. Oswald led the lesson, "Modern Tendencies in Biography." The modern biographers are no longer content to set down merely dates, pedigrees, leaders, movements and party creeds but they select facts of such a nature as to build up a character, precisely as a novelist invents or observes words and deeds to build up a hero of fiction. Two good examples of the modern biography were discussed by appointed members. They were "George Washington," by Woodard,

and "Disraeli," by Andre Maurois. Lovely refreshments with George Washington favors were served to club members.—Reporter.

### COLUMBIAN CLUB

Mrs. John Hunter was hostess to the Columbian Club at the home of Mrs. Jack Roberts, Wednesday, February 19. About twenty members answered roll call with current events.

This was the date for annual book review, with Mrs. T. B. Klepper as leader. Besides Mrs. Klepper others who took part on program were Mesdames Ray, Bell, Rosenthal and Brian, each one taking a late popular book and telling something of the author and a resume of the story.

Mrs. Alton Bell very interestingly told of "Scarlet Sister Mary," by Julia Peterkin. This book won the 1930 Pulitzer Prize. "Love Tree," by Harry Leon Wil-

son was given by Mrs. Sam Rosenthal. "The King's Henchman," by Edna St. Vincent Millay, was given by Mrs. Jack Brian and "Rachel of the Frontier," by Gerald M. Johnson was given by Mrs. John Ray.

Mrs. Klepper took "Grandmother Brown's Hundred Years," by Harriet Conner Brown, as a subject for her discussion.

Following this excellent program Mrs. Hunter served a delicious refreshment plate to the members and Miss Irene Hunter and Mrs. John G. Clark as guests.—Contributed.

### MARTHA WASHINGTON RECEPTION GIVEN AT MRS. HINES SAT.

The County Federation was hostess to the ladies of Foard County at a most delightful reception at the home of Mrs. Mark Henry on Saturday, February 22nd. The reception suite was tastefully decorated with flags and bunting.

The guests were greeted at the door by Miss Virginia Freeman as Columbia, who presented Mrs. Henry as Martha Washington who, in turn, presented Mrs. Ray, the president of the federation, who presented Nellie Custis. The back table was presided over by Mesdames W. B. Johnson and Roy C. Steele. Mesdames George Burruss, J. A. Johnson and M. C. Adkins directed the guests in the hall and bedrooms where wraps were disposed of. Miss Emily Purcell, at the door of the living room, presented the guests to Mrs. L. A. Andrews who introduced them to Betsy Ross, represented by Miss Lottie Woods. A flag draped picture of Washington guarded by a miniature Uncle Sam served as a background for Betsy and her flag. She told the story of the flag and led in singing "Columbia, the Gem of the Ocean." Mrs. Tom Russell played patriotic numbers on the Victrola while the guests were assembling in this room.

Mesdames D. B. Miller and Bert Self greeted the guests in the library which was made colorful by a large picture of the shield of the U. S. grouped with flags. The historical story of the shield was told in a very impressive manner by Mrs. Self. Mrs. Miller ushered the guests into the drawing room where the following program was given:

Piano—Mrs. Arnold Rucker. Reading—Mrs. J. H. Lanier, Jr. Vocal Solo—The Star Spangled Banner. Mrs. Adolphus Wright. Talk on Mt. Vernon—Mrs. Morris. Piano Solo—Mrs. S. H. Crews. Vocal Solo—"Love's Old Sweet Song," Mrs. Wright.

Reading—Mrs. Melvin Moore. Vocal Solo, "When You and I were Young Maggie," Mrs. Jimmy Doolen. Pianolog—Mrs. W. B. Johnson. Vocal Solo—"Juanita," Miss Carrie Maurice Allee.

Mesdames H. Schindler and George Self, in the dining room, displayed the books presented by the Mother's Club of Crowell. This club very generously presented their entire library to the county library. It consists of about 800 worth of juvenile literature.

Punch was served in the breakfast room which was given a patriotic atmosphere by tastefully arranged flags and bunting. Mesdames J. H. Lanier, Sr., L. A. Beverly, and S. S. Bell presided at the table. Tiny American flags were given as favors.

The patriotic decorations and the colonial costumes and powdered hair of the house party gave one the impression that time had indeed turned backward and we were living in Revolutionary Days again.

Over one hundred books were added to our library besides a silver offering of several dollars.—Contributed.

### BIRTHDAY PARTY

Celebrating the 7th birthday of her son, Ted, Mrs. E. M. Crosnoe entertained with a party for his little friends last Monday afternoon. Games were played in the home and on the lawn and readings and songs were given. Ted received nice birthday presents. Refreshments of pink ice cream and the birthday cake were served to the following children: Joyce White, Frances Henry Johnson, Margaret Claire Shirley, Margaret Long, Thelma Lois Moore, Mary Helen Ross, Thelma La Verna Wright, Joe Mark Magee, Charlie Thompson, Jr., J. M. Hill Jr., Jimmie Williams, Charles Stuart Clark, Joe Wallace Beverly, George Thomas Burruss, Billie Newton Klepper, Edwin Edgin, Charles Nelson, John Clark Long, Clark Rennels, Joe Reavis Spencer, Tom Alton Andrews and Ted. Plate favors were little red, white and blue hatchets.

M. E. MISSIONARY SOCIETY

Mesdames C. V. Van Orman, C. E. McGowan and Miss Emily Purcell were hostesses to the members of the Methodist Missionary Society Jan. 27, at 3 p. m. Mrs. Sam Bell was leader for the afternoon and a very interesting program was given concerning the finances of the Missionary work. February 24th at 3 p. m., the society met in the home of Mrs. M. S. Henry with Mesdames J. F. Doolen and J. H. Lanier assistant hostesses. An interesting and instructive program in regard to the work of the foreign communities of some of the larger cities was given under the leadership of Mrs. George Self. During the business session it was voted to change time of meeting from 3 to 4 o'clock. Mrs. Doolen conducted an interesting contest during the social hour. We were glad to have Mrs. R. C. Campbell of Pampa as a guest.—Pub. Supt.

### FOARD CITY CLUB

Foard City Home Demonstration Club met February 18, at the home

of Mrs. J. L. Farrar with 18 members, 8 visitors and 2 new members present. Mrs. Borchardt was our leader for the afternoon. Her subject was Club Responsibility.

Mrs. Farrar, assisted by Mrs. McLain, served pie and coffee.

The meeting adjourned to meet with Mrs. E. V. Halbert on March 4, with Mrs. Mel Gover as leader.—Reporter.

### CROWELL P. T. A. MEETS

The Crowell P. T. A. met Tuesday afternoon, February 18th. The meeting was called to order by the president, Mrs. L. A. Beverly. The nominating committee presented the following report for officers and chairmen for next year: Mrs. L. A. Beverly, president; Mrs. John McAnear, vice-president; Mrs. W. O. Clary, treasurer; Mrs. T. B. Klepper, reporter. Committee chairmen are as follows: program, Mrs. L. A. Andrews; finance, Mrs. T. P. Reeder; membership, Miss Thelma Shaw; publicity, Mrs. T. B. Klepper; hospitality and social, Mrs. Otis Ross; hygiene and health, Mrs. Hines Clark; magazine, Mrs. N. J. Roberts; room sponsors, Mrs. Frank Fleisher.

This report was accepted and the officers were duly elected with the exception of Mrs. Beverly who felt that she could not serve another year. Another president will be elected at the next regular meeting. Mrs. Frank Fleisher was appointed Life Membership Chairman to serve the remainder of this year.

Mrs. Hines Clark led the program for the afternoon beginning with the message from the State President concerning "Founders Day." Mrs. Clint White gave a few facts from the life of Mrs. Birney, the woman who founded the P. T. A. in 1897. Mrs. N. J. Roberts talked of "American Ideals," and Miss Patterson told "Why Patriotism should be taught to our children," after which refreshments were served by the mothers and teachers of the fifth grade.—Reporter.

# SPLINTERS

Published in the interest of the people of Crowell and vicinity by the Cicero Smith Lumber Co. R. J. ROBERTS, Manager.

The City Lake will be open for fishing Friday, March 1st, and we know of two or three who will be there to try their hand at taking some of the big "boys." It is understood by good authority, that Jack Brian has already got a supply of minnows on hand and will try and be out to the lake before all the big ones are taken. It is further learned that Jack has been practicing on how to make a noise like a worm thinking perhaps this would help to attract the attention of the finny tribe.

Plenty of two by four, two by six and two by eight for eaves, double trees and the like. This stock is in hickory and oak. Planter and wagon tongues both in pine and oak.

Do not forget that Gator Hide Mulch Paper will help you raise a good garden by holding the moisture in the ground and keeping the weeds down. There are lots of uses for Mulch Paper, come in and let us tell you more about it.

"Why do married men live longer than single men?" "Oh, they don't. It just seems longer."

**REMOVE BAN FROM DOUBLE-BUBBLE GUM**

There were a lot of aching jaws in the City Health Department Wednesday. But all was well. And Dr. Harold J. Knapp, chief of the Bureau of Food Inspection, gave "Dubble Bubble" gum a clean bill of health and revoked his previous order suspending its sale. Laboratory tests failed to discover any harmful substance in the gum, and what Dr. Knapp called "organophilic" tests substantiated the analysis. The so-called organophilic test consisted of chewing the gum population of the lower floors of the City Hall participated. Dr. Knapp's own office force chewed and chewed and chewed. And there were no ill results except weariness.

## \$500 REWARD

It has come to our attention that unscrupulous persons are spreading false and malicious rumors to the effect that our DUBBLE BUBBLE CHEWING GUM contains harmful and injurious ingredients.

We hereby offer \$500 reward to anyone furnishing information causing the arrest and conviction of any person or persons circulating such rumors.

As responsible makers of high-grade chewing gum for over 15 years, we resent these malicious stories.
